INFORMATION FOR ORDERING ACTIVITIES APPLICABLE TO ALL SPECIAL ITEM NUMBERS

SPECIAL NOTICE TO AGENCIES: Small Business Participation

SBA strongly supports the participation of small business concerns in the Federal Supply Schedules Program. To enhance Small Business Participation SBA policy allows agencies to include in their procurement base and goals, the dollar value of orders expected to be placed against the Federal Supply Schedules, and to report accomplishments against these goals.

For orders exceeding the micropurchase threshold, FAR 8.404 requires agencies to consider the catalogs/pricelists of at least three schedule contractors or consider reasonably available information by using the GSA Advantage!™ on-line shopping service (www.fss.gsa.gov). The catalogs/pricelists, GSA Advantage!™ and the Federal Supply Service Home Page (www.fss.gsa.gov) contain information on a broad array of products and services offered by small business concerns.

This information should be used as a tool to assist ordering activities in meeting or exceeding established small business goals. It should also be used as a tool to assist in including small, small disadvantaged, and women-owned small businesses among those considered when selecting pricelists for a best value determination.

For orders exceeding the micropurchase threshold, customers are to give preference to small business concerns when two or more items at the same delivered price will satisfy their requirement.

1. GEOGRAPHIC SCOPE OF CONTRACT:

Domestic delivery is delivery within the 48 contiguous states and Washington, DC. Domestic delivery also includes a port or consolidation point, within the aforementioned areas, for orders received from overseas activities.

Overseas delivery is delivery to points outside of the 48 contiguous states, Washington, DC, Alaska, Hawaii, Puerto Rico, and U.S. Territories.

Offerors are requested to check one of the following boxes:

- The Geographic Scope of Contract will be domestic and overseas delivery.
- The Geographic Scope of Contract will be overseas delivery only.
- The Geographic Scope of Contract will be domestic delivery only.

For Special Item Number 132-53 Wireless Services ONLY, if awarded, list the limited geographic coverage area:

2. CONTRACTOR'S ORDERING ADDRESS AND PAYMENT INFORMATION:

Accelebrate, Inc.
925B Peachtree Street, NE
PMB 378
Atlanta, GA 30309-3918

Contractors are required to accept credit cards for payments equal to or less than the micro-purchase threshold for oral or written delivery orders. Credit cards will be acceptable for payment above the micro-purchase threshold. In addition, bank account information for wire transfer payments will be shown on the invoice.

The following telephone number(s) can be used by ordering activities to obtain technical and/or ordering assistance:

(877) 849-1850

3. LIABILITY FOR INJURY OR DAMAGE

The Contractor shall not be liable for any injury to ordering activity personnel or damage to ordering activity property arising from the use of equipment maintained by the Contractor, unless such injury or damage is due to the fault or negligence of the Contractor.

well as mileage. These discounts cannot be combined with the consecutive course discount discussed below. The determination of local instructor availability is made at Accelebrate's sole discretion.

Consecutive Courses Discount

Similar to the local instructor discounts described above, Accelebrate offers dollar discounts to its customers when they book consecutive courses in the same week, which again allows Accelebrate to save on instructor airfare and logistics (administrative time, shipping of courseware, etc.). A discount of \$600 is applied to the second and (if applicable) third consecutive courses scheduled in the same week. The consecutive course discount cannot be combined with the local instructor discount discussed above.

Miscellaneous Discount

If a customer agrees to purchase textbooks separately, Accelebrate subtracts the documented cost of those materials from the sales price. Similarly, if a customer provides lodging, Accelebrate subtracts the advertised value of this lodging from the sales price for the designated course.

8. TRADE AGREEMENTS ACT OF 1979, as amended:

All items are U.S. made end products, designated country end products, Caribbean Basin country end products, Canadian end products, or Mexican end products as defined in the Trade Agreements Act of 1979, as amended.

9. STATEMENT CONCERNING AVAILABILITY OF EXPORT PACKING:

Does not apply

10. SMALL REQUIREMENTS: The minimum dollar value of orders to be issued is \$ 3,000.00.

11. MAXIMUM ORDER (All dollar amounts are exclusive of any discount for prompt payment.)

a. The Maximum Order value for the following Special Item Numbers (SINs) is \$25,000:

Special Item Number 132-50 - Training Courses

12. ORDERING PROCEDURES FOR FEDERAL SUPPLY SCHEDULE CONTRACTS

Ordering activities shall use the ordering procedures of Federal Acquisition Regulation (FAR) 8.405 when placing an order or establishing a BPA for supplies or services. These procedures apply to all schedules.

a. FAR 8.405-1 Ordering procedures for supplies, and services not requiring a statement of work.

b. FAR 8.405-2 Ordering procedures for services requiring a statement of work.

13. FEDERAL INFORMATION TECHNOLOGY/TELECOMMUNICATION STANDARDS

REQUIREMENTS: ordering activities acquiring products from this Schedule must comply with the provisions of the Federal Standards Program, as appropriate (reference: NIST Federal Standards Index). Inquiries to determine whether or not specific products listed herein comply with Federal Information Processing Standards (FIPS) or Federal Telecommunication Standards (FED-STDS), which are cited by ordering activities, shall be responded to promptly by the Contractor.

13.1 FEDERAL INFORMATION PROCESSING STANDARDS PUBLICATIONS (FIPS PUBS): Information Technology products under this Schedule that do not conform to Federal Information Processing Standards (FIPS) should not be acquired unless a waiver has been granted in accordance with the applicable "FIPS Publication." Federal Information

Processing Standards Publications (FIPS PUBS) are issued by the U.S. Department of Commerce, National Institute of Standards and Technology (NIST), pursuant to National Security Act. Information concerning their availability and applicability should be obtained from the National Technical Information Service (NTIS), 5285 Port Royal Road, Springfield, Virginia 22161. FIPS PUBS include voluntary standards when these are adopted for Federal use. Individual orders for FIPS PUBS should be referred to the NTIS Sales Office, and orders for subscription service should be referred to the NTIS Subscription Officer, both at the above address, or telephone number (703) 487-4650.

13.2 FEDERAL TELECOMMUNICATION STANDARDS (FED-STDS): Telecommunication products under this Schedule that do not conform to Federal Telecommunication Standards (FED-STDS) should not be acquired unless a waiver has been granted in accordance with the applicable "FED-STD." Federal Telecommunication Standards are issued by the U.S. Department of Commerce, National Institute of Standards and Technology (NIST), pursuant to National Security Act. Ordering information and information concerning the availability of FED-STDS should be obtained from the GSA, Federal Supply Service, Specification Section, 470 East L'Enfant Plaza, Suite 8100, SW, Washington, DC 20407, telephone number (202)619-8925. Please include a self-addressed mailing label when requesting information by mail. Information concerning their applicability can be obtained by writing or calling the U.S. Department of Commerce, National Institute of Standards and Technology, Gaithersburg, MD 20899, telephone number (301)975-2833.

14. CONTRACTOR TASKS / SPECIAL REQUIREMENTS (C-FSS-370) (NOV 2001)

(a) Security Clearances: The Contractor may be required to obtain/possess varying levels of security clearances in the performance of orders issued under this contract. All costs associated with obtaining/possessing such security clearances should be factored into the price offered under the Multiple Award Schedule.

(b) Travel: The Contractor may be required to travel in performance of orders issued under this contract. Allowable travel and per diem charges are governed by Pub .L. 99-234 and FAR Part 31, and are reimbursable by the ordering agency or can be priced as a fixed price item on orders placed under the Multiple Award Schedule. The Industrial Funding Fee does NOT apply to travel and per diem charges.

NOTE: Refer to FAR Part 31.205-46 Travel Costs, for allowable costs that pertain to official company business travel in regards to this contract.

(c) Certifications, Licenses and Accreditations: As a commercial practice, the Contractor may be required to obtain/possess any variety of certifications, licenses and accreditations for specific FSC/service code classifications offered. All costs associated with obtaining/ possessing such certifications, licenses and accreditations should be factored into the price offered under the Multiple Award Schedule program.

(d) Insurance: As a commercial practice, the Contractor may be required to obtain/possess insurance coverage for specific FSC/service code classifications offered. All costs associated with obtaining/possessing such insurance should be factored into the price offered under the Multiple Award Schedule program.

(e) Personnel: The Contractor may be required to provide key personnel, resumes or skill category descriptions in the performance of orders issued under this contract. Ordering activities may require agency approval of additions or replacements to key personnel.

(f) Organizational Conflicts of Interest: Where there may be an organizational conflict of interest as determined by the ordering agency, the Contractor's participation in such order may be restricted in accordance with FAR Part 9.5.

(g) Documentation/Standards: The Contractor may be requested to provide products or services in accordance with rules, regulations, OMB orders, standards and documentation as specified by the agency's order.

(h) Data/Deliverable Requirements: Any required data/deliverables at the ordering level will be as specified or negotiated in the agency's order.

(i) Government-Furnished Property: As specified by the agency's order, the Government may provide property, equipment, materials or resources as necessary.

(j) Availability of Funds: Many Government agencies' operating funds are appropriated for a specific fiscal year. Funds may not be presently available for any orders placed under the contract or any option year. The Government's obligation on orders placed under this contract is contingent upon the availability of appropriated funds from which payment for ordering purposes can be made. No legal liability on the part of the Government for any payment may arise until funds are available to the ordering Contracting Officer.

15. CONTRACT ADMINISTRATION FOR ORDERING ACTIVITIES: Any ordering activity, with respect to any one or more delivery orders placed by it under this contract, may exercise the same rights of termination as might the GSA Contracting Officer under provisions of FAR 52.212-4, paragraphs (l) Termination for the ordering activity's convenience, and (m) Termination for Cause (See C.1.)

16. GSA ADVANTAGE!

GSA Advantage! is an on-line, interactive electronic information and ordering system that provides on-line access to vendors' schedule prices with ordering information. GSA Advantage! will allow the user to perform various searches across all contracts including, but not limited to:

- (1) Manufacturer;
- (2) Manufacturer's Part Number; and
- (3) Product categories.

Agencies can browse GSA Advantage! by accessing the Internet World Wide Web utilizing a browser (ex.: NetScape). The Internet address is <http://www.fss.gsa.gov/>.

17. PURCHASE OF OPEN MARKET ITEMS

NOTE: Open Market Items are also known as incidental items, noncontract items, non-Schedule items, and items not on a Federal Supply Schedule contract. ODCs (Other Direct Costs) are not part of this contract and should be treated as open market purchases. Ordering Activities procuring open market items must follow FAR 8.402(f).

For administrative convenience, an ordering activity contracting officer may add items not on the Federal Supply Multiple Award Schedule (MAS) -- referred to as open market items -- to a Federal Supply Schedule blanket purchase agreement (BPA) or an individual task or delivery order, **only if-**

- (1) All applicable acquisition regulations pertaining to the purchase of the items not on the Federal Supply Schedule have been followed (e.g., publicizing (Part 5), competition requirements (Part 6), acquisition of commercial items (Part 12), contracting methods (Parts 13, 14, and 15), and small business programs (Part 19));
- (2) The ordering activity contracting officer has determined the price for the items not on the Federal Supply Schedule is fair and reasonable;
- (3) The items are clearly labeled on the order as items not on the Federal Supply Schedule; and
- (4) All clauses applicable to items not on the Federal Supply Schedule are included in the order.

18. CONTRACTOR COMMITMENTS, WARRANTIES AND REPRESENTATIONS

a. For the purpose of this contract, commitments, warranties and representations include, in addition to those agreed to for the entire schedule contract:

- (1) Time of delivery/installation quotations for individual orders;

(2) Technical representations and/or warranties of products concerning performance, total system performance and/or configuration, physical, design and/or functional characteristics and capabilities of a product/equipment/ service/software package submitted in response to requirements which result in orders under this schedule contract.

(3) Any representations and/or warranties concerning the products made in any literature, description, drawings and/or specifications furnished by the Contractor.

b. The above is not intended to encompass items not currently covered by the GSA Schedule contract.

19. OVERSEAS ACTIVITIES

The terms and conditions of this contract shall apply to all orders for installation, maintenance and repair of equipment in areas listed in the pricelist outside the 48 contiguous states and the District of Columbia, except as indicated below:

NOT APPLICABLE

Upon request of the Contractor, the ordering activity may provide the Contractor with logistics support, as available, in accordance with all applicable ordering activity regulations. Such ordering activity support will be provided on a reimbursable basis, and will only be provided to the Contractor's technical personnel whose services are exclusively required for the fulfillment of the terms and conditions of this contract.

20. BLANKET PURCHASE AGREEMENTS (BPAs)

The use of BPAs under any schedule contract to fill repetitive needs for supplies or services is allowable. BPAs may be established with one or more schedule contractors. The number of BPAs to be established is within the discretion of the ordering activity establishing the BPA and should be based on a strategy that is expected to maximize the effectiveness of the BPA(s). Ordering activities shall follow FAR 8.405-3 when creating and implementing BPA(s).

21. CONTRACTOR TEAM ARRANGEMENTS

Contractors participating in contractor team arrangements must abide by all terms and conditions of their respective contracts. This includes compliance with Clauses 552.238-74, Industrial Funding Fee and Sales Reporting, i.e., each contractor (team member) must report sales and remit the IFF for all products and services provided under its individual contract.

22. INSTALLATION, DEINSTALLATION, REINSTALLATION

The Davis-Bacon Act (40 U.S.C. 276a-276a-7) provides that contracts in excess of \$2,000 to which the United States or the District of Columbia is a party for construction, alteration, or repair (including painting and decorating) of public buildings or public works with the United States, shall contain a clause that no laborer or mechanic employed directly upon the site of the work shall received less than the prevailing wage rates as determined by the Secretary of Labor. The requirements of the Davis-Bacon Act do not apply if the construction work is incidental to the furnishing of supplies, equipment, or services. For example, the requirements do not apply to simple installation or alteration of a public building or public work that is incidental to furnishing supplies or equipment under a supply contract. However, if the construction, alteration or repair is segregable and exceeds \$2,000, then the requirements of the Davis-Bacon Act applies.

The ordering activity issuing the task order against this contract will be responsible for proper administration and enforcement of the Federal labor standards covered by the Davis-Bacon Act. The proper Davis-Bacon wage determination will be issued by the ordering activity at the time a request for quotations is made for applicable construction classified installation, deinstallation, and reinstallation services under SIN 132-8.

23. SECTION 508 COMPLIANCE.

If applicable, Section 508 compliance information on the supplies and services in this contract are available in Electronic and Information Technology (EIT) at the following:

The EIT standard can be found at: www.Section508.gov/.

24. PRIME CONTRACTOR ORDERING FROM FEDERAL SUPPLY SCHEDULES.

Prime Contractors (on cost reimbursement contracts) placing orders under Federal Supply Schedules, on behalf of an ordering activity, shall follow the terms of the applicable schedule and authorization and include with each order –

- (a) A copy of the authorization from the ordering activity with whom the contractor has the prime contract (unless a copy was previously furnished to the Federal Supply Schedule contractor); and
- (b) The following statement:

This order is placed under written authorization from _____ dated _____. In the event of any inconsistency between the terms and conditions of this order and those of your Federal Supply Schedule contract, the latter will govern.

25. INSURANCE—WORK ON A GOVERNMENT INSTALLATION (JAN 1997)(FAR 52.228-5)

- (a) The Contractor shall, at its own expense, provide and maintain during the entire performance of this contract, at least the kinds and minimum amounts of insurance required in the Schedule or elsewhere in the contract.
- (b) Before commencing work under this contract, the Contractor shall notify the Contracting Officer in writing that the required insurance has been obtained. The policies evidencing required insurance shall contain an endorsement to the effect that any cancellation or any material change adversely affecting the Government's interest shall not be effective—
 - (1) For such period as the laws of the State in which this contract is to be performed prescribe; or
 - (2) Until 30 days after the insurer or the Contractor gives written notice to the Contracting Officer, whichever period is longer.
- (c) The Contractor shall insert the substance of this clause, including this paragraph (c), in subcontracts under this contract that require work on a Government installation and shall require subcontractors to provide and maintain the insurance required in the Schedule or elsewhere in the contract. The Contractor shall maintain a copy of all subcontractors' proofs of required insurance, and shall make copies available to the Contracting Officer upon request.

26. SOFTWARE INTEROPERABILITY.

Offerors are encouraged to identify within their software items any component interfaces that support open standard interoperability. An item's interface may be identified as interoperable on the basis of participation in a Government agency-sponsored program or in an independent organization program. Interfaces may be identified by reference to an interface registered in the component registry located at <http://www.core.gov>.

27. ADVANCE PAYMENTS

A payment under this contract to provide a service or deliver an article for the United States Government may not be more than the value of the service already provided or the article already delivered. Advance or pre-payment is not authorized or allowed under this contract. (31 U.S.C. 3324).

**TERMS AND CONDITIONS APPLICABLE TO PURCHASE OF
TRAINING COURSES FOR GENERAL PURPOSE COMMERCIAL
INFORMATION TECHNOLOGY EQUIPMENT AND SOFTWARE
(SPECIAL ITEM NUMBER 132-50)**

1. SCOPE

- a. The Contractor shall provide training courses normally available to commercial customers, which will permit ordering activity users to make full, efficient use of general purpose commercial IT products. Training is restricted to training courses for those products within the scope of this solicitation.
- b. The Contractor shall provide training at the Contractor's facility and/or at the ordering activity's location, as agreed to by the Contractor and the ordering activity.

2. ORDER

Written orders, EDI orders (GSA Advantage! and FACNET), credit card orders, and orders placed under blanket purchase agreements (BPAs) shall be the basis for the purchase of training courses in accordance with the terms of this contract. Orders shall include the student's name, course title, course date and time, and contracted dollar amount of the course.

3. TIME OF DELIVERY

The Contractor shall conduct training on the date (time, day, month, and year) agreed to by the Contractor and the ordering activity.

4. CANCELLATION AND RESCHEDULING

- a. The ordering activity will notify the Contractor at least seventy-two (72) hours before the scheduled training date, if a student will be unable to attend. The Contractor will then permit the ordering activity to either cancel the order or reschedule the training at no additional charge. In the event the training class is rescheduled, the ordering activity will modify its original training order to specify the time and date of the rescheduled training class.
- b. In the event the ordering activity fails to cancel or reschedule a training course within the time frame specified in paragraph a, above, the ordering activity will be liable for the contracted dollar amount of the training course. The Contractor agrees to permit the ordering activity to reschedule a student who fails to attend a training class within ninety (90) days from the original course date, at no additional charge.
- c. The ordering activity reserves the right to substitute one student for another up to the first day of class.
- d. In the event the Contractor is unable to conduct training on the date agreed to by the Contractor and the ordering activity, the Contractor must notify the ordering activity at least seventy-two (72) hours before the scheduled training date.

5. FOLLOW-UP SUPPORT

The Contractor agrees to provide each student with unlimited telephone support for a period of one (1) year from the completion of the training course. During this period, the student may contact the Contractor's instructors for refresher assistance and answers to related course curriculum questions.

Important Note: Due to busy travel schedules of Accelebrate's instructors, students are advised, when possible, to contact their instructor by email rather than by telephone for faster service. Students are requested to ask their instructor for her/his email address at the time of training.

6. PRICE FOR TRAINING

The price that the ordering activity will be charged will be the ordering activity training price in effect at the time of order placement, or the ordering activity price in effect at the time the training course is conducted, whichever is less.

7. INVOICES AND PAYMENT

Invoices for training shall be submitted by the Contractor after ordering activity completion of the training course. Charges for training must be paid in arrears (31 U.S.C. 3324). PROMPT PAYMENT DISCOUNT, IF APPLICABLE, SHALL BE SHOWN ON THE INVOICE.

8. FORMAT AND CONTENT OF TRAINING

a. The Contractor shall provide written materials (i.e., manuals, handbooks, texts, etc.) normally provided with course offerings. Such documentation will become the property of the student upon completion of the training class.

b. ****If applicable**** For hands-on training courses, there must be a one-to-one assignment of IT equipment to students.

c. The Contractor shall provide each student with a Certificate of Training at the completion of each training course.

d. The Contractor shall provide the following information for each training course offered:

(1) The course title and a brief description of the course content, to include the course format (e.g., lecture, discussion, hands-on training);

(2) The length of the course;

(3) Mandatory and desirable prerequisites for student enrollment;

(4) The minimum and maximum number of students per class;

(5) The locations where the course is offered;

(6) Class schedules; and

(7) Price (per student, per class (if applicable)).

e. For those courses conducted at the ordering activity’s location, instructor travel charges (if applicable), including mileage and daily living expenses (e.g., per diem charges) are governed by Pub. L. 99-234 and FAR Part 31.205-46, and are reimbursable by the ordering activity on orders placed under the Multiple Award Schedule, as applicable, in effect on the date(s) the travel is performed. Contractors cannot use GSA city pair contracts. The Industrial Funding Fee does NOT apply to travel and per diem charges.

9. “NO CHARGE” TRAINING

The Contractor shall describe any training provided with equipment and/or software provided under this contract, free of charge, in the space provided below.

Not Applicable.

COURSE-BY-COURSE DESCRIPTIONS, PREREQUISITES, AND OTHER INFORMATION

ACRBT-106 Introduction to Adobe Acrobat X (2 days)

<http://www.accelebrate.com/training/adobe-acrobat-x>

Accelebrate's Introduction to Adobe Acrobat X training teaches attendees the Acrobat skills they need to create and edit Acrobat documents, to set up Acrobat document review cycles, to build Acrobat forms, and to take advantage of Acrobat's security and signature features. This training class is 70% hands-on, 30% lecture, with the longest lecture segments lasting for 20 minutes.

Prerequisites: No prior experience is presumed.

Price for group up to 3

students: \$3,239.70

Price for each additional \$88.66

student:

Minimum number of students: 3

Maximum number of students: 15

Locations where offered: On-site at client's location in the 48 continental US states or DC.

Class schedules: Per client's needs.

ACRBT-108 Introduction to Adobe Acrobat XI (2 days)

<http://www.accelebrate.com/training/adobe-acrobat-xi>

Accelebrate's Introduction to Adobe Acrobat XI training teaches attendees the Acrobat skills they need to create and edit Acrobat documents, to set up Acrobat document review cycles, to build Acrobat forms, and to take advantage of Acrobat's security and signature features. This training class is 70% hands-on, 30% lecture, with the longest lecture segments lasting for 20 minutes.

Prerequisites: No prior experience is presumed.

Price for group up to 3

students: \$3,425.09

Price for each additional \$88.66

student:

Minimum number of students: 3

Maximum number of students: 15

Locations where offered: On-site at client's location in the 48 continental US states or DC.

Class schedules: Per client's needs.

ADO-206 ADO.NET Using Visual C# 2012 (3 days)

<http://www.accelebrate.com/training/ado-net-c-sharp-2012>

Accelebrate's ADO.NET Training: ADO.NET Using Visual C# 2012 teaches attendees how to use ADO.NET, Microsoft's architecture for integrating data from relational databases, XML documents, and other sources with your applications. Students learn to connect to data sources, retrieve and manipulate data, and perform data updates. This ADO.NET Training Using Visual C# 2012 class is 70% hands-on, 30% lecture, with the longest lecture segments lasting for 15-20 minutes.

Prerequisites: All attendees should have a basic knowledge of SQL and of programming the .NET Framework using C#. Students should also understand the fundamentals of XML and be able to write simple Windows Forms applications. A working knowledge of SQL Server is desirable.

Price for group up to 3 students: \$6,484.03
Price for each additional student: \$265.99
Minimum number of students: 3
Maximum number of students: 15
Locations where offered: On-site at client's location in the 48 continental US states or DC.
Class schedules: Per client's needs.

ADO-208 Mastering the ADO.NET Entity Framework (4 days)

<http://www.accelebrate.com/training/ado-net-entity-framework>

Accelebrate's Mastering the ADO.NET Entity Framework course teaches developers how to build the data tier of their applications using Microsoft's powerful object-relational mapping (ORM) framework. Note: This Entity Framework class can be tailored for version 5, 6, or later of the framework. This ADO.NET class is 60% hands-on, 40% lecture, with the longest lecture segments lasting for 25 minutes.

Prerequisites: All attendees must be experienced .NET developers and have prior experience with ADO.NET and basic SQL.

Price for group up to 3 students: \$8801.41
Price for each additional student: \$354.66
Minimum number of students: 3
Maximum number of students: 15
Locations where offered: On-site at client's location in the 48 continental US states or DC.
Class schedules: Per client's needs.

AGL-100 Agile for Developers (3 days)

<http://www.accelebrate.com/training/agile-developer>

Accelebrate's Agile for Developers training teaches intermediate and advanced object-oriented developers the practices of Agile and Scrum and how to integrate those methodologies into daily development. This Agile training course is 50% lecture, 50% hands-on and group activities.

Prerequisites: Although there are no prerequisites for this class, students should be experienced with at least one object-oriented programming language. The course materials are presented in a language-agnostic manner, but object-oriented design principles are discussed.

Price for group up to 3 students: \$7,410.98
Price for each additional student: \$265.99

Minimum number of students: 3
Maximum number of students: 15
Locations where offered: On-site at client's location in the 48 continental US states or DC.
Class schedules: Per client's needs.

AGL-120 Advanced Object-Oriented Development with TDD, UML, and Agile (5 days)

<http://www.accelebrate.com/training/agile-ood-tdd-uml>

Accelebrate's Advanced Object-Oriented Development training teaches professional developers the test-driven development (TDD), Unified Modeling Language (UML), and Agile skills they need to more efficiently and elegantly build object-oriented applications. This Object-Oriented Development training course is 25% lecture and 75% hands-on. Students are expected to write usable Java code in iterations during the course.

Prerequisites: Students must be able to write, compile, test, and debug Java programs, using structured programming techniques, strong data types, and flow-control constructs such as conditionals and loops. A strong background in Java development is recommended.

Price for group up to 3 students: \$11,118.79
Price for each additional student: \$443.32
Minimum number of students: 3
Maximum number of students: 15
Locations where offered: On-site at client's location in the 48 continental US states or DC.
Class schedules: Per client's needs.

AJX-120 Introduction to the Dojo Framework with Dijit and DojoX (3 days)

<http://www.accelebrate.com/training/dojo>

Accelebrate's Dojo Training teaches attendees how to build powerful JavaScript Ajax applications using the Dojo Toolkit. This class is 50% hands-on, 50% lecture, with the longest lecture segments lasting for 20 minutes.

Prerequisites: All students should have attended Accelebrate's Mastering JavaScript course or have equivalent experience. If attendees do not have thorough knowledge of JavaScript, please let us know and we will precede this course with a one-day JavaScript primer.

Price for group up to 3 students: \$7,410.98
Price for each additional student: \$354.66
Minimum number of students: 3
Maximum number of students: 15
Locations where offered: On-site at client's location in the 48 continental US states or DC.
Class schedules: Per client's needs.

ART-100 Introduction to Articulate Presenter 2009 (1 day)

<http://www.accelebrate.com/training/articulate-presenter-2009>

Accelebrate's Introduction to Articulate Presenter '09 course teaches attendees how to use Presenter to create self-paced, narrated training. If you want to get training on the Articulate suite of products, called Studio Pro '09 (which includes Presenter, Engage and Quizmaker), we recommend you take Articulate Studio Pro Training: Introduction to Articulate Studio '09 instead. This training class is 70% hands-on, 30% lecture, with the longest lecture segments lasting for 20 minutes.

Prerequisites: Attendees should have fundamental PowerPoint skills. PowerPoint 2007 will be used in the class.

Price for group up to 3 students:	\$3,517.78
Price for each additional student:	\$110.83
Minimum number of students:	3
Maximum number of students:	15
Locations where offered:	On-site at client's location in the 48 continental US states or DC.
Class schedules:	Per client's needs.

ART-105 Introduction to Articulate Studio 2009 (2 days)

<http://www.accelebrate.com/training/articulate-studio-2009>

Accelebrate's Introduction to Articulate Studio Pro '09 course teaches attendees how to use the programs included in the Studio Pro suite - Presenter, Engage and Quizmaker - to create self-paced engaging training and assess knowledge gained. If you want to get training on just Articulate Presenter, request the one-day Articulate Presenter Training: Introduction to Articulate Presenter '09 course instead. This training class is 70% hands-on, 30% lecture, with the longest lecture segments lasting for 20 minutes.

Prerequisites: Attendees should have fundamental PowerPoint skills. PowerPoint 2007 will be used in the class.

Price for group up to 3 students:	\$5,557.08
Price for each additional student:	\$177.33
Minimum number of students:	3
Maximum number of students:	15
Locations where offered:	On-site at client's location in the 48 continental US states or DC.
Class schedules:	Per client's needs.

ART-110 Introduction to Articulate Studio '13 (2 days)

<http://www.accelebrate.com/training/articulate-studio-13>

Accelebrate's Introduction to Articulate Studio '13 course teaches attendees how to use the programs included in the Studio '13 suite - Presenter, Engage, Quizmaker and Replay - to create self-paced engaging training and assess knowledge gained. If you are upgrading from Studio '09 to Studio '13 and just want to get training on the new features in Studio '13, request the one-day

Articulate Studio '13 Update training course instead. This training class is 70% hands-on, 30% lecture, with the longest lecture segments lasting for 20 minutes.

Prerequisites: Attendees should have fundamental PowerPoint skills.

Price for group up to 3 students: \$5,557.08
Price for each additional student: \$177.33
Minimum number of students: 3
Maximum number of students: 15
Locations where offered: On-site at client's location in the 48 continental US states or DC.
Class schedules: Per client's needs.

ART-200 Introduction to Articulate Storyline (3 days)

<http://www.accelebrate.com/training/articulate-storyline>

Accelebrate's Introduction to Articulate Storyline course teaches attendees how to use this innovative tool to create self-paced, engaging, and highly interactive training applications for deployment to web browsers and mobile devices. This training class is 70% hands-on, 30% lecture, with the longest lecture segments lasting for 20 minutes.

Prerequisites: Attendees should have fundamental PowerPoint skills. (Although PowerPoint will not be used in class, many of the features of PowerPoint are replicated in Storyline.) Prior experience developing eLearning applications is helpful, though not required.

Price for group up to 3 students: \$7,874.46
Price for each additional student: \$221.66
Minimum number of students: 3
Maximum number of students: 15
Locations where offered: On-site at client's location in the 48 continental US states or DC.
Class schedules: Per client's needs.

