Business Size: Small

Price list current as of Modification #PO-0052 effective 12/17/2020

Prices Shown Herein are Net (discount deducted)

**CUSTOMER INFORMATION**

1a. Table of awarded special item number(s) with appropriate cross-reference to item descriptions and awarded price(s).

| SINs       | Recovery     | SIN Title   |
|------------|--------------|---|
| 33411      | 33411RC      | Purchasing of New Electronic Equipment                              |
| 339940     | 339940RC     | Office Products   |
| 541519ICAM | 541519ICAMRC | Identity, Credentialing and Access Management (ICAM)                |
| 54151S     | 54151SRC     | Information Technology Professional Services                        |
| 811212     | 811212RC     | Maintenance of Equipment, Repair Services and/or Repair/Spare Parts |
| OLM        | OLMRC        | Order-Level Materials (OLM's)                                       |

1b. Identification of the lowest priced model number and lowest unit price for that model for each special item number awarded in the contract. This price is the Government price based on a unit of one, exclusive of any quantity/dollar volume, prompt payment, or any other concession affecting price. Those contracts that have unit prices based on the geographic location of the customer, should show the range of the lowest price, and cite the areas to which the prices apply.

| SIN    | Part Number   | Manufacturer     | GSA Price |
|--------|---------------|------------------|-----------|
| 339940 | DVOD100910596 | Johnson Diversey | \$0.03    |

1c. If the Contractor is proposing hourly rates, a description of all corresponding commercial job titles, experience, functional responsibility and education for those types of employees or subcontractors who will perform services shall be provided. If hourly rates are not applicable, indicate “Not applicable” for this item. **Please see attached labor category descriptions.**

2. Maximum order:

| SINs       | Maximum Order |
|------------|---------------|
| 33411      | \$500,000     |
| 54151S     | \$500,000     |
| 541519ICAM | \$500,000     |
| 339940     | \$500,000     |
| 811212     | \$500,000     |
| OLM        | \$250,000     |

3. Minimum order: **\$100**

4. Geographic coverage (delivery area). **Domestic**

5. Point(s) of production (city, county, and State or foreign country):

**V3Gate, LLC  
555 Middle Creek Pkwy Ste 120  
Colorado Springs, CO 80921-3798**

6. Discount from list prices or statement of net price. **Government Net Prices (discounts already deducted.)**

7. Quantity discounts. **None**

8. Prompt payment terms. Information for Ordering Offices: Prompt payment terms cannot be negotiated out of the contractual agreement in exchange for other concessions. **Net 30 days. Prompt payment terms cannot be negotiated outside of the contractual agreement in exchange for other concessions.**

9. Foreign items (list items by country of origin). **Not Applicable**

10a. Time of delivery. (Contractor insert number of days.) **Contact Contractor**

10b. Expedited Delivery. Items available for expedited delivery are noted in this price list. **Contact Contractor**

10c. Overnight and 2-day delivery. **Contact Contractor**

10d. Urgent Requirements. **Contact Contractor**

11. F.O.B. point(s). **Destination**

12a. Ordering address(es):

**V3Gate, LLC  
555 Middle Creek Pkwy Ste 120  
Colorado Springs, CO 80921-3798**

12b. Ordering procedures: For supplies and services, the ordering procedures, information on Blanket Purchase Agreements (BPA's) are found in Federal Acquisition Regulation (FAR) 8.405-3.

13. Payment address(es):

**V3Gate, LLC  
555 Middle Creek Pkwy Ste 120  
Colorado Springs, CO 80921-3798**

14. Warranty provision. **Standard Commercial Warranty Terms & Conditions**

15. Export packing charges, if applicable. **Not Applicable**

16. Terms and conditions of rental, maintenance, and repair (if applicable). **Not Applicable**

17. Terms and conditions of installation (if applicable). **Contact Contractor**
- 18a. Terms and conditions of repair parts indicating date of parts price lists and any discounts from list prices (if applicable). **Contact Contractor**
- 18b. Terms and conditions for any other services (if applicable). **Contact Contractor**
19. List of service and distribution points (if applicable). **Contact Contractor**
20. List of participating dealers (if applicable). **Not Applicable**
21. Preventive maintenance (if applicable). **Contact Contractor**
- 22a. Special attributes such as environmental attributes (e.g., recycled content, energy efficiency, and/or reduced pollutants). **Not Applicable**
- 22b. If applicable, indicate that Section 508 compliance information is available on Electronic and Information Technology (EIT) supplies and services and show where full details can be found (e.g. contractor's website or other location.) The EIT standards can be found at: [www.Section508.gov/](http://www.Section508.gov/).  
**Not Applicable**
23. Data Universal Number System (DUNS) number. **808862598**
24. Notification regarding registration in System for Award Management (SAM) database. **V3Gate, LLC is registered and active in SAM.**

