**INFORMATION FOR ORDERING ACTIVITIES
APPLICABLE TO ALL SPECIAL ITEM NUMBERS**

SPECIAL NOTICE TO AGENCIES: Small Business Participation

SBA strongly supports the participation of small business concerns in the Federal Acquisition Service. To enhance Small Business Participation SBA policy allows agencies to include in their procurement base and goals, the dollar value of orders expected to be placed against the Federal Supply Schedules, and to report accomplishments against these goals.

For orders exceeding the micro-purchase threshold, FAR 8.404 requires agencies to consider the catalogs/pricelists of at least three schedule contractors or consider reasonably available information by using the GSA Advantage™ on-line shopping service (www.gsaadvantage.gov). The catalogs/pricelists, GSA Advantage™ and the Federal Acquisition Service Home Page (www.fss.gsa.gov) contains information on a broad array of products and services offered by small business concerns.

This information should be used as a tool to assist ordering activities in meeting or exceeding established small business goals. It should also be used as a tool to assist in including small, small disadvantaged, and women-owned small businesses among those considered when selecting pricelists for a best value determination.

For orders exceeding the micro-purchase threshold, customers are to give preference to small business concerns when two or more items at the same delivered price will satisfy their requirement.

1. GEOGRAPHIC SCOPE OF CONTRACT:

Domestic delivery is delivery within the 48 contiguous states, Alaska, Hawaii, Puerto Rico, Washington, DC, and U.S. Territories. Domestic delivery also includes a port or consolidation point, within the aforementioned areas, for orders received from overseas activities.

Overseas delivery is delivery to points outside of the 48 contiguous states, Washington, DC, Alaska, Hawaii, Puerto Rico, and U.S. Territories.

Offerors are requested to check one of the following boxes:

- The Geographic Scope of Contract will be domestic and overseas delivery.
- The Geographic Scope of Contract will be overseas delivery only.
- The Geographic Scope of Contract will be domestic delivery only.

For Special Item Number 517312 Wireless Services and 517410 COMSATCOM Subscription Services, if awarded, list the limited geographic coverage area: **World Coverage**

2. CONTRACTOR'S ORDERING ADDRESS AND PAYMENT INFORMATION:

Ordering Address:

Satcom Direct Communications, Inc.
1050 Satcom Lane
Melbourne, FL 32940
Tel: (321) 777-3000
Fax: (321) 777-3702

Payment Address:

Satcom Direct Communications, Inc.
P.O. Box 75038
Baltimore, MD 21275-5038

ACH/EFT Payments:

Wells Fargo Bank
Routing # ACH: 063107513
Routing # Wire Transfers: 121000248
Account Number: 2000015833778
Swift Code: WFBIUS6S
(Please reference invoice number)

Contractors are required to accept credit cards for payments equal to or less than the micro-purchase threshold for oral or written delivery orders. Credit cards will/will not be acceptable for payment above the micro-purchase threshold. In addition, bank account information for wire transfer payments will be shown on the invoice.

The following telephone number(s) can be used by ordering activities to obtain technical and/or ordering assistance:
 Tel: (321) 777-3000 Fax: (321) 777-3702

3. LIABILITY FOR INJURY OR DAMAGE

The Contractor shall not be liable for any injury to ordering activity personnel or damage to ordering activity property arising from the use of equipment maintained by the Contractor, unless such injury or damage is due to the fault or negligence of the Contractor.

4. STATISTICAL DATA FOR GOVERNMENT ORDERING OFFICE COMPLETION OF STANDARD FORM 279:

Block 9: G. Order/Modification Under Federal Schedule
 Block 16: Data Universal Numbering System (DUNS) Number: 141315924
 Block 30: Type of Contractor – Satellite Service Provider

C. Large Business

Block 31: Woman-Owned Small Business - No
 Block 36: Contractor's Taxpayer Identification Number (TIN): 20-0072919

4a. CAGE Code: 3VWA4

4b. Contractor has registered with the Central Contractor Registration Database.

5. FOB Destination

6. DELIVERY SCHEDULE

a. Time of Delivery. The Contractor shall deliver to destination within the number of calendar days after receipt of order (ARO) in the case of F.O.B. Destination prices; or to place of shipment in transit in the case of F.O.B. Origin prices, as set forth below. Offerors shall insert in the "Time of Delivery (days ARO)" column in the schedule of Items a definite number of calendar days within which delivery will be made. In no case shall the offered delivery time exceed the Contractor's normal commercial practice. The Government requires the Contractor's normal commercial delivery time, as long as it is less than the "stated" delivery time(s) shown below. If the offeror does not insert a delivery time in the schedule of items, the offeror will be deemed to offer delivery in accordance with the Government's stated delivery time, as stated below:

ITEMS OR GROUP OF ITEMS (Special Item No. or Nomenclature)	GOVERNMENT STATED DELIVERY TIME (Days ARO)	CONTRACTOR'S NORMAL COMMERICAL DELIVERY TIME
33411	30	10
517312	30	2
517410	15	2

b. Expedited Delivery Times. For those items that can be delivered quicker than the delivery times in paragraph (a), above, the offeror is requested to insert below, a time (hours/days ARO) that delivery can be made when expedited delivery is requested.

ITEM OR GROUP OF ITEMS (Special Item No. or Nomenclature)	Expedited Delivery Time (Hours/Days ARO)
33411	7
514312	< 24 Hours (No Additional Cost)
517410	< 24 Hours (No Additional Cost)

c. Overnight and 2-Day Delivery Times. Ordering activities may require overnight or 2-day delivery. The offeror is requested to annotate its price list or by separate attachment identify the items that can be delivered overnight or within 2 days. Contractors offering such delivery services will be required to state in the cover sheet to its MSS price list details concerning this service.

Note: Regulation 552.211-78
 In addition to (a) above, for SIN 517410, the following are accelerated and time-critical delivery time frames:

SIN 517410
 - Governments Stated Delivery Time: 7 days or less = accelerated service delivery

SIN 517410
 - Governments Stated Delivery Time: 4 hours or less = time-critical delivery

Note: If the government has an URGENT requirement requiring accelerated delivery, they should contact Satcom Direct Communications directly. SDC may, in some cases, be able to accelerate activation and delivery of the required services which may require an additional fee.

ITEM OR GROUP OF ITEMS (Special Item No. or Nomenclature)	Accelerated and time-critical delivery time frames	SDC Accelerated and time-critical delivery time frames
517410	Governments Stated Delivery Time: 7 days or less = accelerated service delivery	1 Day or less
517410	Governments Stated Delivery Time: 4 hours or less = time-critical delivery	3 Hours or less

- 7. **DISCOUNTS:** Prices shown are NET Prices; Basic Discounts have been deducted.
 - a. Prompt Payment: 1% - Net 20 days from receipt of invoice or date of acceptance, whichever is later.
 - b. Quantity: None
 - c. Dollar Volume: Over \$100,000 - \$500,000 = Additional 0.25%
 Over \$500,001 - \$1,000,000 = Additional 0.50%
 Over \$1,000,000 - \$2,500,000 = Additional 0.75%
 Over \$2,500,001 - \$5,000,000 = Additional 1.0%
 Over \$5,000,001= Additional 2.5%
 - d. Government Educational Institutions are typically offered the same discounts as all other Government customers.
 - e. Other: None

8. **TRADE AGREEMENTS ACT OF 1979, as amended:**
 All items are U.S. made end products, designated country end products, Caribbean Basin country end products, Canadian end products, or Mexican end products as defined in the Trade Agreements Act of 1979, as amended.

9. **STATEMENT CONCERNING AVAILABILITY OF EXPORT PACKING:** Not applicable under this contract.

9. **SMALL REQUIREMENTS:** The minimum dollar value of orders to be issued is \$10.00.

11. MAXIMUM ORDER (All dollar amounts are exclusive of any discount for prompt payment.) The Maximum Order value for the following Special Item Numbers (SINs) is \$500,000.00:

- Special Item No. 33411 - *Purchasing of new electronic equipment*
- Special Item No. 518210C - *Cloud and Cloud-Related IT Professional Services*
- Special Item No. 611420 - *Information Technology Training*
- Special Item No. 54151S - *Information Technology Professional Services*
- Special Item No. 517312 - *Wireless Mobility Solutions*
- Special Item No. 517410 - *Commercial Satellite Communications (COMSATCOM)*

Note: All non-professional labor categories must be incidental to and used solely to support hardware, software and/or professional services, and cannot be purchased separately.

12. ORDERING PROCEDURES FOR FEDERAL SUPPLY SCHEDULE CONTRACTS: Ordering activities shall use the ordering procedures of Federal Acquisition Regulation (FAR) 8.405 when placing an order or establishing a BPA for supplies or services. These procedures apply to all schedules.

- a. FAR 8.405-1 Ordering procedures for supplies, and services not requiring a statement of work.
- b. FAR 8.405-2 Ordering procedures for services requiring a statement of work.

13. FEDERAL INFORMATION TECHNOLOGY/TELECOMMUNICATION STANDARDS REQUIREMENTS: ordering activities acquiring products from this Schedule must comply with the provisions of the Federal Standards Program, as appropriate (reference: NIST Federal Standards Index). Inquiries to determine whether or not specific products listed herein comply with Federal Information Processing Standards (FIPS) or Federal Telecommunication Standards (FED-STDS), which are cited by ordering activities, shall be responded to promptly by the Contractor.

13.1 FEDERAL INFORMATION PROCESSING STANDARDS PUBLICATIONS (FIPS PUBS): Information Technology products under this Schedule that do not conform to Federal Information Processing Standards (FIPS) should not be acquired unless a waiver has been granted in accordance with the applicable "FIPS Publication." Federal Information Processing Standards Publications (FIPS PUBS) are issued by the U.S. Department of Commerce, National Institute of Standards and Technology (NIST), pursuant to National Security Act. Information concerning their availability and applicability should be obtained from the National Technical Information Service (NTIS), 5285 Port Royal Road, Springfield, Virginia 22161. FIPS PUBS include voluntary standards when these are adopted for Federal use. Individual orders for FIPS PUBS should be referred to the NTIS Sales Office, and orders for subscription service should be referred to the NTIS Subscription Officer, both at the above address, or telephone number (703) 487-4650.

13.2 FEDERAL TELECOMMUNICATION STANDARDS (FED-STDS): Telecommunication products under this Schedule that do not conform to Federal Telecommunication Standards (FED-STDS) should not be acquired unless a waiver has been granted in accordance with the applicable "FED-STD." Federal Telecommunication Standards are issued by the U.S. Department of Commerce, National Institute of Standards and Technology (NIST), pursuant to National Security Act. Ordering information and information concerning the availability of FED-STDS should be obtained from the GSA, Federal Acquisition Service, Specification Section, 470 East L'Enfant Plaza, Suite 8100, SW, Washington, DC 20407, telephone number (202)619-8925. Please include a self-addressed mailing label when requesting information by mail. Information concerning their applicability can be obtained by writing or calling the U.S. Department of Commerce, National Institute of Standards and Technology, Gaithersburg, MD 20899, telephone number (301)975-2833.

14. CONTRACTOR TASKS / SPECIAL REQUIREMENTS (C-FSS-370) (NOV 2001)

- a. Security Clearances: The Contractor may be required to obtain/possess varying levels of security clearances in the performance of orders issued under this contract. All costs associated with obtaining/possessing such security clearances should be factored into the price offered under the Multiple Award Schedule.
- b. Travel: The Contractor may be required to travel in performance of orders issued under this contract. Allowable travel and per diem charges are governed by Pub .L. 99-234 and FAR Part 31, and are reimbursable by the ordering agency or can be priced as a fixed price item on orders placed under the Multiple Award Schedule. The Industrial Funding Fee does NOT apply to travel and per diem charges.

NOTE: Refer to FAR Part 31.205-46 Travel Costs, for allowable costs that pertain to official company business travel in regard to this contract.

