Note 1: All non-professional labor categories must be incidental to and used solely to support hardware, software and/or professional services, and cannot be purchased separately.

Note 2: Offerors and Agencies are advised that the Group 70 – Information Technology Schedule is not to be used as a means to procure services which properly fall under the Brooks Act. These services include, but are not limited to, architectural, engineering, mapping, cartographic production, remote sensing, geographic information systems, and related services. FAR 36.6 distinguishes between mapping services of an A/E nature and mapping services which are not connected nor incidental to the traditionally accepted A/E Services.

Note 3: This solicitation is not intended to solicit for the reselling of IT Professional Services, except for the provision of implementation, maintenance, integration, or training services in direct support of a product. Under such circumstances the services must be performance by the publisher or manufacturer or one of their authorized agents.

INFORMATION FOR ORDERING ACTIVITIES
APPLICABLE TO ALL SPECIAL ITEM NUMBERS

SPECIAL NOTICE TO AGENCIES: Small Business Participation
SBA strongly supports the participation of small business concerns in the Federal Acquisition Service. To enhance Small Business Participation SBA policy allows agencies to include in their procurement base and goals, the dollar value of orders expected to be placed against the Federal Supply Schedules, and to report accomplishments against these goals.

For orders exceeding the micropurchase threshold, FAR 8.404 requires agencies to consider the catalogs/pricelists of at least three schedule contractors or consider reasonably available information by using the GSA Advantage!™ on-line shopping service (www.gsaadvantage.gov). The catalogs/pricelists, GSA Advantage!™ and the Federal Acquisition Service Home Page (www.gsa.gov/fas) contain information on a broad array of products and services offered by small business concerns.

This information should be used as a tool to assist ordering activities in meeting or exceeding established small business goals. It should also be used as a tool to assist in including small, small disadvantaged, and women-owned small businesses among those considered when selecting pricelists for a best value determination.

For orders exceeding the micropurchase threshold, customers are to give preference to small business concerns when two or more items at the same delivered price will satisfy their requirement.

1. GEOGRAPHIC SCOPE OF CONTRACT:

Domestic delivery is delivery within the 48 contiguous states, Alaska, Hawaii, Puerto Rico, Washington, DC, and U.S. Territories. Domestic delivery also includes a port or consolidation point, within the aforementioned areas, for orders received from overseas activities.

Overseas delivery is delivery to points outside of the 48 contiguous states, Washington, DC, Alaska, Hawaii, Puerto Rico, and U.S. Territories.

Offerors are requested to check one of the following boxes:

[ ] The Geographic Scope of Contract will be domestic and overseas delivery.
[ ] The Geographic Scope of Contract will be overseas delivery only.
[X] The Geographic Scope of Contract will be domestic delivery only.

For Special Item Number 517312 Wireless Services ONLY, if awarded, list the limited geographic coverage area:

________________________________________________________________________________________

2. CONTRACTOR’S ORDERING ADDRESS AND PAYMENT INFORMATION:

BAI, Inc. 5845 Richmond Highway, Suite 700, Alexandria, VA 22303
Contractor must accept the credit card for payments equal to or less than the micro-purchase for oral or written orders under this contract. The Contractor and the ordering agency may agree to use the credit card for dollar amounts over the micro-purchase threshold (See GSAR 552.232-79 Payment by Credit Card). In addition, bank account information for wire transfer payments will be shown on the invoice.

The following telephone number(s) can be used by ordering activities to obtain technical and/or ordering assistance:
(703) 461-1807 and (703) 461-1805
3. LIABILITY FOR INJURY OR DAMAGE

The Contractor shall not be liable for any injury to ordering activity personnel or damage to ordering activity property arising from the use of equipment maintained by the Contractor, unless such injury or damage is due to the fault or negligence of the Contractor.

4. STATISTICAL DATA FOR GOVERNMENT ORDERING OFFICE COMPLETION OF STANDARD FORM 279:

Block 9: G. Order/Modification Under Federal Schedule Contract
Block 16: Data Universal Numbering System (DUNS) Number: 054227827
Block 30: Type of Contractor: B. Other Small Business
   A. Small Disadvantaged Business
   B. Other Small Business
   C. Large Business
   G. Other Nonprofit Organization
   L. Foreign Contractor

Block 31: Woman-Owned Small Business - No
Block 37: Contractor's Taxpayer Identification Number (TIN): 54-1926750
   A. Service Disabled Veteran Owned Small Business
   B. Other Veteran Owned Small Business

4a. CAGE Code: 1KAP9
4b. Contractor has registered with System for Award Management (SAM).

5. FOB DESTINATION

6. DELIVERY SCHEDULE

a. TIME OF DELIVERY: The Contractor shall deliver to destination within the number of calendar days after receipt of order (ARO), as set forth below:

   SPECIAL ITEM NUMBER   DELIVERY TIME (Days ARO)
   ____ N/A ____        ____ Days
   ____ N/A ____        ____ Days

Contractor provides services. Time of Delivery will be stated by customer.

b. URGENT REQUIREMENTS: When the Federal Supply Schedule contract delivery period does not meet the bona fide urgent delivery requirements of an ordering activity, ordering activities are encouraged, if time permits, to contact the Contractor for the purpose of obtaining accelerated delivery. The Contractor shall reply to the inquiry within 3 workdays after receipt. (Telephonic replies shall be confirmed by the Contractor in writing.) If the Contractor offers an accelerated delivery time acceptable to the ordering activity, any order(s) placed pursuant to the agreed upon accelerated delivery time frame shall be delivered within this shorter delivery time and in accordance with all other terms and conditions of the contract.

c. i. SIN 517410 and SIN 517410, ACCELERATED SERVICE DELIVERY (7 calendar days or less): the time required for COMSATCOM services to be available after order award. Under Accelerated Service Task Orders,
service acceptance testing, unless otherwise required by the satellite provider or host nation, shall be deferred until Ordering Activity operations permit.

ii. SIN 517410 and SIN 517410, TIME-CRITICAL DELIVERY (4 hours or less): the time required for COMSATCOM services to be available after order award. Under Time-Critical Task Orders, service acceptance testing unless otherwise required by the satellite provider or host nation shall be deferred until Ordering Activity operations permit. Time-Critical Delivery shall be predicated on the availability of COMSATCOM transponded capacity (contracted bandwidth and power, pre-arranged Host Nation Agreements, frequency clearance) or COMSATCOM subscription services (bandwidth, terminals, network resources, etc.).

iii. For SIN 517410 and SIN 517410, EXTENDED SERVICE DELIVERY TIMES: the time required under extenuating circumstances for COMSATCOM services to be available after order award. Such extenuating circumstances may include extended time required for host nation agreements or landing rights, or other time intensive service delivery requirements as defined in the individual requirement. Any such extended delivery times will be negotiated between the Ordering Activity and Contractor.

