SCHEDULE 70 INFORMATION TECHNOLOGY

SIN 132-51 - INFORMATION TECHNOLOGY (IT) PROFESSIONAL SERVICES

FPDS Code D302	IT Systems Development Services
FPDS Code D306	IT Systems Analysis Services
FPDS Code D307	Automated Information Systems Design and Integration Services
FPDS Code D308	Programming Services
FPDS Code D399	Other Information Technology Services, Not Elsewhere Classified

Note 1: All non-professional labor categories must be incidental to and used solely to support hardware, software and/or professional services, and cannot be purchased separately.

Note 2: Offerors and Agencies are advised that the Group 70 – Information Technology Schedule is not to be used as a means to procure services which properly fall under the Brooks Act. These services include, but are not limited to, architectural, engineering, mapping, cartographic production, remote sensing, geographic information systems, and related services. FAR 36.6 distinguishes between mapping services of an A/E nature and mapping services which are not connected nor incidental to the traditionally accepted A/E Services.

Note 3: This solicitation is not intended to solicit for the reselling of IT Professional Services, except for the provision of implementation, maintenance, integration, or training services in direct support of a product. Under such circumstances the services must be performance by the publisher or manufacturer or one of their authorized agents.

Contract Number: GS - 35F - 0147V

Performance Period: **12/31/2008 - 12/30/2018**

Pricelist current through Schedule 70 Refresh 35 Modification PS-0014 dated February 26, 2015.

Business Size: small, minority-owned, SBA 8(a) and SDB

Products and ordering information in this Authorized FSS Information Technology Schedule Pricelist are also available on the GSA Advantage! System. Agencies can browse GSA Advantage! at <http://www.gsaadvantage.gov>.

Audacious Inquiry (Ai) is a small, minority-owned, SBA 8(a) and SDB federally certified health information policy and technology company. Ai leverages nationally recognized subject matter expertise to offer bold technology solutions that are leading the way to smarter delivery of healthcare. Government, private, and non-profit organizations have turned to Ai to rethink how health information is shared, managed, leveraged, and protected. Our collaborative strategy, policy, and engineering teams have a reputation for taking on intimidating technical challenges and complex problems. Our implementation of master data management (MDM) tools to enable health information exchange has set the standard for state HIEs throughout the nation. Ai's encounter notification service (ENS) provides reliable, real-time notifications and clinical summaries to primary care providers, payers and other healthcare stakeholders of patient hospitalizations. ENS offers a more efficient and cost-effective way to coordinate care. We offer services and product solutions in three

INFORMATION FOR ORDERING ACTIVITIES

SPECIAL NOTICE TO AGENCIES: Small Business Participation

SBA strongly supports the participation of small business concerns in the Federal Acquisition Service. To enhance Small Business Participation SBA policy allows agencies to include in their procurement base and goals, the dollar value of orders expected to be placed against the Federal Supply Schedules, and to report accomplishments against these goals.

For orders exceeding the micropurchase threshold, FAR 8.404 requires agencies to consider the catalogs/pricelists of at least three schedule contractors or consider reasonably available information by using the GSA Advantage!TM on-line shopping service (www.fss.gsa.gov). The catalogs/pricelists, GSA Advantage!TM and the Federal Acquisition Service Home Page (www.fss.gsa.gov) contain information on a broad array of products and services offered by small business concerns.

This information should be used as a tool to assist ordering activities in meeting or exceeding established small business goals. It should also be used as a tool to assist in including small, small disadvantaged, and women-owned small businesses among those considered when selecting pricelists for a best value determination.

For orders exceeding the micropurchase threshold, customers are to give preference to small business concerns when two or more items at the same delivered price will satisfy their requirement.

1. Table of Awarded SIN's

SIN 132 51	Information Technology (IT) Professional Services
SIN 132 51 (RC)	Information Technology (IT) Professional Services Recovery Pruchasing

1b. Lowest Price Model: See pricelist

1c. Contractor Labor Category and Rates: See below

2. MAXIMUM ORDER (All dollar amounts are exclusive of any discount for prompt payment.)

The Maximum Order value for the following Special Item Numbers (SINs) is \$500,000:

Special Item Number 132-51 - Information Technology (IT) Professional Services

3. MINIMUM ORDER

The minimum dollar value of orders to be issued is \$100.

4. GEOGRAPHIC SCOPE OF CONTRACT

Domestic delivery is delivery within the 48 contiguous states, Alaska, Hawaii, Puerto Rico, Washington, DC, and U.S. Territories. Domestic delivery also includes a port or consolidation point, within the aforementioned areas, for orders received from overseas activities.

