GENERAL PURPOSE COMMERCIAL INFORMATION  
TECHNOLOGY EQUIPMENT, SOFTWARE AND SERVICES

## **SIN 132-32 - TERM SOFTWARE LICENSE**

FSC CLASS 7030

Large Scale Computers, Application Software

## **SIN 132-51 - INFORMATION TECHNOLOGY (IT) PROFESSIONAL SERVICES**

FPDS Code D301	IT Facility Operation and Maintenance
FPDS Code D302	IT Systems Development Services
FPDS Code D306	IT Systems Analysis Services
FPDS Code D307	Automated Information Systems Design and Integration Services
FPDS Code D308	Programming Services
FPDS Code D310	IT Backup and Security Services
FPDS Code D311	IT Data Conversion Services
FPDS Code D313	Computer Aided Design/Computer Aided Manufacturing (CAD/CAM) Services
FPDS Code D316	IT Network Management Services
FPDS Code D317	Creation/Retrieval of IT Related Automated News Services, Data Services, or Other Information Services (All other information services belong under Schedule 76)
FPDS Code D399	Other Information Technology Services, Not Elsewhere Classified

**Note 1:** All non-professional labor categories must be incidental to and used solely to support hardware, software and/or professional services, and cannot be purchased separately.

**Note 2:** Offerors and Agencies are advised that the Group 70 – Information Technology Schedule is not to be used as a means to procure services which properly fall under the Brooks Act. These services include, but are not limited to, architectural, engineering, mapping, cartographic production, remote sensing, geographic information systems, and related services. FAR 36.6 distinguishes between mapping services of an A/E nature and mapping services which are not connected nor incidental to the traditionally accepted A/E Services.

**Note 3:** This solicitation is not intended to solicit for the reselling of IT Professional Services, except for the provision of implementation, maintenance, integration, or training services in direct support of a product. Under such circumstances the services must be performance by the publisher or manufacturer or one of their authorized agents.

# INFORMATION FOR ORDERING ACTIVITIES APPLICABLE TO ALL SPECIAL ITEM NUMBERS

## SPECIAL NOTICE TO AGENCIES: SMALL BUSINESS PARTICIPATION

SBA strongly supports the participation of small business concerns in the Federal Acquisition Service. To enhance Small Business Participation SBA policy allows agencies to include in their procurement base and goals, the dollar value of orders expected to be placed against the Federal Supply Schedules, and to report accomplishments against these goals.

For orders exceeding the micropurchase threshold, FAR 8.404 requires agencies to consider the catalogs/pricelists of at least three schedule contractors or consider reasonably available information by using the GSA Advantage!™ on-line shopping service ([www.gsaadvantage.gov](http://www.gsaadvantage.gov)). The catalogs/pricelists, GSA Advantage!™ and the Federal Acquisition Service Home Page ([www.fss.gsa.gov](http://www.fss.gsa.gov)) contain information on a broad array of products and services offered by small business concerns.

This information should be used as a tool to assist ordering activities in meeting or exceeding established small business goals. It should also be used as a tool to assist in including small, small disadvantaged, and women owned small businesses among those considered when selecting pricelists for a best value determination. For orders exceeding the micropurchase threshold, customers are to give preference to small business concerns when two or more items at the same delivered price will satisfy their requirement.

## GEOGRAPHIC SCOPE OF CONTRACT:

Domestic delivery is delivery within the 48 contiguous states, Alaska, Hawaii, Puerto Rico, Washington, DC, and U.S. Territories. Domestic delivery also includes a port or consolidation point, within the aforementioned areas, for orders received from overseas activities.

Overseas delivery is delivery to points outside of the 48 contiguous states, Washington, DC, Alaska, Hawaii, Puerto Rico, and U.S. Territories.

Offerors are requested to check one of the following boxes:

The Geographic Scope of Contract will be domestic and overseas delivery.

The Geographic Scope of Contract will be overseas delivery only.

The Geographic Scope of Contract will be domestic delivery only.

For Special Item Number 132-53 Wireless Services ONLY, if awarded, list the limited geographic coverage area:

## CONTRACTOR'S ORDERING ADDRESS AND PAYMENT INFORMATION:

<b>Contractor's Ordering Address:</b>	GlobalNet Services, Inc.
	Ori Reiss / GSA Orders
	11820 Parklawn Drive, Suite 300
	Rockville, MD 20852

<b>Contractor's Payment Address:</b>	GlobalNet Services, Inc.
	Accounts Receivable / GSA Orders
	11820 Parklawn Drive, Suite 300
	Rockville, MD 20852

Contractor must accept the credit card for payments equal to or less than the micro-purchase for oral or written orders under this contract. The Contractor and the ordering agency may agree to use the credit card for dollar amounts over the micro-purchase threshold (See GSAR 552.232-79 Payment by Credit Card).

In addition, bank account information for wire transfer payments will be shown on the invoice.

The following telephone number(s) can be used by ordering activities to obtain technical and/or ordering assistance: **Ori Reiss, (301) 770-9610**

### LIABILITY FOR INJURY OR DAMAGE

The Contractor shall not be liable for any injury to ordering activity personnel or damage to ordering activity property arising from the use of equipment maintained by the Contractor, unless such injury or damage is due to the fault or negligence of the Contractor.

### STATISTICAL DATA FOR GOVERNMENT ORDERING OFFICE COMPLETION OF STANDARD FORM 279:

Block 9: G. Order/Modification Under Federal Schedule

Block 16: Data Universal Numbering System (DUNS) Number - **799865738**

Block 30: Type of Contractor - **B. Other Small Business**

Block 31: Woman-Owned Small Business - **No**

Block 36: Contractor's Taxpayer Identification Number (TIN) - **52-1963405**

a. CAGE Code: **1T4T9**

b. Contractor **has** registered with the Central Contractor Registration Database.

### FOB DESTINATION

### DELIVERY SCHEDULE

a. TIME OF DELIVERY: The Contractor shall deliver to destination within the number of calendar days after receipt of order (ARO), as set forth below:

### FOR SIN 132-51 / 132-51STLOC / 132-51RC:

Type of Delivery	Delivery Terms
Standard Delivery	15 Days
Expedited Delivery	Expedited Delivery is offered for all products but is subject to additional charges as a result of shipping costs
Overnight and 2-Day Delivery	Overnight or 2-day Delivery is offered for all products but is subject to additional charges as a result of shipping costs

b. URGENT REQUIREMENTS: When the Federal Supply Schedule contract delivery period does not meet the bona fide urgent delivery requirements of an ordering activity, ordering activities are encouraged, if time permits, to contact the Contractor for the purpose of obtaining accelerated delivery. The Contractor shall reply to the inquiry within 3 workdays after receipt. (Telephonic replies shall be confirmed by the Contractor in writing.) If the Contractor offers an accelerated delivery time acceptable to the ordering activity, any order(s) placed pursuant to the agreed upon accelerated delivery time frame shall be delivered within this shorter delivery time and in accordance with all other terms and conditions of the contract.

**FOR SIN 132-52 / 132-52STLOC / 132-52RC:**

Type of Delivery	Delivery Terms
Standard Delivery	30Days
Expedited Delivery	Expedited Delivery is offered for al products but is subject to additional charges as a result of shipping costs
Overnight and 2-Day Delivery	Overnight or 2-day Delivery is offered for all products but is subject to additional charges as a result of shipping costs

b. URGENT REQUIREMENTS: When the Federal Supply Schedule contract delivery period does not meet the bona fide urgent delivery requirements of an ordering activity, ordering activities are encouraged, if time permits, to contact the Contractor for the purpose of obtaining accelerated delivery. The Contractor shall reply to the inquiry within 3 workdays after receipt. (Telephonic replies shall be confirmed by the Contractor in writing.) If the Contractor offers an accelerated delivery time acceptable to the ordering activity, any order(s) placed pursuant to the agreed upon accelerated delivery time frame shall be delivered within this shorter delivery time and in accordance with all other terms and conditions of the contract.

**DISCOUNTS:**

Prices shown are NET Prices; Basic Discounts have been deducted.

- a. Prompt Payment: **0% - 30** days from receipt of invoice or date of acceptance whichever is later.
- b. Quantity: **None**
- c. Dollar Volume: **None**
- d. Government Educational Institutions: **Offered the same discounts as all other Government customers**
- e. Other: **None**

**TRADE AGREEMENTS ACT OF 1979, as amended:**

All items are U.S. made end products, designated country end products, Caribbean Basin country end products, Canadian end products, or Mexican end products as defined in the Trade Agreements Act of 1979, as amended.

**STATEMENT CONCERNING AVAILABILITY OF EXPORT PACKING:**

N/A

**Small Requirements: The minimum dollar value of orders to be issued is \$100.00**

## **MAXIMUM ORDER**

(All dollar amounts are exclusive of any discount for prompt payment.)

- a. The Maximum Order value for the following Special Item Numbers (SINs) is \$500,000:  
Special Item Number 132-51 - Information Technology Professional Services
- b. The Maximum Order value for the following Special Item Numbers (SINs) is \$500,000:  
Special Item Number 132-52 – Electronic Commerce Services

## **ORDERING PROCEDURES FOR FEDERAL SUPPLY SCHEDULE CONTRACTS**

Ordering activities shall use the ordering procedures of Federal Acquisition Regulation (FAR) 8.405 when placing an order or establishing a BPA for supplies or services. These procedures apply to all schedules.

- a. FAR 8.405-1 Ordering procedures for supplies, and services not requiring a statement of work.
- b. FAR 8.405-2 Ordering procedures for services requiring a statement of work.

## **FEDERAL INFORMATION TECHNOLOGY/TELECOMMUNICATION STANDARDS REQUIREMENTS:**

Ordering activities acquiring products from this Schedule must comply with the provisions of the Federal Standards Program, as appropriate (reference: NIST Federal Standards Index). Inquiries to determine whether or not specific products listed herein comply with Federal Information Processing Standards (FIPS) or Federal Telecommunication Standards (FED-STDS), which are cited by ordering activities, shall be responded to promptly by the Contractor.

### **13.1 FEDERAL INFORMATION PROCESSING STANDARDS PUBLICATIONS (FIPS PUBS):**

Information Technology products under this Schedule that do not conform to Federal Information Processing Standards (FIPS) should not be acquired unless a waiver has been granted in accordance with the applicable "FIPS Publication." Federal Information Processing Standards Publications (FIPS PUBS) are issued by the U.S. Department of Commerce, National Institute of Standards and Technology (NIST), pursuant to National Security Act. Information concerning their availability and applicability should be obtained from the National Technical Information Service (NTIS), 5285 Port Royal Road, Springfield, Virginia 22161. FIPS PUBS include voluntary standards when these are adopted for Federal use. Individual orders for FIPS PUBS should be referred to the NTIS Sales Office, and orders for subscription service should be referred to the NTIS Subscription Officer, both at the above address, or telephone number (703) 487-4650.

### **13.2 FEDERAL TELECOMMUNICATION STANDARDS (FED-STDS):**

Telecommunication products under this Schedule that do not conform to Federal Telecommunication Standards (FED-STDS) should not be acquired unless a waiver has been granted in accordance with the applicable "FED-STD." Federal Telecommunication Standards are issued by the U.S. Department of Commerce, National Institute of Standards and Technology (NIST), pursuant to National Security Act. Ordering information and information concerning the availability of FED-

STDS should be obtained from the GSA, Federal Acquisition Service, Specification Section, 470 East L'Enfant Plaza, Suite 8100, SW, Washington, DC 20407, telephone number (202)619-8925. Please include a self-addressed mailing label when requesting information by mail. Information concerning their applicability can be obtained by writing or calling the U.S. Department of Commerce, National Institute of Standards and Technology, Gaithersburg, MD 20899, telephone number (301)975-2833.

## **CONTRACTOR TASKS / SPECIAL REQUIREMENTS (C-FSS 370) (NOV 2003)**

- a. Security Clearances: The Contractor may be required to obtain/possess varying levels of security clearances in the performance of orders issued under this contract. All costs associated with obtaining/possessing such security clearances should be factored into the price offered under the Multiple Award Schedule.
  
- b. Travel: The Contractor may be required to travel in performance of orders issued under this contract. Allowable travel and per diem charges are governed by Pub .L. 99-234 and FAR Part 31, and are reimbursable by the ordering agency or can be priced as a fixed price item on orders placed under the Multiple Award Schedule. Travel in performance of a task order will only be reimbursable to the extent authorized by the ordering agency. The Industrial Funding Fee does NOT apply to travel and per diem charges.
  
- c. Certifications, Licenses and Accreditations: As a commercial practice, the Contractor may be required to obtain/possess any variety of certifications, licenses and accreditations for specific FSC/service code classifications offered. All costs associated with obtaining/ possessing such certifications, licenses and accreditations should be factored into the price offered under the Multiple Award Schedule program.
  
- d. Insurance: As a commercial practice, the Contractor may be required to obtain/possess insurance coverage for specific FSC/service code classifications offered. All costs associated with obtaining/possessing such insurance should be factored into the price offered under the Multiple Award Schedule program.
  
- e. Personnel: The Contractor may be required to provide key personnel, resumes or skill category descriptions in the performance of orders issued under this contract. Ordering activities may require agency approval of additions or replacements to key personnel.
  
- f. Organizational Conflicts of Interest: Where there may be an organizational conflict of interest as determined by the ordering agency, the Contractor's participation in such order may be restricted in accordance with FAR Part 9.5.
  
- g. Documentation/Standards: The Contractor may be requested to provide products or services in accordance with rules, regulations, OMB orders, standards and documentation as specified by the agency's order.
  
- h. Data/Deliverable Requirements: Any required data/deliverables at the ordering level will be as specified or negotiated in the agency's order.
  
- i. Government-Furnished Property: As specified by the agency's order, the Government may provide property, equipment, materials or resources as necessary.

j. Availability of Funds: Many Government agencies' operating funds are appropriated for a specific fiscal year. Funds may not be presently available for any orders placed under the contract or any option year. The Government's obligation on orders placed under this contract is contingent upon the availability of appropriated funds from which payment for ordering purposes can be made. No legal liability on the part of the Government for any payment may arise until funds are available to the ordering Contracting Officer.

k. Overtime: For professional services, the labor rates in the Schedule should not vary by virtue of the Contractor having worked overtime. For services applicable to the Service Contract Act (as identified in the Schedule), the labor rates in the Schedule will vary as governed by labor laws (usually assessed a time and a half of the labor rate).

## **CONTRACT ADMINISTRATION FOR ORDERING ACTIVITIES:**

Any ordering activity, with respect to any one or more delivery orders placed by it under this contract, may exercise the same rights of termination as might the GSA Contracting Officer under provisions of FAR 52.212-4, paragraphs (l) Termination for the ordering activity's convenience, and (m) Termination for Cause (See 52.212-4)

## **GSA ADVANTAGE!**

GSA Advantage! is an on-line, interactive electronic information and ordering system that provides on-line access to vendors' schedule prices with ordering information. GSA Advantage! will allow the user to perform various searches across all contracts including, but not limited to:

- (1) Manufacturer;
- (2) Manufacturer's Part Number; and
- (3) Product categories.

Agencies can browse GSA Advantage! by accessing the Internet World Wide Web utilizing a browser (ex.:NetScape). The Internet address is <http://www.gsaadvantage.gov>

## **PURCHASE OF OPEN MARKET ITEMS**

**NOTE:** Open Market Items are also known as incidental items, noncontract items, non-Schedule items, and items not on a Federal Supply Schedule contract. Ordering Activities procuring open market items must follow FAR 8.402(f).

