Multiple Award Schedule Price List

AIRBUS

Contract Number: GS-35F-0014V

Large Category Group:
F – Information Technology, Miscellaneous

Subcategories:
IT Solutions, IT Training, Telecommunications, Complementary SINs

Product and Service Codes:
517410 – D304 (IT and Telecom – Telecommunication and Transmission)
541370GEO – D399 (IT and Telecom – Other IT and Telecommunications)
611420 – U012 (Education/Training – Information Technology/Telecommunications Training)

Special Item Number:
517410, 541370GEO, 611420, OLM

Airbus DS Geo, Inc
2550 Wasser Terrace Suite 9100
Herndon, VA 20171
United States
Telephone: +1.703.715.3100
Fax: 703.715.3120

AIRBUS
GENERAL CONTRACT INFORMATION

1a. Table of Awarded Special Item Numbers (SINs):
   Please refer to GSA eLibrary (www.gsaelibrary.gsa.gov) for detailed SIN descriptions
   - 541370GEO: Earth Observation Solutions
   - 61140: Information Technology Training
   - 517410: Commercial Satellite Communications Solutions (COMCATCOM)
   - OLM: Order-level Materials (OLM)

1b. Lowest Priced Model Number and Lowest Price: Please refer to our rates on page #14

1c. Labor Category Descriptions: Please refer to page #14 or N/A

2. Maximum Order:
   541370GEO: ..........$1,000,000
   61140: .................$250,000
   517410: .................$500,000
   OLM: ..................$250,000

3. Minimum Order: $100

4. Geographic Coverage: Domestic and Overseas

5. Point (s) of Production: Same as Company Address

6. Discount from List Price: All Prices Herein are Net

7. Quantity Discounts: Government Educational Institutions ONLY 10 or more subscribers 35%; 20 or more subscribers 50%; 40 or more subscribers 85%.

8. Prompt Payment Terms: Net 30 days / Information for Ordering Offices: Prompt payment terms cannot be negotiated out of the contractual agreement in exchange for other concessions

9a. Government Purchase Card is accepted at or below the micro – purchase threshold.

9b. Government Purchase Card is not accepted above the micro – purchase threshold.

10. Foreign Items: None

11a. Time of Delivery:
   541370GEO: ..........3-15 Days
   61140: .................To be Negotiated with Ordering Agency
   517410: .................To be Negotiated with Ordering Agency
   OLM: ..................Dependent on the Item Ordered

11b. Expedited Delivery: To Be Negotiated with Ordering Agency

11c. Overnight and 2-Day Delivery: To Be Negotiated with Ordering Agency
11d. Urgent Requirement: To Be Negotiated with Ordering Agency

12. F.O.B. Point(s): Destination

13a. Ordering Address: Airbus DS Geo, Inc.
2550 Wasser Terrace, Suite 9100
Herndon, VA 20171
United States

13b. Ordering procedures:
Ordering activities shall use the ordering procedures of Federal Acquisition Regulation (FAR) 8.405 when placing an order or establishing a BPA for supplies or services. These procedures apply to all schedules.
a. FAR 8.405-1 Ordering procedures for supplies, and services not requiring a statement of work.
b. FAR 8.405-2 Ordering procedures for services requiring a statement of work.
c. FAR 8.405-3 Blanket purchase agreements (BPAs)
The ordering procedures and additional information can be found at www.gsa.gov/eligibilitytouse.

14. Payment Address: Same as Contractor Ordering Address

15. Warranty Provision: See EULA

16. Export Packing Charges: Not Applicable

17. Terms & Conditions of Government Purchase Card Acceptance (any thresholds above the micro-purchase level):
Contact Contract Administrator

18. Terms and conditions of rental, maintenance, and repair: Not Applicable

19. Terms and conditions of installation (if applicable): Not Applicable

20. Terms and conditions of repair parts indicating date of parts, price lists and any discounts from list prices:
Not Applicable

20a. Terms and conditions for any other services (if applicable): Not Applicable

21. List of service and distribution points (if applicable): Not Applicable

22. List of participating dealers (if applicable): Not Applicable

23. Preventative maintenance (if applicable): Not Applicable

24a. Special attributes such as environmental attributes (e.g., recycled content, energy efficiency, and/or reduced pollutants): Not Applicable
24b. Section 508 compliance information is available on Electronic and Information Technology (EIT) supplies and services and show where full details can be found (e.g. contractor’s website or other location.) The EIT standards can be found at: www.Section508.gov/.

Contact Contract Administrator for more information.

