16. Export packing charges, if applicable. N/A

17. Terms and conditions of Government purchase card acceptance (any thresholds above the micro-purchase level). None

18. Terms and conditions of rental, maintenance, and repair (if applicable). See page 6.

19. Terms and conditions of installation (if applicable). N/A

20. Terms and conditions of repair parts indicating date of parts price lists and any discounts from list prices (if applicable). N/A

20a. Terms and conditions for any other services (if applicable). For terms and conditions for Electronic Commerce and Subscription Services, see page 10. For terms and conditions for Information Technology Training, see page 13.

21. List of service and distribution points (if applicable). N/A

22. List of participating dealers (if applicable). N/A

23. Preventive maintenance (if applicable). N/A

24a. Special attributes such as environmental attributes (e.g., recycled content, energy efficiency, and/or reduced pollutants). N/A

24b. If applicable, indicate that Section 508 compliance information is available on Electronic and Information Technology (EIT) supplies and services and show where full details can be found (e.g., contractor’s website or other location.) The EIT standards can be found at: www.Section508.gov/.

25. Data Universal Number System (DUNS) number. 079279027

26. Notification regarding registration in System for Award Management (SAM) database. Spectrum Center Inc. maintains an active registration in the System for Award Management database.
Terms and Conditions Applicable to Software Licenses (511210)
Software Maintenance (54151)

1. INSPECTION/ACCEPTANCE

The Contractor shall only tender for acceptance those items that conform to the requirements of this contract. The Government reserves the right to inspect or test any software that has been tendered for acceptance. The Government may require repair or replacement of nonconforming software at no increase in contract price. The Government must exercise its post-acceptance rights (1) within a reasonable time after the defect was discovered or should have been discovered; and (2) before any substantial change occurs in the condition of the software, unless the change is due to the defect in the software.

2. GUARANTEE/WARRANTY

   a. Unless specified otherwise in this contract, the Contractor’s standard commercial license as stated in the contract’s commercial pricelist will apply to this contract. Extracts of the license are as follows:

   LICENSOR warrants that discrepancies between Licensed Software and the specification current at the time of delivery reported by the LICENSEE during the warranty period stated in Part VI of the Schedule will be corrected by LICENSOR without unreasonable delay and without payment by the LICENSEE. The LICENSOR undertakes to notify the LICENSEE of corrections to errors notified to LICENSOR by other LICENSEES during the above warranty period and to make copies of the corrected Licensed Software available to the LICENSEE free of charge.

   PART VI - WARRANTY PERIOD
   One Year

   b. The Contractor warrants and implies that the items delivered hereunder are merchantable and fit for use for the particular purpose described in this contract.

   c. Limitation of Liability. Except as otherwise provided by an express or implied warranty, the Contractor will not be liable to the Government for consequential damages resulting from any defect or deficiencies in accepted items. Extracts of the license are as follows:

   The LICENSEE acknowledges and agrees that LICENSOR shall have no liability to the LICENSEE for any consequential damages or losses which might arise by reason of use of the Licensed Software by or for the LICENSEE. The total of the LICENSOR's liabilities under or in connection with this Agreement (whether arising from contract, negligence or howsoever) is limited in respect of each event or series of connected events to the amount of the contract order amount provided that no limitation shall apply in respect of liability for death of or injury to persons arising from the LICENSOR's negligence and no limitation shall apply in respect of any liability arising under the provisions of Clause 6.2.
3. TECHNICAL SERVICES

The Contractor, without additional charge to the Government, shall provide a hot line technical support number, (703) 848-4750, for the purpose of providing user assistance and guidance in the implementation of the software. The technical support number is available 9:00 AM to 5:00 PM, Monday to Friday, Eastern Time (ET).

4. SOFTWARE MAINTENANCE

a. One year of maintenance comes with purchase of the first license. Software maintenance includes free upgrades of the software and reference manual, “bug” repair, and hotline support. Additional years of maintenance can be purchased.

b. Invoices for maintenance service shall be submitted by the Contractor on a quarterly or monthly basis, after the completion of such period. Maintenance charges must be paid in arrears (31 U.S.C. 3324). PROMPT PAYMENT DISCOUNT, IF APPLICABLE, SHALL BE SHOWN ON THE INVOICE.

