CUSTOMER INFORMATION

1a. Table of Awarded Special Item Numbers (SINs):
   Please refer to GSA eLibrary (www.gsaelibrary.gsa.gov) for detailed SIN descriptions
   • Special Item No. 54151S Information Technology Professional Services
   • Special Item No. OLM Order Level Materials (OLMs)

1b. Lowest Priced Model Number and Lowest Price:
    Please refer to our rates on page #14

1c. Labor Category Descriptions:
    Please refer to page #5

2. Maximum Order: $500,000
3. Minimum Order: $100.00
4. Geographic Coverage: Domestic Only
5. Point (s) of Production: ATTN: GSA Award Resource Center
   3 Bethesda Metro Center
   Suite 820
   Bethesda, MD 20814

6. Discount from List Price: All Prices Herein are Net
7. Quantity Discounts: None.
8. Prompt Payment Terms: 0%, 30 days from receipt of invoice or date of acceptance, whichever is later. Information for Ordering Offices: Prompt payment terms cannot be negotiated out of the contractual agreement in exchange for other concessions.

9. Foreign Items: None
10a. Time of Delivery: As negotiated.
10b. Expedited Delivery: Contact Contractor
10c. Overnight and 2-Day Delivery: Contact Contractor
10d. Urgent Requirement: Contact Contractor
11. F.O.B. Point(s): Destination
12a. Ordering Address: Analytica LLC
    Attn: GSA Award Resource Center
    3 Bethesda Metro Center, Suite 820
    Bethesda, MD 20814

12b. Ordering procedures: For supplies and services, the ordering procedures, information on Blanket Purchase Agreements (BPAs), are found in Federal Acquisition Regulation (FAR) 8.405-3.
13. Payment Address: Analytica LLC
   Attn: Accounts Payable
   3 Bethesda Metro Center
   Suite 820
   Bethesda, MD 20814

15. Export Packing Charges: Not Applicable

16. Terms and conditions of rental, maintenance, and repair: Not Applicable

17. Terms and conditions of installation (if applicable): Not Applicable

18a. Terms and conditions of repair parts indicating date of parts, price lists and any discounts from list prices: Not Applicable

18b. Terms and conditions for any other services (if applicable): Not Applicable

19. List of service and distribution points (if applicable): Not Applicable

20. List of participating dealers (if applicable): Not Applicable

21. Preventative maintenance (if applicable) Not Applicable

22a. Special attributes such as environmental attributes (e.g., recycled content, energy efficiency, and/or reduced pollutants): Not Applicable

22b. Section 508 compliance information is available on Electronic and Information Technology (EIT) supplies and services and show where full details can be found (e.g. contractor’s website or other location.) The EIT standards can be found at: www.Section508.gov/

23. Data Universal Number System (DUNS) Number: 829820070

24. Analytica, LLC is registered in the System for Award Management (SAM).
Description of IT Professional Services and Pricing
As a dynamic, rapidly growing HUBZone, small disadvantaged business certified as a partner for leading COTS and Open Source technology products the company has supported leading private and public sector organizations implement innovative, value-driven information technology solutions.

Analytica provides Professional IT Services in the following SIN Subgroups:
- IT Facility Operation and Maintenance
- IT Systems Development Services
- IT Systems Analysis Services
- Automated Information Systems Design and Integration Services
- Programming Services
- IT Backup and Security Services
- IT Data Conversion Services
- CAD/CAM Services
- IT Network Management Services
- Automated News, Data and other Information Services

**Analyst I**

**Minimum General Experience:** 1 (one) year of professional experience in an information technology, information management, business or related field

**Minimum Education:** Related Bachelor’s Degree

**Functional Responsibilities:**

- Participates in client interviews, document analysis, requirements workshops, surveys, site visits, testing, documentation, business processes, use cases, scenarios, business analysis, tasks and workflow analysis.

**Analyst II**

**Minimum General Experience:** 2 (two) years of professional experience in an information technology, information management, business or related field

**Minimum Education:** Related Bachelor’s Degree

**Functional Responsibilities:**

- Participates in client interviews, document analysis, requirements workshops, surveys, site visits, testing, documentation, business processes, use cases, scenarios, business analysis, tasks and workflow analysis.

**Analyst III**

**Minimum General Experience:** 4 (four) years of professional experience in an information technology, information management, business or related field
Minimum Education: Related Bachelor’s Degree

Functional Responsibilities:
- Participates in client interviews, document analysis, requirements workshops, surveys, site visits, testing, documentation, business processes, use cases, scenarios, business analysis, tasks and workflow analysis.

