EXCEPT FOR THE WARRANTY SET FORTH HEREIN, AND TO THE MAXIMUM EXTENT PERMITTED BY LAW, BIOBEX® MAKES NO OTHER EXPRESS OR IMPLIED WARRANTIES, WRITTEN OR ORAL, IN SO FAR AS PERMITTED UNDER APPLICABLE LAW, ALL OTHER WARRANTIES ARE SPECIFICALLY EXCLUDED, INCLUDING WARRANTIES ARISING BY STATUTE, COURSE OF DEALING OR USAGE OF TRADE. THE LIMITED WARRANTY CONTAINED IN THIS AGREEMENT GIVES LICENSEE SPECIFIC LEGAL RIGHTS. LICENSEE MAY HAVE OTHER RIGHTS, WHICH VARY FROM STATE TO STATE AND JURISDICTION TO JURISDICTION. SOME STATES AND JURISDICTIONS DO NOT ALLOW THE EXCLUSION OF IMPLIED WARRANTIES, SO THE ABOVE EXCLUSIONS MAY NOT APPLY TO LICENSEE. IN THAT EVENT, ANY SUCH IMPLIED WARRANTIES RELATING TO THE SOFTWARE ARE LIMITED IN DURATION TO THIRTY (30) DAYS FROM THE DATE OF FIRST USE OF THE SOFTWARE.

- 6.3. Data Backup. Licensee acknowledges and agrees that programs and hardware can malfunction or become altered, resulting in the loss of data. BiObex® will have no liability to Licensee or any third-party for any loss of data that may arise or related to this Agreement.

## **7. CONFIDENTIALITY**

- 7.1. Definition. "Confidential Information" means: (a) the Software; and (b) any business or technical information of BiObex® or its third-party licensors, including but not limited to any information relating to product plans, designs, costs, and names, finances, marketing plans, business opportunities, personnel, research, and development or know how, in either written or oral form.
- 7.2. Exclusions. Notwithstanding Subsection 6.1, and with respect to all Confidential Information except the Software and the SAFE Technology Devices, Confidential Information does not include information that: (a) is or becomes generally known to the public through no fault or breach of this Agreement by the Licensee; (b) is known to the Licensee at the time of disclosure without an obligation of confidentiality; (c) is independently developed by the Licensee without use of the Confidential Information; (d) is rightfully obtained by the Licensee from a third party without restriction on use or disclosure; or (e) is disclosed with the prior written approval of BiObex®.
- 7.3. Use and Disclosure Restrictions. During the term of this Agreement, and for (i) perpetuity with respect to the Software and the SAFE Technology Devices, and (ii) a period of five (5) years after any termination of this Agreement with respect to any

Confidential Information other than the Software and the SAFE Technology Devices, Licensee will not use the Confidential Information except as permitted herein, and will not disclose such Confidential Information to any third party except to employees and consultants as reasonably required in connection with the exercise of its rights and obligations under this Agreement, provided that such third party is subject to written, binding use and disclosure restrictions at least as protective as those set forth herein this Agreement. In the event Licensee is required by law, including, but not limited to the Freedom of Information Act, 5 U.S.C. § 552, or order of a court, administrative agency or other governmental body to disclose the Confidential Information, it may disclose the Confidential Information as required, but only to the extent required and must promptly notify BiObex® prior to the required disclosure.

- 7.4. Disclosure of Agreement. Notwithstanding Subsection 6.3, Licensee may disclose the terms of this Agreement pursuant to an acquisition, merger, sale of substantially all of its assets, financing, or as required by securities laws or regulations; provided that the receiving party shall be bound to a confidentiality agreement to the extent possible.

## **8. TERM AND TERMINATION**

- 8.1. Term. This Agreement shall commence (“Effective Date”) upon consenting to be bound by the terms of this Agreement. The initial term of this Agreement will commence on the Effective Date and continue for one (1) year. Recourse against the United States for any alleged breach of this agreement must be made under the terms of the Federal Tort Claims Act or as a dispute under the contract disputes clause (Contract Disputes Act) as applicable. The Contractor shall proceed diligently with performance of this contract, pending final resolution of any request for relief, claim, appeal, or action arising under the contract, and comply with any decision of the Contracting Officer.
- 8.2. *Termination Liability.*
- 8.2.1. Termination by BiObex®. If this Agreement is terminated by BiObex®, Licensee will not be entitled to any refund for License Fees paid to BiObex®, and the Licensee will remain liable to BiObex® for all License Fees and other amounts that were due and payable prior to the termination.
- 8.3. Termination by Licensee. If this Agreement is terminated by Licensee due to an uncured breach by BiObex®, BiObex® will refund to the Licensee the unused pro-rated portion of the annual License Fees hereunder. This Subsection sets forth the Licensee's sole and exclusive remedy for any breach of this Agreement by BiObex®.
- 8.4. Obligation upon Termination. Upon termination or the non-renewal of this Agreement for any reason, the Licensee, at Licensee's cost, will immediately (i) discontinue use of all Software, the Confidential Information, the SAFE Technology Device, and any other equipment, products, or items provided to the Licensee by, or on behalf of, BiObex®, (ii) deliver to BiObex® all diskettes and other media containing the Software and all other physical copies of Software, the Confidential Information, the SAFE Technology Device, and any other equipment, products, or items provided to the Licensee by, or on behalf of, BiObex®, (iii) destroy the Software and all copies of the Software contained in any computer memory or data storage apparatus under the control of Licensee; and (iv) certify in writing to BiObex® within thirty (30) days after the termination of this Agreement that Licensee has fully complied with its obligations under this Subsection 7.5, or identify in detail the Licensee's failures to comply.