ART-202 Introduction to Articulate Storyline 2 (3 days)

<https://www.accelebrate.com/training/articulate-storyline-2>

Accelebrate's Introduction to Articulate Storyline 2 training teaches attendees how to use Storyline 2 to create self-paced, engaging, and highly interactive training applications for web browsers and mobile devices. This training class is 70% hands-on, 30% lecture, with the longest lecture segments lasting for 20 minutes.

Prerequisites: All attendees should have fundamental PowerPoint skills. While PowerPoint will not be used in class, many of the features of PowerPoint are replicated in Storyline 2. Prior experience developing eLearning applications is helpful, though not required.

Price for group up to 3 students: \$7,874.46
Price for each additional student: \$221.66

student:

Minimum number of students: 3
Maximum number of students: 15
Locations where offered: On-site at client's location in the 48 continental US states or DC.
Class schedules: Per client's needs.

NET-106 Beginning ASP.NET 4.0 with Visual Basic 2010 (5 days)

<http://www.accelebrate.com/training/asp-net-4-0-vb-2010>

Accelebrate's ASP.NET 4.0 training teaches attendees how to build web-based enterprise applications using ASP.NET 4.0 and Visual Basic 2010. This ASP.NET 4.0 training class is 70% hands-on, 30% lecture, with the longest lecture segments lasting for 20 minutes.

Prerequisites: All attendees must have substantial prior VB.NET development experience. If your attendees do not have this experience, please contact us to discuss how we could precede this course with appropriate training on VB.NET fundamentals.

Price for group up to 3

students: \$8,337.93

Price for each additional \$443.32

student:

Minimum number of students: 3

Maximum number of students: 15

Locations where offered: On-site at client's location in the 48 continental US states or DC.

Class schedules: Per client's needs.

NET-206 Beginning ASP.NET 4.0 with C# 2010 (5 days)

<http://www.accelebrate.com/training/asp-net-c-sharp>

Accelebrate's Enterprise ASP.NET 4.0 training teaches attendees how to build web-based enterprise applications using ASP.NET 4.0 and C# 2010. This ASP.NET 4.0 training class is 70% hands-on, 30% lecture, with the longest lecture segments lasting for 20 minutes.

Prerequisites: All attendees must have substantial prior C# development experience. If your attendees do not have this experience, please contact us to discuss how we could precede this course with appropriate training on C# fundamentals.

Price for group up to 3

students: \$8,337.93

Price for each additional \$443.32

student:

Minimum number of students: 3

Maximum number of students: 15

Locations where offered: On-site at client's location in the 48 continental US states or DC.

Class schedules: Per client's needs.

NET-304 ASP.NET Ajax 4.0 using Visual Basic (3 days)

<http://www.accelebrate.com/training/asp-net-ajax-4-0-vb>

Accelebrate's Beginning ASP.NET AJAX using Visual Basic training class teaches attendees to develop rich Internet applications using ASP.NET AJAX and Visual Basic. This course is current to ASP.NET 4.0 and Visual Studio 2010 and includes an introduction to the popular JavaScript library jQuery, which is now bundled with ASP.NET AJAX. This ASP.NET AJAX using Visual Basic training class is 70% hands-on, 30% lecture, with the longest lecture segments lasting for 20 minutes.

Prerequisites: All students should have a good working knowledge of Web application development using ASP.NET, Visual Studio and Visual Basic and a basic knowledge of HTML. Exposure to JavaScript would be helpful but not required. A basic knowledge of ADO.NET would be helpful for understanding the case study and some of the examples.

Price for group up to 3 students: \$6,391.34
Price for each additional student: \$265.99
Minimum number of students: 3
Maximum number of students: 15
Locations where offered: On-site at client's location in the 48 continental US states or DC.
Class schedules: Per client's needs.

NET-306 ASP.NET Ajax 4.0 using C# (3 days)

<http://www.accelebrate.com/training/asp-net-ajax>

Accelebrate's Beginning ASP.NET AJAX using C# training class teaches attendees to develop rich Internet applications using ASP.NET AJAX and C#. This course is current to ASP.NET 4.0 and Visual Studio 2010 and includes an introduction to the popular JavaScript library jQuery, which is now bundled with ASP.NET AJAX. This ASP.NET AJAX using C# training class is 70% hands-on, 30% lecture, with the longest lecture segments lasting for 20 minutes.

Prerequisites: All students should have a good working knowledge of Web application development using ASP.NET, Visual Studio and C# and a basic knowledge of HTML. Exposure to JavaScript would be helpful but not required. A basic knowledge of ADO.NET would be helpful for understanding the case study and some of the examples.

Price for group up to 3 students: \$6,391.34
Price for each additional student: \$265.99
Minimum number of students: 3
Maximum number of students: 15
Locations where offered: On-site at client's location in the 48 continental US states or DC.
Class schedules: Per client's needs.

NET-903 What's New in .NET 4.0 / 4.5 (2 days)

<http://www.accelebrate.com/training/net-4-0-4-5-whats-new>

Accelebrate's What's New in .NET 4.0 / 4.5 training course gives students an overview of the important changes and additions made in the 4.0 and 4.5 versions of the .NET Platform. Students

will acquire experience with all of the major changes and new frameworks through a series of hands-on exercises. This .NET 4.5 training class is 70% hands-on, 30% lecture, with the longest lecture segments lasting for 20 minutes.

Prerequisites: Extensive development experience with C# or Visual Basic using Visual Studio 2005 or later is assumed.

Price for group up to 3 students: \$5,093.60
Price for each additional student: \$221.66
Minimum number of students: 3
Maximum number of students: 15
Locations where offered: On-site at client's location in the 48 continental US states or DC.
Class schedules: Per client's needs.

NET-920 .NET Design Patterns (3 days)

<http://www.accelebrate.com/training/net-design-patterns>

Accelebrate's .NET Design Patterns training class covers a selection of popular design patterns that can be useful when building applications for the Microsoft .NET platform. This .NET Design Patterns training class is 70% hands-on, 30% lecture, with the longest lecture segments lasting for 20 minutes.

Prerequisites: Prior experience developing applications in .NET is required.

Price for group up to 3 students: \$6,947.51
Price for each additional student: \$265.99
Minimum number of students: 3
Maximum number of students: 15
Locations where offered: On-site at client's location in the 48 continental US states or DC.
Class schedules: Per client's needs.

NET-921 .NET Design Patterns and Practices using Visual Basic 2012/2013 (3 days)

<http://www.accelebrate.com/training/net-design-patterns-vb-2012>

Accelebrate's .NET Design Patterns training class covers best practices for developing enterprise applications and a selection of popular design patterns that can be applied to achieve a maintainable, flexible, and testable architecture. This .NET Design Patterns training class is 70% hands-on, 30% lecture.

Prerequisites: Extensive prior experience developing applications for the .NET platform is assumed.

Price for group up to 3 students: \$6,947.51
Price for each additional student: \$265.99

Minimum number of students: 3
Maximum number of students: 15
Locations where offered: On-site at client's location in the 48 continental US states or DC.
Class schedules: Per client's needs.

NET-922 .NET Design Patterns and Practices using Visual C# 2012/2013 (3 days)

<http://www.accelebrate.com/training/net-design-patterns-c-sharp-2012>

Accelebrate's .NET Design Patterns training class covers best practices for developing enterprise applications and a selection of popular design patterns that can be applied to achieve a maintainable, flexible, and testable architecture. This .NET Design Patterns training class is 70% hands-on, 30% lecture.

Prerequisites: Extensive prior experience developing applications for the .NET platform is assumed.

Price for group up to 3 students: \$6,947.51
Price for each additional student: \$265.99
Minimum number of students: 3
Maximum number of students: 15
Locations where offered: On-site at client's location in the 48 continental US states or DC.
Class schedules: Per client's needs.

MVC-102 Introduction to ASP.NET MVC 4 (4 days)

<http://www.accelebrate.com/training/asp-net-mvc-4>

Accelebrate's ASP.NET MVC 4 training class teaches attendees all the skills necessary for designing and building an effective ASP.NET MVC 4 application. Significant time is spent on the maintainability and testability of a properly architected ASP.NET MVC application. This course is 50% lecture/demo and 50% lab. A full ASP.NET MVC application is constructed, using best practices.

Prerequisites: Prior .NET development experience and familiarity with object-oriented programming concepts is assumed. Some experience with HTML and JavaScript is also expected. Experience developing ASP.NET application with Web Forms would be beneficial but is not required.

Price for group up to 3 students: \$8,708.72
Price for each additional student: \$354.66
Minimum number of students: 3
Maximum number of students: 15
Locations where offered: On-site at client's location in the 48 continental US states or DC.
Class schedules: Per client's needs.

CSHP-106 Introduction to C# 5.0 with Visual C# 2012/2013 (5 days)

<http://www.accelebrate.com/training/c-sharp-net-4-5-2012>

Accelebrate's C# 4.5 training course teaches attendees how to program in C# 4.5 using Visual C# 2012. This C# 4.5 training class is 70% hands-on, 30% lecture, with the longest lecture segments lasting 20 minutes.

Prerequisites: Attendees should have prior full-time programming experience.

Price for group up to 3 students:	\$8,337.93
Price for each additional student:	\$443.32
Minimum number of students:	3
Maximum number of students:	15
Locations where offered:	On-site at client's location in the 48 continental US states or DC.
Class schedules:	Per client's needs.

CSHP-400 Building XML Applications using C# 4.0 (4 days)

<http://www.accelebrate.com/training/c-sharp-net-4-0-2012-xml>

Accelebrate's C# 4.0 XML Training course teaches attendees how to produce, parse, search, and transform XML using C# 4.0 and Visual Studio 2010. This C# 4.0 XML Training class is 70% hands-on, 30% lecture, with the longest lecture segments lasting for 15 minutes.

Prerequisites: All attendees must be comfortable developing with C# 4.0 and Visual Studio 2010, and understand the fundamentals of well-formed XML markup.

Price for group up to 3 students:	\$7,781.76
Price for each additional student:	\$354.66
Minimum number of students:	3
Maximum number of students:	15
Locations where offered:	On-site at client's location in the 48 continental US states or DC.
Class schedules:	Per client's needs.

CAP-116 Introduction to Adobe Captivate 8 (2 days)

<https://www.accelebrate.com/training/captivate-8>

Accelebrate's Introduction to Adobe Captivate 8 class teaches students the core Adobe Captivate skills needed to create interactive eLearning and mLearning (mobile learning) content. Attendees learn how to create a soft-skills lesson from scratch, record and produce software demonstrations, and build interactive training simulations. This Captivate 8 course is 70% hands-on, 30% lecture, with the longest lecture segments lasting for 20 minutes.

Prerequisites: No prior Captivate experience is presumed.

Price for group up to 3 students:	\$4,166.65
Price for each additional student:	\$177.33

Minimum number of students: 3
Maximum number of students: 15
Locations where offered: On-site at client's location in the 48 continental US states or DC.
Class schedules: Per client's needs.

CAP-118 Advanced Adobe Captivate 8 (2 days)

<https://www.accelebrate.com/training/captivate-8-advanced>

Accelebrate's Advanced Captivate 8 course teaches students the higher-end, more advanced functionality of Adobe Captivate. Attendees learn how to create eLearning lessons that reflow to fit on any display (including desktops, laptops, tablets, and smart phones), how to implement assessments using question pools, how to report results to an LMS, and a wide array of other useful skills. This Captivate 8 course is 70% hands-on, 30% lecture, with the longest lecture segments lasting for 20 minutes.

Prerequisites: All attendees should have attended Accelebrate's Introduction to Adobe Captivate 8 training or have comparable experience.

Price for group up to 3 students: \$4,166.65
Price for each additional student: \$177.33
Minimum number of students: 3
Maximum number of students: 15
Locations where offered: On-site at client's location in the 48 continental US states or DC.
Class schedules: Per client's needs.

CAP-119 Comprehensive Adobe Captivate 8 (4 days)

<https://www.accelebrate.com/training/captivate-8-comprehensive>

Accelebrate's Comprehensive Adobe Captivate 8 Training course teaches attendees the basics of Adobe Captivate to create simulations, software demonstrations, and scenario-based training. Students also learn the advanced features such as how to create eLearning lessons that reflow to fit on any display (including desktops, laptops, tablets, and smart phones), how to implement assessments using question pools, how to report results to an LMS, and a wide array of other useful skills. This Captivate 8 course is 70% hands-on, 30% lecture, with the longest lecture segments lasting for 20 minutes.

Prerequisites: No prior Captivate experience is presumed.

Price for group up to 3 students: \$6,947.51
Price for each additional student: \$265.99
Minimum number of students: 3
Maximum number of students: 15
Locations where offered: On-site at client's location in the 48 continental US states or DC.
Class schedules: Per client's needs.

CF-116 Beginning ColdFusion 10 (3 days)

<http://www.accelebrate.com/training/coldfusion-10>

This ColdFusion 10 course teaches attendees how to build their first data-driven web applications using ColdFusion. This ColdFusion training class is 60% hands-on, 40% lecture, with the longest lecture segments lasting for 25 minutes.

Prerequisites: All Beginning ColdFusion students must be fluent in HTML. Prior experience with SQL and HTML is recommended but not required.

Price for group up to 3 students:	\$5,557.08
Price for each additional student:	\$265.99
Minimum number of students:	3
Maximum number of students:	15
Locations where offered:	On-site at client's location in the 48 continental US states or DC.
Class schedules:	Per client's needs.

CF-118 Advanced ColdFusion 10 (2 days)

<http://www.accelebrate.com/training/coldfusion-10-advanced>

Accelebrate's Advanced ColdFusion 10 training class teaches attendees the advanced skills they need to create more complex, modular applications. This ColdFusion training class is 60% hands-on, 40% lecture, with the longest lecture segments lasting for 25 minutes.

Prerequisites: All students must be fluent in HTML, including text layout, image placement, hyperlinks, tables, and forms. Prior SQL and programming experience is helpful but not required. In addition, all attendees must have taken Beginning ColdFusion training or have equivalent experience.

Price for group up to 3 students:	\$4,630.13
Price for each additional student:	\$221.66
Minimum number of students:	3
Maximum number of students:	15
Locations where offered:	On-site at client's location in the 48 continental US states or DC.
Class schedules:	Per client's needs.

CF-120 Working with XML, Web Services, and the File System in ColdFusion 10 (2 days)

<https://www.accelebrate.com/training/coldfusion-10-xml-web-services>

Accelebrate's Advanced ColdFusion Training: Working with XML, Web Services, and the File System in ColdFusion 10 training course teaches attendees how to produce and parse XML, build and call SOAP-based and RESTful Services, and create push applications using HTML5 WebSockets. This ColdFusion training class is 60% hands-on, 40% lecture, with the longest lecture segments lasting for 25 minutes.

Prerequisites: All attendees must have taken Accelebrate's Beginning ColdFusion 10 training or have equivalent experience.

Price for group up to 3 students: \$4,632.13
Price for each additional student: \$221.66
Minimum number of students: 3
Maximum number of students: 15
Locations where offered: On-site at client's location in the 48 continental US states or DC.
Class schedules: Per client's needs.

CR-100 Introduction to Crystal Reports 2008 (2 days)

<http://www.accelebrate.com/training/crystal-reports-2008>

Accelebrate's Crystal Reports Training: Introduction to Crystal Reports 2008 teaches attendees all the skills they need to begin developing reports with Crystal Reports 2008. Accelebrate also offers an Intermediate Crystal Reports 2008 training class. This course is more than 60% hands-on, with the longest lecture segments lasting for 20 minutes.

Prerequisites: All attendees should have basic familiarity with at least one relational database such as Microsoft Access, SQL Server, MySQL, Oracle, Sybase, or DB2.

Price for group up to 3 students: \$3,703.17
Price for each additional student: \$177.33
Minimum number of students: 3
Maximum number of students: 15
Locations where offered: On-site at client's location in the 48 continental US states or DC.
Class schedules: Per client's needs.

CR-101 Intermediate Crystal Reports 2008 (2 days)

<http://www.accelebrate.com/training/crystal-reports-2008-intermediate>

Accelebrate's Crystal Reports Training: Intermediate Crystal Reports 2008 teaches attendees the skills they need to enhance basic report writing and to create more complex reports. Students master professional design, best practice techniques, sub-reporting and advanced formulas. Accelebrate also offers an Advanced Crystal Reports 2008 training class. This course is more than 60% hands-on, with the longest lecture segments lasting for 20 minutes.

Prerequisites: All attendees should have basic familiarity with at least one relational database such as Microsoft Access, SQL Server, MySQL, Oracle, Sybase, or DB2. Students should have completed Accelebrate's Introduction to Crystal Reports 2008 training or have the equivalent experience.

Price for group up to 3 students: \$3,703.17
Price for each additional student: \$177.33
Minimum number of students: 3

Maximum number of students: 15
Locations where offered: On-site at client's location in the 48 continental US states or DC.
Class schedules: Per client's needs.

CR-102 Advanced Crystal Reports 2008 (2 days)

<http://www.accelebrate.com/training/crystal-reports-2008-advanced>

Accelebrate's advanced Crystal Reports Training: Advanced Crystal Reports 2008 teaches attendees the skills they need for developing more powerful and insightful reports using Crystal Reports 2008. This course is more than 60% hands-on, with the longest lecture segments lasting for 20 minutes.

Prerequisites: All attendees must have basic Crystal Reports 2008 familiarity, as taught in Accelebrate's Intermediate Crystal Reports 2008 training.

Price for group up to 3 students: \$3,703.17
Price for each additional student: \$177.33

Minimum number of students: 3
Maximum number of students: 15
Locations where offered: On-site at client's location in the 48 continental US states or DC.
Class schedules: Per client's needs.

CR-110 Introduction to Crystal Reports XI (2 days)

<http://www.accelebrate.com/training/crystal-reports-xi>

Accelebrate's Crystal Reports Training: Introduction to Crystal Reports XI teaches attendees all the skills they need to begin developing reports with Crystal Reports XI. Accelebrate also offers an Intermediate Crystal Reports XI training class. This course is more than 60% hands-on, with the longest lecture segments lasting for 20 minutes.

Prerequisites: All attendees should have basic familiarity with at least one relational database such as Microsoft Access, SQL Server, MySQL, Oracle, Sybase, or DB2.

Price for group up to 3 students: \$3,703.17
Price for each additional student: \$177.33

Minimum number of students: 3
Maximum number of students: 15
Locations where offered: On-site at client's location in the 48 continental US states or DC.
Class schedules: Per client's needs.

CR-112 Intermediate Crystal Reports XI (2 days)

<http://www.accelebrate.com/training/crystal-reports-xi-intermediate>

In Accelebrate's Intermediate Crystal Reports XI training class, students enhance their basic report writing skills and move into creating more complex reports. Students master professional report design, advanced formulas and techniques, and subreporting. Accelebrate also offers an

Advanced Crystal Reports XI training class. This course is more than 60% hands-on, with the longest lecture segments lasting for 20 minutes.

Prerequisites: All attendees must be familiar with the basics of Crystal Reports XI, as taught in Accelebrate's Introduction to Crystal Reports XI training.

Price for group up to 3 students: \$3,703.17
Price for each additional student: \$177.33
Minimum number of students: 3
Maximum number of students: 15
Locations where offered: On-site at client's location in the 48 continental US states or DC.
Class schedules: Per client's needs.

CR-114 Advanced Crystal Reports XI (2 days)

<http://www.accelebrate.com/training/crystal-reports-xi-advanced>

Accelebrate's advanced Crystal Reports Training: Advanced Crystal Reports XI teaches attendees the skills they need for developing more powerful and insightful reports using Crystal Reports XI. This course is more than 60% hands-on, with the longest lecture segments lasting for 20 minutes.

Prerequisites: All attendees must be familiar with the basic and intermediate Crystal Reports XI skills, as taught in Accelebrate's Introduction to Crystal Reports XI training and Intermediate Crystal Reports XI training.

Price for group up to 3 students: \$3,703.17
Price for each additional student: \$177.33
Minimum number of students: 3
Maximum number of students: 15
Locations where offered: On-site at client's location in the 48 continental US states or DC.
Class schedules: Per client's needs.

CR-116 Introduction to Crystal Reports 2011 (2 days)

<http://www.accelebrate.com/training/crystal-reports-2011>

Accelebrate's Crystal Reports Training: Introduction to Crystal Reports 2011 teaches attendees all the skills they need to begin developing reports with Crystal Reports 2011. This course is more than 60% hands-on, with the longest lecture segments lasting for 20 minutes.

Prerequisites: All attendees should have basic familiarity with at least one relational database such as Microsoft Access, SQL Server, MySQL, Oracle, Sybase, or DB2.

Price for group up to 3 students: \$3,703.17
Price for each additional student: \$177.33

Minimum number of students: 3
Maximum number of students: 15
Locations where offered: On-site at client's location in the 48 continental US states or DC.
Class schedules: Per client's needs.

CR-118 Advanced Crystal Reports 2011 (2 days)

<http://www.accelebrate.com/training/crystal-reports-2011-advanced>

Accelebrate's Crystal Reports Training: Advanced Crystal Reports 2011 teaches attendees the skills they need for developing more powerful and insightful reports using Crystal Reports 2011. This course is more than 60% hands-on, with the longest lecture segments lasting for 20 minutes.

Prerequisites: All attendees must be familiar with the basic Crystal Reports 2011 skills, as taught in Accelebrate's Introduction to Crystal Reports 2011 training.

Price for group up to 3 students: \$3,703.17
Price for each additional student: \$177.33
Minimum number of students: 3
Maximum number of students: 15
Locations where offered: On-site at client's location in the 48 continental US states or DC.
Class schedules: Per client's needs.

CR-120 Introduction to Crystal Reports 2013 (2 days)

<http://www.accelebrate.com/training/crystal-reports-2013>

Accelebrate's Introduction to Crystal Reports 2013 course teaches students the basics of report design and how to create quality reports in various presentation formats. This Crystal Reports 2013 course is more than 60% hands-on, with the longest lecture segments lasting for 20 minutes.

Prerequisites: All attendees should have basic familiarity with at least one relational database such as Microsoft Access, SQL Server, MySQL, Oracle, Sybase, or DB2.

Price for group up to 3 students: \$3,703.17
Price for each additional student: \$177.33
Minimum number of students: 3
Maximum number of students: 15
Locations where offered: On-site at client's location in the 48 continental US states or DC.
Class schedules: Per client's needs.

CR-121 Intermediate Crystal Reports 2013 (2 days)

<http://www.accelebrate.com/training/crystal-reports-2013-intermediate>

Accelebrate's Intermediate Crystal Reports 2013 course enriches your basic report writing skills and moves you into developing more intricate reports. You will learn how to build parameterized

reports, sub-reports, charts, and cross-tabulation reports, as well as use conditions to control the formatting of your reports. This Intermediate Crystal Reports 2013 course is more than 60% hands-on, with the longest lecture segments lasting for 20 minutes.

Prerequisites: All attendees must be familiar with the basics of Crystal Reports 2013, as taught in Accelebrate's Introduction to Crystal Reports 2013 class.

Price for group up to 3 students:	\$3,703.17
Price for each additional student:	\$177.33
Minimum number of students:	3
Maximum number of students:	15
Locations where offered:	On-site at client's location in the 48 continental US states or DC.
Class schedules:	Per client's needs.

CR-122 Advanced Crystal Reports 2013 (1 day)

<http://www.accelebrate.com/training/crystal-reports-2013-advanced>

Accelebrate's Advanced Crystal Reports 2013 course teaches attendees the SQL query writing, function writing, and geographic mapping skills they need to successfully build highly customized reports. This Advanced Crystal Reports 2013 course is more than 60% hands-on, with the longest lecture segments lasting for 20 minutes.

Prerequisites: All attendees must be familiar with the basic Crystal Reports 2013 skills, as taught in Accelebrate's Introduction to Crystal Reports 2013 and Intermediate Crystal Reports 2013 classes.

Price for group up to 3 students:	\$2,312.75
Price for each additional student:	\$110.83
Minimum number of students:	3
Maximum number of students:	15
Locations where offered:	On-site at client's location in the 48 continental US states or DC.
Class schedules:	Per client's needs.

CR-123 Comprehensive Crystal Reports 2013 (5 days)

<http://www.accelebrate.com/training/crystal-reports-2013-comprehensive>

Accelebrate's Comprehensive Crystal Reports 2013 course teaches attendees basic and advanced skills for creating reports with Crystal Reports 2013. Attendees learn how to build increasingly sophisticated reports presenting data in a wide array of text, tabular, and graphical formats. This Crystal Reports 2013 course is more than 60% hands-on, with the longest lecture segments lasting for 20 minutes.

Prerequisites: All attendees should have basic familiarity with at least one relational database such as Microsoft Access, SQL Server, MySQL, Oracle, Sybase, or DB2.

Price for group up to 3	\$8,337.93
-------------------------	------------

students: \$354.66
Price for each additional student:
Minimum number of students: 3
Maximum number of students: 15
Locations where offered: On-site at client's location in the 48 continental US states or DC.
Class schedules: Per client's needs.

CSS-102 Introduction to CSS3 (2 days)

<http://www.accelebrate.com/training/css3>

Accelebrate's Introduction to CSS3 training course teaches web designers and developers who are already familiar with Cascading Style Sheets how to harness the new capabilities of CSS3. This class is 70% hands-on, 30% lecture, with the longest lecture segments lasting for 20 minutes.

Prerequisites: Prior hands-on experience with HTML and CSS is required.

Price for group up to 3 students: \$4,444.74
Price for each additional student: \$177.33
Minimum number of students: 3
Maximum number of students: 15
Locations where offered: On-site at client's location in the 48 continental US states or DC.
Class schedules: Per client's needs.

DW-108 Introduction to Adobe Dreamweaver CS6 (2 days)

<http://www.accelebrate.com/training/dreamweaver-cs6>

Accelebrate's Adobe Dreamweaver CS6 training teaches attendees how to build their first web sites using Dreamweaver CS6. This training class is 70% hands-on, 30% lecture, with the longest lecture segments lasting for 15 minutes.

Prerequisites: Prior experience using the Web is required. This course does not require knowledge of HTML, but attendees with HTML knowledge will find Dreamweaver much easier to use in both the short- and long-run. Toward this end, we would be delighted to teach a one-day HTML primer immediately prior to this course.

Price for group up to 3 students: \$3,425.09
Price for each additional student: \$133.00
Minimum number of students: 3
Maximum number of students: 15
Locations where offered: On-site at client's location in the 48 continental US states or DC.
Class schedules: Per client's needs.

DW-109 Advanced Adobe Dreamweaver CS6 (2 days)

<http://www.accelebrate.com/training/dreamweaver-cs6-advanced>

Accelebrate's Advanced Adobe Dreamweaver CS6 training teaches attendees how to create more sophisticated web pages and manage their web sites. Students will master using Dreamweaver Behaviors, adding Flash objects, working with forms, and creating dynamic data using Dreamweaver CS6. This training class is 70% hands-on, 30% lecture, with the longest lecture segments lasting for 15 minutes.

Prerequisites: All attendees must have taken Accelebrate's Introduction to Adobe Dreamweaver CS6 or have equivalent experience.

Price for group up to 3 students:	\$3,425.09
Price for each additional student:	\$133.00
Minimum number of students:	3
Maximum number of students:	15
Locations where offered:	On-site at client's location in the 48 continental US states or DC.
Class schedules:	Per client's needs.

DW-110 Introduction to Adobe Dreamweaver Creative Cloud (2 days)

<http://www.accelebrate.com/training/dreamweaver-cc>

Accelebrate's Adobe Dreamweaver CC training class teaches attendees how to build conventional and mobile web sites using Adobe Dreamweaver Creative Cloud. This Dreamweaver CC training class is 70% hands-on, 30% lecture, with the longest lecture segments lasting for 15 minutes. Students "learn by doing," with immediate opportunities to apply the material they learn to real-world problems.

Prerequisites: Prior experience using the Web is required. This course does not require knowledge of HTML, but attendees with HTML knowledge will find Dreamweaver much easier to use in both the short- and long-run. Toward this end, we would be delighted to teach a one-day HTML primer immediately prior to this course.

Price for group up to 3 students:	\$3,425.09
Price for each additional student:	\$133.00
Minimum number of students:	3
Maximum number of students:	15
Locations where offered:	On-site at client's location in the 48 continental US states or DC.
Class schedules:	Per client's needs.

DW-111 Advanced Adobe Dreamweaver Creative Cloud (2 days)

<http://www.accelebrate.com/training/dreamweaver-cc-advanced>

Accelebrate's Advanced Adobe Dreamweaver CC training teaches attendees how to create more sophisticated web pages and manage their web sites using Adobe Dreamweaver Creative Cloud. This advanced Dreamweaver CC training class is 70% hands-on, 30% lecture, with the longest lecture segments lasting for 15 minutes. Students "learn by doing," with immediate opportunities to apply the material they learn to real-world problems.

Prerequisites: Prior experience using the Web is required. This course does not require knowledge of HTML, but attendees with HTML knowledge will find Dreamweaver much easier to use in both the short- and long-run. Toward this end, we would be delighted to teach a one-day HTML primer immediately prior to this course.

Price for group up to 3 students: \$3,425.09
Price for each additional student: \$133.00
Minimum number of students: 3
Maximum number of students: 15
Locations where offered: On-site at client's location in the 48 continental US states or DC.
Class schedules: Per client's needs.

DRPL-102 Introduction to Drupal 7 (3 days)

<http://www.accelebrate.com/training/drupal-7>

Accelebrate's Drupal Training: Introduction to Drupal 7 teaches attendees how to successfully build data-driven web sites using Drupal an incredibly powerful open source Content Management System. Attendees will learn how to use Drupal's robust API, flexible permissions system, and extensible framework. This Drupal training class is 70% hands-on, 30% lecture, with the longest lecture segments lasting for 10 minutes. Students "learn by doing," with immediate opportunities to apply the material they learn to real-world problems.

Prerequisites: All attendees must have a general understanding of internet terms such as webpage, URL addresses, users, drag and drop, web form, header, footer, sidebar, and blog.

Price for group up to 3 students: \$5,557.08
Price for each additional student: \$265.99
Minimum number of students: 3
Maximum number of students: 15
Locations where offered: On-site at client's location in the 48 continental US states or DC.
Class schedules: Per client's needs.