For administrative convenience, an ordering activity contracting officer may add items not on the Federal Supply Multiple Award Schedule (MAS) -- referred to as open market items -- to a Federal Supply Schedule blanket purchase agreement (BPA) or an individual task or delivery order, **only if** --

- (1) All applicable acquisition regulations pertaining to the purchase of the items not on the Federal Supply Schedule have been followed (e.g., publicizing (Part 5), competition requirements (Part 6), acquisition of commercial items (Part 12), contracting methods (Parts 13, 14, and 15), and small business programs (Part 19));
- (2) The ordering activity contracting officer has determined the price for the items not on the Federal Supply Schedule is fair and reasonable;
- (3) The items are clearly labeled on the order as items not on the Federal Supply Schedule; and

(4) All clauses applicable to items not on the Federal Supply Schedule are included in the order.

## **CONTRACTOR COMMITMENTS, WARRANTIES AND REPRESENTATIONS**

a. For the purpose of this contract, commitments, warranties and representations include, in addition to those agreed to for the entire schedule contract:

- (1) Time of delivery/installation quotations for individual orders;
- (2) Technical representations and/or warranties of products concerning performance, total system performance and/or configuration, physical, design and/or functional characteristics and capabilities of a product/equipment/ service/software package submitted in response to requirements which result in orders under this schedule contract.
- (3) Any representations and/or warranties concerning the products made in any literature, description, drawings and/or specifications furnished by the Contractor.

b. The above is not intended to encompass items not currently covered by the GSA Schedule contract.

c. The maintenance/repair service provided is the standard commercial terms and conditions for the type of products and/or services awarded.

## **OVERSEAS ACTIVITIES**

The terms and conditions of this contract shall apply to all orders for installation, maintenance and repair of equipment in areas listed in the pricelist outside the 48 contiguous states and the District of Columbia, except as indicated below: **None**

Upon request of the Contractor, the ordering activity may provide the Contractor with logistics support, as available, in accordance with all applicable ordering activity regulations. Such ordering activity support will be provided on a reimbursable basis, and will only be provided to the Contractor's technical personnel whose services are exclusively required for the fulfillment of the terms and conditions of this contract.

## **BLANKET PURCHASE AGREEMENTS (BPAs)**

The use of BPAs under any schedule contract to fill repetitive needs for supplies or services is allowable. BPAs may be established with one or more schedule contractors. The number of BPAs to be established is within the discretion of the ordering activity establishing the BPA and should be based on a strategy that is expected to maximize the effectiveness of the BPA(s). Ordering activities shall follow FAR 8.405-3 when creating and implementing BPA(s).

## **CONTRACTOR TEAM ARRANGEMENTS**

Contractors participating in contractor team arrangements must abide by all terms and conditions of their respective contracts. This includes compliance with Clauses 552.238-74, Industrial Funding Fee and Sales Reporting, i.e., each contractor (team member) must report sales and remit the IFF for all products and services provided under its individual contract.

## **INSTALLATION, DEINSTALLATION, REINSTALLATION**

The Davis-Bacon Act (40 U.S.C. 276a-276a-7) provides that contracts in excess of \$2,000 to which the United States or the District of Columbia is a party for construction, alteration, or repair (including

painting and decorating) of public buildings or public works with the United States, shall contain a clause that no laborer or mechanic employed directly upon the site of the work shall received less than the prevailing wage rates as determined by the Secretary of Labor. The requirements of the Davis-Bacon Act do not apply if the construction work is incidental to the furnishing of supplies, equipment, or services. For example, the requirements do not apply to simple installation or alteration of a public building or public work that is incidental to furnishing supplies or equipment under a supply contract. However, if the construction, alteration or repair is segregable and exceeds \$2,000, then the requirements of the Davis-Bacon Act applies.

The ordering activity issuing the task order against this contract will be responsible for proper administration and enforcement of the Federal labor standards covered by the Davis-Bacon Act. The proper Davis-Bacon wage determination will be issued by the ordering activity at the time a request for quotations is made for applicable construction classified installation, deinstallation, and reinstallation services under SIN 132-8 or 132-9.

### **SECTION 508 COMPLIANCE.**

I certify that in accordance with 508 of the Rehabilitation Act of 1973, as amended (29 U.S.C. 794d), FAR 39.2, and the Architectural and Transportation Barriers Compliance Board Electronic and Information Technology (EIT) Accessibility Standards (36 CFR 1194) General Services Administration (GSA), that all IT hardware/software/services are 508 compliant:

Yes  \_\_\_\_\_

No  \_\_\_\_\_

### **PRIME CONTRACTOR ORDERING FROM FEDERAL SUPPLY SCHEDULES.**

Prime Contractors (on cost reimbursement contracts) placing orders under Federal Supply Schedules, on behalf of an ordering activity, shall follow the terms of the applicable schedule and authorization and include with each order

a. A copy of the authorization from the ordering activity with whom the contractor has the prime contract (unless a copy was previously furnished to the Federal Supply Schedule contractor); and

b. The following statement:

This order is placed under written authorization from \_\_\_\_\_ dated \_\_\_\_\_. In the event of any inconsistency between the terms and conditions of this order and those of your Federal Supply Schedule contract, the latter will govern.

### **INSURANCE—WORK ON A GOVERNMENT INSTALLATION (JAN 1997) (FAR 52.228-5)**

a. The Contractor shall, at its own expense, provide and maintain during the entire performance of this contract, at least the kinds and minimum amounts of insurance required in the Schedule or elsewhere in the contract.

b. Before commencing work under this contract, the Contractor shall notify the Contracting Officer in writing that the required insurance has been obtained. The policies evidencing required insurance shall contain an endorsement to the effect that any cancellation or any material change adversely affecting the Government's interest shall not be effective

(1) For such period as the laws of the State in which this contract is to be performed prescribe; or

(2) Until 30 days after the insurer or the Contractor gives written notice to the Contracting Officer, whichever period is longer.

c. The Contractor shall insert the substance of this clause, including this paragraph (c), in subcontracts under this contract that require work on a Government installation and shall require subcontractors to provide and maintain the insurance required in the Schedule or elsewhere in the contract. The Contractor shall maintain a copy of all subcontractors' proofs of required insurance, and shall make copies available to the Contracting Officer upon request.

### **SOFTWARE INTEROPERABILITY**

Offerors are encouraged to identify within their software items any component interfaces that support open standard interoperability. An item's interface may be identified as interoperable on the basis of participation in a Government agency-sponsored program or in an independent organization program. Interfaces may be identified by reference to an interface registered in the component registry located at [www.core.gov](http://www.core.gov)

### **ADVANCE PAYMENTS**

A payment under this contract to provide a service or deliver an article for the United States Government may not be more than the value of the service already provided or the article already delivered. Advance or pre-payment is not authorized or allowed under this contract. (31 U.S.C. 3324)

# TERMS AND CONDITIONS APPLICABLE TO TERM SOFTWARE LICENCES (SPECIAL ITEM NUMBERS 132-32)

## 1. INSPECTION/ACCEPTANCE

The Contractor shall only tender for acceptance those items that conform to the requirements of this contract. The ordering activity reserves the right to inspect or test any software that has been tendered for acceptance. The ordering activity may require repair or replacement of nonconforming software at no increase in contract price. The ordering activity must exercise its postacceptance rights (1) within a reasonable time after the defect was discovered or should have been discovered; and (2) before any substantial change occurs in the condition of the software, unless the change is due to the defect in the software.

## 2. GUARENTEE/WARRANTY

a. Unless specified otherwise in this contract, the Contractor's standard commercial warranty as stated in the contract's commercial pricelist will apply to this contract.

Limited Warranty Google Search Appliances:

1. Limited Warranty. Google warrants to Customer that: (a) Hardware will be free from defects in material and workmanship, and will substantially conform to all material aspects of the Documentation, for a period of ninety days from the later of: (i) installation of the Appliance; or (ii) ten days after the Shipment Date; and (b) Software will substantially achieve the functionality described in the Documentation for a period of ninety days from the later of: (i) installation of the Appliance; or (ii) ten days after the Shipment Date.
2. Exclusions. The limited warranty set forth in Section 7.1 above will not apply to defects or errors in the Appliance that are caused by: (i) Customer's failure to follow Google's environmental, installation, operation or maintenance instructions or procedures in the Documentation; (ii) Customer's mishandling, abuse, misuse, negligence, or improper storage, servicing, or operation of the Appliance (including without limitation use with incompatible equipment); or (iii) modifications, repairs or improper installation not performed by Google.
3. Exclusive Remedy. Google's entire liability and Customer's sole and exclusive remedy with respect to breach of the above warranty will be at Google's option: (a) repair of the Product in accordance with the TSSG; (b) replacement of the defective component or entire Appliance, as applicable; or (c) refund of the purchase price paid for the Appliance.

b. The Contractor warrants and implies that the items delivered hereunder are merchantable and fit for use for the particular purpose described in this contract.

c. Limitation of Liability. Except as otherwise provided by an express or implied warranty, the Contractor will not be liable to the ordering activity for consequential damages resulting from any defect or deficiencies in accepted items.

## 3. TECHNICAL SERVICES

The Contractor, without additional charge to the ordering activity, shall provide a hot line technical support number 877-355-5787 or via the Support Portal (<http://www.google.com/enterprise/portal>) for the purpose of providing user assistance and guidance in the implementation of the software. The technical support number is available from 9am to 5pm

#### 4. PERIODS OF TERM LICENSES

- a. The Contractor shall honor orders for periods for the duration of the contract period or a lesser period of time.
- b. Term licenses may be discontinued by the ordering activity on thirty (30) calendar days written notice to the Contractor.
- c. Annual Funding. When annually appropriated funds are cited on an order for term licenses, the period of the term licenses shall automatically expire on September 30 of the contract period, or at the end of the contract period, whichever occurs first. Renewal of the term licenses orders citing the new appropriation shall be required, if the term licenses are to be continued during any remainder of the contract period.
- d. Cross-Year Funding Within Contract Period. Where an ordering activity's specific appropriation authority provides for funds in excess of a 12 month (fiscal year) period, the ordering activity may place an order under this schedule contract for a period up to the expiration of the contract period, notwithstanding the intervening fiscal years.
- e. Ordering activities should notify the Contractor in writing thirty (30) calendar days prior to the expiration of an order, if the term licenses are to be terminated at that time. Orders for the continuation of term licenses will be required if the term licenses is to be continued during the subsequent period.

#### 5. CONVERSION FROM TERM LICENSE TO PERPETUAL LICENSE

- a. The ordering activity may convert term licenses to perpetual licenses for any or all software at any time following acceptance of software. At the request of the ordering activity the Contractor shall furnish, within ten (10) calendar days, for each software product that is contemplated for conversion, the total amount of conversion credits which have accrued while the software was on a term license and the date of the last update or enhancement.
- b. Conversion credits which are provided shall, within the limits specified, continue to accrue from one contract period to the next, provided the software remains on a term license within the ordering activity.
- c. The term license for each software product shall be discontinued on the day immediately preceding the effective date of conversion from a term license to a perpetual license.
- d. The price the ordering activity shall pay will be the perpetual license price that prevailed at the time such software was initially ordered under a term license, or the perpetual license price prevailing at the time of conversion from a term license to a perpetual license, whichever is the less, minus an amount equal to \_\_\_\_\_% of all term license payments during the period that the software was under a term license within the ordering activity. **Not Offered.**

#### 6. TERM LICENSE CESSATION

- a. After a software product has been on a continuous term license for a period of \_\_\_\_\_\* months, a fully paid up, non exclusive, perpetual license for the software product shall automatically accrue to the ordering activity. The period of continuous term license for automatic accrual of a fully paid up perpetual license does not have to be achieved during a particular fiscal year; it is a written Contractor commitment which continues to be available for software that is initially ordered under this contract, until a fully paid up perpetual license accrues to the ordering activity. However, should the term license of the software be discontinued before the specified period of the continuous term license has been satisfied, the perpetual license accrual shall be forfeited. **Not Offered.**

## **7. UTILIZATION LIMITATIONS – (SIN 132-32)**

- a. Software acquisition is limited to commercial computer software defined in FAR Part 2.101.
- b. When acquired by the ordering activity, commercial computer software and related documentation so legend shall be subject to the following:
- (1) Title to and ownership of the software and documentation shall remain with the Contractor, unless otherwise specified.
  - (2) Software licenses are by site and by ordering activity. An ordering activity is defined as a cabinet level or independent ordering activity. The software may be used by any subdivision of the ordering activity (service, bureau, division, command, etc.) that has access to the site the software is placed at, even if the subdivision did not participate in the acquisition of the software. Further, the software may be used on a sharing basis where multiple agencies have joint projects that can be satisfied by the use of the software placed at one ordering activity's site. This would allow other agencies access to one ordering activity's database. For ordering activity public domain databases, user agencies and third parties may use the computer program to enter, retrieve, analyze and present data. The user ordering activity will take appropriate action by instruction, agreement, or otherwise, to protect the Contractor's proprietary property with any third parties that are permitted access to the computer programs and documentation in connection with the user ordering activity's permitted use of the computer programs and documentation. For purposes of this section, all such permitted third parties shall be deemed agents of the user ordering activity.
  - (3) Except as is provided in paragraph 8.b(2) above, the ordering activity shall not provide or otherwise make available the software or documentation, or any portion thereof, in any form, to any third party without the prior written approval of the Contractor. Third parties do not include prime Contractors, subcontractors and agents of the ordering activity who have the ordering activity's permission to use the licensed software and documentation at the facility, and who have agreed to use the licensed software and documentation only in accordance with these restrictions. This provision does not limit the right of the ordering activity to use software, documentation, or information therein, which the ordering activity may already have or obtains without restrictions.
  - (4) The ordering activity shall have the right to use the computer software and documentation with the computer for which it is acquired at any other facility to which that computer may be transferred, or in cases of Disaster Recovery, the ordering activity has the right to transfer the software to another site if the ordering activity site for which it is acquired is deemed to be unsafe for ordering activity personnel; to use the computer software and documentation with a backup computer when the primary computer is inoperative; to copy computer programs for safekeeping (archives) or backup purposes; to transfer a copy of the software to another site for purposes of benchmarking new hardware and/or software; and to modify the software and documentation or combine it with other software, provided that the unmodified portions shall remain subject to these restrictions.
  - (5) "Commercial Computer Software" may be marked with the Contractor's standard commercial restricted rights legend, but the schedule contract and schedule pricelist, including this clause, "Utilization Limitations" are the only governing terms and conditions, and shall take precedence and supersede any different or additional terms and conditions included in the standard commercial legend.

## **8. SOFTWARE CONVERSIONS – (SIN 132-32)**

Full monetary credit will be allowed to the ordering activity when conversion from one version of the software to another is made as the result of a change in operating system, or from one computer system to another. Under a perpetual license (132 33), the purchase price of the new software shall be reduced by the amount that was paid to purchase the earlier version. Under a term license (132 32), conversion credits which accrued while the earlier version was under a term license shall carry

forward and remain available as conversion credits which may be applied towards the perpetual license price of the new version.

## **9. DESCRIPTION AND EQUIPMENT COMPATIBILITY**

The Contractor shall include, in the schedule pricelist, a complete description of each software product and a list of equipment on which the software can be used. Also, included shall be a brief, introductory explanation of the modules and documentation which are offered.

## **10. RIGHT TO COPY PRICING**

Not Offered.

# TERMS AND CONDITIONS APPLICABLE TO INFORMATION TECHNOLOGY (IT) PROFESSIONAL SERVICES (SPECIAL ITEM NUMBER 132-51)

## 1. SCOPE

a. The prices, terms and conditions stated under Special Item Number 132-51 Information Technology Professional Services and Special Item Number 132-52 Electronic Commerce Services apply exclusively to IT/EC Services within the scope of this Information Technology Schedule.

b. The Contractor shall provide services at the Contractor's facility and/or at the ordering activity location, as agreed to by the Contractor and the ordering activity.

