CUSTOMER INFORMATION

E&E Enterprises Global is an information technology, cyber security, and a satellite and terrestrial telecommunication service and equipment provider. E&E offers TV, space segment, satellite networks, internet connectivity, T1, DSL, data streaming, voice over IP, and phones to a wide variety of government and commercial customers. E&E provides customers quality information assurance solutions and support in meeting federal regulatory requirements including all aspects of certification and accreditation, standard test and evaluation, and independent verification and validation. E&E is a visionary solutions provider and has established relationships; value added reseller agreements, and letters of supply with the world’s largest satellite and telecommunication equipment providers. E&E is an 8(a) and Service Disabled Veteran Owned Small Business.

E&E Enterprises Global, Inc. is a privately owned company headquartered in Hampton, Virginia.

E&E’s solutions enhances government agencies ability to respond to the public needs by increasing emergency preparedness, by providing distance education, supporting homeland security measures, offering a wide variety of fully integrated telecommunication solutions, and by providing internet and voice over IP service in rural areas. E&E’s robust, scalable and highly secure broadband solutions empower governments to better serve the public. E&E’s satellite solutions remain operational even when terrestrial networks fail.

E&E is a Value Added Reseller and government solution provider for DirecTV, Hughes Network Systems, Verizon Business, Verizon Federal, Verizon Wireless, Thrane & Thrane, Tachyon, Vista, INTELSAT, SPACENET, Telenor and others. E&E holds service agreements and letters of supply from each of these major satellite service providers and can provide INMARSAT, Global star and Iridium space segment. E&E provides C, Ka, Ku, L and X band worldwide.

All E&E satellite installers are FCC Licensed and Satellite Broadcasting Association (SBCA) level I, II and III certified. E&E expertly installs fixed, mobile, small, and large satellite dishes.

E&E is an innovator. E&E successfully deployed a Solar Powered Satellite Surveillance System through E&E’s research and development initiative using primarily COTS products. E&E designed, developed, and engineered the system from the ground up. As a fully deployed satellite communication node, this system not only provides surveillance, but also voice over IP, data, and fax capability where no power source exists. E&E is developing several versions of this capability to include thermal imaging and infrared. E&E deployed the first system in Socorro, New Mexico for the Department of the Interior, United States Bureau of Reclamation supporting the Army Corps of Engineers.

E&E offers handheld satellite phones (Iridium, Global star, Inmarsat and Thuraya), GAN and BGAN. E&E provides satellite-based full-duplex circuit-switched voice, data, and facsimile communications, capable of supporting land, maritime, and aeronautical mobile communications for our government customers.

E&E is in compliance with all Federal Information Processing Standards (FIPS) and federal mandates and guidance pertinent to commercial satellite services (FIPS 140-1 and FIPS 140-2). E&E provides the Department of Defense with equipment compliant with DVB-52/RCS (including variable and adaptive coding and modulation) SATCOM waveform standards.

E&E has installed and has satellite systems operating throughout the United States and many overseas locations. One example is E&E’s contract with the Transportation Security Agency to provide satellite broadcast news and local programming to 550 airports nationwide. Another example is E&E’s contract with the US Army Accession Command. Under this contract E&E provides DSL, cable, T1, dial-up, and satellite support to all US Army recruiting stations. E&E transitioned more than 2000 sites (including Alaska, Hawaii, Puerto Rico, Guam, and American Samoa) within 30 days of receipt of the task order.

E&E provides 24/7 tech and helpdesk support for our federal, state, and private sector customers. Additionally, E&E’s automated and web-based billing makes paying for these services easy for our customers.

Satellite Services-II (SATCOM-II) program provides an expanded range of end-to-end satellite solutions for government agencies and serves as the primary replacement vehicle for the highly successful Satellite Services contracts. GSA’s website describes SATCOM II’s Benefits and Service Types as:

Benefits

- **Service Continuity** – In structuring the SATCOM-II acquisition, the government defined and included all services that are currently available under the GSA Satellite Services Program. The realization of this goal will facilitate a smooth transition from the existing satellite contract(s) to the SATCOM-II contract.
- **Competitive Pricing** – All equipment and services offered under the SATCOM-II contract are equal to or less than commercial pricing.
- **Continuous Competition** – The government awarded multiple contracts which provide agencies with a broad array of service options and continuous competition among service providers throughout the life of the acquisition.

