- FPDS Code D310 IT Backup and Security Services
- FPDS Code D399 Other Information Technology Services, Not Elsewhere Classified

Notes:

1. All non-professional labor categories must be incidental to and used solely to support hardware, software and/or professional services, and cannot be purchased separately.
2. Offerors and Agencies are advised that the Group 70 – Information Technology Schedule is not to be used as a means to procure services which properly fall under the Brooks Act. These services include, but are not limited to, architectural, engineering, mapping, cartographic production, remote sensing, geographic information systems, and related services. FAR 36.6 distinguishes between mapping services of an A/E nature and mapping services which are not connected nor incidental to the traditionally accepted A/E Services.
3. This solicitation is not intended to solicit for the reselling of IT Professional Services, except for the provision of implementation, maintenance, integration, or training services in direct support of a product. Under such circumstances the services must be performance by the publisher or manufacturer or one of their authorized agents.

2. Information for Ordering Activities Applicable to All Special Item Numbers

Special Notice to Agencies—Small Business Participation

SBA strongly supports the participation of small business concerns in the Federal Supply Schedules Program. To enhance Small Business Participation SBA policy allows agencies to include in their procurement base and goals, the dollar value of orders expected to be placed against the Federal Supply Schedules, and to report accomplishments against these goals.

For orders exceeding the micro purchase threshold, FAR 8.404 requires agencies to consider the catalogs/pricelists of at least three schedule contractors or consider reasonably available information by using the GSA Advantage!TM on-line shopping service (www.fss.gsa.gov). The catalogs/pricelists, GSA Advantage!TM and the Federal Supply Service Home Page (www.fss.gsa.gov) contain information on a broad array of products and services offered by small business concerns.

This information should be used as a tool to assist ordering activities in meeting or exceeding established small business goals. It should also be used as a tool to assist in including small, small disadvantaged, and women-owned small businesses among those considered when selecting pricelists for a best value determination.

For orders exceeding the micro purchase threshold, customers are to give preference to small business concerns when two or more items at the same delivered price will satisfy their requirement.

1. Geographic Scope of Contract

The Geographic Scope of Contract will be domestic and overseas delivery

2. Contractor's Ordering Address and Payment Information

Ordering Information

PricewaterhouseCoopers Public Sector LLP (PwC)
1800 Tysons Boulevard
McLean, VA 22102

Payment Information

For check by mail

PricewaterhouseCoopers Public Sector LLP
P.O. Box 7247-6037
Philadelphia, PA 19170-6037

For Overnight

Citibank
OPS 3 Team 1
Attn: Lockbox # 8001
1615 Brett Road
New Castle, DE 19720

For Wire Transfer

Information will be provided in task order proposals.

PwC accepts credit cards for payments equal to or less than the micro-purchase threshold for oral or written delivery orders. Credit cards are acceptable for payment above the micropurchase threshold. In addition, bank account information for wire transfer payments will be shown on the invoice.

The following telephone number can be used by ordering activities to obtain technical and/or ordering assistance: (703) 918-3725

3. Liability for Injury or Damage

The Contractor shall not be liable for any injury to ordering activity personnel or damage to ordering activity property arising from the use of equipment maintained by the Contractor, unless such injury or damage is due to the fault or negligence of the Contractor.

4. Statistical Data for Government Ordering Office Completion of Standard Form 279

Block 9: G. Order/Modification Under Federal Schedule

Block 16: Data Universal Numbering System (DUNS) Number: 079529872

Block 30: Type of Contractor: C. Large Business

Block 31: Woman-Owned Small Business—No

Block 36: Contractor's Taxpayer Identification Number (TIN): 47-1717312

4a. CAGE Code

783T6

4b. Contractor Registered with the Central Contractor Registration Database?

Yes

5. FOB Destination

6. Delivery Schedule

- a. **Time of Delivery:** The Contractor shall deliver to destination within the number of calendar days after receipt of order (ARO), as set forth below:

Special Item Number—132-51

Delivery Time (Days ARO)—As agreed upon between the contractor and the ordering agency

- b. **Urgent Requirements:** When the Federal Supply Schedule contract delivery period does not meet the bona fide urgent delivery requirements of an ordering activity, ordering activities are encouraged, if time permits, to contact the Contractor for the purpose of obtaining accelerated delivery. The Contractor shall reply to the inquiry within three workdays after receipt. (Telephonic replies shall be confirmed by the Contractor in writing.) If the Contractor offers an accelerated delivery time acceptable to the ordering activity, any order(s) placed pursuant to the agreed upon accelerated delivery time frame shall be delivered within this shorter delivery time and in accordance with all other terms and conditions of the contract.

7. Discounts

Prices shown are NET Prices; Basic Discounts have been deducted.

- a. **Prompt Payment:** 0% - Net 30 days from receipt of invoice or date of acceptance, whichever is later
- b. **Quantity:** None
- c. **Dollar Volume:** None
- d. **Government Educational Institutions:** None
- e. **Other:** None

The prices shown in this FSS Pricelist are net prices. PwC will evaluate the anticipated level of effort, scope and timing of the services on a task order basis to determine if a competitive adjustment to the prices listed in the pricelist is feasible.

8. Trade Agreements Act of 1979, as amended

All items are U.S. made end products, designated country end products, Caribbean Basin country end products, Canadian end products, or Mexican end products as defined in the Trade Agreements Act of 1979, as amended.

9. Statement Concerning Availability of Export Packing

Statement Concerning Availability of Export Packing—Not Applicable

10. Small Requirements

The minimum dollar value of orders to be issued is \$100.

11. Maximum Order

(All dollar amounts are exclusive of any discount for prompt payment.)

- a. The Maximum Order value for the following Special Item Numbers (SINs) is \$500,000: Special Item Number 132-51—Information Technology (IT) Professional Services

12. Ordering Procedures for Federal Supply Schedule Contracts

Ordering activities shall use the ordering procedures of Federal Acquisition Regulation (FAR) 8.405 when placing an order or establishing a BPA for supplies or services. These procedures apply to all schedules.

- a. FAR 8.405-1 Ordering procedures for supplies, and services not requiring a statement of work.
- b. FAR 8.405-2 Ordering procedures for services requiring a statement of work.

13. Federal Information Technology/Telecommunication Standards Requirements

Ordering activities acquiring products from this Schedule must comply with the provisions of the Federal Standards Program, as appropriate (reference: NIST Federal Standards Index). Inquiries to determine whether or not specific products listed herein comply with Federal Information Processing Standards (FIPS) or Federal Telecommunication Standards (FED-STDS), which are cited by ordering activities, shall be responded to promptly by the Contractor.

- a. **Federal Information Processing Standards Publications (FIPS PUBS):** Information Technology products under this Schedule that do not conform to Federal Information Processing Standards (FIPS) should not be acquired unless a waiver has been granted in accordance with the applicable “FIPS Publication.” Federal Information Processing Standards Publications (FIPS PUBS) are issued by the U.S. Department of Commerce, National Institute of Standards and Technology (NIST), pursuant to National Security Act. Information concerning their availability and applicability should be obtained from the National Technical Information Service (NTIS), 5285 Port Royal Road, Springfield, Virginia 22161. FIPS PUBS include voluntary standards when these are adopted for Federal use. Individual orders for FIPS PUBS should be referred to the NTIS Sales Office, and orders for subscription service should be referred to the NTIS Subscription Officer, both at the above address, or telephone number (703) 487-4650.
- b. **Federal Telecommunication Standards (FED-STDS):** Telecommunication products under this Schedule that do not conform to Federal Telecommunication Standards (FED-STDS) should not be acquired unless a waiver has been granted in accordance with the applicable “FEDSTD”.

