24. Contractor **HAS** registered with the System for Award Management (SAM).
2. DESCRIPTION OF ELECTRONIC COMMERCE AND SUBSCRIPTION SERVICES  
(SPECIAL ITEM NUMBER 54151ECOM)

**RAPIDGate® Program, 1-year subscription**

**RAPIDGate® Program** – 1-year subscription. This program strengthens and streamlines access control management, and disaster, pandemic and emergency preparation and response, directed at vendors, contractors, service providers, suppliers, first responders and other third parties at a wide range of ordering activity sites including military installations, hospitals, prisons and federal laboratories. The program confirms that companies are sponsored and individuals have gone through proper vetting and identity proofing prior to credentialing. Using program- furnished portable handheld devices, ordering activity personnel can electronically scan, read and validate RAPIDGate® credentials and check individuals’ biometrics to validate that individuals are who they say they are and are approved for access. During disaster and emergency response the program assists in deterring activities associated with fraudulent identities and disqualifying backgrounds, and can send immediate broadcast messages to the handhelds to provide timely communication to responders. Capabilities for pandemic response include no touch I.D. scanning, and contact tracing to reduce the spread of disease and assist in identifying exposed individuals for notification and proper response. Program services include site surveys; confirmation of sponsorship of companies and individuals; enrollment/registration of companies and individuals; individual vetting, which may consist of NCIC/III or Nlets checks (subject to government authorization) and/or commercial background screenings; program credentials (which may be in the form of a PIV-I credential); access control authentication; regular and on-demand reporting; equipment maintenance; customer and program support; and training. Program equipment and software include registration station(s), guard station(s), handheld reader device(s), antenna equipment, I.D. credentials, and issuance station (PIV-I credentials only). Equipment is for ordering activity’s use during the term of subscription.

Contractor retains all rights and title to program equipment, software and data. Contractor charges vendor companies and their employees an enrollment/registration fee and an annual renewal fee. These fees are remitted to and shall remain the sole property of Contractor. The ordering activity has no liability for agreements entered into by Contractor with vendor companies and their employees with regard to the Program. Minimum ordering activity qualifications: the total number of companies divided by the total number of Access Control Points must be at least 50 at each site. Consult Contractor’s RAPIDGate® Program Description for complete subscription terms.

**RAPIDGate® Program, 3-year renewal**

**RAPIDGate® Program** – 3-year renewal. This program strengthens and streamlines access control management, and disaster, pandemic and emergency preparation and response, directed at vendors, contractors, service providers, suppliers, first responders and other third parties at a wide range of ordering activity sites including military installations, hospitals, prisons and federal laboratories. The program confirms that companies are sponsored and individuals have gone through proper vetting and identity proofing prior to credentialing. Using program- furnished portable handheld devices, ordering activity personnel can electronically scan, read and validate RAPIDGate credentials and check individuals’ biometrics to validate that individuals are who they say they are and are approved for access. During disaster and emergency response the program assists in deterring activities associated with fraudulent identities and disqualifying backgrounds, and can send immediate broadcast messages to the handhelds to provide timely communication to responders. The ordering activity has no liability for agreements entered into by Contractor with vendor companies and their employees with regard to the Program. Minimum ordering activity qualifications: prior purchase of one-year subscription, and
the total number of registered vendor employees divided by the total number of Access Control Points must be at least 200 at each facility/installation. Consult Contractor’s RAPIDGate® Program Description for complete subscription terms.

**RAPID-RCx® - Remote Credential Checking Program - 1 Year Subscription**

*RAPID-RCx® - Remote Credential Checking Program - 1-year subscription. [Requires the RAPIDGate® Program]. RAPID-RCx® is an add-on feature to the RAPIDGate Program and is directed at visitors, volunteers and other individuals who are not eligible to participate in the RAPIDGate® program. The program adds an additional layer of security and safety during normal operations, during times of increased security levels and in the event of disaster, pandemic and emergency preparation and response. Ordering activity personnel can verify the identity of individuals through no touch ID scanning by using the RAPIDGate® portable handheld devices to electronically scan, read and verify state-issued drivers licenses, state-issued ID’s, Canadian-issued drivers licenses, Canadian-issued ID’s, CAC, Teslin cards (military retiree and dependent cards), PIV, PIV-I, TWIC smart cards and other smart card standard conforming credentials without handling visitors’ I.D. cards and creating unnecessary contact. This program also can be used to meet the TWIC Reader Rule requirements when using applicable RAPIDGate® handheld equipment. The program’s scanning system checks I.D. credential formats and expiration dates for credential verification, and validates certain credentials against authoritative databases (e.g., TWIC Cancel Card List (TCCL) and Federal Bridge Certification Authority (FBCA)). The program’s scanning system also cross checks credentials against up to two local negative lists (e.g., No Entry/Barment lists) and two local positive lists (e.g., event list, graduation list, guest list, wedding list) per month as well as open-source law enforcement and criminal justice data sources, to help ordering activity personnel determine whether to authorize access. The program can generate reports that the ordering activity can use for purposes including security investigations and pandemic contact tracing. Subscription is priced per ACP. Includes RAPID-RCx® software and support on up to four (4) RAPIDGate® handheld reader devices per ACP. Consult Contractor’s RAPID-RCx® Program Description for complete subscription terms.