- c. Certifications, Licenses and Accreditations: As a commercial practice, the Contractor may be required to obtain/possess any variety of certifications, licenses and accreditations for specific FSC/service code classifications offered. All costs associated with obtaining/ possessing such certifications, licenses and accreditations should be factored into the price offered under the Multiple Award Schedule program.
- d. Insurance: As a commercial practice, the Contractor may be required to obtain/possess insurance coverage for specific FSC/service code classifications offered. All costs associated with obtaining/possessing such insurance should be factored into the price offered under the Multiple Award Schedule program.
- e. Personnel: The Contractor may be required to provide key personnel, resumes or skill category descriptions in the performance of orders issued under this contract. Ordering activities may require agency approval of additions or replacements to key personnel.
- f. Organizational Conflicts of Interest: Where there may be an organizational conflict of interest as determined by the ordering agency, the Contractor's participation in such order may be restricted in accordance with FAR Part 9.5.
- g. Documentation/Standards: The Contractor may be requested to provide products or services in accordance with rules, regulations, OMB orders, standards and documentation as specified by the agency's order.
- h. Data/Deliverable Requirements: Any required data/deliverables at the ordering level will be as specified or negotiated in the agency's order.
- i. Government-Furnished Property: As specified by the agency's order, the Government may provide property, equipment, materials or resources as necessary.
- j. Availability of Funds: Many Government agencies' operating funds are appropriated for a specific fiscal year. Funds may not be presently available for any orders placed under the contract or any option year. The Government's obligation on orders placed under this contract is contingent upon the availability of appropriated funds from which payment for ordering purposes can be made. No legal liability on the part of the Government for any payment may arise until funds are available to the ordering Contracting Officer.
- k. Overtime: For Professional services, the labor rates in the schedule should not vary by virtue of the Contractor having worked overtime. For services applicable to the Service Contract Act (as identified in the Schedule), the labor rates in the schedule will vary as governed by labor laws (usually assessed a time and a half of the labor rate.)

15. CONTRACT ADMINISTRATION FOR ORDERING ACTIVITIES: Any ordering activity, with respect to any one or more delivery orders placed by it under this contract, may exercise the same rights of termination as might the GSA Contracting Officer under provisions of FAR 52.212-4, paragraphs (l) Termination for the ordering activity's convenience, and (m) Termination for Cause (See C.1.)

16. GSA ADVANTAGE

GSA Advantage is an on-line, interactive electronic information and ordering system that provides on-line access to vendors' schedule prices with ordering information. GSA Advantage will allow the user to perform various searches across all contracts including, but not limited to:

- (1) Manufacturer
- (2) Manufacturer's Part Number
- (3) Product categories

Agencies can browse GSA Advantage by accessing the Internet World Wide Web utilizing a browser (ex.: Internet Explorer). The Internet address is <http://www.gsaadvantage.gov>

17. PURCHASE OF OPEN MARKET ITEMS

NOTE: Open Market Items are also known as incidental items, noncontract items, non-Schedule items, and items not on a Federal Supply Schedule contract. ODCs (Other Direct Costs) are not part of this contract and should be treated as open market purchases. Ordering Activities procuring open market items must follow FAR 8.402(f).

For administrative convenience, an ordering activity contracting officer may add items not on the Federal Supply Multiple Award Schedule (MAS) -- referred to as open market items -- to a Federal Supply Schedule blanket purchase agreement (BPA) or an individual task or delivery order, **only if-**

- (1) All applicable acquisition regulations pertaining to the purchase of the items not on the Federal Supply Schedule have been followed (e.g., publicizing (Part 5), competition requirements (Part 6), acquisition of commercial items (Part 12), contracting methods (Parts 13, 14, and 15), and small business programs (Part 19));
- (2) The ordering activity contracting officer has determined the price for the items not on the Federal Supply Schedule is fair and reasonable.
- (3) The items are clearly labeled on the order as items not on the Federal Supply Schedule; and
- (4) All clauses applicable to items not on the Federal Supply Schedule are included in the order.

18. CONTRACTOR COMMITMENTS, WARRANTIES AND REPRESENTATIONS

a. For this contract, commitments, warranties, and representations include, in addition to those agreed to for the entire schedule contract:

- (1) Time of delivery/installation quotations for individual orders.
- (2) Technical representations and/or warranties of products concerning performance, total system performance and/or configuration, physical, design and/or functional characteristics and capabilities of a product/equipment/ service/software package submitted in response to requirements which result in orders under this schedule contract.
- (3) Any representations and/or warranties concerning the products made in any literature, description, drawings and/or specifications furnished by the Contractor.

b. The above is not intended to encompass items not currently covered by the GSA Schedule contract.

19. OVERSEAS ACTIVITIES

The terms and conditions of this contract shall apply to all orders for installation, maintenance, and repair of equipment in areas listed in the pricelist outside the 48 contiguous states and the District of Columbia, except as indicated below:

None

Upon request of the Contractor, the ordering activity may provide the Contractor with logistics support, as available, in accordance with all applicable ordering activity regulations. Such ordering activity support will be provided on a reimbursable basis and will only be provided to the Contractor's technical personnel whose services are exclusively required for the fulfillment of the terms and conditions of this contract.

20. BLANKET PURCHASE AGREEMENTS (BPAs)

The use of BPAs under any schedule contract to fill repetitive needs for supplies or services is allowable. BPAs may be established with one or more schedule contractors. The number of BPAs to be established is within the discretion of the ordering activity establishing the BPA and should be based on a strategy that is expected to maximize the effectiveness of the BPA(s). Ordering activities shall follow FAR 8.405-3 when creating and implementing BPA(s).

21. CONTRACTOR TEAM ARRANGEMENTS

Contractors participating in contractor team arrangements must abide by all terms and conditions of their respective contracts. This includes compliance with Clauses 552.238-74, Industrial Funding Fee and Sales Reporting, i.e., each contractor (team member) must report sales and remit the IFF for all products and services provided under its individual contract.

22. INSTALLATION, DEINSTALLATION, REINSTALLATION

The Davis-Bacon Act (40 U.S.C. 276a-276a-7) provides that contracts in excess of \$2,000 to which the United States or the District of Columbia is a party for construction, alteration, or repair (including painting and decorating) of public buildings or public works with the United States, shall contain a clause that no laborer or mechanic employed directly upon the site of the work shall receive less than the prevailing wage rates as determined by the Secretary of Labor. The requirements of the Davis-Bacon Act do not apply if the construction work is incidental to the furnishing of supplies, equipment, or services. For example, the requirements do not apply to simple installation or alteration of a public building or public work that is incidental to furnishing supplies or equipment under a supply contract. However, if the construction, alteration, or repair is segregate and exceeds \$2,000, then the requirements of the Davis-Bacon Act apply.

The ordering activity issuing the task order against this contract will be responsible for proper administration and enforcement of the Federal labor standards covered by the Davis-Bacon Act. The proper Davis-Bacon wage determination will be issued by the ordering activity at the time a request for quotations is made for applicable construction classified installation, de-installation, and reinstallation services under SIN 33411

23. SECTION 508 COMPLIANCE

If applicable, Section 508 compliance information on the supplies and services in this contract are available in Electronic and Information Technology (EIT) at the following: N/A

The EIT standard can be found at: www.Section508.gov/

24. PRIME CONTRACTOR ORDERING FROM FEDERAL SUPPLY SCHEDULES.

Prime Contractors (on cost reimbursement contracts) placing orders under Federal Supply Schedules, on behalf of an ordering activity, shall follow the terms of the applicable schedule and authorization and include with each order –

- a. A copy of the authorization from the ordering activity with whom the contractor has the prime contract (unless a copy was previously furnished to the Federal Supply Schedule contractor); and
- b. The following statement:
This order is placed under written authorization from _____ dated _____. In the event of any inconsistency between the terms and conditions of this order and those of your Federal Supply Schedule contract, the latter will govern.

25. INSURANCE—WORK ON A GOVERNMENT INSTALLATION (JAN 1997) (FAR 52.228-5)

- a. The Contractor shall, at its own expense, provide and maintain during the entire performance of this contract, at least the kinds and minimum amounts of insurance required in the Schedule or elsewhere in the contract.
- b. Before commencing work under this contract, the Contractor shall notify the Contracting Officer in writing that the required insurance has been obtained. The policies evidencing required insurance shall contain an endorsement to the effect that any cancellation or any material change adversely affecting the Government's interest shall not be effective—
 - (1) For such period as the laws of the State in which this contract is to be performed prescribe; or
 - (2) Until 30 days after the insurer or the Contractor gives written notice to the Contracting Officer, whichever period is longer.
- c. The Contractor shall insert the substance of this clause, including this paragraph (c), in subcontracts under this contract that require work on a Government installation and shall require subcontractors to provide and maintain

the insurance required in the Schedule or elsewhere in the contract. The Contractor shall maintain a copy of all subcontractors' proofs of required insurance and shall make copies available to the Contracting Officer upon request.

26. SOFTWARE INTEROPERABILITY.

Offerors are encouraged to identify within their software items any component interfaces that support open standard interoperability. An item's interface may be identified as interoperable based on participation in a Government agency-sponsored program or in an independent organization program. Interfaces may be identified by reference to an interface registered in the component registry located at <http://www.core.gov>

27. ADVANCE PAYMENTS

A payment under this contract to provide a service or deliver an article for the United States Government may not be more than the value of the service already provided or the article already delivered. Advance or pre-payment is not authorized or allowed under this contract. (31 U.S.C. 3324)

**TERMS AND CONDITIONS APPLICABLE TO PURCHASE OF
GENERAL PURPOSE COMMERCIAL INFORMATION TECHNOLOGY NEW EQUIPMENT
(SPECIAL ITEM NUMBER 33411)**

1. MATERIAL AND WORKMANSHIP

All equipment furnished hereunder must satisfactorily perform the function for which it is intended.

2. ORDER

Written orders, EDI orders (GSA *Advantage!* and FACNET), credit card orders, and orders placed under blanket purchase agreements (BPA) agreements shall be the basis for purchase in accordance with the provisions of this contract. If time of delivery extends beyond the expiration date of the contract, the Contractor will be obligated to meet the delivery and installation date specified in the original order.

For credit card orders and BPAs, telephone orders are permissible.

3. TRANSPORTATION OF EQUIPMENT

FOB DESTINATION. Prices cover equipment delivery to destination, for any location within the geographic scope of this contract.

4. INSTALLATION AND TECHNICAL SERVICES

- a. **INSTALLATION.** When the equipment provided under this contract is not normally self-installable, the Contractor's technical personnel shall be available to the ordering activity, at the ordering activity's location, to install the equipment and to train ordering activity personnel in the use and maintenance of the equipment. The charges, if any, for such services are listed below, or in the price schedule: SATCOM supports the installation and re-installation of the products per their Standard Commercial Warranty.

- b. **INSTALLATION, DEINSTALLATION, REINSTALLATION.** The Davis-Bacon Act (40 U.S.C. 276a-276a-7) provides that contracts in excess of \$2,000 to which the United States or the District of Columbia is a party for construction, alteration, or repair (including painting and decorating) of public buildings or public works with the United States, shall contain a clause that no laborer or mechanic employed directly upon the site of the work shall receive less than the prevailing wage rates as determined by the Secretary of Labor. The requirements of the Davis-Bacon Act do not apply if the construction work is incidental to the furnishing of supplies, equipment, or services. For example, the requirements do not apply to simple installation or alteration of a public building or public work that is incidental to furnishing supplies or equipment under a supply contract. However, if the construction, alteration, or repair is segregable and exceeds \$2,000, then the requirement of the Davis-Bacon Act applies. The ordering activity issuing the task order against this contract will be responsible for proper administration and enforcement of the Federal labor standards covered by the Davis-Bacon Act. The proper Davis-Bacon wage determination will be issued by the ordering activity at the time a request for quotations is made for applicable construction classified installation, de-installation, and reinstallation services under SIN 33411.

- c. **OPERATING AND MAINTENANCE MANUALS.** The Contractor shall furnish the ordering activity with one (1) copy of all operating and maintenance manuals which are normally provided with the equipment being purchased.

5. INSPECTION/ACCEPTANCE

The Contractor shall only tender for acceptance those items that conform to the requirements of this contract. The ordering activity reserves the right to inspect or test any equipment that has been tendered for acceptance. The ordering activity may require repair or replacement of nonconforming equipment at no increase in contract price. The ordering activity must exercise its post acceptance rights (1) within a reasonable time after the defect was discovered or should have been discovered; and (2) before any substantial change occurs in the condition of the item, unless the change is due to the defect in the item.