7. DISCOUNTS: Prices shown are NET Prices; Basic Discounts have been deducted.
   a. Prompt Payment: 0% - 30 days from receipt of invoice or date of acceptance, whichever is later.
   b. Quantity: None Offered
   c. Dollar Volume: None Offered
   d. Government Educational Institutions: None Offered
   e. Other: None Offered

8. TRADE AGREEMENTS ACT OF 1979, as amended:
   All items are U.S. made end products, designated country end products, Caribbean Basin country end products, Canadian end products, or Mexican end products as defined in the Trade Agreements Act of 1979, as amended.

9. STATEMENT CONCERNING AVAILABILITY OF EXPORT PACKING:

10. Small Requirements: The minimum dollar value of orders to be issued is $100.00.

11. MAXIMUM ORDER (All dollar amounts are exclusive of any discount for prompt payment.)
   a. The Maximum Order value for the following Special Item Numbers (SINs) is $500,000:
      Special Item Number 532420L - Leasing of Product
      Special Item Number 532420R – Daily / Short Term Rental
      Special Item Number 33411 - Purchase of Equipment
      Special Item Number 33411REF - Purchase of Used or Refurbished Equipment
      Special Item Number 811212 - Equipment Maintenance
      Special Item Number 511210 - Term Software Licenses
      Special Item Number 511210 - Perpetual Software Licenses
      Special Item Number 54151 - Maintenance of Software as a Service
      Special Item Number 54151IS - Information Technology Professional Services
      Special Item Number 54151ECOM - Electronic Commerce (EC) Services
      Special Item Number 517312 – Wireless Services
12. ORDERING PROCEDURES FOR FEDERAL SUPPLY SCHEDULE CONTRACTS

Ordering activities shall use the ordering procedures of Federal Acquisition Regulation (FAR) 8.405 when placing an order or establishing a BPA for supplies or services. These procedures apply to all schedules.

a. FAR 8.405-1 Ordering procedures for supplies, and services not requiring a statement of work.

b. FAR 8.405-2 Ordering procedures for services requiring a statement of work.

13. FEDERAL INFORMATION TECHNOLOGY/TELECOMMUNICATION STANDARDS REQUIREMENTS: ordering activities acquiring products from this Schedule must comply with the provisions of the Federal Standards Program, as appropriate (reference: NIST Federal Standards Index). Inquiries to determine whether or not specific products listed herein comply with Federal Information Processing Standards (FIPS) or Federal Telecommunication Standards (FED-STDs), which are cited by ordering activities, shall be responded to promptly by the Contractor.

13.1 FEDERAL INFORMATION PROCESSING STANDARDS PUBLICATIONS (FIPS PUBS):
Information Technology products under this Schedule that do not conform to Federal Information Processing Standards (FIPS) should not be acquired unless a waiver has been granted in accordance with the applicable “FIPS Publication.” Federal Information Processing Standards Publications (FIPS PUBS) are issued by the U.S. Department of Commerce, National Institute of Standards and Technology (NIST), pursuant to National Security Act. Information concerning their availability and applicability should be obtained from the National Technical Information Service (NTIS), 5285 Port Royal Road, Springfield, Virginia 22161. FIPS PUBS include voluntary standards when these are adopted for Federal use. Individual orders for FIPS PUBS should be referred to the NTIS Sales Office, and orders for subscription service should be referred to the NTIS Subscription Officer, both at the above address, or telephone number (703) 487-4650.

13.2 FEDERAL TELECOMMUNICATION STANDARDS (FED-STDs): Telecommunication products under this Schedule that do not conform to Federal Telecommunication Standards (FED-STDs) should not be acquired unless a waiver has been granted in accordance with the applicable “FED-STD.” Federal Telecommunication Standards are issued by the U.S. Department of Commerce, National Institute of Standards and Technology (NIST), pursuant to National Security Act. Ordering information and information concerning the availability of FED-STDs should be obtained from the GSA, Federal Acquisition Service, Specification Section, 470 East L’Enfant Plaza, Suite 8100, SW, Washington, DC 20407, telephone number (202)619-8925. Please include a self-addressed mailing label when requesting information by mail. Information concerning their
applicability can be obtained by writing or calling the U.S. Department of Commerce, National Institute of Standards and Technology, Gaithersburg, MD 20899, telephone number (301) 975-2833.

14. CONTRACTOR TASKS / SPECIAL REQUIREMENTS (C-FSS-370) (NOV 2003)

(a) Security Clearances: The Contractor may be required to obtain/possess varying levels of security clearances in the performance of orders issued under this contract. All costs associated with obtaining/possessing such security clearances should be factored into the price offered under the Multiple Award Schedule.

(b) Travel: The Contractor may be required to travel in performance of orders issued under this contract. Allowable travel and per diem charges are governed by Pub. L. 99-234 and FAR Part 31, and are reimbursable by the ordering agency or can be priced as a fixed price item on orders placed under the Multiple Award Schedule. Travel in performance of a task order will only be reimbursable to the extent authorized by the ordering agency. The Industrial Funding Fee does NOT apply to travel and per diem charges.

(c) Certifications, Licenses and Accreditations: As a commercial practice, the Contractor may be required to obtain/possess any variety of certifications, licenses and accreditations for specific FSC/service code classifications offered. All costs associated with obtaining/possessing such certifications, licenses and accreditations should be factored into the price offered under the Multiple Award Schedule program.

(d) Insurance: As a commercial practice, the Contractor may be required to obtain/possess insurance coverage for specific FSC/service code classifications offered. All costs associated with obtaining/possessing such insurance should be factored into the price offered under the Multiple Award Schedule program.

(e) Personnel: The Contractor may be required to provide key personnel, resumes or skill category descriptions in the performance of orders issued under this contract. Ordering activities may require agency approval of additions or replacements to key personnel.

(f) Organizational Conflicts of Interest: Where there may be an organizational conflict of interest as determined by the ordering agency, the Contractor’s participation in such order may be restricted in accordance with FAR Part 9.5.

(g) Documentation/Standards: The Contractor may be requested to provide products or services in accordance with rules, regulations, OMB orders, standards and documentation as specified by the agency’s order.

(h) Data/Deliverable Requirements: Any required data/deliverables at the ordering level will be as specified or negotiated in the agency’s order.

(i) Government-Furnished Property: As specified by the agency’s order, the Government may provide property, equipment, materials or resources as necessary.

(j) Availability of Funds: Many Government agencies’ operating funds are appropriated for a specific fiscal year. Funds may not be presently available for any orders placed under the contract or any option year. The Government’s obligation on orders placed under this contract is contingent upon the availability of appropriated funds from which payment for ordering purposes can be made. No legal liability on the part of the Government for any payment may arise until funds are available to the ordering Contracting Officer.

