

**GENERAL SERVICES ADMINISTRATION (GSA)
AUTHORIZED INFORMATION TECHNOLOGY SCHEDULE PRICELIST
GENERAL PURPOSE COMMERCIAL INFORMATION TECHNOLOGY
EQUIPMENT, SOFTWARE AND SERVICES**

Special Item No. 132-33: Perpetual Software Licenses, FSC Class 7030 – Information Technology Software

Special Item No. 132-34: Maintenance of Software

Special Item No. 132-50: Training Courses, FSC/PSC Code U012 – Information Training

Special Item No. 132-51: Information Technology Professional Services

FPDS Code D302 IT Systems Development Services

FPDS Code D306 IT Systems Analysis Services

FPDS Code D307 Automated Information Systems Design and Integration Services

FPDS Code D308 Programming Services

FPDS Code D399 Other Information Technology Services, Not Elsewhere Classified

***Note 1:** All non-professional labor categories must be incidental to and used solely to support hardware, software and/or professional services, and cannot be purchased separately.*

***Note 2:** Offerors and Agencies are advised that the Group 70 – Information Technology Schedule is not to be used as a means to procure services which properly fall under the Brooks Act. These services include, but are not limited to, architectural, engineering, mapping, cartographic production, remote sensing, geographic information systems, and related services. FAR 36.6 distinguishes between mapping services of an A/E nature and mapping services which are not connected nor incidental to the traditionally accepted A/E Services.*

***Note 3:** This solicitation is not intended to solicit for the reselling of IT Professional Services, except for the provision of implementation, maintenance, integration, or training services in direct support of a product. Under such circumstances, the services must be performed by the publisher or manufacturer or one of their authorized agents.*

SECTION 1 – INFORMATION FOR ORDERNG ACTIVITIES

SPECIAL NOTICE TO AGENCIES: Small Business Participation

SBA strongly supports the participation of small business concerns in the Federal Acquisition Service. To enhance Small Business Participation SBA policy allows agencies to include in their procurement base and goals, the dollar value of orders expected to be placed against the Federal Supply Schedules, and to report accomplishments against these goals.

For orders exceeding the micropurchase threshold, FAR 8.404 requires agencies to consider the catalogs/pricelists of at least three schedule contractors or consider reasonably available information by using the GSA Advantage!TM on-line shopping service (www.gsaadvantage.gov). The catalogs/pricelists, GSA Advantage!TM and the Federal Acquisition Service Home Page (www.fss.gsa.gov) contains information on a broad array of products and services offered by small business concerns.

This information should be used as a tool to assist ordering activities in meeting or exceeding established small business goals. It should also be used as a tool to assist in including small, small disadvantaged, and women-owned small businesses among those considered when selecting pricelists for a best value determination.

For orders exceeding the micropurchase threshold, customers are to give preference to small business concerns when two or more items at the same delivered price will satisfy their requirement.

1. GEOGRAPHIC SCOPE OF CONTRACT:

The Geographic Scope of this contract is both domestic and international.

2. CONTRACTOR’S ORDERING ADDRESS AND PAYMENT INFORMATION:

Ordering Address:

Kratos Technology & Training Solutions, Inc.
4820 Eastgate Mall
San Diego, CA 92121-1977

Payment Address:

Kratos Technology & Training Solutions, Inc.
4820 Eastgate Mall
San Diego, CA 92121-1977

Contractor must accept the credit card for payments equal to or less than the micro-purchase for oral or written orders under this contract. Kratos Technology & Training Solutions and the ordering agency may agree to use the credit card for dollar amounts over the micro-purchase threshold (See GSAR 552.232-79 Payment by Credit Card). In addition, bank account information for wire transfer payments will be shown on the invoice.

The following telephone number can be used by ordering activities to obtain technical and/or ordering assistance:
858-812-7300

3. LIABILITY FOR INJURY OR DAMAGE

Kratos Technology & Training Solutions shall not be liable for any injury to ordering activity personnel or damage to ordering activity property arising from the use of equipment maintained by Kratos Technology & Training Solutions unless such injury or damage is due to the fault or negligence of Kratos Technology & Training Solutions.

Kratos Technology & Training Solutions, Inc.

4. STATICAL DATA:

The following statistical data is to assist Government Ordering Offices in completion of Standard Form 279:

Block 9: G. Order/Modification under Federal Schedule

Block 16: Data Universal Numbering System (DUNS) Number: 04-850-5366

Block 30: Type of Contractor – C. Large Business.

Block 31: Woman-Owned Small Business - No.

Block 36: Contractor's Taxpayer Identification Number (TIN): 95-2467354

4a. CAGE Code: 8A244

4b. Contractor has registered with the Central Contractor Registration Database.

5. FOB: DESTINATION

6. DELIVERY SCHEDULE

a. **TIME OF DELIVERY:** The Contractor shall deliver to destination within the number of calendar days after receipt of order (ARO), as set forth below:

| SPECIAL ITEM NUMBER | DELIVERY TIME – Days after Receipt of Order (ARO) |
|---|---|
| 132-33 – Perpetual Software Licenses | 30 Days ARO |
| 132-34 – Maintenance of Software | 30 Days ARO |
| 132-50 – Training Courses | 30 Days ARO |
| 132-51 – Information Technology Professional Services | 30 Days ARO |

b. **URGENT REQUIREMENTS:** When the Federal Supply Schedule contract delivery period does not meet the bona fide urgent delivery requirements of an ordering activity, ordering activities are encouraged, if time permits, to contact the Contractor for the purpose of obtaining accelerated delivery. The Contractor shall reply to the inquiry within 3 workdays after receipt. (Telephonic replies shall be confirmed by the Contractor in writing.) If the Contractor offers an accelerated delivery time acceptable to the ordering activity, any order(s) placed pursuant to the agreed upon accelerated delivery time frame shall be delivered within this shorter delivery time and in accordance with all other terms and conditions of the contract.

7. DISCOUNTS:

All prices shown are NET Prices; Basic Discounts have been deducted.

a. Prompt Payment: None

b. Quantity: As negotiated and mutually agreed to for each individual delivery/task order

c. Dollar Volume: As negotiated and mutually agreed to for each individual delivery/task order

d. Government Educational Institutions: Government Educational Institutions are offered the same discounts as all other Government customers

e. Other: Payment Terms – Net 30 days

8. TRADE AGREEMENTS ACT OF 1979, as amended:

All items are U.S. made end products, designated country end products, Caribbean Basin country end products, Canadian end products, or Mexican end products as defined in the Trade Agreements Act of 1979, as amended.

9. STATEMENT CONCERNING AVAILABILITY OF EXPORT PACKING:

None

10. Small Requirements: The minimum dollar value of orders to be issued is \$100.

Kratos Technology & Training Solutions, Inc.

11. MAXIMUM ORDER (All dollar amounts are exclusive of any discount for prompt payment.)

(IMPORTANT NOTE: The maximum order threshold represents the point where, given the dollar value of the potential order, the ordering activity shall seek a price reduction. Please refer to Federal Acquisition Regulation 8.405. Orders may be written for amounts over these maximums.)

- a. The Maximum Order value for the following Special Item Numbers (SINs) is \$500,000:

Special Item Number 132-33 - Perpetual Software Licenses

Special Item Number 132-34 - Maintenance of Software

Special Item Number 132-51 - Information Technology Professional Services

- b. The Maximum Order value for Special Item Number 132-50 (SIN), Classroom Training, is \$25,000.

12. ORDERING PROCEDURES FOR FEDERAL ACQUISITION SCHEDULE CONTRACTS

Ordering activities shall use the ordering procedures of Federal Acquisition Regulation (FAR) 8.405 when placing an order or establishing a BPA for supplies or services. These procedures apply to all schedules.

- a. FAR 8.405-1 Ordering procedures for supplies, and services not requiring a statement of work.
b. FAR 8.405-2 Ordering procedures for services requiring a statement of work.

13. FEDERAL INFORMATION TECHNOLOGY/TELECOMMUNICATION STANDARDS

REQUIREMENTS: ordering activities acquiring products from this Schedule must comply with the provisions of the Federal Standards Program, as appropriate (reference: NIST Federal Standards Index). Inquiries to determine whether or not specific products listed herein comply with Federal Information Processing Standards (FIPS) or Federal Telecommunication Standards (FED-STDS), which are cited by ordering activities, shall be responded to promptly by Kratos Technology & Training Solutions.

