#### SPECIFICATIONS & OPTION PRICING FOR SINS LISTED ON TABLES OF ABOVE ARE AS FOLLOWS:

#### NOTE: (TRAILER MODEL NUMBER KEY):

PRODUCT NUMBER DESCRIPTIONS FOR TABLE 1 EXPAMPLE - GTBN553-51-24-GG

GT'=GLOBE TRAILERS

NEXT 2 LETTERS (i.e. 'BN') = TYPE OF TRAILER ('TU'=TAG ALONG, 'BN'=LOWBOY, 'DD'=DUMP TRAILERS, ETC.)

NEXT 1, 2, OR 3 NUMBERS (i.e '55') = TONNAGE OF TRAILER

NEXT 1 OR 2 NUMBERS (i.e. '3') = NUMBER OF AXLES

NEXT 1, 2, OR 3 NUMBERS (i.e. '51') = OVERALL LENGHT OF TRAILER

NEXT 1 OR 2 NUMBERS (i.e. '24')= DECK LENGTH

NEXT SET OF ANY LETTERS FOLLOWING ARE CATEGORY OF TRAILER IN THAT SPECIFIC TYPE OR ADD ON ITEMS

FOR EXAMPLE 'GG' IS THE MIDDLE CLASS LOWBOY AND COULD BE FOLLOWED BY 'HT' IF CUSTOMER ADDS A

HYRDAULIC TAIL ON BACK.

MODEL NUMBERS ARE SUBJECT TO CHANGE WITH CERTAIN ADD ON FEATURES.

FOR EXAMPLE, IF CUSTOMER ADDS 2' OF DECK LENGTH TO A STANDARD MODEL GTBN553-51-24-GG, THE

MODEL WOULD CHANGE TO "GTBN553-53-26 -GG"

All weights & dimensions are nominal. Weights are within 3% of specified weight for standard model trailers.

Non-standard models plant will provide drawing and weight after order is recieved and accepted.

## Special Military Trailers/M-Series Commercial Equivalent Trailers

**See Following Pages** 

## 40-TON MECHANICAL FOLDING NECK TRAILER (MHET)

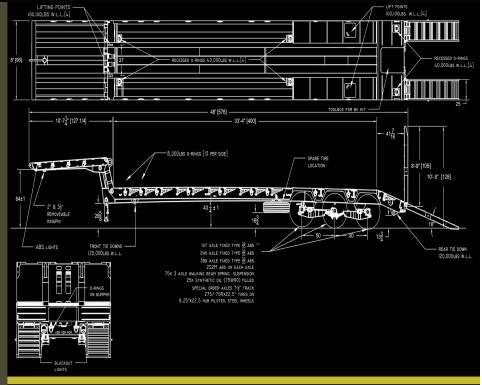

#### General Description:

This specification is for a Globe Model GTFL403-48-36, Tri-Axle, mechanical folding neck semitrailer (MHET). This trailer is for tactical use on paved roads, secondary roads, trails, and rough trails under worldwide climatic conditions in military environments.

The trailer is designed to transport Engineer Construction Equipment (ECE), tracked and wheeled vehicles. This vehicle is compatible with the M916 series, M983 Series (LET) prime movers and commercial trucks.

The trailer is powder coated for enhanced rust prevention & satisfies SAE, DOT, FMVSS, and FMCSR standards. The vehicle is transportable by highway, rail, marine and air modes worldwide.

## PERFORMANCE PARAMETERS

#### 40-Ton Lowbed Semitrailer (MHET)

General:

This specification is for a Globe Model GTFL403-48-36, Tri-Axle, folding neck, 40 ton (80,000 lbs) payload low-bed semitrailer. This trailer is for tactical use on paved roads, secondary roads, trails, and rough trails under worldwide climatic conditions in military environments. This trailer is a Commercial Equivalent to the M870 trailer but has not been through type classification testing with the U.S. Army. However, the trailer has been through other tests from various DOD departments including internal testing in which documentation of the tests can be provided if requested. The trailer transports Engineer Construction Equipment (ECE), tracked and wheeled vehicles. This vehicle is compatible with the M916 series, M983 Series (LET) prime movers and commercial trucks. This trailer is rust proofed, powder coated and satisfies the standards of SAE, DOT, FMVSS, and FMCSR. The vehicle is transportable by highway, rail, marine and air modes worldwide.

