

RYAN CONSULTING GROUP GSA SCHEDULE

LABOR CATEGORY	HOURLY RATE	DESCRIPTION/EDUCATION-DEGREE
Jr. Business Intelligence Specialist	\$83.29	<p>Analyzes functional business applications and design specifications for functional activities. Develops block diagrams and logic flow charts. Translates detailed design into computer software. Prepares required documentation, including both program-level and user-level documentation. Demonstrated ability to work independently with minimal supervision.</p> <p>B.S. degree or equivalent and 1 year general experience. Six (6) years of general experience is equivalent to a B.S. degree. With a M.S. degree, no experience is required.</p>
Sr. Business Intelligence Specialist	\$98.70	<p>Analyzes and develops computer software processing a wide range of capabilities, including data warehouse technologies, business data model, Executive Information Management, and Decision Support System. Analyzes user interfaces, maintain hardware and software performance tuning, analyze workload and computer usage, maintain interfaces with outside systems, analyze proposed system modifications, upgrades and new COTS. Provides technical direction to junior staff.</p> <p>B.S. degree or equivalent and 5 years of general experience is required. Six (6) years of general experience is equivalent to a B.S. degree. With a M.S. degree, 3 years of general experience is required. With a PhD, 1 year of general experience is required.</p>
Business Intelligence Administrator	\$122.16	<p>Applies an enterprise-wide set of data warehouse disciplines for the planning, analysis, data refinement, design, and construction of information systems on an enterprise-wide basis or across a major sector of the enterprise. Develops analytical and computational techniques and methodology for problem solutions. Performs enterprise-wide strategic systems planning, business information planning, business and analysis. Provides daily supervision and direction to organization.</p> <p>B.S. degree or equivalent and 9 years of general experience. Six (6) years of general experience is equivalent to a B.S. degree. With a M.S. degree, 7 years of general experience is required. With PhD, 5 years of general experience is required.</p>
IT Analyst II	\$82.27	<p>Experience in providing general information technology systems and project support. Experienced with desktop publishing and office automation systems. Knowledgeable of project operations and its relationship to support functions.</p> <p>Performs variety of professional support functions using organization's office automation systems. Able to advise other staff in the use of IT systems and their function relevant to the project mission. Advises management and staff of relevant issues, policies, and procedures. Performs business and technical analysis as required. Generates reports on various technical and administrative issues.</p> <p>High School diploma and related trade school completion, or Associate's degree in specialty area, or equivalent experience</p>
Junior Database Specialist	\$56.42	<p>Performs specific database management and administration tasks as directed by senior database specialists and database specialists. 1-3 years of directly relevant experience and associate degree or equivalent experience</p>

