ABOUT SIX DIMENSIONS

Six Dimensions helps organizations strengthen their current staff and secure the greatest value from their technology investments. We provide top-tier, certified consultants who add immediate value to your team. Our consultants work side by side with your staff to define, manage, and implement enterprise software and technology projects across some of the most complex technology on the market today. Our consultant's expertise and industry knowledge help ensure project success.

Six Dimensions embraces a core set of business principles that include Integrity, Loyalty, People, Customers, Value, and Success. These company values translate into strong relationships with its consultants and clients. Ensuring client projects meet and exceed expectations means success for the client and consultant. Building a cohesive working environment is as imperative for our business as delivering the right talent connection is for yours.

Our mission is to collaborate with federal government clients in delivering the best solution and value based approach. Our vision for achieving this mission is to build a unique relationship with each our clients because every client's situation is unique. Our people are the foundation to our approach, as they represent the most seasoned experts and thought leadership in the federal market today. We believe our unique approach delivers the highest quality and most cost-effective results that are essential to the success of the dynamic market today.

Six Dimensions is uniquely positioned as a single source of top performing people to businesses that require highly-skilled professionals to achieve short-, mid-, and long-term goals and initiatives. Six Dimensions applies innovative and creative methods to discover and engage the most sought after people – top performers with a passion and ability to tackle the toughest project challenges. Six Dimensions understands how to maximize the value of these top-tier professionals by creating an environment conducive for exploiting their unique talents and skills. The best people in the industry are encouraged by the opportunity to participate in solving some of industries' most ambitious challenges, and Six Dimensions brings those challenges to them through long- and short-term engagements with their clients. Their passion and genuine enthusiasm is fostered by the personal development that their association with Six Dimensions can bring. There is a creative "cross-pollination" of ideas and interests at Six Dimensions.

Six Dimensions delivers top performing people with skills and experience in the key disciplines that businesses need during critical changes. We offer turn-key support that will have the greatest effect on your business initiatives.

Collaborating with Six Dimensions helps your business achieve successful outcomes at a reduced risk, with an accelerated time-to-completion, and increased quality. Companies who engage with Six Dimensions reach successful outcomes by leveraging proven talent to accelerate time to success, mitigate risks, and capitalize on marketplace opportunities. We hope to bring our high energy, enthusiasm, and success to federal government clients.

WHAT WE DO:

Use Business Analytics To Drive Insights

The best decisions are made when all the relevant data available is taken into consideration. But, with different sources, systems, and applications, how do you manage and use that data effectively? At Six Dimensions, we deliver a well- designed and implemented data warehouse. We can even teach your old data warehouse new tricks. Whether prebuilt, using frameworks, or a custom warehouse, we ensure you accelerate time to value.

Connect and Empower People

Today, you cannot remain static on-line. Because of the social media revolution, you need fresh content and exciting digital information to be competitive. At Six Dimensions, we help you manage work flow in a collaborative environment, connect and empower people, and create better and smarter digital experiences. Our technology consultants use leading content management systems (CMS) like Adobe CQ5 and Hybris and are ready to deploy the right system for your business—opening your door to a world of possibilities.

Drive Enterprise Effectiveness and Efficiency

We help our clients benefit from one of their most important assets—information. Whether you need to streamline processes across manufacturing, procurement, sales, finance or HR, our enterprise resource planning (ERP) consultants can transform your business. Using the most critical applications like Oracle, Microsoft, and SAP, we help you create efficient work processes, maximize profits, and minimize interruptions.

CUSTOMER INFORMATION

GSA Schedule 70 - SIN 132-51 – Information Technology Professional Services - SUBJECT TO COOPERATIVE PURCHASING - Includes resources and facilities management, database planning and design, systems analysis and design, network services, programming, conversion and implementation support, network services project management, data/records management, and other services relevant to 29CFR541.400.