## 2. PERFORMANCE INCENTIVES I-FSS-60 Performance Incentives (April 2000)

a. Performance incentives may be agreed upon between the Contractor and the ordering activity on individual fixed price orders or Blanket Purchase Agreements under this contract.

b. The ordering activity must establish a maximum performance incentive price for these services and/or total solutions on individual orders or Blanket Purchase Agreements.

c. Incentives should be designed to relate results achieved by the contractor to specified targets. To the maximum extent practicable, ordering activities shall consider establishing incentives where performance is critical to the ordering activity's mission and incentives are likely to motivate the contractor. Incentives shall be based on objectively measurable tasks.

## 3. ORDER

a. Agencies may use written orders, EDI orders, blanket purchase agreements, individual purchase orders, or task orders for ordering services under this contract. Blanket Purchase Agreements shall not extend beyond the end of the contract period; all services and delivery shall be made and the contract terms and conditions shall continue in effect until the completion of the order. Orders for tasks which extend beyond the fiscal year for which funds are available shall include FAR 52.232-19 (Deviation – May 2003) Availability of Funds for the Next Fiscal Year. The purchase order shall specify the availability of funds and the period for which funds are available.

b. All task orders are subject to the terms and conditions of the contract. In the event of conflict between a task order and the contract, the contract will take precedence.

## 4. PERFORMANCE OF SERVICES

a. The Contractor shall commence performance of services on the date agreed to by the Contractor and the ordering activity.

b. The Contractor agrees to render services only during normal working hours, unless otherwise agreed to by the Contractor and the ordering activity.

c. The ordering activity should include the criteria for satisfactory completion for each task in the Statement of Work or Delivery Order. Services shall be completed in a good and workmanlike manner.

d. Any Contractor travel required in the performance of IT Services must comply with the Federal Travel Regulation or Joint Travel Regulations, as applicable, in effect on the date(s) the travel is performed. Established Federal Government per diem rates will apply to all Contractor travel. Contractors cannot use GSA city pair contracts.

## **5. STOP-WORK ORDER (FAR 52.242-15) (AUG 1989)**

(a) The Contracting Officer may, at any time, by written order to the Contractor, require the Contractor to stop all, or any part, of the work called for by this contract for a period of 90 days after the order is delivered to the Contractor, and for any further period to which the parties may agree. The order shall be specifically identified as a stop-work order issued under this clause. Upon receipt of the order, the Contractor shall immediately comply with its terms and take all reasonable steps to minimize the incurrence of costs allocable to the work covered by the order during the period of work stoppage. Within a period of 90 days after a stop-work is delivered to the Contractor, or within any extension of that period to which the parties shall have agreed, the Contracting Officer shall either-

(1) Cancel the stop-work order; or

(2) Terminate the work covered by the order as provided in the Default, or the Termination for Convenience of the Government, clause of this contract.

(b) If a stop-work order issued under this clause is canceled or the period of the order or any extension thereof expires, the Contractor shall resume work. The Contracting Officer shall make an equitable adjustment in the delivery schedule or contract price, or both, and the contract shall be modified, in writing, accordingly, if-

(1) The stop-work order results in an increase in the time required for, or in the Contractor's cost properly allocable to, the performance of any part of this contract; and

(2) The Contractor asserts its right to the adjustment within 30 days after the end of the period of work stoppage; provided, that, if the Contracting Officer decides the facts justify the action, the Contracting Officer may receive and act upon the claim submitted at any time before final payment under this contract.

(c) If a stop-work order is not canceled and the work covered by the order is terminated for the convenience of the Government, the Contracting Officer shall allow reasonable costs resulting from the stop-work order in arriving at the termination settlement.

(d) If a stop-work order is not canceled and the work covered by the order is terminated for default, the Contracting Officer shall allow, by equitable adjustment or otherwise, reasonable costs resulting from the stop work order.

## **6. INSPECTION OF SERVICES**

In accordance with FAR 52.212-4 CONTRACT TERMS AND CONDITIONS--COMMERCIAL ITEMS (MAR 2009) (DEVIATION I - FEB 2007) for Firm-Fixed Price orders and FAR 52.212-4 CONTRACT TERMS AND

CONDITIONS -COMMERCIAL ITEMS (MAR 2009) (ALTERNATE I - OCT 2008) (DEVIATION I – FEB 2007) applies to Time-and-Materials and Labor-Hour Contracts orders placed under this contract.

## **7. RESPONSIBILITIES OF THE CONTRACTOR**

The Contractor shall comply with all laws, ordinances, and regulations (Federal, State, City, or otherwise) covering work of this character. If the end product of a task order is software, then FAR 52.227-14 (Deviation – Dec 2007) Rights in Data – General, may apply.

## **8. RESPONSIBILITIES OF THE ORDERING ACTIVITY**

Subject to security regulations, the ordering activity shall permit Contractor access to all facilities necessary to perform the requisite IT Professional Services.

## **9. INDEPENDENT CONTRACTOR**

All IT Professional Services performed by the Contractor under the terms of this contract shall be as an independent Contractor, and not as an agent or employee of the ordering activity.

## **10. ORGANIZATIONAL CONFLICTS OF INTEREST**

a. Definitions.

“Contractor” means the person, firm, unincorporated association, joint venture, partnership, or corporation that is a party to this contract.

“Contractor and its affiliates” and “Contractor or its affiliates” refers to the Contractor, its chief executives, directors, officers, subsidiaries, affiliates, subcontractors at any tier, and consultants and any joint venture involving the Contractor, any entity into or with which the Contractor subsequently merges or affiliates, or any other successor or assignee of the Contractor.

An “Organizational conflict of interest” exists when the nature of the work to be performed under a proposed ordering activity contract, without some restriction on ordering activities by the Contractor and its affiliates, may either (i) result in an unfair competitive advantage to the Contractor or its affiliates or (ii) impair the Contractor’s or its affiliates’ objectivity in performing contract work.

b. To avoid an organizational or financial conflict of interest and to avoid prejudicing the best interests of the ordering activity, ordering activities may place restrictions on the Contractors, its affiliates, chief executives, directors, subsidiaries and subcontractors at any tier when placing orders against schedule contracts. Such restrictions shall be consistent with FAR 9.505 and shall be designed to avoid, neutralize, or mitigate organizational conflicts of interest that might otherwise exist in situations related to individual orders placed against the schedule contract. Examples of situations, which may require restrictions, are provided at FAR 9.508.

## **11. INVOICES**

The Contractor, upon completion of the work ordered, shall submit invoices for IT Professional services. Progress payments may be authorized by the ordering activity on individual orders if appropriate. Progress payments shall be based upon completion of defined milestones or interim products. Invoices shall be submitted monthly for recurring services performed during the preceding month.

## **12.PAYMENTS**

For firm-fixed price orders the ordering activity shall pay the Contractor, upon submission of proper invoices or vouchers, the prices stipulated in this contract for service rendered and accepted. Progress payments shall be made only when authorized by the order. For time and materials orders, the Payments under Time and Materials and Labor Hour Contracts at FAR 52.212-4 (MAR 2009) (ALTERNATE I – OCT 2008) (DEVIATION I – FEB 2007) applies to time and materials orders placed under this contract. For labor hour orders, the Payment under Time and Materials and Labor Hour Contracts at FAR 52.212-4 (MAR 2009) (ALTERNATE I – OCT 2008) (DEVIATION I – FEB 2007) applies to labor hour orders placed under this contract. 52.216-31(Feb 2007) Time-and-Materials/Labor-Hour Proposal Requirements—Commercial Item Acquisition. As prescribed in 16.601(e)(3), insert the following provision:

(a) The Government contemplates award of a Time-and-Materials or Labor-Hour type of contract resulting from this solicitation.

(b) The offeror must specify fixed hourly rates in its offer that include wages, overhead, general and administrative expenses, and profit. The offeror must specify whether the fixed hourly rate for each labor category applies to labor performed by—

- (1) The offeror;
- (2) Subcontractors; and/or
- (3) Divisions, subsidiaries, or affiliates of the offeror under a common control.

## **13.RESUMES**

Resumes shall be provided to the GSA Contracting Officer or the user ordering activity upon request.

## **14.INCIDENTAL SUPPORT COSTS**

Incidental support costs are available outside the scope of this contract. The costs will be negotiated separately with the ordering activity in accordance with the guidelines set forth in the FAR.

## **15.APPROVAL OF SUBCONTRACTS**

The ordering activity may require that the Contractor receive, from the ordering activity's Contracting Officer, written consent before placing any subcontract for furnishing any of the work called for in a task order.

## **16.DESCRPTION OF IT/EC SERVICES AND PRICING**

## GSA LABOR RATES – SIN 132-51 / 132-51STLOC / 132-51RC

Labor Category	GSA Hourly Rate Onsite/Offsite
Senior Project Manager	\$163.55
Senior Subject Matter Expert	\$163.55
Google Engineer III	\$163.55
Architect	\$141.10
Program Manager	\$113.93
Project Manager	\$112.50
Technical Consultant	\$112.50
Senior Database Administrator	\$106.97
Systems Engineer III	\$106.12
Health Science Subject Matter Expert	\$106.12
Database Administrator	\$104.77
Systems Administrator	\$104.77
Systems Analyst	\$104.77
Software Architect	\$102.01
Software Engineer III	\$101.51
Principle System Engineer/Security Specialist	\$95.99
Quality Assurance Manager	\$92.47
Systems Engineer II	\$84.82
Software Engineer II	\$81.23
Testing Specialist	\$65.54
Technical Writer II/Training Specialist	\$56.72
Internet/Intranet Site Developer	\$54.80
Administrative Assistant/Support Specialist	\$46.36

## GSA LABOR CATEGORY DESCRIPTIONS - SIN 132-51/132-51STLOC/132-51RC

Solving today's complex, multi-dimensional information technology problems requires a broad array of multidisciplinary skills and experience. Experience clearly shows that for the implementation of new or conversion of old ADP systems to be successful, a wide assortment of technical and business analyses must be performed (e.g., strategic planning, design, development, implementation, testing, and operations and maintenance) along with requirements analysis, evaluation of business cases, and review of new technology solutions. Because of the complex interconnectivity and overlap of these many disciplines, we need experts that can integrate software and hardware technology solutions, business process reengineering results, corporate data, training, and change management for the human resources that will use these new systems.

The following labor category descriptions illustrate the general qualifications of personnel that will be provided by GNSI in support of the GSA 70 B/C FSS Contract for ADP Services.

### Senior Project Manager

**General Experience:** Fifteen (15) years of progressive experience in managing, directing, and implementing information technology projects. Experienced in managing a diverse group of functional activities and subordinate groups of technical and administrative personnel. Experienced in management and control of large funds and resources, and demonstrated capability in managing complex, multi-task commercial and government contracts.

**Functional Responsibility:** For a given Delivery Order, the Senior Program Manager serves as GNSI's single contract manager, and will be GNSI's authorized interface with the government's Contracting Officer's Representative (COR), other government management personnel, and customer agency representatives. Responsible for formulating and enforcing work standards, assigning contractor schedules, and communicating policies, purposes, and goals of GNSI to subordinates and subcontractors. Responsible for the overall contract performance. Organizes resources to support multiple concurrent projects and manages the execution of multiple concurrent projects. Organizes, directs, and coordinates planning and production of all contract support activities. Conducts oral and written communications with all levels of management for planning and control of projects. Communicates with all levels of Government management personnel, other contract personnel, and customer agency representatives. Formulates and reviews project feasibility studies, determines costs, and ensures conformance to work standards. Assigns, schedules, and reviews work of subordinate Project Managers including subcontractors. Prepares and delivers presentations to colleagues, subordinates, and government representatives.

**Education:** A Bachelor's degree in Business, Engineering, Computer Science, Information Systems, Social Science, or other related analytical, scientific, or technical disciplines. Formal education may be substituted for experience. Each formal degree (i.e., Bachelors, Masters, PhD) may be substituted for four (4) years of experience. Specialized experience may be substituted for formal education. For example, four (4) years of experience are required to substitute for a Bachelor's degree.

### Senior Subject Matter Expert

**General Experience:** Senior Subject Matter Experts (SSMEs) have fifteen (15) years of progressive experience in supporting large information technology projects related to the individual's subject matter expertise. These personnel are often leaders and directors with many years of experience,

and are nationally and/or internationally renowned experts in either functional domains (e.g., finance, personnel, acquisition, etc.) or technical disciplines (e.g., computer security, network engineering, etc.). They all have extensive experience as technical leaders and/or senior Project Managers.

**Functional Responsibility:** Senior Subject Matter Experts serve as technical experts in areas relevant to a particular project. SSMEs produce and/or review substantive and/or complex technical documentation reflecting detailed knowledge of technical areas as identified in the statement of work. Documentation subjects include, but are not limited to, systems design, system architecture, feasibility studies, and system specifications.

**Education:** A Master's degree in Business, Engineering, Computer Science, Information Systems, Social Science, or other related analytical, scientific, or technical disciplines. Formal education may be substituted for experience. Each formal degree (i.e., Bachelors, Masters, PhD) may be substituted for four (4) years of experience. Specialized experience may be substituted for formal education. For example, four (4) years of experience are required to substitute for a Bachelor's degree.

### Google Engineer III

**General Experience:** Over two (2) years industry experience in technical support, professional services, engineering, or systems engineering. Linux/Unix system administration skills with a solid understanding of basic network administration. Strong understanding of Web-related standards, such as HTTP, HTML, XML, and XSLT. Understanding of Web-based security standards (cookie-based SSO, SAML, NTLM, and Basic). Strong presentation and communication skills, both verbal and written.

**Functional Responsibility:** Hands-on implementing, troubleshooting, and supporting Linux/Unix operating systems, Internet-based applications, and web servers. Account management, follow-through and problem solving, resourcefulness, and attention to detail. Excellent customer service attitude and skills with the ability to work in a variety of customer situations. Programming and/or scripting in C++, Java, Python, Perl, JavaScript, and Unix shell. Experience with relational databases (Oracle, Sybase, MySQL, PostgreSQL, and SQLServer). Developing training materials and documentation. Network appliance technical support.

**Education:** A Bachelor's degree in Computer Science, Information Systems, Engineering, Business, Social Science, or other related analytical, scientific, or technical disciplines. Formal education may be substituted for experience. Each formal degree (i.e., Bachelors, Masters, PhD) may be substituted for four (4) years of experience. Specialized experience may be substituted for formal education. For example, four (4) years of experience are required to substitute for a Bachelor's degree.

### Architect

**General Experience:** Eight (8) years of IT experience, including at least five (5) years of experience in Enterprise Architecture and its components. Extensive knowledge and practical applications of multiple platforms. Must have a depth of understanding in multiple areas listed below: network infrastructure, server platforms, middleware, software development, and client platform.

**Functional Responsibility:** Ability to architect solutions to provide timely update of large databases and assuring high-performance across the architecture; works with other team members to improve the business process, information and technology of client organizations; designs, implements and develops Integration solutions for providing state of the art solutions capable of handling high

volume transaction rates for real-time processing and delivery; supports enterprise design by in developing enterprise schemas to map data and process flows between systems and solutions. Manages the activities of three to four enterprise architects. Stays current with the standard enterprise architecture frameworks for Federal Government. Partner with client in the process of system design, planning and identifying the best approach for ease of maintenance, application performance, compatibility with existing systems. Create and preserve conceptual integrity across multiple systems. Promote architectural goals such as adaptability. Work with client to understand the (business) problem domain and identify requirements and constraints. Provide client technological possibilities and limits. Identify risks and perform meaning feasibility studies.