## 9. LIMITATION OF LIABILITY

### 9.1. *Exclusion of Damages.*

TO THE MAXIMUM EXTENT PERMITTED BY APPLICABLE LAW AND REGARDLESS OF WHETHER ANY REMEDY SET FORTH HEREIN FAILS OF ITS ESSENTIAL PURPOSE, IN NO EVENT WILL BIOBEX®, ITS SUPPLIERS, OR LICENSORS BE LIABLE FOR (I) ANY SPECIAL, EXEMPLARY, CONSEQUENTIAL, INCIDENTAL, INDIRECT OR SIMILAR DAMAGES, (II) DAMAGES FOR LOST PROFITS, LOSS OF BUSINESS, INTERRUPTION OF BUSINESS, LOSS OF USE, LOSS OF DATA, OR OTHER PECUNIARY LOSS, OR (III) FOR ANY CLAIM OR DEMAND AGAINST LICENSEE BY A THIRD PARTY, THAT ARISE OUT OF OR RELATE IN ANY WAY TO (I) THE USE OR INABILITY TO USE, OR PERFORMANCE OF, THE SOFTWARE, OR (II) THE PERFORMANCE OR NONPERFORMANCE OF SERVICES BY BIOBEX®, HOWEVER CAUSED AND ON ANY THEORY OF LIABILITY, WHETHER IN CONTRACT, STRICT LIABILITY OR TORT (INCLUDING NEGLIGENCE OR OTHERWISE), EVEN IF BIOBEX®, ITS SUPPLIERS, OR THIRD-PARTY LICENSORS HAVE BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES, CLAIMS, DEMANDS, OR LOSSES.

### 9.2. *Limitation of Liability.*

NOTWITHSTANDING ANYTHING ELSE CONTAINED IN THIS AGREEMENT AND TO THE MAXIMUM EXTENT PERMITTED BY APPLICABLE LAW AND REGARDLESS OF WHETHER ANY REMEDY SET FORTH HEREIN FAILS OF ITS ESSENTIAL PURPOSE, IN THE EVENT BIOBEX®, ITS SUPPLIERS, OR THIRD PARTY LICENSORS ARE SUBJECT TO ANY LIABILITY ARISING OUT OF OR RELATING IN ANY WAY TO THIS AGREEMENT, THE SAFE TECHNOLOGY DEVICES OR THE SOFTWARE, HOWEVER CAUSED AND ON ANY THEORY OF LIABILITY, WHETHER IN CONTRACT, STRICT LIABILITY OR TORT (INCLUDING NEGLIGENCE OR OTHERWISE), THE COLLECTIVE AND CUMULATIVE LIABILITY OF BIOBEX®, ITS SUPPLIERS, AND THIRD PARTY LICENSORS UNDER THIS AGREEMENT SHALL NOT EXCEED THE GREATER OF (I) ONE HUNDRED DOLLARS (\$100), OR (II) THE LICENSE FEES RECEIVED BY BIOBEX® FOR THE THEN CURRENT AGREEMENT TERM IN WHICH THE LIABILITY FIRST ACCRUED.

9.3. Nuclear and Other Applications. The Software is not specifically developed or licensed for use in any nuclear, aviation, mass transit, or medical application or in any other inherently dangerous applications. To the fullest extent permitted by applicable law, neither BiObex® nor its suppliers or third-party licensors will be liable for any claims or damages arising out of or related to such use, and Licensee hereby agrees to indemnify and hold harmless BiObex® and its suppliers and third-party licensors from any claims for losses, costs, damages, or liability arising out of or related to the use of the Software in such applications.

9.4. Reasonable Allocation of Risk. The parties expressly acknowledge and agree that BiObex® has set its prices and entered into this Agreement in reliance upon the limitations of liability and exclusion of damages specified herein, which reasonably allocate the risk between BiObex® and Licensee.

9.5. THE LIMITATIONS OF LIABILITY AND EXCLUSION OF DAMAGES PROVIDED IN THIS SECTION SHALL APPLY EVEN IF ANY AND ALL

REMEDIES FAIL OF THEIR ESSENTIAL PURPOSE. BECAUSE SOME STATES/JURISDICTIONS DO NOT ALLOW THE EXCLUSION OR LIMITATION OF LIABILITY FOR CONSEQUENTIAL OR INCIDENTAL DAMAGES, ALL OR A PORTION OF THE LIMITATIONS IN SECTIONS 8.1 OR 8.2 ABOVE MAY NOT APPLY TO LICENSEE. LICENSEES IN THOSE STATES/JURISDICTIONS ACKNOWLEDGE AND AGREE THAT NO INDEMNITY OR WARRANTY IS GIVEN WITH RESPECT TO THE SOFTWARE OR THE SAFE TECHNOLOGY DEVICES. THE FOREGOING EXCLUSION OF DAMAGES AND LIMITATION OF LIABILITY SHALL NOT APPLY TO (1) PERSONAL INJURY OR DEATH RESULTING FROM LICENSOR'S NEGLIGENCE; (2) FOR FRAUD; OR (3) FOR ANY OTHER MATTER FOR WHICH LIABILITY CANNOT BE EXCLUDED BY LAW.

## **10. GOVERNING LAW AND DISPUTES**

- 10.1. **Governing Law and Jurisdiction.** This Agreement will be governed by and construed in accordance with the Federal laws of the United States, without regard to the conflicts of law principles thereof. Venue and jurisdiction are mandated by applicable United States Federal law. The United Nations Convention on Contracts for the International Sale of Goods shall not apply to this Agreement.
- 10.2. **Time Limit for Action.** The parties agree that no legal action, regardless of form, related to or arising out of this Agreement, may be brought by either party more than six (6) years after accrual of the cause of action; provided, however, the foregoing time limit will not apply to any breach of BiObex®'s intellectual property.

## **11. FEDERAL ACQUISITIONS**

This Section applies to all acquisitions of the Software by or for the U.S. Federal Government, or by any prime contractor or subcontractor (at any tier) acting under any contract, grant, cooperative agreement or other activity with the U.S. Federal Government. The Software provided under this Agreement are commercial computer software programs developed exclusively at private expense. By accepting delivery of, or using, the Software, the government hereby agrees that the Software qualifies as "commercial computer software" within the meaning of the acquisition regulation(s) applicable to this procurement. The terms and conditions of this Agreement shall pertain to the government's use and disclosure of this Software and shall supersede any conflicting contractual terms or conditions. If this Agreement fails to meet the government's needs or is inconsistent in any respect with Federal law, the government agrees to return the Software, unused, to BiObex®. Technical data is provided with limited rights only as provided in DFARS 252.227-7015 (FEB 2014) or FAR 52.227-14 (May 2014), whichever is applicable. If a federal government or other public sector customer has a need for rights not conveyed under this Agreement, it must negotiate with BiObex® to determine if there are acceptable terms for transferring such rights, and a mutually acceptable written agreement specifically conveying such rights must be executed by both parties.