DRPL-202 Introduction to PHP and Drupal 7 Development (5 days)

<http://www.accelebrate.com/training/drupal-7-php>

Accelebrate's Introduction to PHP and Drupal 7 Development training teaches attendees new to PHP and Drupal development how to build heavily customized Drupal solutions. This Drupal training class is 70% hands-on, 30% lecture, with the longest lecture segments lasting for 10 minutes. Students "learn by doing," with immediate opportunities to apply the material they learn to real-world problems.

Prerequisites: This course presumes extensive prior familiarity with HTML and CSS. Prior experience developing server-side web applications is strongly recommended.

Price for group up to 3 \$8,337.93

students: \$443.32
Price for each additional student:
Minimum number of students: 3
Maximum number of students: 15
Locations where offered: On-site at client's location in the 48 continental US states or DC.
Class schedules: Per client's needs.

EJB-100 Introduction to EJB (4 days)

<http://www.accelebrate.com/training/ejb>

Introduction to EJB teaches attendees the skills they need to successfully develop all types of Enterprise JavaBeans, including session beans, entity beans, and message-driven beans. This course is taught using the EJB 3.0 framework. This EJB training class is 70% hands-on, 30% lecture, with the longest lecture segments lasting for 20 minutes.

Prerequisites: All attendees should have a solid Java programming experience. Some experience with distributed systems development, especially object-based systems such as Java RMI, CORBA, or COM, is a plus. Some knowledge of JDBC is helpful in understanding the EJB persistence model. Understanding of XML is a plus but is not needed.

Price for group up to 3 students: \$8,616.02
Price for each additional student: \$354.66
Minimum number of students: 3
Maximum number of students: 15
Locations where offered: On-site at client's location in the 48 continental US states or DC.
Class schedules: Per client's needs.

EJB-100a Introduction to EJB (3 days)

<http://www.accelebrate.com/training/ejb>

Introduction to EJB teaches attendees the skills they need to successfully develop all types of Enterprise JavaBeans, including session beans, entity beans, and message-driven beans. This course is taught using the EJB 3.0 framework. This EJB training class is 70% hands-on, 30% lecture, with the longest lecture segments lasting for 20 minutes.

Prerequisites: All attendees should have a solid Java programming experience. Some experience with distributed systems development, especially object-based systems such as Java RMI, CORBA, or COM, is a plus. Some knowledge of JDBC is helpful in understanding the EJB persistence model. Understanding of XML is a plus but is not needed.

Price for group up to 3 students: \$7,040.20
Price for each additional student: \$265.99
Minimum number of students: 3
Maximum number of students: 15

Locations where offered: On-site at client's location in the 48 continental US states or DC.
Class schedules: Per client's needs.

EJB-105 Beginning and Advanced EJB3 (5 days)

<http://www.accelebrate.com/training/ejb3>

This EJB3 training course gives the experienced Java developer a thorough grounding in Enterprise JavaBeans -- the Java EE standard for scalable, secure, and transactional business components. EJB 3.0 has reinvigorated this area of Java enterprise development, with dramatic improvements in ease of use and smooth integration with servlet-based or JSF web applications. This EJB3 training course treats the 3.0 specification, with a few notes on 2.1 compatibility but an emphasis on doing things the 3.0 way. Students get an overview of the EJB rationale and architecture, and then dive right into creating session beans and entities. The new dependency-injection features of EJB3 cause perhaps the most confusion, so we work through a chapter devoted explicitly to DI and JNDI, and basically how components find each other to make an application. We study entities and the Java Persistence API in depth, and get a look at message-driven beans as well. The latter phase of this EJB3 training course covers advanced topics including transactions, security, and interceptors. This class is 70% hands-on, 30% lecture, with the longest lecture segments lasting for 20 minutes.

Prerequisites: All EJB3 training students should have solid Java programming skills and an understanding object-oriented Java and Java 5/6 language features. Experience with developing Java web applications is very helpful for this course, but not strictly required. Some knowledge of XML will be useful for writing the occasional deployment descriptor, but is not required.

Price for group up to 3 students: \$9,728.36
Price for each additional student: \$443.32
Minimum number of students: 3
Maximum number of students: 15
Locations where offered: On-site at client's location in the 48 continental US states or DC.
Class schedules: Per client's needs.

PROG-100 Introduction to Regular Expressions (1 day)

<http://www.accelebrate.com/training/regular-expressions>

Regular expressions are a cross-platform, cross-language set of tools for finding, extracting, and replacing text patterns. Regular expressions are supported by Java, .NET, Visual Basic, JavaScript, Perl, PHP, ColdFusion, and most other modern programming languages. In this course, attendees master the fundamentals of regular expressions in a fun, hands-on environment. This Regular Expressions training class is 70% hands-on, 30% lecture, with the longest lecture segments lasting for 15 minutes. Students "learn by doing," with immediate opportunities to apply the material they learn to real-world problems.

Prerequisites: No prior experience is presumed.

Price for group up to 3 students: \$3,054.31
\$88.66

Price for each additional student:

Minimum number of students: 3
Maximum number of students: 15
Locations where offered: On-site at client's location in the 48 continental US states or DC.
Class schedules: Per client's needs.

GRO-100 Introduction to Groovy for Java Developers (4 days)

<http://www.accelebrate.com/training/groovy>

Accelebrate's Groovy for Java Developers training teaches experienced Java developers how to write programs in Groovy that simplify, enhance, and expand their existing knowledge. This training class is 70% hands-on, 30% lecture, with the longest lecture segments lasting for 15 minutes. Students "learn by doing," with immediate opportunities to apply the material they learn to real-world problems.

Prerequisites: All attendees should have a good knowledge of Java techniques, including the Collections framework and JDBC.

Price for group up to 3 students:

\$8,801.41

Price for each additional student:

\$354.66

Minimum number of students: 3
Maximum number of students: 15
Locations where offered: On-site at client's location in the 48 continental US states or DC.
Class schedules: Per client's needs.

GRO-102 Web Application Development with Groovy and Grails (5 days)

<http://www.accelebrate.com/training/groovy-grails>

Accelebrate's Introduction to Web Application Development with Groovy and Grails training teaches Java developers the basics of Groovy and how to use the Grails framework to rapidly create sophisticated web applications. This training class is 60% hands-on, 40% lecture/discussion, with the longest lecture/discussion segments lasting for 20 minutes. Students "learn by doing" with immediate opportunities to apply the material they learn to real-world problems.

Prerequisites: All attendees should be familiar with web development in Java, including servlets, JSPs, and database access.

Price for group up to 3 students:

\$10,191.84

Price for each additional student:

\$443.32

Minimum number of students: 3
Maximum number of students: 15
Locations where offered: On-site at client's location in the 48 continental US states or DC.
Class schedules: Per client's needs.

GRO-104 Introduction to the Gradle Build System (3 days)

<https://www.accelebrate.com/training/gradle>

Accelebrate's Gradle course teaches the fundamentals of the Gradle build system, which is used to compile, test, and deploy Java and/or Groovy projects. This Gradle course is 70% hands-on, 30% lecture/discussion, with the longest lecture/discussion segments lasting 20 minutes.

Prerequisites: A working knowledge of Groovy is helpful but not required. If Groovy is not known, the attendees are expected to be comfortable with Java. If neither is known, we could conduct a primer for 2 to 4 days prior to this class (depending on your group's level of object-oriented development experience) to prepare your group for this class.

Price for group up to 3 students:	\$7,410.98
Price for each additional student:	\$265.99
Minimum number of students:	3
Maximum number of students:	15
Locations where offered:	On-site at client's location in the 48 continental US states or DC.
Class schedules:	Per client's needs.

HDP-100 Introduction to Apache Hadoop Development (4 days)

<http://www.accelebrate.com/training/apache-hadoop-development>

Accelebrate's Apache Hadoop Training: Introduction to Apache Hadoop Development training class teaches attendees to use Hadoop to achieve reliable, scalable, distributed computing. This Apache Hadoop class is 60% hands-on, 40% lecture, with the longest lecture segments lasting for 30 minutes.

Prerequisites: Prior object-oriented development experience, ideally in Java; ½, is required.

Price for group up to 3 students:	\$10,191.84
Price for each additional student:	\$354.66
Minimum number of students:	3
Maximum number of students:	15
Locations where offered:	On-site at client's location in the 48 continental US states or DC.
Class schedules:	Per client's needs.

HIB-100 Introduction to Hibernate (3 days)

<http://www.accelebrate.com/training/hibernate>

Hibernate is a high-performance object/relational persistence and query service. In this class, experienced Java developers learn how to put the Hibernate engine to work within their applications. This class is 70% hands-on, 30% lecture, with the longest lecture segments lasting for 20 minutes.

Prerequisites: All attendees must have at least one year of full-time Java development experience and an excellent understanding of relational databases and SQL.

Price for group up to 3 students: \$6,947.51
Price for each additional student: \$265.99
Minimum number of students: 3
Maximum number of students: 15
Locations where offered: On-site at client's location in the 48 continental US states or DC.
Class schedules: Per client's needs.

HTML-100 Mastering XHTML and CSS (3 days)

<http://www.accelebrate.com/training/xhtml-css-mastering>

Accelebrate's Mastering XHTML and CSS training class teaches attendees the hands-on, real-world skills they need to successfully build Web sites using XHTML (Extensible Hypertext Markup Language) and CSS (Cascading Style Sheets). This HTML training class is 70% hands-on, 30% lecture, with the longest lecture segments lasting for 10 minutes. Students "learn by doing," with immediate opportunities to apply the material they learn to real-world problems.

Prerequisites: All HTML training students should have at least two years' experience using Windows or Macintosh computers, and at least one year of experience using the World Wide Web. Touch typing experience is strongly recommended but not required.

Price for group up to 3 students: \$4,630.13
Price for each additional student: \$221.66
Minimum number of students: 3
Maximum number of students: 15
Locations where offered: On-site at client's location in the 48 continental US states or DC.
Class schedules: Per client's needs.

HTML-102 Introduction to HTML5 (2 days)

<http://www.accelebrate.com/training/html5>

Accelebrate's HTML5 training class, intended for experienced HTML developers, teaches the new features of HTML5 and how to put them to immediate use. This HTML5 training class is 70% hands-on, 30% lecture, with the longest lecture segments lasting for 10 minutes.

Prerequisites: All attendees must be fluent in HTML 4 and have practical experience with the basics of CSS and JavaScript. Prior knowledge of JSON, DOM, and Ajax is helpful but not required.

Price for group up to 3 students: \$4,630.13
Price for each additional student: \$177.33
Minimum number of students: 3
Maximum number of students: 15
Locations where offered: On-site at client's location in the 48 continental US states or DC.

Class schedules: Per client's needs.

HTML-103 Introduction to HTML5 for Managers (1 day)

<http://www.accelebrate.com/training/html5-managers>

Accelebrate's HTML5 for Managers training class is for those who need to have a better understanding of HTML5, but are not going to be writing HTML5 code themselves (or at least not yet). It covers the structural differences between HTML5 and HTML 4 and addresses the benefits of HTML5 and the current state of HTML5 support. This HTML5 training class is 70% hands-on, 30% lecture, with the longest lecture segments lasting for 10 minutes.

Prerequisites: Prior HTML 4 experience is presumed. No prior HTML5 experience is needed.

Price for group up to 3

students: \$2,544.48

Price for each additional \$110.83

student:

Minimum number of students: 3

Maximum number of students: 15

Locations where offered: On-site at client's location in the 48 continental US states or DC.

Class schedules: Per client's needs.

HTML-104 HTML5 Application Development (3 days)

<http://www.accelebrate.com/training/html5-application-development>

Accelebrate's HTML5 Training: HTML5 Application Development class teaches experienced JavaScript developers how to build interactive HTML5 applications. This HTML5 training class is 70% hands-on, 30% lecture, with the longest lecture segments lasting for 10 minutes. Students "learn by doing," with immediate opportunities to apply the material they learn to real-world problems.

Prerequisites: All attendees must be fluent in HTML 4, CSS, and JavaScript. Prior knowledge of JSON, DOM, and Ajax is helpful but not required.

Price for group up to 3

students: \$6,391.34

Price for each additional \$265.99

student:

Minimum number of students: 3

Maximum number of students: 15

Locations where offered: On-site at client's location in the 48 continental US states or DC.

Class schedules: Per client's needs.

HTML-105 Modern Web Design with HTML5, CSS3, JavaScript, and jQuery (5 days)

<http://www.accelebrate.com/training/html5-css3-javascript-jquery>

Accelebrate's Modern Web Design with HTML5, CSS3, JavaScript, and jQuery training class teaches students how to produce dynamic, cross-browser compatible sites using HTML5, CSS3, JavaScript, and jQuery. This HTML5 training class is 70% hands-on, 30% lecture, with the longest lecture segments lasting for 10 minutes.

Prerequisites: All attendees should have some experience with HTML prior to the training. Prior programming/scripting experience is helpful but not required.

Price for group up to 3 students: \$8,337.93
Price for each additional student: \$420.15
Minimum number of students: 3
Maximum number of students: 15
Locations where offered: On-site at client's location in the 48 continental US states or DC.
Class schedules: Per client's needs.

IIS-102 IIS 7 Administration (2 days)

<http://www.accelebrate.com/training/iis-7>

Accelebrate's IIS 7 class teaches attendees the fundamental principles of web server administration and how to administer Microsoft Internet Information Services 7.0 and/or 7.5. This training class is 70% hands-on, 30% lecture, with the longest lecture segments lasting for 20 minutes. Students "learn by doing," with immediate opportunities to apply the material they learn to real-world problems.

Prerequisites: No prior experience is presumed.

Price for group up to 3 students: \$5,093.60
Price for each additional student: \$221.66
Minimum number of students: 3
Maximum number of students: 15
Locations where offered: On-site at client's location in the 48 continental US states or DC.
Class schedules: Per client's needs.

IIS-104 IIS 8 Administration (2 days)

<http://www.accelebrate.com/training/iis-8>

Accelebrate's IIS 8 class teaches attendees the fundamental principles of web server administration and how to administer Microsoft Internet Information Services 8.0 or 8.5. Note: This class can be taught using IIS 8 (Windows Server 2012 or Windows 8) or IIS 8.5 (Windows Server 2012 R2 or Windows 8.1). This training class is 70% hands-on, 30% lecture, with the longest lecture segments lasting for 20 minutes.

Prerequisites: No prior experience is presumed. If your group has prior IIS administration experience in an earlier version, we can tailor this training accordingly.

Price for group up to 3 students: \$5,557.08
Price for each additional student: \$221.66
Minimum number of students: 3

Maximum number of students: 15
Locations where offered: On-site at client's location in the 48 continental US states or DC.
Class schedules: Per client's needs.

ILL-108 Introduction to Illustrator CS6 (3 days)

<http://www.accelebrate.com/training/illustrator-cs6>

Accelebrate's Illustrator Training: Introduction to Adobe Illustrator CS6 training class teaches attendees the key elements of the Illustrator interface and how to create vector artwork across multiple media: print, websites, interactive projects, and video. In addition, Students learn to use the new CS6 tracing engine with improved shape and color recognition, a new pattern toolset with on-artboard controls and one-click tiling, a completely overhauled performance engine and modernized user interface, and more. This training class is 70% hands-on, 30% lecture, with the longest lecture segments lasting for 20 minutes.

Prerequisites: No prior experience is presumed.

Price for group up to 3 students: \$5,093.60
Price for each additional student: \$110.83
Minimum number of students: 3
Maximum number of students: 15
Locations where offered: On-site at client's location in the 48 continental US states or DC.
Class schedules: Per client's needs.

ILL-110 Introduction to Illustrator Creative Cloud (3 days)

<https://www.accelebrate.com/training/illustrator-cc>

Accelebrate's Illustrator CC Training: Introduction to Illustrator Creative Cloud training class teaches attendees the key elements of the Illustrator interface and how to create vector artwork across multiple media: print, websites, and interactive projects. This Illustrator CC training class is 70% hands-on, 30% lecture, with the longest lecture segments lasting for 20 minutes.

Prerequisites: No prior experience is presumed.

Price for group up to 3 students: \$5,093.60
Price for each additional student: \$110.83
Minimum number of students: 3
Maximum number of students: 15
Locations where offered: On-site at client's location in the 48 continental US states or DC.
Class schedules: Per client's needs.

IND-108 Introduction to Adobe InDesign CS6 (2 days)

<http://www.accelebrate.com/training/indesign-cs6>

Accelebrate's Introduction to Adobe InDesign CS6 training teaches attendees how to build newsletters, brochures, and other documents using Adobe InDesign CS6. This training class is 70% hands-on, 30% lecture, with the longest lecture segments lasting for 20 minutes.

Prerequisites: No prior experience is presumed.

Price for group up to 3 students: \$3,425.09
Price for each additional student: \$88.66
Minimum number of students: 3
Maximum number of students: 15
Locations where offered: On-site at client's location in the 48 continental US states or DC.
Class schedules: Per client's needs.

IND-109 Advanced Adobe InDesign CS6 (2 days)

<http://www.accelebrate.com/training/indesign-cs6-advanced>

Accelebrate's Advanced Adobe InDesign CS6 training teaches attendees the sophisticated techniques they need for producing polished InDesign documents. This training class is 70% hands-on, 30% lecture, with the longest lecture segments lasting for 20 minutes.

Prerequisites: Accelebrate's Introduction to Adobe InDesign CS6 or equivalent experience.

Price for group up to 3 students: \$3,425.09
Price for each additional student: \$88.66
Minimum number of students: 3
Maximum number of students: 15
Locations where offered: On-site at client's location in the 48 continental US states or DC.
Class schedules: Per client's needs.

IND-110 Introduction to Adobe InDesign Creative Cloud (2 days)

<http://www.accelebrate.com/training/indesign-cc>

Accelebrate's Introduction to Adobe InDesign CC training teaches attendees how to build newsletters, brochures, and other documents using Adobe InDesign CC. This training class is 70% hands-on, 30% lecture, with the longest lecture segments lasting for 20 minutes.

Prerequisites: No prior experience is presumed.

Price for group up to 3 students: \$3,425.09
Price for each additional student: \$88.66
Minimum number of students: 3
Maximum number of students: 15
Locations where offered: On-site at client's location in the 48 continental US states or DC.
Class schedules: Per client's needs.

IND-111 Advanced Adobe InDesign Creative Cloud (2 days)

<http://www.accelebrate.com/training/indesign-cc-advanced>

Accelebrate's Advanced Adobe InDesign CC training teaches attendees the sophisticated techniques they need for producing polished InDesign documents. This training class is 70% hands-on, 30% lecture, with the longest lecture segments lasting for 20 minutes.

Prerequisites: Accelebrate's Introduction to Adobe InDesign CC training or equivalent experience.

Price for group up to 3 students: \$3,425.09
Price for each additional student: \$88.66
Minimum number of students: 3
Maximum number of students: 15
Locations where offered: On-site at client's location in the 48 continental US states or DC.
Class schedules: Per client's needs.

JAV-100 Beginning Java Application Development (5 days)

<http://www.accelebrate.com/training/java>

Accelebrate's Beginning Java Application Development training course teaches aspiring Java programmers the skills they need to successfully write their first applications in Java. This Java training course is 60% hands-on, 40% lecture, with the longest lecture segments lasting for 25 minutes.

Prerequisites: This Java training course can be tailored for audiences ranging from first-time programmers to experienced OO developers seeking to learn Java. It is strongly recommended that all course attendees have similar levels of experience.

Price for group up to 3 students: \$8,801.41
Price for each additional student: \$443.32
Minimum number of students: 3
Maximum number of students: 15
Locations where offered: On-site at client's location in the 48 continental US states or DC.
Class schedules: Per client's needs.

JAV-101 Intermediate Java Programming (5 days)

<http://www.accelebrate.com/training/java-intermediate>

Accelebrate's Intermediate Java Programming training course teaches Java developers advanced object-oriented concepts, collections, logging, file I/O, unit testing, and a wide variety of other valuable Java skills. We also offer an Advanced Java Programming course. This Java training course is 70% hands-on, 30% lecture, with the longest lecture segments lasting for 20 minutes.

Prerequisites: Students must be able to write, compile, test, and debug simple Java programs, using structured programming techniques, strong data types, and flow-control constructs such as conditionals and loops. Our Beginning Java Application Development class is recommended.

Price for group up to 3 students:	\$9,264.89
Price for each additional student:	\$443.32
Minimum number of students:	3
Maximum number of students:	15
Locations where offered:	On-site at client's location in the 48 continental US states or DC.
Class schedules:	Per client's needs.

JAV-102 Advanced Java Programming (2 days)

<http://www.accelebrate.com/training/java-advanced>

Accelebrate's Advanced Java Programming training course teaches Java developers a set of advanced Java development skills, including generics, threads, reflection, annotations, and sockets. This Java training course is 70% hands-on, 30% lecture, with the longest lecture segments lasting for 20 minutes.

Prerequisites: Students should have solid Java programming experience, especially object-oriented use of the language. Students must be completely comfortable with interfaces and abstract classes, generics and collections, recursive methods, enumerations, varargs, basic Java I/O, serialization (and the transient keyword), the bean pattern, and basic UML class diagrams. Our Beginning Java Application Development class provides a significant portion of this background knowledge.

Price for group up to 3 students:	\$5,093.60
Price for each additional student:	\$221.66
Minimum number of students:	3
Maximum number of students:	15
Locations where offered:	On-site at client's location in the 48 continental US states or DC.
Class schedules:	Per client's needs.

JAV-103 Beginning Java Application Development for C++ Programmers (5 days)

<http://www.accelebrate.com/training/java-cpp>

Accelebrate's Beginning Java Application Development for C++ Programmers training course teaches experienced C++ developers the Java skills they need for successfully developing Java applications. This Java training course is 70% hands-on, 30% lecture, with the longest lecture segments lasting for 20 minutes.

Prerequisites: This training presumes substantial prior experience with C++ or similar object-oriented language.

Price for group up to 3 students:	\$9,264.89
Price for each additional student:	\$443.32

Minimum number of students: 3
Maximum number of students: 15
Locations where offered: On-site at client's location in the 48 continental US states or DC.
Class schedules: Per client's needs.

JAV-120 Overview of Java EE Development (1 day)

<http://www.accelebrate.com/training/java-ee>

Accelebrate's Java EE Overview Training provides an in-depth, fast-paced tour of technologies and development methodologies for building applications with Java Enterprise Edition. This course is presented as a one-day, interactive seminar, with the instructor conducting live demonstrations of all subjects discussed and soliciting extensive audience feedback.

Prerequisites: Prior exposure to business software is presumed, but there are no formal prerequisites for this course.

Price for group up to 3 students: \$3,471.44
Price for each additional student: \$110.83
Minimum number of students: 3
Maximum number of students: 15
Locations where offered: On-site at client's location in the 48 continental US states or DC.
Class schedules: Per client's needs.

JAV-122 Introduction to Java EE Design Patterns (3 days)

<http://www.accelebrate.com/training/java-ee-design-patterns>

Successful development of scalable systems in Java EE requires knowledge of advanced object-oriented concepts and design patterns. In this three-day seminar, attendees learn the object-oriented concepts and core Java EE design patterns necessary for building scalable, extensible systems. This course is delivered as a highly interactive three-day seminar, with extensive live examples.

Prerequisites: All attendees should have at least one year of experience writing Java code.

Price for group up to 3 students: \$6,947.51
Price for each additional student: \$443.32
Minimum number of students: 3
Maximum number of students: 15
Locations where offered: On-site at client's location in the 48 continental US states or DC.
Class schedules: Per client's needs.

JAV-142 Using Java 8's New Features (2 days)

<https://www.accelebrate.com/training/java-8-new-features>

Accelebrate's Using Java 8's New Features training class introduces students to Java 8's capabilities, many of which are centered on lambda expressions and functional-style

programming. Attendees learn to take advantage of Java 8's new powerful programming techniques and complex features. This class is 50% hands-on, 50% lecture, with the longest lecture segments lasting for 20 minutes.

Prerequisites: All students should have solid Java SE 5, Java 6, or 7 programming experience.

Price for group up to 3 students:	\$5,093.60
Price for each additional student:	\$221.66
Minimum number of students:	3
Maximum number of students:	15
Locations where offered:	On-site at client's location in the 48 continental US states or DC.
Class schedules:	Per client's needs.

JAV-160 Introduction to the Java Persistence API (3 days)

<http://www.accelebrate.com/training/jpa>

Accelebrate's JPA Training: Introduction to the Java Persistence API class teaches attendees how to implement JPA for data persistence. JPA is a standard feature of Java EE 5 and later, but can also be used with Java SE applications. This class is 70% hands-on, 30% lecture, with the longest lecture segments lasting for 20 minutes.

Prerequisites: All attendees must have substantial prior Java development and relational database experience.

Price for group up to 3 students:	\$6,947.51
Price for each additional student:	\$265.99
Minimum number of students:	3
Maximum number of students:	15
Locations where offered:	On-site at client's location in the 48 continental US states or DC.
Class schedules:	Per client's needs.

JAV-162 Introduction to the Java Persistence API 2 (3 days)

<http://www.accelebrate.com/training/java-persistence-api-2>

Accelebrate's JPA 2 Training: Introduction to the Java Persistence API 2 class teaches attendees how to implement JPA for data persistence. JPA 2 is a standard feature of Java EE 6 and later, but can also be used with Java SE applications. This class is 70% hands-on, 30% lecture, with the longest lecture segments lasting for 20 minutes.

Prerequisites: All attendees must have substantial prior Java development and relational database experience.

Price for group up to 3 students:	\$6,947.51
Price for each additional student:	\$265.99

Minimum number of students: 3
Maximum number of students: 15
Locations where offered: On-site at client's location in the 48 continental US states or DC.
Class schedules: Per client's needs.

JAV-190 RESTful Web Services with JAX-RS (3 days)

<http://www.accelebrate.com/training/rest-jax-rs>

Accelebrate's JAX-RS Training: Restful Web Services with JAX-RS class teaches attendees how to design and develop web services using the RESTful architecture and Java EE 6. This JAX-RS class is 70% hands-on, 30% lecture, with the longest lecture segments lasting for 20 minutes.

Prerequisites: All attendees must be experienced Java developers with a solid, hands-on grasp of object-oriented principles. Prior Java EE development experience is recommended but not required.

Price for group up to 3 students: \$6,947.51
Price for each additional student: \$265.99
Minimum number of students: 3
Maximum number of students: 15
Locations where offered: On-site at client's location in the 48 continental US states or DC.
Class schedules: Per client's needs.

JAV-200 Introduction to Object-Oriented Analysis and Design with UML using Java (4 days)

<http://www.accelebrate.com/training/ood-uml-java>

Accelebrate's Object-Oriented Analysis and Design with UML using Java Training course teaches students how to perform the analysis and design processes for object-oriented applications with a use case/responsibility driven design approach. Attendees will learn how to model the analysis and design phases using UML 2.0 notation. This course is independent of software modeling tools. This Object-Oriented Analysis and Design with UML using Java Training class is 70% hands-on, 30% lecture, with the longest lecture segments lasting for 20 minutes.

Prerequisites: Some programming experience is required.

Price for group up to 3 students: \$8,801.41
Price for each additional student: \$443.32
Minimum number of students: 3
Maximum number of students: 15
Locations where offered: On-site at client's location in the 48 continental US states or DC.
Class schedules: Per client's needs.

JAV-202 Introduction to OOAD using UML (5 days)

<http://www.accelebrate.com/training/ood-uml>

A good understanding of object-oriented analysis and design is important in designing effective systems using modern software engineering languages and frameworks such as C++, .NET and Java. This five-day course teaches you how to use object-oriented techniques to analyze real-world requirements and to design solutions that are ready to code. The course employs Unified Modeling Language, using UML 2.0 notation. This class is 70% hands-on, 30% lecture, with the longest lecture segments lasting for 20 minutes.

Prerequisites: All attendees should have prior programming experience. No prior object-oriented development experience is presumed.

Price for group up to 3 students:	\$8,801.41
Price for each additional student:	\$443.32
Minimum number of students:	3
Maximum number of students:	15
Locations where offered:	On-site at client's location in the 48 continental US states or DC.
Class schedules:	Per client's needs.

JAV-300 Developing Use Cases (2 days)

<http://www.accelebrate.com/training/developing-use-cases>

This use cases training course is a hands-on introduction to the basic concepts of identifying and writing use cases for system analysts, business analysts and subject matter experts. Students will learn how use cases are identified during requirements gathering, and how actors are used to initiate use cases. Prerequisites and guarantees will be identified, and guidelines established for their use. Students will learn how to identify and document alternate paths. Use Case Diagrams, their syntax and use within UML will be discussed, along with practical advice concerning their use. Finally, the differences between high-level (essential) and detailed (system) use cases will be covered. Concepts will be reinforced with hands-on lab exercises, facilitated by the instructor, to simulate the development of use cases in a production environment. This class is 70% hands-on, 30% lecture, with the longest lecture segments lasting for 20 minutes.

Prerequisites: None.

Price for group up to 3 students:	\$5,093.60
Price for each additional student:	\$221.66
Minimum number of students:	3
Maximum number of students:	15
Locations where offered:	On-site at client's location in the 48 continental US states or DC.
Class schedules:	Per client's needs.

JAV-302 Gathering User Requirements (3 days)

<http://www.accelebrate.com/training/gathering-user-requirements>

This user requirements training course teaches Business Analysts and System Analysts how to gather and document user requirements to develop quality software. Participants will learn how

different models are used to capture "views" of the proposed system at different levels of detail. A comprehensive, hands-on lab gives each student an opportunity to learn how to work as a member of a team to collect detailed and accurate information for new software systems or modifications to existing systems. This course is not limited to analysts that are working in an object-oriented environment. This class is 70% hands-on, 30% lecture, with the longest lecture segments lasting for 20 minutes.

Prerequisites: None.

Price for group up to 3 students:	\$6,947.51
Price for each additional student:	\$265.99
Minimum number of students:	3
Maximum number of students:	15
Locations where offered:	On-site at client's location in the 48 continental US states or DC.
Class schedules:	Per client's needs.

JAV-304 Java Best Practices (3 days)

<http://www.accelebrate.com/training/java-best-practices>

Accelebrate's Java Best Practices training teaches attendees the best approaches to designing and writing Java SE code. This class is 70% hands-on, 30% lecture, with the longest lecture segments lasting for 20 minutes.

Prerequisites: Beginning Java Application Development or equivalent experience.

Price for group up to 3 students:	\$6,947.51
Price for each additional student:	\$265.99
Minimum number of students:	3
Maximum number of students:	15
Locations where offered:	On-site at client's location in the 48 continental US states or DC.
Class schedules:	Per client's needs.