Federal Telecommunication Standards are issued by the U.S. Department of Commerce, National Institute of Standards and Technology (NIST), pursuant to National Security Act. Ordering information and information concerning the availability of FED-STDS should be obtained from the GSA, Federal Supply Service, Specification Section, 470 East L’Enfant Plaza, Suite 8100, SW, Washington, DC 20407, telephone number

(202)619-8925. Please include a self-addressed mailing label when requesting information by mail. Information concerning their applicability can be obtained by writing or calling the U.S. Department of Commerce, National Institute of Standards and Technology, Gaithersburg, MD 20899, telephone number (301) 975-2833.

14. Contractor Tasks / Special Requirements (C-FSS-370) (NOV 2003)

- a. **Security Clearances:** The Contractor may be required to obtain/possess varying levels of security clearances in the performance of orders issued under this contract. All costs associated with obtaining/possessing such security clearances should be factored into the price offered under the Multiple Award Schedule.
- b. **Travel:** The Contractor may be required to travel in performance of orders issued under this contract. Allowable travel and per diem charges are governed by Pub .L. 99-234 and FAR Part 31, and are reimbursable by the ordering agency or can be priced as a fixed price item on orders placed under the Multiple Award Schedule. Travel in performance of a task order will only be reimbursable to the extent authorized by the ordering agency. The Industrial Funding Fee does NOT apply to travel and per diem charges.
- c. **Certifications, Licenses and Accreditations:** As a commercial practice, the Contractor may be required to obtain/possess any variety of certifications, licenses and accreditations for specific FSC/service code classifications offered. All costs associated with obtaining/ possessing such certifications, licenses and accreditations should be factored into the price offered under the Multiple Award Schedule program.
- d. **Insurance:** As a commercial practice, the Contractor may be required to obtain/possess insurance coverage for specific FSC/service code classifications offered. All costs associated with obtaining/possessing such insurance should be factored into the price offered under the Multiple Award Schedule program.
- e. **Personnel:** The Contractor may be required to provide key personnel, resumes or skill category descriptions in the performance of orders issued under this contract. Ordering activities may require agency approval of additions or replacements to key personnel.
- f. **Organizational Conflicts of Interest:** Where there may be an organizational conflict of interest as determined by the ordering agency, the Contractor's participation in such order may be restricted in accordance with FAR Part 9.5.
- g. **Documentation/Standards:** The Contractor may be requested to provide products or services in accordance with rules, regulations, OMB orders, standards and documentation as specified by the agency's order.
- h. **Data/Deliverable Requirements:** Any required data/deliverables at the ordering level will be as specified or negotiated in the agency's order.
- i. **Government-Furnished Property:** As specified by the agency's order, the Government may provide property, equipment, materials or resources as necessary.
- j. **Availability of Funds:** Many Government agencies' operating funds are appropriated for a specific fiscal year. Funds may not be presently available for any

orders placed under the contract or any option year. The Government's obligation on orders placed under this contract is contingent upon the availability of appropriated funds from which payment for ordering purposes can be made. No legal liability on the part of the Government for any payment may arise until funds are available to the ordering Contracting Officer.

- k. **Overtime:** For professional services, the labor rates in the Schedule should not vary by virtue of the Contractor having worked overtime. For services applicable to the Service Contract Act (as identified in the Schedule), the labor rates in the Schedule will vary as governed by labor laws (usually assessed a time and a half of the labor rate).

15. Contract Administration for Ordering Activities:

Any ordering activity, with respect to any one or more delivery orders placed by it under this contract, may exercise the same rights of termination as might the GSA Contracting Officer under provisions of FAR 52.212-4, paragraphs (l) Termination for the ordering activity's convenience, and (m) Termination for Cause (See 52.212-4)

16. GSA Advantage!

GSA Advantage! is an on-line, interactive electronic information and ordering system that provides on-line access to vendors' schedule prices with ordering information. GSA Advantage! will allow the user to perform various searches across all contracts including, but not limited to:

- a. Manufacturer;
- b. Manufacturer's Part Number; and
- c. Product categories.

Agencies can browse GSA Advantage! by accessing the Internet World Wide Web utilizing a browser (e.g. Firefox, Safari, Opera, Internet Explorer). The Internet address is <http://www.fss.gsa.gov/>.

17. Purchase of Open Market Items

Note: Open Market Items are also known as incidental items, non-contract items, non-Schedule items, and items not on a Federal Supply Schedule contract.

For administrative convenience, an ordering activity contracting officer may add items not on the Federal Supply Multiple Award Schedule (MAS)—referred to as open market items—to a Federal Supply Schedule blanket purchase agreement (BPA) or an individual task or delivery order, only if:

- a. All applicable acquisition regulations pertaining to the purchase of the items not on the Federal Supply Schedule have been followed (e.g., publicizing (Part 5), competition requirements (Part 6), acquisition of commercial items (Part 12), contracting methods (Parts 13, 14, and 15), and small business programs (Part 19));
- b. The ordering activity contracting officer has determined the price for the items not on the Federal Supply Schedule is fair and reasonable;

- c. The items are clearly labeled on the order as items not on the Federal Supply Schedule; and
- d. All clauses applicable to items not on the Federal Supply Schedule are included in the order.

18. Contractor Commitments, Warranties and Representations

- a. For the purpose of this contract, commitments, warranties and representations include, in addition to those agreed to for the entire schedule contract:
 - 1. Time of delivery/installation quotations for individual orders;
 - 2. Technical representations and/or warranties of products concerning performance, total system performance and/or configuration, physical, design and/or functional characteristics and capabilities of a product/equipment/service/software package submitted in response to requirements which result in orders under this schedule contract.
 - 3. Any representations and/or warranties concerning the products made in any literature, description, drawings and/or specifications furnished by the Contractor.
- b. The above is not intended to encompass items not currently covered by the GSA Schedule contract.

19. Overseas Activities

The terms and conditions of this contract shall apply to all orders for installation, maintenance and repair of equipment in areas listed in the pricelist outside the 48 contiguous states and the District of Columbia, except as indicated below:

Not Applicable to SIN 132-51

Upon request of the Contractor, the ordering activity may provide the Contractor with logistics support, as available, in accordance with all applicable ordering activity regulations. Such ordering activity support will be provided on a reimbursable basis, and will only be provided to the Contractor's technical personnel whose services are exclusively required for the fulfillment of the terms and conditions of this contract.

20. Blanket Purchase Agreements (BPAs)

The use of BPAs under any schedule contract to fill repetitive needs for supplies or services is allowable. BPAs may be established with one or more schedule contractors. The number of BPAs to be established is within the discretion of the ordering activity establishing the BPA and should be based on a strategy that is expected to maximize the effectiveness of the BPA(s). Ordering activities shall follow FAR 8.405-3 when creating and implementing BPA(s).

21. Contractor Team Arrangements

Contractors participating in contractor team arrangements must abide by all terms and conditions of their respective contracts. This includes compliance with Clauses 552.238-74, Contractor's Reports of Sales and 552.238-76, Industrial Funding Fee, i.e., each

contractor (team member) must report sales and remit the IFF for all products and services provided under its individual contract.