1a. Table of awarded special item number(s) with appropriate cross-reference to item descriptions and awarded price(s). **132-51 Professional Information Technology Services.** FSC Group, Part, and Section or Standard Industrial Group, FSC Class(es)/Product code(s) and/or Service Codes:

- FPDS Code D301 IT Facility Operation and Maintenance
- FPDS Code D302 IT Systems Development Services
- FPDS Code D306 IT Systems Analysis Services
- FPDS Code D307 Automated Information Systems Design and Integration Services
- FPDS Code D308 Programming Services
- FPDS Code D310 IT Backup and Security Services
- FPDS Code D311 IT Data Conversion Services
- FPDS Code D313 Computer Aided Design/Computer Aided Manufacturing (CAD/CAM) Services
- FPDS Code D316 IT Network Management Services
- FPDS Code D317 Creation/Retrieval of IT Related Automated News Services, Data Services, or Other Information Services (All other information services belong under Schedule 76)
- FPDS Code D399 Other Information Technology Services, Not Elsewhere Classified

1b. Identification of the lowest priced model number and lowest unit price for that model for each special item number awarded in the contract. This price is the Government price based on a unit of one, exclusive of any quantity/dollar volume, prompt payment, or any other concession affecting price. Those contracts that have unit prices based on the geographic location of the customer, should show the range of the lowest price, and cite the areas to which the prices apply. **N/A**

1c. if the Contractor is proposing hourly rates, a description of all corresponding commercial job titles, experience, functional responsibility and education for those types of employees or subcontractors who will perform services shall be provided. If hourly rates are not applicable, indicate "Not applicable" for this item. **Please See included Federal Supply Schedule Price List.**

2. Maximum order. **\$500,000**

3. Minimum order. **\$100.00**

4. Geographic coverage (delivery area). **Domestic delivery is delivery within the 48 contiguous states, Alaska, Hawaii, Puerto Rico, Washington, DC, and U.S. Territories. Domestic delivery also includes a port or consolidation point, within the aforementioned areas, for orders received from overseas activities.**

Overseas delivery is delivery to points outside of the 48 contiguous states, Washington, DC, Alaska, Hawaii, Puerto Rico, and U.S. Territories.

5. Point(s) of production (city, county, and State or foreign country). **Anywhere we are onsite doing client work. When our clients are working remotely, then the point of production is the remote location.**
6. Discount from list prices or statement of net price. **We offer to the government a discount of 1-3.5%.**
7. Quantity discounts. **None**
8. Prompt payment terms. **None, Net 30 days, from receipt of invoice or date of acceptance, whichever is later.**
- 9a. Notification that Government purchase cards are accepted at or below the micro-purchase threshold. **Yes**
- 9b. Notification whether Government purchase cards are accepted or not accepted above the micro-purchase threshold. **No**
10. Foreign items (list items by country of origin). **None**
- 11a. Time of delivery. (Contractor inserts number of days.) **As negotiated between the ordering activity and contractor (on task order basis).**
- 11b. Expedited Delivery. The Contractor will insert the sentence “Items available for expedited delivery are noted in this price list.” under this heading. The Contractor may use a symbol of its choosing to highlight items in its price lists that have expedited delivery. **N/A**
- 11c. Overnight and 2-day delivery. The Contractor will indicate whether overnight and 2-day delivery are available. Also, the Contractor will indicate that the schedule customer may contact the Contractor for rates for overnight and 2-day delivery. **N/A**
- 11d. Urgent Requirements. The Contractor will note in its price list the “Urgent Requirements” clause of its contract and advise agencies that they can also contact the Contractor’s representative to affect a faster delivery. **N/A**
12. F.O.B. point(s). **Destination**
- 13a. Ordering address(es): **2678 Bishop Drive, Suite 225 San Ramon, CA 94583**
- 13b. Ordering procedures: For supplies and services, the ordering procedures, information on Blanket Purchase Agreements (BPA’s) are found in Federal Acquisition Regulation (FAR) 8.405-3.

For more information on ordering from Federal Supply Schedules, click on the FSS Schedules button at fss.gsa.gov.

On-line access to contract ordering information, terms and conditions, up-to-date pricing, and the option to create an electronic delivery order are available through GSA Advantage!, a menu-driven database system. The INTERNET address GSA Advantage! is: GSAAdvantage.gov.

