1c. If the Contractor is proposing hourly rates, a description of all corresponding commercial job titles, experience, functional responsibility and education for those types of employees or subcontractors who will perform services shall be provided. If hourly rates are not applicable, indicate “Not applicable” for this item.

See Pricing Below

2. Maximum order. **$500,000**

3. Minimum order. **$100.00**

4. Geographic coverage (delivery area). **Domestic**

5. Point(s) of production (city, county, and State or foreign country). **Same as company address**

6. Discount from list prices or statement of net price. **Government net prices (discounts already deducted). See Attachment.**

7. Quantity discounts. **None**

8. Prompt payment terms. **(Net 30 )**

9a. Notification that Government purchase cards are accepted at or below the micro-purchase threshold. **Yes**

9b. Notification whether Government purchase cards are accepted or not accepted above the micro purchase threshold. **No**

10. Foreign items (list items by country of origin). **None**
11a. Time of delivery. (Contractor insert number of days.) Specified on the Task Order

11b. Expedited Delivery. The Contractor will insert the sentence “Items available for expedited delivery are noted in this price list.” under this heading. The Contractor may use a symbol of its choosing to highlight items in its price lists that have expedited delivery. Contact Contractor

11c. Overnight and 2-day delivery. The Contractor will indicate whether overnight and 2-day delivery are available. Also, the Contractor will indicate that the schedule customer may contact the Contractor for rates for overnight and 2-day delivery. Contact Contractor

11d. Urgent Requirements. The Contractor will note in its price list the “Urgent Requirements” clause of its contract and advise agencies that they can also contact the Contractor’s representative to effect a faster delivery. Contact Contractor

12. F.O.B. point(s). Destination

13a. Ordering address(es)
ASM Educational Center
11200 Rockville Pike, Suite 220
Rockville, MD 20852

13b. Ordering procedures: For supplies and services, the ordering procedures, information on Blanket Purchase Agreements (BPA’s) are found in Federal Acquisition Regulation (FAR) 8.405-3.

14. Payment address(es).
ASM Educational Center
11200 Rockville Pike, Suite 220
Rockville, MD 20852

15. Warranty provision. Contractor’s standard commercial warranty. N/A

16. Export packing charges, if applicable. N/A

17. Terms and conditions of Government purchase card acceptance (any thresholds above the micro-purchase level). N/A

18. Terms and conditions of rental, maintenance, and repair (if applicable). N/A

19. Terms and conditions of installation (if applicable). N/A

20. Terms and conditions of repair parts indicating date of parts price lists and any discounts from list prices (if applicable). N/A

20a. Terms and conditions for any other services (if applicable). N/A
21. List of service and distribution points (if applicable). N/A

22. List of participating dealers (if applicable). N/A

23. Preventive maintenance (if applicable). N/A

24a. Special attributes such as environmental attributes (e.g., recycled content, energy efficiency, and/or reduced pollutants). N/A

24b. If applicable, indicate that Section 508 compliance information is available on Electronic and Information Technology (EIT) supplies and services and show where full details can be found (e.g., contractor’s website or other location.) The EIT standards can be found at: www.Section508.gov.

25. Data Universal Number System (DUNS) number. 879885002

26. Notification regarding registration in Central Contractor Registration (CCR) database. Registered
1. **SCOPE**
   a. The Contractor shall provide training courses normally available to commercial customers, which will permit ordering activity users to make full, efficient use of general purpose commercial IT products. Training is restricted to training courses for those products within the scope of this solicitation.
   b. The Contractor shall provide training at the Contractor's facility and/or at the ordering activity's location, as agreed to by the Contractor and the ordering activity.

2. **ORDER**
   Written orders, EDI orders (GSA Advantage! and FACNET), credit card orders, and orders placed under blanket purchase agreements (BPAs) shall be the basis for the purchase of training courses in accordance with the terms of this contract. Orders shall include the student's name, course title, course date and time, and contracted dollar amount of the course.

3. **TIME OF DELIVERY**
   The Contractor shall conduct training on the date (time, day, month, and year) agreed to by the Contractor and the ordering activity.