(k) Overtime: For professional services, the labor rates in the Schedule should not vary by virtue of the Contractor having worked overtime. For services applicable to the Service Contract Act (as identified in the Schedule), the labor rates in the Schedule will vary as governed by labor laws (usually assessed a time and a half of the labor rate).
15. **CONTRACT ADMINISTRATION FOR ORDERING ACTIVITIES:** Any ordering activity, with respect to any one or more delivery orders placed by it under this contract, may exercise the same rights of termination as might the GSA Contracting Officer under provisions of FAR 52.212-4, paragraphs (l) Termination for the ordering activity’s convenience, and (m) Termination for Cause (See 52.212-4).

16. **GSA ADVANTAGE!**

GSA Advantage! is an on-line, interactive electronic information and ordering system that provides on-line access to vendors' schedule prices with ordering information. GSA Advantage! will allow the user to perform various searches across all contracts including, but not limited to:

1. Manufacturer;
2. Manufacturer's Part Number; and
3. Product categories.

Agencies can browse GSA Advantage! by accessing the Internet World Wide Web utilizing a browser (ex.: NetScape). The Internet address is http://www.gsaadvantage.gov.

17. **PURCHASE OF OPEN MARKET ITEMS**

NOTE: Open Market Items are also known as incidental items, noncontract items, non-Schedule items, and items not on a Federal Supply Schedule contract. ODCs (Other Direct Costs) are not part of this contract and should be treated as open market purchases. Ordering Activities procuring open market items must follow FAR 8.402(f).

For administrative convenience, an ordering activity contracting officer may add items not on the Federal Supply Multiple Award Schedule (MAS) -- referred to as open market items -- to a Federal Supply Schedule blanket purchase agreement (BPA) or an individual task or delivery order, **only if**:

1. All applicable acquisition regulations pertaining to the purchase of the items not on the Federal Supply Schedule have been followed (e.g., publicizing (Part 5), competition requirements (Part 6), acquisition of commercial items (Part 12), contracting methods (Parts 13, 14, and 15), and small business programs (Part 19));
2. The ordering activity contracting officer has determined the price for the items not on the Federal Supply Schedule is fair and reasonable;
3. The items are clearly labeled on the order as items not on the Federal Supply Schedule; and
4. All clauses applicable to items not on the Federal Supply Schedule are included in the order.

18. **CONTRACTOR COMMITMENTS, WARRANTIES AND REPRESENTATIONS**

a. For the purpose of this contract, commitments, warranties and representations include, in addition to those agreed to for the entire schedule contract:

1. Time of delivery/installation quotations for individual orders;
2. Technical representations and/or warranties of products concerning performance, total system performance and/or configuration, physical, design and/or functional characteristics and capabilities of a product/equipment/service/software package submitted in response to requirements which result in orders under this schedule contract.
3. Any representations and/or warranties concerning the products made in any literature, description, drawings and/or specifications furnished by the Contractor.

b. The above is not intended to encompass items not currently covered by the GSA Schedule contract.
19. **OVERSEAS ACTIVITIES**

The terms and conditions of this contract shall apply to all orders for installation, maintenance and repair of equipment in areas listed in the pricelist outside the 48 contiguous states and the District of Columbia, except as indicated below:

Not Applicable. Domestic Delivery Only.

Upon request of the Contractor, the ordering activity may provide the Contractor with logistics support, as available, in accordance with all applicable ordering activity regulations. Such ordering activity support will be provided on a reimbursable basis, and will only be provided to the Contractor's technical personnel whose services are exclusively required for the fulfillment of the terms and conditions of this contract.

20. **BLANKET PURCHASE AGREEMENTS (BPAs)**

The use of BPAs under any schedule contract to fill repetitive needs for supplies or services is allowable. BPAs may be established with one or more schedule contractors. The number of BPAs to be established is within the discretion of the ordering activity establishing the BPA and should be based on a strategy that is expected to maximize the effectiveness of the BPA(s). Ordering activities shall follow FAR 8.405-3 when creating and implementing BPA(s).

21. **CONTRACTOR TEAM ARRANGEMENTS**

Contractors participating in contractor team arrangements must abide by all terms and conditions of their respective contracts. This includes compliance with Clauses 552.238-74, Industrial Funding Fee and Sales Reporting, i.e., each contractor (team member) must report sales and remit the IFF for all products and services provided under its individual contract.

22. **INSTALLATION, DEINSTALLATION, REINSTALLATION**

The Davis-Bacon Act (40 U.S.C. 276a-276a-7) provides that contracts in excess of $2,000 to which the United States or the District of Columbia is a party for construction, alteration, or repair (including painting and decorating) of public buildings or public works with the United States, shall contain a clause that no laborer or mechanic employed directly upon the site of the work shall received less than the prevailing wage rates as determined by the Secretary of Labor. The requirements of the Davis-Bacon Act do not apply if the construction work is incidental to the furnishing of supplies, equipment, or services. For example, the requirements do not apply to simple installation or alteration of a public building or public work that is incidental to furnishing supplies or equipment under a supply contract. However, if the construction, alteration or repair is segregable and exceeds $2,000, then the requirements of the Davis-Bacon Act applies.

The ordering activity issuing the task order against this contract will be responsible for proper administration and enforcement of the Federal labor standards covered by the Davis-Bacon Act. The proper Davis-Bacon wage determination will be issued by the ordering activity at the time a request for quotations is made for applicable construction classified installation, deinstallation, and reinstallation services under SIN 132-8 or 132-9.

23. **SECTION 508 COMPLIANCE**

If applicable, Section 508 compliance information on the supplies and services in this contract are available in Electronic and Information Technology (EIT) at the following: www.bai-inc.net

The EIT standard can be found at: www.Section508.gov.

24. **PRIME CONTRACTOR ORDERING FROM FEDERAL SUPPLY SCHEDULES.**
Prime Contractors (on cost reimbursement contracts) placing orders under Federal Supply Schedules, on behalf of an ordering activity, shall follow the terms of the applicable schedule and authorization and include with each order—

(a) A copy of the authorization from the ordering activity with whom the contractor has the prime contract (unless a copy was previously furnished to the Federal Supply Schedule contractor); and

(b) The following statement:
   This order is placed under written authorization from________ dated _______. In the event of any inconsistency between the terms and conditions of this order and those of your Federal Supply Schedule contract, the latter will govern.

25. INSURANCE—WORK ON A GOVERNMENT INSTALLATION (JAN 1997)(FAR 52.228-5)

(a) The Contractor shall, at its own expense, provide and maintain during the entire performance of this contract, at least the kinds and minimum amounts of insurance required in the Schedule or elsewhere in the contract.

