INFORMATION FOR ORDERING ACTIVITIES
APPLICABLE TO ALL SPECIAL ITEM NUMBERS

SPECIAL NOTICE TO AGENCIES: Small Business Participation

SBA strongly supports the participation of small business concerns in the Federal Acquisition Service. To enhance Small Business Participation SBA policy allows agencies to include in their procurement base and goals, the dollar value of orders expected to be placed against the Federal Supply Schedules, and to report accomplishments against these goals.

For orders exceeding the micropurchase threshold, FAR 8.404 requires agencies to consider the catalogs/pricelists of at least three schedule contractors or consider reasonably available information by using the GSA Advantage!™ on-line shopping service (www.fss.gsa.gov). The catalogs/pricelists, GSA Advantage!™ and the Federal Acquisition Service Home Page (www.fss.gsa.gov) contain information on a broad array of products and services offered by small business concerns.

This information should be used as a tool to assist ordering activities in meeting or exceeding established small business goals. It should also be used as a tool to assist in including small, small disadvantaged, and women-owned small businesses among those considered when selecting pricelists for a best value determination.

For orders exceeding the micropurchase threshold, customers are to give preference to small business concerns when two or more items at the same delivered price will satisfy their requirement.

12. ORDERING PROCEDURES FOR FEDERAL SUPPLY SCHEDULE CONTRACTS

Ordering activities shall use the ordering procedures of Federal Acquisition Regulation (FAR) 8.405 when placing an order or establishing a BPA for supplies or services. These procedures apply to all schedules.

- a. FAR 8.405-1 Ordering procedures for supplies, and services not requiring a statement of work.

8.405-1 Ordering procedures for supplies, and services not requiring a statement of work.

(a) Ordering activities shall use the procedures of this subsection when ordering supplies and services that are listed in the schedules contracts at a fixed price for the performance of a specific task, where a statement of work is not required (e.g., installation, maintenance, and repair).

(b) *Orders at or below the micro-purchase threshold.* Ordering activities may place orders at, or below, the micro-purchase threshold with any Federal Supply Schedule contractor that can meet the agency's needs. Although not required to solicit from a specific number of schedule contractors, ordering activities should attempt to distribute orders among contractors.

(c) *Orders exceeding the micro-purchase threshold but not exceeding the maximum order threshold.*

(1) Ordering activities shall place orders with the schedule contractor that can provide the supply or service that represents the best value. Before placing an order, an ordering activity shall consider reasonably available information about the supply or service offered under MAS contracts by surveying at

least three schedule contractors through the GSA Advantage! on-line shopping service, or by reviewing the catalogs or pricelists of at least three schedule contractors (see [8.405-5](#)).

(2) When an order contains brand name specifications, the contracting officer shall post the Request for Quote (RFQ) along with the justification or documentation as required by [8.405-6](#).

(3) In addition to price, when determining best value, the ordering activity may consider, among other factors, the following:

- (i) Past performance.
- (ii) Special features of the supply or service required for effective program performance.
- (iii) Trade-in considerations.
- (iv) Probable life of the item selected as compared with that of a comparable item.
- (v) Warranty considerations.
- (vi) Maintenance availability.
- (vii) Environmental and energy efficiency considerations.
- (viii) Delivery terms.

(d) *Orders exceeding the maximum order threshold.* Each schedule contract has a maximum order threshold established on a SIN-by-SIN basis. Although a price reduction may be sought at any time, this threshold represents the point where, given the dollar value of the potential order, the ordering activity shall seek a price reduction. In addition to following the procedures in paragraph (c) of this section and before placing an order that exceeds the maximum order threshold or establishing a BPA (see [8.405-3](#)), ordering activities shall—

(1) Review (except see (c)(2) of this subsection) the pricelists of additional schedule contractors (the GSA Advantage! on-line shopping service can be used to facilitate this review);

(2) Based upon the initial evaluation, seek price reductions from the schedule contractor(s) considered to offer the best value (see [8.404\(d\)](#)); and

(3) After seeking price reductions (see [8.405-4](#)), place the order with the schedule contractor that provides the best value. If further price reductions are not offered, an order may still be placed.

(e) *Minimum documentation.* The ordering activity shall document—

(1) The schedule contracts considered, noting the contractor from which the supply or service was purchased;

(2) A description of the supply or service purchased; and

(3) The amount paid.

b. FAR 8.405-2 Ordering procedures for services requiring a statement of work.

8.405-2 Ordering procedures for services requiring a statement of work.

(a) *General.* Ordering activities shall use the procedures in this subsection when ordering services priced at hourly rates as established by the schedule contracts. The applicable services will be identified in the Federal Supply Schedule publications and the contractor's pricelists.