Analyst IV

Minimum General Experience: 5 (five) years of professional experience in an information technology, information management, business or related field
Minimum Education: Related Bachelor’s Degree

Functional Responsibilities:
- Participates in client interviews, document analysis, requirements workshops, surveys, site visits, testing, documentation, business processes, use cases, scenarios, business analysis, tasks and workflow analysis.

Additional Experience: Training in basic supervision, leadership and/or conflict resolution. At least one year of experience in leading teams of two or more individuals on a project

Analyst V

Minimum General Experience: 6 (six) years of professional experience in an information technology, information management, business or related field
Minimum Education: Related Bachelor’s Degree

Functional Responsibilities:
- Participates in client interviews, document analysis, requirements workshops, surveys, site visits, testing, documentation, business processes, use cases, scenarios, business analysis, tasks and workflow analysis.

Additional Experience: Training in basic supervision, leadership and/or conflict resolution. At least two years of experience in leading teams of two or more individuals on a project

Application Programmer I

Minimum General Experience: 1 (one) year of professional experience in an information technology/information management or related field
Minimum Education: Related Bachelor’s Degree

Functional Responsibilities:
- Performs development, design, coding, and/or documentation related to the creation or modification development of software systems and applications.
- Formulates and develops systems or subsystems architecture, requirements, and design documents. Performs software algorithm development, design, coding, and documentation work of systems.

Application Programmer II

Minimum General Experience: 3 (three) year of professional experience in an information technology/information management or related field
Minimum Education: Related Bachelor’s Degree

Functional Responsibilities:
- Performs development, design, coding, and/or documentation related to the creation or modification development of software systems and applications.
- Formulates and develops systems or subsystems architecture, requirements, and design documents. Performs software algorithm development, design, coding, and documentation work of systems.

*Application Programmer III*

**Minimum General Experience:** 5 (five) years of professional experience in an information technology/information management or related field  
**Minimum Education:** A related Bachelor’s Degree  
**Functional Responsibilities:**  
- Performs development, design, coding, and/or documentation related to the creation or modification development of software systems and applications.  
- Formulates and develops systems or subsystems architecture, requirements, and design documents. Performs software algorithm development, design, coding, and documentation work of systems.  
- Investigates, analyzes, and compares existing systems or subsystems software, and makes specific performance recommendations to meet client's specific requirements and ensure achievement of assigned technical activities, as required.  
**Additional Experience:** Training in basic supervision, leadership and/or conflict resolution. At least one year of experience in leading teams of two or more individuals on a project.

*Application Programmer IV*

**Minimum General Experience:** 8 (eight) years of professional experience in an information technology/information management or related field  
**Minimum Education:** A related Bachelor’s Degree  
**Functional Responsibilities:**  
- Performs development, design, coding, and/or documentation related to the creation or modification development of software systems and applications.  
- Formulates and develops systems or subsystems architecture, requirements, and design documents. Performs software algorithm development, design, coding, and documentation work of systems.  
- Investigates, analyzes, and compares existing systems or subsystems software, and makes specific performance recommendations to meet client's specific requirements and ensure achievement of assigned technical activities, as required.  
**Additional Experience:** Training in basic supervision, leadership and/or conflict resolution. At least one year of experience in leading teams of two or more individuals on a project.

*Application Programmer V*

**Minimum General Experience:** 12 (Twelve) years of professional experience in an information technology/information management or related field  
**Minimum Education:** A related Bachelor’s Degree  
**Functional Responsibilities:**  
- Performs development, design, coding, and/or documentation related to the creation or modification development of software systems and applications.  
- Formulates and develops systems or subsystems architecture, requirements, and design documents. Performs software algorithm development, design, coding, and documentation work of systems.
• Investigates, analyzes, and compares existing systems or subsystems software, and makes specific performance recommendations to meet client's specific requirements and ensure achievement of assigned technical activities, as required.

Additional Experience: Training in basic supervision, leadership and/or conflict resolution. At least one year of experience in leading teams of two or more individuals on a project.

Consultant I

Minimum General Experience: 1 (one) year of professional experience in an information technology, information management, business or related field

Minimum Education: A related Bachelor’s Degree

Functional Responsibilities:
• Provide IT management support in accordance with the policies and procedures established by the client, such as reviewing and implementing investment guidance documentation, operational procedures, scoring criteria, templates, technology evaluations or implementation approaches.
• Provide support for extracting project data, creating dashboards and reports, queries, data warehousing, and other reporting services.
• Provides management supports around understanding, analysis, recommendation, and implementation of IT systems.
• Applies intensive and diversified knowledge of engineering, operations or financial processes in broad area of assignments.
• Critically evaluates information gathered from multiple sources, reconcile conflicts, decompose high-level information into details, abstract up from low-level information to a general understanding, and distinguish user requests from the underlying true needs.
• Elicit requirements using interviews, document analysis, requirements workshops, surveys, site visits, business process descriptions, use cases, scenarios, business analysis, tasks and workflow analysis.
• May apply process improvement and re-engineering methodologies and principles on process modernization projects.