**Education:** A Bachelor's degree in computer science, information technology, computer systems architecture, or related scientific discipline is preferred or equivalent years of experience. Formal education may be substituted for experience. Each formal degree (i.e., Bachelors, Masters, PhD) may be substituted for four (4) years of experience. Specialized experience may be substituted for formal education. For example, four (4) years of experience are required to substitute for a Bachelor's degree.

## Program Manager

**General Experience:** Must have at least ten (10) years experience in managing complex software development projects for information systems. For a given Delivery Order, the Program Manager serves as GNSI's single contract manager and will be GNSI's authorized interface with the Government's Contracting Officer's Representative (COR), other government management personnel, and customer agency representatives. Responsible for formulating and enforcing work standards, assigning contractor schedules, and communicating policies, purposes, and goals of GNSI to subordinates and subcontractors as well as the overall contract performance.

**Functional Responsibility:** A Program Manager serves as GNSI's single contract manager, and will be GNSI's authorized interface with the government's Contracting Officer's Representative (COR), other government management personnel, and customer agency representatives. Responsible for coordinating the work activity of management and technical personnel and enforcing work standards, assigning contractor schedules, and communicating policies, purposes, and goals of GNSI to subordinates and subcontractors. Responsible for the overall contract performance. Organizes resources to support multiple concurrent projects and manages the execution of multiple concurrent projects. Organizes, directs, and coordinates planning and production of all contract support activities. Conducts oral and written communications with all levels of management for planning and control of projects. Communicates with all levels of Government management personnel, other contract personnel, and customer agency representatives. Formulates and reviews project feasibility studies, determines costs, and ensures conformance to work standards. Prepares and delivers presentations to colleagues, subordinates, and government representatives.

**Education:** Must have an advanced degree (Master's or equivalent) in a management or scientific discipline. Formal education may be substituted for experience. Each formal degree (i.e., Bachelors, Masters, PhD) may be substituted for four (4) years of experience. Specialized experience may be substituted for formal education. For example, four (4) years of experience are required to substitute for a Bachelor's degree.

## Project Manager

**General Experience:** Project Managers (PM) have twelve (12) years of progressive experience in managing, directing, and implementing information technology projects. Experienced in managing a

diverse group of functional activities, subordinate groups of technical and administrative personnel. PMs are senior personnel who not only have responsibility for managing projects, but also possess strong technical skills.

**Functional Responsibility:** A Project Manager serves as the leader of a delivery order and assists the Program Manager in working with the Government's Contracting Officer's Representative (COR), other government management personnel, and customer agency representatives. Under the guidance of the Program Manager, responsible for the overall management of the specific task order(s) and ensuring that the technical solutions and schedules in the task order are implemented in a timely manner. Performs enterprise-wide horizontal integration planning and interfaces to other functional systems. Provides overall managerial direction for a specific project. Manages ADP services and support operations that may include multiple task orders. Organizes resources to support multiple concurrent task orders and manages the execution of those task orders. Organizes, directs, and coordinates planning and production of all project support activities. Conducts oral and written communications with the Program Manager for planning and control of the project or multiple, concurrent task orders. Communicates with all levels of Government management personnel, other contract personnel, and customer agency representatives. Formulates project feasibility studies, determines costs, and ensures conformance to work standards. Assigns, schedules, and reviews work of subordinates including subcontractors. Prepares and delivers presentations to colleagues, subordinates, and government representatives. Assures the proper use of current or requested programming, testing and documentation techniques.

**Education:** A Bachelor's degree in Business, Engineering, Computer Science, Information Systems, Social Science, or other related analytical, scientific, or technical disciplines. Formal education may be substituted for experience. Each formal degree (i.e., Bachelors, Masters, PhD) may be substituted for four (4) years of experience. Specialized experience may be substituted for formal education. For example, four (4) years of experience are required to substitute for a Bachelor's degree.

## Technical Consultant

**General Experience:** Technical Consultants have six (6) years of IT knowledge and demonstrated hands-on experience and/or training in areas of emerging technologies. These areas include, but are not limited to, national policy development, continuity of government and operations, crisis management, disaster recovery, database, frameworks, enterprise resource planning, HyperText Markup Language (HTML), HyperText Transfer Protocol (HTTP), Web portals, firewalls, geographic information systems, visual simulation applications, and remote sensing/satellite imagery.

**Functional Responsibility:** Provides technical expertise and support in one or more emerging technology areas including, but not limited to, knowledge discovery, data mining, wireless communications, Internet technologies, secure messaging, enterprise engineering, fraud detection, intrusion detection, bioinformatics, information assurance, public key infrastructure (PKI), and critical infrastructure protection. Reviews and recommends solutions to customer problems based on prior experience and hands-on understanding of how products and services interrelate and support the customer mission.

**Education:** A Bachelor's degree in Business, Engineering, Computer Science, Information Systems, Social Science, or other related analytical, scientific, or technical disciplines. Formal education may be substituted for experience. Each formal degree (i.e., Bachelors, Masters, PhD) may be substituted for four (4) years of experience. Specialized Experience may be substituted for formal education. For example, four (4) years of experience are required to substitute for a Bachelor's degree.

## Senior Database Administrator

**General Experience:** Ten (10) or more years experience with database management systems, such as Oracle, Sybase, Infomax, or SQL Server; knowledge of operating system commands in UNIX/Linux, MS DOS or Windows operating system environments; knowledge of SQL, DB normalization, and DBMS structures, commands, and procedures. Experience must include supporting large Oracle database environments. Proficiency in support duties such as performance and tuning, monitoring, backup, recovery, auditing, etc. is required. Oracle experience with Logical and Physical Database Design and performing UNIX support tasks (system performance monitoring, disk formatting, UNIX tuning) are required. Strong scripting skills (Perl, Korn Shell etc), Oracle High-Availability and Disaster Recovery Solutions experience (Oracle RAC) are preferred. Oracle certification and Linux expertise is a plus.

**Functional Responsibility:** The Senior Database Administrator assists in database operations, user connectivity to database, database security, backup and recovery, data integrity, database update and database reporting. Performing all aspects of Oracle System Administration including installation of instances, tuning of instances and queries, space management, backup and recovery, setting up of High-Availability (RAC) and Disaster Recovery (RMAN) solutions. Determining and implementing best practices for Oracle setup, monitoring, backup and recovery, installation, tuning, and auditing. Diagnosing and debugging complicated performance, connectivity, and security issues involving critical applications. Performing UNIX administration required for Oracle (setup system parameters, format drives, performance monitoring of UNIX).

**Education:** A Bachelor's degree with major coursework in computer science, engineering, mathematics, or related field, with 6 years practical experience. Formal education may be substituted for experience. Each formal degree (i.e., Bachelors, Masters, PhD) may be substituted for four (4) years of experience. Specialized experience may be substituted for formal education. For example, four (4) years of experience are required to substitute for a Bachelor's degree.

## Systems Engineer III

**General Experience:** Ten (10) years in systems life cycle management, structured system development methodologies (preferably information engineering), structured analysis, and/or information systems development or a relevant technical discipline. Experience in some of the following or related technical disciplines: data communications network management and operational activities of a network; functional requirements analysis; computer security systems; and quality assurance.

**Functional Responsibility:** Provides design, programming, documentation implementation of applications which requires knowledge of government information technology systems for effective development and deployment of software modules. Directs and participates in all phases of software development with emphasis on analysis, coding, testing, documentation, and acceptance phases. Responsible for identifying new and emerging technology to support strategic planning initiatives required to meet business needs. Conducts assessments, evaluations, selections, site surveys, requirements analysis and definition, technology prototyping, and cost analysis related to information technology. Designs and prepares technical reports and documentation to record results.

**Education:** Bachelor's degree in Computer Science, Information Systems, Engineering, Business, Social Science, or other related analytical, scientific or technical discipline. Formal education may be

substituted for experience. Each formal degree (i.e., Bachelors, Masters, PhD) may be substituted for four (4) years of experience. Specialized experience may be substituted for formal education. For example, four (4) years of experience are required to substitute for a Bachelor's degree.

## Health Science Subject Matter Expert

**General Experience:** Must have at least ten (10) years experience involving the generation and analysis of the specified subject matter category with experience to result in the individual being recognized as an expert in the field. The Health Science Subject Matter Expert must have expertise in: Medicine/Physician, Statistics, Toxicology, Pharmacology, Microbiology, Chemistry, Clinical trial design and management (safety and efficacy), Pharmacokinetics, or Bio-Pharmaceutics Epidemiology.

**Functional Responsibility:** Duties include running computer simulations to predict toxicology outcomes, preparing toxicology profile reports, maintaining the toxicology database used to support the simulations, researching data entry and toxicology findings from the literature.

**Education:** The position requires a Bachelor's degree in chemistry or in biologic science with a strong chemistry background. Experience in computers and database systems are also required. Formal education may be substituted for experience. Each formal degree (i.e., Bachelors, Masters, PhD) may be substituted for four (4) years of experience. Specialized experience may be substituted for formal education. For example, four (4) years of experience are required to substitute for a Bachelor's degree.

## Database Administrator

**General Experience:** Five (5) or more years experience with database management systems, such as Oracle, Sybase, Infomax, or SQL Server; knowledge of operating system commands in UNIX/Linux, MS DOS or Windows operating system environments; knowledge of SQL, DB normalization, and DBMS structures, commands, and procedures. Experience must include supporting large Oracle database environments. Proficiency in support duties such as performance and tuning, monitoring, backup, recovery, auditing, etc. is required. Oracle experience with Logical and Physical Database Design and performing UNIX support tasks (system performance monitoring, disk formatting, UNIX tuning) are required. Strong scripting skills (Perl, Korn Shell etc), Oracle High-Availability and Disaster Recovery Solutions experience (Oracle RAC) are preferred. Oracle certification and Linux expertise is a plus.

**Functional Responsibility:** The Database Administrator assists in database operations, user connectivity to database, database security, backup and recovery, data integrity, database update and database reporting. Performing all aspects of Oracle System Administration including installation of instances, tuning of instances and queries, space management, backup and recovery, setting up of High-Availability (RAC) and Disaster Recovery (RMAN) solutions. Determining and implementing best practices for Oracle setup, monitoring, backup and recovery, installation, tuning, and auditing. Diagnosing and debugging complicated performance, connectivity, and security issues involving critical applications. Performing UNIX administration required for Oracle (setup system parameters, format drives, performance monitoring of UNIX).

**Education:** A Bachelor's degree in Computer Science, Engineering or related field. Formal education may be substituted for experience. Each formal degree (i.e., Bachelors, Masters, PhD) may be substituted for four (4) years of experience. Specialized experience may be substituted for formal

education. For example, four (4) years of experience are required to substitute for a Bachelor's degree.

## **Systems Administrator**

**General Experience:** Seven (7) years of progressive experience in Internet technologies including TCP/IP, HTTP and DNS. Experience of Operating Systems including Windows Server 2003 and UNIX. Ability to document processes and work within a quality improvement environment. Demonstrated working knowledge of web architectures including: web and web application servers, encryption, n-tier development/deployment strategies, databases, security mechanisms, directories, etc. Excellent interpersonal, communication, and written skills. Understanding of server, application and network security hardening and validation techniques. Experience with HTTP servers, HTML, JavaScript and XML. Hands on use of an HTML Editor, such as Dream Weaver; hands on knowledge of Internet and Networking Infrastructure design and implementation techniques. Hands on knowledge of Internet and Networking infrastructure products such as servers, switches, firewalls and routers; familiarity with web products and services such as web servers, URL, Browsers, Internet performance tools, web search engines, directory services, switching technologies, DNS services and Internet security services.

**Functional Responsibility:** Provide assistance to the design, development and support of key Internet/ Extranet/Intranet components. Provide technical level system administration, support, and maintenance of HTTP/S services, web application services, proxy services, DNS, content filtering, web network infrastructure, content management and other services. Work on projects of a wide range of complexity and scope that require use of analytical and abstraction skills. Must have a track record of delivery of projects on schedule. Assist in the identification, evaluation and recommendation of Internet and Networking infrastructure products and technologies. Provide general assistance to application and infrastructure projects. Implement, administer, and support production Web servers (IIS, Orion, Apache) and backend application, database and support systems. Manage web monitoring activity and generate reports for internal stakeholders.

**Education:** A Bachelor's degree in Computer Science, Information Systems, Engineering, Business, Social Science, or other related analytical, scientific, or technical disciplines. Formal education may be substituted for experience. Each formal degree (i.e., Bachelors, Masters, PhD) may be substituted for four (4) years of experience. Specialized experience may be substituted for formal education. For example, four (4) years of experience are required to substitute for a Bachelor's degree.

## **Systems Analyst**

**General Experience:** Four (4) years of progressive experience in computer programming and/or information systems development or a relevant technical, scientific or social science discipline. Experience in a combination of standards and policy development, research and analysis of information system issues and trends, research and development in a technical discipline, and development of information systems. Experience in developing and providing technical and end-user training on application software. Demonstrated ability to communicate orally and in writing. Must possess strong organizational skills and strong interpersonal skills to effectively relate to agency and customer needs. Supervisory experience in managing engineers, programmers, and analysts. Experienced in one of the following disciplines: strategic systems planning, business process reengineering, workshop facilitation, activity based costing (ABC), business case analysis, training, change management, economic analysis, operations research, statistics, market surveys, cost benefit analysis, computer security, or other relevant social sciences, analytical, scientific, or related fields.

**Functional Responsibility:** Analyses functional business applications and design specifications for functional activities. Develops block diagrams and logic flow charts. Translates detailed design into computer software. Tests, debugs, and refines the computer software to produce the required product. Prepares required documentation, including both program level and user-level documentation. Enhances software to reduce operating time or improved performance efficiency. Develops computer software possessing a wide range of capabilities, including numerous engineering, business, and records management functions. Develops plans for automated information systems from project inception to conclusion. Analyses problems and develops system requirements and program specifications. Applies process improvement and reengineering methodologies and principles to conduct process modernization projects including process and data modeling, developing modern business methods, identifying best practices, and creating and assessing performance measurements. Gathers information by developing and implementing data collection instruments and conducts surveys, document reviews, and interviews. Provides group facilitation, interviewing, training, and provides additional forms of knowledge transfer. Facilitation support includes cross-functional team building, project scoping work sessions, facilitation using creative dynamics techniques, and conflict resolution techniques. Performs manual or automated modeling of process or data models, data flow diagrams, and simulation models. Develops prototype database systems. Designs transaction-driven modules to satisfy functional requirement in an on-line or internet/intranet environment. Designs test environments for new applications against databases. Creates entity relationship models to support logical/physical database designs. Creates metadata describing database design and attribute descriptions. Creates schema for building databases. Assists in the management of database projects including preparation/delivery of presentations on database management concepts. Responsible for databases administration and maintenance of, identification and resolution of user problems of the system, analysis and implementation of enhancements, and operation and maintenance of databases.

**Education:** A Bachelor's degree in Computer Science, Information Systems, Engineering, Business, Social Science, or other related analytical, scientific, or technical disciplines. Formal education may be substituted for experience. Each formal degree (i.e., Bachelors, Masters, PhD) may be substituted for four (4) years of experience. Specialized experience may be substituted for formal education. For example, four (4) years of experience are required to substitute for a Bachelor's degree.

## Software Architect

**General Experience:** The software architect must have experience in leading and coordinating the technical activities and the development of code/project artifacts throughout a software development project. The software architect must have experience in establishing the overall structure for each architectural view: the decomposition of the view, the grouping of elements, and the interfaces between these major groupings. Extensive experience and expertise in architecture, design, and development of web applications with Java, J2EE, and related evolving and cutting edge technology.

