OLM - Any proposed OLMs must be in support of the order and shall not exceed 33.33% of the total order value.

This maximum order threshold is a dollar amount at which it is suggested that the ordering agency request higher discounts from the contractor before issuing the order. The contractor may: (1) Offer a new lower price, (2) Offer the lowest price available under the contract, or (3) Decline the order within five (5) days. In accordance with the Maximum Order provisions contained in the Schedule, a delivery order may be placed against the Schedule contract even though it exceeds the maximum order threshold.

3. MINIMUM ORDER LIMITATION:  $100

4. GEOGRAPHIC COVERAGE (DELIVERY AREA): The geographic scope of this contract is the 48 contiguous United States and District of Columbia.

5. POINT OF PRODUCTION: United States

6. BASIC DISCOUNT: Prices shown are NET Prices; Basic Discounts have been deducted

Dataprise Labor Category Descriptions

Hardware Technician (HW1)

Functional Responsibility: Documents network configuration and user requirements, including those supporting LANs and WANs. Uses engineering plans, site installation Technical Design Packages, and drawings to assist in configuration changes. Contributes to site installation and test reports. Performs post installation checkout, operations and maintenance support. Assists in site surveys. Configures computers, communications devices, and peripheral equipment. Builds and assembles interconnecting cables and other specialized hardware. Installs hardware, cables and related devices.

Minimum Experience: This position typically requires two years of experience. See footnote below.

Minimum Education: An Associate’s degree or equivalent in Computer Science, Information Systems, Engineering, Business, or other related field. See footnote below.

Note – In some cases, the following will be considered in place of minimum education and experience: unique education, specialized experience, skills, knowledge, training or certification; quality of experience; national recognition; exceptional Grade Point Average. Related experience may be substituted for education. Education and experience requirements will be determined jointly by Dataprise and the customer based on task requirements.

Help Desk Technician (HD1)

Functional Responsibility: Provides user support services including help desk functions and user training. Provides phone and in-person advice to users in areas such as e-mail, directories, desktop applications, and project-specific applications. Performs troubleshooting of problems in hardware, software, peripherals and communications. Conducts user needs assessments. May develop training courses, associated instructor and student materials, and training aids. Conducts training, group facilitation, interviewing, and additional forms of knowledge transfer.

Minimum Experience: This position typically requires three years of experience. See footnote below.

Minimum Education: BA or BS degree in any field. See footnote below.

Note – In some cases, the following will be considered in place of minimum education and experience: unique education, specialized experience, skills, knowledge, training or certification; quality of experience; national recognition; exceptional Grade Point Average. Related experience may be substituted for education. Education and experience requirements will be determined jointly by Dataprise and the customer based on task requirements.
Network Engineer – Mid Level (NE1)

Functional Responsibility: Provides phone and in-person assistance to users in areas such as e-mail, directories, desktop applications, and project-specific applications. Implements troubleshooting procedures for hardware, software, peripherals and communications. Conducts user needs assessments. Performs the daily activities associated with configuration and operation of computer systems and facilities. Provides assistance to users in accessing and using systems. Installs and supports user and system applications.

Minimum Experience: This position typically requires three years of experience. See footnote below.

Minimum Education: A Bachelor's degree or equivalent in Computer Science, Information Systems, Engineering, Business, or other related field. See footnote below.

Note – In some cases, the following will be considered in place of minimum education and experience: unique education, specialized experience, skills, knowledge, training or certification; quality of experience; national recognition; exceptional Grade Point Average. Related experience may be substituted for education. Education and experience requirements will be determined jointly by Dataprise and the customer based on task requirements.

Network Engineer – Senior Level (NE2)

Functional Responsibility: Supervises network development and installation in conformance with established procedures. Designs, architects and coordinates end-to-end network design. Implements, upgrades and installs network systems including servers, operating systems, back-office applications and security applications. Performs network optimization, ongoing maintenance and ensures production schedules are met.

Minimum Experience: This position typically requires five years of experience. See footnote below.

Minimum Education: A Bachelor's degree or equivalent in Computer Science, Information Systems, Engineering, Business, or other related field. See footnote below.

Note – In some cases, the following will be considered in place of minimum education and experience: unique education, specialized experience, skills, knowledge, training or certification; quality of experience; national recognition; exceptional Grade Point Average. Related experience may be substituted for education. Education and experience requirements will be determined jointly by Dataprise and the customer based on task requirements.