25. Data Universal Number System (DUNS) Number: 114392350

26. Airbus DS Geo, Inc. is registered in the System for Award Management (SAM).
SPECIAL INSTRUCTIONS AND REGULATIONS APPLICABLE TO PURCHASE OF EARTH OBSERVATION SOLUTIONS (SPECIAL ITEM NUMBER 541370GEO)

a. Offerings shall comply with cited Department of Defense (DoD) standards, Intelligence Community (IC) standards, Open Geospatial Consortium (OGC) standards (http://www.opengeospatial.org/standards), and other standards such as https://nationalmap.gov/standards as specified by the ordering activity.

b. Information Assurance/Security Requirements
   i. Offerors shall meet information assurance and security requirements in accordance with the ordering activity requirements.
   ii. Offerors shall be capable of meeting at least the minimum security requirements assigned against a low-impact information system.

c. Technical Support:
   i. Without additional charge to the ordering activity, shall provide a hot line technical support number for the purpose of providing user assistance and guidance in the implementation of the software. The technical support number is available shall be available during specified hours.
   ii. At the task or delivery order level, provide a telephone number and hours of operation for technical support hotline; indicate applicable time zone for the hours of operation—i.e., Eastern time, Central, Mountain or Pacific time.
a. Prepaid training tokens, credits, etc., shall not be permitted on this SIN.

b. Offerors shall provide training courses normally available to commercial customers, which will permit ordering activity users to make full, efficient use of general purpose commercial IT products. Training is restricted to training courses for those products within the scope of the IT Category.

c. Cancellation and Rescheduling
   i) The ordering activity will notify the Contractor at least seventy-two (72) hours before the scheduled training date, if a student will be unable to attend. The Contractor will then permit the ordering activity to either cancel the order or reschedule the training at no additional charge. In the event the training class is rescheduled, the ordering activity will modify its original training order to specify the time and date of the rescheduled training class.
   ii) In the event the ordering activity fails to cancel or reschedule a training course within the time frame specified above, the ordering activity will be liable for the contracted dollar amount of the training course. The Contractor agrees to permit the ordering activity to reschedule a student who fails to attend a training class within ninety (90) days from the original course date, at no additional charge.
   iii) The ordering activity reserves the right to substitute one student for another up to the first day of class.
   iv) In the event the Contractor is unable to conduct training on the date agreed to by the Contractor and the ordering activity, the Contractor must notify the ordering activity at least seventy-two (72) hours before the scheduled training date.

d. Follow-Up Support
   The Contractor agrees to provide each student with unlimited telephone support or online support for a period of one (1) year from the completion of the training course. During this period, the student may contact the Contractor's instructors for refresher assistance and answers to related course curriculum questions.

e. Format And Content Of Training
   i) Offerors shall provide written materials (i.e., manuals, handbooks, texts, etc.) normally provided with course offerings, printed and copied two-sided on paper containing 30% postconsumer materials (fiber). Such documentation will become the property of the student upon completion of the training class.
   ii) If applicable, for hands-on training courses, there must be a one-to-one assignment of IT equipment to students.
   iii) Offerors shall provide each student with a Certificate of Training at the completion of each training course.
   iv) Offerors shall provide the following information for each training course offered:
      A) course title,
      B) a brief description of the course content, to include the course format (e.g., lecture, discussion, hands-on training);
      C) length of the course;
      D) mandatory and desirable prerequisites for student enrollment;
      E) minimum and maximum number of students per class;
      F) locations where the course is offered;
G) class schedules; and
H) price (per student, per class (if applicable)).

v) For courses conducted at the ordering activity’s location, instructor travel charges (if applicable), including mileage and daily living expenses (e.g., per diem charges) are governed by Pub. L. 99-234 and FAR Part 31.205-46, and are reimbursable by the ordering activity on orders placed under the Multiple Award Schedule, as applicable, in effect on the date(s) the travel is performed. The Industrial Funding Fee does NOT apply to travel and per diem charges.

vi) For Online Training Courses, a copy of all training material must be available for electronic download by the students.

f. “No Charge” Training

g. Offerors shall describe any training provided with equipment and/or software provided under this contract, free of charge as an attachment to the GSA Price List (I-FSS-600 CONTRACT PRICE LISTS (OCT 2016)).

