On-line access to contract ordering information, terms and conditions, up-to-date pricing, and the option to create an electronic delivery order is available through GSA Advantage!, a menu-driven database system. The INTERNET address for GSA Advantage! is http://www.gsaadvantage.gov

SCHEDULE TITLE: Federal Supply Schedule 70 – General Purpose Commercial Information Technology Equipment, Software, and Services

CONTRACT NUMBER: GS-35F-0821R

CONTRACT PERIOD: August 30, 2020 – August 29, 2025

For more information on ordering from Federal Supply go to this website: www.gsa.gov/schedules

CONTRACTOR: WFR Technologies, Inc.
38065 Kite Ln, Lovettsville, VA 20180
Phone number: 703-309-2123
Fax number: 540-822-5235
E-Mail: wrussell@wfrtech.com

CONTRACTOR’S ADMINISTRATION SOURCE: Wyott Russell

2. **MAXIMUM ORDER**: $500,000

NOTE TO ORDERING ACTIVITIES: *If the best value selection places your order over the Maximum Order identified in this catalog/pricelist, you have an opportunity to obtain a better schedule contract price. Before placing your order, contact the aforementioned contactor for a better price. The contractor may (1) offer a new price for this requirement (2) offer the lowest price available under this contract or (3) decline the order. A delivery order that exceeds the maximum order may be placed under the schedule contract in accordance with FAR 8.404.

3. **MINIMUM ORDER**: $100

4. **GEOGRAPHIC COVERAGE**: The Geographic Scope of Contract will be domestic and overseas delivery.

5. **POINT(S) OF PRODUCTION**: N/A

6. **DISCOUNT FROM LIST PRICES**: GSA Net Prices are shown on the attached GSA Pricelist. Negotiated discount has been applied and the IFF has been added.

7. **QUANTITY DISCOUNT(S)**: None
8. **PROMPT PAYMENT TERMS:** None

9.a Government Purchase Cards must be accepted at or below the micro-purchase threshold.

9.b Government Purchase Cards are accepted above the micro-purchase threshold. Contact contractor for limit.

10. **FOREIGN ITEMS:** None

11a. **TIME OF DELIVERY:** As per the RFQ requirement

11b. **EXPEDITED DELIVERY:** Items available for expedited delivery are noted in this price list.

11c. **OVERNIGHT AND 2-DAY DELIVERY:** Overnight and 2-day delivery are available. Contact the Contractor for rates.

11d. **URGENT REQUIREMENTS:** Agencies can contact the Contractor’s representative to affect a faster delivery. Customers are encouraged to contact the contractor for the purpose of requesting accelerated delivery.

12. **FOB POINT:** Destination

13a. **ORDERING ADDRESS:** 38065 Kite Ln, Lovettsville, VA 20180

13b. **ORDERING PROCEDURES:** Ordering activities shall use the ordering procedures described in Federal Acquisition Regulation 8.405-3 when placing an order or establishing a BPA for supplies or services. The ordering procedures, information on Blanket Purchase Agreements (BPA’s) and a sample BPA can be found at the GSA/FSS Schedule Homepage (fss.gsa.gov/schedules).

14. **PAYMENT ADDRESS:** 38065 Kite Ln, Lovettsville, VA 20180

15. **WARRANTY PROVISION:**

16. **EXPORT PACKING CHARGES:** Export packing is available at extra cost outside the scope of this contract.

17. **TERMS AND CONDITIONS OF GOVERNMENT PURCHASE CARD ACCEPTANCE:** (any thresholds above the micropurchase level may be inserted by contractor)

18. **TERMS AND CONDITIONS OF RENTAL, MAINTENANCE, AND REPAIR (IF APPLICABLE):**
   
   N/A

19. **TERMS AND CONDITIONS OF INSTALLATION (IF APPLICABLE):** N/A

20. **TERMS AND CONDITIONS OF REPAIR PARTS INDICATING DATE OF PARTS PRICE LISTS AND ANY DISCOUNTS FROM LIST PRICES (IF AVAILABLE):** N/A

20a. **TERMS AND CONDITIONS FOR ANY OTHER SERVICES (IF APPLICABLE):** N/A

21. **LIST OF SERVICE AND DISTRIBUTION POINTS (IF APPLICABLE):** N/A
22. LIST OF PARTICIPATING DEALERS (IF APPLICABLE): N/A

23. PREVENTIVE MAINTENANCE (IF APPLICABLE): N/A

24a. SPECIAL ATTRIBUTES SUCH AS ENVIRONMENTAL ATTRIBUTES (e.g. recycled content, energy efficiency, and/or reduced pollutants): N/A

24b. Section 508 Compliance for Electronic and Information Technology (EIT): N/A

25. DUNS NUMBER: 09-189-0389

26. NOTIFICATION REGARDING REGISTRATION IN SYSTEM FOR AWARD MANAGEMENT (SAM) DATABASE: Contractor has an Active Registration in the SAM database
DESCRIPTION OF IT LABOR CATEGORIES

1. Security Analyst

Minimum/General Experience: Six (6) years of related technical experience.