(b) Before commencing work under this contract, the Contractor shall notify the Contracting Officer in writing that the required insurance has been obtained. The policies evidencing required insurance shall contain an endorsement to the effect that any cancellation or any material change adversely affecting the Government's interest shall not be effective—
   (1) For such period as the laws of the State in which this contract is to be performed prescribe; or
   (2) Until 30 days after the insurer or the Contractor gives written notice to the Contracting Officer, whichever period is longer.

(c) The Contractor shall insert the substance of this clause, including this paragraph (c), in subcontracts under this contract that require work on a Government installation and shall require subcontractors to provide and maintain the insurance required in the Schedule or elsewhere in the contract. The Contractor shall maintain a copy of all subcontractors' proofs of required insurance, and shall make copies available to the Contracting Officer upon request.

26. SOFTWARE INTEROPERABILITY.

Offerors are encouraged to identify within their software items any component interfaces that support open standard interoperability. An item’s interface may be identified as interoperable on the basis of participation in a Government agency-sponsored program or in an independent organization program. Interfaces may be identified by reference to an interface registered in the component registry located at http://www.core.gov.

27. ADVANCE PAYMENTS

A payment under this contract to provide a service or deliver an article for the United States Government may not be more than the value of the service already provided or the article already delivered. Advance or pre-payment is not authorized or allowed under this contract. (31 U.S.C. 3324)
TERMS AND CONDITIONS APPLICABLE TO INFORMATION TECHNOLOGY (IT) PROFESSIONAL SERVICES (SPECIAL ITEM NUMBER 54151S)

1. SCOPE
   a. The prices, terms and conditions stated under Special Item Number 54151S Information Technology Professional Services apply exclusively to IT Professional Services within the scope of this Information Technology Schedule.
   b. The Contractor shall provide services at the Contractor’s facility and/or at the ordering activity location, as agreed to by the Contractor and the ordering activity.

2. PERFORMANCE INCENTIVES 1-FSS-60 Performance Incentives (April 2000)
   a. Performance incentives may be agreed upon between the Contractor and the ordering activity on individual fixed price orders or Blanket Purchase Agreements under this contract.
   b. The ordering activity must establish a maximum performance incentive price for these services and/or total solutions on individual orders or Blanket Purchase Agreements.
   c. Incentives should be designed to relate results achieved by the contractor to specified targets. To the maximum extent practicable, ordering activities shall consider establishing incentives where performance is critical to the ordering activity’s mission and incentives are likely to motivate the contractor. Incentives shall be based on objectively measurable tasks.

3. ORDER
   a. Agencies may use written orders, EDI orders, blanket purchase agreements, individual purchase orders, or task orders for ordering services under this contract. Blanket Purchase Agreements shall not extend beyond the end of the contract period; all services and delivery shall be made and the contract terms and conditions shall continue in effect until the completion of the order. Orders for tasks which extend beyond the fiscal year for which funds are available shall include FAR 52.232-19 (Deviation – May 2003) Availability of Funds for the Next Fiscal Year. The purchase order shall specify the availability of funds and the period for which funds are available.
   b. All task orders are subject to the terms and conditions of the contract. In the event of conflict between a task order and the contract, the contract will take precedence.

4. PERFORMANCE OF SERVICES
   a. The Contractor shall commence performance of services on the date agreed to by the Contractor and the ordering activity.
   b. The Contractor agrees to render services only during normal working hours, unless otherwise agreed to by the Contractor and the ordering activity.
   c. The ordering activity should include the criteria for satisfactory completion for each task in the Statement of Work or Delivery Order. Services shall be completed in a good and workmanlike manner.
   d. Any Contractor travel required in the performance of IT/IAM Services must comply with the Federal Travel Regulation or Joint Travel Regulations, as applicable, in effect on the date(s) the travel is performed. Established Federal Government per diem rates will apply to all Contractor travel. Contractors cannot use GSA city pair contracts.
5. **STOP-WORK ORDER (FAR 52.242-15) (AUG 1989)**

(a) The Contracting Officer may, at any time, by written order to the Contractor, require the Contractor to stop all, or any part, of the work called for by this contract for a period of 90 days after the order is delivered to the Contractor, and for any further period to which the parties may agree. The order shall be specifically identified as a stop-work order issued under this clause. Upon receipt of the order, the Contractor shall immediately comply with its terms and take all reasonable steps to minimize the incurrence of costs allocable to the work covered by the order during the period of work stoppage. Within a period of 90 days after a stop-work is delivered to the Contractor, or within any extension of that period to which the parties shall have agreed, the Contracting Officer shall either-

   (1) Cancel the stop-work order; or

   (2) Terminate the work covered by the order as provided in the Default, or the Termination for Convenience of the Government, clause of this contract.

(b) If a stop-work order issued under this clause is canceled or the period of the order or any extension thereof expires, the Contractor shall resume work. The Contracting Officer shall make an equitable adjustment in the delivery schedule or contract price, or both, and the contract shall be modified, in writing, accordingly, if-

   (1) The stop-work order results in an increase in the time required for, or in the Contractor's cost properly allocable to, the performance of any part of this contract; and

   (2) The Contractor asserts its right to the adjustment within 30 days after the end of the period of work stoppage; provided, that, if the Contracting Officer decides the facts justify the action, the Contracting Officer may receive and act upon the claim submitted at any time before final payment under this contract.

(c) If a stop-work order is not canceled and the work covered by the order is terminated for the convenience of the Government, the Contracting Officer shall allow reasonable costs resulting from the stop-work order in arriving at the termination settlement.

(d) If a stop-work order is not canceled and the work covered by the order is terminated for default, the Contracting Officer shall allow, by equitable adjustment or otherwise, reasonable costs resulting from the stop-work order.

6. **INSPECTION OF SERVICES**

The Inspection of Services–Fixed Price (AUG 1996) (Deviation 1 – May 2003) clause at FAR 52.246-4 applies to firm-fixed price orders placed under this contract. The Inspection–Time-and-Materials and Labor-Hour (May 2001) (Deviation 1 – May 2003) clause at FAR 52.246-6 applies to time-and-materials and labor-hour orders placed under this contract.

7. **RESPONSIBILITIES OF THE CONTRACTOR**

The Contractor shall comply with all laws, ordinances, and regulations (Federal, State, City, or otherwise) covering work of this character. If the end product of a task order is software, then FAR 52.227-14 (Dec 2007) Rights in Data – General, may apply.

8. **RESPONSIBILITIES OF THE ORDERING ACTIVITY**

Subject to security regulations, the ordering activity shall permit Contractor access to all facilities necessary to perform the requisite IT Professional Services.
9. **INDEPENDENT CONTRACTOR**

All IT Professional Services performed by the Contractor under the terms of this contract shall be as an independent Contractor, and not as an agent or employee of the ordering activity.