Phone #: 757-826-9532

Fax #: 757-265-9750

“IT Solutions for Today’s Business”

20 Basil Sawyer Drive

Hampton, VA 23666

- **Full Range of Commercial Offerings** – The government awarded contracts that provide a wide range of commercial satellite offerings to include mobile, fixed and broadcast solutions.
- **Flexible Commercial Ordering and Billing Options** – The contracts allow ordering and billing options to customers. Similar to the previous Satellite contract(s), customers can take advantage of direct-order, direct-billed or GSA-assisted ordering and billing options.
- **Service Quality** – The SATCOM-II acquisition includes agreements to ensure high quality service is delivered throughout the terms of the contracts.

Service Types

- **Type I Services -- Transport Services**
All service providers offer Mobile Satellite Service, Fixed Satellite Service, or both.
- **Type II Services -- Applications Services**
All service providers offer at least one Satellite Applications Service. These may be Distance Learning, Emergency Response/Continuity of Operations Planning, Telemedicine, Streaming Video, and Broadcast Satellite Service (BSS).
- **Type III Services -- Design, Engineering, and Maintenance Services**
Design, Engineering, and Maintenance Services provide satellite system engineering design, configuration, installation, implementation, training, and ongoing maintenance and operational support for the services delivered under Service Types I and II.
- **Type IV Services -- Professional Support Services (Small Business only)**
Professional Support Services include abstract or concept studies and analysis, strategic and preliminary planning, requirements definition and analysis, the evaluation of alternative technical approaches, modeling and simulation, enterprise architecture design, cost/cost-performance trade-off analysis, feasibility analysis, regulatory compliance support, system engineering, independent verification and validation, and Information Assurance certification and accreditation.

Satellite provides the only network available where no phone or cable lines exist, which is usual for federal workers fighting wilderness wildfires, patrolling remote borders and rescuing injured citizens from devastating hurricanes or tornadoes. With the rapid and reliable communications networks provided by this contract, federal workers can use hand-held receivers similar to cell phones as well as access full broadband computer networks anywhere in the world. These networks begin with a compact satellite station that fits in a car trunk but provides all computer, e-mail and broadband Internet capability normally found only in the office. These stations can even operate from aircraft and ships. SATCOM-II's broadband access also makes possible broadcast services as well as distance learning for federal customers in areas throughout the world that don't have a normal communications network, because it enables audio and video transmission of educational material.

E&E provides Information Assurance (IA) support to the Federal Sector, DOD and Commercial Customers. For the work performed within the Federal Sector, E&E uses the NIST Special Publication (SP) 800-37, “*Guide for the Security Certification and Accreditation of Federal Information Systems*” (FISCAP) for the accreditation of the Servers, Networks, and Applications. E&E brings hands on experience in supporting, certifying, testing, and protecting classified networks including all encryption requirements and processes. E&E has on staff CISSP, NSA IAM, GIAC, and CWSP certified professionals.

E&E provides a wide variety of Cyber Security solutions including:

- ✓ Independent Verification and Validation (IV&V)
- ✓ Certification and Accreditation (C&A)
- ✓ Security Test and Evaluation (ST&E)
- ✓ Risk Analysis
- ✓ Continuity of Operations Planning (COOP)
- ✓ Disaster Recovery Planning
- ✓ Information Assurance Policy Development
- ✓ CIRC/NOC Services
- ✓ Security Planning
- ✓ Business Continuity

E&E expertise includes both physical and electronic securities, providing an interdependent perspective of security. This unique multi-disciplinary approach includes:

- ✓ Physical security (includes resource protection),
- ✓ Information security,
- ✓ Personnel security (includes industrial security),
- ✓ Computer security (COMPUSEC),
- ✓ Telecommunications/Communications security (COMSEC),
- ✓ Operations security (OPSEC),

- ✓ Emission security (EMSEC)
- ✓ Security awareness, training and education (SATE)

E&E provides measures that protect and defend information and information systems by ensuring their availability, integrity, authentication, confidentiality, and non-repudiation. These measures include providing for restoration of information systems by incorporating protection, detection, and reaction capabilities. As telecommunication service provider, as well as information assurance experts, E&E is uniquely positioned to provide a total solution.

