Emergency Suspend: For devices used typically only in emergencies, the Government can use the Voluntary Suspend Plan to provide mobile devices at a moment's notice to personnel. Under this plan, a customer can suspend lines for up to 180 days. Lines in suspended status are charged a nominal established rate per month, per line. There is no additional monthly rate plan charge associated with the Suspend Plan. When an emergency arises, the customer can request that AT&T provision regular services (voice, data, text, etc.) on the lines (over the air.)

Suspended service prevents users from making and receiving calls on your wireless device, except for calling 611 to reach customer care and 911 in the event of an emergency. Monthly recurring fees accrue while the phone number is in a voluntary suspended status.

Pooling is restricted to pooling users on a single Billing Account Number. Multiple Billing Account Numbers do not pool together. Data plans offered under this section will not pool with other data plans that are currently available under the GSA Schedule. For example,, the 5GB device agnostic pooled plan under this section will not pool with the data plans that are currently on the GSA Schedule. Cross-device pooling permitted only with eligible devices. Users may not increase their pooling contribution for already-billed services. There will be no additional charge for AT&T owned wireless Local Area Network (Wi-Fi) usage. AT&T has over 29,000 Wi-Fi hotspots in the United States.

Emergency Suspend: For devices used typically only in emergencies, the Government can use the Voluntary Suspend Plan to provide mobile devices at a moment's notice to personnel. Under this plan, a customer can suspend lines for up to 180 days. Lines in suspended status are charged a nominal established rate per month, per line. There is no additional monthly rate plan charge associated with the Suspend Plan. When an emergency arises, the customer can request that AT&T provision regular services (voice, data, text, etc.) on the lines (over the air.)

Suspended service prevents users from making and receiving calls on your wireless device, except for calling 611 to reach customer care and 911 in the event of an emergency. Monthly recurring fees accrue while the phone number is in a voluntary suspended status.

Customers can use International Data Roaming services in a country/area that is not one of the 130+ discounted countries; however, they are subject to the higher international data roaming pay-per-use rate.

3.5 AT&T ENHANCED PUSH-TO-TALK

AT&T Enhanced Push-To-Talk (EPTT) is a next generation Push-to-Talk (PTT) service that provides virtually instant voice communications, situational awareness capabilities, highly secure messaging, location features, and features based on industry standards for Mission Critical Push to Talk (MCPTT) such as emergency calling over 3G, 4G, 4G LTE and Wi-Fi networks and serves as a powerful collaboration and productivity tool for businesses and governments.

The AT&T EPTT application is a FIPS 140-2 compliant software application that operates on compatible devices and it is offered to customers in two tiers: AT&T EPTT Standard and AT&T EPTT Advanced. Each tier's capabilities and the mobile application can be configured using either the Basic or LMR user-interface versions on a user-by-user basis.

The Basic version is an intuitive user interface that features one to one or group calling, alerts, multimedia messages, location tracking, talkgroup scanning, presence indicators and history information. The LMR version mirrors the operation of a traditional two-way radio with pre-defined talk groups and an all-in-one interface and supports Customers migrating from two-way radio. Using the Corporate Administration Tool (CAT) an administrator assigns the user interface mode (version) to each user. Users will see a notification if their version is changed.

AT&T EPTT is available in two feature packages called AT&T EPTT Standard and AT&T EPTT Advanced, which offer the following features

EPTT Standard

AT&T EPTT Standard delivers almost instant voice communication with groups up to 250 people or an individual with the push of a button and supports:

- Presence services – provide real-time presence status indicators (available, unavailable, and do not disturb).
- Integrated Secure Messages- send highly secure messages to other EPTT subscribers, including text, multimedia and location information to a group or to individuals in the EPTT system.
- Location Tracking- allows an EPTT supervisor and the dispatcher of any talkgroup to check the current location of all talkgroup members on a map, to create a boundary (Geofence) for a talkgroup, and to receive notifications when members enter or leave the boundary.
- Alerts – provide the convenience of a quick alert for requesting a call back or displaying a missed call.
- Background Call Mode – allows the user to hear incoming EPTT calls while the EPTT application remains in the background.
- Broadcast Calling – initiates a preemptive one-way call to a large group of users at the same time.
- One Touch Calling – allows an EPTT user to call a particular contact or talkgroup or most recent history entry when the PTT button is pressed or allows the PTT button to be assigned to open the application to the preferred landing page (History, Contacts, Groups, Favorite Contacts, or Favorite Groups). Available on selected devices.
- Talkgroup Channels - assign up to 96 talkgroup channels using the EPTT LMR version.
- History – provides EPTT call and message history.
- EPTT Voice Message Fallback – allows an EPTT call to be converted into a voice message if the called party is unavailable.
- Silent Mode Behavior (Privacy Mode) – provides alerting behaviors while the device is in silent mode, which can be controlled through the EPTT Privacy Mode setting.
- Supervisory Override (Talker Priority) – allows selected talkgroup members to

place a PTT call and speak at any time during a call, even if the target callers are on an active PTT call.

- Talkgroup Scanning with Priority – allows an EPTT user to select up to 16 talkgroups for monitoring, with three that can be set as prioritized groups.
- Wi-Fi Support – allows the EPTT application to have access through Wi-Fi access points connected to the Internet.

EPTT Advanced

In addition to all the features of AT&T EPTT Standard, AT&T EPTT Advanced includes:

- **Emergency Calling-** enables an EPTT user to declare an emergency state using the EPTT application on-screen or the dedicated emergency hard-key on certified devices. When the feature is enabled by an administrator via the CAT, the EPTT platform prioritizes these EPTT calls over all other EPTT calls.
- **User Awareness Features-** available for use with CRUs only, these features are managed by an administrator who is authorized by the Customer through the use of the CAT.
  - User Check – enables an authorized user to check an EPTT user's battery level, signal strength (Wi-Fi and cellular) and current location if allowed by the device's operating system.
  - User Disable - enables an authorized user to remotely disable EPTT for a specific device. This disables the device from accessing EPTT and secured messaging.
  - User Enable - enables an authorized user to remotely enable a user's previously disabled device, granting back access to EPTT and secure messaging.
- **Additional Features -** AT&T EPTT Advanced includes AT&T Dynamic Traffic Management and the monthly reoccurring charges for Land Mobile Radio Interoperability at no additional charge.

Corporate Administration Tool (CAT)

The AT&T EPTT CAT can be used to manage a Customer's contacts talkgroups and to designate roles to specific talkgroup members that enable them to use EPTT situational and user awareness capabilities. The features of the CAT include:

- Subscriber Profile Management - allows Customer authorized administrators to manage subscribers' profiles, such as name and subscription type.
- Contacts Management - allows an administrator to manage subscribers' contacts.
- Contacts Management - allows an administrator to manage user sets.
- Talkgroup Management - allows an administrator to manage talkgroups, including the ability to interrupt talkgroup conversations. There are three types of groups that can be managed: standard, dispatch, and broadcast

groups.

- External Contacts Management - allows an administrator to add subscribers who are outside the Customer's organization.
- Interoperability Connections Management - supports communications between EPTT and LMR systems.

Integrated Dispatch Console (IDC):

The optional Integrated Dispatch Console feature is a Windows® based application that enables administrators and supervisors to manage daily dispatch operations. The CAT administrator is responsible for on-boarding the authorized Dispatcher and creating the necessary Dispatch talkgroups. The IDC enables a Dispatcher to:

- Establish a one-to-one call or send and receive an Instant Personal Alert (IPA) to or from a user. Dispatchers can send and receive alerts to and from talkgroup members as a request to call back.
- Start or end a PTT call, record a conversation, and see the speaker's identity.
- Locate talkgroup members on the map, either individually or as a talkgroup.
- Text and share multimedia content (i.e., audios, files, images and videos) with talkgroup members.
- Allow a designated broadcaster to make high-priority one-way calls, typically used for making important announcements.
- See a map showing the locations of talkgroup members in the field and make PTT calls, send messages or send alerts to those talkgroup members directly from the map.
- Assign a virtual boundary (Geofence) to a talkgroup on the map. When a Geofence is applied to a talkgroup, a notification is sent to the Dispatcher and other fleet members whenever a talkgroup member crosses the fence's boundary.

LMR LTE Interoperability

AT&T EPTT optionally interoperates with two-way Land Mobile Radio (LMR) systems, allowing group communications between the LMR and EPTT systems. The interoperability solution creates a "talk-path" that connects the two systems and manages the calls between the networks. IP Interoperability with traditional LMR systems can be delivered through various combinations of customer premise equipment and AT&T networking support.

Enhanced PTT Interoperability MPLS VPN Backhaul

EPTT Interoperability MPLS VPN Backhaul is an optional managed service that provides a private connection for voice traffic between a Land Mobile Radio system and the EPTT system. Customers must obtain access between each Customer site and an AT&T point-of-presence using clear channel digital dedicated access facilities obtained from AT&T or

another provider. The service enforces traffic separation among Customers in accordance with the RFC2547 standard. The service components include 10 MB MPLS Ports and 10 MB Ethernet Access and Equipment Management. The MPLS Ports and Ethernet access provide the connection between Customer's IP network and the AT&T Network. Each MPLS Port at a Customer site requires a new access line or access channel installation/activation charges apply to such access arrangements.

AT&T Dynamic Traffic Management

Enhanced PTT subscribers may also receive or subscribe to AT&T Dynamic Traffic Management, which uses Quality of Service (QoS) network technology to enable qualified enterprise and government customers to receive a differentiated (i.e., enhanced versus "best effort") 4G LTE network experience for Approved Business Application data traffic originated on and traversing over the AT&T-owned domestic 4G LTE network (i.e., excluding microcells, AT&T Wi-Fi service, and roaming partners' networks). An enhanced, or higher, QoS is particularly valuable during times of network congestion. AT&T Dynamic Traffic Management is available only for use with Customer's qualified business applications that are used solely in connection with the transmission of Customer's data to and from its authorized CRU lines' 4G LTE-AT&T Dynamic Traffic Management enabled Equipment, including routers, determined solely by AT&T (each, an Approved Business Application). Approved Business Applications may include, without limitation, video calling/conferencing, push-to-talk, dispatch, logistics, command and control, telematics, and monitoring applications used by Customer's authorized CRU lines. If AT&T confirms that Customer has requested AT&T Dynamic Traffic Management for an Approved Business Application, Customer will also be required to identify a Customer representative who will be available to assist AT&T, at a mutually agreeable time and upon reasonable prior notice from AT&T, in: (a) validating and testing the Approved Business Application as part of the AT&T Dynamic Traffic Management set up; and (b) in the event that Customer chooses to configure AT&T Dynamic Traffic Management with AT&T Private Mobile
Connection service, providing additional technical information and/or requesting any modifications or additions to the Approved Business Application. AT&T Dynamic Traffic Management is available only to a Customer's CRUs and only within the Domestic Coverage Area (i.e., U.S., Puerto Rico, and U.S. Virgin Islands) and only for AT&T Enhanced PTT traffic originated on and traversing over the AT&T-owned 4G LTE network, excluding microcells, MetroCells, AT&T Wi-Fi service and roaming partners' networks. When Customers subscribe to AT&T Dynamic Traffic Management, data usage from enabled devices is separately tracked and billed.

AT&T Dynamic Traffic Management is offered in two versions: AT&T Dynamic Traffic Management – Enterprise and AT&T Dynamic Traffic Management – Public Safety. AT&T Dynamic Traffic Management is included in EPTT subscriptions for FirstNet subscribers and is optional for other EPTT subscribers.

AT&T Dynamic Traffic Management – Enterprise may not be used with, among other things: (a) mobile video transmission applications, and (b) applications that transmit data to and receive data from all or substantially all Internet endpoints. Accordingly, for each business application identified by Customer for use with AT&T Dynamic Traffic Management – Enterprise, Customer must provide AT&T with sufficient information about the application to permit AT&T to determine whether the application is an Approved Business Application. Such information will include, at a minimum, the application name/version, application protocol,

destination IP address and destination port. Customer further acknowledges and agrees that AT&T Dynamic Traffic Management – Enterprise (a) is available only within the Domestic Coverage Area and only for Customer's Approved Business Application data traffic originated on and traversing over the AT&T-owned domestic 4G LTE network; (b) does not provide priority access to the AT&T-owned domestic 4G LTE network; (c) does not prioritize Customer's Approved Business Application data traffic ahead of all other data traffic, as other data traffic may receive a similar or higher QoS; and (d) is not to be used for any data traffic originated on or over the Internet, other than Customer's Approved Business Application data traffic. AT&T Dynamic Traffic Management – Enterprise must be added to each CRU line separately. Per CRU line requirements include purchase of Enhanced PTT with an AT&T Dynamic Traffic Management - Enterprise plan and a qualified feature phone or qualified smartphone provisioned with the appropriate feature code.

AT&T Dynamic Traffic Management – Public Safety is limited to customers responsible for public safety and critical infrastructure (e.g., police and fire departments, EMT services departments, and emergency management agencies) that have been assigned one a qualifying North American Industry Classification System (NAICS) code. For details on qualifying codes, see an AT&T representative. Entities eligible for AT&T Dynamic Traffic Management—Public Safety are collectively referred to as "public safety customers". AT&T Dynamic Traffic Management - Public Safety provides priority access to the domestic AT&T 4G LTE network for a Customer's authorized CRU subscribers. AT&T Dynamic Traffic Management - Public Safety (a) is available only within the Domestic Coverage Area and only for Customer's Approved Business Application data traffic originated on and traversing over the AT&T-owned domestic 4G LTE network; (b) does not prioritize Customer's Approved Business Application data traffic ahead of all other data traffic, as other data traffic may receive a similar or higher QoS; (c) provides Customer's authorized CRUs priority access to available AT&T 4G LTE network resources but will not preempt other users' use of the network in order to make network resources available; and (d) is not to be used for any data traffic originated on or over the Internet, other than Customer's Approved Business Application data traffic. The traffic of qualified public safety customers will be assigned a higher QoS than the traffic of other customers that perform public safety functions. AT&T reserves the right to exercise its sole and reasonable discretion to determine which public safety customers may purchase AT&T Dynamic Traffic Management – Public Safety and the extent to which such customers may deploy and utilize AT&T Dynamic Traffic Management – Public Safety within their organizations. AT&T further reserves the right to limit or terminate use of AT&T Dynamic Traffic Management – Public Safety by customers that AT&T determines to be using AT&T Dynamic Traffic Management – Public Safety in a manner inconsistent with the expressed or intended use of AT&T Dynamic Traffic Management – Public Safety. Customers choosing to combine AT&T Dynamic Traffic Management—Public Safety with AT&T Enhanced Push-to-Talk will be billed for both services on a bundled basis for each authorized CRU line. Customers also have the ability to designate AT&T Enhanced Push-to-Talk as an Approved Business Application and not as a bundled offer with AT&T Dynamic Traffic Management—Public Safety, in which case Customer will be billed for each service separately.

IMPORTANT INFORMATION

General - AT&T Enhanced Push-to-Talk, as described in this product brief (the "Solution") is available only to eligible customers For government customers, any Additional Product Terms not allowable under applicable law will not apply, and the Qualified Agreement will control in the event of any
material conflict between the Qualified Agreement and the Additional Product Terms. The Solution is available to Customers, their Customer Responsibility Users ("CRUs") and their Individual Responsibility Users ("IRUs"), and to consumers with a qualified AT&T rate plan and Enhanced PTT subscription, as described herein. Consumers will have access to features permitted to IRUs. The Corporate Administrator Tool and Integrated Dispatch are only available for use with AT&T-subscribed CRUs. The Solution may not be available for purchase in all sales channels or in all areas and may not be accessible at all times. Additional hardware, software, service and/or network connections may be required to access the Solution. Availability, accessibility, security, delivery, speed, timeliness, accuracy, and reliability are not guaranteed by AT&T.

Requirements - The Solution is a voice-over-IP solution that requires wireless connectivity on compatible cellular or Wi-Fi networks. It requires use of a supported wireless device or a personal computer running Windows Vista OS or higher ("PC"). Use of the AT&T Enhanced PTT

client for PCs may require that the PC be connected to AT&T's wireless network through an integrated modem/aircard or mobile hotspot device with service on a qualified data plan. Use of the Solution on supported feature phones, smartphones and tablet devices requires download and installation of the Enhanced PTT client software onto such devices. Other software on an end user's device may impair performance. For AT&T subscribed devices, usage of the Solution requires a subscription to an Enhanced PTT rate plan or qualified AT&T data rate plan. Data service/plan requirements vary by device category. Certain AT&T data plans (e.g., MEdia Net) are not eligible.

Technical - The Solution is not compatible with traditional circuit-switched voice calls or certain other AT&T wireless services, including, without limitation, call waiting, call forward, voice mail/Visual Voice Mail, AT&T Address Book, and Wireless Priority Service. Wireless data coverage is not available in some areas and wireless service performance is subject to transmission limitations and terrain, system, capacity and other limitations. AT&T mobility coverage maps are available at www.att.com/business/datacoverage. Coverage areas of other mobility carriers are available from the carriers. Usage of the Service on networks other than AT&T wireless data networks is dependent on proper configuration and quality of the network connection. AT&T is unable to provide troubleshooting or configuration assistance for third-party network connections and may be limited in its ability to troubleshoot service problems for transmissions made using such networks. AT&T provides no customer support in this regard other than verifying connectivity to the AT&T network and the Service. The Enhanced PTT client must be installed on an AT&T certified device, and the device must be activated and turned on in order to originate and or receive Enhanced PTT calls. Use of non-certified devices is not fully supported. A list of certified devices is available at www.att.com/epttdevices, which is subject to change. Not all service features and functionality are available on all certified devices. See an AT&T representative for details. If the Customer attempts to access the Solution via a custom Access Point Name (APN), through a firewall or from a network that does not meet the specified network access criteria, the service will not work. The Solution is not compatible with devices provisioned through the AT&T Control Center or Enterprise On Demand platforms and cannot be transmitted over wireless Virtual Private Networks (VPNs).

Usage - The Solution can be used while roaming on compatible domestic and international wireless carriers. For AT&T subscribers, applicable roaming rates apply to international carriers except while roaming in Mexico and Canada. For other carriers' subscribers see applicable carriers' roaming rates. Data usage incurred by AT&T subscribers within AT& T' s domestic wireless data network footprint in the United States and with roaming partner networks in Mexico and Canada in connection with Enhanced PTT will not be charged against the Customer's associated data plan. All other AT&T data usage, including, without limitation, data usage incurred in connection with use of the Service on all other international cellular roaming networks, will be charged at AT&T's scheduled rates. Data usage for devices subscribed to other carriers is billed to the end user by the subscribed carrier at that carrier's rates.

Customer must accept the Additional Product Terms as the party liable for each CRU and agrees in such case that the CRU will comply with the obligations under those terms. Customer is responsible for providing each CRU of an enabled mobile device with a copy of the Additional Product Terms. The Customer and the CRU are individually and jointly liable thereunder. Unless otherwise prohibited, this offer is subject to change, and may be modified, terminated, or discontinued at any time without notice.

Data Privacy - Customer Personal Data may be transferred to or accessible by (i) AT&T

personnel around the world (ii) third-parties who act on AT&T's or AT&T's supplier's behalf as subcontractors; and (iii) third parties (such as courts, law enforcement or regulatory authorities) where required by law. Customer will only provide or make Customer Personal Data accessible when Customer has the legal authority to do so and for which it has obtained the necessary consents from its end users and will camouflage or securely encrypt Customer Personal Data in a manner compatible with the service. As used herein, the term Customer Personal Data includes, without limitation, name, phone number, email address, wireless location information or any other information that identifies or could reasonably be used to identify Customer or its end users. Customer is responsible for providing end users with clear notice of AT&T's and Customer's collection and use of Customer Personal Data obtained via the Solution and for obtaining end users' consent to that collection and use. Customer may satisfy its notification requirements as to AT&T by advising end users in writing that AT&T and its suppliers may collect and use Customer Personal Data by providing for end user review the relevant links to the product brief or other sales information that describes the Solution and to AT&T's Privacy Policy

** Requires additional subscription to a compatible wireless data service plan*
*** Requires an additional bridging device and at least one Mobile phone with AT&T service to provide a service link for interoperability.*
**** Requires additional subscription to qualified AT&T wireless voice and data service plans.*
***** Requires USB Modem and AT&T data plan.*
"Unlimited" refers to domestic usage of Enhanced PTT on the AT&T Mobility cellular network only.
Additional taxes, fees and other charges apply.

Note: AT&T's Enhanced Push-to-Talk products are compliant to Section 508 requirements with some exceptions. The management console application may not be accessible to all users with disabilities with the same effectiveness as non-disabled users as described in Section 508. For this reason, Agency management should carefully review the Product Assessment report of AT&T's Enhanced Push-to-Talk before purchasing these products for Agency use.

Pooling is restricted to pooling users on a single Billing Account Number. Multiple Billing Account Numbers do not pool together. Data plans offered under this section will not pool with other data plans that are currently available under the GSA Schedule. For example,, the 5GB device agnostic pooled plan under this section will not pool with the data plans that are currently on the GSA Schedule. Cross-device pooling permitted only with eligible devices. Users may not increase their pooling contribution for already-billed services. There will be no additional charge for AT&T owned wireless Local Area Network (Wi-Fi) usage. AT&T has over 29,000 Wi-Fi hotspots in the United States.

Emergency Suspend: For devices used typically only in emergencies, the Government can use the Voluntary Suspend Plan to provide mobile devices at a moment's notice to personnel. Under this plan, a customer can suspend lines for up to 180 days. Lines in suspended status are charged a nominal established rate per month, per line. There is no additional monthly rate plan charge associated with the Suspend Plan. When an emergency arises, the customer can request that AT&T provision regular services (voice, data, text, etc.) on the lines (over the air.)

Suspended service prevents users from making and receiving calls on your wireless device, except for calling 611 to reach customer care and 911 in the event of an emergency. Monthly recurring fees accrue while the phone number is in a voluntary suspended status.

5.0 AT&T Mobile Applications

5.1 AT&T Encrypted Mobile Voice (EMV)

AT&T EMV service provides mobility customers with end to end security features for confidential and sensitive calls. AT&T EMV transforms standard smartphones into protected communication devices, meeting government grade classifications for Controlled Unclassified Information, and Sensitive But Unclassified, and offering NIST FIPS 140-2 validation.

How it Works: The Hardware Difference

The solution features a powerful hardware and software combination, supporting BlackBerry, Android™ and Windows® Mobile devices on the AT&T wireless data network and on Wi-Fi networks. Fully optimized with the AT&T network, the combination of TrustChip®, TrustCall, and TrustText offers a hardened, two factor encryption solution. The purpose-built TrustChip is a fully hardened, self-contained crypto engine which users simply insert in the smartphone's microSD slot. The TrustChip can be shipped unbranded and includes an embedded AT&T TrustGroup hardcoded within the chip. The AT&T TrustGroup offers the strength of additional hardware authentication, and also provides potential for encrypted calling interoperability with other interagency AT&T Global TrustGroup users, sharing a common relay server. The TrustChip can be managed over-the-air and serves as a hardware anchor to the TrustCall and TrustText software applications which allow user to easily place and receive secured calls and SMS text messages. They integrate with the phone's standard operation and address book, providing users an intuitive and seamless security option. This on demand protection delivers mutual authentication and end-to-end encryption for the duration of the call or text session.

5.5 WIRELESS PRIORITY SERVICES

AT&T Mobility Priority Service gives emergency agencies priority handling for emergency calls in heavy network traffic. Now, the Departments of Defense and Homeland Security and civilian agencies have the priority access they need to help ensure they get their mission-critical calls through without delay. Sometimes, in large-scale emergencies, circuits can become overloaded and wireless networks can become jammed— delaying calls and crucial emergency response. Prompt access to your wireless network is critical in emergency situations.

A Simple Process When Speed is Critical

- Once your end user's SIM card is registered with Wireless Priority Service
- They can dial *272 plus the number you wish to reach

5.6 AT&T REMOTE MOBILITY ZONE (ARMZ)

AT&T Remote Mobility Zone provides the management of recoverable GSM voice and data service equipment (purchased separately) that can be dynamically deployed in a disaster area where mobile coverage has been disrupted. It can also be set up in any area where AT&T cellular coverage is not available, but in which AT&T is licensed to provide cellular service.

ARMZ works with optional satellite services, which are available for purchase separately or you can elect to utilize your own satellite or LAN connectivity for backhaul to the AT&T's cellular network.

AT&T Remote Mobility Zone offers a simple and powerful solution for:

- Enterprises and Government Entities who are looking for a Business Continuity solution for remote installations. Whether the AT&T network is needed at remote mining operations or to cover remote military installations, ARMZ brings instant coverage. ARMZ can also be closely integrated in the customer installations to optimize coverage and reduce cost.
- First Responders, whether they are part of the federal, state or local government, or part of law enforcement and homeland security, can benefit from the highly portable aspect of ARMZ and deploy it as part of their first line response team. ARMZ can be installed on a roof of a command vehicle or deployed on the ground in a matter of minutes Several product options are available to increase flexibility and ease of integration with your infrastructure:

Several product options are available to increase flexibility and ease of integration with your infrastructure:

- Backhaul
- Satellite Backhaul: solution provided by AT&T, includes satellite equipment, bandwidth and managed service
- LAN Backhaul: leverages customer's Internet infrastructure
- Deployment model
- Independent of the choice of the backhaul or the radio capacity, the ARMZ solution can be deployed in three different ways
- Fixed installation – providing cellular coverage to a permanent remote site. AT&T provides a fully ready solution that can be deployed long-term at a customer site. AT&T also offers on-site services to work with the customer to integrate the ARMZ into the site's own infrastructure

- Park-and-use: Mounted in a command vehicle, the ARMZ solution provides a highly mobile platform for the customer's cellular communications. Once the vehicle is parked, the satellite connection between the customer and the AT&T network is established automatically and within minutes
- Fly-away: Stored and delivered in hardened containers (2 for the LAN ARMZ, 4 for the Satellite ARMZ), the fly-away configuration can be deployed with first line public safety users. After setting up the cellular mast and deploying the satellite dish, ARMZ automatically establishes a connection with the AT&T network

5.6.1 Service Configurations

Two solution service models: mobile and fixed.

Mobile Service Configurations

- Mobile zones are deployed as a fly-away, suit cased system, or as a fully integrated solution in a vehicle for park and use capability. Installation requires little involvement from AT&T and little effort by responder
- Suitcase system containing a picocell site and either sat-com modem/ACU or IPSec Router along with antennas and telescoping masts
- Coverage area ~½ mile radius
- Vehicle-mounted or "flyaway kit" options
- Mobile flyaway and vehicle 'park-and-use' are only available to government customers

Fixed Service Configurations

- Fixed zones are not mobile and are deployed either permanently or semi-permanently in zones where AT&T holds licensed spectrum but does not offer coverage and/or does not plan to offer coverage
- Coverage area ~1 mile radius
- AT&T is involved in the installation, configuration and provisioning of the site, coordinating the development with the local market
- The solution is offered to government and enterprise customers

Each ARMZ system relies on the same basic components. The ARMZ mast and its cellular antenna provide wireless service to the cell phones and other communication devices within the coverage area. The mast connects to the ARMZ main unit which hosts all the active electronic equipment necessary. The ARMZ main unit then can be connected to the satellite system or internet LAN connection (whether provided by customer or AT&T). Traffic is then transmitted to the AT&T cellular network.

Tight integration with Agency resources

Because mobile devices require connections to Agency resources and data, MobileIron created an efficient and secure mobile strategy to help connect mobile devices with these resources while enforcing Agency security policies. MobileIron Connected Cloud from AT&T can be integrated with on-premises subscribing Agency systems including Microsoft Exchange, Active Directory and the Agencies' PKI to deliver a cloud-based MDM solution.

5.14.3 MobileIron from AT&T Additional Features

Docs@Work from AT&T

Docs@Work is an end-to-end security solution for both ActiveSync email attachments and SharePoint content. Docs@Work provides secure transport, local storage, viewing, and data wiping. MobileIron Docs@Work also creates a secure content hub on the iPhone or iPad for the end user to access and manage corporate documents utilizing policies, users, roles, groups, and permissions already set in MobileIron.

Web@Work from AT&T

Web@Work Enterprise Mobile Browser enables immediate, secure access to internal websites and web applications, while preserving a native and high-fidelity web browsing experience. Web@Work enables secure web browsing by protecting both data-in-motion and data-at-rest on the device.

AppConnect from AT&T

MobileIron AppConnect containerizes applications to protect application data-at-rest without touching personal data. Each application becomes a secure container whose data is encrypted, protected from unauthorized access, and removable. Because each user has multiple business applications, each application container is also connected to other secure application containers. This allows the sharing of policies like application single sign-on and the sharing of data like documents. All application containers are connected to MobileIron for policy management.

AppTunnel From AT&T

AppTunnel provides secure tunneling and access control to protect application data-in-motion without requiring a VPN. While the MobileIron platform also supports third-party VPNs, many customers do not want to open up VPN access to every application on a device. As an alternative, AppTunnel provides granular, application-by-application session security when connecting each application container to the corporate network.

Atlas (from AT&T) (no-charge option)

Atlas is a proactive advanced management console that provides highly scalable monitoring, troubleshooting, and management for administrators, users, applications, and devices across the Mobile IT lifecycle. The Workspace ONE editions allow organizations to license the technology based on user and endpoint requirements.

The Solution is offered via two editions -- Standard and Advanced -- that are offered in progressive layers to meet a Customer’s specific needs for features and functionality. Recurring charge subscriptions to all cloud editions include a license plus the Application Service Desk ("ASD") Support Plan described below. For perpetual licenses for Cloud editions, an Application Service Desk Support Plan is required and must be purchased separately.

5.20.4.1 Workspace ONE Standard

The Workspace ONE Standard Edition includes the following:

5.20.4.1.1 Mobile Device Management ("MDM")

Mobile Device Management enables broad scale deployment of mobile devices with quick enrollment and easy configuration. Updates are provided over-the-air, and IT administrators can enforce policies, set restrictions, and help to secure devices while in use and if stolen. This Solution supports Android, iOS, Apple Mac OS, Google Chrome, and Windows operating systems from a single console. Customers can manage many functions from a single administrative portal using the same user name and password.

MDM can be deployed to manage both Customer-owned, individually-owned, and shared devices. It enables IT administrators to: gain near real-time visibility into the mobile devices in their environments; administer consistent policies across devices; enforce enterprise security and compliance standards; implement highly secure enterprise Data Loss Prevention (DLP) programs; automate processes and issue trouble resolutions; and analyze and report critical device information.

5.20.4.1.2 Mobile Application Management ("MAM")

Mobile Application Management offers a comprehensive set of services and tools that can be used to provide highly secure delivery, management, and tracking of mobile applications deployed on end users’ devices. MAM supports the management of internal, public, and purchased applications from one central console (the “Console”).

5.20.4.1.3 Container ("Container")

Container separates corporate and personal data on iOS or Android smartphone devices, helping to ensure that Customer resources are highly secure and employee privacy is maintained. Container creates a virtual container on devices where both

VMware and internally developed applications may be viewed inside and outside the Container view but are protected through use of a shared container passcode. Access to the Customer's applications is granted to end users as apps in the container and can be managed by an administrator at the application level rather than the device level.

5.20.4.1.4 App Catalog

App Catalog enables Customers to manage and distribute enterprise applications via the Console. Customers' end users can locate and access applications within the App Catalog based on policy settings established within the Console, which can distribute, update, track and recommend applications in the App Catalog to end users.

5.20.4.1.5 VMware Identity Manager

VMware Identity Manager provides identity management that delivers one-touch access to nearly any app from subscribed devices that is optimized by the conditioned access provided by the Solution. Users have access to a self-service app store, and IT managers have a central place from which to manage user provisioning and access policies that support directory integration, identity federation and user analytics. Features include: (i) Enterprise Single Sign-On ("SSO"), which can be integrated with existing on-premises identity providers to aggregate SaaS ("Software-as-a-Service") and native mobile and Windows 10 apps into a single catalog; (ii) a Self-Service App Store that supports a Customer branded self-service app store, which enables users to subscribe to applications across devices with automated or manual provisioning; and (iii) Identity Management with Adaptive Access, which establishes trust between users, devices and the hybrid cloud, providing conditional access controls.

5.20.4.1.6 Software Development Kit ("SDK")

SDK allows functionality to be applied to Customer developed iOS and Android applications, as well as other VMware applications. Customers can choose to apply profile settings and policies at an Organization Group ("OG") level. These options can be shared across applications located in the OG. Customers can also customize SDK profiles for SDK, App Wrapping, and other VMware applications.

Note: SDK technical support is available directly from VMware and Customers must also agree to the terms and conditions of a separate VMware Software Development Kit License Agreement to use SDK. A copy of the VMware Software Development Kit License Agreement is found at:

https://www.vmware.com/download/eula/horizon_vse_sdk_eula.htmlf

5.20.4.2 Workspace ONE Advanced

The Workspace ONE Advanced includes the Workspace ONE Standard edition plus App Wrapping, Boxer, Browser, Content Locker, and Telecom Management Tools.

5.20.4.2.1 Application Wrapping ("App Wrapping")

App Wrapping allows a Customer to incorporate additional functionality into its developed applications that may reduce or eliminate the need for development or code changes. The process of wrapping an application is initiated directly from the Console. Once an application is wrapped, the Customer can perform a number of administrative actions on the application, including actions to increase security. App Wrapping functionalities include the ability to detect and prevent access to compromised devices; prevent data-loss by disabling the copy and paste, Bluetooth and camera functions (on Android and iOS devices); control devices' ability to access networks based on network type or by service set identifiers ("SSIDs"); control offline access to applications; and redirect traffic using App Tunneling with the Mobile Access Gateway ("MAG") (which requires purchase of MAG Installation Professional Service).

5.20.4.2.2 VMWare Boxer ("Boxer")

Boxer is a fully containerized email management solution for iOS and Android devices. Boxer enables administrators to remotely configure and manage enterprise email accounts while keeping end users' personal and enterprise data separated. It supports Exchange ActiveSync and can be used to encrypt email messages and attachments. Boxer functionalities include the ability to: set a passcode required to access applications; restrict personal accounts from being added to the application; configure usage

restrictions such as disabling copy/paste; restrict hyperlinks to only open in Browser; and provide attachment encryption using Secure Email Gateway (SEG). Android and iOS device requirements for Boxer may be obtained from an AT&T representative.

5.20.4.2.3 VMWare Browser ("Browser")

Browser is a highly secure Internet browsing alternative to native Internet browsers and provides Customers the ability to configure and enforce browsing policies for Internet and Intranet sites without requiring a device-level VPN. Browsing is enabled by utilizing either the Restricted or Kiosk mode. The Restricted Mode limits the device browser's functionality and its ability to access specified web content. It can also apply a blacklist or a whitelist to specific domains, and it supports wildcard entries, which allow Customers to whitelist or blacklist a comprehensive range of URLs. The Kiosk Mode restricts the device browser to a specific home page and disables the navigation bar, which limits navigation to links that appear on the home page.

5.20.4.2.4 VMWare Content Locker ("Content Locker")

Content Locker provides highly secure document distribution and mobile access to Customer documents using mobile applications on users' devices. Content Locker helps protect sensitive content in the highly secure container and provides users a central application they can use to access Customer documents from their mobile devices. Content Locker includes the ability to manage personal files and folders, as well as features such as editing, annotation and commenting capabilities on shared files. The VMware Content Locker Sync™ desktop functionality provides users with two-way synchronization of content between desktops and devices. VMware Content Locker for PCs provides users with highly secure access to corporate content on their personal computers. The web-based self-service portal allows users to add, manage and share personal content. Access to mobile applications is available for use on iOS, Android and Windows devices.

5.20.4.2.5 VMWare Telecom Management Tools ("Telecom")

Telecom includes all the capabilities available in MDM plus advanced capabilities to define users' usage plans, set usage thresholds and enforce compliance policies. Telecom can create telecom usage plans, either per device or by group, and define usage thresholds for voice, SMS and data usage based on plan limits. Compliance policies can be configured around usage thresholds to help prevent users from going over plan limits for voice, SMS and data usage by automatically triggering alerts or removing profiles at specified thresholds.

Hosting of the VMware software is provided by VMware on servers provided by VMware or its hosting suppliers ("Hosting Services"). A description of VMware Hosting Services and responsibilities and liabilities for those services is set forth in the TOS.

5.20.4.3 Professional Services

Professional Services are performed Monday through Friday, 9:00 a.m. to 5:00 p.m., local time. AT&T has attempted to accurately estimate the time required to successfully complete the project. Customer acknowledges and agrees that if impediments, complications, or Customer requested changes in scope arise (the "Changes"), these factors are out of the control of AT&T, and the schedule, services and fees could be impacted. In the event any Change(s) affect the schedule, services and fees, the parties will modify the Customer's Service Agreement accordingly by executing a Change Order form.

All Professional Service meetings are conducted remotely, unless otherwise agreed by the parties. Details regarding each Professional Services meeting can be obtained from an AT&T representative. Each such meeting is subject to a cancellation fee of up to $500.00 if Customer cancels less than 24 hours before the scheduled meeting.

5.20.4.3.1 Basic Installation and Training

AT&T will provide implementation services connected with the purchase of the associated VMware Software Licenses and applicable Hosting Fees. The deployment will be conducted in a Customer hosted environment with integration provided by an existing Mobile Access Gateway. This project includes two meetings.

5.20.4.3.6 Customer Responsibilities Relating to Enterprise Mobility Management ("EMM") Deployment

This section identifies the Customer actions required to prepare for EMM deployment. A brief telephone call is strongly recommended in advance of the installation start date to review server configuration and reach agreement on which specific features should be implemented.

At a high level, these actions include:

- Both virtual and physical servers are supported and must be built to the specifications provided, including all additional Windows features and roles. The VMware installation files must be downloaded directly from VMware and must be available on each server to be incorporated in the VMware Mobile Device Management implementation. Customer must provision the physical server.

- Allocating IP addresses and Fully Qualified Domain Names ("FQDNs") for the platform. The IP addresses and FQDNs must be publicly accessible so mobile devices can access these platforms over the Internet.

- Ensuring access to Domain Name System ("DNS") servers.

- If Lightweight Directory Access Protocol ("LDAP") operation is desired, providing credentials for a system account allowing directory lookups.

- Opening required TCP and UDP ports on the firewall and communicating the necessary details during the pre-installation call with AT&T.

- Acquiring and/or preparing required certificates including the certificate for Apple Push Notification Service ("APNS").

- If using virtual machines ("VMs"), configuring VMs that meet the provided specifications and uploading the VMware installation file(s) to the VM data store(s).

- Providing AT&T's technical consultant remote access to the installation environment.

- Access to the fee based Apple Developer Program is required for the creation of the application signing certificate.

5.20.4.3.7 VMWare Secure Email Gateway ("SEG") Implementation and Configuration

AT&T will install, configure, and test the SEG or configure and test the SEG physical appliance to integrate the appliance with an existing VMware appliance.

5.20.4.3.7.1 VMWare Mobile Access Gateway (MAG) Implementation and Configuration (Optional)

AT&T will remotely configure and integrate one MAG into the VMware environment. Setup will include integration to one or all of the following: (i) internal document repositories and content using the secure Content Locker (SCL); (ii) internal websites using the secure Brower; and (iii) internal web applications with access to internal resources.

5.20.4.3.7.2 VMWare Cloud Connector (VCC) Implementation and Configuration

AT&T will remotely configure and integrate one VCC on the Customer's premise. Setup will include integration to one Active Directory server. Customer is responsible for provisioning a server on its premises in accordance with the configuration checklist to be provided.

5.20.4.3.8 Telecom Professional Services

AT&T will provide implementation services connected with the purchase of Telecom. The deployment will be conducted in an existing VMware hosted environment. This project consists of one meeting conducted.

5.20.4.3.9 Operations Training (Optional)

AT&T will conduct knowledge share and training for Customer's technical staff on the Solution. The engagement is up to five hours in duration. The training is delivered remotely via web conference and includes Customer hands-on configuration of these four features: (i) Boxer container setup: (ii) App Wrapping of one Customer developed application; (iii) secure Browsing; and (iv) Content Locker files on the VMware cloud Platform, as applicable. Presentation Topics that can be selected by the Customer include: User Management; Device Registration and Retirement: Policy Management and Security; Device Configuration Management; and Reports and Logs. AT&T will coordinate the web conference and a pre-call will be set-up with the Customer by AT&T to review the session agenda and logistics. All server software installation must have been completed prior to this training. Software upgrades are not offered with this service.

5.20.4.3.10 Managed Service Health Check (Optional)

AT&T will inspect and review the current state of the VMware EMM platform and validate that the server, software implementation and configuration are consistent with the managed solution platform vendor and AT&T best practices and recommendations. The Health Check is typically delivered remotely over two days by an AT&T Professional Services Consultant. No travel expenses are required or included in this project. No hardware or software installation will be done on the Customer's premises. Any changes in scope that arise from discovery during the Health Check will be addressed via a separate professional service engagement. Included are the following: a methodological review of the existing VMware implementation; a review of platform configurations through inspection of configuration export (.XML) reports and/or the graphical configuration settings within the Console; a review of configuration policy definitions for error and completeness and a review of Device Status (pending, verified and wiped) and documentation of outstanding devices that should be under management. Policies are not reviewed for security efficacy. The following are also excluded: assessment of the state of the identity (Active Directory), collaboration (Exchange), or public key (certificates/SCEP) infrastructures, and implementation of any remediation recommended by the review.

Managed Health Check and System validation is provided remotely by one AT&T consultant. No hardware or software installation will be done on the Customer's premises.

5.20.4.3.11 Certificate Integration (Optional)

AT&T will implement and configure the integration settings to enable VMware to issue certificates to mobile devices from the Customer's Microsoft Certificate authority using the Customer's VMware-supported Public Key Infrastructure integration interface.

5.20.4.3.12 Policy Reviews for Customization (Optional)

Mobility Policy Reviews are available on a custom basis through AT&T Professional Services.

5.20.4.3.13 Advanced Authentication using Certificates and Kerberos Delegation (Optional)

All Professional Service meetings are conducted remotely, unless otherwise agreed by the parties. Details regarding each Professional Services meeting can be obtained from an AT&T representative. Each such meeting is subject to a cancellation fee of up to $500.00 if Customer cancels less than 24 hours before the scheduled meeting.

5.20.4.3.13.1 Service Scope

AT&T will implement and configure the integration settings to enable the Solution to push certificates to mobile devices from a supported interface to the Customer's Certificate Authority. In completing the Certificate Authority integration AT&T will:

- Create one certificate template representing the Customer's desired type of identity certificate
- Define one device policy profile for Exchange ActiveSync auto-configuration using an MDM-pushed identity certificate
- Define one device policy profile for VPN Customer auto-configuration using an identity certificate
- Define one device policy profile for preferred Wi-Fi network auto-configuration using an identity certificate
- Configure the service accounts in Active Directory (User or Computer object) for Kerberos authentication delegation and create service principal names ("SPNs") if necessary
- Configure the email proxy service to request Kerberos delegated credentials on behalf of device users for mailbox access

AT&T will assist with the testing of each device profile on a single supported device.

Diagnosis and remediation of failed test cases to verify that a certificate of the correct type is issued by the Certificate Authority and installed within the device certificate store. The Customer is responsible for any diagnosis or remediation of authentication or authorization failures within the authentication, authorization and accounting ("AAA") infrastructure.

5.20.4.3.14 Application Service Desk ("ASD") Support Plan

The ASD Support Plan is provided by the AT&T Enterprise Mobility Management Services ("EMMS") ASD organization. The components of the ASD Plan include: 24x7x365 technical support, MACD (moves, adds, changes, disconnects) administration, service optimization, and Annual Health Check (optional). MDM Services: Upon completion of MDM Services, the Agency must either sign the acceptance document AT&T presents or provide it within five business days of the service completion date with a notice in writing to AT&T identifying any non-conforming MDM Services. If the Agency fails to provide such notice, the Agency is deemed to have accepted the MDM Services. The

Agency acknowledges that AT&T and the Agency are independent contractors. These MDM services are provided by AT&T remotely. The Agency will in a timely manner allow AT&T remote access as reasonably required for the MDM Services to equipment that the Agency controls. If the Agency requires these services to be performed on-site, additional costs for travel and associated expenses as well as additional terms and conditions may apply. The MDM Services provided shall be performed Monday through Friday, 9:00 a.m. to 5:00 p.m., local time. The mandatory software installation and configuration is estimated to take two days.

If the MDM Services provided in connection with the Virtual Smart Phone (VSP) are more complex than those described in this contract, then a separate statement of work describing the activity and related terms and pricing will be executed. If impediments, complications or Agency-requested changes in scope arise (Changes), the completion schedule, VSP and fees could be impacted. In the event any Change(s) affect the VSP or fees, the parties will modify Customer's order (or statement of work, if applicable) accordingly by executing a Change Order.

6.3 AT&T Mobile Device Deployment Service

6.3.1 On-Boarding

AT&T personnel will collaborate with the subscribing Agency to perform the following on-boarding functions:

- Agreement on spares quantity and order/replenishment processes
- Detail the staging process for replacement devices
- Create Gold Image for device configuration and obtain Customer approval
- Obtain listing of all devices to be covered under service
- Load all devices into internal asset tracking system
- Define the Advanced Exchange processing for devices not covered under the AT&T Extended Device Warranty Service for replacement of lost or stolen devices
- Obtain Customer's shipping account information and desired default shipping method

6.3.2 Extended Device Warranty Service

The Extended Device Warranty Service includes normal use failure and accidental physical damage of covered devices. This warranty provides repair or replacement devices for a two-year period from the purchase date of each subscribed device. The Extended Device Warranty must be purchased at the time a device is purchased or within 30 days thereafter. AT&T will coordinate the repair or replacement process as required. Once repaired or replaced, the devices are restocked into Customer's spares pool maintained by AT&T at AT&T's staging facility.

Features of the Extended Device Warranty Service include the following:

1. Provides coverage for both normal-use failure and accidental damage, including protection from:
    a. Mechanical failures
    b. Drops and spills (including screen damage and water damage)
    c. Integrated battery failures

If a device is not repairable, a refurbished or new like-model replacement device is provided

Items not covered:

a. Lost or stolen devices
b. Accessories
c. Software issues or data, including viruses, spyware, lost of corrupted data or programs

Note: Extended Device Warranty must be purchased with the Advanced Exchange Service.

6.3.3 Advanced Exchange Service

AT&T's Advanced Exchange Service facilitates the shipment of replacement devices to end users whose devices are lost, stolen, damaged or otherwise need repair. The service includes provisions for repair or replacement devices to cover accidental physical damage of covered devices. This service option requires the subscribing Agency to order and purchase an additional 2.5% of devices (or a minimum of 5 devices per device type, whichever is greater). These additional devices are stocked in a spares pool and held, at AT&T's risk, in inventory at a secure AT&T staging facility location dedicated to the subscribing Agency. The service is carrier agnostic and the provision of transport services is not included in the offer.

AT&T will maintain a copy of the current baselined configuration requirements for the subscribing Agency's devices (called a "Gold Image") which is used to stage replacement devices. The Gold Image is mutually agreed upon by the subscribing Agency and AT&T during the on-boarding process. Upon the subscribing Agency's request, AT&T will load, test and ship a stored device to the end user and location designated by the subscribing Agency.

AT&T provides a Service Desk dedicated to handling Advanced Exchange requests Monday through Friday from 6am to 7pm Central Standard Time (CST), excluding AT&T designated holidays. AT&T will ship the configured replacement device within 24 hours of the request using overnight delivery or next day delivery. Specific activities performed in connection with Advanced Exchange service include the following:

- Maintenance of a current copy of the Gold Image configuration
- Activation of the device on behalf of the subscribing Agency
- Porting the telephone number from a lost, stolen or damaged device to the replacement device and/or providing a SIM swap option or porting instructions, if necessary
- Testing replacement device for connectivity
- Configuring replacement device based on approved Gold Image
- Quality assurance testing for compliance with base-lined Gold Image
- Shipping the device to the address specified by the subscribing Agency at the initiation of the replacement request
- Including a prepaid shipping label for the end user to return the damaged device to the AT&T Staging Facility (if applicable) using the same box and prepaid label (subscribing Agency's shipping account will be charged for shipment of the device and the return label)
- Coordinating the repair or replacement of damaged devices with the manufacturer warranty, outside service, or AT&T's Extended Device Warranty for hardware replacement or repair
- Collecting and updating asset data and tracking information

The subscribing Agency is responsible for replenishing devices in the spares pool when the stocked quantity has dropped below the agreed-upon threshold that is determined in the on-boarding process. A process for automatic replenishment or Agency-approved replenishment will be agreed upon during the on-boarding process.

AT&T Fleet Manager consists of securing a small telematics/GPS tracking hardware unit underneath the dashboard or another hidden location in a truck or other vehicle where it can optionally connect securely to on-board electronic systems (e.g., ODBII / JBUS / CANbus).

This locator hardware is equipped with a combination GPS (satellite) antenna for location identification and GSM/GPRS wireless data antenna. The unit also uses an AT&T SIM card to establish the protocol for connecting to AT&T's cellular network. GPS location information, on-board vehicle computer information and other inputs are transmitted via the AT&T Mobility packet data network to a hosted server, where they are presented to the customer in a variety of formats and reports.