10. **ORGANIZATIONAL CONFLICTS OF INTEREST**

a. **Definitions.**

“Contractor” means the person, firm, unincorporated association, joint venture, partnership, or corporation that is a party to this contract.

“Contractor and its affiliates” and “Contractor or its affiliates” refers to the Contractor, its chief executives, directors, officers, subsidiaries, affiliates, subcontractors at any tier, and consultants and any joint venture involving the Contractor, any entity into or with which the Contractor subsequently merges or affiliates, or any other successor or assignee of the Contractor.

An “Organizational conflict of interest” exists when the nature of the work to be performed under a proposed ordering activity contract, without some restriction on ordering activities by the Contractor and its affiliates, may either (i) result in an unfair competitive advantage to the Contractor or its affiliates or (ii) impair the Contractor’s or its affiliates’ objectivity in performing contract work.

b. **To avoid an organizational or financial conflict of interest and to avoid prejudicing the best interests of the ordering activity, ordering activities may place restrictions on the Contractors, its affiliates, chief executives, directors, subsidiaries and subcontractors at any tier when placing orders against schedule contracts. Such restrictions shall be consistent with FAR 9.505 and shall be designed to avoid, neutralize, or mitigate organizational conflicts of interest that might otherwise exist in situations related to individual orders placed against the schedule contract. Examples of situations, which may require restrictions, are provided at FAR 9.508.**

11. **INVOICES**

The Contractor, upon completion of the work ordered, shall submit invoices for IT Professional services. Progress payments may be authorized by the ordering activity on individual orders if appropriate. Progress payments shall be based upon completion of defined milestones or interim products. Invoices shall be submitted monthly for recurring services performed during the preceding month.

12. **PAYMENTS**

For firm-fixed price orders the ordering activity shall pay the Contractor, upon submission of proper invoices or vouchers, the prices stipulated in this contract for service rendered and accepted. Progress payments shall be made only when authorized by the order. For time-and-materials orders, the Payments under Time-and-Materials and Labor-Hour Contracts at FAR 52.212-4 (MAR 2009) (ALTERNATE I – OCT 2008) (DEVIATION I – FEB 2007) applies to time-and-materials orders placed under this contract. For labor-hour orders, the Payment under Time-and-Materials and Labor-Hour Contracts at FAR 52.212-4 (MAR 2009) (ALTERNATE I – OCT 2008) (DEVIATION I – FEB 2007) applies to labor-hour orders placed under this contract. 52.216-31 (Feb 2007) Time-and-Materials/Labor-Hour Proposal Requirements—Commercial Item Acquisition. As prescribed in 16.601(e)(3), insert the following provision:

(a) The Government contemplates award of a Time-and-Materials or Labor-Hour type of contract resulting from this solicitation.

(b) The offeror must specify fixed hourly rates in its offer that include wages, overhead, general and administrative expenses, and profit. The offeror must specify whether the fixed hourly rate for each labor category applies to labor performed by—
(1) The offeror;
(2) Subcontractors; and/or
(3) Divisions, subsidiaries, or affiliates of the offeror under a common control.

13. **RESUMES**

Resumes shall be provided to the GSA Contracting Officer or the user ordering activity upon request.

14. **INCIDENTAL SUPPORT COSTS**

Incidental support costs are available outside the scope of this contract. The costs will be negotiated separately with the ordering activity in accordance with the guidelines set forth in the FAR.

15. **APPROVAL OF SUBCONTRACTS**

The ordering activity may require that the Contractor receive, from the ordering activity's Contracting Officer, written consent before placing any subcontract for furnishing any of the work called for in a task order.

16. **DESCRIPTION OF IT/IAM PROFESSIONAL SERVICES AND PRICING**

a. The Contractor shall provide a description of each type of IT Service offered under Special Item Numbers 132-51 IT/IAM Professional Services should be presented in the same manner as the Contractor sells to its commercial and other ordering activity customers. If the Contractor is proposing hourly rates, a description of all corresponding commercial job titles (labor categories) for those individuals who will perform the service should be provided.

b. Pricing for all IT Professional Services shall be in accordance with the Contractor’s customary commercial practices; e.g., hourly rates, monthly rates, term rates, and/or fixed prices, minimum general experience and minimum education.

The following is an example of the manner in which the description of a commercial job title should be presented:

**EXAMPLE:** Commercial Job Title: System Engineer

Minimum/General Experience: Three (3) years of technical experience which applies to systems analysis and design techniques for complex computer systems. Requires competence in all phases of systems analysis techniques, concepts and methods; also requires knowledge of available hardware, system software, input/output devices, structure and management practices.

Functional Responsibility: Guides users in formulating requirements, advises alternative approaches, conducts feasibility studies.

Minimum Education: Bachelor’s Degree in Computer Science

**NOTE:** All non-professional labor categories must be incidental to, and used solely to support professional services, and cannot be purchased separately.
BAI IT Labor Category Descriptions

Project Manager

Responsible for overall performance of one major contract, task or tasks. Acts as team leader on a contract and/or complex tasks that require understanding and oversight of various technical disciplines. Develops project goals, schedules and team structure. Has full technical responsibility for interpreting, organizing, executing and coordinating aspects within broad objectives and limits. Provides administrative and technical direction to all subordinate personnel.

Experience

This position requires at least six years of experience, with at least three years of supervisory experience.

Education

Bachelor’s degree in a technical or management discipline, or an Associates Degree with a technical certification in a management discipline. A combination of education, training, certification and/or experience that provides the requisite knowledge, skills, and abilities may be substituted for the degree.
Senior Systems Security Engineer

Analyzes and defines security requirements for Multilevel Security (MLS) issues. Designs, develops, engineers, and implements solutions to MLS requirements. Gathers and organizes technical information about an organization’s mission goals and needs, existing security products, and ongoing programs in the MLS arena. Provides daily supervision and direction to staff. May supervise others in performing security systems tasks.

Experience
This position requires at least five years of experience. Experience must be specialized experience encompassing all aspects of IS Security. Some supervisory experience required.

Education
Bachelor’s degree or an Associates degree with a technical. A combination of education, training, certification and/or experience that provides the requisite knowledge, skills, and abilities may be substituted for the degree.
**Senior Network Architect/Specialist**

Responsible for the managerial and technical administration of a LAN/WAN. Designs, implements, analyzes and optimizes enterprise network systems. Performs all phases of LAN/WAN projects to provide maintenance and upgrading of networks and their related components. Plans all network maintenance activities/modifications and implements them with minimal impact on client operations. Coordinates requirements with users and suppliers. May supervise others in performing network architecture and management activities.

**Experience**

A minimum of five years of progressive network experience. Experience includes technical management on LAN/WAN systems. General experience includes all aspects of communication networks, optimizing networks for performance, configuring and connecting to a system.