#### Frame:

**Brakes:** 

- Main Beam: T-1 100,000 PSI, structural steel I-Beam main frame, no splices.
- Cross Member: Structural channel steel on deck 24" centers, no splices. Neck 4" Jr. I-Beams, 12" centers.
- Side Rails: T-1 100,000 PSI, structural channel side rail
- Upper Coupler Plate: Compatible with both full oscillating, fore and aft rocking fifth wheel, lip at front for ease of attaching, 30 years of useful life, with drain holes 1" dia., not over 5th wheel. Plate is coated with GAA Grease (MIL-PRF-10924).
- Rear End Protection: Complies with 49CFR393.86, 49CFR571.223 and 49CFR571.224.
- Rear Ramps: 25" x 105", cleated spring assisted. Ramps are adjustable and are capable of withstanding the applied portion of the full trailer payload without permanent deformation.
- Mechanical Folding Neck: Full width of trailer, with a tapered approach ramp for loading. Neck folds flat to ground and raised to coupling height mechanically by use of the prime movers winch. Neck has a fail-safe mechanical lock for transport. Neck is also capable of carrying equipment accessories on the top flat

Axles: Three (3) ea, 25,000 lbs capacity, oil type axles with 75W/90 gear oil, hubometer located on driver side front axle.

King Pin: 2" & 3 1/2" removable, SAEJ700 and J848.

Landing Gear: Fold down landing legs are provided to support the trailer when empty, with the gooseneck in the upright position. The prime mover can be driven out

from & backed under the trailer when it is in this position.

Wheels & Tires: - Tires: 12-ea 275/70 R x 22.5, on/off road equipped with valve extensions with a tread life 10,000 miles.

- Wheels: 12-ea. 8.25 x 22.5, 10 hole hub piloted steel disc wheels, on/off road, wheel mounting lug nut galvanized.

- Matching Spare tire & rim assembly, 275/70 R x 22.5 w/ 8.25 x 22.5, mounted underside of trailer.

S-cam drum type, 16 1/2" x 7" air brakes, spring failsafe parking brakes on all axles, automatic slack adjusters, with three (3) 2S/2M 12/24-volt

ABS systems on all axles meeting STANAG 2604. ABS has full functionality in 24-volt blackout operation. Preset wheel ends provided, preadjusted bearings, extended life wheel seals. End oil shall conform to SAES2360 Grade 75W/90 with wheel ends and hubs filled, non-window

type hub caps. Rubber pipe plugs installed in brake chamber.

Suspension: Heavy duty on/off road mechanical spring suspension system. Suspension articulation will keep all wheels in contact with the ground when

any combination of wheels is elevated 8" above ground. Jounce bumpers keep axles from hitting frame.

Rear Ramps: 25" x 87" spring assist ramps for rear loading.

Service/Emergency gladhands self sealing type and conform to SAEJ318, locations conform to SAEJ702. Air System:

Electrical: Sealed harness with metal clamps and rubber inner sleeves are used to secure harness as well as hose clamps. Equipped with 12-contact

> receptacle/cover for 24v (IAW STANAG 4007), and 7-contact receptacle/cover for 12v (IAW SAE J560), both are installed at front of trailer (IAW SAE J702). The 7-contact receptacle is not energized at 24v when the 24v receptacle is connected. Brake lights override the four way emergency flashers and turn signal lamps conform to SAE J588. Wiring conforms to SAE J1292. 12/24-Volt electrical system compatible with prime mover, all lighting ominvolt LED (IAW SAE J1889) in rubber grommet mountings to DOT/FMVSS/MIL specifications (License plate light and related harness

are not furnished. Trailer has two (2) 24 volt composite tail/stop blackout lights conforming to MIL-STD-1179.

During operation the service lighting and ABS diagnostic light will not function.

Conspicuity markings/reflective tape are provided on trailer as well as commercial reflectors. All other markings include tire pressure, vehicle Markings:

tiedown provisions, center of gravity (empty), and vehicle lift provisions are applied in block letters or numbers 2" height using black chip 37030 of

Tie Downs: Thirty four (34) "D" ring tie downs including lift provisions and tie downs are provided that meet operation defined as .435G deceleration forward,

Globe Trailer Mfg., Inc.