5. UTILIZATION LIMITATIONS - (511210 and 54151)

a. Software acquisition is limited to commercial computer software defined in FAR Part 2.101.

b. When acquired by the Government, commercial computer software and related documentation so legend shall be subject to the following:

(1) Title to and ownership of the software and documentation shall remain with the Contractor, unless otherwise specified.

(2) Software licenses are by site and by agency. An agency is defined as a cabinet level or independent agency. The software may be used by any subdivision of the agency (service, bureau, division, command, etc.) that has access to the site the software is placed at, even if the subdivision did not participate in the acquisition of the software. Further, the software may be used on a sharing basis where multiple agencies have joint projects that can be satisfied by the use of the software placed at one agency's site. This would allow other agencies access to one agency's database. For Government public domain databases, user agencies and third parties may use the computer program to enter, retrieve, analyze and present data. The user agency will take appropriate action by instruction, agreement, or otherwise, to protect the Contractor's proprietary property with any third parties that are permitted access to the computer programs and documentation in connection with the user agency's permitted use of the computer programs and documentation. For purposes of this section, all such permitted third parties shall be deemed agents of the user agency.

(3) Except as is provided in paragraph 8.b(2) above, the Government shall not provide or otherwise make available the software or documentation, or any portion thereof, in any form, to any third party without the prior written approval of the Contractor. Third parties do not include prime Contractors, subcontractors and agents of the government who have the Government's permission to use the licensed software and documentation at the facility, and who have agreed to use the licensed software and documentation only in accordance with these restrictions. This provision does not limit the right of the Government to use software, documentation, or information therein, which the Government may already have or obtains without restrictions.

(4) The Government shall have the right to use the computer software and documentation with the computer for which it is acquired at any other facility to which that computer may be transferred, or in cases of disaster recovery, the Government has the right to transfer the software to another site if the Government site for which it is acquired is deemed to be unsafe for Government personnel; to use the computer software and documentation with a backup computer when the primary computer is inoperative; to copy computer programs for safekeeping (archives) or backup purposes; to transfer a copy
of the software to another site for purposes of benchmarking new hardware and/or software; and to modify the software and
documentation or combine it with other software, provided that the unmodified portions shall remain subject to these
restrictions.

(5) "Commercial Computer Software" may be marked with the Contractor's standard commercial restricted rights
legend, but the schedule contract and schedule pricelist, including this clause, "Utilization Limitations" are the only governing
terms and conditions, and shall take precedence and supersede any different or additional terms and conditions included in the
standard commercial legend.

6. SOFTWARE CONVERSIONS

Full monetary credit will be allowed to the Government when conversion from one version of the
software to another is made as the result of a change in operating system, or from one computer
system to another. Under a perpetual license (511210), the purchase price of the new software shall be
reduced by the amount that was paid to purchase the earlier version. Under a term license (511210),
conversion credits which accrued while the earlier version was under a term license shall carry forward
and remain available as conversion credits which may be applied towards the perpetual license price of
the new version.

Terms and Conditions Applicable to Purchase of Electronic Commerce and Subscription Services (SIN 54151ECOM)

1. SCOPE

The prices, terms and conditions stated under Special Item Number 54151ECOM Electronic Commerce (EC) Services apply exclusively to EC Services within the scope of this Information Technology Schedule.

2. ELECTRONIC COMMERCE CAPACITY AND COVERAGE

The Ordering Activity shall specify the capacity and coverage required as part of the initial requirement.

3. INFORMATION ASSURANCE

   a. The Ordering Activity is responsible for ensuring to the maximum extent practicable that each requirement issued is in compliance with the Federal Information Security Management Act (FISMA)

   b. The Ordering Activity shall assign an impact level (per Federal Information Processing Standards Publication 199 & 200 (FIPS 199, “Standards for Security Categorization of Federal Information and Information Systems”) (FIPS 200, “Minimum Security Requirements for Federal Information and Information Systems”) prior to issuing the initial statement of work. Evaluations shall consider the extent to which each proposed service accommodates the necessary security controls based upon the assigned impact level. The Contractor awarded SIN 54151ECOM is capable of meeting at least the minimum security requirements assigned against a low-impact information system (per FIPS200).

   c. The Ordering Activity reserves the right to independently evaluate, audit, and verify the FISMA compliance for any proposed or awarded Electronic Commerce services. All FISMA certification, accreditation, and evaluation activities are the responsibility of the ordering activity.

