A. Customer Information

1. Special Item Numbers

SIN 54151S, RC/STLOC (formerly SIN 132 51) 70 500 RC/STLOC-Information Technology Professional Services

2. Hourly Rates

Prime Controls offers the following services on this GSA Schedule:

**Industrial Process Control System Design**

Prime Controls engineers design automated control systems based on Programmable Logic Controllers (PLCs) for a wide variety of applications including water distribution systems, wastewater treatment systems, water control structures such as locks and dams, material handling equipment and manufacturing equipment. System design includes software development and a complete drawing package.

**SCADA System Installation**

Prime Controls engineers and technicians install, commission, and test Supervisory Control and Data Acquisition (SCADA) systems based on PLCs using personal computer workstations for Human Machine Interaction (HMI). Systems include those that communicate via copper wire, fiber optic networks, industrial ethernet, data radios, and satellite ground stations.

**Control System Troubleshooting**

Prime Controls engineers and technicians evaluate existing control systems, develop corrective action plans, and implement those plans to correct control system problems. Services include hardware and software troubleshooting. Recommendations for replacement hardware are made along with suggested sources of supply.

a. Labor Category Descriptions

1. Labor Category: Account Manager

**Minimum/General Experience:** Minimum of 10 years of experience in Instrumentation and Controls.

**Functional Responsibility:** Serves as primary contact for customer and directly manages a group which includes project managers, project engineers, Instrumentation and Electrical (I&E) Technicians. Job duties include customer relations, scheduling, P&L and overseeing all phases of project. Requests assets from other groups as required and manages them while assigned.

**Education:** BS in Engineering in a relevant field such as Electrical Engineering, Mechanical Engineering or Computer Engineering

2. Labor Category: Project Manager

**Minimum/General Experience:** Minimum of 7 years of experience in Instrumentation and Controls.

**Functional Responsibility:** Overall job responsibility for engineering, scheduling, forecasting, subcontractor coordination, manpower, and project financials including invoicing and purchasing.

**Education:** BS in Engineering in a relevant field such as Electrical Engineering, Mechanical Engineering or Computer Engineering
3. Labor Category: Project Engineer Level 2/Level 1

Minimum/General Experience: Level 1—3 years relevant experience
   Level 2—5 years relevant experience

Functional Responsibility: Initial specification review, submittal preparation and approval, complete system design, drawing approval, software implementation (PLC and HMI), and maintain project documentation. Able to examine project specifications and be the technical lead. Total engineering responsibility for project from start to finish from submittal preparation to final O&M. Level 2 in addition, oversee Level 1 engineers and technician crews.

Education: BS in Engineering in a relevant field such as Electrical Engineering, Mechanical Engineering or Computer Engineering

4. Labor Category: Technicians

Minimum/General Experience: Technician—3 years relevant experience
   Sr. Technician—5 years relevant experience

Functional Responsibility: Devises, selects sets up, and operates electronic instrumentation and related electromechanical devices used for operational and environmental testing of mechanical, structural, or electrical equipment. Translates test data for engineering personnel by performing the following duties: Select, install, calibrate, and check sensing, telemetering, and recording instrumentation and circuitry. Develops specifications for nonstandard devices according to engineering data, characteristics of equipment under test, and capabilities of available test equipment.

Education: High School Diploma

5. Labor Category: CAD Designer

Minimum/General Experience: 5 years relevant experience

Functional Responsibility: The CAD Designer takes the system design layout provided by the Project Engineer and translates it into a standard that can be input into the Computer Aided Design program. The CAD Designer ensures that standard requirements are included in each design to facilitate efficient installation and effective change control.

Education: BS in Engineering in a relevant field such as Electrical Engineering, Mechanical Engineering or Computer Engineering

4. Minimum Order
$100.00

5. Geographic Coverage

6. Discount from List Prices
Discounts range from 16% to 43% off commercial list pricing.

7. Quantity Discounts
None

8. Prompt Payment Terms
Payment terms are Net 30 days. No discount is offered for prompt payment.

9. Government Credit Cards
Government credit cards are accepted at or below the micro-purchase threshold.

10. Government Purchase Cards
Government purchase cards are not accepted.

11. Time of Delivery
Project schedule times are negotiated for each order placed against this Schedule.

12. Urgent Requirements
When the Federal Supply Schedule contract delivery period does not meet the bona fide urgent delivery requirements of an ordering activity, ordering activities are encouraged, if time permits, to contact the Contractor for the purpose of obtaining accelerated delivery. The Contractor shall reply to the inquiry within 3 workdays after receipt. (Telephonic replies shall be confirmed by the Contractor in writing.) If the Contractor offers an accelerated delivery time acceptable to the ordering activity, any order(s) placed pursuant to the agreed upon accelerated delivery time frame shall be delivered within this shorter delivery time and in accordance with all other terms and conditions of the contract.