MAS Contract#: GS-30-F-0027R, Mod #PA-0045

## PERFORMANCE PARAMETERS CONT.

.3G lateral, .218G rearward, and .5G vertical. Twenty six (26) of these devices are on the trailer for use in the tiedown of payloads. Locations are as follows: three (3) each side of neck, thirteen (13) evenly spaced on each side of deck, and two (2) on the rear of the load deck located on the bumper, rated at 15,000 lbs. Additionally four (4) 40,000 lb "D" rings four (4) on top of the load bed for payload and cargo tie down. Four (4) 80,000 lb lifting provisions for loading aboard ships are located at the front & rear balanced to allow lifting of empty trailer. Four (4) 120,000 lb tiedown provisions are equipped. All devices mentioned above are IAW MIL-STD-209K.

**Outriggers:** 

Deck:

Provide overall width of 120". Five (5) located on each side of the trailer neck. Twenty (22) ea side of deck and beavertail. Ten (10) ea side of deck

are removed and stored in the tool box when not in use. Additionally there is one (1) outrigger on the riser portion of the neck each side.

1 3/4" apitong flooring with protective coating on top and bottom. The Apitong is secured with two bolts per each crossmember, bolts countersunk below wood surface. Ends of each board are secured by frame structure with the center boards being secured for easy removal by two men and used

on the trailer extension brackets. Steel load bearing wheel covers are provided over the tires.

Finish/Paint: Sandblasted to near white, zinc rich powder coat primer and powder coated yellow chip 33446 per FED-STD-595 (Carc Paint & other colors

available). All air & electrical components are installed after paint. This coating system will provide the highest levels of corrosion protection and

exterior durability.

#### **Additional Items:**

- Toolboxes installed for storage of Basic Issue Items (BII) with padlocks keyed alike. Toolboxes have provisions for the lid to stay open and are lined with scuff resistant coating 1/8" thick. Two (2) 1" drain holes are included.

- Basic Issue Items (BII)
  - o One (1) Jack, Bottle, 15-Ton
  - o Eight (8) Chain, 1/2 x 20 BC
  - o Eight (8) Load Binder
  - One (1) Wrench, Socket
  - One (1) Cheater Bar, Hollow, 1 3/8" OD, 4 ft long
  - o Three (3) Padlock Set
  - One (1) Wood Block, 2 3/8" x 7 1/2" x 24"
  - o Two (2) Chock, Wheel
  - o One (1) Crowbar
  - o One (1) Handle, Truck Wrench
  - o One (1) Shackle
- Black anti-sail mud flaps located behind rear axles.
- Manifest Box, water resistant with internal dimensions of 1.25 x 3.75 x 5.5 inches attached to the gooseneck.
- There is no license plate area.
- ABS warning lights located on the front left corner of the trailer.
- Hub mileage marker on road-side, front axle, calibrated in miles.
- All moving parts requiring lubrication have accessible pressure grease fittings.
- Plates Name Plate includes nomenclature, make and model, mfg, serial number, reg number, NSN number, VCW, Payload, max, GVWR, max, GCWR, max, Date of Delivery, Warranty, Contract #, and US Property. Plates conform to A-A-50271 and/or standard plates. Plates have a black background color and are attached to the main frame rail on the curb side front of trailer 1/3 of the trailer length. Trailer is also equipped with vehicle shipping data plate (IAW MIL-STD-209K), instruction plates &/or diagrams describing procedures followed for operation, service, & lubrications. Plates are in accordance with A-A-50271 & are affixed to the trailer using rivets.
- Registration numbers Welded on the main (road side) longitudinal beam web at 2" high and weldment of 1/16" height.
- Trailer meets all FMVSS and FMCSR regulations.
- Trailer conforms to MIL-STD-1366E, TEA Pamphlet 70-1, MIL-STD-810, & MIL-HDBK-1791 for (Transportability by Land, Rail Transport, Marine Transport, Highway Transport, and Fixed Wing Air Transport Includes C5& C17 Aircrafts).
- Trailer is equipped with Tie-Down & Sling provisions in accordance with MIL-STD-209 & all provisions are labeled accordingly.
- Trailer has a shipping plate of the MHET with a silhouette showing the transport configuration, weight, center of gravity, as well as location & capacity of the slinging & tie-down provisions.
- Weld procedures & qualifications are in accordance with AWS standards
- Trailer conforms to all specifications, standards, and handbooks as well as applicable government documents, drawings, publication and non-government publications.
- Other items include
  - o Techincal Manual, Operation & Maintenance Manual
  - o Service Manual (Parts & Service Sections)

Warranty: 1 year against defects in materials, workmanship, & parts.