h. If other than the manufacturer, submit proof of authorization to provide training course(s) for manufacturer's software and/or hardware products.
a. Flexibility/Optimization: Flexibility/optimization/re-grooming allows the Offeror to redistribute resources currently used to provide COMSATCOM Services (example: space segment, network, teleport, terminal resources) or customers sharing the COMSATCOM Services resources (example: customer one with typical peak usage at 9:00 a.m. and customer two with typical peak usage at 3:30 p.m.), enabling the Ordering Activity to gain spectral, operational, and/or price efficiencies.

b. Network Monitoring (Net Ops): Offerors shall be capable of collecting and delivering near real-time monitoring, fault/incident/outage reporting, and information access required to ensure effective and efficient operations, performance, and availability consistent with commercial best practices. Ordering activities may propose additional terms and conditions within the requirement (example: specific predefined terms and conditions for Net Ops collection and delivery.) However, if the supplemental terms and conditions contradict the contract, the contract takes precedence.

c. EMI/RFI Identification, Characterization, AND GEO-Location: When the ordering activity requires Electro Magnetic Interference (EMI) / Radio Frequency Interference (RFI) identification, characterization, and geo-location, the offeror shall provide a mutually agreed upon media and voice communications capability capable of protecting “Sensitive, but Unclassified” data.

d. Description of COMSATCOM Services And Pricing
   i. The following shall NOT be included on the GSA Price List (I-FSS-600 CONTRACT PRICE LISTS (OCT 2016).
   ii. Description of COMSATCOM Transponded Capacity and Pricing
      o Proposed prices shall show Bandwidth ranges (example: 0 - 4.5 MHz, 4.5 – 9.0 MHz, etc.), unit price and region (example: North America, Africa). NOTE: If pricing is for different time periods (example: day, week, month, or year) provide that information.
      o Suggestion: Use regions instead of satellite names to reduce the number of contract modifications.
      o If applicable, provide at least one Worldwide Host Nation Agreement (HNA) description and ceiling price.
      o If applicable, price other non-standard required licenses and agreements in the same manner as HNAs.
      o Provide sufficient performance metrics for the offered COMSATCOM transponded capacity services to ensure proper delivery of service. Metrics examples: service availability (example: 97.5%, 99.5%), grade of service, minimum service levels, quality of service, time to restore service, etc.
      o Indicate price inclusions and exclusions for each priced service (example: portability, re-grooming, etc.).
      o Description of services and prices shall include all services necessary to use the transponded capacity, including: limited engineering (example: development of link budgets, transmission plans); basic customer training (example: acquiring satellite signal, peak and polarization); core management and control of the transponded capacity; and required approvals (example: frequency clearances, landing rights).
   iii. Description of COMSATCOM Subscription Services and Pricing
o If applicable, provide third party billing service description with a ceiling price (example: per megabyte price, per minute price).

o Describe Fixed Satellite Subscription Services by regions, bandwidth ranges, data rate ranges, per unit pricing and/or flat rate service packages, when applicable.

o Identify oversubscription rates, standard quality of service (QoS) profiles, and service availability targets.

o Describe Mobile Satellite Subscription Services in the standard commercial format (i.e., per unit pricing and/or flat rate service packages, etc.)

o If applicable, describe and price non-recurring charges (example: service activation).

o The Government reserves the right to use Government Furnished Access Point Names (APN) for remote user access into Government user networks and enclaves instead of using those provided by Offerors. Offeror should describe and separately price value added services that can be used in conjunction with Government Furnished APNs.

o Equipment provided as part of the Subscription Services is acceptable. NOTE: Equipment can be leased or purchased through the IT Equipment Subcategory SINs.

o Offeror shall provide sufficient performance metrics for the offered COMSATCOM subscription services to ensure proper delivery of service. Metrics examples: service availability, grade of service, minimum service levels, quality of service, time to restore service, etc.

o Indicate price inclusions and exclusions for each priced service (example: portability, regrooming, committed information rates (CIR), etc.).

o Description of services and prices shall include all services necessary to use the Subscription Services, including: network management, monitoring, engineering, integration, and operations required to deliver the services.

iv. Portability Examples

o Description of portability may include moving from one transponder/satellite to another, one managed service area to another, transponded capacity redeployment between beams or transponders on a single satellite, redeployment from one frequency band to another, physical relocation of a satellite to a new orbital position, re-routing of teleport services from one teleport to another predefined teleport, re-routing of traffic from one terrestrial infrastructure to another predefined infrastructure, and movement of Network Operations Center (NOC) services from one NOC to another NOC.