JAV-306 Use Case-Driven Analysis and Design with UML 2 and Sparx EA (3 days)

<http://www.accelebrate.com/training/use-case-driven-analysis-design-uml-2-sparx-ea>

Accelebrate's Use Case-Driven Analysis and Design with UML 2 training introduces students to Sparx EA, UML 2, and a Use Case-Driven approach to Software Analysis and Design. Throughout this 3-day course, students will move from high-level requirements to detailed analysis and design. This class is 70% hands-on, 30% lecture, with the longest lecture segments lasting for 20 minutes.

Prerequisites: All students should have a background in developing software utilizing object-oriented technologies such as .NET or Java.

Price for group up to 3 students:	\$7,132.90
	\$265.99

Price for each additional student:

Minimum number of students: 3
Maximum number of students: 15
Locations where offered: On-site at client's location in the 48 continental US states or DC.
Class schedules: Per client's needs.

JAV-402 Java Development for Secure Systems (3 days)

<http://www.accelebrate.com/training/java-secure-systems>

Accelebrate's Java Development for Secure Systems training teaches attendees the broad range of Java security challenges and how to successfully remedy them. This course starts with basic concepts of code security - what the Java SE runtime does to protect the system from Java code, and Java code from other Java code - and good secure-coding practices. It then takes students through exercises in basic cryptography skills using the appropriate Java API. Finally, it moves on to enterprise software and the issues related to component-based architectures such as Web applications, EJBs, and Java messaging components. This Java training course is 70% hands-on, 30% lecture, with the longest lecture segments lasting for 20 minutes.

Prerequisites: Solid Java programming experience is assumed - both structured and object-oriented techniques. Accelebrate's Core Java is excellent preparation for this course. Some knowledge of Java EE architecture and development is also required, though extensive practical experience with Java EE development is not strictly necessary.

Price for group up to 3

students: \$7,781.76

Price for each additional student: \$265.99

student:

Minimum number of students: 3
Maximum number of students: 15
Locations where offered: On-site at client's location in the 48 continental US states or DC.
Class schedules: Per client's needs.

JAV-404 Secure Java EE Development (5 days)

<https://www.accelebrate.com/training/secure-java-ee>

Accelebrate's Java EE 7 Security Training: Secure Java EE Development course shows experienced developers of Java EE applications and services how to write new code and upgrade existing code for maximum safety. This Secure Java EE Development class is 70% hands-on, 30% lecture, with the longest lecture segments lasting for 20 minutes.

Prerequisites: Java programming experience is essential - Accelebrate's Beginning Java Application Development is excellent preparation should students need to get up to speed on Java. Servlets programming experience is required - Students should have taken Accelebrate's Beginning JSP and Servlets or have equivalent experience. JSP page-authoring experience is recommended but not required. Again, consider Beginning JSP and Servlets. Understanding of RESTful web services as implemented in JAX-RS will be highly beneficial, but is not strictly required. Consider Accelebrate's RESTful Web Services with JAX-RS course for your team.

Price for group up to 3 students:	\$11,118.79
Price for each additional student:	\$443.32
Minimum number of students:	3
Maximum number of students:	15
Locations where offered:	On-site at client's location in the 48 continental US states or DC.
Class schedules:	Per client's needs.

JAV-500 XML Programming Using Java (4 days)

<http://www.accelebrate.com/training/java-xml>

Accelebrate's XML Programming Using Java class builds skills in Java's XML processing APIs - chiefly parsing using SAX and DOM and transformations using XSLT, all using the Java API for XML Processing, or JAXP. It also covers the newer Java API for XML Binding, or JAXB, which standardizes serialization according to XML Schema. The course is intended for students with a working knowledge of XML - and possibly DTDs or XML Schema - who want to build XML applications or components using the Java language. Everything in the course adheres to W3C and Java standards for completely portable code. This class is 70% hands-on, 30% lecture, with the longest lecture segments lasting for 20 minutes.

Prerequisites: Experience in Java Programming, including object-oriented Java and the Java streams model, is essential. Basic understanding of XML is required. XML Schema is used peripherally in the course, and knowledge of this technology will be helpful, but is not required.

Price for group up to 3 students:	\$8,616.02
Price for each additional student:	\$354.66
Minimum number of students:	3
Maximum number of students:	15
Locations where offered:	On-site at client's location in the 48 continental US states or DC.
Class schedules:	Per client's needs.

JWS-104 Developing Java Web Services with WebLogic (5 days)

<http://www.accelebrate.com/training/java-web-services-weblogic>

This class prepares Java programmers to develop Web services and clients using the BEA WebLogic Platform, in accordance with prevailing standards such as SOAP, WSDL, and JAX-RPC. Students get an overview of the interoperable and Java-specific Web services architectures, and then learn the standard (Java EE 1.4) APIs for SOAP messaging and WSDL-driven, component-based service development, working extensively with the BEA WebLogic Server to implement, deploy and test Web services. Both document-style and RPC-style messages and services are covered in depth. This class is 70% hands-on, 30% lecture, with the longest lecture segments lasting for 20 minutes.

Prerequisites: Experience in Java Programming, including object-oriented Java and the Java streams model is essential. Some understanding of XML and XML Schema will be helpful, but is not strictly necessary.

Price for group up to 3 students: \$9,264.89
Price for each additional student: \$443.32
Minimum number of students: 3
Maximum number of students: 15
Locations where offered: On-site at client's location in the 48 continental US states or DC.
Class schedules: Per client's needs.

JWS-106 Securing Java Web Services (5 days)

<http://www.accelebrate.com/training/java-securing-web-services>

This course teaches attendees the Java EE and security techniques they need to successfully secure Java web services. This class is 70% hands-on, 30% lecture, with the longest lecture segments lasting for 20 minutes.

Prerequisites: Experience developing Java Web services is assumed (either via SAAJ or JAX-RPC). Students are expected to be able to read and write XML fluently, and have some familiarity with XML Schema.

Price for group up to 3 students: \$10,191.84
Price for each additional student: \$443.32
Minimum number of students: 3
Maximum number of students: 15
Locations where offered: On-site at client's location in the 48 continental US states or DC.
Class schedules: Per client's needs.

JWS-110 SOA and Web Services with JAX-WS on JBoss (3 days)

<http://www.accelebrate.com/training/jax-ws-jboss>

Web services are designed to allow Web-based access to distributed software and business services. They bring a standard, open service architecture to component development that allows them to be accessed over the Web with standard protocols such as HTTP and standard XML formats for messages and service descriptions. This course will give you a thorough understanding of the current Web services architecture, and the technologies that support Web services including the new Java APIs such as JAX-WS and JSR-181. This class is 70% hands-on, 30% lecture, with the longest lecture segments lasting for 20 minutes.

Prerequisites: All attendees must be experienced Java developers with a solid, hands-on grasp of object-oriented principles. Prior Java EE development experience is recommended but not required, as is experience with JBoss.

Price for group up to 3 students: \$6,854.81
Price for each additional student: \$265.99

Minimum number of students: 3
Maximum number of students: 15
Locations where offered: On-site at client's location in the 48 continental US states or DC.
Class schedules: Per client's needs.

JWS-111 SOA and Web Services with JAX-WS on WebSphere (3 days)

<http://www.accelebrate.com/training/jax-ws-websphere>

Web services are designed to allow Web-based access to distributed software and business services. They bring a standard, open service architecture to component development that allows them to be accessed over the Web with standard protocols such as HTTP and standard XML formats for messages and service descriptions. This course will give you a thorough understanding of the current Web services architecture, and the technologies that support Web services including the new Java APIs such as JAX-WS and JSR-181. This WebSphere Web Services training class is 70% hands-on, 30% lecture, with the longest lecture segments lasting for 20 minutes.

Prerequisites: All attendees must be experienced Java developers with a solid, hands-on grasp of object-oriented principles. Prior Java EE development experience is recommended but not required, as is experience with WebSphere.

Price for group up to 3 students: \$6,854.81
Price for each additional student: \$265.99

Minimum number of students: 3
Maximum number of students: 15
Locations where offered: On-site at client's location in the 48 continental US states or DC.
Class schedules: Per client's needs.

JWS-112 SOA and Web Services with JAX-WS on WebLogic (3 days)

<http://www.accelebrate.com/training/java-ws-weblogic>

Web services are designed to allow Web-based access to distributed software and business services. They bring a standard, open service architecture to component development that allows them to be accessed over the Web with standard protocols such as HTTP and standard XML formats for messages and service descriptions. This course will give you a thorough understanding of the current Web services architecture, and the technologies that support Web services including the new Java APIs such as JAX-WS and JSR-181. This WebLogic Web Services training class is 70% hands-on, 30% lecture, with the longest lecture segments lasting for 20 minutes.

Prerequisites: All attendees must be experienced Java developers with a solid, hands-on grasp of object-oriented principles. Prior Java EE development experience is recommended but not required, as is experience with WebLogic.

Price for group up to 3 students: \$6,854.81
Price for each additional student: \$265.99

student:

Minimum number of students: 3
Maximum number of students: 15
Locations where offered: On-site at client's location in the 48 continental US states or DC.
Class schedules: Per client's needs.

JWS-202 Developing Java Web Services for Java EE 6 (5 days)

<https://www.accelebrate.com/training/java-ee-6-web-services>

Accelebrate's Developing Java Web Services for Java EE 6 training prepares Java programmers to develop web services on the Java EE 6 platform. Students learn how to create and consume SOAP-based web services, and gain some exposure to RESTful services. This class is 60% hands-on, 40% lecture, with the longest lecture segments lasting for 25 minutes.

Prerequisites: All attendees must have substantial prior Java development and XML experience, including an understanding of XML Schema.

Price for group up to 3 students: \$10,191.84
Price for each additional student: \$443.32
Minimum number of students: 3
Maximum number of students: 15
Locations where offered: On-site at client's location in the 48 continental US states or DC.
Class schedules: Per client's needs.

JSF-104 Introduction to JavaServer Faces 2.1 (4 days)

<http://www.accelebrate.com/training/jsf-2-1>

In Accelebrate's Introduction to JavaServer Faces 2.1 training class, attendees learn how to rapidly build Java web applications using JSF 2.1. This class is 60% hands-on, 40% lecture, with the longest lecture segments lasting for 25 minutes.

Prerequisites: All attendees should have a solid foundation in Java programming and OO principles.

Price for group up to 3 students: \$8,801.41
Price for each additional student: \$354.66
Minimum number of students: 3
Maximum number of students: 15
Locations where offered: On-site at client's location in the 48 continental US states or DC.
Class schedules: Per client's needs.

JSF-106 Building Web and Ajax Applications with JavaServer Faces 2.1 (5 days)

<http://www.accelebrate.com/training/jsf-2-1-ajax>

In Accelebrate's Building Web and Ajax Applications with JavaSever Faces 2.1 training class, attendees learn how to rapidly build Web and Ajax applications using the core of JSF 2.1 and

special implementations such as RichFaces and ICEfaces. This class is 60% hands-on, 40% lecture, with the longest lecture segments lasting for 25 minutes.

Prerequisites: All attendees should have a solid foundation in Java programming and OO principles.

Price for group up to 3 students: \$10,191.84
Price for each additional student: \$443.32
Minimum number of students: 3
Maximum number of students: 15
Locations where offered: On-site at client's location in the 48 continental US states or DC.
Class schedules: Per client's needs.

JSF-120 Introduction to JSF Development with ICEfaces (4 days)

http://www.accelebrate.com/jsf_training/icefaces_jsf.htm

Accelebrate's ICEfaces Training: Introduction to JSF Development with ICEfaces teaches attendees how to use JSF and ICEfaces to build data-driven Ajax applications. This ICEfaces training class is 60% hands-on, 40% lecture, with the longest lecture segments lasting for 20 minutes.

Prerequisites: This course presumes substantial prior development experience with Java SE and JSP.

Price for group up to 3 students: \$8,337.93
Price for each additional student: \$354.66
Minimum number of students: 3
Maximum number of students: 15
Locations where offered: On-site at client's location in the 48 continental US states or DC.
Class schedules: Per client's needs.

JSF-130 Introduction to JavaServer Faces with Facelets (4 days)

<http://www.accelebrate.com/training/jsf-facelets>

Accelebrate's Introduction to JavaServer Faces with Facelets training class, attendees learn how to rapidly build JSF applications using Facelets. This class is 60% hands-on, 40% lecture, with the longest lecture segments lasting for 20 minutes.

Prerequisites: All attendees should have a solid foundation in Java programming and OO principles.

Price for group up to 3 students: \$8,337.93
Price for each additional student: \$354.66
Minimum number of students: 3

Maximum number of students: 15
Locations where offered: On-site at client's location in the 48 continental US states or DC.
Class schedules: Per client's needs.

JSF-140 Introduction to JSF 2.1 with PrimeFaces (5 days)

<http://www.accelebrate.com/training/jsf-primefaces>

In Accelebrate's Building Web and Ajax Applications with JSF 2.1 and PrimeFaces training class, attendees learn how to rapidly build Web and Ajax applications using JSF 2.1 and PrimeFaces. This class is 60% hands-on, 40% lecture, with the longest lecture segments lasting for 25 minutes.

Prerequisites: All attendees should have a solid foundation in Java programming and OO principles.

Price for group up to 3 students: \$10,191.84
Price for each additional student: \$443.32

Minimum number of students: 3
Maximum number of students: 15
Locations where offered: On-site at client's location in the 48 continental US states or DC.
Class schedules: Per client's needs.

JBS-102 Introduction to JBoss 5 Administration (3 days)

<http://www.accelebrate.com/training/jboss-5-administration>

Accelebrate's JBoss Application Server 5 Administration training teaches attendees how to configure, tune, secure, and administer JBoss Application Server 5. This JBoss training class is 70% hands-on, 30% lecture, with the longest lecture segments lasting for 20 minutes. Students "learn by doing," with immediate opportunities to apply the material they learn to real-world problems.

Prerequisites: All attendees should be familiar with general principles of Web server administration and have some experience building Web applications.

Price for group up to 3 students: \$6,947.51
Price for each additional student: \$265.99

Minimum number of students: 3
Maximum number of students: 15
Locations where offered: On-site at client's location in the 48 continental US states or DC.
Class schedules: Per client's needs.

JBS-105 Introduction to JBoss 6 EAP Administration (4 days)

<http://www.accelebrate.com/training/jboss-6-eap-administraion>

Accelebrate's JBoss 6 EAP Administration Training: Introduction to JBoss 6 EAP training teaches attendees how to administer the JBoss 6 Enterprise Application Platform. This JBoss 6 EAP

administration training class is 60% hands-on, 40% lecture/discussion, with the longest lecture segments lasting for 25 minutes.

Prerequisites: All attendees should be familiar with general principles of Web and application server administration.

Price for group up to 3 students:	\$8,801.41
Price for each additional student:	\$354.66
Minimum number of students:	3
Maximum number of students:	15
Locations where offered:	On-site at client's location in the 48 continental US states or DC.
Class schedules:	Per client's needs.

JBS-106 Introduction to JBoss 7 Administration (4 days)

<http://www.accelebrate.com/training/jboss-7-administration>

Accelebrate's JBoss Application Server 7 Administration training teaches attendees everything they need to know to administer JBoss 7. Students learn the basics of installation, architecture, configuration, monitoring, and management using the new and expanded Web console. This JBoss training class is 70% hands-on, 30% lecture, with the longest lecture segments lasting for 20 minutes. Students "learn by doing," with immediate opportunities to apply the material they learn to real-world problems.

Prerequisites: All attendees should be familiar with general principles of Web server administration and have some experience building Web applications.

Price for group up to 3 students:	\$8,801.41
Price for each additional student:	\$354.66
Minimum number of students:	3
Maximum number of students:	15
Locations where offered:	On-site at client's location in the 48 continental US states or DC.
Class schedules:	Per client's needs.

JBS-107 Advanced JBoss AS 7 / EAP 6 Server Administration (4 days)

<https://www.accelebrate.com/training/advanced-jboss-7-eap-6-administration>

Accelebrate's Advanced JBoss 7 AS / EAP 6 Server Administration course teaches students advanced topics in administering the JBoss family of application servers. JBoss server administrators learn everything they need to know to successfully manage production environments. This JBoss training class is 60% hands-on, 40% lecture/discussion, with the longest lecture segments lasting for 25 minutes. Students "learn by doing," with immediate opportunities to apply the material they learn to real-world problems.

Prerequisites: All attendees must have prior experience with JBoss AS 7 or JBoss EAP 6, as provided in Introduction to JBoss 7 Administration or Introduction to JBoss EAP 6 Administration or by comparable experience.

Price for group up to 3 students:	\$9,264.89
Price for each additional student:	\$354.66
Minimum number of students:	3
Maximum number of students:	15
Locations where offered:	On-site at client's location in the 48 continental US states or DC.
Class schedules:	Per client's needs.

JBS-110 Administering the JBoss WildFly 8 Application Server (4 days)

<https://www.accelebrate.com/training/jboss-wildfly-8>

Accelebrate's WildFly course teaches students how to administer WildFly 8 (WF 8), the latest release of the JBoss Application Server. WildFly 8 includes a wide array of added features that make the server more responsive and easier to manage, including a completely new Web container (Undertow). This WildFly class is 50% hands-on, 50% lecture/discussion, with the longest lecture segments lasting for 25 minutes. Students "learn by doing," with immediate opportunities to apply the material they learn to real-world problems.

Prerequisites: All attendees should be familiar with general principles of Web and application server administration.

Price for group up to 3 students:	\$9,264.89
Price for each additional student:	\$354.66
Minimum number of students:	3
Maximum number of students:	15
Locations where offered:	On-site at client's location in the 48 continental US states or DC.
Class schedules:	Per client's needs.

JQRY-100 DOM Scripting and Ajax Using jQuery (4 days)

<http://www.accelebrate.com/training/jquery-ajax>

Accelebrate's DOM Scripting and Ajax Using jQuery training teaches attendees how to use the freely-available jQuery library to simplify nearly any client-side scripting task. Attendees will learn how to write jQuery selectors to round up sets of DOM elements, how to use jQuery's many wrapped set methods to manipulate DOM elements, how to use the jQuery event model to set up event listeners and callback functions, how to manage Ajax requests with jQuery and how to extend jQuery with utility functions and wrapped set method plugins. This course is current to jQuery 1.5.x. Accelebrate also offers Creating User Interfaces Using jQuery UI training. This jQuery training class is 75% hands-on, 25% lecture, with the longest lecture segments lasting for 10 minutes. Students "learn by doing," with immediate opportunities to apply the material they learn to real-world problems.

Prerequisites: Accelebrate's Mastering JavaScript course or equivalent experience. If attendees will not have thorough knowledge of JavaScript, please let us know and we will precede this course with a one-day JavaScript primer.

Price for group up to 3 students:	\$7,410.98
Price for each additional student:	\$354.66
Minimum number of students:	3
Maximum number of students:	15
Locations where offered:	On-site at client's location in the 48 continental US states or DC.
Class schedules:	Per client's needs.

JQRY-102 Creating User Interfaces Using jQuery UI (3 days)

<http://www.accelebrate.com/training/jquery-ui>

Accelebrate's Creating User Interfaces Using jQuery UI 1.8.x training teaches attendees to how to use the freely available jQuery UI library to develop compelling user interfaces for their Web sites and applications. Attendees will learn how to use jQuery UI's extended set of animation effects, how to create and configure instances of jQuery UI interaction helpers, how to implement jQuery UI interface components like Datepickers and Accordions, and how to develop plugins that extend jQuery UI's capabilities. This jQuery UI training class is 75% hands-on, 25% lecture, with the longest lecture segments lasting for 10 minutes. Students "learn by doing," with immediate opportunities to apply the material they learn to real-world problems.

Prerequisites: Accelebrate's DOM Scripting and Ajax with jQuery course or equivalent experience. If attendees will not have a working knowledge of jQuery, please let us know and we will precede this course with a one-day jQuery primer or our full 3-day jQuery course.

Price for group up to 3 students:	\$5,557.08
Price for each additional student:	\$265.99
Minimum number of students:	3
Maximum number of students:	15
Locations where offered:	On-site at client's location in the 48 continental US states or DC.
Class schedules:	Per client's needs.

JQRY-120 Developing with jQuery Mobile (2 days)

<http://www.accelebrate.com/training/jquery-mobile>

Accelebrate's Introduction to jQuery Mobile Development training course introduces participants to the fundamentals of creating mobile sites with the jQuery Mobile framework. Attendees will learn about the basic structure of a jQuery Mobile page, how to implement commonly used page components like headers, footers, toolbars, buttons, lists, dialogs, form controls and multi-column layouts. Additional topics include the jQuery Mobile navigation model, managing transitions between pages, theming and responding to touchscreen events like tap and swipe. This course is current to jQuery Mobile 1.0b. Accelebrate also offers DOM Scripting and Ajax with jQuery training and Creating User Interfaces Using jQuery UI training. This jQuery Mobile training class is 80% hands-on, 20% lecture, with the longest lecture segments lasting for 10 minutes. Students

"learn by doing" with immediate opportunities to apply the material they learn to real-world problems.

Prerequisites: Accelebrate's DOM Scripting and Ajax with jQuery course or equivalent experience. If attendees will not have a basic knowledge of jQuery, please let us know and we will precede this course with a one-day jQuery primer.

Price for group up to 3 students:	\$5,093.60
Price for each additional student:	\$221.66
Minimum number of students:	3
Maximum number of students:	15
Locations where offered:	On-site at client's location in the 48 continental US states or DC.
Class schedules:	Per client's needs.

JSP-100 Beginning JSP and Servlets (5 days)

<http://www.accelebrate.com/training/jsp-servlets>

This JSP and Servlets training course teaches beginning and early intermediate Java developers how to build database-driven Web applications using JavaServer Pages and Java Servlets. This class is 70% hands-on, 30% lecture, with the longest lecture segments lasting for 20 minutes.

Prerequisites: This Servlets/JSP training course can be tailored to any level of Java experience. In general, we recommend that all attendees be fluent in HTML and have a prior knowledge of object-oriented or object-based programming, as well as some knowledge of SQL and relational databases.

Price for group up to 3 students:	\$9,264.89
Price for each additional student:	\$443.32
Minimum number of students:	3
Maximum number of students:	15
Locations where offered:	On-site at client's location in the 48 continental US states or DC.
Class schedules:	Per client's needs.

JSTL-100 Mastering the JSTL (Java Standard Tag Library) (3 days)

<http://www.accelebrate.com/jsp-servlets/jstl.htm>

This JSTL training course teaches attendees how to use the powerful JSP tag libraries provided at no charge by the Jakarta Taglibs project (see <http://jakarta.apache.org/taglibs/>). By encapsulating powerful functionality within easily understood, compact syntax, the JSTL makes it possible for Java developers to create JSP applications much more quickly. This class is 70% hands-on, 30% lecture, with the longest lecture segments lasting for 20 minutes.

Prerequisites: All JSTL training attendees must have attended Accelebrate's Beginning Java Web Application Development with JSP & Servlets training class, or have equivalent real-world experience.

Price for group up to 3 students:	\$7,040.20
Price for each additional student:	\$265.99
Minimum number of students:	3
Maximum number of students:	15
Locations where offered:	On-site at client's location in the 48 continental US states or DC.
Class schedules:	Per client's needs.

LNQ-102 Introduction to LINQ using Visual Basic 2010 (2 days)

<http://www.accelebrate.com/training/linq-net-4-0-vb-2010>

Accelebrate's LINQ Training: Introduction to Language Integration Query (LINQ) using Visual Basic 2010 training class teaches attendees to easily create complex data-independent queries. In addition, students learn about the language features for Visual VB.NET in Visual Studio 2010 in order to make LINQ possible. This LINQ training class is 70% hands-on, 30% lecture, with the longest lecture segments lasting for 20 minutes.

Prerequisites: All attendees should have already been introduced to Visual Studio 2008 or 2010 and Visual Basic, and have a basic understanding of the .NET Framework. Some prior experience with Web development will also be helpful.

Price for group up to 3 students:	\$5,093.60
Price for each additional student:	\$221.66
Minimum number of students:	3
Maximum number of students:	15
Locations where offered:	On-site at client's location in the 48 continental US states or DC.
Class schedules:	Per client's needs.

LNQ-104 Introduction to LINQ using Visual Basic 2012/2013 (2 days)

<http://www.accelebrate.com/training/linq-net-4-5-vb-2012>

Accelebrate's LINQ Training: Introduction to Language Integration Query using Visual C# 2012 training class teaches attendees how to easily create complex data-independent queries. In addition, students learn about the newer language features for Visual C# in Visual Studio 2012 that make LINQ possible. This LINQ training class is 70% hands-on, 30% lecture, with the longest lecture segments lasting for 20 minutes.

Prerequisites: All attendees should have prior experience developing applications in .NET 2.0 or later using C# or Visual Basic and some familiarity with the use of interfaces and generics.

Price for group up to 3 students:	\$5,093.60
Price for each additional student:	\$221.66
Minimum number of students:	3
Maximum number of students:	15

Locations where offered: On-site at client's location in the 48 continental US states or DC.
Class schedules: Per client's needs.

LNQ-200 Introduction to LINQ for C# (2 days)

<http://www.accelebrate.com/training/linq-net-c-sharp>

Accelebrate's LINQ Training: Introduction to Language Integrated Query training class teaches attendees all the skills necessary for using LINQ effectively in their .NET applications. After the class, students will be able to use LINQ to work with in-memory objects, XML, and relational data. New .NET 4.0 features such as the Entity Framework's POCO support and Parallel LINQ (PLINQ) are covered for clients running Visual Studio 2010 or later. NOTE: Accelebrate also offers Introduction to LINQ training for VB.NET. This LINQ training class is 70% hands-on, 30% lecture, with the longest lecture segments lasting for 20 minutes.

Prerequisites: All attendees should have prior experience developing applications in .NET 2.0 or later using C# or Visual Basic and some familiarity with the use of interfaces and generics.

Price for group up to 3

students: \$5,093.60

Price for each additional \$221.66

student:

Minimum number of students: 3

Maximum number of students: 15

Locations where offered: On-site at client's location in the 48 continental US states or DC.

Class schedules: Per client's needs.

LNQ-202 Introduction to LINQ using C# 2010 (2 days)

<http://www.accelebrate.com/training/linq-net-4-0-c-sharp-2010>

Accelebrate's LINQ Training: Introduction to Language Integration Query (LINQ) using C# 2010 training class teaches attendees to easily create complex data-independent queries. In addition, students learn about the language features for Visual C# in Visual Studio 2010 in order to make LINQ possible. This LINQ training class is 70% hands-on, 30% lecture, with the longest lecture segments lasting for 20 minutes.

Prerequisites: All attendees should have prior experience developing applications in .NET 2.0 or later using C# or Visual Basic and some familiarity with the use of interfaces and generics.

Price for group up to 3

students: \$5,093.60

Price for each additional \$221.66

student:

Minimum number of students: 3

Maximum number of students: 15

Locations where offered: On-site at client's location in the 48 continental US states or DC.

Class schedules: Per client's needs.

LNQ-204 Introduction to LINQ using Visual C# 2012/2013 (2 days)

<http://www.accelebrate.com/training/linq-net-4-5-c-sharp-2012>

Accelebrate's LINQ Training: Introduction to Language Integration Query using Visual C# 2012/2013 training class teaches attendees how to easily create complex data-independent queries. In addition, students learn about the newer language features for Visual C# in Visual Studio 2012/2013 that make LINQ possible. This LINQ training class is 70% hands-on, 30% lecture, with the longest lecture segments lasting for 20 minutes.

Prerequisites: All attendees should have prior experience developing applications in .NET 2.0 or later using C# or Visual Basic and some familiarity with the use of interfaces and generics.

Price for group up to 3 students: \$5,093.60
Price for each additional student: \$221.66
Minimum number of students: 3
Maximum number of students: 15
Locations where offered: On-site at client's location in the 48 continental US states or DC.
Class schedules: Per client's needs.

LNX-100 Introduction to Linux for End Users (5 days)

<https://www.accelebrate.com/training/linux-end-user>

Accelebrate's Introduction to Linux for End Users course teaches attendees the fundamental tools and concepts of Linux. This Linux course is 70% hands-on, 30% lecture/discussion, with the longest lecture/discussion segments lasting 20 minutes.

Prerequisites: No prior Linux familiarity is presumed.

Price for group up to 3 students: \$8,801.41
Price for each additional student: \$443.32
Minimum number of students: 3
Maximum number of students: 15
Locations where offered: On-site at client's location in the 48 continental US states or DC.
Class schedules: Per client's needs.

LNX-102 Linux for Administrators (5 days)

<https://www.accelebrate.com/training/linux-administration>

Accelebrate's Introduction to Linux Administration course teaches students how to install, configure, maintain, and secure Linux systems. This Linux course is 70% hands-on, 30% lecture/discussion, with the longest lecture/discussion segments lasting 20 minutes.

Prerequisites: Students should be comfortable working in a Linux or UNIX environment. An understanding of network concepts and the TCP/IP protocol suite is helpful.

Price for group up to 3 students: \$9,264.89
Price for each additional student: \$443.32

Minimum number of students: 3
Maximum number of students: 15
Locations where offered: On-site at client's location in the 48 continental US states or DC.
Class schedules: Per client's needs.

LNx-104 Introduction to Linux Network Services Training (5 days)

<https://www.accelebrate.com/training/linux-network-services>

Accelebrate's Linux Network Services course teaches students how to securely implement, troubleshoot, and manage network services. This Linux course is 70% hands-on, 30% lecture/discussion, with the longest lecture/discussion segments lasting 20 minutes.

Prerequisites: All students should already be comfortable with basic Linux or UNIX administration and have a solid understanding of network concepts and the TCP/IP protocol suite.

Price for group up to 3 students: \$9,264.89
Price for each additional student: \$443.32

Minimum number of students: 3
Maximum number of students: 15
Locations where offered: On-site at client's location in the 48 continental US states or DC.
Class schedules: Per client's needs.

LNx-108 Linux Security Administration (5 days)

<https://www.accelebrate.com/training/linux-security>

Accelebrate's Linux Security Administration course teaches students to secure machines running the Linux operating system. Attendees learn a broad range of general security techniques such as packet filtering, password policies, and file integrity checking, as well as advanced security technologies such as Kerberos and SELinux. This Linux course is 60% hands-on, 40% lecture/discussion, with the longest lecture/discussion segments lasting 25 minutes.

