- A. Small Disadvantaged Business
- B. Other Small Business
- C. Large Business
- G. Other Nonprofit Organization
- L. Foreign Contractor

Block 31: Woman-Owned Small Business - No

Block 36: Contractor's Taxpayer Identification Number (TIN): 311688884

4a. CAGE Code: 4NRT5

4b. Contractor has registered with the Central Contractor Registration Database.

**5. DESCRIPTION OF IT SERVICES AND PRICING**

Category Name	Educational Qualification/ Experience	Job Description
Programmer I	Bachelor's Degree or Master's Degree < 2 years experience	<p>a. Reviews, analyzes, and modifies the programming systems including encoding, testing, and debugging to support Organizations client/server/Web Applications. Designs new modules to Improve system efficiency. Troubleshoots and resolves testing issues. Responsible for technical documentation of the modified programs. Familiar with a variety of the field's concepts, practices, and procedures.</p> <p>Minimum Experience: Requires a bachelor's degree or equivalent in Computer Science or engineering or Management Information Systems plus 1 year of general experience or 2 years of programming experience in several programming languages with expert knowledge in one. Six years of general experience is equivalent to a Bachelor's Degree. With a Master's Degree, no experience is required.</p>
Programmer II	Bachelor's Degree or Master's Degree >2 and < 3 years experience	<p>a. Reviews, analyzes, and modifies the programming systems including encoding, testing, and debugging to support Organizations client/server/Web Applications. Designs new modules to Improve system efficiency. Troubleshoots and resolves testing issues. Responsible for technical documentation of the modified programs. Familiar with a variety of the field's concepts, practices, and procedures.</p> <p>b. Relies on experience and judgment to plan and to accomplish goals. Performs a variety of complicated tasks. Relies on instructions and preestablished guidelines to perform the functions of the job. Minimum Experience: Requires a bachelor's degree or equivalent in Computer Science or engineering, plus 2 years of general experience or 3 years of programming experience in several programming languages with expert</p>

		<p>knowledge in one. Six years of general experience is equivalent to a Bachelor's Degree. With a Master's Degree, 1 year experience is required.</p>
QA Tester II	<p>Bachelor's Degree or Master's Degree &gt;2 and &lt; 3 years experience</p>	<p>a. Prepare test cases from a function test plan and to set-up and execute function tests for integrated program modules. Prepare and update the test log and create Program Trouble Reports for identified problems. Basic understanding of test environments, testing tools and QA techniques.</p> <p>b. Able to design complex and custom testing plans at the system, regression, integration and acceptance levels. Able to develop and revise testing procedures, standards and policies.</p> <p>c. Able to evaluate and select testing tools and products. Able to lead a team of testers on one or more concurrent projects. Able to interface with Project Manager and other team members on testing/QA issues. Typically reports to a supervisor or manager.</p> <p>Minimum Experience: Requires a bachelor's degree or equivalent in Computer Science or engineering or Management Information Systems plus 2+ year of general experience or 4 years of QA/Testing experience in the selected software. Six years of general experience is equivalent to a Bachelor's Degree. With a Master's Degree, 1+ years of experience is required</p>
ERP Programmer I	<p>Bachelor's Degree or Master's Degree &lt; 2 years experience</p>	<p>a. Reviews, analyzes, and modifies the programming systems including encoding, testing, and debugging to support an organization's Enterprise Resource Planning (ERP) applications.</p> <p>Designs new modules to Improve system efficiency. Troubleshoots and resolves testing issues. Responsible for technical documentation of the modified programs. Familiar with a variety of the field's concepts, practices, and procedures. Has knowledge of commonly-used practices and procedures within their respective domain. Relies on instructions and preestablished guidelines to perform the functions of the job. Works under immediate supervision. Typically reports to a team lead or project manager.</p>

		<p>Minimum Experience: Requires a bachelor's degree or equivalent in Computer Science or engineering or Management Information Systems plus 1 year of general experience or 2 years of programming experience in the selected ERP software. Six years of general experience is equivalent to a Bachelor's Degree. With a Master's Degree, no experience is required.</p>
Database Administrator	<p>Bachelor's Degree or Master's Degree &gt;2 and &lt;4 years experience</p>	<p>Administer, maintain, develops and implement policies and procedures for ensuring the security and integrity of the company database. Implements data models and database designs, data access and table maintenance codes; resolves database performance issues, database capacity issues, replication, and other distributed data issues. Familiar with standard concepts, practices, and procedures within a particular field. Relies on limited experience and judgment to plan and accomplish goals. Performs a variety of tasks. Works under general supervision; typically reports to a manager. A certain degree of creativity and latitude is required. Minimum Experience: Requires a bachelor's degree or equivalent in Computer Science or engineering, plus 2+ years of general experience or 4 years of Database Administration experience. With a Master's Degree, 1+ year experience in Database Administration is required.</p>
ERP Programmer II	<p>Bachelor's Degree or Master's Degree &gt;2 and &lt; 3 years experience</p>	<p>a. Reviews, analyzes, and modifies the programming systems including encoding, testing, and debugging to support an organization's Enterprise Resource Planning (ERP) applications. Designs new modules to Improve system efficiency. Troubleshoots and resolve issues. Responsible for technical documentation of the modified programs. Familiar with a variety of the field's concepts, practices, and procedures. b. Relies on experience and judgment to plan and to accomplish goals. Performs a variety of complicated tasks. Relies on instructions and pre- established guidelines to perform the functions of the job. Works under immediate supervision.</p>