6. WARRANTY

- a. Unless specified otherwise in this contract, the Contractor's standard commercial warranty as stated in the contract's commercial pricelist will apply to this contract. Satcom's Standard Commercial Warranty applies.
- b. The Contractor warrants and implies that the items delivered hereunder are merchantable and fit for use for the particular purpose described in this contract.
- c. Limitation of Liability. Except as otherwise provided by an express or implied warranty, the Contractor will not be liable to the ordering activity for consequential damages resulting from any defect or deficiencies in accepted items.
- d. If inspection and repair of defective equipment under this warranty will be performed at the Contractor's plant, the address is as follows:

[Satcom Direct Communications, Inc.](#)
[1050 Satcom Lane, Melbourne FL 32940](#)
[Tel: \(321\) 777-3000 Fax: \(321\) 777-3702](#)

7. PURCHASE PRICE FOR ORDERED EQUIPMENT

The purchase price that the ordering activity will be charged will be the ordering activity purchase price in effect at the time of order placement, or the ordering activity purchase price in effect on the installation date (or delivery date when installation is not applicable), whichever is less.

8. RESPONSIBILITIES OF THE CONTRACTOR

The Contractor shall comply with all laws, ordinances, and regulations (Federal, State, City or otherwise) covering work of this character, and shall include all costs, if any, of such compliance in the prices quoted in this offer.

9. TRADE-IN OF INFORMATION TECHNOLOGY EQUIPMENT

When an ordering activity determines that Information Technology equipment will be replaced, the ordering activity shall follow the contracting policies and procedures in the Federal Acquisition Regulation (FAR), the policies and procedures regarding disposition of information technology excess personal property in the Federal Property Management Regulations (FPMR) (41 CFR 101-43.6), and the policies and procedures on exchange/sale contained in the FPMR (41 CFR part 101-46).

10. PRICING

Pricing for all Satcom Direct Communications, Inc. products listed under SIN 33411 are as follows:

Iridium Satellite Phones and Equipment

CLIN	Part Number	Product Description	Unit of Measure	GSA Price
800000	APKT0401	Iridium 9505A Satellite Phone - Includes the following: AC Travel Charger, International Plug Kit, one Rechargeable Li-Ion Battery, DC Auto Adapter, Antenna Adapter, 5ft. 800008	ADK0602	9505A Data Kit	each	\$130.75
800009	BAT0602	Rechargeable Li-Ion Battery for Iridium 9505a	each	\$95.00
800010	MXTENA1401-TNC	Iridium Portable Magnetic Antenna 5ft	each	\$105.00
800011	AAA0601	Auxiliary Antenna Adapter for 9500, 9505, and 9505a	each	\$46.00
800012	ANT0501	9505/9505A Replacement Antenna	each	\$175.00
800013	S31R16RR-P-XTB-1	Iridium Aero Antenna w/ FAA Certification	each	\$447.10
800014	AT621-73W	Fixed Mast Antenna	each	\$207.10
800015	AT1621-12B	Portable Magnetic Antenna 15ft	each	\$194.46
800016	ASE-MC03-D	9505A Docking Station (Can support DPL Handset)	each	\$1,925.75
800017	ASE-MC03-DOD	9505A Docking Station for use with Secure Sleeve	each	\$2,195.00
800018	ASE-DK075	9555 Docking Station-075 (uses RJ-11 Analog or RJ-45 DPL Handset)	each	\$1,591.75
800019	ASE-DK050	9555 Docking Station-050 (requires RJ-45 DPL Handset)	each	\$957.50
800020	DPLS-0401	DPL Handset for 9505A / 9555 Docking Stations	each	\$229.25
800021	LC-IR9505	Pelican Case for Iridium 9505, 9505A phones and Iridium GO!	each	\$93.00
800022	LC-IR9555	Pelican Case for Iridium 9555 and 9575 Extreme, and 9575A Phones	each	\$93.00
800023	CRG1019	SolStar Solar Charger for Iridium 9505, 9505a, 9555, 9575 and 9575A Phones	each	\$402.52
800024	SAT-CHG1-9505	Single Bay Battery Charger 9505/9505A	each	\$147.05
800025	SAT-CHG4-9505	Four Bay Battery Charger 9505/9505A	each	\$550.08
800026	SAT-CHG1-9555	Single Bay Battery Charger 9555	each	\$147.05
800027	SD15M	Aero Cable Kit	each	\$308.26
800028	5FT-BNC-TNC	BNC to CNC Coax Aero Cable - 5ft	each	\$72.49
800029	SKN6121B	Customized 10 Meter Cable Kit	each	\$195.00
800030	SMN-30062	15Meter Coax Cable	each	\$261.91
800031	SMN-30063	20 Meter Coax Cable	each	\$318.34
800032	CBL-30M-IRID	30 Meter Coax Cable	each	\$388.87
800033	ANT1015	Iridium Suction Cup Mount Antenna 196in (6.3ft)	each	\$225.00
800034	ACC1020	SMA Mate to TNC Female Cable / Iridium GO! antenna Adapter Cable	each	\$44.00
800035	SMAm_TNCF-S	SMA Male to TNC Female Adapter - Straight	each	\$19.25
800036	SMAm_TNCF-A	SMA Male to TNC Female Adapter - Angled	each	\$19.25

Inmarsat IsatPhone Equipment

CLIN	Part Number	Product Description	Unit of Measure	GSA Price
IsatPhone 2 And IsatPhone Accessories				
810000	136080	IsatPhone 2 - Includes the following: AC Charger, International Plug Kit, DC Charger, Rechargeable Li-Ion Battery, Hands Free Headset, Micro USB Cable, Wrist Strap, User Manual, CD, Warranty, Satcom Directs' Customized Quick Reference Guide	each	\$973.00
810001	159590	Magnetic Mount Antenna for IsatPhone Pro / IsatPhone 2	each	\$316.75
810002	PEL 1300ISAT2	Pelican Case for IsatPhone 2	each	\$83.25
810003	PEL 1200ISATPRO	Pelican Case for IsatPhone Pro	each	\$83.25
810004	SolStar T-12i	SolStar Solar Charger for IsatPhone Pro and IsatPhone 2	each	\$402.52

Broadband Global Area Network (BGAN) Satellite Terminals and Accessories

CLIN	Part Number	Product Description	Unit of Measure	GSA Price
BGAN Explorer 510 And Accessories				
820000	403711A-00500	Cobham Explorer 510, Portable BGAN Unit - Includes the following: Standard IP up to 464kbps, Streaming IP up to 128 kbps, Voice and Video Conference Capable, Li-Ion Battery, AC/DC Charger, Soft Carrying Case, USB to Ethernet Converter Cable, Satcom Direct's Customized Quick Reference Guide. Uses the Connect App to convert your Andriod or iOS phone into a satellite phone allowing voice calls through the unit.	each	\$2,199.50
820001	403682P	AC/DC Power Supply	each	\$134.17
820002	403650A-009	Car Charger Cable	each	\$70.45
BGAN Explorer 710 And Accessories				
820003	403720B-00500	Cobham Explorer 710, Portable BGAN Unit - Includes the following: Max Data Rate: Uplink 650kbps, downlink 650kbps (Symmetrical) or Uplink 650kbit/s, downlink 64kbit/s (Asymmetrical), Streaming IP: 32, 64, 128, 256 kbps, BGAN X-Stream. Capable of bonding 2 units together to double throughput. 1 ISDN interface, 2 LAN Interfaces Supporting Multiple Users (RJ45), 1 USB Interface (2.0), Built In Wi-Fi, Built-In Bluetooth Interface, One 2-wire Phone Interface (RJ11), Built-In Web Server For Set-Up and Configuration, Li-Ion Battery, AC/DC Charger, 2M ISDN/LAN Cable, Quick Reference Guide.	each	\$5,450.00
820004	403650A-920	Pole Mount Kit	each	\$339.68
820005	403686G	Battery Pack	each	\$260.00
820006	403625A	Bluetooth Handset Plus Charger	each	\$555.84
820007	403682P	AC/DC Power Supply	each	\$134.17
820008	403650A-009	Car Charger Cable	each	\$70.45
820009	403625A-003	Desktop Charger Cradle for Bluetooth Handset	each	\$104.22
820010	403625B	Explorer 2-Wire Handset	each	\$163.09
BGAN Explorer 727				
820011	403722A-2000	Cobham Explorer 727, Vehicular BGAN Terminal - Includes the following: Max Data Rate: Uplink 432 kbps, Downlink 432 kbps, Explorer 727 Terminal, Explorer 727 Antenna, Antenna Cable - Coax w/TNC plug (8.8ft and 26ft), Standard Ethernet Cable (16.4ft), 24 VDC Input Cable (19.7ft), Thrane IP Handset w/Cradle and Terminal, Antenna Mounting Kit, Cable Support	each	\$18,424.72
BGAN Explorer 300 Accessories				
820012	403650A-922	Pole Mount Kit	each	\$186.25
820013	403686L	Battery Pack	each	\$204.58
820014	403625A	Bluetooth Handset Plus Charger	each	\$555.84
820015	403682L	AC/DC Power Supply	each	\$143.79
820016	403650A-009	Car Charger Cable	each	\$70.45
820017	403625A - CRADLE	Desktop Charger Cradle for Bluetooth Handset	each	\$104.22
820018	LC-1450	Pelican Case - Explorer 300/500	each	\$206.25
BGAN Explorer 500 Accessories				
820019	403650A-922	Pole Mount Kit	each	\$186.25
820020	403686L	Battery Pack	each	\$204.58
820021	403625A	Bluetooth Handset Plus Charger	each	\$555.84
820022	403682L	AC/DC Power Supply	each	\$143.79
820023	403650A-009	Car Charger Cable	each	\$70.45
820024	403625A-003	Desktop Charger Cradle for Bluetooth Handset	each	\$104.22
820025	LC-1450	Pelican Case - Explorer 300/500	each	\$206.25
BGAN Explorer 700 Accessories				
820026	403650A-920	Pole Mount Kit	each	\$339.68
820027	403686P	Battery Pack	each	\$287.57
820028	403625A	Bluetooth Handset Plus Charger	each	\$555.84
820029	403682P	AC/DC Power Supply	each	\$134.17
820030	403650A-009	Car Charger Cable	each	\$70.45
820031	403625A-003	Desktop Charger Cradle for Bluetooth Handset	each	\$104.22
820032	403625B	Explorer 2-Wire Handset	each	\$163.09
820033	LC-1550	Pelican Case - Explorer 700	each	\$255.25

Cobham Aviator Systems and Accessories

CLIN	Part Number	Product Description	Unit of Measure	GSA Price
Aviator System Antennas				
830000	405430A-001	Aviator UAV 200	each	\$45,450.00
830001	403002-001	Low Gain Antenna (LGA)	each	\$2,930.00
830002	405103A	LGA-3000, Includes built-in GPS antenna	each	\$4,885.00
830003	405001A-PMA	IGA-5001, Intermediate Gain Antenna ³	each	\$21,486.00
830004	405009A-001	HGA-6000 High Gain Antenna - Variation 001	each	\$51,310.00