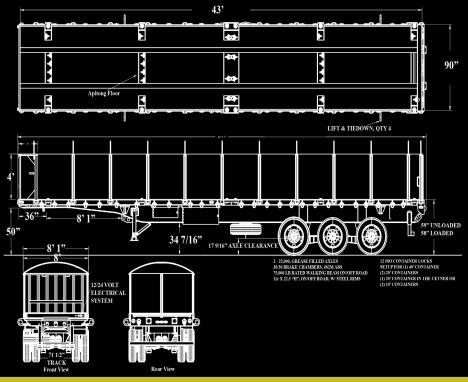

## 34-TON BEEFAR BUILE CARGO CONTAINED TEARLER

#### General Description:

This Specification is for Globe Model # GTFF343-44, all steel, tri-Axle, 34-Ton flatbed break/bulk container transporter Trailer is MIL-209K transportable with top lift and tie down eyes

The trailer is used to transport ammunition & general cargo in containers or bulk. The MHET trailer is compatible with multiple U.S. Military Prime Movers and can be modified to accomidate other prime movers world wide.

## PERFORMANCE PARAMETERS

#### 34-TON BREAK BULK CARGO CONTAINER TRAILER

Performance:

This specification is for a 34-Ton Flatbed Globe Model # GTFF343-44, All Steel, Tri-Axle, 34-Ton Flatbed Break/Bulk Container Transporter trailer is a Commercial Equivalent to the M872 trailer but has not been through type classification testing with the U.S. Army. However, the trailer has been through other tests from various DOD departments including internal testing in which documentation of the tests can be provided if requested. The trailer has a Maximum (GVWR) of 86,380 lbs +/- 3%. The 34-Ton Flatbed Trailer is compatible with multiple U.S. Military prime movers and can be modified to accomidate other prime movers world wide for both on & off road applications. The 34-Ton Flatbed is be capable of transporting ammunition as well as general cargo in containers or bulk weighing up to 68,000 lbs.

#### Capacity, Ratings & Speeds:

- - 65 MPH unloaded on highways
- 55 MPH with 34-Ton load on highways
- 30 MPH with 34-Ton load on improved (gravel road)
- 10 MPH with 34-Ton load off road

#### Dimensions: (All dimensions are +/- 3" nominal)

Main Beam:

- Overall Height w/Front Header: ......8' 10" (106") Overall Width: 8' 0" (96")
  Length of ISO/Break/Bulk Load Space: 43' 0" (516")

Frame:

Two (2) 100,000 PSI longitudinal, structural I-Beams

Jr. I-Beams on 12" centers Cross Member:

Side Rails: Two (2) structural channel side rails

Rear Crossmember: Structural channel full width with rubber dock bumpers

Stake Pockets: Twelve (12) each side and five (5) on the rear of the trailer, 3.5" deep.

Three (3) ea, 25,000 lbs capacity, grease type axles. Axles:

King Pin/5th Wheel: 2" heavy duty, 5th wheel plate bolted in place, has drain holes. Landing Gear: Telescopic, manual handcrank gearbox, 2-speed landing gear.

Tires: 12-ea 11R x 22.5, on/off road. Wheels & Tires:

Wheels: 12-ea. 8.25 x 22.5, 10 hole hub piloted steel disc wheels, on/off road, long studs.

Spare tire & rim 11R x 22.5 w/ 8.25 x 22.5 rim mounted on underside of trailer load platform with assist.

**Brakes:** 16 1/2" x 7" air brakes, parking brakes on all axles, automatic slack adjusters & with 4S/2M 24 volt abs system meeting STANAG 2604.

Suspension: Heavy duty tri-axle spring suspension system, on/off road.

Electrical: 24-Volt electrical system compatible with prime mover both 12 & 24 volt receptacles SAE J650, 7-contact and STANAG 4007,

12-contact plug, all lighting ominvolt LED in rubber grommet mountings to DOT specifications. Trailer has two (2) composite tail/

stop blackout lights conforming to MIL-STD-1179.

Tie Downs: Twenty Six (26) small "D" link tie downs provided each side of trailer load platform with a design load of 15,000 lbs with ultimate load of

> 22,500 lbs. Twenty Eight (28) small "D" link tie downs provided atop the trailer load platform. In addition the trailer has four (4) lift & tiedown provisions for loading aboard ships located at the front & rear balanced to allow lifting of empty trailer. (Winch straps can be provided

in lieu of "D" links if required by the customer.)