Prerequisites: Students should be experienced systems administrators with current Linux or Unix systems.

Price for group up to 3 students: \$9,264.89
Price for each additional student: \$443.32

Minimum number of students: 3
Maximum number of students: 15
Locations where offered: On-site at client's location in the 48 continental US states or DC.
Class schedules: Per client's needs.

LNx-110 Introduction to Bash Programming (3 days)

<https://www.accelebrate.com/training/bash-programming>

Accelebrate's Introduction to Bash Shell Scripting course teaches students to read, write, and debug Bash (Bourne Again Shell) scripts. This Bash shell scripting course is 70% hands-on, 30%

lecture/discussion, with the longest lecture/discussion segments lasting 20 minutes.
Prerequisites: All students should have basic knowledge of Unix or Linux, or have taken Accelebrate's Introduction to Linux for End Users class. Prior programming or scripting experience is helpful but not required.

Price for group up to 3 students: \$6,484.03
Price for each additional student: \$265.99
Minimum number of students: 3
Maximum number of students: 15
Locations where offered: On-site at client's location in the 48 continental US states or DC.
Class schedules: Per client's needs.

MSBI-110 Introduction to PivotTable and PowerPivot for Excel 2010 (2 days)

<http://www.accelebrate.com/training/powerpivot-excel-2010>

Accelebrate's PowerPivot Training: Introduction to PivotTable and PowerPivot for Excel 2010 training teaches attendees how to create charts and use PivotTables and PowerPivot to prepare data summaries and cross-tabulations that span multiple sources. This Excel 2010 training class is 60% hands-on, 40% lecture, with the longest lecture segments lasting for 25 minutes.
Prerequisites: All attendees must have prior knowledge of Excel 2010.

Price for group up to 3 students: \$5,093.60
Price for each additional student: \$221.66
Minimum number of students: 3
Maximum number of students: 15
Locations where offered: On-site at client's location in the 48 continental US states or DC.
Class schedules: Per client's needs.

MSBI-120 Introduction to PivotTable and PowerPivot for Excel 2013 (2 days)

<http://www.accelebrate.com/training/powerpivot-excel-2013>

Accelebrate's PowerPivot Training: Introduction to PivotTable and PowerPivot for Excel 2013 course teaches attendees how to use PivotTables and PowerPivot to create data summaries and cross-tabulations that span multiple sources. This Excel 2013 training class is 60% hands-on, 40% lecture, with the longest lecture segments lasting for 25 minutes.
Prerequisites: All attendees must have prior knowledge of Excel 2013.

Price for group up to 3 students: \$5,093.60
Price for each additional student: \$221.66
Minimum number of students: 3
Maximum number of students: 15

Locations where offered: On-site at client's location in the 48 continental US states or DC.
Class schedules: Per client's needs.

MBL-102 Introduction to Android Development (5 days)
<http://www.accelebrate.com/training/android-development>

Accelebrate's Introduction to Android Development training class teaches attendees how to develop applications for the Android OS from Google. This Android training class is 70% hands-on, 30% lecture, with the longest lecture segments lasting for 20 minutes.

Prerequisites: No prior knowledge of the Android OS is required. However, all attendees should know the fundamentals of Java SE development, as taught in Accelebrate's Beginning Java Application Development course. This course could be tailored for an audience that has extensive object-oriented development experience in a similar language (C#, C++, etc.).

Price for group up to 3 students: \$9,728.36

Price for each additional student: \$443.32

Minimum number of students: 3
Maximum number of students: 15

Locations where offered: On-site at client's location in the 48 continental US states or DC.
Class schedules: Per client's needs.

MBL-200 Mobile Development with HTML5, CSS3, and JavaScript (5 days)
<http://www.accelebrate.com/training/mobile-html5-css3-javascript>

Accelebrate's Mobile Web Design with HTML5/CSS3 and JavaScript training class teaches students how to produce dynamic, cross-browser compatible mobile sites using HTML5, CSS3, and JavaScript. This training class is 60% hands-on, 40% lecture, with the longest lecture segments lasting for 25 minutes. Students "learn by doing" with immediate opportunities to apply the material they learn to real-world problems.

Prerequisites: All attendees would ideally have some experience with HTML prior to the training. Prior programming/scripting experience is helpful but not required.

Price for group up to 3 students: \$8,337.93

Price for each additional student: \$443.32

Minimum number of students: 3
Maximum number of students: 15

Locations where offered: On-site at client's location in the 48 continental US states or DC.
Class schedules: Per client's needs.

MBL-202 Mobile JavaScript with JQuery Mobile and PhoneGap (3 days)
<https://www.accelebrate.com/training/mobile-phonegap-javascript-jquery>

Accelebrate's Mobile JavaScript with JQuery Mobile and PhoneGap training teaches experienced JavaScript developers the skills they need to build mobile applications using JavaScript. This

course starts with advanced JavaScript topics and training on the jQuery mobile library. The course then explains how to package a JavaScript app into a native mobile application, which can be deployed on devices and distributed through the Google Play Store, Apple App Store, Windows Phone Store, Amazon App Store, and other major channels. The class covers APIs for interacting with phone hardware, such as the camera, compass, and GPS, as well as patterns for creating quality user experiences with mobile HTML/JavaScript user interfaces. Applications built with PhoneGap can target Android, iOS, Blackberry, Windows Phone, and other devices, often with the same codebase. This PhoneGap training class is 65% hands-on, 35% lecture, with the longest lecture segments lasting for 20 minutes.

Prerequisites: All attendees should have a solid knowledge of HTML, simple CSS, and JavaScript. Attendees should be comfortable creating JavaScript objects and functions, DOM programming and working with browser events.

Price for group up to 3 students:	\$6,947.51
Price for each additional student:	\$265.99
Minimum number of students:	3
Maximum number of students:	15
Locations where offered:	On-site at client's location in the 48 continental US states or DC.
Class schedules:	Per client's needs.

MBL-204 Introduction to RWD (3 days)

<https://www.accelebrate.com/training/responsive-web-design>

Accelebrate's Introduction to Responsive Web Design (RWD) course teaches designers and developers the necessary HTML, CSS, and JavaScript skills for building web applications and sites that adapt to a wide array of devices, including desktops, laptops, tablets, and phones. After mastering the fundamental concepts of RWD, students explore the latest techniques to achieve responsive layout, images, typography, and tables. This RWD class is 75% hands-on, 25% lecture, with the longest lecture segments lasting for 15 minutes. Students "learn by doing," with immediate opportunities to apply the material they learn to real-world problems.

Prerequisites: Prior to taking this RWD course, attendees should have a working knowledge of HTML (any version), CSS (any version) and JavaScript, or have taken Accelebrate's Introduction to HTML5, Introduction to CSS, and Introduction to JavaScript classes. This RWD course assumes no prior knowledge of mobile development related topics.

Price for group up to 3 students:	\$6,947.51
Price for each additional student:	\$265.99
Minimum number of students:	3
Maximum number of students:	15
Locations where offered:	On-site at client's location in the 48 continental US states or DC.
Class schedules:	Per client's needs.

MDB-100 Introduction to MongoDB (3 days)

<https://www.accelebrate.com/training/mongodb>

Accelebrate's Introduction to MongoDB course teaches participants how to use the MongoDB open-source NoSQL document database. Attendees learn Mongo's most compelling use cases and master the fundamentals of Mongo's features. This MongoDB class is 60% hands-on, 40% lecture/discussion, with the longest lecture/discussion segments lasting 25 minutes.

Prerequisites: All students should be familiar with basic programming in almost any scripting or object-oriented language (command-line scripting, database programming, or application programming), and have some experience with any SQL or NoSQL database.

Price for group up to 3 students: \$7,410.98
Price for each additional student: \$265.99
Minimum number of students: 3
Maximum number of students: 15
Locations where offered: On-site at client's location in the 48 continental US states or DC.
Class schedules: Per client's needs.

ORC-200 Introduction to Oracle 11g SQL Programming (5 days)

<http://www.accelebrate.com/training/oracle-11g-sql>

In Accelebrate's Introduction to Oracle 11g SQL Programming training, students learn how to create, retrieve, and manipulate objects in Oracle 11g Structured Query Language (SQL). Students will also be introduced to Oracle 11g database features and tools. This course is 60% hands-on, 40% discussion, with the longest discussion segments lasting 20 minutes.

Prerequisites: No prior experience is presumed.

Price for group up to 3 students: \$9,264.89
Price for each additional student: \$443.32
Minimum number of students: 3
Maximum number of students: 15
Locations where offered: On-site at client's location in the 48 continental US states or DC.
Class schedules: Per client's needs.

ORC-202 Beginning Oracle 11g PL/SQL (5 days)

<http://www.accelebrate.com/training/oracle-11g-pl-sql>

This Oracle 11g PL/SQL training teaches attendees beginning and advanced Oracle PL/SQL database programming skills. This course is 60% hands-on, 40% discussion, with the longest discussion segments lasting 20 minutes.

Prerequisites: No prior experience is presumed.

Price for group up to 3 students: \$9,264.89
Price for each additional student: \$443.32

Price for each additional student:

Minimum number of students: 3
Maximum number of students: 15
Locations where offered: On-site at client's location in the 48 continental US states or DC.
Class schedules: Per client's needs.

ORC-203 Advanced Oracle 11g PL/SQL (5 days)

<http://www.accelebrate.com/training/oracle-11g-pl-sql-advanced>

This Oracle 11g PL/SQL training teaches attendees advanced Oracle PL/SQL database programming skills. This Oracle course is 60% hands-on, 40% discussion, with the longest discussion segments lasting 20 minutes.

Prerequisites: No prior experience is presumed.

Price for group up to 3 students:

\$9,264.89

Price for each additional student:

Minimum number of students: 3

Maximum number of students: 15

Locations where offered: On-site at client's location in the 48 continental US states or DC.

Class schedules: Per client's needs.

ORC-204 Oracle 11g Administration I (5 days)

<http://www.accelebrate.com/training/oracle-11g-administration-i>

This Oracle 11g administration training course teaches attendees the skills necessary for day-to-day administration of Oracle 11g. This course is 60% hands-on, 40% discussion, with the longest discussion segments lasting 20 minutes.

Prerequisites: No prior experience is presumed.

Price for group up to 3 students:

\$9,264.89

Price for each additional student:

Minimum number of students: 3

Maximum number of students: 15

Locations where offered: On-site at client's location in the 48 continental US states or DC.

Class schedules: Per client's needs.

ORC-206 Oracle 11g Administration II (5 days)

<http://www.accelebrate.com/training/oracle-11g-administration-ii>

This advanced Oracle 11g administration training course teaches attendees advanced Oracle 11g administration skills necessary for enterprise environments. This course is 60% hands-on, 40% discussion, with the longest discussion segments lasting 20 minutes.

Prerequisites: Oracle 11g Administration I training or equivalent experience.

Price for group up to 3 students: \$9,264.89
Price for each additional student: \$443.32
Minimum number of students: 3
Maximum number of students: 15
Locations where offered: On-site at client's location in the 48 continental US states or DC.
Class schedules: Per client's needs.

ORC-210 Oracle 11g Backup and Recovery (3 days)

<http://www.accelebrate.com/training/oracle-11g-backup-recovery>

Accelebrate's Oracle 11g Backup and Recovery training teaches attendees how to backup and recover a portion or all of an Oracle 11g database. This course is 60% hands-on, 40% discussion, with the longest discussion segments lasting 20 minutes.

Prerequisites: Oracle 11g Administration I Training, Oracle 11g SQL Training, and Oracle 11g PL/SQL Training or equivalent real-world experience.

Price for group up to 3 students: \$6,947.51
Price for each additional student: \$265.99
Minimum number of students: 3
Maximum number of students: 15
Locations where offered: On-site at client's location in the 48 continental US states or DC.
Class schedules: Per client's needs.

ORC-212 Oracle WebLogic Server 11g Administration (5 days)

<http://www.accelebrate.com/training/weblogic-11g-administration>

Accelebrate's WebLogic Administration class is designed for WebLogic 11g Administrators and Operations staff whose roles include: server installation, application deployment, resource configuration, monitoring, tuning or troubleshooting. This course is 60% hands-on, 40% discussion, with the longest discussion segments lasting 20 minutes.

Prerequisites: No prior knowledge of WebLogic server is necessary. For students with exposure to earlier versions of WebLogic or other JEE application servers, some sections can be accelerated.

Price for group up to 3 students: \$9,728.36
Price for each additional student: \$443.32
Minimum number of students: 3
Maximum number of students: 15
Locations where offered: On-site at client's location in the 48 continental US states or DC.
Class schedules: Per client's needs.

ORC-213 Advanced Oracle WebLogic Server 11g Administration (5 days)

<http://www.accelebrate.com/training/weblogic-11g-administration-advanced>

Accelebrate's Advanced WebLogic Administration Training: Advanced Oracle WebLogic Server 11g Administration training class teaches students how to customize existing WebLogic server environments. Attendees will master WLST Scripting, the basics of MBeans, how to tune the server to enhance performance, and more. This Oracle WebLogic Server 11g Administration course is 60% hands-on, 40% discussion, with the longest discussion segments lasting 25 minutes.

Prerequisites: Attendees should be WebLogic administrators and have Java programming experience.

Price for group up to 3 students:	\$10,191.84
Price for each additional student:	\$443.32
Minimum number of students:	3
Maximum number of students:	15
Locations where offered:	On-site at client's location in the 48 continental US states or DC.
Class schedules:	Per client's needs.

ORC-214 Oracle 11g ADF (5 days)

<http://www.accelebrate.com/training/oracle-11g-adf>

Accelebrate's Oracle ADF training class is for experienced Java developers building Oracle 11g ADF (Application Data Framework) applications. Students use Oracle JDeveloper 1g to develop, test, and deploy fully functional ADF Web applications. This course is 60% hands-on, 40% discussion, with the longest discussion segments lasting 20 minutes.

Prerequisites: All attendees should have prior HTML, XML, and Java development experience.

Price for group up to 3 students:	\$11,548.20
Price for each additional student:	\$443.32
Minimum number of students:	3
Maximum number of students:	15
Locations where offered:	On-site at client's location in the 48 continental US states or DC.
Class schedules:	Per client's needs.

ORC-216 New Oracle 11g Features for Administrators (5 days)

<http://www.accelebrate.com/training/oracle-11g-new-features-administrators>

Accelebrate's Oracle 11g Administration Training: New Oracle 11g Features for Administrators course teaches current Oracle systems administrators how to manage the new features of Oracle 11g. This course is 60% hands-on, 40% discussion, with the longest discussion segments lasting 20 minutes.

Prerequisites: Experience administering an earlier version of Oracle is mandatory. If the attendees have not previously administered Oracle, they should take Oracle 11g Administration I training, Oracle 11g Administration II training and Oracle 11g Backup & Recovery training.

Price for group up to 3 students: \$9,264.89
Price for each additional student: \$443.32
Minimum number of students: 3
Maximum number of students: 15
Locations where offered: On-site at client's location in the 48 continental US states or DC.
Class schedules: Per client's needs.

ORC-218 Oracle 11g Performance Tuning (4 days)

<http://www.accelebrate.com/training/oracle-11g-performance>

Accelebrate's Introduction to Oracle 11g Performance Tuning training teaches attendees how to tune their databases using I/O Internals, Awr, Metrics, and other features to achieve optimal performance. This course is 60% hands-on, 40% discussion, with the longest discussion segments lasting 20 minutes.

Prerequisites: No prior experience is presumed.

Price for group up to 3 students: \$8,337.93
Price for each additional student: \$354.66
Minimum number of students: 3
Maximum number of students: 15
Locations where offered: On-site at client's location in the 48 continental US states or DC.
Class schedules: Per client's needs.

ORC-219 Oracle WebLogic 11g Performance Tuning (3 days)

<http://www.accelebrate.com/training/weblogic-11g-performance-tuning>

Accelebrate's WebLogic Performance Tuning Training: Oracle WebLogic 11g Performance Tuning class teaches students WebLogic Performance Tuning techniques. This Oracle WebLogic 11g Performance Tuning course is 60% hands-on, 40% discussion, with the longest discussion segments lasting 20 minutes.

Prerequisites: Attendees should have WebLogic 9 or 10 System Administration experience.

Price for group up to 3 students: \$7,410.98
Price for each additional student: \$265.99
Minimum number of students: 3
Maximum number of students: 15
Locations where offered: On-site at client's location in the 48 continental US states or DC.

Class schedules: Per client's needs.

ORC-220 Introduction to Oracle 11g SQL Tuning (3 days)

<http://www.accelebrate.com/training/oracle-11g-sql-tuning>

Accelebrate's Introduction to Oracle 11g SQL Tuning training teaches database administrators and application developers how to build efficient SQL statements and tune database applications. Attendees learn the internals of SQL statement execution, how to monitor the performance of such execution, and how to influence the behavior of the database to achieve performance gains. This Oracle course is 60% hands-on, 40% discussion, with the longest discussion segments lasting 25 minutes.

Prerequisites: All attendees must have a prior understanding of writing SQL queries, including joins.

Price for group up to 3 students: \$6,947.51
Price for each additional student: \$265.99
Minimum number of students: 3
Maximum number of students: 15
Locations where offered: On-site at client's location in the 48 continental US states or DC.
Class schedules: Per client's needs.

ORC-230 Introduction to Oracle 11g R2 SQL Programming (5 days)

<http://www.accelebrate.com/training/oracle-11g-r2-sql>

Accelebrate's Introduction to Oracle 11g R2 SQL Programming training teaches students learn how to create, retrieve, and manipulate objects in Oracle 11g R2 Structured Query Language (SQL). Students will also be introduced to Oracle 11g R2 database features and tools. This course is 60% hands-on, 40% discussion, with the longest discussion segments lasting 20 minutes.

Prerequisites: No prior experience is presumed.

Price for group up to 3 students: \$9,264.89
Price for each additional student: \$443.32
Minimum number of students: 3
Maximum number of students: 15
Locations where offered: On-site at client's location in the 48 continental US states or DC.
Class schedules: Per client's needs.

ORC-232 Beginning Oracle 11g R2 PL/SQL (5 days)

<http://www.accelebrate.com/training/oracle-11g-r2-pl-sql>

Accelebrate's Beginning Oracle 11g R2 PL/SQL training teaches attendees beginning Oracle PL/SQL database programming skills. This Oracle course is 60% hands-on, 40% discussion, with the longest discussion segments lasting 20 minutes.

Prerequisites: No prior experience is presumed.

Price for group up to 3 students: \$9,264.89
Price for each additional student: \$443.32
Minimum number of students: 3
Maximum number of students: 15
Locations where offered: On-site at client's location in the 48 continental US states or DC.
Class schedules: Per client's needs.

ORC-233 Advanced Oracle 11g R2 PL/SQL (5 days)

<http://www.accelebrate.com/training/oracle-11g-r2-pl-sql-advanced>

Accelebrate's Oracle 11g R2 PL/SQL training teaches attendees advanced Oracle PL/SQL database programming skills. This Oracle course is 60% hands-on, 40% discussion, with the longest discussion segments lasting 20 minutes.

Prerequisites: All attendees should have prior Oracle 11g R2 development experience.

Price for group up to 3 students: \$9,264.89
Price for each additional student: \$443.32
Minimum number of students: 3
Maximum number of students: 15
Locations where offered: On-site at client's location in the 48 continental US states or DC.
Class schedules: Per client's needs.

ORC-234 Oracle 11g R2 Administration I (5 days)

<http://www.accelebrate.com/training/oracle-11g-r2-administration-i>

This Oracle 11g R2 administration training course teaches attendees the skills necessary for day-to-day administration of Oracle 11g R2. This Oracle course is 60% hands-on, 40% discussion, with the longest discussion segments lasting 20 minutes.

Prerequisites: No prior experience is presumed.

Price for group up to 3 students: \$9,264.89
Price for each additional student: \$443.32
Minimum number of students: 3
Maximum number of students: 15
Locations where offered: On-site at client's location in the 48 continental US states or DC.
Class schedules: Per client's needs.

ORC-236 Oracle 11g R2 Administration II (5 days)

<http://www.accelebrate.com/training/oracle-11g-r2-administration-ii>

This advanced Oracle 11g R2 administration training course teaches attendees advanced Oracle 11g R2 administration skills necessary for enterprise environments. This Oracle course is 60% hands-on, 40% discussion, with the longest discussion segments lasting 20 minutes.

Prerequisites: Oracle 11g R2 Administration I training or equivalent experience.

Price for group up to 3 students:	\$9,264.89
Price for each additional student:	\$443.32
Minimum number of students:	3
Maximum number of students:	15
Locations where offered:	On-site at client's location in the 48 continental US states or DC.
Class schedules:	Per client's needs.

ORC-246 New Oracle 11g R2 Features for Administrators (5 days)

<http://www.accelebrate.com/training/oracle-11g-r2-new-features-administrators>

Accelebrate's Oracle 11g R2 Administration Training: New Oracle 11g R2 Features for Administrators course teaches current Oracle systems administrators how to manage the new features of Oracle 11g R2. This Oracle course is 60% hands-on, 40% discussion, with the longest discussion segments lasting 20 minutes.

Prerequisites: Experience administering an earlier version of Oracle is mandatory. If the attendees have not previously administered Oracle, they should take Oracle 11g R2 Administration I training, Oracle 11g R2 Administration II training and Oracle 11g Backup & Recovery training.

Price for group up to 3 students:	\$9,566.46
Price for each additional student:	\$478.56
Minimum number of students:	3
Maximum number of students:	15
Locations where offered:	On-site at client's location in the 48 continental US states or DC.
Class schedules:	Per client's needs.

ORC-248 Oracle 11g R2 Performance Tuning (4 days)

<http://www.accelebrate.com/training/oracle-11g-r2-perfomance-tuning>

Accelebrate's Oracle 11g R2 Performance Tuning training teaches database administrators and application developers to build efficient SQL statements and tune database applications. This Oracle course is 60% hands-on, 40% discussion, with the longest discussion segments lasting 20 minutes.

Prerequisites: All attendees must have some prior Oracle administration and SQL query writing experience.

Price for group up to 3 students:	\$8,337.93
Price for each additional student:	\$354.66

student:

Minimum number of students: 3
Maximum number of students: 15
Locations where offered: On-site at client's location in the 48 continental US states or DC.
Class schedules: Per client's needs.

ORC-312 Oracle WebLogic 12c Administration (5 days)

<http://www.accelebrate.com/training/weblogic-12c-administration>

Accelebrate's Oracle WebLogic 12c Server System Administration training class teaches students to build and configure complete WebLogic domains and how to administer a J2EE server. his Oracle WebLogic Server course is 60% hands-on, 40% discussion, with the longest discussion segments lasting 25 minutes.

Prerequisites: Attendees should be Windows/Linux/Unix/Mac OS X system administrators or have equivalent experience. Java programming would be helpful but is not required.

Price for group up to 3

students: \$9,728.36

Price for each additional \$443.32

student:

Minimum number of students: 3

Maximum number of students: 15

Locations where offered: On-site at client's location in the 48 continental US states or DC.

Class schedules: Per client's needs.

ORC-313 Advanced Oracle WebLogic 12c Administration (5 days)

<http://www.accelebrate.com/training/weblogic-12c-advanced-administration>

Accelebrate's Advanced Oracle WebLogic 12c Administration training class teaches students advanced strategies for automating the administration of, configuring, and securing WebLogic. Attendees learn to use the specialized WebLogic features as well as WLST Scripting, the basics of MBeans, and more. This Oracle WebLogic Server course is 60% hands-on, 40% discussion, with the longest discussion segments lasting 20 minutes.

Prerequisites: All attendees should have experience equivalent to Accelebrate's Oracle WebLogic 12c Administration training. In addition, the default outline for this course requires some Java programming skills.

Price for group up to 3

students: \$10,191.84

Price for each additional \$443.32

student:

Minimum number of students: 3

Maximum number of students: 15

Locations where offered: On-site at client's location in the 48 continental US states or DC.

Class schedules: Per client's needs.

ORC-330 Oracle 12c SQL Training (5 days)

<http://www.accelebrate.com/training/oracle-12c-sql>

Accelebrate's Introduction to Oracle 12c SQL Programming training teaches students how to create, retrieve, and manipulate objects in Oracle 12c Structured Query Language (SQL). Students will also be introduced to Oracle 12c database features and tools. This course is 60% hands-on, 40% discussion, with the longest discussion segments lasting 20 minutes.

Prerequisites: No prior experience is presumed.

Price for group up to 3 students:	\$9,264.89
Price for each additional student:	\$443.32
Minimum number of students:	3
Maximum number of students:	15
Locations where offered:	On-site at client's location in the 48 continental US states or DC.
Class schedules:	Per client's needs.

ORC-332 Oracle 12c PL/SQL Training (5 days)

<http://www.accelebrate.com/training/oracle-12c-pl-sql>

Accelebrate's Oracle 12c PL/SQL training teaches attendees beginning and advanced Oracle PL/SQL database programming skills. This Oracle course is 60% hands-on, 40% discussion, with the longest discussion segments lasting 20 minutes.

Prerequisites: No prior experience is presumed.

Price for group up to 3 students:	\$9,264.89
Price for each additional student:	\$443.32
Minimum number of students:	3
Maximum number of students:	15
Locations where offered:	On-site at client's location in the 48 continental US states or DC.
Class schedules:	Per client's needs.

ORC-333 Oracle Database 12c PL/SQL Advanced Programming & Tuning (5 days)

<https://www.accelebrate.com/training/oracle-12c-pl-sql-advanced>

Accelebrate's Oracle Database 12c PL/SQL Advanced Programming & Tuning training course teaches students how to use the advanced PL/SQL features to build powerful and adaptable database applications. Attendees also learn performance tuning techniques and how to implement critical security measures. This Advanced Oracle course is 60% hands-on, 40% discussion, with the longest discussion segments lasting 20 minutes.

Prerequisites: Students should have taken Accelebrate's Introduction to Oracle 12c SQL Programming training and Introduction to Oracle 12c PL/SQL training or have equivalent experience.

Price for group up to 3 students:	\$9,264.89
	\$443.32

Price for each additional student:

Minimum number of students: 3
Maximum number of students: 15
Locations where offered: On-site at client's location in the 48 continental US states or DC.
Class schedules: Per client's needs.

ORC-334 Oracle 12c for Administrators (5 days)

<http://www.accelebrate.com/training/oracle-12c-administration>

Accelebrate's Oracle 12c for Administrators course introduces the many powerful capabilities of the Oracle database and teaches administrators the skills necessary for day-to-day administration of the Oracle 12c database management system. This Oracle 12c administration course is 60% hands-on, 40% discussion, with the longest discussion segments lasting 20 minutes.

Prerequisites: No prior experience is presumed.

Price for group up to 3 students:

\$9,264.89

Price for each additional student:

\$443.32

Minimum number of students: 3
Maximum number of students: 15
Locations where offered: On-site at client's location in the 48 continental US states or DC.
Class schedules: Per client's needs.

ORC-900 Introduction to Oracle Application Express 4 (4 days)

<http://www.accelebrate.com/training/oracle-application-express-4>

In Accelebrate's Oracle APEX Training: Introduction to Oracle Application Express 4 training, students learn how to develop web applications from scratch, as well as how to manage database structures and actual data within an Oracle database. This course is 60% hands-on, 40% discussion, with the longest discussion segments lasting 25 minutes.

Prerequisites: All students should have an understanding of Oracle SQL and PL/SQL.

Price for group up to 3 students:

\$7,781.76

Price for each additional student:

\$354.66

Minimum number of students: 3
Maximum number of students: 15
Locations where offered: On-site at client's location in the 48 continental US states or DC.
Class schedules: Per client's needs.

PRL-100 Introduction to Perl Programming (5 days)

<http://www.accelebrate.com/training/perl>

Perl is a powerful scripting language that has been popular for more than a decade. In this engaging, hands-on Perl training class, attendees learn how to use Perl to build data-driven reporting and systems administration applications. This Perl training class is 70% hands-on, 30% lecture, with the longest lecture segments lasting for 20 minutes. Students "learn by doing," with immediate opportunities to apply the material they learn to real-world problems.

Prerequisites: We strongly recommend that all attendees have some prior programming experience.

Price for group up to 3 students:	\$8,337.93
Price for each additional student:	\$443.32
Minimum number of students:	3
Maximum number of students:	15
Locations where offered:	On-site at client's location in the 48 continental US states or DC.
Class schedules:	Per client's needs.

PRL-102 Advanced Perl (4 days)

<http://www.accelebrate.com/training/perl-advanced>

Accelebrate's Advanced Perl training teaches Perl developers the skills they need to fully utilize Perl's object-oriented features, interact with databases, use Perl/Tk, extend Perl with C/C++, and write their own Perl modules. This Perl training class is 70% hands-on, 30% lecture, with the longest lecture segments lasting for 20 minutes. Students "learn by doing," with immediate opportunities to apply the material they learn to real-world problems.

Prerequisites: All attendees must have prior Perl programming experience, either from their own work or Accelebrate's Introduction to Perl Programming training.

Price for group up to 3 students:	\$7,410.98
Price for each additional student:	\$354.66
Minimum number of students:	3
Maximum number of students:	15
Locations where offered:	On-site at client's location in the 48 continental US states or DC.
Class schedules:	Per client's needs.

PRL-120 XML Applications with Perl (3 days)

<http://www.accelebrate.com/training/perl-xml>

XML (Extensible Markup Language) has become the leading standard for data interchange among applications. In this engaging and intensely hands-on course, Perl programmers learn how to build applications for producing, processing, searching, and transforming XML data. This Perl training class is 70% hands-on, 30% lecture, with the longest lecture segments lasting for 20 minutes. Students "learn by doing," with immediate opportunities to apply the material they learn to real-world problems.

Prerequisites: Database-Driven CGI Programming with Perl training or equivalent Perl scripting experience. Core XML training or equivalent XML experience is recommended but not required. This course can be customized to almost all levels of Perl and XML experience.

Price for group up to 3 students: \$6,484.03
Price for each additional student: \$265.99
Minimum number of students: 3
Maximum number of students: 15
Locations where offered: On-site at client's location in the 48 continental US states or DC.
Class schedules: Per client's needs.