Functional Responsibility: Analyze and define security requirements. Design, develop, engineer and implement secure solutions. Perform risk analysis, gather and organize technical information to match security requirements with organizational needs. Interfaces with users and support security systems and devices. Significant technical experience in one or more of the following areas: intrusion detection systems, system/network forensics, VPN’s, firewalls, routers, operating system security (UNIX, Windows, Linux) VoIP, wireless security, Layer 3 switches, TCP/IP services, Ethernet, BigIP, and LAN/WAN security.

Minimum Education: Bachelor’s degree in computer science, information technology or engineering. With eight (8) years experience, a degree is not required.

2. Senior Integration Engineer

Minimum/General Experience: 5 years of related technical experience.

Functional Responsibility: Specialized technical experience in the design, development, implementation, and troubleshooting of complex systems. Participates in troubleshooting of complex networks and develops sound technical solutions.

Minimum Education: Bachelor's degree in computer science, information technology or engineering. With seven (7) years experience, a degree is not required.

3. Senior Design Engineer

Minimum/General Experience: Seven (7) years of related technical experience.

Functional Responsibility: Specialized technical experience in the design, development, implementation, and troubleshooting of complex systems. Participates in troubleshooting of complex networks and develops sound technical solutions.

Minimum Education: Bachelor's degree in computer science, information technology or engineering. With nine (9) years experience, a degree is not required.

4. Unix Systems Consultant

Minimum/General Experience: Five (5) years of related technical experience.

Functional Responsibility: Significant technical experience with system administration and management of the Unix operating system(s) in use by customer. Capable of documenting operating system issues and developing sound solutions. Experience with analysis, design, development, testing and implementation of operating system and application solutions.

Minimum Education: Bachelor’s degree in computer science, information technology or engineering. With seven (7) years experience, a degree is not required.
5. Data Scientist

Minimum/General Experience: Six (6) years relevant experience

Functional Responsibility: Work closely with clients, data stewards, project/program managers, and other IT teams to turn data into critical information and knowledge that can be used to make sound organizational decisions. Other responsibilities include providing data that is congruent and reliable. They need to be creative thinkers and propose innovative ways to look at problems by using data mining (the process of discovering new patterns from large datasets) approaches on the set of information available. They will need to validate their findings using an experimental and iterative approach. Also, the Data Scientists will need to be able to present back their findings to the business by exposing their assumptions and validation work in a way that can be easily understood by their business counterparts.

Minimum Education: Bachelor’s degree in mathematics, statistics or computer science or related field. Education requirement may be waived with eight (8) years relevant experience.

6. Data Scientist - Principal

Minimum/General Experience: Eight (8) years of relevant experience

Functional Responsibility: Provides technical/management leadership on major tasks or technology assignments. Works closely with clients, data stewards, project/program managers, and other IT teams to turn data into critical information and knowledge that can be used to make sound organizational decisions. Other responsibilities include providing data that is congruent and reliable. They need to be creative thinkers and propose innovative ways to look at problems by using data mining (the process of discovering new patterns from large datasets) approaches on the set of information available. They will need to validate their findings using an experimental and iterative approach. Also, the Data Scientists will need to be able to present back their findings to the business by exposing their assumptions and validation work in a way that can be easily understood by their business counterparts. May supervise others.

Minimum Education: Bachelor’s degree in mathematics, statistics or computer science or related field or equivalent experience. Education requirement may be waived with ten (10) years relevant experience.

7. System Engineer - Intermediate

Minimum/General Experience: Three (3) years of relevant technical experience

Functional Responsibility: Under general supervision, performs high-level systems analysis, evaluation, design, integration, documentation, and implementation of very complex application that require a thorough knowledge of administrative and technical skills. Directs and participates in all phases of system development with emphasis on planning, analysis, evaluation, integration, testing and acceptance phases. Applies higher-level business or technical principles and methods to very difficult technical problems to arrive at automated engineering solution.

Minimum Education: Bachelors. Education requirement may be waived with five (5) years relevant experience.

