1c. Description of Labor Categories:

Job Title: IT Project Manager II

Experience: Ten (10) years of experience in leading and providing technical direction of programs/projects, to include cyber, privacy, or other IT-related initiatives. Advanced degree and/or professional certification may be substituted for two (2) years of equivalent experience. A Ph.D. may be substituted for four (4) years of equivalent experience. Six (6) years of equivalent experience is equal to a Bachelor’s Degree. An Associate’s Degree plus four (4) years of equivalent experience is equal to a Bachelor’s Degree.

Functional Responsibility: Responsible for program/project management, contract management, quality control, supervision of program/project team, deliverables, and resolution of significant program/project and reporting issues. Provides technical and managerial skills to ensure all products and deliverables meet the client's requirements and deadlines. Has ultimate responsibility for technical quality and customer satisfaction during the program/project.

Education: Bachelor's Degree or equivalent experience.

Job Title: IT Project Manager I

Experience: Seven (7) years of experience in leading and providing technical direction of projects/tasks, to include cyber, privacy, or other IT-related initiatives. Advanced degree and/or professional certification may be substituted for two (2) years of equivalent experience. A Ph.D. may be substituted for four (4) years of equivalent experience. Six (6) years of equivalent experience is equal to a Bachelor's Degree. An Associate's Degree plus four (4) years of equivalent experience is equal to a Bachelor's Degree.

Functional Responsibility: Responsible for project/task management, contract management, quality control, supervision of project team, deliverables, and resolution of significant project and reporting issues. Provides the technical and managerial skills to ensure all products and deliverables meet the client's requirements and deadlines. Responsible for technical quality and customer satisfaction during the project/task.

Education: Bachelor's Degree or equivalent experience.

Job Title: Systems Analyst III

Experience: Five (5) years of experience in the analysis, assessment, and/or design of information systems using database management. May manage/oversee information system design, development, and/or implementation, and/or assessment tasks, to include cyber, privacy, or other IT-related initiatives. Advanced degree and/or professional certification may be substituted for two (2) years of equivalent experience. A Ph.D. may be substituted for four (4) years of equivalent experience. Six (6) years of equivalent experience is equal to a Bachelor's Degree. An Associate's Degree plus four (4) years of equivalent experience is equal to a Bachelor's Degree.

Functional Responsibility: Responsible for performing/managing/overseeing all aspects of the systems development lifecycle to include analysis or assessment, design, programming, documentation, or implementation. Prepares technical reports/documentation; manages governance, risk, and compliance across systems and processes and advises on emerging technology and trends.

Education: Bachelor's Degree or equivalent experience.

Job Title: Systems Analyst II

Experience: Three (3) years of experience in the analysis, assessment, and/or design of information systems using database management. May oversee information system design, development, and/or implementation, and/or assessment tasks, to include cyber, privacy, or other IT-related initiatives. Advanced degree and/or professional certification may be substituted for two (2) years of equivalent experience. Six (6) years of equivalent experience is equal to a Bachelor's Degree. An Associate's Degree plus four (4) years of equivalent experience is equal to a Bachelor's Degree.

Functional Responsibility: Responsible for performing/overseeing all aspects of the systems development lifecycle to include analysis or assessment, design, programming, documentation, or implementation. Prepares technical reports/documentation; manages governance, risk, and compliance across systems and processes and advises on emerging technology and trends.

Education: Bachelor's Degree or equivalent experience.

Job Title: Systems Analyst I

Experience: One (1) year of experience in the analysis, assessment, and/or design of information system applications using database management systems and/or programming languages. Supports information system design, development, and/or implementation tasks, to include cyber, privacy, or other IT-related initiatives. Advanced degree and/or professional certification may be substituted for one (1) year of equivalent experience. Six (6) years of equivalent experience is equal to a Bachelor's Degree. An Associate's Degree plus four (4) years of equivalent experience is equal to a Bachelor's Degree.

Functional Responsibility: Responsible for performing various aspects of the systems development lifecycle to include analysis, design, programming, documentation, or implementation of information systems applications. Prepares design documents and related technical reports/documentation; evaluates controls and ensures compliance with current cybersecurity and privacy requirements.

Education: Bachelor's Degree or equivalent experience.

Job Title: Systems Specialist II

Experience: Three (3) years of experience working on operating systems and/or programming projects/tasks, to include cyber, privacy, or other IT-related initiatives. Advanced degree and/or professional certification may be substituted for two (2) years of equivalent years of experience. Six (6) years of equivalent experience is equal to a Bachelor's Degree. An Associate's Degree plus four (4) years of equivalent experience is equal to a Bachelor's Degree.