4. DELIVERY SCHEDULE.

   The Ordering Activity shall specify the delivery schedule as part of the initial requirement. The Delivery Schedule options are found in Information for Ordering Activities Applicable to All Special Item Numbers, paragraph 6. Delivery Schedule.

5. INTEROPERABILITY.
When an Ordering Activity requires interoperability, this requirement shall be included as part of the initial requirement. Interfaces may be identified as interoperable on the basis of participation in a sponsored program acceptable to the Ordering Activity. Any such access or interoperability with teleports/gateways and provisioning of enterprise service access will be defined in the individual requirement.

6. ORDER
   a. Agencies may use written orders, EDI orders, blanket purchase agreements, individual purchase orders, or task orders for ordering electronic services under this contract. Blanket Purchase Agreements shall not extend beyond the end of the contract period; all electronic services and delivery shall be made and the contract terms and conditions shall continue in effect until the completion of the order. Orders for tasks which extend beyond the fiscal year for which funds are available shall include FAR 52.232-19 (Deviation – May 2003) Availability of Funds for the Next Fiscal Year. The purchase order shall specify the availability of funds and the period for which funds are available.
   b. All task orders are subject to the terms and conditions of the contract. In the event of conflict between a task order and the contract, the contract will take precedence.

7. PERFORMANCE OF ELECTRONIC SERVICES
   The Contractor shall provide electronic services on the date agreed to by the Contractor and the ordering activity.

8. RESPONSIBILITIES OF THE CONTRACTOR
   The Contractor shall comply with all laws, ordinances, and regulations (Federal, State, City, or otherwise) covering work of this character.

9. RIGHTS IN DATA
   The Contractor shall comply FAR 52.227-14 RIGHTS IN DATA – GENERAL and with all laws, ordinances, and regulations (Federal, State, City, or otherwise) covering work of this character.

10. ACCEPTANCE TESTING
    If requested by the ordering activity the Contractor shall provide acceptance test plans and procedures for ordering activity approval. The Contractor shall perform acceptance testing of the systems for ordering activity approval in accordance with the approved test procedures.

11. WARRANTY
    The Contractor shall provide a warranty covering each Contractor-provided electronic service.
commerce service. The minimum duration of the warranty shall be the duration of the manufacturer’s commercial warranty for the item listed below:

The warranty shall commence upon the later of the following:

a. Activation of the user’s service
b. Installation/delivery of the equipment

The Contractor, by repair or replacement of the defective item, shall complete all warranty services within five working days of notification of the defect. Warranty service shall be deemed complete when the user has possession of the repaired or replaced item. If the Contractor renders warranty service by replacement, the user shall return the defective item(s) to the Contractor as soon as possible but not later than ten (10) working days after notification.

12. MANAGEMENT AND OPERATIONS PRICING

The Contractor shall provide management and operations pricing on a uniform basis. All management and operations requirements for which pricing elements are not specified shall be provided as part of the basic service.

13. TRAINING

The Contractor shall provide normal commercial installation, operation, maintenance, and engineering interface training on the system. If there is a separate charge, indicate below:

See description of available training services under SIN 611420 Information Technology Training

14. MONTHLY REPORTS

In accordance with commercial practices, the Contractor may furnish the ordering activity/user with a monthly summary ordering activity report.