**Education**

Bachelor’s degree or an Associates degree with a technical certification. A combination of education, training, certification and/or experience that provides the requisite knowledge, skills, and abilities may be substituted for the degree.
Network Manager

Oversees network control center and supervises staff. Evaluates communication hardware and software, troubleshoots LAN/MAN/WAN and other network related problems, and provides technical expertise for performance and configuration of networks. Expected to supervise others in performing tasks.

Experience

This position requires a minimum of five years of experience. Experience includes supervising the operation and maintenance of communication network systems. General experience includes all aspects of communication networks planning, installation, management and support, or related fields.

Education

Bachelor’s degree in a technical or management discipline, or an Associates Degree with a technical certification in a management discipline. A combination of education, training, certification and/or experience that provides the requisite knowledge, skills, and abilities may be substituted for the degree.
**Senior Network Engineer**

Installs, configures, integrates and tests network components, network switching devices, and/or multiplexed information systems and command and control systems. Able to analyze devices and components from multiple vendors and identify devices that best satisfies customer goals and objectives. Provides or supervises LAN/WAN administration in accordance with approved policies and procedures in support of client organizations; and continuous quality improvement in the reliability, responsiveness and effectiveness of LAN/WAN support to the client organizations. Works with industry vendors and staff from other contracts to solve problems and return the client to production operation as quickly as possible. May supervise others in performing network engineering tasks.

**Experience**

This position requires a minimum of four years of experience. Able to work independently and possesses working knowledge of network media in modern network topologies and protocols. Experience in the technical management of LAN/WAN systems. At least one year of experience in supervising others in performing IT-related tasks.

**Education**

Bachelor’s degree or Associates degree with a technical certification. A combination of education, training, certification and/or experience that provides the requisite knowledge, skills, and abilities may be substituted for the degree.
**Senior System Administrator**

Supervises and manages the daily activities of configuration and operation of systems. Optimizes system operation and resource utilization, and performs system capacity analysis and planning. Assists users in accessing and using systems. May supervise others performing system administrative activities.

**Experience**

This position requires a minimum of three years experience in administrating network operating systems. General experience includes operations experience on a large-scale computer system and/or a multi-server local area network and some supervisory experience.

**Education**

Bachelor’s or an Associates degree with a technical certification. A combination of education, training, certification and/or experience that provides the requisite knowledge, skills, and abilities may be substituted for the degree.
Software Engineer

Works with SQL, and third/fourth generation languages in the design and implementation of systems and using database management systems. Possesses ability to assume increasing responsibilities in information engineering activities. Knowledgeable of applicable standards. Analyzes and studies complex information system requirements. Designs software tools and subsystems for efficiency and manages their implementation. Manages software development and support using formal specifications, data flow diagrams and other industry accepted design techniques and tools. Provides input to estimate software development costs and schedule. Reviews existing program and assist in making refinements, reducing operating time, and improving current techniques. Works independently under minimal supervision.

Experience

This position requires a minimum two years experience. General experience includes requirements analysis, software design, development and implementation in a networked and/or large-scale computing environment.

Education

Bachelor’s degree or equivalent. A combination of education, training, certification and/or experience that provides the requisite knowledge, skills, and abilities may be substituted for the degree.
Network Engineer

Assists in technical support to engineers. Performs research and installs, configures, and integrates network components and systems.

Experience
This position requires a minimum of two years of experience. Possesses experience in configuring system and network software products and operating systems.

Education
Bachelor’s degree or an Associates degree with a technical certification. A combination of education, training, certification and/or experience that provides the requisite knowledge, skills, and abilities may be substituted for the degree.
**Help Desk Manager**

Provides daily supervision and direction to staff that are responsible for phone and in-person support to users in the areas of hardware, operating systems, network connectivity, standard applications (to include e-mail), legacy applications and applications developed or deployed under this contract or predecessors. These personnel serve as the first point of contact for troubleshooting hardware and/or software problems. Normally supervises others in performing help desk tasks.

**Experience**

This position requires a minimum of four years of experience and at least one year of experience supervising others in performing IT related tasks. Specialized experience includes: comprehensive knowledge of hardware, operating systems, networking and e-mail standards, management of help desk(s) in an enterprise environment and supervision of help desk employees. General experience includes desktop and network support, information systems development and general IT troubleshooting. Must have at least one year of experience supervising others performing IT related tasks.

**Education**

Bachelor’s degree in a technical or management discipline, or an Associates Degree with a technical certification in a management discipline. A combination of education, training, certification and/or experience that provides the requisite knowledge, skills, and abilities may be substituted for the degree.
**Senior Help Desk Specialist**

Provides telephone and in-person support to users in the areas of hardware, operating systems, network connectivity, standard applications (to include e-mail), legacy applications and applications developed or deployed under this contract or predecessors. May serve as the initial point of contact for troubleshooting hardware and/or software problems and/or second-tier support for more advanced issues. May supervise others in performing help desk services.

**Experience**

This position requires a minimum of four years of experience. Specialized experience includes: knowledge of hardware, operating systems, networking and e-mail standards and work on a help desk. General experience includes desktop and network support, information systems development and general IT troubleshooting.

**Education**

Bachelor’s degree or an Associates degree with a technical certification A combination of education, training, certification and/or experience that provides the requisite knowledge, skills, and abilities may be substituted for the degree.
Junior Network Engineer

Assists in technical support to engineers. Performs research and installs, configures, and integrates network components and systems.

Experience
This position requires a minimum of one year of experience. Possesses experience in configuring system and network software products and operating systems.

Education
Bachelor’s degree or an Associates degree with a technical certification. A combination of education, training, certification and/or experience that provides the requisite knowledge, skills, and abilities may be substituted for the degree.
Systems Security Engineer

Independently performs risk analysis and security audit services. Develops analytical reports and other products. Analyzes and defines security requirements; AIS risk assessment methods and procedures; security of system software generation; security of computer hardware, operating system, utility/support software; disaster and contingency planning; telecommunications security; development of AIS security policies and procedures.

Experience

This position requires a minimum of two years experience. Experience in multiple areas of Automated Information System (AIS) security to include operations, network design, or application and system software design.

Education

Bachelor’s degree or an Associates degree with a technical certification. A combination of education, training, certification and/or experience that provides the requisite knowledge, skills, and abilities may be substituted for the degree.
**Help Desk Specialist**

Provides telephone and in-person support to users in the areas of hardware, operating systems, network connectivity, standard applications (to include e-mail), legacy applications and applications developed or deployed under this contract or predecessors. Serves as the initial point of contact for troubleshooting hardware and/or software problems.