22. Installation, Deinstallation, Reinstallation

The Davis-Bacon Act (40 U.S.C. 276a-276a-7) provides that contracts in excess of \$2,000 to which the United States or the District of Columbia is a party for construction, alteration, or repair (including painting and decorating) of public buildings or public works with the United States, shall contain a clause that no laborer or mechanic employed directly upon the site of the work shall receive less than the prevailing wage rates as determined by the Secretary of Labor. The requirements of the Davis-Bacon Act do not apply if the construction work is incidental to the furnishing of supplies, equipment, or services. For example, the requirements do not apply to simple installation or alteration of a public building or public work that is incidental to furnishing supplies or equipment under a supply contract. However, if the construction, alteration or repair is segregable and exceeds \$2,000, then the requirements of the Davis-Bacon Act apply.

The ordering activity issuing the task order against this contract will be responsible for proper administration and enforcement of the Federal labor standards covered by the Davis-Bacon Act. The proper Davis-Bacon wage determination will be issued by the ordering activity at the time a request for quotations is made for applicable construction classified installation, deinstallation, and reinstallation services under SIN 132-8.

23. Section 508 Compliance

If applicable, Section 508 compliance information on the supplies and services in this contract are available in Electronic and Information Technology (EIT) at the following:

PricewaterhouseCoopers Public Sector LLP
1800 Tysons Blvd.
McLean, VA 22102
Attn: William Hardy
Telephone—(703) 918-3725
Direct Fax—(813) 639-2228
Main Telephone—(703) 918-3100
E-mail—pwc.gov.contracts@us.pwc.com

This contract is mainly designed to provide professional IT services as shown in our pricelist. Personnel contracted to perform on this schedule for authorized federal agencies have been and will be made aware of Section 508 accessibility standards that are objective to the tasks assigned.

The EIT standard can be found at: www.Section508.gov.

24. Prime Contractor Ordering from Federal Supply Schedules

Prime Contractors (on cost reimbursement contracts) placing orders under Federal Supply Schedules, on behalf of an ordering activity, shall follow the terms of the applicable schedule and authorization and include with each order:

- a. A copy of the authorization from the ordering activity with whom the contractor has the prime contract (unless a copy was previously furnished to the Federal Supply Schedule contractor); and
- b. The following statement:

This order is placed under written authorization from _____ dated _____. In the event of any inconsistency between the terms and conditions of this order and those of your Federal Supply Schedule contract, the latter will govern.

25. Insurance Work on a Government Installation (Jan 1997) (FAR 52.228-5)

- a. The Contractor shall, at its own expense, provide and maintain during the entire performance of this contract, at least the kinds and minimum amounts of insurance required in the Schedule or elsewhere in the contract.
- b. Before commencing work under this contract, the Contractor shall notify the Contracting Officer in writing that the required insurance has been obtained. The policies evidencing required insurance shall contain an endorsement to the effect that any cancellation or any material change adversely affecting the Government's interest shall not be effective:
 1. For such period as the laws of the State in which this contract is to be performed prescribe; or
 2. Until 30 days after the insurer or the Contractor gives written notice to the Contracting Officer, whichever period is longer.
- c. The Contractor shall insert the substance of this clause, including this paragraph (c), in subcontracts under this contract that require work on a Government installation and shall require subcontractors to provide and maintain the insurance required in the Schedule or elsewhere in the contract. The Contractor shall maintain a copy of all subcontractors' proofs of required insurance, and shall make copies available to the Contracting Officer upon request.

26. Software Interoperability

Offerors are encouraged to identify within their software items any component interfaces that support open standard interoperability. An item's interface may be identified as interoperable on the basis of participation in a Government agency-sponsored program or in an independent organization program. Interfaces may be identified by reference to an interface registered in the component registry located at <http://www.core.gov>.

27. Advance Payments

A payment under this contract to provide a service or deliver an article for the United States Government may not be more than the value of the service already provided or the article already delivered. Advance or pre-payment is not authorized or allowed under this contract. (31 U.S.C. 3324)

3. Terms and Conditions Applicable to Information Technology Professional Services (Special Item Number 132-51)

1. Scope

- a. The prices, terms and conditions stated under Special Item Number 132-51 Information Technology Professional Services apply exclusively to IT Services within the scope of this Information Technology Schedule.
- b. The Contractor shall provide services at the Contractor's facility and/or at the ordering activity location, as agreed to by the Contractor and the ordering activity.

2. Performance Incentives

- a. Performance incentives may be agreed upon between the Contractor and the ordering activity on individual fixed price orders or Blanket Purchase Agreements under this contract in accordance with this clause.
- b. The ordering activity must establish a maximum performance incentive price for these services and/or total solutions on individual orders or Blanket Purchase Agreements.
- c. Incentives should be designed to relate results achieved by the contractor to specified targets. To the maximum extent practicable, ordering activities shall consider establishing incentives where performance is critical to the ordering activity's mission and incentives are likely to motivate the contractor. Incentives shall be based on objectively measurable tasks.

3. Order

- a. Agencies may use written orders, EDI orders, blanket purchase agreements, individual purchase orders, or task orders for ordering services under this contract. Blanket Purchase Agreements shall not extend beyond the end of the contract period; all services and delivery shall be made and the contract terms and conditions shall continue in effect until the completion of the order. Orders for tasks which extend beyond the fiscal year for which funds are available shall include FAR 52.232-19 (Deviation – May 2003) Availability of Funds for the Next Fiscal Year. The purchase order shall specify the availability of funds and the period for which funds are available.
- b. All task orders are subject to the terms and conditions of the contract. In the event of conflict between a task order and the contract, the contract will take precedence.

4. Performance of Services

- a. The Contractor shall commence performance of services on the date agreed to by the Contractor and the ordering activity.
- b. The Contractor agrees to render services only during normal working hours, unless otherwise agreed to by the Contractor and the ordering activity.
- c. The ordering activity should include the criteria for satisfactory completion for each task in the Statement of Work or Delivery Order. Services shall be completed in a good and workmanlike manner.

- d. Any Contractor travel required in the performance of IT Services must comply with the Federal Travel Regulation or Joint Travel Regulations, as applicable, in effect on the date(s) the travel is performed. Established Federal Government per diem rates will apply to all Contractor travel. Contractors cannot use GSA city pair contracts.

5. Stop-Work Order (FAR 52.242-15) (AUG 1989)

- a. The Contracting Officer may, at any time, by written order to the Contractor, require the Contractor to stop all, or any part, of the work called for by this contract for a period of 90 days after the order is delivered to the Contractor, and for any further period to which the parties may agree. The order shall be specifically identified as a stop-work order issued under this clause. Upon receipt of the order, the Contractor shall immediately comply with its terms and take all reasonable steps to minimize the incurrence of costs allocable to the work covered by the order during the period of work stoppage. Within a period of 90 days after a stop-work is delivered to the Contractor, or within any extension of that period to which the parties shall have agreed, the Contracting Officer shall either-
 - (1) Cancel the stop-work order; or
 - (2) Terminate the work covered by the order as provided in the Default, or the Termination for Convenience of the Government, clause of this contract.
- b. If a stop-work order issued under this clause is canceled or the period of the order or any extension thereof expires, the Contractor shall resume work. The Contracting Officer shall make an equitable adjustment in the delivery schedule or contract price, or both, and the contract shall be modified, in writing, accordingly, if-
 - (1) The stop-work order results in an increase in the time required for, or in the Contractor's cost properly allocable to, the performance of any part of this contract; and
 - (2) The Contractor asserts its right to the adjustment within 30 days after the end of the period of work stoppage; provided, that, if the Contracting Officer decides the facts justify the action, the Contracting Officer may receive and act upon the claim submitted at any time before final payment under this contract.
- c. If a stop-work order is not canceled and the work covered by the order is terminated for the convenience of the Government, the Contracting Officer shall allow reasonable costs resulting from the stop-work order in arriving at the termination settlement.
- d. If a stop-work order is not canceled and the work covered by the order is terminated for default, the Contracting Officer shall allow, by equitable adjustment or otherwise, reasonable costs resulting from the stop-work order.