Overseas delivery is delivery to points outside of the 48 contiguous states, Washington, DC, Alaska, Hawaii, Puerto Rico, and U.S. Territories.

Offerors are requested to check one of the following boxes:

The Geographic Scope of Contract will be domestic and overseas delivery.

- [] The Geographic Scope of Contract will be overseas delivery only.
- [X] The Geographic Scope of Contract will be domestic delivery only.

5. POINT OF PRODUCTION

*Audacious Inquiry, LLC
5523 Research Park Drive Suite 370
Baltimore, MD 21228*

6. DISCOUNT FROM LIST PRICES:

See attached price list. Prices shown are net of discount.

7. QUANTITY DISCOUNT:

11. DELIVERY SCHEDULE

- a. TIME OF DELIVERY: The Contractor shall deliver to destination within the number of calendar days after receipt of order (ARO), as set forth below:

SPECIAL ITEM NUMBER	DELIVERY TIME (Days ARO)
<u>132-51</u>	As agreed upon between the contractor and the ordering activity.

- b. URGENT REQUIREMENTS: When the Federal Supply Schedule contract delivery period does not meet the bona fide urgent delivery requirements of an ordering activity, ordering activities are encouraged, if time permits, to contact the Contractor for the purpose of obtaining accelerated delivery. The Contractor shall reply to the inquiry within 3 workdays after receipt. (Telephonic replies shall be confirmed by the Contractor in writing.) If the Contractor offers an accelerated delivery time acceptable to the ordering activity, any order(s) placed pursuant to the agreed upon accelerated delivery time frame shall be delivered within this shorter delivery time and in accordance with all other terms and conditions of the contract.

Block 40: Veteran Owned Small Business (VOSB): **No**

- a. CAGE Code: **4K5F4**
- b. Contractor **has** registered with the Central Contractor Registration Database.

**TERMS AND CONDITIONS APPLICABLE TO INFORMATION TECHNOLOGY (IT)
PROFESSIONAL SERVICES (SPECIAL ITEM NUMBER 132-51)**

*******NOTE: All non-professional labor categories must be incidental to, and used solely to support professional services, and cannot be purchased separately.***

1. SCOPE

a. The prices, terms and conditions stated under Special Item Number 132-51 Information Technology Professional Services apply exclusively to IT Professional Services within the scope of this Information Technology Schedule.

b. The Contractor shall provide services at the Contractor's facility and/or at the ordering activity location, as agreed to by the Contractor and the ordering activity.

2. PERFORMANCE INCENTIVES I-FSS-60 Performance Incentives (April 2000)

a. Performance incentives may be agreed upon between the Contractor and the ordering activity on individual fixed price orders or Blanket Purchase Agreements under this contract.

b. The ordering activity must establish a maximum performance incentive price for these services and/or total solutions on individual orders or Blanket Purchase Agreements.

c. Incentives should be designed to relate results achieved by the contractor to specified targets. To the maximum extent practicable, ordering activities shall consider establishing incentives where performance is critical to the ordering activity's mission and incentives are likely to motivate the contractor. Incentives shall be based on objectively measurable tasks.

3. ORDER

- a. Agencies may use written orders, EDI orders, blanket purchase agreements, individual purchase orders, or task orders for ordering services under this contract. Blanket Purchase Agreements shall not extend beyond the end of the contract period; all services and delivery shall be made and the contract terms and conditions shall continue in effect until the completion of the order. Orders for tasks which extend beyond the fiscal year for which funds are available shall include FAR 52.232-19 (Deviation – May 2003) Availability of Funds for the Next Fiscal Year. The purchase order shall specify the availability of funds and the period for which funds are available.
- b. All task orders are subject to the terms and conditions of the contract. In the event of conflict between a task order and the contract, the contract will take precedence.

4. PERFORMANCE OF SERVICES

- a. The Contractor shall commence performance of services on the date agreed to by the Contractor and the ordering activity.
- b. The Contractor agrees to render services only during normal working hours, unless otherwise agreed to by the Contractor and the ordering activity.
- c. The ordering activity should include the criteria for satisfactory completion for each task in the Statement of Work or Delivery Order. Services shall be completed in a good and workmanlike manner.
- d. Any Contractor travel required in the performance of IT Services must comply with the Federal Travel Regulation or Joint Travel Regulations, as applicable, in effect on the date(s) the travel is performed. Established Federal Government per diem rates will apply to all Contractor travel. Contractors cannot use GSA city pair contracts.