AT&T Fleet Manager's vehicle management system dynamically measures and reports both the status of a vehicle's performance and its geographic location. Once installed in a vehicle, AT&T Fleet Manager collects data from a host vehicle's on-board computer and systems, and location information from a global positioning system (GPS). It then transmits this data over the AT&T Mobility data network to a reporting server hosted and managed by WebTech (satellite connectivity for areas where

there is not sufficient GPRS connectivity is available as an add-on option). The computer system analyzes the data and posts the results on a secure website, so that a fleet manager can access 24/7 from any computer with Internet access.

INFORMATION FOR ORDERING ACTIVITIES
APPLICABLE TO ALL SPECIAL ITEM NUMBERS

SPECIAL NOTICE TO AGENCIES
Small Business Participation

SBA strongly supports the participation of small business concerns in the Federal Acquisition Service. To enhance Small Business Participation SBA policy allows agencies to include in their procurement base and goals, the dollar value of orders expected to be placed against the Federal Acquisition Schedules, and to report accomplishments against these goals.

For orders exceeding the micropurchase threshold, FAR 8.404 requires agencies to consider the catalogs/pricelists of at least three schedule contractors or consider reasonably available information by using the GSA Advantage!® on-line shopping service (www.fss.gsa.gov). The catalogs/pricelists, GSA Advantage!® and the Federal Acquisition Service Home Page (www.fss.gsa.gov) contain information on a broad array of products and services offered by small business concerns.

This information should be used as a tool to assist ordering activities in meeting or exceeding established small business goals. It should also be used as a tool to assist in including small, small disadvantaged, and women-owned small businesses among those considered when selecting pricelists for a best value determination.

For orders exceeding the micropurchase threshold, customers are to give preference to small business concerns when two or more items at the same delivered price will satisfy their requirement.

General Terms and Conditions

General Terms and Conditions Version 4.8 January 10, 2011

1. Service.

1.1 AT&T Markets. Service is available for purchase only in AT&T Markets, as may be modified by AT&T from time to time.

1.2 Availability/Interruption. Service will be available only within the operating range of each Carrier's wireless system in AT&T Markets and where roaming is available through other carriers (each, a "Service Area"). AT&T may from time to time add or delete Service Areas, and AT&T may terminate Service to Customer's CRU(s) in any such deleted Service Area and/or terminate the Agreement if the Service Area deletion affects all of Customer's CRUs. Gaps in Service occur within the Service Areas shown on coverage maps, which, by their nature, are only approximations of actual coverage; therefore, AT&T does not guarantee Customer uninterrupted Service. Unless prohibited by law, Service may be interrupted, delayed or otherwise limited for a variety of reasons, including environmental conditions, unavailability of radio frequency channels, system capacity, priority access by National Security and Emergency Preparedness personnel in the event of a disaster or emergency, coordination with other systems, equipment modifications and repairs, and problems with the facilities of interconnecting carriers. AT&T may block access to certain categories of numbers (e.g., 976, 900 and international destinations) at its sole discretion. In addition, AT&T may interrupt or terminate Service without notice: (a) for any conduct that AT&T believes violates this Agreement or any terms and conditions of Customer's Plan; (b) if Customer's representative or CRU behaves in an abusive, derogatory, or similarly unreasonable manner with any of AT&T's representatives; (c) for Customer's nonpayment of charges, provision of inaccurate credit information, and/or refusal to pay any requested advance payment or deposit when AT&T believes that Customer's credit has deteriorated; or (d) if AT&T has reasonable cause to believe that Customer's Equipment is being used for an unlawful purpose or in a way that (i) is harmful to, interferes with, or may adversely affect the Service, AT&T's owned network or the network of any other provider, (ii) interferes with the use or enjoyment of Services received by other customers, (iii) infringes intellectual property rights, (iv) results in the publication of threatening or offensive material, or (v) constitutes spam or other abusive messaging or calling, a security risk or a violation of privacy.

2. Plans and Sales Information. Customer may choose from Voice Service and Wireless Data Service Plans found at the "Plans" page of the Program Website, as may be modified by AT&T from time to time. The pricing, terms and conditions of the Service depend upon the Plan, feature, promotion or other offer (including, without limitation, any Supplemental Service) selected when Service is activated or changed. Certain terms and conditions are set forth in the Enterprise Customers: Additional Service and Equipment Related terms found at att.com/abs-addtl-Terms; product-specific pricing and/or additional product-specific Terms and conditions are set forth in separate product briefs and rate brochures, at wireless.att.com/business center, and/or in other AT&T marketing materials. Such Enterprise Customers: Additional Service and Equipment Related Terms and other online and printed product materials are referred to collectively in the Agreement as "Sales Information" and incorporated herein by reference. End Users must qualify for the chosen Service. If End Users lose their eligibility for a particular rate plan, AT&T may change their rate plan to one for which they qualify. Customer can contact its AT&T representative for copies of the Sales Information. Service (including without limitation, eligibility requirements, Plans, pricing, features, promotions, offers, and/or Service Areas) are subject to change without notice. Any provisions in the Terms and conditions governing the Plan, feature, promotion or other offer which, by their Terms, are to exist for a specified period of time, will survive any termination or expiration of this Agreement.

3. Equipment.

3.1 Availability. With respect to Numbers provisioned from AT&T Markets, Customer may purchase available Equipment found at the "Equipment" page of the Program Website, the list of which -2- may be modified by AT&T from time to time. Specific models of Equipment are subject to availability limitations.

3.2 General. Customer is responsible for all phones and other Equipment containing a SIM assigned to Customer and/or its CRUs under Customer's account. Equipment must be compatible with, and not interfere with, the Service and must comply with all applicable laws, rules, and regulations. Customer is responsible for the purchase and maintenance of any additional hardware, software and/or Internet access from PCs required to use the Service. Equipment not purchased from AT&T or its authorized distributors (a) may not provide some or all of the features included in the Service; and (b) may not allow use of features and functions when off of AT&T's wireless network, including those that work while on AT&T's wireless network, and CALLS TO 911 MAY NOT GO THROUGH ON ANY NETWORK. AT&T may periodically program Customer's Equipment remotely with system settings for roaming service, to direct Customer's Equipment to use network services most appropriate for Customer's CRUs' typical usage, and other features that cannot be changed manually. Equipment purchased for use on AT&T's system is designed for use exclusively on AT&T's system. Customer agrees that Customer and/or its CRUs won't make any modifications to the Equipment or programming to enable the Equipment to operate on any other system. AT&T may, at its sole

and absolute discretion, modify the programming to enable the operation of the Equipment on other systems. Customer is solely responsible for complying with U.S. Export Control laws and regulations and the import laws and regulations of foreign countries when CRUs are traveling internationally with Customer's Equipment. Call timers included in the Equipment are not an accurate representation of actual billed usage.

3.3 Shipping, Title and Risk of Loss. Subject to availability, and AT&T's receipt of complete order information, AT&T will ship Equipment ordered by Customer and/or its End Users to the address specified in the order within two (2) to five (5) business days of AT&T's receipt of the order. Title and risk of loss will pass to Customer upon delivery of the Equipment to the address specified in the order.

4. Activation and Other Processes.

4.1 Service and Equipment. Customer will follow the policies and processes established by AT&T to activate, migrate, terminate, or otherwise modify Service or to purchase Equipment, as may be modified from time to time. Customer authorizes AT&T to provide information about and to make changes to Customer's account, including adding new Service, upon the direction of any individual representative of Customer able to provide information AT&T deems sufficient to identify Customer. Any order for Service and/or Equipment that Customer's representative submits to AT&T will be binding upon Customer pursuant to the terms and conditions of this Agreement. AT&T may reasonably rely on the authority of any person who executes an order on Customer's behalf. Customer consents to the use by AT&T or its authorized agents of regular mail, predictive or autodialing equipment, email, text messaging, facsimile or other reasonable means to contact Customer and/or its CRUs to advise Customer and/or its CRUs about AT&T's Services or other matters AT&T believes may be of interest to Customer and its CRUs. In any event, AT&T reserves the right to contact Customer and/or its CRUs by any means regarding customer service-related notifications, or other such information.

4.2 Additional Products, Services, Equipment, and Programs. AT&T may make additional products, services, Equipment and/or programs available to Customer. To the extent Customer orders, pays for, or otherwise receives the benefit of any products, services, Equipment and/or programs, Customer will be bound by the terms and conditions of their respective Attachments found in the "Additional Products, Services, Equipment and Programs" section of the Program Website, as such terms and conditions may be modified by AT&T from time to time, all of which are incorporated herein by reference.

4.3 Identification and Password. Before Customer may use certain AT&T online activation, enrollment, configuration and/or support services, an authorized representative of Customer must register with AT&T and create a login identification ("ID") and password. Use of this login ID and password will -3- enable Customer and/or its employees and agents to make certain changes to Customer's and/or CRUs' account(s). Customer is solely responsible for maintaining adequate security and control of any and all IDs, passwords, or any other codes that are created by Customer, or issued to Customer by AT&T, for purposes of giving Customer access to activation, enrollment, configuration and support services. AT&T is entitled to rely on information it receives from Customer or its agents and may assume that all such information was submitted by or on behalf of Customer.

4.4 Supplemental Services. Customer may from time to time subscribe to services, features or software applications provided by third parties including, but not limited to, (a) operator services, (b) loss protection, (c) fleet tracking, field service, sales force automation and other software-based features and applications, and (d) messaging, email, email forwarding or other server software-based services (collectively, "Supplemental Services"). Customer acknowledges that access to such Supplemental Services typically requires a separate licensing or other agreement between Customer and the third party and that Customer is also subject to the terms and conditions of that agreement.

5. Payment and Charges.

5.1 Payment. Customer must pay all charges, including, without limitation, airtime, roaming, recurring monthly service, activation, optional feature charges, license fees, toll, collect call and directory assistance charges, Equipment, Supplemental Services, and any other charges or calls billed to a CRU's phone number. Customer may be billed for multiple types of usage simultaneously. Customer must also pay Taxes (as defined below), administrative and late payment fees, restoral and reactivation charges, and any Regulatory Cost Recovery Fee and other surcharges. For any termination (including when a Number is switched to another carrier), Customer will be responsible for payment of all fees and charges through the end of the billing cycle in which termination occurs. Payment is due upon receipt of the invoice.

5.1.1 Taxes. Taxes include any applicable sales, public utilities, gross receipts, or other taxes, surcharges, fees and assessments imposed by governments (regardless of whether they are imposed on Customer, CRU, AT&T or a Carrier) including, without limitation, assessments to defray costs for government programs such as universal connectivity, enhanced 911 service, local number portability, and number pooling relating to Service, Equipment, goods or services purchased, and/or the wireless network. Customer understands and agrees that State and Federal Universal Service Fees and other governmentally

imposed fees, whether or not assessed directly upon Customer, may be increased based upon the government's or AT&T's calculations.

5.1.2 Regulatory Cost Recovery Charge. In addition to other charges, AT&T may assess a Regulatory Cost Recovery Charge, which is a monthly charge with respect to each CRU, that is created, assessed and collected by AT&T to help defray AT&T's costs incurred in complying with State and Federal telecom regulation; State and Federal Universal Service charges; and surcharges for customer-based and revenue-based State and local assessments on AT&T. These are not taxes or government-required charges. AT&T may change the amount of the Regulatory Cost Recovery Charge without notice.

5.2 Charges.

5.2.1 Generally. If Equipment is shipped to Customer or a CRU, Services may be activated before delivery of the Equipment so that it can be used promptly upon receipt. Thus, Customer may be charged for Services while the Equipment is still in transit. Except as provided below, monthly service and certain other charges are billed one month in advance, and there is no proration of such charges if Service is terminated on other than the last day of the applicable billing cycle. Monthly service and certain other charges are billed in arrears if Customer is a former customer of AT&T Wireless and maintain uninterrupted service on select Plans; however, if Customer elects to receive invoices for Service combined with Customer's wireline phone bill (where available), Customer will be billed in advance as provided above. Unless otherwise provided in the corresponding Sales Information, if a -4- selected Plan includes a predetermined allotment of services (e.g., a predetermined amount of airtime, data, megabytes or text messages), any unused allotment of such services from one billing cycle will not carry over to any other billing cycle. AT&T may bill Customer in a format as AT&T determines from time to time. Additional charges may apply for additional copies of invoices, or for detailed information about Customer's usage of Services. All data and messaging allowances must be used in the billing period in which the allowance is provided. Billing of usage for calls, messages, data or other services (such as usage when roaming on other carriers' networks, including internationally) may occasionally be delayed. Such usage charges may appear in a later billing cycle, will be deducted from Anytime monthly minutes or other Service allotments for the month when the usage is actually billed, and may result in additional charges for that month. Those minutes will be applied against Customer's Anytime monthly minutes in the month in which the calls appear on Customer's bill. Customer also remains responsible for paying the monthly service fee if Service is suspended for nonpayment. AT&T may require payment by money order, cashier's check, or a similarly secure form of payment at AT&T's discretion. Billing cycle end dates may change from time to time. When a billing cycle covers less than or more than a full month, AT&T may make reasonable adjustments and prorations. Service charges may differ by Service Area. Services, Equipment and Supplemental Services may incur charges in a different manner than set forth herein, and AT&T will advise Customer of any such differences in the corresponding Attachment and/or Sales Information. Certain Supplemental Services and non-stocked Equipment may be billed to Customer's or its CRUs' invoices, as applicable, by AT&T on behalf of the third party provider pursuant to the terms and conditions of AT&T's Alliance Billing Service Attachment found at the Program Website. AT&T will advise Customer when the Alliance Billing Service applies.

5.2.2 Voice Service Charges. AIRTIME AND OTHER MEASURED USAGE ("CHARGEABLE TIME") IS BILLED IN FULL-MINUTE INCREMENTS, AND ACTUAL AIRTIME AND USAGE ARE ROUNDED UP TO THE NEXT FULL-MINUTE INCREMENT AT THE END OF EACH CALL FOR BILLING PURPOSES. AT&T CHARGES A FULL MINUTE OF AIRTIME USAGE FOR EVERY FRACTION OF THE LAST MINUTE OF AIRTIME USED ON EACH WIRELESS CALL. UNLESS OTHERWISE PROVIDED IN THE SALES INFORMATION FOR A PARTICULAR PLAN OR FEATURE, MINUTES WILL BE DEPLETED ACCORDING TO USAGE IN THE FOLLOWING ORDER: NIGHT AND WEEKEND MINUTES, MOBILE TO MOBILE MINUTES, ANYTIME MINUTES AND ROLLOVER, EXCEPT THAT MINUTES THAT ARE PART OF BOTH A LIMITED PACKAGE AND AN UNLIMITED PACKAGE WILL NOT BE DEPLETED FROM THE LIMITED PACKAGE. Chargeable Time begins for outgoing calls when pressing SEND (or similar key) and for incoming calls when a signal connection from the caller is established with AT&T's facilities. Chargeable Time ends after pressing END (or similar key), but not until the Equipment's signal of call disconnect is received by AT&T's facilities and the call disconnect signal has been confirmed. All outgoing calls on AT&T's wireless network for which AT&T's systems receive answer supervision or which have at least thirty (30) seconds of airtime or other measured usage shall incur a minimum of one (1) minute airtime charge. Answer supervision is generally received when a call is answered; however, answer supervision may also be generated by voice mail systems, private branch exchanges, and interexchange switching equipment. Chargeable Time may (a) include time for AT&T to recognize that only one party has disconnected from the call, time to clear the channels in use, and ring time, and (b) occur from other uses of AT&T's facilities, including by way of example, voice mail deposits and retrievals, and call transfers. Calls that begin in one rate period and end in another rate period may be billed in their entirety at the rates for the period in which the call began.

5.2.3 Wireless Data Service Charges. DATA TRANSPORT IS CALCULATED IN FULL-KILOBYTE INCREMENTS, AND ACTUAL TRANSPORT IS ROUNDED UP TO THE NEXT FULL-KILOBYTE INCREMENT AT THE END OF EACH DATA SESSION FOR BILLING PURPOSES. AT&T CALCULATES A FULL KILOBYTE OF DATA TRANSPORT FOR EVERY FRACTION OF THE LAST KILOBYTE OF DATA TRANSPORT USED ON EACH DATA SESSION. TRANSPORT IS BILLED

EITHER BY THE KILOBYTE ("KB") OR MEGABYTE ("MB"). IF BILLED BY MB, THE FULL KBs CALCULATED FOR EACH DATA SESSION DURING THE BILLING PERIOD ARE TOTALED AND ROUNDED UP TO NEXT FULL MB INCREMENT TO DETERMINE BILLING. IF BILLED BY KB, THE FULL KBs CALCULATED FOR EACH DATA SESSION DURING THE BILLING PERIOD ARE TOTALED TO DETERMINE BILLING. NETWORK OVERHEAD, SOFTWARE UPDATE REQUESTS, EMAIL -5- NOTIFICATIONS AND RESEND REQUESTS CAUSED BY NETWORK ERRORS CAN INCREASE MEASURED KILOBYTES. Utilizing compression solutions may or may not impact the amount of kilobytes calculated for data transport. For Wireless Data Service that permits Voice Service usage at pay per use rates, airtime and other measured usage will be billed in full minute increments and rounded up to the next full minute increment at the end of each call. Customer is responsible for all Wireless Data Service usage sent through AT&T's wireless network and associated with Equipment regardless of whether the Equipment actually receives the information. Network overhead, software update requests, and resend requests caused by network errors can increase measured kilobytes. Data sent and received includes, but is not limited to, downloads, email, overhead and software update checks. If Customer or a CRU chooses to connect Equipment to a PC for use as a wireless modem, standard Wireless Data Service charges will apply in accordance with the corresponding Plan. Wireless Data Service usage is compiled as often as once per hour or only once every 24 hours. AT&T's system will then create a billing record representing (a) the Wireless Data Service usage for each data gateway or service accessed (e.g. WAP, RIM) while on AT&T's wireless network; (b) the usage for each Carrier's domestic network; and (c) the Wireless Data Service usage for each international network. In some situations billing for Wireless Data Service usage may be delayed; any delayed usage will create additional billing records for the actual day of the usage. Usage on networks not owned by AT&T is limited as provided in Customer's Wireless Data Service Plan. Unless designated for international or Canada use, Plan prices and included use apply only to EDGE/GPRS and BroadbandConnect access and use on AT&T's wireless network and its roaming partners' wireless networks within the United States and its territories (Puerto Rico and the U.S. Virgin Islands), excluding areas within the Gulf of Mexico.

5.3 Software. Any software licensed separately by AT&T to Customer and/or its CRUs for use with the Service will be governed by the written terms and conditions applicable to such software. Title to software remains with AT&T or its supplier. Customer must comply with all such terms and conditions and they take precedence over this Agreement as to such software. For the avoidance of doubt, software referred to herein does not include Software (as defined in the Sales Information found at att.com/abs-addtl-terms) or any Supplemental Service.

5.4 Disputed Charges. Except as otherwise provided by law with respect to unauthorized charges, disputed charges must be disputed to AT&T in writing within six (6) months after the date of the affected invoice, or the right to dispute is waived. In the event of a disputed invoice, Customer will pay the entire undisputed amount of the invoice. AT&T, Customer and Carriers will use their good faith efforts to reconcile the dispute within sixty (60) days of submission of the dispute to AT&T.

5.5 Late Payment Fee. Late payment charges are based on the state to which the area code of the first Number assigned to Customer's billing account is assigned by the North American Numbering Plan Administration (for area code assignments, see nationalnanpa.com/area_code_maps). Customer will pay AT&T a late payment fee equal to the lesser of up to 1.5% per month (prorated daily) of any amount not paid by the due date, or the highest amount allowed by applicable state law or tariff; provided, however, that, with respect to amounts not paid by Customer in accordance with §5.4 above, AT&T and Customer agree that the late payment fee will accrue on the unpaid disputed amount as set forth above during the dispute resolution process but that Customer will only be liable for the late payment fee to the extent the dispute is resolved in favor of AT&T. In the event Customer fails to pay billed charges when due and it becomes necessary for AT&T to refer Customer's account(s) to a third party for collection, AT&T will charge a collection fee at the maximum percentage permitted by applicable law, but not to exceed 18% to cover the internal collection-related costs AT&T has incurred on such account(s) through and including the date on which AT&T refers the account(s) to such third party.

5.6 Advance Payments and/or Deposits. AT&T may require Customer to make deposits or advance payments for Service, which AT&T may offset against any unpaid balance on Customer's account. Interest won't be paid on advance payments or deposits unless required by law. AT&T may require additional advance payments or deposits if AT&T determines that the initial payment was inadequate. Based on Customer's creditworthiness as AT&T determines it, AT&T may establish a credit limit and restrict Service. If Customer's account balance goes beyond the limit AT&T set for Customer, -6- AT&T may immediately interrupt or suspend Service until Customer's balance is brought below the limit. Any charges incurred by Customer's CRUs' in excess of Customer's limit become immediately due. If Customer has more than one account with AT&T, Customer must keep all accounts in good standing to maintain Service. If one account is past due or over its limit, all accounts in Customer's name are subject to interruption or termination and all other available collection remedies. AT&T will charge Customer up to $30 (depending on applicable law) for any check or other instrument (including credit card charge backs) returned unpaid for any reason.

6. Default, Termination, Cure and Remedies.

6.1 Default and Termination. If either party fails to perform or observe any material term or condition of this

Agreement, then such party will be in default of the Agreement, and the non-defaulting party may terminate the Agreement in accordance with the terms and conditions of §6.2 below.

6.2 Notice and Opportunity to Cure. The party seeking to terminate the Agreement under §6.1 above must notify the defaulting party in writing at least thirty (30) days prior to the proposed termination date. This written notice must specify the default(s) giving rise to the right to terminate the Agreement, and must specify a proposed termination date. The defaulting party will have thirty (30) days in which to cure the default(s), unless such cure period is extended by agreement of the parties. If the default is not cured within this thirty (30) day cure period or any extension thereof, then the Agreement will automatically terminate at the close of business on the termination date specified in the written notice or any agreed extension.

6.3 Termination for Deletion of Service Area. If the deletion of any Service Area materially reduces the Service provided to Customer hereunder, then Customer, within thirty (30) days of the effective date of the Service Area deletion, must notify AT&T in writing of its intent to terminate. Such written notice must specify the material Service Area deletion and must specify a proposed termination date no earlier than thirty (30) days from the date of the notice.

6.4 Remedies. Upon termination for any reason, the parties may seek any remedies available at law or in equity, and Customer will pay to AT&T all amounts incurred hereunder as of the termination date, including any Cancellation Fee(s). If the Agreement includes a Termination Charge in lieu of Cancellation Fees, then (a) upon termination resulting from Customer's default under §6.1 above, Customer must pay AT&T the Termination Charge; and (b) upon termination resulting from AT&T's default under §6.1 above or upon termination under §6.3 above, Customer will not be required to pay the Termination Charge. In addition, Customer will pay to AT&T all collection costs and expenses, including reasonable attorneys' fees and costs, incurred by AT&T in exercising any of its rights and remedies when enforcing any provisions of this Agreement.

7. DISCLAIMERS AND LIMITATIONS OF LIABILITY.

7.1 Disclaimer of Warranties. AT&T MAKES NO REPRESENTATIONS OR WARRANTIES, EXPRESS OR IMPLIED, AND SPECIFICALLY DISCLAIMS ANY REPRESENTATION OR WARRANTY OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, TITLE, NON-INFRINGEMENTOR ANY WARRANTY ARISING BY USAGE OF TRADE OR COURSE OF DEALING. FURTHER, AT&T MAKES NO REPRESENTATION OR WARRANTY THAT WIRELESS CALLS OR OTHER TRANSMISSIONS WILL BE ROUTED OR COMPLETED WITHOUT ERROR OR INTERRUPTION (INCLUDING CALLS TO 911 OR ANY SIMILAR EMERGENCY RESPONSE NUMBER), OR GUARANTEE REGARDING NETWORK SECURITY, THE ENCRYPTION EMPLOYED BY ANY SERVICE, EQUIPMENT OR SUPPLEMENTAL SERVICE, THE INTEGRITY OF ANY DATA THAT IS SENT, BACKED UP, STORED OR SUBJECT TO LOAD BALANCING, OR THAT AT&T'S SECURITY PROCEDURES WILL PREVENT THE LOSS OR ALTERATION OF, OR IMPROPER ACCESS TO, CUSTOMER'S DATA AND INFORMATION. AT&T DOES NOT AUTHORIZE ANYONE TO MAKE A WARRANTY OF ANY KIND ON ITS BEHALF, AND CUSTOMER SHOULD NOT RELY ON ANYONE MAKING SUCH STATEMENTS. AT&T IS NOT THE MANUFACTURER OF EQUIPMENT -7- PURCHASED BY OR PROVIDED TO CUSTOMER IN CONNECTION WITH USE OF THE SERVICE AND/OR SUPPLEMENTAL SERVICE.

7.2 Limitation of Liability.

(a) AT&T'S ENTIRE LIABILITY, AND CUSTOMER'S EXCLUSIVE REMEDY, FOR DAMAGES ARISING OUT OF MISTAKES, OMISSIONS, INTERRUPTIONS, DELAYS, ERROR OR DEFECTS IN THE SERVICE OR SUPPLEMENTAL SERVICE THAT LAST MORE THAN TWENTY-FOUR (24) HOURS, AND NOT CAUSED BY CUSTOMER'S NEGLIGENCE, WILL IN NO EVENT EXCEED THE RECURRING SERVICE CHARGES FOR THE PERIOD DURING WHICH SUCH MISTAKE, OMISSION, INTERRUPTION, DELAY, ERROR OR DEFECT OCCURS AND CONTINUES. IN NO EVENT SHALL AT&T BE LIABLE TO CUSTOMER FOR ANY DAMAGES ARISING OUT OF MISTAKES, OMISSIONS, INTERRUPTIONS, DELAYS, ERROR OR DEFECTS THAT LAST LESS THAN TWENTY FOUR (24) HOURS.

(b) §7.2(a) WILL NOT APPLY TO:
   (i) BODILY INJURY, DEATH, OR DAMAGE TO REAL OR TANGIBLE PROPERTY DIRECTLY CAUSED BY AT&T'S NEGLIGENCE;
   (ii) BREACH OF §12 (Publicity and Advertising) OR §13.6 (Confidential Information); OR
   (iii) DAMAGES ARISING FROM AT&T'S GROSS NEGLIGENCE OR WILLFUL MISCONDUCT.

(c) NEITHER AT&T NOR CUSTOMER WILL BE LIABLE TO THE OTHER PARTY FOR ANY INDIRECT, INCIDENTAL, CONSEQUENTIAL, PUNITIVE, RELIANCE, OR SPECIAL DAMAGES, INCLUDING, WITHOUT LIMITATION, DAMAGES FOR LOST PROFITS, ADVANTAGE, SAVINGS OR REVENUES, OR INCREASED COST OF OPERATIONS.

7.3 Disclaimer of Liability. AT&T WILL NOT BE LIABLE FOR ANY DAMAGES, EXCEPT TO THE EXTENT CAUSED BY AT&T'S GROSS NEGLIGENCE OR WILLFUL MISCONDUCT, ARISING OUT OF OR RELATING TO: INTEROPERABILITY, ACCESS OR INTERCONNECTION OF THE SERVICE, EQUIPMENT OR SUPPLEMENTAL SERVICE WITH APPLICATIONS, EQUIPMENT, SERVICES, CONTENT OR NETWORKS PROVIDED BY CUSTOMER OR THIRD PARTIES; SERVICE DEFECTS, SERVICE LEVELS, DELAYS OR INTERRUPTIONS (EXCEPT FOR LIABILITY FOR SUCH EXPLICITLY SET FORTH IN THIS AGREEMENT); ANY INTERRUPTION OR ERROR IN ROUTING OR COMPLETING CALLS OR OTHER TRANSMISSIONS (INCLUDING 911 CALLS OR ANY SIMILAR EMERGENCY RESPONSE NUMBER); LOST OR ALTERED MESSAGES OR TRANSMISSIONS; OR UNAUTHORIZED ACCESS TO OR THEFT, ALTERATION, LOSS, OR DESTRUCTION OF CUSTOMER'S, ITS AFFILIATE'S, END USERS', OR THIRD PARTIES' APPLICATIONS, CONTENT, DATA, PROGRAMS, INFORMATION, NETWORK, OR SYSTEMS.

7.4 Application and Survival. The disclaimer of warranties and limitations of liability set forth in this Agreement will apply regardless of the form of action, whether in contract, equity, tort, strict liability or otherwise and whether damages were foreseeable, and will apply so as to limit the liability of AT&T, Customer and their respective Affiliates, employees, directors, subcontractors, and suppliers. The limitations of liability and disclaimers set out in this §7 will survive failure of any exclusive remedies provided in this Agreement.

8. Force Majeure. Except for payment of amounts due, neither party will be liable for any delay, failure in performance, loss or damage due to fire, explosion, cable cuts, power blackout, earthquake, flood, strike, embargo, labor disputes, acts of civil or military authority, war, terrorism, acts of God, acts of a public enemy, acts or omissions of carriers or suppliers, acts of regulatory or governmental agencies, or other causes beyond such party's reasonable control.

9. Arbitration. The parties agree to exercise their best efforts to settle any dispute arising out of or related to this Agreement through good faith negotiation. Any dispute arising out of or related to this Agreement that cannot be resolved by negotiation shall be resolved by binding arbitration administered by the American Arbitration Association ("AAA") under its Commercial Arbitration Rules in effect at the time that a dispute is submitted for resolution (the "Rules"), as modified by this Agreement. Judgment on the award rendered by the arbitrator(s) may be entered in any court having jurisdiction thereof. Such arbitration shall be held in New York, New York. The parties shall, within (twenty) 20 days of the issuance of a written notice of intent to arbitrate, as provided by the Rules, jointly select one (1) independent arbitrator licensed to practice law and familiar with the wireless telecommunications industry. If the parties cannot agree on an arbitrator within the specified 20-day period, then the selection shall promptly be made by the AAA in accordance with the Rules and the criteria set forth above. This Agreement evidences a transaction in interstate commerce, and thus the Federal Arbitration Act, 9 U.S.C. § 1, et seq, governs the interpretation and enforcement of this provision. In the event of a conflict between the FAA and the Rules, the FAA shall govern. In no event shall the arbitrator have the authority to make any award that is in excess of or contrary to what the Agreement provides. THE PARTIES AGREE THAT EACH MAY BRING CLAIMS AGAINST THE OTHER ONLY IN ITS INDIVIDUAL CAPACITY AND NOT AS A PLAINTIFF OR CLASS MEMBER IN ANY PURPORTED CLASS OR REPRESENTATIVE PROCEEDING. Furthermore, unless both parties agree otherwise, the arbitrator may not consolidate more than one person's claims, and may not otherwise preside over any form of a representative or class proceeding. If this specific proviso is found to be unenforceable, then the entirety of this arbitration provision shall be null and void.

If Customer is a Puerto Rico customer and AT&T cannot resolve the issue, in addition to binding arbitration, Customer may notify the Telecommunications Regulatory Board of Puerto Rico of the grievance. Mail: 500 Ave Roberto H. Todd, (Parada 18), San Juan, Puerto Rico 00907-3941-; Phone: 1-787-756-0804 or 1-866-578-5500; Online: jrtpr.gobierno.pr, in addition to using binding arbitration or small claims court to resolve the dispute.

10. No Class Actions. All claims between AT&T and Customer related to this Agreement will be litigated individually, and Customer will not consolidate or seek class treatment for any claim unless previously agreed to in writing by AT&T.

11. Use of Service.

11.1 Changes to Numbers. Except as otherwise provided by law, Customer has no property rights to any Number and AT&T may change any such Number.

11.2 Fraud Prohibited. Customer and its respective CRUs and IRUs (if applicable) will not use or assist others to use the Service or Equipment for any unlawful, unauthorized, abusive or fraudulent purpose. If Customer's Equipment is lost or stolen, Customer and/or its CRUs can report the Equipment as lost or stolen and suspend Service without a charge by contacting AT&T at the phone number listed on the monthly invoice or at wireless.att.com. Customer is responsible for all charges incurred until Customer or its CRU reports the theft or loss to AT&T except as otherwise provided by law, and Customer remains responsible for complying with all other obligations under this Agreement including, but not limited to, paying the Monthly Service Charge while the Equipment is suspended. Any Carrier may cancel Service to any Number if AT&T or that Carrier believes the Number

is being used in an unlawful, abusive or fraudulent manner. Before a Carrier cancels any Service under this paragraph, the Carrier will attempt to give Customer notice of its intent to cancel. In the event Customer instructs the Carrier to retain Service, Customer will be responsible for paying all charges, authorized, unauthorized or fraudulent, associated with such Number, including but not limited to charges incurred by any clone or duplication of that Number; provided, however, that Customer will not be liable for IRUs' charges under any such circumstance. Additionally, Customer agrees to adopt, at no additional charge to Customer, any reasonable fraud prevention or fraud reduction processes or products recommended by AT&T or, if not adopted by Customer, to be responsible for any unauthorized charges on Numbers which do not adopt such processes or products.

11.3 Acceptable Use; Restrictions Regarding Service. All use of AT&T's wireless network and Service is governed by AT&T's Acceptable Use Policy, which can be found at att.com/AcceptableUsePolicy,

11.4 Ownership. AT&T owns or leases the exclusive rights to the frequencies related to the Service, Numbers and transmission facilities used by AT&T in the provision of Service to AT&T customers. FCC regulations strictly forbid any party that is not a wireless communications licensee from altering, enhancing or maintaining cellular radio signals. FCC regulations require AT&T to maintain control over any transmitting device that operates within AT&T's assigned frequencies. Neither Customer nor any of its Affiliates may install any amplifier, enhancer, repeater or other device or system on AT&T's wireless network or frequencies without AT&T's prior written approval.

11.5 Content. Customer is solely responsible for all content that it permits to be posted or transmitted onto or through the Service or any of AT&T's systems, including materials, code, data, text (whether or not perceptible by End Users), multimedia information (including but not limited to sound, data, audio, video, graphics, photographs, or artwork), e-mail, chat room content, bulletin board postings, or any other items or materials accessible through the Service or any of AT&T's systems ("Content"). Customer has sole responsibility for any losses resulting from Customer's or CRUs' downloading, access to, or use of any third-party Content, or from Customer's or CRUs' access to or use of the Service or the Internet, in any manner and for any purpose whatsoever. In providing Service, AT&T may permit End Users to transmit, receive and host content over its network and the Internet and may act as a "services provider" as defined in the Digital Millennium Copyright Act.

11.6 Customer's Notices to End Users. Customer will advise all its End Users that they must read all collateral materials concerning Service and use of the Equipment, including, without limitation, the Welcome Guide, Plan brochures, coverage maps, and materials related to Equipment and accessories. AT&T will make copies of such materials available to Customer upon request. Customer will also provide to End Users, and advise End Users to read, any additional printed materials and consumer information reasonably requested by AT&T from time to time to be so provided. Similarly, for purposes of determining which jurisdiction's taxes and other assessments to collect, federal law requires AT&T to obtain End Users' Place of Primary Use ("PPU"), which must be their residential or business street address and which must be within a Carrier's licensed Service Area. Customer agrees to provide its respective CRUs' PPU when ordering Service on behalf of such person(s), and to inform its End Users that they must provide their proper PPU when ordering Service in connection with this Agreement. If a CRU doesn't provide AT&T with a PPU, or if it falls outside AT&T's licensed Service Area, AT&T may reasonably designate a PPU within the licensed Service Area for such CRU. Each CRU must live and have a mailing address within AT&T's owned network coverage area.

11.7 Location-Based Services. AT&T collects information about the approximate location of Equipment in relation to AT&T's cell towers and the Global Positioning System ("GPS"). AT&T uses that information, as well as other usage and performance information also obtained from AT&T's network and the Equipment, to provide Voice Services and Wireless Data Services and to maintain and improve AT&T's network and the quality of customers' wireless experience. AT&T may also use location information to create aggregate data from which End Users' personally identifiable information has been removed or obscured. Such aggregate data may be used for a variety of purposes such as scientific and marketing research and services such as vehicle traffic volume monitoring. It is Customer's responsibility to notify all CRUs on Customer's account that AT&T may collect and use location information from their Equipment. The Equipment is also capable of purchasing and using optional goods, content and services (at Customer's request or the request of a CRU on Customer's account) offered by AT&T or third parties that make use of the Equipment's location information ("Location-Based Services"). Customer should review, and will advise all of its CRUs to read, the Sales Information and the associated privacy policy for each Location-Based Service to learn how the location information will be used and protected. Customer and its CRUs may refer to AT&T's privacy policy at att.com/privacy for additional details

11.8 AT&T 411 Info. AT&T's directory assistance service (411) may use the location of Equipment to deliver relevant customized 411 information based upon an End User's request for a listing or other 411 service. Customer understands, and will advise all of its CRUs, that by using this directory assistance service, the CRU is consenting to AT&T's use of the CRU's location information for such purpose. This location information may be disclosed to a third party to perform the directory assistance service and for no other purpose. Such location information will be retained only as long as is necessary to provide the relevant

customized 411 information and will be discarded after such use. Customer and its CRUs may refer to AT&T's privacy policy at att.com/privacy for additional details.

11.9 American Recovery and Reinvestment Act. Under certain circumstances, funds provided under the American Recovery and Reinvestment Act of 2009 ("ARRA") may be subject to certain restrictions, requirements and reporting obligations. AT&T may be subject to some of these restrictions, requirements and reporting obligations when Service, Equipment and/or Supplemental Services are purchased with ARRA funds. In order to comply with the restrictions, requirements and reporting obligations associated with the use of ARRA funds (if any), AT&T must be apprised of them before provisioning the Service, Equipment and/or Supplemental Services. Accordingly, the Service, Equipment and/or Supplemental Services provided under this Agreement shall not be used to support the performance of any portion of a project or program which has been funded in whole or in part with grants, loans or payments made pursuant to the ARRA, without the prior written agreement of AT&T and Customer regarding any specifically applicable terms, conditions and requirements. Customer shall provide AT&T with prior written notice before placing any order that may be funded in whole or in part with ARRA funds. If Customer fails to provide such prior written notice of ARRA funding; or if the parties cannot agree on the terms and conditions (if any) applicable to an ARRA funded order; or if any terms, conditions or requirements (other than those to which AT&T specifically agrees in such separate writing) are found to be applicable, then AT&T may, in its sole discretion, reject such order or immediately terminate the provision of any affected Service, Equipment and/or Supplemental Service without further liability or obligation.

12. Publicity and Advertising. Neither party will publish or use any advertising, sales promotion, press release or other publicity that uses the other party's name, logo, trademarks or service marks without the prior written approval of the other party.

EXPLANATION OF RATES & CHARGES FOR ALL POOLED PLANS LISTED ABOVE

Service is subject to the applicable agreement, coverage maps, corresponding plan, features and promotional brochures, and as applicable, the individual service agreement provided with service. See your AT&T account representative for complete details on the offers described in this brochure. Available only to customers with a qualified wireless business or government agreement ("Business Agreement") and their respective Corporate Responsibility Users ("CRUs"). Customer's CRUs may activate service on the Business Pooled Nation Plans described in this brochure ("Pooled Plans"). Customer's CRUs on a Pooled Plan aggregate or "pool" their Anytime Minutes in a single account (a "Pool"). Every billing cycle, each CRU first uses his or her Anytime Minutes. If a CRU does not use all his or her Anytime Minutes it creates an underage in the amount of unused Anytime Minutes ("Under Minutes"). If a CRU uses more than his or her Anytime Minutes it creates an overage with respect to Anytime Minutes ("Over Minutes"). The Pool's Under Minutes and Over Minutes are then aggregated respectively and compared. If the aggregate Under Minutes exceeds the aggregate Over Minutes, then no CRU in the Pool pays Additional Minute charges. If the aggregate Over Minutes exceeds the aggregate Under Minutes, then the ratio of Under Minutes to Over Minutes is applied to the Anytime Minutes of each CRU in the Pool with Overage Minutes, resulting in a monetary credit against the corresponding Additional Minute charges. For example, if a Pool has 900 Under Minutes and 1000 Over Minutes (90%), then each CRU with Over Minutes will receive a credit equal to 90% of his or her Additional Minute charges. CRUs changing price points or migrating to Pooled Plans during a bill cycle may result in one-time prorations or other minor impacts to the credit calculation. Customer may have more than one Pool; however an individual CRU can only be in one Pool at a time. AT&T reserves the right to limit the number of CRUs in a Pool due to business needs and system limitations. CRUs on Pooled Plans and end users on prior versions of AT&T's wireless pooled plans, including but not limited to Business National Pooled Plans and Business Local Pooled Plans, cannot be in the same Pool. End users on non-pooling wireless plans from AT&T may be included in the same account as CRUs on the Pooled Plans; however these non-pooling end users will not receive the pooling benefits or contribute Anytime Minutes to the Pool. Mobile -to- Mobile Minutes, Night & Weekend Minutes, and/or any other promotional minutes are not included in a Pool. Consolidated invoicing required. Minutes will be depleted according to usage in the following order: Night and Weekend Minutes, Mobile to Mobile Minutes and Anytime Minutes.

Minute Increment Billing and Usage: Airtime and other measured usage are billed in full-minute increments, and actual airtime and usage are rounded up to the next full increment at the end of each call for billing purposes. AT&T charges a full-minute increment of usage for every fraction of the last minute used on each wireless call. Calls placed on networks served by other carriers may take longer to be processed, and billing for these calls may be delayed. Those minutes will be applied against your Anytime monthly minutes in the month in which the calls appear on your bill. Unanswered calls of 30 seconds or longer incur airtime.

Pricing/Taxes/No Proration: Final month's charges are not prorated. Prices are subject to change. Prices do not include taxes.

Nights and Weekends: Nights are 9:00 p.m. to 6:00 a.m. Weekends are 9:00 p.m. Friday to 6:00 a.m. Monday (based on time of day at switch providing your service). Included long distance calls can be made from the 50 United States, Puerto Rico and U.S. Virgin Islands to the 50 United States, Puerto Rico, U.S. Virgin Islands, Guam and Northern Mariana Islands. Roaming charges do not apply when roaming within the service area of land-based networks of the 50 United States, Puerto Rico and U.S. Virgin Islands (if you go to Guam and Northern Mariana Islands, you are roaming). International long distance rates vary. Additional charges apply to services used outside the U.S. and its territories. AT&T reserves the right to terminate your service if less than 50% of your usage over three consecutive billing cycles is on AT&T-owned systems. Customer must (1) use an AT&T GSM dual-band handset programmed with AT&T's preferred roaming database; (2) have a mailing address and live in the immediate geographic area in which subscription is made.

Caller ID Blocking: Your billing name may be displayed along with your wireless number on outbound calls to other wireless and landline phones with Caller ID capability. Contact customer service for information on blocking the display of your name and number. You may be charged for both an incoming and an outgoing call when incoming calls are routed to voicemail, even if no

message is left. In the event that the conditions of the Plan as described above are violated, AT&T may move subscriber to another calling plan or terminate customer's service. Additional terms and Conditions apply. See Wireless Service Agreement for additional conditions and restrictions.

Mobile to Mobile Minutes: Mobile to Mobile Minutes may be used when directly dialing or receiving calls to and from any other wireless phone number from AT&T within your calling area. Mobile to Mobile Minutes may not be used for interconnection to other networks.

Terms Applicable to Features: Certain features will not be available in all areas at all times. Voice usage for each call is billed in full minute increments with partial minutes rounded up to the next full minute. Different rates apply for calling card or credit card calls, international calls or operator assistance. Not all features, service options or offers are available on all devices, on all rate plans or available for purchase or use in all areas. VoiceInfo, call waiting, three way calling and accessing voicemail will incur airtime or roaming plus applicable long distance charges. You will be billed for each text message sent from your device, regardless of delivery. With GSM service, you will automatically receive limited access to AT&T Mobility GPRS data service for $0.03 per kilobyte on any domestic GPRS network. Any termination will be effective at the end of the billing cycle in which cancellation occurs and you will be responsible for payment of all fees and costs until that time. Enterprise Site licensing is intended for companies that want to use Enterprise Paging with IRU and consumer users who do not expense back their wireless charges to the company but still want to use Enterprise Paging service for urgent notifications. The Enterprise Site Licensing allows those enterprises to purchase the Enterprise Paging service on a single CRU account and then via a web administration interface apply the service to any AT&T device/account.

Enterprise Site Licensing provides enterprise customers a pack of licenses (seats) to fit the number of users (employees at their company with AT&T services) that need access to enterprise paging functionality. Each feature comes with a set number of licenses, as well as a management tool used by an administrator to manage the Enterprise Paging user accounts, allowing them to use their enterprise paging applications. The administrator (usually the IT/Telecom manager) has the Enterprise Licensing feature added to their service, and one of the seat licenses is automatically provisioned for that user. The administrator is then sent a text message with the login information and URL for the Enterprise Account Management (EAM) tool. The administrator then assigns remaining licenses to other AT&T subscribers via this tool, allowing them to use their enterprise applications with their AT&T devices and service.

The benefit of Enterprise Licensing is that the “Manage Users” section of the EAM web page allows an administrator to add users and then perform a variety of functions to the account. These functions include activate, deactivate, test, and delete. There is also an edit function to update account information.

Blackberry Plans Terms and Conditions

We have not certified the handheld for installation of third-party software not provided by AT&T. Although you can forward any email attachments, you can only view attachments in select formats on your handheld. You cannot edit attachments on your handheld. Maximum email size delivered is 32 kilobytes excluding attachments. Voice service is required for text messaging (SMS). Email will queue while using wireless voice service.

In addition to per-kilobyte international data roaming rates, a BlackBerry International Roaming Feature with unlimited qualified data usage is also available. The BlackBerry International Roaming Feature may only be used in conjunction with the BlackBerry Access $49.99 plan and requires a minimum one-year agreement or renewal of service with a one-year agreement and a BlackBerry Access $49.99 plan. Except as modified by any renewal of service, the terms and conditions of your service agreement remain intact. Renewal of service begins on the day you activate the BlackBerry International Roaming Feature. The BlackBerry International Roaming Feature must be added to your account prior to incurring applicable international data roaming usage for that rate to apply.

The BlackBerry Access $49.99 plan's and the BlackBerry International Roaming Feature's unlimited data usage applies only to BlackBerry email, Internet browsing and applications that use the BlackBerry Mobile Data Service while using your BlackBerry handheld. Unlimited access does not apply to any other data usage and non-qualified data usage charges apply. Other, non-qualified data usage under the BlackBerry Access $49.99 plan and/or with the BlackBerry International Roaming Feature includes without limitation (1) using your SIM in any other device, (2) using your BlackBerry handheld as a modem with other equipment (e.g., computers or ruggedized handhelds) through use of connection kits, other phone/PDA-to-computer accessories, Bluetooth or other wireless technology, (3) data access through any software application that is not provided by AT&T Mobility or Research in Motion ("RIM®") and/or (4) any browser or Java application not accessing data through the BlackBerry Mobile Data Service gateway. These unlimited plans may not be used with server devices or with host computer applications. Such prohibited uses include, but are not limited to, Web camera posts or broadcasts, video streaming, continuous JPEG file transfers, automatic data feeds, telemetry applications, automated functions or any other machine-to-machine applications. Data sessions cannot be used as a substitute for private lines or frame relay connections.

Your service includes software and related services provided by RIM and is also subject to RIM's terms and conditions. Such terms and conditions may be found on the BlackBerry Desktop Software CD and/or related documentation. By using the service, you agree to abide by the terms and conditions of any applicable software license. Failure to comply with such terms and conditions may result in termination of service. Furthermore, your use of the service and the handheld is subject to all documentation included with the handheld.

BlackBerry Access plans for BlackBerry Internet Solution: In certain configurations, your business PC must maintain a network connection to receive government agency email. Triple DES encryption is not available with the BlackBerry Internet Solution.

In the event that you cease to be an employee of your government agency or your agency ceases to support your Client Access License, you may continue to receive service by choosing the AT&T individual BlackBerry Internet Solution. The annual payment option is only available for government customers' CRUs who are on the Data Connect $69.99 plan, PDA Connect plan or BlackBerry Access $49.99 plan. Such customers' IRUs may not use the annual payment option. You will be billed for pre-payment of annual charges in your first billing cycle. The $5 monthly discount for adding a qualified voice plan does not apply. Only select, qualified voice plans can be added and may be subject to additional restrictions. The $0 Voice Access plan is not provisioned by default, but can be provisioned upon request. Canada roaming is automatically provisioned and any Canada usage will be billed on a monthly basis. Other voice plans, international roaming or additional monthly services cannot be activated unless you enable this ability. You will receive a monthly billing statement showing usage details and any monthly charges. If you use or add a service that has a monthly service charge, you must pay such charges monthly. Plans with the annual payment option will automatically renew for an additional one-year period unless you or we provide notice of non-renewal to the other prior to the expiration of your current annual pre-paid period. The annual charges for the renewal period will be billed in the first billing cycle following such expiration. In the event a plan with the annual payment option is canceled prior to the expiration of the pre-paid period, we will issue a pro rata refund of the unused portion of annual pre-paid charges. Eligibility requirements, pricing, features and service areas are subject to change without notice, however your annual plan pricing will not change during your pre-paid period.

iPHONE Terms and Conditions

(Including Exhibit A, "Modified iPhone SLA"; and Exhibit B, "Standard iPhone SLA"

General. Pursuant to the terms and conditions of the Contract and these supplemental terms and conditions, Contractor will provide Service for iPhones (the "iPhone Solution") to the Government and its qualified End Users.