**RAPID-RCx® - Remote Credential Checking Program - 3 Year Subscription**

*RAPID-RCx® - Remote Credential Checking Program - 3-year subscription. [Requires the RAPIDGate® Program]. RAPID-RCx® is an add-on feature to the RAPIDGate® Program and is directed at visitors, volunteers and other individuals who are not eligible to participate in the RAPIDGate® program. The program adds an additional layer of security and safety during normal operations, during times of increased security levels and in the event of disaster, pandemic and emergency preparation and response. Ordering activity personnel can verify the identity of individuals through no touch ID scanning by using the RAPIDGate® portable handheld devices to electronically scan, read and verify state-issued drivers licenses, state-issued ID’s, Canadian-issued drivers licenses, Canadian-issued ID’s, CAC, Teslin cards (military retiree and dependent cards), PIV, PIV-I, TWIC smart cards and other smart card standard conforming credentials without handling visitors’ I.D. cards and creating unnecessary contact. The program’s scanning system also cross checks credentials against up to two local negative lists (e.g., No Entry/Barment lists) and two local positive lists (e.g., event list, graduation list, guest list, wedding list) per month as well as open-source law enforcement and criminal justice data sources,
to help ordering activity personnel determine whether to authorize access. The program can generate reports that the ordering activity can use for purposes including security investigations and pandemic contact tracing. Subscription is priced per ACP. Includes RAPID-RCx® software and support on up to four (4) RAPIDGate® handheld reader devices per ACP. Consult Contractor’s RAPID-RCx® Program Description for complete subscription terms.

RAPID-RCx® - Remote Credential Checking Program - 5 Year Subscription

RAPID-RCx® - Remote Credential Checking Program - 5-year subscription. [Requires the RAPIDGate® Program]. RAPID-RCx® is an add-on feature to the RAPIDGate® Program and is directed at visitors, volunteers and other individuals who are not eligible to participate in the RAPIDGate® program. The program adds an additional layer of security and safety during normal operations, during times of increased security levels and in the event of disaster, pandemic and emergency preparation and response. Ordering activity personnel can verify the identity of individuals through no touch ID scanning by using the RAPIDGate® portable handheld devices to electronically scan, read and verify state-issued drivers licenses, state-issued ID’s, Canadian-issued drivers licenses, Canadian-issued ID’s, CAC, Teslin cards (military retiree and dependent cards), PIV, PIV-I, TWIC smart cards and other smart card standard conforming credentials without handling visitors’ I.D. cards and creating unnecessary contact. This program also can be used to meet the TWIC Reader Rule requirements when using applicable RAPIDGate® handheld equipment. The program can generate reports that the ordering activity can use for purposes including security investigations and pandemic contact tracing. Subscription is priced per ACP. Includes RAPID-RCx® software and support on up to four (4) RAPIDGate® handheld reader devices per ACP. Consult Contractor’s RAPID-RCx® Program Description for complete subscription terms.

RAPIDGate®-Hosted - Level 1: 250-999 transactions (priced per transaction) to be used within 12 months from purchase date; includes 1 Supported ACP