13.1 FEDERAL INFORMATION PROCESSING STANDARDS PUBLICATIONS (FIPS PUBS): Information Technology products under this Schedule that do not conform to Federal Information Processing Standards (FIPS) should not be acquired unless a waiver has been granted in accordance with the applicable "FIPS Publication." Federal Information Processing Standards Publications (FIPS PUBS) are issued by the U.S. Department of Commerce, National Institute of Standards and Technology (NIST), pursuant to National Security Act. Information concerning their availability and applicability should be obtained from the National Technical Information Service (NTIS), 5285 Port Royal Road, Springfield, Virginia 22161. FIPS PUBS include voluntary standards when these are adopted for Federal use. Individual orders for FIPS PUBS should be referred to the NTIS Sales Office, and orders for subscription service should be referred to the NTIS Subscription Officer, both at the above address, or telephone number (703) 487-4650.

13.2 FEDERAL TELECOMMUNICATION STANDARDS (FED-STDS): Telecommunication products under this Schedule that do not conform to Federal Telecommunication Standards (FED-STDS) should not be acquired unless a waiver has been granted in accordance with the applicable "FED-STD." Federal Telecommunication Standards are issued by the U.S. Department of Commerce, National Institute of Standards and Technology (NIST), pursuant to National Security Act. Ordering information and information concerning the availability of FED-STDS should be obtained from the GSA, Federal Acquisition Service, Specification Section, 470 East L'Enfant Plaza, Suite 8100, SW, Washington, DC 20407, telephone number (202)619-8925. Please include a self-addressed mailing label when requesting information by mail. Information concerning their applicability can be obtained by writing or calling the U.S. Department of Commerce, National Institute of Standards and Technology, Gaithersburg, MD 20899, telephone number (301)975-2833.

14. CONTRACTOR TASKS / SPECIAL REQUIREMENTS (C-FSS-370) (NOV 2003)

- (a) Security Clearances: Kratos Technology & Training Solutions may be required to obtain/possess varying levels of security clearances in the performance of orders issued under this contract. All costs associated with obtaining/possessing such security clearances should be factored into the price offered under the Multiple Award Schedule.

Kratos Technology & Training Solutions, Inc.

- (b) **Travel:** Kratos Technology & Training Solutions may be required to travel in performance of orders issued under this contract. Allowable travel and per diem charges are governed by Pub .L. 99-234 and FAR Part 31, and are reimbursable by the ordering agency or can be priced as a fixed price item on orders placed under the Multiple Award Schedule. Travel in performance of a task order will only be reimbursable to the extent authorized by the ordering agency. The Industrial Funding Fee does NOT apply to travel and per diem charges.
- (c) **Certifications, Licenses and Accreditations:** As a commercial practice, Kratos Technology & Training Solutions may be required to obtain/possess any variety of certifications, licenses and accreditations for specific FSC/service code classifications offered. All costs associated with obtaining/ possessing such certifications, licenses and accreditations should be factored into the price offered under the Multiple Award Schedule program.
- (d) **Insurance:** As a commercial practice, Kratos Technology & Training Solutions may be required to obtain/possess insurance coverage for specific FSC/service code classifications offered. All costs associated with obtaining/possessing such insurance should be factored into the price offered under the Multiple Award Schedule program.
- (e) **Personnel:** Kratos Technology & Training Solutions may be required to provide key personnel, resumes or skill category descriptions in the performance of orders issued under this contract. Ordering activities may require agency approval of additions or replacements to key personnel.
- (f) **Organizational Conflicts of Interest:** Where there may be an organizational conflict of interest as determined by the ordering agency, Kratos Technology & Training Solutions' participation in such order may be restricted in accordance with FAR Part 9.5.
- (g) **Documentation/Standards:** Kratos Technology & Training Solutions may be requested to provide products or services in accordance with rules, regulations, OMB orders, standards and documentation as specified by the agency's order.
- (h) **Data/Deliverable Requirements:** Any required data/deliverables at the ordering level will be as specified or negotiated in the agency's order.
- (i) **Government-Furnished Property:** As specified by the agency's order, the Government may provide property, equipment, materials or resources as necessary.
- (j) **Availability of Funds:** Many Government agencies' operating funds are appropriated for a specific fiscal year. Funds may not be presently available for any orders placed under the contract or any option year. The Government's obligation on orders placed under this contract is contingent upon the availability of appropriated funds from which payment for ordering purposes can be made. No legal liability on the part of the Government for any payment may arise until funds are available to the ordering Contracting Officer.
- (k) **Overtime:** For professional services, the labor rates in the Schedule should not vary by virtue of Kratos Technology & Training Solutions having worked overtime. For services applicable to the Service Contract Act (as identified in the Schedule), the labor rates in the Schedule will vary as governed by labor laws (usually assessed a time and a half of the labor rate).

15. CONTRACT ADMINISTRATION FOR ORDERING ACTIVITIES: Any ordering activity, with respect to any one or more delivery orders placed by it under this contract, may exercise the same rights of termination as might the GSA Contracting Officer under provisions of FAR 52.212-4, paragraphs (l) Termination for the ordering activity's convenience, and (m) Termination for Cause (See 52.212-4)

16. GSA ADVANTAGE!

GSA Advantage! is an on-line, interactive electronic information and ordering system that provides on-line access to vendors' schedule prices with ordering information. GSA Advantage! will allow the user to perform various searches across all contracts including, but not limited to:

- (1) Manufacturer;
- (2) Manufacturer's Part Number; and
- (3) Product categories.

Agencies can browse GSA Advantage! by accessing the Internet World Wide Web utilizing a browser (ex.: NetScape). The Internet address is <http://www.gsaadvantage.gov>

Kratos Technology & Training Solutions, Inc.

17. PURCHASE OF OPEN MARKET ITEMS

NOTE: Open Market Items are also known as incidental items, noncontract items, non-Schedule items, and items not on a Federal Supply Schedule contract. ODCs (Other Direct Costs) are not part of this contract and should be treated as open market purchases. Ordering Activities procuring open market items must follow FAR 8.402(f).

For administrative convenience, an ordering activity contracting officer may add items not on the Federal Supply Multiple Award Schedule (MAS) -- referred to as open market items -- to a Federal Supply Schedule blanket purchase agreement (BPA) or an individual task or delivery order, **only if-**

- (1) All applicable acquisition regulations pertaining to the purchase of the items not on the Federal Supply Schedule have been followed (e.g., publicizing (Part 5), competition requirements (Part 6), acquisition of commercial items (Part 12), contracting methods (Parts 13, 14, and 15), and small business programs (Part 19));
- (2) The ordering activity contracting officer has determined the price for the items not on the Federal Supply Schedule is fair and reasonable;
- (3) The items are clearly labeled on the order as items not on the Federal Supply Schedule; and
- (4) All clauses applicable to items not on the Federal Supply Schedule are included in the order.

18. CONTRACTOR COMMITMENTS, WARRANTIES AND REPRESENTATIONS

a. For the purpose of this contract, commitments, warranties and representations include, in addition to those agreed to for the entire schedule contract:

- (1) Time of delivery/installation quotations for individual orders;
- (2) Technical representations and/or warranties of products concerning performance, total system performance and/or configuration, physical, design and/or functional characteristics and capabilities of a product/equipment/ service/software package submitted in response to requirements which result in orders under this schedule contract.
- (3) Any representations and/or warranties concerning the products made in any literature, description, drawings and/or specifications furnished by Kratos Technology & Training Solutions.

b. The above is not intended to encompass items not currently covered by the GSA Schedule contract.

19. OVERSEAS ACTIVITIES

The terms and conditions of this contract shall apply to all orders for installation, maintenance and repair of equipment in areas listed in the pricelist outside the 48 contiguous states and the District of Columbia, except as indicated below:

Upon request of Kratos Technology & Training Solutions, the ordering activity may provide Kratos Technology & Training Solutions with logistics support, as available, in accordance with all applicable ordering activity regulations. Such ordering activity support will be provided on a reimbursable basis, and will only be provided to Kratos Technology & Training Solutions technical personnel whose services are exclusively required for the fulfillment of the terms and conditions of this contract.

20. BLANKET PURCHASE AGREEMENTS (BPAs)

The use of BPAs under any schedule contract to fill repetitive needs for supplies or services is allowable. BPAs may be established with one or more schedule contractors. The number of BPAs to be established is within the discretion of the ordering activity establishing the BPA and should be based on a strategy that is expected to maximize the effectiveness of the BPA(s). Ordering activities shall follow FAR 8.405-3 when creating and implementing BPA(s).