-
14. Payment address(es): **2678 Bishop Drive, Suite 225 San Ramon, CA 94583**
15. Warranty provision. **N/A**
16. Export packing charges, if applicable. **N/A**
17. Terms and conditions of Government purchase card acceptance (any thresholds above the micro-purchase level). **N/A**
18. Terms and conditions of rental, maintenance, and repair (if applicable). **N/A**
19. Terms and conditions of installation (if applicable). **N/A**
20. Terms and conditions of repair parts indicating date of parts price lists and any discounts from list prices (if applicable). **N/A**
- 20a. Terms and conditions for any other services (if applicable). **N/A**
21. List of service and distribution points (if applicable). **N/A**
22. List of participating dealers (if applicable). **N/A**
23. Preventive maintenance (if applicable). **N/A**
- 24a. Special attributes such as environmental attributes (e.g., recycled content, energy efficiency, and/or reduced pollutants). **N/A**
- 24b. If applicable, indicate that Section 508 compliance information is available on Electronic and Information Technology (EIT) supplies and services and show where full details can be found (e.g. contractor's website or other location.) The EIT standards can be found at: www.Section508.gov.
Not applicable.
25. Data Universal Number System (DUNS) number. **14-6261305**
26. Notification regarding registration in Central Contractor Registration (CCR) database. **In Process**

FEDERAL SUPPLY SCHEDULE PRICE LIST

LABOR CATEGORY	GSA DISCOUNT	GSA Price Inclusive of IFF (\$) -- Hourly Rate
Developer I	1.00%	\$49.87
Developer II	1.00%	\$74.81
Technical Consultant I	1.50%	\$107.18
Functional Consultant I	1.50%	\$109.16
Technical Consultant II	2.00%	\$113.55
Functional Consultant II	2.00%	\$118.48
Functional Consultant III	2.50%	\$122.79
Senior Functional Consultant	2.50%	\$127.70
Senior Technical Consultant	2.50%	\$137.52
Project Manager	2.75%	\$156.77
Senior Project Manager	3.00%	\$175.91
Associate Partner	3.00%	\$219.89
Staff Partner	3.50%	\$231.39
Managing Partner	3.50%	\$252.78

Note 1: All non-professional labor categories must be incidental to and used solely to support hardware, software and/or professional services, and cannot be purchased separately.

Note 2: Offerors and Agencies are advised that the Group 70—Information Technology Schedule is not to be used as a means to procure services which properly fall under the Brooks Act. These services include, but are not limited to, architectural, engineering, mapping, cartographic production, remote sensing, geographic information systems, and related services. FAR 36.6 distinguishes between mapping services of an A/E nature and mapping services which are not connected nor incidental to the traditionally accepted A/E Services.”

Note 3: This solicitation is not intended to solicit for the reselling of IT Professional Services, except for the provision of implementation, maintenance, integration, or training services in direct support of a product. Under such circumstances the services must be performed by the publisher or manufacturer or one of their authorized agents.

LABOR DESCRIPTIONS

Commercial Job Title: Developer I

Minimum/General Experience: Over two (2+) years experience in programming/analyst position, which includes experience in applicable programming area/language. Hands on experience with software development and operating system programming and administration for Internet/Intranet as required.

Functional Responsibility: Responsible for writing source code for applicable programming area/language such as PeopleSoft, Oracle, SAP, Flex, etc. Participates in software development process, which includes: product definition, including business case or gap analysis, specification, and requirements analysis. Participates in software release and post-release activities, including support for product launch evangelism (e.g. developing demonstrations and/or samples), competitive analysis for subsequent product build/release cycles, and maintenance. Other responsibilities can include: development and refinement of throw-away simulations or prototypes to confirm requirements, providing feasibility and cost-benefit analysis, including the choice of application architecture and framework, leading to the budget and schedule for the project, design, implementation (e.g. installation, configuration, programming/customization, integration, data migration), authoring of documentation needed by users and implementation partners etc., testing, including defining/supporting acceptance testing and gathering feedback from pre-release testers.

Minimum Education: Bachelor's Degree or other technical degree related to area of assignment (or equivalent combination of training and professional work experience).

Commercial Job Title: Developer II

Minimum/General Experience: Requires four (4+) years of experience in programming/analyst position, which includes experience in applicable programming area/language. Hands on experience with advance software development and operating system programming and administration for Internet/Intranet as required.

