SIN 33411 PURCHASING OF NEW ELECTRONIC EQUIPMENT

1. INSTALLATION AND TECHNICAL SERVICES

- a. INSTALLATION. All Turning Technology products are self-installable

2. WARRANTY

a. Unless specified otherwise in this contract, the Contractor's standard commercial warranty as stated in the contract's commercial pricelist will apply to this contract. Manufacturer's standard commercial warranty applies to all products

b. The Contractor warrants and implies that the items delivered hereunder are merchantable and fit for use for the particular purpose described in this contract.

c. Limitation of Liability. Except as otherwise provided by an express or implied warranty, the Contractor will not be liable to the ordering activity for consequential damages resulting from any defect or deficiencies in accepted items. d. If inspection and repair of defective equipment under this warranty will be performed at the Contractor's plant, the address is as follows – Not Applicable

**INFORMATION TECHNOLOGY CATEGORY
HARDWARE SUBCATEGORY
SIN 811212 Hardware Repair Service Order Terms**

1) SERVICE AREAS

- a. The maintenance and/or repair service rates per the contract are applicable to any ordering activity locations within a N/a – fixed price regardless of radius (**insert miles) mile radius of the Contractor/Original Equipment Manufacturer (OEM) service points. If any additional charge is to apply because of the greater distance from the Contractor/OEM service locations, the mileage rate or other distance factor shall be negotiated at the Task Order level.
- b. When maintenance and/or repair services cannot be performed at the ordering activity installation site, the repair services will be performed at the Contractor's plant(s) listed below.

**Cutting Edge
1825 Gillespie Way, Suite 100
El Cajon, CA 92020**

2) LOSS OR DAMAGE

When the Contractor moves equipment to its/OEM location for repairs, the Contractor shall be responsible for any damage or loss, from the time the equipment is removed from the ordering activity installation, until the equipment is returned to such installation.

3) SCOPE

- a) The Contractor shall provide maintenance for all equipment listed herein, as requested by the ordering activity during the contract term. Repair service and repair parts/spare parts shall apply exclusively to the equipment types/models within the scope of the Information Technology Category.
 - b) Equipment placed under maintenance service shall be in good operating condition.
 - i) In order to determine that the equipment is in good operating condition, the equipment shall be subject to inspection by the Contractor, without charge to the ordering activity.
 - ii) Costs of any repairs performed for the purpose of placing the equipment in good operating condition shall be borne by the Contractor, if the equipment was under the Contractor/OEM guarantee/warranty or maintenance responsibility prior to the effective date of the maintenance order.
 - iii) If the equipment was not under the Contractor/OEM responsibility, the costs necessary to place the equipment in proper operating condition are to be borne by the ordering activity, in accordance with the provisions of the contract.

4) RESPONSIBILITIES

- a) For equipment not covered by a maintenance contract or warranty, repair service personnel shall complete repairs as soon as possible after notification by the ordering activity that service is required. Within the service areas, this repair service should normally be done within 4 hours after notification.
- b) If the Ordering Activity task or delivery order specifies a factory authorized/certified service personnel then the Contractor is obligated to provide such a factory authorized/certified service personnel for the equipment to be repaired or serviced, unless otherwise agreed to in advance between the Ordering Activity and the Contractor.

5) MAINTENANCE RATE PROVISIONS

- a) The Contractor shall bear all costs of maintenance, including labor, parts, and such other expenses as are necessary to keep the equipment in good operating condition, provided that the required repairs are not occasioned by fault or negligence of the ordering activity.
 - i) **Regular Hours:** The basic monthly rate for each make and model of equipment shall entitle the ordering activity to maintenance service during a mutually agreed upon nine (9) hour principal period of maintenance, Monday through Friday, exclusive of holidays observed at the ordering activity location.

- ii) After Hours: Should the ordering activity require that maintenance be performed outside of regular hours, charges for such maintenance, if any, will be specified in the GSA Price List (I-FSS-600 CONTRACT PRICE LISTS (OCT 2016). Periods of less than one hour will be prorated to the nearest quarter hour.
 - iii) Travel and Transportation: If any charge is to apply, over and above the regular maintenance rates, due to the distance between the ordering activity location and the Contractor/OEM’s service area, the charge will be negotiated at the Task Order level. **None**
- b) Quantity Discounts from listed maintenance service rates for multiple equipment owned and/or leased by an ordering activity shall be provided below.

Quantity Range	Discounts
Units	0%
Units	0%
Units	0%

4) **RESPONSIBILITIES**

- a) For equipment not covered by a maintenance contract or warranty, repair service personnel shall complete repairs as soon as possible after notification by the ordering activity that service is required. Within the service areas, this repair service should normally be done within 4 hours after notification.
- b) If the Ordering Activity task or delivery order specifies a factory authorized/certified service personnel then the Contractor is obligated to provide such a factory authorized/certified service personnel for the equipment to be repaired or serviced, unless otherwise agreed to in advance between the Ordering Activity and the Contractor.

5) **REPAIR SERVICE RATE PROVISIONS**

- a) Charges for repair service will include the labor charge, computed at the rates set forth below, for the time during which repairmen are actually engaged in work, and, when applicable, the charge for travel or transportation.
- b) Multiple Machines: When repairs are ordered by the ordering activity on two or more machines located in one or more buildings within walking distance of each other, the charges will be computed from the time the repairman commences work on the first machine, until the work is completed on the last machine. The time required to go from one machine to another, or from one building to another, will be considered actual work performance, and chargeable to the ordering activity, provided the time consumed in going between machines (or buildings) is reasonable.
- c) At the Contractor/OEM's Facility
 - i) When equipment is returned to the Contractor/OEM's Facility for adjustments or repairs which are not covered by the guarantee/warranty provision, the cost of transportation, packing, etc. From the ordering activity location to the Contractor's plant, and return to the ordering activity location, shall be borne by the ordering activity.
 - ii) The ordering activity should not return defective equipment to the Contractor/OEM for adjustments and repairs or replacement without prior consultation and instruction.
- d) At the Ordering Activity Location (Within Established Service Areas)
 - i) When equipment is repaired at the ordering activity location, and repair service rates are established for service areas or zones, the listed rates are applicable to any ordering activity location within such service areas or zones. No extra charge, time, or expense will be allowed for travel or transportation of repairmen or machines to or from the ordering activity office; such overhead is included in the repair service rates.
- e) At the Ordering Activity Location (Outside Established Service Areas)
 - i) If repairs are to be made at the ordering activity location, and the location is outside the service area terms defined in the GSA Price list. Rates negotiated at the task order will apply.
 - ii) When the overall travel charge computed at the above mileage rate is unreasonable (considering the time required for travel, actual and necessary transportation costs, and the allowable ordering activity per diem rate for each night the repairman is required to remain overnight at the ordering activity location), the ordering activity shall have the option of reimbursing the Contractor for actual costs, provided that the actual costs are reasonable and allowable. The Contractor shall furnish the ordering activity with a report of travel performed and related expenses incurred. The report shall include departure and arrival dates, times, and the applicable mode of travel.
- f) Labor Rates
 - i) Regular Hours: Contract rates shall entitle the ordering activity to repair service during the period 8:00 a.m. to 5:00 p.m., Monday through Friday, exclusive of holidays observed at the ordering activity location. There shall be no additional charge for repair service, which was requested during regular hours, but performed at the convenience of the Contractor outside the regular hours.
 - ii) After Hours: Should the ordering activity require that service be performed outside of regular hours, charges for such service, if any, will be specified in the GSA Price List (I- FSS-600 CONTRACT PRICE LISTS (OCT 2016). Periods of less than one hour will be prorated to the nearest quarter hour.