		Typically reports to a team lead or project manager. Minimum Experience: Requires a bachelor's degree or equivalent in Computer Science or engineering, plus 2 years of general experience or 3 years of programming experience in the selected ERP software. Six years of general experience is equivalent to a Bachelor's Degree. With a Master's Degree, 1 year experience is required.
ERP Security Admin	Bachelor's Degree or Master's Degree >1 and < 4 years experience	Under general supervision, performs all procedures necessary to ensure the safety of information systems. Responsible for developing ERP Security Matrix, Security Data Migration, Create User Profiles, Grant Permissions and Create Roles. Interfaces with user community to understand their security needs and implements procedures to accommodate them. Ensures that user community understands and adheres to necessary procedures to maintain security. Conducts accurate evaluation of the level of security required. Provides management with status reports. Frequently reports to a Security Administration Manager. Minimum Experience: Requires a bachelor's degree or equivalent in Computer Science or engineering, plus 2+ years of general experience or 4 years of security admin experience in the selected ERP software. Six years of general experience is equivalent to a Bachelor's Degree. With a Master's Degree, 1+ year experience is required.
Programmer IV	Bachelor's Degree or Master's Degree 5+ years experience	a. Reviews, analyzes, and modifies the programming systems including encoding, testing, and debugging to support Organizations client/server/Web Applications. Designs new modules to Improve system efficiency. Troubleshoots and resolves testing issues. Responsible for technical documentation of the modified programs. Familiar with a variety of the field's concepts, practices, and procedures. b. Relies on experience and judgment to plan and to accomplish goals. Performs a variety of complicated tasks. Relies on instructions and preestablished guidelines to perform the functions of the job. c. May lead and direct the work of others. Typically reports to

		<p>a Project manager or Program Manager. A wide degree of creativity and latitude Is expected. d. Works independently under overall objectives and direction, apprising the supervisor about progress and unusual complications. Modifies and adapts precedent solutions and proven approaches. Completed work is reviewed for timeliness, compatibility with other work, and effectiveness in meeting requirements. May function as team leader or supervise a few lower level programmers or technicians on assigned work. Minimum Experience: Requires a bachelor's degree or equivalent in Computer Science or engineering, plus 5 years of general experience or 5 years of programming experience in several programming languages with expert knowledge in one. Six years of general experience is equivalent to a Bachelor's Degree. With a Master's Degree, 3+ year experience is required.</p>
ERP Programmer III	Bachelor's Degree or Master's Degree >3 and < 5 years experience	<p>a. Reviews, analyzes, and modifies the programming systems including encoding, testing, and debugging to support an organization's Enterprise Resource Planning (ERP) applications. Designs new modules to Improve system efficiency. Troubleshoots and resolves issues.</p> <p>b. Relies on experience and judgment to plan and to accomplish goals. Performs a variety of complicated tasks. Relies on instructions and pre- established guidelines to perform the functions of the job.</p> <p>c. May lead and direct the work of others. Typically reports to a Project manager or Project Lead. A wide degree of creativity and latitude Is expected. Minimum Experience: Requires a bachelor's degree or equivalent in Computer Science or engineering, plus 3 years of general experience or 4 years of programming experience in the selected ERP software. Six years of general experience is equivalent to a Bachelor's Degree. With a Master's Degree, 2+ years experience is required</p>
ERP Business Analyst	Bachelor's Degree or Master's Degree	<p>a. Review, analyze, and modify systems including development, testing, debugging</p>

	<p>&gt;1 and &lt; 4 years experience</p>	<p>and to support an organization's Enterprise Resource Planning (ERP) applications. Discuss with users to identify current issues and to understand client objectives. Has knowledge of commonly-used practices and procedures within their respective domain. Relies on instructions and preestablished guidelines to perform the functions of the job. Works under immediate supervision. Typically reports to a team lead or project manager.</p> <p>Minimum Experience: Requires a bachelor's degree or equivalent in Computer Science or engineering, plus 2 years of general experience or 3 years of System Matter expert experience in the selected ERP software. Six years of general experience is equivalent to a Bachelor's Degree. With a Master's Degree, 1+ Years of Hands-on experience In applications systems design/development.</p>
<p>ERP Security Admin Sr.</p>	<p>Bachelor's Degree or Master's Degree &gt;1 and &lt; 4 years experience</p>	<p>a. Under general direction, performs all procedures necessary to ensure the safety of information systems. Responsible for Design and development of ERP Security Matrix, Security Data Migration, Create User Profiles, Grant Permissions and Create Roles. Interfaces with user community to understand their security needs and implements procedures to accommodate them. Ensures that user community understands and adheres to necessary procedures to maintain security. b. May require familiarity with domain structures, user authentication, and digital signatures. Conducts accurate evaluation of the level of security required. May require understanding of implementing Single Sign on Security across different systems and configuration. Must be able to gauge business needs against security concerns and articulate issues to management. Minimum Experience: Requires a bachelor's degree or equivalent in Computer Science or engineering, plus 4+ years of general experience or 6 years of security admin experience in the selected ERP software. Six years of general experience is equivalent to a Bachelor's Degree. With a</p>