**Functional Responsibility:** Establishes the overall structure for each architectural view: the decomposition of the view, the grouping of elements, and the interfaces between these major groupings. The software architect must be well-rounded and possess maturity, vision, and a depth of experience that allows for grasping issues quickly and making educated, critical judgment in the absence of complete information. Use industry best practices to develop software architectures and designs for large and medium sized complex web applications using Java/J2EE. Develop complex components. Research and evaluate new tools and technology for use. Be a mentor to development staff. Assist management with effort estimation solution approach.

**Education:** A Bachelor's degree in computer science, information technology, computer systems architecture, or related scientific discipline is preferred but a minimum of ten (10) years experience is acceptable. Formal education may be substituted for experience. Each formal degree (i.e., Bachelors, Masters, PhD) may be substituted for four (4) years of experience. Specialized experience may be substituted for formal education. For example, four (4) years of experience are required to substitute for a Bachelor's degree.

### **Software Engineer III**

**General Experience:** Nine (9) years in systems lifecycle management, structured system development methodologies (preferably Information Engineering), structured analysis, and/or information systems development or a relevant technical discipline. Experience in some of the following or related technical disciplines: data communications, network management, and operational activities of a network; functional requirements analysis; computer security systems; and quality assurance. Progressive experience may include software development, software management, data management, ADP engineering, and enterprise-wide strategic systems planning, business information planning, and business analysis. Experienced with design techniques or process reengineering across all phases, including change management, business analysis management and techniques, cost benefit analysis, activity and data modeling, information systems development methods and practices, workshop facilitation, and training. Skilled in the interface of software with computer hardware systems, computer-aided software engineering (CASE) tools, complex and software system development. Experience in developing and providing technical and end-user training on computer hardware and application software. Demonstrated ability to communicate orally and in writing. Must possess strong organizational skills and strong interpersonal skills to effectively relate to agency and customer needs. Supervisory experience in managing and providing direction to engineers, programmers, and analysts. Experienced in one of the following engineering disciplines: systems engineering, systems integration, software engineering, information engineering telecommunications engineering, network engineering, electrical engineering, and data quality engineering or other relevant engineering disciplines.

**Functional Responsibility:** Provide design, programming, documentation and implementation of applications which requires knowledge of government information technology systems for effective development and deployment of software modules. Directs and participates in all phases of software development with emphasis on analysis, coding, testing, documentation, and acceptance phases. Responsible for identifying new and emerging technology to support strategic planning initiatives required to meet business needs. Conducts assessments, evaluations, selections, site surveys, requirements analysis and definition, technology prototyping, and cost analysis related to information technology. Designs and prepares technical reports and documentation to record results. Applies process improvement and reengineering methodologies and principles to conduct process modernization projects including process and data modeling, developing modern business methods, identifying best practices, and creating and assessing performance measurements. Gathers information by developing and implementing data collection instruments and conducts surveys, document reviews, and interviews. Provides group facilitation, interviewing, training, and provides additional forms of knowledge transfer. Facilitation support includes cross-functional team building, project scoping work sessions, facilitation using creative dynamics techniques, and conflict resolution techniques. Performs manual or automated modeling of process or data models, data flow diagrams, and simulation models. Develops prototype database systems. Designs transaction-driven modules to satisfy functional requirement in an on-line or internet/intranet environment. Designs test environments for new applications against databases. Creates entity relationships models to support logical and physical database designs. Creates the metadata describing the database design and attribute descriptions. Creates the schema for building the database. Assists in the management of

database projects. Assists in the preparation and delivery of presentations on database management systems concepts. Responsible for overall administration and maintenance of the database, identification and resolution of problems encountered by the users of the system, analysis and implementation of enhancements, and operation and maintenance of databases.

**Education:** A Bachelor's degree in Computer Science, Information Systems, Engineering, Business, Social Science, or other related analytical, scientific, or technical disciplines. Formal education may be substituted for experience. Each formal degree (i.e., Bachelors, Masters, PhD) may be substituted for four (4) years of experience. Specialized experience may be substituted for formal education. For example, four (4) years of experience are required to substitute for a Bachelor's degree.

## Principal Systems Engineer/Security Specialist

**General Experience:** Principal Systems Engineer/Security Specialists have twelve (12) years of substantive IT knowledge and demonstrated hands-on expertise and/or training in areas of emerging technologies. These areas include, but are not limited to, national policy development, continuity of government and operations, crisis management, disaster recovery, database frameworks, enterprise resource planning, HyperText Markup Language (HTML), HyperText Transfer Protocol (HTTP), Web portals, firewalls, geographic information systems, visual simulation applications, and remote sensing/satellite imagery.

**Functional Responsibility:** Provides technical expertise, support, and oversight in one or more emerging technology areas including, but not limited to, knowledge discovery, data mining, wireless communications, Internet technologies, secure messaging, enterprise engineering, fraud detection, intrusion detection, bioinformatics, information assurance, public key infrastructure (PKI), and critical infrastructure protection. Reviews and recommends solutions to customer problems based on prior experience and hands-on understanding of how products and services interrelate and support the customer mission.

**Education:** A Bachelor's degree in Business, Engineering, Computer Science, Information Systems, Social Science, or other related analytical, scientific, or technical disciplines. Formal education may be substituted for experience. Each formal degree (i.e., Bachelors, Masters, PhD) may be substituted for four (4) years of experience. Specialized experience may be substituted for formal education. For example, four (4) years of experience are required to substitute for a Bachelor's degree.

## Quality Assurance Manager

**General Experience:** Ten (10) years experience in the design, development, and implementation of business or computer systems and programs. At least six years acting in a management role of a large multi-task program. Knowledge of the Federal contract and procurement regulations. The QA Manager will be responsible for leading a team of testers supporting several projects. Responsibilities will cover test planning, test execution, defect tracking and reporting, as well as development of automated test scripts to support regression testing. As a member of the project management team, the Software QA Manager will work with a variety of groups, across multiple disciplines, to streamline, integrate, and continuously improve the effectiveness of the QA organization and processes.

**Functional Responsibility:** Maintain and expand client relationships through the delivery of high-quality project work. Facilitate the implementation of Capability Maturity Model Integrated (CMMI) compliant processes and procedures. Plan, manage, and direct project-level Quality Assurance activities to ensure compliance with organizational and client-specific policies and procedures.

Develop, implement, and coordinate the project, product, and process assurance program to prevent or eliminate defects in products. Review project documentation to ensure compliance with documentation standards and applicable client standards. Conduct reviews and audits to ensure that processes are compliant with the applicable standards. Interact with all project personnel, including the project manager and team lead, to review process implementation. Develop quality plans, schedules, and evaluation criteria, and assist in utilizing resources in the most effective and efficient manner. Enforce established applications programming standards, and documentation; review the work effectiveness, task effectiveness, and compatibility with other projects in related areas. Develop, review, and enforce policies, practices, and standards, including programming and documentation standards. Review technical training needs for subordinate staff, plan activities and implement training courses as appropriate and assure attendance by appropriate staff as required. Maintain liaison with management and government personnel. Supervise and participate in the selection, training, and evaluation of staff members. Perform related duties as assigned.

**Education:** A Bachelor's degree in computer science, engineering, mathematics, business, plus six (6) years practical experience. Formal education may be substituted for experience. Each formal degree (i.e., Bachelors, Masters, PhD) may be substituted for four (4) years of experience. Specialized experience may be substituted for formal education. For example, four (4) years of experience are required to substitute for a Bachelor's degree.

## Systems Engineer II

**General Experience:** Five (5) years of progressive experience in computer programming and/or information systems development or a relevant technical, scientific or social science discipline. Experience in a combination of standards and policy, development research, development in a technical discipline, and development of information systems. Experience in developing and providing technical and end-user training on application software. Demonstrated ability to communicate orally and in writing. Must possess strong organizational skills and strong interpersonal skills to effectively relate to agency and customer needs. Supervisory experience in managing engineers, programmers, and analysts.

**Functional Responsibility:** Analyzes functional business applications and design specifications for functional activities. Develops block diagrams and logic flow charts. Translate detailed design into computer software. Test, debug, and refine the computer software to produce the required product. Prepares required documentation, including both program-level and user-level documentation. Enhances software to reduce operating time or improve performance efficiency. Develops computer software possessing a wide range of capabilities including numerous engineering, business, and records management functions. Develops and plans automated information systems requirements and program specifications.

**Education:** Bachelor's degree in Computer Science, Information Systems, Engineering, Business, Social Science or other related analytical, scientific or technical discipline. Formal education may be substituted for experience. Each formal degree (i.e., Bachelors, Masters, PhD) may be substituted for four (4) years of experience. Specialized experience may be substituted for formal education. For example, four (4) years of experience are required to substitute for a Bachelor's degree.

## Software Engineer II

**General Experience:** Four (4) years of progressive experience in computer programming and/or information systems development or a relevant technical, scientific or social science discipline. Experience in a combination of standards and policy development, research and analysis of

information system issues and trends, research and development in a technical discipline, and development of information systems. Experience in developing and providing technical and end-user training on application software. Demonstrated ability to communicate orally and in writing. Must possess strong organizational skills and strong interpersonal skills to effectively relate to agency and customer needs. Experienced in one of the following engineering disciplines: systems engineering, systems integration, software engineering, information engineering telecommunications engineering, network engineering, electrical engineering, and data quality engineering or other relevant engineering disciplines.

**Functional Responsibility:** Analyses functional business applications and design specifications for functional activities. Develops block diagrams and logic flow charts. Translates detailed design into computer software. Tests, debugs, and refines the computer software to produce the required product. Prepares required documentation, including both program level and user-level documentation. Enhances software to reduce operating time or improved performance efficiency. Develops computer software possessing a wide range of capabilities, including numerous engineering, business, and records management functions. Develops plans for automated information systems from project inception to conclusion. Analyzes problems and develops system requirements and program specifications. Applies process improvement and reengineering methodologies and principles to conduct process modernization projects including process and data modeling, developing modern business methods, identifying best practices, and creating and assessing performance measurements. Gathers information by developing and implementing data collection instruments and conducts surveys, document reviews, and interviews. Provides group facilitation, interviewing, training, and provides additional forms of knowledge transfer. Facilitation support includes cross-functional team building, project scoping work sessions, facilitation using creative dynamics techniques, and conflict resolution techniques. Performs manual or automated modeling of process or data models, data flow diagrams, and simulation models. Develops prototype database systems. Designs transaction-driven modules to satisfy functional requirement in an on-line or internet/intranet environment. Designs test environments for new applications against databases. Creates entity relationship models to support logical/physical database designs. Creates metadata describing database design and attribute descriptions. Creates schema for building databases. Assists in the management of database projects including preparation/delivery of presentations on database management concepts. Responsible for databases administration and maintenance of, identification and resolution of user problems of the system, analysis and implementation of enhancements, and operation and maintenance of databases.

**Education:** A Bachelor's degree in Computer Science, Information Systems, Engineering, Business, Social Science, or other related analytical, scientific, or technical disciplines. Formal education may be substituted for experience. Each formal degree (i.e., Bachelors, Masters, PhD) may be substituted for four (4) years of experience. Specialized experience may be substituted for formal education. For example, four (4) years of experience are required to substitute for a Bachelor's degree.

## Testing Specialist

**General Experience:** Four (4) years of directly related experience in the design, development and implementation of systems software and/or business application systems for computer system using advanced programming languages.

**Functional Responsibility:** Requires specialized subject matter expertise in the testing of systems and related software for computers in a large multi-user environment. Knowledge of test planning, test execution, defect tracking and reporting, including follow-up and issue resolution. Develop, write, execute, and maintain test plans, test scenarios, and manual and/or automated test scripts, along

with supporting materials relating to Functional, Performance, Stress, and Regression testing of web-based applications. Test software and systems, identify and report defects, and track defects to closure. Communicate effectively to ensure that all testing needs are being assessed and addressed to ensure products meet or exceed performance targets. Effectively and accurately document all testing results and concerns as well as communicate to management and proactively work to resolve any issues. Participate in planning all testing activities accordingly to ensure on time deliverables are met. Extract product information from technical specifications and interaction with the engineering team and clients. Review Help system content for the applications. Review graphics, flow charts, and diagrams for inclusion in documentation. Prepare documents following standard guidelines for technical publications. Participate in the continuous development of the standard practices and procedures for the test team. Develop and administer standards for maintaining product quality within GNSI.

**Education:** A Bachelor's degree with major coursework in computer science, engineering, mathematics. Formal education may be substituted for experience. Each formal degree (i.e., Bachelors, Masters, PhD) may be substituted for four (4) years of experience. Specialized experience may be substituted for formal education. For example, four (4) years of experience are required to substitute for a Bachelor's degree.

## **Technical Writer II/Training Specialist**

**General Experience:** The Technical Writer will have at least one (1) year experience developing, editing, and producing technical and graphic documentation for information technology systems. Must have a basic understanding of computer processing, including commonly used information technology terminology and must possess strong organizational skills.

**Functional Responsibility:** The Technical Writer assists in collecting and organizing information required for preparation of user's manuals, training materials, installation guides, proposals, and reports. Edits functional descriptions, system specifications, user's manuals, special reports, or any other customer deliverables and documents. Prepares and edits documentation incorporating information provided by the user, specialist, analyst, programmer, and management personnel. Duties include writing, edition, and graphics presentation of technical information for both technical and non-technical personnel. Interprets technical documentation standards and prepares documentation accordingly.

**Education:** A Bachelor's degree in Accounting, Business, Engineering, Computer Science, Information Engineering or other related scientific, technical or social sciences discipline. Formal education may be substituted for experience. Each formal degree (i.e., Bachelors, Masters, PhD) may be substituted for four (4) years of experience. Specialized experience may be substituted for formal education. For example, four (4) years of experience are required to substitute for a Bachelor's degree.

## **Internet/Intranet Site Developer**

**General Experience:** This position requires three (3) years of progressive experience. Two (2) years of specialized experience in developing. Experience with SQL/Server, Microsoft IIS, and Cold Fusion Administration, Content Management Systems, XML, and Search Engines.

**Functional Responsibility:** Design and development of web sites and pages using HTML, JAVA, and other Internet/Intranet based applications. Minimum 2 years professional experience developing dynamic applications using HTML, CSS, and JavaScript. Macromedia DreamWeaver, RoboHelp and RoboDemo experience. Ability to hand-code HTML. Experience with Section 508 requirements,

JAWS, etc. Proficiency in relational database design, development, maintenance, and troubleshooting. Experience in the planning and implementation of customer-driven web applications. Understanding of web encryption technologies (SSL Certificates, https, etc.). Experience with life-cycle development, including documentation.

**Education:** A Bachelor's degree in Computer Science or related field. Formal education may be substituted for experience. Each formal degree (i.e., Bachelors, Masters, PhD) may be substituted for four (4) years of experience. Specialized experience may be substituted for formal education. For example, four (4) years of experience are required to substitute for a Bachelor's degree.

## **Administrative Assistant/Support Specialist**

**General Experience:** The Administrative Assistant/Support Specialist will have at least one (1) year experience directing all financial management and administrative activities such as budgeting, manpower and resource planning, and financial reporting. Must demonstrate the ability to work independently or under only general supervision.

**Functional Responsibility:** The Administrative Support Specialist prepares management plans and reports. Coordinates schedules to facilitate completion of proposals, contract deliverables, delivery order review, briefings/presentations/ and IPR preparation. Performs analysis and evaluation of existing procedures, processes, techniques, models, and/or systems related to management problems or contractual issues that would require a report and recommend solutions. Assists in the development of work breakdown schedules and prepare charts, tables, graphs, and diagrams to assist in analyzing problems. Performs analysis, development, and review of program administrative operating procedures.

**Education:** Requires High School diploma. Formal education may be substituted for experience. Each formal degree (i.e., Bachelors, Masters, PhD) may be substituted for four (4) years of experience. Specialized experience may be substituted for formal education. For example, four (4) years of experience are required to substitute for a Bachelor's degree.