WiFi unit, Two Li-Ion Batteries, External Antenna Adapter Cable, FAA Fuselage Mount Antenna, AC Travel Charger w/International Plug Kit, DC Auto Accessory Power Adapter, Protective Plastic Cover, Mini-USB Cable, User Guide	each	\$1,690.00
Satcom Direct Disaster Kits				
890050	SDC9555DPK	Satcom Direct Iridium 9555 Disaster Preparedness Kit - Includes the following: AC Travel Charger, International Plug Kit, one Rechargeable Li-Ion Battery, DC Auto Adapter, Antenna Adapter, 5ft. Portable Magnetic Antenna, Leather Holster, Hands Free Earpiece, Mini-USB Cable, CD-ROM Data Kit, Users Manual, and Satcom Direct's Customized Quick Reference Guide, Iridium 9555 Satellite Phone w/warranty, and a custom Pelican case.	each	\$1,510.00
890051	SDC9575DPK	Satcom Direct Iridium 9575 Extreme Disaster Preparedness Kit with S.O.S and GPS - Includes the following: AC Travel Charger, International Plug Kit, one Rechargeable Li-Ion Battery, DC Auto Adapter, Antenna Adapter, 5ft. Portable Magnetic Antenna, Leather Holster, Hands Free Earpiece, Mini-USB Cable, CD-ROM Data Kit, Users Manual, Satcom Direct's Customized Quick Reference Guide, Iridium 9575 Satellite Phone w/warranty, and a custom Pelican case.	each	\$1,710.00
890052	SDC136080DPK	Satcom Direct Inmarsat IsatPhone 2 Disaster Preparedness Kit - Includes the following: AC Charger, International Plug Kit, DC Charger, Rechargeable Li-Ion Battery, Hands Free Headset, Micro USB Cable, Wrist Strap, User Manual, CD, Warranty, Satcom Direct's Customized Quick Reference Guide in a custom Pelican case.	each	\$1,100.00
890053	SDC9560DPK	Satcom Direct Satellite WiFi Disaster Preparedness Kit - Includes the following: 1300 Series Pelican® Case with Custom Foam Inserts, Iridium GO! WiFi unit, Two Li-Ion Batteries, External Antenna Adapter Cable, Portable Magnetic Auxiliary Antenna w/5' coax cable, AC Travel Charger w/International Plug Kit, DC Auto Accessory Power Adapter, Protective Plastic Cover, Mini-USB Cable, User Guide	each	\$1,310.00
890054	SDC9560CCDPK	Satcom Direct Satellite WiFi Command Center Disaster Preparedness Kit - Includes the following: 1300 Series Pelican® Case with Custom Foam Inserts, Iridium GO! WiFi unit, Two Li-Ion Batteries, External Antenna Adapter Cable, Portable Fixed Mast Auxiliary Antenna, Portable Magnetic Auxiliary Antenna w/5' coax cable AC Travel Charger w/International Plug Kit, DC Auto Accessory Power Adapter, Protective Plastic Cover, Mini-USB Cable, User Guide	each	\$1,520.00
Satcom Direct First Responder Kits				
890055	SDC9555FRK	Satcom Direct Iridium 9555 First Responder Kit - Includes the following: AC Travel Charger, International Plug Kit, one Rechargeable Li-Ion Battery, DC Auto Adapter, Antenna Adapter, 5ft. Portable Magnetic Antenna, Leather Holster, Hands Free Earpiece, Mini-USB Cable, CD-ROM Data Kit, Users Manual, and Satcom Direct's Customized Quick Reference Guide, Iridium 9555 Satellite Phone w/warranty, in a custom rugged vinyl bag.	each	\$1,325.00
890056	SDC9575FRK	Satcom Direct Iridium 9575 Extreme First Responder Kit with S.O.S and GPS - Includes the following: AC Travel Charger, International Plug Kit, one Rechargeable Li-Ion Battery, DC Auto Adapter, Antenna Adapter, 5ft. Portable Magnetic Antenna, Leather Holster, Hands Free Earpiece, Mini-USB Cable, CD-ROM Data Kit, Users Manual, and Satcom Direct's Customized Quick Reference Guide, Iridium 9575 Satellite Phone w/warranty, in a custom rugged vinyl bag.	each	\$1,465.00
890057	SDC136080FRK	Satcom Direct Inmarsat IsatPhone 2 First Responder Kit - Includes the following: AC Charger, International Plug Kit, DC Charger, Rechargeable Li-Ion Battery, Hands Free Headset, Micro USB Cable, Wrist Strap, User Manual, CD, Warranty, Satcom Direct's Customized Quick Reference Guide in a custom rugged vinyl bag.	each	\$1,025.00
890058	SDC9560FRK	Satcom Direct Satellite WiFi First Responder Kit - Includes the following: customized vinyl carry bag designed to hold all equipment, Iridium GO! WiFi unit, Two Li-Ion Batteries, External Antenna Adapter Cable, Portable Magnetic Auxiliary Antenna w/5' coax cable, AC Travel Charger w/International Plug Kit, DC Auto Accessory Power Adapter, Protective Plastic Cover, Mini-USB Cable, User Guide	each	\$1,105.00

812086	1242-K-0001-531	AMT-3800 AC Black. Kit Includes the following: AMT-3800 Intermediate Gain Antenna (Integral BSU) DLNA Type F	each	\$98,850.00
AMT-3800 (28V DC) High Gain Antenna System with Type F DLNA				
812087	1242-K-0001-502	AMT-3800 DC White. Kit Includes the following: AMT-3800 Intermediate Gain Antenna (Integral BSU) DLNA ARINC 781 Type F	each	\$98,850.00
812088	1242-K-0001-522	AMT-3800 DC Gray. Kit Includes the following: AMT-3800 Intermediate Gain Antenna (Integral BSU) DLNA ARINC 781 Type F	each	\$98,850.00
812089	1242-K-0001-532	AMT-3800 DC Black. Kit Includes the following: AMT-3800 Intermediate Gain Antenna (Integral BSU) DLNA ARINC 781 Type F	each	\$98,850.00
AMT-3800 Antenna Interface Mounts (Fuselage Adapter Plates)				
812090	1242-F-0411-01	Boeing B737/BBJ/B757 Antenna Interface Mount	each	\$18,350.00
812091	1242-F-0341-01	Airbus A330/A340 Antenna Interface Mount	each	\$18,440.00
812092	1242-K-0310-01	King Air C-12 Mounting Kit - White	each	\$10,245.00
812093	1242-K-0310-02	King Air C-12 Mounting Kit - Gray	each	\$10,295.00
812094	1242-F-0371-01	Dash-8 Mounting Plate - White	each	\$18,750.00
812095	1242-F-0371-02	Dash-8 Mounting Plate - Gray	each	\$18,750.00
AMT-3800 Spares and Accessories				
812096	1242-A-0010-01	Antenna Assembly 115V AC (Includes Internal BSU) - White	each	\$91,664.00
812097	1242-A-0010-21	Antenna Assembly 115V AC (Includes Internal BSU) - Gray	each	\$91,664.00
812098	1242-A-0010-31	Antenna Assembly 115V AC (Includes Internal BSU) - Black	each	\$91,664.00
812099	1242-A-0010-02	Antenna Assembly 28V DC (Includes Internal BSU) - White	each	\$91,664.00
812100	1242-A-0010-22	Antenna Assembly 28V DC (Includes Internal BSU) - Gray	each	\$91,664.00
812101	1242-A-0010-32	Antenna Assembly 28V DC (Includes Internal BSU) - Black	each	\$91,664.00
812102	1242-A-0006	DLNA Type F	each	\$22,880.00
812103	1242-A-0005	DLNA Type A Modified (non-SBB)	each	\$39,075.00
812104	1242-F-0296-01	AMT-3800 Antenna Mount NON-Conductive Gasket	each	\$715.00
812105	1242-F-0121	AMT-3500/3800 Maintenance Cable	each	\$6,450.00
812106	1242-F-0295	AMT-3800 HGA Erosion Mask	each	\$985.00
812107	1242-K-0290-01	AMT3500/3800 Connector Kit (Common to both antennas)	each	\$765.00
Radoms for Gulfstream GII, GIIB, GIII, GIV, G350, G400, and G450				
812108	1101-A-1300	Gulfstream 3 Piece Radom, when purchased WITH AMT-50 or other EMS Technologies Antenna	each	\$77,910.00
812109	1101-A-1300X	Gulfstream 3 Piece Radom, when purchased WITHOUT AMT-50 or other EMS Technologies Antenna	each	\$101,600.00
Radoms and Supplemental Type Certificates (STCs) for Falcon 900 and 50				
812110	1101-K-1910	Falcon Radom when purchased with AMT-50 or other EMS Aviation antenna	each	\$119,895.00
812111	1101-K-1910X	Falcon Radom when purchased WITHOUT AMT-50 or other EMS Aviation antenna	each	\$163,450.00
812112	ST00711WI	STC for Falcon Aircraft	each	\$11,270.00

**TERMS AND CONDITIONS APPLICABLE TO PURCHASE OF
CLOUD COMPUTING SERVICES
(SPECIAL ITEM NUMBER 518210C)**

1. SCOPE

The prices, terms and conditions stated under Special Item Number (SIN) 518210C Cloud Computing Services apply exclusively to Cloud Computing Services within the scope of this Information Technology Schedule.

This SIN provides ordering activities with access to technical services that run in cloud environments and meet the NIST Definition of Cloud Computing Essential Characteristics. Services relating to or impinging on cloud that do not meet all NIST essential characteristics should be listed in other SINs.

The scope of this SIN is limited to cloud capabilities provided entirely as a service. Hardware, software and other artifacts supporting the physical construction of a private or other cloud are out of scope for this SIN. Currently, an Ordering Activity can procure the hardware and software needed to build on premise cloud functionality, through combining different services on other Multiple Award Schedule and FSC Group Information Technology SINs (e.g. 541515).

Sub-categories in scope for this SIN are the three NIST Service Models: Software as a Service (SaaS), Platform as a Service (PaaS), and Infrastructure as a Service (IaaS). Offerors may optionally select a single sub-category that best fits a proposed cloud service offering. Only one sub-category may be selected per each proposed cloud service offering. Offerors may elect to submit multiple cloud service offerings, each with its own single sub-category. The selection of one of three sub-categories does not prevent Offerors from competing for orders under the other two sub-categories.

See service model guidance for advice on sub-category selection.

Sub-category selection within this SIN is optional for any individual cloud service offering, and new cloud computing technologies that do not align with the aforementioned three sub-categories may be included without a sub-category selection so long as they comply with the essential characteristics of cloud computing as outlined by NIST.

See Table 1 for a representation of the scope and sub-categories.

Table 1: Cloud Computing Services SIN

SIN Description	Sub-Categories ¹
<ul style="list-style-type: none"> ● Commercially available cloud computing services ● Meets the National Institute for Standards and Technology (NIST) definition of Cloud Computing essential characteristics ● Open to all deployment models (private, public, community or hybrid), vendors specify deployment models 	<ol style="list-style-type: none"> 1. Software as a Service (SaaS): Consumer uses provider’s applications on cloud infrastructure. Does not manage/control platform or infrastructure. Limited application level configuration may be available. 2. Platform as a Service (PaaS): Consumer deploys applications onto cloud platform service using provider-supplied tools. Has control over deployed applications and some limited platform configuration but does not manage the platform or infrastructure. 3. Infrastructure as a Service (IaaS): Consumer provisions computing resources. Has control over OS, storage, platform, deployed applications and some limited infrastructure configuration, but does not manage the infrastructure.

Custom Data Center Solutions

Let us meet your business needs for connectivity, virtualization, network and data security, power, space and cooling – or any combination of these – all custom-designed to your specifications

Information security is a pressing issue for businesses and individuals. SD Data Center provides total solutions for safeguarding connectivity and communications streams and to support our customer’s missions, wherever they are. Headquartered in Melbourne, FL, SD Data Center’s 25,000-sq-ft facility is built to Tier III standards, incorporates state-of-the-art data center construction techniques and is designed to withstand a Category 5 hurricane.

SD Data Center provides secure, custom-engineered solutions designed to fit each customer’s unique business requirements. Services include colocation, virtualization and high-availability offerings, network design, and cloud capabilities proven to increase productivity and reduce IT costs. SD Data Center’s engineering team is available 24/7/365 for consulting and custom design support, including full cloud migration.

SD Data Center has leveraged its commitment to customers for secure data storage and protection by meeting and passing compliance controls and standards, including SSAE 16 Soc 1 Type II, ISAE 3402, HIPAA/HITECH, PCI-DSS, and FISMA.

Whether you need rack space, a private network, or full migration to the cloud, SD Data Center has the expertise and the capabilities. With our highly-redundant infrastructure and 24/7 support, we do everything possible to ensure 100% uptime and uninterrupted service.

To learn about SD Data Center’s custom data security solutions, visit www.sddatacenter.com or call +1 321.610.5900.

