Price adjustments will be based on the change in the Consumer Price Index, All Urban Consumers (CPI-U). The rate will be adjusted on the anniversary of the effective date of the contract and apply the percentage (if there is an increase) to the contractual rates. The annual ceiling will be five percent. If the CPI-U increase for a given year is three percent, the increase would be calculated as follows:

$$\$25.00 + (\$25.00 \times 3\%) = \$25.75$$

If the CPI-U is discontinued or deemed no longer available or reliable by the Government, a mutually agree on substitute formula will be used.