Plans. The iPhone Solution requires subscription to qualified Voice Service and Wireless Data Service. The iPhone Solution requires that the End User has an iPhone that is compatible with both the AT&T GSM/GPRS/EDGE network and/or the AT&T 3G (HSDPA/UMTS) network ("iPhone 3G"). Certain legacy Voice Service Plans (including, without limitation, TDMA and analog Plans) are not available for use with iPhones. iPhone Plans may not be used with other computing devices (including but not limited to iPhone, personal computers, and PC Data Cards) either by SIM card transfer or any other means. Additionally, tethering is prohibited unless the Plan expressly allows it.

2.1 Requirements. End Users must have (a) an eligible Voice Service Plan with a minimum Monthly Service Charge of $39.99 (or an AT&T FamilyTalk Add-a-Line Plan, a Shared Business Solutions Add-a-Line Plan, or other business-only Voice Service Plan for which they qualify), and (b) a 3G iPhone-eligible Wireless Data Service Plan for iPhone. Use of the 3G iPhone Solution to access corporate email, company intranet sites, and/or other business applications requires a 3G iPhone-eligible Wireless Data Service Plan as AT&T may designate from time to time.

3. Pricing. Contractor will provide Service to End Users activated on a qualified iPhone Solution at the prices set forth in the Contract. Contractor will also provide such End Users with any available credit or waived fee set forth in the Contract.
4. Apple iPhone Terms and Conditions. The iPhone Solution utilizes third party software and, accordingly, is subject to a customized version of Apple's software license agreement for iPhone (the "Modified iPhone SLA"). Government acknowledges and agrees to such Modified iPhone Terms and Conditions set forth below in Exhibit "A". From time to time, Apple may modify its standard iPhone software license agreement, and such modifications may require the Modified iPhone SLA set forth herein to be similarly modified. Government and Contractor hereby acknowledge and agree that under such circumstances, this Contract may need to be modified and that they will cooperate in good faith to reach corresponding mutually acceptable terms and conditions.
5. Restrictions. The iPhone Solution is not compatible with any Wireless Data Service Plans not referenced herein and may not be compatible with certain additional features (e.g., OfficeReach™ and Unified Messaging), which will be disabled or removed at time of iPhone activation. The iPhone Solution includes Visual Voicemail, which requires End Users to establish a new voice mail box. All current voice mail messages will be erased at the time of iPhone activation, so End Users are advised to listen to any existing voicemails before completing the activation process.
6. Policies and Processes. The Government and its End Users must follow the policies and processes established by AT&T to purchase iPhones and to activate, migrate to or from, or terminate the iPhone Solution, as such policies and processes may be modified from time to time. More specifically, and without limiting the foregoing, the following processes and procedures must be followed by the Government: (a) each End User must complete the iPhone Solution activation process with his or her Ordering Agency's designated representative; and (b) each End User with the iPhone Solution (whether on a new activation or receiving an existing, active iPhone from another End User) must execute an end user license consent similar in form and substance to that set forth below in Exhibit "B", by which such End User will agree to Apple's then-current, standard iPhone software license agreement, also set forth in Exhibit "B".

iPHONE SOFTWARE LICENSE AGREEMENT ("License")

1. General. For purposes of this License, the terms "you" and "your" refer to the ordering Agency. The software (including Boot ROM code and other embedded software), documentation, interfaces, content, fonts and any data that came with your iPhone ("Original iPhone Software"), as may be updated or replaced by feature enhancements, software updates or system restore software provided by Apple ("iPhone Software Updates"), whether in read only memory, on any other media or in any other form (the Original iPhone Software and iPhone Software Updates are collectively referred to as the "iPhone Software") are licensed, not sold, to you by Apple Inc. ("Apple") for use only under the terms of this License. Apple and its licensors retain ownership of the iPhone Software itself and reserve all rights not expressly granted to you.

Apple, at its discretion, may make available future updates to the iPhone OS software for your iPhone. Updates, may not necessarily include all existing software features, or new features, that Apple releases for newer iPhone models.

2. Permitted License Uses and Restrictions.

(a) Subject to the terms and conditions of this License, you are granted a limited, non-exclusive license to use the iPhone Software on a single Apple-branded iPhone. Except as permitted in Section 2(b) below, this License does not allow the iPhone Software to exist on more than one Apple-branded iPhone at a time or on any other phone, and you may not distribute or make the iPhone Software available over a network where it could be used by multiple devices at the same time. This License does not grant you any rights to use Apple proprietary interfaces and other intellectual property in the design, development, manufacture, licensing or distribution of third party devices and accessories, or third party software applications, for use with the iPhone. Some of those rights are available under separate licenses from Apple. For more information on developing third party devices and accessories for the iPhone, please email madeforipod@apple.com. For more information on developing software applications for the iPhone, please email devprograms@apple.com.

(b) Subject to the terms and conditions of this License, you are granted a limited, non-exclusive license to download the iPhone Software Updates that may be made available by Apple for your model of the iPhone to update or restore the software on any such iPhone that you own or control. This License does not allow you to update or restore iPhones that you do not control or own, and you may not distribute or make the iPhone Software Updates available over a network where they could be used by multiple devices or multiple computers at the same time. You may make one copy of the iPhone Software Updates stored on your computer in machine-readable form for backup purposes only, provided that the backup copy must include all copyright or other proprietary notices contained on the original.

(c) You may not and you agree not to, or to enable others to, copy (except as expressly permitted by this License), decompile, reverse engineer, disassemble, attempt to derive the source code of, decrypt, modify, or create derivative works of the iPhone Software or any services provided by the iPhone Software, or any part thereof (except as and only to the extent any foregoing restriction is prohibited by applicable law or to the extent as may be permitted by licensing terms governing use of open-sourced components included with the iPhone Software). Any attempt to do so is a violation of the rights of Apple and its licensors of the iPhone Software.

(d) By storing content on your iPhone you are making a digital copy. In some jurisdictions, it is unlawful to make digital copies without prior permission from the rights holder. The iPhone Software may be used to reproduce materials so long as such use is limited to reproduction of non-copyrighted materials, materials in which you own the copyright, or materials you are authorized or legally permitted to reproduce.

3. Transfer. You may not rent, lease, lend, sell, redistribute, or sublicense the iPhone Software. You may, however, make a one-time permanent transfer of all of your license rights to the iPhone Software to another party in connection with the transfer of ownership of your iPhone, provided that: (a) the transfer must include your iPhone and all of the iPhone Software, including all its component parts, original media, printed materials and this License; (b) you do not retain any copies of the iPhone Software, full or partial, including copies stored on a computer or other storage device; and (c) the party receiving the iPhone Software reads and agrees to accept the terms and conditions of this License.

4. Consent to Use of Non-Personal Data.

(a) Anonymous Diagnostic and Usage Data. You agree that Apple and its subsidiaries and agents may collect, maintain, process and use diagnostic technical, usage, and related information, including but not limited to information about your

iPhone, computer, system and application software, and peripherals, that is gathered periodically to facilitate the provision of software updates, product support and other services to you (if any) related to the iPhone Software, and to verify compliance with the terms of this License. Apple may use this information, as long as it is collected anonymously in a form that does not personally identify you, to improve our products or to provide services or technologies to you.

(b) Location Data. Apple and its partners and licensees may provide certain services through your iPhone that rely upon location information. To provide and improve these services, where available, Apple and its partners and licensees may transmit, collect, maintain, process and use your location data, including the real-time geographic location of your iPhone, and location search queries. The location data and queries collected by Apple are collected in a form that does not personally identify you and may be used by Apple and its partners and licensees to provide and improve location-based products and services. You agree and consent to Apple's and its partners' and licensees' transmission, collection, maintenance, processing and use of the user's location data and queries to provide and improve such products and services so long as you continue to use the location-based features. You may withdraw this consent at any time by going to the Location Services setting on your iPhone and either turning off the global Location Services seeting or turning off the individual location settings of each location-aware application on your iPhone. Not using these location features will not impact the functionality of your iPhone. Users who elect to use third party applications or services on the iPhone that use or provide location data, should review such third party's terms and privacy policy on use of location data by such third party applications or services.

(c) Video Calls. The video call feature of the iPhone Software ("Video Call") requires Internet access and may not be available in all countries or regions. Your use of Video Call is subject to your compliance with Section 2(e) above and you understand that your iPhone's telephone number will be displayed to the other party on the Video Call, even if you have a blocked number. By using the iPhone Software, you agree that Apple may use and maintain your iPhone's telephone number as a unique account identifier for the purpose of providing and improving the Video Call feature. You may turn off the Video Call feature by going to the Restrictions setting on your iPhone and enabling the Video Calls restriction.

(d) Interest-Based Advertising. Apple may provide mobile, interest-based advertising to you. If you do not want to receive relevant ads on your iPhone, you can opt out by going to this link on your iPhone: http://oo.apple.com. If you opt out, you will continue to receive the same number of mobile ads, but they may be less relevant because they will not be based on your interests. You may still see ads related to the content on a web page or in an application or based on other non-personal information. This opt-out applies only to Apple advertising services and does not affect interest-based advertising from other advertising networks.

At all times your information will be treated in accordance with Apple's Privacy Policy, which is incorporated by reference into this License and can be viewed at: www.apple.com/legal/privacy/.

A. These terms of Service apply to all users of the YouTube Website, including users who are also contributors of video content, information, and other materials or services on the Website. The YouTube Website includes all aspects of YouTube, including but not limited to all products, software and services offered via the website such as the YouTube channels, the YouTube "Embeddable Player," the YouTube "Uploader" and other applications.

B. The YouTube Website may contain links to third party websites that are not owned or controlled by YouTube. YouTube has no control over, and assumes no responsibility for, the content, privacy policies, or practices of any third party websites. In addition, YouTube will not and cannot censor or edit the content of any third-party site. By using the Website, you expressly relieve YouTube from any and all liability arising from your use of any third-party website.

C. Accordingly, we encourage you to be aware when you leave the YouTube Website and to read the terms and conditions and privacy policy of each other website that you visit.

3. YouTube Accounts

A. In order to access some features of the Website, you will have to create a YouTube account. You may never use another's account without permission. When creating your account, you must provide accurate and complete information. You are solely responsible for the activity that occurs on your account, and you must keep your account password secure. You must notify YouTube immediately of any breach of security or unauthorized use of your account.

B. Although YouTube will not be liable for your losses caused by any unauthorized use of your account, you may be liable for the losses of YouTube or others due to such unauthorized use.

4. General Use of the Website; Permissions and Restrictions

A. You agree not to distribute in any medium any part of the Website, including but not limited to User Submissions (defined below), without YouTube's prior written authorization.

B. You agree not to alter or modify any part of the Website, including but not limited to YouTube's Embeddable Player or any of its related technologies.

C. You agree not to access User Submissions (defined below) or YouTube Content through any technology or means other than the video playback pages of the Website itself, the YouTube Embeddable Player, or other explicitly authorized means YouTube may designate.

D. You agree not to use the Website, including the YouTube Embeddable Player for any commercial use, without the prior written authorization of YouTube. Prohibited commercial uses include any of the following actions taken without YouTube's express approval:
   - sale of access to the Website or its related services (such as the Embeddable Player) on another website;

E. Prohibited commercial uses do not include:
   - uploading an original video to YouTube, or maintaining an original channel on YouTube, to promote your business or artistic enterprise;

You agree to receive such updates (and permit YouTube to deliver these to you) as part of your use of the Uploader.
H. You agree not to use or launch any automated system, including without limitation, "robots," "spiders," or "offline readers," that accesses the Website in a manner that sends more request messages to the YouTube servers in a given period of time than a human can reasonably produce in the same period by using a conventional on-line web browser. Notwithstanding the foregoing, YouTube grants the operators of public search engines permission to use spiders to copy materials from the site for the sole purpose of and solely to the extent necessary for creating publicly available searchable indices of the materials, but not caches or archives of such materials. J. YouTube reserves the right to discontinue any aspect of the YouTube Website at any time.

5. Your Use of Content on the Site

In addition to the general restrictions above, the following restrictions and conditions apply specifically to your use of content on the YouTube Website.

A. The content on the YouTube Website, except all User Submissions (as defined below), including without limitation, the text, software, scripts, graphics, photos, sounds, music, videos, interactive features and the like ("Content") and the trademarks, service marks and logos contained therein ("Marks"), are owned by or licensed to YouTube, subject to copyright and other intellectual property rights under the law. Content on the Website is provided to you AS IS for your information and personal use only and may not be downloaded, copied, reproduced, distributed, transmitted, broadcast, displayed, sold, licensed, or otherwise exploited for any other purposes whatsoever without the prior written consent of the respective owners. YouTube reserves all rights not expressly granted in and to the Website and the Content.
B. You may access User Submissions solely:
   - for your information and personal use;
   - as intended through the normal functionality of the YouTube Service; and
   - for Streaming.

   "Streaming" means a contemporaneous digital transmission of an audiovisual work via the Internet from the YouTube Service to a user's device in such a manner that the data is intended for real-time viewing and not intended to be copied, stored, permanently downloaded, or redistributed by the user. Accessing User Videos for any purpose or in any manner other than Streaming is expressly prohibited. User Videos are made available "as is."
C. User Comments are made available to you for your information and personal use solely as intended through the normal functionality of the YouTube Service. User Comments are made available "as is", and may not be used, copied, reproduced, distributed, transmitted, broadcast, displayed, sold, licensed, downloaded, or otherwise exploited in any manner not intended by the normal functionality of the YouTube Service or otherwise as prohibited under this Agreement.
D. You may access YouTube Content, User Submissions and other content only as permitted under this Agreement. YouTube reserves all rights not expressly granted in and to the YouTube Content and the YouTube Service.
E. You agree to not engage in the use, copying, or distribution of any of the Content other than expressly permitted herein, including any use, copying, or distribution of User Submissions of third parties obtained through the Website for any commercial purposes.
F. You agree not to circumvent, disable or otherwise interfere with security-related features of the YouTube Website or features that prevent or restrict use or copying of any Content or enforce limitations on use of the YouTube Website or the Content therein.
G. You understand that when using the YouTube Website, you will be exposed to User Submissions from a variety of sources, and that YouTube is not responsible for the accuracy, usefulness, safety, or intellectual property rights of or relating to such User Submissions. You further understand and acknowledge that you may be exposed to User Submissions that are

inaccurate, offensive, indecent, or objectionable, and you agree to waive, and hereby do waive, any legal or equitable rights or remedies you have or may have against YouTube with respect thereto, and agree to indemnify and hold YouTube, its Owners/Operators, affiliates, and/or licensors, harmless to the fullest extent allowed by law regarding all matters related to your use of the site.

6. Your User Submissions and Conduct

A. As a YouTube account holder you may submit video content ("User Videos") and textual content ("User Comments"). User Videos and User Comments are collectively referred to as "User Submissions." You understand that whether or not such User Submissions are published, YouTube does not guarantee any confidentiality with respect to any User Submissions.
B. You shall be solely responsible for your own User Submissions and the consequences of posting or publishing them. In connection with User Submissions, you affirm, represent, and/or warrant that: you own or have the necessary licenses, rights, consents, and permissions to use and authorize YouTube to use all patent, trademark, trade secret, copyright or other proprietary rights in and to any and all User Submissions to enable inclusion and use of the User Submissions in the manner contemplated by the Website and these Terms of Service.
C. For clarity, you retain all of your ownership rights in your User Submissions. However, by submitting User Submissions to YouTube, you hereby grant YouTube a worldwide, non-exclusive, royalty free, sublicenseable and transferable license to use, reproduce, distribute, prepare derivative works of, display, and perform the User Submissions in connection with the YouTube Website and YouTube's (and its successors' and affiliates') business, including without limitation for promoting and redistributing part or all of the YouTube Website (and derivative works thereof) in any media formats and through any media channels. You also hereby grant each user of the YouTube Website a non-exclusive license to access your User Submissions through the Website, and to use, reproduce, distribute, display and perform such User Submissions as permitted through the functionality of the Website and under these Terms of Service. The above licenses granted by you in User Videos terminate within a commercially reasonable time after you remove or delete your User Videos from the YouTube Service. You understand and agree, however, that YouTube may retain, but not display, distribute, or perform, server copies of User Submissions that have been removed or deleted. The above licenses granted by you in User Comments are perpetual and irrevocable.
D. In connection with User Submissions, you further agree that you will not submit material that is copyrighted, protected by trade secret or otherwise subject to third party proprietary rights, including privacy and publicity rights, unless you are the owner of such rights or have permission from their rightful owner to post the material and to grant YouTube all of the license rights granted herein.
E. You further agree that you will not, in connection with User Submissions, submit material that is contrary to the YouTube Community Guidelines, found at http://www.youtube.com/t/community_guidelines, which may be updated from time to time, or contrary to applicable local, national, and international laws and regulations.
F. YouTube does not endorse any User Submission or any opinion, recommendation, or advice expressed therein, and YouTube expressly disclaims any and all liability in connection with User Submissions. YouTube does not permit copyright infringing activities and infringement of intellectual property rights on its Website, and YouTube will remove all Content and User Submissions if properly notified that such Content or User Submission infringes on another's intellectual property rights. YouTube reserves the right to remove Content and User Submissions without prior notice.

7. Account Termination Policy

A. YouTube will terminate a User's access to its Website if, under appropriate circumstances, they are determined to be a repeat infringer.
B. YouTube reserves the right to decide whether Content or a User Submission is appropriate and complies with these Terms of Service for violations other than copyright infringement, such as, but not limited to, pornography, obscene or defamatory material, or excessive length. YouTube may remove such User Submissions and/or terminate a User's access for uploading such material in violation of these Terms of Service at any time, without prior notice and at its sole discretion.

8. Digital Millennium Copyright Act

A. If you are a copyright owner or an agent thereof and believe that any User Submission or other content infringes upon your copyrights, you may submit a notification pursuant to the Digital Millennium Copyright Act ("DMCA") by providing our Copyright Agent with the following information in writing (see 17 U.S.C 512(c)(3) for further detail):
    - A physical or electronic signature of a person authorized to act on behalf of the owner of an exclusive right that is allegedly infringed;
    - Identification of the copyrighted work claimed to have been infringed, or, if multiple copyrighted works at a single online site are covered by a single notification, a representative list of such works at that site;
    - Identification of the material that is claimed to be infringing or to be the subject of infringing activity and that is to be removed or access to which is to be disabled and information reasonably sufficient to permit the service provider to locate the material;

- Information reasonably sufficient to permit the service provider to contact you, such as an address, telephone number, and, if available, an electronic mail;
- A statement that you have a good faith belief that use of the material in the manner complained of is not authorized by the copyright owner, its agent, or the law; and
- A statement that the information in the notification is accurate, and under penalty of perjury, that you are authorized to act on behalf of the owner of an exclusive right that is allegedly infringed. YouTube's designated Copyright Agent to receive notifications of claimed infringement is: Shadie Farazian, 901 Cherry Ave., San Bruno, CA 94066, email: copyright@youtube.com, fax: 650-872-8513. For clarity, only DMCA notices should go to the Copyright Agent; any other feedback, comments, requests for technical support, and other communications should be directed to YouTube customer service through http://www.google.com/support/youtube. You acknowledge that if you fail to comply with all of the requirements of this Section 5(D), your DMCA notice may not be valid.

B. Counter-Notice. If you believe that your User Submission that was removed (or to which access was disabled) is not infringing, or that you have the authorization from the copyright owner, the copyright owner's agent, or pursuant to the law, to post and use the content in your User Submission, you may send a counter-notice containing the following information to the Copyright Agent:
   - Your physical or electronic signature;
   - Identification of the content that has been removed or to which access has been disabled and the location at which the content appeared before it was removed or disabled;
   - A statement that you have a good faith belief that the content was removed or disabled as a result of mistake or a misidentification of the content; and
   - Your name, address, telephone number, and e-mail address, a statement that you consent to the jurisdiction of the federal court in San Francisco, California, and a statement that you will accept service of process from the person who provided notification of the alleged infringement. If a counter-notice is received by the Copyright Agent, YouTube may send a copy of the counter-notice to the original complaining party informing that person that it may replace the removed content or cease disabling it in 10 business days. Unless the copyright owner files an action seeking a court order against the content provider, member or user, the removed content may be replaced, or access to it restored, in 10 to 14 business days or more after receipt of the counter-notice, at YouTube's sole discretion.

EXPLANATION OF RATES AND CHARGES

Available to current W-2 employees of eligible government customers that are on a Government Agreement covering select AT&T legacy billing systems. Activation subject to credit approval; deposit may be required. Eligible agreement covering select AT&T legacy billing systems, compatible device and qualified activation on a Data Connect plan or BlackBerry® Access plan are required per line. Compatible device will only accept a SIM card provided by us for activation on select AT&T legacy systems and cannot be activated with any other carrier.

Other Fees: Reconnection – $25 per line. Other charges, surcharges, assessments to defray costs for government programs, universal connectivity charge, and federal, state and local taxes apply. An additional monthly $1.75 Regulatory Programs Fee will be added to your bill for each line of service to help fund our compliance with various government mandated programs which may not yet be available in your area. This is not a tax or a government required charge.

Availability, timeliness and reliability of service are subject to radio transmission limitations caused by system capacity, system repairs and modifications, your equipment, terrain, signal strength, weather and other conditions. Not all features, service options or offers are available on all devices, on all rate plans, for all code/software versions or for purchase or use in all areas. Features

available when on our GSM™/GPRS/EDGE network may not be available when roaming on other GSM/GPRS/EDGE networks. Coverage availability may vary between EDGE and GPRS. Additional hardware, software, subscription, credit or debit card, Internet access from your compatible PC and/or special network connection may be required. If your government agency application requires a frame relay connection to our GSM™/GPRS/EDGE network, your government agency may select an eligible Wireless Connectivity Option. See applicable materials for rates and details.

If you use data service to access data features on your compatible device, such access is subject to the applicable data feature terms and conditions. If your wireless data device supports voice service, you will automatically receive voice service under the $0 Voice Access plan, a per-minute rate plan that has no monthly service charge, unless you decline or select an alternative, eligible voice service plan.

Certain devices and/or rate plans may require a qualified voice plan. The default $0 Voice Access plan does not satisfy any Data Connect plan's eligible voice requirements. If you sign up for an alternative, eligible voice service on your compatible device, there are no associated activation or early cancellation fees and you will be subject to the terms and conditions associated with such service. If you use your voice service for text messaging on your compatible device, such usage is subject to the rates and terms and conditions of your applicable text messaging plan. Standard voice charges apply when using data features/applications that generate a voice call. See applicable materials for complete pricing and terms and conditions.

If you are on a Data Connect plan or Pooled Data Connect plan that requires subscription to a voice plan and your associated voice plan is canceled for any reason, you will automatically lose your eligibility for such Data Connect plan and your associated service will be canceled, unless at such time you sign up for an alternate Data Connect plan for which you then qualify.

Synchronization only available with certain programs. Unused included megabytes cannot be carried over to any subsequent month. Due to delayed reporting between carriers, usage may be billed in a subsequent month and this usage will be charged as if used in the month billed. You will be charged for all data usage sent through our network, including any advertisements which appear on your device, regardless of whether your device actually receives the information. Compression may impact the total amount billed to your account. Our network may resend data packets to ensure complete delivery; you will be billed for these resent packets. All data usage will be compiled as often as once per hour or only once every 24 hours. Our system will then create individual billing records representing (a) the data usage for each data gateway accessed (e.g., WAP, RIM) while on our network, (b) the combined usage for other carriers' domestic networks, and (c) the data usage for international networks. Each billing record will be rounded up to the next kilobyte and the charge will be rounded up to the nearest cent. In some situations, billing for data usage may be delayed; any delayed usage will create additional billing records for the actual day of the usage. Not all types of data usage will be reflected in the Account Activity feature. 1,024 kilobytes equal one megabyte.

Our domestic data network includes U.S. areas that we own and operate and U.S. areas owned and/or operated by other carriers. It also includes select Caribbean markets. Refer to the EDGE/GPRS data coverage map at AT&T.com/business/data coverage for coverage areas. Included data megabytes and additional kilobytes may be used anywhere on our domestic data network. Roaming rates apply when downloading or sending data outside of our domestic data network. Additional surcharges may apply to roaming in some areas.

For international voice and/or data service outside of the U.S. and Canada, a compatible, international-capable device is required and an eligible international roaming feature must first be added to your account. Eligibility restrictions apply. See applicable materials for details. Special credit and billing requirements apply. When using your device in another country, the billing may be delayed up to three billing cycles due to reporting between carriers. When traveling internationally, service is only available in select countries. Available countries are subject to change. Refer to AT&T.com/international coverage for definition of the international GPRS coverage areas. International networks use different frequencies and not all devices contain all frequencies. Be sure to check the frequency of both the device and the international network for countries where you travel. Availability of wireless features varies by country. International data service is intended to support U.S.-based eligible end users while traveling internationally and cannot be used to support internationally deployed end users.

The end user's principal residence must be within an eligible service area. For government customers that have financial responsibility for an end user, the end user's principal residence or principal business address must be within an eligible service area. (Please ask your Sales Representative for address verification.) If a majority of data usage in any three-month period is used off the domestic data network owned and operated by us, we reserve the right, at our option, to terminate your data service or move you to another data plan for which you otherwise qualify.

Network speed is no indication of the speed at which your device sends or receives data. Actual speeds depend on distance from the cell site, network availability and traffic, device, device configuration, compression applications, tasks, file size and other factors. EDGE devices work on GPRS network at GPRS speeds. GPRS devices work on EDGE network at GPRS speeds.

All IP addresses will be assigned dynamically per session from a private pool and not all protocols will be supported. Other IP addressing options are available for an additional cost. See applicable materials for rates and details. Our systems will assign you a unique end user ID and, if applicable, a phone number.

Third parties will have access to your end user ID, ZIP code and device model when you browse their Web sites. Any information you involuntarily or voluntarily provide third parties is governed by their policies.

We do not guarantee security. If you use your device to access your government agency email or information, it is your responsibility to ensure your use complies with your agency's internal IT and security procedures.

We reserve the right to deny or terminate service, without notice, to any person who uses our network and/or service in any manner that adversely impacts our network or service levels. We reserve the right to deny or terminate service without notice for any misuse, including without limitation, periods of excessive usage that we, in our sole discretion, determine is the result of prohibited use(s).

Eligibility requirements, pricing, features and service areas are subject to change without notice. Products, services and/or prices may vary outside of the 50 United States. Service is subject to the applicable coverage map, materials and Service Agreement available with your device.

If you have any questions, please call toll-free to our Customer Care department: 1 866 293-4634. We have a commitment to privacy and encourage you to learn about our practices by reading our Privacy Policy at AT&T.com/privacy.

Not all service features and functionality will be available on some EPTT supported devices. Service performance may vary by device, and is subject to transmission limitations and terrain, system, capacity and other limitations.

1.1 EPTT Client Software. The EPTT Client Applicant software must be installed on an End User's EPTT supported device. Use of the service on supported smartphone devices requires download and installation of the Enhanced PTT software. It is possible that other software on the end user's device could impair performance of the EPTT service. The end user must accept the End User License Agreement (EULA) prior to installation of the software.

1.2 EPTT Supported Devices. EPTT will be available on a variety of smartphone platforms and ruggedized devices running various operating systems. EPTT service requires use of a supported AT&T wireless device or a Personal Computer running Windows Vista OS or higher ("PC"). A list of supported devices is available at www.att.com/eptt. The User interface and service performance may vary by device. Some features may not be available on some devices.

2. Terms of the Service

2.1 Coverage and Availability. EPTT is designed to work over an AT&T wireless data network connection. Wireless data coverage is not available in some areas. AT&T mobility coverage maps are available at www.att.com/business/datacoverage. Wireless data coverage is subject to transmission limitations and terrain, system, capacity and other limitations.

2.2 Limitations. EPTT Services are not intended for use in emergency or critical communications settings, or where end - to-end data in transit encryption is required. Availability, security, speed, timeliness, accuracy and reliability of service are not guaranteed by AT&T. If the customer uses a custom APN or other firewalled network configuration which does not allow for IPv4 access to the publicly routable addresses of the EPTT servers and the corresponding required network ports, EPTT service will not work. Usage of the Enhanced PTT client for PCs requires that the PC be connected to AT&T's wireless network through an integrated modem/aircard or mobile hotspot device with qualified data plan service.

2.3 Usage and Billing. Measured data usage incurred in connection with EPTT will not be charged against the customer's associated data plan. All other data usage will be charged at normal rates.

2.4 Data Service Requirements. EPTT service requires a subscription to a qualified AT&T wireless data pay-per-use data service or data rate plan and access to the public Internet. Data service/plan requirements vary by device category. Certain AT&T data plans (e.g. MEdia Net) are not eligible.

2.5 International Usage and Domestic Roaming. Enhanced PTT is designed for use in areas covered by AT&T's domestic wireless data network footprint only. Service is disabled while using international or domestic roaming networks. Customer shall be responsible for compliance with all export/import laws that apply to cross-border transfers of devices, software and technology; Customer is responsible for obtaining its own legal advice regarding countries that are subject to varying levels of U.S. and multinational trade embargoes, which may have an effect on Customer's ability to use the Service or carry a device into a particular country.

2.6 Compatibility. Additional hardware, software, subscription, and/or special network connections may be required. EPTT service is not compatible with traditional circuit-switched voice calls or certain other wireless services from AT&T, including, without limitation, voice mail/Visual Voice Mail, Wireless Priority Service, and AT&T Satellite Augmented Mobile service. EPTT service is not compatible with devices provisioned through the AT&T Control Center or Enterprise On Demand platforms. It is the responsibility of the customer and/or its associated CRUs or IRUs to drive safely and observe all traffic rules.

2.7 Service Agreement. EPTT is available only to customers with a qualified AT&T agreement and their respective users. EPTT may not be available for purchase in all sales channels or in all areas. EPTT service can be cancelled at any time. All Agency data usage up to the date service is terminated will be billed.

2.8 Integration. EPTT Service is subject to applicable data coverage map(s) and acceptance of the Enhanced PTT software End User License Agreement. See applicable materials for details. AT&T's privacy policy may be viewed at www.att.com/privacy. Additional restrictions may apply. These offers are subject to change.

2.9 Acceptable Use. Customer must comply with AT&T's Acceptable Use Policy. AT&T may suspend or limit Customer's use of the Service, if (a) Customer seeks to hack or break any security mechanism of the Service resulting in imminent danger to AT&T's network; (b) Customer's use poses an imminent security or service risk to AT&T or its customers, or subjects AT&T or its customers to immediate danger or exposes AT&T to sanctions, prosecution, civil action or any other liability; (c) Customer uses the service in a way that disrupts or threatens AT&T's network or other services : (d) AT&T receives notice or otherwise determines that the Customer may be using the Service for any illegal purpose or in a way that violates the law or the rights of a third party; or (e) AT&T determines that providing the Service to Customer is

On the termination of the Service for any reason (i) the rights granted to Customer herein, including all licenses to the Property and Confidential Information will terminate and (ii) Customer must immediately cease all use of the Service and the Software, and all other aspects and components of the Service.

2.10 Protection of Rights. AT&T or its Suppliers retain all right, title and interest, including, without limitation, all intellectual property rights, in and to the Service and Software. Customer will not, and will not permit any person to (i) reverse engineer, disassemble, reconstruct, decompile, translate, modify, copy, adapt or create derivative works of the Software, including, without limitation, any aspect or portion thereof, source code and algorithms, or (ii) use the Service in any way that will (or will attempt to) intentionally or willfully infringe on any AT&T or third party intellectual property rights; (iii) rent, lease, redistribute, resell or display any part of the Service, (iv) hack or break any security mechanism of the Service or (v) reproduce, archive, retransmit, distribute, disseminate, sell, lease, rent, exchange, modify, broadcast, synchronize, publicly perform, publish, publicly display, make available to third parties, transfer or circulate the Service except as otherwise allowed herein.

Data Plan Terms and Conditions

Available to government customers with a valid, eligible Government Agreement and that otherwise meet and maintain the eligibility criteria set forth in this brochure. Only the government customer's corporate responsibility users ("CRUs") may activate phones or devices on the Pooled Data Connect plan. The government customer's individual responsibility users ("IRUs" or "Sponsorship Employees") may not activate phones or devices on this plan. The government customer must utilize consolidated invoicing for its CRUs on this plan. End user invoicing is not available. To pool together, all eligible CRUs must be on the same government customer's billing account, and subscribe to a pooled data plan that has the same monthly service charges and included megabytes. You cannot pool CRUs who are under different billing accounts within your FAN.

Within each government customer billing account, all of the megabytes included in the pooled data plan for each eligible CRU are included in an account-level pool. As data is used, included data is deducted from the account-level pool in chronological order. Once the available pool of included data has been exhausted during each billing cycle for the entire account, CRUs will thereafter be charged for their data use in that billing cycle in accordance with their applicable Pooled Data Connect plan. Additional data usage is not billed to an eligible CRU until such CRU's account-level pool of available included data is used up. End users on non-pooling rate plans may be included on the same corporate billing account as end users on one of the pooled data plans. None of the pooling benefits will apply to non-pooling end users. No more than 1,000 end users may be on the same corporate billing account. Accordingly, if you have more than 1,000 eligible CRUs, they cannot all participate in the same pool.

The Data Connect $69.99 and PDA Connect plans may only be used with approved, certified devices for the following purposes: (i) Internet browsing, (ii) email, and (iii) intranet access to government intranets, email and other government productivity applications like security and law enforcement, data collection and field inspection). The plans may not be used with server devices or with host computer applications. Such prohibited uses include, but are not limited to, Web camera posts or broadcasts, video streaming, continuous JPEG file transfers, automatic data feeds, telemetry applications, automated functions or any other machine-to-machine applications. The plans may not be used to provide full-time connections, including without limitation, private lines or frame relay.

Customer will have the burden of proving consent with clear and convincing evidence if a person or entity complains customer did not obtain their consent. Consent cannot be evidenced by third party lists customer purchased or obtained. Customer further agrees it will not use GSMS to send messages that: (a) are bulk messages (b) are automatically generated; (c) can disrupt AT&T's network; (d) harass or threaten another person (e) interfere with another customer's use or enjoyment of AT&T's services; (f) generate significant or serious customer complaints, (g) that falsify or mask the sender/originator of the message; or (h) violate any law or regulation. AT&T reserves the right, but is not obligated, to deny, disconnect, suspend, modify and/ or terminate your GSMS, including any associated accounts using your GSMS, without notice, as to anyone using GSMS in any manner that is prohibited. AT&T's failure to take any action in the event of a violation shall not be construed as a waiver of the right to enforce such terms, conditions, or policies. Advertising and commercial solicitations do not include messaging that: (a) facilitates, completes, or confirms a commercial transaction where the recipient of such message has previously agreed to enter into with the sender of such message; or (b) provides account information, service or product information, warranty information, product recall information, or safety or security information with respect to a commercial product or service used or purchased by the recipient of such message.

Limitations: The maximum number of characters of one standard SMS message is 160. Messages will be sent in two or more parts if the characters exceed 160. An end user who receives an email message converted from an SMS (Email-SMS message) can reply to the e-mail-SMS message by using the return mobile phone number that appears on their mobile handset for up to 7 days. After this 7-day period, any messages sent by the end-user to the sender will not be received as the return mobile phone number will be reallocated for use by another email-SMS user. Cellular coverage is not available in all areas. Due to cellular coverage and system limitations, GSMS may not be accessible at all times. AT&T wireless coverage maps are available at wireless.att.com/coverageviewer. Non-AT&T devices/services are not covered by the AT&T networks and additional terms and conditions may apply (refer to your wireless carrier). Coverage is subject to transmission limitations and terrain, system, capacity and other limitations. AT&T does not guarantee the availability, security, reliability, speed of message delivery, or timeliness of message delivery of GSMS, and AT&T makes no Service Level Agreements (SLAs), guarantees or warranties with respect to the performance of GSMS. Delivery time is dependent upon the conditions prevailing at the time of submission and actual delivery and/or delivery within a specific period of time are not guaranteed. When outside coverage, access will be limited to information and applications previously downloaded to or resident on your device. Text messages (SMS) may not be successfully terminated, or terminated in a timely manner, on an end-user's handset (including text messages sent to mobile phones with end-users subscribed to international telecommunications carriers). This could be due to, for example, the end-user's handset not working properly, being switched off or out of range, the message storage space on the end-user's handset being full or where an end-user is overseas and the international telecommunications carrier has blocked SMS from GSMS. Other messages sent for conversion into text messages (SMS) for delivery to end-users may not be converted and delivered. This could be due to, for example, a problem with the end-user's Internet connection or e-mail gateway, a problem with the AT&T network, or the end user not having sufficient credit to send a SMS or not having the correct permissions to send a SMS.

Miscellaneous: Complete solution requires third-party products and/or services, which are subject to any applicable third-party terms and conditions and may require separate purchase from and/or agreement with the third-party vendor. Rather, in connection with GSMS, Customer must maintain and staff a centralized information technology help-desk or a dedicated internal care group to manage GSMS Tier-One support for its End Users and Recipients. third parties, whether on a service bureau, SaaS, time sharing basis or otherwise, without the express written authorization of MobileIron; (vi) disclose, provide, or otherwise make available MobileIron Confidential Information regarding the Software in any form to any third party without the prior written consent of MobileIron; (vii) release, publish, and/or otherwise make available to any third party the results of any performance or functional evaluation of the Software without the prior written approval of MobileIron; or (viii) alter or remove any proprietary notices or legends contained on or in the Software. For the avoidance of doubt, all restrictions specified herein with respect to Software apply to all components (including Documentation). Notwithstanding any of the forgoing, to the extent Software includes any open source libraries/components/applications/user interface/utilities (collectively referred to as "Open Source") and to the extent required by the relevant licensor, such Open Source shall be subject to the relevant Open Source proprietary notices, disclaimers, requirements and/or extended rights which are relevant to the relevant Open Source code (and which will be made available to Customer for review in the copyright notice section of the Software). If the Software makes available cellular tower identification information with associated latitude and longitude location information, Customer agrees that neither it nor its end users will use such latitude and longitude location information to create a latitude/longitude lookup database for cellular towers. There are no implied licenses granted by MobileIron under this Agreement.

5. Support and Maintenance. If Customer has paid MobileIron (or an Authorized Reseller) the relevant fees to obtain support and maintenance services directly from MobileIron, then subject to the terms and conditions of this Agreement and the support and maintenance exhibit attached hereto as Exhibit A, MobileIron shall provide the support and maintenance services described in Exhibit A to Customer for the relevant Maintenance Term for which fees have been received by MobileIron. For Customers located outside of North America who have purchased support and maintenance services from an Authorized Reseller, for delivery by such Authorized Reseller (or its agents) and not MobileIron, Customer should contact the Authorized Reseller for terms of support and maintenance services.

6. Tracking; Device Count Increases; Reporting; Invoice. At any time during the License Term, if Customer learns that the number of registered devices managed/monitored by the Software ("Actual Device Count") exceeds the relevant Licensed Device Count or if Customer wishes to increase the Licensed Device Count, then MobileIron (or the Authorized Reseller) shall invoice Customer the incremental license fees and any associated support and maintenance fees due, and after the relevant payment has been received, the Licensed Device Count shall be amended to reflect this change. During the License Term, Customer shall track the number of registered devices which are managed/monitored by the Software, and within thirty (30) days of MobileIron's or its Authorized Reseller's written request, Customer will provide MobileIron or its Authorized Reseller (as relevant) a report, which report shall identify: (i) the total number of active devices onto which the device Software is downloaded as of such date, i.e. the Actual Device Count; and (ii) the number of servers onto which the server Software is downloaded. In order to verify compliance with this Agreement or to verify the report provided hereunder, upon written request to Customer, which request shall not be made more than once per quarter . Customer shall provide MobileIron access to the relevant device inventory data showing the number and type of registered devices and administrative usage logs generated by the Software. MobileIron and/or its Authorized Resellers may invoice Customer if it learns of any shortfalls, i.e. that the Licensed Device Count is below the Actual Device Count. Unless otherwise mutually agreed in writing, the fees charged to Customer for the additional licenses, device counts and services will be based on MobileIron's then-current GSA price list.

7. Indemnity. Subject to the terms herein, MobileIron, at its own expense, shall indemnify, defend, and hold harmless Customer, Customer Representatives, and their respective officers and employees ("Customer Indemnitee(s)") from any and all costs, expenses, losses, damages, and settlement amounts paid to settle any third party claims that the Software infringes or violates any third party intellectual property right , provided that Customer Indemnitee(s): (a) gives MobileIron prompt written notice of any such claim ; (b) permits MobileIron to control and direct the defense or settlement of any such claim to the extent permitted by 28 U.S.C. 516, provided MobileIron will not settle any claim which settlement terms requires Customer to admit liability or pay a fee which is not covered by this indemnity without Customer's prior written consent; and (c) provides MobileIron all reasonable assistance in connection with the defense or settlement of any such claim, at MobileIron's cost and expense. Customer may participate in the defense and settlement at Customer's sole expense. If such a claim occurs, or in MobileIron's opinion is reasonably likely to occur, MobileIron, at its expense and at its sole discretion, may, in addition to its indemnification obligations hereunder: (i) procure the right to allow Customer to continue to use the Software, or (ii) modify or replace the Software or infringing portions thereof to become non-infringing, or (iii) if neither (i) nor (ii) is commercially feasible, terminate Customer's right to use the affected portion of the Software and refund any license fees paid by Customer corresponding to such Software, pro-rated over a three (3) year period from delivery (unless the License Term is shorter than three years in which case the prorated period shall be equal to the License Term). Notwithstanding the foregoing, MobileIron shall have no obligations under this Section to the extent any infringement claim is based upon or arises out of: (aa) any modification or alteration to the Software not made by

MobileIron or its contractors or authorized by MobileIron; (bb) any combination or use of the Software with products or services not approved by MobileIron in writing; (cc) Customer's continuance of allegedly infringing activity a reasonable period after being notified thereof; (dd) Customer's failure to use Upgrades made available by MobileIron; and/or (ee) use of the Software not in accordance with the applicable Documentation or outside the scope of the license granted under this Agreement. The remedies set forth in this Section constitute Customer's sole and exclusive remedies, and MobileIron's entire liability, with respect to infringement or violation of third party intellectual property rights.

8. Ownership. The Software is licensed and not sold. MobileIron and its licensors shall own and retain all right, title, and (except as expressly licensed hereunder) interest in and to the Software and all copies or portions thereof, and any derivative works thereof (by whomever created). All suggestions or feedback provided by Customer or its employees or agents (including Customer Representatives) to MobileIron or its Authorized Resellers with respect to the Software shall be MobileIron's property and deemed Confidential Information of MobileIron, and Customer hereby assigns the same to MobileIron. For clarity, Customer has not obligation to provide any suggestions or feedback regarding the Software.

9. Software Delivery. MobileIron's policy is to deliver Software to Customer electronically; For MobileIron's accounting purposes, the Software shall be deemed delivered and the term of the license to Software shall commence on the date the Software is delivered to Customer. Upon written request, Customer shall provide MobileIron a "Delivery Acknowledgement Letter" acknowledging delivery of software in a format reasonably requested by MobileIron.

10. Term and Termination. The Software license granted herein shall remain effective until terminated or until the License Term expires, whichever is earlier. This Agreement shall be effective as of the Effective Date and shall remain in effect until terminated or until the License Term for all Software licensed hereunder expires, whichever is earlier. This Agreement may be terminated (a) MobileIron, in accordance with FAR 52.212-4 (l) and (m), upon thirty (30) days written notice, if Customer materially breaches any provision of this Agreement and such breach remains uncured after such thirty (30) day notice period expires and (b) by Customer: (1) upon thirty (30) days written notice, if MobileIron materially breaches any provision of this Agreement and such breach remains uncured after such thirty (30) day notice period expires; or (2) effective immediately, if MobileIron ceases to do business, or otherwise terminates its business operations without a successor; or (3) effective immediately, if MobileIron becomes insolvent or seeks protection under any bankruptcy, receivership, trust deed, creditors arrangement, composition or comparable proceeding, or if any such proceeding is filed against it and not dismissed within ninety (90) days;Upon termination of this Agreement, Customer shall destroy (or at MobileIron's option, return) all copies of Software in its possession or control. Sections 1, 3, 4, 6, 7, 8, 10, 11, 12, 13, and 14 shall survive any termination or expiration of this Agreement.

11. Confidentiality. *"Confidential Information"* means any non-public data, information and other materials regarding the products, software, services, or business of a party (and/or, if either party is bound to protect the confidentiality of any third party's information, of a third party) provided by one party ("Disclosing Party") to the other party ("Receiving Party") where such information is marked or otherwise communicated as being "proprietary" or "confidential" or the like, or where such information should, by its nature, be reasonably considered to be confidential and/or proprietary. The parties agree that, without limiting the foregoing, the Software and any performance data, benchmark results, and technical information relating thereto, the Documentation, MobileIron's pricing information shall be deemed the Confidential Information of MobileIron. Notwithstanding the foregoing, Confidential Information shall not include information which: (i) is already known to the Receiving Party prior to disclosure by the Disclosing Party; (ii) becomes publicly available without fault of the Receiving Party; (iii) is rightfully obtained by the Receiving Party from a third party without restriction as to disclosure, or is approved for release by written authorization of the Disclosing Party; (iv) is independently developed or created by the Receiving Party without use of the Disclosing Party's Confidential Information; or (v) is required to be disclosed by law or governmental regulation, provided that the Receiving Party provides reasonable notice to Disclosing Party of such required disclosure and reasonably cooperates with the Disclosing Party in limiting such disclosure. Except as expressly authorized herein, the Receiving Party agrees to: (i) use the Confidential Information of the Disclosing Party only to perform hereunder (including providing the features and services associated with the normal use of the Software) or exercise rights granted to it hereunder; (ii) treat all Confidential Information of the Disclosing Party in the same manner as it treats its own similar proprietary information, but in no case will the degree of care be less than reasonable care; and (iii) disclose the Disclosing Party's Confidential Information only to those employees and contractors of the Receiving Party who have a need to know such information for the purposes of this Agreement, provided that any such employee or contractor shall be subject to obligations of non-use and confidentiality with respect to such Confidential Information at least as restrictive as the terms of this Agreement, and the Receiving Party shall remain liable for any non-compliance of such employee or contractor with the terms of this Agreement.

12. Limited Warranty; Disclaimer.

Software Warranty. For a period of ninety (90) days from the date of initial delivery of the Software to Customer, MobileIron warrants that the Software materially conforms to its published specifications described in the relevant end user Documentation supplied by MobileIron. This limited warranty extends only to the Customer who is the original licensee. Customer's sole and exclusive remedy and the entire liability of MobileIron and its suppliers and licensors under this limited warranty will be, at MobileIron's option, repair or replacement of the Software, or if repair or replacement is not possible, to refund the license and any associated support and maintenance fees paid for the non-conforming Software upon the return and removal of all relevant Software from servers and devices.

Malicious Code. MobileIron will use standard industry practices to test the Software delivered or transmitted to Customer hereunder prior to its delivery or transmission for "Malicious Code" and remove any "Malicious Code" it discovers prior to delivery of Software to Customer. Customer will use standard industry practices to test any data or materials (including code) provided or transmitted to MobileIron hereunder (in connection with Support and Maintenance Services or otherwise) and remove any "Malicious Code" it discovers prior to delivery or transmission of such data or materials to MobileIron. "Malicious Code" as used herein shall mean any code which is designed to harm, or otherwise disrupt in any unauthorized manner, the operation of Customer's computer programs or computer systems or destroy or damage Customer data in an unauthorized manner. For clarity, Malicious Code shall not include standard routines in Software which are intended to delete data and are implicit in the standard functionality of the Software, or any standard software bugs or errors handled through support and maintenance, or any license key or other equivalent code which may limit the functionality or scope of the use of the Software to the scope of the license purchased by Customer hereunder.

Hardware Limited Warranty. Customer is aware that Software may only be used on equipment containing and meeting the specifications specified by MobileIron in its Documentation and that Customer may purchase such hardware separately through third parties. If Customer has ordered and received MobileIron Hardware from MobileIron or an Authorized Reseller of MobileIron Hardware, then the warranty and remedies described in Exhibit B shall apply.

Service Warranty. For a period of ninety (90) days from the date of delivery of any service by MobileIron to Customer, MobileIron represents and warrants to Customer that such services provided shall be professional, workman like and performed in a manner conforming to generally accepted industry standards and practices for similar services. MobileIron's entire liability and Customer's sole and exclusive remedy for any breach of the preceding warranty will be for MobileIron to re-perform the nonconforming services, provided that MobileIron must have received written notice of the nonconformity from Customer no later than ninety (90) days after the original performance of the services by MobileIron.