v. Network Monitoring (Net Ops) and Reporting

o Describe Net Ops services available for monitoring and reporting such as spectrum sweep results, transponder status, radio frequency (RF) gateway (teleport) status, network outage, degraded service, reduced data rates, packet loss, and any element of the service offering that could result in a customer service affecting condition.

o Describe the electronic formats available for information access by the Ordering Activity (example: XML, SNMP traps, etc.)

o Offeror shall establish and provide to each Ordering Activity and to customers on a requirement basis how they will communicate fault/incident/outage information to customers including toll free phone numbers, WebPages, email to distribution lists, etc.

e. Contract Level Program Reporting Requirement

i. SIN 517410 - Commercial Satellite Communications Solutions (COMSATCOM) awarded task order specific information shall be submitted on a quarterly basis.

ii. This reporting requirement is for all awards made after SIN 517410 - Commercial Satellite Communications Solutions (COMSATCOM) was added to the MAS contract. This includes BPA's without existing orders.
 iii. The report template provided by GSA shall be used. A copy of the reporting template is available from the GSA Contract Specialist or contracting officer assigned to your contract.

 iv. The quarterly report shall contain:
   o Vendor Information:
     1. Vendor Name
     2. Vendor Contract Number
   o Customer Information
     1. Agency Name Ordering Activity City
     2. State
     3. Zip Code
     4. Contracting Officer Name
     5. Contracting Officer Phone Number
     6. Contracting Officer Email

 v. Order Information
   o Date of Order Order Number
   o Modification Number Requisition Number Description of Services
   o Period of Performance Start Date Period of Performance End Date Total Order Value
   o SIN Number: SIN 517410 - Commercial Satellite Communications Solutions (COMSATCOM)
   o Line Item Description
   o Quantity Sold Unit
   o Unit Price Extended Price Frequency Band
   o Bandwidth Capacity Data Rate
   o Regional Coverage Satellite Name or Number
   o MAC Requirement (Security Level I, II, or III) Private or Shared Network
   o HNA Requirement (Y/N) Portability Service (Y/N) Expedited Delivery (Y/N) Commercial Teleport (Y/N)

 vi. The quarterly report is due NLT 15 days after the end of each FY quarter.

 vii. Quarterly report shall be submitted using the GSA SATCOM Report Portal. The URL and information on how to access the portal will be provided by the GSA SATCOM PMO

STANDARD LICENSE AGREEMENT

NON-EXCLUSIVE LICENSE TO USE SPOT SATELLITE PRODUCTS
The END-USER accepts and agrees to be bound by the terms of this End-User Licence Agreement ("EULA"). This EULA is entered into by and between the END-USER and Airbus DS Geo Inc.,

ARTICLE 1 - DEFINITIONS
“AFFILIATED END-USER”: means any legal commercial business entity, or government agency or other GSA Customer engaged in a Joint Project with the END-USER, as identified by the END-USER to Airbus DS Geo Inc. and accepted in writing by Airbus DS Geo Inc. in the GSA Customer Purchase Order confirmation.

“DERIVATIVE WORKS”: means any derivative product or information developed by the END-USER from the PRODUCT, which does not contain any imagery data from the PRODUCT and is irreversible and uncoupled from the source imagery data of the PRODUCT. Notwithstanding the foregoing, by express exception, any Digital Elevation Model or Digital Terrain Model (in any form whatsoever, i.e. database for instance) derived from a PRODUCT shall never be considered as DERIVATIVE WORKS.

“END-USER”: means either the person, acting in his own name, or the legal commercial business entity, including its possible offices and branches in its country of residence, or the government agency, which is supplied with the PRODUCT and accepts this EULA.

“EXTRACT”: means an extract of a PRODUCT or VAP which may consist of:
   (i) an extract of 1024 x 1024 pixels maximum; or
   (ii) if supplied with the PRODUCT (preview file) by Airbus DS Geo Inc., the sub-sample (ratio 32 toward original PAN (8 toward original XS) ) of the original image of the PRODUCT.

“PRODUCT”: means the SPOT satellite(s) product(s) supplied to the END-USER.

“VAP”: means any product developed by the END-USER, which contains imagery data from the PRODUCT, and resulting in a significant modification of the PRODUCT, through technical manipulations and/or addition of other data. Notwithstanding the foregoing, by express exception, any Digital Elevation Model or Digital Terrain Model derived from a PRODUCT shall always be considered as a VAP.