21. CONTRACTOR TEAM ARRANGEMENTS

Contractors participating in contractor team arrangements must abide by all terms and conditions of their respective contracts. This includes compliance with Clauses 552.238-74, Industrial Funding Fee and Sales Reporting, i.e., each contractor (team member) must report sales and remit the IFF for all products and services provided under its individual contract.

Kratos Technology & Training Solutions, Inc.

22. INSTALLATION, DEINSTALLATION, REINSTALLATION

The Davis-Bacon Act (40 U.S.C. 276a-276a-7) provides that contracts in excess of \$2,000 to which the United States or the District of Columbia is a party for construction, alteration, or repair (including painting and decorating) of public buildings or public works with the United States, shall contain a clause that no laborer or mechanic employed directly upon the site of the work shall received less than the prevailing wage rates as determined by the Secretary of Labor. The requirements of the Davis-Bacon Act do not apply if the construction work is incidental to the furnishing of supplies, equipment, or services. For example, the requirements do not apply to simple installation or alteration of a public building or public work that is incidental to furnishing supplies or equipment under a supply contract. However, if the construction, alteration, or repair is segregable and exceeds \$2,000, then the requirements of the Davis-Bacon Act apply. The ordering activity issuing the task order against this contract will be responsible for proper administration and enforcement of the Federal labor standards covered by the Davis-Bacon Act. The proper Davis-Bacon wage determination will be issued by the ordering activity at the time a request for quotations is made for applicable construction classified installation, deinstallation, and reinstallation services under SIN 132-8 or 132-9.

23. SECTION 508 COMPLIANCE

If applicable, Section 508 compliance information on the supplies and services in this contract are available in Electronic and Information Technology (EIT) at www.Section508.gov/.

24. PRIME CONTRACTOR ORDERING FROM FEDERAL SUPPLY SCHEDULES

Prime Contractors: (on cost reimbursement contracts) placing orders under Federal Supply Schedules, on behalf of an ordering activity, shall follow the terms of the applicable schedule and authorization and include with each order—

- (a) A copy of the authorization from the ordering activity with whom the contractor has the prime contract (unless a copy was previously furnished to the Federal Supply Schedule contractor); and
- (b) The following statement: “This order is placed under written authorization from _____ dated _____. In the event of any inconsistency between the terms and conditions of this order and those of your Federal Supply Schedule contract, the latter will govern.”

25. INSURANCE—WORK ON A GOVERNMENT INSTALLATION (JAN 1997)(FAR 52.228-5)

- (a) Kratos Technology & Training Solutions shall, at its own expense, provide and maintain during the entire performance of this contract, at least the kinds and minimum amounts of insurance required in the Schedule or elsewhere in the contract.
- (b) Before commencing work under this contract, Kratos Technology & Training Solutions shall notify the Contracting Officer in writing that the required insurance has been obtained. The policies evidencing required insurance shall contain an endorsement to the effect that any cancellation or any material change adversely affecting the Government's interest shall not be effective—
 - (1) For such period as the laws of the State in which this contract is to be performed prescribe; or
 - (2) Until 30 days after the insurer or Kratos Technology & Training Solutions gives written notice to the Contracting Officer, whichever period is longer.
- (c) Kratos Technology & Training Solutions shall insert the substance of this clause, including this paragraph (c), in subcontracts under this contract that require work on a Government installation and shall require subcontractors to provide and maintain the insurance required in the Schedule or elsewhere in the contract. Kratos Technology & Training Solutions shall maintain a copy of all subcontractors' proofs of required insurance, and shall make copies available to the Contracting Officer upon request.

26. SOFTWARE INTEROPERABILITY

Offerors are encouraged to identify within their software items any component interfaces that support open standard interoperability. An item's interface may be identified as interoperable on the basis of participation in a Government agency-sponsored program or in an independent organization program. Interfaces may be identified by reference to an interface registered in the component registry located at <http://www.core.gov>.

27. ADVANCE PAYMENTS

Kratos Technology & Training Solutions, Inc.

A payment under this contract to provide a service or deliver an article for the United States Government may not be more than the value of the service already provided or the article already delivered. Advance or pre-payment is not authorized or allowed under this contract. (31 U.S.C. 3324)

Kratos Technology & Training Solutions, Inc.

SECTION 2 – TERMS AND CONDITIONS

TERMS AND CONDITIONS APPLICABLE TO PERPETUAL SOFTWARE LICENCES (SPECIAL ITEM NUMBER 132-33) AND MAINTENANCE AS A SERVICE (SPECIAL ITEM NUMBER 132-34) OF GENERAL PURPOSE COMMERCIAL INFORMATION TECHNOLOGY SOFTWARE

1. INSPECTION/ACCEPTANCE

The contractor shall only tender for acceptance those items that conform to the requirements of this contract. The ordering activity reserves the right to inspect or test any software that has been tendered for acceptance. The ordering activity may require repair or replacement of nonconforming software at no increase in contract price. The ordering activity must exercise its post-acceptance rights (1) within a reasonable time after the defect was discovered or should have been discovered; and (2) before any substantial change occurs in the condition of the software, unless the change is due to the defect in the software.

2. GUARANTEE/WARRANTY

a. Unless specified otherwise in this contract, the Contractor's standard commercial guarantee/warranty as stated in the contract's commercial pricelist will apply to this contract.

b. The Contractor warrants and implies that the items delivered hereunder are merchantable and fit for use for the particular purpose described in this contract.

c. **Limitation of Liability.** Except as otherwise provided by an express or implied warranty, the Contractor will not be liable to the ordering activity for consequential damages resulting from any defect or deficiencies in accepted items.

3. TECHNICAL SERVICES

The contractor, without additional charge to the ordering activity, shall provide a hot line technical support point of contact for the purpose of providing user assistance and guidance in the implementation of the software. Technical support is provided 24 hours a day by calling (800) 295-4233. During working hours, the following additional technical support telephone numbers are available:

- Kratos Technology & Training Solutions Products, please call (443) 539-5008.
- SAT Corporation products, please call (408) 530-1020, M-F, 7 a.m. to 5:30 p.m., PST
- Newpoint Technology products please send an email to support@newpointtech.com.

4. SOFTWARE MAINTENANCE

a. Software maintenance as it is defined:

1. Software maintenance as a Product (SIN 132-33)

Software maintenance as a product includes the publishing of bug/defect fixes via patches and updates/upgrades in function and technology to maintain the operability and usability of the software product. It may also include other no charge support that is included in the purchase price of the product in the commercial marketplace. No charge support may include items such as user blogs, discussion forums, on-line help libraries and FAQs (Frequently Asked Questions), hosted chat rooms, and limited telephone, email and/or web-based general technical support for user's self diagnostics.

Software maintenance as a product does NOT include the creation, design, implementation, integration, etc. of a software package. These examples are considered maintenance as a service.

2. Software Maintenance as a Service (SIN 132-34)

Kratos Technology & Training Solutions, Inc.

Software maintenance as a service creates, designs, implements, and/or integrates customized changes to software that solve one or more problems and is not included with the price of the software. Software maintenance as a service includes person-to-person communications regardless of the medium used to communicate: telephone support, on-line technical support, customized support, and/or technical expertise which are charged commercially. Software maintenance as a service is billed arrears in accordance with 31 U.S.C. 3324.

b. Invoices for maintenance services shall be submitted by the Contractor on a quarterly or monthly basis, after the completion of such period. Maintenance charges must be paid in arrears (31 U.S.C. 3324). PROMPT PAYMENT DISCOUNT, IF APPLICABLE, SHALL BE SHOWN ON THE INVOICE.

5. PERIODS OF MAINTENANCE (SIN 132-34)

- a. The Contractor shall honor orders for periods for the duration of the contract period or a lesser period of time.
- b. Maintenance may be discounted by the ordering activity upon mutual agreement of the parties.
- c. Annual Funding. When annually appropriated funds are cited on an order for maintenance, the period of the maintenance shall automatically expire on September 30 of the contract period, or at the end of the contract period, whichever occurs first. Renewal of maintenance orders citing new appropriation shall be required, if the maintenance is to be continued during any remainder of the contract period.
- d. Cross-Year Funding Within Contract Period. Where an ordering activity's specific appropriation authority provides for funds in excess of a 12 month (fiscal year) period, the ordering activity may place an order under this schedule contract for a period up to the expiration of the contract period, notwithstanding the intervening fiscal years.
- e. Ordering activities should notify the Contractor in writing thirty (30) calendar days prior to the expiration of an order, if the maintenance is to be terminated at that time. Orders for the continuation of maintenance will be required if the maintenance is to be continued during the subsequent period.