13. FOB-Destination

14. Ordering Address
Prime Controls, LP
1725 Lakepointe Drive
Lewisville, TX 75057

Contractors are required to accept credit cards for payments equal to or less than the micro purchase threshold for oral or written delivery orders. Credit cards will not be acceptable for payment above the micro-purchase threshold. In addition, bank account information for wire transfer payments will be shown on the invoice.
The following telephone number(s) can be used by ordering activities to obtain technical and/or ordering assistance: (281) 979-1815

15. Ordering Procedures

Ordering activities shall use the ordering procedures of Federal Acquisition Regulation (FAR) 8.405 when placing an order or establishing a BPA for supplies or services. These procedures apply to all schedules.

- FAR 8.405-1 Ordering procedures for supplies, and services not requiring a statement of work.
- FAR 8.405-2 Ordering procedures for services requiring a statement of work.

Customers should contact Prime Controls using the contact information herein. Prime Controls will prepare a custom quote in response to Customer requirements. The customer will issue a Purchase Order based on the provided quote. The Purchase Order must contain the contract number for this Schedule.

16. Purchase of Open Market Items

NOTE: Open Market Items are also known as incidental items, noncontract items, non-Schedule items, and items not on a Federal Supply Schedule contract. ODCs (Other Direct Costs) are not part of this contract and should be treated as open market purchases. Ordering Activities procuring open market items must follow FAR 8.402(f).

For administrative convenience, an ordering activity contracting officer may add items not on the Federal Supply Multiple Award Schedule (MAS) -- referred to as open market items -- to a Federal Supply Schedule blanket purchase agreement (BPA) or an individual task or delivery order, only if:

1. All applicable acquisition regulations pertaining to the purchase of the items not on the Federal Supply Schedule have been followed (e.g., publicizing (Part 5), competition requirements (Part 6), acquisition of commercial items (Part 12), contracting methods (Parts 13, 14, and 15), and small business programs (Part 19));
2. The ordering activity contracting officer has determined the price for the items not on the Federal Supply Schedule is fair and reasonable;
3. The items are clearly labeled on the order as items not on the Federal Supply Schedule; and
4. All clauses applicable to items not on the Federal Supply Schedule are included in the order.
17. Contractor Commitments, Warranties and Representations

For the purpose of this contract, commitments, warranties and representations include, in addition to those agreed to for the entire schedule contract:

(1) Time of delivery/installation quotations for individual orders;

(2) Technical representations and/or warranties of products concerning performance, total system performance and/or configuration, physical, design and/or functional characteristics and capabilities of a product/equipment/service/software package submitted in response to requirements which result in orders under this schedule contract.

(3) Any representations and/or warranties concerning the products made in any literature, description, drawings and/or specifications furnished by the Contractor.

The above is not intended to encompass items not currently covered by the GSA Schedule contract.

18. System for Award Management

Prime Controls is required to maintain our registration in the System for Award Management at www.sam.gov.

19. Payment Address

Prime Controls, LP
1725 Lakepointe Drive
Lewisville, TX 75057

20. Warranty Provision

Unless otherwise stated in the proposal, warranty shall be for a period of twelve (12) months from “Substantial Completion” (date when the control system is utilized for intended purposes). Damages as a result of acts of God (lightning, etc.), theft, vandalism or improper care and/or maintenance by Buyer/Customer are excluded from this warranty.

Special Warranty Provisions are available upon request.

21. Section 508 Compliance

If applicable, Section 508 compliance information on the supplies and services in this contract are available in Electronic and Information Technology (EIT) at the following:

www.prime-controls.com

The EIT standard can be found at: www.Section508.gov/

22. DUNS Number

Prime Controls DUNS is 046552316
