Federal Supply Service

Authorized Federal Supply Schedule Price List

Online access to contract ordering information, terms and conditions, up to date pricing, and the option to create an electronic delivery order are available through GSA Advantage!®, a menu driven database system. The internet address for GSA Advantage!® is: GSAAdvantage.gov.

Schedule tile: Multiple Award Schedule

Chiral Software, Inc. provides software development services, and selected hardware products. Our hardware offerings are primarily items which are used in conjunction with the software services we provide.

Our software development areas are machine learning, network, security, and web oriented.

Our hardware items are, at present, one accessory for small electronic devices.

FSC classes: 5895
SINs: 54151S
FPDS codes: D301, D306, D308
Contract Number: GS-35F-0207T, most recent mod: PS-0042 (9-3-21)
Contract period: January 3, 2017 – January 2, 2022
Contact information: Chiral Software, Inc.
256 S. Robertson Blvd #103
Beverly Hills CA 90211
Main telephone: 310 356 7869
Web site: https://chiralsoftware.com

Business size: small

1b. Identification of the lowest priced model number and lowest unit price for that model for each special item number awarded in the contract

This price is the Government price based on a unit of one, exclusive of any quantity/dollar volume, prompt payment, or any other concession affecting price. Those contracts that have unit prices based on the geographic location of the customer, should show the range of the lowest price, and cite the areas to which the prices apply.

**Level 1 Web Programmer – FPDS code D308**

A Level 1 Web programmer is familiar with the basic technologies of the web. These include HTML, basics of web server systems, and basic web server programming. With guidance from higher-level developers, Level 1 Web Programmers may work on databases and other dynamic web features. Level 1 Web Programmers are able to install and use development environments and tools and document their work.

A Level 1 Web Programmer has a minimum of four years experience in IT and two years with web server technologies.
Level 2 Web Programmer – FPDS code D308

A Level 2 Web Programmer goes beyond the abilities of a Level 1 Web Programmer with the ability to do design, performance and security analysis. A Level 2 Web Programmer can make decisions about database design, object design, and security, and document these tasks. A Level 2 Web Programmer has familiarity with web server setup and operation and some experience with server operating systems and configuration.

A Level 2 Web Programmer must have 4 years of experience with web technologies and must have two years of experience with web server systems.

Web Designer – FPDS code D306

A Web Designer can take an idea and understand how to design a system to implement this idea. This includes:

- Defining the web pages, forms and templates which will be needed
- Configuring and installing web server software
- Laying out the project files
- Establishing and managing source code
- Defining objects and structures
- Designing key domain classes (object-oriented design)
- Estimating time requirements, including uncovering areas which may have unexpected complexity
- Guiding lower-level programmers to implement all of the above
- Managing source control and a test environment
- Analyzing performance problems
- Evaluating a large existing code base
- Documenting all aspects of the system, including technical and user documentation

A Web Designer must have eight or more years of experience in web and server systems. A Web Designer must also have a broader understanding of how servers operates on the network. A Web Designer should have a broader understanding of software design, and at least two years of cumulative experience in more advanced object-oriented languages, such as Java.

Requirements:
A BA or BS degree from a rigorous university or equivalent work experience Ten years of experience in web application design Six years of experience with operating systems.

**Application Programmer – FPDS code D306**

An Application Programmer uses modern programming languages to solve business problems. The Application Programmer may specialize in certain areas, which may include web applications, mobile applications, or others.

With supervision and guidance, an Application Programmer may perform higher-level design functions with guidance.

Tasks also include documentation of work.

Requirements:

- A strong understanding of software design methods
- A BA or BS degree from a rigorous university or equivalent experience
- Four years of programming experience, including two in a focus area

**Enterprise Programmer – FPDS code D308**

An Enterprise Programmer has all the capabilities of an Application Programmer and adds areas related to enterprise systems. These include deep understanding of relevant technology areas. These may also include specialized areas such as security and cryptography.

Requirements:

- All the requirements of an Application Programmer
- Two years of experience in Enterprise programming

**System Administrator – FPDS Code D301**

A System Administrator is able to install server operating systems on PC servers and workstation hardware. Installation includes physical installation into server rooms, installation of hardware components such as cards and memory and configuration of storage systems such as RAID systems. System Administrators have in-depth knowledge of operating systems and can perform analysis, documentation, configuration, and operating system programming tasks. Installation may also include network setup tasks, such as simple switch and simple router configuration tasks. Operational tasks include managing users, processes, startup processes, security, firewall configuration and network configuration, and documentation.