- iii) Sundays and Holidays: When the ordering activity requires that repair service be performed on Sundays and Holidays observed at the ordering activity location, the Sundays and Holidays repair service rates shall apply, and will be specified in the GSA Price List (I-FSS-600 CONTRACT PRICE LISTS (OCT 2016). Periods of less than one hour will be prorated to the nearest quarter hour.

Ordering Activity Location (Outside Established Service Areas)			

*MINIMUM CHARGES INCLUDE FULL HOURS ON
THE JOB

6) REPAIR PARTS/SPARE PARTS RATE PROVISION

- a) All parts, furnished as spares or as repair parts in connection with the repair of equipment, unless otherwise indicated in the GSA Price list shall be new, standard parts manufactured by the OEM.
- b) All parts shall be furnished at the prices indicated in the Contractor's commercial pricelist dated **September 2019**, at a discount of **0%** from such listed prices

FRONTIER TECHNOLOGIES, Inc.'s

GSA LABOR CATEGORY DESCRIPTIONS

Category: Project Management:

Job Title: *Project Manager I*

JOB DESCRIPTION

- Creates project plans and monitors plans throughout the duration of assigned projects
- Ensures quality and timeliness of project results
- Provides performance feedback
- Resolves escalated issues and refers problems to the next level
- Prepares standard and ad hoc management reports and presentations for assigned projects
- Organizes project teams
- Directs activities of project teams
- Efficiently interacts with peers and next level of management
- Manages small to medium size projects of low to medium complexity

SKILLS/EXPERIENCE LEVEL

- Bachelor's Degree or equivalent experience
- 2 to 5 years of experience in the following:
 - Computer Operations
 - Systems Development
 - Telecommunications
 - Must have 5 years of experience in Project Leadership

SPECIFIC COMPUTER EXPERTISE:

- Must be able to use a word-processing and project management tool (MS Project or Project Workbench).
- Must have experience in Computer Presentations tools.

Job Title: *Project Manager II*

JOB DESCRIPTION:

- Creates project plans and monitors plans throughout the duration of assigned projects
- Ensures quality and timeliness of project results
- Directs project activities to assure the attainment of high quality results as scheduled and within budget
- Organizes project teams
- Directs activities of project teams and Project Managers Efficiently interacts with peers and next level of management
- Manages medium to large size projects of a medium to high level of complexity

Bachelors degree or equivalent experience

3 to 6 years of experience in the following:

- * Computer Operations
- * Systems Development
- * Telecommunications

SPECIFIC COMPUTER EXPERTISE:

Must be able to use a word-processing and project management tool (MS Project or Project Workbench).

Must have experience in Computer Presentations tools.

Job Title: *Project Manager III*

JOB DESCRIPTION:

Directs project activities to assure the attainment of high quality results as scheduled and within budget

Surfaces and assists in resolving project conflicts

Ensures that project objectives meet overall standards and operations objectives and user requirements

Provides effective communications between the Project Manager, Senior Executive management, the project team, the user community, and suppliers by making format presentations

Directs and completes special projects

Manages large size project of a major level

of complexity SKILLS / EXPERIENCE LEVEL:

Bachelor's degree or equivalent experience

5 to 8 years of experience in the following:

- * Computer Operations
- * Systems Development
- * Telecommunications
- * Industry-related expertise

Must have 10 years or more experience in Project Management

SPECIFIC COMPUTER EXPERTISE:

Must be able to use a word-processing and project management tool (MS Project or Project Workbench).

Must have experience in Computer Presentations tools.

Category: *Business Analyst:*

Job Title: *Business Analyst*

JOB DESCRIPTION:

Analyzes service requests and provides estimates for development projects

Provides daily support to assigned client base and serves as a liaison between clients and programmers

Identifies, researches, and analyzes production problems, develops solutions, and resolves problems

Participates in project work, including analysis and requirements definition and testing

Writes or edits application system manuals and prepares documentation for assigned products

Consults on development and updating of training materials and user manuals

Completes special projects and performs other assigned duties

SKILLS / EXPERIENCE LEVEL:

Bachelors degree or equivalent experience

2-4 years experience in any one or more of the following:

* Systems Development

* General Business/Corporate Experience

SPECIFIC COMPUTER EXPERIENCE:

Must be able to use a word-processing spreadsheet, and business analyst tools.

A good understanding of the system environment.

Category: Systems Analyst:

Job Title: Systems Analyst

JOB DESCRIPTION

All requirements for SA I plus participates in conversions, mergers, maintenance and development projects, including analysis and testing

Completes special projects and performs other assigned duties

Creates, designs, tests, codes and modifies existing programs for production

Supports changes and enhancements from development through production; recommending and implementing system enhancements (e.g. system performance, screen appearance, report distribution and setup testing)

Develops new programs to support specific customer needs and system upgrades, including new releases and resolves problems with current systems

Analyzes service requests to determine feasibility, extent of technological changes, resource requirements and project time schedules

Meets with users to determine the end users specific needs and feasibility of pending routine projects

SKILLS / EXPERIENCE LEVEL:

2-4 years of experience.