6. UTILIZATION LIMITATIONS – (SIN 132-33 AND SIN 132-34)

- a. Software acquisition is limited to commercial computer software defined in FAR Part 2.101.
- b. When acquired by the ordering activity, commercial computer software and related documentation so legend shall be subject to the following:

- (1) Title to and ownership of the software and documentation shall remain with Contractor, unless otherwise specified.
- (2) Software licenses are by site and by ordering activity. An ordering activity is defined as a cabinet level or independent ordering activity. The software may be used by any subdivision of the ordering activity (service, bureau, division, command, etc.) that has access to the site the software is placed at, even if the subdivision did not participate in the acquisition of the software. Further, the software may be used on a sharing basis where multiple agencies have joint projects that can be satisfied by the use of the software placed at one ordering activity's site. This would allow other agencies access to one ordering activity's database. For ordering activity public domain databases, user agencies and third parties may use the computer program to enter, retrieve, analyze and present data. The user ordering activity will take appropriate action by instruction, agreement, or otherwise, to protect Contractor's proprietary property with any third parties that are permitted access to the computer programs and documentation in connection with the user ordering activity's permitted use of the computer programs and documentation. For purposes of this section, all such permitted third parties shall be deemed agents of the user ordering activity.

Kratos Technology & Training Solutions, Inc.

(3) Except as is provided in paragraph 8.b(2) above, the ordering activity shall not provide or otherwise make available the software or documentation, or any portion thereof, in any form, to any third party without the prior written approval of Contractor. Third parties do not include prime Contractors, subcontractors, and agents of the ordering activity who have the ordering activity's permission to use the licensed software and documentation at the facility, and who have agreed to use the licensed software and documentation only in accordance with these restrictions. This provision does not limit the right of the ordering activity to use software, documentation, or information therein, which the ordering activity may already have or obtains without restrictions.

(4) The ordering activity shall have the right to use the computer software and documentation with the computer for which it is acquired at any other facility to which that computer may be transferred, or in cases of disaster recovery, the ordering activity has the right to transfer the software to another site if the ordering activity site for which it is acquired is deemed to be unsafe for ordering activity personnel; to use the computer software and documentation with a backup computer when the primary computer is inoperative; to copy computer programs for safekeeping (archives) or backup purposes; to transfer a copy of the software to another site for purposes of benchmarking new hardware and/or software; and to modify the software and documentation or combine it with other software, provided that the unmodified portions shall remain subject to these restrictions.

(5) "Commercial Computer Software" may be marked with the Contractor's standard commercial restricted rights legend, but the schedule contract and schedule pricelist, including this clause, "Utilization Limitations" are the only governing terms and conditions, and shall take precedence and supersede any different or additional terms and conditions included in the standard commercial legend.

Kratos Technology & Training Solutions, Inc.

**TERMS AND CONDITIONS APPLICABLE TO CLASSROOM TRAINING COURSES FOR
INFORMATION TECHNOLOGY (IT) EQUIPMENT AND SOFTWARE
(SPECIAL ITEM NUMBER 132-50)**

1. SCOPE

- a. Kratos Technology & Training Solutions shall provide training courses normally available to commercial customers, which will permit ordering activity users to make full, efficient use of general-purpose commercial IT products. Training is restricted to training courses for those products within the scope of this solicitation.
- b. Kratos Technology & Training Solutions shall provide training at Kratos Technology & Training Solutions' facility and/or at the ordering activity's location, as agreed to by Kratos Technology & Training Solutions and the ordering activity.

2. ORDER

Written orders, EDI orders (GSA Advantage! And FACNET), credit card orders, and orders placed under blanket purchase agreements (BPAs) shall be the basis for the purchase of training courses in accordance with the terms of this contract. Orders shall include the student's name, course title, course date and time, and contracted dollar amount of the course.

3. TIME OF DELIVERY

Kratos Technology & Training Solutions shall conduct training on the date (time, day, month, and year) agreed to by Kratos Technology & Training Solutions and the ordering activity.

4. CANCELLATION AND RESCHEDULING

- a. The ordering activity will notify Kratos Technology & Training Solutions at least 72 hours before the scheduled training date, if a student will be unable to attend. Kratos Technology & Training Solutions will then permit the ordering activity to either cancel the order or reschedule the training at no additional charge. In the event the training class is rescheduled, the ordering activity will modify its original training order to specify the time and date of the rescheduled training class.
- b. In the event the ordering activity fails to cancel or reschedule a training course within the time frame specified in paragraph a, above, the ordering activity will be liable for the contracted dollar amount of the training course.
- c. The ordering activity reserves the right to substitute one student for another up to the first day of class.
- d. In the event Kratos Technology & Training Solutions is unable to conduct training on the date agreed to, Kratos Technology & Training Solutions must notify the ordering activity at least 72 hours before the scheduled training.

5. FOLLOW-UP SUPPORT

Kratos Technology & Training Solutions agrees to provide each student with unlimited telephone support or online support for a period of one year from the completion of the training course. During this period, the student may contact Kratos Technology & Training Solutions instructors for refresher assistance and answers to related course curriculum questions.

6. PRICE FOR TRAINING

The price that the ordering activity will be charged will be the ordering activity training price in effect at the time of order placement, or the ordering activity price in effect at the time the training course is conducted, whichever is less.

7. INVOICES AND PAYMENTS

Kratos Technology & Training Solutions, Inc.

Invoices for the training shall be submitted by Kratos Technology & Training Solutions after the ordering activity completion for the training course. Charges for training must be paid in arrears. (31 U.S.C. 3324). PROMPT PAYMENT DISCOUNT, IF APPLICABLE, SHALL BE SHOWN ON THE INVOICE.

8. FORMAT AND CONTENT OF TRAINING

- a. Kratos Technology & Training Solutions shall provide written materials (i.e. manuals, handbooks, texts, etc.) normally provided with course offerings. Such documentation will become the property of the student upon completion of the training class.
- b. Kratos Technology & Training Solutions shall provide each student with a Certificate of Training at the completion of each training course.
- c. The Contractor shall provide the following information for each training course offered:
 - (1) The course title and brief description of the course content, to include the course format (e.g. lecture, discussion, hands-on training)
 - (2) The length of the course;
 - (3) Mandatory and desirable prerequisites for student enrollment;
 - (4) The minimum and maximum number of students per class;
 - (5) The locations where the course is offered;
 - (6) Class schedules; and
 - (7) Price (per student, per class (if applicable)).
- d. For those courses conducted at the ordering activity's location, instructor travel charges (if applicable), including mileage and daily living expenses (e.g., per diem charges) are governed by Pub. L. 99-234 and FAR Part 31.205-46, and are reimbursable by the ordering activity on orders placed under the Multiple Award Schedule, as applicable, in effect on the date(s) the travel is performed. Contractors cannot use GSA city pair contracts. The Industrial Funding Fee does NOT apply to travel and per diem charges.

9. "NO CHARGE" TRAINING

Kratos Technology & Training Solutions shall describe any training provided with equipment and/or software provided under this contract, free of charge, in the space provided below.

(None)

Kratos Technology & Training Solutions, Inc.

**TERMS AND CONDITIONS APPLICABLE TO INFORMATION TECHNOLOGY (IT)
PROFESSIONAL SERVICES (SPECIAL ITEM NUMBER 132-51)**

1. SCOPE

- a. The prices, terms, and conditions stated under Special Item Number 132-51 Information Technology Professional Services apply exclusively to IT professional services within the scope of this Information Technology Schedule.
- b. Kratos Technology & Training Solutions shall provide services at Kratos Technology & Training Solutions facility and/or at the ordering activity location, as agreed to by Kratos Technology & Training Solutions and the ordering activity.

2. PERFORMANCE INCENTIVES

- a. Performance incentives may be agreed upon between Kratos Technology & Training Solutions and the ordering activity on individual fixed price orders or Blanket Purchase Agreements under this contract in accordance with this clause.
- b. The ordering activity must establish a maximum performance incentive price for these services and/or total solutions on individual orders or Blanket Purchase Agreements.
- c. Incentives should be designed to relate results achieved by Kratos Technology & Training Solutions to specified targets. To the maximum extent practicable, ordering activities shall consider establishing incentives where performance is critical to the ordering activity's mission and incentives are likely to motivate Kratos Technology & Training Solutions. Incentives shall be based on objectively measurable tasks.