(b) *Statements of Work (SOWs)*. All Statements of Work shall include the work to be performed; location of work; period of performance; deliverable schedule; applicable performance standards; and any special requirements (e.g., security clearances, travel, special knowledge). To the maximum extent practicable, agency requirements shall be performance-based statements (see [Subpart 37.6](#)).

(c) *Request for Quotation procedures*. The ordering activity must provide the Request for Quotation (RFQ), which includes the statement of work and evaluation criteria (e.g., experience and past performance), to schedule contractors that offer services that will meet the agency's needs. The RFQ may be posted to GSA's electronic RFQ system, e-Buy (see [8.402\(d\)](#)).

(1) *Orders at, or below, the micro-purchase threshold*. Ordering activities may place orders at, or below, the micro-purchase threshold with any Federal Supply Schedule contractor that can meet the agency's needs. The ordering activity should attempt to distribute orders among contractors.

(2) *For orders exceeding the micro-purchase threshold, but not exceeding the maximum order threshold*.

(i) The ordering activity shall develop a statement of work, in accordance with [8.405-2\(b\)](#).

(ii) The ordering activity shall provide the RFQ (including the statement of work and evaluation criteria) to at least three schedule contractors that offer services that will meet the agency's needs.

(iii) The ordering activity should request that contractors submit firm-fixed prices to perform the services identified in the statement of work.

(3) *For proposed orders exceeding the maximum order threshold or when establishing a BPA*. In addition to meeting the requirements of [8.405-2\(c\)\(2\)](#), the ordering activity shall—

(i) Provide the RFQ (including the statement of work and evaluation criteria) to additional schedule contractors that offer services that will meet the needs of the ordering activity. When determining the appropriate number of additional schedule contractors, the ordering activity may consider, among other factors, the following:

(A) The complexity, scope and estimated value of the requirement.

(B) The market search results.

(ii) Seek price reductions.

(4) The ordering activity shall provide the RFQ (including the statement of work and the evaluation criteria) to any schedule contractor who requests a copy of it.

(d) *Evaluation*. The ordering activity shall evaluate all responses received using the evaluation criteria provided to the schedule contractors. The ordering activity is responsible for considering the level of effort and the mix of labor proposed to perform a specific task being ordered, and for determining that the total price is reasonable. Place the order, or establish the BPA, with the schedule contractor that represents the best value (see [8.404\(d\)](#)). After award, ordering activities should provide timely notification to unsuccessful offerors. If an unsuccessful offeror requests information on an award that was based on factors other than price alone, a brief explanation of the basis for the award decision shall be provided.

(e) *Minimum documentation*. The ordering activity shall document—

(1) The schedule contracts considered, noting the contractor from which the service was purchased;

(2) A description of the service purchased;

- (3) The amount paid;
- (4) The evaluation methodology used in selecting the contractor to receive the order;
- (5) The rationale for any tradeoffs in making the selection;
- (6) The price reasonableness determination required by paragraph (d) of this subsection; and
- (7) The rationale for using other than—
 - (i) A firm-fixed price order; or
 - (ii) A performance-based order.

Ordering activities shall follow FAR 8.405-3 when creating and implementing BPA(s).

[8.405-3 Blanket purchase agreements \(BPAs\).](#)

[\(a\)\(1\) Establishment.](#) Ordering activities may establish BPAs under any schedule contract to fill repetitive needs for supplies or services. BPAs may be established with one or more schedule contractors. The number of BPAs to be established is within the discretion of the ordering activity establishing the BPAs and should be based on a strategy that is expected to maximize the effectiveness of the BPA(s). In determining how many BPAs to establish, consider—

- [\(i\) The scope and complexity of the requirement\(s\);](#)
- [\(ii\) The need to periodically compare multiple technical approaches or prices;](#)
- [\(iii\) The administrative costs of BPAs; and](#)
- [\(iv\) The technical qualifications of the schedule contractor\(s\).](#)

[\(2\) Establishment of a single BPA, or multiple BPAs, shall be made using the same procedures outlined in \[8.405-1\]\(#\) or \[8.405-2\]\(#\). BPAs shall address the frequency of ordering, invoicing, discounts, requirements \(e.g. estimated quantities, work to be performed\), delivery locations, and time.](#)

[\(3\) When establishing multiple BPAs, the ordering activity shall specify the procedures for placing orders under the BPAs.](#)

[\(4\) Establishment of a multi-agency BPA against a Federal Supply Schedule contract is permitted if the multi-agency BPA identifies the participating agencies and their estimated requirements at the time the BPA is established.](#)

(b) Ordering from BPAs—

(1) *Single BPA*. If the ordering activity establishes one BPA, authorized users may place the order directly under the established BPA when the need for the supply or service arises.