## **12. GOVERNMENT REGULATIONS AND EXPORT CONTROL**

SAFE Technology Devices, the Software and the technology included therein provided under this Agreement are subject to governmental restrictions on (i) exports from the U.S.; (ii) exports from other countries in which such SAFE Technology Devices, Software and technology included therein may be produced or located; (iii) disclosures of technology to foreign persons; (iv) exports from abroad of derivative products thereof; and (v) the importation and/or use of such SAFE Technology Devices, Software and technology therein outside of the United States or other countries (collectively, "Export

## TERMS AND CONDITIONS APPLICABLE TO PURCHASE OF CLOUD COMPUTING SERVICES (SPECIAL ITEM NUMBER 518210C)

### SCOPE

The prices, terms and conditions stated under Special Item Number (SIN) 518210C Cloud Computing Services apply exclusively to Cloud Computing Services within the scope of this Information Technology Schedule. This SIN provides ordering activities with access to technical services that run-in cloud environments and meet the NIST Definition of Cloud Computing Essential Characteristics. Services relating to or impinging on cloud that do not meet all NIST essential characteristics should be listed in other SINs.

The scope of this SIN is limited to cloud capabilities provided entirely as a service. Hardware, software and other artifacts supporting the physical construction of a private or other cloud are out of scope for this SIN. Currently, an Ordering Activity can procure the hardware and software needed to build on premise cloud functionality, through combining different services on other IT Schedule 70 SINs (e.g. 54151S).

Sub-categories in scope for this SIN are the three NIST Service Models: Software as a Service (SaaS), Platform as a Service (PaaS), and Infrastructure as a Service (IaaS). Offerors may optionally select a single sub-category that best fits a proposed cloud service offering. Only one sub-category may be selected per each proposed cloud service offering. Offerors may elect to submit multiple cloud service offerings, each with its own single sub-category. The selection of one of three sub-categories does not prevent Offerors from competing for orders under the other two sub-categories.

See service model guidance for advice on sub-category selection.

Sub-category selection within this SIN is optional for any individual cloud service offering, and new cloud computing technologies that do not align with the aforementioned three sub-categories may be included without a sub-category selection so long as they comply with the essential characteristics of cloud computing as outlined by NIST.

### **Description of how your cloud computing services adhere to essential cloud characteristics as described in 'National Institute of Standards and Technology' (NIST) special publication 800-145.**

TechTrend is a Microsoft Azure Government Cloud Solutions Provider (CSP). Azure Government is a government-community cloud (GCC), designed to support strategic government scenarios that require speed, scale, security, compliance and economics for U.S. government organizations. In addition, Azure Government is designed to meet the higher-level security and compliance needs for sensitive, dedicated, U.S. Public Sector workloads found in regulations such as United States Federal Risk and Authorization Management Program (FedRAMP), Department of Defense Enterprise Cloud Service Broker (ECSB), Criminal Justice Information Services (CJIS) Security Policy and Health Insurance Portability and Accountability Act (HIPAA). Azure Government includes the core components of Infrastructure-as-a-Service (IaaS) and Platform-as-a-Service (PaaS).

As a CSP, TechTrend not only has the expertise in planning, building and running managed cloud environments to customers utilizing Azure, we have specialized expertise to assess, migrate, develop and integrate applications in the cloud. Our cloud computing services via Microsoft Azure adhere to essential cloud characteristics as described in NIST 800-145 as described below:

### **On-Demand Self Service**

Azure meets On-demand self-service by providing the customer with a web portal to see and manage all of your applications - including web apps, databases, virtual machines, virtual networks, storage, and Visual Studio team projects. You personalize your experience based on your priorities. The unified hub radically simplifies building, deploying, and managing your cloud resources.

### **Broad Network Access**

Azure is available over the Internet and any end-point device capable of connecting to the Internet would be able to take advantage of Azure services. Azure is hosted in multiple locations within CONUS. Customers can connect an on-premise network to Azure virtual network, thus extending your network to include subnets and virtual machines hosted in Azure infrastructure services.

### **Resource Pooling**

Azure Government supports multi-tenant model to provide services for federal customers. The Azure Government environment is a completely separate instance from Microsoft Azure public and only used by qualified U.S. government organizations and solution providers. Customers share the compute, network, storage and software infrastructures while implementing robust security, privacy, and compliance controls framework plus additional stringent controls to meet the higher-level requirements found in ECSB Impact Levels and CJIS.

### **Rapid Elasticity**

Each type of compute service within Azure Government supports auto-scaling to help make sure performance, resource allocation, and cost can be balanced based upon customer objectives. Virtual machines support the ability to scale up and/or out by configuring autoscaling. Azure Storage is a scalable storage service in the cloud which can auto scale up or down to meet massive volumes.

### **Measured Service**

Azure services track key metrics that allow you to monitor the health, performance, availability and usage of your services. Cloud applications are complex with many moving parts. Monitoring provides data to ensure that your application stays up and running in a healthy state. It also helps you to stave off potential problems or troubleshoot past ones. In addition, you can use monitoring data to gain deep insights about your application and here are two examples:

### **Compute Only**

Some compute resources like Cloud Services, Virtual Machines, and Service Fabric have a dedicated Host VM they interact with. The Host VM is the equivalent of Root VM in the Hyper-V hypervisor model. In this case, you can collect metrics on just the Host VM in addition to the Guest OS.

### **Resource - Metrics and Diagnostics Logs**

Collectable metrics vary based on the resource type. For example, Virtual Machines provides statistics on the Disk IO and Percent CPU. But those stats don't exist for a Service Bus queue, which instead provides metrics like queue size and message throughput. For compute resources you can obtain metrics on the Guest OS and diagnostics modules like Azure Diagnostics. Azure Diagnostics helps gather and route gather diagnostic data to other locations, including Azure storage.

### ***Description of how your proposed service meets the NIST definition of a particular deployment model (Public, Private, Community, or Hybrid) as described in NIST special publication 800-145.***

TechTrend is offering Microsoft Azure Cloud Services with Public, Government Community and Hybrid deployment models. Below is a description of each model.

#### ***Public Cloud***

TechTrend's Microsoft Azure Public or Commercial Cloud Services is open for use by the general public to include the Government community where the workload is not sensitive, geared for public consumption or due to the economy of scale, offers lower pricing and higher level of elasticity. Azure Public Cloud Services is hosted in a Microsoft on-premise infrastructure that is physically separate from Azure Government

Government Community Cloud, thus enhancing security. Azure Public has achieved a FedRAMP JAB P-ATO supporting in-scope services for IaaS and PaaS.