6. Inspection of Services

The Inspection of Services—Fixed Price (AUG 1996) (Deviation – May 2003) clause at FAR 52.246-4 applies to firm-fixed price orders placed under this contract. The Inspection—Time and Materials and Labor-Hour (JAN 1986) (Deviation – May 2003)

clause at FAR 52.246-6 applies to time and materials and labor –hour orders placed under this contract.

7. Responsibilities of the Contractor

The Contractor shall comply with all laws, ordinances, and regulations (Federal, State, City, or otherwise) covering work of this character. If the end product of a task order is software, then FAR 52.227-14 (Deviation – May 2003) Rights in Data – General, may apply.

8. Responsibilities of the Ordering Activity

Subject to security regulations, the ordering activity shall permit Contractor access to all facilities necessary to perform the requisite IT Services.

9. Independent Contractor

All IT Services performed by the Contractor under the terms of this contract shall be as an independent Contractor, and not as an agent or employee of the ordering activity.

10. Organizational Conflicts of Interest

a. Definitions.

“Contractor” means the person, firm, unincorporated association, joint venture, partnership, or corporation that is a party to this contract.

“Contractor and its affiliates” and “Contractor or its affiliates” refers to the Contractor, its chief executives, directors, officers, subsidiaries, affiliates, subcontractors at any tier, and consultants and any joint venture involving the Contractor, any entity into or with which the Contractor subsequently merges or affiliates, or any other successor or assignee of the Contractor.

An “Organizational conflict of interest” exists when the nature of the work to be performed under a proposed ordering activity contract, without some restriction on ordering activities by the Contractor and its affiliates, may either (i) result in an unfair competitive advantage to the Contractor or its affiliates or (ii) impair the Contractor’s or its affiliates’ objectivity in performing contract work.

- ### **b.**
- To avoid an organizational or financial conflict of interest and to avoid prejudicing the best interests of the ordering activity, ordering activities may place restrictions on the Contractors, its affiliates, chief executives, directors, subsidiaries and subcontractors at any tier when placing orders against schedule contracts. Such restrictions shall be consistent with FAR 9.505 and shall be designed to avoid, neutralize, or mitigate organizational conflicts of interest that might otherwise exist in situations related to individual orders placed against the schedule contract. Examples of situations, which may require restrictions, are provided at FAR 9.508.

11. Invoices

The Contractor, upon completion of the work ordered, shall submit invoices for IT services. Progress payments may be authorized by the ordering activity on individual orders if appropriate. Progress payments shall be based upon completion of defined milestones or interim products. Invoices shall be submitted monthly for recurring services performed during the preceding month.

12. Payments

For firm-fixed price orders the ordering activity shall pay the Contractor, upon submission of proper invoices or vouchers, the prices stipulated in this contract for service rendered and accepted. Progress payments shall be made only when authorized by the order. For time and materials orders, the Payments under Time and Materials and Labor Hour Contracts at FAR 52.232-7 (DEC 2002), (Alternate II – Feb 2002) (Deviation – May 2003) applies to time and materials orders placed under this contract. For labor hour orders, the Payment under Time and Materials and Labor Hour Contracts at FAR 52.232-7 (DEC 2002), (Alternate II – Feb 2002) (Deviation – May 2003)) applies to labor hour orders placed under this contract. 52.216-31(Feb 2007) Time-and-Materials/Labor-Hour Proposal Requirements—Commercial Item Acquisition. As prescribed in 16.601(e)(3), insert the following provision:

- a. The Government contemplates award of a Time-and-Materials or Labor-Hour type of contract resulting from this solicitation.
- b. The offeror must specify fixed hourly rates in its offer that include wages, overhead, general and administrative expenses, and profit. The offeror must specify whether the fixed hourly rate for each labor category applies to labor performed by—
 - (1) The offeror;
 - (2) Subcontractors; and/or
 - (3) Divisions, subsidiaries, or affiliates of the offeror under a common control.

13. Resumes

Resumes shall be provided to the GSA Contracting Officer or the user ordering activity upon request.

14. Incidental Support Costs

Incidental support costs are available outside the scope of this contract. The costs will be negotiated separately with the ordering activity in accordance with the guidelines set forth in the FAR.

15. Approval of Subcontracts

The ordering activity may require that the Contractor receive, from the ordering activity's Contracting Officer, written consent before placing any subcontract for furnishing any of the work called for in a task order.

16. Description of IT Services and Pricing

See Attachment VI: SIN 132-51 Labor Category Descriptions and Prices

See Attachment VII: SIN 132-51 Labor Category Prices

4. Description of IT Services

These prices, which include the GSA Industrial Funding Fee, are effective for the base year of the contract and are subject to economic price adjustments set forth in the contract.

4.a Information Technology (IT) Consulting

PwC helps government agencies achieve their goals by identifying business and technology requirements and assessing the most cost-effective means of meeting their requirements whether through the implementation of new software or the optimization of an existing solution. IT systems and enterprise applications projects are by nature technically and organizationally complex. The results can provide far reaching benefit to the organization by helping to solve complex business issues, manage risk, provide operational improvements, and increase security. For an organization to realize the benefits, these applications must be built, deployed and maintained incorporating agency unique requirements.

Our highly skilled resources offer the following information technology (IT) professional services to Federal Agencies:

- IT Systems Development Services including, but not limited to, systems development planning, designing, testing, training, and implementing enterprise application and resource planning, customer relationship management, and other large-scale, complex systems;
- IT Systems Analysis Services including, but not limited to, system and application analysis, user requirements analysis, functional and technical requirements specifications definitions, general systems and application design, detailed technical architecture, detailed designs for capacity planning purposes, and system design documentation;
- IT System and Application Design and Integration Services including, but not limited to, selection and integration of application packages, system architecture, programmatic and functional requirements, complex system design, system engineering techniques, and system management processes;
- Programming Support Services including, but not limited to specification preparation, code development, user acceptance and unit test, documentation activities, and code for accuracy, efficiency and effectiveness;
- IT Network Management Services including, but not limited to, network assessment, network requirements definitions, design and implementation, performance assessment and monitoring, operational deployment planning and preparation, and testing and verification;
- IT Transformation, Data Services, or Other Information Services including, but not limited to, technology enabled government transformation, integration and communication, data quality analysis and assessments, project management, strategic planning, performance measurement, risk assessment and quality assurance, IT business process reengineering, change management, workflow

management and automation, and operations and administrative practices improvement,

- Enterprise Resource Planning (ERP), Customer Relationship Management (CRM), and financial and human resource package implementation including, but not limited to, requirements gathering, configuration, testing, controls integration, optimization, audit readiness and regulatory compliance, and operational support.
- Other related services including, but not limited to, establishment and maintenance of Program Management Offices, organizational change readiness and remediation, design and implementation of technical solutions to support audit remediation, compliance with federal laws and regulations, system and business process re-engineering and documentation, and development of materials and delivery of training.