# TERMS AND CONDITIONS APPLICABLE TO ELECTRONIC AND SUBSCRIPTION SERVICES (SPECIAL ITEM NUMBER 132-52)

## 1. SCOPE

The prices, terms and conditions stated under Special Item Number 132-52 Electronic Commerce (EC) Services apply exclusively to EC Services within the scope of this Information Technology Schedule.

## 2. ELECTRONIC COMMERCE CAPACITY AND COVERAGE

The Ordering Activity shall specify the capacity and coverage required as part of the initial requirement.

## 3. INFORMATION ASSURANCE

- a. The Ordering Activity is responsible for ensuring to the maximum extent practicable that each requirement issued is in compliance with the Federal Information Security Management Act (FISMA)
- b. The Ordering Activity shall assign an impact level (per Federal Information Processing Standards Publication 199 & 200 (FIPS 199, "Standards for Security Categorization of Federal Information and Information Systems") (FIPS 200, "Minimum Security Requirements for Federal Information and Information Systems") prior to issuing the initial statement of work. Evaluations shall consider the extent to which each proposed service accommodates the necessary security controls based upon the assigned impact level. The Contractor awarded SIN 132-52 is capable of meeting at least the minimum security requirements assigned against a low-impact information system (per FIPS 200).
- c. The Ordering Activity reserves the right to independently evaluate, audit, and verify the FISMA compliance for any proposed or awarded Electronic Commerce services. All FISMA certification, accreditation, and evaluation activities are the responsibility of the ordering activity.

## 4. DELIVERY SCHEDULE

The Ordering Activity shall specify the delivery schedule as part of the initial requirement. The Delivery Schedule options are found in Information for Ordering Activities Applicable to All Special Item Numbers, paragraph 6. Delivery Schedule.

## 5. INTEROPERABILITY

When an Ordering Activity requires interoperability, this requirement shall be included as part of the initial requirement. Interfaces may be identified as interoperable on the basis of participation in a sponsored program acceptable to the Ordering Activity. Any such access or interoperability with teleports/gateways and provisioning of enterprise service access will be defined in the individual requirement.

## 6. ORDER

- a. Agencies may use written orders, EDI orders, blanket purchase agreements, individual purchase orders, or task orders for ordering electronic services under this contract. Blanket Purchase Agreements shall not extend beyond the end of the contract period; all electronic services and delivery shall be made and the contract terms and conditions shall continue in effect until the completion of the order. Orders for tasks which extend beyond the fiscal year for which funds

are available shall include FAR 52.232-19 (Deviation – May 2003) Availability of Funds for the Next Fiscal Year. The purchase order shall specify the availability of funds and the period for which funds are available.

- b. All task orders are subject to the terms and conditions of the contract. In the event of conflict between a task order and the contract, the contract will take precedence.

## **7. PERFORMANCE OF ELECTRONIC SERVICES**

The Contractor shall provide electronic services on the date agreed to by the Contractor and the ordering activity.

## **8. RESPONSIBILITIES OF THE CONTRACTOR**

The Contractor shall comply with all laws, ordinances, and regulations (Federal, State, City, or otherwise) covering work of this character.

## **9. RIGHTS IN DATA**

The Contractor shall comply FAR 52.227-14 RIGHTS IN DATA – GENERAL and with all laws, ordinances, and regulations (Federal, State, City, or otherwise) covering work of this character.

## **10. ACCEPTANCE TESTING**

If requested by the ordering activity the Contractor shall provide acceptance test plans and procedures for ordering activity approval. The Contractor shall perform acceptance testing of the systems for ordering activity approval in accordance with the approved test procedures.

## **11. WARRANTY**

The Contractor shall provide a warranty covering each Contractor-provided electronic commerce service. The minimum duration of the warranty shall be the duration of the manufacturer's commercial warranty for the item listed below: Standard Commercial Warranty

The warranty shall commence upon the later of the following:

- a. Activation of the user's service
- b. Installation/delivery of the equipment

The Contractor, by repair or replacement of the defective item, shall complete all warranty services within five working days of notification of the defect. Warranty service shall be deemed complete when the user has possession of the repaired or replaced item. If the Contractor renders warranty service by replacement, the user shall return the defective item(s) to the Contractor as soon as possible but not later than ten (10) working days after notification.

## **12. MANAGEMENT AND OPERATIONS PRICING**

The Contractor shall provide management and operations pricing on a uniform basis. All management and operations requirements for which pricing elements are not specified shall be provided as part of the basic service.

## **13. TRAINING**

The Contractor shall provide normal commercial installation, operation, maintenance, and engineering interface training on the system. If there is a separate charge, indicate below: N/A

## 14. MONTHLY REPORTS

In accordance with commercial practices, the Contractor may furnish the ordering activity/user with a monthly summary ordering activity report

## 15. ELECTRONIC COMMERCE SERVICE PLAN

(a) Describe the electronic service plan and eligibility requirements.

**The SLA covers three components that support the availability of the client's web site:**

### #1 - 100% Network Uptime

The Contractor guarantees that its data center network will be available 100% of the time in a given month, excluding scheduled maintenance. The data center network means the portion of the Rackspace network extending from the outbound port on the client's edge device to the outbound port of the data center border router and includes Rackspace managed switches, routers, cabling.

**Guaranty:** GNSI will credit your account 5% of the monthly fee for each 30 minutes of network downtime, up to 100% of your monthly fee for the affected server.

### #2 - Infrastructure

The Contractor guarantees that data center HVAC and power will be functioning 100% of the time in a given month, excluding scheduled maintenance. Power includes UPSs, PDUs and cabling, but does not include the power supplies on the client's servers. Infrastructure downtime exists when a particular server is shut down due to power or heat problems.

**Rackspace Guaranty:** GNSI will credit the account 5% of the monthly fee for each 30 minutes of infrastructure downtime, up to 100% of the client's monthly fee for the affected server(s).

### #3 - Hardware

The Contractor guarantees the functioning of all server hardware components and will replace any failed component at no cost. "Hardware" means the processor(s), RAM, hard disk(s), motherboard, NIC card and other related hardware included with the server. Hardware replacement will begin once we identify the cause of the problem. Hardware replacement is guaranteed to be complete within one hour of problem identification.

**Rackspace Guaranty:** GNSI will credit your account 5% of the monthly fee per additional hour of downtime, up to 100% of your monthly fee for the affected server(s).

### Credit Requests

To receive an SLA credit, customers must contact their account manager.

### Eligibility requirements:

The customer has agreed to a 12 month (or longer) contract.

The customer is not past due on any account and are in good standing with GNSI.

The customer has not been past due for at least (60) days prior to the date of notice.

The customer has not otherwise breached the Master Service Agreement or Acceptable Use Policy.

(b) Describe charges, if any, for additional usage guidelines.

All accounts include 2 TB off data transfer monthly per host system. Bandwidth use beyond 2TB is charged at \$2.50 per GB.

(c) Describe corporate volume discounts and eligibility requirements, if any.

Long term commitments beyond 1 year may earn additional discounts as determined by the supplier, Rackspace. In addition, multiple smaller accounts from the same organization may be combined for consideration of additional discounts.

## GSA PRICING – HOSTING SERVICES

### SIN 132-52 / 132-52STLOC / 132-52RC

Manufacturer	MFR Part #	Product Name	Product Description	GSA Price	Warranty
Rackspace	RAXFW-0001	Cisco ASA 5510 Firewall	Cisco ASA 5510 Firewall - 100 Mbps Connectivity, 300 Mbps Aggregate, 130,000 Concurrent Connections and Stateful Packet Inspection, (monthly cost)	\$517.89	1-Hour Replacement

Rackspace	RAXLOG-0003	Alert Logic Log Manager 51-75 Sources	Alert Logic Log Manager 51-75 Sources (Tier 3) - Log Management: First Log Source Included - Qty: 1, Per source, for Log Sources 2 - 25 (Tier 1) - Qty: 1, Per source, for Log Sources 26 - 50 (Tier 2) - Qty: 1 - Per source, for Log Sources 51 - 75 (Tier 3) - Qty: 1 - Dedicated device to collect specified log data, Monitor log collection activities and alerts you when logs are not being collected at the anticipated rate, Customizable reporting and data retention, Single centralized view and management of all log data, (monthly cost)	\$1,008.36	1-Hour Replacement
Rackspace	RAXLOG-0004	Alert Logic Log Manager 76-300 Sources	Alert Logic Log Manager 76-300 Sources (Tier 4) -Log Management: First Log Source Included - Qty: 1, Per source, for Log Sources 2 - 25 (Tier 1) - Qty: 1, Per source, for Log Sources 26 - 50 (Tier 2) - Qty: 1 - Per source, for Log Sources 51 - 75 (Tier 3) - Qty: 1, Per source, for Log Sources 76 - 300 (Tier 4) - Qty: 1 - Dedicated device to collect specified log data, Monitor log collection activities and alerts you when logs are not being collected at the anticipated rate, Customizable reporting and data retention, Single centralized view and management of all log data, (monthly cost)	\$1,024.12	1-Hour Replacement
Rackspace	RAXLOG-0005	Alert Logic SSL Decryption Module	Alert Logic SSL Decryption Module : Upgrade to Alert Logic Log Manager	\$301.84	1-Hour Replacement
Rackspace	RAXLOG-0006	Alert Logic Log Review 1-25 Sources	Alert Logic Log Review 1-25 Sources (Tier 1)- Log Management: Per source, for Log Review 1 - 25 (Tier 1) - Qty: 1 -Daily analysis of event log data for potential incidents such as account lockouts, failed logins, new user accounts and improper access attempts, Identify potential incidents that warrant follow up based on thresholds defined during your configuration, and sends email notifications to you for review, Creates a case for each report for audit purposes which you can review later, For applicable log types, creates reports mapped to certain PCI-DSS standards, (monthly cost)	\$63.02	1-Hour Replacement
Rackspace	RAXLOG-0007	Alert Logic Log Review 26-50 Sources	Alert Logic Log Review 26-50 Sources (Tier 2) - Log Management: Per source, for Log Review 1 - 25 (Tier 1) - Qty: 1, Per source, for Log Review 26 - 50 (Tier 2) - Qty: 1-Daily analysis of event log data for potential incidents such as account lockouts, failed logins, new user accounts and improper access attempts, Identify potential incidents that warrant follow up based on thresholds defined during your configuration, and sends email notifications to you for review, Creates a case for each report for audit purposes which you can review later, For applicable log types, creates reports mapped to certain PCI-DSS standards., (monthly cost)	\$105.04	1-Hour Replacement

Manufacturer	MFR Part #	Product Name	Product Description	GSA Price	Warranty
Rackspace	RAXLOG-0008	Alert Logic Log Review 51-75 Sources	Alert Logic Log Review 51-75 Sources (Tier 3) - Log Management: Per source, for Log Review 1 - 25 (Tier 1) - Qty: 1, Per source, for Log Review 26 - 50 (Tier 2) - Qty: 1, Per source, for Log Review 51 - 75 (Tier 3) - Qty: 1-Daily analysis of event log data for potential incidents such as account lockouts, failed logins, new user accounts and improper access attempts, Identify potential incidents that warrant follow up based on thresholds defined during your configuration, and sends email notifications to you for review, Creates a case for each report for audit purposes which you can review later, For applicable log types, creates reports mapped to certain PCI-DSS standards., (monthly cost)	\$131.30	1-Hour Replacement
Rackspace	RAXLOG-0009	Alert Logic Log Review 76-300 Sources	Alert Logic Log Review 76-300 Sources (Tier 4) - Log Management: Per source, for Log Review 1 - 25 (Tier 1) - Qty: 1, Per source, for Log Review 26 - 50 (Tier 2) - Qty: 1, Per source, for Log Review 51 - 75 (Tier 3) - Qty: 1, Per source, for Log Review 76 - 300 (Tier 4) - Qty: 1-Daily analysis of event log data for potential incidents such as account lockouts, failed logins, new user accounts and improper access attempts, Identify potential incidents that warrant follow up based on thresholds defined during your configuration, and sends email notifications to you for review, Creates a case for each report for audit purposes which you can review later, For applicable log types, creates reports mapped to certain PCI-DSS standards., (monthly cost)	\$147.05	1-Hour Replacement
Rackspace	RAXLOG-0010	Alert Logic Log Archive 2-25 Sources	Alert Logic Log Archive 2-25 Sources (Level 1)- Log Management: Per Log Source to archive between 2 and 25 (Level One) - Qty: 1, (monthly cost)	\$52.52	1-Hour Replacement
Rackspace	RAXLOG-0011	Alert Logic Log Archive 26-50 Sources	Alert Logic Log Archive 26-50 Sources (Level 2) - Log Management: Per Log Source to archive between 2 and 25 (Level One) - Qty: 1,Per Log Source to archive between 26 and 50 (Level Two) - Qty: 1, (monthly cost)	\$157.56	1-Hour Replacement
Rackspace	RAXLOG-0012	Alert Logic Log Archive 51-75 Sources	Alert Logic Log Archive 51-75 Sources (Level 3) - Log Management: Per Log Source to archive between 2 and 25 (Level One) - Qty: 1,Per Log Source to archive between 26 and 50 (Level Two) - Qty: 1, Per Log Source to archive between 51 and 75 (Level Three) - Qty: 1, (monthly cost)	\$315.11	1-Hour Replacement
Rackspace	RAXLOG-0013	Alert Logic Log Archive 76-300 Sources	Alert Logic Log Archive 76-300 Sources (Level 4) - Log Management: Per Log Source to archive between 2 and 25 (Level One) - Qty: 1,Per Log Source to archive between 26 and 50 (Level Two) - Qty: 1, Per Log Source to archive between 51 and 75 (Level Three) - Qty: 1,Per Log Source to archive between 76 and 300 (Level Four) - Qty: 1, (monthly cost)	\$525.19	1-Hour Replacement