5. STOP-WORK ORDER (FAR 52.242-15) (AUG 1989)

- (a) The Contracting Officer may, at any time, by written order to the Contractor, require the Contractor to stop all, or any part, of the work called for by this contract for a period of 90 days after the order is delivered to the Contractor, and for any further period to which the parties may agree. The order shall be specifically identified as a stop-work order issued under this clause. Upon receipt of the order, the Contractor shall immediately comply with its terms and take all reasonable steps to minimize the incurrence of costs allocable to the work covered by the order during the period of work stoppage. Within a period of 90 days after a stop-work is delivered to the Contractor, or within any extension of that period to which the parties shall have agreed, the Contracting Officer shall either-
 - (1) Cancel the stop-work order; or
 - (2) Terminate the work covered by the order as provided in the Default, or the Termination for Convenience of the Government, clause of this contract.
- (b) If a stop-work order issued under this clause is canceled or the period of the order or any extension thereof expires, the Contractor shall resume work. The Contracting Officer shall make an equitable adjustment in the delivery schedule or contract price, or both, and the contract shall be modified, in writing, accordingly, if-
 - (1) The stop-work order results in an increase in the time required for, or in the Contractor's cost properly allocable to, the performance of any part of this contract; and
 - (2) The Contractor asserts its right to the adjustment within 30 days after the end of the period of work stoppage; provided, that, if the Contracting Officer decides the facts justify the action, the Contracting Officer may receive and act upon the claim submitted at any time before final payment under this contract.

(c) If a stop-work order is not canceled and the work covered by the order is terminated for the convenience of the Government, the Contracting Officer shall allow reasonable costs resulting from the stop-work order in arriving at the termination settlement.

(d) If a stop-work order is not canceled and the work covered by the order is terminated for default, the Contracting Officer shall allow, by equitable adjustment or otherwise, reasonable costs resulting from the stop-work order.

6. INSPECTION OF SERVICES

In accordance with FAR 52.212-4 CONTRACT TERMS AND CONDITIONS--COMMERCIAL ITEMS (MAR 2009) (DEVIATION I - FEB 2007) for Firm-Fixed Price orders and FAR 52.212-4 CONTRACT TERMS AND CONDITIONS COMMERCIAL ITEMS (MAR 2009) (ALTERNATE I OCT 2008) (DEVIATION I – FEB 2007) applies to Time-and-Materials and Labor-Hour Contracts orders placed under this contract.

7. RESPONSIBILITIES OF THE CONTRACTOR

The Contractor shall comply with all laws, ordinances, and regulations (Federal, State, City, or otherwise) covering work of this character. If the end product of a task order is software, then FAR 52.227-14 (Dec 2007) Rights in Data – General, may apply.

8. RESPONSIBILITIES OF THE ORDERING ACTIVITY

Subject to security regulations, the ordering activity shall permit Contractor access to all facilities necessary to perform the requisite IT Professional Services.

9. INDEPENDENT CONTRACTOR

All IT Professional Services performed by the Contractor under the terms of this contract shall be as an independent Contractor, and not as an agent or employee of the ordering activity.

10. ORGANIZATIONAL CONFLICTS OF INTEREST

a. Definitions.

“Contractor” means the person, firm, unincorporated association, joint venture, partnership, or corporation that is a party to this contract.

“Contractor and its affiliates” and “Contractor or its affiliates” refers to the Contractor, its chief executives, directors, officers, subsidiaries, affiliates, subcontractors at any tier, and consultants and any joint venture involving the Contractor, any entity into or with which the Contractor subsequently merges or affiliates, or any other successor or assignee of the Contractor.

An “Organizational conflict of interest” exists when the nature of the work to be performed under a proposed ordering activity contract, without some restriction on ordering activities by the Contractor and its affiliates, may either (i) result in an unfair competitive advantage to the Contractor or its affiliates or (ii) impair the Contractor’s or its affiliates’ objectivity in performing contract work.

b. To avoid an organizational or financial conflict of interest and to avoid prejudicing the best interests of the ordering activity, ordering activities may place restrictions on the Contractors, its affiliates, chief executives, directors, subsidiaries and subcontractors at any tier when placing orders against schedule contracts. Such restrictions shall be consistent with FAR 9.505 and shall be designed to avoid, neutralize, or mitigate organizational

conflicts of interest that might otherwise exist in situations related to individual orders placed against the schedule contract. Examples of situations, which may require restrictions, are provided at FAR 9.508.