Consultant II

Minimum General Experience: 3 (three) years of professional experience in an information technology/information management or related field

Minimum Education: A related Bachelor’s Degree

Functional Responsibilities:
• Provide IT management support in accordance with the policies and procedures established by the client, such as reviewing and implementing investment guidance documentation, operational procedures, scoring criteria, templates, technology evaluations or implementation approaches.
• Provide support for extracting project data, creating dashboards and reports, queries, data warehousing, and other reporting services.
• Provides management supports around understanding, analysis, recommendation, and implementation of IT systems.
• Applies intensive and diversified knowledge of engineering, operations or financial processes in broad area of assignments.
• Critically evaluates information gathered from multiple sources, reconcile conflicts, decompose high-level information into details, abstract up from low-level information to a general understanding, and distinguish user requests from the underlying true needs.
• Elicit requirements using interviews, document analysis, requirements workshops, surveys, site visits, business process descriptions, use cases, scenarios, business analysis, tasks and workflow analysis.
• May apply process improvement and re-engineering methodologies and principles on process modernization projects.

Consultant III

Minimum General Experience: 5 (five) years of professional experience in an information technology/information management or related field
Minimum Education: A related Bachelor’s Degree

Functional Responsibilities:
• Provide IT management support in accordance with the policies and procedures established by the client, such as reviewing and implementing investment guidance documentation, operational procedures, scoring criteria, templates, technology evaluations or implementation approaches.
• Provide support for extracting project data, creating dashboards and reports, queries, data warehousing, and other reporting services.
• Provides management supports around understanding, analysis, recommendation, and implementation of IT systems.
• Applies intensive and diversified knowledge of engineering, operations or financial processes in broad area of assignments.
• Critically evaluates information gathered from multiple sources, reconcile conflicts, decompose high-level information into details, abstract up from low-level information to a general understanding, and distinguish user requests from the underlying true needs.

Data Scientist I

Minimum General Experience: 3 (three) years of professional experience in a related field
Minimum Education: A related Bachelor’s Degree

Functional Responsibilities:
• Develop and apply machine learning, data mining, or other computational approaches to extract insights from data sets.
• Identify and demonstrate novel ways statistics, machine learning or artificial intelligence approaches can improve decisions, add value to services, and contribute to the advancement of ideas.
• Expertise in machine learning, data mining, or statistical methodology and demonstrated experience using these techniques to solve problems.
• Software engineering experience, with the ability to work with data science programming languages, platforms and data stores.

Data Scientist II

Minimum General Experience: 5 (five) years of professional experience in a related field
Minimum Education: A related Bachelor’s Degree

Functional Responsibilities:
• Develop and apply machine learning, data mining, or other computational approaches to extract insights from data sets.
• Identify and demonstrate novel ways statistics, machine learning or artificial intelligence approaches can improve decisions, add value to services, and contribute to the advancement of ideas.
• Expertise in machine learning, data mining, or statistical methodology and demonstrated experience using these techniques to solve problems.
• Software engineering experience, with the ability to work with data science programming languages, platforms and data stores.

Data Scientist III

Minimum General Experience: 8 (eight) years of professional experience in a related field
Minimum Education: A related Bachelor’s Degree

Functional Responsibilities:
• Develop and apply machine learning, data mining, or other computational approaches to extract insights from data sets.
• Identify and demonstrate novel ways statistics, machine learning or artificial intelligence approaches can improve decisions, add value to services, and contribute to the advancement of ideas.
• Expertise in machine learning, data mining, or statistical methodology and demonstrated experience using these techniques to solve problems.
Software engineering experience, with the ability to work with data science programming languages, platforms and data stores.

**Additional Experience:** Training in basic supervision, leadership and/or conflict resolution. At least one year of experience in leading teams of two or more individuals on a project.

**Database Administrator I**

**Minimum General Experience:** 1 (one) year of professional experience in an information technology/information management or related field  
**Minimum Education:** Related Bachelor’s Degree  
**Functional Responsibilities:**
- Potentially supports a variety of on premise or cloud database systems (e.g., Oracle, MS SQL, MySQL, Sybase, Teradata, etc). Provides operational support of system software, applications software, and system and user data files as configured within the associated database system.
- Provides maintenance for the integrity of all user/system data files, data verification following system restoration/recovery procedures, and data format conversion procedures during the import and/or export of data.

