INFORMATION FOR ORDERING ACTIVITIES APPLICABLE TO ALL SPECIAL ITEM NUMBERS

SPECIAL NOTICE TO AGENCIES: Small Business Participation

Small Business Administration (SBA) strongly supports the participation of small business concerns in the Federal Acquisition Service. To enhance Small Business Participation SBA policy allows agencies to include in their procurement base and goals, the dollar value of orders expected to be placed against the Federal Supply Schedules, and to report accomplishments against these goals.

For orders exceeding the micro-purchase threshold, FAR 8.404 requires agencies to consider the catalogs/pricelists of at least three schedule contractors or consider reasonably available information by using the GSA Advantage!™ on-line shopping service (www.fss.gsa.gov). The catalogs/pricelists, GSA Advantage!™ and the Federal Acquisition Service Home Page (www.fss.gsa.gov) contain information on a broad array of products and services offered by small business concerns.

This information should be used as a tool to assist ordering activities in meeting or exceeding established small business goals. It should also be used as a tool to assist in including small, small disadvantaged, and women-owned small businesses among those considered when selecting pricelists for a best value determination.

For orders exceeding the micro-purchase threshold, customers are to give preference to small business concerns when two or more items at the same delivered price will satisfy their requirement.

The policies evidencing required insurance shall contain an endorsement to the effect that any cancellation or any material change adversely affecting the Government's interest shall not be effective -

(1) For such period as the laws of the State in which this contract is to be performed prescribe; or

(2) Until 30 days after the insurer or the Contractor gives written notice to the Contracting Officer, whichever period is longer.

Termination and Withdrawal

Contractor may withdraw SWM for a Program by sending you written notification or publishing a notification of withdrawal at <http://rpp.ricoh-usa.com/services-solutions/software-support-services> not less than 12 months prior to its effective date. If Contractor withdraws SWM for which you have prepaid and Contractor has not yet fully provided it to you, Contractor will either continue to provide SWM to you until the end of the current Support Period or give you a prorated refund.

Contractor may withdraw SWM in its entirety on 12 months' written notice to you by letter or e-mail.

If you terminate SWM, Contractor does not issue credits for the unused portion of a Support Period.

Any terms of this Agreement which by their nature extend beyond the Agreement termination remain in effect until fulfilled, and apply to both of our respective successors and assignees.

Warranty for Software Maintenance

Contractor warrants that SWM will be provided using reasonable care and skill and according to its current description.

The warranties will be voided by misuse, accident, modification, unsuitable physical or operating environment, operation in other than the specified operating environment, or failure caused by a product for which Contractor is not responsible.

THESE WARRANTIES ARE YOUR EXCLUSIVE WARRANTIES AND REPLACE ALL OTHER WARRANTIES OR CONDITIONS, EXPRESS OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OR CONDITIONS OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE.

Contractor does not warrant uninterrupted or error-free provision of SWM.

Programs and Software Maintenance

(a) **Eligible Programs:** Eligible Programs are defined as Contractor Programs which are at their current version and release levels and licensed under the IPLA.

(b) **Initial Support Period:** You must choose either one year, the charge for which may be included with the Program, or, for an additional charge, three years of SWM at the time you order a Program. The Initial Support Period begins on the date that Contractor makes the Program available to you.

(c) **Subsequent Support Periods (under this Agreement):** Subsequent support periods of one or three years, at your option, may be available.

(d) **Renewal (under this Agreement):** It is your responsibility to renew SWM at the end of each Support Period. Contractor will renew expiring SWM under the Agreement terms and charges in effect on that date, if it receives your order to renew (e.g., order form, order letter, purchase order) not later than the expiration date. Subsequent Support Periods begin on the day following the end of the preceding Support Period.

(e) **Software Maintenance:**

(i) Contractor makes available to you the most current commercially available version, release, or update to all of the Programs for which you acquire SWM under this Agreement, should any be made available. For Programs under this Agreement, you may obtain upgrades to any current commercially available version, release or update.

(ii) Contractor provides you assistance for your 1) routine, short duration installation and usage (how-to) questions; and 2) code defect-related questions.

(iii) Contractor provides assistance via telephone and, if available, electronic access, only to your information systems (IS) technical support personnel during the normal business hours (Contractor published prime shift hours in your time zone). This assistance is not available to end users within your Enterprise. Contractor provides Severity 1 assistance 24 hours a day, every day of the year. Consult the Contractor Software Support Handbook for details at:

<http://rpp.rioh-usa.com/services-solutions/software-support-services>

(iv) In some instances, Contractor may request, and you agree to allow, remote access your system to assist you in isolating the software problem cause.

(v) SWM does not include assistance for 1) the design and development of applications, 2) your use of Programs in other than their specified operating environment or 3) failures caused by products for which Contractor is not responsible under this Agreement.

(f) **Software Maintenance After License Fee:** The Software Maintenance After License Fee is defined as a fee Contractor charges for the resumption of SWM if you did not renew SWM prior to the end of the then current Support Period, or you terminated SWM prior to the Support Period end date. The Support Period for the resumption of SWM begins on the date that Contractor accepts your order.

(g) **Transfer of Contractor Software Maintenance:** In addition to the provisions of Section 3, Software Maintenance Transferability below, SWM for Programs applies to a designated machine (type, model and serial

number); and may be transferred only to another machine that is licensed for the same operating system at the same or a more recent release level.

(h) **Changes to Support Charge:** An increase will not apply to you if Contractor receives your order for SWM before the announcement date of the increase and within three months of receipt by Contractor of your order Contractor makes SWM available to you. You receive the benefit of a decrease in the Support Charge for amounts which become due on or after the effective date of the decrease.