4. **CANCELLATION AND RESCHEDULING**
   a. The ordering activity will notify the Contractor at least seventy-two (72) hours before the scheduled training date, if a student will be unable to attend. The Contractor will then permit the ordering activity to either cancel the order or reschedule the training at no additional charge. In the event the training class is rescheduled, the ordering activity will modify its original training order to specify the time and date of the rescheduled training class.
   b. In the event the ordering activity fails to cancel or reschedule a training course within the time frame specified in paragraph a, above, the ordering activity will be liable for the contracted dollar amount of the training course. The Contractor agrees to permit the ordering activity to reschedule a student who fails to attend a training class within ninety (90) days from the original course date, at no additional charge.
   c. The ordering activity reserves the right to substitute one student for another up to the first day of class.
   d. In the event the Contractor is unable to conduct training on the date agreed to by the Contractor and the ordering activity, the Contractor must notify the ordering activity at least seventy-two (72) hours before the scheduled training date.

5. **FOLLOW-UP SUPPORT**
   The Contractor agrees to provide each student with unlimited telephone support or online support for a period of one (1) year from the completion of the training course. During this period, the student may contact the Contractor’s instructors for refresher assistance and answers to related course curriculum questions.

6. **PRICE FOR TRAINING**
   The price that the ordering activity will be charged will be the ordering activity training price in effect at the time of order placement, or the ordering activity price in effect at the time the training course is conducted, whichever is less.

7. **INVOICES AND PAYMENT**
   Invoices for training shall be submitted by the Contractor after ordering activity completion of the training course. Charges for training must be paid in arrears (31 U.S.C. 3324). PROMPT PAYMENT DISCOUNT, IF APPLICABLE, SHALL BE SHOWN ON THE INVOICE.
8. FORMAT AND CONTENT OF TRAINING

a. The Contractor shall provide written materials (i.e., manuals, handbooks, texts, etc.) normally provided with course offerings. Such documentation will become the property of the student upon completion of the training class.

b. **If applicable** For hands-on training courses, there must be a one-to-one assignment of IT equipment to students.

c. The Contractor shall provide each student with a Certificate of Training at the completion of each training course.

d. The Contractor shall provide the following information for each training course offered: (see following table)

1. The course title and a brief description of the course content, to include the course format (e.g., lecture, discussion, hands-on training); (see following table)

2. The length of the course; (see following table)

3. Mandatory and desirable prerequisites for student enrollment:

   a. **A+ certification** - Proof of High School Diploma or a minimum score of 17 out of 50 questions (34%) on the Wonderlic Personnel Test

   b. **Network+ Certification** - Proof of High School Diploma or a minimum score of 17 out of 50 questions (34%) on the Wonderlic Personnel Test

   c. **CCNA Certification** - Network+ Certification, or documentation of equivalent experience

   d. **MCITP** - Network+ Certification or two years or documented of equivalent experience

   e. **CCNP Certification** - Proof of CCNA Certification

   (see following table for additional prerequisites)

4. The minimum and maximum number of students per class; (see following table)

5. The locations where the course is offered;

   - **ASM Educational Center**
     11200 Rockville Pike, Suite 220
     Rockville, MD 20852

6. Class schedules: As agreed upon by the client and ASM

7. Price (per student, per class (if applicable). (see following table)

   For those courses conducted at the ordering activity’s location, instructor travel charges (if applicable), including mileage and daily living expenses (e.g., per diem charges) are governed by Pub. L. 99-234 and FAR Part 31.205-46, and are reimbursable by the ordering activity on orders placed under the Multiple Award Schedule, as applicable, in effect on the date(s) the travel is performed. Contractors cannot use GSA city pair contracts. The Industrial Funding Fee does NOT apply to travel and per diem charges.

f. For Online Training Courses, a copy of all training material must be available for electronic download by the students.