5-7 years of experience in systems development

Category: Client Server Programmer:

Job Title: Client Server Programmer

JOB DESCRIPTION:

Provides 24 hour daily production support to assigned system(s) to identify production problems and resolves systems problems

Creates, designs, tests, codes and modifies existing programs for production

Supports changes and enhancements from development through production; recommending and implementing system enhancements (e.g. system performance, screen appearance, report distribution, and setup testing)

Develops new programs to support specific customer needs and system upgrades, including new releases, and resolves problems with current systems

Analyzes service requests to determine feasibility

SKILLS / EXPERIENCE LEVEL:

2-5 years of systems development experience

Thorough knowledge of a professional or technical field

Category: Database Administrator:

Job Title: Database Administrator

JOB DESCRIPTION:

Provides support for assigned databases responding to database and user problems

Monitors database error logs, etc, to ensure proper capacity and availability

Designs database configurations in cooperation with application developers, addressing necessary performance and recoverability issues

Executes database software installations, database creations/configurations, replications and loads

Supports activities of developers and users as they implement new processes and applications

Knowledge of system and object level security

Skilled at complex troubleshooting

SKILLS / EXPERIENCE LEVEL:

Associates degree OR equivalent experience

Must have 5 years as a database administrator

Solid communication skills and ability to work well as part of a team

SPECIFIC COMPUTER EXPERTISE:

A good understanding of database administration and skilled on one or more specific platforms.

Able to create project plan, report progress, and work independently.

Job Title: Unix Administrator

JOB DESCRIPTION:

Provides support for assigned systems

Monitors system error logs, etc, to ensure proper capacity and availability

Designs, specifies, and prices equipment configurations, components, and software

Executes hardware, OS, and software installations and upgrades

Supports activities of DBA s, developers, and users as they implement new processes and applications
Ability to do debugging and modification of C programs and/or Oracle and SQL scripts

SKILLS/ EXPERIENCE LEVEL

Associates degree OR equivalent experience
Must have 5 years of experience with UNIX system administration
Solid communication skills and ability to work well as part of a team

SPECIFIC COMPUTER EXPERTISE:

A solid understanding of UNIX systems and skilled on one or more specific platforms.
Able to create project plans, report progress, and work independently.

Category: Systems Administrator:

Job Title: Systems Administrator

JOB DESCRIPTION:

Provides client consulting services on distributed systems products
Provides remote on-site LAN server operational support, maintenance, problem solving, configuration, and installation. Serves as a liaison between clients and vendors and other technical groups to resolve complex distributed systems problems
Plans, designs, installs, manages, coordinates and maintains overall integration of the enterprise network
Performs concurrent project management to all aspects of distributed system implementation

SKILLS/ EXPERIENCE LEVEL:

Technical/Trade/Business School certificate, CAN or Microsoft Professional preferred
Must have 5 years of experiences in:

- * LAN Support
- * LAN Maintenance
- * LAN Management

Break/fix, moves, adds, installs, changes, de-installation of personal computer equipment

SPECIFIC COMPUTER EXPERTISE:

Comprehensive knowledge of hardware configuration, troubleshooting and repair as well as in-depth knowledge of memory management.

Knowledge and experience installing and configuring popular network operating system.
Certification is required.

Category: Telecom Engineer:

Job Title: Telecom Engineer

JOB DESCRIPTION:

Designs and implements local and wide-area data networks. Manages medium size projects with a focus on data and client/server infrastructure

Ensures quality and performance of network design

Skilled in troubleshooting

Manages and performs installation and deployment of data networks and resolves any technical issues

Creates, monitors, and updates project plans for assigned projects

Monitors resource utilization and provides capacity planning recommendations

Prepares management reports and presentations

SKILLS / EXPERIENCE LEVEL

Certified Engineer in Microsoft (MSCE) or Novell (CNE) or

* Must have 6 years equivalent experience

* Excellent inter-personal skills

* Excellent oral and written communication

Efficient interaction with peers and next level of management

SPECIFIC COMPUTER EXPERTISE:

A good understanding of data-communication principles, technologies and operations.

Able to effectively use project management and office productivity software

Category: Network Engineer:

Job Title: Network Engineer

Bachelor s degree or equivalent
3 to 6 years database experience in any one of the following:
* Computer Operations
* Systems Development
* Database Design
Thorough knowledge of a Professional or Technical field

SPECIFIC COMPUTER EXPERTISE:

A good understanding of the system environment. know one or more databases and computer languages.
Experience in database layout, theory and structure.

Job Title: Project Director

Minimum/General Experience: Three years project management experience plus five years of specialized experience in managing large information systems and five years experience in a related field.

Functional Responsibility: Duties include but are not limited to overall management of tasks, software development, installation, training, transition, maintenance, security, and acceptance. Provides supervisory technical and administrative direction for personnel performing tasks, including review of work products for correctness, adherence to the design concept, adherence to Government regulations and standards, and for progress IAW approved schedules.

Minimum Education: A Masters degree in Business, Engineering, or an Applied Science.

Job Title: ASSISTANT PROJECT DIRECTOR

Minimum/General Experience: Five years specialized experience in information systems plus five years general experience in a related field. This experience must depict a progression in both managerial and technical responsibilities.

Functional Responsibility: Assists in the performance of all Project Director responsibilities.

Minimum Education: A Bachelors degree in Business, Engineering, or an Applied Science.

Job Title: SENIOR INFORMATION SYSTEMS ENGINEER

Minimum/General Experience: Four years specialized experience in engineering large information systems plus three years general experience in a related field. Working knowledge of current and anticipated developments in such areas as information systems hardware, software, databases, communication protocols, and networking.

Functional Responsibility: Duties include but are not limited to providing technical supervision, analysis and engineering of information systems, defining requirements and limitations, technical guidance and direction, system testing, and developing engineering plans/schedules.

Minimum Education: A Masters degree in Business, Engineering, Computer Science, or experience in a related field.

Job Title: TECHNICAL WRITER/EDITOR

Minimum/General Experience: Two years specialized experience in Information Mission Area technical writing or editing and two years general experience in a related field.

Functional Responsibility: Duties include but are not limited to preparing and editing technical documentation and interpretation of technical documentation standards. Conducts research and ensures the use of proper technical terminology. Translates technical information into clear, readable documents to be used by technical and non-technical personnel.

Minimum Education: A Bachelors degree in English, Journalism, or related field or Associates degree plus two additional years specialized experience in technical writing or editing.

Job Title: SENIOR SYSTEMS ADMINISTRATOR

Minimum/General Experience: Four years experience in System Administration plus three years general related experience.

