Within the validity and applicability of the @Xi Limited Warranty, in the event one or more components of an @Xi product(s) is found to be faulty or defective, @Xi will ship the replacement part(s) to the site of the Customer, free of charge by FedEx Standard Overnight or equivalent shipping service and supply a return label for the faulty or defective part. Such part(s) are guaranteed for 90 days or up to the end of the original system warranty, whichever is longer. At sole @Xi discretion, within the continental USA only, the complete @Xi system unit may be recalled (if under warranty) to perform services or verifications that are beyond a simple and easy replacement of a faulty part(s). In such case @Xi will pay the freight both ways based on FedEx Economy or equivalent second day service. The Customer can elect to pay shipping to @Xi with an Overnight Service of his choice and @Xi will send it back FedEx Standard overnight (or equivalent) at @Xi expense. In case of customer fault that affects the unit functionality, like software viruses, improper software installation or modifications, or malfunction due to hardware or software products not originally purchased by @Xi, the customer will be billed for the freight cost plus the current @Xi service repair rate. An estimate will be provided to the customer before proceeding with the work. Customer agrees to at least pay for freight and \$85.00 inspection fee in such a case.