Junior Help Desk Analyst	\$42.21	<p>Provides telephone support for all customer service/help desk activities from end users and client inquiries. Answers calls, determines corrective action, provides telephone assistance in resolving problems and dispatches technicians.</p> <p>Associate's degree and 2+ years experience, A+ certification or MCP certification.</p>
Program Manager	\$94.87	<p>Senior level executive with extensive experience in delivery of state-of-the-art technology solutions. Provides overall managerial direction for multiple project.</p> <p>Formulates and reviews project feasibility studies, determines cost and ensures conformance to quality standards.</p> <p>B.A. or equivalent experience</p>
Project Manager	\$71.73	<p>Senior level manager with extensive experience in managing project for high quality, state-of-the-art technology solutions.</p> <p>Supervises development, implementation, and documentation of a wide range of systems. Ensures project deadlines and milestones are met.</p> <p>B.A. or equivalent experience</p>
Junior Systems Engineer	\$68.39	<p>Codes modules under direct supervision of engineers, senior engineers, and project managers. Performs testing and validation tasks as assigned. 1-3 years experience and A.S. degree or equivalent experience.</p>
LAN Technician	\$45.93	<p>Responsible for setting up and maintain LAN-connected devices. These devices include printers, scanners, copiers, and other peripherals. Interacts with customers both over the phone and in person to install and service these devices.</p> <p>Associate's degree and 2+ years experience.</p>
Master IT Analyst	\$88.53	<p>Progressively responsible experience involving information technology and related systems and often unique specialization. Recognized as an industry or specialty expert especially in the use of information processing, telecommunications, or security systems, through exposure such as publications, research, teaching, and speeches. Extensive hands-on experience and credentials in area of specialty.</p> <p>Expert consulting in highly specialized, leading edge information technologies and methodologies. Provides highly technical specialized guidance with regard to automated solutions to complex information processing problems. Often called upon as one of a few nationally recognized specialists with unique knowledge and skills.</p> <p>Advanced degree in computer science/technology or specialty area, or equivalent experience</p>
Master IT Analyst II	\$99.24	<p>Progressively responsible experience involving information technology and related systems and often unique specialization. Recognized as an industry or specialty expert especially in the use of information processing, telecommunications, or security systems, through exposure such as publications, research, teaching, and speeches. Extensive hands-on experience and credentials in area of specialty.</p> <p>Expert consulting in highly specialized, leading edge information technologies and methodologies. Provides highly technical specialized guidance with regard to automated solutions to complex information processing problems. 		Advanced degree in computer science/technology or specialty area, or equivalent experience
Network Administrator	\$64.18	Manages the daily configuration and operation of network systems. Performs design, installation, troubleshooting, and support of local and wide area network (LAN/WAN) hardware, software, and applications. Is experienced with industry standard network operating systems such as NetWare and Windows. Works with minimal supervision or under direction of Senior Network Engineers. B.S. degree or equivalent experience and 3-5 years additional directly applicable experience.
PC Repair Technician	\$43.98	Responsible for maintain PC hardware including upgrades, replacement, and warranty maintenance. Interacts with customers both over the phone and in person to facilitate hardware repair and replacement. Associate's degree and A+ certification are required. 2 years of experience.
Senior Programmer Analyst	\$83.32	Continually assess the performance of appropriate software systems to identify and correct problems which impact operation efficiency and work quality. Maintains active liaison with user personnel to ensure continuing responsiveness of applicable system software user requirements. Analyzes performance indicators such as system's response time and number of programs being processed to ensure operational efficiency. Designs, codes, installs, and maintains appropriate systems software program. Provides technical assistance to less experienced systems software personnel in the resolution of complex system-related problems. Bachelor's Degree or equivalent and 6 years of general experience.
Senior Technician	\$88.02	Development and staffing of a systems engineering or security management plan. Analyzes and develops technical documentation detailing the integration and system performance or information security. Coordinates the activities of Systems Engineers and Jr. Systems Engineers assigned to specific systems engineering projects. Bachelor's Degree or equivalent and 8 years of general experience.
Subject Matter Expert	\$146.59	Plans and performs research, design assessment, development, integration and other assignments in a specific technical area. Supervises broad team of systems engineers. Responsible for highly complex technical/engineering areas. Bachelor's Degree or equivalent and 17 years of general experience.
Systems Analyst	\$97.73	Performs systems analysis of computer and networking systems. Supports a Sr. Systems Analyst, as required. Provides overall integration of all systems peripherals so that they operate correctly within a predefined environment. Bachelor's Degree or equivalent and 5 years of general experience.
Technician I	\$62.07	One (1) year of progressive Information Technology (IT) experience including at least two projects in technical areas. At least one project must have occurred within the past three (3) years. B.S. in computer science/technology, or equivalent experience
Technician II	\$69.26	Five (5) years of progressive Information Technology (IT) experience including at least three projects in technical areas. At least one project must have occurred within the past three (3) years B.S. in computer science/technology, or equivalent experience

Technician III	\$79.15	<p>Seven (7) years of progressive Information Technology (IT) experience including at least five projects in technical areas included in Section C. At least one project must have occurred within the past three (3) years.</p> <p>B.S. in computer science/technology, or equivalent experience</p>
Telecommunications / Systems Software Specialist	\$53.33	<p>Develops support documentations for supported systems, maintains problems tracking, recommends and implements corrective actions. Maintains the Main and Intermediate Distribution Frames (MDF/IDF). Interacts with outside vendors for telecommunication line maintenance, daily operation of phone system and voice mail to include trouble shooting both hardware and software, moves-adds-changes of existing and/or new stations, and interfaces with customers to diagnose and correct reported problems.</p> <p>A.S. in computer science or a related field and 5+ years of experience; or B.S. in computer science and 2 years of experience.</p>