**Container Locks:** Twelve (12) ISO container locks located on deck, accommodating one (1) 20' ISO, two (2) 20' ISO containers, or one (1) 40' ISO container.

Deck: 1 3/8" apitong flooring secured to every crossmember.

Side Board Kit: Front header with wrap around, optional side rack panel kit with tarp kit with bows & securing/fastening items (ropes & straps). Finish: Sandblasted to near white, powder coated green or desert tan. All air & electricalc components installed after paint. Carwell treatment

provided to OCONUS Locations. Other colors including Carc paint are available as well.

#### **Additional Items:**

- Four (4) toolboxes installed three (3) small approximately 32" x 11" & one (1) large approximately 46" x 18" for storage. Padlocks and keys (all keyed alike).
- BII (Basic Issue Items)
  - o Two (2) ground boards
  - o Two (2) rubber chock blocks
  - o 48" 2 piece breaker bar for tire wrench, tire wrench, wheel lug nut socket wrench and wheel lug nut socket wrench handle.
  - o One (1) 20-Ton hydraulic jack
- Black mud flaps located behind rear axles.
- Trailer conforms to MIL-STD-1366, MIL-STD-810, & MIL-HDBK-1791 for (Transportability, Rail Transport, Marine Transport, Highway Transport, Air Transport Includes C141, C5, C117 Aircrafts).
- Trailer is be equipped with Tie-Down & Sling provisions in accordance with MIL-STD-209 & MIL-STD-1366, all provisions are labeled accordingly.
- Trailer conforms to MIL-STD-130 with identification plates showing specific UID markings. Plate includes contractor's model number, NSN, USMC registration number, trailer identification number, weight, date of mfg, & date of delivery. Plates conform to A-A-50271.
- Trailer is be equipped with instruction plates and diagrams describing procedures followed for operation, service, & lubrications. Plates are in accordance with A-A-50271 & affixed to the trailer using screws, bolts, or rivets.
- Trailer has a shipping plate with a silhouette showing the transport configuration, weight, center of gravity, location & capacity of the sling & tie-down
- Weld procedures & qualifications are in accordance with D1.1.
- TM provided with Operation, Maintenance Manual, Service Manual (Parts & Service Sections)

Warranty: 1 year against defects in materials, workmanship, & parts.

## 22.5-TON DROP DECK BREAKBULK/CONTAINER TRAILER

#### General Description:

This Specification is for Globe Model # GTFS22.52-43, All Steel, Tandem-Axle, 22.5-Ton Drop Deck Break-Bulk Container Trailer Trailer with a Maximum (GVWR) of 62,660 lbs. Trailer is Air, Marine, Helicopter External Air, & Rail Transportable with Top Lift and Tie Down Eyes

The Trailer is Used to Transport Ammunition & General Cargo in Containers or Bulk. The Trailer is Compatible with the M1088 FMTV, M915, M931, M932, and M818 Prime Movers

**Drawing Coming Soon**

## PERFORMANCE PARAMETERS

#### 22.5-TON DROP DECK BREAKBULK/CONTAINER TRAILER

#### Performance:

This specification is for a Globe Model # GTFS22.52-43, All Steel, Tandem-Axle, 22.5-Ton Drop Deck is a Commercial Equivalent to the M871 trailer but has not been through type classification testing with the U.S. Army. However, the trailer has been through other tests from various DOD departments including internal testing in which documentation of the tests can be provided if requested. The BreakBulk Container Trailer has a Maximum (GVWR) of 62,660 lbs. Trailer is Air, Marine, Helicopter External Air, & Rail Transportable with Top Lift and Tie Down Eyes. The trailer is used to transport Ammunition & General Cargo in Containers or Bulk. The Trailer is Compatible with the M1088 FMTV, M915, M931, M932, and M818 Prime Movers.

#### Capacity, Ratings & Speeds:

- 55 MPH unloaded on highways
- 55 MPH with 34-Ton load on highways
- 35 MPH with 34-Ton load on improved (gravel road)
- 10 MPH with 34-Ton load off road

#### Dimensions:

#### Frame:

- Main Beam: Two (2) 3/4" x 6" longitudinal, structural I-Beams

- Cross Member: 4" Jr. I-Beams on 12" centers

Side Rails: Two (2) 6" structural channel side rails

- Rear Crossmember: Structural channel full width with rubber dock bumpers

- Stake Pockets & Pipe Spools: 24" on center, protected on all three sides of the platform by rub rail 2" x 3/8" thick.