**Experience**

This position requires a minimum of two years of experience performing IT-related tasks. Specialized experience includes: knowledge of hardware, operating systems, networking and e-mail standards and work on a help desk. General experience includes desktop and network support, information systems development and general IT troubleshooting.

**Education**

Associates degree, technical certification, training and/or experience that provides the requisite knowledge, skills, and abilities.
**Administrative Assistant**

Provides administrative support to technical and management-level personnel. This includes, but is not limited to documentation planning and support, project administration, general office support, executive secretarial support, human resource planning, event planning and administration, office relocation planning, etc. Specializes in coordinating and planning office administration and support. Reports directly to a client, usually at the client location, to support its operations as required. Understands and provides documentation planning and support, project administration, general office support, executive secretarial support, human resources planning, event planning and administration, office relocation planning, etc. required in changing office environments. May perform other duties as assigned.

**Experience**

This position requires a minimum of two years of experience with thorough knowledge of most commonly used word processing packages (i.e. WordPerfect and/or MS Word). Familiar with spreadsheet and presentation software (i.e. Lotus 123, MS Excel and/or PowerPoint).

**Education**

High School Diploma or G.E.D. or other equivalent degree program.
**Senior Enterprise Architect**

Responsible for all aspects of the development and maintenance of enterprise architecture projects and guides projects from planning through final delivery. Interfaces with all areas of the enterprise including end users and key stakeholders. Defines project scope and objectives and develops detailed work plans, schedules, project estimates, resource plans, and status reports. Conducts project status meetings and is responsible for project tracking and analysis. Leverages policies, architectural frameworks, and commercial best practices to lead teams of architects in the design and development of enterprise architectures that satisfy enterprise requirements. Develops enterprise architectures that are scalable, adaptable and consistent with the client’s current and long-term business goals. Applies experience to drive measurable results, including lowering cost, improving performance and mitigating security risks. Applies high-level business and technical principles and methods to difficult technical problems to arrive at creative solutions. Recommends and takes action to direct the analysis and solutions of problems. Ensures adherence to quality standards and reviews enterprise architecture deliverables. Provides technical and analytical guidance to the enterprise architecture team. Demonstrated ability to work independently with minimal supervision.

**Experience**

This position requires a minimum of eight years of experience as an Enterprise Architect. Must have in-depth knowledge of Department of Defense Architecture Framework (DoDAF) or Federal Enterprise Architecture Framework (FEA); preferably both. Must be familiar with basic graphical modeling approaches, tools, and model repositories. Must have exceptional interpersonal skills, including teamwork, facilitation, and negotiation. Must have strong leadership skills, excellent analytical and technical skills, excellent written and verbal communication skills, and excellent planning and organizational skills. Must be able to translate business needs into EA requirements, estimate the financial impact of EA alternatives, apply multiple solutions to business problems, and rapidly comprehend the functions and capabilities of new technologies. Must be able to balance the long-term (“big picture”) and short-term implications of individual decisions.

**Education**

Bachelors degree in Computer Science, Information Technology, or related field, or equivalent experience. Masters degree preferred.
Enterprise Architect

Participates in the design, creation, and maintenance of the enterprise architecture. Aligns corporate IT investments with the client’s current and long-term business goals. This includes evaluating the corporate strategy and mission statements to determine the products and services offered by an organization; determining the business processes that support these offerings, and defining the data, technical components, standards, and architecture. Supports the development and alignment of all architectural areas. Develops enterprise architecture artifacts and conducts analyses to improve the business processes, information, and technology of the client. Supports enterprise design by developing enterprise schema to map data and process flows across the enterprise. Provides expert enterprise architecture advice, assistance, and guidance relating to the client’s mission-oriented business programs or initiatives. Demonstrated ability to work independently with minimal supervision.

Experience

This position requires a minimum of three years of experience in a technology field. Must have in-depth knowledge of Department of Defense Architecture Framework (DoDAF) or Federal Enterprise Architecture Framework (FEA); preferably both. Must be familiar with basic graphical modeling approaches, tools, and model repositories. Must have exceptional interpersonal skills, including teamwork, facilitation, and negotiation. Must have strong leadership skills, excellent analytical and technical skills, excellent written and verbal communication skills, and excellent planning and organizational skills. Must be able to translate business needs into EA requirements, estimate the financial impact of EA alternatives, apply multiple solutions to business problems, and rapidly comprehend the functions and capabilities of new technologies. Must be able to balance the long-term (“big picture”) and short-term implications of individual decisions.

Education

Bachelors degree in Computer Science, Information Technology, or related field, or equivalent experience. Masters degree preferred.
Information Assurance Engineer

Independently performs risk analysis and security audit services. Develops analytical reports and other products. Analyzes and defines security requirements; AIS risk assessment methods and procedures; security of system software generation; security of computer hardware, operating system, utility/support software; disaster and contingency planning; telecommunications security; development of AIS security policies and procedures.

Experience

This position requires a minimum of two years experience. Experience in multiple areas of Automated Information System (AIS) security to include operations, network design, or application and system software design.

Education

Bachelor’s degree or an Associate’s degree with a technical certification. A combination of education, training, certification and/or experience that provides the requisite knowledge, skills, and abilities may be substituted for the degree.
Senior Wireless Engineer

Performs wireless network design and implementation. Securely integrates wireless networking into wired network infrastructures. Identifies and implements security enhancements to enhance security posture. Leads other engineers in the performance of these responsibilities. Comprehensively documents all aspects of wireless network projects and infrastructure.

Experience

This position requires a minimum of 4 years experience in wireless network design, and implementation and a minimum of 6 years networking experience. Must possess a very strong networking background throughout the project lifecycle and extensive knowledge of security standards and best practices. Expertise in encryption technologies, 802.1x and RADIUS authentication, Public Key Infrastructure implementation and wireless tools, techniques and methodologies.

Education

Bachelor’s degree or an Associate’s degree with a technical certification. A combination of education, training, certification and/or experience that provides the requisite knowledge, skills, and abilities may be substituted for the degree.
Junior Wireless Network Engineer II

Performs wireless network design and implementation. Securely integrates wireless networking into wired network infrastructures. May lead other engineers in the performance of these responsibilities. Comprehensively documents all aspects of wireless network projects and infrastructure.

Experience

This position requires a minimum of 2 years experience in wireless network design, and implementation, strong networking background throughout the project lifecycle and extensive knowledge of wireless tools, techniques and methodologies

Education

Bachelor’s degree or an Associate’s degree with a technical certification. A combination of education, training, certification and/or experience that provides the requisite knowledge, skills, and abilities may be substituted for the degree.
Junior Wireless Network Engineer

Performs wireless network design and implementation. Securely integrates wireless networking into wired network infrastructures. Comprehensively documents all aspects of wireless network projects and infrastructure.