ARTICLE 2 - LICENSE

2.1 Permitted Uses
The END-USER is hereby granted by Airbus DS Geo Inc. a limited, non-exclusive, non-transferable, license: 
(a) to make an unlimited number of copies of the PRODUCT for the Permitted Uses specified in this Article 2.1;
(b) to install the PRODUCT on as many individual computers as needed in its premises, including internal computer network (with the express exclusion of the Internet, except as provided under paragraph (g) below) for the Permitted Uses specified in this Article 2.1;
(c) to use the PRODUCT for its own internal needs;
(d) to alter or modify the PRODUCT to produce VAP and/or DERIVATIVE WORKS;
(e) to use any VAP for its own internal needs;
(f) to make the PRODUCT and/or any VAP available to contractors and consultants, only for use on behalf of the END-USER, subject to such contractors and consultants agreeing in writing, in advance, (i) to be bound by the same limitations on use as applicable to the END-USER, and (ii) to return the PRODUCT and VAP to END-USER, and to keep no copy thereof, upon completion of the contracting or consulting engagement;
(g) to post one EXTRACT on an Internet site, in an Internet-compatible image format (without associated metadata), with the following credit conspicuously displayed and written in full:
   - “Includes material © CNES (year of production), Distribution Airbus DS Geo Inc., USA, all rights reserved” for SPOT 1 to 5 satellites imagery data;
   - “Includes material © Airbus DS Geo Inc (year of production), all rights reserved” for SPOT 6 and 7 satellites imagery data;
The posting of such EXTRACT shall be used for END-USER’s promotion purposes only, and may in no event allow downloading of the EXTRACT posted or allow a third party to access the PRODUCT or VAP as a standalone file, nor be used to distribute, sell, assign, dispose of, lease, sublicense or transfer such EXTRACT.

Prior to any posting, the END-USER shall inform Airbus DS Geo Inc., specifying the URL used by END-USER: solutions@airbus-na.com

(h) to print one EXTRACT, and to distribute such print for promotion purposes only. Such print shall include the following credit conspicuously displayed and written in full:

- “Includes material © CNES _____(year of production), Distribution Airbus DS Geo Inc., USA, all rights reserved” for SPOT 1 to 5 satellites imagery data;
- “Includes material © Airbus DS Geo Inc. _____(year of production), all rights reserved” for SPOT 6 and 7 satellites imagery data;

(i) to freely use and distribute DERIVATIVE WORKS. Notwithstanding the foregoing, the END-USER shall not be entitled to sell, distribute, assign, dispose of, lease, sublicense or transfer, directly or indirectly, any DERIVATIVE WORKS of SPOT 1 to 5 satellites PRODUCT to any third party established, incorporated or located in the territory of Canada; Before any sale, distribution, assignment, lease or transfer of such DERIVATIVE WORKS, the END-USER shall obtain from his customer the written commitment to comply with this restriction, and shall obtain from him that it be passed on to any and all users of such DERIVATIVE WORKS; and

(j) to share the PRODUCT and/or any VAP with AFFILIATED END-USERS in the framework of a Joint Project, subject to the following cumulative conditions:

- the END-USER shall have detailed in the GSA Customer Purchase Order form accepted by Airbus DS Geo Inc.:
  - the name, legal structure, site address of each AFFILIATED END-USER;
  - the details of the Joint Project in which the END-USER and the AFFILIATED END-USERS are cooperating and for which the PRODUCT is ordered;
- the END-USER shall sign with each AFFILIATED END-USER an agreement under which:
  - Each AFFILIATED END-USER may be granted the rights provided under paragraph a) to i) above;
  - the terms and conditions of such agreement shall in no event be less protective to Airbus DS Geo Inc.’s rights than the provisions of this EULA; and
- the END-USER shall guarantee that each AFFILIATED END-USER complies with the provisions and restrictions provided in the present EULA.

All rights not expressly granted by Airbus DS Geo Inc. under the present Article 2.1 are hereby retained by Airbus DS Geo Inc..

2.2 Prohibited Uses
The END-USER recognizes and agrees that the PRODUCT is and shall remain the property of Airbus DS Geo Inc., and contains proprietary information of Airbus DS Geo Inc...

The END-USER shall not, and shall guarantee that any contractor or consultant engaged as per the provisions of Article 2.1(f) or any AFFILIATED END-USER does not:
(a) sell, rent or lease any PRODUCT or VAP;
(b) alter or remove any copyright notice or proprietary legend contained in or on the PRODUCT;
(c) use a PRODUCT or an EXTRACT in the framework of competitive analysis (such as benchmarking); or
(d) do anything not expressly permitted under Article 2.1.