3. ORDER

- a. Agencies may use written orders, EDI orders, blanket purchase agreements, individual purchase orders, or task orders for ordering services under this contract. Blanket Purchase Agreements shall not extend beyond the end of the contract period; all services and delivery shall be made and the contract terms and conditions shall continue in effect until the completion of the order. Orders for tasks which extend beyond the fiscal year for which funds are available shall include FAR 52.232-19 (Deviation – May 2003) Availability of Funds for the Next Fiscal Year. The purchase order shall specify the availability of funds and the period for which funds are available.
- b. All task orders are subject to the terms and conditions of the contract. In the event of conflict between a task order and the contract, the contract will take precedence.

4. PERFORMANCE OF SERVICES

- a. Kratos Technology & Training Solutions shall commence performance of services on the date agreed to by Kratos Technology & Training Solutions and the ordering activity.
- b. Kratos Technology & Training Solutions agrees to render services only during normal working hours, unless otherwise agreed to by Kratos Technology & Training Solutions and the ordering activity.
- c. The ordering activity should include the criteria for satisfactory completion for each task in the Statement of Work or Delivery Order. Services shall be completed in a good and workmanlike manner.
- d. Any Contractor travel required in the performance of professional services must comply with the Federal Travel Regulation or Joint Travel Regulations, as applicable, in effect on the date(s) the travel is performed. Established Federal Government per diem rates will apply to all Contractor travel. Contractors cannot use GSA city pair contracts.

5. STOP-WORK ORDER (FAR 52.242-15) (AUG 1989)

- (a) The Contracting Officer may, at any time, by written order to Kratos Technology & Training Solutions require Kratos Technology & Training Solutions to stop all, or any part, of the work called for by this contract for a period of 90 days after the order is delivered to Kratos Technology & Training Solutions and for any further period to which the parties may agree. The order shall be specifically identified as a stop-work order issued under this clause. Upon receipt of the order, Kratos Technology & Training Solutions shall immediately comply with its terms and take all reasonable steps to minimize the incurrence of costs allocable to the work covered by the order during the period of work stoppage. Within a period of 90 days after a stop-work is delivered to Kratos Technology & Training Solutions or within any extension of that period to which the parties shall have agreed, the Contracting Officer shall either-
 - (1) Cancel the stop-work order; or

Kratos Technology & Training Solutions, Inc.

(2) Terminate the work covered by the order as provided in the Default, or the Termination for Convenience of the Government, clause of this contract.

(b) If a stop-work order issued under this clause is canceled or the period of the order or any extension thereof expires, Kratos Technology & Training Solutions shall resume work. The Contracting Officer shall make an equitable adjustment in the delivery schedule or contract price, or both, and the contract shall be modified, in writing, accordingly, if-

(1) The stop-work order results in an increase in the time required for, or in Kratos Technology & Training Solutions' cost properly allocable to, the performance of any part of this contract; and

(2) Kratos Technology & Training Solutions asserts its right to the adjustment within 30 days after the end of the period of work stoppage; provided, that, if the Contracting Officer decides the facts justify the action, the Contracting Officer may receive and act upon the claim submitted at any time before final payment under this contract.

(c) If a stop-work order is not canceled and the work covered by the order is terminated for the convenience of the Government, the Contracting Officer shall allow reasonable costs resulting from the stop-work order in arriving at the termination settlement.

(d) If a stop-work order is not canceled and the work covered by the order is terminated for default, the Contracting Officer shall allow, by equitable adjustment or otherwise, reasonable costs resulting from the stop-work order.

6. INSPECTION OF SERVICES

The Inspection of Services–Fixed Price (AUG 1996) (Deviation – May 2003) clause at FAR 52.246-4 applies to firm-fixed price orders placed under this contract. The Inspection–Time-and-Materials and Labor-Hour (JAN 1986) (Deviation – May 2003) clause at FAR 52.246-6 applies to time-and-materials and labor-hour orders placed under this contract.

7. RESPONSIBILITIES OF THE CONTRACTOR

Kratos Technology & Training Solutions shall comply with all laws, ordinances, and regulations (Federal, State, City, or otherwise) covering work of this character. If the end product of a task order is software, then FAR 52.227-14 (Deviation – May 2003) Rights in Data – General, may apply.

8. RESPONSIBILITIES OF THE ORDERING ACTIVITY

Subject to security regulations, the ordering activity shall permit Contractor access to all facilities necessary to perform the requisite IT.

9. INDEPENDENT CONTRACTOR

All IT professional services performed by Kratos Technology & Training Solutions under the terms of this contract shall be as an independent Contractor, and not as an agent or employee of the ordering activity.

10. ORGANIZATIONAL CONFLICTS OF INTEREST

a. Definitions. “Contractor” means the person, firm, unincorporated association, joint venture, partnership, or corporation that is a party to this contract.

“Contractor and its affiliates” and “Contractor or its affiliates” refers to Kratos Technology & Training Solutions, its chief executives, directors, officers, subsidiaries, affiliates, subcontractors at any tier, and consultants and any joint venture involving Kratos Technology & Training Solutions, any entity into or with which Kratos Technology & Training Solutions subsequently merges or affiliates, or any other successor or assignee of Kratos Technology & Training Solutions.

An “Organizational conflict of interest” exists when the nature of the work to be performed under a proposed ordering activity contract, without some restriction on ordering activities by Kratos Technology & Training Solutions and its affiliates, may either (i) result in an unfair competitive advantage to Kratos Technology & Training Solutions or its affiliates or (ii) impair Kratos Technology & Training Solutions or its affiliates’ objectivity in performing contract work.

b. To avoid an organizational or financial conflict of interest and to avoid prejudicing the best interests of the ordering activity, ordering activities may place restrictions on Kratos Technology & Training Solutions, its affiliates, chief executives, directors, subsidiaries and subcontractors at any tier when placing orders against schedule contracts. Such restrictions shall be consistent with FAR 9.505 and shall be designed to avoid, neutralize, or mitigate organizational conflicts of interest that might otherwise exist in situations related to individual orders placed against the schedule contract. Examples of situations, which may require restrictions, are provided at FAR 9.508.

Kratos Technology & Training Solutions, Inc.

11. INVOICES

Kratos Technology & Training Solutions, upon completion of the work ordered, shall submit invoices for IT. Progress payments may be authorized by the ordering activity on individual orders if appropriate. Progress payments shall be based upon completion of defined milestones or interim products. Invoices shall be submitted monthly for recurring services performed during the preceding month.

12. PAYMENTS

For firm-fixed price orders the ordering activity shall pay Kratos Technology & Training Solutions, upon submission of proper invoices or vouchers, the prices stipulated in this contract for service rendered and accepted. Progress payments shall be made only when authorized by the order. For time-and-materials orders, the Payments under Time-and-Materials and Labor-Hour Contracts at FAR 52.232-7 (DEC 2002), (Alternate II – Feb 2002) (Deviation – May 2003) applies to time-and-materials orders placed under this contract. For labor-hour orders, the Payment under Time-and-Materials and Labor-Hour Contracts at FAR 52.232-7 (DEC 2002), (Alternate II – Feb 2002) (Deviation – May 2003)) applies to labor-hour orders placed under this contract.

13. RESUMES

Resumes shall be provided to the GSA Contracting Officer or the user ordering activity upon request.

14. INCIDENTAL SUPPORT COSTS

Incidental support costs are available outside the scope of this contract. The costs will be negotiated separately with the ordering activity in accordance with the guidelines set forth in the FAR.

15. APPROVAL OF SUBCONTRACTS

The ordering activity may require that Kratos Technology & Training Solutions receive, from the ordering activity's Contracting Officer, written consent before placing any subcontract for furnishing any of the work called for in a task order.

SIN 132-33: SOFTWARE PRODUCTS

A. KRATOS TECHNOLOGY & TRAINING SOLUTIONS SOFTWARE PRODUCTS:

EPOCH Telemetry and Commanding Server - The EPOCH T&C Server provides complete off-the-shelf satellite telemetry and command processing for the operations and test environments. The EPOCH T&C Server provides front end data processing, distribution, and command formatting as part of Kratos Technology & Training Solutions' end-to-end command and control solution, EPOCH IPS (Integrated Product Suite). Under operator control from the EPOCH Client, the EPOCH T&C Server can manage a single satellite, multiple satellites from different manufacturers, or an entire constellation of satellites. The EPOCH T&C Server can be database configured for LEO, GEO, and Deep Space missions and provides out-of-the-box compatibility for most commercial satellite designs. EPOCH T&C Server's robust design provides support for all phases of the satellite lifecycle including integration and test, launch and early orbit, on-orbit, and end of life operations. The database driven architecture allows the software to be configured for unique satellite specific characteristics without costly software modifications.