#### ***Government Community Cloud***

TechTrend's Microsoft Azure Government Cloud Services is a Government Community Cloud with a FISMA impact level of HIGH. Microsoft Azure Government is a government-community cloud that offers hyper-scale compute, storage, networking, and identity management services, with world-class security. A physically and network-isolated instance of Microsoft Azure, operated by screened U.S. citizens, Azure Government provides standards-compliant IaaS and PaaS that has now received a FedRAMP JAB P-ATO. All services are available immediately for supporting secure US government workloads, including CJIS, IRS 1075 FTI, HIPAA, DoD, and federal agency data. Azure Government infrastructure is provided by Microsoft Global Foundation Services (GFS), which has also achieved a FedRAMP JAB P-ATO supporting in-scope services for IaaS and PaaS, including Azure Active Directory.

### ***Description of how your proposed services meets the NIST definition of a service model (IaaS, PaaS or SaaS) as described in NIST special publication 800-145.***

TechTrend's Microsoft Azure Cloud Services offer Infrastructure as a Service (IaaS) and Platform as a Service (PaaS).

#### **Infrastructure as a Service (IaaS)**

IaaS provides the consumer the ability to provision and manage their own computing resources (virtual machines, storage, firewall, networking), operating system, applications and data while leveraging TechTrend's Microsoft Azure managed and owned infrastructure such as the data

center, networking devices, servers, storage and hypervisor. Services that our customer can provision includes:

### ***Compute – Virtual Machine***

The Azure Virtual Machines service provides on-demand, scalable computing resources. An Azure virtual machine is a virtual server, hosted on a physical server, in the cloud that the customer configures and maintains according to their needs. It provides the flexibility of virtualization without the expense of buying and maintaining the hardware to host it.

### ***Compute – Storage***

The Azure Storage services are designed to be highly available, resilient and scale to customer demands of these Storage Type: Blob, Table Storage, Queue Storage. Azure Government provides: Fault-Tolerance, Geo Redundant, Locally Redundant Storage, Scalable, SLA, Security, Cost Savings.

### ***Compute – Network***

Azure Government maintains a physically isolated network from other Microsoft commercial offerings. Virtual networking provides the capabilities necessary to securely connect VMs to one another and to connect on-premises government data centers with Azure Government VMs. Azure blocks unauthorized traffic to and within Microsoft data centers using a variety of technologies such as firewalls, partitioned Local Area Networks, and physical separation of back-end servers from public-facing interfaces.

### ***Platform as a Service (IaaS)***

PaaS provides the customer the ability to develop and deploy their applications/data/configuration files on top of a Microsoft provided and managed development platform and compute infrastructure. Services that our customer can provision includes:

### ***Data Management***

Microsoft Data Management Platform is built on SQL Server technology. SQL Server is the leading provider of database management systems and can be leveraged extensively in Azure Government for multiple applications. The SQL platform extends from customers physical on-premises machines, private cloud environments, third party hosted private cloud environments, and Azure. This cross-environment capability enables customers to better meet unique and diverse business needs through a combination of on- premises and cloud-hosted deployments, while using the same set of familiar server products and development tools across these environments.

### ***Identity Management***

Azure Active Directory (AAD) is a service that provides identity and access management capabilities in Azure Government. In much the same way that Active Directory is a service made available to customers through the Windows Server operating system for on-premises identity management, AAD is a service that is made available through Azure for cloud-based identity management. It also supports Multi-Factor Authentication for additional security. Azure Active Directory maintains a separate Active Directory partition within Azure Government.

The device may include features and functions derived from Microsoft software or third-party software. If the device performs desktop functions (such as email, word processing, spreadsheets, database, network or Internet browsing, or scheduling, or personal finance), then the desktop functions: (1) may only be used for the purpose of supporting the Industry Program functionality; and (2) must be technically integrated with the Industry Program or employ technically enforced policies or architecture to operate only when used with the Industry Program functionality. “License” means Enrolled Affiliate's right to use the quantity of a Product ordered. Qualified Devices do not include any device that is: (1) designated as a server and not used as a personal computer, (2) an Industry Device, or (3) not a Managed Device.

“Qualified User” means a person (e.g., employee, consultant, contingent staff) who: (1) is a user of a Qualified Device, or (2) accesses any server software requiring an Enterprise Product Client Access License or any Enterprise Online Service. The Use Rights for Online Services are published in the Online Services Terms.

“use” or “run” means to copy, install, use, access, display, run or otherwise interact.

### **Licenses for Products**

Upon Microsoft’s acceptance of Government Partner’s Enrollment for an Enrolled Affiliate, the Enrolled Affiliate has the following rights during the term of its Order. These rights apply to the Licenses obtained under the Order.

**a. License Grant.** By accepting an Enrollment, Microsoft grants the Enterprise a non-exclusive, worldwide and limited right to download, install and use software Products, and to access and use the Online Services, each in the quantity ordered under the Enrollment. The rights granted are subject to the terms of the Use Rights and the Product Terms and are conditions on Enrolled Affiliate’s continued compliance with the terms of this agreement, including, without limitation, payment for the Licenses. Microsoft reserves all rights not expressly granted in this agreement.

**b. Duration of Licenses.** Subscription Licenses and most Software Assurance rights are temporary and expire when the applicable Enrollment is terminated or expires, unless the Enrollment is renewed, or Enrolled Affiliate exercises a buy-out option, which is available for some Subscription Licenses. Except as otherwise noted in the applicable Enrollment or Use Rights, all other Licenses become perpetual only when all payments for that License have been made and the initial Enrollment term has expired.

**c. Applicable Use Rights.**

- **Products (other than Online Services).** The Use Rights in effect on the effective date of the Enrollment will apply to Enterprise’s use of the version of each Product that is current at the time. For future versions and new Products, the Product Use Rights in effect when those versions and Products are first released will apply. Changes Microsoft makes to the Use Rights for a particular version will not apply unless the Enrolled Affiliate chooses to have those changes apply. The Use Rights applicable to perpetual Licenses that were acquired under a previous agreement or Enrollment are determined by the agreement or Enrollment under which they were acquired. Renewal of Software Assurance does not change which Use Rights apply to those Licenses.
- **Online Services.** For Online Services, the Use Rights in effect on the subscription start date will apply for the subscription term as defined in the Product Terms.
- **More restrictive use rights.** If a new version of a Product has more restrictive use rights than the version that is current at the start of the applicable initial or renewal term of the Enrollment, those more restrictive use rights will not apply to the Enterprise’s use of that Product during the term.

