ABOUT US

Innovatis Technologies Inc. is a fast growing woman and minority owned Business and Technology Services company with years of experience delivering large scale IT projects in the government and private sector. The company is promoted by professionals who have over 15 years of proven expertise in Federal Financial Regulatory Domain and strong solution architecture skills. Our team has proven expertise in bringing thought leadership, innovation in delivering enterprise transformation and modernization services. Innovatis provides unparalleled business value through a combination of process excellence and innovative agile delivery models. Innovatis brings in world-class talent, relevant technology, proven tools and methodologies to provide highly innovative and cost effective solutions

OUR SPECIALTIES

ENTERPRISE BUSINESS SOLUTIONS

- Innovatis has extensive experience across Enterprise Business Solutions suite of applications spanning Enterprise Resource Planning, Business Intelligence and Performance Management. We offer industry leading solutions around Open Source Object Oriented Technologies Java J2EE, Big Data Analytics, Oracle, Microsoft, SAP, Ruby on Rails etc using Agile and continuous integration methodologies. Our Value propositions include reference implementations, cookbooks, solution accelerators and test automation frameworks

ENTERPRISE MOBILITY SOLUTIONS

- We provide a comprehensive suite of solutions and services that are technologically superior and proven viability that cover the entire gamut of the advice-innovate- execute-manage cycle. Our Enterprise Mobility offering is cover business-to-consumer (B2C), business-to-business (B2B), business-to-enterprise (B2E) segments. Our Value proposition includes Objectives-oriented consulting, effective enterprise mobility strategy and efficient mobility rollouts that leveraging partnership with global mobility platforms.

ENTERPRISE CONTENT MANAGEMENT

- Innovatis has well-established ECM Solutions practice that consults, conceptualizes, builds, deploys and supports a wide array of content management solutions including Document Management, Web Content Management, Digital Asset Management, Records Management and Imaging Solutions across industries and geographies. Our Experience spans across technologies such as EMC Documentum, Alfresco CMS, Drupal, Adobe CQ5 and Opentext.

ENTERPRISE ARCHITECTURE

- Innovatis provides end-to-end Enterprise Architecture services that promote the use of various Enterprise Architecture (EA) methodologies and tools, with consulting and technical competencies provided by a pool of easily-deployable, TOGAF certified Enterprise Architects across various verticals. Our Value Propositions include Repository of best practices, templates, methodologies, governance models, Domain-specific reference architectures and solution accelerators

CUSTOMER INFORMATION

1a. Awarded Special Item Numbers (SINs):

➤ 132-51

1b. Lowest-priced model number and lowest unit price for that model for each awarded:

➤ Analyst I - \$81.36

1c. Labor Category Descriptions and Hourly Rates:

POSITION	HOURLY RATE
Analyst I	\$81.36
Analyst II	\$100.50
Analyst III	\$114.86

LABOR CATEGORY DESCRIPTIONS

Commercial Job Title:	Analyst I
Minimum/General Experience:	3 Year of related Technical Experience
Functional Responsibility:	Works with multiple IT departments/sources to research, collect, identify and report software or system requirements using interviews, document analysis, requirements workshops, surveys, site visits, business process descriptions, use cases, scenarios, business analysis, task and workflow analysis. Critically evaluates information gathered, reconcile conflicts; decomposes high-level information into detail functional and development or system requirements. Assist IT project managers with project plan, version scopes and timelines Work with development or systems team to implement requirements related to IT projects. Can solve simple problems, and most often times will require direct supervision provided by more experienced personnel.
Minimum Education:	Bachelors Degree in related field

Commercial Job Title:	Analyst II
Minimum/General Experience:	7 Years of related Technical Experience
Functional Responsibility:	Works with multiple IT departments/sources to research, collect, identify and report software or system requirements using interviews, document analysis, requirements workshops, surveys, site visits, business process descriptions, use cases, scenarios, business analysis, task and workflow analysis. Critically evaluates information gathered, reconcile conflicts; decomposes high-level information into detail functional and development or system requirements. Assist IT project managers with project plan, version scopes and timelines Work with development or systems team to implement requirements related to IT projects. Can solve more complex problems with minimal supervision.
Minimum Education:	Bachelors Degree in related field

Commercial Job Title:	Analyst III
Minimum/General Experience:	11 Years of related Technical Experience
Functional Responsibility:	Works with multiple IT departments/sources to research, collect, identify and report software or system requirements using interviews, document analysis, requirements workshops, surveys, site visits, business process descriptions, use cases, scenarios, business analysis, task and workflow analysis. Critically evaluates information gathered, reconcile conflicts; decomposes high-level information into detail functional and development or system requirements. Assist IT project managers with project plan, version scopes and timelines Work with development or systems team to implement requirements related to IT projects. Can solve all problems with no supervision required. Shall supervise junior personnel.
Minimum Education:	Bachelors Degree in related field

Labor Category:	Consultant I
Minimum Experience:	7 Year of related Technical Experience
Job Description:	Professional providing general IT assistance to help customers achieve a specific solution related to the organization' s utilization of information technology products and services. Demonstrates exceptional oral and written communication skills.
Minimum Education:	Bachelors Degree in Computer Science

Labor Category:	Consultant II
Minimum Experience:	11 Years of related Technical Experience
Job Description:	Professional providing general IT assistance to help customers achieve a specific solution related to the organization' s utilization of information technology products and services. Demonstrates exceptional oral and written communication skills.
Minimum Education:	Bachelors Degree in Computer Science