EPOCH Client - The EPOCH Client provides complete operations capability for real-time monitoring and control of all satellite and ground equipment systems and functions. The EPOCH Client uses ISI's EPOCH T&C front-end server to provide the most powerful satellite operations platform in the industry. The EPOCH Client consists of a family of applications tailored to the needs of operators whose tasks are to monitor spacecraft health and safety, perform commanding, execute memory management functions. Users will find instant familiarity with the software since many of the basic system operations are the same as the Microsoft Office® suite of applications. Simple automatic installation and configuration complete the Client's commercial look and feel.

Archive Manager - Archive Manager is the EPOCH IPS (Integrated Product Suite) Automated Archiving and Product Generation solution for end-to-end management of satellite data and analysis product files within an EPOCH IPS Control Center. Archive Manager safely and consistently handles both short-term and long-term storage requirements for satellite archive data in an EPOCH IPS control center. In addition, the Archive Manager automatically creates the necessary analysis product files and statistical data files as new archive data are made available. These product files are immediately accessible by Kratos Technology & Training Solutions' Archive Browser and Extractor product (ABE) for timely and accurate analysis. Archive Manager makes managing and integrating your Control Center data safe and easy.

OASYS (Orbit Analysis System) - OASYS is the high-precision EPOCH IPS (Integrated Product Suite) system that provides an integrated, object-oriented graphical environment for spacecraft mission analysis on today's high-performance microcomputer workstations. OASYS provides full life cycle support for spacecraft orbit and attitude determination, propagation, and control. Using OASYS, spacecraft analysts can manage a single spacecraft or a fleet in any flight regime, from low Earth orbit to geosynchronous.

EPOCH Database - The EPOCH Database product is an easy-to-use, comprehensive solution for maintaining all mission-specific information used to configure the other EPOCH IPS software components. It is designed to support the needs of an individual mission, as well as those of an entire fleet or constellation. It supports all phases of the satellite and ground segment life cycle - from payload and satellite integration and test, through prelaunch, launch, and early orbit, as well as mission operations. Furthermore, the EPOCH Database is your solution to accommodating different satellites and ground equipment from any manufacturer. The system defines all satellite telemetry, commanding, and ground status characteristics, including context-sensitive definitions of telemetry stream locations, engineering conversions, limits, and textual states. The system is equally versatile for commanding. EPOCH Database enables various types of command and telemetry verification, command stream characteristics, and individual command syntax to be defined entirely within the database. Even packetized methods, such as CCSDS, are supported directly.

Kratos Technology & Training Solutions, Inc.

EPOCH Client Trigger Applications - The EPOCH Triggers Service provides an automated detection/action capability to allow ground system and spacecraft system conditions to be detected and actions to be initiated. The Triggers Service can interface to any number of EPOCH T&C Servers to monitor telemetry data, ground equipment data, events, and other system conditions. The Triggers Service can automatically initiate user specified actions based on the detected condition and notify system operators when these events occur. Multiple satellites can be monitored as well as any ground equipment under EPOCH control. The Triggers Service is designed as a Client/Server architecture where the clients provide system operators with a complete view of all triggers active in the system. Multiple Triggers Clients can connect to one or more Triggers Servers to monitor and setup Trigger conditions. The Triggers Server can be configured for redundancy providing reliable operations and confidence that critical satellite or system conditions are detected and acted upon.

B. SAT CORPORATION SOFTWARE PRODUCTS:

(SAT Corporation is a wholly owned subsidiary of Kratos Technology & Training Solutions, Inc.)

SigMon provides RF Spectrum Monitoring, interference detection, direction finding and geo-location from fixed site, vehicles and portable applications. Systems can be networked to connect both fixed and mobile sites. Alarms notify users of exceptional conditions in real-time. Automatic spectral occupancy statistics are provided to survey spectrum usage. A wide variety of report templates are available to save analysis time.

C. NEWPOINT SOFTWARE PRODUCTS:

(Newpoint Technologies is a wholly owned subsidiary of Kratos Technology & Training Solutions, Inc.)

Newpoint Compass was created from the ground up to protect the vital traffic handled by communications networks easily and with outstanding reliability – all while minimizing integration costs to save money. Users benefit from Compass with reduced workload, while owners benefit from reduced operation costs and higher levels of customer satisfaction.

Compass is a complete software package for managing all types of networks. It is built with the flexibility that allows for support of up to 100,000 devices and designed to meet the requirements of diverse applications from satellite to VDSL to the Internet. Ready to Interface to devices that are SNMP-based, as well as with devices that require serial or contact closure interfaces, Newpoint Compass does it all.

New in version 6.0 is a familiar, Windows^l Explorer like administrator. The new Administrator enhances the users experience and capability to administrate a real-time network management system.

Also new for version 6.0 is Compass Creator, a unique application that automatically configures your M&C interface at the touch of a button. Once equipment is added to the system, Creator builds device detail pages, overview pages and configures the database for you. This revolutionary tool significantly reduces the time associated with creating an M&C system. Compass comes packaged with a built-in library of device drivers, and also supplied with a Visual Driver Studio that allows users to write their own drivers.

The alarm log window displays all open and unacknowledged alarms, and includes the ability to filter alarms by type and priority, simplifying system management. Detailed records of all system activity are stored for system analysis.

Compass can be configured to interact with external data that is part of a corporate database such as Oracle. Having Newpoint Compass is like having an instant power tool for managing your network. Click. The system is drawn and configured. Click. A device is added. Click. A system is modified. Click. A pathway is rerouted. Drag. An icon is placed. Click. Displays are duplicated, renamed, or modified to speed operation and minimize labor. Click. A device driver is added.

Kratos Technology & Training Solutions, Inc.

Large varieties of options are available that makes Newpoint Compass a flexible package that can handle all converging network management requirements.

¹. *Note: Windows is a registered trademark of Microsoft Corporation in the United States and other countries.*

Kratos Technology & Training Solutions, Inc.

SIN 132-50 – TRAINING COURSES:

Kratos Technology & Training Solutions Training Courses: Kratos Technology & Training Solutions provides training for EPOCH and OASYS Software. All training is performed at Kratos Technology & Training Solutions' training facility. There is a minimum of six students and a maximum of twelve students per class.

Training for EPOCH Telemetry and Command (T&C) Software: In this course students will develop and understanding of the EPOCH system configuration and will be provided a high level of understanding of key software components, both hardware and software. Students will be instructed as to the relationship between the EPOCH T&C server, the EPOCH Client, and all other EPOCH IPS products. Examination of stream definition and architecture will be provided including device driver and external API instruction. User privileges, user interfaces building and features, and scripting languages will be discussed.

Training for OASYS Orbital Analysis Software: The training course is intended to provide participants with an understanding of the OASYS software by exploring its features in a structured and efficient class setting. In addition to lectures on each individual OASYS service, typical operational cases are presented as part of a hands-on session. Students are encouraged to bring examples of actual spacecraft being flown. While the course material is structured and self-contained, the course format can be flexed to address the individual needs of the students. Upon course completion, users can expect to have obtained an overall understanding of how to use OASYS to satisfy their mission ops requirements. No previous orbit analysis experience is required.

Training for Advanced Orbital Theory: This course is designed to instruct students in orbital mechanics as it relates to satellite applications. This course is intended for students that have basic orbital mechanic knowledge and wish to become more aware of how to apply this knowledge in the satellite industry. Students whose job it is to perform Orbital Analysis functions are encouraged to attend. Basic knowledge of orbital mechanics is required.

Training for EPOCH Database Software: This course will provide students with an introduction to Database terminology, forms and reports. ISI's Database software storage and conversion of satellite telemetry and commanding parameters will be discussed. Users will be shown how to customize the database for project specific applications. Introduction of pseudo, derived telemetry, and global parameters will be discussed. Generation of data products that are used by the EPOCH T&C system will be taught.

Advanced EPOCH Database Software: In this course, students will get advanced instruction of the ways that the internals of the ISI database product uses relational database architectures to store satellite information. Detailed descriptions of database tables that hold all EPOCH data types will be shown and discussed. Advanced usages for table manipulation and report generation will be covered. Multiple project database scenarios and their usage will be demonstrated.