**d. Downgrade rights.** Enterprise may use an earlier version of Product than the version that is current on the effective date of the Enrollment. In that case, the Use Rights for the current version apply to the use of the earlier version. If the earlier Product version includes features that are not in the new version, then the Use Rights applicable to the earlier version apply with respect to those features.

**e. New Version Rights under Software Assurance.** Enrolled Affiliate must order and maintain continuous Software Assurance coverage for each License ordered. With Software

Assurance coverage, Enterprise automatically has the right to use a new version of a licensed Product as soon as it is released, even if Enterprise chooses not to use the new version immediately.

- i. Except as otherwise permitted under an Enrollment, use of the new version will be subject to the new version's Use Rights.
- ii. If the License for the earlier version of the Product is perpetual at the time the new version is released, the License for the new version will also be perpetual. Perpetual Licenses obtained through Software Assurance replace any perpetual Licenses for the earlier version.

**f. License confirmation.** The Government Contract, the Order, the Enrolled Affiliate's order confirmation, and any documentation evidencing transfers of Licenses, together with proof of payment, will be the Enrolled Affiliate's evidence of all Licenses ordered by the Government Partner under an Enrollment for an Enrolled Affiliate.

**g. Reorganizations, Consolidations, and Privatizations.** If the number of Licenses covered by an Enrollment changes by more than ten percent as a result of a reorganization, consolidation, or privatization of any member of the Enterprise, Microsoft will work with Government Partner in good faith to determine how to accommodate the Enterprise's changed circumstances in the context of these Additional Use Rights and Restrictions.

**h. Modification or termination of an Online Service for regulatory reasons.** Microsoft may modify or terminate an Online Service in any country or jurisdiction where there is any current or future government requirement or obligation that: (1) subjects Microsoft to any regulation or requirement not generally applicable to businesses operating there; (2) presents a hardship for Microsoft to continue operating the Online Service without modification; and/or (3) causes Microsoft to believe these terms or the Online Service may be in conflict with any such requirement or obligation.

**i. Program updates.** Microsoft may make a change to the Enterprise and/or Enterprise Subscription programs that will make it necessary for Enrolled Affiliates to enter into a new agreement and Enrollments with Government Partner at the time of an Enrollment renewal. If any such updates occur during a current contract, including option periods, such change(s) will be made at no increase in cost to Enrolled Affiliate: all pricing in the current contract, including contract options will be honored despite any such change(s).

#### **Making copies of Products and re-imaging rights**

**a. General.** Enrolled Affiliate may make as many copies of the Products as it needs to distribute them within the Enterprise. Copies must be true and complete (including copyright and trademark notices), from master copies obtained from a Microsoft approved fulfillment source. Enrolled Affiliate may use a third party to make these copies, but Enrolled Affiliate agrees that it will be responsible for any third party's actions. Enrolled Affiliate agrees to make reasonable efforts to notify its employees, agents, and any other individuals who use the Products that the Products are licensed from Microsoft and subject to the terms of the Government Contract and the Order.

**b. Copies for training/evaluation and back-up.** For all Products other than Online Services, Enrolled Affiliate may (1) use up to 20 complimentary copies of any Product in a dedicated training facility on its premises for purposes of training on that particular Product, (2) use up to 10 complimentary copies of any Product for a 60-day evaluation period, and (3) use one complimentary copy of any licensed Product for back-up or archival purposes for each of its distinct geographic locations. Trials for Online Services may be available if specified in the Use Rights.

**c. Right to re-image.** In certain cases, re-imaging is permitted using the Product media. If the Microsoft Product(s) is licensed (1) from an original equipment manufacturer (OEM), (2) as full packaged Product through a retail source, or (3) under another Microsoft program, then media provided under the Order may be generally used to create images for use in place of copies provided through that separate source. This right is conditional upon the following:

- i. Separate Licenses must be acquired from the separate source for each Product that is reimaged.
- ii. The Product, language, version and components of the copies made must be identical to the Product, language, version, and all components of the copies they replace, and the number of copies or instances of the re-imaged Product permitted remains the same.
- iii. Except for copies of an operating system and copies of Products licensed under another Microsoft program, the Product type (e.g., Upgrade or full License) re-imaged must be identical to the Product type from the separate source.
- iv. Enrolled Affiliate must adhere to any Product specific processes or requirements for reimaging identified in the Product Terms.

Re-imaged Products remain subject to the terms and use rights of the License acquired from the separate source. This subsection does not create or extend any warranty or support obligation.

### **Transferring and assigning licenses**

**a. License transfers.** License transfers are not permitted, except that Enrolled Affiliate may transfer only fully-paid perpetual Licenses to:

- i. an Affiliate, or
- ii. a third party solely in connection with the transfer of hardware or employees to whom the Licenses have been assigned as part of (1) a reorganization or privatization of an Affiliate or a division of an Affiliate or (2) a consolidation involving Enrolled Affiliate or an Affiliate. Upon such transfer, Enrolled Affiliate must uninstall and discontinue using the licensed Product and render any copies unusable.

**b. Notification of License Transfer.** Enrolled Affiliate must notify Microsoft of a transfer of License by completing a license transfer form, which can be obtained from <http://www.microsoft.com/licensing/contracts> and sending the completed form to Microsoft before the license transfer. No License transfer will be valid unless Enrolled Affiliate provides to the transferee, and the transferee accepts in writing, documents sufficient to enable the transferee to ascertain the scope, purpose and limitations of the rights granted by Microsoft under the licenses being transferred (including, without limitation, the applicable Use Rights, use and transfer restrictions, warranties and limitations of liability. Any license transfer not made in compliance with this section will be void.

**c. Internal assignment of Licenses and Software Assurance.** Licenses and Software Assurance must be assigned to a single user or device within the Enterprise. Licenses and

Software Assurance may be reassigned as described in the Use Rights.

**Use, ownership, rights, and restrictions**

- a. **Products.** Use of any Product is governed by the Use Rights specific to each Product and version and by these Additional Use Rights and Restrictions.
- b. **Fixes.** Each fix is under the same license terms as the Product to which it applies. If a Fix is not provided for a specific Product, any use terms Microsoft provides with the Fixe will apply.

**Non-Microsoft software and technology.**

Enrolled Affiliate is solely responsible for any non-Microsoft software or technology that it installs or uses with the Products or Fixes.