Functional Responsibility: Capable of providing the full range of system administration support in large-scale client-server computing environment to include kernel and system configuration and tuning, network file system administration, system security administration, and GOTS/COTS product integration.

Minimum Education: A Bachelors degree in Computer Science, Engineering, Information Science or Business or experience in a related field.

Job Title: INFORMATION SYSTEMS ENGINEER

Minimum/General Experience: Two years specialized experience in large information systems engineering plus two years experience in a related field.

Functional Responsibility: Duties include but are not limited to analysis and engineering of information systems to define engineering requirements, guidance and direction for implementation and testing of information systems.

Minimum Education: A Bachelor s degree in Engineering, Computer Science or experience in a related field.

Job Title: SENIOR SYSTEMS ADMINISTRATOR

Minimum/General Experience: Four years experience in System Administration plus three years general related experience.

Functional Responsibility: Capable of providing the full range of system administration support in large-scale client-server computing environment to include kernel and system configuration and tuning, network file system administration, system security administration, and GOTS/COTS product integration.

Minimum Education: A Bachelors degree in Computer Science, Engineering, Information Science or Business or experience in a related field.

Job Title: INFORMATION SYSTEMS ENGINEER

Minimum/General Experience: Two years specialized experience in large information systems engineering plus two years experience in a related field.

Functional Responsibility: Duties include but are not limited to analysis and engineering of information systems to define engineering requirements, guidance and direction for implementation and testing of information systems.

Minimum Education: A Bachelor s degree in Engineering, Computer Science or experience in a related field.

Job Title: SENIOR SYSTEMS ANALYST

Minimum/General Experience: Four years specialized experience in systems analysis or programming experience to include Structured Analysis and Design Techniques (SADT) IAW generally accepted forms (for example, Yourdon-DeMarco) plus three years of general experience in a related field.

Functional Responsibility: Duties include but are not limited to system analysis, business process reengineering and requirements definition. Also provides technical and administrative direction and oversees the development of work products and deliverables.

Minimum Education: A Bachelor s degree in Business, Engineering, Computer Science, or experience in a related field.

Job Title: SENIOR COMPUTER ENGINEER/SCIENTIST

Minimum/General Experience: Four years specialized experience in computer system design and implementation plus three years of related general experience. Must possess a working knowledge of current technological developments in the areas of engineering, interoperability, portability and scalability of information systems, software, corporate databases, protocols, telecommunications and networking, information processing methods, and the use of simulation case and modeling tools.

Functional Responsibility: Duties include but are not limited to analysis, design and implementation of information and telecommunications systems. Also providing technical direction to the application development team and reviews work products for compliance to standards.

Minimum Education: A Master s degree in Business, Engineering, Computer Science or experience in a related field.

Job Title: SENIOR PROGRAMMER

Minimum/General Experience: Four years specialized experience in programming information systems plus three years general related experience.

Functional Responsibility: Duties include but are not limited to analyzing systems requirements and design specifications, developing and modifying software to satisfy user requirements, and the development of supporting documentation. Oversees the application development work products generation and establishes and ensures compliance to architectural design.

Minimum Education: A Bachelor s degree in Business, Engineering, Computer Science or experience in a related

Job Title: PROGRAMMER

Minimum/General Experience: Two years specialized experience plus two years general experience in a related area.

Functional Responsibility: Duties include but are not limited to analyzing systems requirements and design specifications, developing and modifying software to satisfy user requirements, and the development of supporting documentation.

Minimum Education: A Bachelor s degree in Business, Engineering, Computer Science or experience in a related field.

Job Title: DATA MODELER

Minimum/General Experience: Four years specialized experience in systems analysis or programming experience to include Structured Analysis and Design Techniques (SADT) IAW generally accepted forms (for example, Yourdon-Demarco).

Knowledge of and experience with Army and DoD data modeling standards and procedures
2 or more years of experience in developing logical and physical data models. Knowledge of IDEFIX and its implementation by the ERwin tool. Three years of general experience in a related area is required.

Functional Responsibility: Duties include but are not limited to providing designed development of application, logical and physical data models.

Minimum Education: A Bachelor s degree in Business, Engineering, Computer Science or experience in a related field.

Job Title: SENIOR SYSTEMS ENGINEER

Minimum/General Experience: Senior System Engineers exhibit broad technical knowledge and understanding, perform complex technical work, and carry a high level of responsibility in conceptualization, planning, and coordination with other projects. These employees perform at the professional level with minimum guidance and direction. Senior System Engineers exhibit initiative and judgment and have latitude in carrying out assignments. They are expected to have broad technical background suitable to allow a significant contribution in a number of technical areas or to be a recognized technical expert in a specialty.

Functional Responsibility: Duties include but are not limited to the performance of complex technical work that carries a high level of responsibility in conceptualization, planning, and coordination with other projects. Other duties include technical leadership and guidance, problem definition, computer and communication system design and implementation. Senior Systems Engineers may provide technical direction to other technical employees.

Minimum Education: An Doctorate s degree with ten years of experience or equivalent; A Master's degree with twelve years of experience or equivalent; or Bachelor's degree with fourteen years of experience or equivalent in technical leadership and guidance, problem definition, computer and communication system design and implementation.

Job Title: SENIOR FORMS DEVELOPER

Minimum/General Experience: Four years specialized experience in systems analysis or programming experience to include Structure Analysis and Design Techniques (SADT) IAW generally accepted forms (for example, Yourdon-Demarco). Three years of general experience in a related area is required.

Functional Responsibility: Duties include but are not limited to the definition of systems requirements and the generation of design specifications, and the development of the defined solution.

Minimum Education: A Bachelor s degree in Business, Engineering, Computer Science or experience in a related field.

Job Title: FORMS DEVELOPER

Minimum/General Experience: Two years specialized experience in systems analysis and programming to include using SADT IAW generally accepted forms (for example, Yourdon-Demarco). Specialized experience preferred in the area of independent analysis and programming experience, with complete responsibility for tasks involving analysis, programming, and implementation. Two years of experience in a related field.

Functional Responsibility: Duties include but are not limited to the analysis of systems requirements and the development of the defined solution.

Minimum Education: A Bachelor s degree in Business, Engineering, Computer Science or experience in a related field.

Job Title: NETWORK ADMINISTRATOR

Minimum/General Experience: Four years of experience in Network Administration plus three years general related experience.

Functional Responsibility: Capable of providing the full range of network management and administration support in large-scale client-server computing environment to include network installation, network load management, and performance monitoring, tuning and reporting.