5. Labor Category Descriptions

5.a Information Technology Labor Categories

IT Engagement Executive II

General Experience

Experience of twelve or more years in IT consulting, system and application development, design and implementation, business process reengineering, IT transformation, or other related services. Possession of an advanced degree may be substituted for one year of experience. Possession of a professional certification (e.g., CAPM, PgMP, PMP), other than that used to meet the minimum educational requirements, may also be substituted for one year of experience.

Functional Description

Overall responsibility for the work performed, may review the work of other IT Engagement Executives. Possesses experience leading and providing technical direction to comparable projects. Capable of managing multiple projects of high complexity. Directs the completion of projects and applies experience in ERP transformation and implementation, IT systems development and implementation, performance management, risk management, or other related services. Interacts with client on strategic issues.

Educational Requirements

Holds a four-year degree from an accredited college / university, or has four additional years of experience, or has three additional years of experience plus a PgMP, PMP, or equivalent information technology certifications.

IT Engagement Executive I

General Experience

Experience of ten or more years in IT consulting, system and application development, design and implementation, business process reengineering, IT transformation, or other related services. Possession of an advanced degree may be substituted for one year of experience. Possession of a professional certification (e.g., CAPM, PgMP, PMP), other than that used to meet the minimum educational requirements, may also be substituted for one year of experience.

Functional Description

Overall responsibility for the work performed, possesses experience leading and providing technical direction to comparable projects. Capable of managing multiple projects of high complexity. Directs the completion of projects and applies experience in ERP transformation and implementation, IT systems development and implementation, performance management, risk management, or other related services. Interacts with client on strategic issues.

Educational Requirements

Holds a four-year degree from an accredited college / university, or has four additional years of experience, or has three additional years of experience plus a PgMP, PMP, or equivalent information technology certifications.

IT Program Manager III

General Experience

Experience of nine or more years in IT consulting, system and application development, design and implementation, business process reengineering, IT transformation, or other related services. Possession of an advanced degree may be substituted for one year of experience. Possession of a professional certification (e.g., CAPM, PgMP, PMP), other than that used to meet the minimum educational requirements, may also be substituted for one year of experience.

Functional Description

Directs multiple work streams and oversees the work of program personnel including, but not limited to, other Program Manager(s), Project Manager(s), Team Lead(s), and/or Team Member(s). May manage other Program Managers and/or oversee multiple engagements. Directs the completion of projects and applies experience in ERP transformation and implementation, IT systems development and implementation, enterprise architecture, performance management, risk management, or other related services. Interacts with the client on program-related issues and directs communication across the program and with key stakeholders.

Educational Requirements

Holds a four-year degree from an accredited college / university, or has four additional years of experience, or has three additional years of experience plus a PgMP, PMP, or equivalent information technology certifications.

IT Program Manager II

General Experience

Experience of eight or more years in IT consulting, system and application development, design and implementation, business process reengineering, IT transformation, or other related services. Possession of an advanced degree may be substituted for one year of experience. Possession of a professional certification (e.g., CAPM, PgMP, PMP), other than that used to meet the minimum educational requirements, may also be substituted for one year of experience.

Functional Description

Directs multiple work streams and oversees the work of program personnel including, but not limited to, Project Manager(s), Team Lead(s), and Team Member(s). Directs the completion of projects and applies experience in ERP transformation and implementation, IT systems development and implementation, enterprise architecture, performance management, risk management, or other related services. Interacts with the client on program-related issues and directs communication across the program and with key stakeholders.

Educational Requirements

Holds a four-year degree from an accredited college / university, or has four additional years of experience, or has three additional years of experience plus a PgMP, PMP, or equivalent information technology certifications.

IT Program Manager I

General Experience

Experience of seven or more years in IT consulting, system and application development, design and implementation, business process reengineering, IT transformation, or other related services. Possession of an advanced degree may be substituted for one year of experience. Possession of a professional certification (e.g., CAPM, PgMP, PMP), other than that used to meet the minimum educational requirements, may also be substituted for one year of experience.

Functional Description

Directs multiple work streams and oversees the work of program personnel including, but not limited to, Project Manager(s), Team Lead(s), and Team Member(s). Directs the completion of projects and applies experience in ERP transformation and implementation, IT systems development and implementation, enterprise architecture, performance management, risk management, or other related services. Interacts with the client on program-related issues and directs communication across the program and with key stakeholders.

Educational Requirements

Holds a four-year degree from an accredited college / university, or has four additional years of experience, or has three additional years of experience plus a PgMP, PMP, or equivalent information technology certifications.

IT Project Manager III

General Experience

Experience of six or more years in IT consulting, system and application development, design and implementation, business process reengineering, IT transformation, or other related services. Possession of an advanced degree may be substituted for one year of experience. Possession of a professional certification (e.g. PMP, CAPM), other than that used to meet the minimum educational requirements, may also be substituted for one year of experience.

Functional Description

Leads and directs project personnel including, but not limited to, Team Lead(s) and Team Member(s). Manages the project schedule, cost and risk management, and delivery of the project. Applies experience in SDLC, ERP implementation, internal controls, performance management, business process reengineering IT transformation, or other related services. Interacts with the client on project-related issues.

Educational Requirements

Holds a four-year degree from an accredited college / university, or has four additional years of experience, or has three additional years of experience plus a PMP, or equivalent information technology certifications.

IT Project Manager II

General Experience

Experience of five or more years in IT consulting, system and application development, design and implementation, business process reengineering, IT transformation, or other related services. Possession of an advanced degree may be substituted for one year of experience. Possession of a professional certification (e.g. PMP, CAPM), other than that used to meet the minimum educational requirements, may also be substituted for one year of experience.

Functional Description

Leads and directs project personnel including, but not limited to, Team Lead(s) and Team Member(s). Manages the project schedule, cost and risk management, and delivery of the project. Applies experience in SDLC, ERP implementation, internal controls, performance management, business process reengineering IT transformation, or other related services. Interacts with the client on project-related issues.

Educational Requirements

Holds a four-year degree from an accredited college / university, or has four additional years of experience, or has three additional years of experience plus a PMP, or equivalent information technology certifications.

IT Project Manager I

General Experience

Experience of four or more years in IT consulting, system and application development, design and implementation, business process reengineering, IT transformation, or other related services. Possession of an advanced degree may be substituted for one year of experience. Possession of a professional certification (e.g. PMP, CAPM), other than that used to meet the minimum educational requirements, may also be substituted for one year of experience.

Functional Description

Leads and directs project personnel including, but not limited to, Team Lead(s) and Team Member(s). Manages the project schedule, cost and risk management, and delivery of the project. Applies experience in System Development Life Cycle, ERP implementation, internal controls, performance management, business process reengineering IT transformation, or other related services. Interacts with the client on project-related issues.

Educational Requirements

Holds a four-year degree from an accredited college / university, or has four additional years of experience, or has three additional years of experience plus a PMP, or equivalent information technology certifications.

Sr. IT Functional Consultant II

General Experience

Experience of six or more years in IT consulting, system and application development, design and implementation, business process reengineering, IT transformation, or other related services. Possession of an advanced degree may be substituted for one year of experience. Possession of a professional certification, other than that used to meet the minimum educational requirements, may also be substituted for one year of experience.

Functional Description

Provides specialized experience in ERP package applications consulting, post-deployment application and process optimization, business application consulting, or similar activities. Contributes to research and design activities. Advises on methodology and team structure while coordinating analyses with other project personnel. Applies technical and/or analytical approaches to solve client issues and experience technical tasks such as system and application architecture, web services, database installation, configuration, design and administration, ERP application implementation, development of training documentation and delivery of end-user training, organizational change management and communication, configuration, and customization, or similar activities.