Restrictions. The express warranties specified above do not apply if the applicable Software, MobileIron Hardware, or any portion thereof: (i) has been altered, except by MobileIron or its' authorized representatives or its contractors; (ii) has not been used, installed, operated, repaired, or maintained in accordance with this Agreement and/or Documentation ; (iii) has been subjected to abnormal physical or electrical stress, misuse, negligence, or accident; or (iv) is licensed, for beta, evaluation, or testing purposes. Additionally, the warranties set forth herein only apply to the original licensee who provides notice of a warranty claim within the warranty period specified herein and does not apply to any bug, defect or error caused by or attributable to software or hardware not supplied by MobileIron.

DISCLAIMERS. EXCEPT FOR THE WARRANTIES EXPRESSLY DESCRIBED HEREIN, THE SOFTWARE, MOBILEIRON SERVICES, AND/OR MOBILEIRON HARDWARE ARE PROVIDED "AS IS", AND MOBILEIRON AND ITS LICENSORS PROVIDE NO OTHER WARRANTIES OF ANY KIND, EXPRESS OR IMPLIED WITH REGARD TO THE SAME. EXCEPT AS EXPRESSLY SPECIFIED IN THIS AGREEMENT, ALL EXPRESS OR IMPLIED CONDITIONS, REPRESENTATIONS, AND WARRANTIES INCLUDING, WITHOUT LIMITATION, ANY IMPLIED WARRANTY OR CONDITION OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, NON-INFRINGEMENT, SATISFACTORY QUALITY, NON-INTERFERENCE, OR ACCURACY OF INFORMATIONAL CONTENT, OR ARISING FROM A COURSE OF DEALING, LAW, USAGE, OR TRADE PRACTICE, ARE HEREBY EXCLUDED TO THE EXTENT ALLOWED BY APPLICABLE LAW AND ARE EXPRESSLY DISCLAIMED BY MOBILEIRON, ITS SUPPLIERS AND LICENSORS. TO THE EXTENT AN IMPLIED WARRANTY CANNOT BE EXCLUDED, SUCH WARRANTY IS LIMITED IN DURATION TO THE EXPRESS WARRANTY PERIOD. FURTHER, MOBILEIRON AND ITS LICENSORS DO NOT WARRANT THE RESULTS OF USE OF THE SOFTWARE OR THAT THE SOFTWARE IS BUG/ERROR FREE OR THAT ITS USE WILL BE UNINTERRUPTED. THIS DISCLAIMER OF WARRANTY CONSTITUTES AN ESSENTIAL PART OF THIS AGREEMENT. IN ADDITION, DUE TO CONTINUAL DEVELOPMENT OF NEW TECHNIQUES FOR INTRUDING UPON/ATTACKING MOBILE DEVICES AND SOFTWARE, MOBILEIRON DOES NOT WARRANT THAT THE SOFTWARE OR ANY EQUIPMENT, SYSTEM, OR NETWORK ON WHICH THE SOFTWARE IS USED WILL BE FREE OF VULNERABILITY TO INTRUSION OR ATTACK. MOBILEIRON DOES NOT WARRANT THAT ANY SERVICES CONNECTING TO THE SOFTWARE PROVIDED BY THIRD PARTIES OR ANY DATA PROVIDED BY SUCH THIRD PARTIES WILL BE FREE FROM ERRORS OR INTERRUPTIONS OF SERVICE. BECAUSE SOME STATES OR

JURISDICTIONS DO NOT ALLOW LIMITATIONS ON HOW LONG AN IMPLIED WARRANTY LASTS, THE ABOVE LIMITATION MAY NOT APPLY. THIS WARRANTY GIVES CUSTOMER SPECIFIC LEGAL RIGHTS, AND CUSTOMER MAY ALSO HAVE OTHER RIGHTS WHICH VARY FROM JURISDICTION TO JURISDICTION.

13. Limitation of Liabilities. EXCEPT FOR ANY LIABILITY ARISING UNDER SECTION 2 (LICENSE), SECTION 4 (RESTRICTIONS), SECTION 7 (INDEMNITY), OR SECTION 11 (CONFIDENTIALITY): (a) IN NO EVENT WILL CUSTOMER OR CUSTOMER REPRESENTATIVES OR MOBILEIRON OR MOBILEIRON'S LICENSORS OR SUPPLIERS BE LIABLE TO THE OTHER PARTY FOR ANY LOST REVENUE, PROFIT, OR LOST OR DAMAGED DATA, BUSINESS INTERRUPTION, LOSS OF CAPITAL, OR FOR SPECIAL, INDIRECT, CONSEQUENTIAL, INCIDENTAL, OR PUNITIVE DAMAGES HOWEVER CAUSED AND REGARDLESS OF THE THEORY OF LIABILITY OR WHETHER ARISING OUT OF THE USE OF OR INABILITY TO USE SOFTWARE OR OTHERWISE AND EVEN IF SUCH PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES; AND (b) IN NO EVENT WILL THE AGGREGATE LIABILITY OF EITHER PARTY OR MOBILEIRON'S LICENSORS OR SUPPLIERS UNDER THIS AGREEMENT (UNDER ANY THEORY OF LIABILITY, WHETHER IN CONTRACT, TORT OR OTHERWISE) EXCEED THE FEES RECEIVED BY MOBILEIRON FROM CUSTOMER FOR THE RELEVANT PRODUCT OR SERVICE (AND IN THE CASE OF CUSTOMER'S LIABILITY EXCEED THE FEES PAID AND DUE TO MOBILEIRON OR ITS AUTHORIZED RESELLER), WHETHER ANY REMEDY SET FORTH HEREIN FAILS OF ITS ESSENTIAL PURPOSE OR OTHERWISE. BECAUSE SOME STATES OR JURISDICTIONS DO NOT ALLOW LIMITATION OR EXCLUSION OF CONSEQUENTIAL OR INCIDENTAL DAMAGES, THE ABOVE LIMITATION MAY NOT APPLY TO CUSTOMER. This clause shall not impair the U.S. Government's right to recover for fraud or crimes arising out of or related to this Agreement under any federal fraud statute, including the False Claims Act, 31 U.S.C. §§ 3729-3733.

14. General

b) Third Party Services. Any third party services accessed through the Software (collectively "Third Party Services") are made available to Customer subject to Customer having currently purchased Support and Maintenance Services either from an Authorized Reseller or MobileIron; no additional fees shall be due or charged in connection with the provision of such Third Party Services, however Customer's use and/or access to Third Party Services shall be limited to those uses and access rights permitted by the third party service providers.

c) Export. Software and Documentation, including technical data, may be subject to U.S. export control laws, including the U.S. Export Administration Act and its associated regulations, and may be subject to export or import regulations in other countries. Customer agrees to comply with all such regulations.

d) U.S. Government End User Purchasers. The Software and Documentation qualify as "commercial items," as that term is defined at Federal Acquisition Regulation ("FAR") (48 C.F.R.) 2.101, consisting of "commercial computer software" and "commercial computer software documentation" as such terms are used in FAR 12.212. Consistent with FAR 12.212 and DoD FAR Supp. 227.7202-1 through 227.7202-4, and notwithstanding any other FAR or other contractual clause to the contrary in any agreement into which this Agreement may be incorporated, Customer may provide to Government end user or, if this Agreement is direct, Government end user will acquire, the Software and Documentation with only those rights set forth in this Agreement. Use of either the Software or Documentation or both constitutes agreement by the Government that the Software and Documentation are "commercial computer software" and "commercial computer software documentation," and constitutes acceptance of the rights and restrictions herein.

e) Choice of Law; Venue. This Agreement shall be governed by and construed in accordance with the Federal laws of United States, without reference to or application of choice of law rules or principles. Notwithstanding any choice of law provision or otherwise, the Uniform Computer Information Transactions Act (UCITA) and the United Nations Convention on the International Sale of Goods shall not apply. If any portion hereof is found to be invalid, void or unenforceable, such portion shall be enforceable to the maximum extent permissible, and the remaining provisions of the Agreement shall remain in full force and effect.

f) Data Communications; Aggregated Anonymous Statistical Data. To the extent any personally identifiable data relevant to Customer or Customer Representatives is obtained by MobileIron or communicated to MobileIron by Customer in connection with this Agreement, MobileIron agrees that it (and/or its contractors) will use or disclose any such personally identifiable data received (if any is ever received) only to implement and deliver the features and services associated with the normal use of the Software and to perform its obligations hereunder. MobileIron (and/or its contractors) may collect aggregated, anonymous, statistical data and information about devices and usage activity provided such data and information does NOT contain any information which is identifiable to any individual or Customer ("Aggregated Anonymous

Data"), and MobileIron (and/or its contractors) may use, store, analyze, and disclose such Aggregate Anonymous Data. For clarity, Aggregate Anonymous Data shall only include aggregated data or information which is specifically NOT identifiable to any individual or to Customer. Customer understands and agrees that such Aggregate Anonymous Data shall be owned by MobileIron.

g) Entire Agreement; Modifications. This Agreement includes the terms herein and the attached exhibits and any terms incorporated herein by reference and any related Product Schedule ("Agreement") and constitutes the entire agreement between the parties with respect to the license of the Software and delivery of support and maintenance services (where relevant) and delivery of MobileIron Hardware (where relevant). Except as expressly provided herein, this Agreement supersedes and cancels all previous written and previous or contemporaneous oral communications, proposals, representations, and agreements relating the subject matter contained herein. This Agreement prevails over any pre-printed terms or other conflicting or additional terms of any purchase order, ordering document, acknowledgement or confirmation or other document issued by Customer, even if signed and returned. Additionally, with respect to any Software licensed hereunder, this Agreement supersedes and cancels any "click wrap" or "click accept" agreement incorporated into such Software. Except as expressly provided herein, this Agreement may be amended, or any term or condition set forth herein waived, only by a writing executed by both parties.

h) Illegality. Should any term of this Agreement be declared void or unenforceable by any court of competent jurisdiction, that provision shall be modified, limited or eliminated to the minimum extent necessary and such declaration shall have no effect on the remaining terms hereof, which shall continue in full force and effect.

i) Waiver. The failure of either party to enforce any rights granted hereunder or to take action against the other party in the event of any breach hereunder shall not be deemed a waiver by that party as to subsequent enforcement of rights or subsequent actions in the event of future breaches.

j) Assignment. This Agreement may not be assigned or transferred without the other party's prior written consent, provided each party expressly reserves the right to assign this Agreement to a successor in interest of all or substantially all of its business or assets. Any action or conduct in violation of the foregoing shall be void and without effect. MobileIron may delegate any of its obligations hereunder, provided it shall remain fully liable and responsible for its delegates' actions or inactions in violation of this Agreement. All validly assigned rights and obligations of the parties hereunder shall be binding upon and inure to the benefit of and be enforceable by and against the successors and permitted assigns.

k) Legal Fees. The party prevailing in any dispute under this Agreement shall be entitled to its costs and legal fees.

l) Notice. Any and all notices or other information to be given by one of the parties to the other shall be deemed sufficiently given when sent by certified mail (receipt requested), or by courier, or by hand delivery to the other party to the address set forth in the signature lines of this Agreement or other such address provided by the parties from time to time. Such notices shall be deemed to have been effective on the first business day following the day of such delivery.

m) Basis of the Bargain. Customer acknowledges and agrees that MobileIron has set its prices and entered into this Agreement in reliance upon the disclaimers of warranty and the limitations of liability set forth herein, that the same reflect an allocation of risk between the parties (including the risk that a contract remedy may fail of its essential purpose and cause consequential loss), and that the same form an essential basis of the bargain between the parties.

THE PARTIES HERETO have by their duly authorized representatives executed this End User License Agreement.

This MobileIron Support and Maintenance Agreement ("SMA") sets forth the terms and conditions under which MobileIron (or its authorized representative) agrees to provide the "Support and Maintenance Services" (as described herein) to Customer for the Software for which support and maintenance services have been purchased (collectively the "Product").

All capitalized terms used herein shall have the meaning set forth in the Agreement, except as otherwise defined herein.

MAINTENANCE TERM AND TERMINATION.

"Maintenance Term" shall be defined as follows: (a) if Customer has purchased a subscription license to Software, then the Maintenance Term for such Software shall be for the duration of the subscription license purchased; or (b) if Customer has purchased Support and Maintenance Services in connection with a perpetual license to Software, then the Maintenance Term for the support of such Software will be twelve (12) months from the delivery of the Software, unless an extended Maintenance Term is purchased, in which case the Maintenance Term will include the extended term identified in the Product Schedule. The Maintenance Term may be renewed by mutual agreement of the parties for additional twelve (12) month periods or any other period mutually agreed to in a Product Schedule (as relevant) (each an additional Maintenance Term), beginning upon the day immediately following the end of the then-current Maintenance Term, provided MobileIron receives payment of the then-current Support and Maintenance Fees required for the renewal term. This SMA shall also terminate: (a) immediately upon termination of the Agreement and (b), in accordance with FAR 52.212-4 (l) and (m), upon thirty (30) days written notice, if Customer materially breaches any provision of this Agreement and such breach remains uncured after such thirty (30) day notice period expiresCustomer may also terminate this SMA at any time for convenience, provided that if Customer terminates this SMA for convenience, the Support and Maintenance Fee paid is not refundable.

PAYMENT. Unless a "Subscription" license is purchased (where the support and maintenance fee is included in the license fee charged), as clearly indicated on the relevant Product Schedule, then payment for the services and rights specified herein ("Support and Maintenance Fee") shall be payable in U.S. dollars and are due within thirty (30) days of Customer's receipt of MobileIron's invoice (if purchased directly from MobileIron). The Support and Maintenance Fee is net of all taxes and duties. Customer agrees to pay all applicable taxes and duties due in connection with the Support and Maintenance Services, other than taxes on MobileIron's net income.

REINSTATEMENT AFTER TERMINATION. If there is a lapse in the Maintenance Term, and Customer does not renew this SMA for a period of time, Customer may renew support and maintenance services based on MobileIron's then-current support and maintenance terms on the GSA Pricelist, subject to payment of then-current Support and Maintenance Fee plus an amount equal to the Support and Maintenance Fees that would have been payable during the period of lapse (as pro-rated for any partial year).

SUPPORT AND MAINTENANCE SERVICES FOR SOFTWARE. Subject to the terms of this SMA, during the Maintenance Term, and provided Customer is current on its obligations to pay the Support and Maintenance Fees due, MobileIron will use commercially reasonable efforts to provide Customer the following "Support and Maintenance Services":

a) Software Maintenance. MobileIron will provide the Customer access to all Upgrades of the Software, to the extent created and generally released to other MobileIron customers who purchase Support and Maintenance Services without any additional charge.

MobileIron agrees to provide Customer access to MobileIron's customer support personnel via telephone, email, and the web to assist Customer in resolving technical questions regarding the Product and the use of the Product during MobileIron's normal business hours, currently 6 a.m. to 6 p.m. p.s.t. for standard support. Please refer to http://support.mobileiron.com (or such other URL provided by MobileIron from time to time) for specific information concerning telephone and web support business hours.

c) Software Error Correction; Bug Fixes. Customer shall document and report all suspected errors or malfunctions of the Software to MobileIron via email or MobileIron's case tracking system, and cooperate with MobileIron in its bug investigation by phone, email, and through MobileIron's case tracking system. MobileIron will provide Customer with a trouble ticket number that Customer will use to track the status of any confirmed error or malfunction in the Software (i.e. any confirmed failure for the Software to meet the MobileIron specifications for the Software) ("Confirmed Error"). MobileIron may close the trouble ticket without further responsibility if Customer does not provide requested feedback to MobileIron within thirty (30) days of receiving a patch or workaround, or if Customer fails to respond to a request for additional information.

LIMITATIONS. MobileIron is only responsible to provide Customer's Designated Support Contacts (described below) with the Support and Maintenance Services described herein. MobileIron shall be responsible for a Confirmed Error in Software,

however, MobileIron shall not be responsible for any errors in Software that cannot be reproduced by MobileIron on unmodified Software, or for software, firmware, hardware not supplied by MobileIron, or for information or memory data contained in, stored on or integrated with any Product returned to MobileIron pursuant to this SMA. Services described herein do not include any support of any failure or defect in the Product due to Customer, Customer Representatives or any damage caused by Customer or Customer Representatives from improper storage, accident, abuse or misuse of Product (or any component thereof), or if Product (or any component thereof) has been used or maintained in a manner not conforming to the requirements or suggestions in Documentation or in the Agreement, or if Product (or any component thereof) is used by Customer or Customer Representatives on unsupported platform or hardware or has been altered or modified by Customer or Customer Representative, or has had any serial number removed or defaced. Service or repair of the Product by anyone other than MobileIron (or an authorized representative of MobileIron) will void MobileIron's obligations herein. MobileIron's obligations stated herein shall apply only to the most current release of the Product and the prior release. If MobileIron agrees to remedy any errors or problems not covered by the terms of this SMA, MobileIron may perform such work after receiving Customer's instruction to proceed at MobileIron's then-current standard time and material rates.

CUSTOMER OBLIGATIONS; DESIGNATED SUPPORT CONTACTS. Customer shall appoint up to two (2) individuals who are knowledgeable in the operation of the Product to serve as primary Customer contacts with MobileIron for support calls ("Designated Support Contacts"). Customer may appoint additional primary contacts upon receipt by MobileIron of the standard fees due for such additional support contacts. Customer may inquire with MobileIron support personnel to obtain the then-current pricing for such additional support contacts. Customer may not share login passwords or other benefits of this SMA with any other persons nor use any software updates or software upgrades or other Services furnished to Customer under this SMA for any product for which Customer has not purchased Services.

THIRD PARTY SERVICES. Product accesses certain third party services ("Third Party Services"). Customer may only access and use such Third Party Services for so long as Customer has a current SMA in place with MobileIron for Software and is current on payment of the Support and Maintenance Fees for such Software. Customer's use and/or access to Third Party Services shall be limited to those uses and access rights permitted by the third party service providers. If during the Maintenance Term a third party provider terminates access to the Third Party Services, then MobileIron will notify Customer of the same, and access to such services will terminate as of the effective date specified by such third party provider. Within thirty (30) days of the notification by MobileIron of the termination of Third Party Services, the Customer may terminate this SMA for convenience (effective no earlier than the date the service access rights are terminated). Upon such termination, Customer shall be entitled to receive a pro-rata refund on any Support and Maintenance Fees paid (if any) for the relevant period remaining in the then-current Maintenance Term. MobileIron shall have no liability to Customer in connection with any termination of such services or the Customer's use of the Third Party Services. All warranties associated with such services are only those directly provided by the third party service provider to Customer.

GENERAL. This SMA is subject to the term and conditions of the Agreement attached hereto (including the disclaimer and limitations on liability described therein). WITHOUT LIMITING THE FOREGOING, CUSTOMER UNDERSTANDS AND AGREES THAT THE AGGREGATE LIABILITY OF MOBILEIRON AND ITS SUPPLIERS AND LICENSORS IN CONNECTION WITH THIS SMA, INCLUDING FOR ANY SERVICES, THIRD PARTY SERVICES, SOFTWARE AND/OR PRODUCTS PROVIDED HEREUNDER, REGARDLESS OF THE FORM OF THE ACTION GIVING RISE TO SUCH LIABILITY (WHETHER IN CONTRACT, TORT INCLUDING NEGLIGENCE OR OTHERWISE), SHALL NOT EXCEED THE SUPPORT AND MAINTENANCE FEE PAID BY CUSTOMER FOR THE RELEVANT MAINTENANCE TERM. MobileIron may revise the terms of this SMA with sixty (60) days written notice, provided such revision is in connection with a standard change made to its then-current standard support and maintenance terms and such revision only applies to future renewal Maintenance Term (if any).

4. Customer Responsibilities. Customer shall (a) be responsible for any action or inaction of Customer Representatives which is in violation of this Agreement, (b) be solely responsible for the accuracy, quality, integrity and legality of Customer Data and of the means by which Customer (and Customer Representatives) acquire, upload, transmit and process Customer Data, (c) use commercially reasonable efforts to prevent unauthorized access to or use of the Cloud Services, and notify MobileIron or Authorized Reseller promptly of any such unauthorized access or use, (d) use the Cloud Services only in accordance with the Documentation and applicable laws and government regulations, (e) make any disclosures to and obtain any consents from Customer Representatives as required by any applicable law, rule or regulation for the use, processing, transfer, disclosure, or access to Customer Data in or for the Cloud Services or as otherwise contemplated by this Agreement; and (f) be responsible for obtaining and maintaining appropriate equipment and ancillary services needed to connect to, access or otherwise use the Cloud Services, including, without limitation, computers, computer operating system and web browser.

6. Device Count Increases; Reporting; Invoice. The total subscription fees due to MobileIron or Authorized Reseller, as applicable, hereunder shall be based on the number of devices Customer registers to the Cloud Service. If the number of devices that Customer or Customer Representatives have registered to the Cloud Service ("Actual Device Count") exceeds Customer's then current Licensed Device Count or if Customer wishes to increase the Licensed Device Count, then Customer shall notify Authorized Reseller and Authorized Reseller shall invoice the incremental subscription fees due, and after the relevant payment has been received, the Licensed Device Count shall be amended to reflect this change. Upon written request, Customer will provide Authorized Reseller a report identifying (i) the Actual Device Count; (ii) the copies of and location of the Premise Software maintained; and (iii) any other information reasonably requested by MobileIron or Authorized Reseller at the time as it relates to the use of the Cloud Service and reasonably necessary to determine compliance with the terms of this Agreement. MobileIron and/or its Authorized Resellers may invoice Customer if it learns of any shortfalls, i.e. that the Licensed Device Count is below the Actual Device Count. The fees charged to Customer for increases in License Device Counts will be based on the then-current Subscription Term pricing as indicated in the GSA Pricelist.

Subject to the terms herein, MobileIron, shall defend, and indemnify and hold harmless Customer and Customer Representatives, and their respective officers, directors and employees ("Customer Indemnitees") from any and all costs, expenses, losses, damages, and settlement amounts required to settle, any third party claims brought against Customer Indemnitees that the use of Cloud Service (including without limitation any Software components) as permitted herein infringes, misappropriates or violates any third party intellectual property or other proprietary right, provided that Customer Indemnitees: (a) give MobileIron prompt written notice of any such claim; (b) permit MobileIron to control and direct the defense or settlement of any such claim to the extent permitted by 28 U.S.C. 516; and (c) provide MobileIron all reasonable assistance in connection with the defense or settlement of any such claim, at MobileIron's expense. If such a claim occurs, or in MobileIron's opinion is reasonably likely to occur, MobileIron, at its expense and at its sole discretion, may: (x) procure the right to allow Customer Indemnitees to continue to use the infringing portions of Cloud Service, or (y) modify or replace the Cloud Service or infringing portions thereof to become non-infringing, or (z) if neither (x) nor (y) is available on commercially reasonable terms, terminate Customer's right to use the Cloud Service and refund any prepaid, unused subscription fees received by MobileIron. The remedies set forth in this Section constitute the indemnitees' sole and exclusive remedies, and indemnitor's entire liability, with respect to claims described in this section.

8. Ownership. The Software is licensed and not sold. As between the parties, MobileIron and its licensors shall own and retain all right, title, and (except as expressly licensed hereunder) interest in and to the Cloud Service and all copies or portions thereof, and any derivative works thereof (by whomever created). All suggestions or feedback provided by Customer (and Customer Representatives) to MobileIron or its Authorized Resellers with respect to the Cloud Services shall be MobileIron's property and deemed Confidential Information of MobileIron, and Customer hereby assigns the same to MobileIron. As between the Parties, Customer exclusively owns all rights, title and interest in and to all Customer Data.

9. Term; Termination.

a) Term. The term of this Agreement shall commence on the Effective Date and shall continue until all Subscription Terms (including any renewal terms) have expired or terminated.

b) Subscription Start Date. The Subscription Term shall commence on the date that MobileIron or the Authorized Reseller delivers to Customer all relevant Access Data (i.e. the connector code and the URL and information necessary for Customer to access and use the Cloud Service) ("Activation Date").

c) Subscription Term; Renewal. The Subscription Term shall commence on the Activation Date and continue for the Subscription Term specified in the relevant Product Schedule. The Subscription Term shall renew for any additional subscription terms purchased by Customer at the rates based on MobileIron's or Authorized Reseller's then-current GSA price list, as applicable.

d) Reserved.

e) Return of Materials; Survival. Upon termination of this Agreement, all access, rights and licenses granted to Customer hereunder shall terminate, Customer will cease all use of the Cloud Services, and Customer shall remove all Software from its systems and return to MobileIron, any tangible Confidential Information received. Notwithstanding the foregoing, at Customer's request, if received within thirty (30) days of termination of the Agreement, (i) MobileIron will permit Customer to access the Cloud Services solely to the extent necessary for Customer to retrieve applications uploaded to Cloud Services by Customer and (ii) MobileIron will make available to Customer for download a file of Customer Data in comma separated value (.csv) format along with attachments in their native format. After such thirty (30) day period, MobileIron shall have no obligation to maintain or provide any of Customer Data and shall thereafter, unless legally prohibited, delete all of Customer Data in MobileIron systems or otherwise in MobileIron's possession or under MobileIron control. Upon termination or expiration, Sections 1, 3, 4(a), 4(b), 7, 8, 9, 10, 11, 12 and 13 will survive and remain in effect.

10. Confidentiality. "Confidential Information" means any non-public data, information and/or other material regarding the products, software, services, employees, or business of a party (and/or, if either party is bound to protect the confidentiality of any third party's information, of a third party) provided by one party ("Disclosing Party") to the other party ("Receiving Party") where such information is marked or otherwise communicated as being "proprietary" or "confidential" or the like, or where such information should, by its nature, be reasonably considered to be confidential and/or proprietary. Notwithstanding the foregoing, Confidential Information shall not include information which: (i) is already known to the Receiving Party prior to disclosure by the Disclosing Party; (ii) becomes publicly available without fault of the Receiving Party; (iii) is rightfully obtained by the Receiving Party from a third party without restriction as to disclosure, (iv) is approved for release by written authorization of the Disclosing Party; (v) is independently developed or created by the Receiving Party without use of the Disclosing Party's Confidential Information; or (v) is required to be disclosed by law or governmental regulation, provided that the Receiving Party provides reasonable notice to Disclosing Party of such required disclosure and reasonably cooperates with the Disclosing Party in limiting such disclosure. Except as expressly authorized herein, the Receiving Party agrees to: (A) use the Confidential Information of the Disclosing Party only to perform hereunder (including providing the features and services associated with the normal use of the Cloud Service) or to exercise rights granted to it hereunder; (B) treat all Confidential Information of the Disclosing Party in the same manner as it treats its own similar Confidential Information, but in no case will the degree of care be less than reasonable care; and (C) disclose the Disclosing Party's Confidential Information only to those employees and contractors of the Receiving Party who have a need to know such information for the purposes of this Agreement, provided that any such employee or contractor shall be subject to obligations of non-use and confidentiality with respect to such Confidential Information at least as restrictive as the terms of this Agreement, and the Receiving Party shall remain solely liable for any non-compliance of such employee or contractor with the terms of this Agreement.

Mutual Warranties. Each party represents and warrants that (i) it has the legal power to enter into this Agreement, and (ii) it will not intentionally transmit to the other party or store on the Cloud Services any Malicious Code. Within thirty (30) days of the notification by MobileIron of the termination of Third Party Services, the Customer may terminate this Agreement for convenience (effective no earlier than the date the service access rights are terminated). Upon such termination, Customer shall be entitled to receive a pro-rata refund of any prepaid, unused subscription fees paid to MobileIron for the remainder of the Subscription Term. Use of the Software (including Documentation) constitutes agreement by the Government that the Software (including Documentation) is "commercial computer software" and "commercial computer software documentation," as relevant, and constitutes acceptance of the rights and restrictions herein.

(e) Choice of Law; Venue. This Agreement shall be governed by and construed in accordance with the Federal laws of the United States, without reference to or application of choice of law rules or principles. Notwithstanding any choice of law

provision or otherwise, the Uniform Computer Information Transactions Act (UCITA) and the United Nations Convention on the International Sale of Goods shall not apply.

MobileIron (and/or its contractors) may collect aggregated, anonymous, statistical data and information about devices and usage activity provided such data and information does NOT contain any information specifically identifiable to any individual or Customer ("Aggregated Anonymous Data"), and MobileIron (and/or its contractors) may use, store, analyze, and disclose such Aggregate Anonymous Data. For clarity, Aggregate Anonymous Data shall only include aggregated data or information which is specifically NOT identifiable to any individual or Customer. Aggregate Anonymous Data shall be owned by MobileIron.

(g) Entire Agreement; Modifications. This agreement includes the terms herein and the attached exhibits, and any terms incorporated herein by reference (collectively "Agreement") and constitutes the entire agreement between the parties with respect to the licensing of Cloud Services and other Ancillary Services or products delivered by MobileIron hereunder. Except as expressly provided herein, this Agreement supersedes and cancels all previous written and previous or contemporaneous oral communications, proposals, representations, and agreements relating the subject matter contained herein. This Agreement prevails over any pre-printed terms or other conflicting or additional terms of any purchase order, ordering document, acknowledgement or confirmation or other document issued by Customer, even if signed and returned. Except as expressly provided herein, this Agreement may be amended, or any term or condition set forth herein waived, only by a writing executed by both parties.

(h) Illegality. Should any term of this Agreement be declared invalid, void or unenforceable by any court of competent jurisdiction, that provision shall be modified, limited or eliminated to the minimum extent necessary to effectuate the original intent and such declaration shall have no effect on the remaining terms hereof, which shall continue in full force and effect.

(i) Waiver. The failure of either party to enforce any rights granted hereunder or to take action against the other party in the event of any breach hereunder shall not be deemed a waiver by that party as to subsequent enforcement of rights or subsequent actions in the event of future breaches.

(j) Assignment. This Agreement may not be assigned or transferred without the other party's prior written consent, provided each party expressly reserves the right to assign this Agreement to a successor in interest of all or substantially all of its business or assets who agrees in writing to be bound by this Agreement. Any action or conduct in violation of the foregoing shall be void and without effect. MobileIron may delegate any of its obligations hereunder, provided it shall remain fully liable and responsible for its delegates' actions or inactions in violation of this Agreement. All validly assigned rights and obligations of the parties hereunder shall be binding upon and inure to the benefit of and be enforceable by and against the successors and permitted assigns.

(k) Legal Fees.

(l) Notice. Any and all notices or other information to be given by one of the parties to the other shall be deemed sufficiently given when sent by certified mail (receipt requested), or by courier, or by hand delivery to the other party. Such notices shall be deemed to have been effective on the first business day following the day of such delivery.

(m) Basis of the Bargain. Customer acknowledges and agrees that MobileIron has set its prices and entered into this Agreement in reliance upon the disclaimers of warranty and the limitations of liability set forth herein, that the same reflect an allocation of risk between the parties (including the risk that a contract remedy may fail of its essential purpose and cause consequential loss), and that the same form an essential basis of the bargain between the parties.

International Services – Terms and Conditions

Certain eligibility restrictions apply which may be based on service tenure, payment history and/or credit. These rates are subject to change. For countries, rates, and additional details, see att.com/global.

International Long Distance: International rates apply for calls made and messages sent from the U.S., Puerto Rico and U.S.V.I. to another country. Calling or messaging to some countries may not be available. Calls to wireless numbers and numbers for special services, such as Premium Rated Services, may cost more than calls to landline numbers. If a customer calls an overseas landline number and the call is forwarded to a wireless number, the customer will be charged for a call terminated to a wireless number. International Long Distance calling rates are charged per minute and apply throughout the same footprint in which the customer's airtime package minutes apply.

International Long Distance Text, Picture & Video Messaging: Additional charges apply for premium messages and content. Messages over 300 KBs are billed an additional 50¢/message. For full details on Messaging, see att.com/dataterms. For a complete list of countries, please visit att.com/text2world.

International Roaming: Compatible Device required. Your plan may include the capability to make and receive calls while roaming internationally. AT&T, in its sole discretion, may block your ability to use your Device while roaming internationally until eligibility criteria are met. International roaming rates, which vary by country, apply for all calls placed or received while outside the U.S., Puerto Rico and U.S.V.I. Please consult att.com/global or call 866-246-4852 for a list of currently available countries and carriers. All countries may not be available for roaming. All carriers within available countries may not be available on certain plans or packages. Availability, quality of coverage and services while roaming are not guaranteed. When roaming internationally, you will be charged international roaming airtime rates including when incoming calls are routed to voicemail, even if no message is left. Substantial charges may be incurred if Device is taken out of the U.S. even if no services are intentionally used. Billing for international roaming usage may be delayed up to three billing cycles due to reporting between carriers. Taxes are additional. If you want to block the ability to make and receive calls or use data functions while roaming internationally, you may request that by calling 1-916-843-4685 (at no charge from your wireless phone).

International Data: Many devices, including iPhone transmit and receive data messages without user intervention and can generate unexpected charges when powered "on" outside the U.S., Puerto Rico and U.S.V.I. AT&T may send "alerts" via SMS or email, to notify you of data usage. These are courtesy alerts. There is no guarantee you will receive them. They are not a guarantee of a particular bill limit. Receipt of Visual Voicemail messages are charged at international data pay-per-use rates unless customer has an international data plan, in which case receipt of Visual Voicemail messages decrement Kilobytes included in such plan. For terms and conditions regarding specific international data plans, see att.com/dataterms.

Data Global Add-Ons and Global Messaging Plans require that domestic data or messaging capability be in place. Rates apply only for usage within "roam zone" comprised of select carriers. Within the roam zone, coverage rate applies if you exceed the MB allotted for any Data Global Add-On Plan or the messages allotted for any Global Messaging Package. International roaming pay-per-use rates apply in countries outside the roam zone. See att.com/dataconnectglobal for current roam zone list. If you enroll after the beginning date of your billing cycle, the monthly charge and the data/message allotment included will be correspondingly reduced per day.

Data Connect Global/North America Plans do not include capability to place a voice call and require a 1 year agreement.

Cruise Ship Roaming: Cruise ship roaming rates apply for calls placed or data used while on the ship.

Export Restrictions: Certain international destinations are subject to trade sanctions, embargoes and restrictions under U.S. law and import licensing under foreign laws. As of May 1, 2009, the U.S. had embargoes or export restrictions with five countries, including Syria and Sudan, which may require an export license for your wireless Device. See http://www.treas.gov/offices/enforcement/ofac/programs/ and http://www.bis.doc.gov for specific information. You are solely responsible for complying with U.S. Export Control laws and regulations, and the import laws and regulations of foreign countries when traveling internationally with your Device.

2.2 Term.

2.2.1 Standard Term. For EASE Standard, the Term is called the "Standard Term". It commences upon completion by Customer of its online registration for EASE Services and continues for an indefinite period, ending on the start date of the Enterprise Term (if Customer enters into an Order Form for EASE Enterprise). For EASE Standard, Customer may terminate this Agreement at any time, with or without cause, by giving notice to Apperian.

2.2.2 Enterprise Term. For EASE Enterprise, the Term is called the "Enterprise Term". It commences upon the start date indicated in the Order Form and continues either on a month-to-month or year-to-year basis, as indicated in the Order Form. For a month-to-month subscription, the "Term Period" means any month during that period, which month commences on the same day as the first month in the Enterprise Term. For a year-to-year subscription, the "Term Period" means any year during that period, which year commences on the same day as the first year in the Enterprise Term. Except as otherwise specified in the applicable Order Form.

2.3 EASE Services. Subject to the provisions herein delineating differences between EASE Standard and EASE Enterprise and the other provisions in or referenced in Section 2.1 (License Grant), the licensed EASE Services consist of the following rights of Customer: (a) to download the EASE SDK and a Catalog from the EASE Server via the Internet to Customer computers (the Catalog is limited to a Standard Catalog unless Customer engages Apperian to create a Custom Catalog for it); (b) to use the EASE SDK to create Applications; (c) to upload Applications and a Standard Catalog or Custom Catalog to the EASE Server via the Internet; (d) to have Apperian (or its hosting provider) host the Applications and the Standard Catalog or Custom Catalog on the EASE Server; and (e) to allow End Users (i) to download the Catalog from the EASE Server to Devices and (ii) to use the Catalog to access and use the Applications on the EASE Server through the Devices. Only the Customer EASE Team may exercise these rights on behalf of Customer, not End Users in general. Additional details about the EASE Services and how to use them are provided in the Documentation, but nothing in the Documentation shall be deemed to grant any license beyond that granted herein.

2.4 Software, Documentation, and Content. With respect to Downloadable Software, the license grant is limited to the rights enumerated in Section 2.3 (insofar as applicable to that software), plus the right to make a reasonable number of copies of that software (including Applications incorporating that software) for backup and for the purposes permitted in Section 2.5.1. Apperian is only required to provide the Downloadable Software in object code form (although, in its sole discretion, it may provide some in source code format). With respect to Downloadable Documentation, the license grant is limited to the rights enumerated in Section 2.3(a) and (b) (insofar as applicable to that documentation), plus the right to make a reasonable number of copies of that documentation for use by the Customer EASE Team, but without any right to modify the documentation or distribute it further. Except as expressly provided herein with respect to Downloadable Software and Downloadable Documentation, neither Customer, Customer EASE Team, nor End Users shall copy, modify, create any derivative work from, or distribute any EASE Component, or merge it with any other software, documentation, content, or work. Customer, Customer EASE Team, and End Users shall not alter or delete any copyright, patent, trademark, or other proprietary notices from any EASE Component. Customer, Customer EASE Team, and End Users shall not translate, decompile, disassemble, or reverse-engineer any EASE Component, except to the extent that applicable law grants a right to do so that may not be waived, or electronically frame or mirror it. As provided herein, Apperian grants Customer certain limited rights to use the EASE Services; no software, documentation, or content is sold to Customer.

2.5 Use.

2.5.1 Permitted Use. FOR EASE STANDARD, CUSTOMER'S LICENSE TO EASE SERVICES IS LIMITED TO USING THEM ONLY TO DEVELOP, TEST, AND EVALUATE APPLICATIONS, NOT FOR ANY REGULAR USE BY END USERS OR ANY OTHER USE. FOR EASE ENTERPRISE, CUSTOMER'S LICENSE TO EASE SERVICES IS LIMITED TO USING THEM ONLY TO DEVELOP, TEST, EVALUATE APPLICATIONS, AND TO ALLOW END USERS TO MAKE REGULAR USE OF APPLICATIONS (THROUGH COMPATIBLE DEVICES), AND NOT FOR ANY OTHER USE.

2.5.2 Use Limitations. Customer, the Customer EASE Team, and End Users shall use the EASE Services only in accordance with this Agreement, the Documentation, and applicable laws and government regulations. Without limitation, Customer shall assure that each Application and Catalog that it uploads to the EASE Server, and that Customer's upload themselves, meet the requirements of the Documentation and this Agreement. Customer shall not (a) allow anyone other than registered End Users and the EASE Customer Team to access or use any Application through a Catalog accessing the EASE Services, (b) allow anyone other than the EASE Customer Team to access or use any other aspect of the EASE Services, including without limitation any EASE Component, (c) upload anything other than Applications, Catalogs and Media Files to the EASE Server, (d) allow End Users to download anything from the EASE Server other than Applications, Catalogs or Media Files, or upload anything to it, (e) sell, resell, rent, lease, or sublicense the EASE Services or access to them, (f) use the EASE Services to store or transmit infringing, libelous, or otherwise unlawful works or other matter, or to violate any privacy rights, (g) use the EASE Services to store or transmit Malicious Code (including to, on, or through the EASE Server or any Device), (h) interfere with or disrupt the integrity or performance of the EASE Services or third-party data contained therein, (i) attempt to gain unauthorized access to the EASE Services or their related systems or networks, (j) use the EASE Services in order to build a

competitive product or service, or copy features, functions, or graphics of the EASE Services for such purpose, or (k) use or permit the use of the EASE Services in any manner that may involve risk of death, personal injury, property damage, or environmental damage. In addition, Customer (x) shall be solely responsible for all activities of the Customer EASE Team and the End Users in connection with the EASE Services, (y) shall be solely responsible for and the accuracy, quality, integrity and legality of Customer Data and of the means by which such Customer Data was acquired, and (z) shall notify Apperian promptly of any unauthorized access or use of any Application or Catalog or the EASE Services of which Customer becomes aware.

2.5.3 No GPL Code. In its creation of Applications using the EASE SDK and in any customization of the Standard Catalog, Customer shall not embed, incorporate, link to, call, or otherwise use any code that is subject to any General Public License, Lesser General Public License, or any other license that requires in any way that if any work containing or linking to such code is licensed or otherwise transferred or made available, the license, transfer, or availability must be (a) with source code for the work available, (b) substantially free of charge for any redistribution, and/or (c) under a substantially similar license.

2.5.4 Usage Limitations. Apperian may from time to time impose other reasonable limitations on Customer's use of EASE Services, including without limitation limits on disk storage space, on the number of Applications that Customer has on the EASE Server, and on the number of End Users.

2.6 Number of Devices. Each Device that accesses the EASE Services under Customer's subscription may be uniquely identified and logged by Apperian.

2.6.1 EASE Standard. For EASE Standard, the number of Devices that may access and use EASE Services is limited to a reasonably small number commensurate with the limited permitted use for EASE Standard (only development, testing, and evaluation of Applications – see Section 2.5.1). Device Suppliers and other third parties may effectively impose their own limits on the number of Devices. See Section 4.3.

2.6.2 EASE Enterprise. For EASE Enterprise, unless otherwise specified in the Order Form, Customer purchases the EASE Enterprise version of EASE Services as a subscription for a Term Period for an agreed number of unique Users. If at any time Customer allows the cumulative number of unique Users that have accessed the EASE Services under Customer's subscription during any Term to exceed that agreed number of unique Users (as it may have been previously adjusted under this Section), Apperian through its rauthorized reseller shall invoice Customer for the additional number of unique Users that have accessed the EASE Services, from their date of first access to the EASE Services. For each such additional User, Apperian shall invoice Customers on Yearly renewals the remainder of the Term Period in which the Device is added the same Subscription Fee per User as for the Users already in Customer's subscription for that entire Term Period, prorated for the remainder of the Term Period. The ending date for each Term Period for each User so added to the subscription shall be the same as for the Users already in Customer's subscription. The number of Users that are in Customer's subscription may not be reduced within any Term Period. Device Suppliers and other third parties may effectively impose their own limits on the number of User Devices. See Section 4.3.

2.7 Customer EASE Team. The "Customer EASE Team" means all employees and agents of Customer who either (a) develop, test, and/or evaluate Applications or Catalogs for Customer and/or (b) administer the EASE Services for Customer. It does not include End Users generally; however, Customer EASE Team members may register as End Users (e.g., to test or evaluate Applications). At all times during the Term, Customer shall have one or more individual(s) on the Customer EASE Team who are Customer's employees and who administer the EASE Services for Customer. At all times during the Term, Customer shall provide Apperian with the names and current contact information of Customer administrator(s). Each Customer administrator shall have full power and authority to deal with Apperian on all matters related to the EASE Services. The individual who registers Customer online for EASE Standard shall be deemed to be a Customer administrator. Customer may change its administrator(s) at any time by giving notice thereof to Apperian.

2.8 End Users.

2.8.1 Registration. Each End User that uses the EASE Services must register prior to using the EASE Services. Customer, through the Customer EASE Team and in the manner prescribed by the Documentation (or through Apperian at Customer's request), must authorize each such registration. Customer, Customer EASE Team, and End Users shall keep End User passwords confidential. An End User may use more than one Device without having to re-register as an End User.

2.8.2 Who May Be an End User. Any individual may be an End User other than an individual who is an Apperian Competitor or an employee or other agent of an Apperian Competitor. End Users may include, without limitation,

Customer's employees, consultants, contractors, and agents, as well as third parties with whom Customer transacts business provided they are not Apperian Competitors. SEE SECTION 4.3 FOR CERTAIN OTHER LIMITATIONS.

2.9 Customer Responsibility. Customer shall ensure that all End Users and all Customer EASE Team members comply with this Agreement in their use of EASE Services and otherwise.

2.10 Audit. From time to time, Apperian may audit use of the EASE Services by Customer, Customer EASE Team, and End Users for compliance with this Agreement. In addition, Apperian may, through its hosting activities, monitor that use.

3. AVAILABILITY, SUPPORT, & OTHER SERVICES.

3.1 Availability. Apperian shall use commercially reasonable efforts to make the EASE Services available 24 hours a day, 7 days a week, except for (a) planned downtime for system maintenance, (b) any unavailability caused by circumstances beyond Apperian's reasonable control, including without limitation, acts of God, acts of government, flood, fire, earthquakes, civil unrest, acts of terror, strikes or other labor problems (other than those involving Apperian employees), or third party failures or delays (including those by any hosting provider or Internet service provider), and (c) support, which shall be provided as specified in Section 3.2.

3.2 Support. Customer may submit support issues and questions to the Apperian support team between the hours of 8:00 a.m. and 8:00 p.m., U.S. Eastern time, Monday through Friday, excluding U.S. and Apperian holidays. Only the Customer EASE Team may make submissions. For EASE Standard, Customer may make submissions via the e-mail address(es) and/or web portal(s) that Apperian from time to time designates. For EASE Enterprise, Customer may make submissions via the e-mail address(es), web portal(s), and/or phone number(s) that Apperian from time to time designates, and Apperian shall respond within two business days.

3.3 Custom Catalog. If indicated in an Order Form for EASE Enterprise, Customer purchases one-time services from Apperian to customize the Standard Catalog (into a Custom Catalog) by branding the Standard Catalog for Customer with Customer's name and logo on the splash and login screens. Customer grants Apperian a license to Customer's name, logo, and other trademarks and service marks, but only for the purpose of creating this Custom Catalog and hosting it through the EASE Services. Apperian may include "Powered by Apperian EASE Services" (or a substantially similar statement) on the splash and login screens, but in less prominence than Customer's branding. Included with this Catalog customization are enterprise authentication configuration and testing. For EASE Standard, Apperian does not provide any Catalog customization or enterprise authentication.

3.4 Other Professional Services. If Customer desires any professional services from Apperian beyond those expressly addressed in this Agreement, the parties shall negotiate and enter into a separate written agreement for them.

3.5 No Contingency. Customer agrees that Customer's purchases hereunder are neither contingent on the delivery of any future functionality or features nor dependent on any oral or written public or private comments made by Apperian regarding future functionality or features.

3.6 Malicious Code. Apperian shall use reasonable commercial efforts not to transmit any Malicious Code to any Customer server or Device (except any Malicious Code introduced by Customer, a Customer EASE Team member, or an End User).

3.7 Customer Assistance. Customer shall, at its expense, provide all such information and assistance as Apperian may reasonably request for its rendering of support and other services hereunder.

4. THIRD PARTY MATTERS.

4.1 Required Equipment, Etc. To use the EASE Services, Devices that are compatible with those services are required. See Documentation for listing of compatible Devices. In addition, in order for the Customer EASE Team and End Users to access the EASE website(s) — the former for development, test, evaluation, and administration, and the latter to register — they will require web browsers adequate for those purposes. To develop Applications and to customize the Catalog, the Customer EASE Team will also require adequate hardware, software, and development skills and Customer may need to enter into arrangements with Device Suppliers and other third parties (see Section 4.3 on Third Party Limitations). It is up to Customer and its End Users to provide, at their expense, all such items.

4.2 Third-Party Products and Services. Any acquisition or use by Customer or an End User of third party products or services, including without limitation third party applications and implementation, customization, and other consulting services, and any exchange of data between Customer or an End User, on the one hand, and any third party provider, on the other hand, is solely between those parties. Apperian does not warrant or support any third-party products or services.

4.3 Third Party Limitations. DEVICE SUPPLIERS AND OTHER THIRD PARTIES MAY IMPOSE LIMITATIONS AND REQUIREMENTS THAT IMPACT CUSTOMER'S USE OF EASE SERVICES AND DOWNLOADABLE SOFTWARE.

Without limitation, here are some examples: (a) in order for an EASE Standard Customer to develop, test, and evaluate Applications for use with iOS Devices, Customer must have a so called "ad hoc" license from Apple and each Application must have an "ad hoc" profile; (b) that ad hoc license from Apple effectively limits the number of Devices that may access EASE Services; (c) in order for an EASE Enterprise Customer to use EASE Services with iOS Devices, Customer must have a so-called "enterprise" license agreement with Apple; (d) if Customer develops Applications for use with iOS Devices and does so under an enterprise license agreement with Apple, Apple imposes its own limitations on who End Users may be; and (e) as to Applications for iOS Devices, Apple may from time to time check to see if the Application has a certificate as required by Apple. Other devices may have similar limitations. IT IS CUSTOMER'S RESPONSIBILITY TO ENTER INTO ALL NECESSARY ARRANGEMENTS WITH DEVICE SUPPLIERS AND OTHER THIRD PARTIES AND TO COMPLY WITH THOSE ARRANGEMENTS AND ANY OTHER APPLICABLE LIMITATIONS AND REQUIREMENTS OF DEVICE SUPPLIERS AND OTHER THIRD PARTIES4.4. Third Party Applications and Customer Data. Customer may install third party applications on the EASE Server only with Apperian's prior written consent and only if Customer obtains for Apperian all necessary rights for it to host such applications. If Customer installs, enables, or uses any third party application with EASE Services, whether or not it is installed on the EASE Server, Apperian is permitted to allow those third party applications (or their providers) to access Customer Data as may be required (for example, for the interoperation of such third party applications with the EASE Services). Apperian shall not be responsible for any disclosure, modification, or deletion of Customer Data resulting from any such access by third party application (or their providers). No End User may install any third party application on the EASE Server.