Minimum Education: A Bachelor's degree in Computer Science, Electrical Engineering or experience in a related field.

Job Title: DATABASE ADMINISTRATOR

Minimum/General Experience: Four years of progressively more difficult experience in Database Management System (DBMS) design and systems analysis, operating systems software internal architecture, high level and data manipulation languages including the use of SADT IAW generally accepted forms (for example, Yourdon-DeMarco). Experience may also be in DBMS analysis on significant projects, including experience in designing and building databases plus three years of experience.

Functional Responsibility: Duties include but are not limited to providing highly technical expertise and guidance in the definition, control integrity, and uniformity of DBMS.

Minimum Education: A Bachelor's degree in Business, Engineering, Computer Science or experience in a related field.

Job Title: SENIOR FUNCTIONAL ANALYST

Minimum/General Experience: This position requires a minimum of ten years experience, of which at least eight years must be specialized. Specialized experience includes: superior functional knowledge of task order specific requirements, or developing functional requirements for complex integrated ADP systems.

Functional Responsibility: Analyze user needs to determine functional and cross-functional requirement. Performs functional allocation to identify required tasks and their interrelationships. Identifies resources required for each task. Provides daily supervision and direction to support staff.

Minimum Education: A Bachelor's degree in Computer Science, Information Systems, Engineering, Business, or other related scientific, technical, or functional discipline.

Job Title: APPLICATIONS ENGINEER

Minimum/General Experience: This position requires a minimum of six years experience, of which at least four years must be specialized. Specialized experience includes: experience as an applications programmer on large-scale database management systems, knowledge of computer equipment and ability to develop complex software to satisfy design objectives.

Functional Responsibility: Analyzes functional business applications and design specifications for functional activities. Develops block diagrams and logic flow charts. Translates detailed design in computer software. Test, debugs, and refines the computer software to produce the required product. Prepares required documentation, including both program-level and user-level documentation. Enhances software to reduce operating time or improve efficiency. Provides technical direction to programmers to ensure program deadlines are met.

Minimum Education: A Bachelor s degree in Computer Science, Information System, Engineering, Business, or other related scientific or technical discipline.

Job Title: SYSTEM OPERATOR

Minimum/General Experience: This position requires a minimum of three years of experience, of which at least two years must be specialized experience operating a large-scale computer system or multi-server local area network. Must demonstrate sufficient knowledge of programming to understand how programs use computer hardware.

Functional Responsibility: Monitors and supports computer processing. Coordinates input, output, and file media. Distributes output and controls computer operation that may be mainframe, mini, or client/server based.

Minimum Education: An Associate s degree in Computer Science, Information Systems, Engineering, Business, or other related scientific or technical discipline is required.

Job Title: JR. INTERDISCIPLINARY ENGINEER

Minimum/General Experience: Generally this requires four (4) years of experience in technical work in the areas of system management and system integration. Typically 2 years of experience in disciplines involving operating systems; electronics communications analysis; networking and planning; mechanical/electrical engineering; civil engineering; or services engineering.

Functional Responsibility: Must be capable of translating requirements and problems into solutions employing current state-of- the-art equipment or software. Must be able to define interaction/interface between different categories of requirements, and develop, implement and revise appropriate plans to support the requirements. Must be able to serve as liaison to interpret and translate various disciplines represented on the task team, and serve as a point of contact for evaluation, resolution and administration of problems arising from the services (or interdisciplinary) nature of the task. Must be able to perform electrical or structural modifications and related services and associated support of the destination system platform.

Minimum Education: An Associate s degree plus 1 year educational training for specialized skill capabilities or Bachelor s degree, or equivalent specialized training or technical licenses.

Job Title: INFORMATION ASSURANCE CONSULTANT (ISSE-IV)

Minimum/General Experience: Ten years of information security experience. Six years of this experience shall be in a related security technology or discipline, such as system-level security technologies, operational security concepts, encryption technology, firewall technology, or information protection. Four of the six years experience shall be in a lead security design or technical task/program leadership position.

Functional Responsibility: Responsible for applying unique IA product knowledge to either network or system security. Familiar with and able to apply time proven generally accepted security methods, concepts and techniques as they relate to the client. Ability to articulate security policies, procedures and guidelines to all levels of management and staff. In depth understanding of technical and social issues affecting security across a wide variety of platforms including application security, networks, Unix, NT, and firewalls. Knowledge of firewalls, PKI, IPsec, TCP/IP, Unix, NT, intrusion detection, and DoD security architecture. Knowledge of monitoring and surveillance techniques in order to measure the security functions and identifies violations. Understanding of client/server architecture and application development. Ability to interface with all levels of management and staff. Ability to keep aware of local, national, and international trends and developments in the area of information security and be able to relate them to the needs of the client.

Minimum Education: A Master s degree (5 additional years experience in the field of information security will be considered equivalent to a Master s degree if all other requirements are met) from an accredited university in a computer science, electrical engineering, or other technical discipline. Professional certification in an appropriate security related information technology discipline is required.

Job Title: SENIOR INFORMATION SYSTEMS SECURITY ENGINEER (ISSE-III)

Minimum/General Experience: Ten years of information security experience. Six years of this experience shall be in a related security technology or discipline, such as system-level security technologies, operational security concepts, encryption technology, firewall technology, or information protection. Four of the six years experience shall be in a lead security design or technical task/program leadership position.

Functional Responsibility: Duties include but are not limited to development and maintenance of information security programs and related plans, formulation and implementation of a security operations concept, evaluation of security compliance in an integrated hardware/software environment, providing consulting to registered users and technical evaluation of proposals, knowledge of Government regulations, manuals, technical orders, standards, and industry publications for information security, knowledge of applicable industry and Government standards for Information Assurance.

Minimum Education: A Master s degree (four additional years of working experience will be considered equivalent to a Master s degree if all other requirements are met) from an accredited university in a computer science, electrical engineering, or other technical discipline.

Job Title: INFORMATION SYSTEMS SECURITY ENGINEER (ISSE-II)

Minimum/General Experience: Six years of information security experience. Two years of this experience shall include planning and managing the implementation of security and access requirements.

Functional Responsibility: Duties include but are not limited to interfacing directly with corporate decision makers to establish and direct the information security program, implementing a program of assessment, planning, reporting, monitoring security procedures, and participating in system development reviews and testing.

Minimum Education: A Bachelor s degree in Electrical or Computer Sciences or related technical field.