- a. Microsoft is not a party to and is not bound by any terms governing Enrolled Affiliate's use of non-Microsoft software or technology. Without limiting the foregoing, non-Microsoft software or scripts linked to or referenced from any Product website, are governed by the open source licenses used by the third parties that own such code, not by Microsoft and Microsoft's licensing terms.
- b. If Enrolled Affiliate installs or uses any non-Microsoft software or technology with the Products or Fixes, it directs and controls the installation in and use of such software or technology in the Products or Fixes, through its actions (e.g., through Enrolled Affiliate's use of application programming interfaces and other technical means that are part of the Online Services). Microsoft will not run or make any copies of such non-Microsoft software or technology outside of its relationship with Enrolled Affiliate.

**Restrictions**

Enrolled Affiliate must not (and must not attempt to): (1) reverse engineer, decompile or disassemble any Product, Fix, or Services Deliverable, (2) install or use non-Microsoft software or technology in any way that would subject Microsoft's intellectual property or technology to obligations beyond those included in this agreement; or (3) work around any technical limitations in the Products or restrictions in Product documentation. Except as expressly permitted in this agreement, Enrolled Affiliate must not (i) separate and run parts of a Product on more than one device, upgrade or downgrade parts of a Product at different times, or transfer parts of a Product separately; or (ii) distribute, sublicense, rent, lease, lend, or use any Product, or Fix to offer hosting services to a third party.

No transfer of ownership; **Reservation of rights.** Products and Fixes are protected by copyright and other intellectual property rights laws and international treaties. Microsoft (1) does not transfer any ownership rights in any Products or Fixes and (2) reserves all rights not expressly granted to Enrolled Affiliate.

**Confidentiality.**

"Confidential Information" is non-public information that is designated "confidential" or that a reasonable person should understand is confidential, including Customer Data. Confidential Information does not include information that (1) becomes publicly available without a breach of this agreement, (2) the receiving party received lawfully from another source without a confidentiality obligation, (3) is independently developed, or (4) is a comment or suggestion volunteered about the other party's business, products or services. Each party will take reasonable steps to protect the other's Confidential Information and will use the other party's Confidential Information only for purposes of the parties' business relationship. Neither party

will disclose that Confidential Information to third parties, except to its employees, Affiliates, contractors, advisors and consultants (“Representatives”) and then only on a need-to-know basis under nondisclosure obligations at least as protective as this agreement. Each party remains responsible for the use of the Confidential Information by its Representatives and, in the event of discovery of any unauthorized use or disclosure, must promptly notify the other party. A party may disclose the other’s Confidential Information if required by law; but only after it notifies the other party (if legally permissible) to enable the other party to seek a protective order. Neither party is required to restrict work assignments of its Representatives who have had access to Confidential Information. Each party agrees that the use of information retained in Representatives’ unaided memories in the development or deployment of the parties’ respective products or services does not create liability under this agreement or trade secret law, and each party agrees to limit what it discloses to the other accordingly.

These obligations apply (i) for Customer Data until it is deleted from the Online Services, and (ii) for all other Confidential Information, for a period of five years after the Confidential Information is received. **Freedom of Information Act (FOIA).** Notwithstanding anything in this section to the contrary, the parties acknowledge and agree that Enrolled Affiliate is subject to the United States Freedom of Information Act (5 U.S.C. § 552) and may disclose information in response to a valid request in accordance with FOIA. Should Enrolled Affiliate receive a request under FOIA for Microsoft's confidential information, Enrolled Affiliate agrees to give Microsoft adequate prior notice of the request and before releasing Microsoft's confidential information to a third party, in order to allow Microsoft sufficient time to seek injunctive relief or other relief against such disclosure.

#### **Privacy and Compliance with Laws.**

- a. Enrolled Affiliate consents to the processing of personal information by Microsoft and its agents to facilitate the subject matter of these Microsoft License Terms and Conditions and the applicable Order. Enrolled Affiliate will obtain all required consents from third parties (including Enrolled Affiliate’s contacts, resellers, distributors, administrators, and employees) under applicable privacy and data protection law before providing personal information to Microsoft.
- b. Unless otherwise specified in the Enrollment or the Use Rights, personal information collected under these Microsoft License Terms and Conditions (i) may be transferred, stored and processed in the United States or any other country in which Microsoft or its contractors maintain facilities and (ii) will be subject to the privacy terms specified in the Use Rights. Microsoft abides by the EU Safe Harbor and the Swiss Safe Harbor frameworks as set forth by the U.S. Department of Commerce regarding the collection, use, and retention of data from the European Union, the European Economic Area, and Switzerland.
- c. **U.S. export.** Products and Fixes are subject to U.S. export jurisdiction. Enrolled Affiliate must comply with all applicable international and national laws, including the U.S. Export Administration Regulations, the International Traffic in Arms Regulations, and end-user, end use and destination restrictions by U.S. and other governments related to Microsoft products, services, and technologies.

#### **Warranties.**

- a. **Limited warranties and remedies**

- i. Software.** Microsoft warrants that each version of the Software will perform substantially as described in the applicable Product documentation for one year from the date Enrolled Affiliate is first licensed for that version. If it does not and Enrolled Affiliate notifies Microsoft within the warranty term, then Microsoft will, at its option (1) return the price Customer paid for the Software license, or (2) repair or replace the Software.
  - ii. Online Services.** Microsoft warrants that each Online Services will perform in accordance with the applicable SLA during the Enrolled Affiliate's use. Enrolled Affiliate's remedies for breach of this warranty are in the SLA. The remedies above are Enrolled Affiliate's sole remedies for breach of the warranties in this section. Enrolled Affiliate waives any breach of warranty claims not made during the warranty period.
- b. Exclusions.** The warranties in this agreement do not cover problems caused by accident, abuse or use in a manner inconsistent with this agreement, including failure to meet minimum system requirements. These warranties do not apply to free, trial, pre-release, or beta Products, or to components of Products that Enrolled Affiliate is permitted to redistribute.
- c. DISCLAIMER.** Microsoft provides no other warranties or conditions and disclaims any other express, implied or statutory warranties, including warranties of quality, title, noninfringement, merchantability, and fitness for a particular purpose.