Services Offered:

- Colocation
 - Rack unit, cabinet, cage
- Hybrid Cloud
- Private or Public Cloud
- Cloud Migration
- Business Continuity/Disaster Recovery
- Connectivity
 - Ground & Satellite options
- Internet
- Security
- Compliance
- Engineering Design & Consulting
- HaaS, IaaS, SaaS

Providing Custom Data Center Solutions

Facility: Built to Last

Structure

- Purpose built, standalone, windowless structure rated to withstand 185+ MPH sustained winds
- 8" thick solid concrete walls with steel reinforcement
- Poured concrete over steel roof with multi-layer protective membrane
- 24" raised flooring in data center

Power and cooling

- N+1 Generac Bi-Fuel Generators
- N+1 APC Modular UPS
- N+1 Liebert CRAC Units
- APC Infrastructure DCIM

Compliance

- SSAE 16 SOC 1 Type 2 Audited, ISAE 3402, HIPAA/HITECH, PCI-DSS, FISMA-ready
- CJIS & ITAR ready

Security: Built to Protect

Physical Security

- All colocation protected by redundant N+1 UPS systems, generators, and cooling units
- Environmental monitoring to include temperature, humidity, and leak detection
- Mantrap at facility entrance
- 24/7 on-site security personnel
- Recorded video surveillance with minimum 90-day retention
- Multi Factor Authentication access control system

Virtual Security

- Continuous vulnerability scanning service
- Protected by intrusion detection and prevention systems
- Physical and virtual firewall options
- Custom security deployments
- NOC/SOC Operations
- Monitoring and logging of all systems
- Data storage encryption

Consulting: Built to Serve

Custom Solutions

- Engineering and design
- Full cloud migration
- Management and reporting

Cloud | Data Center | Onsite | Managed Solutions

Connectivity: Built to Network

Multiple on-net providers

- AT&T
- CenturyLink
- Level 3
- Spectrum
- TW Telecom

Options

- Fixed and metered bandwidth billing options
- Private network options
- Multi-homed internet offering with diverse fiber entry points
- Carrier Neutral - bring any provider of your choice

Colocation: Built to Sustain

Hosting Locations

- Melbourne, FL
- Corporate Headquarters
- Denver, CO
- ViaWest Compark Data Center Complex
- Southbury, CT
- COMSAT Teleport
- Santa Paula, CA
- COMSAT Teleport

General

- 100% Power SLA
- 24x7x365 unescorted access
- All colocation protected by redundant N+1 UPS systems, generators, and cooling units

Cabinet, cage or private suite

- Cabinet
- 42U or 48U private locking cabinet
- Fully redundant power options available starting at 120V/20A

Cage

- Private security cages starting at 10'x10'
- Multiple space & power configuration options available
- Multiple rack and cabinet options available

Private Suite

- Build to suit based on your specific requirements
- Power, cooling, and security are all customizable
- From 2,000 sq ft up to 8,000 sq ft

**TERMS AND CONDITIONS APPLICABLE TO PURCHASE OF TRAINING COURSES FOR GENERAL PURPOSE COMMERCIAL INFORMATION TECHNOLOGY EQUIPMENT AND SOFTWARE
(SPECIAL ITEM NUMBER 611420)**

1. SCOPE

- a. The Contractor shall provide training courses normally available to commercial customers, which will permit ordering activity users to make full, efficient use of general purpose commercial IT products. Training is restricted to training courses for those products within the scope of this solicitation.
- b. The Contractor shall provide training at the Contractor's facility and/or at the ordering activity's location, as agreed to by the Contractor and the ordering activity.

2. ORDER

Written orders, EDI orders (GSA Advantage! and FACNET), credit card orders, and orders placed under blanket purchase agreements (BPAs) shall be the basis for the purchase of training courses in accordance with the terms of this contract. Orders shall include the student's name, course title, course date and time, and contracted dollar amount of the course.

3. TIME OF DELIVERY

The Contractor shall conduct training on the date (time, day, month, and year) agreed to by the Contractor and the ordering activity.

4. CANCELLATION AND RESCHEDULING

- a. The ordering activity will notify the Contractor at least seventy-two (72) hours before the scheduled training date, if a student will be unable to attend. The Contractor will then permit the ordering activity to either cancel the order or reschedule the training at no additional charge. In the event the training class is rescheduled, the ordering activity will modify its original training order to specify the time and date of the rescheduled training class.
- b. In the event the ordering activity fails to cancel or reschedule a training course within the time frame specified in paragraph a, above, the ordering activity will be liable for the contracted dollar amount of the training course. The Contractor agrees to permit the ordering activity to reschedule a student who fails to attend a training class within ninety (90) days from the original course date, at no additional charge.
- c. The ordering activity may reserve the right to substitute one student for another up to the first day of class.
- d. In the event the Contractor is unable to conduct training on the date agreed to by the Contractor and the ordering activity, the Contractor must notify the ordering activity at least seventy-two (72) hours before the scheduled training date.

5. FOLLOW-UP SUPPORT

The Contractor agrees to provide each student with unlimited telephone support or online support for a period of 30 days from the completion of the training course. During this period, the student may contact the Contractor's instructors for refresher assistance and answers to related course curriculum questions.

6. PRICE FOR TRAINING

The price that the ordering activity will be charged will be the ordering activity training price in effect at the time of order placement, or the ordering activity price in effect at the time the training course is conducted, whichever is less.

7. INVOICES AND PAYMENT

Invoices for training shall be submitted by the Contractor after ordering activity completion of the training course. Charges for training must be paid in arrears (31 U.S.C. 3324). PROMPT PAYMENT DISCOUNT, IF APPLICABLE, SHALL BE SHOWN ON THE INVOICE. A fee of 1% of the balance each month the invoice has not been paid will be applied.

8. FORMAT AND CONTENT OF TRAINING

- a. The Contractor shall provide written materials (i.e., manuals, handbooks, texts, etc.) normally provided with course offerings, printed and copied two-sided on paper containing 30% post-consumer materials (fiber). Such documentation will become the property of the student upon completion of the training class.
- b. ****If applicable**** For hands-on training courses, there must be a one-to-one assignment of IT equipment to students.
- c. The Contractor shall provide each student with a Certificate of Training at the completion of each training course.
- d. The Contractor shall provide the following information for each training course offered:
 - (1) The course title and a brief description of the course content, to include the course format (e.g., lecture, discussion, hands-on training);
 - (2) The length of the course;
 - (3) Mandatory and desirable prerequisites for student enrollment;
 - (4) The minimum and maximum number of students per class;
 - (5) The locations where the course is offered;
 - (6) Class schedules; and
 - (7) Price (per student, per class (if applicable)).
- e. For those courses conducted at the ordering activity’s location, instructor travel charges (if applicable), including mileage and daily living expenses (e.g., per diem charges) are governed by Pub. L. 99-234 and FAR Part 31.205-46, and are reimbursable by the ordering activity on orders placed under the Multiple Award Schedule, as applicable, in effect on the date(s) the travel is performed. Contractors cannot use GSA city pair contracts. The Industrial Funding Fee does NOT apply to travel and per diem charges.

9. “NO CHARGE” TRAINING

The Contractor shall describe any training provided with equipment and/or software provided under this contract, free of charge, in the space provided below.

DESCRIPTION OF SATCOM DIRECT COMMUNICATIONS TRAINING COURSES

Satcom Direct® AeroIT Certification

Satcom Direct® AeroIT has created the first Aeronautical Certification class to focus on the configuration, management, and troubleshooting of networks and satellite systems onboard aircraft. Satcom Direct Communications currently offers this course at any of our office locations, as well as any other specific location at the government’s request. Classes can be purchased for students taking the class at once, or can be purchased in advanced using a credit system. The credit system allows agencies to buy classes ahead of time allowing them to schedule and send their personnel at any time.

aeroIT - The IT Certification for Aviation

Communications, avionics, and network systems onboard aircraft are more complex than ever, and the skillset to support them is critical – that's why aviation and IT professionals need aeroIT.

The three (3) year aeroIT certification is an information technology certification for the configuration and troubleshooting of IP networks, and communication systems onboard an aircraft. aeroIT is a professional credential, not just a certificate. It is similar and complementary to the CompTia Network+, or Cisco CCENT certification, industry standards for IT networking professionals.

Exam and Coursework

The aeroIT exam and coursework focus on four (4) areas:

- Satellite networks
- IP network theory
- Troubleshooting aircraft networks
- Network management

Course Length

Four (4) days of classroom training and coursework review, followed by the opportunity to take the exam

Who Should Attend?

- IT and aviation professionals with experience in aircraft networking
- Less experienced professionals who require a foundation of knowledge and skills regarding networking and internet connectivity
- Experienced professionals who have a foundation of field experience, but need or want to advance their knowledge or skills, perhaps to achieve advanced certifications or accreditation
- Management professionals in the aviation field who need or want to gain a better understanding of their aircraft systems

aeroCNCT

Crewmember Network & Connectivity Training

Staying connected in flight has become a necessity, but with communications, avionics, and network systems being more complex than ever, you can't always travel with your IT department to troubleshoot when problems occur – that's why crewmembers need aeroCNCT.

The aeroCNCT certification is geared toward flight department crewmembers to gain device knowledge and troubleshoot basic in-flight connectivity issues, related to passenger devices.

aeroCNCT is more than a certificate; it's a professional credential developed with CompTia in order to meet industry standards. The three (3) year certification was developed to create a standard in cabin connectivity education.

Exam and Coursework

The aeroCNCT exam and coursework focus on five (5) areas:

- Internet basics
- Device connectivity familiarization
- Cabin network management
- Network application and tools
- Flight operation preparation

Course Length

Two (2) days, of classroom training and coursework, followed by the opportunity to take the exam

Who Should Attend?

- Flight department crewmembers with varied degrees of experience who are looking to gain device knowledge of today's popular devices used by passengers and crew, in addition to troubleshooting basic connectivity and networking issues

aeroIT and aeroCNCT Certification Requirements

Candidates must pass their respective proctored exam through Pearson Vue, the leading provider of global computer-based testing solutions, and professional examinations. Successful candidates receive a renewable aeroIT or aeroCNCT certification that is valid for three (3) years, per the industry standard.

Exam Preparation

Professionals wishing to become aeroIT and/or aeroCNCT certified may attend instructor-led or on-site training, offered by Satcom Direct, as well as our training partners. Study guides are included in the cost of the training courses, as well as a voucher for the cost of the proctored exam. Those wishing to self-study have the option to purchase the courseware and exam voucher separately.

For information, visit www.satcomdirect.com/aeroIT or www.satcomdirect.com/aeroCNCT, or contact us at training@satcomdirect.com

¹Maximum class size 6, minimum class size 2 unless student is able to be added to a pre scheduled class with vacant seats. Contact Satcom Direct Communications for more details.

**TERMS AND CONDITIONS APPLICABLE TO
INFORMATION TECHNOLOGY PROFESSIONAL SERVICES (SPECIAL ITEM NUMBER 541515)**

1. SCOPE

- a. The prices, terms and conditions stated under Special Item Number 541515 Information Technology Professional Services apply exclusively to IT Services within the scope of this Information Technology Schedule.
- b. The Contractor shall provide services at the Contractor’s facility and/or at the ordering activity location, as agreed to by the Contractor and the ordering activity.

2. PERFORMANCE INCENTIVES

- a. Performance incentives may be agreed upon between the Contractor and the ordering activity on individual fixed price orders or Blanket Purchase Agreements under this contract in accordance with this clause.
- b. The ordering activity must establish a maximum performance incentive price for these services and/or total solutions on individual orders or Blanket Purchase Agreements.
- c. Incentives should be designed to relate results achieved by the contractor to specified targets. To the maximum extent practicable, ordering activities shall consider establishing incentives where performance is critical to the ordering activity’s mission and incentives are likely to motivate the contractor. Incentives shall be based on objectively measurable tasks.

**3. ORDERING PROCEDURES FOR SERVICES (REQUIRING A STATEMENT OF WORK)
(G-FCI-920) (MAR 2003)**

FAR 8.402 contemplates that GSA may occasionally find it necessary to establish special ordering procedures for individual Federal Supply Schedules or for some Special Item Numbers (SINs) within a Schedule. GSA has established special ordering procedures for services that require a Statement of Work. These special ordering procedures take precedence over the procedures in FAR 8.404 (b)(2) through (b)(3). When ordering services over \$100,000, Department of Defense (DOD) ordering offices and non-DOD agencies placing orders on behalf of the DOD must follow the policies and procedures in the Defense Federal Acquisition Regulation Supplement (DFARS) 208.404-70 – Additional ordering procedures for services. When DFARS 208.404-70 is applicable and there is a conflict between the ordering procedures contained in this clause and the additional ordering procedures for services in DFARS 208.404-70, the DFARS procedures take precedence. GSA has determined that the prices for services contained in the contractor’s price list applicable to this schedule are fair and reasonable. However, the ordering activity using this contract is responsible for considering the level of effort and mix of labor proposed to perform a specific task being ordered and for making a determination that the total firm-fixed price or ceiling price is fair and reasonable

- a. When ordering services, ordering activities shall—

(1) Prepare a Request (Request for Quote or other communication tool):

- (i) A statement of work (a performance-based statement of work is preferred) that outlines, at a minimum, the work to be performed, location of work, period of performance, deliverable schedule, applicable standards, acceptance criteria, and any special requirements (i.e., security clearances, travel, special knowledge, etc.) should be prepared.
- (ii) The request should include the statement of work and request the contractors to submit either a firm-fixed price or a ceiling price to provide the services outlined in the statement of work. A firm-fixed price order shall be requested, unless the ordering activity makes a determination that it is not possible at the time of placing the order to estimate accurately the extent or duration of the work or to anticipate cost with any reasonable degree of confidence. When such a determination is made, a labor hour or time-and-materials proposal may be requested. The firm-fixed price shall be based on the rates in the schedule contract and shall consider the mix of labor categories and level of effort required to perform the services described in the statement of work. The firm-fixed price of the order should also include any travel costs or other incidental costs related to performance of the services

ordered, unless the order provides for reimbursement of travel costs at the rates provided in the Federal Travel or Joint Travel Regulations. A ceiling price must be established for labor hour and time-and-materials orders.