FEDERAL SUPPLY SCHEDULE  
CONTRACT GS-35F-0486V

**Service Contract Labor Standards:** The Service Contract Labor Standards (SCLS), formerly known as the Service Contract Act (SCA), is applicable to this contract as it applies to the entire Multiple Award Schedule (MAS) and all services provided. While no specific labor categories have been identified as being subject to SCLS/SCA due to exemptions for professional employees (FAR 22.1101, 22.1102 and 29 CFR 541.300), this contract still maintains the provisions and protections for SCLS/SCA eligible labor categories. If and / or when the contractor adds SCLS/SCA labor categories to the contract through the modification process, the contractor must inform the Contracting Officer and establish a SCLS/SCA matrix identifying the GSA labor category titles, the occupational code, SCLS/SCA labor category titles and the applicable WD number. Failure to do so may result in cancellation of the contract.

## RATE CHART

| GSA Awarded Labor Category                        | Year 1<br>06/03/2019<br>to<br>06/02/2020 | Year 2<br>06/03/2020<br>to<br>06/02/2021 | Year 3<br>06/03/2021<br>to<br>06/02/2022 | Year 4<br>06/03/2022<br>to<br>06/02/2023 | Year 5<br>06/03/2023<br>to<br>06/02/2024 |
|---|--|--|--|--|--|
| Program Manager II                                | \$195.51                                 | \$200.45                                 | \$205.52                                 | \$210.72                                 | \$216.06                                 |

## **LABOR CATEGORY DESCRIPTIONS**

### **IT Program Manager II**

**Functionality Responsibility:** The Information Technology (IT) program manager is the primary liaison between the contractor and the contracting office and their representatives. They are responsible for the functional and operational delivery of the contracted information technology solutions and services across multiple IT implementations.

**Experience:** 10+ years/progressive information technology program experience, with knowledge of agile methodologies, enterprise IT, application development, cloud computing concepts.

**Education:** Masters Degree or equivalent in business, project management, computer science, information technology or related discipline.

### **IT Program Manager I**

**Functionality Responsibility:** The Information Technology (IT) program manager is the primary liaison between the contractor and the contracting office and their representatives. They are responsible for the functional and operational delivery of the contracted information technology solutions and services across multiple IT implementations.

**Experience:** 7+ years/progressive information technology program experience, with knowledge of agile methodologies, enterprise IT, application development, cloud computing concepts.

**Education:** Bachelor's Degree or equivalent in business, project management, computer science, information technology, or related discipline.

### **IT Project Manager II**

**Functionality Responsibility:** The Information Technology (IT) project management responsible for the day-today team leadership, coordination, management, and execution of all aspects of the software development lifecycle and solution implementation. These include knowledge of agile methodologies, enterprise IT, application development, identity management and cloud computing concepts.

**Experience:** 10+ years/progressive information technology project management experience, with knowledge of agile methodologies, enterprise IT, application development, identity management and cloud computing concepts.

**Education:** Bachelor's Degree or equivalent in business, project management, computer science, information technology, or related discipline.

### **IT Project Manager I**

**Functionality Responsibility:** The Information Technology (IT) project management responsible for the day-today team leadership, coordination, management, and execution of all aspects of the software development lifecycle and solution implementation. These include knowledge of agile methodologies, enterprise IT, application development, identity management and cloud computing concepts.

**Experience:** 5+ years/progressive information technology project management experience, with knowledge of agile methodologies, enterprise IT, application development, identity management and cloud computing concepts.

**Education:** Bachelor's Degree or equivalent in business, project management, computer science, information technology, or related discipline.

**Solutions (Technical) Architect II**

**Functionality Responsibility:** Solutions architect is a technical subject matter expert of the desired solution and is responsible for providing evaluation and assessment of existing systems and technologies; designing and facilitating the recommended architecture; and guiding the customer in the technology options available. They work with customers to document, review and manage the technical requirements, business functional requirements, develop strategic plans including transition strategies, deployment strategies, mission/vision descriptions, and positioning strategies. Review and provide technical expertise and leadership to the implementation team.

**Experience:** 6+ years related experience, technical certifications related to the solution

**Education:** Bachelor's degree or equivalent, technically relevant certification

**Solution (Technical) Architect I**

**Functionality Responsibility:** Solutions architect is a technical subject matter expert of the desired solution and is responsible for providing evaluation and assessment of existing systems and technologies; designing and facilitating the recommended architecture; and guiding the customer in the technology options available. They work with customers to document, review and manage the technical requirements, business functional requirements, develop strategic plans including transition strategies, deployment strategies, mission/vision descriptions, and positioning strategies. Review and provide technical expertise and leadership to the implementation team.

