Labor Category Descriptions

Sprezzatura Management Consulting, LLC offers the following Labor Category Descriptions to support the effort contemplated herein.

**Title:** Technical Applications/Systems Analyst

**Education:** BS

**Experience:** 6 years

**Functional Duties:** Formulates and defines system scope and objectives. Devises or modifies procedures to solve complex problems considering computer equipment capacity and limitations, operating time, and form of desired results. Prepares detailed specifications from which programs will be written. Designs, codes, tests, debug, and document those programs. Competent to work at the highest technical level of all phases of applications systems analysis and programming activities. May be responsible for completion of a phase of a project. Regularly provides guidance and training to less-experienced analyst/programmers.

**Title:** Project Analyst

**Education:** BS

**Experience:** 4 years

**Functional Duties:** Provides technical expertise and support in one or more emerging technology areas including, but not limited to, computer security, network, wireless communications, Internet technologies, secure messaging, enterprise engineering, fraud detection, intrusion detection, bioinformatics, information assurance, and critical infrastructure protection.

**Title:** Cost Estimator/Analyst

**Education:** BS

**Experience:** 3 years

**Functional Duties:** Applies diversified knowledge of weapons systems cost estimating principles and practices in areas of assignments. Work requires the modification and extension of existing methodologies and may require the use of advanced techniques. Plans and conducts work requiring judgment in the evaluation, selection and adaptation and or modification of methodologies and tools. Normally receives technical guidance or consults with senior estimators on unusual or complex problems. Work requires the technical capability to assess the cost and schedule implications of existing and projected technological advances, as well as being able to evaluate the impact of new and innovative acquisition strategies. Work is reviewed by the senior estimator or manager to ensure technical accuracy, and to ensure it satisfies customer needs and complies with the contractor’s overall estimating standards.

**Title:** Integration Engineer, Senior

**Education:** BS
Experience: 3 years

**Functional Duties:** Performs integration of moderately complex medium- to small-scale hardware, software, and system architecture components to ensure reliable and sustainable operation of the technology solution. Develops system setup and installation instructions and preventative and corrective maintenance procedures for the technology solution.

**Title:** Integration Engineer Expert

**Education:** BS

---

Experience: 5 years

**Functional Duties:** Performs integration of complex large-scale hardware, software, and system architecture components to ensure reliable and sustainable operation of the technology solution. Develops system setup and installation instructions and preventative and corrective maintenance procedures for the technology solution.

**Title:** Sr. Prog Mgmt Analyst

**Education:** BS

---

Experience: 4 years

**Functional Duties:** Provides technical expertise, support, and oversight in one or more emerging technology areas including, but not limited to, computer security, network, wireless communications, Internet technologies, secure messaging, enterprise engineering, fraud detection, intrusion detection, bioinformatics, information assurance, and critical Infrastructure protection.

**Title:** Proj Analyst

**Education:** BS

---

Experience: 2 years

**Functional Duties:** Provides technical expertise and support in one or more emerging technology areas including, but not limited to, computer security, network, wireless communications, Internet technologies, secure messaging, enterprise engineering, fraud detection, intrusion detection, bioinformatics, information assurance, and critical infrastructure protection.

**Title:** Engineering Analyst Sr

**Education:** BS

---

Experience: 5 years
**Functional Duties:** Experience in some of the following or related technical disciplines: data communications, network management, and operational activities of a network; functional requirements analysis; computer security systems; and quality assurance.

**Title:** Proj Analyst Jr

**Education:** BS

**Experience:** 1 years

**Functional Duties:** Entry-level professional employee, who provides technical support in one or more emerging technology areas including, but not limited to, computer security, network, wireless communications, Internet technologies, secure messaging, enterprise engineering, fraud detection, intrusion detection, bioinformatics, information assurance, and critical infrastructure protection. Works independently or as part of team. Duties include the application of systems analysis techniques and procedures, including consulting with users, to determine hardware, software or system functional specifications; design, documentation, and testing of computer programs related to network or systems.

**Title:** Functional Area Expert II

**Education:** BS

**Experience:** 5 years

**Functional Duties:** Domain expert who provides technical planning, system integration, verification and validation, cost and risk, supportability and effectiveness analyses for total systems. Determines system specifications, input/output processes and working parameters for hardware/software compatibility. Performs functional analysis, detail trade studies, requirements allocation and interface definition studies to translate customer requirements into hardware and software specifications.

**Title:** Engineering Analyst

**Education:** BS

**Experience:** 4 years

**Functional Duties:** Experienced in one of the following engineering disciplines: systems engineering, systems integration, software engineering, information engineering telecommunications engineering, network engineering, electrical engineering, and data quality engineering (or other relevant engineering disciplines).