5. FEES & PAYMENT. This Section applies to EASE Enterprise only.

5.1 Fees. The Subscription Fee is per unique User that accesses the EASE Services at any time during any Term, under Customer's subscription. It is assessed per Term Period, which is one month, if Customer is on a month-to-month subscription, or one year, if Customer is on a year-to-year subscription. The Term Period and the initial Subscription Fee per unique User for that Term Period are as indicated in the relevant Order Form. Customer shall pay to Apperian through its authorized reseller all Subscription Fees specified in the Order Forms hereunder, as they may be adjusted for Users added to the subscription under Section 2.6.2 (Number of Users – EASE Enterprise) or as they may be adjusted under Section 5.2 (Renewal Fees). Customer shall also pay to Apperian through its authorized reseller all other fees specified in the Order Forms (for example, for creating a Custom Catalog pursuant to Section 3.3). Except as otherwise expressly agreed herein or in an Order Form, (i) fees are quoted and payable in United States dollars, (ii) fees are based on services purchased and not actual usage, and (iii) payment obligations are non-cancelable and fees paid are non-refundable.

5.2 Renewal Fees

5.3 Invoicing and Payment. Customer shall pay each monthly invoice upon receipt, and annually billed invoice within 30 days from the invoice date. Customer shall maintain current, complete, and accurate billing and contact information with Apperian, in the manner specified by Apperian.

5.4 Taxes. Unless otherwise stated in an Order Form, Apperian's stated fees do not include any taxes, levies, duties or similar governmental assessments of any nature, including without limitation value-added, sales, use, and withholding taxes, assessable by any local, state, provincial, federal or foreign jurisdiction (collectively, "Taxes"). Customer is responsible for paying all Taxes associated with Customer's purchases hereunder.

If Apperian has the legal obligation to pay or collect Taxes for which Customer is responsible under this Section, Customer shall promptly pay the Taxes upon invoice by Apperian, except as to any Taxes for which Customer provides Apperian with a valid tax exemption certificate authorized by the appropriate taxing authority. Apperian is solely responsible for taxes assessable against it based on its net income, property and employees.

6. INTELLECTUAL PROPERTY RIGHTS.

6.1 Reservation of Rights. As between Apperian and Customer and subject to the license granted in Section 2 to Customer, Apperian reserves all right, title and interest in and to EASE and all EASE Components, including all intellectual property rights therein. No rights are granted to Customer hereunder other than as expressly set forth herein.

6.2 Customer Data. As between Apperian and Customer, Customer shall own all right, title and interest in and to all of Customer Data input by it to the EASE Services or Applications, subject to a license to Apperian therein as necessary to provide the EASE Services to Customer.

6.3 Applications and Catalogs. As between Apperian and Customer, Customer shall own all right, title, and interest in and to any and all Applications and Custom Catalogs created by or for Customer, except that Apperian shall own all right, title, and interest in and to (a) any and all Applications and Custom Catalogs created by or for Apperian for Customer,

subject to the license granted in Section 2 to Customer therein, and (b) any and all code provided by Apperian that is embedded in, incorporated into, linked to, called by, or otherwise used by any Application or Custom Catalog, including without limitation any code from the EASE SDK or Standard Catalog, subject to the license granted in Section 2 to Customer therein, except in accordance with Federal Acqusition Regulation 52.227-14, the Customer shall have unlimited rights at no additional charge. As between Apperian and Customer, Apperian shall own all right, title and interest in and to any Standard Catalog and all sample Applications. Customer's ownership interest in any Application or Custom Catalog (as provided in this Section) does not give Customer any right to use any the EASE Services or any EASE Component after the Term, or grant or extend after the Term any license in any code provided by Apperian.

6.4 Suggestions. Apperian shall own all right, title and interest in and to any and all suggestions, enhancement requests, recommendations, and other feedback provided by Customer (including the Customer EASE Team) and/or End Users, relating to any aspect of EASE or the EASE Services.

6.5 Further Assurances. Each party shall execute and deliver all such instruments and take all such actions as the other party shall from time to time reasonably request in order more effectively to convey and transfer all rights conveyed to the other party in this Section 6 (and/or cause its employees, agents, Customer EASE Team members, and End Users to do so, where requested by Apperian).

6.6 U.S. Government License Rights. Any software made available hereunder to the U.S. Government is provided as "commercial computer software" and any related documentation is provided as "commercial computer software documentation," or if applicable as to software or documentation as a "commercial item or process," and all such software and documentation are provided only with the commercial license rights and restrictions contained in the other Sections of this Agreement, which are those customarily provided to the public. Refer to 48 CFR 12.211, 48 CFR 12.212, 48 CFR 227.7102, 48 CFR 227.7102-1, 48 CFR 227.7202-1, and the similar acquisition regulations of other U.S. Government organizations, as applicable.

6.7 Trademarks. EASE, APPERIAN, MOBILITY TRANSFORMED and EPICENTER are registered trademarks of Apperian. APPLE is a registered trademark and IOS is a trademark of Apple Inc. No license is granted hereby to either Apperian or Customer in any trademark owned or licensed by the other, except as provided in Section 3.3.

7. CONFIDENTIALITY.

7.1 Definition of Confidential Information. As used herein, "Confidential Information" means all confidential information disclosed by a party ("Disclosing Party") to the other party ("Receiving Party"), whether orally or in writing, that is designated as confidential or that reasonably should be understood to be confidential given the nature of the information. Without limitation, Customer's Confidential Information shall include Customer Data and all intellectual property owned by Customer pursuant to Section 6. Without limitation, Apperian's Confidential Information shall include all EASE Components, all intellectual property owned by Apperian pursuant to Section 6, and this Agreement and all Order Forms. Confidential Information (other than that identified in the preceding two sentences) shall not include any information that (i) is or becomes generally known to the public without breach of any obligation owed to the Disclosing Party, (ii) was known to the Receiving Party prior to its disclosure by the Disclosing Party without breach of any obligation owed to the Disclosing Party, (iii) is received from a third party without breach of any obligation owed to the Disclosing Party, or (iv) was independently developed by the Receiving Party.

7.2 Protection of Confidential Information. Except as otherwise permitted in writing by the Disclosing Party, (i) the Receiving Party shall use the same degree of care that it uses to protect the confidentiality of its own confidential information of like kind (but in no event less than reasonable care), (ii) the Receiving Party shall not disclose or use any Confidential Information of the Disclosing Party for any purpose outside the scope of this Agreement, and (iii) the Receiving Party shall limit access to Confidential Information of the Disclosing Party to those of its employees, contractors and agents who need such access for purposes consistent with this Agreement and who have signed confidentiality agreements with the Receiving Party containing protections for the Confidential Information of the Disclosing Party that are no less stringent than those herein, and the Receiving Party shall ensure that they comply with such confidentiality agreements. Under clause (iii) of the preceding sentence, Customer is required to have Customer EASE Team members sign confidentiality agreements but not general End Users. No confidentiality agreement need refer specifically to the Confidential Information protected by this Agreement, as long as such information is within the scope of protection of the agreement. At its option, Apperian may, through EASE Services, require End Users to agree to a brief standard agreement.

7.3 Protection of Customer Data. Without limiting the above, Apperian shall maintain reasonable administrative, physical, and technical safeguards for protection of the security, confidentiality, and integrity of Customer Data. Apperian shall not (a) modify Customer Data, (b) disclose Customer Data except as provided in Section 7.4 (Limited Disclosure) or as

expressly permitted in writing by Customer, or (c) access or use Customer Data, except to provide the EASE Services, or to prevent or address service or technical problems, or at Customer's request, or as otherwise provided herein.

7.4 Limited Disclosure. The Receiving Party may disclose Confidential Information of the Disclosing Party if the disclosure is required as a matter of law or by order of a court, governmental agency, or arbitral tribunal of competent jurisdiction or it is needed in connection with the prosecution or defense of a claim, provided (a) the Receiving Party gives the Disclosing Party reasonable prior notice of such disclosure (to the extent legally permitted) and (b) that Receiving Party takes reasonable and lawful actions requested by the Disclosing Party and cooperates with the Disclosing Party to avoid and/or minimize the extent of such disclosure. In addition, if the Receiving Party assigns or transfers this Agreement in a transaction that is permitted under Section 13.6, the Receiving Party may also disclose Confidential Information of the Disclosing Party to the acquiring entity.

8. WARRANTIES.

8.1 Apperian Warranties. For EASE Enterprise, Apperian warrants to Customer that (i) the EASE Services shall perform substantially in accordance with the Documentation, as updated from time to time by Apperian, and (ii) the functionality of the Services will not be materially decreased during a Term Period. For any breach of either such warranty, Customer's exclusive remedy shall be as provided in Section 11.3 (Termination for Cause) and, if Customer terminates under Section 11.3 and Apperian does not cure in the period prescribed therein, Section 11.4 (Refund or Payment upon Termination).

8.2 Mutual Warranties. Each party represents and warrants to the other party that it has the legal power to enter into this Agreement.

8.3 Disclaimer. EXCEPT AS OTHERWISE EXPRESSLY SET FORTH IN THIS AGREEMENT, NEITHER PARTY MAKES ANY REPRESENTATIONS ORWARRANTIES OF ANY KIND WHATSOEVER, WHETHER WRITTEN OR ORAL, EXPRESSOR IMPLIED OR STATUTORY OR OTHER, INCLUDING WITHOUT LIMITATION WARRANTIES OFMERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, NON-INFRINGEMENT, VALIDITY OF PATENTS, OR TITLE, OR ARISING FROM COURSE OF PERFORMANCE, COURSE OF DEALING, OR USAGE OF TRADE, OR BY OPERATION OF LAW, OR FROM ADVERTISING, BROCHURES, PROMOTIONAL MATERIALS, PROPOSALS, DOCUMENTATION, PACKAGING, OR OTHER DESCRIPTIVE LITERATURE OR COMMUNICATIONS. NOTWITHSTANDING ANYTHING SET FORTH IN THIS AGREEMENT TO THE CONTRARY, EASE STANDARD IS PROVIDED "AS-IS" AND WITHOUT ANY WARRANTY WHATSOEVER. THIS DISCLAIMER CONSITUTES AN ESSENTIAL PART OF THIS AGREEMENT.

9. MUTUAL INDEMNIFICATION.

9.1 Indemnification by Apperian. Apperian shall defend Customer against any Claim made or brought against Customer by a third party alleging that the use of the EASE Services as permitted hereunder, infringes or misappropriates the intellectual property rights of a third party, if the infringement or misappropriation occurs during the Enterprise Term, and shall indemnify Customer for any damages finally awarded against Customer in connection with any such Claim.

9.2 Conditions to Indemnification. Each promise of indemnification and defense provided in this Agreement is conditioned upon the Customer (a) promptly giving written notice to Apperian of the Claim; (b) giving Apperian control of the defense and settlement of the Claim to the extent permitted by 28 U.S.C. 516 (provided that Apperian may not settle any Claim without the consent of the Customer, which shall not unreasonably be withheld, delayed, or conditioned); and (c) providing to Apperian all reasonable assistance, at the Customer's expense. In addition to the defense promised by Apperian, the Customer may, at its own expense, also provide its own counsel in defense of a Claim.

9.3 Exclusive Remedy. This Section 9 (Mutual Indemnification) states Apperian's sole liability to, and the Customer's exclusive remedy against, the other party for any type of Claim covered in this Section 9.

10. LIMITATION OF LIABILITY.

10.1 Limitation of Amount. IN NO EVENT SHALL EITHER PARTY'S MAXIMUM CUMULATIVE LIABILITY ARISING OUT OF THIS AGREEMENT, WHETHER BASED UPON WARRANTY, CONTRACT, NEGLIGENCE, TORT, STRICT LIABILITY, OR ANY OTHER THEORY OF LIABILITY, EXCEED IN THE AGGREGATE THE ACTUAL PAYMENTS RECEIVED BY APPERIAN HEREUNDER.

10.2 Exclusion of Consequential and Related Damages. IN NO EVENT SHALL EITHER PARTY HAVE ANY LIABILITY TO THE OTHER PARTY FOR ANY LOST PROFITS OR REVENUES, OR FOR ANY INDIRECT, SPECIAL, INCIDENTAL, CONSEQUENTIAL, COVER, OR PUNITIVE DAMAGES, OR FOR ANY LOSS OF OPPORTUNITIES, LOSS OF DATA, OR LOSS OF USE, HOWEVER CAUSED, WHETHER IN CONTRACT, TORT OR UNDER ANY

OTHER THEORY OF LIABILITY, AND WHETHER OR NOT THE PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

10.3 Exceptions. The limitations in Section 10.1 and 10.2 shall not apply to (a) any access, use, or disclosure of any software, documentation, content, Customer Data, or other Confidential Information beyond that expressly permitted by this Agreement or to any other infringement of any intellectual property rights of either party (or its providers), including without limitation any intellectual property rights acknowledged or conveyed in Section 6, or (b) any indemnification or defense expressly promised in this Agreement. To the extent (if any) that any disclaimer or limitation of liability or remedy in this Agreement is not permitted by applicable law, it shall not apply, but the liable party shall have the right to make any election as to required remedy. The foregoing exclusion/limitation of liability shall not apply to (1) personal injury or death resulting from Apperian's negligence; (2) for fraud; or (3) for any other matter for which liability cannot be excluded by law.

10.4 Time Limit. No action or proceeding arising out of or related to this Agreement, whether by litigation, or otherwise, may be initiated by either party more than six years after the cause of action accrues. Excepted are actions for nonpayment of fees or for infringement of any intellectual property rights or for breach of confidentiality.

11. TERM AND TERMINATION.

11.1 Term. As to Term, see Section 2.2.

11.2 Effect of Termination on License. Any termination or expiration of this Agreement shall also terminate the license of EASE Services to Customer hereunder, including without limitation the license of Downloadable Software and Downloadable Documentation.

11.3 Termination for Cause. Customer may terminate for cause in accordance with FAR 52.212-4(m). if Apperian becomes the subject of a petition in bankruptcy or any other proceeding relating to insolvency, receivership, liquidation, or assignment for the benefit of creditors which is not dismissed or resolved within 120 days then Customer may terminate in accordance with FAR 52.212-4(l).

11.4 Refund or Payment upon Termination. Upon any termination of this Agreement for cause by Customer, Apperian shall refund to Customer any prepaid Subscription Fees covering the remainder of the Term Period after the effective date of termination. Upon any termination of this Agreement for cause by Apperian, Customer shall pay any unpaid Subscription Fees covering the remainder of the term after the effective date of termination and any other unpaid fees. In no event shall any termination relieve Customer of the obligation to pay any fees payable to Apperian for the period prior to the effective date of termination.

11.5 Customer Data. Customer may at any time prior to Termination download a file of their own Customer Data, including reports and logs, in comma separated value (.csv) format Apperian shall have no obligation to maintain or provide any Customer Data.

11.6 Disposition of Other Confidential Data. Except as provided in Section 11.5 and this Section, each party shall, promptly upon any expiration or termination of this Agreement and unless legally prohibited, return, erase, or destroy all Confidential Information of the other party in its custody or control, including all copies thereof, and have an officer certify the same to other party. This requirement shall not apply to Downloadable Software that is a part of Applications or Catalogs, since they will cease to function upon termination of the EASE Services, but Section 7 (Confidentiality) shall still apply to such Downloadable Software.

11.7 Survival. Upon any expiration or termination of this Agreement, any provision that by its nature would be understood to survive expiration or termination shall survive, including without limitation, all indemnifications and limitations of liability, and, to the extent applicable after expiration or termination, Sections 1.3 (Notice to EASE Standard Customers), 5 (Fees & Payment), 6 (Intellectual Property Rights), 7 (Confidentiality), 8.2 (Mutual Warranties) through 14 (Definitions). Without limitation, any claim for breach or damages arising prior to or as a result of the expiration or termination shall survive.

12. NOTICES, GOVERNING LAW, VENUE, AND INJUNCTION.

12.1 Notices. Except as explicitly stated in Section 11.10, any Third Party Software (including any appurtenant maintenance and/or support purchased) listed on an Order is provided "AS IS", with no warranties of any kind. Any Third Party Software sublicense will terminate when this EULA terminates, when the User License terminates, or when the Software is no longer being used by User. User shall not reverse engineer, modify, copy, distribute, or otherwise disclose the Third Party Software, which shall be subject to the same restrictions as those set forth with respect to the Software in Section 3.

5. MAINTENANCE AND SUPPORT.

Thereafter, with respect to all Licensed Units under license, User may elect to (i) renew Maintenance, or (ii), elect not to renew Maintenance. In the event User adds Licensed Units under a Perpetual License pursuant to Section 8 during a Maintenance Period, the Maintenance Fees for such Licensed Units shall be prorated from the date they are added to the end of the then---current Maintenance Period at the rate for Maintenance Fees in effect for such Maintenance Period. If AirWatch is providing Hosted Services in a shared environment in connection with Devices under Perpetual Licenses and User elects to terminate Maintenance, then AirWatch may terminate the Hosted Services with no further obligations or liability, until such time as Maintenance is reinstated or the Maintenance Fees are brought current

5.2 Additional Work. To the extent that AirWatch is requested to provide services to User beyond AirWatch's standard Maintenance, the resulting services shall be provided to User as Professional Services under an Order or SOW, billed at AirWatch's then---current negotiated rates for Professional Services, and invoiced to User as provided in Section 9. All Professional Services provided at User's site shall be subject to AirWatch's then---current negotiated expense reimbursement policies and under a separate order or SOW.

6. HOSTED SERVICES.

Hosted Services are provided whenever AirWatch will host the Software on User's behalf, as set forth in the Order. Section 6 does not in any way apply in instances where User will host the Perpetual Licenses or Subscription Licenses on its own premises, and, in all such circumstances, User shall have no rights and AirWatch shall have no obligations under this Section 6.

6.1 Systems Management. AirWatch, or its hosting supplier, shall: (i) provide all necessary hardware and communications facilities in connection with delivery of Hosted Services (the "AirWatch Server(s)"); (ii) use commercially reasonable efforts to monitor and maintain the host servers and to ensure continuous connectivity, availability, and operation of the host servers on the World Wide Web; and (iii) monitor hardware and systems Software and environmental controls and take commercially reasonable actions based on detected problems or issues as necessary to achieve the service levels set forth herein.

6.3 Outage *Notification and Classification*. Upon discovery by User of a failure or lack of Availability for any period of time of at least one minute during which User is unable to utilize the Hosted Services due to AirWatch's failure to provide User with the specified services (an "Outage"), User shall notify the Customer Support Center. Upon verification of such a failure or lack of Availability, AirWatch, in consultation with User, will promptly issue an internal case number, classified as Level 1, 2, or 3 (described below). Classifications of Outages are as follows:

6.3.1 Level 1: Complete Outage of the Hosted Services;

6.3.2 Level 2: Significant, frequent and recurring complications or disruptions in User's Access to the AirWatch Server where such failures adversely impact User's business operations, although the Hosted Services remain substantially operational; or

6.3.3 Level 3: Minimal interference or disruptions in User's Access to the AirWatch Server causing insignificant impact to User's business operations.

6.4 AirWatch Response Times. Upon issuing an internal case number, classified as either Level 1, 2, or 3 in the manner set forth in Section 6.3, AirWatch agrees to use commercially reasonable efforts to respond to reported failures according to the following schedule:

- Level 3: 1 Business Day, as measured from the time of issuance of the internal case number by AirWatch.

The AirWatch response times set forth in this Section 6.4 are not excluded from Outage computations for credit calculations under Section 11.4 unless the Outage itself is the result of an Excluded Event as defined in Section 11.4.

6.5 Other Parties. If an Outage occurs as a result of action or inaction by any party other than AirWatch, AirWatch shall use commercially reasonable efforts to restore Availability. In the event such Outage occurs as a result of action or inaction by User, then the restoration of Availability will be invoiced for User's account at AirWatch's then–current time and

expense negotiated rates. If in the event that User and AirWatch are unable to agree on a negotiated time and expense rates pursuant to a separate contract between AirWatch and the User, then AirWatch will have no further liability under this Agreement.

7. THIRD PARTY APPLIANCE.

7.1 Delivery. Third Party Appliances may be delivered to User when User will host the Software on its own premises, but are not delivered in every instance. If and as set forth in the Order, User has agreed to purchase Third Party Appliance(s) in connection with a Perpetual License, AirWatch will provide the Third Party Appliance(s) to User with the number of pre---loaded licenses for Licensed Units reflected on the Order. This Section 7 does not in any way apply unless a Third Party Appliance is provided and, in all other circumstances, User shall have no rights and AirWatch shall have no obligations under this Section 7.

7.2 Manufacturer's Warranties. AirWatch hereby assigns to User all assignable warranties, representations, covenants, and indemnities granted to AirWatch by any third party in connection with any Third Party Appliance provided to User and all assignable remedies for breach of such warranties, representations, covenants and indemnities.

User agrees to pay the license and/or Maintenance fees, and such other fees as set forth in a task order, to Reseller pursuant to the payment terms forth in the task order. Unless otherwise set forth in the task order, all fees are due and payable within thirty (30) days of the date of invoice. Any amounts not paid in accordance with the task order shall be subject to the terms of the Prompt Payment Act.

9.1 Reseller Payments. AirWatch acknowledges that User will pay all initial fees under this EULA and the applicable Order(s) to Reseller. 10. CONFIDENTIALITY AND PROPRIETARY RIGHTS.

10.1 Confidential Information. In the course of performance of this EULA, either Party ("Discloser") may find it necessary to disclose to the other Party ("Recipient"), or Recipient may otherwise obtain from Discloser, certain information which is confidential ("Confidential Information"). "Confidential Information" means non---public information concerning a Discloser's operations, methods of doing business, technologies, technical designs, research and development, know how, trade secrets, software source code, software, software documentation, computer programs, algorithms, technical specifications and data, testing and bench--- marking procedures and results, customers, personnel, vendors, financial information, and other information which (i) has been the subject of reasonable efforts by Discloser to be kept secret and (ii) is information that would reasonably be considered proprietary or confidential. Confidential Information does not include information that: (a) becomes part of the public domain prior to or after the time of disclosure, through no improper action of Recipient; (b) was already in the possession of Recipient at the time of disclosure; (c) is received by Recipient from a third party, provided that such Confidential Information was not, to Recipient's knowledge, obtained by such third party, directly or indirectly, from Discloser; (d) is developed independently by Recipient without the benefit of any Confidential Information disclosed by Discloser hereunder; (e) is not treated as confidential by Discloser; or (f) is approved for release by Discloser, in its sole discretion, in writing and in advance. Recipient shall use any Confidential Information received (or Derivatives thereof) solely for the purpose of performing its obligations under this EULA. Recipient shall not disclose or permit any Person access to any Confidential Information, except to Recipient's officers, directors, employees, contractors, representatives, or agents on a need to know basis and where all such officers, directors, employees, contractors, representatives, or agents have confidentiality obligations at least as restrictive as those set forth in this Section 10.1. Recipient agrees to use reasonable efforts to protect the confidential or proprietary nature of such Confidential Information (and any Derivatives thereof), using at least the same degree of care it utilizes for the protection of its own strictly confidential and proprietary information. AirWatch acknowledges that User may be required under Federal Law (i.e. the Freedom of Information Act) to release AirWatch Confidential Information that does not constitute a trade secret. If Recipient is required by a governmental agency, law, or court of law to disclose any

Confidential Information of Discloser, Recipient must first, if legally permissible, give written notice of the required disclosure to Discloser; take reasonable steps to allow Discloser to seek to protect the confidentiality of the Confidential Information required to be disclosed; and then disclose only that part of the Confidential Information which, in the written opinion of Recipient's legal counsel, it is required to disclose. The obligations under this EULA will continue: (i) with respect to Confidential Information (and/or Derivatives thereof) that does not constitute a trade secret, for a period of five (5) years after the termination of this EULA; and (ii) for any Confidential Information (and/or Derivatives thereof) that constitutes a trade secret, for so long as such information remains a trade secret under applicable law. All Confidential Information and Derivatives thereof will be returned to Discloser within ten (10) days following the termination of this EULA. Without limiting the foregoing or the license restrictions set forth in Section 3, User shall not disclose any AirWatch Confidential Information, including the Software, to any competitor of AirWatch.

User acknowledges that the Software (including Enhancements and Updates), any Derivatives, any Deliverables, and all AirWatch copyrights, names, trademarks, trade names, service marks or any other identifying characteristics are proprietary intellectual property of significant value and goodwill to AirWatch (the "AirWatch IP") and the Software and all AirWatch IP are owned by AirWatch. This EULA only grants User the right to use the AirWatch IP specified in this EULA under the terms and restrictions specified in this EULA. User does not, and will not, acquire any other right, title or interest in any AirWatch IP, which will at all times remain the exclusive property of AirWatch or the applicable third party licensor to AirWatch. User will not remove, suppress or modify in any way any proprietary marking which is on or in the Software, which is visible during their operation, or which is on any media supplied with the Software, except where expressly allowed. User acknowledges and agrees that AirWatch shall be the sole owner of any Enhancements, Updates, upgrades, new versions, or new releases of the Software or Derivatives or Deliverables that are developed by AirWatch during the term of this EULA and thereafter, all of which shall be AirWatch IP. Without limiting the foregoing, User expressly acknowledges and agrees that AirWatch shall be the sole owner of any newly---developed intellectual property, including, but not limited to newly---developed, revised, or modified source code related in any way to the Software or AirWatch's general business, regardless of whether developed, revised, or modified in response to User's requests, suggestions, or ideas, even if performed as a part of Professional Services paid for by User, all of which shall be AirWatch IP. During the term of this EULA and thereafter, User shall not assert the invalidity of the AirWatch IP, or contest AirWatch's right, title or interest therein and thereto, and User shall not cause, influence, or assist in any manner whatsoever, any other Person to make any such assertions or contest.

11. LIMITED WARRANTIES; REMEDIES; DISCLAIMERS; LIMITATION OF LIABILITY.

11.1 Limited Software Warranty and Remedies. In connection with Subscription or Perpetual Licenses granted hereunder, AirWatch warrants that the Software delivered by AirWatch to User, will substantially perform, in all material respects, in accordance with the Documentation (the "Software Warranty") for the ninety (90) day period following the Delivery Date ("Software Warranty Period"). If deviations from the requirements set forth in the Software Warranty occur within the Software Warranty Period, the Software is considered non---conforming and, upon written notice to AirWatch within the Software Warranty Period, AirWatch will, without additional compensation, either (1) use its reasonable efforts to repair, at its facilities, the Software; or (2) replace the Software, in each case to correct the nonconformity. If, in AirWatch's discretion, AirWatch is unable to correct the nonconformity within a reasonable period, or if neither option (1) nor (2) is commercially feasible, then (i) AirWatch shall provide written notice to User and (ii) User shall terminate this EULA and the relevant Subscription or Perpetual License. Upon such User termination, AirWatch shall refund the appropriate amount as set forth below. The Software Warranty Period is not extended in any way by any Enhancement or Update, by placing more Licensed Units under license, or by any delivery of additional Software and replacement or repair of the Software does not extend the Limited Warranty Period, provided, however, the foregoing events are governed by the Maintenance Warranty described in Section 11.6, for so long as User is subscribed to Maintenance. For clarity, newly purchased User Licenses receive the Software Warranty from their Delivery Date, but purchasing new User Licenses does not extend the Software Warranty Period for previously purchased User Licenses. The Software Warranty does not cover any Software: (i) that has not been used in accordance with this EULA and the Documentation; (ii) that has been altered in any way by User or any third party not under the control of AirWatch, or their employees or agents; (iii) that is used in an operating environment other than as specified in the Documentation; (iv) where such nonconformity in the Software is due to abuse, neglect, or other improper use by User; or (v) where reported errors or nonconformities cannot be reproduced by AirWatch, working, in good faith, with User's assistance.

11.1.1 Refund of Subscription License. If User terminates this EULA and a related Subscription License pursuant to Section 11.1, with respect to the affected Software, (i) AirWatch shall refund to User any Subscription License Fees and any unused Other Fees that have been prepaid to AirWatch by User and (ii) User shall comply with Section 12.3.1.

11.1.2 Refund of Perpetual License. If User terminates this EULA and a related Perpetual License pursuant to Section 11.1, then with respect to the affected Software, (i) AirWatch shall refund to User any Perpetual License Fees paid by User and the unused remainder of any Other Fees prepaid to AirWatch by User and (ii) User shall comply with Section 12.3.1.

11.2 Infringement Claims. In the event of any third party claim against User that User's use of the Software, as delivered by AirWatch to User and used in accordance with this EULA and the Documentation, directly infringes a third party copyright, patent issued by the U.S. Patent and Trademark Office, or misappropriates a trade secret, the Department of Justice shall have the right to exercise sole control of such case. At any point during the case, AirWatch may consult with the Department of Justice concerning the case and may intervene in the proceedings, at its own expense and through counsel of its own. Upon first learning of such third party claim against User, User shall (i) notify AirWatch in writing within thirty (30) days of the claim; and (ii) provide AirWatch with the information, assistance and authority to enable AirWatch to perform assist or intervene in the proceedings pursuant to this Section 11.2. In any action based on claim of infringement, AirWatch may, at its option and own expense and as its entire obligation to User with respect to such claims, either: (1) procure the right for User to continue using the Software in accordance with the provisions of this EULA; (2) make such alterations, modifications or adjustments to the Software so that the infringing Software becomes non---infringing without incurring a material diminution in performance or function; (3) replace the Software with a non---infringing substantially similar substitute; or (4) if neither (1), (2), nor (3) can be achieved after the exercise of commercially reasonable efforts, AirWatch shall provide written notice that neither (1), (2), nor (3) may be achieved and User shall terminate this EULA and the Subscription or Perpetual License(s), as the case may be, for the affected Software. Following such User termination AirWatch shall issue a refund to User as described below. AirWatch shall have no liability or obligations for an infringement claim pursuant to this Section 11.2 to the extent that it results from: (a) modifications to the Software made by a party other than AirWatch, if the claim would not have occurred but for such modifications; (b) the combination, operation or use of the Software with non---AirWatch equipment, devices, software or data, unless the claim would not have occurred but for the use of the Software in the combination, operation or use; (c) the use of an unsupported version of the Software; (d) use of the Software outside the scope of this EULA or the Documentation; (e) AirWatch's use of any designs, plans, instructions, specifications, diagrams or the like, provided by User; or (f) User's failure to use all applicable Enhancements and Upgrades to the Software made available to User by AirWatch, if the claim would not have occurred but for such failure. Nothing in this provision shall be construed as a limitation on User's ability to retain legal counsel at its own expense to monitor the proceedings.

Refund of Subscription License. If User terminates this EULA and a related Subscription License pursuant to Section 11.2, with respect to the affected Software, (i) AirWatch shall refund to User the unused remainders of any Subscription License Fees and Other Fees that have been prepaid to AirWatch by User; and (ii) User shall comply with Section 12.3.1.

Refund of Perpetual License. If User terminates this EULA and a related Perpetual License pursuant to Section 11.2, with respect to the affected Software, (i) AirWatch shall refund to User the Perpetual License Fees amortized over a three (3) year depreciation period from the Delivery Date and the unused remainder of any prepaid Other Fees and (ii) User shall comply with Section 12.3.1.

11.3 Anti-Virus and Disabling Code Warranty and Remedies. In connection with User Licenses granted hereunder, AirWatch warrants that it shall use industry standard anti---virus software to scan the Software for Viruses prior to delivery (the "Anti---Virus Warranty"). "Virus" means any computer virus, software code, or device designed to disable, damage, impair, erase, deactivate, or electronically repossess the Software. Notwithstanding the foregoing, (i) any enabling or license keys included with the Software for the purpose of activating the Software, and/or (ii) any tracking mechanisms for measuring or ascertaining the number of Licensed Units under license, User's conformance with the license restrictions set forth in Section 3 of this EULA, and/or other compliance matters included with the Software, shall not constitute a Virus for purposes of this Section 11.3. With respect to any alleged breach of the warranty set forth in this Section 11.3, AirWatch shall only be liable to User for a breach of the Anti---Virus Warranty, if User notifies AirWatch within the thirty (30) day time period immediately following the discovery of the Virus by User. User's sole and exclusive remedy and AirWatch's sole obligation for a breach of the Anti---Virus Warranty is to replace all copies of the affected Software in the possession of User with copies that do not contain a Virus.

11.4 Limited Hosted Services Warranty and Remedies. If and only if User is receiving Hosted Services, AirWatch warrants that User will have Access to the Hosted Services 99.9% of the calendar month (the "Hosted Services Warranty"). To the extent that the Hosted Services fail to conform to the Hosted Services Warranty, User may request service credits ("Outage Credits") in accordance with this Section 11.4 as User's sole and exclusive remedy and AirWatch's sole

obligation. All Outage measurements will be rounded up or down to the nearest one minute increment, with increments equal to or greater than 30 seconds being rounded up to the next minute. Outage Credits are based on cumulative periods of Outage over a calendar month. Final determinations of the length of the cumulative periods of Outage over a calendar month shall be based on AirWatch's internal monitoring equipment and records. Outage Credits will be taken against only the Hosted Service Fees for the month in which the Outage occurred. Outage Credits will be calculated in accordance with the following table:

CUMULATIVE DURATION OF OUTAGE PERIODS WITHIN A PARTICULAR CALENDAR MONTH	PERCENTAGE OF THE HOSTED SERVICES FEES TO BE CREDITED AS AN OUTAGE CREDIT
45 MINUTES THROUGH 3 HOURS, 36 MINUTES	10%
3 HOURS, 37 MINUTES THROUGH 7 HOURS, 12 MINUTES	20%
GREATER THAN 7 HOURS, 12 MINUTES	30%

In no event will the Outage Credits accrued in any calendar month exceed, in the aggregate across all events, thirty percent (30%) of the amount invoiced in that calendar month for the Hosted Service Fees. The Outage Credits set forth herein are not cumulative and may not be carried from one month to the next. User must request any Outage Credit due hereunder within sixty (60) days of the date it accrues (i.e. upon a report that the last Outage for the calendar month has been resolved). User waives any right to credits not requested within such sixty (60) day period. Outage Credits will be issued once validated by AirWatch and applied toward the next invoice following the month in which the Outage Credit is validated by AirWatch. This Section 11.4, including the Outage Credits provides User's sole and exclusive remedy for any interruptions, deficiencies, or failures of any kind of the Hosted Services. This Section 11.4 and any Outage Credits will not apply in the case of an Excluded Event. "Excluded Event" means any event that adversely impacts the Hosted Services that is caused by (a) the acts or omissions of User, its employees, customers, contractors or agents; (b) the failure or malfunction of equipment, applications or systems not owned or controlled by AirWatch; (c) Force Majeure events; (d) a Scheduled Maintenance Window; (e) any suspension of Hosted Services pursuant to Section 9; or (f) the unavailability of any User personnel required to restore Hosted Services, including as a result of User's failure to provide AirWatch with accurate, current contact information.

11.5 Limited Third Party Appliance Warranty and Remedies. If and only if AirWatch is providing a Third Party Appliance to User, without in any way modifying or expanding the Software Warranty (as defined in Section 11.1) or any other warranty, AirWatch warrants that, when the Third Party Appliance is used in accordance with the third party manufacturer's documentation and the Software is used in accordance with the Documentation and this EULA, the Software will operate on the Third Party Appliance (the "Appliance Warranty") for the ninety (90) day period following the Delivery Date (the "Appliance Warranty Period"). In the event the Third Party Appliance fails to operate with the Software during the Appliance Warranty Period, upon User's written notice to AirWatch within the Appliance Warranty Period, AirWatch shall either (i) use its reasonable efforts to repair at its facilities the Third Party Appliance; or (ii) replace the Third Party Appliance. AirWatch reserves the right to replace any non---conforming Third Party Appliance with another product of similar quality and purpose. Replacement or repair of the Third Party Appliance during the Appliance Warranty Period does not extend the Appliance Warranty Period and the delivery of additional Third Party Appliances does not extend the Appliance Warranty Period. The Appliance Warranty does not cover any Third Party Appliance: (a) that is not used in accordance with the third party manufacturer's documentation; (b) that has been altered in any way by User or any third party, or their employees or agents; (c) to which additional software has been added by User or any third party, or their employees or agents, (d) where nonconformities in the Third Party Appliance are due to abuse, neglect, or other improper use by User; or (e) where reported errors or nonconformities cannot be reproduced by AirWatch, working in good faith, with User's assistance.

11.6 Limited Maintenance Warranty and Remedies. AirWatch warrants to User that the correction of errors in and improvements to the Software by Updates and Enhancements pursuant to Maintenance or other Deliverables provided in connection with Maintenance will substantially conform, in all material respects, to (i) the Maintenance Specifications and (ii) to the Documentation ("Maintenance Warranty"). If deviations from the requirements set forth in the Maintenance Warranty occur within the then---current Maintenance Period, the Maintenance services provided are considered non---conforming and, upon written notice provided to AirWatch within the then---current current Maintenance Period, AirWatch will, without additional compensation, either (1) use its reasonable efforts to repair the nonconformities; or (2) re---perform the Maintenance services to eliminate the nonconformities. If, in AirWatch's discretion, AirWatch is unable to correct the nonconformities within a reasonable period, or if neither option (1) nor (2) is commercially feasible, AirWatch

shall provide written notice and the User shall terminate this EULA and relevant Subscription or Perpetual licenses. Upon such User termination:

(i) under a Subscription license, User shall receive a refund of the unused remainders of any prepaid Subscription License Fees and Other Fees that have been prepaid to AirWatch by User; and

(ii) under a Perpetual License, User shall receive a pro---rata refund of any Maintenance Fees paid for the then---current Maintenance Period.

THE MAINTENANCE WARRANTY SHALL NOT APPLY IN INSTANCES WHERE USER HAS NOT PURCHASED OR HAS DISCONTINUED MAINTENANCE. The Maintenance

Warranty does not cover any Maintenance, Updates, or Enhancements: (a) that have not been used in accordance with this EULA and the Documentation; (b) that have been altered in any way by User or any third party, or their employees or agents; (c) that are used in an operating environment other than as specified by AirWatch; (d) where the nonconformities are due to abuse, neglect, or other improper use by User; (e) where reported errors or nonconformities cannot be reproduced by AirWatch working in good faith, with User's assistance; or (f) where Maintenance Fees not subject to a good faith dispute have not been timely paid pursuant to Section 9 .

11.7 Limited Professional Services Warranty and Remedies. AirWatch warrants to User that, solely with respect to Professional Services, for a period of ninety (90) days following the completion of such Professional Services (the "Services Warranty Period"), (i) any Professional Services provided will be consistent with generally accepted industry standards for the performance of services of a similar nature and (ii) any Professional Services provided and any Deliverables resulting therefrom will substantially conform, in all material respects, to such specifications as are agreed to by the Parties in an SOW or Order (the "Services Warranty"). If deviations from the requirements set forth in the Services Warranty occur within the Services Warranty Period, the Professional Services are considered non---conforming and, upon written notice to AirWatch within the Services Warranty Period, AirWatch will, without additional compensation, either (1) use its reasonable efforts to repair the nonconformities; or (2) re---perform the Professional Services to eliminate the nonconformities. If, in AirWatch's discretion, AirWatch is unable to correct the nonconformities within a reasonable period, or if neither option (1) nor (2) is commercially feasible, AirWatch shall refund to User any fees paid for the nonconforming Professional Services. Replacement or repair of the Professional Services during the Services Warranty Period does not extend the Services Warranty Period. The Services Warranty does not cover any Professional Services or Deliverables: (a) that have not been used in accordance with this EULA and any specifications related to the Professional Services or Deliverables; (b) that have been altered in any way by User or any third party, or their employees or agents; (c) that are used in an operating environment other than as specified in the Documentation; (d) where the nonconformities are due to abuse, neglect, or other improper use by User; or (e) where reported errors or nonconformities cannot be reproduced by AirWatch working in good faith, with User's assistance.

OTHER WRITTEN OR ORAL REPRESENTATIONS OR AFFIRMATIONS OF FACT, INCLUDING BUT NOT LIMITED TO, STATEMENTS FROM AIRWATCH OR ANY OTHER SOURCE REGARDING THE PERFORMANCE OF THE WARRANTY SUBJECT MATTER THAT ARE NOT CONTAINED IN THIS EULA, SHALL NOT BE BINDING ON THE AIRWATCH PARTIES AND ARE HEREBY EXPRESSLY DISCLAIMED.

11.9 GSA Schedule 70 Contract. FOR CLAIRTY (1) AIRWATCH IS NOT A PARTY TO THE GSA SCHEDULE 70 CONTRACT BETWEEN THE AIRWATCH RESELLER AND THE GOVERNMENT; (2) THIS CLAUSE DOES NOT LIMIT

To the extent that AirWatch is not permitted to assign any of such protections to User, AirWatch will, at User's expense, enforce such protections on behalf of User to the extent AirWatch is permitted to do so under the terms of the applicable third party license. IN NO EVENT WILL AIRWATCH BE LIABLE FOR SUCH THIRD PARTY SOFTWARE (INCLUDING ANY APPURTENANT MAINTENANCE AND/OR SUPPORT) AND AIRWATCH SPECIFICALLY DISCLAIMS ANY EXPRESS OR IMPLIED WARRANTIES (INCLUDING ANY WARRANTY OF NON---INFRINGEMENT) AND DISCLAIMS LIABILITY INCLUDING ANY SPECIAL, INCIDENTAL OR CONSEQUENTIAL LOSS OR DAMAGE, INCLUDING WITHOUT LIMITATION, ANY LOST PROFITS OR SAVINGS, AND ANY LOSS OR DAMAGE CAUSED BY ANY THIRD PARTY SOFTWARE.

15.6 Non---Waiver. The failure of either Party to require the performance by the other Party of any provision hereof will not constitute a waiver of that provision or the required performance. The waiver by either Party of any breach of any provision of this EULA will only be valid if given in an executed written instrument and any such waiver will not constitute a waiver as to any subsequent breach or continuation of the same breach.

15.7 Headings. Headings are used in this EULA for convenience only and shall not affect any construction or interpretation of this EULA.

15.8 Language. In the event that AirWatch or another party has provided User with a translation of this EULA from the English language to another language, User agrees that such translation is provided for convenience only; that the

American English language version of this EULA governs the relationship between AirWatch and User; and, if there is any conflict between the American English language version of this EULA and such translation, the American English language version shall take precedence. All disputes arising under this EULA shall be resolved in the English language.

15.9 Miscellaneous. The Parties agree that AirWatch will not incur any additional obligations or liabilities from any inconsistent or extra terms of the Schedule 70 Contract between the AirWatch Reseller and the Government which are controlling as between the AirWatch Reseller and the Government, but to which AirWatch is not a party. If any term of this EULA is found to be invalid or unenforceable, the remaining provisions will remain effective and such term shall be replaced with a term consistent with the purpose and intent of this EULA. 5. RECORDS AND AUDIT. During the License Term for Software and for two (2) years after its expiration or termination, You will maintain accurate records of Your use of the Software sufficient to show compliance with the terms of this EULA. Classified information will be disclosed only to person(s) having a need-to-know who possess a PCL.

7. WARRANTIES.

7.1 Software Warranty, Duration and Remedy. VMware warrants to You that the Software will, for a period of ninety (90) days following notice of availability for electronic download or delivery ("Warranty Period"), substantially conform to the applicable Documentation, provided that the Software: (a) has been properly installed and used at all times in accordance with the applicable Documentation; and (b) has not been modified or added to by persons other than VMware or its authorized representative. VMware will, at its own expense and as its sole obligation and Your exclusive remedy for any breach of this warranty, either replace that Software or correct any reproducible error in that Software reported to VMware by You in writing

during the Warranty Period. If VMware determines that it is unable to correct the error or replace the Software, VMware will refund to You the amount paid by You for that Software, in which case the License for that Software will terminate.

7.2 Software Disclaimer of Warranty. OTHER THAN THE WARRANTY ABOVE, AND TO THE MAXIMUM EXTENT PERMITTED BY APPLICABLE LAW, VMWARE AND ITS SUPPLIERS MAKE NO OTHER EXPRESS WARRANTIES UNDER THIS EULA, AND DISCLAIM ALL IMPLIED WARRANTIES OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, TITLE AND NON-INFRINGEMENT, AND ANY WARRANTY ARISING BY STATUTE, OPERATION OF LAW, COURSE OF DEALING OR PERFORMANCE, OR USAGE OF TRADE. VMWARE AND ITS LICENSORS DO NOT WARRANT THAT THE SOFTWARE WILL OPERATE UNINTERRUPTED OR THAT IT WILL BE FREE FROM DEFECTS OR THAT IT WILL MEET YOUR REQUIREMENTS.

8. INTELLECTUAL PROPERTY INDEMNIFICATION.

8.1 Defense and Indemnification. Subject to the remainder of this Section 8 (Intellectual Property Indemnification) and 28 U.S.C. § 516, in the event of any third party claim that the Software infringes any patent, trademark, or copyright of such third party, or misappropriates a trade secret (but only to the extent that the misappropriation is not a result of Your actions) under the laws of: (a) the United States and Canada; (b) the European Economic Area; (c) Australia; (d) New Zealand; (e) Japan; or (f) the People's Republic of China, to the extent that such countries are part of the Territory for the License ("Infringement Claim"), VMware shall indemnify You from the resulting costs and damages finally awarded against You to such third party by a court of competent jurisdiction or agreed to in settlement approved by VMware; provided that You: (i) promptly notify VMware in writing of the Infringement Claim; (ii) allow VMware such opportunity to participate in the defense of such Infringement Claim and any settlement negotiations as is offered by applicable laws, rules, or regulations; and (iii) reasonably cooperate in response to VMware requests for assistance. You shall make every effort to permit VMware to participate fully in the defense and/or settlement of any such Infringement Claim; however, VMware understands that such participation will be under the control of the U.S. Department of Justice.

8.2 Remedies. Should the Software become, or in VMware's opinion be likely to become, the subject of an Infringement Claim, VMware will, at VMware's option and expense, do one of the following: (a) procure the rights necessary for You to make continued use of the affected Software; (b) replace or modify the affected Software to make it non-infringing; or (c) if VMware determines that the foregoing alternatives are not reasonably available, You agree to terminate the License to the affected Software and discontinue the related support services on VMware's written request, and upon Your certified deletion of the affected Software, VMware will refund: (i) the fees paid by You for the License to the affected Software, less straight-line depreciation over a three (3) year useful life beginning on the date such Software was delivered; and (ii) any pre-paid service fee attributable to related support services to be delivered after the date such service is stopped. Nothing in this Section 8.2 (Remedies) shall limit VMware's obligation under Section 8.1 (Defense and Indemnification) to defend and indemnify You, provided that You replace the allegedly infringing Software upon VMware's making alternate Software available to You and/or You discontinue using the allegedly infringing Software upon receiving VMware's written request to terminate the affected License. This is subject and limited to the Government's right to require continued use of the Software pursuant to 28 U.S.C. § 1498. In the event of such continued use, You agree to notify VMware in writing and undertake at Your expense the defense of any Infringement Claim against You, and VMware shall have no further indemnification obligation; however, VMware may participate at its own expense in the defense of any such action if such claim is against VMware.

8.3 Exclusions. Notwithstanding the foregoing, VMware will have no obligation under this Section 8 (Intellectual Property Indemnification) or otherwise with respect to any claim based on: (a) a combination of Software with non-VMware products (other than non-VMware products that are listed on the Order and used in an unmodified form); (b) use for a purpose or in a

manner for which the Software was not designed; (c) use of any older version of the Software when use of a newer VMware version would have avoided the infringement; (d) any modification to the Software made without VMware's express written approval; (e) any claim that relates to open source software or freeware technology or any derivatives or other adaptations thereof that is not embedded by VMware into Software listed on VMware's commercial price list; or (f) any Software provided on a no charge, beta or evaluation basis. TO THE EXTENT PERMITTED BY APPLICABLE LAW, THIS SECTION 8 (INTELLECTUAL PROPERTY INDEMNIFICATION) STATES YOUR SOLE AND EXCLUSIVE REMEDY AND VMWARE'S ENTIRE LIABILITY FOR ANY INFRINGEMENT CLAIMS OR ACTIONS.