Functional Responsibility: Responsible for developing, enhancing, and/or assessing various information systems, applications, and/or environments which may include operating, database, web, Cloud, and/or other information systems. Prepares technical documentation on code development and performs other activities such as testing and validation, and/or implementation of systems, processes, and/or controls.

Education: Bachelor's Degree or equivalent experience.

Job Title: Systems Specialist I

Experience: One (1) year of experience working on less complex operating systems and/or programming projects/tasks, to include cyber, privacy, or other IT-related initiatives. Advanced degree and/or professional certification may be substituted for one (1) year of equivalent experience. Six (6) years of equivalent experience is equal to a Bachelor's Degree. An Associate's Degree plus four (4) years of equivalent experience is equal to a Bachelor's Degree.

Functional Responsibility: Responsible for developing, enhancing, and/or assessing various information systems, applications, and/or environments which may include operating, database, web, Cloud, and/or other information systems. Prepares technical documentation and performs other activities such as testing and validation, and/or implementation of systems, processes, and/or controls.

Education: Bachelor's Degree or equivalent experience.

Job Title: IT Technician III

Experience: Four (4) years of experience working with various complex computer systems and environments. Advanced degree and/or professional certification may be substituted for two (2) years of equivalent experience. A Ph.D. may be substituted for four (4) years of equivalent experience. Six (6) years of equivalent experience is equal to a Bachelor's Degree. An Associate's Degree plus four (4) years of equivalent experience is equal to a Bachelor's Degree.

Functional Responsibility: Responsible for performing more complex IT technical tasks and assignments. IT Technician III works with minimal supervision or direction from more senior IT professionals.

Education: Bachelor's Degree or equivalent experience.

Job Title: IT Technician II

Experience: Two (2) years of hands-on experience working with various computer systems and environments. Advanced degree and/or professional certification may be substituted for two (2) years of equivalent experience. Six (6) years of equivalent experience is equal to a Bachelor's Degree. An Associate's Degree plus four (4) years of equivalent experience is equal to a Bachelor's Degree.

Functional Responsibility: Responsible for performing complex IT technical tasks and assignments. IT Technician II works with limited supervision or direction from more senior IT professionals.

24. Notification regarding registration in System for Award Management (SAM) database:
Registered

The Service Contract Labor Standards (SCLS), formerly known as the Service Contract Act (SCA), is applicable to this contract as it applies to the entire Multiple Award Schedule and all services provided. While no specific labor categories have been identified as being subject to SCLS/SCA due to exemptions for professional employees (FAR 22.1101, 22.1102 and 29 CFR 541.300), this contract still maintains the provisions and protections for SCLS/

SCA eligible labor categories. If and/or when the contractor adds SCLS/SCA labor categories to the contract through the modification process, the contractor must inform the Contracting Officer and establish a SCLS/SCA matrix identifying the GSA labor category titles, the occupational code, SCLS/SCA labor category titles and the applicable wage determination number. Failure to do so may result in cancellation of the contract.

Who We Are

Established in 1985 as a certified public accounting (CPA) firm, Kearney & Company (Kearney) was founded upon strong ethical ideals, standards, and processes. Kearney focuses on serving the Federal Government and has a history of providing outstanding service. Kearney takes pride in its ability to assist its clients in meeting their business objectives and challenges.

Kearney's IT practice specializes in providing full IT lifecycle support that encompasses systems requirement definitions, analysis, assessments, design, development, and implementation services including cybersecurity, privacy, and other IT-related initiatives. Kearney's diverse consulting and professional services offerings also include business process transformation and program management. Our IT professionals provide our clients with leadership, experience, and a proven track record of success in delivering solutions that identify, mitigate, and resolve complex IT system risks and issues. Kearney's proactive approach supports our clients in identifying, planning, and complying with new and updated cybersecurity and privacy requirements to address the fluid cybersecurity and privacy landscape and address and mitigate emerging threats.

In addition to providing Information Technology (IT) support services to the Federal Government, Kearney assists agencies with services from the following practice areas: Internal Controls/A-123 Assessments and Reviews, CFO Act and Compliance Audits, Financial Services, Operational Accounting Support, Financial Healthcare Services, and Program Management.

With a deep bench of professional staff, Kearney is headquartered in Alexandria, VA, and has satellite offices in Atlanta, GA; Tampa, FL; Washington, DC; Hyattsville, MD; Frederick, MD; Dayton, OH; Columbus, OH; Huntsville, AL; Indianapolis, IN; Norfolk, VA; Fort Belvoir, VA; Baltimore, MD; and Charleston, SC.

Additional details of our services may be found on our website at www.kearneyco.com. We may also be reached at your convenience to discuss our qualifications as they relate to your customer needs.