8. System Engineer - Senior

Minimum/General Experience: Five (5) years of relevant technical experience
**Functional Responsibility:** Under general direction, performs high-level systems analysis, evaluation, design, integration, documentation, and implementation of very complex application that require a thorough knowledge of administrative, and technical skills. Directs and participates in all phases of system development with emphasis on planning, analysis, evaluation, integration, testing and acceptance phases. Applies higher-level business or technical principles and methods to very difficult technical problems to arrive at automated engineering solution. Designs and prepares technical reports, related documentation, and makes charts and graphs to record results. Prepares and delivers presentations and briefings. May be supervise others

**Minimum Education:** Bachelors. Education requirement may be waived with seven (7) years relevant experience

**9. Systems Engineer - SME**

**Minimum/General Experience:** Eight (8) years of relevant technical

**Functional Responsibility:** Under general direction, performs expert-level systems analysis, evaluation, design, integration, documentation, and implementation of very complex application that require a thorough knowledge of administrative, and technical skills. Directs, leads, and participates in all phases of system development with emphasis on planning, analysis, evaluation, integration, testing and acceptance phases. Applies expert-level business or technical principles and methods to very difficult technical problems to arrive at automated engineering solution. Designs and prepares technical reports and related documentation and makes charts and graphs to record results. Prepare and deliver presentations and briefings as required by the Task Order. May be required to serve as Task Leader. Responsible for ensuring the quality and services delivered for particular task(s) for which this skill is performing the Task Leader position.

**Minimum Education:** Bachelors. Education requirement may be waived with ten (10) years of relevant experience

**10. Project Manager**

**Minimum/General Experience:** Three (3) years of relevant experience.

**Functional Responsibility:** Under general direction, responsible for all aspects of the development and implementation of assigned projects and provides a single point of contact for those projects. Takes projects from original concept through final implementation. Interfaces with all areas affected by the project including end users, computer services, and client services. Defines project scope and objectives. Develops detailed work plans, schedules, project estimates, resource plans, and status reports. Conducts project meetings and is responsible for project tracking and analysis. Ensures adherence to quality standards and reviews project deliverables. Manages the integration of vendor tasks and tracks and reviews vendor deliverables. Provides technical and analytical guidance to project team. Recommends and takes action to direct the analysis and solutions of problems.

**Minimum Education:** Bachelors. Education requirement may be waived with five (5) years of relevant experience.

**11. System Analyst - Senior**

**Minimum/General Experience:** Five (5) years of relevant technical experience

**Functional Responsibility:** Under general direction, formulates/defines system scope and objectives based on user needs. Devises or modifies procedures to solve complex problems
considering computer equipment capacity and limitations, operating time and form of desired results. Prepares detailed specifications from which programs will be written. Analyzes and revises existing system logic difficulties and documentation as necessary.

**Minimum Education:** Bachelors. Education requirement may be waived with seven (7) years of relevant experience.

12. **Network Engineer – Principal**

**Minimum/General Experience:** Seven (7) years of relevant technical experience

**Functional Responsibility:** Provides technical guidance for directing and monitoring information systems operations. Designs, builds, and implements network systems. Provides quality assurance review and evaluation of new and existing software products. Monitors and responds to hardware, software, and network problems. Provides technical/management leadership on major tasks and technology assignments. Establishes goals to meet project objectives. Functions as a technical expert across multiple project assignments. May supervise others.

**Minimum Education:** Bachelors. Education requirement may be waived with nine (9) years relevant experience

13. **Network Engineer – Senior**

**Minimum/General Experience:** Five (5) years of relevant technical experience

**Functional Responsibility:** Provides technical guidance for directing and monitoring information systems operations. Designs, builds, and implements network systems. Provides quality assurance review and evaluation of new and existing software products. Monitors and responds to hardware, software, and network problems. Possesses and applies a comprehensive knowledge across key tasks and high impact assignments. Plans and leads major technology assignments. Evaluates performance results and recommends major changes affecting project growth and success.

**Minimum Education:** Bachelors. Education requirement may be waived with seven (7) years relevant experience

14. **Project Engineer – Senior**

**Minimum/General Experience:** Five (5) years of relevant technical experience

**Functional Responsibility:** Under general direction, has duties of instructing, directing, and checking the work of other project engineers. Responsible for the completion of assigned engineering projects within budgetary and scheduling guidelines. Leads a group of engineers, analysts, and/or technicians assigned for the duration of a project or may function as ongoing lead within a group of engineers associated with one or more technical areas within the telecom function (such as, but not limited to, network design, engineering, implementation, or operations/user support).

**Minimum Education:** Bachelors. Education requirement may be waived with seven (7) years relevant experience