9. LIMITATION OF LIABILITY.

9.1 Limitation of Liability. TO THE MAXIMUM EXTENT NOT PROHIBITED BY LAW, IN NO EVENT WILL VMWARE AND ITS LICENSORS BE LIABLE FOR ANY LOST PROFITS OR BUSINESS OPPORTUNITIES, LOSS OF USE, LOSS OF REVENUE, LOSS OF GOODWILL, BUSINESS INTERRUPTION, LOSS OF DATA, OR ANY INDIRECT, SPECIAL, INCIDENTAL, OR CONSEQUENTIAL DAMAGES UNDER ANY THEORY OF LIABILITY, WHETHER BASED IN CONTRACT, TORT, NEGLIGENCE, PRODUCT LIABILITY, OR OTHERWISE. BECAUSE SOME JURISDICTIONS DO NOT ALLOW THE EXCLUSION OR LIMITATION OF LIABILITY FOR CONSEQUENTIAL OR INCIDENTAL DAMAGES, THE PRECEDING LIMITATION MAY NOT APPLY TO YOU. VMWARE'S AND ITS LICENSORS' LIABILITY UNDER THIS EULA WILL NOT, IN ANY EVENT, REGARDLESS OF WHETHER THE CLAIM IS BASED IN CONTRACT, TORT, STRICT LIABILITY, OR OTHERWISE, EXCEED THE LESSER OF THE LICENSE FEES YOU PAID FOR THE SOFTWARE GIVING RISE TO THE CLAIM OR ONE MILLION U.S. DOLLARS ($1,000,000.00 USD). THE FOREGOING LIMITATIONS SHALL APPLY REGARDLESS OF WHETHER VMWARE OR ITS LICENSORS HAVE BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES AND REGARDLESS OF WHETHER ANY REMEDY FAILS OF ITS ESSENTIAL PURPOSE. THIS CLAUSE SHALL NOT IMPAIR THE U.S. GOVERNMENT'S RIGHT TO RECOVER FOR FRAUD OR CRIMES ARISING OUT OF THIS AGREEMENT TO NO GREATER EXTENT THAN PERMITTED UNDER ANY APPLICABLE FEDERAL FRAUD STATUTE, INCLUDING THE FALSE CLAIMS ACT (31 U.S.C. 3729-3733).

9.2 Further Limitations. VMware's licensors shall have no liability of any kind under this EULA and VMware's liability with respect to any third party software embedded in the Software shall be subject to Section 9.1 (Limitation of Liability). You may not bring a claim under this EULA more than eighteen (18) months after the cause of action arises or such longer period as is mandated by the Contract Disputes Act of 1978 (41. U.S.C. 7101-7109).

10. TERMINATION.

10.1 EULA Term. The term of this EULA begins on the notice of availability for electronic download or delivery of the Software and continues until this EULA is terminated in accordance with this Section 10.

10.2 Termination for Breach. Subject to, and to the extent not prohibited by, the Contract Disputes Act and FAR 52.233-1 (Disputes), VMware may terminate Your License if it is determined that You failed to comply with the terms stated herein.

10.3 Termination for the Government's Convenience. You may terminate Your License in accordance with GSAR 552.212-4(l), if applicable.

10.4 Effect of Termination. Upon termination of this EULA by either party: (a) all Licensed rights to all Software granted to You under this EULA will immediately cease; and (b) You must cease all use of all Software, and return or certify destruction of all Software and License Keys (including copies) to VMware, and return, or if requested by VMware, destroy, any related VMware Confidential Information in Your possession or control and certify in writing to VMware that You have fully complied with these requirements. Any provision will survive any termination or expiration if by its nature and context it is intended to survive, including Sections 1 (Definitions), 2.6 (Open Source Software), 3 (Restrictions; Ownership), 5 (Records and Audit), 7.2 (Software Disclaimer of Warranty), 9 (Limitation of Liability), 10 (Termination), 11 (Confidential Information) and 12 (General).

11. CONFIDENTIAL INFORMATION.

11.1 Definition. "Confidential Information" means information or materials provided by one party ("Discloser") to the other party ("Recipient") which are in tangible form and labelled "confidential" or the like, or, information which a reasonable person knew or should have known to be confidential. The following information shall be considered Confidential Information whether or not marked or identified as such: (a) License Keys; (b) information regarding VMware's product roadmaps or strategic marketing plans; and (c) non-public materials relating to the Software. Confidential Information does not include Classified Information as defined in the NISPOM.

11.2 Protection. Recipient may use Confidential Information of Discloser; (a) to exercise its rights and perform its obligations under this EULA; or (b) in connection with the Parties' ongoing business relationship. Recipient will not use any Confidential Information of Discloser for any purpose not expressly permitted by this EULA, and will disclose the Confidential Information of Discloser only to the employees or contractors of Recipient who have a need to know such Confidential Information for purposes of this EULA and who are under a duty of confidentiality no less restrictive than Recipient's duty hereunder. Recipient will protect Confidential Information from unauthorized use, access, or disclosure in the same manner as Recipient protects its own confidential or proprietary information of a similar nature but with no less than reasonable care.

11.3 Exceptions. Recipient's obligations under Section 11.2 (Protection) with respect to any Confidential Information will terminate if Recipient can show by written records that such information: (a) was already known to Recipient at the time of disclosure by Discloser; (b) was disclosed to Recipient by a third party who had the right to make such disclosure without any confidentiality restrictions; (c) is, or through no fault of Recipient has become, generally available to the public; or (d) was independently developed by Recipient without access to, or use of, Discloser's Information. In addition, Recipient will be allowed to disclose Confidential Information to the extent that such disclosure is required by law or by the order of a court of similar judicial or administrative body, provided that Recipient notifies Discloser of such required disclosure promptly and in writing and cooperates with Discloser, at Discloser's request and expense, in any lawful action to contest or limit the scope of such required disclosure. To the extent Confidential Information becomes subject to the Freedom of Information Act (5 U.S.C. § 552), You agree that such Confidential Information is considered by VMware to be VMware trade secrets which would cause undue business hardship and a waiver from disclosure is applicable. You will provide VMware timely notice of any FOIA request for its Confidential Information and permit VMware the opportunity to object to its release.

12. GENERAL.

12.1 Transfers; Assignment. Except to the extent transfer may not legally be restricted or as permitted by VMware's transfer and assignment policies, in all cases following the process set forth at www.vmware.com/support/policies/licensingpolicies.html, You will not assign this EULA, any Order, or any right or obligation herein or delegate any performance without VMware's prior written consent, which consent will not be unreasonably withheld.

VMware may assign its right to receive payment in accordance with the Assignment of Claims Act (31 U.S.C. § 3727) and FAR 52.212-4(b), and VMware may assign this EULA to the extent not prohibited by the Anti-Assignment Act (41 U.S.C. § 15). This Agreement shall be governed by the applicable Federal law., This Agreement constitutes the entire agreement of the parties with respect to the provision of the Services by VMware to Customer, and supersedes all prior written or oral communications, understandings and agreements. Any waiver of the provisions of this Agreement must be in writing to be effective. Except as expressly set forth herein, no terms of any purchase order or other business form that Customer may use will affect the obligations of the parties under this Agreement, and any such purchase order or other business form of Customer which contains additional or conflicting terms are hereby rejected by VMware, unless such terms and conditions are mandated by applicable federal law. If any provision of this Agreement is found to be invalid or unenforceable, the remaining terms will continue to be valid and enforceable to the fullest extent permitted by law. The version of the Technical Support guide found at https://www.vmware.com/files/pdf/support/tech_support_guide.pdf and the policies located at https://www.vmware.com/support/policies/index/ are the governing versions of such documents/policies; any translation into other languages is for convenience only. VMware may update the Technical Support guide and support policies periodically, without prior notice. VMware may assign its right to receive payment in accordance with the Assignment of Claims Act (31 U.S.C. § 3727) and FAR 52.212-4(b), and VMware may assign this Agreement to the extent not prohibited by the Anti-Assignment Act (41 U.S.C. § 15). Section references in this document are to the provisions of these Terms of Service.

1. THE SERVICE OFFERING.

1.1 Generally. We may deliver the Service Offering with the assistance of our affiliates, licensors, and service providers. For purposes of the Agreement, a "Service Offering" includes services to host, on your behalf, VMware Software to enable you to use the software in a production environment via internet-based consoles.

1.2 Use of the Service Offering.

1.2.1 You and your Users must comply with all laws, rules, and regulations applicable to your use of the Service Offering and to any Content.

1.2.2 You may use the Service Offering only (a) during the Subscription Term, (b) for your own benefit, and (c) in accordance with the Agreement. To use the Service Offering you must register and set up an authorized account with Login Credentials. You must keep your registration information accurate and complete during the term of the Agreement. You must keep your Login Credentials confidential. You can manage your Service Offering account through the Service Offering portal as specified in the Service Description.

1.2.3 You are responsible for any use of the Service Offering that occurs under your Login Credentials. You are responsible for your Users' compliance with the Agreement. If you become aware of any User's violation of the Agreement you must immediately terminate that User's (a) access to Content and (b) use of the Service Offering. If you believe your account has been compromised, including any unauthorized access to or use or disclosure of any account information, passwords, user names, or Login Credentials, you must notify us as soon as possible by submitting a Severity 1 Service Request (see the applicable Support Policy) or as we may otherwise notify you from time to time.

1.2.4 You may receive software from us, incidental to your use of the Service Offering, which must be installed in your on-premises environment to enable you to use the Service Offering. If that software is subject to an accompanying license agreement, you must comply with the terms of that license. If that software does not have an accompanying license agreement, we grant you a limited license to use that software, only (a) in connection with your use of the Service Offering, (b) for the Subscription Term, and

(c) in accordance with the Agreement.

1.3 Verifying Compliance. We have the right to verify your and your Users' compliance with the Agreement. We may request information from you to assist in that verification, which you must provide to us. If we reasonably believe a problem with the Service Offering may be attributable to any Content or to your or your Users' use of the Service Offering, you must cooperate with us to identify the source of the problem and to resolve the problem.

1.4 Monitoring. We may monitor your and your Users' use of the Service Offering, and collect configuration, performance, usage, and consumption data relating to such use: (a) to facilitate delivery of the Service Offering (such as tracking entitlements,

providing support, monitoring the performance, integrity, and stability of the Service Offering's infrastructure, and preventing or addressing service or technical issues); and (b) to improve our products and services, and your and your Users' experience. You may not block or interfere with any such monitoring.

1.5 Third Party Content. As part of your use of the Service Offering you may receive access to Third Party Content. You are responsible for complying with any terms that may be presented to you when you access that Third Party Content. Third Party Content is available "AS IS" without indemnification, support (unless otherwise specified in the Agreement), or warranty or condition of any kind. We may suspend or terminate provision of any Third Party Content at any time, and any such suspension or termination will not be deemed a material, detrimental change.

1.6 Evaluation and Beta Use. We may offer any new Service Offering, or a new feature or functionality of an existing Service Offering, on an evaluation or beta basis ("Evaluation Service"). If you use any Evaluation Service, the terms of this Section 1.6 govern that use, and control over any conflicting provision of these Terms of Service; provided however that the term "Service Offering" will include an Evaluation Service in all provisions that are not in conflict with the provisions of this Section 1.6. If you have already joined a separate beta program, then the terms of that program will apply.

1.6.1 You may only use an Evaluation Service (a) for internal testing and evaluation purposes, and (b) for the period we specify. Unless we specify otherwise use of an Evaluation Service will be for a period of 30 days beginning on the date we provide you Login Credentials for or access to the Evaluation Service. You will not have access to the Evaluation Service or to Content in the Evaluation Service after your authorized use period ends.

1.6.2 Use of an Evaluation Service may require additional terms from a third party service provider.

1.6.3 You may use the Documentation provided with an Evaluation Service solely in support of your authorized use of the Evaluation Service.

1.6.4 We will provide the Evaluation Service (a) free of charge, (b) without support, (c) "AS IS", and (d) without indemnification, warranty or condition of any kind. No service level commitment will apply to the Evaluation Service.

1.6.5 The Data Processing Addendum does not apply to your use of any Evaluation Service.

1.6.6 You must not put any of the following into an Evaluation Service: (a) production data; or (b) any information relating to an identified or identifiable natural person; or (c) Prohibited Data. If you put any such data into an Evaluation Service, you do so at your own risk, and we will not be responsible for the consequences of that use.

1.6.7 If you use an Evaluation Service in violation of the terms of the Agreement, including Section 1.6.6, you will indemnify us as specified in Section 10.1.

1.6.8 Certain features or functionality of a particular Service Offering, as specified in the applicable Service Description, may not be available in an Evaluation Service for any feature or functionality within that Service Offering. Provision of any Evaluation Service, or any feature or functionality in an Evaluation Service, does not constitute our commitment to offer it or the Evaluation Service on a generally available basis.

1.6.9 We may terminate or modify an Evaluation Service at any time, and any such suspension or termination will not be deemed a material, detrimental change.

1.6.10 As consideration for access to and use of an Evaluation Service, you will, from time to time, as we may reasonably request, provide feedback (including comments and suggestions) to us, and only to us, concerning (a) information that we may disclose in Feedback Sessions, and (b) the functionality and performance of the Evaluation Service. We may use any feedback you provide with regard to the Evaluation Service as specified in Section 1.8.

1.6.11 You will use reasonable efforts to participate in marketing and publicity activities related to an Evaluation Service, as we may reasonably request from time to time.

1.7 Open Source Software. You may receive open source software when you use the Service Offering or any Evaluation Service. The open source software you receive, as well as open source software that you may interact with when using the Service Offering and that we are required to disclose to you, is made available under the applicable open source licenses, found

at http://www.vmware.com/download/open_source.html. You can obtain a copy of these licenses and any source code (and modifications) that we are required to make available under these licenses ("Source Files") at the foregoing URL or by sending a written request, with your name and address, to: VMware, Inc., Attention: General Counsel, 3401 Hillview Avenue, Palo Alto, CA 94304, United States of America. All requests must clearly specify: "Open Source Files Request". This offer to obtain a copy of the Source Files is valid for three years from the date you last received open source software or interacted with the open source software when using the Service Offering.

1.8 Feedback. We may elect in our sole discretion to use, for any purpose, any feedback (such as comments or suggestions) that you or any User provide to us regarding the Service Offering. You represent that you have the right to give us that feedback. You must not submit any Confidential Information to us as feedback without our express prior written consent. You hereby grant us a non-exclusive, perpetual, irrevocable, royalty-free, transferable, worldwide right and license, with the right to sublicense, to use, reproduce, perform, display, disclose, distribute, modify, prepare derivative works of, and otherwise exploit the feedback without restriction in any manner now known or in the future conceived, and to make, use, sell, offer to sell, import, and export any product or service that incorporates the feedback.

1.9 Modifications.

1.9.1 We may from time to time change (a) the Service Offering, (b) the terms of your access to the Service Offering, or (c) any portion of the Agreement. We will post notice of updates on the My VMware portal, or other sites, pursuant to our standard policies. If we make a material, detrimental change to the Service Level Agreement, we will post notice at least 90 days prior to the effective date of the change. The modified Agreement will become effective as of the date specified in our notice. Your continued use of the Service Offering after the effective date of any modification to the Agreement will be deemed acceptance of the modified terms. It is your responsibility to check the Service Offering portal and the My VMware portal regularly for updates.

1.9.2 If we make a material, detrimental change to the Service Offering or to any part of the Agreement you may terminate the Agreement by notifying us not later than 30 days after the effective date of the change. If you terminate the Agreement pursuant to this Section 1.9.2, the termination will be effective as of (a) the date we receive your notice or (b) any later date specified in your notice (but in any event the effective termination date will not be more than 45 days after the date on which we receive your notice). If you terminate a subscription-based Service Offering pursuant to this Section 1.9.2 we will refund any prepaid fees prorated as of the effective date of the termination, less any discounts not earned as of the effective date of the termination.

1.9.3 If we agree (in our sole discretion) to any modifications to these Terms of Service with regard to any Service Offering, those modifications must be in a written agreement signed by both you and us. Those modifications will continue to apply to future versions of these Terms of Service with respect to that Service Offering, unless the written agreement specifies otherwise.

1.10 Disclosures. If VMware is required by a subpoena, court order, agency action, or any other legal or regulatory requirement, to disclose any of your or any User's Confidential Information or any Content, we will provide you with notice and a copy of the demand, as soon as practicable, unless we are prohibited from doing so pursuant to applicable law or regulation. If you or the User request, we will, at your (or the User's) request and expense, take reasonable steps to contest and to limit the scope of any required disclosure.

2. DATA PROTECTION AND SECURITY. We will process Content in accordance with the Data Processing Addendum. You are responsible for ensuring that the security of the Service Offering is appropriate for your intended use of the Service Offering and the storage, hosting, or processing of any Content. You are responsible for taking and maintaining appropriate steps to protect the confidentiality, integrity, and security of all Content from unauthorized access, use, loss, or destruction. Those steps include (a) controlling access you provide to your Users, (b) configuring the Service Offering appropriately,

(c) ensuring the security of Content while it is in transit to and from the Service Offering, (d) using encryption technology to protect Content, and (e) backing up Content. You are responsible for providing any necessary notices to Users, and establishing relevant legal grounds and/or obtaining any legally required authorizations or consents from Users regarding their use of the Service Offering.

3. ACCEPTABLE USE.

3.1 General Restrictions. You and your Users must not: (a) resell or sublicense the Service Offering; or (b) use the Service Offering (i) in a way prohibited by law, regulation, or governmental order or decree,

(ii) to violate any rights of others, (iii) to try to gain unauthorized access to, test the vulnerability of, or disrupt the Service Offering or any other service, device, data, account, or network, (iv) to distribute spam or malware, (v) in a way that could harm the Service Offering or impair anyone else's use of it, (vi) in a way intended to work around the Service Offering's technical limitations, recurring fees calculation, or usage limits, or (vii) for any High Risk Activities.

3.2 Content Restrictions.

3.2.1 You must not post, and you must take steps to ensure that no User posts, any Content that: (a) may create a risk of harm, physical or mental injury, emotional distress, death, disability, disfigurement, or physical or mental illness, or any other loss or damage to any person or property; (b) may constitute or contribute to a crime or a tort; (c) includes any data that is illegal, unlawful, harmful, abusive, pornographic, racially or ethnically offensive, defamatory, infringing, invasive of personal privacy or publicity rights, harassing, humiliating to other people (publicly or otherwise), libelous, threatening, or otherwise objectionable; or (d) contains any information or content that you or the User do not have a right to upload into the Service Offering.

3.2.2 Some Service Offerings may not permit any Prohibited Data to be uploaded to, hosted by, stored in, or processed by the Service Offering. You must not use any such Service Offering to transmit, store, host, or process any Prohibited Data; if you do, then you are solely responsible for the consequences of such use, and you will indemnify VMware as specified in Section 10.1.

3.2.3 The Service Offerings are not intended for use by children under the age of 13 (in the United States) or such other age as provided by applicable law in other countries. Unless you have obtained the appropriate prior consent for such use, you may not allow any such Service Offering to be offered to children under the applicable statutory age of consent, and you must not use the Service Offering to collect, disclose, publish, or store information about children under the legal age of consent where prohibited by applicable law.

3.3 Violations of Acceptable Use. If you become aware that any Content or any User's use of the Service Offering violates Section 3.1 ("Acceptable Use; General Restrictions") or Section 3.2 ("Acceptable Use; Content Restrictions") you must take immediate action to remove the applicable Content and/or to suspend the User's use of the Service Offering. We may ask you to take action within a certain time period. If you fail to comply with our request we may suspend your account pursuant to Section 6 ("Suspension").

3.4 Notification of Infringement Concerns. If you believe that your copyrighted work has been copied and is accessible on the Service Offering in a way that constitutes copyright infringement you may send a notice to our copyright agent, providing the following information: (a) a description of the copyrighted work that you claim has been infringed and a description of the infringing activity; (b) the location of the material that you claim is infringing, such as the URL where it is posted; (c) your name, address, telephone number, and email address; (d) a statement by you that you have a good faith belief that the disputed use of the material is not authorized by the copyright owner, its agent, or the law; (e) your statement under penalty of perjury that the information in your notice of infringement concern is accurate, and that you are the copyright owner or are authorized to act on the copyright owner's behalf; and (f) your electronic or physical signature, as the copyright owner or as the person authorized to act on the copyright owner's behalf. Solely for purposes of reporting copyright infringement, please contact VMware's copyright agent as follows:

4. INTELLECTUAL PROPERTY OWNERSHIP.

4.1 Ownership of Service Offering. As between you and us, we and our licensors and service providers own and retain all right, title, and interest in and to the Service Offering and any related VMware Software, including all improvements, enhancements, modifications, and derivative works thereof, and all Intellectual Property Rights therein. This includes any information we collect and analyze in connection with the Service Offering. Your rights to use the Service Offering are limited to those expressly granted in the Agreement. No other rights with respect to the Service Offering, any related VMware Software, or any related Intellectual Property Rights are implied.

4.2 Ownership of Content. As between you and us, you and your Users retain all right, title and interest in and to any Content and all Intellectual Property Rights therein. Our rights to access and use Content are limited to those expressly granted in the Agreement.

5. ORDERS, DELIVERY, PAYMENT, AND TAXES.

5.1 Orders Generally. All Orders are subject to the terms of the Agreement and are not binding until accepted by us. Your Order will be deemed accepted when we provide your Login Credentials. We are not required to provide the Service Offering to you until you provide to us all information we require for processing your Order and provisioning the Service Offering for you. All Orders are non-refundable and non-cancellable except as expressly provided in the Agreement.

5.2 Delivery. When we accept your Order, we will deliver your Login Credentials to the email address associated with your account. If we ship a physical object in connection with an add-on feature of a Service Offering, shipping and delivery terms are Ex Works VMware's regional fulfillment facility (INCOTERMS 2010).

5.3 Direct Orders. This Section 5.3 applies only to Orders directly with VMware. If you purchase the Service Offering through a VMware authorized reseller, different terms regarding invoicing, payment, and taxes may apply.

5.3.1 Purchase Orders. If you purchase the Service Offering on a subscription basis (rather than on an on-demand basis, if applicable) you must issue a purchase order to VMware for your initial Order.

5.3.2 Invoicing and Payment. Unless you and we have agreed otherwise, fees for the Service Offering will be governed by the applicable price list at the time of invoicing. You must pay all fees for use of the Service Offering in the amount and currency specified in your invoice, not later than 30 days after the date of the invoice. Some Service Offerings may permit you to pay fees for your use of the Service Offering through a credit card. If a Service Offering does permit payment through a credit card, and you elect to pay through a credit card, then all such payments will be subject to the terms presented to you by our third party credit card payment processor. See the applicable Service Description for details on invoicing and payment.

5.3.3 Taxes. Service Offering fees are exclusive of Taxes. "Taxes" means any sales, VAT, GST (Goods and Services Tax), use, gross receipts, business and occupation, and other taxes (other than taxes on our income), export and import fees, customs duties, and similar charges imposed by any government or other authority. You must pay or reimburse us for all Taxes arising out of the transactions contemplated by the Agreement. If you are required to pay or withhold any Tax for payments due under the Agreement, you must gross up your payments to us so that we receive all sums due in full and free of any deductions. If you are required to pay any Tax to a taxing authority, you must also provide documentation to us showing that you paid those Taxes. You confirm that we can rely on the name and address you provide to us when you register for the Service Offering or in connection with your payment method as being the place of supply for sales tax and income tax purposes, or as being the place of supply for VAT purposes where you have established your business.

6. SUSPENSION.

6.1 Generally. We may suspend your use of the Service Offering if: (a) payment for the Service Offering is not received within 30 days after the date on which payment is due; (b) you are in breach of the Agreement; (c) you fail to address our request to take action as specified in Section 3.3 ("Acceptable Use; Violations of Acceptable Use"); (d) your use of the Service Offering poses a security risk to the Service Offering or to other users of the Service Offering; or (e) suspension is required pursuant to a subpoena, court order, or other legal requirement. We will give you notice before any suspension if permitted by applicable law or unless we reasonably determine that providing notice presents a risk of harm to the Service Offering or to any person or property.

6.2 Effect of Suspension. You will remain responsible for all fees incurred before or during any suspension. You will not be entitled to any service credits under the Service Level Agreement that you might have otherwise accrued during any suspension.

7. TERM; TERMINATION.

7.1 Term of Agreement. The Agreement takes effect when you click "I accept" or similar button or check box presented to you as part of the sign-up process or when you first use the Serving Offering, whichever is earlier, and will remain in effect during the relevant Subscription Term or until terminated as specified in the Agreement. The applicable Service Description for any Service Offering sets forth details on renewal, including any auto-renew feature, and termination of the Subscription Term.

7.2 Termination for Cause. We may terminate the Agreement effective immediately upon sending you an email notice if you: (a) breach any provision of Section 3.1 ("Acceptable Use; General Restrictions"), Section 3.2 ("Acceptable Use; Content Restrictions"), or Section 13.5 ("Compliance with Laws; Export Control"); (b) do not resolve the underlying cause resulting in a suspension pursuant to Section 6.1 ("Suspension; Generally") (other than suspension due to a subpoena, court order, or other legal requirement) within 10 days after your account is suspended; (c) commit a material breach of the Agreement that cannot be cured; or (d) terminate or suspend your business.

7.3 Termination for Insolvency. We may terminate the Agreement effective immediately upon sending you an email notice if you: (a) become insolvent, admit in writing your inability to pay your debts as they mature, or make an assignment for the benefit of creditors; or (b) become subject to control of a trustee, receiver, or similar authority, or to any bankruptcy or insolvency proceeding.

7.4 Effect of Termination.

7.4.1 Upon the effective date of termination of the Agreement for any reason: (a) all rights granted to you under the Agreement, including your ability to use the Service Offering, will immediately terminate; and (b) you must promptly discontinue all use of the Service Offering and delete or destroy any of our Confidential Information. Deletion of Content remaining in the Service Offering will occur as specified in the applicable Service Description. As between you and VMware, you are responsible for ensuring that you have necessary copies of all Content prior to the effective date of any termination.

7.4.2 The Data Processing Addendum (to the extent we continue to process Personal Data (as defined in the Data Processing Addendum) following any termination of the Agreement), and the following sections of these Terms of Service, will survive termination of the Agreement: Sections 1.7 ("The Service Offering; Open Source Software"), 3 ("Acceptable Use"), 4 ("Intellectual Property Ownership"), 5 ("Orders, Delivery, Payment and Taxes"), 7 ("Term; Termination"), 9 ("Disclaimer of Warranties"), 11 ("Limitation of Liability"), 12 ("Confidential Information"), 13 ("General"), 14 ("Definitions"), 15 ("Provisions for Data Centers Outside the United States") and 16 (""Provisions for United States Federal, State and Local Government Customers").

7.4.3 Termination of the Agreement, except to the extent termination is permitted under Sections 1.8.2 ("The Service Offering; Modifications") or 10.2 ("Indemnification by VMware"), will not entitle you to any refunds, credits, or exchanges, and you will be liable for all fees incurred as of the effective date of the termination.

8. SUPPORT. We will provide support for the Service Offering in accordance with the applicable Support Policy, and as specified in the applicable Service Description. We will not provide support to end users of any Content.

9. DISCLAIMER OF WARRANTIES. TO THE MAXIMUM EXTENT PERMITTED BY APPLICABLE LAW, WE, FOR OURSELVES AND ON BEHALF OF OUR AFFILIATES, LICENSORS, AND SERVICE PROVIDERS, EXPRESSLY DISCLAIM ALL WARRANTIES RELATING TO THE SERVICE OFFERING OR TO ANY MATERIALS OR SERVICES PROVIDED TO YOU UNDER THE AGREEMENT, WHETHER SUCH WARRANTIES ARE EXPRESS, IMPLIED, OR STATUTORY, INCLUDING ANY WARRANTIES OF MERCHANTABILITY, SATISFACTORY QUALITY, FITNESS FOR A PARTICULAR PURPOSE, TITLE, AND NON-INFRINGEMENT, AND ANY WARRANTIES ARISING FROM COURSE OF DEALING OR COURSE OF PERFORMANCE. WE AND OUR AFFILIATES, LICENSORS, AND SERVICE PROVIDERS DO NOT WARRANT THAT THE SERVICE OFFERING WILL BE UNINTERRUPTED OR FREE FROM DEFECTS, OR THAT THE SERVICE OFFERING WILL MEET (OR IS DESIGNED TO MEET) YOUR BUSINESS REQUIREMENTS. WE DO NOT COMMIT TO FIXING ALL ERRORS. THE SERVICE OFFERING, OR ANY PART OF IT, IS NOT DESIGNED OR INTENDED FOR HIGH RISK ACTIVITIES.

10. INDEMNIFICATION.

10.1 Indemnification by You. If we are subject to any third party claim arising from or relating to (a) any Content, (b) any infringement or misappropriation of any Intellectual Property Rights by you or any Users in connection with use of the Service Offering, (c) any violation of law by you or your Users in connection with use of the Service Offering, (d) your use or your Users' use of the Service Offering and any Evaluation Service in violation of the Agreement, or (e) your use or your Users' use of any Third Party Content; then you will indemnify us from costs, fines, and damages finally awarded against us by a court of competent jurisdiction or a governmental agency, or agreed to by us in settlement of the claim. We will

(i) provide you with notice of the claim within a reasonable period of time after learning of the claim, and

(ii) have sole control over the claim's defense and settlement. You will reasonably cooperate in response to our requests for assistance. You may not settle or compromise any indemnified third party claim subject to this Section 10.1 without our prior written consent.

10.2 Indemnification by VMware.

10.2.1 Subject to the remainder of this Section 10.2, we will (a) defend you against an Infringement Claim, and (b) indemnify you from costs, fines, and damages finally awarded against you by a court of competent jurisdiction or a government agency, or agreed to by us in settlement. You will: (i) provide us with notice of any Infringement Claim within a reasonable period of time after learning of the claim; (ii) allow us sole control over the claim's defense and settlement; and (iii) reasonably cooperate in response to our requests for assistance. You may not settle or compromise any Infringement Claim without our prior written consent.

10.2.2 If the Service Offering becomes or in our opinion is likely to become the subject of an Infringement Claim, we will at our option and expense: (a) procure the rights necessary for you to keep using the Service Offering; or (b) modify or replace the Service Offering to make it non-infringing; or (c) terminate the Agreement and refund any prepaid fees, prorated for the remaining portion of the Subscription Term.

10.2.3 We will have no obligation under this Section 10.2 or otherwise with respect to any claim based on:

(a) a combination of VMware Software with non-VMware products or content, including any Content and/or any Third Party Content; (b) use of the Service Offering for a purpose or in a manner not permitted by the Agreement; (c) any modification to the Service Offering made without our express written approval; or (d) any Service Offering provided on a no-charge basis, including an Evaluation Service.

10.2.4 This Section 10.2 states your exclusive remedy for any Infringement Claims.

11. LIMITATION OF LIABILITY.

11.1 Disclaimer. TO THE MAXIMUM EXTENT PERMITTED BY LAW, IN NO EVENT WILL WE, OUR AFFILIATES, LICENSORS, OR SERVICE PROVIDERS BE LIABLE FOR ANY COSTS, COMPENSATION, OR REIMBURSEMENT WITH REGARD TO LOST PROFITS OR BUSINESS OPPORTUNITIES, LOSS OF USE OF THE SERVICE OFFERING OR OF ANY CONTENT, OR LOSS OF DATA, FOR ANY REASON INCLUDING POWER OUTAGES, SYSTEM FAILURES, SUPPLY FAILURES BY SERVICE PROVIDERS, OR OTHER INTERRUPTIONS (SUBJECT TO OUR OBLIGATIONS UNDER THE APPLICABLE SERVICE LEVEL AGREEMENT), LOSS OF REVENUE, LOSS OF GOODWILL, BUSINESS INTERRUPTION, OR FOR ANY INDIRECT, SPECIAL, INCIDENTAL, OR CONSEQUENTIAL DAMAGES UNDER ANY THEORY OF LIABILITY, WHETHER BASED IN CONTRACT, TORT, NEGLIGENCE, PRODUCT LIABILITY, OR OTHERWISE. THIS LIMITATION WILL APPLY REGARDLESS OF WHETHER WE OR OUR AFFILIATES, LICENSORS, OR SERVICE PROVIDERS HAVE BEEN ADVISED OF THE POSSIBILITY OF THOSE DAMAGES AND REGARDLESS OF WHETHER ANY REMEDY FAILS OF ITS ESSENTIAL PURPOSE. BECAUSE SOME JURISDICTIONS DO NOT ALLOW THE EXCLUSION OR LIMITATION OF LIABILITY FOR CONSEQUENTIAL OR INCIDENTAL DAMAGES, THE FOREGOING LIMITATION MAY NOT APPLY TO YOU.

11.2 Cap on Monetary Liability. OUR AND OUR AFFILIATES' AGGREGATE LIABILITY FOR ANY CLAIM UNDER THE AGREEMENT WILL NOT EXCEED THE GREATER OF: (a) AN AMOUNT EQUAL TO THE TOTAL FEES PAID OR PAYABLE TO US FOR YOUR USE OF THE PARTICULAR SERVICE OFFERING GIVING RISE TO THE CLAIM IN THE TWELVE (12)

MONTHS PRIOR TO THE EVENT GIVING RISE TO THE CLAIM, OR (b) FIVE THOUSAND U.S. DOLLARS ($5,000 USD) (OR THE EQUIVALENT IN LOCAL CURRENCY). THE LIMITATIONS OF LIABILITY IN THIS SECTION 11.2 WILL NOT APPLY TO (i) VMWARE'S INDEMNIFICATION OBLIGATIONS UNDER THE AGREEMENT OR (ii) ANY LIABILITY WHICH MAY NOT BE EXCLUDED BY APPLICABLE LAW.

11.3 Further Limitations.

11.3.1 Our licensors and service providers have no liability of any kind under the Agreement. You may not bring a claim directly against any of them under the Agreement.

11.3.2 You may not bring a claim under the Agreement more than eighteen (18) months after the cause of action arises.

12. CONFIDENTIAL INFORMATION.

12.1 Protection. Either party (the "recipient") may use Confidential Information of the other party (the "discloser") solely to exercise its rights and perform its obligations under the Agreement or as otherwise permitted by the Agreement. You and we will each use reasonable care to protect the other party's Confidential Information in the same manner as we each protect our own Confidential Information of a similar nature, but in any event with not less than reasonable care. The recipient may disclose the discloser's Confidential Information only to the recipient's employees, or to third parties, who have a need to know the Confidential Information for purposes of the Agreement, and who are under a duty of confidentiality no less restrictive than as specified in this Section 12. The recipient may also disclose the discloser's Confidential Information, in accordance with the procedures set forth in Section 1.10.

12.2 Exceptions. The recipient's obligations under Section 12.1 ("Confidential Information; Protection") with respect to any of the discloser's Confidential Information will terminate if the recipient can show by written records that the information: (a) was, at the time of disclosure by the discloser, already rightfully known to the recipient without any obligation of confidentiality; (b) was disclosed to the recipient by a third party who had the right to make the disclosure without any confidentiality restrictions; (c) at the time of disclosure is, or through no fault of the recipient has become, generally available to the public; or (d) was independently developed by the recipient without access to or use of the discloser's Confidential Information.

13. GENERAL.

13.1 Assignment. You may not assign or transfer the Agreement, in whole or in part, by operation of law or otherwise, without our prior written consent, except in connection with the sale of all or substantially all of your assets, provided that (a) you give us reasonable prior notice of any proposed assignment, and

(b) the assignee agrees in writing to be bound by the Agreement. We may prohibit any assignment to a competitor of ours. Any attempted assignment or transfer of the Agreement without our consent will be void and will be a breach of the Agreement. Subject to these limitations, the Agreement will bind and inure to the benefit of the parties and their respective successors and assigns.

13.2 Notices. Any notice by us to you under the Agreement will be given (a) by email to the email address associated with your account or (b) by posting on either the Service Offering portal or the My VMware portal, except as otherwise set forth in the Agreement. You must direct legal notices or other correspondence to VMware, Inc., 3401 Hillview Avenue, Palo Alto, California 94304, United States of America, Attention: Legal Department.

13.3 Waiver. Waiver of a breach of any provision of the Agreement will not constitute a waiver of any later breach of that provision, or waiver of a breach of any other provision.

13.4 Severability. If any provision of the Agreement is held to be invalid or unenforceable, the remaining provisions of the Agreement will remain in force to the extent feasible.

13.5 Compliance with Laws; Export Control. Each party will comply with all laws applicable to the actions contemplated by the Agreement. You acknowledge that the Service Offering is of United States origin, is provided subject to the U.S. Export Administration Regulations (including "deemed export" and "deemed re-export" regulations), and may be subject to the export control laws of any other applicable country. You represent and warrant that (a) you, and any User, are not, and are not acting on behalf of, (i) any person who is a citizen, national or resident of, or who is controlled by, the government of any country to which

the United States has prohibited export transactions; or (ii) any person or entity listed on the U.S. Treasury Department list of Specially Designated Nationals and Blocked Persons, or the U.S. Commerce Department Denied Persons List or Entity List, or any similar designated persons list published for the jurisdiction in which the applicable data center is located; (b) you, and any User, will not permit the Service Offering to be used for any purposes prohibited by law, including any prohibited development, design, manufacture or production of missiles or nuclear, chemical or biological weapons; (c) no Content will be classified or listed on the United States Munitions list or similar list published for the jurisdiction in which the applicable data center is located, or contain defense articles, defense services or ITAR-related data;

(d) no Content will require an export license nor is restricted under applicable export control laws from export to any country where VMware or VMware's service providers maintain facilities or personnel; and

(e) you, and any User, are not subject, either directly or indirectly, to any order issued by any agency of the United States government revoking or denying, in whole or in part, your United States export privileges. You must notify VMware immediately if you or any User becomes subject to any such order.

13.6 Force Majeure. Neither party will be liable for any delay or failure to perform its obligations under the Agreement, except for your payment obligations, due to any cause beyond its reasonable control including labor disputes or other industrial disturbances, systemic electrical, telecommunications or other utility failures, earthquakes, storms or other acts of nature, embargoes, riots, acts or orders of government, acts of terrorism, or war.

13.7 Construction. The headings of sections of these Terms of Service are for convenience and are not for use in interpreting these Terms of Service. As used in these Terms of Service, the word "including" means "including but not limited to".

13.8 Language. The Agreement is in English, and the English language version governs any conflict with a translation into any other language.

13.9 Governing Law. The Agreement is governed by the laws of the State of California, United States of America (excluding its conflict of law rules), except as follows: if the Service Offering in your Order is provisioned at a data center that is outside the United States of America, then the governing laws are those of the country in which the data center is located (excluding its conflict of law rules). The United Nations Convention for the International Sale of Goods does not apply to the Agreement. The Agreement does not affect your statutory rights that cannot be waived or changed by contract.

13.10 Third Party Rights. Other than as expressly provided in the Agreement, the Agreement does not create any rights for any person who is not a party to it, and no person who is not a party to the Agreement may enforce any of its terms or rely on any exclusion or limitation contained in it; provided however our licensors and service providers are beneficiaries of the warranty disclaimers and limitations of liability in the Agreement.

13.11 Order of Precedence. The terms of the Agreement will supersede and control over any conflicting or additional terms and conditions of any purchase order or other purchasing-related document issued by you in connection with any Order for the Service Offering.

13.12 Entire Agreement. The Agreement as it may be modified from time to time is the entire agreement of the parties regarding its subject matter. The Agreement supersedes all prior or contemporaneous communications, understandings and agreements, whether written or oral, between the parties regarding its subject matter.

Other devices may be qualified for the service with specific approval from AT&T. The subscribing Agency must have a business shipping account, and information on such account must be provided to AT&T for use in shipping devices, including replacement device shipment to end users and prepaid shipping labels for return of damaged devices.

The subscribing Agency is responsible for shipping damaged devices back to AT&T within 3 business days of receipt of the replacement. Any delay in return of damaged devices could result in service delays and limit AT&T's ability to support other replacement requests, as well as shortages in the spares pool for which AT&T is not responsible.

If the subscribing Agency requires AT&T to work directly with the Agency's third party vendors/suppliers, the following terms will apply:

> If the subscribing Agency's spares pool falls below 0.5% or 2 devices per device type, whichever is greater, AT&T will order devices on behalf of the subscribing Agency's account to replenish the spares pool. At the initiation of the AT&T Mobile Device Deployment Services, the subscribing Agency will send a letter of agency to the subscribing Agency's third party vendors (if required) which will instruct the third party vendors that any inquiries and purchases from AT&T are to be treated in the same manner as inquiries or purchases currently received directly from the subscribing Agency. THE SUBSCRIBING AGENCY WILL BE RESPONSIBLE FOR ALL CHARGES FROM A THIRD PARTY VENDOR OR AT&T FOR PURCHASED EQUIPMENT.
>
> The cost of the devices kept in the spares pool is subject to change and reflects the non-activated or full list price of the devices at time of purchase.
>
> If the subscribing Agency's device is out of stock or discontinued, the subscribing Agency will instruct AT&T to either wait for device to be restocked or opt to order a new device make and model. If the subscribing Agency chooses a new make and model a new Gold Image may be required and agrees to pay AT&T the charges associated with creating the new Gold Image.

The Advance Exchange monthly maximum return rate is 2% (24% annually) and is reconciled annually. The subscribing Agency will receive monthly reports reflecting Advance Exchange requests processed against the annual maximum.

Advance Exchange requests above 24% annually are billed at $45 per incident.

AT&T is not required to fulfill Advance Exchange requests if there are insufficient devices in the Agency's spares pool.

The subscribing Agency is responsible for establishing an internal help desk for Tier 1 end user support. Only Tier-2 (Customer Help Desk to AT&T Service Desk) support for Advance Exchange damage reports is included in the fees listed above.

AT&T IT Professional Services – General Terms and Conditions

1. INTRODUCTION

1.1 These General Terms and Conditions shall apply to all AT&T IT Professional Services ("Services") AT&T provides Customer and its Users under AT&T Mobility GSA Schedule Contract Number GS-35F-0297K("Agreement"):

a) SOW. A "SOW" means a statement of work that is later executed by the parties and references the Agreement. (b) Acceptable Use Policy. AT&T's Acceptable Use Policy ("AUP") applies to (i) Services provided over or accessing the Internet and (ii) wireless (i.e., cellular) data and messaging Services. The AUP can be found at att.com/aup or other locations AT&T may designate.

1.2 SOWs are effective, and become part of an Order, when signed by both the Customer and AT&T. ASOW is deemed terminated when the parties' respective obligations have been fully performed, or when it is otherwise terminated according to its terms. In the event of an inconsistency among terms between the Agreement and a SOW, the terms of the SOW shall have priority.

2. CHARGES AND BILLING

2.1 Customer shall pay AT&T for the Services at the rates and charges specified in the SOWs. Charges set forth in the SOWs are exclusive of any applicable taxes.

2.2 Customer will pay surcharges, recovery fees, levies and other similar charges relating to the installation, license, use or provision of the Services, except to the extent Customer provides a valid exemption certificate prior to the delivery of Services.

2.3 Invoices for Services are issued monthly. Payment is due within 30 days after the date of the invoice and must refer to the invoice number. Charges must be paid in the currency specified in the invoice.

2.4 All fees paid are non-refundable. Restrictive endorsements or other statements on checks are void. Customer will reimburse AT&T for all costs associated with collecting delinquent or dishonored payments, including reasonable attorneys' fees. AT&T may charge late payment fees at the lower of 1.5% per month (18% per annum) or (c) the maximum rate allowed by law for overdue payments.

2.5 If Customer disputes a charge, Customer will provide notice to AT&T specifically identifying the charge and the reason it is disputed within 6 months after the date of the affected invoice, or Customer waives the right to dispute the charge. The portion of charges in dispute may be withheld and will not be considered overdue until AT&T completes its investigation of the dispute, but Customer may incur late payment fees in accordance with Section 2.4. Following AT&T's notice of the results of its investigation to Customer, payment of all properly due charges must be made within 10 business days, and AT&T will reverse any late payment fees that were invoiced in error.

3. RESPONSIBILITIES OF THE PARTIES

3.1 AT&T will assign resources with the appropriate skills to meet the Customer's project requirements. However, any tasks identified that are outside the scope of projects described in the SOWs will be addressed with additional services offered to the Customer through a change order. If the scope of the project, number or locations of Sites, start and finish dates, work to be done, or other material parameters of the project change, AT&T and Customer shall revise the SOWs accordingly or use the change order process and make appropriate revisions to the charges for the Services.

3.2 Customer agrees to provide all information and cooperation necessary for implementation of the Services, including but not limited to access to individuals, determination of schedules, and selection from among alternative designs. Customer shall provide a single point of contact through whom AT&T may obtain information and assistance regarding projects between the parties. AT&T will rely on all information provided by Customer and will not be responsible or held liable for any damages or costs that result from errors or omissions in such information. Customer will provide a safe working environment, free of Hazardous Materials and reasonably suitable for the Services. "Hazardous Materials" mean any substance or material capable of posing an unreasonable risk to health, safety or property or whose use, transport, storage, handling, disposal or release is regulated by any law related to pollution, to protection of air, water or soil or to health and safety. AT&T shall have no obligation to perform work at a location that is not a suitable and safe working environment.

3.3 Each party shall comply with all applicable laws and regulations.

3.4 Customer will in a timely manner allow AT&T access as reasonably required for the Services to property and equipment that Customer controls and will obtain at Customer's expense timely access for AT&T as reasonably required for the Services to property controlled by third parties such as Customer's landlord. AT&T will coordinate with and, except in an emergency, obtain Customer's consent to enter upon Customer's property and premises, which consent shall not be

unreasonably withheld. Customer will furnish any conduit, holes, wireways, wiring, plans, equipment, space, power/utilities and other items as AT&T reasonably requires for the Services and will obtain any necessary licenses, permits and consents (including easements and rights-of-way).

3.5 Customer may not resell the Services or rebrand the Services for resale to third parties without AT&T's written consent.

4. CONFIDENTIAL INFORMATION

4.1 Confidential Information means: (a) information the parties or their Affiliates share with each other in connection with this Agreement or in anticipation of providing Services under this Agreement (including pricing or other proposals), but only to the extent identified as Confidential Information in writing; and (b) except as may be required by applicable law or regulation, the terms of this Agreement.

4.2 A disclosing party's Confidential Information will, for a period of 3 years following its disclosure to the other party (except in the case of software, for which the period is indefinite): (a) not be disclosed, except to the receiving party's employees, agents and contractors having a need-to-know (but only if such agents and contractors are not direct competitors of the other party and agree in writing to use and disclosure restrictions as restrictive as this Section 4) or to the extent authorized to be revealed by law, governmental authority or legal process (but only if such disclosure is limited to that which is so authorized and prompt notice is provided to the disclosing party to the extent practicable and not prohibited by law, governmental authority or legal process); (b) be held in confidence; and (c) be used only for purposes of using the Services, evaluating proposals for new services or performing this Agreement (including in the case of AT&T to detect fraud, to check quality and to operate, maintain and repair the Services).

4.3 The restrictions in this Section 4 will not apply to any information that: (a) is independently developed by the receiving party without use of the disclosing party's Confidential Information; (b) is lawfully received by the receiving party free of any obligation to keep it confidential; or (c) becomes generally available to the public other than by breach of this Agreement.

4.4 Each party is responsible for complying with the privacy laws applicable to its business. If Customer does not want AT&T to comprehend Customer data to which it may have access in performing Services, Customer must encrypt such data so that it will be unintelligible. Customer is responsible for obtaining consent from and giving notice to its Users, employees and agents regarding AT&T's processing the User, employee or agent information in connection with providing Service. Unless otherwise directed by Customer in writing, if AT&T designates a dedicated account representative as Customer's primary contact with AT&T, Customer authorizes that representative to discuss and disclose Customer's customer proprietary network information to any employee or agent of Customer without a need for further authentication or authorization.

5. INTELLECTUAL PROPERTY RIGHTS

5.1 Any software that AT&T furnishes to Customer will be governed by the written terms and conditions applicable to such software. Title to such software remains with AT&T or its supplier. Customer must comply with all such terms and conditions, and they take precedence over this Agreement as to such software.

5.2 Except as otherwise expressly set forth in a SOW issued under this Agreement, Customer acknowledges that AT&T and its suppliers retain all Intellectual Property Rights and title in and to all of their Confidential Information or other proprietary information, products, services, and the ideas, concepts, techniques, inventions, processes, software or works of authorship developed, embodied in, or practiced in connection with the Services provided by AT&T under this Agreement, including without limitation all modifications, enhancements, derivative works, configurations, translations, upgrades, and interfaces thereto (all of the foregoing "AT&T Works"), and neither ownership nor title to any such property will pass to Customer. The AT&T Works do not include Customer's preexisting hardware, software, or networks. Except as otherwise expressly provided herein (or in a SOW issued under this Agreement), nothing in this Agreement creates any right of ownership or license in and to the other party's Intellectual Property Rights, and each party continues to independently own and maintain its Intellectual Property Rights.

5.3 Customer shall own those copies of any reports produced and furnished to Customer by AT&T ("Reports"), and Customer is hereby granted, under AT&T's copyrights, the perpetual, non-exclusive, personal and non-transferable right to reproduce and modify Reports for Customer's own internal business purposes. For avoidance of doubt, "internal business purposes" exclude public distribution, resale to third parties and revenue generation purposes.

5.4 AT&T grants to Customer a limited, non-exclusive, non-transferable, non-sublicenseable license to use any Software developed and provided by AT&T or its suppliers as a result of this Agreement in object code form on systems under Customer's control solely in connection with Customer's use of the Service for which such copy was provided and sold in accordance with the applicable instructions or documentation and any end-user license restrictions, if applicable. Customer is expressly prohibited from copying, sublicensing, selling, renting, leasing or otherwise distributing copies of

the Software, or permitting either direct or indirect use of the Software by any third party. Customer agrees not to modify, disassemble, decompile, reverse engineer, create derivative works of, or make any other attempt to discover or obtain the source code for the Software. In the event any modifications are made to the Software by anyone other than AT&T or its authorized subcontractors (excluding Customer), any and all warranties with respect to the Software immediately terminate. Notwithstanding the foregoing, the license rights set forth above may be limited with respect to particular Software in the manner set forth in any applicable SOW.