Functional Responsibility: Responsible for writing source code for applicable programming area/language such as PeopleSoft, Oracle, SAP, Flex, etc. Participates in software development process, which includes product definition, including business case or gap analysis, specification, and requirements analysis. Participates in software release and post-release activities, including support for product launch evangelism (e.g. developing demonstrations and/or samples), competitive analysis for subsequent product build/release cycles, and maintenance. Provides expert services, including training, on an as-needed basis.

Minimum Education: Bachelor's Degree or other technical degree related to area of assignment (or equivalent combination of training and professional work experience).

Commercial Job Title: Technical Consultant I

Minimum/General Experience: Requires two (2+) years of experience in implementation of information technology (IT) solutions. This includes a minimum of two years experience in the full lifecycle implementation of commercial off-the-shelf (COTS)/Government off-the-shelf (GOTS) applications for commercial and/or public sector organizations. Demonstrates a proven level of analytical skill to resolve problems encountered during the project. Possesses excellent interpersonal skills and client relationship skills.

Functional Responsibility: Responsible for supporting the design and integration of enterprise applications. Works in a team environment and may provide direction and guidance to team members. Designs and directs deliverable specifications and tasks to be performed by team members, defines target dates of tasks and subtasks. Analyzes functional and technical requirements, prepares system designs and specifications. Performs complex systems development and testing of application and technical architecture software. Performs application configuration and software validation against requirements. Provides guidance to the system development team and develops required system documentation. Develops and provides input into technical design specifications. Possesses and applies comprehensive application knowledge to provide technical and system design guidance to application development technical team. Demonstrates working knowledge and application of software-relevant programming languages (i.e., SQR, People Code, Application Engine, COBOL, etc.) Identifies project risks and works with project management to resolve issues.

Minimum Education: Bachelor's Degree or other technical degree related to area of assignment (or equivalent combination of training and professional work experience).

Demonstrates a proven level of analytical skill to resolve problems encountered during the project. Possesses excellent interpersonal skills and client relationship skills. This individual is also experienced and knowledgeable in the latest industry trends and developments in enterprise IT solutions, including such topics/products as Enterprise Resource Planning (ERP), Supply Chain Management, Enterprise Performance Management (EPM), Customer Relationship Management (CRM), Knowledge Management and/or JFMIP Certification of core financial software.

Functional Responsibility: Directs specific guidance and expertise during the implementation of enterprise applications. Acts as a team leader and provides a centralized control point for a specific project within an enterprise-wide IT solution program. Creates and reviews application implementation plans and work schedules. Assesses resource requirements and leveling. Determines scheduling requirements. Designs and directs deliverable specifications and tasks to be performed by team members, defines target dates of tasks and subtasks. Determines the overall functional conceptual design of the application. Directs the design team in total integration design of the application. Analyzes functional and technical requirements, prepares system designs and specifications. Identifies project risks and works with project management to resolve issues. Interfaces with and advises client Contracting Officer (CO), Contracting Officers Technical Representative (COTR) and client functional managers concerning the applications and the organizational transition to the application environment. Oversees all implementation activities during transition to the new application, including system design, configuration, system testing, execution, and performance. Provides direct guidance to project staff and reviews work products for completeness and adherence to client requirements. Provides expert services, including training, on an as-needed basis.

Minimum Education: Bachelor's Degree or other technical degree related to area of assignment (or equivalent combination of training and professional work experience).

Commercial Job Title: Managing Partner

Minimum/General Experience: Requires fifteen (15+) years of experience in the management and implementation of information technology (IT) solutions. This includes at least three years of managing projects and resources, and a minimum of three years experience in the full lifecycle implementation of commercial off-the-shelf (COTS)/Government off-the-shelf (GOTS) applications for commercial and/or public sector organizations. Demonstrates a proven level of analytical skill to resolve problems encountered during the project. Possesses excellent interpersonal skills and client relationship skills. This individual is also experienced and knowledgeable in the latest industry trends and developments in enterprise IT solutions, including such topics/products as Enterprise Resource Planning (ERP), Supply Chain Management, Enterprise Performance Management (EPM), Customer Relationship Management (CRM), Knowledge Management and/or JFMIP Certification of core financial software.