**Database Administrator II**

**Minimum General Experience:** 3 (three) year of professional experience in an information technology/information management or related field  
**Minimum Education:** Related Bachelor’s Degree  
**Functional Responsibilities:**
- Potentially supports a variety of on premise or cloud database systems (e.g., Oracle, MS SQL, MySQL, Sybase, Teradata, etc). Provides operational support of system software, applications software, and system and user data files as configured within the associated database system.
- Provides maintenance for the integrity of all user/system data files, data verification following system restoration/recovery procedures, and data format conversion procedures during the import and/or export of data.

**GIS Analyst I**

**Minimum General Experience:** 1 (one) year of professional experience in an information technology/information management or related field  
**Minimum Education:** Related Bachelor’s Degree  
**Functional Responsibilities:**
- Applies knowledge of information systems principles, spatial data processing functions, spatial analysis of structured data, and computer programming languages and techniques to solve multi-discipline query and classification of spatial data.
- Designs computer automated processes and programs for visualization and mapping problems.
- Applies scientific and statistical methods in obtaining, analyzing, rectifying, and classifying remotely sensed digital raster and vector data to develop or modify geospatial databases.
Information Assurance Engineer I

Minimum General Experience: 1 (one) year of professional experience in an information technology/information management or related field
Minimum Education: Related Bachelor’s Degree

Functional Responsibilities:
- Designs, develops, engineers, and implements solutions to Multilevel Security (MLS) requirements.
- Gathers and organizes technical information about an organization's mission goals and needs, existing security products, and ongoing programs in the MLS arena.
- Performs risk analyses that also includes risk assessment.

Information Assurance Engineer III

Minimum General Experience: 5 (five) year of professional experience in an information technology/information management or related field
Minimum Education: Related Bachelor’s Degree

Functional Responsibilities:
- Designs, develops, engineers, and implements solutions to Multilevel Security (MLS) requirements.
- Gathers and organizes technical information about an organization's mission goals and needs, existing security products, and ongoing programs in the MLS arena.
- Performs risk analyses that also includes risk assessment.

Information Engineer I

Minimum General Experience: 4 (four) years of professional experience in an information technology, information management, business or related field
Minimum Education: Related Bachelor’s Degree

Functional Responsibilities:
- Supports the design, development and use of enterprise business intelligence, advanced analytics, and data applications.
- Educates, trains and supports users, assists users in finding the right information developing decision support and EIS applications. Supports developing architecture documentation, protocols and processes around these platforms.
- Develops new periodic reporting applications, including on premise, hybrid and cloud platforms and applications, tests the applications, and documents the applications.

Information Engineer II

Minimum General Experience: 6 (six) years of professional experience in an information technology, information management, business or related field
Minimum Education: Related Bachelor’s Degree

Functional Responsibilities:
- Supports the design, development and use of enterprise business intelligence, advanced analytics, and data applications.
• Educates, trains and supports users, assists users in finding the right information developing decision support and EIS applications. Supports developing architecture documentation, protocols and processes around these platforms.
• Develops new periodic reporting applications, including on premise, hybrid and cloud platforms and applications, tests the applications, and documents the applications.

Additional Experience: Training in basic supervision, leadership and/or conflict resolution. At least one year of experience in leading teams of two or more individuals on a project.

Project Manager I

Minimum General Experience: 3 (three) years of professional experience in an information technology, information management, business or related field
Minimum Education: Related Bachelor’s Degree
Functional Responsibilities:
• Serves as point of contact with client on project activities. Ensures that all required resources including manpower, production standards, IT infrastructure, and facilities are available for project implementation.
• Responsible for the effective management of funds and personnel, and is accountable for the quality and timely delivery of projects

Additional Experience: Training in basic supervision, leadership and/or conflict resolution. At least one year of experience in leading teams of two or more individuals on a project.

Subject Matter Expert (SME) I

Minimum General Experience: 5 (five) years of professional experience in an information technology, information management, business or related field
Minimum Education: Related Bachelor’s Degree
Functional Responsibilities:
• Provides unique and/or in-depth technical or business analyses within subject-matter areas requiring leading-edge or state-of-the-art technical, scientific or business expertise.
• May support a wide variety of technical, scientific or business assignments based on the specific needs of the task’s requirements.

Additional Experience: Training in basic supervision, leadership and/or conflict resolution. At least one year of experience in leading teams of two or more individuals on a project.