**Defense of third-party claims.**

- a. By Microsoft.** Microsoft will defend Enrolled Affiliate against any claims made by an unaffiliated third party that (i) any Product or Fix made available by Microsoft infringes its patent, copyright or trademark or makes unlawful use of its Trade Secret, or (ii) that arises from Microsoft's provision of an Online Service in violation of laws applicable to all online services providers. Microsoft will pay the amount of any resulting adverse final judgment or approved settlement. This does not apply to claims or awards based on (i) Customer Data; (ii) non-Microsoft software; (iii) modifications to a Product or a Fix Enrolled Affiliate makes or any specifications or materials Enrolled Affiliate provides; (iv) Enrolled Affiliate's combination of a Product or Fix with (or damages based on the value of) a non-Microsoft product, data, or business process; (v) Enrolled Affiliate's use of a Microsoft trademark without express, written consent or the use or redistribution of a Product or Fix in violation of this agreement; (vi) Enrolled Affiliate's continued use of a Product or Fix after being notified to stop due to a third-party claim; or (vii) Products or Fixes provided free of charge.
- b. Your agreement to protect.** Enrolled Affiliate agrees that use of Customer Data or non-Microsoft software Microsoft hosts on Enrolled Affiliate's behalf will not infringe any third party's patent, copyright or trademark or make unlawful use of any third party's Trade Secret. In addition, Enrolled Affiliate will not use an Online Service to gain unauthorized access to or disrupt any service, data, account or network in connection with the use of the Online Services.
- c. Rights and remedies in case of possible infringement or misappropriation.** If Microsoft reasonably believes that a claim under this section may result in a legal bar prohibiting Enrolled Affiliate's use of the Product or Fix, Microsoft will seek to obtain the right for Enrolled Affiliate to

keep using it or modify or replace it with a functional equivalent, in which case Enrolled Affiliate must discontinue use of the prior version immediately. If these options are not commercially reasonable, Microsoft may terminate Enrolled Affiliate's right to the Product or Fix and refund any amounts Enrolled Affiliate has paid for those rights to Software and Fixes and, for Online Services, any amount paid for a usage period after the termination date.

**d. Other terms.** Enrolled Affiliate must notify Microsoft promptly in writing of a claim subject to this section; give Microsoft sole control over the defense and settlement; and provide reasonable assistance in defending the claims. Microsoft will reimburse Enrolled Affiliate for reasonable out of pocket expenses that it incurs in providing assistance. The remedies provided in this section are the exclusive remedies for the claims described in this section.

Notwithstanding the foregoing, Microsoft's rights set forth in this section (and the rights of the third-party claiming infringement) shall be governed by the provisions of 28 U.S.C. § 1498.

**Limitation of liability.**

To the extent permitted by applicable law, for each Product, each party's maximum, aggregate liability to the other under this Agreement is limited to direct damages finally awarded in an amount not to exceed the amounts Enrolled Affiliate was required to pay for the applicable Products during the term of the Agreement, subject to the following:

**a. Online Services.** For Online Services, Microsoft's maximum liability to Enrolled Affiliate for any incident giving rise to a claim will not exceed the amount Enrolled Affiliate paid for the Online Service during the 12 months before the incident.

**b. Free Products and Distributable Code.** For Products provided free of charge and code that Enrolled Affiliate is authorized to redistribute to third parties without separate payment to Microsoft, Microsoft's liability is limited to direct damages finally awarded up to US\$5,000.

**c. Exclusions.** In no event will either party be liable for indirect, incidental, special, punitive, or consequential damages, including loss of use, loss of profits, or interruption of business, however caused or on any theory of liability.

**d. Exceptions.** No limitation or exclusions will apply to liability arising out of either party's (1) confidentiality obligations (except for all liability related to Customer Data, which will remain subject to the limitations and exclusions above); (2) defense obligations; or (3) violation of the other party's intellectual property rights.

**e.** This clause shall not impair the U.S. Government's right to recover for fraud or crimes arising out of or related to these Microsoft License Terms and Conditions under any federal fraud statute, including the False Claims Act, 31 U.S.C. §§ 3729-3733.

**True-up Requirements.**

**a. True-Up Order.** Enrolled Affiliate must submit an annual true-up order that accounts for changes since the initial order or last true-up order. If there are no changes, then an update

statement must be submitted instead of a true-up order. Microsoft, at its discretion, may validate the true-up data submitted through a formal product deployment assessment using an approved Microsoft partner.

b. **Enterprise Products.** Enrolled Affiliate must determine the number of Qualified Devices and Qualified Users (if ordering user-based Licenses) at the time the true-up order is placed and must order additional Licenses for all Qualified Devices and Qualified Users that are not already covered by existing Licenses, including any Enterprise Online Services.

c. **Additional Products.** For Additional Products that have been previously ordered, Enrolled Affiliate must determine the maximum number of Additional Products used since the latter of the initial order, the last true-up order, or the prior anniversary date and submit a true up order that accounts for any increase.

d. **Online Services.** For Online Services identified as eligible for true-up in the Product Terms, Enrolled Affiliate may reserve the additional Licenses prior to use, and payment may be deferred until the next true-up order. Microsoft will provide a report of Reserved Licenses in excess of existing orders to Enrolled Affiliate's Government Partner. Reserved Licenses will be invoiced retroactively to the month in which they were reserved.

e. **Subscription License reductions.** Enrolled Affiliate may reduce the quantity of Subscription Licenses at the enrollment anniversary date on a prospective basis if permitted in the Product Terms as follows:

i. For Subscription Licenses part of an Enterprise-wide purchase, Licenses may be reduced if the total quantity of Licenses and Software Assurance for an applicable group meets or exceeds the quantity of Qualified Devices identified on the Product Selection Form and includes any additional Qualified Devices and Qualified Users added in any prior true-up orders. Step-up Licenses and add-on subscription licenses do not count towards this total count.

ii. For Enterprise Online Services not a part of an Enterprise-wide purchase, Licenses can be reduced as long as the initial order minimum requirements are maintained.

iii. For Additional Products available as Subscription Licenses, Enrolled Affiliate may reduce the Licenses. If the License count is reduced to zero, then Enrolled Affiliate's use of the applicable Subscription License will be cancelled. Invoices will be adjusted to reflect any reductions in Subscription Licenses at the true-up order Enrollment anniversary date and effective as of such date.

f. **Update statement.** An update statement must be submitted instead of a true-up order if, since the initial order or last true-up order, Enrolled Affiliate's Enterprise has not: (1) changed the number of Qualified Devices and Qualified Users licensed with Enterprise Products or Enterprise Online Services; and (2) increased its usage of Additional Products. This update statement must be signed by Enrolled Affiliate's authorized representative. The update statement must be received by Microsoft between 60 and 30 days prior to the Enrollment anniversary date. The last update statement is due within 30 days prior to the Expiration Date.

g. **True-up order period.** The true-up order or update statement must be received by Microsoft

between 60 and 30 days prior to each Enrollment anniversary date. The third year true-up order or update statement is due within 30 days prior to the ExpirationDate, and any license reservations within this 30-day period will not be accepted. Enrolled Affiliate may submit true-up orders more often to account for increases in Product usage, but an annual true-up order or update statement must still be submitted during the annual order period.