<tr>
<td>CCNP</td>
<td>The Cisco® CCNP® Certification Authorized Training, since January 2010 is composed of 3 modules. Below is a short description of each module: ROUTE - It's the new course that replaces BSCI. Students will learn how to use advanced routing to provide scalability for Cisco routers that are connected to LANs and WANs. SWITCH - It's the new course that replaces BCMSN. Students will learn to plan, configure, and verify the implementation of complex enterprise switching solutions for campus environments using the Cisco Enterprise Campus Architecture. TSHOOT - It's a new course that replaces ISCW and ONT. Students will gain the skills needed to maintain networks and to diagnose and resolve problems quickly and effectively. Students will learn troubleshoot techniques, and how to maintain particular technologies, including procedural and organizational aspects of the troubleshooting and maintenance process.</td>
<td>20/20</td>
<td>10 ~ 12</td>
<td>$7,382.48</td>
</tr>
<tr>
<td>ROUTE</td>
<td>In this course administrators of medium-to-large network sites will learn to use advanced routing to provide scalability for Cisco routers that are connected to LANs and WANs. Networking professionals will learn to dramatically increase the number of routers and sites using these techniques instead of redesigning the network when additional sites or wiring configurations are added. Hands-on labs ensure you thoroughly understand how to implement advanced routing within your network.</td>
<td>20/20</td>
<td>10 ~ 12</td>
<td>$2,950.04</td>
</tr>
<tr>
<td>SWITCH</td>
<td>In this course students will learn to plan, configure, and verify the implementation of complex enterprise switching solutions for campus environments using the Cisco Enterprise Campus Architecture. This course is a component of the Cisco CCNP Routing and Switching curriculum, a professional-level certification, and it is designed to give you a firm understanding of how to manage switches in an enterprise campus environment.</td>

<tr>
<td>TSHOOT</td>
<td>In this course, networking professionals who work in complex network environments will gain the skills needed to maintain their networks and to diagnose and resolve network problems quickly and effectively. Students will learn to troubleshoot and maintain particular technologies, as well procedural and organizational aspects of the troubleshooting and maintenance process. A large part of the course consists of practicing these skills and reinforcing the concepts by putting them to use in a controlled environment. At the end of the course, students will have increased their skill level and developed a set of best practices based and personal and collective experiences. This course is a component of the CCNP curriculum and assists the network professional in preparing for Cisco CCNP certification.</td>

</tbody>
</table>
| CCIE_RSL     | Students will learn how to use an expert-level problem-solving process that includes options analysis to support complex network technologies and topologies. This course is part of a blended learning curriculum that supports expert-level preparation in routing and switching.  

Objectives: Upon completing this course, learners will be able to meet these objectives:  

- Describe the Cisco 360 Learning Program for CCIE R&S and explain how it addresses expert-level networking issues  
- Discuss your baseline status for Cisco CCIE® lab readiness  
- Resolve expert-level core task analysis and configuration issues  
- Resolve expert-level BGP issues  
- Resolve expert-level multicast task analysis and configuration issues  
- Resolve expert-level IP connectivity issues regardless of whether they involve IPv4 or IPv6  
- Resolve expert-level router MQC QoS task analysis and configuration issues  
- Resolve expert-level multi-topic core and advanced task analysis and configuration issues | 20/20 | 10 ~ 12 | $2,950.04 |

<td>IP6FD</td>
<td>This course provides baseline through advanced technical information and training on the next-generation Internet protocol, IPv6. The goal of this course is to prepare the learner for transitioning to IPv6 based networks. IP6FD encompasses design considerations, security considerations, configuration principles, configuring IOS devices for IPv6 and IPv6 transition mechanisms. Throughout the course students will be presented justification for the principles, concepts and practices contained in each lesson. This course will help network engineers understand, configure, and support Cisco devices running IOS software and covers the IPv6 routing protocols such as RIPng, OSPF, BGP, and IS-IS; IPv6 transition mechanisms including tunnels, ISATAP, NAT-PT, and 6to4; and other features. The design and deployment components present in depth coverage of IPv6 design and deployment for DNS, DHCP, integrating IPv6 in an IPv4 network, Multicast, and much more.</td>