Training for EPOCH Trending Software: The objective of this course is to provide students with an understanding of the trending software that ISI provides to allow users to examine and analyze satellite archived data. The ISI Archive Browser Extractor (ABE) tool will be demonstrated and students will understand the relationship between the ABE product and the various ISI archive data created by other EPOCH IPS components. ABE operations will be taught including both interactive and batch mode processing. Detailed information on creating data tables, plots, and statistical parameters will be provided.

Training for EPOCH Task Initiator Software: In this course, students will be exposed to the installation, configuration, operation, and usages of the EPOCH Task Initiator software that performs scheduling activities for all real-time and off-line EPOCH IPS functions. Creating schedules, submission and deletion of schedules, and the various firing mechanisms inside the application will be discussed. Analysis on how to interpret results will also be covered.

Training for EPOCH Archive Manager Software: The EPOCH Archive Manager course will teach students about the design, concept, reliability, expandability, and performance of the EPOCH IPS software that archives data. Details about

Kratos Technology & Training Solutions, Inc.

the software components including the administration and cataloging tools will be explored. Various directory and storage structures for immediate, short-term, and long-term data repositories will be explained.

Training for EPOCH Web Server Software: In this course, students will be exposed to the installation, configuration, operation, and usages of the EPOCH Web Server software that allows remote users of the ISI EPOCH IPS to receive data. System installation, setup, and various potential usages are described. Security and permissions for exposing data to remote hosts are discussed. Creation of Web-based tables, plots and data receipt functions are taught.

SECTION 4 - LABOR CATEGORY DESCRIPTIONS

IT Professional Services (SIN 132-51) and Software Maintenance as a Service (SIN 132-34)

1. PROGRAM MANAGEMENT

- 1.1. Senior Program Manager: Responsible for the management, performance, and completion of a major contract program. Manages and directs, with full authority, all phases of a program from inception to completion. Coordinates proposal criteria. Maintains contact with customer regarding technical specifications. Directs the integration of a program management team, which may include purchasing, engineering, quality assurance, manufacturing, administrative, and functional areas. Oversees the development of design concepts and test criteria. May supervise activities of one or more product groups or divisions. Typically requires an advanced degree with seven to ten years related experience
- 1.2. Program Manager: Responsible for the management, performance, and completion of a major contract program. Manages and directs, with direction from the Senior Program Manager, all phases of a program from inception to completion. Coordinates proposal criteria. Maintains contact with customers regarding technical specifications. Directs the integration of program management team, which may include purchasing, engineering, quality assurance, manufacturing, and administrative and functional areas. Oversees the development of design concepts and test criteria. May supervise activities of one of more product groups or divisions. Typically requires a college degree or equivalent and seven to nine years related experience.
- 1.3. Senior Project Manager: Responsible for the management, performance, and completion of major new project. Oversees all data preparation and collection for new major project. Provides technical expertise to Program Managers as needed. Interfaces with other departments to prepare cost justifications, recommend priority, and generate schedules. Ensures completion of detailed schedules for projects from initiation to delivery and keeps management informed of any deviations. Monitors status of projects including: cost, timing, and staffing. Typically reports to the Program Manager. May require knowledge and understanding of project monitoring and reporting systems. Typically requires a college degree or equivalent and five to seven years-related experience.
- 1.4. Project Manager: Responsible for the management, performance, and completion of a major new project. Oversees data preparation and collection for new major projects. Interfaces with other departments to prepare cost justifications, recommended priority, and generate schedules. Ensures completion of detailed schedules for projects from initiation to delivery and keeps management informed of any deviations. Monitors status of projects including: cost, timing, and staffing. Typically reports to the Senior Project Manager. May require knowledge and understanding of project monitoring and reporting systems. Typically requires a college degree or equivalent and two to four years-related experience.

2. SYSTEMS ENGINEER

- 2.1. Systems Engineer -A Responsible for establishing techniques for the design, development, and troubleshooting of highly complex software programs for computer based systems. Designs, develops, and coordinates the application of state-of-the-art techniques for complex software programs for computer-based systems. Performs technical risk management and assessment. May work solo on projects requiring advanced knowledge or a particular field of specialization. Prepares software documentation, test procedures, instruction manuals, and related information. Required maintaining contact with customer to define and clarify system requirements. May provide leadership involving the planning, scheduling, and coordination of projects. Typically requires an advanced technical degree, or equivalent and ten years-related experiences.
- 2.2. System Engineer- B Responsible for establishing techniques for the design, development, and troubleshooting of highly complex software programs for computer-based systems. Designs, develops, and coordinates the

Kratos Technology & Training Solutions, Inc.

application of the state-of-the-art techniques for complex software programs for computer-based systems. Performs technical risk management and assessment. Prepares software documentation, test procedures, instruction manuals, and related information. Required maintaining contact with customer to define and clarify systems requirements. May provide direction involving the planning, scheduling and coordination of projects. Typically requires an advanced technical degree, or equivalent and seven years-related experiences.

- 2.3. System Engineer- C Responsible for designing, developing, and troubleshooting complex software programs for computer-based systems. Performs systems modeling, simulation, and analysis in designing assemblers, liners, compilers, and operating systems utilities. Responsibilities include designing specific enhancements and planning upgrades to operating systems. Advises hardware engineers on system characteristics that affect software systems. Provides input for documentation on new or existing programs. May provide direction by assigning and monitoring work, and training new employees. Typically requires a technical degree, or equivalent and six years-related experiences.
- 2.4. System Engineer D Responsible for designing, developing, and troubleshooting complex software programs for computer-based systems. Performs systems modeling, simulation, and analysis in designing assemblers, liners, compilers, and operating systems utilities. Responsibilities include designing specific enhancements and planning upgrades to operating systems. Provides input for documentation on new or existing programs. May provide direction by assigning and monitoring work, and training new employees. Typically requires a technical degree, or equivalent and five years-related experiences.
- 2.5. Systems Engineer E Under general supervision, designs, develops, and troubleshoots complex software programs for computer-based systems. Performs systems modeling, simulation, and analysis in designing assemblers, liners, compilers and operating systems utilities. Responsibilities include designing specific enhancements and planning upgrades to operating systems. Provides input for documentation on new and existing programs. May provide work leadership by training new employees and assigning and monitoring work. Typically requires a college degree or equivalent and three to five year s related experience.
- 2.6. Systems Engineer- F Under direct supervision assists in the analysis, design, programming, and modification of computer programs for software products and/or customer applications. Writes code and completes programming, testing, and debugging of applications. Finalizes forms, procedures, and documentation needed for installation and maintenance of application programs. May interface with marketing and users to add new or custom features to company products. Typically requires a college degree or equivalent and two to four year s related experience.

3. PROGRAMMER ANALYST

- 3.1. Sr. Programmer Analyst- A Competent to establish techniques for design and modification of programs for software products and/or customer applications. Manages highly complex projects. Consulted on most complex technical questions. Typically requires a MS degree or equivalent and at least ten years related experience. Demonstrated advanced problem solving ability with computer applications.
- 3.2. Sr. Programmer Analyst - B Competent to perform the most complex analysis, design, programming and modifying programs for software products and/or customer applications. Provides technical supervision to lower level employees. Typically requires a MS degree or equivalent and seven to nine year s related experience. Demonstrated advanced problem solving ability with computer applications.
- 3.3. Sr. Programmer Analyst - C Competent to perform the most complex analysis, design, programming and modifying programs for software products and/or customer applications. May provide technical advice to lower level employees. Typically requires a college degree or equivalent and six to eight year s related experience. Demonstrated advance problems solving ability with computer applications.

Kratos Technology & Training Solutions, Inc.