Contract and Corporate Management: E&E is currently managing 94 broadband contracts simultaneously. E&E provides Broadband Internet over satellite and digital satellite television services. The contracts vary in size, value, and complexity. Ninety percent (90%) of these contracts are government contracts (federal, state, or local government agencies). E&E’s existing broadcast contracts range from \$3K to more than \$2M. E&E’s broadband internet satellite services range from \$3K to over \$20M. E&E’s satellite services include installation, bandwidth/space segment, e-mail accounts, billing, Tier-1 and Tier-2 Tech Support, Tier-3 Engineering Support, maintenance and dedicated gateways.

E&E’s current federal customers include: DoD (Air Force, Army, Navy, and Marines), Defense Contract Management Agency, USDA, US Bureau of Reclamation, US Forestry Service, Defense Nuclear Facilities Safety Board, Indian Health Services (Ft McDermott), Fleet Industrial Supply Center, US Fish and Wildlife Service, VAMC Hampton, Environmental Protections Agency. Non-Federal Customers include the States of Virginia, Texas, California, Florida, New Mexico, Oregon, Arizona, and Washington, the Florida Dept of Education, the Virginia Dept of Veterans Affairs, Virginia Dept of Forestry, Applied Research Laboratory, and Lawrence Livermore Laboratory. E&E’s current Tribal Community customers include: Cherokee Nation (Eastern and Western Bands), Indian Health Service, Seneca Nation, Miccosukee Tribe of Indians, and Table Mountain Rancheria. E&E manages many of these agencies information services on E&E dedicated gateways. Our customers’ appreciate E&E’s Tier 1 & Tier 2 help desk support and on-site maintenance which provides valued personal service.

E&E is committed to delivering all contracted services on time and within budget. E&E has not had a single contract cost overrun during the last three years. The only charges that have ever exceeded an initial estimate are those charges that were included in the contract as “Out of Scope.” Additionally, E&E has not lost a single contract for failing to deliver contracted services. E&E’s owner is committed to “delivering as promised” and he ensures this commitment permeates the company.

Fax #: 757-265-9750

“IT Solutions for Today’s Business”

**20 Basil Sawyer Drive
Hampton, VA 23666**

An original invoice is required as proof of the purchase date. If, at any time during the warranty period, the product has a defect in workmanship or material, E&E Enterprises Global, Inc. shall replace or repair it (at E&E Enterprises Global, Inc. option) within 30 to 45 days ARO.

This warranty does not cover defects or malfunctions caused as a result of software transfers, misuse, abusive operation, tampering, negligence, improper use, insufficient care or any act beyond the control of E&E Enterprises Global, Inc as determined by E&E Enterprises Global, Inc. The opinion of E&E Enterprises Global, Inc. with respect to this matter shall be final.

WARNING:

When you buy equipment or services from us, your equipment will be sent to you with the latest software and firmware available at the time when the unit was manufactured. Upgrades of firmware or software may be necessary at certain times in the future in order to ensure continued proper operation of your equipment or software. E&E Enterprises Global, Inc. does not support third-party software, and if used, it will void the manufacturer's warranty.

Please note that certain equipment software is incompatible across various models. If you upload the wrong software and create a problem with the equipment, this will not only void your warranty but may make your equipment inoperable. File transfer errors as a result of unauthorized third-party software or firmware are entirely the user's responsibility and E&E Enterprises Global, Inc. is not responsible for any problems that may result.