Educational Requirements

Holds a four-year degree from an accredited college / university, or has four additional years of experience, or has three additional years of experience plus a relevant information technology certification.

Sr. IT Functional Consultant I

General Experience

Experience of four or more years in IT consulting, system and application development, design and implementation, business process reengineering, IT transformation, or other related services. Possession of an advanced degree may be substituted for one year of experience. Possession of a professional certification, other than that used to meet the minimum educational requirements, may also be substituted for one year of experience.

Functional Description

Provides specialized experience in ERP package applications consulting, post-deployment application and process optimization, business application consulting, or similar activities. Contributes to research and design activities. Advises on methodology and team structure while coordinating analyses with other project personnel. Applies technical and/or analytical approaches to solve client issues and experience technical tasks such as system and application architecture, web services, database installation, configuration, design and administration, ERP application implementation, organizational change management and communication, development of training documentation and delivery of end-user training, configuration, and customization, or similar activities.

Educational Requirements

Holds a four-year degree from an accredited college / university, or has four additional years of experience, or has three additional years of experience plus a relevant information technology certification.

IT Functional Consultant II

General Experience

Experience of two or more years in IT consulting, system and application development, design and implementation, business process reengineering, IT transformation, or other related services. Possession of an advanced degree may be substituted for one year of experience. Possession of a professional certification, other than that used to meet the minimum educational requirements, may also be substituted for one year of experience.

Functional Description

Plans, conducts, and/or contributes to research and design activities. Applies technical and/or analytical approaches to solve client issues and experience in technical tasks such as system and network administration, architecture, database installation, configuration, design and administration, ERP application implementation, organizational change management and communication, development of training documentation, configuration, and customization, or similar activities. Contributes to research and design activities. Provides input to methodology.

Educational Requirements

Holds a four-year degree from an accredited college / university, or has four additional years of experience, or has three additional years of experience plus a relevant information technology certification.

IT Functional Consultant I

General Experience

Experience of one or more years in IT consulting, system and application development, design and implementation, business process reengineering, IT transformation, or other related services. Possession of an advanced degree may be substituted for one year of experience. Possession of a professional certification, other than that used to meet the minimum educational requirements, may also be substituted for one year of experience.

Functional Description

Applies technical and/or analytical approaches to solve client issues and experience in technical tasks such as system and network administration, architecture, database installation, configuration, design and administration, ERP application implementation, configuration, and customization, or similar activities. Contributes to research and design activities. Provides input to methodology.

Educational Requirements

Holds a four-year degree from an accredited college / university, or has four additional years of experience, or has three additional years of experience plus a relevant information technology certification.

IT Team Lead III

General Experience

Experience of four or more years in IT consulting, system and application development, design and implementation, business process reengineering, IT transformation, or other related services. Possession of an advanced degree may be substituted for one year of experience. Possession of a professional certification, other than that used to meet the minimum educational requirements, may also be substituted for one year of experience.

Functional Description

Under guidance from the Program and/or Project Manager, plans, executes, and controls team activities. May review the work of other Team Leads. Leads Team Members in SDLC tasks, including system analysis, and design, document business processes and systems evaluations, test system applications, or similar activities, making assignments and managing quality. May act as liaison between Team Members and the Project Manager. Prepares and presents team and deliverable status reports in project meetings with the Project Manager and/or client personnel.

Educational Requirements

Holds a four-year degree from an accredited college / university, or has four additional years of experience, or has three additional years of experience plus a PMP, CAPM, or equivalent information technology certifications.

IT Team Lead II

General Experience

Experience of three or more years in IT consulting, system and application development, design and implementation, business process reengineering, IT transformation, or other related services. Possession of an advanced degree may be substituted for one year of experience. Possession of a professional certification (e.g., PMP, CAPM), other than that used to meet the minimum educational requirements, may also be substituted for one year of experience.

Functional Description

Under guidance from the Program and/or Project Manager, plans, executes, and controls team activities. Leads Team Members in SDLC tasks, including system analysis, and design, document business processes and systems evaluations, test system applications, or similar activities. Makes team assignments and manages technical quality. May act as liaison between Team Members and the Project Manager. Prepares and presents team and deliverable status reports in project meetings with the Project Manager and/or client personnel.

Educational Requirements

Holds a four-year degree from an accredited college / university, or has four additional years of experience, or has three additional years of experience plus a PMP, CAPM, or equivalent information technology certifications.

IT Team Lead I

General Experience

Experience of two or more years in IT consulting, system and application development, design and implementation, business process reengineering, IT transformation, or other related services. Possession of an advanced degree may be substituted for one year of experience. Possession of a professional certification (e.g. PMP, CAPM), other than that used to meet the minimum educational requirements, may also be substituted for one year of experience.

Functional Description

Under guidance from the Program and/or Project Manager, plans, executes, and controls team activities. Leads Team Members in SDLC tasks, including system analysis, and design, document business processes and systems evaluations, test system applications, or similar activities. Makes team assignments and manages technical quality. May act as liaison between Team Members and the Project Manager. Prepares and presents team and deliverable status reports in project meetings with the Project Manager and/or client personnel.

Educational Requirements

Holds a four-year degree from an accredited college / university, or has four additional years of experience, or has three additional years of experience plus a CAPM, or equivalent information technology certifications.

IT Team Member III

General Experience

In second year of experience providing IT consulting, system and application development, design and implementation, business process reengineering, IT transformation, or other related services. Possession of an advanced degree may be substituted for one year of experience. Possession of a professional certification (e.g. CAPM), other than that used to meet the minimum educational requirements, may also be substituted for one year of experience.

Functional Description

Performs IT SDLC tasks, including system analysis, design, and documentation of business processes and systems evaluations, and test system applications. Responsibilities may include analyzing data, documenting work performed, leading interviews, or other similar services. Develops and presents work products and deliverables. May develop and deliver training materials and/or assess and improve business processes, applications, and systems.

Educational Requirements

Holds a four-year degree from an accredited college / university, or has four additional years of experience, or has three additional years of experience plus a CAPM, or equivalent information technology certifications.

IT Team Member II

General Experience

In first year of experience providing IT consulting, system and application development, design and implementation, business process reengineering, IT transformation, or other related services. Possession of an advanced degree may be substituted for one year of experience. Possession of a professional certification (e.g., CAPM), other than that used to meet the minimum educational requirements, may also be substituted for one year of experience.

Functional Description

Performs IT SDLC tasks, including system analysis, design, and documentation of business processes and systems evaluations, and test system applications. Responsibilities may include analyzing data, documenting work performed, leading interviews, or other similar services. Develops and presents work products and deliverables. May develop and deliver training materials and/or assess and improve business processes, applications, and systems.

Educational Requirements

Holds a four-year degree from an accredited college / university, or has four additional years of experience, or has three additional years of experience plus a CAPM, or equivalent information technology certifications.

IT Team Member I

General Experience

No minimum requirement for experience.

Functional Description

Performs IT SDLC tasks, including system analysis, design, and documentation of business processes and systems evaluations, and test system applications under supervision of other team members. Responsibilities may include analyzing data, documenting work performed, leading interviews, or other similar services. Develops and presents work products and deliverables.

Educational Requirements

Holds a four-year degree from an accredited college / university, or has four years of experience, or has three years of experience plus a CAPM, or equivalent information technology certification.

IT Analyst III

General Experience

In second year of experience providing IT systems analysis and business consulting, IT system processes and methodology, systems and application development and implementation or other related services. Possession of an advanced degree may be substituted for one year of experience. Possession of a professional certification other than that used to meet the minimum educational requirements, may also be substituted for one year of experience.