**Axles:** Two (2) ea, 25,000 lbs capacity, grease type axles.

King Pin/5th Wheel: 2" heavy duty.

Landing Gear: 2-Speed landing gear with fabricated flip-up foot. (2) landing gear pad assemblies w/storage compartments & connecting chains.

Wheels & Tires: 8-ea 255/70R x 22.5 "H" load range, on/off road.

Wheels: 8-ea. 8.25 x 22.5, 10 hole hub piloted steel disc wheels, on/off road, long studs.

Spare tire & rim  $255/70R \times 22.5$  "H" w/  $8.25 \times 22.5$  rim mounted on trailer.

Brakes: 16 1/2" x 7" air brakes, parking brakes on all axles, automatic slack adjusters & with 4S/2M 24 volt abs system meeting STANAG 2604.

**Suspension:** Heavy duty single point suspension system, on/off road.

Electrical: 12/24-Volt electrical system compatible with prime mover, all lighting ominvolt LED in rubber grommet mountings to DOT specifications.

Trailer has two (2) composite tail/stop blackout lights conforming to MIL-STD-1179.

Tie Downs: Thirty Six (36) "D" ring tie downs provided on upper and lower deck 24" apart and have a design load of 15,000 lbs. Four (4) ammo

tie downs on lower deck and have a design load of 30,000 lbs. Twelve (12) Lift & tie down provisions with a design load of 80,000 lbs for

transportability at the front & rear.

Container Locks: Eight (8) ISO container locks located on deck, accommodating one (1) 20' ISO in two (2) different locations.

**Deck:** 1 3/8" apitong flooring secured to every crossmember.

Side Board Kit: 48" Front header provided 10" wrap around, side rack panel kit provided, tarp kit provided with bows & securing/fastening items (ropes &

traps)

Finish: Sandblasted to near white, powder coated green or desert tan. All air & electricale components installed after paint. Carwell treatment

provided to OCONUS Locations. Other colors are avaiable as well& Carc.

#### **Additional Items:**

- Lockable toolbox 24" x 24" x 36" installed for storage of with padlocks and keys (all keyed alike).
- Manifest box
- Hubodometer front axle driver side
- BII (Basic Issue Items)
  - o Two (2) 3/16" x 25' chian
  - o Two (2) rubber chock blocks
  - Lug wrench w/ torsion bar and pipe.
  - o One (1) 12-Ton hydraulic jack
- Black mud flaps located behind rear axles.
- Trailer conforms to MIL-STD-1366, MIL-STD-810, & MIL-HDBK-1791 for (Transportability, Rail Transport, Marine Transport, Highway Transport, Air Transport Includes C141, C5, C117 Aircrafts).
- Trailer is be equipped with Tie-Down & Sling provisions in accordance with MIL-STD-209 & MIL-STD-1366, all provisions are labeled accordingly.
- Trailer conforms to MIL-STD-130 with identification plates showing specific UID markings. Plate includes contractor's model number, NSN, USMC registration number, trailer identification number, weight, date of mfg, & date of delivery. Plates conform to A-A-50271.
- Trailer is be equipped with instruction plates and diagrams describing procedures followed for operation, service, & lubrications. Plates are in accordance with A-A-50271 & affixed to the trailer using screws, bolts, or rivets.
- Trailer has a shipping plate with a silhouette showing the transport configuration, weight, center of gravity, as well as location & capacity of the slinging & tie-down provisions.
- Weld procedures & qualifications are in accordance with D1.1.
- Operation, Maintenance Manual, Service Manual (Parts & Service Sections)

## PRODUCTION & CAPABILITY STATEMENT

## Summary

Globe Trailers is a major provider of quality light & heavy equipment trailers and transportation solutions to the Federal Government. Our products & services are used around the world. We also provide engineering services, training, program management, operations, and support for the transportation industry & federal government. Our clients and client safety in the field is what matters.

As a Small Business, Globe Trailers is committed to excellence, a top quality product, as well as creating innovative and flexible solutions for our Federal clients.

What sets Globe Trailers apart from the competition?