**Product Description & Prices**

ATDI’s Spectrum-E cloud based web application is available on a per user per month subscription basis with three package options: Professional, Advanced, and Unlimited. All package options can be customized to meet any simulation need relative to spectrum engineering and radio frequency network planning. Spectrum-E gives users access to the ATDI secure cloud data center and includes customized functions that can be stored on the cloud, instant updates, an introductory webinar, bug fixing and support.
### Spectrum-E (GSA)

**Spectrum-E – RF Engineering & Spectrum Management web application**

Includes maintenance contract providing:
- Bug fixing reporting through email or chat line
- Free upgrades
- Chat line and e-mail support (24 hour response time) Training

Webinar via GoToMeeting: “Getting Started with Spectrum-E”

### Terms and Conditions Applicable to Information Technology Training (SIN 611420)

1. **SCOPE**

a. The Contractor shall provide training courses normally available to commercial customers, which will permit Government users to make full, efficient use of general purpose commercial IT products. Training is restricted to training courses for those products within the scope of this solicitation.

b. The Contractor shall provide training at the Contractor's facility and/or at the Government's location, as agreed to by the Contractor and the Government.
2. ORDER

Written orders, EDI orders (GSA Advantage! and FACNET), credit card orders, and orders placed under blanket purchase agreements (BPAs) shall be the basis for the purchase of training courses in accordance with the terms of this contract. Orders shall include the student’s name, course title, course date and time, and contracted dollar amount of the course.

3. TIME OF DELIVERY

The Contractor shall conduct training on the date (time, day, month, and year) agreed to by the Contractor and the Government.

4. CANCELLATION AND RESCHEDULING

a. The Government will notify the Contractor at least seventy-two (72) hours before the scheduled training date, if a student will be unable to attend. The Contractor will then permit the Government to either cancel the order or reschedule the training at no additional charge. In the event the training class is rescheduled, the Government will modify its original training order to specify the time and date of the rescheduled training class.

b. In the event the Government fails to cancel or reschedule a training course within the time frame specified in paragraph a, above, the Government will be liable for the contracted dollar amount of the training course. The Contractor agrees to permit the Government to reschedule a student who fails to attend a training class within ninety (90) days from the original course date, at no additional charge.

c. The Government reserves the right to substitute one student for another up to the first day of class.

d. In the event the Contractor is unable to conduct training on the date agreed to by the Contractor and the Government, the Contractor must notify the Government at least seventy-two (72) hours before the scheduled training date.

5. FOLLOW-UP SUPPORT

Follow-up support is available to licensed software users as a component of their software warranty or maintenance contract.

6. PRICE FOR TRAINING

The price that the Government will be charged will be the Government training price in effect at the time of order placement, or the Government price in effect at the time the training course is conducted, whichever is less.

7. INVOICES AND PAYMENT
Invoices for training shall be submitted by the Contractor after Government completion of the training course. Charges for training must be paid in arrears (31 U.S.C. 3324). PROMPT PAYMENT DISCOUNT, IF APPLICABLE, SHALL BE SHOWN ON THE INVOICE.

8. FORMAT AND CONTENT OF TRAINING

a. The Contractor shall provide written materials (i.e., manuals, handbooks, texts, etc.) normally provided with course offerings. Such documentation will become the property of the student upon completion of the training class.
b. For hands-on training courses, there must be a one-to-one assignment of IT equipment to students.
c. The Contractor shall provide each student with a Certificate of Training at the completion of each training course.
d. See listings at paragraph 9 - 10 below for training course information and prices.
e. For those courses conducted at the Government’s location, instructor travel charges (if applicable), including mileage and daily living expenses, must be indicated below. Rates paid as a result of travel must comply with the Federal Travel Regulation or Joint Travel Regulations, as applicable, in effect on the date(s) the travel is performed. Contractors cannot use GSA city pair contracts.

We will charge for required travel in accordance with Federal Travel Regulation/ Joint Travel Regulations per diem and mileage rates in effect on the dates training at a Government site is required.

9. COURSE INFORMATION

Training is available on-site or at ATDI offices on the use of ATDI software products. Temporary licenses for the subject software product will be provided for each attendee’s use during the training session. ATDI does not normally provide computer hardware for on-site training, but rental equipment can be arranged.

- The minimum available training session is one day.
- The authorized number of attendees per session is five.
- Additional attendees can be accommodated at an additional price per attendee.

The usual length of training sessions are as follows:

- ICS Telecom 2 days
- HTZ Warfare 2 days
- ICS Map Server 1 day
- Specialty training: 1 day

Other ATDI software products do not normally require training.