Functional Description

Applies analytical and technical skills to client IT system and application development efforts. Responsibilities may include gathering and documenting requirements, documenting workflows, developing specifications and supporting systems installation, configuration, and implementation. Participates in Application Development using methodologies, creates or updates use cases, documents system, configures applications, or provides similar services. May supervise the work of other IT Analysts.

Educational Requirements

Holds a four-year degree from an accredited college / university, or has four years additional experience, or has three additional years of experience plus a relevant CAPM, or equivalent information technology certification.

IT Analyst II

General Experience

In first year of experience providing IT systems analysis and business consulting, IT system processes and methodology, systems and application development and implementation or other related services. Possession of an advanced degree may be substituted for one year of experience. Possession of a professional certification other than that used to meet the minimum educational requirements, may also be substituted for one year of experience.

Functional Description

Applies analytical and technical skills to client IT system and application development efforts. Responsibilities may include gathering and documenting requirements, documenting workflows, developing specifications and supporting systems installation, configuration, and implementation. Participates in Application Development using methodologies, creates or updates use cases, documents system, configures applications, or provides similar services. May supervise the work of other IT Analysts.

Educational Requirements

Holds a four-year degree from an accredited college / university in relevant field of study, or has four years additional experience, or has three additional years of experience plus a relevant CAPM, or equivalent information technology certification.

IT Analyst I

General Experience

No minimum requirement for experience.

Functional Description

Applies analytical and technical skills to client IT system and application development efforts. Responsibilities may include gathering and documenting requirements, documenting workflows, developing specifications and supporting systems installation, configuration, and implementation. Participates in Application Development using methodologies, creates or updates use cases, documents system, configures applications, or provides similar services.

Educational Requirements

Holds a four-year degree from an accredited college / university in relevant field of study, or has four years experience, or has three years of experience plus a relevant CAPM, or equivalent information technology certification.

IT Project Analyst II

General Experience

In first year of experience providing IT business consulting, financial management, project governance or other related services. Possession of an advanced degree may be substituted for one year of experience. Possession of a professional certification (e.g. CPA, PMP, or CAPM), other than that used to meet the minimum educational requirements, may also be substituted for one year of experience.

Functional Description

Assists with setting up and maintaining the project management infrastructure including, project governance, finances, administration and reporting, contractual tracking and reporting, status reporting, project/ program variance reporting, cost / benefit analysis and other related project cost accounting control activities. May compile status reports, update project plans, and prepare client billings.

Educational Requirements

Holds a four-year degree from an accredited college / university, or has four years additional experience, or has three additional years of experience plus a relevant CAPM, or equivalent.

IT Project Analyst I

General Experience

No minimum requirement for experience.

Functional Description

Assists with setting up and maintaining the project management infrastructure including, project governance, finances, administration and reporting, contractual tracking and reporting, status reporting, project/ program variance reporting, cost/benefit analysis and other related project cost accounting control activities. May compile status reports, update project plans, and prepare client billings.

Educational Requirements

Holds a four-year degree from an accredited college / university, or has four years additional experience, or has three additional years of experience plus a relevant CAPM, or equivalent.

IT Professional Assistant I

General Experience

No minimum requirement for experience.

Functional Description

Provides administrative support to projects. Performs tasks such as arranging meetings, preparing reports and graphics, managing team calendars, or other similar activities.

Educational Requirements

Holds high school diploma or equivalent.

5.b Information Security (IS) Consulting

PwC helps Federal agencies understand and respond to the challenges they face in the design, implementation, operation, and monitoring of information security. We bring to every assignment a distinguished reputation for independence and objectivity and a demonstrated ability to build public trust and to deliver results. New laws and regulations, as well as higher expectations from a broader stakeholder group, have elevated the need for more effective governance, compliance, and risk management. Our approach to working with the government combines a broad understanding of information security regulatory requirements, technical guidance, and economic conditions with our deep functional and process skills. We draw on our skills in technology and information security to enable the business of e-government solutions to protect the integrity, confidentiality and availability of information systems and resources. Our offerings include the following solutions:

- Security Strategy and Planning;
- Information systems security requirements analysis, design, and implementation;
- Certification and Accreditation;
- Integrating security management practices into sustainable processes and technology supporting IT Security;
- Testing, reporting and remediating information systems security compliance with FISCAM, OMB A-123, NIST 800-53, FFMIA/OMB A-127 and FISMA/OMB A-130 requirements;
- Network vulnerability analysis and penetration testing;
- Web Application security testing;
- Identity Management, single sign on, analysis, design, implementation, testing, certification, and monitoring;
- Public Key Infrastructure analysis, design, implementation, testing, certification, and monitoring;
- §522 readiness assessment;
- Privacy training and awareness;
- Privacy Impact Assessments and other Federal statutory requirements;
- Privacy policy and procedures development;
- Documentation and assessment of Agency use of information in identifiable form, privacy policies and procedures;
- Analysis of intranet, networks, and websites for privacy vulnerabilities; and
- Integration of privacy requirements with system and process redesign.

5.c Information Technology Labor Categories

IS Engagement Executive II

General Experience

Experience of twelve or more years in information security, information assurance, testing, implementation, operation, program management, or other related services. Possession of an advanced degree may be substituted for one year of experience. Possession of a professional certification (e.g., CISSP, CISA, CISM, PMP), other than that used to meet the minimum educational requirements, may also be substituted for one year of experience.

Functional Description

Has overall responsibility for the work performed. May review the work of other IS Engagement Executives and engagement, program, or project teams. Possesses experience in leading and providing technical direction to comparable projects. Capable of managing multiple projects of high complexity. Directs the execution of programs and completion of projects. Applies experience in information security, performance management, risk management, IS consulting, or other related services. Interacts with client on strategic issues.

Educational Requirements

Holds a four-year degree from an accredited college / university, or has four additional years experience in information security or information assurance, or has three additional years of experience plus a CISSP, CISA, CISM, PMP, or equivalent.

IS Engagement Executive I

General Experience

Experience of ten or more years in information security, information assurance, testing, implementation, operation, program management, or other related services. Possession of an advanced degree may be substituted for one year of experience. Possession of a professional certification (e.g., CISSP, CISA, CISM, PMP), other than that used to meet the minimum educational requirements, may also be substituted for one year of experience.

Functional Description

Has overall responsibility for the work performed. May review the work of IS engagement, program, or project teams. Possesses experience in leading and providing technical direction to comparable projects. Capable of managing multiple projects of high complexity. Directs the execution of programs and completion of projects. Applies experience in information security, performance management, risk management, IS consulting, or other related services. Interacts with client on strategic issues.

Educational Requirements

Holds a four-year degree from an accredited college / university, or has four additional years experience in information security or information assurance, or has three additional years of experience plus a CISSP, CISA, CISM, PMP, or equivalent.

IS Program Manager III

General Experience

Experience of nine or more years in information security, information assurance, testing, implementation, operation, program management, or other related services. Possession of an advanced degree may be substituted for one year of experience. Possession of a professional certification (e.g., CISSP, CISA, CISM, PMP), other than that used to meet the minimum educational requirements, may also be substituted for one year of experience.

Functional Description

Directs multiple work streams, and oversees the work of program personnel including, but not limited to, other IS Program Manager(s), Project Manager(s), Team Lead(s), and Team Member(s). May manage other IS Program Managers and/or oversee multiple engagements. Directs the completion of projects and applies experience in information security, performance management, risk management, actuarial consulting, or other related services. Interacts with the client on program-related issues and directs communication across the program and with key stakeholders.