Job Title: JUNIOR INFORMATION SYSTEMS SECURITY ENGINEER (ISSE-I)

Minimum/General Experience: Shall have at least three years of experience in the development and evaluation of information security programs involving software and hardware.

Functional Responsibility: Duties include but are not limited to implementing a program of assessment, planning, reporting, monitoring security procedures, and participating in system development reviews and testing.

Minimum Education: A Bachelor's degree in Electrical or Computer Sciences or related technical field.

Job Title: PRINCIPAL CONSULTANT - MICROSOFT PRODUCT MIGRATION SERVICES (MPM-V)

Minimum/General Experience: Five to fifteen years demonstrated performance in related technology. Experienced in topics such as complex networks, messaging, cross-platform integration and large-scale, complex systems and applications design and implementation. This individual will have formal training in one or more of the following areas: Microsoft Solutions Framework, product futures, and relevant Certified Training in infrastructure and/or development areas associated with Microsoft's products.

Functional Responsibility: Duties include but are not limited to working closely with the customer's project manager as the principal project MPM consultant or Technical (sole or shared) lead with overall responsibility to ensure development or analysis or deployment remains on schedule and in line with the current capabilities and future directions of Microsoft products. Specific responsibilities include: providing strategic analysis of customer enterprise architecture relating to Microsoft product insertion/evolution; participating in strategic planning sessions with customer staff; contributing to review of customer tasks and development of MPM strategic approaches; participating in project staffing decisions; and participating in delivering technical presentations to customer staff.

Minimum Education: A Bachelor's or Master's degree or industry equivalent experience.

Job Title: SENIOR CONSULTANT (TECHNICAL PROJECT LEAD) - MICROSOFT PRODUCT MIGRATION SERVICES (MPM-IV)

Minimum/General Experience: Five to fifteen years demonstrated performance in related technology. Experienced in topics such as complex networks, cross-platform integration and large-scale, complex systems design and implementation. This individual will have formal training in one or more of the following areas: Microsoft Solutions Framework, product futures, and relevant Certified Training in infrastructure and/or development areas associated with Microsoft's products.

Functional Responsibility: Duties include but are not limited to ensuring development or analysis or deployment remains on schedule and in line with the current capabilities and future directions of Microsoft products. Specific responsibilities include: serving as Technical Project Manager (PM) or shared technical PM; providing a key personal link to current and future Microsoft technology capabilities; directing the activities of other MPM Consultants; participating in project staffing decisions; analyzing technical requirements and developing effective technical solutions; acting as the lead role in conceiving architectural designs; providing leadership and guidance to support the implementation of large systems including methodology, design approaches, and architectural and engineering considerations; and providing the lead role in delivering technical presentations to customer.

Minimum Education: A Bachelor's or Master's degree or industry equivalent experience.

Job Title: SENIOR CONSULTANT - MICROSOFT PRODUCT MIGRATION SERVICES (MPM-III)

Minimum/General Experience: Five to ten years demonstrated performance in related technology. Experienced in topics such as complex networks, messaging, cross-platform integration and large-scale, complex systems and applications design and implementation. This individual will have been formally trained in one or more of the following areas: Microsoft Solutions Framework, product futures, and relevant Certified Training associated with Microsoft's products.

Functional Responsibility: Duties include but are not limited to working closely with Project manager as a Senior MPM consultant with responsibilities to ensure development or analysis or deployment remains on schedule and in line with the current capabilities and future directions of Microsoft products. Specific responsibilities include: participating in design of customer information systems; working with project staff to

implement customer desired IT architecture (e.g., testing, documentation, meeting user expectations); managing specific tasks including directing the efforts of selected Lockheed Martin and customer staff; analyzing technical requirements and developing effective technical solutions; assisting in conceiving architectural designs; assisting in the implementation of large systems including methodology, design approaches, and architectural and engineering considerations; and assisting in delivering technical presentations to customer staff.

Minimum Education: A Bachelor's degree or industry equivalent experience.

Job Title: CONSULTANT - MICROSOFT PRODUCT MIGRATION SERVICES (MPM-II)

Minimum/General Experience: Three to five years demonstrated performance in related technology. Experienced in topics such as complex networks, messaging, cross-platform integration and large-scale, complex systems design and implementation. This individual will have been formally trained in one or more of the following areas: Microsoft Solutions Framework, product futures, and relevant Certified Training associated with Microsoft's products.

Functional Responsibility: Duties include but are not limited to working closely with Project manager to assist meeting development, analysis and deployment objectives (cost, schedule, and technical) in line with the current capabilities and future directions of Microsoft products. Specific responsibilities include: meeting/interviewing customers to capture specific requirements in a concise format; identifying product changes/customization required to meet customer system objectives; working together with Lockheed Martin & customer staff personnel to support technical strategy and project control objectives; assisting in conceiving architectural designs; assisting in the implementation of large systems including methodology, design approaches, and architectural and engineering considerations; and assisting in delivering technical presentations to customer staff.

Minimum Education: A Bachelor's degree or industry equivalent experience.

Job Title: ASSOCIATE CONSULTANT - MICROSOFT PRODUCT MIGRATION SERVICES (MPM-I)

Minimum/General Experience: One to three years demonstrated performance in related technology. Experienced in topics such as complex networks, cross-platform integration and large-scale, complex systems design and implementation. This individual will have been formally trained in product futures, and relevant Certified Training associated with Microsoft's products.

Functional Responsibility: Duties include but are not limited to supporting the Project manager to ensure development, analysis, and deployment remains on schedule and in line with the current capabilities and future directions of Microsoft products. Specific requirements include: meeting/interviewing customers to capture specific requirements in a concise format; identifying product changes/customization required to meet customer system objectives; developing documentation on selected customer systems and objectives; working together with Lockheed Martin & customer staff to support technical strategy and project control objectives; and being directly involved in the hands-on implementation of customer systems; assisting in delivering technical presentations to customer staff.

Minimum Education: An Associate's degree or industry equivalent experience.

Job Title: Frontier Technologies: Service Integrator Management – Multi-Vendor Hardware Solutions (Off- Site)

FUNCTIONAL RESPONSIBILITY: Provide pre-sales consultation and develop OEM functional requirements, Provide systems configuration support for OEM computer systems, Use appropriate technology for specific functional requirements, Plan hardware systems and assemble quotes using valid electronic parts, Support users in revising the configuration details, Document configuration, Analyze and engineer sales orders for production requirements, Establish efficient P.O. transactional environment, Track production of hardware and software service progress, Coordinate Shipment of production systems, Maintain library of technical documents, Schedule system enhancements, changes and maintenance for post-sales support.