Data Communications Engineer – Mid Level (DC1)

Functional Responsibility: Develops and maintains data networking and telecommunications systems (hardware and software). Analyzes network characteristics (e.g., traffic, connect time, transmission speeds, packet sizes, and throughput), troubleshoots problems and recommends procurement, removals, and modifications to network components. Optimizes network topologies and site configurations. Assists in the planning and conduct of installations, transitions, conversions and cutovers of network components and capabilities. Monitors
operations of telecommunications systems and services of vendors. Coordinates requirements with users and suppliers. Performs network administration, provides technical support in the integration and test of computer integrated networks.

**Minimum Experience:** This position typically requires five years of experience. See footnote below.

**Minimum Education:** A Bachelor's degree or equivalent in Computer Science, Information Systems, Engineering, or other related field. See footnote below.

Note – In some cases, the following will be considered in place of minimum education and experience: unique education, specialized experience, skills, knowledge, training or certification; quality of experience; national recognition; exceptional Grade Point Average. Related experience may be substituted for education. Education and experience requirements will be determined jointly by Dataprise and the customer based on task requirements.

**Data Communications Engineer – Senior Level (DC2)**

**Functional Responsibility:** Evaluates designs, develops and maintains data networking and telecommunications systems (hardware and software). Analyzes network characteristics (e.g., traffic, connect time, transmission speeds, packet sizes, and throughput), troubleshoots problems and recommends procurement, removals, and modifications to network components. Designs and optimizes network topologies and site configurations. Plans and conducts installations, transitions, conversions and cutovers of network components and capabilities. Leads monitoring of telecom system operations and services of vendors. Coordinates requirements with users and suppliers. Provides technical leadership in the integration and test of computer integrated networks. Oversees network control center. May provide daily supervision and direction to staff.

**Minimum Experience:** This position typically requires seven years of experience. See footnote below.

**Minimum Education:** A Bachelor's degree or equivalent in Computer Science, Information Systems, Engineering, or other related field. See footnote below.

Note – In some cases, the following will be considered in place of minimum education and experience: unique education, specialized experience, skills, knowledge, training or certification; quality of experience; national recognition; exceptional Grade Point Average. Related experience may be substituted for education. Education and experience requirements will be determined jointly by Dataprise and the customer based on task requirements.

**Software Engineer – Mid Level (SW1)**

**Functional Responsibility:** Designs, modifies, develops, writes and implements software programming applications. Supports and/or installs software applications. Participates in the testing process through test review and analysis, test witnessing and certification of software. Relies on experience and judgment to plan and accomplish goals.
Minimum Experience: This position typically requires five years of experience. See footnote below.

Minimum Education: A Bachelor's degree or equivalent in Computer Science, Information Systems, Engineering, or other related field. See footnote below.

Note – In some cases, the following will be considered in place of minimum education and experience: unique education, specialized experience, skills, knowledge, training or certification; quality of experience; national recognition; exceptional Grade Point Average. Related experience may be substituted for education. Education and experience requirements will be determined jointly by Dataprise and the customer based on task requirements.

Software Engineer – Senior Level (SW2)

Functional Responsibility: Designs, modifies, develops, writes and implements software programming applications. Supports and/or installs software applications. Participates in the testing process through test review and analysis, test witnessing and certification of software. Relies on experience and judgment to plan and accomplish goals. May lead and direct the work of others. May report directly to a project lead or manager. A wide degree of creativity and latitude is expected.

Minimum Experience: This position typically requires five years of experience. See footnote below.

Minimum Education: A Bachelor's degree or equivalent in Computer Science, Information Systems, Engineering, or other related field. See footnote below.

Note – In some cases, the following will be considered in place of minimum education and experience: unique education, specialized experience, skills, knowledge, training or certification; quality of experience; national recognition; exceptional Grade Point Average. Related experience may be substituted for education. Education and experience requirements will be determined jointly by Dataprise and the customer based on task requirements.

Technical Project Manager (PM1)

Functional Responsibility: Serves as the Dataprise project manager for a task order and primary point of contact in working with the Government Contracting Officer (GCO), the contract-level Contracting Officer's Representative (COR), the task order-level COR(s), Government management personnel and customer agency representatives. Responsible for the overall technical, performance, schedule and cost management of the specific task order(s). Insures that all SOW (task order) requirements are satisfied.

Minimum Experience: This position typically requires five years of experience. See footnote below.

Minimum Education: A Bachelor's degree or equivalent in Computer Science, Information Systems, Engineering, Business, or other related field. See footnote below.

Note – In some cases, the following will be considered in place of minimum education and experience: unique education, specialized experience, skills, knowledge, training or certification; quality of experience; national recognition; exceptional Grade Point Average. Related experience may be substituted for education. Education and experience requirements will be determined jointly by Dataprise and the customer based on task requirements.