Experience

This position requires a minimum of 1 year experience in wireless network design, and implementation and knowledge of wireless tools, techniques and methodologies.

Education

Bachelor’s degree or an Associate’s degree with a technical certification. A combination of education, training, certification and/or experience that provides the requisite knowledge, skills, and abilities may be substituted for the degree.
**Senior Systems Engineer**

Installs, configures, integrates and tests system components, to include physical and virtual systems, Storage Area Networks and blade systems. Able to analyze devices and components from multiple vendors and identify devices that best satisfies customer goals and objectives. Provides or supervises systems administration in accordance with approved policies and procedures in support of client organizations; and continuous quality improvement in the reliability, responsiveness and effectiveness of system components support to the client organizations. Works with industry vendors and staff from other contracts to solve problems and return the client to production operation as quickly as possible. May supervise others in performing system engineering tasks.

**Experience**

This position requires a minimum of four years of experience. Able to work independently and possesses extensive knowledge of virtualization and storage management technologies. Must be knowledgeable of multiple Operating Systems and/or enterprise applications. Experience in the technical management of enterprise systems. At least one year of experience in supervising others in performing IT-related tasks.

**Education**

Bachelor’s degree or Associates degree with a technical certification. A combination of education, training, certification and/or experience that provides the requisite knowledge, skills, and abilities may be substituted for the degree.
**Incident Response Analyst**

Identify and provide initial analysis of suspected malicious activity. Provide recommended defensive courses of action in order to mitigate the risk associated with network intrusion attempts. Identify unauthorized use of network resources and violations of network security policies. Monitor, research, and evaluate operational security issues confronting the network. Provide initial troubleshooting steps for security infrastructure. Provide support to other DOD Network Defense Agencies with security issues related to the enterprise.

**Experience**

This position requires a minimum of four years experience working on large scale system development or network security programs.

**Education**

Bachelors Degree in Computer Science or other Engineering / Technical discipline with an Information Security or Cyber Security Concentration (Five years of relevant experience accepted in lieu of a degree).
Systems Engineer

Manages the daily activities of configuration and operation of systems. Optimizes system operation and resource utilization, and performs system capacity analysis and planning. Assists in technical support to senior engineers.

Experience

This position requires a minimum of two years of experience. Possesses experience in the operation and technical management of enterprise systems. Possesses working knowledge at least one industry relevant network Operating System and/or enterprise applications. Some experience in virtualization and/or storage management technologies.

Education

Bachelor’s degree or an Associate’s degree with a technical certification. A combination of education, training, certification and/or experience that provides the requisite knowledge, skills, and abilities may be substituted for the degree.
**Information Assurance Watch Analyst**

Provides knowledge in computer and network forensics. Conducts vulnerability assessments/penetration tests of information systems. Develops, researches and maintains proficiency in tools, techniques, countermeasures, and trend in computer and network vulnerabilities, data hiding, and encryption. Identifies, deters, monitors, and investigates computer and network intrusions. Provides computer forensic support to high technology investigations in the form of evidence seizure, computer forensic analysis, and data recovery.

**Experience**

This position requires a minimum of two years experience working on large scale system development or network security programs.

**Education**

Bachelors Degree in Computer Science or other Engineering / Technical discipline with an Information Security or Cyber Security Concentration (Four years of relevant experience excepted in lieu of a degree).

BEST VALUE
BLANKET PURCHASE AGREEMENT
FEDERAL SUPPLY SCHEDULE

(Insert Customer Name)

In the spirit of the Federal Acquisition Streamlining Act (ordering activity) and (Contractor) enter into a cooperative agreement to further reduce the administrative costs of acquiring commercial items from the General Services Administration (GSA) Federal Supply Schedule Contract(s) ____________________.

Federal Supply Schedule contract BPAs eliminate contracting and open market costs such as: search for sources; the development of technical documents, solicitations and the evaluation of offers. Teaming Arrangements are permitted with Federal Supply Schedule Contractors in accordance with Federal Acquisition Regulation (FAR) 9.6.

This BPA will further decrease costs, reduce paperwork, and save time by eliminating the need for repetitive, individual purchases from the schedule contract. The end result is to create a purchasing mechanism for the ordering activity that works better and costs less.

Signatures

________________________________________  ____________________________
Ordering Activity                      Date                            Contractor                  Date
Pursuant to GSA Federal Supply Schedule Contract Number(s) ____________, Blanket Purchase Agreements, the Contractor agrees to the following terms of a Blanket Purchase Agreement (BPA) EXCLUSIVELY WITH (ordering activity):

1. The following contract items can be ordered under this BPA. All orders placed against this BPA are subject to the terms and conditions of the contract, except as noted below:

<table>
<thead>
<tr>
<th>MODEL NUMBER/PART NUMBER</th>
<th>*SPECIAL BPA DISCOUNT/PRICE</th>
</tr>
</thead>
<tbody>
<tr>

</tr>
</tbody>
</table>

7. Orders will be placed against this BPA via Electronic Data Interchange (EDI), FAX, or paper.

8. Unless otherwise agreed to, all deliveries under this BPA must be accompanied by delivery tickets or sales slips that must contain the following information as a minimum:

   (a) Name of Contractor;
   (b) Contract Number;
   (c) BPA Number;
(d) Model Number or National Stock Number (NSN);
(e) Purchase Order Number;
(f) Date of Purchase;
(g) Quantity, Unit Price, and Extension of Each Item (unit prices and extensions need not be shown when incompatible with the use of automated systems; provided, that the invoice is itemized to show the information); and
(h) Date of Shipment.

(9) The requirements of a proper invoice are specified in the Federal Supply Schedule contract. Invoices will be submitted to the address specified within the purchase order transmission issued against this BPA.

(10) The terms and conditions included in this BPA apply to all purchases made pursuant to it. In the event of an inconsistency between the provisions of this BPA and the Contractor’s invoice, the provisions of this BPA will take precedence.
BASIC GUIDELINES FOR USING “CONTRACTOR TEAM ARRANGEMENTS”

Federal Supply Schedule Contractors may use “Contractor Team Arrangements” (see FAR 9.6) to provide solutions when responding to a ordering activity requirements.

These Team Arrangements can be included under a Blanket Purchase Agreement (BPA). BPAs are permitted under all Federal Supply Schedule contracts.

Orders under a Team Arrangement are subject to terms and conditions or the Federal Supply Schedule Contract.

Participation in a Team Arrangement is limited to Federal Supply Schedule Contractors.

Customers should refer to FAR 9.6 for specific details on Team Arrangements.

Here is a general outline on how it works:

- The customer identifies their requirements.
- Federal Supply Schedule Contractors may individually meet the customers needs, or -
- Federal Supply Schedule Contractors may individually submit a Schedules “Team Solution” to meet the customer’s requirement.
- Customers make a best value selection.