11. INVOICES

The Contractor, upon completion of the work ordered, shall submit invoices for IT Professional services. Progress payments may be authorized by the ordering activity on individual orders if appropriate. Progress payments shall be based upon completion of defined milestones or interim products. Invoices shall be submitted monthly for recurring services performed during the preceding month.

12. PAYMENTS

For firm-fixed price orders the ordering activity shall pay the Contractor, upon submission of proper invoices or vouchers, the prices stipulated in this contract for service rendered and accepted. Progress payments shall be made only when authorized by the order. For time-and-materials orders, the Payments under Time-and-Materials and Labor-Hour Contracts at FAR 52.212-4 (MAR 2009) (ALTERNATE I – OCT 2008) (DEVIATION I – FEB 2007) applies to time-and-materials orders placed under this contract. For labor-hour orders, the Payment under Time-and-Materials and Labor-Hour Contracts at FAR 52.212-4 (MAR 2009) (ALTERNATE I – OCT 2008) (DEVIATION I – FEB 2007) applies to labor-hour orders placed under this contract. 52.216-31(Feb 2007) Time-and-Materials/Labor-Hour Proposal Requirements—Commercial Item Acquisition As prescribed in 16.601(e)(3), insert the following provision:

- (a) The Government contemplates award of a Time-and-Materials or Labor-Hour type of contract resulting from this solicitation.
- (b) The offeror must specify fixed hourly rates in its offer that include wages, overhead, general and administrative expenses, and profit. The offeror must specify whether the fixed hourly rate for each labor category applies to labor performed by—
 - (1) The offeror;
 - (2) Subcontractors; and/or
 - (3) Divisions, subsidiaries, or affiliates of the offeror under a common control.

13. RESUMES

Resumes shall be provided to the GSA Contracting Officer or the user ordering activity upon request.

14. INCIDENTAL SUPPORT COSTS

Incidental support costs are available outside the scope of this contract. The costs will be negotiated separately with the ordering activity in accordance with the guidelines set forth in the FAR.

15. APPROVAL OF SUBCONTRACTS

The ordering activity may require that the Contractor receive, from the ordering activity's Contracting Officer, written consent before placing any subcontract for furnishing any of the work called for in a task order.

16. DESCRIPTION OF IT PROFESSIONAL SERVICES AND PRICING

LABOR CATEGORY DESCRIPTIONS

There are a number of classifications for staff at Audacious Inquiry. These classifications are based on the kind of services required, years of experience, and educational background. Audacious Inquiry will work with the government to ensure that the most appropriate types and levels of staff are estimated and planned into proposed tasks.

Experience/Education substitutions applicable to all labor categories

- Two years of experience is equivalent to an Associate degree.
- Four years of experience is equivalent to a Bachelors degree.
- Masters degree is equivalent to three years of experience (beyond a Bachelors degree).
- Doctorate is equivalent to five years of additional experience (beyond a Bachelors degree).

Labor Category	Functional Responsibilities	Education	Minimum/General Experience
Graphic Designer 1	Designs and develops web-based systems. Creates and optimizes graphic images and logos. Provides visual structure and incorporates interactive applications in web pages and collection design. Completes website life cycle interaction involving the mixing of form, function, and content.	BA or BFA	2-4 years of experience
Graphic Designer 2	Leads the design and development of web-based systems. Creates and optimizes graphic images and logos. Provides visual structure and manages incorporation of interactive applications in web pages and collection design. Supervises or directly manages graphic design initiatives.	BA or BFA; master's preferred	5-7 years of experience
Testing Specialist 1	Designs and executes IT software tests and evaluates results to ensure compliance with applicable regulations. Prepares test scripts, test documentation, and test data.	BS or BA	2-4 years of experience
Software Developer 1	Responsible for the design, coding, testing, and documentation of software from specifications with general guidance and supervision from senior staff. Assists in developing and refining of detailed specifications and user requirements.	BS or BA	1-4 years of experience
Software Developer 2	Responsible for the development of program and system specifications based on requirements obtained from end-users. Designs, codes, tests, and documents of complex software and software systems from developed specifications. Supervises Software Developers and manages other deliverables for system and subsystem development.	BS or BA; master's preferred	5-10 years of experience
Integration Architect 1	Works with technical resources and teams to determine cost-effective development solutions. Communicates with development resources to ensure all business requirements and client needs are met.	BS or BA; master's preferred	5-7 years of experience