**Experience:** 4+ years related experience, technical certification related to the solution

**Education:** Bachelor's degree or equivalent, technically relevant certification

**Solution Consultant III**

**Functionality Responsibility:** Technical Consultants provide hands-on implementation and deployment services, drive assigned activities in project scope, status updates, and documentation development, mentor and provide knowledge transfer to customers, lead interaction and collaboration with other teams such as engineering, product management and support as needed to address escalated issues, perform hands on technical design, configuration, development and integration assistance, and troubleshooting of the solution, service and platform.

**Experience:** 7+ years related experience, technical certifications related to the solution

**Education:** Bachelor's degree or equivalent, technically relevant certification

**Solution Consultant II**

**Functionality Responsibility:** Technical Consultants provide hands-on implementation and deployment services, contribute development expertise to assigned activities in project scope, status updates, and documentation development, mentor and provide knowledge transfer to customers, lead interaction and collaboration with other teams such as engineering, product management and support as needed to address escalated issues, perform hands on technical design, configuration, development and integration assistance, and troubleshooting of the solution, service and platform.

**Experience:** 5+ years related experience, technical certifications related to the solution

**Education:** Bachelor's degree or equivalent, technically relevant certification

**Solution Consultant I**

**Functionality Responsibility:** Working with senior technical project team members, Provides technical expertise in areas of information systems design, software programming and development, information business strategies and system analysis. Coordinates and integrates work across multiple initiatives under development and in production, using the technologies used in the technical platform.

**Experience:** 3+ years related experience, technical certifications related to the solution

**Education:** Bachelor's degree or equivalent, technically relevant certification

### **Business Analyst**

**Functionality Responsibility:** The Business Systems Analyst's role is to devise and design business process requirements for all IT related business, financial, and operations systems critical to core organizational functions. This includes researching and analyzing data in support of business functions, process knowledge, and systems requirements.

**Experience:** 3+ years related experience, technical certifications related to the solution

**Education:** Bachelor's degree or equivalent

### **IT QA Analyst**

**Functionality Responsibility:** Tests technical solutions for software applications in cloud-based, web-based and client-server environments. Creates functional use cases and tests all the aspects and features of the application or product and generates reports for developers and engineers.

**Experience:** 3+ years related experience as a software tester, technical certifications related to the solution

**Education:** Bachelor's degree or equivalent

### **Technical Engineer III - Network & Infrastructure**

**Functionality Responsibility:** Technical Engineers work within several IT disciplines, including Internet and computing technologies, networking and telecommunications, and radio. Provides design, development, deployment, problem identification and remediation, and on-going support. Provides support in the translation of business requirements into telecommunications (e.g. LAN, MAN, WAN, Voice and Video) requirements, designs and orders. Also, provides in-depth engineering analysis of alternatives in support modernization efforts and telecommunications enhancement design for medium and largescale telecommunications infrastructures. Provides interface support to telecommunications end users, telecommunications operations personnel and telecommunications strategic program management. Works as member of network engineering team.

**Experience:** 7+ years related experience, technical certifications related to the solution

**Education:** Bachelor's degree or equivalent, technically relevant certification

### **Technical Engineer II**

**Functionality Responsibility:** Technical Engineers work within several IT disciplines, including Internet and computing technologies, networking and telecommunications, and radio. Provides design, development, deployment, problem identification and remediation, and on-going support. Provides support in the translation of business requirements into telecommunications (e.g. LAN, MAN, WAN, Voice and Video) requirements, designs and orders. Also, provides in-depth engineering analysis of alternatives in support modernization efforts and telecommunications enhancement design for medium and largescale telecommunications infrastructures. Provides interface support to telecommunications end users, telecommunications operations personnel and telecommunications strategic program management. Works as member of network engineering team.

**Experience:** 5+ years related experience, technical certifications related to the solution

**Education:** Bachelor's degree or equivalent, technically relevant certification

**Technical Engineer I - Network & Infrastructure**

**Functionality Responsibility:** Technical Engineers work within several IT disciplines, including Internet and computing technologies, networking and telecommunications, software deployment and radio. Provides design, development, deployment, problem identification and remediation, and on-going support. Provides support in the translation of business requirements into telecommunications (e.g. LAN, MAN, WAN, Voice and Video) requirements, designs and orders. Also, provides in-depth engineering analysis of alternatives in support modernization efforts and telecommunications enhancement design for medium and largescale telecommunications infrastructures. Provides interface support to telecommunications end users, telecommunications operations personnel and telecommunications strategic program management. Works as a member of network engineering team.

**Experience:** 3+ years related experience, technical certifications related to the solution