Requirements:
• Eight years of experience with all of the listed software components

• Eight years of experience with PC hardware installation, including installing cards, memory and disk drives

Software Architect– FPDS Code D308
The Software Architect works with the customer to understand the business need and the outline of a solution. A project starts when a customer articulates a need and decides to explore a solution to this need. The Software Architect provides guidance for the solution. This guidance includes answering the following questions:

What is the business need?

What capabilities will meet this need?

Can the solution be divided into stages? If so, what are these stages?

What are the technology options, and which option will best fit the customer's needs and existing environment? These technology options include options for server software and storage (persistence).

Which resources will be needed, how long will it take?

The Software Architect has experience with a broad range of technologies and can work creatively with the customer to develop a plan.

Requirements:
• Ten years of experience with all the important Software technologies of that time period.
• BA degree from a rigorous university

2. Maximum order

</table>

6. Discount from list prices or statement of net price

Government Net Prices (discounts already deducted)

7. Quantity discounts

Contact Contractor.

8. Prompt payment terms

1% - 20 days from receipt of invoice or date of acceptance, whichever is later.

Information for Ordering Offices: Prompt payment terms cannot be negotiated out of the contractual agreement in exchange for other concessions.

9. Foreign items

none

10a. Time of delivery

The Contractor shall deliver to destination within the number of calendar days after receipt of order (ARO), as set forth below:

<table>
<thead>
<tr>
<th>SPECIAL ITEM NUMBER</th>
<th>DELIVERY TIME (Days ARO)</th>
</tr>
</thead>
<tbody>
<tr>
<td>54151S</td>
<td>1 Days</td>
</tr>
</tbody>
</table>

10b. Expedited delivery

Items available for expedited delivery are noted in this price list.

10c. Overnight and 2 day delivery

Overnight and 2-day delivery are available. The schedule customer may contact the Contractor for rates for overnight and 2-day delivery.
10d. **Urgent Requirements**

Agencies may contact the Contractor’s representative to effect a faster delivery.

11. **FOB points**

FOB destination

12a. **Ordering address**

Contractor address

For faster ordering, please contact by email: gsa@chiralsoftware.com or phone: 310 356 7869.

12b. **Ordering procedures**

*For supplies and services, the ordering procedures, information on Blanket Purchase Agreements (BPAs) are found in Federal Acquisition Regulation (FAR) 8.405-3.*

13. **Payment address**

Contractor address

14. **Warranty provision**

Unless specified otherwise in this contract, the Contractor’s standard commercial warranty as stated in the contract’s commercial pricelist will apply to this contract.

All of Chiral Software's products ship with a standard one-year limited warranty.

Exclusions:

- Normal wear and tear
- Accidental breakage
- Shipping damage
- Warranty is void if product is repaired or modified except by authorized service center
- Malfunction or failure caused by unusual physical or electrical stress, abuse, or forces or exposure beyond normal use within the specified environmental parameters set forth in the applicable Product Specification
- Buyer is responsible for shipment to Chiral Software, Inc. and assumes all costs and risks associated with this transportation; return shipment to Buyer shall be at Chiral Software's expense.
b. The Contractor warrants and implies that the items delivered hereunder are merchantable and fit for use for the particular purpose described in this contract.

c. Limitation of Liability. Except as otherwise provided by an express or implied warranty, the Contractor will not be liable to the ordering activity for consequential damages resulting from any defect or deficiencies in accepted items.

d. If inspection and repair of defective equipment under this warranty will be performed at the Contractor's plant, the address is as follows: 707 S. Broadway, Los Angeles, California

15. Export packing charges
No additional charges are required for export packing.

16. Terms and conditions of rental, maintenance, and repair
Not applicable

17. Terms and conditions of installation
Not applicable

18a. Terms and condition of repair parts indicating date of parts price lists and any discounts from list prices
Not applicable

18b. Terms and conditions for any other services
Not applicable

19. List of service and distribution points
Not applicable

20. List of participating dealers
Not applicable

21. Preventive maintenance
Not applicable
22a. Special attributes such as environmental attributes
None

22b. Section 508 compliance information
All of Chiral Software’s professional services team members have received Section 508 compliance training and maintain up to date knowledge of the latest Section 508 design approaches. Section 508 compliant design is good design for everyone.

23. Unique Entity Identifier (UEI) number
Data Universal Numbering System (DUNS) Number: 16-548-7088

24. Notification regarding registration in System for Award Management (SAM) database
Chiral Software, Inc. maintains an active SAM registration. SAM registration is attached to this package. SAM registration is valid to Aug 31, 2022.