MINIMUM EXPERIENCE: Minimum 5 years experience and Bachelor Degree.

Job Title: Frontier Technologies: Service Integrator Management – Multi-Vendor Hardware Solutions (On-Site)

FUNCTIONAL RESPONSIBILITY: Provide pre-sales consultation and develop OEM functional requirements, Provide systems configuration support for OEM computer systems, Use appropriate technology for specific functional requirements, Plan hardware systems and assemble quotes using valid electronic parts, Support users in revising the configuration details, Document configuration, Analyze and engineer sales orders for production requirements, Establish efficient P.O. transactional environment, Track production of hardware and software service progress, Coordinate Shipment of production systems, Maintain library of technical documents, Schedule system enhancements, changes and maintenance for post-sales support.

MINIMUM EXPERIENCE: Minimum 5 years of experience and Bachelor Degree.

Job Title: Frontier Technologies: Service Integrator Management – Multi-Vendor Software (On-Site)

FUNCTIONAL RESPONSIBILITY: Analyze the customer environment for Microsoft Application Hosting, Run SCOPE analysis to define webserver, network, internet protocols, clustering, etc., Identify replication sequences and specific applications, Map disaster recovery procedures, Specify applicable software and maintenance modules to cover the requirements for maintaining a high reliability of continuous MS application hosting (Sharepoint server, IIS, MS exchange Server, Norton Security File Server, SQL Server, Blackberry Server, etc.), Install applicable software modules and integrate, Fine tune systems and automate disaster recovery and replication features.

MINIMUM EXPERIENCE: Minimum 5 years of experience and Bachelor Degree.

811212	CUTTING EDGE/DBA (ARXYS)	CENASEXP1-INSTL	Installation for each Small NAS Expansion Chassis for SLINs AC and AD.	\$2,538.46	1 Yr	USA
811212	CUTTING EDGE/DBA (ARXYS)	CENASEXP2-INSTL	Installation for each Large NAS Expansion Chassis for SLINs AC and AD.	\$2,538.46	1 Yr	USA
811212	CUTTING EDGE/DBA (ARXYS)	CE-73G15-SAS-X15-5- DDNAS-INSTL	Installation for each 73GB 15K RPM, Hot-Swap SAS Drive. Includes all necessary cables & NAS capacity based software licenses.	\$201.30	1 Yr	USA
811212	CUTTING EDGE/DBA (ARXYS)	CEHS-146G15-SAS-X15- 5DDNAS-INSTL	Installation for each 146GB 15K RPM, Hot-Swap SAS Drive. Includes all necessary cables & NAS capacity based software licenses.	\$201.38	1 Yr	USA

811212	CUTTING EDGE/DBA (ARXYS)	CEHS-300G15-SAS-X15-5- DDNAS-INSTL	Installation for each 300GB 15K RPM, Hot- Swap SAS Drive. Includes all necessary cables & NAS capacity based software licenses.	\$201.38	1 Yr	USA
811212	CUTTING EDGE/DBA (ARXYS)	CEHS-160G72-SAT3-ES10- D2NAS-INSTL	Installation for each 160GB 7.2K RPM, Hot- Swap SATA II Drive. Includes all necessary cables & NAS capacity based software licenses.	\$201.38	1 Yr	USA
811212	CUTTING EDGE/DBA (ARXYS)	CEHS-250G72-SAT3-ES10- D2NAS-INSTL	Installation for each 250GB 7.2K RPM, Hot- Swap SATA II Drive. Includes all necessary cables & NAS capacity based software licenses.	\$201.38	1 Yr	USA
811212	CUTTING EDGE/DBA (ARXYS)	CEHS-500G72-SAT3-ES10- D2NAS-INSTL	Installation for each 500GB 7.2K RPM, Hot- Swap SATA II Drive. Includes all necessary cables & NAS capacity based software licenses.	\$201.38	1 Yr	USA
811212	CUTTING EDGE/DBA (ARXYS)	CEHS-750G72-SAT3-ES10- D2NAS-INSTL	Installation for each 750GB 7.2K RPM, Hot- Swap SATA II Drive. Includes all necessary cables & NAS capacity based software licenses.	\$201.38	1 Yr	USA
811212	CUTTING EDGE/DBA (ARXYS)	CE-512MB-MEM-NAS-INSTL	Installation for each additional 512 MB memory for expandable NAS Servers (SLINs AC and AD)	\$201.38	1 Yr	USA
811212	CUTTING EDGE/DBA (ARXYS)	CE-1GB-MEM-NAS-INSTL	Installation for each additional 1 GB memory for expandable NAS Servers (SLINs AC and AD)	\$201.38	1 Yr	USA
811212	CUTTING EDGE/DBA (ARXYS)	CE-2GB-MEM-NAS-INSTL	Installation for each additional 2 GB memory for expandable NAS Servers (SLINs AC and AD)	\$201.38	1 Yr	USA

811212	CUTTING EDGE/DBA (ARXYS)	CU-400T-INSTL	Installation for each additional power supply for fixed capacity NAS (SLINs AA and AB)	\$330.85	1 Yr	USA
811212	CUTTING EDGE/DBA (ARXYS)	CE-PSM800-INSTL	Installation for each additional power supply for NAS servers (SLINs AC and AD)	\$201.38	1 Yr	USA
811212	CUTTING EDGE/DBA (ARXYS)	CE-RS-PSU-350-1220-AC- INSTL	Installation for each additional power supply for NAS expansion chassis (SLINs AE and AF)	\$201.38	1 Yr	USA
811212	CUTTING EDGE/DBA (ARXYS)	CE-BR-48000-DIRECTOR- INSTL	Installation for each SAN Director Switch, 1/2/4 GB/sec, auto-sensing, support minimum of 192 ports, redundant power supply, all necessary cables, all required software	\$2,528.74	1 Yr	USA
811212	CUTTING EDGE/DBA (ARXYS)	CE-BR-4900-FABRIC-INSTL	Installation for each SAN Fabric Switch, 1/2/4 GB/sec, support minimum of 48 ports, redundant power supply, all necessary cables, all required software	\$2,528.74	1 Yr	USA
811212	CUTTING EDGE/DBA (ARXYS)	CE-VCP-50TB-2-2-3-1000-50- INSTL	Installation for each Medium SAN Chassis/Cabinet, redundant power supply, support RAID 0,1,5, all necessary cables	\$21,717.95	1 Yr	USA
811212	CUTTING EDGE/DBA (ARXYS)	CE-VCP-240TB-2-5-15-1000- 240-INSTL	Installation for each Large SAN Chassis/Cabinet, redundant power supply, support RAID 0,1,5, all necessary cables	\$40,897.44	1 Yr	USA
811212	CUTTING EDGE/DBA (ARXYS)	CE2460-BK-INSTL	Installation for each Single port HBA, X-86 (Windows & Linux) compatible, auto- sensing, 1/2/4 GBits/sec	\$201.38	1 Yr	USA
811212	CUTTING EDGE/DBA (ARXYS)	CE2462-BK-INSTL	Installation for each Dual port HBA, X-86 (Windows & Linux) compatible, auto- sensing, 1/2/4 GBits/sec	\$201.38	1 Yr	USA