5.5 AT&T hereby grants to Customer the non-exclusive, personal, and non-transferable right to use any items other than Software and Reports produced and furnished to Customer by AT&T under this Agreement, solely for Customer's own internal business purposes during the term of this Agreement, or for such other purposes as may be mutually agreed in writing by the parties.

5.6 Except as otherwise specified herein, no other right or license to or under any of AT&T's intellectual property rights is either granted or implied under this Agreement.

6. LICENSES AND THIRD PARTY MAINTENANCE

Software and maintenance resold to Customer hereunder may be subject to additional license terms and/or other requirements or restrictions imposed by the manufacturer, supplier or publisher. Customer is solely responsible for ensuring its adherence to such terms, requirements, and restrictions, and is deemed to have accepted them upon receipt of the software, or on commencement of maintenance. For purposes of this Agreement, "Services" does not include maintenance even if AT&T, as agent for a third party, facilitates the purchase of or invoices for such maintenance.

7. LIMITATIONS OF LIABILITY AND DISCLAIMERS

7.1 Limitation of Liability.

a) EITHER PARTY'S ENTIRE LIABILITY AND THE OTHER PARTY'S EXCLUSIVE REMEDY FOR DAMAGES ON ACCOUNT OF ANY CLAIM ARISING OUT OF AND NOT DISCLAIMED UNDER THIS AGREEMENT SHALL BE:

(i) FOR BODILY INJURY, DEATH OR DAMAGE TO REAL PROPERTY OR TO TANGIBLE PERSONAL PROPERTY PROXIMATELY CAUSED BY A PARTY'S NEGLIGENCE, PROVEN DIRECT DAMAGES;

(ii) FOR BREACH OF SECTION 4 (Confidential Information), SECTION 11.3 (Publicity) OR SECTION 11.4 (Trademarks), PROVEN DIRECT DAMAGES;

(iii) FOR ANY THIRD-PARTY CLAIMS, THE REMEDIES AVAILABLE UNDER SECTION 8 (Third Party Claims);

(iv) FOR CLAIMS ARISING FROM THE OTHER PARTY'S GROSS NEGLIGENCE OR WILLFUL MISCONDUCT, PROVEN DAMAGES; OR

(v) FOR CLAIMS OTHER THAN THOSE SET FORTH IN SECTION 7.1(a)(i)-(iv), PROVEN DIRECT DAMAGES NOT TO EXCEED, ON A PER CLAIM OR AGGREGATE BASIS DURING ANY 12 MONTH PERIOD, AN AMOUNT EQUAL TO THE TOTAL NET CHARGES INCURRED BY CUSTOMER FOR THE AFFECTED SERVICE IN THE RELEVANT COUNTRY DURING THE 3 MONTHS PRECEDING THE MONTH IN WHICH THE CLAIM AROSE.

b) EXCEPT AS SET FORTH IN SECTION 8 (Third Party Claims) OR IN THE CASE OF A PARTY'S GROSS NEGLIGENCE OR WILLFUL MISCONDUCT, NEITHER PARTY WILL BE LIABLE TO THE OTHER PARTY FOR ANY INDIRECT, INCIDENTAL, CONSEQUENTIAL, PUNITIVE, RELIANCE OR SPECIAL DAMAGES, INCLUDING WITHOUT LIMITATION DAMAGES FOR LOST PROFITS, ADVANTAGE, SAVINGS OR REVENUES OR FOR INCREASED COST OF OPERATIONS.

c) THE LIMITATIONS IN THIS SECTION 7.1 SHALL NOT LIMIT CUSTOMER'S RESPONSIBILITY FOR THE PAYMENT OF ALL PROPERLY DUE CHARGES UNDER THIS AGREEMENT.

7.2 Disclaimer of Liability. AT&T WILL NOT BE LIABLE FOR ANY DAMAGES ARISING OUT OF OR RELATING TO: INTEROPERABILITY, ACCESS OR INTERCONNECTION OF THE SERVICES WITH APPLICATIONS, DATA, EQUIPMENT, SERVICES, CONTENT OR NETWORKS PROVIDED BY CUSTOMER OR THIRD PARTIES; SERVICE DEFECTS, SERVICE LEVELS, DELAYS OR ANY SERVICE ERROR OR INTERRUPTION, INCLUDING INTERRUPTIONS OR ERRORS IN ROUTING OR COMPLETING ANY 911 OR OTHER EMERGENCY RESPONSE CALLS OR ANY OTHER CALLS OR TRANSMISSIONS, (EXCEPT FOR CREDITS EXPLICITLY SET FORTH IN THIS AGREEMENT); LOST OR ALTERED MESSAGES OR TRANSMISSIONS; OR UNAUTHORIZED ACCESS TO OR THEFT, ALTERATION, LOSS OR DESTRUCTION OF CUSTOMER'S (OR ITS AFFILIATES', USERS' OR THIRD PARTIES') APPLICATIONS, CONTENT, DATA, PROGRAMS, INFORMATION, NETWORKS OR SYSTEMS.

7.3 Disclaimer of Warranties. AT&T MAKES NO REPRESENTATIONS OR WARRANTIES, EXPRESS OR IMPLIED, SPECIFICALLY DISCLAIMS ANY REPRESENTATION OR WARRANTY OF MERCHANTABILITY, FITNESS FOR A

PARTICULAR PURPOSE, TITLE OR NON-INFRINGEMENT AND SPECIFICALLY DISCLAIMS ANY WARRANTY ARISING BY USAGE OF TRADE OR BY COURSE OF DEALING. FURTHER, AT&T MAKES NO REPRESENTATION OR WARRANTY THAT TELEPHONE CALLS OR OTHER TRANSMISSIONS WILL BE ROUTED OR COMPLETED WITHOUT ERROR OR INTERRUPTION (INCLUDING CALLS TO 911 OR ANY SIMILAR EMERGENCY RESPONSE NUMBER) AND MAKES NO GUARANTEE REGARDING NETWORK SECURITY, THE ENCRYPTION EMPLOYED BY ANY SERVICE, THE INTEGRITY OF ANY DATA THAT IS SENT, BACKED UP, STORED OR SUBJECT TO LOAD BALANCING OR THAT AT&T'S SECURITY PROCEDURES WILL PREVENT THE LOSS OR ALTERATION OF OR IMPROPER ACCESS TO CUSTOMER'S DATA AND INFORMATION.

7.4 Application and Survival. The disclaimer of warranties and limitations of liability set forth in this Agreement will apply regardless of the form of action, whether in contract, equity, tort, strict liability or otherwise, of whether damages were foreseeable and of whether a party was advised of the possibility of such damages and will apply so as to limit the liability of each party and its Affiliates and their respective employees, directors, subcontractors and suppliers. The limitations of liability and disclaimers set out in this Section 7 will survive failure of any exclusive remedies provided in this Agreement.

8. THIRD PARTY CLAIMS

8.1 AT&T's Obligations. AT&T agrees at its expense to defend and either to settle any third-party claim against Customer, its Affiliates and its and their respective employees and directors or to pay all Damages that a court finally awards against such parties for a claim alleging that a Service provided to Customer under this Agreement infringes any patent, trademark, copyright or trade secret, but not where the claimed infringement arises out of or results from: (a) third-party software furnished under this Agreement; (b) Customer's, its Affiliate's or a User's content; (c) modifications to the Service by Customer, its Affiliate or a third party, or combinations of the Service with any non-AT&T services or products by Customer or others; (d) AT&T's adherence to Customer's or its Affiliate's written requirements; or (e) use of a Service in violation of this Agreement.

8.2 Reserved

8.3 Infringing Services. Whenever AT&T is liable under Section 8.1, AT&T may at its option either procure the right for Customer to continue using, or may replace or modify, the Service so that it is non-infringing.

8.4 Notice and Cooperation. The party seeking defense or settlement of a third-party claim under this Section 8 will provide notice to the other party promptly upon learning of any claim for which defense or settlement may be sought, but failure to do so will have no effect except to the extent the other party is prejudiced by the delay. The party seeking defense or settlement will allow the other party to control the defense and settlement of the claim and will reasonably cooperate with the defense. The defending party will use counsel reasonably experienced in the subject matter at issue and will not settle a claim without the written consent of the party being defended, which consent will not be unreasonably withheld or delayed, except that no consent will be required to settle a claim where relief against the party being defended is limited to monetary damages that are paid by the defending party under this Section 8.

9. RESERVED

10. IMPORT/EXPORT CONTROL

Neither party will use, distribute, transfer or transmit any equipment, services, software or technical information provided under this Agreement (even if incorporated into other products) except in compliance with all applicable import and export laws, conventions and regulations.

11. GENERAL PROVISIONS

11.1 Independent Contractors. The parties to this Agreement are independent contractors. Neither party is an agent, representative, joint venturer, or partner of the other party. Neither party has any right, power or authority to enter into any agreement for or on behalf of, or incur any obligation or liability of, or to otherwise bind, the other party. Each party must bear its own costs and expenses in performing this Agreement.

11.2 Hire. During the term stated in a SOW and for a period of one year thereafter, Customer will not knowingly recruit, solicit nor hire any of AT&T's employees assigned to such effort. Notwithstanding the foregoing, former employees of AT&T who have left the employ of AT&T for a period of 6 months after last performing under the applicable SOW are not subject to this provision.

11.3 Publicity. Neither party may issue any public statements or announcements relating to the terms of this Agreement or to the provision of Services without the prior written consent of the other party.

11.4 Trademarks. Each party agrees not to display or use, in advertising or otherwise, any of the other party's trade names, logos, trademarks, service marks or other indicia of origin without the other party's prior written consent, which consent may be revoked at any time by notice.

11.5 Force Majeure. Except for payment of amounts due, neither party will be liable for any delay, failure in performance, loss or damage due to fire, explosion, cable cuts, power blackout, earthquake, flood, strike, embargo, labor disputes, acts of civil or military authority, war, terrorism, acts of God, acts of a public enemy, acts or omissions of carriers or suppliers, acts of regulatory or governmental agencies or other causes beyond such party's reasonable control.

11.6 Amendments and Waivers. Any supplement to or modification or waiver of any provision of an Order must be in writing and signed by authorized representatives of both parties. A waiver by either party of any breach of this Agreement will not operate as a waiver of any other breach of this Agreement.

11.7 AT&T may, withCustomer's consent, assign in whole or relevant part its rights and obligations under this Agreement to an AT&T Affiliate. In no other case may this Agreement be assigned without the prior written consent of the Customer (which consent will not be unreasonably withheld or delayed). In the case of any assignment, AT&T shall remain financially responsible for the performance of the assigned obligations. AT&T may subcontract to an Affiliate or a third party work to be performed under this Agreement but will remain financially responsible for the performance of such obligations. In countries where AT&T does not have an Affiliate to provide a Service, AT&T may assign its rights and obligations related to such Service to a local service provider, but AT&T will remain responsible to Customer for such obligations. In certain countries, Customer may be required to contract directly with the local service provider.

11.8 Severability. If any portion of this Agreement is found to be invalid or unenforceable or if, notwithstanding Section 11.11 (Governing Law), applicable law mandates a different interpretation or result, the remaining provisions will remain in effect and the parties will negotiate in good faith to substitute for such invalid, illegal or unenforceable provision a mutually acceptable provision consistent with the original intention of the parties.

11.9 Legal Action. Any legal action arising in connection with this Agreement must be filed within two (2) years after the cause of action accrues, or it will be deemed time-barred and waived. The parties waive any statute of limitations to the contrary.

11.10 Notices. Any required notices under this Agreement shall be in writing and shall be deemed validly delivered if made by hand (in which case delivery will be deemed to have been effected immediately), or by overnight mail (in which case delivery will be deemed to have been effected 1 business day after the date of mailing), or by first class pre-paid post (in which case delivery will be deemed to have been effected 5 days after the date of posting), or by facsimile or electronic transmission (in which case delivery will be deemed to have been effected on the day the transmission was sent). Any such notice shall be sent to the office of the recipient set forth on the cover page of this Agreement or to such other office or recipient as designated in writing from time to time.

11.11 Governing Law. This Agreement will be governed by the laws of the United States Government, without regard to its conflict of law principles, unless a regulatory agency with jurisdiction over the applicable Service applies a different law. The United Nations Convention on Contracts for International Sale of Goods will not apply.

11.12 No Third Party Beneficiaries. This Agreement does not provide any third party (including Users) the right to enforce it or to bring an action for any remedy, claim, liability, reimbursement or cause of action or any other right or privilege.

11.13 Survival. The respective obligations of Customer and AT&T that by their nature would continue beyond the termination or expiration of this Agreement, including the obligations set forth in Section 4 (Confidential Information), Section 7 (Limitations of Liability and Disclaimers) and Section 8 (Third Party Claims), will survive such termination or expiration.

11.14 Agreement Language. The language of this Agreement is English. If there is a conflict between this Agreement and any translation, the English version will take precedence.

11.15 Entire Agreement. This Agreement constitutes the entire agreement between the parties with respect to its subject matter. Except as provided in Section 5.1 (Software), this Agreement supersedes all other agreements, proposals, representations, statements and understandings, whether written or oral, concerning the Services or the rights and obligations relating to the Services, and the parties disclaim any reliance thereon. This Agreement will not be modified or supplemented by any written or oral statements, proposals, representations, advertisements, service descriptions or purchase order forms not expressly set forth in this Agreement.

Enterprise on Demand Terms and Conditions

1. Enterprise On-Demand (EOD)

1.1 Eligibility. Pursuant to the terms and conditions of this contract, AT&T provides the subscribing Agency the ability to conduct EOD Management through the EOD Portal, and receive the subscribing Agency's supported service invoices through EOD. The subscribing Agency must be in compliance with the contract to be eligible for EOD. EOD is only available to the subscribing Agency and it's Corporate Responsibility Users ("CRUs"). EOD is not available to Individual Responsibility Users ("IRUs").

1.2 EOD Service. The Service available in connection with EOD (the "EOD Service") is either (i) EOD Wireless Data Service or (ii) EOD Wireless Data Service and EOD Basic Voice Service. The subscribing Agency may not activate EOD Basic Voice Service as a stand-alone EOD Service.

2. EOD Management.

2.1 EOD SIMs. EOD requires an EOD specific SIM for each device managed through the EOD Portal.

2.2 Ordering SIMs. The subscribing Agency must purchase inactive SIMs from AT&T, open market, through the Portal when ordering EOD service for an additional charge plus applicable taxes.

2.3 Initial Number Assignment and Subsequent Orders. Subject to (i) the availability of SIMs and Numbers, (ii) the imposition of additional processes on AT&T by third parties in order to obtain the SIMs and/or Numbers, and (iii) the capacity of AT&T's facilities, AT&T will supply SIMs and Numbers to The subscribing Agency under normal circumstances within eight (8) weeks after AT&T's receipt of the completed Portal order.

2.4 Activation and Deactivation.

2.4.1 Orders. The subscribing Agency may order Activations and/or Deactivations by submitting an activation request through the Portal. Each Activation request must include the ICCID number, the proposed activation date, the qualified Plan, the Place of Primary Use, and such other information as may be required by AT&T. Each Deactivation request must include the ICCID number and such other information as may be required by AT&T. Normal activation charges apply to Activations.

2.4.2 AT&T Response. AT&T will process Activations and Deactivations as soon as practicable following receipt of orders properly submitted through the Portal. Orders typically will be processed within four (4) business hours. Customers will be charged the full month's Monthly Service Charge for months in which Deactivations occur. AT&T has the right to unilaterally establish policies regarding the length of time between deactivating and reactivating the same ICCID.

2.4.3 Plans. The subscribing Agency may only activate Numbers on Devices on the qualified Plans posted on the Portal. Such Plans consist of EOD Basic Voice Service Plans and EOD Wireless Data Service Plans, and any other Plan that AT&T makes available for EOD activation from time to time. AT&T may modify the list of qualified Plans posted on the Portal at any time. Such plans will remain subject to the applicable terms and conditions for the plans as specified in this Agreement.

2.4.3.1 EOD Basic Voice Service Plans. A Basic Voice Service Plan may only be activated (i) as an add-on to a qualified Wireless Data Service Plan and (ii) on a Device that supports both Wireless Data Service and Voice Service. If the Wireless Data Service is deactivated, the Basic Voice Service is also automatically deactivated and the associated Number is released. Basic Voice Service and the associated Number cannot be suspended and resumed. EOD does not support certain voice plan features (including, but not limited to, Push To Talk, OfficeReach™ Enterprise Paging, AT&T® World Traveler, and Rollover® Minutes). Optional Voice Service features are subject to (i) Device compatibility limitations, (ii) EOD availability limitations, and (iii) applicable feature charges.

2.4.3.2 EOD Wireless Data Service Plans. Wireless Data Service and the associated Number cannot be suspended and resumed. Optional Wireless Data Service features are subject to (i) Device compatibility limitations, (ii) EOD availability limitations, and (iii) applicable feature charges.

2.4.4 Limitations.

2.4.4.1 Applications. The subscribing Agency may only order Activations designated for use with AT&T-certified applications. Prior to ordering an Activation, any applications used by the subscribing Agency in connection with EOD must pass all certification testing standards as may be established by AT&T from time to time.

2.4.4.2 Number of Devices. A Number may not be associated with more than one Device at the same time, unless otherwise approved by AT&T.

2.4.4.3 Activation Denials. AT&T reserves the right to deny an Activation if the corresponding Number or Device appears on AT&T's "service-deny" lists for one of a variety of reasons, including cases where the Device is stolen, has been

used for fraudulent purposes, or is defective. AT&T will notify the subscribing Agency in such cases with the denial reason. AT&T is not liable to the subscribing Agency or any CRU if activation, modification, or other Service request is so denied.

3. Devices and SIMs.

3.1 Generally. The subscribing Agency must purchase all SIMs for use with EOD from AT&T through the Portal. The subscribing Agency may not purchase SIMs from any third party with respect to EOD.

3.5 No Third-Party SIMs and/or Devices. The subscribing Agency may not purchase SIMs and/or Devices for use with EOD from any source not approved by AT&T, even if the SIMs or Devices originally came from AT&T. The subscribing Agency may not use SIMs purchased from any party not authorized by AT&T in any Device to be activated on the AT&T Network. The subscribing Agency must inform AT&T of any other individuals or entities that it learns are offering SIMs alleged to be compatible with AT&T's Network and must cooperate with AT&T in any investigation regarding such SIM distribution.

3.6 Return of SIMs. Upon the expiration or termination of the Agreement, The subscribing Agency may promptly return all unused, undamaged, or new SIMs in their original packaging in increments of 500 as of the date of such expiration or termination. AT&T will refund to the subscribing Agency amounts paid for SIMs returned in such manner.

4. Portal. AT&T will provide the subscribing Agency with the Portal. The subscribing Agency may use the Portal in accordance with and subject to the terms and conditions of this contract. The subscribing Agency must supply all its own computer equipment, peripherals, Internet service, software and related means at its sole cost and expense. AT&T may reasonably rely on the authority and capacity of any person who executes an order on the subscribing Agency's behalf and, accordingly, AT&T may rely on the information provided through the Portal. AT&T has no liability to the subscribing Agency for their inability to access the Portal for reasons beyond AT&T's control.

6.2 Tier-One Technical Support. The subscribing Agency must maintain and staff a centralized information technology help-desk or a dedicated internal care group to manage Tier-One support for its CRUs in connection with EOD. The subscribing Agency agrees to advise each CRU receiving EOD Service that he or she is not to call AT&T's Customer Care at 611 regarding the EOD Service and/or the Device.

6.3 Tier-Two Technical Support. AT&T will provide Tier-Two support to the subscribing Agency in connection with EOD. The subscribing Agency will cooperate with AT&T in any trouble-shooting that may be required to maintain the efficient operation of the Service and the Network. AT&T will not provide Tier-Two support directly to the subscribing Agency's mobile device end users. The subscribing Agency may escalate Tier-Two issues to AT&T only after clear identification and isolation of the issue with a reasonable determination that the error lies within AT&T's control.

7. Default. If the subscribing Agency breaches any terms or conditions of this contract, then the subscribing Agency will be in default and AT&T may:

a) refuse Activation requests, and/or

b) modify or terminate Service with respect to one or more Numbers.

8. Miscellaneous.

8.1 Number Conservation. AT&T and the subscribing Agency will follow reasonable Number conservation policies generally accepted by the telecommunications industry and AT&T may, from time to time upon reasonable notice, change Number assignments in conformity with such policies, including changes requested or ordered by federal or state regulatory authorities or by number administrators recognized by such authorities as having responsibility for the assignment of telephone numbers. If Numbers are unavailable, AT&T may follow generally accepted industry standards and/or regulatory requirements, if any, in responding to the shortage of Numbers. AT&T shall incur no liability to the subscribing Agency for Number shortages.

AT&T Control Center Terms and Conditions

SECTION 1. Description of Service. AT&T Control Center powered by Jasper (the "Service") provides Customer with Machine-to-Machine Wireless Services, as stated in the AT&T Control Center Service Description, as incorporated in this AT&T Mobility IT70 Schedule. The Service is not to be used for international roaming, except on a rare and incidental basis. With respect to any international roaming that may occur, Customer shall not characterize the services or devices it provides as involving the sale, resale or provision of wireless services, advertise that it is selling or providing wireless service, or charge third parties separately for wireless service. AT&T Control Center services are subject to Jasper Technology Inc.'s (formerly known as Jasper Wireless, Inc.) Terms of Use and Privacy Policy, as incorporated in this AT&T Mobility IT70 Schedule, which are a separate, supplemental agreement between Jasper and Customer, and do not modify or amend the terms and conditions between AT&T and Customer. Provision of the Control Center to Customer is subject to continued availability to AT&T of the Control Center from Jasper. AT&T may withdraw availability of the Control Center on six (6) months advance written notice, and in such event AT&T will continue to provide AT&T wireless services to deployed devices and SIMs using alternative service delivery platforms and at the same prices. All Devices activated under this Agreement must contain a radio module that is compatible with, and will be activated on, AT&T's LTE Network. AT&T is not obligated to maintain any particular wireless technology, and AT&T may reduce or terminate wireless Network technologies at any time in its sole discretion. AT&T will provide Customer twelve (12) months prior written notice of its intention to terminate a significant wireless technology on a nationwide basis, or prohibit future activations or reactivations of SIMs using a particular wireless technology on a nationwide basis. Services provided by roaming carrier Networks may be reduced or terminated on a different schedule with or without prior notice.

Section 2. Service Plans. For each active Control Center SIM, Customer may select any qualified Service Plans, as incorporated in this AT&T Mobility IT70 Schedule. Mid-cycle changes of rate plans, correctly submitted via application program interface calls ("API Calls") or the Control Center platform commands for completion at least 24 hours prior to the closing date of the current billing cycle, shall be set as effective at the beginning of the billing cycle and will be applied in the same billing cycle in its entirety on a non prorated basis for data plan rating purposes.

Section 3: Statement Regarding Section 508. The AT&T Control Center management platform is compliant to Section 508 requirements with some exceptions. The management console application may not be accessible to all users with disabilities with the same effectiveness as non-disabled users as described in Section 508. For this reason, Agency management should carefully review the Product Assessment report of the AT&T Control Center before purchasing solutions that includes this platform for Agency use.

Section 4: VPN Service Terms. Customer may either order routers and VPN connectivity from AT&T or provide VPN connectivity itself. If Customer elects to order VPN service from AT&T for use with the Control Center, two AT&T-owned VPN routers will be provided and pre-configured to support AT&T Control Center Service and these routers will be used only for AT&T Control Center. Customer is responsible for any liability, loss or theft of, to or relating the routers and will return the routers in good condition or reimburse AT&T for their cost at the conclusion of the term. Customer may also provide its own VPN service by supplying two VPN routers to work with AT&T's data centers. Routers must meet AT&T specifications and must be configured according to AT&T requirements. Additional charges apply for VPN service.

Service Description for AT&T Machine-to-Machine Wireless Services (M2MWS) - AT&T Control Center

The AT&T Machine-to-Machine Wireless Service (M2MWS) offered under this Service Description is AT&T Control Center Powered by Jasper ("Control Center" or "ACC") Service. AT&T describes related products, services, Equipment and programs. These M2MWS and related products, services, Equipment and programs are available to AT&T Customers on qualified Service Agreements. Terms used in this Service Description are defined in the Glossary.

SD-1. General

M2MWS provide Customers with the ability to make Machine-to-Machine data and messaging wireless communications using the AT&T Network. Customers may only order M2MWS for use with Acceptable Applications on Approved Devices. Any Devices used by a Customer in connection with M2MWS must pass all certification testing standards as may be established by AT&T from time-to-time, as well as any applicable industry or FCC requirements for use on wireless networks.

Any Applications used by a Customer in connection with M2MWS which may affect network service and connectivity may be subject to evaluation by AT&T from time-to-time to verify that they are and remain Acceptable Applications. Devices may be supplied by Customer or may be purchased from AT&T. Customer may permit its End Users to utilize the Service but shall remain responsible for the Service including all payment obligations. The Service is provided to Customer for Customer's use and not for resale. Customer shall not characterize its transactions with its End Users as involving the sale or resale of telecommunications service, describe or advertise that it is selling telecommunications service, or charge its customers expressly for telecommunications service. Notwithstanding the foregoing, Customer may charge its End Users for Customer's services that incorporate all or a portion of the Service, provided such charges are not based upon measurements of wireless Service use.

SD-1.2. SIMS

Customers must purchase all SIMs for use with M2MWS from AT&T or a third party provider of SIMs approved by AT&T in writing. SIMs purchased from an approved third party provider must be certified for use on the AT&T network.

Customers may only purchase from AT&T a quantity of SIMs that may reasonably be used for Activations. AT&T may limit or cancel sales of SIMs to a Customer if an unreasonably high percentage of SIMs remains inactive. AT&T may establish limits on quantities of SIMs shipped to a Customer within a time interval which could significantly impact other customers. Customers may purchase SIMs from AT&T in minimum quantities of fifty (50).

Customers may not program, re-program, or tamper with a SIM in any manner. Customers may not insert SIMs into Devices bearing an AT&T mark, or Devices that were purchased from AT&T that have been packaged with an AT&T SIM. Further, Customers may not insert SIMs into anything other than an Approved Device or sell SIMs separate from an Approved Device.

Customers may order Activations and/or Deactivations by submitting a request to AT&T through Control Center. Each Activation request must include the ICCID number, the proposed activation date, the qualified Plan, the PPU, and such other information as AT&T requires. Activation charges may apply to Activations. Each Deactivation request must include the ICCID number and such other information as AT&T may require.

AT&T will process Activations and Deactivations as soon as practicable following receipt of properly submitted orders. AT&T may impose restrictions, in its sole discretion, regarding the length of time between deactivating and reactivating the same ICCID.

SD-1.3. Applications and Devices

Customers are responsible for all Devices assigned to them under the Customer's account. All Devices used by Customers must be compatible with, and not interfere with, any AT&T services and must comply with all applicable laws, rules, and regulations. Customers are responsible for the purchase and maintenance of any additional hardware or software required to use M2MWS. AT&T may periodically program Customers' Devices remotely with new system settings.

All Devices used in connection with M2MWS must be approved by AT&T for use on its Network. Once AT&T has evaluated and approved a Device, it is then classified as an Approved Device. A current list of Approved Devices can be found on AT&T's website (developer.att.com), as it may be changed from time-to-time; additionally, AT&T may specify additional Approved Devices in the Service Agreement.

Customer Applications must be Acceptable Applications, i.e., be compatible with the efficient operation of the AT&T Network and not interfere with the Services of other AT&T customers, result in inefficient or excessive use of the AT&T Network or the networks of its Roaming Carriers, or be inconsistent with AT&T network policies and practices. AT&T may, at its option, require

Customers to provide information about how their Applications interact with the AT&T network, and may limit, restrict or prohibit use of Applications which fail to meet the requirements of this paragraph.

Devices purchased from AT&T for use on AT&T's system are designed for use exclusively on AT&T's Network unless explicitly documented by AT&T for cross-carrier use. Customers may not make any modifications to the Device or programming to enable the Device to operate on any other system. AT&T may, at its sole and absolute discretion, modify the programming to enable the Device to operate on other systems.

Customers are responsible for compliance with laws and regulations governing the export, import, use, and disposal of Customer Devices containing SIMs. This obligation includes (a) compliance with rules on data privacy, data retention, encryption, chemical substances and hazardous materials; (b) the duty to obtain and remain in compliance with licenses and registrations; and (c) any required reporting to government agencies.

SD-1.4. Use of M2MWS

SD-1.4.1. Establishment of Service

Customers must connect to the AT&T Network in order to receive Service. Before a Customer may use certain AT&T online activation, enrollment, configuration and/or support services, an authorized representative of the Customer must register with AT&T and create a login identification ("ID") and password. Use of this login ID and password will enable Customers and/or their employees and agents to make certain changes to the Customer's account(s). Customers are solely responsible for maintaining adequate security and control of any and all login IDs, passwords, or any other codes that they create or that AT&T issues to them for the purpose of giving them access to any activation, enrollment, configuration and support services. AT&T is entitled to rely on information it receives from anyone using those login IDs, passwords and other codes and may assume that all such information was submitted by a Customer or on its behalf.

SD-1.4.2. Modification or Termination of Service

If a Customer desires to modify or terminate any Service or SIM, or to change Service Plans, the Customer must advise AT&T through use of AT&T's Service Delivery Platforms. Changes will become effective as determined by AT&T, based on dates requested by Customer.

SD-1.4.3. Support and Trouble-shooting

Customers must maintain and staff a centralized information help-desk or a dedicated internal care group to manage support for M2M Service. Some products may be offered to customers and a phone support model will be followed. Customers must cooperate with AT&T in any trouble-shooting that may be required to maintain the efficient operation of AT&T Mobile Services and AT&T's wireless network. Customers may escalate issues to AT&T only after there has been a clear identification and isolation of the issue and a reasonable determination that the error lies within AT&T's control.

Support for M2M Service includes web portal trouble ticket notices and phone support on a 24x7x365 basis. There is no separate charge for Support. AT&T does not provide customer support for non-AT&T products and services.

AT&T will provide network monitoring support, technical assistance support and trouble- shooting support only to Customers, and not directly to End Users. Customers must cooperate with AT&T in any trouble-shooting of Equipment or the Network as required to maintain the efficient operation of a Service.

SD-1.4.4. Roaming Service

AT&T will provide the same access to roaming capabilities (including "in-area" roaming where available) that is made available by AT&T to other similarly situated Customers provided that equipment with similar technical capabilities and programming is used by the Customer or its End Users. The availability of roaming services, and the charges for those services, are dependent in part on the type of equipment used by the Customer for its End Users and the programming of that equipment. Roaming services cannot be used in violation of AT&T's agreements with its roaming providers. The quality, availability, and characteristics of roaming services are under the control of the provider of the roaming service, and may be changed, modified, withdrawn or terminated as determined by the roaming provider.

If AT&T, or if another entity with whom AT&T has a roaming agreement, discovers or suspects abuse or fraud with respect to certain numbers, then roaming privileges may be suspended with respect to such numbers.

To the extent AT&T provides Customers with access to roaming capabilities, use of such capabilities is deemed to be a service provided hereunder, and the use of such roaming by Customer or End Users is governed by the provisions herein.

SD-1.4.5. Security Requirements for External Applications Gateway

The AT&T External Application Gateway or any successor platform ("EAG") enables connectivity for the delivery of content and applications by Customer through the AT&T wireless data networks. EAG supports the delivery of content and applications through a variety of delivery methods, including short messaging service ("SMS"), multi-media messaging service ("MMS"), device capabilities service ("DC"), and terminal location service ("TL" or "LBS"). Should Customer use EAG in connection with M2MWS, Customer shall: (1) have and use a documented process to remediate security vulnerabilities in Customer's Information Resources and apply appropriate security patches promptly; (2) assign security administration responsibilities for configuring host operating systems to specific individuals; (3) ensure that its information security staff has reasonable and necessary experience in information and network security; (4) ensure that all of Customer's Information Resources are and remain "hardened" including, but not limited to, removing or disabling unused network and other services and installing a system firewall or similar technology; (5) change all default account names and/or default passwords on Customer's Information Resources; (6) enforce the rule of least privilege (i.e. limiting access to only the commands and Information Resources necessary to perform authorized functions according to one's job function); (7) In environments where antivirus software is commercially available and to the extent practicable, have current antivirus software installed and running to scan for and promptly remove or quarantine viruses and other malware; (8) promptly notify AT&T whenever there is unauthorized access to or other security breach of Customer's Information Resources in connection with M2MWS by contacting the Customer's contact within AT&T for the Services; (9) use only the mutually agreed upon facilities and connection methodologies to connect to the EAG; and (10) implement a firewall or other security gateway and maintain logs of all sessions of connectivity to the EAG. These logs must include sufficiently detailed information to identify the end user or application, origination IP address, destination IP address, ports/service protocols used and duration of access. These logs must be retained for a minimum of ninety (90) days. The term "Information Resources" for purposes of this section means systems, applications, networks, network elements, and other computing and information storage devices used by Customer in connection with EAG.

SD-2. Charges, Billing and Payments

Customers may change to another available Service Plan at any time provided they pay any applicable early cancellation or change fee. The change will normally be made within twenty- four business hours of AT&T's receipt of the request from a Customer (including changes submitted through a Service Delivery Platform) and will normally become effective on the first day of the following month's billing cycle.

Roaming charges may apply when a Device is used outside of the AT&T Network. Roaming rates may be separate from on-network rates. All international calling is roaming; some domestic calling is roaming. Lagging data records will be applied the day they are received by AT&T and not the date used.

SD-3. AT&T Control Center Powered by Jasper ("Control Center Service")

SD-3.1. Control Center Service – General

Control Center Service is a "software as a service" ("SaaS") offering. It provides Customers a web-based interface that enables them to manage Rate Plans, perform diagnostics, receive usage alerts, perform billing and maintenance, and order, activate, monitor and control certain services they obtain from AT&T. Control Center consists of the SaaS capability and the associated systems by which AT&T will make wireless services and Control Center Service available to Customers for their use.

Customers are responsible for providing all workstations, data services and network connectivity required to access and use Control Center Service and its SaaS capability. Customers are also responsible for complying with the security, registration, access, and use requirements imposed by AT&T or Jasper relating to use of Control Center Service and SaaS.

SD-3.2. Available Control Center Service Plans

There are two types of Control Center Service Plans: (1) Control Center Wireless Data Service Plans, and (2) Control Center Wireless Data Service with Voice Dispatch Service ("CC/VDS"). For each active SIM on Control Center Service, a Customer may select any of the Control Center Service Plans available in the applicable Service Agreement. If a Service Plan requires a term commitment, the fee for early cancellation of service on that Plan will be specified in the Service Plan description. The fee will be applied in a billing cycle only to the extent that the number of deactivations on those Plans exceeds the number of activations on those Plans during that billing cycle. No other Service Plans are eligible for service hereunder.

Customers may only activate Numbers on Devices on the qualified Control Center Plans specified in their Service Agreement, or if no Plans are specified in the Service Agreement, by choosing a qualified Plan posted on the Portal. Such Plans consist of Control Center Wireless Data Service Plans and Control Center Wireless Data Service with Voice Dispatch Service Plans and any other Plan(s) that AT&T makes available for Control Center Service activation from time-to-time. AT&T may modify the list of

qualified Plans posted on the Portal at any time. If 25% or more of the data usage in any three month period is used off the AT&T owned and operated domestic data network, AT&T reserves the right, at its option, with prior written notice, to terminate the Control Center Service or move all or a portion of Customer's Numbers to another data plan for which they may otherwise qualify. There is no per SIM or other change fee for changing between Service Plan.

SD-3.3. Control Center Wireless Data Service

Control Center Wireless Data Service permits the transmission of specified amounts of data each month for a stated price. Control Center Wireless Data Service does not support certain features (including, but not limited to, Enterprise Paging and AT&T Wi-Fi service). Optional Wireless Data Service features are subject to (i) Device compatibility limitations, (ii) Control Center availability limitations, and (iii) applicable feature charges. Control Center Wireless Data Service and the associated Number cannot be suspended and resumed. No voice service is available with Control Center Wireless Data Service. Control Center Wireless Data Service Plans include data, messaging, and roaming services.

SD-3.4. Messaging Services with Control Center

SD-3.4.1. Messaging Services — General

Customer must interconnect with AT&T's dedicated Control Center data center for Messaging Service using Control Center using an SMPP Bind, or a Control Center API. NSG is not available with Control Center. An SMPP Bind used for EOD cannot be used for Control Center, and a separate SMPP Bind is necessary. Customer must use the Messaging Service only to transmit Messages through the Messaging Application on its own or another's behalf. Customer is responsible for all acts or omissions of its End Users or others using its Messaging Service. Messaging activity will only be between a computer owned and/or operated by Customer ("Host Computer") and an Approved Device using approved Short Codes (either generic or vanity). API supports the delivery of content and applications through short messaging service ("SMS").

Customer's Routing Number must be populated as the source address on mobile terminated Messages for such Messages to be delivered. Customer may utilize more than one Routing Number subject to Company's reasonable written approval. In addition, subject to Company's written approval, Customer may obtain the use of "vanity" Short Code[s] (e.g., specific numbers requested by Customer).

Upon request, Customer will on a quarterly basis provide Company with a non-binding twelve month rolling projection of its anticipated Messaging Service demand in such form as requested by Company. Upon request, Customer will also provide Company with monthly Messaging reports identifying such information as requested by Company, which may include but not be limited to the following information by day and by Messaging Application for the subject month: unique End Users, mobile-originated Messages ("MO's"), mobile-terminated Messages ("MT's"), transactions (if appropriate), most active MSISDNs, and most active cities. In addition, Customer will supply such additional reports as reasonably requested by Company.

SD-3.4.2. Messaging Applications

Messaging Applications for SMPP Gateways consist of Messaging Services pursuant to which Customer will establish a connection to the SMPP Gateway and will deliver Messages from such SMPP Gateway (a) from Customer to End Users Devices, or (b) from End User Devices to Customer. Customer must identify whether a connection to the SMPP Gateway will allow either

a) only sending of messages to End Users ("One Way Connection"), or b) both the sending and receiving of messages to and from End Users ("Two Way Connection").

Messaging Applications for API consist of Messaging Services pursuant to which Customer will deliver native SMPP Messages or web based APIs for Messaging. Customer must meet the technical and integration requirements set forth in the Company protocol-specific guides and Company connectivity guides as modified from time-to-time (collectively, "API's").

Customer must deliver notice of desire to test a Messaging Application(s) for either SMPP or Control Center API at least ninety (90) days in advance of proposed launch and deliver the computer code for the Messaging Application(s) at least sixty (60) days prior to proposed launch. Company will conduct end-to-end testing (including opt-out functionality and end-to- User flows) of the fully integrated and documented Messaging Applications. Customer will use commercially reasonable efforts to correct any defects identified by Company during testing within thirty six (36) hours and Customer will promptly re-submit for testing. Additional Messaging Applications must be submitted to Company for end-to-end testing at least thirty (30) days prior to their proposed launch. If Customer desires to make a material modification to any Messaging Application, it may do so upon written notice to Company and testing and re- certification of the Messaging Application at least thirty (30) days prior to proposed launch. Company may, in its sole discretion, require re-testing or re-certification of an Application if any proposed modification will result in a change to the way Customer must connect to Company's Network. Customer will not: (a) provide ring tones,

graphics, true tones or any other non-text content through any Messaging Application and/or provide content for use by consumer End Users. Customer will, at its sole expense, provide and maintain its Messaging Applications.

SD-3.4.3. Controls and Delivery

For both SMPP and Control Center API, the time it takes to transfer Messages to an End User or Device, whether the intended recipient receives the Message, and the time it takes a Message to be received from a Device to an Acceptable Application is dependent upon the conditions prevailing at the time of submission, including, but not limited to, whether: (i) the recipient has compatible equipment; (ii) the message is sent to the correct ten-digit telephone number, network entity identifier, or such other data (including the domain of the Messaging Service) and or messaging number (s); (iii) the device is turned on and within the area covered by the Messaging Service; (iv) the device has memory slots available for new Messages; (v) Network architecture; and (vi) the intended recipient is an End User. For these reasons and because of capacity and technical constraints, the timing and quality of the Messaging Service may vary and is not guaranteed. Delays may be encountered and Company will not be responsible for such service degradation and will not notify Customer of any delay in delivery of Messages. Typically Company will make efforts to deliver the Message for a maximum of 72 hours. Any Messages not delivered within 72 hours will be discarded by the Network without notice to Customer. Company may, in its sole discretion, increase or decrease the number of hours after which Messages will be discarded.

The delivery of Messages will be subject to Company controls concerning the maximum number of Messages that can be sent by Customer during a period of time ("Throttling Rate"). If Customer receives an error code from Company indicating that Customer has exceeded the Throttling Rate, Customer must stop sending Messages for fifteen (15) seconds then resume at a level below the Throttling Rate. Customer must re-send any Messages that exceeded the Throttling Rate in order for such Messages to be delivered. Customer may be limited in the number of unacknowledged Messages in the queue for transmission ("Flow Control Rate"). The Messages in the queue must be acknowledged before additional Messages will be sent. Company may change either the Flow Control Rate or the Throttling Rate from time-to-time in its sole discretion on notice to Customer.

As specifically provided in the API's, Messages delivered may be rejected or altered by Company if the size of the Messages (or number of characters included in the Messages) exceeds AT&T's written standards or if Messages otherwise violate AT&T's delivery standards.

If a Customer has multiple SMPP Binds to Company, the Customer must balance all Messages over all of its available Binds so that approximately equal numbers of Messages are carried over each Bind.

Customer is required to receive Company's prior approval to establish delivery receipt. If approved, when a message is delivered, expired, or rejected, Company will return a delivery receipt to Customer. in a PDU/packet data unit (deliver_sm).

SD-3.4.4. Message Content

Company reserves the right to refuse to transmit Messages that violate the law, a governmental order, Company's privacy policy, or other network or subscriber protective measures. Customer

is solely responsible for the content of Messages that it generates and sends to End Users through the Messaging Service. Unless Company notifies Customer otherwise in writing, text messages are limited to 160 characters and characters in excess of such length will be silently discarded. Customer will comply with all applicable laws, rules, and regulations while using the Messaging Service and not transmit any communication that would violate any federal, state, or local law, court order, or regulation. Customer will cooperate with Company and/or governmental authorities in investigations alleging a violation of any law, rule, or regulation. Customer will comply with applicable international, import, and export laws.

With respect to Customer's Messages, Customer will not (a) deliver to Company for transmission or disseminate material that is harassing, defamatory, libelous, abusive, threatening, obscene, coercive, or objectionable, including material that is false, misleading, or inaccurate; (b) deliver to Company for transmission or disseminate material that violates the rights of any person or company protected by copyright, trade secret patent or other intellectual property or similar laws or regulations; (c) use the Service to transmit or disseminate unsolicited material, including without limitation "junk mail" or "unsolicited bulk e-mail," or other advertising material to persons or entities that have not specifically agreed to receive Messages from Customer; (d) use the Messaging Service to introduce malicious programs into End Users' equipment or Company's Network, SMPP Gateway, API, or server including viruses, worms, Trojan horses, e-mail bombs, cancel bots, or other computer programming routines that are intended to damage, interfere with, intercept or expropriate any system, data, or personal information, including executing any form of network monitoring that will intercept data not expressly approved for use; or (e) deliver Messages to any Device except an End Users' Device. With respect to Messages created and sent by End Users, Customer will require agreement from End Users to content restrictions similar in substance to those contained in this Section. Additionally, Customer agrees that all Messages sent through the SMPP Gateway will only be in ASCII format. Binary messages are prohibited from transmission

across Company's Network, unless specifically authorized by Company in writing. Unauthorized binary messages, as well as any Messages which violate this Service Description or the Agreement, will be discarded by Company without notice to Customer or End User.

Messages may be transmitted in an unencrypted format and Company does not guarantee the privacy of any message. To the extent permitted by law, Company has the right to intercept and disclose any transmissions over its facilities in order to protect its rights or property, including without limitation, to protect the efficient operation of its network or to comply with governmental authorities. Customer is solely responsible for the content of Messages it generates and sends through the Messaging Service, including Messages generated by Customer's content sources. Customer recognizes and agrees that Company is a passive conduit in transmitting and storing Messages. Company may reject or fail to deliver Messages that include digital rights management identification or tools that are not supported by Company.

Company at any time may require Customer to store and transport certain sensitive customer information in an encrypted form ("SubID/MSISDN Policy"). Company will provide Customer with written notice of such SubID/MSISDN Policy and Customer will have at least sixty (60) days to implement such policy. If Customer determines that it is unable to comply with the SubID/MSISDN Policy it may terminate its Service without penalty on at least thirty (30) days' written notice, which must be delivered to AT&T within sixty (60) days of AT&T's provision of notice of the SubID/MSISDN Policy.

Except with Company's written consent, Customer may not send any Messages, content or advertisements of any kind over the SMPP Gateway or API (a) outside the scope of, or through any means other than, the Messaging Applications, or (b) to any equipment other than End User Devices operating on Company's wireless network or the network of a carrier with which Company has a roaming agreement that would cover the Messages.

SD-3.4.5. Interconnection using SMPP

Prior to integration of the Messaging Application with the SMPP Gateway, Customer must complete and submit to Company the information or other documentation requested by Company in connection with establishing this connection. Customer must provide Company with at least 30 business days to test Customer's connection to the Network. Customers using SMPP must connect to Company's network in order to receive Messaging Service. SMPP Connectivity must be achieved through a virtual private connection (VPN.) Customer must comply with all reasonable security requirements and procedures established by Company and provided to Customer with respect to the Persistent Connection and must use an industry standard virus protection program on all networks that Customer maintains that may be accessed by the Persistent Connection. The Persistent Connection will be maintained for as long as necessary (but in any case shall terminate immediately upon termination or expiration of the Agreement). Company shall provide Customer with prompt written notice of any suspension or interruption of the Persistent Connection as well as (i) an explanation of the same, and (ii) an estimate when the Persistent Connection will be restored. In the event of termination or suspension of the Persistent Connection, Customer will not be responsible for performance of any obligations pursuant to this Addendum that cannot reasonably be performed without the Persistent Connection. If Company suspends or terminates the Persistent Connection for longer than 3 days, Customer, within 2 days of such date, may, but is not obligated to, provide written notice to Company of its intention to terminate the Agreement within three days. Customer will only access the SMPP Gateway to (a) transmit or disseminate Messages to End Users that have specifically authorized Customer to send the quantity and type of Message(s) Customer is transmitting, or (b) receive Messages from End Users. Messages cannot be sent from one End User directly to another End User through the SMPP gateway.

SD-3.4.6. Interconnection using API

Customer will obtain and pay for all data networking hardware, software and data links required for Control Center API interconnection on Customer's end to connect its network to the Messaging Service. Any such interconnection or integration must (a) comply with AT&T Control Center API requirements and (b) pass any end-to-end testing by AT&T.

Customer will be responsible for maintaining security for connectivity between Customer and the AT&T network in accordance with the AT&T security requirements. If, despite commercially reasonable efforts, Customer does not promptly implement AT& security requirements, including any revisions or updates to such requirements, AT&T may terminate Customer's Messaging Service by written notice to Customer.

SD-3.5. Control Center Features

The methods of providing Control Center features and the scope and extent thereof shall be determined by AT&T in its sole discretion. The Control Center features are:

- Automated and real-time provisioning, including rules-driven provisioning, auto provisioning, and overage controls.

- Flexible rating and billing administration, using Customer selectable rate plans (as appropriate), and invoicing summary and detailed information.
- Real-time diagnostics, including SIM troubleshooting and real-time connection status and history
- Analytics and reporting, including alerts for provisioning or usage, provisioning status reports, billing and usage information, historical usage reports, and invoicing billing details

SD-3.6. Optional Virtual Private Network ("VPN") Services for Control Center

The following terms and conditions apply to optional VPN Services that may be obtained in connection with a Customer's use of Control Center Service. If a Customer intends to use short message peer-to-peer ("SMPP") protocol, it must implement a VPN for SMPP encrypted traffic.

SD-3.6.1. AT&T CPE (Customer Premises Equipment) VPN Services Terms

In connection with optional AT&T CPE VPN Service for use with Control Center Service, Jasper will pre-configure and AT&T will provide two AT&T-owned VPN routers ("AT&T Routers") to work with the Jasper data centers that support Control Center Service. Customers may only use those AT&T Routers to facilitate their use of Control Center Service and may not use the AT&T Routers for any other purpose. The AT&T Routers are managed remotely and permit only AT&T or its vendor to have access to their root administration. These routers will be supported through their manufacturer at AT&T's discretion. Prices for Optional AT&T CPE VPN Services are stated below.

Upon the termination or expiration of Control Center Service, Customers must return the AT&T Routers in good condition and repair (less ordinary wear and tear) at their expense or promptly reimburse AT&T for their value as determined by AT&T.

SD-3.6.2. COAM (Customer Owned and Maintained) VPN Service Terms

Customers electing to obtain optional COAM VPN Service to facilitate the use of Control Center Service must supply two VPN routers ("Customer Routers") to work with AT&T's data centers. Customer Routers must be approved by AT&T.