PHSP-108 Introduction to Photoshop CS6 (3 days)

<http://www.accelebrate.com/training/photoshop-cs6>

Accelebrate's Photoshop Training: Introduction to Adobe Photoshop CS6 training class teaches attendees how to manipulate images, edit motion-based content, and create image composites in Adobe Photoshop CS6. This training class is 70% hands-on, 30% lecture, with the longest lecture segments lasting for 20 minutes.

Prerequisites: No prior experience is presumed.

Price for group up to 3 students: \$5,093.60
Price for each additional student: \$110.80
Minimum number of students: 3
Maximum number of students: 15
Locations where offered: On-site at client's location in the 48 continental US states or DC.
Class schedules: Per client's needs.

PHSP-110 Introduction to Photoshop Creative Cloud (3 days)

<https://www.accelebrate.com/training/photoshop-cc>

Accelebrate's Photoshop CC Training: Introduction to Adobe Photoshop Creative Cloud training class teaches attendees how to manipulate images, edit motion-based content, and create image composites in Adobe Photoshop Creative Cloud. This Adobe Photoshop CC training class is 70% hands-on, 30% lecture, with the longest lecture segments lasting for 20 minutes.

Prerequisites: No prior experience is presumed.

Price for group up to 3 students: \$5,093.60
Price for each additional student: \$110.83
Minimum number of students: 3
Maximum number of students: 15
Locations where offered: On-site at client's location in the 48 continental US states or DC.

Class schedules: Per client's needs.

PHP-100 Introduction to PHP and MySQL (4 days)

<http://www.accelebrate.com/training/php>

MySQL and PHP are two of the most popular open source technologies to emerge during the past decade. PHP is a powerful language for writing server-side Web applications. MySQL is the world's most popular open source database. Together, these two technologies provide you with a powerful platform for building database-driven Web applications. This hands-on MySQL and PHP training course teaches attendees everything they need to successfully build data-driven Web sites using MySQL and PHP. Accelebrate also offers an Advanced PHP training class. Important Note: Upon request, we would be glad to teach this course with a database other than MySQL.

This MySQL and PHP training class is 70% hands-on, 30% lecture, with the longest lecture segments lasting for 10 minutes. Students "learn by doing," with immediate opportunities to apply the material they learn to real-world problems.

Prerequisites: All MySQL and PHP training attendees must be fluent in HTML. The course can be customized to any level of programming and relational database familiarity.

Price for group up to 3 students: \$6,669.42
Price for each additional student: \$354.66
Minimum number of students: 3
Maximum number of students: 15
Locations where offered: On-site at client's location in the 48 continental US states or DC.
Class schedules: Per client's needs.

PHP-110 Advanced PHP (3 days)

<http://www.accelebrate.com/training/php-advanced>

Accelebrate's Advanced PHP training class teaches attendees advanced PHP skills, including object-oriented development, processing XML, creating and consuming SOAP-based and RESTful web services, handling AJAX calls, extending PHP with PEAR, and securing PHP. Throughout the course, best practices for PHP development are emphasized. This PHP training class is 70% hands-on, 30% lecture, with the longest lecture segments lasting for 10 minutes. Students "learn by doing," with immediate opportunities to apply the material they learn to real-world problems.

Prerequisites: All attendees must be familiar with the fundamentals of building data-driven PHP web applications, either from their own experience or from Accelebrate's Introduction to PHP and MySQL training.

Price for group up to 3 students: \$6,391.34
Price for each additional student: \$265.99
Minimum number of students: 3
Maximum number of students: 15
Locations where offered: On-site at client's location in the 48 continental US states or DC.

Class schedules: Per client's needs.

PYTH-100 Introduction to Python Programming (4 days)

<http://www.accelebrate.com/training/python>

This Python training course leads the students from the basics of writing and running Python scripts to more advanced features such as file operations, regular expressions, working with binary data, and using the extensive functionality of Python modules. Extra emphasis is placed on features unique to Python, such as tuples, array slices, and output formatting. This is a hands-on programming class. All concepts are reinforced by informal practice during the lecture followed by graduated lab exercises. Accelebrate also offers an Advanced Python training class. This Python training class is 70% hands-on, 30% lecture, with the longest lecture segments lasting for 15 minutes. Students "learn by doing," with immediate opportunities to apply the material they learn to real-world problems.

Prerequisites: Students should already be comfortable using the operating system (Linux, Unix, Windows, Solaris, Mac OS X, etc.) on which they will be running Python. While not mandatory, basic skills with at least one other programming language are desirable.

Price for group up to 3 students:	\$8,152.54
Price for each additional student:	\$286.95
Minimum number of students:	3
Maximum number of students:	15
Locations where offered:	On-site at client's location in the 48 continental US states or DC.
Class schedules:	Per client's needs.

PYTH-102 Advanced Python Programming (4 days)

<http://www.accelebrate.com/training/python-advanced>

Once students have mastered the basics of Python via Accelebrate's introductory Python course or their own work, it's time to move on to applying Python to daily programming needs. This course picks up where Introduction to Python Programming left off, covering some topics in more detail, and adding new ones. For instance, regular expressions and classes are covered extensively, with network programming (FTP, Web client and server), graphical programming, database access, and other areas of general need. This is a hands-on programming class. All concepts are reinforced by informal practice during the lecture followed by graduated lab exercises. This advanced Python training class is 70% hands-on, 30% lecture, with the longest lecture segments lasting for 15 minutes. Students "learn by doing," with immediate opportunities to apply the material they learn to real-world problems.

Prerequisites: All Advanced Python training students should be able to write simple Python scripts, using basic data types, program structures, and the standard Python library.

Price for group up to 3 students:	\$8,152.54
Price for each additional student:	\$286.95

Minimum number of students: 3
Maximum number of students: 15
Locations where offered: On-site at client's location in the 48 continental US states or DC.
Class schedules: Per client's needs.

PYTH-120 Python Programming for Scientists (5 days)

<http://www.accelebrate.com/training/python-scientists>

Accelebrate's Python Programming for Scientists training course teaches scientists, mathematicians, statisticians, and engineers the Python, NumPy, SciPy, SymPy, and other skills they need to automate complex processing of their data sets. Students learn the basics as well as the most important Python modules for working with data, manipulating arrays, performing statistical calculations, plotting results, and more. Attendees will immediately be able to use Python to complete tasks in the real world. This Python training class is 65% hands-on, 35% lecture, with the longest lecture segments lasting for 15 minutes.

Prerequisites: While there are no programming prerequisites, programming experience is helpful. Students have a strong mathematical background and should be comfortable working with files and folders, and be familiar with the command line in Linux, Windows, or MacOS.

Price for group up to 3 students: \$9,264.89
Price for each additional student: \$382.37
Minimum number of students: 3
Maximum number of students: 15
Locations where offered: On-site at client's location in the 48 continental US states or DC.
Class schedules: Per client's needs.

PYTH-122 Scientific Python for Experienced Developers (3 days)

<http://www.accelebrate.com/training/python-scientists-experienced>

Accelebrate's Scientific Python for Experienced Developers course teaches Python programmers how to use Python for data manipulation, statistics, graphing, and other operations. This Python for Scientists course is 50% hands-on, 50% lecture, with the longest lecture segments lasting for around 30 minutes. Students "learn by doing," with immediate opportunities to apply the material they learn to real-world problems.

Prerequisites: Students should be comfortable writing basic Python tasks and programming concepts, including file input/output and creating classes

Price for group up to 3 students: \$6,391.34
Price for each additional student: \$265.99
Minimum number of students: 3
Maximum number of students: 15
Locations where offered: On-site at client's location in the 48 continental US states or DC.
Class schedules: Per client's needs.

PYTH-130 Python for Data Analysis (3 days)

<http://www.accelebrate.com/training/python-data-analysis#>

Accelebrate's Python for Data Analysis course teaches data analysts how to search, manipulate, and analyze data using the powerful Python programming language. This Python class is 70% hands-on, 30% lecture, with the longest lecture segments lasting for 15 minutes. Students "learn by doing," with immediate opportunities to apply the material they learn to real-world problems. *Prerequisites:* All attendees should have basic Python programming skills.

Price for group up to 3 students:	\$6,391.34
Price for each additional student:	\$265.99
Minimum number of students:	3
Maximum number of students:	15
Locations where offered:	On-site at client's location in the 48 continental US states or DC.
Class schedules:	Per client's needs.

RPROG-100 Introduction to R Programming (4 days)

<http://www.accelebrate.com/training/r>

Accelebrate's Introduction to R Programming training course teaches attendees how to use R programming to compute statistics and create graphics. This R Programming training class is 70% hands-on, 30% lecture, with the longest lecture segments lasting for 15 minutes. Students "learn by doing," with immediate opportunities to apply the material they learn to real-world problems.

Prerequisites: Students should have knowledge of basic statistics (t-test, chi-square-test, regression) and know the difference between descriptive and inferential statistics. No programming experience is needed.

Price for group up to 3 students:	\$8,152.54
Price for each additional student:	\$354.66
Minimum number of students:	3
Maximum number of students:	15
Locations where offered:	On-site at client's location in the 48 continental US states or DC.
Class schedules:	Per client's needs.

RPROG-102 Introduction to R Programming for Programmers (3 days)

<http://www.accelebrate.com/training/r-programmers>

Accelebrate's Introduction to R Programming for Programmers training course teaches programmers how to use R programming to compute statistics and generate charts, graphs, and other data representations. This R Programming training class is 70% hands-on, 30% lecture, with the longest lecture segments lasting for 15 minutes. Students "learn by doing," with immediate opportunities to apply the material they learn to real-world problems.

Prerequisites: Students should have knowledge of basic statistics (t-test, chi-square-test, regression) and know the difference between descriptive and inferential statistics.

Price for group up to 3 students: \$6,947.51
Price for each additional student: \$265.99
Minimum number of students: 3
Maximum number of students: 15
Locations where offered: On-site at client's location in the 48 continental US states or DC.
Class schedules: Per client's needs.

RBH-110 Adobe RoboHelp 10 (3 days)

<http://www.accelebrate.com/training/robohelp-10>

Accelebrate's Adobe RoboHelp 10 training teaches attendees how to build help systems for desktop computers, the web, and mobile devices using RoboHelp 10. This RoboHelp 10 training class is 70% hands-on, 30% lecture, with the longest lecture segments lasting for 20 minutes. Students "learn by doing," with immediate opportunities to apply the material they learn to real-world problems.

Prerequisites: No prior experience is presumed.

Price for group up to 3 students: \$5,557.08
Price for each additional student: \$310.33
Minimum number of students: 3
Maximum number of students: 15
Locations where offered: On-site at client's location in the 48 continental US states or DC.
Class schedules: Per client's needs.

RBH-112 Adobe RoboHelp 11 (3 days)

<http://www.accelebrate.com/training/robohelp-11>

Accelebrate's RoboHelp 11 course teaches attendees how to use RoboHelp, Adobe's intuitive help authoring and publishing software, to deliver help content to the iPad and other tablets, smartphones, and desktop/laptop environments. Robohelp can output help content in HTML5, EPUB 3, KF8, and MOBI formats. This RoboHelp 11 Training class is 70% hands-on, 30% lecture, with the longest lecture segments lasting for 20 minutes. Students "learn by doing," with immediate opportunities to apply the material they learn to real-world problems.

Prerequisites: No prior experience is presumed.

Price for group up to 3 students: \$5,557.08
Price for each additional student: \$310.33
Minimum number of students: 3

Maximum number of students: 15
Locations where offered: On-site at client's location in the 48 continental US states or DC.
Class schedules: Per client's needs.

RBV-100 Introduction to Ruby on Rails (4 days)

<http://www.accelebrate.com/training/ruby-on-rails>

Accelebrate's Ruby on Rails training: Introduction to Ruby on Rails training course teaches attendees how to build web applications using the powerful Rails framework (see <http://www.rubyonrails.com>) and the highly dynamic, object-oriented Ruby language. Rails uses the principles of DRY (Don't Repeat Yourself) and "convention over configuration" to help build robust, scalable applications quickly. We also offer an Advanced Ruby on Rails course. This course is a fast-paced, hands-on workshop, with the bulk of class time spent developing Ruby on Rails applications in consultation with a seasoned instructor.

Prerequisites: All Ruby on Rails training attendees should have some experience with server-side web development. Programming experience in an object-oriented language would also be helpful.

Price for group up to 3 students: \$8,523.32
Price for each additional student: \$354.66
Minimum number of students: 3
Maximum number of students: 15
Locations where offered: On-site at client's location in the 48 continental US states or DC.
Class schedules: Per client's needs.

SCA-100 Scala Programming for Java Developers (4 days)

<http://www.accelebrate.com/training/scala-java>

Accelebrate's Scala training teaches Java developers how to build applications using Scala. Scala is a programming language built on top of the JVM that integrates functional programming with Java's object-oriented programming model, with a goal of enabling developers to build applications more rapidly and efficiently. This Java training course is 70% hands-on, 30% lecture, with the longest lecture segments lasting for 20 minutes.

Prerequisites: Attendees should be strong Java developers planning to develop Scala applications.

Price for group up to 3 students: \$8,523.32
Price for each additional student: \$354.66
Minimum number of students: 3
Maximum number of students: 15
Locations where offered: On-site at client's location in the 48 continental US states or DC.
Class schedules: Per client's needs.

SCRPT-100 Mastering JavaScript (3 days)

<http://www.accelebrate.com/training/javascript-beginning>

Accelebrate's Mastering JavaScript training class teaches attendees how to make their Web pages more interactive by using JavaScript, an easy-to-learn scripting language supported by all popular Web browsers. Attendees will learn how to write JavaScript code for form validation, calculating total orders, conditional navigation (taking the user to a page based on information they enter), image rollovers (e.g., having a button light up when the user moves their mouse over it), and more. This JavaScript training class is 70% hands-on, 30% lecture, with the longest lecture segments lasting for 10 minutes. Students "learn by doing," with immediate opportunities to apply the material they learn to real-world problems.

Prerequisites: Mastering XHTML & CSS training or equivalent experience. If attendees will not have thorough knowledge of HTML, please let us know and we will precede this course with a one-day HTML primer. No prior programming experience is assumed, though this course can be swiftly adapted for a programming-savvy audience.

Price for group up to 3 students:	\$4,630.13
Price for each additional student:	\$221.66
Minimum number of students:	3
Maximum number of students:	15
Locations where offered:	On-site at client's location in the 48 continental US states or DC.
Class schedules:	Per client's needs.

SCRPT-101 Intermediate JavaScript Language Skills and Coding Practices (3 days)

<http://www.accelebrate.com/training/intermediate-javascript>

Accelebrate's Advanced JavaScript and JavaScript Best Practices training class is a hands-on course that teaches attendees how to use advanced JavaScript techniques such as regular expressions, closures and Ajax, and how to write fast-executing code that conforms to established best practices. This Advanced JavaScript training class is 70% hands-on, 30% lecture, with the longest lecture segments lasting for 10 minutes. Students "learn by doing," with immediate opportunities to apply the material they learn to real-world problems.

Prerequisites: All attendees must have prior HTML, CSS, and JavaScript development experience.

Price for group up to 3 students:	\$5,557.08
Price for each additional student:	\$265.99
Minimum number of students:	3
Maximum number of students:	15
Locations where offered:	On-site at client's location in the 48 continental US states or DC.
Class schedules:	Per client's needs.

SCRPT-102 Advanced JavaScript (2 days)

<http://www.accelebrate.com/training/advanced-javascript>

Accelebrate's Advanced JavaScript training teaches experienced JavaScript developers the skills they need to build robust, scalable software. Creating modern, complex software with JavaScript

requires understanding advanced patterns and usage idioms, as well as facilities for integrating with other systems and services. This course reviews some of the complex parts of the JavaScript language and goes on to discuss server programming in JavaScript with Node.js, as well as various other options for client-server integration. Large software systems need to be planned and decomposed into small units and JavaScript has no built in facility for doing this. This course looks at various methods of supporting modularity and straightforward implementation of complex products throughout the lifecycle phases of design, development, build, and deploy. This training class is 60% hands-on, 40% lecture, with the longest lecture segments lasting for 30 minutes.

Prerequisites: Advanced JavaScript training attendees should have a solid knowledge of HTML, simple CSS, and JavaScript. Attendees should be comfortable creating JavaScript objects and functions, DOM programming and working with browser events. No prior programming experience is assumed, though this course can be swiftly adapted for a programming-savvy audience.

Price for group up to 3 students:	\$5,093.60
Price for each additional student:	\$221.66
Minimum number of students:	3
Maximum number of students:	15
Locations where offered:	On-site at client's location in the 48 continental US states or DC.
Class schedules:	Per client's needs.

SCRPT-115 DOM Scripting, Ajax and User Interfaces Using Ext JS (3 days)

<http://www.accelebrate.com/training/ext-js>

Accelebrate's DOM Scripting, Ajax and User Interfaces Using Ext JS training course teaches attendees to use the freely-available Ext JS library to simplify many client-side scripting and user interface development challenges. Attendees will learn how to perform Document Object Model (DOM) manipulations that dynamically change the content and appearance of their Web pages, how to make Ajax requests to retrieve and incorporate new content from a server and how to create user interface elements such as tab panels, accordions and editable grids. This Ext JS training class is 70% hands-on, 30% lecture, with the longest lecture segments lasting for 10 minutes. Students "learn by doing," with immediate opportunities to apply the material they learn to real-world problems.

Prerequisites: Accelebrate's Mastering JavaScript course or equivalent experience. If attendees will not have thorough knowledge of JavaScript, please let us know and we will precede this course with a one-day JavaScript primer.

Price for group up to 3 students:	\$5,557.08
Price for each additional student:	\$265.99
Minimum number of students:	3
Maximum number of students:	15

Locations where offered: On-site at client's location in the 48 continental US states or DC.
Class schedules: Per client's needs.

SCRPT-116 DOM Scripting, Ajax and User Interfaces Using Ext JS 4 (4 days)

<http://www.accelebrate.com/training/ext-js-4>

Accelebrate's DOM Scripting, Ajax and User Interfaces Using Ext JS 4 training course teaches attendees to use the freely-available Ext JS library to simplify many client-side scripting and user interface development challenges. Attendees will learn how to perform Document Object Model (DOM) manipulations that dynamically change the content and appearance of their Web pages, how to make Ajax requests to retrieve and incorporate new content from a server, create user interface elements, create interactive forms, and work with some of the advanced Ext JS 4 features such as drag and drop. This Ext JS 4 training class is 70% hands-on, 30% lecture, with the longest lecture segments lasting for 10 minutes. Students "learn by doing," with immediate opportunities to apply the material they learn to real-world problems.

Prerequisites: Accelebrate's Mastering JavaScript course or equivalent experience. If attendees will not have thorough knowledge of JavaScript, please let us know and we will precede this course with a one-day JavaScript primer.

Price for group up to 3 students: \$7,781.76

Price for each additional student: \$354.66

Minimum number of students: 3

Maximum number of students: 15

Locations where offered: On-site at client's location in the 48 continental US states or DC.

Class schedules: Per client's needs.

SCRPT-130 Introduction to Backbone.js (3 days)

<http://www.accelebrate.com/training/backbone-js>

Accelebrate's Backbone.js training teaches experienced HTML and JavaScript developers how to design and structure web applications using the Backbone.js framework. This Backbone.js training class is 70% hands-on, 30% lecture, with the longest lecture segments lasting for 10 minutes. Students "learn by doing," with immediate opportunities to apply the material they learn to real-world problems.

Prerequisites: All attendees must have extensive prior experience with HTML and JavaScript. If attendees do not have these prerequisites, we could precede this training with a half-day of HTML and/or up to two days of JavaScript fundamentals.

Price for group up to 3 students: \$7,874.46

Price for each additional student: \$664.99

Minimum number of students: 3

Maximum number of students: 15

Locations where offered: On-site at client's location in the 48 continental US states or DC.

Class schedules: Per client's needs.

SCRPT-140 Comprehensive Ext JS 4 (5 days)

<http://www.accelebrate.com/training/ext-js-4-comprehensive>

Accelebrate's Comprehensive Ext JS 4 training course teaches attendees to use the Ext JS library to simplify many client-side scripting and user interface development challenges. Attendees will learn how to perform Document Object Model (DOM) manipulations that dynamically change the content and appearance of their Web pages, how to make Ajax requests to retrieve and incorporate new content from a server, create user interface elements, create interactive forms, and work with some of the advanced Ext JS 4 features such as drag and drop. This Ext JS 4 training class is 70% hands-on, 30% lecture, with the longest lecture segments lasting for 10 minutes. Students "learn by doing," with immediate opportunities to apply the material they learn to real-world problems.

Prerequisites: Attendees should have a good understanding of both JavaScript and programming concepts in general. The ideas of loops, conditionals, variables, functions, arrays and objects should be second-nature.

Price for group up to 3 students:	\$9,264.89
Price for each additional student:	\$443.32
Minimum number of students:	3
Maximum number of students:	15
Locations where offered:	On-site at client's location in the 48 continental US states or DC.
Class schedules:	Per client's needs.

SRV-100 Administering Apache Tomcat (2 days)

<http://www.accelebrate.com/training/apache-tomcat>

Apache Tomcat is the most popular platform for deploying Java-based Web applications. In this two days course, attendees learn how to administer the Tomcat server, deploy applications on the server, ensure the server's security, troubleshoot problems, and cluster Tomcat to ensure high availability. This Tomcat training class is 70% hands-on, 30% lecture, with the longest lecture segments lasting for 20 minutes. Students "learn by doing," with immediate opportunities to apply the material they learn to real-world problems.

Prerequisites: All attendees should be familiar with general principles of Web server administration and have some experience building Web applications. Prior experience with Java as an application server administrator or developer is helpful but not required.

Price for group up to 3 students:	\$5,093.60
Price for each additional student:	\$221.66
Minimum number of students:	3
Maximum number of students:	15
Locations where offered:	On-site at client's location in the 48 continental US states or DC.

Class schedules: Per client's needs.

SRV-120 Introduction to Apache httpd (2 days)

<http://www.accelebrate.com/training/apache-httpd>

Apache httpd is the world's leading Web server software, with a commanding 55% market share. In this course, attendees learn how to set up, configure, administer, and secure Apache httpd. This Apache httpd training class is 70% hands-on, 30% lecture, with the longest lecture segments lasting for 20 minutes. Students "learn by doing," with immediate opportunities to apply the material they learn to real-world problems.

Prerequisites: All attendees should be familiar with general principles of Web server administration and have some experience building Web applications.

Price for group up to 3 students: \$5,093.60
Price for each additional student: \$221.66
Minimum number of students: 3
Maximum number of students: 15
Locations where offered: On-site at client's location in the 48 continental US states or DC.
Class schedules: Per client's needs.

SRV-140 Building and Deploying Web Services using Apache Axis2 (3 days)

<http://www.accelebrate.com/training/apache-axis2-web-services>

Accelebrate's Apache Axis Training: Building and Deploying Web Services using Apache Axis2 training course teaches attendees how to build and deploy web services to the Apache Axis2 platform. This class is 70% hands-on, 30% lecture, with the longest lecture segments lasting for 20 minutes.

Prerequisites: All attendees must have prior experience developing applications in Java.

Price for group up to 3 students: \$6,947.51
Price for each additional student: \$265.99
Minimum number of students: 3
Maximum number of students: 15
Locations where offered: On-site at client's location in the 48 continental US states or DC.
Class schedules: Per client's needs.

SHPT-200 Introduction to SharePoint Designer 2010 (4 days)

http://www.accelebrate.com/sharepoint_training/sharepoint_designer2010_training.htm

Accelebrate's Introduction to SharePoint Designer 2010 training course teaches students how to create and brand web sites, manage data, and generate workflows using SharePoint's free SharePoint Designer authoring tool. This SharePoint Designer 2010 training class is 70% hands-on, 30% lecture, with the longest lecture segments lasting 20 minutes.

Prerequisites: Attendees should have experience with the Internet Explorer and Office Products such as Word, Excel and Outlook. Previous experience with SharePoint (any version) is ideal but not required.

Price for group up to 3 students: \$7,874.46
Price for each additional student: \$382.37
Minimum number of students: 3
Maximum number of students: 15
Locations where offered: On-site at client's location in the 48 continental US states or DC.
Class schedules: Per client's needs.

SHPT-205 Introduction to SharePoint 2010 for Administrators (4 days)

http://www.accelebrate.com/sharepoint_training/sharepoint_admin2010_training.htm

Accelebrate's Introduction to SharePoint 2010 for Administrators training course teaches attendees how to administer SharePoint 2010. This SharePoint 2010 Administration training class is 70% hands-on, 30% lecture, with the longest lecture segments lasting 20 minutes.

Prerequisites: Attendees should have professional experience with system administration in a Windows network environment. Attendees should have previous experience installing and configuring Windows Server 2003 - 2008, Active Directory, and SQL Server. It is recommended (but not required) that attendees have previous experience working with SharePoint sites from the user perspective.

Price for group up to 3 students: \$8,337.93
Price for each additional student: \$382.37
Minimum number of students: 3
Maximum number of students: 15
Locations where offered: On-site at client's location in the 48 continental US states or DC.
Class schedules: Per client's needs.

SHPT-210 Introduction to SharePoint 2010 Development (4 days)

<http://www.accelebrate.com/training/sharepoint-2010-development>

Accelebrate's SharePoint 2010 Developer training course teaches developers how to build customized SharePoint 2010 solutions using Visual Studio 2010. This SharePoint 2010 Developer training class is 70% hands-on, 30% lecture, with the longest lecture segments lasting 20 minutes.

Prerequisites: Attendees should have professional development experience with Visual Studio, the .NET Framework, and ASP.NET, as well as familiarity with Microsoft Office products such as Word and Excel. It is also helpful (but not required) if attendees have experience with the previous version of Windows SharePoint Services 3.0 Office SharePoint Server 2007 and have experience working directly with XML files in Visual Studio.

Price for group up to 3 students: \$8,337.97
Price for each additional student: \$443.32
Minimum number of students: 3
Maximum number of students: 15
Locations where offered: On-site at client's location in the 48 continental US states or DC.
Class schedules: Per client's needs.

SHPT-225 Introduction to SharePoint Foundation 2010 (2 days)

<http://www.accelebrate.com/training/sharepoint-2010-foundation>

Accelebrate's Introduction to SharePoint 2010 training teaches first-time SharePoint users the fundamentals of creating, managing, and publishing their work in a collaborative environment. This SharePoint 2010 training class is 70% hands-on, 30% lecture, with the longest lecture segments lasting 20 minutes.

Prerequisites: No prior SharePoint experience is presumed.

Price for group up to 3 students: \$4,166.65
Price for each additional student: \$88.66
Minimum number of students: 3
Maximum number of students: 15
Locations where offered: On-site at client's location in the 48 continental US states or DC.
Class schedules: Per client's needs.

SHPT-226 Advanced SharePoint Foundation 2010 (2 days)

<http://www.accelebrate.com/training/sharepoint-2010-foundation-advanced>

Accelebrate's SharePoint Foundation 2010 training course teaches attendees to manage site collections and components in a collaborative environment. This SharePoint Foundation 2010 training class is 70% hands-on, 30% lecture, with the longest lecture segments lasting 20 minutes.

Prerequisites: All attendees should have attended Accelebrate's SharePoint Training: Introduction to SharePoint 2010 course or have equivalent experience. Some familiarity with basic Windows server concepts such as Windows 2003 and Windows 2003 concepts, PowerShell, basic concepts of coding and scripting, and Internet Information Server (IIS) is recommended but not required.

Price for group up to 3 students: \$4,166.65
Price for each additional student: \$88.66
Minimum number of students: 3
Maximum number of students: 15
Locations where offered: On-site at client's location in the 48 continental US states or DC.
Class schedules: Per client's needs.

SHPT-230 Introduction to SharePoint 2010 for End Users (2 days)

<http://www.accelebrate.com/training/sharepoint-2010-end-user>

Accelebrate's SharePoint 2010 End User training course teaches students the basics of collaborating in SharePoint 2010 using Contacts, Tasks, Links, Calendar, and document libraries. Attendees also learn to use social networking capabilities such as blogs and wikis as well as how to customize SharePoint 2010 for improved efficiency and productivity. This SharePoint 2010 for End Users training class is 70% hands-on, 30% lecture, with the longest lecture segments lasting 20 minutes.

Prerequisites: Attendees should have experience using a Web browser and interacting with Web-based systems. Some experience with Microsoft Office (any version) as well as experience with a previous version of SharePoint is a plus, but not required.

Price for group up to 3 students: \$4,166.65
Price for each additional student: \$88.66
Minimum number of students: 3
Maximum number of students: 15
Locations where offered: On-site at client's location in the 48 continental US states or DC.
Class schedules: Per client's needs.

SHPT-231 SharePoint 2010 for Site Collection Administrators (2 days)

<http://www.accelebrate.com/training/sharepoint-2010-site-collection-administration>

Accelebrate's SharePoint 2010 for Site Collection Administrators training course teaches attendees how to create, customize, secure and search content within SharePoint 2010. This SharePoint 2010 for Site Collection Administrators training class is 70% hands-on, 30% lecture, with the longest lecture segments lasting 20 minutes.

Prerequisites: Attendees should have experience using a Web browser and interacting with Web-based systems as well as hands-on experience with SharePoint 2007 or 2010 from an end user perspective. Experience with Microsoft Office (any version) as well as administrative experience with a previous version of SharePoint is a plus, but not required.

Price for group up to 3 students: \$4,166.65
Price for each additional student: \$88.66
Minimum number of students: 3
Maximum number of students: 15
Locations where offered: On-site at client's location in the 48 continental US states or DC.
Class schedules: Per client's needs.

SHPT-232 SharePoint 2010 for Power End Users (4 days)

<http://www.accelebrate.com/training/sharepoint-2010-power-end-user>

Accelebrate's SharePoint 2010 for Power End Users training course teaches students the basics of collaborating using Contacts, Tasks, Links, Calendar, and document libraries. Attendees also learn to use social networking capabilities such as blogs and wikis as well as how to customize SharePoint 2010 for improved efficiency and productivity. In addition, students will go more in depth to create, customize, secure, and search content within SharePoint 2010. This SharePoint 2010 Power End User training class is 70% hands-on, 30% lecture, with the longest lecture segments lasting 20 minutes.

Prerequisites: Attendees should have experience using a Web browser and interacting with Web-based systems as well as hands-on experience with SharePoint 2007 or 2010 from an end user perspective. Experience with Microsoft Office (any version) as well as administrative experience with a previous version of SharePoint is a plus, but not required.