		Master's Degree, 3+ year experience is required.
ERP Project Manager	Bachelor's Degree or Master's Degree >5 and <8 years experience	Provides overall direction, Skills, Knowledge, project management knowledge for the delivery of a project to Support an organization's Enterprise Resource Planning (ERP) applications. Able to apply the principles of sound project methodology. Exercises management responsibility over the achievement of performance, revenue, and profit objectives of a project and its contracts. Able to prepare and revise Project Charter, Scope, project plan, task plan, work breakdown structure, communication plan, risk assessment, cost analysis and status reports. Coordinates and leads project team meetings. Provides status and issue resolution recommendations to project sponsor. Should Possesses excellent communication and negotiation skills in managing highly sensitive and complex project issues. Able to mentor less experienced project managers. Minimum Experience: Requires a bachelor's degree in Engineering, Management Information Systems, MBA, or equivalent studies or experience with 5 or more years of Project Management experience in the selected ERP software. With a Master's Degree in Management or PMP certified, 2+ year experience is required
ERP Business Analyst Sr.	Bachelor's Degree or Master's Degree >4 and <6 years experience	a. Review, analyze, and modify systems including development, testing, debugging and to support an organization's Enterprise Resource Planning (ERP) applications. Discuss with users to identify current issues and to understand client objectives. May be expected to develop design documentation to describe business requirements, development, Debug and troubleshoot issues. Must have a working knowledge of relational databases and client-server concepts. b. Relies on experience and judgment to plan and to accomplish goals. Performs a variety of complicated tasks. c. May lead and direct the work of others. Typically reports to a Project manager or Program Manager. A wide degree of creativity and latitude Is expected.

		<p>d. Works independently under overall objectives and direction, apprising the supervisor about progress and unusual complications. Modifies and adapts precedent solutions and proven approaches. Completed work is reviewed for timeliness, compatibility with other work, and effectiveness in meeting requirements. May function as team leader or supervise a few lower level business Analysts or technicians on assigned work.   - e. Other

## **12. OVERSEAS ACTIVITIES**

The terms and conditions of this contract shall apply to all orders for installation, maintenance and repair of equipment in areas listed in the pricelist outside the 48 contiguous states and the District of Columbia, except as indicated below:

None

---

Upon request of the Contractor, the ordering activity may provide the Contractor with logistics support, as available, in accordance with all applicable ordering activity regulations. Such ordering activity support will be provided on a reimbursable basis and will only be provided to the Contractor's technical personnel whose services are exclusively required for the fulfillment of the terms and conditions of this contract.

## **13. BLANKET PURCHASE AGREEMENTS (BPAs)**

The use of BPAs under any schedule contract to fill repetitive needs for supplies or services is allowable. BPAs may be established with one or more schedule contractors. The number of BPAs to be established is within the discretion of the ordering activity establishing the BPA and should be based on a strategy that is expected to maximize the effectiveness of the BPA(s). Ordering activities shall follow FAR 8.405-3 when creating and implementing BPA(s).

## **14. INSTALLATION, DEINSTALLATION, REINSTALLATION**

The Davis-Bacon Act (40 U.S.C. 276a-276a-7) provides that contracts in excess of \$2,000 to which the United States or the District of Columbia is a party for construction, alteration, or repair (including painting and decorating) of public buildings or public works with the United States, shall contain a clause that no laborer or mechanic employed directly upon the site of the work shall received less than the prevailing wage rates as determined by the Secretary of Labor. The requirements of the Davis-Bacon Act do not apply if the construction work is incidental to the furnishing of supplies, equipment, or services. For example, the requirements do not apply to simple installation or alteration of a public building or public work that is incidental to furnishing supplies or equipment under a supply contract. However, if the construction, alteration or repair is segregable and exceeds \$2,000, then the requirements of the Davis-Bacon Act applies.

The ordering activity issuing the task order against this contract will be responsible for proper administration and enforcement of the Federal labor standards covered by the Davis-Bacon Act. The proper Davis-Bacon wage determination will be issued by the ordering activity at the time a request for quotations is made for applicable construction classified installation, deinstallation, and reinstallation services under SIN 132-8.

## **15. SECTION 508 COMPLIANCE**

If applicable, Section 508 compliance information on the supplies and services in this contract are available in Electronic and Information Technology (EIT) at the following:

Section 508 compliance is in process.

The EIT standard can be found at: [www.Section508.gov/](http://www.Section508.gov/).
