Weston Solutions, Inc. (WESTON<sup>®</sup>) delivers integrated, sustainable solutions for environmental restoration, property redevelopment, design/build construction, green buildings and clean energy. Our engineers, scientists, and energy professionals integrate environmental performance considerations into client operations identifying ways to effectively enhance resource efficiency, use renewable resources, assess product or system life-cycles, identify alternatives for waste disposal incorporating waste reduction, and implement pollution prevention.

WESTON® has a team of over 50 LEED® accredited professionals with extensive experience in incorporating Sustainable Design/LEED® into construction projects on Federal installations throughout the country. Starting from the planning phase throughout the design and construction, WESTON evaluates a wide range of technologies, techniques, materials, and strategies to incorporate sustainable actions and ensure compliance with regulations while developing environmentally efficient facilities.