Price for group up to 3 students:	\$7,410.98
Price for each additional student:	\$177.33
Minimum number of students:	3
Maximum number of students:	15
Locations where offered:	On-site at client's location in the 48 continental US states or DC.
Class schedules:	Per client's needs.

SHPT-234 SharePoint 2010 Business Intelligence (5 days)

<http://www.accelebrate.com/training/sharepoint-2010-business-intelligence>

Accelebrate's SharePoint Training: SharePoint 2010 Business Intelligence teaches attendees how to successfully build and deliver BI applications using SharePoint 2010. This SharePoint training class is 70% hands-on, 30% lecture, with the longest lecture segments lasting 20 minutes.

Prerequisites: Some prior NET development experience is required.

Price for group up to 3 students:	\$9,264.89
Price for each additional student:	\$443.32
Minimum number of students:	3
Maximum number of students:	15
Locations where offered:	On-site at client's location in the 48 continental US states or DC.
Class schedules:	Per client's needs.

SHPT-240 Using Microsoft InfoPath 2010 with SharePoint 2010 (3 days)

<http://www.accelebrate.com/training/sharepoint-2010-infopath>

Accelebrate's Using InfoPath 2010 with SharePoint 2010 Training course teaches students to create electronic business forms and workflows that provide a pleasant, reliable, and intuitive experience for users and customers. This InfoPath 2010 training class is 70% hands-on, 30% lecture, with the longest lecture segments lasting 20 minutes.

Prerequisites: All students must have solid end user familiarity with SharePoint 2010 and Office 2010. No prior InfoPath experience is presumed.

Price for group up to 3 students: \$5,732.61
Price for each additional student: \$221.66
Minimum number of students: 3
Maximum number of students: 15
Locations where offered: On-site at client's location in the 48 continental US states or DC.
Class schedules: Per client's needs.

SHPT-242 PowerShell 2 for SharePoint 2010 Automation (5 days)

<http://www.accelebrate.com/training/sharepoint-2010-powershell-2>

Accelebrate's SharePoint 2010 PowerShell training: PowerShell 2 for SharePoint 2010 Automation training class teaches attendees how to write PowerShell scripts that control SharePoint 2010. This training class is 60% hands-on, 40% lecture, with the longest lecture segments lasting 20 minutes.

Prerequisites: All attendees should have prior programming or scripting experience, and prior experience automating SharePoint 2010.

Price for group up to 3 students: \$9,264.89
Price for each additional student: \$443.32
Minimum number of students: 3
Maximum number of students: 15
Locations where offered: On-site at client's location in the 48 continental US states or DC.
Class schedules: Per client's needs.

SHPT-305 Introduction to SharePoint 2013 for Administrators (5 days)

<http://www.accelebrate.com/training/sharepoint-2013-administration>

Accelebrate's Introduction to SharePoint 2013 for Administrators training course teaches systems administrators how to administer SharePoint 2013. This SharePoint 2013 Administration Training class is 70% hands-on, 30% lecture, with the longest lecture segments lasting 25 minutes.

Prerequisites: Attendees should have experience working as an IT professional in a Windows network environment and be familiar with installing and configuring Windows Server 2008 or 2012, Active Directory and SQL Server. It is recommended (but not required) that attendees have user-level experience with any version of SharePoint.

Price for group up to 3 students: \$8,600.23
Price for each additional student: \$443.32
Minimum number of students: 3
Maximum number of students: 15

Locations where offered: On-site at client's location in the 48 continental US states or DC.
Class schedules: Per client's needs.

SHPT-310 Introduction to SharePoint 2013 Development (5 days)

<http://www.accelebrate.com/training/sharepoint-2013-development>

Accelebrate's Introduction to SharePoint 2013 Development training course teaches experienced .NET developers how to create robust solutions using SharePoint 2013. This SharePoint 2013 Developer Training class is 70% hands-on, 30% lecture, with the longest lecture segments lasting 20 minutes.

Prerequisites: Attendees should have professional development experience with Visual Studio, the .NET Framework and ASP.NET as well as familiarity with Microsoft Office products such as Word and Excel. It is also recommended (but not required) that attendees have a background with the previous version of SharePoint Foundation 2010 / SharePoint Server 2010 and have experience working directly with XML files in Visual Studio.

Price for group up to 3 students: \$8,337.93
Price for each additional student: \$443.32
Minimum number of students: 3
Maximum number of students: 15
Locations where offered: On-site at client's location in the 48 continental US states or DC.
Class schedules: Per client's needs.

SPRG-102 Introduction to the Spring 3 Framework (4 days)

<http://www.accelebrate.com/training/spring-framework-3>

Accelebrate's Spring Framework training course teaches attendees how to build Java applications using the Spring 3 framework. This class is 70% hands-on, 30% lecture, with the longest lecture segments lasting for 20 minutes.

Prerequisites: All Spring 3 training attendees must have at least one year of full-time Java and JSP development experience. Prior experience with EJB and Java web services is recommended but not required.

Price for group up to 3 students: \$8,616.02
Price for each additional student: \$354.66
Minimum number of students: 3
Maximum number of students: 15
Locations where offered: On-site at client's location in the 48 continental US states or DC.
Class schedules: Per client's needs.

SPRG-104 Introduction to the Spring 4 Framework (5 days)

<https://www.accelebrate.com/training/spring-framework-4>

Accelebrate's Spring 4 Framework training course teaches attendees how to build full-stack Java

EE applications and services using the Spring 4 framework. This Spring 4 Framework course is 70% hands-on, 30% lecture, with the longest lecture segments lasting for 20 minutes.

Prerequisites: All attendees receive a copy of the latest edition of Manning's Spring in Action and related courseware.

Price for group up to 3 students: \$10,191.84
Price for each additional student: \$443.32
Minimum number of students: 3
Maximum number of students: 15
Locations where offered: On-site at client's location in the 48 continental US states or DC.
Class schedules: Per client's needs.

SPRG-130 Introduction to Spring Framework 3 and Spring Web Flow 2 (5 days)

<http://www.accelebrate.com/training/spring-framework-3-web-flow-2>

Accelebrate's Spring Framework and Spring Web Flow training teaches experienced Java EE developers how to build dynamic web applications using the Spring Framework 3 and Spring Web Flow 2. This Spring Framework and Spring Web Flow training class is 70% hands-on, 30% lecture, with the longest lecture segments lasting for 20 minutes.

Prerequisites: All Spring Framework and Spring Web Flow training attendees must have at least one year of full-time Java and JSP development experience. Prior experience with EJB and Java web services is recommended but not required.

Price for group up to 3 students: \$10,191.84
Price for each additional student: \$443.32
Minimum number of students: 3
Maximum number of students: 15
Locations where offered: On-site at client's location in the 48 continental US states or DC.
Class schedules: Per client's needs.

SPRG-150 Introduction to Spring Batch (2 days)

http://www.accelebrate.com/spring_framework_training/spring_batch_training.htm

Accelebrate's Spring Batch Training: Introduction to Spring Batch course teaches attendees how to automate batch processing of tasks using the Spring Batch framework. This class is 70% hands-on, 30% lecture, with the longest lecture segments lasting for 20 minutes.

Prerequisites: All attendees should be experienced Java SE developers and have familiar with Core Spring, as taught in Accelebrate's Introduction to the Spring Framework training.

Price for group up to 3 students: \$5,325.34
Price for each additional student: \$221.66

Minimum number of students: 3
Maximum number of students: 15
Locations where offered: On-site at client's location in the 48 continental US states or DC.
Class schedules: Per client's needs.

SPRG-160 Introduction to Spring Integration (3 days)

<http://www.accelebrate.com/training/spring-integration>

Accelebrate's Spring Integration Training: Introduction to Spring Integration training course teaches attendees how to use the Spring Integration framework for enterprise application integration. This class is 70% hands-on, 30% lecture, with the longest lecture segments lasting for 20 minutes.

Prerequisites: All attendees should be experienced Java SE developers and have familiar with Core Spring, as taught in Accelebrate's Introduction to the Spring 3 Framework training.

Price for group up to 3 students: \$7,318.29
Price for each additional student: \$265.99
Minimum number of students: 3
Maximum number of students: 15
Locations where offered: On-site at client's location in the 48 continental US states or DC.
Class schedules: Per client's needs.

SPRG-170 Introduction to Spring Enterprise Integration (5 days)

<http://www.accelebrate.com/training/spring-enterprise-integration>

Accelebrate's Spring Enterprise Integration Training: Introduction to Spring Enterprise Integration training course teaches attendees how to automate batch processing of tasks using the Spring Batch framework and to use the Spring Integration framework for enterprise application integration. This class is 70% hands-on, 30% lecture, with the longest lecture segments lasting for 20 minutes.

Prerequisites: All attendees should be experienced Java SE developers and have familiar with Core Spring, as taught in Accelebrate's Introduction to the Spring 3 Framework training.

Price for group up to 3 students: \$10,655.31
Price for each additional student: \$443.32
Minimum number of students: 3
Maximum number of students: 15
Locations where offered: On-site at client's location in the 48 continental US states or DC.
Class schedules: Per client's needs.

SPRG-180 Introduction to Spring Boot (2 days)

<https://www.accelebrate.com/training/spring-boot>

Spring Boot allows Java developers to create standalone Spring applications that "just run,"

typically using an embedded instance of Tomcat, Jetty, or Undertow. These Spring Boot applications require no code generation or XML configuration, while at the same time they feature integrated health monitoring, simplified Maven configuration, and a host of other features that make building, deploying, and running your Spring applications far easier. Accelebrate's Spring Boot training teaches experienced Spring developers the skills they need to get up and running with Spring Boot. This Spring Boot class is 70% hands-on, 30% lecture, with the longest lecture segments lasting 20 minutes.

Prerequisites: All attendees must already have a strong understanding of Spring Core and ideally Spring MVC as well.

Price for group up to 3 students:	\$5,093.60
Price for each additional student:	\$221.66
Minimum number of students:	3
Maximum number of students:	15
Locations where offered:	On-site at client's location in the 48 continental US states or DC.
Class schedules:	Per client's needs.

SQL-140 Introduction to T-SQL for SQL Server for Report Writers (2 days)

<http://www.accelebrate.com/training/sql-server-t-sql>

Accelebrate's Introduction to T-SQL for SQL Server for Report Writers training class teaches attendees the T-SQL and SQL Server skills they need to develop queries, views, and stored procedures for SQL Server. Note: If you are a developer, we encourage you to consider our Introduction to T-SQL for Developers class as an alternative to this class. All audiences may also wish to consider our SSRS Training: Introduction to SQL Server 2005 Reporting Services class.

This class is 70% hands-on, 30% lecture, with the longest lecture segments lasting for 10 minutes.

Prerequisites: This course can be adapted to any level of prior SQL Server and relational database experience.

Price for group up to 3 students:	\$4,630.13
Price for each additional student:	\$177.33
Minimum number of students:	3
Maximum number of students:	15
Locations where offered:	On-site at client's location in the 48 continental US states or DC.
Class schedules:	Per client's needs.

SQL-170 Introduction to SQL Using MySQL (2 days)

<http://www.accelebrate.com/training/mysql-sql>

Accelebrate's Introduction to SQL using MySQL course is designed for students new to writing SQL queries using MySQL. This MySQL training class is 65% hands-on, 35% lecture, with the

longest lecture segments lasting for 20 minutes. Students "learn by doing," with immediate opportunities to apply the material they learn to real-world problems.

Prerequisites: Experience in basic computer literacy with previous experience with command-line programs and some knowledge of database concepts is required. Some knowledge of data retrieval and reporting would be beneficial.

Price for group up to 3 students:	\$4,630.13
Price for each additional student:	\$221.66
Minimum number of students:	3
Maximum number of students:	15
Locations where offered:	On-site at client's location in the 48 continental US states or DC.
Class schedules:	Per client's needs.

SQL-200 Introduction to SQL Server 2008 for Developers and Query Writers (5 days)

<http://www.accelebrate.com/training/sql-server-2008-developer-query-writer>

Accelebrate's SQL Server 2008 training: Introduction to SQL Server 2008 for Developers and Query Writers training course teaches attendees the skills they need to successfully build, query, and interact with Microsoft SQL Server 2008. This class is 70% hands-on, 30% lecture, with the longest lecture segments lasting for 10 minutes.

Prerequisites: No prior experience is presumed.

Price for group up to 3 students:	\$8,337.93
Price for each additional student:	\$443.32
Minimum number of students:	3
Maximum number of students:	15
Locations where offered:	On-site at client's location in the 48 continental US states or DC.
Class schedules:	Per client's needs.

SQL-202 New Features for SQL Server 2008 R2 for Developers (2 days)

<http://www.accelebrate.com/training/sql-server-2008-r2-new-features>

Accelebrate's SQL Server 2008 R2 Training: New Features for SQL Server 2008 R2 Developers training course teaches experienced SQL Server 2008 developers the new features in SQL Server 2008 R2. This class is 70% hands-on, 30% lecture, with the longest lecture segments lasting for 10 minutes.

Prerequisites: All attendees should have prior development experience with the original release of SQL Server 2008.

Price for group up to 3 students:	\$5,093.60
Price for each additional student:	\$221.66

Minimum number of students: 3
Maximum number of students: 15
Locations where offered: On-site at client's location in the 48 continental US states or DC.
Class schedules: Per client's needs.

SQL-204 SQL Server 2008 Performance Tuning (3 days)

<http://www.accelebrate.com/training/sql-server-2008-perfomance-tuning>

Accelebrate's Introduction to SQL Server 2008 Reporting Services (SQL Server) training teaches attendees how to create, test, and distribute SQL Server 2008 Reporting Services reports. In addition, this SQL Server training optionally teaches attendees how to interface with SQL Server from .NET applications. This SQL Server training is 50% hands-on, 50% lecture, with the longest lecture segments lasting for 40 minutes.

Prerequisites: All attendees must have extensive familiarity with SQL (and ideally with Transact-SQL) prior to the class.

Price for group up to 3 students: \$6,391.34
Price for each additional student: \$265.99
Minimum number of students: 3
Maximum number of students: 15
Locations where offered: On-site at client's location in the 48 continental US states or DC.
Class schedules: Per client's needs.

SQL-212 Introduction to SQL Server 2008 for Administrators (4 days)

<http://www.accelebrate.com/training/sql-server-2008-administration>

Accelebrate's SQL Server 2008 Administration training teaches administrators how to successfully administer SQL Server 2008. This class is 65% hands-on, 35% lecture, with the longest lecture segments lasting for 20 minutes.

Prerequisites: No prior experience is presumed.

Price for group up to 3 students: \$7,410.98
Price for each additional student: \$354.66
Minimum number of students: 3
Maximum number of students: 15
Locations where offered: On-site at client's location in the 48 continental US states or DC.
Class schedules: Per client's needs.

SQL-215 T-SQL for SQL Server 2008 for Developers (3 days)

<http://www.accelebrate.com/training/sql-server-t-sql-development>

Accelebrate's T-SQL for SQL Server 2008 for Developers training teaches developers all the Transact-SQL skills they need to develop queries, views, functions, stored procedures, and triggers in SQL Server, as well as embed .NET code. Note: All audiences may also wish to consider

our SSRS Training: Introduction to SQL Server 2008 Reporting Services class. This class is 70% hands-on, 30% lecture, with the longest lecture segments lasting for 10 minutes.

Prerequisites: This course can be adapted to any level of prior SQL Server and relational database experience.

Price for group up to 3 students:	\$6,391.34
Price for each additional student:	\$265.99
Minimum number of students:	3
Maximum number of students:	15
Locations where offered:	On-site at client's location in the 48 continental US states or DC.
Class schedules:	Per client's needs.

SQL-220 Introduction to SQL Server 2008 Reporting Services (SSRS) (3 days)

<http://www.accelebrate.com/training/sql-server-2008-ssrs>

Accelebrate's Introduction to SQL Server 2008 Reporting Services (SSRS) training teaches attendees how to create, test, and distribute SQL Server 2008 Reporting Services reports. In addition, this SSRS training optionally teaches attendees how to interface with SSRS from .NET applications. This SSRS training is 70% hands-on, 30% lecture, with the longest lecture segments lasting for 10 minutes.

Prerequisites: All SSRS training attendees should have prior experience with relational databases and writing SQL queries for SQL Server 2008.

Price for group up to 3 students:	\$6,391.34
Price for each additional student:	\$265.99
Minimum number of students:	3
Maximum number of students:	15
Locations where offered:	On-site at client's location in the 48 continental US states or DC.
Class schedules:	Per client's needs.

SQL-222 Introduction to SQL Server 2008 Analysis Services (SSAS) (3 days)

<http://www.accelebrate.com/training/sql-server-2008-ssas>

Accelebrate's Introduction to SQL Server 2008 Analysis Services training teaches attendees best-practice usage of SQL Server 2008 Analysis Services (SSAS). This SSAS training class is 50% hands-on, 50% lecture, with the longest lecture segments lasting for 20 minutes.

Prerequisites: All SSAS training attendees should have prior experience with SQL Server 2008.

Price for group up to 3 students:	\$6,391.34
Price for each additional student:	\$265.99
Minimum number of students:	3

Maximum number of students: 15
Locations where offered: On-site at client's location in the 48 continental US states or DC.
Class schedules: Per client's needs.

SQL-224 Introduction to SQL Server 2008 Integration Services (SSIS) (3 days)

<http://www.accelebrate.com/training/sql-server-2008-ssis>

Accelebrate's Introduction to SQL Server 2008 Integration Services training teaches attendees how to use SSIS to build high performance data integration solutions. SSIS training clients currently using DTS are encouraged to bring a package or two of reasonable size and complexity to class as a case study for porting a DTS package to SSIS. This SSIS 2008 training is 70% hands-on, 30% lecture, with the longest lecture segments lasting for 10 minutes.

Prerequisites: All SSIS 2008 training attendees should have prior experience working with SQL Server 2008.

Price for group up to 3 students: \$6,391.34
Price for each additional student: \$265.99
Minimum number of students: 3
Maximum number of students: 15
Locations where offered: On-site at client's location in the 48 continental US states or DC.
Class schedules: Per client's needs.

SQL-230 SQL Server 2008 MDX (3 days)

<http://www.accelebrate.com/training/sql-server-2008-mdx>

Accelebrate's SQL Server 2008 MDX training teaches attendees the core techniques for using MDX with Analysis Services to deliver high-performance business intelligence solutions. This SQL Server 2008 MDX training class is 50% hands-on, 50% lecture, with the longest lecture segments lasting for 20 minutes.

Prerequisites: All SQL Server 2008 MDX training attendees should have prior experience with SQL Server 2008.

Price for group up to 3 students: \$6,391.34
Price for each additional student: \$265.99
Minimum number of students: 3
Maximum number of students: 15
Locations where offered: On-site at client's location in the 48 continental US states or DC.
Class schedules: Per client's needs.

SQL-300 Introduction to SQL Server 2012 for Query Writers (3 days)

<http://www.accelebrate.com/training/sql-server-2012-query-writers>

Accelebrate's SQL Server 2012 training: Introduction to SQL Server 2012 for Query Writers training course teaches attendees the skills they need to successfully query and modify data in

SQL Server 2012. This class is 70% hands-on, 30% lecture, with the longest lecture segments lasting for 10 minutes.

Prerequisites: No prior experience is presumed.

Price for group up to 3 students: \$6,391.34
Price for each additional student: \$265.99
Minimum number of students: 3
Maximum number of students: 15
Locations where offered: On-site at client's location in the 48 continental US states or DC.
Class schedules: Per client's needs.

SQL-301 Introduction to SQL Server 2012 for Developers (5 days)

<http://www.accelebrate.com/training/sql-server-2012-development>

Accelebrate's SQL Server 2012 training: Introduction to SQL Server 2012 for Developers training course teaches attendees the skills they need to successfully create and modify databases and to successfully query and update their data. In addition, attendees learn how to write stored procedures, functions, and views. This class is 70% hands-on, 30% lecture, with the longest lecture segments lasting for 10 minutes.

Prerequisites: No prior experience is presumed.

Price for group up to 3 students: \$8,801.41
Price for each additional student: \$443.32
Minimum number of students: 3
Maximum number of students: 15
Locations where offered: On-site at client's location in the 48 continental US states or DC.
Class schedules: Per client's needs.

SQL-304 SQL Server 2012 Performance Tuning (3 days)

<http://www.accelebrate.com/training/sql-server-2012-performance-tuning>

Accelebrate's SQL Server 2012 Performance Tuning training class teaches attendees how to tune their indexes, database engine, queries, and other features to achieve optimal performance. SQL Server 2012 Training: SQL Server 2012 Performance Tuning Course Number: SQL- Duration: 3 days view class outline Looking for SQL Server 2008 Performance Tuning training? SQL Server 2012 Performance Tuning Training Overview Accelebrate's SQL Server 2012 Performance Tuning training class teaches attendees how to tune their indexes, database engine, queries, and other features to achieve optimal performance. Note: This course is designed for administrators who are new to tuning SQL Server 2012, rather than developers. Location and Pricing Most Accelebrate courses are taught on-site at our clients' locations worldwide for groups of 3 or more attendees and are customized to their specific needs. Please visit our client list to see organizations for whom we have recently delivered training. These courses can also be delivered as live, private online classes for groups that are geographically dispersed or wish to save on the

instructor's or students' travel expenses. To receive a customized proposal and price quote private training at your site or online, please contact us. In addition, some courses are available as live, online classes for individuals. To see a schedule of online courses, please visit http://www.accelebrate.com/online_training/?action=category&page=mssql. **SQL Server 2012 Performance Tuning Training Prerequisites** This course is designed for SQL Server administrators who have prior SQL query writing experience but are new to tuning the SQL Server. If your audience has substantial prior SQL Server tuning experience, this course is not recommended. Hands-on/Lecture Ratio This SQL Server training is 50% hands-on, 50% lecture, with the longest lecture segments lasting for 40 minutes.

Prerequisites: This course is designed for SQL Server administrators who have prior SQL query writing experience but are relatively new to tuning SQL Server. This course assumes an existing understanding of relational database concepts and general SQL Server administration topics. If your audience has substantial prior SQL Server tuning experience, this course is not recommended.

Price for group up to 3 students:	\$6,391.34
Price for each additional student:	\$265.99
Minimum number of students:	3
Maximum number of students:	15
Locations where offered:	On-site at client's location in the 48 continental US states or DC.
Class schedules:	Per client's needs.

SQL-312 Introduction to SQL Server 2012 for Administrators (4 days)

<http://www.accelebrate.com/training/sql-server-2012-administration>

Accelebrate's SQL Server 2012 Administration training teaches administrators how to successfully administer SQL Server 2012. This class is 65% hands-on, 35% lecture, with the longest lecture segments lasting for 20 minutes.

Prerequisites: No prior experience is presumed.

Price for group up to 3 students:	\$7,410.96
Price for each additional student:	\$354.66
Minimum number of students:	3
Maximum number of students:	15
Locations where offered:	On-site at client's location in the 48 continental US states or DC.
Class schedules:	Per client's needs.

SQL-320 SQL Server 2012 Reporting Services for Report Writers (SSRS) (3 days)

<http://www.accelebrate.com/training/sql-server-2012-ssrs>

Accelebrate's Introduction to SQL Server 2012 Reporting Services (SSRS) training teaches attendees how to create, test, and distribute SQL Server 2012 Reporting Services reports. This

SSRS 2012 training is 70% hands-on, 30% lecture, with the longest lecture segments lasting for 10 minutes.

Prerequisites: This course is designed for SQL Server administrators who have prior SQL query writing experience but are relatively new to tuning SQL Server. This course assumes an existing understanding of relational database concepts and general SQL Server administration topics. If your audience has substantial prior SQL Server tuning experience, this course is not recommended.

Price for group up to 3 students:	\$6,391.34
Price for each additional student:	\$265.99
Minimum number of students:	3
Maximum number of students:	15
Locations where offered:	On-site at client's location in the 48 continental US states or DC.
Class schedules:	Per client's needs.

SQL-322 Introduction to SQL Server 2012 Analysis Services (SSAS) (Multi-Dimensional) (3 days)

<http://www.accelebrate.com/training/sql-server-2012-ssas>

Accelebrate's Introduction to SQL Server 2012 Analysis Services training provides attendees with knowledge and experience working with SQL Server 2012 multi-dimensional Analysis Services (SSAS) development, administration, and queries. This SSAS training class is 50% hands-on, 50% lecture, with the longest lecture segments lasting for 20 minutes.

Prerequisites: All SSAS training attendees should have prior experience with SQL Server 2012.

Price for group up to 3 students:	\$6,391.34
Price for each additional student:	\$265.99
Minimum number of students:	3
Maximum number of students:	15
Locations where offered:	On-site at client's location in the 48 continental US states or DC.
Class schedules:	Per client's needs.

SQL-324 Introduction to SQL Server 2012 Integration Services (SSIS) (4 days)

<http://www.accelebrate.com/training/sql-server-2012-ssis>

Accelebrate's Introduction to SQL Server 2012 Integration Services training teaches attendees how to use SSIS to build high performance data integration solutions. This SSIS 2012 training is 70% hands-on, 30% lecture, with the longest lecture segments lasting for 10 minutes.

Prerequisites: All SSIS 2012 training attendees should have prior experience working with SQL Server 2012.

Price for group up to 3 students:	\$7,874.46
	\$354.66

Price for each additional student:

Minimum number of students: 3
Maximum number of students: 15
Locations where offered: On-site at client's location in the 48 continental US states or DC.
Class schedules: Per client's needs.

SQL-330 Introduction to SQL Server 2012 MDX (3 days)

<http://www.accelebrate.com/training/sql-server-2012-mdx-triaining>

Accelebrate's SQL Server 2012 MDX training teaches attendees the core techniques for using MDX with Analysis Services to deliver high-performance business intelligence solutions. This SQL Server 2012 MDX training class is 50% hands-on, 50% lecture, with the longest lecture segments lasting for 20 minutes.

Prerequisites: All SQL Server 2012 MDX training attendees should have prior experience with SQL Server Analysis Services version 2005 or 2008.

Price for group up to 3

students: \$6,391.34

Price for each additional student: \$265.99

student:

Minimum number of students: 3
Maximum number of students: 15
Locations where offered: On-site at client's location in the 48 continental US states or DC.
Class schedules: Per client's needs.

SQL-420 SQL Server 2014 Reporting Services for Report Writers (SSRS) (3 days)

<https://www.accelebrate.com/training/sql-server-2014-ssrs>

Accelebrate's Introduction to SQL Server 2014 Reporting Services (SSRS) training teaches attendees how to create, format, and manage SQL Server 2014 Reporting Services reports. This class focuses primarily on the Report Designer tool in the SSDT-BI for Visual Studio 2013. Attendees will also work in and become familiar with Report Builder and Report Manager. This SSRS 2014 Training is 70% hands-on, 30% lecture, with the longest lecture segments lasting for 10 minutes.

Prerequisites: All attendees must have a general familiarity with databases prior to the class. Working knowledge of Microsoft SQL Server or Microsoft Office applications is encouraged. Note: By default, this course is designed for participants who do not have prior experience with SSRS 2014 (or 2012 or 2008 R2, which are notably similar). If your group does have experience, please let us know and we will tailor your course accordingly.

Price for group up to 3

students: \$6,484.03

Price for each additional student: \$265.99

student:

Minimum number of students: 3
Maximum number of students: 15

Locations where offered: On-site at client's location in the 48 continental US states or DC.
Class schedules: Per client's needs.

SQL-424 Introduction to SQL Server 2014 Integration Services (SSIS) (4 days)

<https://www.accelebrate.com/training/sql-server-2014-ssis>

Accelebrate's Introduction to SQL Server 2014 Integration Services (SSIS) course teaches attendees how to use SSIS to build high performance ETL (Extract, Transform, and Load) and workflow packages and projects. This SSIS 2014 class is 70% hands-on, 30% lecture, with the longest lecture segments lasting for 15 minutes.

Prerequisites: All attendees should have prior experience working with SQL Server 2014. Some basic programming background is helpful, but not required.

Price for group up to 3

students: \$7,874.46

Price for each additional student: \$354.66

Minimum number of students: 3

Maximum number of students: 15

Locations where offered: On-site at client's location in the 48 continental US states or DC.

Class schedules: Per client's needs.

SQL-426 Developing and Administering SQL Server 2014 Integration Services (SSIS) (5 days)

<https://www.accelebrate.com/training/developing-administering-sql-server-2014-ssis>

Accelebrate's Introduction to SQL Server 2014 Integration Services (SSIS) class teaches attendees how to use SSIS to build, deploy, maintain, and secure Integration Services projects and packages. SSIS is used to extract, transform, and load data to and from SQL Server. This SSIS 2014 training is 60% hands-on, 40% lecture, with the longest lecture segments lasting for 25 minutes.

Prerequisites: All students should have prior experience working with SQL Server 2014. Some basic programming background is helpful, but not required.

Price for group up to 3

students: \$9,264.89

Price for each additional student: \$443.32

Minimum number of students: 3

Maximum number of students: 15

Locations where offered: On-site at client's location in the 48 continental US states or DC.

Class schedules: Per client's needs.

SWFT-100 Introduction to the Swift Programming Language (4 days)

<https://www.accelebrate.com/training/swift-programming>

Accelebrate's Swift training course introduces attendees to Apple's new programming language for Cocoa and Cocoa Touch. During the course, attendees complete hands-on lab exercises that involve building applications for both the iOS and OS X platforms. This Swift class is

70% hands-on, 30% lecture, with the longest lecture segments lasting for 20 minutes.

Prerequisites: All attendees must have some previous programming experience (any language). Familiarity with object-oriented programming concepts is recommended but not required. Attendees must have some experience using the OS X operating system (launching applications, working with files, etc.)

Price for group up to 3 students:	\$8,801.41
Price for each additional student:	\$354.66
Minimum number of students:	3
Maximum number of students:	15
Locations where offered:	On-site at client's location in the 48 continental US states or DC.
Class schedules:	Per client's needs.

SWFT-110 Swift for Experienced Objective-C Programmers (3 days)

<https://www.accelebrate.com/training/swift-objective-c-programmers>

Accelebrate's Swift training course introduces attendees to Apple's new programming language for Cocoa and Cocoa Touch. During the course, attendees complete hands-on lab exercises that involve building applications for both the iOS and OS X platforms. This iOS Development class is 70% hands-on, 30% lecture, with the longest lecture segments lasting for 20 minutes.

