See 48 CFR 12.212.

When acquired by the Government, commercial computer software and related documentation shall be subject, but not limited, to the following:

- a. **LICENSE GRANT.** In consideration of Government's payment of the applicable License Fee as set forth in this Agreement and subject to the terms and conditions of this Agreement, NetIQ Corporation ("NetIQ" or Contractor") grants to Government as an end user licensee ("Licensee") during the Term of this Agreement a worldwide, nonexclusive license, without the right to sublicense and solely for its own internal business operations, (i) to use NetIQ's Software in object code format ("Software") subject to all of the terms of this Agreement, the number of licenses purchased for end users, and in accordance with the terms of the NetIQ's standard end user documentation for the Software ("Documentation"); (ii) to use Documentation solely in connection with Licensee's installation and use of the Software; and (iii) to install, integrate, and implement the Software or to have authorized third parties do so for Licensee. Third party software ("Additional Software") may be provided for the convenience of Licensee and may be subject to

separate terms and conditions as provided by the third party licensor (“Licensors”). This contract does not grant Licensee any right to receive, or any license to, any enhancement or update of the Software, or any other NetIQ software. Licensee shall implement all reasonable measures to ensure that its End Users comply with the restrictions and limitations of this Agreement.

- b. **RESTRICTION ON COPIES.** Licensee may reproduce the Software, Additional Software, and Documentation only as necessary to use the Software for the number of licenses purchased and to make a reasonable number of copies for back-up and archival purposes. Licensee shall only make exact copies of the versions as originally delivered by NetIQ, and shall ensure that each copy contains all titles, trademarks, and copyright and restricted rights notices as in the original. If Licensee receives its first copy of the Software electronically, and a second copy on physical media, the second copy may be used for archival purposes only. All such copies, including any partial copies, constitute Software, Additional Software, or Documentation, as the case may be.
- c. **LICENSE RESTRICTIONS.** The rights granted in Section 1(a) above are subject to the following restrictions: (i) Licensee may use the Additional Software only in combination with the Software and solely for purposes of installing, operating, or processing data generated by the Software; (ii) Licensee may not use the Additional Software as stand-alone applications; (iii) Licensee may not modify, port, adapt, translate, localize, reverse engineer, disassemble, decompile, or otherwise attempt to derive the source code of the Software or Additional Software, except and only to the extent that it is expressly permitted by applicable law notwithstanding this limitation; (iv) Licensee may not sublicense or use the Software or Additional Software for time-sharing, rental, outsourcing, application or managed service provision, or service bureau use, or transfer, lease, assign, pledge, share or distribute, or on-line use, or to train persons other than licensed End Users, unless previously agreed to in writing by NetIQ; (v) Licensee shall not use the Software that are development tools for general application development purposes; (vi) Licensee shall not disclose the results of any performance, functional or other evaluation or benchmarking of the Software to any third party without the prior written permission of NetIQ; (vii) Licensee may not remove any patent, trademark, copyright, trade secret or other proprietary notices or labels on the Software, Additional Software, or Documentation.
- d. **TITLE; RETENTION OF RIGHTS.** NetIQ reserves all rights not expressly granted Licensee in this Agreement. Without limiting the generality of the foregoing, Licensee acknowledges and agrees that NetIQ only grants Licensee a limited right of use, which may be revocable in accordance with the terms of this contract and that NetIQ and its Licensors retain all rights, title and interest in and to the Software, Additional Software, Documentation Updates, derivative works, modifications, bug fixes, and/or other intellectual property provided by NetIQ or its Licensors, as applicable. Licensee acknowledges and agrees that it does not acquire any rights, express or implied, in or to the foregoing, except as specifically set forth in this Agreement. The Software, Additional Software, and Documentation are protected by the copyright laws of the United States and international copyright treaties. Licensee hereby grants NetIQ a worldwide, non-exclusive, royalty-free, perpetual right and license to use and incorporate into the Software any new features, functionality, corrections, or enhancements for the Software suggested by Licensee. Licensee acknowledges that the Software incorporating any such new features, functionality, corrections or enhancements shall be the sole and exclusive property of NetIQ and all such suggestions shall be free from any confidentiality restrictions that might otherwise be imposed upon NetIQ.
- e. **CERTIFICATION AND AUDIT RIGHTS.** At NetIQ’s written request, but not more frequently than once annually during the Term of this Agreement, Licensee shall certify to NetIQ in a writing signed by Licensee’s authorized representative its compliance with the terms of this Agreement, and listing (i) the number of End Users by country, and (ii) the locations and types of the systems on which it operates or has installed the Software. Licensee is responsible for implementing reasonable means to monitor its compliance with the terms of this Agreement. NetIQ reserves the right to audit Licensee’s use of the Software no more than once annually at NetIQ’s expense. NetIQ shall schedule any audit at least fifteen (15) days in advance. Any such audit shall be conducted during regular business hours at Licensee’s facilities and shall not unreasonably interfere with Licensee’s business activities. If such audit reveals that Licensee has underpaid fees to NetIQ, Licensee shall promptly pay to NetIQ such fees at the prices previously agreed to for such Software and, if the underpayment is greater than ten percent (10%), Licensee shall reimburse NetIQ for its reasonable costs of audit.

- f. **EVALUATION USE.** In the event that the Software is licensed only for Evaluation Use, the terms of this paragraph shall apply. The license to use the Software commences on installation of the Software and continues for a period of 30 days, or a shorter period for certain software products, (the "Evaluation Period") for the purpose of evaluating the NetIQ Software to determine whether Government wants to purchase a license. Government shall limit disclosure of the Software solely to its employees, as strictly necessary. This Evaluation License shall be used solely by Government Licensee's employees, and no other third party, and shall not exceed the "Number of User Account Licenses" issued by NetIQ. Such use of the NetIQ Software shall take place solely at the Licensee's site, strictly in an evaluation or testing environment. Software licensed for Evaluation Use may automatically disable itself at the end of the Evaluation Period, as it employs a restriction mechanism, which restricts the program to a limited working time. This restriction mechanism and the manner in which it enforces the restriction is maintained in confidence by NetIQ as a trade secret, and the Government may not publish, disclose or reveal it. The Government agrees that it will not do anything to circumvent or defeat the restriction mechanism. In the event any Evaluation Software does not have an automatic disabling mechanism, then Government shall discontinue using and return the Software within ten (10) business days after the end of the Evaluation Period.
