1. AUTOMATED INFORMATION SYSTEMS DESIGN AND INTEGRATION SERVICES

QuantumPM provides automated information systems design and integration services from high-level government consulting to code development; from fast-tracked, straight-out-of-the-box implementations to the most complex processes and custom-tailored solutions.

QuantumPM offers an agency-wide solution of its Project Portfolio Management (EPM) Solution design. Using Microsoft project management software, QuantumPM expands this to bring together client, cloud, and web-based technology to enable organizations to manage their project portfolio effectively, establish standards and best practices, centrally manage resources based on skills and availability, and enable effective communication and collaboration within project teams. The extensible, cloud-based architecture of the PPM Solution enables effective integration with other line-of-business (LOB) systems. QuantumPM’s PPM Solution allows you to:

- Communicate and collaborate with project team members and other stakeholders or partners using cloud-based technologies.
- Standardize project management processes across the organization.
- Understand resource workload and availability across projects, whether managed by you or others in the organization.
- Report across projects in the organization and roll-up scorecard reports.

QuantumPM carries Microsoft’s highest Gold competency designation (with competencies in PPM, Application Development, cloud solutions, and Collaboration & Content). We have extensive experience in the implementation and integration of the Microsoft Project Portfolio Management (PPM) Solution. We also provide expertise in the Microsoft Azure platform and integration / business analytics by bringing together the data and business knowledge available in line of business applications. QuantumPM can help you:

- Seamlessly integrate any LOB products with Microsoft Project as well as other applications.
- Organize data from a variety of sources to improve decision-making and simplify processes.
- Purchase and obtain support for Microsoft products.

2. PROGRAMMING SERVICES

QuantumPM can create custom solutions such as Balanced Scorecards and Digital Dashboards to improve your access to company information that may currently reside in a variety of systems. Balanced Scorecards and Digital Dashboards allow a manager and staff to view diverse project and operational data in one Graphical User Interface (GUI).
TERMS AND CONDITIONS APPLICABLE TO INFORMATION TECHNOLOGY TRAINING SERVICES (SPECIAL ITEM NUMBER 611420)

1. **SCOPE**
   a. The Contractor shall provide training courses normally available to commercial customers, which will permit ordering activity users to make full, efficient use of general-purpose commercial IT products. Training is restricted to training courses for those products within the scope of this solicitation.
   b. The Contractor shall provide training at the Contractor's facility and/or at the ordering activity's location, as agreed to by the Contractor and the ordering activity.

2. **ORDER**
   Written orders, EDI orders (GSA Advantage! and FACNET), credit card orders, and orders placed under blanket purchase agreements (BPAs) shall be the basis for the purchase of training courses in accordance with the terms of this contract. Orders shall include the student's name, course title, course date and time, and contracted dollar amount of the course.

3. **TIME OF DELIVERY**
   The Contractor shall conduct training on the date (time, day, month, and year) agreed to by the Contractor and the ordering activity.

4. **CANCELLATION AND RESCHEDULING**
   a. The ordering activity will notify the Contractor at least seventy-two (72) hours before the scheduled training date, if a student will be unable to attend. The Contractor will then permit the ordering activity to either cancel the order or reschedule the training at no additional charge. In the event the training class is rescheduled, the ordering activity will modify its original training order to specify the time and date of the rescheduled training class.
   b. In the event the ordering activity fails to cancel or reschedule a training course within the time frame specified in paragraph a. above, the ordering activity will be liable for the contracted dollar amount of the training course. The Contractor agrees to permit the ordering activity to reschedule a student who fails to attend a training class within ninety (90) days from the original course date, at no additional charge.
   c. The ordering activity reserves the right to substitute one student for another up to the first day of class.
   d. In the event the Contractor is unable to conduct training on the date agreed to by the Contractor and the ordering activity, the Contractor must notify the ordering activity at least seventy-two (72) hours before the scheduled training date.
5. **PRICE FOR TRAINING**  
The price that the ordering activity will be charged will be the ordering activity training price in effect at the time of order placement, or the ordering activity price in effect at the time the training course is conducted, whichever is less.

6. **INVOICES AND PAYMENT**  
Invoices for training shall be submitted by the Contractor after ordering activity completion of the training course. Charges for training must be paid in arrears (31 U.S.C. 3324). PROMPT PAYMENT DISCOUNT, IF APPLICABLE, SHALL BE SHOWN ON THE INVOICE. All orders for training units cannot be paid in advance. Training units can only be invoiced once the training units are used and the training course is completed. It is the order activity’s responsibility to use funds for training units before the expiration of the funds or the end of performance period of the order. At no point is the Government obligated to pay EIS for training units the ordering activity does not use during the performance period of the order.

7. **FORMAT AND CONTENT OF TRAINING**  
a. The Contractor shall provide written materials (i.e., manuals, handbooks, texts, etc.) normally provided with course offerings. Such documentation will become the property of the student upon completion of the training class.

b. **If applicable** For hands-on training courses, there must be a one-to-one assignment of IT equipment to students.

c. The Contractor shall provide each student with a Certificate of Training at the completion of each training course.

d. The Contractor shall provide the following information for each training course offered:
   (1) The course title and a brief description of the course content, to include the course format (e.g., lecture, discussion, hands-on training);

   (2) The length of the course;

   (3) Mandatory and desirable prerequisites for student enrollment;

   (4) The minimum and maximum number of students per class;

   (5) The locations where the course is offered;

   (6) Class schedules; and

   (7) Price (per student, per class (if applicable)).

e. For those courses conducted at the ordering activity’s location, instructor travel charges (if applicable), including mileage and daily living expenses, must comply with the Federal Travel Regulation or Joint Travel Regulations, as applicable, in effect on the date(s) the travel is performed. Contractors cannot use GSA city pair contracts.
### TERMS AND CONDITIONS APPLICABLE TO SOFTWARE LICENSES
(SPECIAL ITEM NUMBER 511210)

1. **INSPECTION/ACCEPTANCE**

   The Contractor shall only tender for acceptance those items that conform to the requirements of this contract. The ordering activity reserves the right to inspect or test any software that has been tendered for acceptance. The ordering activity may require repair or replacement of nonconforming software at no increase in contract price. The ordering activity must exercise its post-acceptance rights (1) within a reasonable time after the defect was discovered or should have been discovered; and (2) before any substantial change occurs in the condition of the software, unless the change is due to the defect in the software.

2. **GUARANTEE/WARRANTY**

   a. The Contractor warrants the software for defect correction for a period of 90 days after initial delivery. In the event CLIENT experiences a software failure, The Contractor agrees to provide to