Educational Requirements

Holds a four-year degree from an accredited college / university, or has four additional years experience in information security or information assurance, or has three additional years of experience plus a CISSP, CISA, CISM, or equivalent.

IS Program Manager II

General Experience

Experience of eight or more years in information security, information assurance, testing, implementation, operation, program management, or other related services. Possession of an advanced degree may be substituted for one year of experience. Possession of a professional certification (e.g., CISSP, CISA, CISM, PMP), other than that used to meet the minimum educational requirements, may also be substituted for one year of experience.

Functional Description

Directs multiple work streams, and oversees the work of program personnel including, but not limited to, other IS Program Manager(s), Project Manager(s), Team Lead(s), and Team Member(s). May manage other IS Program Managers and/or oversee multiple engagements. Directs the completion of projects and applies experience in information security, performance management, risk management, actuarial consulting, or other related services. Interacts with the client on program-related issues and directs communication across the program and with key stakeholders.

Educational Requirements

Holds a four-year degree from an accredited college / university, or has four additional years experience in information security or information assurance, or has three additional years of experience plus a CISSP, CISA, CISM, or equivalent.

IS Program Manager I

General Experience

Experience of seven or more years in information security, information assurance, testing, implementation, operation, program management, or other related services. Possession of an advanced degree may be substituted for one year of experience. Possession of a professional certification (e.g., CISSP, CISA, CISM, PMP), other than that used to meet the minimum educational requirements, may also be substituted for one year of experience.

Functional Description

Directs multiple work streams, and oversees the work of program personnel including, but not limited to, other IS Program Manager(s), Project Manager(s), Team Lead(s), and Team Member(s). May manage other IS Program Managers and/or oversee multiple engagements. Directs the completion of projects and applies experience in information security, performance management, risk management, actuarial consulting, or other related services. Interacts with the client on program-related issues and directs communication across the program and with key stakeholders.

Educational Requirements

Holds a four-year degree from an accredited college / university, or has four additional years experience in information security or information assurance, or has three additional years of experience plus a CISSP, CISA, CISM, or equivalent.

IS Project Manager III

General Experience

Experience of six or more years in information security, information assurance, testing, implementation, operation, project management, or other related services. Possession of an advanced degree may be substituted for one year of experience. Functional Description

Provides administrative support to projects. Performs tasks such as arranging meetings, preparing reports and graphics, managing team calendars, or other similar activities.

Educational Requirements

Holds high school diploma or equivalent.

6. *Small Business Commitment*

Preamble

(Name of Company) provides commercial products and services to ordering activities. We are committed to promoting participation of small, small disadvantaged and women-owned small businesses in our contracts. We pledge to provide opportunities to the small business community through reselling opportunities, mentor-protégé programs, joint ventures, teaming arrangements, and subcontracting.

Commitment

To actively seek and partner with small businesses.

To identify, qualify, mentor and develop small, small disadvantaged and women-owned small businesses by purchasing from these businesses whenever practical.

To develop and promote company policy initiatives that demonstrate our support for awarding contracts and subcontracts to small business concerns.

To undertake significant efforts to determine the potential of small, small disadvantaged and women-owned small business to supply products and services to our company.

To insure procurement opportunities are designed to permit the maximum possible participation of small, small disadvantaged, and women-owned small businesses.

To attend business opportunity workshops, minority business enterprise seminars, trade fairs, procurement conferences, etc., to identify and increase small businesses with whom to partner.

To publicize in our marketing publications our interest in meeting small businesses that may be interested in subcontracting opportunities. We signify our commitment to work in partnership with small, small disadvantaged and women-owned small businesses to promote and increase their participation in ordering activity contracts. To accelerate potential opportunities please contact **William Hardy, Phone: (703) 918-3725, E-mail: pwc.gov.contracts@us.pwc.com, Fax: (813) 639-2228**

7. *Blanket Purchase Agreements (BPAs)*

(Insert Customer Name)

In the spirit of the Federal Acquisition Streamlining Act (ordering activity) and (Contractor) enter into a cooperative agreement to further reduce the administrative costs of acquiring commercial items from the General Services Administration (GSA) Federal Supply Schedule Contract(s)

Federal Supply Schedule contract BPAs eliminate contracting and open market costs such as: search for sources; the development of technical documents, solicitations and the evaluation of offers. Teaming Arrangements are permitted with Federal Supply Schedule Contractors in accordance with Federal Acquisition Regulation (FAR) 9.6.

This BPA will further decrease costs, reduce paperwork, and save time by eliminating the need for repetitive, individual purchases from the schedule contract. The end result is to create a purchasing mechanism for the ordering activity that works better and costs less.

Blanket Purchase Agreement

BPA Number _____

Pursuant to GSA Federal Supply Schedule Contract Number(s) _____, Blanket Purchase Agreements, the Contractor agrees to the following terms of a Blanket Purchase Agreement (BPA) exclusively with (ordering activity):

1. The following contract items can be ordered under this BPA. All orders placed against this BPA are subject to the terms and conditions of the contract, except as noted below:

Model Number/Part Number	*Special BPA Discount/Price

2. Delivery:

Destination	Delivery Schedules/Dates

3. The ordering activity estimates, but does not guarantee, that the volume of purchases through this agreement will be _____.
4. This BPA does not obligate any funds.
5. This BPA expires on _____ or at the end of the contract period, whichever is earlier.
6. The following office(s) is hereby authorized to place orders under this BPA:

Office	Point of Contact

7. Orders will be placed against this BPA via Electronic Data Interchange (EDI), FAX, or paper.

8. Unless otherwise agreed to, all deliveries under this BPA must be accompanied by delivery tickets or sales slips that must contain the following information as a minimum:
 - a. Name of Contractor;
 - b. Contract Number;
 - c. BPA Number;
 - d. Model Number or National Stock Number (NSN);
 - e. Purchase Order Number;
 - f. Date of Purchase;
 - g. Quantity, Unit Price, and Extension of Each Item (unit prices and extensions need not be shown when incompatible with the use of automated systems; provided, that the invoice is itemized to show the information); and
 - h. Date of Shipment.
9. The requirements of a proper invoice are specified in the Federal Supply Schedule contract. Invoices will be submitted to the address specified within the purchase order transmission issued against this BPA.
10. The terms and conditions included in this BPA apply to all purchases made pursuant to it. In the event of an inconsistency between the provisions of this BPA and the Contractor's invoice, the provisions of this BPA will take precedence.

8. Contractor Team Arrangements

Federal Supply Schedule Contractors may use “Contractor Team Arrangements” (see FAR 9.6) to provide solutions when responding to an ordering activity requirements.

These Team Arrangements can be included under a Blanket Purchase Agreement (BPA). BPAs are permitted under all Federal Supply Schedule contracts.

Orders under a Team Arrangement are subject to terms and conditions or the Federal Supply Schedule Contract.

Participation in a Team Arrangement is limited to Federal Supply Schedule Contractors.

Customers should refer to FAR 9.6 for specific details on Team Arrangements.

Here is a general outline on how it works:

- a. The customer identifies their requirements.
- b. Federal Supply Schedule Contractors may individually meet the customers needs, or—
- c. Federal Supply Schedule Contractors may individually submit a Schedules “Team Solution” to meet the customer’s requirement.
- d. Customers make a best value selection.

9. GSA Pricelist