To avoid invalidating your warranty as a result of transferring software to your equipment, contact your GSA schedule contractor to have a factory-trained technician upload software or firmware to your equipment. Only official software and upgrades available from the E&E Enterprises Global, Inc. can be used with your equipment. Under no circumstances, should any other software be used with the E&E Enterprises Global, Inc. equipment.

LEGAL DISCLAIMER AND LIMITATION OF LIABILITY

E&E Enterprises Global, Inc. is not responsible to anyone for any loss or damage occasioned by, or arising out of the improper or illegal use of products manufactured or distributed by E&E Enterprises Global, Inc.

In no event whatsoever, shall E&E Enterprises Global, Inc. be liable for any form of indirect, special, incidental, exemplary, or consequential damages, including, but not being limited to, any loss of profits or loss of business, or loss of time as a result of any breach of the terms hereof by the User/Buyer or any third party.

The equipment provided by E&E Enterprises Global, Inc. is intended for legitimate usage only. It is the sole responsibility of the user to ensure compliance with all laws when using these products. It is a criminal offence to illegally access encrypted satellite signals or to use a satellite link for any purpose other than that intended purpose as set forth in the Service Subscriber Agreement.

The buyer of E&E Enterprises Global, Inc. products agrees to indemnify and hold harmless E&E Enterprises Global, Inc. according to applicable, laws and GSA regulations; it’s officers, directors, shareholders, employees, agents, assigns, and affiliates, from any and all claims, actions, suits, demands, and legal costs, brought against E&E Enterprises Global, Inc. in connection with any use or improper use of E&E Enterprises Global, Inc. products by the Buyer/User or a third party.

TERMS OF USE & DECLARATION OF INTENT:

The end-users of E&E ENTERPRISES GLOBAL, INC. products or products offered by E&E Enterprises Global, Inc. need to read and agree to the Terms of Use and Declaration of Intent. The sale of our product is contingent upon these terms, applicable GSA rules, Federal, State and Local laws. The user of E&E ENTERPRISES GLOBAL, INC. products agrees to the terms below.

I, the user, understand that certain equipment sold legally may nevertheless be used in an unauthorized manner to aid in the theft of satellite services or to pass illegal information. I, hereby declare that I understand that the law provides for substantial criminal and civil penalties for such use, and that I will not use E&E ENTERPRISES GLOBAL, INC. products in any way whatsoever to intercept or transmit any satellite or communications signal for unlawful purposes, and I will only use the equipment in accordance with all applicable laws, rules or regulations.

A585	132-8	NERA SatLink 1910 Nera SatLink 4033 2.0 W Ku-Band Transceiver; Nera's SatLink 1910 is a high-end DVB-RCS indoor unit. It is DVB-RCS compliant and designed for connecting a single user or an end-user LAN to a DVB-RCS satellite network. The design is compact 19" 1SU, making it well suited for both rack mounting and SOHO placement. Contains both DVB-S/DVB-RCS modems, an industry standard IP rack, and Ethernet interface. Can be configd. with a range of diff. antennas and outdoor units. Upto 8mbps IP throughput. The Nera SatLink 4033 DVB-RCS Trans is highly integrated trans and recvr in one housing unit. The receiver cover the entire Ku band and is compatible with all Vsat antennas. Package requires antenna assembly.	\$	3,259.00	Destination	30 Days/TBD Expedites Available	Included
A586	132-8	NERA SatLink 1000 with Nera SatLink 4033 2.0 W Ku-Band Transceiver is a DVB-RCS compliant indoor unit designed for connecting a single user or end-user LAN to a DVB-RCS satellite network. The design is compact, laptop sized, making it well suited for placement in a SOHO/SGE environment. Contains DVB-S/DVB-RCS modems, an industry standard IP rack, and Ethernet interface. Can be configd. with a range of diff. antennas and out door units. The Nera SatLink 4033 DVB-RCS Trans. is a highly integrate trans. and recvr in one housing unit. The receiver cover the entire Ku band and is compatible with all Vsat antennas. Package requires antenna assembly.	\$	1,800.00	Destination	30 Days/TBD Expedites Available	Included