Manufacturer	MFR Part #	Product Name	Product Description	GSA Price	Warranty
Rackspace	RAXSWTCH-0001	Gigabit Private Network	Gigabit Private Network - New Infrastructure, 1000 Mbps Cisco Catalyst Switches, Public Net Server Count (High Availability), (monthly cost)	\$9.43	1-Hour Replacement
Rackspace	RAXSWTCH-0002	Gigabit Local Network	Gigabit Local Network - New Infrastructure, 1000 Mbps Cisco Catalyst Switches, Public Net Server Count (High Availability), (monthly cost)	\$9.43	1-Hour Replacement
Rackspace	RAXSWTCH-0003	Gigabit Backup Network	Gigabit Backup Network - New Infrastructure, 1000 Mbps Cisco Catalyst Switches, Public Net Server Count (High Availability), (monthly cost)	\$9.43	1-Hour Replacement
Rackspace	RAXSWTCH-0004	Gigabit Public / Private Network	Gigabit Public / Private Network - New Infrastructure, 1000 Mbps Cisco Catalyst Switches, Public Net Server Count (High Availability), (monthly cost)	\$9.47	1-Hour Replacement
Rackspace	RAXSWTCH-0005	Gigabit Network Aggregation	Gigabit Network Aggregation - New Infrastructure, 1000 Mbps Cisco Catalyst Switches, Public Net Server Count (High Availability), (monthly cost)	\$321.39	1-Hour Replacement
Rackspace	RAXSWTCH-0006	Network Cross Connect	Network Cross Connect - Required for Terminating a 3rd-party Network Connection or Leased Line, (monthly cost)	\$304.60	1-Hour Replacement
Rackspace	RAXSWTCH-0007	Arista 7050S Switch	Arista 7050S Switch : One Port- Arista 7050S 48-Port 10Gb (SFP+) Comes standard with 4 ports populated, Up to 44 additional ports can be added, Cost per additional port includes: SFP+ module, installation, and support, Number of additional ports for Arista 7050S - Qty: 1, (monthly cost)	\$2,109.15	1-Hour Replacement
Rackspace	RAXSWTCH-0008	Pair of Arista 7050S Switch (HA)	Pair of Arista 7050S Switch (High Availability) - Redundant pair of Arista 7050S 48-Port 10Gb (SFP+) Comes standard with 4 ports populated per switch, Up to 86 additional ports can be added (43 ports per switch), Cost per additional port includes: SFP+ module, installation, and support, Number of additional ports for Arista 7050S - Qty: 1, (monthly cost)	\$3,411.62	1-Hour Replacement
Rackspace	RAXSWTCH-0009	Cisco 2950 Switch	Cisco 2950 Switch , (monthly cost)	\$148.09	1-Hour Replacement
Rackspace	RAXSWTCH-0010	Cisco 2960 Switch	Cisco 2960 Switch, (monthly cost)	\$301.45	1-Hour Replacement
Rackspace	RAXSWTCH-0011	Cisco 4948 IPB	Cisco 4948 IPB S/W 48 Port Switch , (monthly cost)	\$1,007.30	1-Hour Replacement
Rackspace	RAXSWTCH-0012	Cisco 4948 IPB	Cisco 4948 IPB S/W 48 * 10/100/1000 + 2 * 10GE (x2) Switch , (monthly cost)	\$1,225.78	1-Hour Replacement
Rackspace	RAXDELL-0001	Enhanced One - Bronze Server	Enhanced One - Bronze - Server - Dell - 2950/2970, OS: None, Processor: Single Processor, Quad Core INTEL or AMD 1.9Ghz (Std.), Memory:8 GB (Std.), Drive and RAID Configuration: RAID 1 146 GB Std. (15K SAS 3.5") - Qty: 2 -Drive Partitioning: Rackspace Suggested Partitioning, Network:1000 Mbps, Managed Backup: No Backup, Bandwidth:2000 GB, (monthly cost)	\$791.64	1-Hour Replacement

Manufacturer	MFR Part #	Product Name	Product Description	GSA Price	Warranty
Rackspace	RAXDELL-0002	Enhanced One - Silver Server	Enhanced One - Silver - Server - Dell 2950/2970. OS :None Included, Processor: Dual Processor, Quad Core INTEL or AMD 1.9Ghz (Std.),Memory:16 GB (Std.), Drive and RAID Configuration:RAID 1, 146 GB Std. (15K SAS 3.5") - Qty: 2, Drive Partitioning: Rackspace Suggested Partitioning, Network:1000 Mbps, Managed Backup: No Backup, Bandwidth:2000 GB, (monthly cost)	\$876.52	1-Hour Replacement
Rackspace	RAXDELL-0003	Enhanced One - Gold Server	Enhanced One - Gold - Server - Dell 2950/2970, OS: None Included, Processor: Dual Processor, Quad Core INTEL or AMD 1.9Ghz (Std.),Memory:32 GB (Std.),Drive and RAID Configuration: RAID 1, 146 GB Std. (15K SAS 3.5") - Qty: 2, Drive Partitioning: Rackspace Suggested Partitioning, Network:1000 Mbps, Managed Backup: No Backup,Bandwidth:2000 GB, (monthly cost)	\$1,105.43	1-Hour Replacement
Rackspace	RAXDELL-0004	Enhanced Two Bronze Server	Enhanced Two Bronze -Server - Dell 710, OS: None Included, Processor: Single Processor, Quad Core Intel 2.26GHz (Std.), Memory:12 GB (Std.), Drive and RAID Configuration:, RAID 1 , 146 GB Std. (15K SAS 3.5") - Qty: 2, Drive Partitioning: Rackspace Suggested Partitioning, Network:1000 Mbps, Managed Backup: No Backup, Bandwidth:2000 GB, (monthly cost)	\$1,071.10	1-Hour Replacement
Rackspace	RAXDELL-0005	Enhanced Two Silver Server	Enhanced Two Silver - Server - Dell 710, OS: None Included, Processor: Dual Processor, Quad Core Intel 2.26GHz (Std.), Memory:24 GB (Std.), Drive and RAID Configuration: RAID 1 ,146 GB Std. (15K SAS 3.5") - Qty: 2, Drive Partitioning: Rackspace Suggested Partitioning, Network:1000 Mbps, Managed Backup: No Backup,Bandwidth:2000 GB, (monthly cost)	\$1,153.13	1-Hour Replacement
Rackspace	RAXDELL-0006	Enhanced Two Gold Server	Enhanced Two Gold - Server - Dell 710, OS None Included, Processor: Dual Processor, Quad Core Intel 2.26GHz (Std.), Memory:48 GB (Std.), Drive and RAID Configuration: RAID 1 , 146 GB Std. (15K SAS 3.5") - Qty: 2, Drive Partitioning: Rackspace Suggested Partitioning, Network:1000 Mbps, Managed Backup: No Backup,Bandwidth:2000 GB, (monthly cost)	\$1,248.51	1-Hour Replacement
Rackspace	RAXDELL-0007	Performance One Bronze Server	Performance One Bronze - Server - Dell 720, OS: None Included, Processor: Single Processor, Hex Core Intel 2.50GHz (Std.), Memory:32 GB (Std.), Drive and RAID Configuration: RAID 1, 300 GB Std. (15K SAS 3.5") - Qty: 2, Drive Partitioning: Rackspace Suggested Partitioning, Network:1000 Mbps, Managed Backup: No Backup,Bandwidth:2000 GB, (monthly cost)	\$1,184.61	1-Hour Replacement

Manufacturer	MFR Part #	Product Name	Product Description	GSA Price	Warranty
Rackspace	RAXDELL-0008	Performance One - Silver Server	Performance One Silver - Server - Dell 720- OS: None Included, Processor :Dual Processor, Hex Core Intel 2.50GHz (Std.),Memory:64 GB (Std.), Drive and RAID Configuration: RAID 1, 300 GB Std. (15K SAS 3.5") - Qty: 2, Drive Partitioning: Rackspace Suggested Partitioning, Network:1000 Mbps, Managed Backup: No Backup,Bandwidth:2000 GB, (monthlycost)	\$1,409.69	1-Hour Replacement
Rackspace	RAXDELL-0009	Performance One - Gold Server	Performance One Gold - Server - Dell 720- OS: None Included, Processor: Dual Processor, Hex Core Intel 2.50GHz (Std.),Memory:128 GB (Std.),Drive and RAID Configuration: RAID 1, 600 GB Std. (15K SAS 3.5") - Qty: 2, Drive Partitioning: Rackspace Suggested Partitioning, Network:1000 Mbps, Additional Network Connection(s):Intel I350 Quad Port (Std.) - Qty: 1,Managed Backup: No Backup, Bandwidth:2000 GB, (monthly cost)	\$1,688.20	1-Hour Replacement
Rackspace	RAXDELL-0010	Performance Two - Bronze Server	Performance Two - Bronze - Server - Dell 810 OS: None Included Processor: Dual Processor, Hex Core Intel 2.0GHz (Std.), Memory:64 GB (Std.), Drive and RAID Configuration: RAID 1, 146 GB Std. (15K SAS 2.5") - Qty: 2, Drive Partitioning: Rackspace Suggested Partitioning, Network:1000 Mbps, Managed Backup: No Backup, Bandwidth:2000 GB, (monthly cost)	\$1,928.57	1-Hour Replacement
Rackspace	RAXDELL-0011	Performance Two - Silver Server	Performance Two - Silver -Server - Dell 810- OS: None Included, Processor: Quad Processor, Hex Core Intel 2.0GHz (Std.),Memory:128 GB (Std.), Drive and RAID Configuration: RAID 1, 146 GB Std. (15K SAS 2.5") - Qty: 2, Drive Partitioning: Rackspace Suggested Partitioning,Network:1000 Mbps, Managed Backup: No Backup,Bandwidth:2000 GB, (monthlycost)	\$2,289.09	1-Hour Replacement
Rackspace	RAXDELL-0012	Performance Two - Gold Server	Performance Two - Gold - Dell 810- OS: None Included, Processor: Quad Processor, HexCore Intel 2.0GHz (Std.),Memory:128 GB (Std.), Drive and RAID Configuration: RAID 1, 146 GB Std. (15K SAS 2.5") - Qty: 2, Drive Partitioning: Rackspace Suggested Partitioning,Network:1000 Mbps, Managed Backup: No Backup,Bandwidth:2000 GB, (monthlycost)	\$2,670.61	1-Hour Replacement
Rackspace	RAXHBA-0001	HA Fiber HBA Connection	HA Fiber HBA Connection. Upgrade to Dedicated RAXDELL-XXXX Offering, (monthly cost)	\$115.54	1-Hour Replacement
Rackspace	RAXNIC-0001	Dual: Intel 10Gbe Network Interface Card	Dual: Intel 10Gbe Dual Port Network Interface Card. Upgrade to Dedicated RAXDELL-XXXX Offering, (monthly cost)	\$116.71	1-Hour Replacement
Rackspace	RAXNIC-0002	Quad: Intel Pro 1000MT Network Card	Quad: Intel Pro 1000MT Quad Port Network Interface Card. Upgrade to Dedicated RAXDELL-XXXX Offering, (monthlycost)	\$233.41	1-Hour Replacement
Rackspace	RAXCOLO-0001	2U Colocation Space	2U Colocation Space, Dedicated Cabinet Space Includes Space Power, and Network Connectivity. Must be Sold With Dedicated RAXDELL-XXXX Offering, (monthly cost)	\$262.59	1-Hour Replacement

Manufacturer	MFR Part #	Product Name	Product Description	GSA Price	Warranty
Rackspace	RAXEXCH-0009	Blackberry Support	Blackberry Support for Customer Provided License (per Mailbox)	\$3.15	1-Hour Replacement
Rackspace	RAXEXCH-0011	Managed Backup Agents for Exchange	Microsoft Exchange / Fully configured and managed by Dedicated storage engineers / Support for agent-based backups of Microsoft Exchange Information Stores. Server Purchase Required, (monthly cost per device)	\$10.50	1-Hour Replacement
Rackspace	RAXMD3000-0001	Dell 3200u - Entry Storage 3.5" Chassis	Dell 3200u - Entry Dedicated Storage: Dell MD3200 (3.5") chassis ; Servers being connected to SAS MD device - Qty: 1; The MD3200 / MD3200 iSCSI can have a Maximum of 12 drives; HBAs are required on the connected servers for the MD3200 ; Entry Dedicated Storage Drives: 5 x 300GB SAS 15K RPM (6Gb/s) 3.5" RAID 5, 1 x 300GB SAS 15K RPM (6Gb/s) 3.5" HotSpare, Usable space: 1117.58 GB, (monthly cost)	\$1,298.22	1-Hour Replacement
Rackspace	RAXMD3000-0002	Dell MD1200u - Addl Drives & Shelves	Dell MD3200u - Additional Disk Drives & Shelves, Dell MD1200 to Attach to Dell MD3200u 3.5" Chassis : 2 x 300GB]; Entry Dedicated Storage Drives: 300GB SAS 15K RPM (6Gb/s) 3.5" - Qty: 2; RAID 1, Usable space: 300 GB, Entry Dedicated Storage- Qty: 1; Dell MD1200 (3.5") chassis : The MD1200 can have a Maximum of 12 drives , (monthly cost)	\$677.70	1-Hour Replacement
Rackspace	RAXMD3000-0010	Dell MD3200u - Addl 300GB 15K 3.5" Disk	Dell MD3200u - Additional Disk Drives & Shelves; 300GB Drive; Entry Dedicated Storage Drives: 300GB SAS 15K RPM (6Gb/s) 3.5" - Qty: 1 ; No Chassis Included- The MD3200 / MD3200 iSCSI can have a Maximum of 12 drives, (monthly cost)	\$63.33	1-Hour Replacement
Rackspace	RAXMD3000-0011	Dell MD3200u - Addl 450 GB 15K 3.5" Disk	Dell MD3200u - Additional Disk Drives & Shelves; 450GB Drive; Entry Dedicated Storage Drives: 450GB SAS 15K RPM (6Gb/s) 3.5" - Qty: 1 ; No Chassis Included- The MD3200 / MD3200 iSCSI can have a Maximum of 12 drives, (monthly cost)	\$90.77	1-Hour Replacement
Rackspace	RAXMD3000-0012	Dell MD3200u - Addl 1TB 7.2K 2.5" Disk	Dell MD3200u - Additional Disk Drives & Shelves, 1TB Drive; Entry Dedicated Storage Drives: 1TB SAS 7.2K RPM (6Gb/s) 3.5" Entry Dedicated Storage: - Qty: 1 No Chassis Included- The MD3200 / MD3200 iSCSI can have a Maximum of 12 drives; The MD1200 can have a Maximum of 12 drives, (monthly cost)	\$183.67	1-Hour Replacement
Rackspace	RAXVNX-0001	dSAN - VNX 5100	dSAN - VNX 5100 DPE with Boot Shelf - 300GB 15K 6G SAS 3.5" x 15 Drives, VNX 5100 can have a maximum of 75 drives, dSAN Storage Boot Shelf: 4 x OS Drives + 1 Global Hot Spare + 10 x remaining drives, A typical RAID configuration would have 2515 GB useable disk space, dSAN Switch: Brocade 5100 (8GB) switch with 24 ports - Qty: 2, (monthly cost)	\$9,839.51	1-Hour Replacement

Manufacturer	MFR Part #	Product Name	Product Description	GSA Price	Warranty
Rackspace	RAXVNX-0002	dSAN - VNX 5300	dSAN - VNX 5300 - dSAN Enclosure: VNX 5300 DPE with Boot Shelf - 300GB 15K 6G SAS 3.5" x 15 Drives, VNX 5300 can have a maximum of 125 drives, dSAN Storage Boot Shelf: 4 x OS Drives + 1 Global Hot Spare + 10 x remaining drives, A typical RAID configuration would have 2515 GB useable disk space, dSAN Switch: Brocade 5100 (8GB) switch with 24 ports - Qty: 2, (monthly cost)	\$13,270.29	1-Hour Replacement
Rackspace	RAXVNX-0003	dSAN - VNX 5500	dSAN - VNX 5500 - dSAN Enclosure: VNX 5500 DPE with Boot Shelf - 300GB 15K 6G SAS 3.5" x 15 Drives, VNX 5500 can have a maximum of 250 drives, dSAN Storage Boot Shelf: 4 x OS Drives + 1 Global Hot Spare + 10 x remaining drives, A typical RAID configuration would have 2515 GB useable disk space, dSAN Switch: Brocade 5100 (8GB) switch with 24 ports - Qty: 2, (monthly cost)	\$15,427.92	1-Hour Replacement
Rackspace	RAXVNX-0004	dSAN - VNX 5700	dSAN - VNX 5700 - dSAN Enclosure: VNX 5700 SPE with VNX DAE-OS Boot Shelf - 300GB 15K 6G SAS 3.5" x 15 Drives, VNX 5500-7500 4 Port 8GB FC IO Module Pair - Qty: 1, VNX 5700 can have a maximum of 500 drives, dSAN Storage Boot Shelf: 4 x OS Drives + 1 Global Hot Spare + 10 x remaining drives, A typical RAID configuration would have 2515 GB useable disk space, dSAN Switch: Brocade 5100 (8GB) switch with 24 ports - Qty: 2, (monthly cost)	\$21,816.32	1-Hour Replacement
Rackspace	RAXVNX-0005	dSAN - VNX 7500	dSAN - VNX 7500 - dSAN Enclosure: VNX 7500 SPE with VNX DAE-OS Boot Shelf - 300GB 15K 6G SAS 3.5" x 15 Drives, VNX 5500-7500 4 Port 8GB FC IO Module Pair - Qty: 1. VNX 7500 can have a maximum of 1000 drives. dSAN Storage Boot Shelf: 4 x OS Drives + 1 Global Hot Spare + 10 x remaining drives, A typical RAID configuration would have 2515 GB useable disk space, dSAN Switch: Brocade 5100 (8GB) switch with 24 ports - Qty: 2, (monthly cost)	\$31,454.58	1-Hour Replacement
Rackspace	RAXVNX-0006	dSAN - VNX Expansion Shelves 300GB Drive	dSAN - VNX Series - Expansion Shelves -300GB Drive -dSAN Enclosure: VNX 5100 can have a maximum of 75 drives, Disk Array Enclosures to Support RAID: VNX DAE for 5100-5300 series - 300GB 15K 6G SAS 3.5" x 15, Drives - Qty: 1, A typical RAID configuration would have 3632 GB useable disk space, (monthly cost)	\$1,889.62	1-Hour Replacement
Rackspace	RAXVNX-0007	dSAN - VNX Expansion Shelves 300GB Drive	dSAN - VNX Series - Expansion Shelves -300GB Drive - dSAN Enclosure: VNX 5500 can have a maximum of 250 drives -Disk Array Enclosures to Support RAID: VNX DAE for 5500-7500 series - 300GB 15K 6G SAS 3.5" x 15 Drives - Qty: 1, A typical RAID configuration would have 3632 GB useable disk space, (monthly cost)	\$1,911.67	1-Hour Replacement