(iii) The request may ask the contractors, if necessary or appropriate, to submit a project plan for performing the task, and information on the contractor’s experience and/or past performance performing similar tasks.

(iv) The request shall notify the contractors what basis will be used for selecting the contractor to receive the order. The notice shall include the basis for determining whether the contractors are technically qualified and provide an explanation regarding the intended use of any experience and/or past performance information in determining technical qualification of responses. If consideration will be limited to schedule contractors who are small business concerns as permitted by paragraph (2) below, the request shall notify the contractors that will be the case.

(2) Transmit the Request to Contractors -

Based upon an initial evaluation of catalogs and price lists, the ordering activity should identify the contractors that appear to offer the best value (considering the scope of services offered, pricing and other factors such as contractors’ locations, as appropriate) and transmit the request as follows:

NOTE: When buying IT professional services under SIN 541515 ONLY, the ordering office, at its discretion, may limit consideration to those schedule contractors that are small business concerns. This limitation is not applicable when buying supplies and/or services under other SINS as well as SIN 541515.

(3) Small businesses that appear to offer services that will meet the agency’s needs are available, if the order is estimated to exceed the micro-purchase threshold.

(i) The request should be provided to at least three (3) contractors if the proposed order is estimated to exceed the micro-purchase threshold, but not exceed the maximum order threshold.

(ii) For proposed orders exceeding the maximum order threshold, the request should be provided to additional contractors that offer services that will meet the ordering activity’s needs.

(iii) In addition, the request shall be provided to any contractor who specifically requests a copy of the request for the proposed order.

(iv) Ordering activities should strive to minimize the contractors’ costs associated with responding to requests for quotes for specific orders. Requests should be tailored to the minimum level necessary for adequate evaluation and selection for order placement. Oral presentations should be considered, when possible.

(4) Evaluate Responses and Select the Contractor to Receive the Order:

After responses have been evaluated against the factors identified in the request, the order should be placed with the schedule contractor that represents the best value. (See FAR 8.404)

- b. The establishment of Federal Supply Schedule Blanket Purchase Agreements (BPAs) for recurring services is permitted when the procedures outlined herein are followed. All BPAs for services must define the services that may be ordered under the BPA, along with delivery or performance time frames, billing procedures, etc. The potential volume of orders under BPAs, regardless of the size of individual orders, may offer the ordering activity the opportunity to secure volume discounts. When establishing BPAs, ordering activities shall —

(1) Inform contractors in the request (based on the ordering activity's requirement) if a single BPA or multiple BPAs will be established, and indicate the basis that will be used for selecting the contractors to be awarded the BPAs.

(ii) SINGLE BPA: Generally, a single BPA should be established when the ordering activity can define the tasks to be ordered under the BPA and establish a firm-fixed price or ceiling price for individual tasks or services to be ordered. When this occurs, authorized users may place the order directly under the established BPA when the need for service arises. The schedule contractor that represents the best value should be awarded the BPA. (See FAR 8.404)

(iii) MULTIPLE BPAs: When the ordering activity determines multiple BPAs are needed to meet its requirements, the ordering activity should determine which contractors can meet any technical qualifications before establishing the BPAs. When establishing the BPAs, the procedures in (a)(2) above must be followed. The procedures at (a)(2) do not apply to orders issued under multiple BPAs. Authorized users must transmit the request for quote for an order to all BPA holders and then place the order with the Schedule contractor that represents the best value.

(2) Review BPAs Periodically: Such reviews shall be conducted at least annually. The purpose of the review is to determine whether the BPA still represents the best value. (See FAR 8.404)

- c. The ordering activity should give preference to small business concerns when two or more contractors can provide the services at the same firm-fixed price or ceiling price.
- d. When the ordering activity's requirement involves both products as well as executive, administrative and/or professional, services, the ordering activity should total the prices for the products and the firm-fixed price for the services and select the contractor that represents the best value. (See FAR 8.404)
- e. The ordering activity, at a minimum, should document orders by identifying the contractor from which the services were purchased, the services purchased, and the amount paid. If other than a firm-fixed price order is placed, such documentation should include the basis for the determination to use a labor-hour or time-and-materials order. For ordering activity requirements in excess of the micro-purchase threshold, the order file should document the evaluation of Schedule contractors' quotes that formed the basis for the selection of the contractor that received the order and the rationale for any trade-offs made in making the selection.

4. ORDER

- a. Agencies may use written orders, EDI orders, blanket purchase agreements, individual purchase orders, or task orders for ordering services under this contract. Blanket Purchase Agreements shall not extend beyond the end of the contract period; all services and delivery shall be made and the contract terms and conditions shall continue in effect until the completion of the order. Orders for tasks which extend beyond the fiscal year for which funds are available shall include FAR 52.232-19 (Deviation – May 2003) Availability of Funds for the Next Fiscal Year. The purchase order shall specify the availability of funds and the period for which funds are available.
- b. All task orders are subject to the terms and conditions of the contract. In the event of conflict between a task order and the contract, the contract will take precedence.

5. PERFORMANCE OF SERVICES

- a. The Contractor shall commence performance of services on the date agreed to by the Contractor and the ordering activity.
- b. The Contractor agrees to render services only during normal working hours, unless otherwise agreed to by the Contractor and the ordering activity.
- c. The ordering activity should include the criteria for satisfactory completion for each task in the Statement of Work or Delivery Order. Services shall be completed in a good and workmanlike manner.

- d. Any Contractor travel required in the performance of IT Services must comply with the Federal Travel Regulation or Joint Travel Regulations, as applicable, in effect on the date(s) the travel is performed. Established Federal Government per diem rates will apply to all Contractor travel. Contractors cannot use GSA city pair contracts.

6. STOP-WORK ORDER (FAR 52.242-15) (AUG 1989)

- a. The Contracting Officer may, at any time, by written order to the Contractor, require the Contractor to stop all, or any part, of the work called for by this contract for a period of 90 days after the order is delivered to the Contractor, and for any further period to which the parties may agree. The order shall be specifically identified as a stop-work order issued under this clause. Upon receipt of the order, the Contractor shall immediately comply with its terms and take all reasonable steps to minimize the incurrence of costs allocable to the work covered by the order during the period of work stoppage. Within a period of 90 days after a stop-work is delivered to the Contractor, or within any extension of that period to which the parties shall have agreed, the Contracting Officer shall either-
 - (1) Cancel the stop-work order; or
 - (2) Terminate the work covered by the order as provided in the Default, or the Termination for convenience of the Government, clause of this contract.
- b. If a stop-work order issued under this clause is canceled or the period of the order or any extension thereof expires, the Contractor shall resume work. The Contracting Officer shall make an equitable adjustment in the delivery schedule or contract price, or both, and the contract shall be modified, in writing, accordingly, if-
 - (1) The stop-work order results in an increase in the time required for, or in the Contractor's cost properly allocable to, the performance of any part of this contract; and
 - (2) The Contractor asserts its right to the adjustment within 30 days after the end of the period of work stoppage; provided that, if the Contracting Officer decides the facts justify the action, the Contracting Officer may receive and act upon the claim submitted at any time before final payment under this contract.
- c. If a stop-work order is not canceled and the work covered by the order is terminated for the convenience of the Government, the Contracting Officer shall allow reasonable costs resulting from the stop-work order in arriving at the termination settlement.
- d. If a stop-work order is not canceled and the work covered by the order is terminated for default, the Contracting Officer shall allow, by equitable adjustment or otherwise, reasonable costs resulting from the stop-work order.

7. INSPECTION OF SERVICES

The Inspection of Services–Fixed Price (AUG 1996) (Deviation – May 2003) clause at FAR 52.246-4 applies to firm-fixed price orders placed under this contract. The Inspection–Time-and-Materials and Labor-Hour (JAN 1986) (Deviation – May 2003) clause at FAR 52.246-6 applies to time-and-materials and labor-hour orders placed under this contract.

8. RESPONSIBILITIES OF THE CONTRACTOR

The Contractor shall comply with all laws, ordinances, and regulations (Federal, State, City, or otherwise) covering work of this character. If the end product of a task order is software, then FAR 52.227-14 (Deviation– May 2003) Rights in Data – General, may apply.

9. RESPONSIBILITIES OF THE ORDERING ACTIVITY

Subject to security regulations, the ordering activity shall permit Contractor access to all facilities necessary to perform the requisite IT Services.

10. INDEPENDENT CONTRACTOR

All IT Services performed by the Contractor under the terms of this contract shall be as an independent contractor, and not as an agent or employee of the ordering activity.

11. ORGANIZATIONAL CONFLICTS OF INTEREST

a. Definitions:

1. "Contractor" means the person, firm, unincorporated association, joint venture, partnership, or corporation that is a party to this contract.
2. "Contractor and its affiliates" and "Contractor or its affiliates" refers to the Contractor, its chief executives, directors, officers, subsidiaries, affiliates, subcontractors at any tier, and consultants and any joint venture involving the Contractor, any entity into or with which the Contractor subsequently merges or affiliates, or any other successor or assignee of the Contractor.
3. An "Organizational conflict of interest" exists when the nature of the work to be performed under a proposed ordering activity contract, without some restriction on ordering activities by the Contractor and its affiliates, may either -
 - (i) Result in an unfair competitive advantage to the Contractor or its affiliates or
 - (ii) Impair the Contractor's or its affiliates' objectivity in performing contract work.

- b. To avoid an organizational or financial conflict of interest and to avoid prejudicing the best interests of the ordering activity, ordering activities may place restrictions on the Contractors, its affiliates, chief executives, directors, subsidiaries and subcontractors at any tier when placing orders against schedule contracts. Such restrictions shall be consistent with FAR 9.505 and shall be designed to avoid, neutralize, or mitigate organizational conflicts of interest that might otherwise exist in situations related to individual orders placed against the schedule contract. Examples of situations, which may require restrictions, are provided at FAR 9.508.

12. INVOICES

The Contractor, upon completion of the work ordered, shall submit invoices for IT services. Progress payments may be authorized by the ordering activity on individual orders if appropriate. Progress payments shall be based upon completion of defined milestones or interim products. Invoices shall be submitted monthly for recurring services performed during the preceding month.

13. PAYMENTS

For firm-fixed price orders the ordering activity shall pay the Contractor, upon submission of proper invoices or vouchers, the prices stipulated in this contract for service rendered and accepted. Progress payments shall be made only when authorized by the order. For time-and-materials orders, the Payments under Time-and-Materials and Labor-Hour Contracts at FAR 52.232-7 (FEB 2007), (Alternate I Feb 2007) applies to time-and-materials orders placed under this contract. For labor-hour orders, the Payment under Time-and-Materials and Labor-Hour Contracts at FAR 52.232-7 (FEB 2007), (Alternate I Feb 2007) applies to labor-hour orders placed under this contract.

14. RESUMES

Resumes shall be provided to the GSA Contracting Officer or the user ordering activity upon request.

15. INCIDENTAL SUPPORT COSTS

Incidental support costs are available outside the scope of this contract. The costs will be negotiated separately with the ordering activity in accordance with the guidelines set forth in the FAR.

16. APPROVAL OF SUBCONTRACTS

The ordering activity may require that the Contractor receive, from the ordering activity's Contracting Officer, written consent before placing any subcontract for furnishing any of the work called for in a task order.

17. DESCRIPTION OF IT/IAM PROFESSIONAL SERVICES AND PRICING

Below are the descriptions off current IT/IAM Professional Services provided by Satcom Direct Communications, Inc. and the related pricing.