Labor Category	Functional Responsibilities	Education	Minimum/General Experience
Systems Architect	Engages in the management of large scale client enterprise initiatives. Provides modern and critical perspectives to identify and formulate cost-effective development solutions consistent with client’s strategic goals. Coordinates/supervises development resources and works closely with clients to ensure business needs are met by implemented solutions.	MS or equivalent	8-12 years of experience
Health Information Technology & Policy Subject Matter Expert (SME) 3	Provides extremely high-level subject matter proficiency for work described in the task. Provides technical, managerial, and administrative direction for problem definition, analysis, requirements development and implementation for complex to extremely complex systems in the subject matter area. Makes recommendations and advises on organization-wide system improvements, optimization or maintenance efforts in the following specialties: information systems architecture; networking; health policy; automation; communications protocols; risk management/electronic analysis; software; life-cycle management; software development methodologies; and modeling and simulation.	B.A. or B.S. degree.	15 years of experience in the IT or healthcare fields and at least 10 years of combined new and related older technical experience in the IT, healthcare, regulatory, or compliance fields directly related to the required area of expertise.
Health Information Technology & Policy Subject Matter Expert (SME) 2	Provides high-level subject matter proficiency for work described in the task. Provides technical, managerial, and administrative direction for problem definition, analysis, requirements development and implementation for complex systems in the subject matter area. Makes recommendations and advises on system improvements, optimization or maintenance efforts in the following specialties: information systems architecture; networking; health policy; automation; communications protocols; risk management/electronic analysis; software; life-cycle management; software development methodologies; and modeling and simulation.	B.A. or B.S. degree.	12 years of experience in the IT or healthcare fields and at least 8 years of combined new and related older technical experience in the IT or healthcare fields directly related to the required area of expertise.

Labor Category	Functional Responsibilities	Education	Minimum/General Experience
Health Information Technology & Policy Subject Matter Expert (SME) 1	Provides subject matter proficiency for work described in the task. Provides technical, managerial, and administrative direction for problem definition, analysis, requirements development and implementation for complex systems in the subject matter area. Makes recommendations and advises on system improvements, optimization or maintenance efforts in the following specialties: information systems architecture; networking; health policy; automation; communications protocols; risk management/electronic analysis; software; life-cycle management; software development methodologies; and modeling and simulation.	B.A. or B.S. degree	10 years of experience in the IT or healthcare fields and at least 5 years of combined new and related older technical experience in the IT or healthcare fields directly related to the required area of expertise.
Technical Architecture Subject Matter Expert (SME)	Provides technical knowledge and analysis of highly specialized applications and operational environments, high-level functional systems analysis, design, integration, documentation and implementation advice on exceptionally complex problems that need extensive knowledge of the subject matter for effective implementation. Participates as needed in all phases of software development with emphasis on the planning, analysis, testing, integration, documentation, and presentation phases.	B.A. or B.S. degree	7 years of experience in the IT field including at least 4 years of experience designing and architecting complex software solutions.
Communications Specialist	Leads and implements communication tasks. Conducts targeted information campaigns, arranges press briefings and interviews, coordinates editorial boards, monitors the news, and writes trends analysis. Meets with client on daily basis to relay progress, propose creative solutions to communication challenges, and establish priorities	B.A. or B.S. degree	6 years of experience performing integrated communications tasks in the government or private sectors.
Testing Specialist 2	Provides testing know-how in for the support of user requirements of complex to highly complex software/hardware applications. Directs and/or participates in all phases of risk management assessments and software/hardware development with emphasis on analysis of user requirements, test design and test tools selection.	B.A. or B.S. degree or 4 years of equivalent experience in a related field	5-7 years of experience in software development, including at least 2 years of software testing experience (integration and acceptance).
Business Analyst 2	Formulates/defines system scope and objectives. Devises or modifies procedures to solve complex problems considering computer equipment capacity and limitations, operating time, and form of desired results. Prepares detailed specifications from which programs will be written and designs, codes, tests, debugs, and documents those programs.	B.A. or B.S. degree	4-5 years of experience in specifications development, business analysis, or software engineering

Labor Category	Functional Responsibilities	Education	Minimum/General Experience
Project Manager II	<p>Performs day-to-day management of assigned projects that involve teams of data processing and other information system and management professionals who have previously been involved in analyzing, designing, integrating, testing, documenting, converting, extending, and implementing automated information and health policy systems. Demonstrates proven skills in those technical areas defined in the task to be managed. Organizes, directs, and coordinates the planning and production of all activities associated with projects and tasks. Demonstrates writing and oral communication skills. Follows company polices, Project Management Institute Standards and Software Engineering Institute models with regards to software engineering and project oversight.</p>	B.A. or B.S. degree	10 years of IT or health policy experience, including at least 5 years of IT software management experience.