- Our People
- Performance-Based Processes
- Over 50 Years' Experience in the Welding & Cutting Industry
- Over 25 Years' Experience in Trailer Manufacturing
- Government Approved Quality System
- Extensive Manufacturing Capabilities Including: Powder Coating, Welding, Cutting, Fitting, Engineering &
- State of the Art Engineering, CAD System & Catia Software

"HIGHLY RECOMMENDED FOR ALL THE RIGHT REASONS"

At Globe Trailers we take pride in our products, supplying only the best to our clients & the Federal Government. Our manufacturing capabilities are as follows:

- Production capabilities up to 125 units per month
- Over 100,000 square feet of manufacturing space on 20+ Acres
- Material capacity up to 20"x96"x60'
- State of the art welding machines
- Overhead crane systems
- Optical Beam cutting machines
- Vertical Machining Centers
- CNC Angle line capability FICEP Angle Line machine
- CNC Forming Accurpress capability of up to 400 tons at local facilities and up to 1000 tons total capability
- Iron Working
- Shearing
- Vertical machining centers
- Horizontal Mills
- Lathes
- Threaders
- Routers
- Bulk storage of welding gases that are piped throughout the facility
- Products, Parts, Tooling and NC code all designed and FEA tested. Confirmed by first article testing, destructive testing and long term testing.
- New Product Development

# GLOBE TRAILERS

## "LET US BE YOUR SOLUTION TO TODAYS TRANSPORTATION CONCERNS"

## Transportation Methodology

- In 2008 Globe Trailers was contracted by the U.S. Navy to design engineer and build a 55-Ton Lowbed Trailer that could be transported in limited spaces on ships and air crafts. Our solution was a hydraulic powered flip axle trailer that is now recognized and used throughout the transportation industry. The hydraulic flip axle allows the overall length of the trailer to be reduced from 53' to 48' for shipping in limited spaces and when not need in transport. Because the hydraulic powered flip axle is self contained, no additional equipment or operating personnel are required to re-configure the trailer.

## Globe Model GTBN553-53-24-HGG

#### **Features**

- 55-Ton (110,000 lb Capacity)
- Hydraulic Sliding King Pin
- Hydraulic Powered 3rd Axle Flip
- 24' Deck
- 7-Position Ride Height
- Air Ride or Spring Ride
- 12/24 Volt System (Black Out Option)
- Spare Tire & Carrier
- Detachable Neck
- Rumber Composite Flooring
- Spare Tire & Rim
- Outrigger Boards to Extend Width

#### Features Cont.

- C130, C5, & C17 Air Transportable
- Fits "ALL" Truck Applications
- 48' Long Closed
- 53' Long OAL
- Powder Coated

CARC Optional

GLOBE TRAILERS
3101 59th Ave. Dr. E. - (941) 753-2199

# GLOBE TRAILER

"NO MISSION TOO DIFFICULT, NO SACRIFICE TOO GREAT"

## Support & Testing

- USMC contracted Globe Trailers in 2010 to re-engineer their old Engineering Equipment Trailer (EET) and design a more robust and versatile trailer to support their mission. The trailer went through a year of testing in which was completed and approved in the fall of 2011. Globe Trailers built 311 units in 7 months with additional units added on the end of the contract for the U.S. Army. The 10-Ton capacity trailer had a more robust suspension system, functional loading deck design, and was powder coated for corrosion prevention and control in the harsh operational environments.

## Globe Model GTTU202-30-20

#### Features

- NSN 2330-02-587-7978, TM 11957A-01
- Trailer is fielded, tested, approved, and has all ILS/Provisioning
- 10-Ton (20,000 lb Capacity) or (12-Ton (24,000 lb Capacity)
- Single Point HD Suspension On/Off Road 18" Articulation
- 20' 3" Deck, 31' OAL, 44' 2 1/2" Deck Height, 8' 1" OAW
- 12/24 Volt System w/Black Outs
- Spare Tire & Carrier w/ Davit
- 60" Fording Capability
- **Apitong Flooring**
- 21" x 110" Spring Loaded Ramps
- 8 ISO Twist Locks for Quadcon Containers & MTL Tool Carrier
- Adjustable Pintle Eye
- Basic Issue Items (BII) Included
- Powder Coated (Carc Optional)
- Air, Rail, Marine, and External Helicopter Sling Capable
- Fits MTVR Truck, HEMTT, MMPV, and 5, 10, & 20-Ton Dump Trucks