Aeronautical Satcom Consultant

Duties: Serves as a subject matter expert for the organization, creation, execution and testing of all areas included within aeronautical satcom communications systems and related networks. This individual will also be able to look towards future needs of a current or proposed aeronautical satcom system and provide analysis of alternatives and trade studies between commercial satcom aeronautical solutions, while recommending specific avionics equipment to fit individual user's needs. Additionally, the Aeronautical Satcom Consultant can provide problem solving, technical information, generate reports, and provide specialized and focused feedback and guidance to all levels of clientele throughout the assigned project. This Individual may also serve as a flight deck/flight operations expert for the organization serving as a technical expert on flight deck systems such as ACARS, FMS, EFBs, CNS/ATM equipage, and overall flight operations support systems and may also help coordinate for any certification or approvals as dictated by aviation regulators.

Experience: 20 years of experience in the Information Technology industry with a focus on aeronautical satcom networks. Has experience ranging from local hardware support to systems administration of large corporate networks. Background may also include other flight deck avionics and aircraft operational support systems.

Network Architect

Duties: The Satellite Systems Network Architect designs and manages the infrastructure of terrestrial network connectivity for the service provider and can design WAN/LAN solutions for implementation on customer aircraft and customer corporate networks when needed. Additionally, they would be responsible for the connectivity between the terrestrial and satellite networks as well as end to end solutions for customers with requirements not met by their existing infrastructure. This individual can also act as a technical liaison with the satellite providers to facilitate the exchange of information for the purposes of billing, technical support, and value added services as well as other connectivity solutions and may also act as a technical expert for coordination and connectivity with ground host and communication providers/solutions.

Experience: 20 years of experience in the information technology industry with a focus ranging from local hardware support to systems administrator of large corporate networks.

Aircraft Satcom Support Specialist

Duties: The Aircraft Satcom Support Specialist is able to troubleshoot all types of military and government airborne communications platforms by analyzing logs and reports from current onboard systems. Additionally, they will support and configure ISR platforms to include network setup, video encoder configuration, and final testing of any configured setup. This individual will also provide onsite technical support for networking setup, Iridium and Inmarsat Classic/Swift 64/swift broadband products. This specialist may also serve as a flight deck/flight operations technical expert providing a full range of analysis, trouble-shooting, testing, and configuration support for flight deck systems such as ACARS, FMS, EFBs, CNS/ATM equipage, and overall flight operations support systems.

Experience: 12 years of experience specializing in integration of SATCOM, wired and wireless networking components, ISR related components, and flight deck avionics systems such as ACARS, FMS, EFBs, and CNS/ATM equipage and overall flight operations support systems in an airborne environment.

Project Manager

Duties: Serves as the contractors satellite communications project manager and shall be the contractors authorized interface with the government technical personnel, the COR, and customer representatives. Responsible for formulating and enforcing work standards, assigning contractor schedules, reviewing work discrepancies, supervising contractor personnel and communicating policies, purposes and goals of the organization to subordinates. Project Manager is responsible for managing small to mid-size projects that may involve multiple task orders and significant numbers of resources (personnel and contract dollars). Shall be responsible for the overall contract performance but may serve in other capacities.

Experience: 25 years of experience in Government Aeronautical Satellite Communications and airborne networking.

IT Professional Services

CLIN	Product Description	Unit of Measure	GSA Price
IT Professional Services			
510000	Aeronautical SATCOM Consultant	Per Hour	\$185.00
510001	Network Architect	Per Hour	\$140.00
510002	SATCOM support Specialist	Per Hour	\$105.00
510003	Project Manager	Per Hour	\$125.00

**TERMS AND CONDITIONS APPLICABLE TO
WIRELESS SERVICES (SPECIAL ITEM NUMBER 517312)**

1. ACCEPTANCE TESTING

The Contractor shall provide acceptance test plans and procedures for ordering activity approval. The Contractor shall perform acceptance testing of the systems for ordering activity approval in accordance with the approved test procedures.

2. EQUIPMENT

The Contractor shall make available cellular voice and data devices. The Cellular devices offered shall be compatible with the cellular access standards employed within the geographical scope of contract.

3. WARRANTY

The Contractor shall provide a warranty covering each Contractor-provided device. The minimum duration of the warranty shall be the duration of the manufacturer’s commercial warranty for the item listed below:

The warranty shall commence upon the later of the following:

- b. Activation of the user’s service
- c. Installation/delivery of the equipment

The Contractor, by repair or replacement of the defective item, shall complete all warranty services within five working days of notification of the defect. Warranty service shall be deemed complete when the user has possession of the repaired or replaced item. If the Contractor renders warranty service by replacement, the user shall return the defective item(s) to the Contractor as soon as possible but not later than ten (10) working days after notification.

4. MANAGEMENT AND OPERATIONS PRICING

The offeror shall provide management and operations pricing on a uniform basis. All management and operations requirements for which pricing elements are not specified shall be provided as part of the basic service.

5. TRAINING

The Contractor shall provide normal commercial installation, operation, maintenance, and engineering interface training on the system. If there is a separate charge, indicate below:

6. MONTHLY REPORTS

In accordance with commercial practices, the Contractor may furnish the ordering activity/User with a monthly summary ordering activity report.

7. WIRELESS SERVICE PLAN

- a. Describe the wireless service plan and eligibility requirements. Include, but not limited to, service area, monthly service charge, minutes included, etc.

- b. Describe charges, if any, for additional minutes, domestic wireless long distance, roaming, nights and weekends, etc.

- c. Describe Corporate volume discounts and eligibility requirements.

8. PRICING

Pricing for all Satcom Direct Communications, Inc. products listed under SIN 517312 are as follows:

¹International coverage provided only for countries included in TN-SDR-003 Technical Note.

²Usage within the U.S. will be counted against international included MB's or international overage rate, as appropriate.
International coverage provided only for countries included in TN-SDR-003 Technical Note.

³US MBs for Tier 1, 2, and 3 countries are billed at the applicable rates and are not applied against international MB's included in monthly plans.

Cellular Services Coverage Map

**TERMS AND CONDITIONS APPLICABLE TO
COMMERCIAL SATELLITE COMMUNICATIONS (COMSATCOM) SUBSCRIPTION SERVICES
(SPECIAL ITEM NUMBER 517410)**

1. COMSATCOM CAPACITY AND COVERAGE.

The Ordering Activity shall specify the capacity and coverage required as part of the initial requirement.

2. INFORMATION ASSURANCE

- a. The Ordering Activity is responsible for ensuring to the maximum extent practicable that each requirement issued is in compliance with either the Committee on National Security Systems Policy (CNSSP) 12, "National Information Assurance Policy for Space Systems used to Support National Security Missions," or the Department of Defense Directive (DoDD) 8581.1, "Information Assurance (IA) Policy for Space Systems Used by the Department of Defense."
- b. The Ordering Activity shall assign an impact level (per Federal Information Processing Standards Publication 200 (FIPS 200), "*Minimum Security Requirements for Federal Information and Information Systems*") or MAC level (per DoD Instruction (DoDI) 8500.2, "*Information Assurance Implementation*) prior to issuing the initial statement of work. Evaluations shall consider the extent to which each proposed service accommodates the necessary security controls based upon the assigned impact level or MAC, command encryption/authentication, and other requirements in CNSSP 12 or DODD 8581.1. The Contractor awarded SIN 517410 is capable of meeting at least the minimum-security requirements assigned against a low-impact information system (per FIPS 200) or Mission Assurance Category (MAC) III system (per DoDI 8500.2).
- c. The Ordering Activity reserves the right to independently evaluate, audit, and verify the IA compliance for any proposed or awarded COMSATCOM services. All IA certification, accreditation, and evaluation activities are the responsibility of the ordering activity.
- d. SDC meets Information Assurance requirements as defined by the Information Assurance Checklist for COMSATCOM Subscription Services under SIN 517410 and in accordance with DODI 8500.2 (MAC III) and NIST 800-53. SDC is dedicated to ensuring our customer's most sensitive information is protected and managed appropriately.

3. DELIVERY SCHEDULE.

The Ordering Activity shall specify the delivery schedule as part of the initial requirement. The Delivery Schedule options are found in *Information for Ordering Activities Applicable to All Special Item Numbers*, paragraph 6. SDC's dedicated staff of activations, customer support, and engineering personnel are able to respond quickly and decisively to ensure the highest levels of service are provided and maintained. SDC is structured to provide support under time-critical and/or accelerated timeframes as requested or directed by the government.

4. PORTABILITY.

When an Ordering Activity requires portability, this requirement shall be included as part of the initial requirement. When portability is exercised, evidence of equivalent net present value (NPV)¹ shall be provided by the contractor. Ordering Activities may propose additional terms and conditions within the requirement (example: specific predefined, guaranteed terms and conditions for portability and related services). However, if the supplemental terms and conditions contradict the contract, the contract takes precedence. Portability provides the Ordering Activity the ability to relocate or "port," COMSATCOM Services resources as user requirements change. Descriptions of portability may include moving from one transponder/satellite to another, one managed service area to another, transponded capacity redeployment between beams or transponders on a single satellite, redeployment from one frequency band to another, physical relocation of a satellite to a new orbital position, re-routing of teleport services from one teleport to another predefined teleport, re-routing of traffic from one terrestrial infrastructure to another predefined infrastructure, and movement of Network Operations Center (NOC) services from one NOC to another NOC. Inmarsat and Iridium services are inherently "portable" in that services are available around the world seamlessly. A user can expect the same service regardless of their location with no change in network or equipment necessary.

¹ For example, one-year of service for a transponder valued at \$1M/year is traded for six-months of service on a transponder valued at \$2M/year.

5. FLEXIBILITY/OPTIMIZATION.

When an Ordering Activity requires re-grooming resources for spectral, operational, or price efficiencies, this requirement shall be included as part of the initial requirement. When flexibility/optimization is exercised, evidence of equivalent net present value (NPV)² shall be provided by the contractor. Ordering Activities may propose additional terms and conditions within the requirement (example: specific pre-defined, guaranteed terms and conditions for re-grooming). However, if the supplemental terms and conditions contradict the contract, the contract takes precedence. Flexibility/optimization/re-grooming allows the Contractor to redistribute resources currently used to provide COMSATCOM Services (example: space segment, network, teleport, terminal resources) or customers sharing the COMSATCOM Services resources (example: customer one with typical peak usage at 9:00 a.m. and customer two with typical peak usage at 3:30 p.m.), enabling the Ordering Activity to gain spectral, operational, and/or price efficiencies.

6. NET READY (INTEROPERABILITY).

When an Ordering Activity requires interoperability, this requirement shall be included as part of the initial requirement. Interfaces may be identified as interoperable on the basis of participation in a sponsored program acceptable to the Ordering Activity. Any such access or interoperability with teleports/gateways and provisioning of enterprise service access will be defined in the individual requirement. Inmarsat's General 4 broadband services are "net ready." Comparable to a customer purchasing a new Smart phone and having services activated at their preferred terrestrial provider, Inmarsat's BGAN, SwiftBroadband, and FleetBroadband services are net ready "out-of-the-box." SDC is ready to assist with requirements development and provide integration recommendations and guidance as required.

7. NETWORK MONITORING (NET OPS).

The Ordering Activity shall specify the Network Monitoring (Net Ops) collection and delivery requirements (example: format, frequency) as part of the initial statement of work. The Contractor awarded SIN 517410 is capable of collecting and delivering the near real-time monitoring, fault/incident/outage reporting, and information access required to ensure effective and efficient operations, performance, and availability consistent with commercial best practices. Ordering Activities may propose additional terms and conditions within the requirement (example: specific pre-defined terms and conditions for Net Ops collection and delivery.) However, if the supplemental terms and conditions contradict the contract, the contract takes precedence. SDC's Network Operations Center (NOC) is available 24/7 to support monitoring, troubleshooting and network analyses. Using Inmarsat and Iridium provided network applications as well as in-house engineered tools and applications, SDC technicians are able to capture and analyze in real-time or near real-time information from Inmarsat and Iridium networks. Our web-browser tool, Plane Simple[®], allows customers to research and view usage information at their discretion:

- Configuration management
- Traffic analyses and forecasting
- Statistical monitoring
- Account management

SDC uses a variety of methods to disseminate degradation, outages, upgrades, updates and general information such as email, RSS feeds and website postings.

8. EMI/RFI IDENTIFICATION, CHARACTERIZATION, AND GEO-LOCATION.

When an Ordering Activity requires Electro Magnetic Interference (EMI) / Radio Frequency Interference (RFI) identification, characterization, and geo-location, it shall be included as part of the initial requirement. The Ordering Activity shall establish and use with the Contractor a mutually agreed upon media and voice communications capability capable of protecting "Sensitive, but Unclassified" data.