Article 3 – Intellectual Property Rights

3.1 The data contained in the PRODUCT are the property of:
- Centre National d’Études Spatiales (CNES) for SPOT 1 to 5 satellites imagery data;
- Airbus DS Geo SA. for SPOT 6 and 7 satellites imagery data;

Article 4 – Warranty - Liability

4.1 Airbus DS Geo Inc. warrants that it has sufficient ownership rights in the PRODUCT to make the PRODUCT available to the END-USER under the terms hereof.

4.2 The PRODUCT is complex; Airbus DS Geo Inc. does not warrant that the PRODUCT is free of bugs, errors, defects or omissions, and that operation of the PRODUCT will be error-free or uninterrupted nor that all non-conformities will or can be corrected. It does not warrant that the PRODUCT shall meet the END-USER’s requirements or expectations, or shall be fit for the END-USER’s intended purposes. There are no express or implied warranties of fitness or merchantability given in connection with
the sale or use of this PRODUCT. Airbus DS Geo Inc. disclaims all other warranties or liabilities not expressly provided in Articles 4.1 and 4.2.

In case the PRODUCT delivered directly by Airbus DS Geo Inc. is substantially different from the applicable technical specifications of the PRODUCT ordered or from the ordered area of interest or if the medium on which the PRODUCT is supplied by Airbus DS Geo Inc. to the END-USER is defective, as demonstrated by the END-USER and accepted by Airbus DS Geo Inc., Airbus DS Geo Inc. shall, at its sole discretion and subject to prior return of the PRODUCT and all copies thereof to Airbus DS Geo Inc., either replace the concerned PRODUCT or refund the price paid by the END-USER for the PRODUCT. Any such claim shall be notified to Airbus DS Geo Inc. within seven (7) calendar days after delivery of the PRODUCT by Airbus DS Geo Inc.. After this period, the PRODUCT shall be considered as being compliant with the specifications and unconditionally and irrevocably accepted by the END-USER.

4.3 To the extent permitted by law, Airbus DS Geo Inc. shall not be liable for any claim, damage or loss incurred by the END-USER and AFFILIATED END-USERS, including without limitation indirect, compensatory, consequential, incidental, special, incorporeal or exemplary damages arising out of the use of, or inability to use, the PRODUCT and shall not be subject to legal action in this respect.

To the extent permitted by law, the financial cumulative liability of Airbus DS Geo Inc. shall not exceed the price paid by the END-USER to Airbus DS Geo Inc. for the PRODUCT from which such loss or damage directly arose.

ARTICLE 5 – MISCELLANEOUS

5.1 Recourse against the United States for any alleged breach of this Agreement must be made as a dispute under the contract disputes clause (Contract Disputes Act) or under the terms of the Federal Tort Claims Act, as applicable. During any dispute under the disputes clause, the Contractor shall proceed diligently with performance of this contract, pending final resolution of any request for relief, claim, appeal, or action arising under the contract, and comply with any decision of the Contracting Officer. Upon termination, the END-USER shall return to Airbus DS Geo Inc. all the PRODUCT and VAP.

5.2 Airbus DS Geo Inc. and the END-USER shall not transfer part or all of this EULA unless it has obtained the other party’s prior written consent. Any assignments are subject to FAR 52.232-23 “Assignment of Claims” (Jan. 1986) and FAR 42.12 “Novation and Change-of-Name Agreements” (Sep. 2013).

5.3 In the event that any provision of this EULA is declared invalid or unenforceable, the remaining provisions hereof shall be applicable.

5.4 This End-User License Agreement is governed by the laws of the United States.
U) NextView IMAGERY END USER LICENSE AGREEMENT

a. (U) General Terms
   1. (U) This clause applies to all unprocessed sensor data and requirements-compliant processed imagery, imagery services, imagery-derived products and imagery support data licensed under this Contract. No other clauses related to intellectual property or data rights of any sort shall have any effect related to the unprocessed sensor data and requirements-compliant processed imagery, imagery services, imagery-derived products and imagery support data delivered under this Contract.
   2. (U) All license rights for use of the unprocessed sensor data and requirements-compliant processed imagery, imagery services, imagery-derived products and imagery support data provided to the U.S. Government purchased under this NGA contract are in perpetuity.
   3. (U) Licensed users may generate an unlimited number of hardcopies and softcopies of the unprocessed sensor data and requirements-compliant processed imagery, imagery services, imagery-derived products and imagery support data for their use.
   4. i. (U) Licensed users may generate any derived product from the licensed unprocessed sensor data; and requirements-compliant processed imagery, imagery services, imagery-derived products and imagery support data.
      ii. (U) Unprocessed sensor data and requirements-compliant processed imagery, imagery services, imagery-derived products and imagery support data licensed under this NGA contract have no restrictions on use and distribution, but shall contain the copyright markings.