Prerequisites: All attendees must have extensive experience with the Objective-C programming language. Previous experience building OS X or iOS applications using Xcode is assumed

Price for group up to 3 students:	\$6,947.51
Price for each additional student:	\$265.99
Minimum number of students:	3
Maximum number of students:	15
Locations where offered:	On-site at client's location in the 48 continental US states or DC.
Class schedules:	Per client's needs.

VBNET-106 Introduction to VB 11.0 using Visual Basic 2012/2013 (5 days)

<https://www.accelebrate.com/training/vb-net-4-5-2012>

Accelebrate's Visual Basic 2012 training course teaches attendees to program in Visual Basic 11.0 using Visual Studio 2012. This Visual Basic training class is 70% hands-on, 30% lecture, with the longest lecture segments lasting 15-20 minutes.

Prerequisites: Attendees should have prior full-time programming experience.

Price for group up to 3 students:	\$9,264.89
Price for each additional student:	\$443.32

Minimum number of students: 3
Maximum number of students: 15
Locations where offered: On-site at client's location in the 48 continental US states or DC.
Class schedules: Per client's needs.

VBNET-400 Building XML Applications using Visual Basic with .NET 4.0 (4 days)

<http://www.accelebrate.com/training/vb-net-4-0-2010-xml>

Accelebrate's Visual Basic with .NET 4.0 XML Training course teaches attendees how to produce, parse, search, and transform XML Using Visual Basic 4.0 and Visual Studio 2010. This Visual Basic .NET 4.0 XML Training class is 70% hands-on, 30% lecture, with the longest lecture segments lasting for 15 minutes.

Prerequisites: All attendees must be comfortable developing with Visual Basic 4.0 and Visual Studio 2010, and understand the fundamentals of well-formed XML markup.

Price for group up to 3 students: \$7,781.76
Price for each additional student: \$354.66
Minimum number of students: 3
Maximum number of students: 15
Locations where offered: On-site at client's location in the 48 continental US states or DC.
Class schedules: Per client's needs.

VBA-112 Excel 2007 VBA (2 days)

<http://www.accelebrate.com/training/vba-excel-2007>

Accelebrate's Excel VBA Training: Excel 2007 VBA training teaches attendees everything they need to know to create VBA applications within Excel. This Excel 2007 VBA training class is 70% hands-on, 30% lecture, with the longest lecture segments lasting for 20 minutes. Students "learn by doing," with immediate opportunities to apply the material they learn to real-world problems.

Prerequisites: All attendees must have prior knowledge of Excel 2007. Prior scripting or programming knowledge is very helpful but not required.

Price for group up to 3 students: \$4,630.13
Price for each additional student: \$177.33
Minimum number of students: 3
Maximum number of students: 15
Locations where offered: On-site at client's location in the 48 continental US states or DC.
Class schedules: Per client's needs.

VBA-113 Excel 2007 VBA Including Your VBA Projects (3 days)

<http://www.accelebrate.com/training/vba-excel-2007-vba-projects>

Accelebrate's Excel VBA Training: Excel 2007 VBA training teaches attendees everything they need to know to create VBA applications within Excel. This Excel 2007 VBA training class is 70%

hands-on, 30% lecture, with the longest lecture segments lasting for 20 minutes. Students "learn by doing," with immediate opportunities to apply the material they learn to real-world problems. *Prerequisites:* All attendees must have prior knowledge of Excel 2007. Prior scripting or programming knowledge is very helpful but not required.

Price for group up to 3 students: \$6,479.40
Price for each additional student: \$177.33
Minimum number of students: 3
Maximum number of students: 15
Locations where offered: On-site at client's location in the 48 continental US states or DC.
Class schedules: Per client's needs.

VBA-114 Introduction to Access 2007 VBA (1 day)

<http://www.accelebrate.com/training/vba-access-2007>

Accelebrate's Introduction to Access 2007 VBA training course teaches experienced Access 2007 users how to automate Microsoft Access using VBA (Visual Basic for Applications). This Access 2007 VBA training class is 70% hands-on, 30% lecture, with the longest lecture segments lasting for 20 minutes. Students "learn by doing," with immediate opportunities to apply the material they learn to real-world problems.

Prerequisites: All attendees must be well-versed users of Microsoft Access 2007.

Price for group up to 3 students: \$2,776.22
Price for each additional student: \$110.83
Minimum number of students: 3
Maximum number of students: 15
Locations where offered: On-site at client's location in the 48 continental US states or DC.
Class schedules: Per client's needs.

VBA-115 Introduction to Access 2007 VBA Including Your VBA Projects (2 days)

<http://www.accelebrate.com/training/vba-access-2007-vba-projects>

Accelebrate's Introduction to Access 2007 VBA training course teaches experienced Access 2007 users how to automate Microsoft Access using VBA (Visual Basic for Applications). This Access 2007 VBA training class is 70% hands-on, 30% lecture, with the longest lecture segments lasting for 20 minutes. Students "learn by doing," with immediate opportunities to apply the material they learn to real-world problems.

Prerequisites: All attendees must be well-versed users of Microsoft Access 2007.

Price for group up to 3 students: \$4,625.49
Price for each additional student: \$110.83

Minimum number of students: 3
Maximum number of students: 15
Locations where offered: On-site at client's location in the 48 continental US states or DC.
Class schedules: Per client's needs.

VBA-116 VBA for Excel 2007 and Access 2007 (3 days)

<http://www.accelebrate.com/training/vba-excel-access-2007>

Accelebrate's Access and Excel VBA training: VBA for Excel 2007 and Access 2007 training teaches attendees how to automate Microsoft Excel and Microsoft Access using VBA 2007. This Access and Excel VBA training class is 70% hands-on, 30% lecture, with the longest lecture segments lasting for 20 minutes. Students "learn by doing," with immediate opportunities to apply the material they learn to real-world problems.

Prerequisites: All attendees must have prior knowledge of Excel 2007 and be well-versed users of Microsoft Access 2007. Prior scripting or programming knowledge is very helpful but not required.

Price for group up to 3 students: \$6,020.55
Price for each additional student: \$265.99
Minimum number of students: 3
Maximum number of students: 15
Locations where offered: On-site at client's location in the 48 continental US states or DC.
Class schedules: Per client's needs.

VBA-117 VBA for Excel 2007 and Access 2007 Including Your VBA Projects (4 days)

<http://www.accelebrate.com/training/vba-excel-access-2007-vba-projects>

Accelebrate's Access and Excel VBA training: VBA for Excel 2007 and Access 2007 training teaches attendees how to automate Microsoft Excel and Microsoft Access using VBA 2007. This Access and Excel VBA training class is 70% hands-on, 30% lecture, with the longest lecture segments lasting for 20 minutes. Students "learn by doing," with immediate opportunities to apply the material they learn to real-world problems.

Prerequisites: All attendees must have prior knowledge of Excel 2007 and be well-versed users of Microsoft Access 2007. Prior scripting or programming knowledge is very helpful but not required.

Price for group up to 3 students: \$7,869.82
Price for each additional student: \$265.99
Minimum number of students: 3
Maximum number of students: 15
Locations where offered: On-site at client's location in the 48 continental US states or DC.
Class schedules: Per client's needs.

VBA-118 Excel 2010 VBA (2 days)

<http://www.accelebrate.com/training/vba-excel-2010>

Accelebrate's Excel VBA Training: Excel 2010 VBA training teaches attendees everything they need to know to create VBA applications within Excel. This Excel 2010 VBA training class is 70% hands-on, 30% lecture, with the longest lecture segments lasting for 20 minutes. Students "learn by doing," with immediate opportunities to apply the material they learn to real-world problems. *Prerequisites:* All attendees must have prior knowledge of Excel 2010. Prior scripting or programming knowledge is very helpful but not required.

Price for group up to 3 students: \$4,630.13
Price for each additional student: \$177.33
Minimum number of students: 3
Maximum number of students: 15
Locations where offered: On-site at client's location in the 48 continental US states or DC.
Class schedules: Per client's needs.

VBA-119 Excel 2010 VBA Including Your VBA Projects (3 days)

<http://www.accelebrate.com/training/vba-excel-2010-vba-projects>

Accelebrate's Excel VBA Training: Excel 2010 VBA training teaches attendees everything they need to know to create VBA applications within Excel. This Excel 2010 VBA training class is 70% hands-on, 30% lecture, with the longest lecture segments lasting for 20 minutes. Students "learn by doing," with immediate opportunities to apply the material they learn to real-world problems. *Prerequisites:* All attendees must have prior knowledge of Excel 2010. Prior scripting or programming knowledge is very helpful but not required.

Price for group up to 3 students: \$6,479.40
Price for each additional student: \$177.33
Minimum number of students: 3
Maximum number of students: 15
Locations where offered: On-site at client's location in the 48 continental US states or DC.
Class schedules: Per client's needs.

VBA-120 Excel 2013 VBA (2 days)

<http://www.accelebrate.com/training/vba-excel-2013>

Accelebrate's Excel VBA Training: Excel 2013 VBA training teaches attendees everything they need to know to create VBA applications within Excel. This Excel 2013 VBA training class is 70% hands-on, 30% lecture, with the longest lecture segments lasting for 20 minutes. Students "learn by doing," with immediate opportunities to apply the material they learn to real-world problems. *Prerequisites:* All attendees must have prior knowledge of Excel 2013. Prior scripting or programming knowledge is very helpful but not required.

Price for group up to 3 students: \$4,630.13
Price for each additional student: \$177.33
Minimum number of students: 3
Maximum number of students: 15
Locations where offered: On-site at client's location in the 48 continental US states or DC.
Class schedules: Per client's needs.

VBA-121 Excel 2013 VBA Including Your VBA Projects (3 days)

<http://www.accelebrate.com/training/vba-excel-2013-extended>

Accelebrate's Excel VBA Training: Excel 2013 VBA training teaches attendees everything they need to know to create VBA applications within Excel. Important Note: This version of the course includes a day of time spent working through your actual VBA projects. We also offer an "off the shelf" version of the course without your projects incorporated. This Excel 2013 VBA training class is 70% hands-on, 30% lecture, with the longest lecture segments lasting for 20 minutes. Students "learn by doing," with immediate opportunities to apply the material they learn to real-world problems.

Prerequisites: All attendees must have prior knowledge of Excel 2013. Prior scripting or programming knowledge is very helpful but not required.

Price for group up to 3 students: \$6,479.40
Price for each additional student: \$177.33
Minimum number of students: 3
Maximum number of students: 15
Locations where offered: On-site at client's location in the 48 continental US states or DC.
Class schedules: Per client's needs.

WCF-102 WCF 4.0 with Visual Basic (3 days)

<http://www.accelebrate.com/training/wcf-4-0-vb>

Accelebrate's Windows Communication Foundation (WCF) training class teaches attendees the essential concepts of WCF and how to implement WCF services and clients. The course uses .NET 4.0 and Visual Studio 2010. This WCF training class is 70% hands-on, 30% lecture, with the longest lecture segments lasting 20 minutes.

Prerequisites: Students should have a good working knowledge of building .NET applications with VB.NET. Prior knowledge of building .NET web services would also be an advantage.

Price for group up to 3 students: \$6,947.51
Price for each additional student: \$265.99
Minimum number of students: 3
Maximum number of students: 15

Locations where offered: On-site at client's location in the 48 continental US states or DC.
Class schedules: Per client's needs.

WCF-104 WCF with Visual Basic 2012/2013 (3 days)

<http://www.accelebrate.com/training/wcf-vb-2012>

Accelebrate's Windows Communication Foundation (WCF) training class teaches attendees the essential concepts of WCF and how to implement WCF services and clients. The course uses .NET 4.5/4.5.1 and Visual Studio 2012/2013. This WCF training class is 70% hands-on, 30% lecture, with the longest lecture segments lasting 20 minutes.

Prerequisites: Students in this WCF 4.5/4.5.1 with VB training class should have a good working knowledge of building .NET applications with VB. Knowledge of building distributed systems and Web services will also be an advantage.

Price for group up to 3 students: \$6,947.51

Price for each additional student: \$265.99

Minimum number of students: 3

Maximum number of students: 15

Locations where offered: On-site at client's location in the 48 continental US states or DC.
Class schedules: Per client's needs.

WCF-202 WCF 4.0 with C# (3 days)

<http://www.accelebrate.com/training/wcf-4-0-c-sharp>

Accelebrate's Windows Communication Foundation (WCF) training class teaches attendees the essential concepts of WCF and how to implement WCF services and clients. The course uses .NET 4.0 and Visual Studio 2010. This WCF training class is 70% hands-on, 30% lecture, with the longest lecture segments lasting 20 minutes.

Prerequisites: Students in this WCF 4.0 with C# training class should have a good working knowledge of building .NET applications with C#. Knowledge of building distributed systems and Web services will also be an advantage.

Price for group up to 3 students: \$6,947.51

Price for each additional student: \$265.99

Minimum number of students: 3

Maximum number of students: 15

Locations where offered: On-site at client's location in the 48 continental US states or DC.
Class schedules: Per client's needs.

WCF-204 WCF with Visual C# 2012/2013 (3 days)

<http://www.accelebrate.com/training/wcf-4-5-c-sharp-2012>

Accelebrate's Windows Communication Foundation (WCF) training class teaches attendees the essential concepts of WCF and how to implement WCF services and clients. The course uses .NET

4.5/4.5.1 and Visual Studio 2012/2013. This WCF training class is 70% hands-on, 30% lecture, with the longest lecture segments lasting 20 minutes.

Prerequisites: Students in this WCF 4.5/4.5.1 with C# training class should have a good working knowledge of building .NET applications with C#. Knowledge of building distributed systems and Web services will also be an advantage.

Price for group up to 3 students: \$6,947.51
Price for each additional student: \$265.99
Minimum number of students: 3
Maximum number of students: 15
Locations where offered: On-site at client's location in the 48 continental US states or DC.
Class schedules: Per client's needs.

WAPI-100 RESTful Services with Web API using C# (2 days)

<https://www.accelebrate.com/training/web-api-c-sharp>

Accelebrate's RESTful Services with Web API using C# course teaches attendees to develop and consume ASP.NET Web API services using C# and Visual Studio 2013. Students learn to use this development framework from Microsoft to easily create RESTful Web applications and HTTP services, as well as how to consume these services from a range of clients. This ASP.NET Web API class is 65% hands-on, 35% lecture, with the longest lecture segments lasting for 25 minutes.

Prerequisites: All students should have a good working knowledge of C# and the .NET Framework. Basic knowledge of ASP.NET, HTML and JavaScript is also required.

Price for group up to 3 students: \$5,093.60
Price for each additional student: \$177.33
Minimum number of students: 3
Maximum number of students: 15
Locations where offered: On-site at client's location in the 48 continental US states or DC.
Class schedules: Per client's needs.

WF-202 WF 4 Using C# (4 days)

<http://www.accelebrate.com/training/workflow-foundation-wf-4>

Accelebrate's Windows Workflow Foundation (WF) Using C# training class teaches students how to build long-running processes in .NET applications using WF. Attendees learn how to visually assemble activities into workflows using the Workflow Designer within Visual Studio, how to construct complex workflows, and how to build Workflow Services based on WCF (Windows Communication Foundation). This WF training class is 70% hands-on, 30% lecture, with the longest lecture segments lasting for 15-20 minutes.

Prerequisites: All attendees should have programming experience in C# and version 4.0 of the .NET Framework and be familiar with the Visual Studio 2010 development environment.

Price for group up to 3 students: \$8,523.32
Price for each additional student: \$354.66
Minimum number of students: 3
Maximum number of students: 15
Locations where offered: On-site at client's location in the 48 continental US states or DC.
Class schedules: Per client's needs.

WF-206 WF 4.5 Using C# (4 days)

<https://www.accelebrate.com/training/workflow-foundation-wf-4-5>

Accelebrate's Windows Workflow Foundation 4.5 (WF) training class teaches students how to create and execute workflow applications in WF 4.5 using Visual Studio 2012. Students learn the activities, designer capabilities, and workflow development model new to WF 4.5, as well as how to use C# expressions in C# workflows. This WF training class is 70% hands-on, 30% lecture, with the longest lecture segments lasting for 15-20 minutes.

Prerequisites: All attendees must have substantial prior programming experience in C# and be familiar with the Visual Studio 2012 development environment.

Price for group up to 3 students: \$8,801.41
Price for each additional student: \$354.66
Minimum number of students: 3
Maximum number of students: 15
Locations where offered: On-site at client's location in the 48 continental US states or DC.
Class schedules: Per client's needs.

WPF-102 Introduction to WPF Using Visual Basic 2010 (4 days)

<http://www.accelebrate.com/training/wpf-4-0-vb-2010>

Accelebrate's WPF training class teaches attendees all the skills necessary for designing and building an effective WPF application with a flexible and compelling user interface. Significant time is spent on the maintainability and testability of a properly architected WPF application. This WPF training class is 70% hands-on, 30% lecture, with the longest lecture segments lasting 20 minutes.

Prerequisites: All attendees must have prior experience developing applications in .NET 2.0 or later using C# or Visual Basic.

Price for group up to 3 students: \$7,781.76
Price for each additional student: \$354.66
Minimum number of students: 3
Maximum number of students: 15
Locations where offered: On-site at client's location in the 48 continental US states or DC.

Class schedules: Per client's needs.

WPF-104 Introduction to WPF Using Visual Basic 2012/2013 (4 days)

<http://www.accelebrate.com/training/wpf-4-5-vb-2012>

Accelebrate's WPF training class teaches attendees all the skills necessary for designing and building an effective WPF application with a flexible and compelling user interface. Significant time is spent on the maintainability and testability of a properly architected WPF application. This WPF training class is 70% hands-on, 30% lecture, with the longest lecture segments lasting 20 minutes.

Prerequisites: All attendees must have prior experience developing applications in .NET 2.0 or later using C# or Visual Basic.

Price for group up to 3 students: \$7,781.76
Price for each additional student: \$354.66
Minimum number of students: 3
Maximum number of students: 15
Locations where offered: On-site at client's location in the 48 continental US states or DC.
Class schedules: Per client's needs.

WPF-202 Introduction to WPF Using Visual C# 2010 (4 days)

<http://www.accelebrate.com/training/wpf-4-0-c-sharp-2010>

Accelebrate's WPF training class teaches attendees all the skills necessary for designing and building an effective WPF application with a flexible and compelling user interface. Significant time is spent on the maintainability and testability of a properly architected WPF application. This WPF training class is 70% hands-on, 30% lecture, with the longest lecture segments lasting 20 minutes.

Prerequisites: All attendees must have prior experience developing applications in .NET 2.0 or later using C# or Visual Basic.

Price for group up to 3 students: \$7,781.76
Price for each additional student: \$354.66
Minimum number of students: 3
Maximum number of students: 15
Locations where offered: On-site at client's location in the 48 continental US states or DC.
Class schedules: Per client's needs.

WPF-204 Introduction to WPF Using Visual C# 2012/2013 (4 days)

<http://www.accelebrate.com/training/wpf-4-5-c-sharp-2012>

Accelebrate's WPF Training: Introduction to Windows Presentation Foundation Using Visual C# 2012/2013 class teaches attendees all the skills necessary for designing and building an effective WPF application with a flexible and compelling user interface. Significant time is spent on the

maintainability and testability of a properly architected WPF application. This WPF training class is 70% hands-on, 30% lecture, with the longest lecture segments lasting 20 minutes.

Prerequisites: All attendees must have prior experience developing applications in .NET 2.0 or later using C# or Visual Basic.

Price for group up to 3 students:	\$7,781.76
Price for each additional student:	\$354.66
Minimum number of students:	3
Maximum number of students:	15
Locations where offered:	On-site at client's location in the 48 continental US states or DC.
Class schedules:	Per client's needs.

XML-100 Core XML (3 days)

<http://www.accelebrate.com/training/core-xml>

XML (Extensible Markup Language) has emerged as the leading standard for data interchange between applications and between organizations. In this XML training class, attendees learn the core fundamentals of XML and its related technologies: XML, XSL, DTD, XML Schema, XPath, and more. This XML training class is 70% hands-on, 30% lecture, with the longest lecture segments lasting for 15 minutes.

Prerequisites: Prior knowledge of HTML and/or relational databases is helpful but not necessary.

Price for group up to 3 students:	\$5,557.08
Price for each additional student:	\$265.99
Minimum number of students:	3
Maximum number of students:	15
Locations where offered:	On-site at client's location in the 48 continental US states or DC.
Class schedules:	Per client's needs.

XML-110 XML Schema (2 days)

<http://www.accelebrate.com/training/xml-schema>

Accelebrate's XML Schema course gives the student who knows the fundamentals of XML a detailed introduction to the XML Schema standard for defining document type information. This XML Schema training class is 70% hands-on, 30% lecture, with the longest lecture segments lasting for 15 minutes.

Prerequisites: Prior knowledge of XML.

Price for group up to 3 students:	\$4,398.39
Price for each additional student:	\$221.66
Minimum number of students:	3

Maximum number of students: 15
Locations where offered: On-site at client's location in the 48 continental US states or DC.
Class schedules: Per client's needs.

XML-120 Mastering XSLT (3 days)

<http://www.accelebrate.com/training/xslt>

XSLT (Extensible Stylesheet Language Transforms) enables you to transform XML data from one document type into other XML document types, and even into other formats such as HTML, XHTML, WML, and XQL. This XSLT training class teaches attendees everything they need to begin using XSLT in their XML projects. This XSLT training class is 70% hands-on, 30% lecture, with the longest lecture segments lasting for 15 minutes.

Prerequisites: Prior knowledge of XML, as taught in Accelebrate's Core XML training class, is required.

Price for group up to 3 students: \$6,020.55
Price for each additional student: \$265.99
Minimum number of students: 3
Maximum number of students: 15
Locations where offered: On-site at client's location in the 48 continental US states or DC.
Class schedules: Per client's needs.

XML-122 Mastering XSLT 2.0 and XPath 2.0 (3 days)

<http://www.accelebrate.com/training/xslt-2-0-xpath-2-0>

Accelebrate's XSLT 2.0 training class teaches developers how to use XPath 2.0 and XSLT 2.0 to transform XML documents into other XML document formats, XHTML, and plain text. This XSLT 2.0 training class is 70% hands-on, 30% lecture, with the longest lecture segments lasting for 20 minutes. Students "learn by doing," with immediate opportunities to apply the material they learn to real-world problems.

Prerequisites: Prior knowledge of core XML tagging syntax, as taught on the first day of Accelebrate's Core XML training class or acquired through experience, is required. Prior knowledge of XML Schema is helpful, but we can adapt the class to any level of prior XML Schema familiarity.

Price for group up to 3 students: \$6,020.55
Price for each additional student: \$265.99
Minimum number of students: 3
Maximum number of students: 15
Locations where offered: On-site at client's location in the 48 continental US states or DC.
Class schedules: Per client's needs.

XML-130 Mastering XPath and XQuery (2 days)

<http://www.accelebrate.com/training/xpath-xquery>

Accelebrate's XQuery training teaches attendee how to find, retrieve, and manipulate data in XML documents using XPath and XQuery. This XQuery training class is 50% hands-on, 50% lecture, with the longest lecture segments lasting for 30 minutes.

Prerequisites: All attendees should understand the fundamentals of XML.

Price for group up to 3 students:	\$6,484.03
Price for each additional student:	\$177.33
Minimum number of students:	3
Maximum number of students:	15
Locations where offered:	On-site at client's location in the 48 continental US states or DC.
Class schedules:	Per client's needs.

XML-140 Introduction to XSL-FO (2 days)

<http://www.accelebrate.com/training/xsl-fo>

Introduction to XSL-FO teaches students how transform XML documents with XSL to create PDFs. This training class is 70% hands-on, 30% lecture, with the longest lecture segments lasting for 15 minutes.

Prerequisites: Prior knowledge of XML and XSLT.

Price for group up to 3 students:	\$4,630.13
Price for each additional student:	\$221.66
Minimum number of students:	3
Maximum number of students:	15
Locations where offered:	On-site at client's location in the 48 continental US states or DC.
Class schedules:	Per client's needs.

XML-150 Mastering XMLSpy (3 days)

<http://www.accelebrate.com/training/xmlspy>

XMLSpy, published by Altova, is the leading development tool for creating XML documents, XSLT stylesheets, DTDs, XML Schemas, SOAP and WSDL documents, and other XML-related and XML-based documents. Even if you have a leading .NET or Java development tool, such as Visual Studio .NET or JBuilder, XMLSpy can be a powerful asset to your development efforts. This XMLSpy training class teaches your developers the skills they need to make the most of this powerful tool. Accelebrate is proud to be an Altova Education Partner. This XMLSpy training class is 70% hands-on, 30% lecture, with the longest lecture segments lasting for 15 minutes.

Prerequisites: Prior knowledge of XML is strongly recommended, but this XMLSpy training class can be customized for audiences without XML experience.

Price for group up to 3 students:	\$6,020.55
	\$265.99

Price for each additional student:

Minimum number of students: 3
Maximum number of students: 15
Locations where offered: On-site at client's location in the 48 continental US states or DC.
Class schedules: Per client's needs.

XML-200 Mastering the XMLSpy Enterprise Suite: XMLSpy, StyleVision, and MapForce (5 days)

<http://www.accelebrate.com/training/xmlspy-enterprise-suite>

This course teaches attendees how to do full lifecycle XML development using the key components of the Altova Enterprise MissionKit: XMLSpy, StyleVision, MapForce. The first three days of this course are identical to Mastering XMLSpy, with the addition of additional days covering StyleVision and MapForce. This class is customized to our clients' specific needs. We would welcome the opportunity to: teach the use of any specific DTDs or Schemas that the attendees are likely to use after class, train the attendees in any specific XML publishing processes used by your organization, educate the attendees on the broader role and context of XML development within your organization This XMLSpy training class is 70% hands-on, 30% lecture, with the longest lecture segments lasting for 15 minutes.

Prerequisites: Prior knowledge of relational databases, SQL, and HTML is strongly recommended. No prior knowledge of XML is presumed.

Price for group up to 3 students:

USA COMMITMENT TO PROMOTE SMALL BUSINESS PARTICIPATION PROCUREMENT PROGRAMS

PREAMBLE

(Name of Company) provides commercial products and services to ordering activities. We are committed to promoting participation of small, small disadvantaged and women-owned small businesses in our contracts. We pledge to provide opportunities to the small business community through reselling opportunities, mentor-protégé programs, joint ventures, teaming arrangements, and subcontracting.

COMMITMENT

To actively seek and partner with small businesses.

To identify, qualify, mentor and develop small, small disadvantaged and women-owned small businesses by purchasing from these businesses whenever practical.

To develop and promote company policy initiatives that demonstrate our support for awarding contracts and subcontracts to small business concerns.

To undertake significant efforts to determine the potential of small, small disadvantaged and women-owned small business to supply products and services to our company.

To insure procurement opportunities are designed to permit the maximum possible participation of small, small disadvantaged, and women-owned small businesses.

To attend business opportunity workshops, minority business enterprise seminars, trade fairs, procurement conferences, etc., to identify and increase small businesses with whom to partner.

To publicize in our marketing publications our interest in meeting small businesses that may be interested in subcontracting opportunities.

We signify our commitment to work in partnership with small, small disadvantaged and women-owned small businesses to promote and increase their participation in ordering activity contracts. To accelerate potential opportunities please contact **Steven Heckler at 877-849-1850 (phone)/866-566-1228 (fax) or steveheckler@accelebrate.com**

BPA NUMBER _____

(CUSTOMER NAME)
BLANKET PURCHASE AGREEMENT

Pursuant to GSA Federal Supply Schedule Contract Number(s) _____, Blanket Purchase Agreements, the Contractor agrees to the following terms of a Blanket Purchase Agreement (BPA) EXCLUSIVELY WITH (ordering activity):

(1) The following contract items can be ordered under this BPA. All orders placed against this BPA are subject to the terms and conditions of the contract, except as noted below:

MODEL NUMBER/PART NUMBER	*SPECIAL BPA DISCOUNT/PRICE
_____	_____
_____	_____
_____	_____

(2) Delivery:

DESTINATION	DELIVERY SCHEDULES / DATES
_____	_____
_____	_____
_____	_____

(3) The ordering activity estimates, but does not guarantee, that the volume of purchases through this agreement will be _____.

(4) This BPA does not obligate any funds.

(5) This BPA expires on _____ or at the end of the contract period, whichever is earlier.

(6) The following office(s) is hereby authorized to place orders under this BPA:

OFFICE	POINT OF CONTACT
_____	_____
_____	_____
_____	_____

(7) Orders will be placed against this BPA via Electronic Data Interchange (EDI), FAX, or paper.

(8) Unless otherwise agreed to, all deliveries under this BPA must be accompanied by delivery tickets or sales slips that must contain the following information as a minimum:

- (a) Name of Contractor;
- (b) Contract Number;
- (c) BPA Number;
- (d) Model Number or National Stock Number (NSN);
- (e) Purchase Order Number;
- (f) Date of Purchase;

(g) Quantity, Unit Price, and Extension of Each Item (unit prices and extensions need not be shown when incompatible with the use of automated systems; provided, that the invoice is itemized to show the information); and

(h) Date of Shipment.

(9) The requirements of a proper invoice are specified in the Federal Supply Schedule contract. Invoices will be submitted to the address specified within the purchase order transmission issued against this BPA.

(10) The terms and conditions included in this BPA apply to all purchases made pursuant to it. In the event of an inconsistency between the provisions of this BPA and the Contractor's invoice, the provisions of this BPA will take precedence.

BASIC GUIDELINES FOR USING “CONTRACTOR TEAM ARRANGEMENTS”

Federal Supply Schedule Contractors may use “Contractor Team Arrangements” (see FAR 9.6) to provide solutions when responding to a ordering activity requirements.

These Team Arrangements can be included under a Blanket Purchase Agreement (BPA). BPAs are permitted under all Federal Supply Schedule contracts.

Orders under a Team Arrangement are subject to terms and conditions of the Federal Supply Schedule Contract.

Participation in a Team Arrangement is limited to Federal Supply Schedule Contractors.

Customers should refer to FAR 9.6 for specific details on Team Arrangements.

Here is a general outline on how it works:

- The customer identifies their requirements.
- Federal Supply Schedule Contractors may individually meet the customers needs, or -
- Federal Supply Schedule Contractors may individually submit a Schedules “Team Solution” to meet the customer’s requirement.
- Customers make a best value selection.