- h. **Late true-up.** If the true-up order or update statement is not received when due:
  - i. Enrolled Affiliate will be invoiced for all Reserved Licenses not previously ordered; and.
  - ii. *Subscription License reductions cannot be reported until the following Enrollment anniversary date (or at Enrollment renewal, as applicable).*
  - iii. **Step-up Licenses.** For Licenses eligible for a step-up under this Enrollment, Enrolled Affiliate may step-up to a higher edition or suite as follows:  
For step-up Licenses included on an initial order, Enrolled Affiliate may order according to the true-up process. If step-up Licenses are not included on an initial order, Enrolled Affiliate may step-up initially by following the process described in the Section titled “Adding new Products not previously ordered,” then for additional step-up Licenses, by following the true-up order process.

### **Verifying compliance.**

- a. **Right to verify compliance.** Enrolled Affiliate must keep records relating to all use and distribution of Products by Enrolled Affiliate and its Affiliates. Microsoft has the right, at its expense, to verify Enrolled Affiliate’s and its Affiliates compliance with the Product’s license terms.
- b. **Verification process and limitations.** Microsoft will provide Enrolled Affiliate at least 30 days’ notice of its intent to verify compliance. Verification will take place during normal business hours and in a manner that does not interfere unreasonably with Enrolled Affiliates operations. Microsoft will engage an independent auditor, which will be subject to a confidentiality obligation and subject to Enrolled Affiliate’s security requirements. Enrolled Affiliate must promptly provide the independent auditor with any information it reasonably requests in furtherance of the verification, including access to systems running the Products and evidence of licenses for Products Enrolled Affiliate hosts, sublicenses, or distributes to third parties. Enrolled Affiliate agrees to complete Microsoft’s self-audit process; which Microsoft may require as an alternative to a third-party audit. Any information collected in the self-audit will be used solely for purposes of determining compliance.
- c. **Remedies for non-compliance.** If verification or self-audit reveals any unlicensed use or distribution, then, within 30 days, Contractor will invoice Enrolled Affiliate for sufficient Licenses to cover that use or distribution. If unlicensed use or distribution is 5% or more, Enrolled Affiliate may be completely responsible for the costs Microsoft has incurred in verification, to the extent permitted by 31 U.S.C. § 1341 (Anti-Deficiency Act) and other applicable Federal law or similar state law (as applicable). The unlicensed use percentage is based on the total number of Licenses purchased compared to actual install base. Notwithstanding the foregoing, nothing in this section prevents the Enrolled Affiliate from

disputing any invoice in accordance with the Contract Disputes Act (41 U.S.C. §§7101-7109). If there is no unlicensed use, Microsoft will not subject Enrolled Affiliate to another verification for at least one year. By exercising the rights and procedures described above, Microsoft does not waive its rights to enforce this agreement or to protect its intellectual property by any other means permitted by law.

### **Government Community Cloud.**

**a. Community requirements.** Agency certifies that all Enrolled Affiliates in the Enterprise are members of the Community and represents that all Enrolled Affiliates in the Enterprise have agreed to use Government Community Cloud Services solely in their capacities as members of the Community and for the benefit of end users that are members of the Community. Use of Government Community Cloud Services by an entity that is not a member of the Community or to provide services to non-Community members is strictly prohibited and could result in termination of Government Partner's or an Enrolled Affiliate's license(s) for Government Community Cloud Services. Agency acknowledges that only Community members may use Government Community Cloud Services.

- i. All terms and conditions applicable to non-Government Community Cloud Services also apply to their corresponding Government Community Cloud Services, except as otherwise noted in the Use Rights and this Amendment.
- ii. Enrolled Affiliate may not deploy or use Government Community Cloud Services and corresponding non-Government Community Cloud Services in the samedomain.
- iii. Any Enrolled Affiliate in the Enterprise that uses Government Community Cloud Services must maintain its status as a member of the Community. Maintaining status as a member of the Community is a material requirement for such services.

**b. Use Rights for Government Community Cloud Services.** For Government Community Cloud Services, notwithstanding anything to the contrary in the UseRights:

- i. Government Community Cloud Services will be offered only within the United States.
- ii. Additional European Terms, as set forth in the Use Rights, will not apply.
- iii. References to geographic areas in the Use Rights with respect to the location of Customer Data at rest, as set forth in the Use Rights, refer only to the United States.

### **Miscellaneous.**

**a. Severability.** If any provision in this agreement is found unenforceable, the balance of the agreement will remain in full force and effect.

**b. Management and Reporting.** Enrolled Affiliate must provide and manage account details (e.g., contacts, orders, Licenses, software downloads) on Microsoft's Volume Licensing Service Center web site (or successor site) at: <https://www.microsoft.com/licensing/servicecenter>. On the effective date of this agreement and any Enrollments, the contact(s) Enrolled Affiliate has identified for this purpose will be provided access to this site and may assign additional users and contacts.

**c. Waiver.** Failure to enforce any provision of this agreement will not constitute a waiver. Any waiver must be in writing and signed by the waiving party.

**d. Free Products.** Any free Product provided to Enrolled Affiliate is for the sole use and benefit of the Enrolled Affiliate purposes only and is not provided for use by or personal benefit of any specific government employee.

AGREEMENT FEDERAL SUPPLY  
SCHEDULE**

In the spirit of the Federal Acquisition Streamlining Act (ordering activity) and TechTrend, Inc. enter into a cooperative agreement to further reduce the administrative costs of acquiring commercial items from the General Services Administration (GSA) Federal Supply Schedule Contract(s).

Federal Supply Schedule contract BPAs eliminate contracting and open market costs such as: search for sources; the development of technical documents, solicitations and the evaluation of offers. Teaming Arrangements are permitted with Federal Supply Schedule Contractors in accordance with Federal Acquisition Regulation (FAR) 9.6.

This BPA will further decrease costs, reduce paperwork, and save time by eliminating the need for repetitive, individual purchases from the schedule contract. The end result is to create a purchasing mechanism for the ordering activity that works better and costs less.