b. (U) Licensed Users
   1. (U) The imagery may be used by the U.S. Government (including, all branches, departments, agencies, and offices).
   2. (U) The U.S. Government may provide the imagery to the following organizations:
      State Governments
      Local Governments
      Foreign Governments and inter-governmental organizations
      Non-Governmental Organization’s (NGO) and other non-profit organizations
   3. (U) In consideration for the flexibility afforded to the U.S. Government by allowing unprocessed sensor data and requirements-compliant processed imagery, imagery services, imagery-derived products and imagery support data to be shared, the United States Government shall use its reasonable best efforts to minimize the effects on commercial sales. Acquisition and dissemination of imagery and imagery products collected within the United States shall be restricted in accordance with law and regulation.

--- End of document ---
TERRASAR-X LICENSE AGREEMENT

END USER LICENSE AGREEMENT

for

TerraSAR-X data and any derived products

for Commercial Use

Single User License

Airbus DS Geo GmbH
Claude-Dornier-Strasse 88090 Immenstaad
between Germany and END USER
hereinafter called Airbus DS Geo

Under the terms and conditions of this End User License Agreement (EULA), Airbus DS Geo grants to the END USER a non-exclusive, non-transferable license to use TerraSAR-X data and any derived products. This license is applicable to all TerraSAR-X data and any derived products, except Derivative Works. For the purposes of this Agreement, Derivative Works refers to any products or information, developed by the END USER, from the TerraSAR-X data as well as any products created from TerraSAR-X data but which do not contain any original imagery data in an “as-is” format. It also refers to any products which are irreversible and uncoupled from the source data and in which the TerraSAR-X origin is not recognizable. Digital Elevation Models (DEM) extracted from TerraSAR-X data (in any form whatsoever, i.e. databases) will be considered as derived products and not as Derivative Works.

END USER means an Ordering Activity, an entity entitled to order under GSA Schedule contracts as defined in GSA Order ADM 4800.2H.

In accordance with Airbus DS Geo’s licensing and pricing structure, this EULA applies to all TerraSAR-X data and any derived products (except Derivative Works) purchased by the END USER. This license permits use of the TerraSAR-X data and any derived products by one person/organization as identified by the END USER at the time of purchase.

1. LICENSE

All TerraSAR-X data is property of the Federal Republic of Germany represented by the Deutsches Zentrum für Luft-und Raumfahrt e. V. (DLR) and subject to the “Satellite Data Security Act (SatDSIG)”. Therefore the END USER shall only be granted non-exclusive rights to use TerraSAR-X data and any derived products according to this EULA; this point must be acknowledged before any use.

1.1 Permitted Rights:

a) to install the TerraSAR-X data and any derived products on as many individual computers as needed in its premises, including internal computer network;

b) to use the TerraSAR-X data and any derived products only for its own internal needs;

c) to alter or modify delivered TerraSAR-X data and any derived products by himself or his contractor(s). The END USER has to inform Airbus DS Geo in advance about the contractor(s) and shall ensure that his contractor(s) will use TerraSAR-X data and any derived products only for the purpose of the contract given by the END USER, and shall keep no copy of any and all TerraSAR-X data, any derived products and the altered and/or modified TerraSAR-X data and any derived products upon completion of the contract given by the END USER.

d) to publish TerraSAR-X data, any derived products and the altered and/or modified TerraSAR-X data and any derived products as hardcopy prints and in presentations, provided that the END USER conspicuously marks the copyright. Such publishing shall be used for END USER business promotion purposes only.

e) to post derived products as browse images or equivalent (resampled to 20 meters) to internet web sites after notifying
Airbus DS Geo of the URL that will be used, provided that the END USER conspicuously marks the copyright. Such posting shall be used for END USER business promotion purposes only. In no event this Agreement allows downloading of the posting by third parties, nor using to distribute, sell, assign, dispose of, lease, sublicense or transfer such posting.

All permitted rights not expressly granted above are hereby retained by Airbus DS Geo.

1.2 Explicitly Prohibited Uses:
The END-USER recognizes and agrees that the TerraSAR-X data and any derived products is and shall remain the property of AIRBUS DS and/or its licensor, and contains proprietary information of AIRBUS DS and thus is provided to the END-USER on a confidential basis.