(2) *Multiple BPAs*. If the ordering activity establishes multiple BPAs, before placing an order exceeding the micro-purchase threshold, the ordering activity shall—

(i) Forward the requirement, or statement of work and the evaluation criteria, to an appropriate number of BPA holders, as established in the BPA ordering procedures; and

(ii) Evaluate the responses received, make a best value determination (see [8.404\(d\)](#)), and place the order with the BPA holder that represents the best value.

(3) *BPAs for hourly rate services*. If the BPA is for hourly rate services, the ordering activity shall develop a statement of work for requirements covered by the BPA. All orders under the BPA shall specify a price for the performance of the tasks identified in the statement of work.

(c) *Duration of BPAs*. BPAs generally should not exceed five years in length, but may do so to meet program requirements. Contractors may be awarded BPAs that extend beyond the current term of their GSA Schedule contract, so long as there are option periods in their GSA Schedule contract that, if exercised, will cover the BPA's period of performance.

(d) Review of BPAs.

(1) The ordering activity that established the BPA shall review it at least once a year to determine whether—

(i) The schedule contract, upon which the BPA was established, is still in effect;

(ii) The BPA still represents the best value (see [8.404\(d\)](#)); and

(iii) Estimated quantities/amounts have been exceeded and additional price reductions can be obtained.

(2) The ordering activity shall document the results of its review.

21. CONTRACTOR TEAM ARRANGEMENTS

Contractors participating in contractor team arrangements must abide by all terms and conditions of their respective contracts. This includes compliance with Clauses 552.238-74, Industrial Funding Fee and Sales Reporting, i.e., each contractor (team member) must report sales and remit the IFF for all products and services provided under its individual contract.

22. INSTALLATION, DEINSTALLATION, REINSTALLATION

The Davis-Bacon Act (40 U.S.C. 276a-276a-7) provides that contracts in excess of \$2,000 to which the United States or the District of Columbia is a party for construction, alteration, or repair (including painting and decorating) of public buildings or public works with the United States, shall contain a clause that no laborer or mechanic employed directly upon the site of the work shall received less than the prevailing wage rates as determined by the Secretary of Labor. The requirements of the Davis-Bacon Act do not apply if the construction work is incidental to the furnishing of supplies, equipment, or services. For example, the requirements do not apply to simple installation or alteration of a public building or public work that is incidental to furnishing supplies or equipment under a supply contract. However, if the

construction, alteration or repair is segregable and exceeds \$2,000, then the requirements of the Davis-Bacon Act applies.

The ordering activity issuing the task order against this contract will be responsible for proper administration and enforcement of the Federal labor standards covered by the Davis-Bacon Act. The proper Davis-Bacon wage determination will be issued by the ordering activity at the time a request for quotations is made for applicable construction classified installation, deinstallation, and reinstallation services under SIN 132-8.

23. SECTION 508 COMPLIANCE.

If applicable, Section 508 compliance information on the supplies and services in this contract are available in Electronic and Information Technology (EIT) at the following:

(a) A copy of the authorization from the ordering activity with whom the contractor has the prime contract (unless a copy was previously furnished to the Federal Supply Schedule contractor); and

(b) The following statement:

This order is placed under written authorization from _____ dated _____. In the event of any inconsistency between the terms and conditions of this order and those of your Federal Supply Schedule contract, the latter will govern.

25. INSURANCE—WORK ON A GOVERNMENT INSTALLATION (JAN 1997)(FAR 52.228-5)

(a) The Contractor shall, at its own expense, provide and maintain during the entire performance of this contract, at least the kinds and minimum amounts of insurance required in the Schedule or elsewhere in the contract.

(b) Before commencing work under this contract, the Contractor shall notify the Contracting Officer in writing that the required insurance has been obtained. The policies evidencing required insurance shall contain an endorsement to the effect that any cancellation or any material change adversely affecting the Government's interest shall not be effective—

(1) For such period as the laws of the State in which this contract is to be performed prescribe; or

(2) Until 30 days after the insurer or the Contractor gives written notice to the Contracting Officer, whichever period is longer.

(c) The Contractor shall insert the substance of this clause, including this paragraph (c), in subcontracts under this contract that require work on a Government installation and shall require subcontractors to provide and maintain the insurance required in the Schedule or elsewhere in the contract. The Contractor shall maintain a copy of all subcontractors' proofs of required insurance, and shall make copies available to the Contracting Officer upon request.

26. SOFTWARE INTEROPERABILITY.

Offerors are encouraged to identify within their software items any component interfaces that support open standard interoperability. Interfaces may be identified by reference to an interface registered in the component registry located at <http://www.core.gov>.

27. ADVANCE PAYMENTS