² For example, one-year of service on a less efficient arrangement of contractor resources is traded for nine-months of services on a more efficient arrangement of contractor resources that provides an operational efficiency to the Ordering Activity's customers.

9. SECURITY.

The Ordering Activity is responsible for assigning the personnel and facility clearance levels for each requirement. If required, the Ordering Activity is responsible for issuing the appropriate security forms (e.g., a DD-254) for any special clearance requirements and indoctrinations, such as Sensitive Compartmented Information (SCI). Ordering Activities shall ensure the Contractor “masks” or “protects” Ordering Activity customers against unauthorized release of identifying information to any entity that could compromise the customer’s operations security. Identifying information includes but is not limited to personal user and/or unit information including tail numbers, unit names, unit numbers, individual names, individual contact numbers, street addresses, etc.

10. THIRD PARTY BILLING FOR COMSATCOM SUBSCRIPTION SERVICES.

The Ordering Activity shall make every effort to educate the terminal owners or operators on usage of the approved network infrastructure to avoid third party charges.

11. ADDITIONAL TERMS AND CONDITIONS.

- a. The Ordering Activity is responsible for determining the number of approaches each Contractor may offer in response to a statement of work.
- b. If guidance is required, Ordering Activities may contact the GSA Satellite Communications Services Program Management Office, satserv@gsa.gov.
- c. For each Subscription Service requirement, the Ordering Activity shall negotiate with the Contractor any required Committed Information Rates (CIR). CIR is the average dedicated bandwidth data transfer rate (example: megabits per second) for an individual COMSATCOM Subscription Services network that the Contractor commits to delivering over a period of time. The Contractor may exceed the CIR if the network has capacity at any time.
- d. Satcom Direct Communications requires a customer service agreement filled in with the user’s information and submitted for contact, billing and general information about the service, equipment used and pertinent details about the Subscriber Identity Module (SIM) cards, Inmarsat Subscriber Number or Aircraft Earth Station Identification. Pricing for activation may be dependent on the type of services activated.
- e. Satcom Direct Communications understands the Government reserves the right to use Government Furnished Access Point Names (APN) for remote user access into Government user networks and enclaves instead of using those provided by offerors. If additional dedicated services (such as T-1 or other type of leased lines) are requested, there is typically a one-time non-recurring charge (NRC) for initial engineering and “last-mile” tie-in to the customer’s location and rack. Afterwards, there will be a monthly recurring charge (MRC) for leasing the T-1. We highly encourage using established gateways and enclaves wherever possible.

12. CONTRACT CLAUSES.

Ordering activities will be able to view the complete list of contract clauses, including the specific contract terms and conditions for any specific contract holder, at:

<http://www.gsaelibrary.gsa.gov/ElibMain/contractsOnline.do?scheduleNumber=70>

13. Pricing

Pricing for all Satcom Direct Communications, Inc. products listed under SIN 517410 are as follows:

Satcom Direct Communications, Inc.

CLIN	Product Description	Unit of Measure	GSA Price
Services

551207	Bolt On: Addition of 17.5 GB to Plan	Month	\$7,000.00
Tornado Plan¹			
551208	<u>Maximum Information Rate</u> = Outbound: 7.7 Mbps Inbound: 1.2 Mbps <u>Committed Information Rate</u> = Outbound: 2.6 Mbps Inbound: 0.6 Mbps <u>Data Allocation</u> = 40 GB	Month	\$17,400.00
551209	Bolt On: Addition of 20 GB to Plan	Month	\$8,700.00
Gemini Plan¹			
551210	<u>Maximum Information Rate</u> = Outbound: 10 Mbps Inbound: 2 Mbps <u>Committed Information Rate</u> = Outbound: 1.5 Mbps Inbound: 0.5 Mbps <u>Data Allocation</u> = 80 GB	Month	\$20,500.00
551211	Bolt On: Addition of 40 GB to Plan	Month	\$10,375.00
Vulcan Plan¹			
551212	<u>Maximum Information Rate</u> = Outbound: 9.3 Mbps Inbound: 1.4 Mbps <u>Committed Information Rate</u> = Outbound: 3.1 Mbps Inbound: 0.8 Mbps <u>Data Allocation</u> = 45 GB	Month	\$22,200.00
551213	Bolt On: Addition of 22.5 GB to Plan	Month	\$11,000.00
Concorde Plan¹			
551214	<u>Maximum Information Rate</u> = Outbound: 15 Mbps Inbound: 1.8 Mbps <u>Committed Information Rate</u> = Outbound: 6 Mbps Inbound: 1 Mbps <u>Data Allocation</u> = 95 GB	Month	\$39,500.00
551215	Bolt On: Addition of 47.5 GB to Plan	Month	\$19,645.00
Apollo Plan¹			
551216	<u>Maximum Information Rate</u> = Outbound: 12 Mbps Inbound: 3 Mbps <u>Committed Information Rate</u> = Outbound: 3 Mbps Inbound: 0.75 Mbps <u>Data Allocation</u> = Unlimited GB	Month	\$72,450.00

Inmarsat Global Xpress - VIP and SIMOP Plans

CLIN	Product Description	Unit of Measure	GSA Price
SDC SIMOP Yearly Plan 1²			
551217	<u>Information Rate</u> = Outbound: 12 Mbps Inbound: 4Mbps <u>Committed Information Rate</u> = Obound: 6 Mbps Inbound: 2 Mbps <u>Data Allocation</u> = Unlimited	Month	\$109,000.00
SDC SIMOP Monthly Plan 1²			
551218	<u>Information Rate</u> = Outbound: 12 Mbps Inbound: 4Mbps <u>Committed Information Rate</u> = Obound: 6 Mbps Inbound: 2 Mbps <u>Data Allocation</u> = Unlimited	Month	\$130,500.00

¹Inmarsat VIP Plan Notes:

1. Applicable terminals: Honeywell Class A and Class B, aka Fuselage Mount Antenna (FMA) and Tail Mount Antenna (TMA), aka CAT and BAS
2. Other hardware solutions could be considered
3. Same pricing for FMA and TMA
4. For Gemini, Mercury and Ranger plans: when users hit their data allocation, they are allocated bolt-on plans (same \$/GB rate as their base plan).
5. VAR will be alerted via email as the user nears their data allocation (further testing required)
6. No FAP or throttling is currently planned to slow down service
7. Plans will be 95% CIR Availability
8. Current aero SLA will not be modified for these plans (see annex 5)

²Inmarsat SIMOPS Plan Notes:

1. Terms for yearly plans are based on 1 year subscription. Remaining value of contract is required for early termination. Contract automatically renews at end of term unless Satcom Direct Communications is notified in advance.
2. Monthly plans are for Surge based coverage and will be added to contract as needed by contract holder
3. Services are available over Honeywell JetWave 1.0 FMA Based Antennas Only
4. Inmarsat GlobalXPress SIMOPS Plans are for specific US Government customers only. Contact Satcom Direct Communications for more details.

Inmarsat APN Plans

CLIN	Product Description	Unit of Measure	GSA Price	
Inmarsat Satellite End Customer Access Point Names (APN)				
551300	SDC Sponsored End Customer APN - Non-Redundant Interconnect to One PoP ¹	Per Year	\$44,530.00	
Inmarsat Satellite Test Access Point Names (APN)				
551300	Test APN - Supports a maximum of 5 PDP Contexts for each Test APN Capacity limited to 4Mbps.	Tunnel	Per Year	\$3,870.00
551301	Additional tunnel capacity use charge ^{2,3}	Each	\$5,230.00	
551302	Additional tunnel capacity charge for each 2Mbps over the standard 4Mbps limit ^{2,4}	Each	\$1,310.00	

¹Annual subscription may be eligible for discounts due to usage and contract volume

²Add on fees charged only if customer exceeds 4Mbps tunnel capacity

³Tunnel Capacity fee per 2Mbps extra tunnel capacity, and per GGSN (Gateway GPRS Support Node) based in either Burum and/or Paumalu SAS

⁴Charge is incurred for each Tunnel Capacity increase per GGSN

Please call Satcom Direct Communications at 703-549-3009 for more information

USA COMMITMENT TO PROMOTE SMALL BUSINESS PARTICIPATION PROCUREMENT PROGRAMS

PREAMBLE

Satcom Direct Communications, Inc. provides commercial products and services to ordering activities. We are committed to promoting participation of small, small disadvantaged and women-owned small businesses in our contracts. We pledge to provide opportunities to the small business community through reselling opportunities, mentor-protégé programs, joint ventures, teaming arrangements, and subcontracting.

COMMITMENT

- To actively seek and partner with small businesses.
- To identify, qualify, mentor and develop small, small disadvantaged and women-owned small businesses by purchasing from these businesses whenever practical.
- To develop and promote company policy initiatives that demonstrate our support for awarding contracts and subcontracts to small business concerns.
- To undertake significant efforts to determine the potential of small, small disadvantaged and women-owned small business to supply products and services to our company.
- To ensure procurement opportunities are designed to permit the maximum possible participation of small, small disadvantaged, and women-owned small businesses.
- To attend business opportunity workshops, minority business enterprise seminars, trade fairs, procurement conferences, etc., to identify and increase small businesses with whom to partner.
- To publicize in our marketing publications our interest in meeting small businesses that may be interested in subcontracting opportunities.

We signify our commitment to work in partnership with small, small disadvantaged and women-owned small businesses to promote and increase their participation in ordering activity contracts. To accelerate potential opportunities please contact Satcom Direct Communications, Inc. at 321-777-3000, by email at gsa@satcomdirect.com, or by fax 321-777-3702.

**BEST VALUE
BLANKET PURCHASE AGREEMENT
FEDERAL SUPPLY SCHEDULE**

(Insert Customer Name)

In the spirit of the Federal Acquisition Streamlining Act (ordering activity) and (Contractor) enter into a cooperative agreement to further reduce the administrative costs of acquiring commercial items from the General Services Administration (GSA) Federal Supply Schedule Contract(s) _____.

Federal Supply Schedule contract BPAs eliminate contracting and open market costs such as: search for sources; the development of technical documents, solicitations and the evaluation of offers. Teaming Arrangements are permitted with Federal Supply Schedule Contractors in accordance with Federal Acquisition Regulation (FAR) 9.6.

This BPA will further decrease costs, reduce paperwork, and save time by eliminating the need for repetitive, individual purchases from the schedule contract. The end result is to create a purchasing mechanism for the ordering activity that works better and costs less.

(CUSTOMER NAME)

BLANKET PURCHASE AGREEMENT

Pursuant to GSA Federal Supply Schedule Contract Number(s) _____, Blanket Purchase Agreements, the Contractor agrees to the following terms of a Blanket Purchase Agreement (BPA) EXCLUSIVELY WITH (ordering activity):

1. The following contract items can be ordered under this BPA. All orders placed against this BPA are subject to the terms and conditions of the contract, except as noted below:

MODEL NUMBER/PART NUMBER	*SPECIAL BPA DISCOUNT/PRICE
_____	_____
_____	_____
_____	_____

2. Delivery: DESTINATION	DELIVERY SCHEDULES / DATES
_____	_____
_____	_____
_____	_____

3. The ordering activity estimates, but does not guarantee, that the volume of purchases through this agreement will be _____.

4. This BPA does not obligate any funds.

5. This BPA expires on _____ or at the end of the contract period, whichever is earlier.

6. The following office(s) is hereby authorized to place orders under this BPA:
OFFICE POINT OF CONTACT

_____	_____
_____	_____
_____	_____

7. Orders will be placed against this BPA via Electronic Data Interchange (EDI), FAX, or paper.

8. Unless otherwise agreed to, all deliveries under this BPA must be accompanied by delivery tickets or sales slips that must contain the following information as a minimum:

- a. Name of Contractor;
- b. Contract Number;
- c. BPA Number;
- d. Model Number or National Stock Number (NSN);
- e. Purchase Order Number;
- f. Date of Purchase;
- g. Quantity, Unit Price, and Extension of Each Item (unit prices and extensions need not be shown when incompatible with the use of automated systems; provided, that the invoice is itemized to show the information); and
- h. Date of Shipment.

9. The requirements of a proper invoice are specified in the Federal Supply Schedule contract. Invoices will be submitted to the address specified within the purchase order transmission issued against this BPA.

9. The terms and conditions included in this BPA apply to all purchases made pursuant to it. In the event of an inconsistency between the provisions of this BPA and the Contractor's invoice, the provisions of this BPA will take precedence.