The END-USER shall not:

a) assign the license to third parties or to grant sublicenses;
b) alter or remove any copyright notice or proprietary legend contained in or on the TerraSAR-X data and any derived products;
c) publish, distribute or transfer in any way the digital format of TerraSAR-X data and/or Quicklooks.
d) use a TerraSAR-X data in the framework of competitive analysis (such as benchmarking); or
e) Do anything not expressly permitted under article 1.1.

2. INTELLECTUAL PROPERTY RIGHTS

TerraSAR-X data delivered to the END USER remains the property of the Federal Republic of Germany represented by the Deutsche Zentrum für Luft-und Raumfahrt e. V. (DLR). TerraSAR-X data and any derived products are the intellectual property of Airbus DS Geo.

Airbus DS Geo affirms that it has been granted an exclusive license to promote, reproduce and sell the right to use TerraSAR-X data and any derived products for commercial purposes and is authorized to grant the sub-license to the END USER in this EULA.

Airbus DS Geo reserves all intellectual property rights not expressly granted to the END USER acc. Art. 1. Any right to sublicense by the END USER is explicitly excluded from this EULA.

The END USER recognizes Airbus DS Geo’s right to copyright protection and/or protection against unauthorized use of the TerraSAR-X data and any derived products, in accordance with the copyright laws of Germany and applicable international agreements.

This License does not give the right to use Airbus DS Geo trademarks or logos unless explicitly authorized by Airbus DS Geo. Unless otherwise communicated by Airbus DS Geo, the copyright statement applies to all TerraSAR-X data and any derived products distributed by Airbus DS Geo.

The END USER may be held responsible for any copyright infringement caused by the END USER’s failure to comply. The END USER shall take all reasonable steps to protect TerraSAR-X data and any derived products from misuse, unauthorized duplication or distribution and shall notify Airbus DS Geo immediately should any abuse occur.

3. WARRANTY

Airbus DS Geo does not guarantee that TerraSAR-X data and any derived products are free of errors, defects or omissions.

Airbus DS Geo does not guarantee that TerraSAR-X data and any derived products meet the END USER’s requirements or expectations, or are fit for the END USER’s intended purposes. There are no expressed or implied warranties of fitness or marketability given in connection with the sale or use of TerraSAR-X data and any derived products. Airbus DS Geo disavows all other guarantees not expressly provided in this EULA.

In the event that the medium on which the TerraSAR-X data and any derived products supplied by Airbus DS Geo to the END USER is deficient, as demonstrated by the END USER and accepted by Airbus DS Geo, Airbus DS Geo shall replace said medium. This clause does not limit or disclaim any of the warranties specified in the GSA Schedule 70 contract under FAR 52.212-4(o). In the event of a breach of warranty, the U.S. Government reserves all rights and remedies under the contract, the Federal Acquisition Regulations, and the Contract Disputes Act, 41 U.S.C. 7101-7109.

In no event shall Airbus DS Geo, nor anybody having contributed to development and/or production and/or delivery of TerraSAR-X data and any derived products, be liable for any claim, damage or loss incurred by the END-USER, including without limitation indirect, compensatory, consequential, incidental, special, incorporeal or exemplary damages arising out of the
use of or inability to use TerraSAR-X data and any derived products, and shall not be subject to legal action in this respect. The financial cumulative liability of Airbus DS Geo, and of anybody having contributed to developing and/or production and/or delivery of the data and any derived products, is limited to distribution of the data and any derived products and shall not in any case exceed the price paid by the END-USER to purchase the data and any derived products. This clause shall not impair the U.S. Government’s right to recover for fraud or crimes arising out of or related to this Contract under any federal fraud statute, including the False Claims Act, 31 U.S.C. 3729-3733. Furthermore, this clause shall not impair nor prejudice the U.S. Government’s right to express remedies provided in the GSA Schedule contract (e.g., clause 552.238-75 – Price Reductions, clause 52.212-4(h) – Patent Indemnification, and GSAR 552.215-72 – Price Adjustment – Failure to Provide Accurate Information).

4. TERM

This EULA shall run for an unlimited term.

5. MISCELLANEOUS

This Agreement shall be construed in accordance with and governed by the laws of the United States of America.

Any change of this EULA must be made in writing; no collateral agreements to this Agreement have been made. The invalidity in whole or in part of any provision of this EULA shall not void or affect the validity of any other provision or the total Agreement. The parties agree to modify the invalid provision in such a way as to achieve a valid provision.