Manufacturer	MFR Part #	Product Name	Product Description	GSA Price	Warranty
Rackspace	RAXVNX-0008	dSAN - VNX Exp Shelves - 600GB Drive	dSAN - VNX Series - Expansion Shelves - 600GB Drive - dSAN Enclosure: VNX 5300 can have a maximum of 125 drives, Disk Array Enclosures to Support RAID: VNX DAE for 5100-5300 series - 600GB 15K 6G SAS 3.5" x 15 Drives - Qty: 1, A typical RAID configuration would have 7264 GB useable disk space, (monthly cost)	\$2,302.42	1-Hour Replacement
Rackspace	RAXVNX-0009	dSAN - VNX Exp Shelves - 600GB Drive	dSAN - VNX Series - Expansion Shelves - 600GB Drive - dSAN Enclosure: VNX 7500 can have a maximum of 1000 drives Disk Array Enclosures to Support RAID: VNX DAE for 5500-7500 series - 600GB 15K 6G SAS 3.5" x 15 Drives - Qty: 1, A typical RAID configuration would have 7264 GB useable disk space, (monthly cost)	\$2,343.39	1-Hour Replacement
Rackspace	RAXVNX-0010	dSAN - VNX Exp Shelves - 1TB Drive	dSAN - VNX Series - Expansion Shelves - 1TB Drive - dSAN Enclosure: VNX 5300 can have a maximum of 125 drives, Disk Array Enclosures to Support RAID: VNX DAE for 5100-5300 series - 1TB 7.2K 6G NL-SAS 3.5" x 15 Drives - Qty: 1, A typical RAID configuration would have 12.4 TB useable disk space, (monthly cost)	\$1,811.90	1-Hour Replacement
Rackspace	RAXVNX-0011	dSAN - VNX Exp Shelves - 1TB Drive	dSAN - VNX Series - Expansion Shelves - 1TB Drive - dSAN Enclosure: VNX 7500 can have a maximum of 1000 drives Disk Array Enclosures to Support RAID: VNX DAE for 5500-7500 series - 1TB 7.2K 6G NL-SAS 3.5" x 15 Drives - Qty: 1, A typical RAID configuration would have 12.4 TB useable disk space, (monthly cost)	\$1,872.81	1-Hour Replacement
Rackspace	RAXVNX-0012	dSAN - VNX Exp Shelves - 2TB Drive	dSAN - VNX Series - Expansion Shelves - 2TB Drive - dSAN Enclosure: VNX 5300 can have a maximum of 125 drives - Disk Array Enclosures to Support RAID: VNX DAE for 5100-5300 series - 2TB 7.2K 6G NL-SAS 3.5" x 15 Drives - Qty: 1, A typical RAID configuration would have 24.8 TB useable disk space, (monthly cost)	\$2,245.70	1-Hour Replacement
Rackspace	RAXVNX-0013	dSAN - VNX Exp Shelves - 2TB Drive	dSAN - VNX Series - Expansion Shelves - 2TB Drive - dSAN Enclosure: VNX 7500 can have a maximum of 1000 drives Disk Array Enclosures to Support RAID: VNX DAE for 5500-7500 series - 2TB 7.2K 6G NL-SAS 3.5" x 15 Drives - Qty: 1, A typical RAID configuration would have 24.8 TB useable disk space, (monthly cost)	\$2,367.54	1-Hour Replacement
Rackspace	RAXVNX-0014	dSAN - VNX Exp Shelves - 100GB Drive	dSAN - VNX Series - Expansion Shelves - 100GB Drive - dSAN Enclosure: VNX 5300 can have a maximum of 125 drives, Disk Array Enclosures to Support RAID: VNX DAE for 5100-5300 series - 100GB 6G SSD 3.5" x 15 Drives - Qty: 1, A typical RAID configuration would have 1211 GB useable disk space, (monthly cost)	\$3,582.83	1-Hour Replacement

## USA COMMITMENT TO PROMOTE SMALL BUSINESS PARTICIPATION PROCUREMENT PROGRAMS

### PREAMBLE

GlobalNet Services, Inc. provides commercial products and services to ordering activities. We are committed to promoting participation of small, small disadvantaged and women-owned small businesses in our contracts. We pledge to provide opportunities to the small business community through reselling opportunities, mentor-protégé programs, joint ventures, teaming arrangements, and subcontracting.

### COMMITMENT

To actively seek and partner with small businesses.

To identify, qualify, mentor and develop small, small disadvantaged and women-owned small businesses by purchasing from these businesses whenever practical.

To develop and promote company policy initiatives that demonstrate our support for awarding contracts and subcontracts to small business concerns.

To undertake significant efforts to determine the potential of small, small disadvantaged and women-owned small business to supply products and services to our company.

To insure procurement opportunities are designed to permit the maximum possible participation of small, small disadvantaged, and women-owned small businesses.

To attend business opportunity workshops, minority business enterprise seminars, trade fairs, procurement conferences, etc., to identify and increase small businesses with whom to partner.

To publicize in our marketing publications our interest in meeting small businesses that may be interested in subcontracting opportunities.

We signify our commitment to work in partnership with small, small disadvantaged and women-owned small businesses to promote and increase their participation in ordering activity contracts.

To accelerate potential opportunities please contact:

**Ori Reiss, President**

**E-mail: oreiss@gnsi.com**

**Fax: (301) 770-9611**

## Overview – GLOBALNET SERVICES, INC. (GNSI)

### CORPORATE BACKGROUND

Founded in 1995, GlobalNet Services, Inc. (GNSI) is a fast-growing, award-winning information technology firm. GNSI has made a name for itself as a premier provider of Web-Application Development, Systems Integration, Enterprise Search, and Business Intelligence solutions.

GNSI is a Capability Maturity Model Integration (CMMI®) Maturity Level 3 company for Software and Systems Engineering. The prestigious CMMI® designation validates GNSI's commitment to establishing and implementing effective processes that enable the development and delivery of quality software and systems products on time and within budget.

GNSI has performed work for numerous high-profile organizations, including the U.S. Food and Drug Administration, National Institutes of Health, the Delta Faucet Company, Navy Federal Credit Union, Iron Mountain, and New York Life Insurance Company.

GNSI has won several awards including the Washington Technology Fast 50 Award, was recognized as a partner in the "Top 5" Excellence in Government Award winners for 2005, and received multiple recognition awards from the U.S. Food and Drug Administration. GNSI was one of five finalists for the Technology Council of Maryland's (TCM) High Technology Firm of the Year award for 2009 and one of three finalists for TCM's Government Contractor of the Year award for 2010.

### IT SERVICE AREAS

GNSI's technical service capabilities span the entire spectrum of full lifecycle systems development and integration: from strategic planning; requirements and business analysis; developing, designing, integrating, installing, testing, training; to operating and maintaining IT systems. We offer specific business and technical expertise including business process reengineering; systems engineering; internet and intranet applications development; data engineering; network and engineering; computer security, and electronic data interchange.

Our staff of educated and skilled employees are qualified to support a wide-range of functional areas that include personnel, finance, logistics, health, medical, acquisition, electronic commerce, outsourcing, installations, management, environment and natural resources, and case load management. GNSI delivers leading edge, high quality, innovative solutions to complex technology challenges. Our corporate qualifications include:

- Effective and efficient program management tailored to the needs of large and small projects.
- Industry leadership in providing IT operations, systems integration, security services; including business process reengineering, infrastructure and networking, and software development.
- Extensive experience in local and wide-area networks, Internet/intranet application development, and creative media solutions.
- GNSI has the technical expertise, Internet-based applications qualifications and project management capabilities to perform a wide variety of technical services for government and industry. GNSI is an active partner with other innovative leaders in

technology and is engaged in pioneering activities offering exciting promises for new Internet technologies, products and services.

GNSI's goal is to become a technology partner with its clients to provide robust, cost-effective systems that create business value and assist government managers in dealing with the challenges of increasing their organization's efficiency in the face of ever-shrinking budgets and manpower pools. We possess substantial technical expertise in all information technology areas applicable to both commercial and the government environments, and we employ top-notch professionals with a deep understanding and appreciation of how the government agencies operate.

## **PROVEN INFORMATION TECHNOLOGY SERVICES**

- WEB APPLICATION DEVELOPMENT
- SYSTEMS INTEGRATION
- ENTERPRISE SEARCH
- BUSINESS INTELLIGENCE

## **WEB APPLICATION DEVELOPMENT**

GlobalNet Services, Inc. (GNSI) was founded on crafting custom web-based applications that solve unique business challenges. Our team of software analysts and engineers are experts in business process and enterprise application architectures using Capability Maturity Model Integration (CMMI®) certified processes and procedures. GNSI's interactive design team members are usability experts in application interfaces. They collaborate seamlessly with our software engineers to create attractive and efficient user experiences. GNSI's integrated approach ensures that the end result is delivered on time and on budget.

GNSI software engineers use a software development life cycle based on the Rational Unified Process (RUP) to efficiently meet project objectives including low total cost of ownership.

GNSI collaborates with your organization to define, design, develop and deploy your custom application. Whether you are interested in a single sign-on (SSO) application that integrates disparate systems or upgrading an existing legacy system, GNSI will rapidly deliver a tailored software solution to meet your organization's business needs.

Our Expertise Includes:

- Java Programming (JMS, JDBC, JNDI, Java Servlets, JSP, EJB, JSSE)
- XML and XSLT Development
- Web Services Development (UDDI, WSDL, SOAP)
- Microsoft .Net Development
- Database Administration (Oracle, Microsoft SQL/Server, MySQL)
- Oracle Application Server/Portal
- Oracle Content Management Solutions
- Microsoft SharePoint Server Solutions
- Adobe Cold Fusion Programming
- Google Maps Development

## **SYSTEMS INTEGRATION**

GlobalNet Services, Inc. (GNSI) has extensive experience in building and integrating mission-driven government and commercial systems. More than ever before, organizations are consolidating

business processes and technology components to integrate closely with their customers, suppliers, and partners. Success in today's market is often determined by how smoothly an organization makes the transition into this new business model. GNSI has extensive experience in delivering the systems integration solution that is best for your organization.

Working with clients and third parties, we provide customized:

- Managed Hosting Implementation Services
  - Strategic Planning and Architecture Design
  - Procurement Services for hardware and software licensing
  - Application Development and Maintenance
  - Infrastructure Managed Operations services
  - Migration services from current hosting company
  - Web Caching services and support through Akamai's EdgeSuite Enterprise Services
  - Cloud Computing implementation
  - Information Security services
- System Design & Support Services
  - Microsoft Certified Systems Engineer (MCSE) resources for:
    - Windows Server 2003
    - Active Directory-Domain Design/Replication
    - Internet Information Server
    - Exchange Implementation and Clustering
    - Internet Security & Acceleration (ISA) Server
  - Red Hat Certified Engineer (RHCE) resources for installation, configuration, troubleshooting and system maintenance
  - VMware Certified Professional (VCP) resources for installation and administration of virtual environments
  - MS Office SharePoint Server 2007 (MOSS) installation and administration
  - MS SQL/Server 2005/2008 database administration and development
  - Oracle Certified Professional (OCP) resources for Oracle Database installation and administration including Real Application Cluster (RAC)
- Access Solutions
  - Consulting: analysis, design, test and rollout
  - Onsite or virtual training from certified professionals
  - LAN, WAN, mobile Proof of Concept (POC)
  - Secure access implementations
  - Management, support and maintenance
  - Migration from Citrix Metaframe to XenApp
  - Cross-platform access solutions – Windows & Unix
  - Disaster recovery and rapid recovery
  - Desktop and server virtualization
  - Single Sign-On (SSO) solutions
- Security
  - Expert knowledge of major federal security laws, Executive Orders and security implementation guidelines, as well as their applicability to government and private organizations.
  - Assess security threats and vulnerabilities to information systems.
  - Assist Federal organizations with the security accreditation process (C&A) mandated for many federal information systems.
  - Perform cost/benefit analysis of implementation and maintenance costs for countermeasures and security initiatives.

- Security-related statutory requirements include privacy aspects of the Health Insurance Portability and Accountability Act (HIPAA) and the Federal Information Security Management Act (FISMA).
- Ensure safeguards are in place to protect network and network-supported assets

## ENTERPRISE SEARCH

GNSI is a certified Google Enterprise Professional partner and has been implementing Google Search solutions since the year 2000. We utilize our extensive experience in search optimization and clustering, security, and personalization to provide search solutions for structured and unstructured data and combine search results from disparate sources.

GNSI offers complete web consulting and integration services to extend the power of the Google Search Appliance and Google Mini; the same quality search as Google.com to your websites, intranets, extranets, and portals. Read about GNSI's success with the U.S. Food and Drug Administration's Google Search implementation at [google.com/enterprise/gsa/fda.html](http://google.com/enterprise/gsa/fda.html).

GNSI's Google consultants have been trained extensively on Google's products and are experts in the installation, configuration and maintenance of the Google Search Appliance and Google Mini. GNSI will work with your organization to understand your business requirements and develop the optimal search solution utilizing your home-grown, proprietary, and other legacy data sources.

GNSI can expertly configure and implement Google search with your existing portals, content management systems, and databases to create a great user experience with faster and more relevant search results.

## BUSINESS INTELLIGENCE

Our business intelligence services focus on helping clients collect and analyze external and internal data to generate value for their organization. GNSI brings together a deep understanding of the business and technology dimensions of an organization to harness information to improve decision-making, financial management, regulatory compliance, and customer service.

Our suite of performance management, data warehousing, data mining, and information analytics services measure, analyze, and optimize business performance across the entire enterprise. Business intelligence can help organizations transform data into knowledge and achieve higher levels of performance by:

- Providing insights that can help pinpoint new revenue-generating opportunities and improve operational efficiencies and visibility across the organization.
- Optimizing the return on existing business and IT investments such as data management, data mining, customer intelligence, customer relationship management, and enterprise resource planning technology.
- Achieving greater compliance with government and regulatory guidelines.
- Enabling faster problem solving and decision making at the strategic, operational, and tactical levels by internal and external users.

GNSI provides consulting services for the architecture, design, and implementation of Business Intelligence solutions, and works with organizations in developing enterprise solutions that provide timely and secure information.