811212	CUTTING EDGE/DBA (ARXYS)	9117-5773-INSTL	Installation for each Single port HBA, IBM P-series server (AIX 5.x) compatible, auto-sensing, 1/2/4 GBits/sec	\$201.38	1 Yr	USA
811212	CUTTING EDGE/DBA (ARXYS)	9117-5774-INSTL	Installation for each Dual port HBA, IBM P-series server (AIX 5.x) compatible, auto-sensing, 1/2/4 GBits/sec, 2GB/sec	\$201.38	1 Yr	USA
811212	CUTTING EDGE/DBA (ARXYS)	CE-73G15-SAS-X15-5- DDSAN-INSTL	Installation for each 73GB 15K RPM, Hot-Swap SAS Drive. Includes all necessary cables.	\$201.38	1 Yr	USA
811212	CUTTING EDGE/DBA (ARXYS)	CEHS-146G15-SAS-X15- 5DDSAN-INSTL	Installation for each 146GB 15K RPM, Hot- Swap SAS Drive. Includes all necessary cables.	\$201.38	1 Yr	USA
811212	CUTTING EDGE/DBA (ARXYS)	CEHS-300G15-SAS-X15-5- DDSAN-INSTL	Installation for each 300GB 15K RPM, Hot- Swap SAS Drive. Includes all necessary cables.	\$201.38	1 Yr	USA
811212	CUTTING EDGE/DBA (ARXYS)	CEHS-160G72-SAT3-ES10- D2SAN-INSTL	Installation for each 160GB 7.2K RPM, Hot- Swap SATA II Drive. Includes all necessary cables.	\$201.38	1 Yr	USA
811212	CUTTING EDGE/DBA (ARXYS)	CEHS-250G72-SAT3-ES10- D2SAN-INSTL	Installation for each 250GB 7.2K RPM, Hot- Swap SATA II Drive. Includes all necessary cables.	\$201.38	1 Yr	USA
811212	CUTTING EDGE/DBA (ARXYS)	CEHS-500G72-SAT3-ES10- D2SAN-INSTL	Installation for each 500GB 7.2K RPM, Hot- Swap SATA II Drive. Includes all necessary cables.	\$201.38	1 Yr	USA
811212	CUTTING EDGE/DBA (ARXYS)	CEHS-750G72-SAT3-ES10- D2SAN-INSTL	Installation for each 750GB 7.2K RPM, Hot- Swap SATA II Drive Includes all necessary cables.	\$201.38	1 Yr	USA
811212	CUTTING EDGE/DBA (ARXYS)	LSC51-CL3L-224N-FRPS- 000N-INSTL	3 SCSI Tape, Quantum Scalar i500 5U Library	\$1,015.38	1 Yr	USA
811212	CUTTING EDGE/DBA (ARXYS)	LSC51-CL3G-224N-FRPS- 000N-INSTL	3 Fibre Tape; Quantum Scalar i500 5U Library	\$5,358.97	1 Yr	USA

811212	CUTTING EDGE/DBA (ARXYS)	LSC51-CL4G-224N-FRPS-000N-INSTL	4 Fibre Tape;Quantum Scalar i500 5U Library	\$5,358.97	1 Yr	USA
811212	CUTTING EDGE/DBA (ARXYS)	CE-ST-MAINT-CALL-INSTL	Maintenance Storage Technologies Per Call	\$705.13	1 Yr	USA
811212	CUTTING EDGE/DBA (ARXYS)	CESANEXP-HWSW-PLT	Monthly maintenance for each SAN Expansion Chassis for SLINs 1001-SAN AC and AD.	\$163.62	1 Yr	USA
811212	CUTTING EDGE/DBA (ARXYS)	CESANEXP-INSTL	Installation for each SAN Expansion Chassis for SLINs 1001-SAN AC and AD.	\$3,046.20	1 Yr	USA
811212	CUTTING EDGE/DBA (ARXYS)	CEP-CVP-HWSW-PLT	Maintenance for Performance Node Includes CDP, Replication	\$564.10	1 Yr	USA
811212	CUTTING EDGE/DBA (ARXYS)	CEP-CVP-MAINT	Installation for Performance Node Includes CDP, Replication	\$10,717.95	1 Yr	USA
811212	CUTTING EDGE/DBA (ARXYS)	PS-IMPL	1000 hour bundle for implementation services	\$136.10	1 Yr	USA
811212	CUTTING EDGE/DBA (ARXYS)	CE-ENTMAN-EWOS-SAN-SL	Enterprise Management Software provide a single integrated management view of all SAN equipment and storage	\$238,986.08	1 Yr	USA
811212	CUTTING EDGE/DBA (ARXYS)	CE-SW-SAN-CON	Software Components all software components required to configure and operate SAN Chassis offered in SLINs AC and AD.	\$10,138.25	1 Yr	USA
811212	CUTTING EDGE/DBA (ARXYS)	CE-AVSW-SL-SW-PLT	Antivirus software maintenance for CLINs AA-AD	\$5.61	1 Yr	USA
811212	CUTTING EDGE/DBA (ARXYS)	CE-ENTMAN-EWOS-NAS-SL-SW-PLT	Enterprise Management Software Maintenance	\$1,672.90	1 Yr	USA
811212	CUTTING EDGE/DBA (ARXYS)	CE-AVSW-SL-INSTL	Antivirus software installation for CLINs AA-AD	\$5.61	1 Yr	USA
811212	CUTTING EDGE/DBA (ARXYS)	CE-ENTMAN-EWOS-NAS-SL-INSTL	Enterprise Management Software installation	\$38,782.57	1 Yr	USA