- 3.4. Sr. Programmer Analyst - D Competent to perform the most complex analysis, design, programming and modifying programs for software products and/or customer applications. May provide technical advice to lower level employees. Typically requires a college degree or equivalent and five to seven year s related experience. Demonstrated advance problem solving ability with computer applications.
- 3.5. Programmer Analyst - A Under general supervision, formulates/defines system scope and objectives. Devises or modifies procedures to solve complex programming problems considering computer equipment capacity and limitations, operating time, and form of desired results. Prepares detail specifications for which programs will be written. Designs, codes, tests, debugs, and documents those programs. May provide guidance and training to less experienced programmers. Typically requires a college degree or equivalent, and three to five year s related experience. Demonstrated problem solving ability with computers.
- 3.6. Programmer Analyst - B Under limited supervision, assists in formulating/defining system scope and objectives through research and fact-finding to develop or modify information for processing normal business programming problems. Prepares detailed specifications from which programs will be written. Designs, codes, tests, debugs, documents, and maintains those programs. Competent to work in most phases of applications systems analysis and programming activities, but spends majority of time programming. Typically requires a college degree or equivalent and two to four year s related experience. Demonstrated problem solving ability with computers.
- 3.7. Programmer Analyst - C Under direct supervision, assist in the research, evaluation, testing, and possible implementation of developing or modifying information systems for processing normal business operating problems. Assists in the preparation of detailed specifications from which programs will be written. Designs, codes, test, debugs, documents, and maintains these programs. Requires familiarity with information systems and application systems analysis. Typically requires a college degree and one to three years related experience. Demonstrated problem solving ability with computers.

4. TECHNICIAN/SPECIALIST

- 4.1. Technician A Under general supervision, responsible for the supervising the technician staff in customer support activities involving installation, modification, and repair of equipment and systems. Directs subordinates work following established company policies and procedures. Develops schedules and assigns work to meet critical service projects. Ensures maintenance contracts for services are fulfilled. Oversees that appropriate documentation and records are kept. Communicates with other departments and customers to ensure satisfactory customer support. Typically requires a college degree or equivalent and five years related experience.
- 4.2. Technician B Under general supervision performs company support activities for equipment and systems products. Using established company guidelines performs on-site installation, preventive maintenance, routine repair, and calibration of company s product and equipment such as writing and cabling. Serves as customer contact on technical and service related problems. May instruct customer in proper use and operation of equipment. This person may assist lower level technicians. Refers more complex problems to supervisor. Typically requires an AA degree in electronics technology and demonstrated mechanical/electrical aptitude.
- 4.3. Technician C Under general supervision performs company support activities for equipment and systems products. Using established company guidelines performs on-site installation, preventive maintenance, routine repair, and calibration or company s product and equipment such as wiring and cabling. Serves as customer contact on technical and service related problems. May instruct customer in proper use and operation of equipment. This person may assist lower level technicians, Refers more complex problems to supervisor.

Kratos Technology & Training Solutions, Inc.

Typically requires a high school education and technical formal training with one to two years related experience.

- 4.4. Technician D Under direct supervision, performs customer support activities for equipment and systems products such as writing, cabling, and relatively noncomplex equipment. Assists higher-level technicians with on-site installations, checkout, and emergency repairs. Sorts, counts, and check raw materials, finished and semi-finished parts. May be required to prepare and package materials for shipment. May contact vendors for routine supplies. Delivers and picks up company mail from multiple sites. Typically requires a high school diploma or equivalent with formal technical training beyond high school.

5. PUBLICATIONS

- 5.1. Publications Specialist A Responsible for managing the preparation of technical copy for company publications. Directs and coordinates efforts of writers, editors, and illustrators. Exercise quality and cost control over documents intended for internal and external distribution. Responsible for source material and technical data and the nature and extent of revision to existing documentation. Edits individualized copy of analytical, interpretive, documentary, and/or promotional literature. Oversees production schedule to ensure timely delivery of documentation to internal and external users. May assist in preparation and layout of work for publication. Typically reports to a Senior Project Manager or Vice President. Requires a working knowledge of engineering technology and electronic systems. Typically requires a college degree or equivalent and seven years related experience.
- 5.2. Publications Specialist B Under general supervision, performs a wide variety of technical illustrations for various company publications. Plans, lays out, and prepares complex line illustrations for manuals, handbooks, technical reports, presentations, promotional literature, and other publications. Chooses techniques, which will best produce desired visual effect in compliance with established quality standards. May act as technical consultant on matters pertaining to design, composition, and methods of presenting engineering data. Utilizes a broad range of graphics production equipment and supplies. Requires thorough knowledge of all phases of illustrating as well as printing and photographic processes. Typically requires a technical degree or equivalent and five years related experience.
- 5.3. Publications Specialist C Under limited supervision, performs semi-routine technical illustrations for various company publications. Plans, lays out, and prepares line illustrations for manuals, handbooks, technical reports, presentations, promotional literature, or other publications. Works from rough sketches, engineering drawings, models, photographs or other documentation to prepare illustration. Requires a working knowledge of all phases of illustrating as well as printing and photographic processes. Typically requires a technical degree or equivalent and two years related experience.

6. SUPPORT/ADMINISTRATIVE STAFF

- 6.1. **Support Staff A:** (Assistant Controller) Responsible for developing, implementing, and maintaining the company cost accounting system (s). Oversees the data collection, cost allocation, and report preparation for material purchases, labor, equipment depreciation, repairs, assembly, and operating expenses to ensure established procedures are followed. Prepares financial statements and reports, which compare budget to actual expenses. Investigates cost structures for new and existing services and products. Typically reports to the CFO. Typically requires a college degree or equivalent and four to six year s experience. CPA desirable.
- 6.2. **Support Staff C: (2 positions in this category)**
 - 6.2.1. **Buyer:** Under limited supervision, provides assistance in the performance of various routine purchasing assignments and planning or production materials. Procures supplies, raw materials, and equipment

Kratos Technology & Training Solutions, Inc.

necessary for the operation of the organization. Checks requisitions and contacts vendors. Exercises a good working knowledge of materials and sources of supply to make purchases at prices consistent with quality and quantity requirements. Plans, schedules, and monitors materials through production. Evaluates vendor reliability. Typically reports to the Purchasing manager. Typically requires a college degree or equivalent and two to four year s related experience.

- 6.2.2. **Staff Accountant:** Under general supervision, performs a wide variety of semi-complex duties of an accounting nature. Requires initiative and a significant amount of judgment making correct account adjustments and allocations. Duties may include, but not limited to; analyzing accounting documents for accuracy, investigating questionable data, and taking corrective action when necessary. Reconciles complex accounts and balances accounts payable/receivable records. May establish plans and procedures for new assignments. Typically requires a high school education or equivalent and at least three to five years related experience including knowledge of basic accounting policies.

6.3. Support Staff D

6.3 Junior Accountant: Under general supervision, performs general accounting work and an entry level professional. Assists in one or more of the following functions: preparing trial balances, makes adjusting, and closing entries, preparing balance sheets, and preparing other reports on profit and loss, inventory, receipts, and disbursements. Typically requires a college degree or equivalent and basic knowledge of accounting theory and practices. Typically reports to the Accounting Manager.

6.4 Support Staff E

6.4 Support Staff E: Under limited supervision, performs specialized administrative support tasks of non-routine and non-repetitive nature to assist principal, administrative, or line manager/directors. Requires knowledge of company procedures and product line. Greet customers, clients, vendors, employment applicants and other visitors, and may handle incoming telephone calls. Requires ability to work with a word processor or personal computer, including typing skills of 60 wpm. Typically requires some college and three to five-years related experience.

SECTION 5 – SMALL BUSINESS PARTICIPATION

**USA COMMITMENT TO PROMOTE SMALL BUSINESS PARTICIPATION
IN PROCUREMENT PROGRAMS**

PREAMBLE

Kratos Technology & Training Solutions provides commercial products and services to ordering activities. We are committed to promoting participation of small, small disadvantaged and women-owned small businesses in our contracts. We pledge to provide opportunities to the small business community through reselling opportunities, mentor-protégé programs, joint ventures, teaming arrangements, and subcontracting.

COMMITMENT

- To actively seek and partner with small businesses.
- To identify, qualify, mentor and develop small, small disadvantaged and women-owned small businesses by purchasing from these businesses whenever practical.
- To develop and promote company policy initiatives that demonstrate our support for awarding contracts and subcontracts to small business concerns.
- To undertake significant efforts to determine the potential of small, small disadvantaged and women-owned small business to supply products and services to our company.
- To insure procurement opportunities are designed to permit the maximum possible participation of small, small disadvantaged, and women-owned small businesses.
- To attend business opportunity workshops, minority business enterprise seminars, trade fairs, procurement conferences, etc., to identify and increase small businesses with whom to partner.
- To publicize in our marketing publications our interest in meeting small businesses that may be interested in subcontracting opportunities.

We signify our commitment to work in partnership with small, small disadvantaged and women-owned small businesses to promote and increase their participation in ordering activity contracts. To accelerate potential opportunities please contact Ms. Helen Oertel at (443) 539-5206.