The RAPIDGate®-Hosted Program is fully funded by the Government Customer. This program strengthens and streamlines access control management, and disaster, pandemic and emergency preparation and response, directed at vendors, contractors, service providers, suppliers, first responders and other third parties at a wide range of ordering activity sites including military installations, hospitals, prisons and federal laboratories. The program confirms that companies are sponsored and individuals have gone through proper vetting and identity proofing prior to credentialing. Using program-furnished portable handheld devices, ordering activity personnel can electronically scan, read and validate RAPIDGate® credentials and check individuals’ biometrics to validate that individuals are who they say they are and are approved for access. During disaster and emergency response the program assists in deterring activities associated with fraudulent identities and disqualifying backgrounds, and can send immediate broadcast messages to the handhelds to provide timely communication to responders. Capabilities for pandemic response include no touch I.D. scanning, and contact tracing to reduce the spread of disease and assist in identifying exposed individuals for notification and proper response. Program services include site surveys; confirmation of sponsorship of companies and individuals; enrollment/registration of
companies and individuals; individual vetting, which may consist of NCIC/III or Nlets checks (subject to government authorization) and/or commercial background screenings; program credentials; access control authentication; regular and on-demand reporting; equipment maintenance; customer and program support; and training. Program equipment and software include registration station(s), Supported Access Control Points (ACPs) (e.g., guard station(s), handheld reader device(s), antenna equipment), and I.D. credentials. Equipment is for ordering activity’s use during the term of subscription. Contractor retains all rights and title to program equipment, software and data. The Government Customer “hosts” their Program participation through payment to Supplier of a “transaction fee” for each new one-year registration and each one-year renewal Program registration of vendor employees (each a “transaction”). Transactions are sold in batches and are priced at volume levels (e.g., Level 1, 250-999 transactions; Level 2, 1,000-9,999 transactions, etc.). The number of Supported ACPs depends upon the transaction volume level as follows: Level 1 – one ACP, Level 2 – up to three ACPs, Level 3- up to five ACPs, Level 4 – up to seven ACPs, and Level 5 – up to nine ACPs. Consult Contractor’s RAPIDGate® Program Description for complete subscription terms.

**RAPIDGate®-Hosted - Level 2: 1,000-9,999 transactions (priced per transaction) to be used within 12 months from purchase date; includes up to 3 Supported ACPs**

Same as Above

**RAPIDGate®-Hosted - Level 3: 10,000-19,999 transactions (priced per transaction) to be used within 12 months from purchase date; includes up to 5 Supported ACPs**

Same as Above

**RAPIDGate®-Hosted - Level 4: 20,000-29,999 transactions (priced per transaction) to be used within 12 months from purchase date; includes up to 7 Supported ACPs**

Same as Above

**RAPIDGate®-Hosted - Level 5: 30,000-60,000 transactions (priced per transaction) to be used within 12 months from purchase date; includes up to 9 Supported ACPs**

Same as Above
3. DESCRIPTION OF HOMELAND SECURITY PRESIDENTIAL DIRECTIVE 12 PRODUCT AND SERVICE COMPONENTS (SPECIAL ITEM NUMBER 541519PIV)

Fortior PIV-I™ Trusted Agent TA Training Event- Fortior Solutions Location

For customers who wish to register individuals and issue PIV-I credentials at their own location, they must do so through their own designated Trusted Agent(s). In addition to passing the background check, individuals designated to serve as a Trusted Agent must be trained by Fortior Solutions to perform the Trusted Agent duties. Fortior Solutions provides this training at a Fortior Solutions facility in Portland, OR. Travel incurred by the customer to the Fortior Solutions location is the responsibility of the customer.

Fortior PIV-I™ Trusted Agent TA Training Event - Customer Location

This is the same training as above; however, it is performed at the customer’s location. Travel fees are separately charged.

RA Station (RASP-E12)

Configured hardware (PC, scanner, camera, fingerprint reader, smart-card reader/writer, USB keypad and retractable photo backdrop), required software for interaction with IDMS/CMS and issuance of PIV-I credential; includes travel case.

Card Printer Bundle (LCPP-Z3)

Dual-sided laminate-capable smart card printer, one ribbon, one set of cleaning cards, and travel case.

RA Onboarding (domestic, non-territorial) (CBC-D1)

Required for each domestic, non-territorial Registration Authority member. Includes suitability screening and Registration Authority training. Suitability screening must be renewed every ten years, per certificate policy and Federal PIV-I requirements.

Background Checks (international or territorial) (CBC-T1)

Required for each tribal, international or territorial Registration Authority member. Includes suitability screening and Registration Authority training. Suitability screening must be renewed every ten years, per certificate policy and Federal PIV-I requirements.

6 Year Dual Hybrid Card Flat Rate (PIV-V8)

PIV-I Credential, FIPS 201 GSA approved cardstock, 6-year validity. PIV-I Authentication, Card Authentication, Digital Signature, and Key Management Certificates (3-year certificate validity with renewal included for a total of 6-year validity.) Custom physical personalization. Tri-technology cardstock includes contact, 13.56 MHz and 125 kHz interfaces. Issuance functionality provided by end-user at customer site. Requires at least one Registration Authority Workstation and Card Printer Bundle.