Labor Category:	Consultant III
Minimum Experience:	15 Years of related Technical Experience
Job Description:	Professional providing general IT assistance to help customers achieve a specific solution related to the organization' s utilization of information technology products and services. Demonstrates exceptional oral and written communication skills.
Minimum Education:	Bachelors Degree in Computer Science

Commercial Job Title:	Enterprise Architect
Minimum/General Experience:	10 Years of related Technical Experience
Functional Responsibility:	<p>Designs and develops complex business solutions using a variety of computer technologies. Independently performs a variety of system design and engineering tasks which are broad in nature and are concerned with design and implementation of major enterprise systems development and integration, including supporting personnel, hardware, software, and support facilities and/or equipment. Considered a Subject Matter Expert (SME) in one or more specific areas of computer system design and networking.</p> <p>Applies knowledge of complex concepts and techniques to develop and implement automated solutions to engineering, scientific, or business data acquisition and management problems. Uses scientific and engineering logic to independently identify conceptual or theoretical solutions to problems of technology systems hardware or software design and operation.. Evaluates and recommends optimum solutions balancing specific project needs with economic constraints.. Formulates architectural design, functional specification, interfaces and documentation of computer systems considering system interrelationships, operating modes, and equipment configurations. Responsible for developing project plans, justifications, guidelines, and controls.</p>
Minimum Education:	Bachelors Degree in related field

Commercial Job Title:	Program Manager
Minimum/General Experience:	12 Years of related Technical Experience
Functional Responsibility:	Provides program management for multiple projects. Prepares project implementation plan, coordinates project activities, monitors project milestones, and provides progress reports. Responsible for all aspects of performance (i.e., technical, contractual, administrative, financial). Minimum Education:	Bachelors Degree in Computer Science, Information Systems, Business or equivalent field

Commercial Job Title:	Subject Matter Expert I
Minimum/General Experience:	11 Years of related Technical Experience
Functional Responsibility:	<p>Has advanced understanding of area of expertise related to various process improvement and IT disciplines. Provides expert consultative support to a functional technical area of the project. Develops solutions to complex problems. Works closely with the team to identify the best solution to organizational, process or technical issues. Familiar with a specific field's concepts, practices, and procedures. Relies on extensive experience and judgment to plan and accomplish goals.</p>
Minimum Education:	Bachelors Degree in related field

Commercial Job Title:	Subject Matter Expert II
Minimum/General Experience:	15 Years of related Technical Experience
Functional Responsibility:	Has advanced understanding of area of expertise related to various process improvement and IT disciplines. Provides expert consultative support to a functional technical area of the project. Develops solutions to complex problems. Works closely with the team to identify the best solution to organizational, process or technical issues. Familiar with a specific field's concepts, practices, and procedures. Relies on extensive experience and judgment to plan and accomplish goals.
Minimum Education:	Bachelors Degree in related field

Commercial Job Title:	Subject Matter Expert III
Minimum/General Experience:	19 Years of related Technical Experience
Functional Responsibility:	Has advanced understanding of area of expertise related to various process improvement and IT disciplines. Provides expert consultative support to a functional technical area of the project. Develops solutions to complex problems. Works closely with the team to identify the best solution to organizational, process or technical issues. Familiar with a specific field's concepts, practices, and procedures. Relies on extensive experience and judgment to plan and accomplish goals.
Minimum Education:	Bachelors Degree in related field

Commercial Job Title:	Technical Writer**
Minimum/General Experience:	5 Years of related Technical Experience
Functional Responsibility:	Prepares various types of publications by integrating original writing with inputs from technical and non-technical professionals. Analyzes industry standards and interprets client requirements for documentation. Researches and translates complex technical information, and rewrites it for clarity and readability. Proofreads and performs editorial reviews on all forms of technical documentation. Maintains version control over documents and supporting graphics. Designs and updates communications programs/plans in support of clients.
Minimum Education:	Bachelors Degree in Computer Science or Related Field

Commercial Job Title:	Technology Engineer I
Minimum/General Experience:	5 Years of related Technical Experience
Functional Responsibility:	Performs computer engineering and software development. Analyzes business processes, functions, and procedures to develop the best software. Establishes systems specifications and objectives. Participates in systems development and design, including software programming and user interface design. Formulates test plans and coordinates and performs software testing. Has application knowledge of commonly used concepts, practices and procedures within the information technology fields. Analyzes engineering problems and develops solutions. Makes recommendation after performing system analysis.
Minimum Education:	Bachelors Degree in Computer Science or Related Field

Commercial Job Title:	Technology Engineer II
Minimum/General Experience:	9 Years of related Technical Experience
Functional Responsibility:	Performs computer engineering and software development. Leads engineers in the activities of solving computer problems and enabling computer technology to meet the needs of the organization. Assigns, coordinates, and reviews work of engineering personnel. Responsible for applying concepts or modernization, innovation, consolidation, and cost reduction to assigned tasks. A certain degree of creativity and latitude is expected.
Minimum Education:	Bachelors Degree in Computer Science or Related Field

Commercial Job Title:	Technology Engineer III
Minimum/General Experience:	14 Years of related Technical Experience
Functional Responsibility:	Performs computer engineering and software development. Applies full understanding of computer engineering discipline and industry best practices plus innovation to effectively design, implement, and support software products. Gives technical guidance to other engineers in the team. Analyzes engineering problems and develops innovative solutions. Leads engineers in performing system trade studies to maximize investments in equipment, personnel, and business processes.
Minimum Education:	Bachelors Degree in Computer Science or Related Field