Customer Routers must be configured according to AT&T's specification for connection to the Control Center. If Customer Routers must be shipped to an AT&T location for configuration, the Customer must pay reasonable shipping and handling costs.

Customer Routers may only be used to facilitate the Customer's use of the Control Center Services and may not be used for any other purpose. If a Customer does not incorporate the Customer Routers into its system facilities (i.e., provide appropriate space, power and connectivity; assign address space and point to a new route) solely for use with Control Center Services within 60 days of the Effective Date, AT&T reserves the right to withdraw its support for optional COAM VPN Service.

Customers must manage Customer Routers. Customers will have sole access to the root administration of these routers consistent with AT&T's specifications and will provide all support for these routers. In particular, Customers are solely responsible for maintaining software updates, configuration, and availability of the routers and associated network, including network monitoring on the routers. Customer is solely responsible for any loss or theft of routers or information from routers.

Control Center Pricing

P-1. Control Center Data Usage

Control Center Pricing is Individual Case Basis. Data usage charges will apply to data transmissions, text messages, downloadables, alerts, and any other information sent through the Network using Control Center and associated with a Device. Those charges are set forth in the applicable Service Plan. Unless stated otherwise, all data will be calculated and billed in kilobytes. AT&T calculates a full kilobyte of data transport for every fraction of the last kilobyte of data transport used on each data session.

Data transmissions may be involuntarily interrupted ("dropped") for a variety of reasons beyond AT&T's control. Dropped transmissions will be billed as any other transmission. In addition, AT&T may try to re-send a dropped transmission, which will result in additional charges. If a Customer has a problem with dropped transmissions, the Customer should call the AT&T support service line. If AT&T believes a credit is appropriate, it may reduce the charges accordingly.

P-2. Control Center Features

Feature charges (if any) will be billed on a monthly basis for any billing cycle during which the billable feature is activated or deactivated. AT&T may, in its discretion, limit the number of features and promotions that can be assigned to a SIM.

P-3. Control Center Wireless Data Service Plan Pricing Structure

Individual data transmissions may be involuntarily disconnected or delayed for a variety of reasons, including without limitation atmospheric conditions, topography, weak batteries, system over-capacity, movement outside a geographic locations in which the services are available from time to time and gaps in coverage within said geographic locations. None of us, an underlying carrier or a reseller shall be responsible or incur any liability for the failure to provide adequate services, including any coverage gaps, or any damages resulting therefrom. You acknowledge that services may be temporarily suspended or permanently terminated upon little or no notice in the event that our agreement with the reseller or the underlying carrier is suspended or terminated or in the event of any violation of the underlying carrier's acceptable use policy or other rules or policies. Prohibited Territory. You agree to refrain from using Google maps in the “Prohibited Territory”, defined by Google as : China, Crimea, Cuba, Iran, Myanmar, North Korea, Sudan, Syria and Vietnam.

Consent. You agree to consent - and to obtain the consent of every driver and other person whose location can be determined with Geotab and Google services - to Geotab obtaining and caching location data, noting that such consent is revocable and that without such consent, services either cannot be provided or cannot be provided with the same functionality.

D. MAPBOX MAP TERMS

If you are using map data from Mapbox, the following terms apply to you.

License to Use Your Data. Limited to the purpose of hosting your content so that mapping services can be provided, you grant Mapbox a non-exclusive, worldwide, royalty-free, transferable right and license (with the right to sublicense), to use, copy, cache, publish, display, distribute, modify, create derivative works, and store such content and to allow others to do so. This right and license enables Mapbox to host and mirror your content on its distributed platform. You warrant, represent, and agree that you have the right to grant Mapbox these rights.

US Government. If you are a US Government User there are modified/additional terms that apply to you; as reproduced here.

US Government Terms of Service

If you are a United States government user or otherwise accessing or using any Mapbox service in a U.S. government capacity, this Amendment applies to you. If you aren't, go check out our standard Terms of Service.

This Amendment is an agreement between Mapbox, Inc. ("Mapbox") and U.S. Government users, and applies solely to the U.S. Government users, account holders, and subscribers who use or access the Services on behalf of a U.S. Government agency ("you"). It applies only to Mapbox users in their capacity as government or public entities or in their capacity as employees of a government or public entity.

Federal agencies, because of their status as U.S. Government entities, are required, when entering into agreements with other parties, to follow applicable federal laws and regulations, including those related to ethics; privacy and security; accessibility; limitations on indemnification; fiscal law constraints; advertising and endorsements; freedom of information; document retention; and governing law and dispute resolution forum. Mapbox and you (together, the "Parties") agree that modifications to Mapbox's standard Terms of Service, are appropriate to accommodate your legal status, your public (in contrast to private) mission, and other special circumstances.

Accordingly, the TOS is hereby modified by this Amendment to allow for your use of the Mapbox Site.

A. Indemnification: All indemnification, liability and damages provisions of the TOS are hereby waived. Liability of Agency for any breach of the TOS or this Agreement, or any claim arising from the TOS or this Agreement, shall be determined under the Federal Tort Claims Act, the Contract Disputes Act, or other governing authority. Liability of Mapbox for any breach of the TOS or this Agreement, or any claim arising from the TOS or this Agreement, shall be determined by applicable federal law. In any event, neither party shall be liable for consequential damages. The claim period within which a cause of action must be commenced by either party will be governed by federal law.

B. Governing law and jurisdiction: The TOS and this Amendment shall be governed, interpreted and enforced in accordance with the federal laws of the United States of America.

C. Limitation of liability: The Parties agree that nothing in the Warranty or Limitation of Liability provisions in the TOS in any way grants Mapbox a waiver from, release of, or limitation of liability pertaining to, any past, current or future violation of federal law.

E. No endorsement: Mapbox agrees that your seals, trademarks, logos, service marks, trade names, and the fact that you use the software, services, maps, and other content of the Mapbox Site shall not be used by Mapbox in such a manner as to state or imply that Mapbox's products or services are endorsed, sponsored or recommended by you or by any other entity of the Federal Government, or are considered by these federal entities as superior to any other company's products or services. Mapbox agrees not to display any Agency or government seal or logo on the Mapbox homepage or elsewhere on the Mapbox Site, unless permission to do has been granted by the Agency or by other relevant federal government authority. Mapbox may list the Agency's name in a publicly available user list so long as the name is not displayed in a more prominent fashion than that of any other third party name, and reference your Agency as a Mapbox user.

F. No business relationship created: The Parties are independent entities and nothing in the TOS or this Amendment creates an agency, partnership, joint venture, or employer/employee relationship.

G. Fee based services: The Parties understand that fee-based services are categorically different than free products, and are subject to federal procurement rules and processes. Before you decide to enter into a premium or enterprise subscription, or any other fee-based service that Mapbox or alternative providers may offer now or in the future, you agree to determine your Agency has a need for those additional services for a fee, to consider the subscription's value in comparison with comparable services available elsewhere, to determine that Agency funds are available for payment, to properly use the Government Purchase Card if that Card is used as the payment method, to review any then applicable TOS for conformance to federal procurement law, and in all other respects to follow applicable federal acquisition laws, regulations, and agency guidelines when initiating that separate action.

H. Assignment: Neither party may assign its obligations under this Amendment to any third party without prior written consent of the other.

I. Precedence; Further Amendment; Termination: If there is any conflict between this Amendment and the TOS, or between this Amendment and other rules or policies on the Mapbox Site, this Amendment shall prevail. This Amendment may be further amended only upon written agreement executed by both Parties. You may terminate this Amendment at any time. Mapbox may terminate this Amendment on 30 days written notice.

J. Posting and availability of this Amendment: The Parties agree this Amendment contains no confidential or proprietary information, and you may release it to the public upon request and to other agencies interested in using the Mapbox Site.

K. Security: Mapbox will, in good faith, exercise due diligence using generally accepted commercial business practices for IT security, to ensure that systems are operated and maintained in a secure manner, and that management, operational and technical controls will be employed to ensure security of systems and data. Recognizing the changing nature of the Internet, Mapbox will continuously work with users to ensure that its products and services meet users' requirements for the security of systems and data.

L. Title and Intellectual Property Rights: To the extent permitted under Federal law, all rights, title and interest to any and all work produced and created by User pursuant to or in connection with the use of the Mapbox Site shall vest in the User. Ownership or possession of such rights, title and interest shall not be affected by any alleged or actual breach of the TOS or this Amendment. Under no circumstances may Mapbox claim a right, title or interest in Content that is in the public domain.

M. Permanent Geocoding API: Use of the API is restricted in accordance with the LIMITED or RESTRICTED rights as described in any applicable DFARS, FAR. In case of conflict between any of the FAR and/or DFARS that may apply to the API, the construction that provides greater limitations on the Government's rights shall control. For purposes of any public disclosure provision under any federal, state, or local law, it is agreed that the databases powering the API and any geocoding results derived from the API are trade secrets and proprietary commercial products and not subject to disclosure.

Additional Items for Discussion and Possible Inclusion in this Agreement: Mapbox understands current federal law, regulation and policy may affect your use of Mapbox products and services in ways not addressed in the list of clauses above. Much depends on the nature of the products and services offered by Mapbox (which may change from time to time), and how you intend to use those services (which also may change). Among the topics the Parties may need to discuss, and which may lead to the insertion of additional clauses in this Agreement, are Privacy and Accessibility.

Google Terms of Service

Last modified: April 14, 2014 (view archived versions)

Welcome to Google!

Thanks for using our products and services ("Services"). The Services are provided by Google Inc. ("Google"), located at 1600 Amphitheatre Parkway, Mountain View, CA 94043, United States.

By using our Services, you are agreeing to these terms. Please read them carefully.

Our Services are very diverse, so sometimes additional terms or product requirements (including age requirements) may apply. Additional terms will be available with the relevant Services, and those additional terms become part of your agreement with us if you use those Services.

Using our Services

You must follow any policies made available to you within the Services.

Don’t misuse our Services. For example, don’t interfere with our Services or try to access them using a method other than the interface and the instructions that we provide. You may use our Services only as permitted by law, including applicable export and re-export control laws and regulations. We may suspend or stop providing our Services to you if you do not comply with our terms or policies or if we are investigating suspected misconduct.

Using our Services does not give you ownership of any intellectual property rights in our Services or the content you access. You may not use content from our Services unless you obtain permission from its owner or are otherwise permitted by law. These terms do not grant you the right to use any branding or logos used in our Services. Don’t remove, obscure, or alter any legal notices displayed in or along with our Services.

Our Services display some content that is not Google’s. This content is the sole responsibility of the entity that makes it available. We may review content to determine whether it is illegal or violates our policies, and we may remove or refuse to display content that we reasonably believe violates our policies or the law. But that does not necessarily mean that we review content, so please don’t assume that we do.

In connection with your use of the Services, we may send you service announcements, administrative messages, and other information. You may opt out of some of those communications.

Some of our Services are available on mobile devices. Do not use such Services in a way that distracts you and prevents you from obeying traffic or safety laws.

Your Google Account

You may need a Google Account in order to use some of our Services. You may create your own Google Account, or your Google Account may be assigned to you by an administrator, such as your employer or educational institution. If you are using a Google Account assigned to you by an administrator, different or additional terms may apply and your administrator may be able to access or disable your account.

To protect your Google Account, keep your password confidential. You are responsible for the activity that happens on or through your Google Account. Try not to reuse your Google Account password on third-party applications. If you learn of any unauthorized use of your password or Google Account, follow these instructions.

Privacy and Copyright Protection

Google’s privacy policies explain how we treat your personal data and protect your privacy when you use our Services. By using our Services, you agree that Google can use such data in accordance with our privacy policies.

We respond to notices of alleged copyright infringement and terminate accounts of repeat infringers according to the process set out in the U.S. Digital Millennium Copyright Act.

We provide information to help copyright holders manage their intellectual property online. If you think somebody is violating your copyrights and want to notify us, you can find information about submitting notices and Google’s policy about responding to notices in our Help Center.

Your Content in our Services

Some of our Services allow you to upload, submit, store, send or receive content. You retain ownership of any intellectual property rights that you hold in that content. In short, what belongs to you stays yours.

When you upload, submit, store, send or receive content to or through our Services, you give Google (and those we work with) a worldwide license to use, host, store, reproduce, modify, create derivative works (such as those resulting from translations, adaptations or other changes we make so that your content works better with our Services), communicate, publish, publicly perform, publicly display and distribute such content. The rights you grant in this license are for the limited purpose of operating, promoting, and improving our Services, and to develop new ones. This license continues even if you stop using our Services (for example, for a business listing you have added to Google Maps). Some Services may offer you ways to access and remove content that has been provided to that Service. Also, in some of our Services, there are terms or settings that narrow the scope of our use of the content submitted in those Services. Make sure you have the necessary rights to grant us this license for any content that you submit to our Services.

Our automated systems analyze your content (including emails) to provide you personally relevant product features, such as customized search results, tailored advertising, and spam and malware detection. This analysis occurs as the content is sent, received, and when it is stored.

If you have a Google Account, we may display your Profile name, Profile photo, and actions you take on Google or on third-party applications connected to your Google Account (such as +1's, reviews you write and comments you post) in our Services, including displaying in ads and other commercial contexts. We will respect the choices you make to limit sharing or visibility settings in your Google Account. For example, you can choose your settings so your name and photo do not appear in an ad.

You can find more information about how Google uses and stores content in the privacy policy or additional terms for particular Services. If you submit feedback or suggestions about our Services, we may use your feedback or suggestions without obligation to you.

About Software in our Services

When a Service requires or includes downloadable software, this software may update automatically on your device once a new version or feature is available. Some Services may let you adjust your automatic update settings.

Google gives you a personal, worldwide, royalty-free, non-assignable and non-exclusive license to use the software provided to you by Google as part of the Services. This license is for the sole purpose of enabling you to use and enjoy the benefit of the Services as provided by Google, in the manner permitted by these terms. You may not copy, modify, distribute, sell, or lease any part of our Services or included software, nor may you reverse engineer or attempt to extract the source code of that software, unless laws prohibit those restrictions or you have our written permission.

Open source software is important to us. Some software used in our Services may be offered under an open source license that we will make available to you. There may be provisions in the open source license that expressly override some of these terms.

Modifying and Terminating our Services

We are constantly changing and improving our Services. We may add or remove functionalities or features, and we may suspend or stop a Service altogether.

You can stop using our Services at any time, although we'll be sorry to see you go. Google may also stop providing Services to you, or add or create new limits to our Services at any time.

We believe that you own your data and preserving your access to such data is important. If we discontinue a Service, where reasonably possible, we will give you reasonable advance notice and a chance to get information out of that Service.

Our Warranties and Disclaimers

We provide our Services using a commercially reasonable level of skill and care and we hope that you will enjoy using them. But there are certain things that we don't promise about our Services.

OTHER THAN AS EXPRESSLY SET OUT IN THESE TERMS OR ADDITIONAL TERMS, NEITHER GOOGLE NOR ITS SUPPLIERS

OR DISTRIBUTORS MAKE ANY SPECIFIC PROMISES ABOUT THE SERVICES. FOR EXAMPLE, WE DON'T MAKE ANY COMMITMENTS ABOUT THE CONTENT WITHIN THE SERVICES, THE SPECIFIC FUNCTIONS OF THE SERVICES, OR THEIR RELIABILITY, AVAILABILITY, OR ABILITY TO MEET YOUR NEEDS. WE PROVIDE THE SERVICES "AS IS".

SOME JURISDICTIONS PROVIDE FOR CERTAIN WARRANTIES, LIKE THE IMPLIED WARRANTY OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE AND NON-INFRINGEMENT. TO THE EXTENT PERMITTED BY LAW, WE EXCLUDE ALL WARRANTIES.

Liability for our Services

WHEN PERMITTED BY LAW, GOOGLE, AND GOOGLE'S SUPPLIERS AND DISTRIBUTORS, WILL NOT BE RESPONSIBLE FOR LOST PROFITS, REVENUES, OR DATA, FINANCIAL LOSSES OR INDIRECT, SPECIAL, CONSEQUENTIAL, EXEMPLARY, OR PUNITIVE DAMAGES.

TO THE EXTENT PERMITTED BY LAW, THE TOTAL LIABILITY OF GOOGLE, AND ITS SUPPLIERS AND DISTRIBUTORS, FOR ANY CLAIMS UNDER THESE TERMS, INCLUDING FOR ANY IMPLIED WARRANTIES, IS LIMITED TO THE AMOUNT YOU PAID US TO USE THE SERVICES (OR, IF WE CHOOSE, TO SUPPLYING YOU THE SERVICES AGAIN).

IN ALL CASES, GOOGLE, AND ITS SUPPLIERS AND DISTRIBUTORS, WILL NOT BE LIABLE FOR ANY LOSS OR DAMAGE THAT IS NOT REASONABLY FORESEEABLE.

Business uses of our Services

If you are using our Services on behalf of a business, that business accepts these terms. It will hold harmless and indemnify Google and its affiliates, officers, agents, and employees from any claim, suit or action arising from or related to the use of the Services or violation of these terms, including any liability or expense arising from claims, losses, damages, suits, judgments, litigation costs and attorneys' fees.

About these Terms

We may modify these terms or any additional terms that apply to a Service to, for example, reflect changes to the law or changes to our Services. You should look at the terms regularly. We'll post notice of modifications to these terms on this page. We'll post notice of modified additional terms in the applicable Service. Changes will not apply retroactively and will become effective no sooner than fourteen days after they are posted. However, changes addressing new functions for a Service or changes made for legal reasons will be effective immediately. If you do not agree to the modified terms for a Service, you should discontinue your use of that Service.

If there is a conflict between these terms and the additional terms, the additional terms will control for that conflict.

These terms control the relationship between Google and you. They do not create any third party beneficiary rights.

If you do not comply with these terms, and we don't take action right away, this doesn't mean that we are giving up any rights that we may have (such as taking action in the future).

If it turns out that a particular term is not enforceable, this will not affect any other terms.

The laws of California, U.S.A., excluding California's conflict of laws rules, will apply to any disputes arising out of or relating to these terms or the Services. All claims arising out of or relating to these terms or the Services will be litigated exclusively in the federal or state courts of Santa Clara County, California, USA, and you and Google consent to personal jurisdiction in those courts.

For information about how to contact Google, please visit our contact page.

Google Maps/Google Earth Additional Terms of Service

Last Modified: December 17, 2015

Thanks for using Google Maps and Google Earth ("Google Maps/Google Earth").

Google Maps/Google Earth allow you to view and use a variety of content, including map and terrain data, imagery, business listings, traffic, reviews, and other related information provided by Google, its licensors, and users (the "Content").

By accessing, downloading, or using Google Maps/Google Earth, you are agreeing to:

1. the Google Terms of Service (the "Universal Terms");
2. these Maps/Google Earth additional terms (the "Maps/Earth Additional Terms");
3. the Google Maps/Google Earth Legal Notices (the "Legal Notices"); and
4. the Google Privacy Policy (the "Privacy Policy").

Please read each of these four documents carefully, starting with the Universal Terms. The Universal Terms clarify, for example, your intellectual property ownership rights in the content you upload, and your responsibilities when using Google content or third-party content or when using Google Maps/Google Earth while driving.

Collectively, we refer to the Universal Terms, the Maps/Earth Additional Terms, the Legal Notices, and the Privacy Policy as the "Agreement". The Agreement is a binding contract between you and Google regarding your use of Google Maps/Google Earth.

1. License. Subject to the Agreement's terms, Google grants you a non-exclusive, nontransferable license to use Google Maps/Google Earth, including features that allow you to:

a. view and annotate maps;

b. create KML files and map layers;

c. publicly display Content with proper attribution online, in video, and in print; and

d. do many other things described in the Using Google Maps, Google Earth, and Street View permissions page.

2. Prohibited Conduct. When using Google Maps/Google Earth, you may not (or allow those acting on your behalf to):

a. redistribute or sell any part of Google Maps/Google Earth or create a new product or service based on Google Maps/Google Earth (unless you use the Google Maps/Google Earth APIs in accordance with their terms of service);

b. copy the Content (unless you are otherwise permitted to do so by the Using Google Maps, Google Earth, and Street View permissions page or applicable intellectual property law, including "fair use");

c. mass download or create bulk feeds of the Content (or let anyone else do so);

d. use Google Maps/Google Earth to create or augment any other mapping-related dataset (including a mapping or navigation dataset, business listings database, mailing list, or telemarketing list) for use in a service that is a substitute for, or a substantially similar service to, Google Maps/Google Earth;

e. use any part of Google Maps/Google Earth with other people's products or services for or in connection with real-time navigation or autonomous vehicle control, except through a specific Google-provided feature such as Android Auto or Send to Car;

f. reverse engineer or attempt to extract the source code from Google Maps/Google Earth or any related software, except to the extent that this restriction is expressly prohibited by applicable law;

g. remove, obscure, or alter any Google terms of service or any links to or notices of those terms, or any copyright, trademark, or other proprietary rights notices; or

h. do anything inappropriate, illegal, or in violation of others' rights (including their privacy, publicity, and intellectual property rights).

3. Actual Conditions; Assumption of Risk. When you use Google Maps/Google Earth's map data, traffic, directions, and other Content, you may find that actual conditions differ from the map results and Content, so exercise your independent judgment and use Google Maps/Google Earth at your own risk. You're responsible at all times for your conduct and its consequences.

4. Your Content in Google Maps/Google Earth. Content you upload, submit, store, send, or receive through Google Maps/Google Earth is subject to Google's Universal Terms, including the license in the section entitled "Your Content in our Services". However, content that remains exclusively local to your device (such as a locally-stored KML file) is not uploaded or submitted to Google, and is therefore not subject to that license.

5. Government Users. If you are using our Services on behalf of a government entity, the following terms apply:

a. Government Uses of Our Services. The Universal Terms section entitled "Business uses of our Services" is replaced in its entirety with the following:

"If you are using our Services on behalf of a government entity, that entity accepts these terms. Solely to the extent permitted by applicable law, regulation, or privileges and immunities, that entity will hold harmless and indemnify Google and its affiliates, officers, agents and employees from any claim, action or proceedings arising from or related to the use of the Services or violation of these terms, including any liability or expense arising from claims, losses, damages, judgements, litigation costs and legal fees." b. Governing Law.

i. For city or state government entities in the United States and European Union, the Universal Terms section regarding governing law and venue will not apply.

ii. For United States federal government entities, the Universal Terms section regarding governing law and venue is replaced in its entirety with the following:

"This Agreement will be governed by and interpreted and enforced in accordance with the laws of the United States of America without reference to conflict of laws. Solely to the extent permitted by federal law: (A) the laws of the State of California (excluding California's conflict of laws rules) will apply in the absence of applicable federal law; and (B) any dispute arising out of or relating to this Agreement or the

Services will be litigated exclusively in the federal courts of Santa Clara County, California, and the parties consent to personal jurisdiction in those courts."

b. U.S. Government Restricted Rights. All access or use of Google Maps/Google Earth by or for the United States federal government is subject to the "U.S. Government Restricted Rights" section in the Legal Notices.

1. Focus on the user and all else will follow.

Since the beginning, we've focused on providing the best user experience possible. Whether we're designing a new Internet browser or a new tweak to the look of the homepage, we take great care to ensure that they will ultimately serve you, rather than our own internal goal or bottom line. Our homepage interface is clear and simple, and pages load instantly. Placement in search results is never sold to anyone, and advertising is not only clearly marked as such, it offers relevant content and is not distracting. And when we build new tools and applications, we believe they should work so well you don't have to consider how they might have been designed differently.

2. It's best to do one thing really, really well.

We do search. With one of the world's largest research groups focused exclusively on solving search problems, we know what we do well, and how we could do it better. Through continued iteration on difficult problems, we've been able to solve complex issues and provide continuous improvements to a service that already makes finding information a fast and seamless experience for millions of people. Our dedication to improving search helps us apply what we've learned to new products, like Gmail and Google Maps. Our hope is to bring the power of search to previously unexplored areas, and to help people access and use even more of the ever-expanding information in their lives.

3. Fast is better than slow.

We know your time is valuable, so when you're seeking an answer on the web you want it right away–and we aim to please. We may be the only people in the world who can say our goal is to have people leave our website as quickly as possible. By shaving excess bits and bytes from our pages and increasing the efficiency of our serving environment, we've broken our own speed records many times over, so that the average response time on a search result is a fraction of a second. We keep speed in mind with each new product we release, whether it's a mobile application or Google Chrome, a browser designed to be fast enough for the modern web. And we continue to work on making it all go even faster.

4. Democracy on the web works.

Google search works because it relies on the millions of individuals posting links on websites to help determine which other sites offer content of value. We assess the importance of every web page using more than 200 signals and a variety of techniques, including our patented PageRank™ algorithm, which analyzes which sites have been "voted" to be the best sources of information by other pages across the web. As the web gets bigger, this approach actually improves, as each new site is another point of information and another vote to be counted. In the same vein, we are active in open source software development, where innovation takes place through the collective effort of many programmers.

5. You don't need to be at your desk to need an answer.

The world is increasingly mobile: people want access to information wherever they are, whenever they need it. We're pioneering new technologies and offering new solutions for mobile services that help people all over the globe to do any number of tasks on their phone, from checking email and calendar events to watching videos, not to mention the several different ways to access Google search on a phone. In addition, we're hoping to fuel greater innovation for mobile users everywhere with Android, a free, open source mobile platform. Android brings the openness that shaped the Internet to the mobile world. Not only does Android benefit consumers, who have more choice and innovative new mobile experiences, but it opens up revenue opportunities for carriers, manufacturers and developers.

6. You can make money without doing evil.

Google is a business. The revenue we generate is derived from offering search technology to companies and from the sale of advertising displayed on our site and on other sites across the web. Hundreds of thousands of advertisers worldwide use AdWords to promote their products; hundreds of thousands of publishers take advantage of our AdSense program to deliver ads relevant to their site content. To ensure that we're ultimately serving all our users (whether they are advertisers or not), we have a set of guiding principles for our advertising programs and practices:

o We don't allow ads to be displayed on our results pages unless they are relevant where they are shown. And we firmly believe that ads can provide useful information if, and only if, they are relevant to what you wish to find–so it's possible that certain searches won't lead to any ads at all.

o We believe that advertising can be effective without being flashy. We don't accept pop–up advertising, which interferes with your ability to see the content you've requested. We've found that text ads that are relevant to the person reading them draw much higher clickthrough rates than ads appearing randomly. Any advertiser, whether small or large, can take advantage of this highly targeted medium.

o Advertising on Google is always clearly identified as a "Sponsored Link," so it does not compromise the integrity of our search results. We never manipulate rankings to put our partners higher in our search results and no one can buy better PageRank. Our users trust our objectivity and no short-term gain could ever justify breaching that trust.

7. There's always more information out there.

Once we'd indexed more of the HTML pages on the Internet than any other search service, our engineers turned their attention to information that was not as readily accessible. Sometimes it was just a matter of integrating new databases into search, such as adding a phone number and address lookup and a business directory. Other efforts required a bit more creativity, like adding the ability to search news archives, patents, academic journals, billions of images and millions of books. And our researchers continue looking into ways to bring all the world's information to people seeking answers.

8. The need for information crosses all borders.

Our company was founded in California, but our mission is to facilitate access to information for the entire world, and in every language. To that end, we have offices in more than 60 countries, maintain more than 180 Internet domains, and serve more than half of our results to people living outside the United States. We offer Google's search interface in more than 130 languages, offer people the ability to restrict results to content written in their own language, and aim to provide the rest of our applications and products in as many languages andaccessible formats as possible. Using our translation tools, people can discover content written on the other side of the world in languages they don't speak. With these tools and the help of volunteer translators, we have been able to greatly improve both the variety and quality of services we can offer in even the most far–flung corners of the globe.

9. You can be serious without a suit.

Our founders built Google around the idea that work should be challenging, and the challenge should be fun. We believe that great, creative things are more likely to happen with the right company culture–and that doesn't just mean lava lamps and rubber balls. There is an emphasis on team achievements and pride in individual accomplishments that contribute to our overall success. We put great stock in our employees–energetic, passionate people from diverse backgrounds with creative approaches to work, play and life. Our atmosphere may be casual, but as new ideas emerge in a café line, at a team meeting or at the gym, they are traded, tested and put into practice with dizzying speed–and they may be the launch pad for a new project destined for worldwide use.

10. Great just isn't good enough.

We see being great at something as a starting point, not an endpoint. We set ourselves goals we know we can't reach yet, because we know that by stretching to meet them we can get further than we expected. Through innovation and iteration, we aim to take things that work well and improve upon them in unexpected ways. For example, when one of our engineers saw that search worked well for properly spelled words, he wondered about how it handled typos. That led him to create an intuitive and more helpful spell checker.

Even if you don't know exactly what you're looking for, finding an answer on the web is our problem, not yours. We try to anticipate needs not yet articulated by our global audience, and meet them with products and services that set new standards. When we launched Gmail, it had more storage space than any email service available. In retrospect offering that seems obvious–but that's because now we have new standards for email storage. Those are the kinds of changes we seek to make, and we're always looking for new places where we can make a difference. Ultimately, our constant dissatisfaction with the way things are becomes the driving force behind everything we do.

Privacy Policy

There are many different ways you can use our services – to search for and share information, to communicate with other people or to create new content. When you share information with us, for example by creating a Google Account, we can make those services even better – to show you more relevant search results and ads, to help you connect with people or to make sharing with others quicker and easier. As you use our services, we want you to be clear how we're using information and the ways in which you can protect your privacy.

Our Privacy Policy explains:

What information we collect and why we collect it.

How we use that information.

The choices we offer, including how to access and update information.

We've tried to keep it as simple as possible, but if you're not familiar with terms like cookies, IP addresses, pixel tags and browsers, then read about these key terms first. Your privacy matters to Google so whether you are new to Google or a long-time user, please do take the time to get to know our practices – and if you have any questions contact us.

Information we collect

We collect information to provide better services to all of our users – from figuring out basic stuff like which language you speak, to more complex things like which ads you'll find most useful, the people who matter most to you online, or which YouTube videos you might like.

We collect information in the following ways:

Information you give us. For example, many of our services require you to sign up for a Google Account. When you do, we'll ask for personal information, like your name, email address, telephone number or credit card to store with your account. If you want to take full advantage of the sharing features we offer, we might also ask you to create a publicly visible Google Profile, which may include your name and photo.

Information we get from your use of our services. We collect information about the services that you use and how you use them, like when you watch a video on YouTube, visit a website that uses our advertising services, or view and interact with our ads and content. This information includes:

Device information

We collect device-specific information (such as your hardware model, operating system version, unique device identifiers, and mobile network information including phone number). Google may associate your device identifiers or phone number with your Google Account.

Log information

When you use our services or view content provided by Google, we automatically collect and store certain information in server logs. This includes:

details of how you used our service, such as your search queries.

telephony log information like your phone number, calling-party number, forwarding numbers, time and date of calls, duration of calls, SMS routing information and types of calls. Internet protocol address.

device event information such as crashes, system activity, hardware settings, browser type, browser language, the date and time of your request and referral

URL. cookies that may uniquely identify your browser or your Google Account.

Location information

When you use Google services, we may collect and process information about your actual location. We use various technologies to determine location, including IP address, GPS, and other sensors that may, for example, provide Google with information on nearby devices, Wi-Fi access points and cell towers.

Unique application numbers

Certain services include a unique application number. This number and information about your installation (for example, the operating system type and application version number) may be sent to Google when you install or uninstall that service or when that service periodically contacts our servers, such as for automatic updates.

Local storage

We may collect and store information (including personal information) locally on your device using mechanisms such as browser web storage (including HTML 5) and application data caches.

Cookies and similar technologies

We and our partners use various technologies to collect and store information when you visit a Google service, and this may include using cookies or similar technologies to identify your browser or device. We also use these technologies to collect and store information when you interact with services we offer to our partners, such as advertising services or Google features that may appear on other sites. Our Google Analytics product helps businesses and site owners analyze the traffic to their websites and apps. When used in conjunction with our advertising services, such as those using the DoubleClick cookie, Google Analytics information is linked, by the

Google Analytics customer or by Google, using Google technology, with information about visits to multiple sites.

Information we collect when you are signed in to Google, in addition to information we obtain about you from partners, may be associated with your Google Account. When information is associated with your Google Account, we treat it as personal information. For more information about how you can access, manage or delete information that is associated with your Google Account, visit the Transparency and choice section of this policy.

How we use information we collect

We use the information we collect from all of our services to provide, maintain, protect and improve them, to develop new ones, and to protect Google and our users. We also use this information to offer you tailored content – like giving you more relevant search results and ads.

We may use the name you provide for your Google Profile across all of the services we offer that require a Google Account. In addition, we may replace past names associated with your Google Account so that you are represented consistently across all our services. If other users already have your email, or other information that identifies you, we may show them your publicly visible Google Profile information, such as your name and photo.

If you have a Google Account, we may display your Profile name, Profile photo, and actions you take on Google or on third-party applications connected to your Google Account (such as +1's, reviews you write and comments you post) in our services, including displaying in ads and other commercial contexts. We will respect the choices you make to limit sharing or visibility settings in your Google Account.

When you contact Google, we keep a record of your communication to help solve any issues you might be facing. We may use your email address to inform you about our services, such as letting you know about upcoming changes or improvements.

We use information collected from cookies and other technologies, like pixel tags, to improve your user experience and the overall quality of our services. One of the products we use to do this on our own services is Google Analytics. For example, by saving your language preferences, we'll be able to have our services appear in the language you prefer. When showing you tailored ads, we will not associate an identifier from cookies or similar technologies with sensitive categories, such as those based on race, religion, sexual orientation or health.

Our automated systems analyze your content (including emails) to provide you personally relevant product features, such as customized search results, tailored advertising, and spam and malware detection.

We may combine personal information from one service with information, including personal information, from other Google services – for example to make it easier to share things with people you know. Depending on your account settings, your activity on other sites and apps may be associated with your personal information in order to improve Google's services and the ads delivered by Google.

We will ask for your consent before using information for a purpose other than those that are set out in this Privacy Policy.

Google processes personal information on our servers in many countries around the world. We may process your personal information on a server located outside the country where you live.

Transparency and choice

People have different privacy concerns. Our goal is to be clear about what information we collect, so that you can make meaningful choices about how it is used. For example, you can:

Review and update your Google activity controls to decide what types of data, such as videos you've watched on YouTube or past searches, you would like saved with your account when you use Google services. You can also visit these controls to manage whether certain activity is stored in a cookie or similar technology on your device when you use our services while signed-out of your account.

Review and control certain types of information tied to your Google Account by using Google Dashboard.

View and edit your preferences about the Google ads shown to you on Google and across the web, such as which categories might interest you, using Ads Settings.

You can also visit that page to opt out of certain Google advertising services.

Adjust how the Profile associated with your Google Account appears to others.

Control who you share information with through your Google Account.

Take information associated with your Google Account out of many of our services.

Choose whether your Profile name and Profile photo appear in shared endorsements that appear in ads.

You may also set your browser to block all cookies, including cookies associated with our services, or to indicate when a cookie is being set by us. However, it's important to remember that many of our services may not function properly if your cookies are disabled. For example, we may not remember your language preferences.

Information you share

Many of our services let you share information with others. Remember that when you share information publicly, it may be indexable by search engines, including Google. Our services provide you with different options on sharing and removing your content.

Accessing and updating your personal information

Whenever you use our services, we aim to provide you with access to your personal information. If that information is wrong, we strive to give you ways to update it quickly or to delete it – unless we have to keep that information for legitimate business or legal purposes. When updating your personal information, we may ask you to verify your identity before we can act on your request.

We may reject requests that are unreasonably repetitive, require disproportionate technical effort (for example, developing a new system or fundamentally changing an existing practice), risk the privacy of others, or would be extremely impractical (for instance, requests concerning information residing on backup systems).

Where we can provide information access and correction, we will do so for free, except where it would require a disproportionate effort. We aim to maintain our services in a manner that protects information from accidental or malicious destruction. Because of this, after you delete information from our services, we may not immediately delete residual copies from our active servers and may not remove information from our backup systems.

Information we share

We do not share personal information with companies, organizations and individuals outside of Google unless one of the following circumstances applies:

With your consent

We will share personal information with companies, organizations or individuals outside of Google when we have your consent to do so. We require opt-in consent for the sharing of any sensitive personal information.

With domain administrators

If your Google Account is managed for you by a domain administrator (for example, for Google Apps users) then your domain administrator and resellers who provide user support to your organization will have access to your Google Account information (including your email and other data). Your domain administrator may be able to:

view statistics regarding your account, like statistics

regarding applications you install. change your account

password. suspend or terminate your account access.

access or retain information stored as part of your account.

receive your account information in order to satisfy applicable law, regulation,

legal process or enforceable governmental request. restrict your ability to delete or edit information or privacy settings.

Please refer to your domain administrator's privacy policy for more information.

For external processing

We provide personal information to our affiliates or other trusted businesses or persons to process it for us, based on our instructions and in compliance with our Privacy Policy and any other appropriate confidentiality and security measures.

For legal reasons

We will share personal information with companies, organizations or individuals outside of Google if we have a good-faith belief that access, use, preservation or disclosure of the information is reasonably necessary to:

meet any applicable law, regulation, legal process or enforceable

governmental request. enforce applicable Terms of Service, including investigation of potential violations.

detect, prevent, or otherwise address fraud, security or technical issues. protect against

harm to the rights, property or safety of Google, our users or the public as required or permitted by law.

We may share non-personally identifiable information publicly and with our partners – like publishers, advertisers or connected sites. For example, we may share information publicly to show trends about the general use of our services.

If Google is involved in a merger, acquisition or asset sale, we will continue to ensure the confidentiality of any personal information and give affected users notice before personal information is transferred or becomes subject to a different privacy policy.

We work hard to protect Google and our users from unauthorized access to or unauthorized alteration, disclosure or destruction of information we hold. In particular:

We encrypt many of our services using SSL.

We offer you two step verification when you access your Google Account, and a Safe Browsing feature in Google Chrome. We review our information collection, storage and processing practices, including physical security measures, to guard against unauthorized access to systems.

We restrict access to personal information to Google employees, contractors and agents who need to know that information in order to process it for us, and who are subject to strict contractual confidentiality obligations and may be disciplined or terminated if they fail to meet these obligations.

When this Privacy Policy applies

Our Privacy Policy applies to all of the services offered by Google Inc. and its affiliates, including YouTube, services Google provides on Android devices, and services offered on other sites (such as our advertising services), but excludes services that have separate privacy policies that do not incorporate this Privacy Policy.

Our Privacy Policy does not cover the information practices of other companies and organizations who advertise our services, and who may use cookies, pixel tags and other technologies to serve and offer relevant ads.

Compliance and cooperation with regulatory authorities

We regularly review our compliance with our Privacy Policy. We also adhere to several self regulatory frameworks, including the EUUS Privacy Shield Framework.

When we receive formal written complaints, we will contact the person who made the complaint to follow up. We work with the appropriate regulatory authorities, including local data protection authorities, to resolve any complaints regarding the transfer of personal data that we cannot resolve with our users directly.

Changes

Our Privacy Policy may change from time to time. We will not reduce your rights under this Privacy Policy without your explicit consent. We will post any privacy policy changes on this page and, if the changes are significant, we will provide a more prominent notice (including, for certain services, email notification of privacy policy changes). AT&T Acceptable Use Policy

Introduction

AT&T is at all times committed to complying with the laws and regulations governing use of the Internet, e-mail transmission and text messaging and preserving for all of its Customers the ability to use AT&T's network and the Internet without interference or harassment from other users. In addition, for those IP Services that utilize AT&T provided web hosting, AT&T reserves the right to decline to provide such services if the content is determined by AT&T to be obscene, indecent, hateful, malicious, racist, defamatory, fraudulent, libelous, treasonous, excessively violent or promoting the use of violence or otherwise harmful to others.

Inappropriate Interaction with Minors: AT&T complies with all applicable laws pertaining to the protection of minors, including when appropriate, reporting cases of child exploitation to the National Center for Missing and Exploited Children. For more information about online safety, visit *www.ncmec.org* or *www.att.com/safety.*

Child Pornography: IP Services shall not be used to publish, submit/receive, upload/download, post, use, copy or otherwise produce, transmit, distribute or store child pornography. Suspected violations of this prohibition may be reported to AT&T at the following e-mail address: *cp@abuse-att.net*. AT&T will report any discovered violation of this prohibition to the National Center for Missing and Exploited Children and take steps to remove child pornography (or otherwise block access to the content determined to contain child pornography) from its servers.

FirstNet Mobile-Pooled Plans and FirstNet Mobile-Unlimited Plans Terms and Conditions for Primary Users and Extended Primary Users

Eligibility: FirstNet Pooled and Unlimited Plans are only available to agencies and organizations eligible to use GSA Sources that also meet the qualifications of being a Public Safety Entity ("PSE") as defined in the Middle Class Tax Relief and Job Creation Act of 2012 as an "entity that provides public safety services." 47.U.S.C. § 1401(26). PSEs are divided into two categories: Primary Users and Extended Primary Users. The Primary User group consists of law enforcement, fire, and emergency medical services users. The Extended Primary User group consists of other PSE users—beyond law enforcement, fire, and emergency medical services. Some of the plans set forth in this contract are reserved for Primary Users; others are reserved for Extended Primary Users. AT&T will defer to the First Responder Network Authority as to the determinations as to whether any entity qualifies as a Public Safety Entity, Primary User or Extended Primary User. The FirstNet Mobile-Pooled and Mobile-Unlimited Plans are available to both federal Primary and federal Extended Primary Users and are available irrespective of whether the federal Primary or federal Extended Primary User (including any of their individual users) is located in a state or territory that opts out of the FirstNet network. If a state or territory opts out of the FirstNet network, both federal Primary and federal Extended Primary Users (and any of their individual users) will continue to have (1) this service on the AT&T commercial network and that connects to the nationwide dedicated FirstNet core, as deployed and (2) access to the FirstNet applications ecosystem. For state, local and tribal Public Safety Entities, the FirstNet Mobile—Pooled and FirstNet Mobile—Unlimited plans are available for use only by Primary Users and Extended Primary Users that are located in states or territories that have opted into the FirstNet network. FirstNet Features: FirstNet Mobile-Pooled and Mobile-Unlimited voice and data will connect to the nationwide dedicated FirstNet core and the Band Class 14 spectrum, as deployed. Primary Users and Extended Primary Users will also have access to the FirstNet applications ecosystem, as deployed. International Roaming Blocking Feature: All FirstNet Mobile-Pooled and Unlimited plans are provisioned with the International Roaming Blocking Feature; Customer must remove the feature to use the FirstNet Mobile- Pooled and Unlimited Plans' data, talk and text capabilities in Mexico. There is no charge to remove this feature. U.S. Pacific Territories Feature: The U.S. Pacific Territories Feature enables Customer to use the FirstNet Mobile- Pooled and Unlimited Plans' data, talk and text capabilities in American Samoa, Guam and the Norther Mariana Islands (the "Pacific Territories"); the feature requires Customer to disable the International Roaming Blocking Feature as well. There is no charge for the U.S. Pacific Territories Feature. Devices: Sold separately. See www.firstnet.com/wearables for current list of connected wearables.

DATA: For use in the contiguous United States (CONUS), Alaska, Hawaii, Puerto Rico and U.S. Virgin Islands and the Pacific Territories (see above for feature provisioning requirements for use in the Pacific Territories). Plans include data usage in Mexico (see above for feature provisioning requirements). Additional or promotional data may not be available for use outside the contiguous United States (CONUS), Alaska, Hawaii, Puerto Rico and the U.S. Virgin Islands. See att.com/broadbandinfo for details on AT&T network management policies.

FirstNet Mobile - Unlimited Plans: Unlimited plans do not pool. Data-only Device Exclusions: FirstNet Mobile- Unlimited Plans may not be used with any device or equipment that is intended to, or is used to, establish a continuous, unattended connection to the AT&T network, including, but not limited to, automatic data feeds, mobile video transmissions, and automated machine-to-machine connections.

FirstNet Mobile – Pooled Plans: Within a single Billing Account Number (BAN), Public Safety Entity Users activated on separate FirstNet Mobile--Pooled Plans are combined to create a "Data Pool." Every billing cycle, each Public Safety Entity User first uses his or her plan's included data allotment ("Data Allowance"), if any. If a Public Safety Entity User does not use all of the plan's Data Allowance, it creates an underage in the amount of the unused Data Allowance (Under Usage). If a Public Safety Entity User uses more than the plan's Data Allowance (e.g., any Public Safety Entity User with a 0GB plan), the Public Safety Entity User incurs Data Overage charges in the amount of the excess data usage (Over Usage). At the end of the billing cycle, AT&T calculates the total Under Usage amounts for Public Safety Entity User lines in the Data Pool and the total Over Usage amounts for Public Safety Entity User lines in the Data Pool and then compares the two totals. If the total Under Usage amount exceeds the total Over Usage amount, the excess Under Usage is allocated among each Public Safety Entity User in the Data Pool with Over Usage, resulting in per line credits on Customer's invoice equal to each such Public Safety Entity User line's Data Overage charges. Any remaining excess Under Usage will be forfeited. If the total Under Usage is more than zero and if the total Over Usage amount exceeds the total Under Usage amount, then the Under Usage is divided by the Over Usage to create an allocation factor that is applied equally to each Public Safety Entity User's Data Overage charges to determine each such Public

Safety Entity User's share of the total Under Usage amount, resulting in per line credits on Customer's invoice to partially offset each such Public Safety Entity User's Data Overage charges. For example, if a Data Pool has 100 KB of Under Usage and 1000 KB of Over Usage (which means an allocation factor of 10%), then Customer's invoice will show, with respect to each Public Safety Entity User line with Over Usage, both (a) the Public Safety Entity User's Data Overage charges for the Over Usage at the specified Data Overage rate, and (b) a bill credit equal to 10% of the Public Safety Entity User's Data Overage charges. Changing or migrating Public Safety Entity User lines to FirstNet Mobile--Pooled Plans during a bill cycle may result in one-time prorations or other minor impacts to the credit calculation. If Customer's organization's Foundation Account Number has multiple BANs, Customer may have more than one BAN specific Data Pool; however, Public Safety Entity User Lines in one Data Pool cannot take advantage of another Data Pool's Under Usage, and each Public Safety Entity User line can only be part of one Data Pool at a time. AT&T reserves the right to limit the number of Public Safety Entity User lines in a Data Pool due to business needs and system limitations. Data Overage: If Customer exceeds the total amount of data in the Data Pool during a billing period, a pay-per-use rate of $0.000009536 per kilobyte ("KB") will apply. 1,024 KB = 1 megabyte ("MB"); 1,048,576 KB = 1 gigabyte ("GB").

UNLIMITED TALK: For phones (including Connected Wearables) only. Includes unlimited calls within the contiguous United States (CONUS), Alaska, Hawaii, Puerto Rico, U.S. Virgin Islands and the Pacific Territories (some plans also include calls within Mexico). For use in the Pacific Territories and Mexico, see feature provisioning requirements above. Unlimited Talk to Canada and Mexico: For phones (including Connected Wearables) only. Includes unlimited International Long Distance (ILD) calling from the contiguous United States (CONUS) , Alaska, Hawaii, Puerto Rico, U.S. Virgin Islands and the Pacific Territories to Mexico and Canada only. Customer may be charged for calls to special or premium service numbers. Calls to Other Countries: Plans for phones (including Connected Wearables) also include ILD calling from the contiguous United States (CONUS), Alaska, Hawaii, Puerto Rico, U.S. Virgin Islands and the Pacific Territories (plans for smartphones and feature phones also include calling from Mexico) to countries other than Canada & Mexico. Per minute pay-per-use rates apply unless an ILD service package is added to the line placing such calls. Rates subject to change without notice. For rates, see att.com/worldconnect.

UNLIMITED TEXT: Standard Messaging – For phones (including Connected Wearables) only. Includes unlimited number of messages up to 1MB in size within and from the contiguous United States (CONUS), Alaska, Hawaii, Puerto Rico, U.S. Virgin Islands and the Pacific Territories (plans for smartphones and feature phones also include messaging within and from Mexico) to more than 190 countries for text messages and 120 countries for picture and video messages. For rates, see att.com/worldconnect. For use in the Pacific Territories and Mexico, see feature provisioning requirements above. AT&T may add, change, and remove included countries at is discretion without notice. Messages sent through applications may incur data or other charges. Visit att.com/text2world for details. Advanced Messaging – For customers with Advanced Messaging capable devices only. Both sender and recipient(s) must be AT&T postpaid wireless customers with HD Voice accounts, and both must have their advanced messaging capable devices turned on and be within AT&T's owned and operated contiguous United States (CONUS), Alaska, Hawaii, Puerto Rico, U.S. Virgin Islands and the Pacific Territories (third party coverage and use in Mexico are excluded). Connected Wearables: Visit www.firstnet.com/wearables to find available Connected Wearables. Canada and Mexico Service Restrictions: Plan usage not available in Mexico on Connected Devices and Connected Wearables. Pay-per-use roaming rates will apply on these devices. For rates, see att.com/worldconnect. Invoicing Limitation: FirstNet plans are not eligible for combined (wireless/wireline) billing.
