Solid financially and in operation, TRCA has the service manpower and authorizations to provide a single cable drop up to implementing complex technology topologies. “TRCA’s success is dependent on its people and the service they provide to our clients. As leaders, we foster a culture around the relentless pursuit of perfection and serving others. Without a doubt, service truly is our life”. *Mike Harding – Founder – CFO*

Technology Resource Center of America owns and operates from a 90,000sf technology center located in the D/FW Metroplex. Designed to support our clients daily requirements; it features electronics laboratories, data centers, redundant power system & network, NOC’s, technology kitting & warehousing, asset management, and a 24/7 National Support Center handling over 8,000 service transactions monthly.

“The very heart and foundation of all technology is communication. How we communicate at every level is by default the main driver of all business. We are subject matter experts in the world of telephony, security, cabling and computer networks. We cut through the confusion and speak directly to your needs with an agnostic, best fit approach. TRCA has been in business longer than 75% of the service, hardware and carrier providers in the marketplace today. We know the inside track and we understand the rules of engagement. We bring this knowledge and experience to bear for our clients. TRCA simplifies and brings clarity to the ever shifting world of technological change. When the technology that you use fades into the background, we are accomplishing our mission. We are allowing you to focus on your business, and not the tools that surround it.”
David Harding – CEO

- The TRCA laboratories are staffed with experienced electronic technicians specializing in the repair and refurbishment of technology equipment. This department also specializes in the stocking, imaging and shipment of complete “store technology kits” to facilitate large roll outs and/or upgrades. On average TRCA purchases over 10,000 legacy pieces each month from companies that upgrade. Our teams repair and remanufacture these pieces to like new condition and provide them with superior warranties and highly discounted pricing.

- ii When the overall travel charge computed at the above mileage rate is unreasonable (considering the time required for travel, actual and necessary transportation costs, and the allowable ordering activity per diem rate for each night the repairman is required to remain overnight at the ordering activity location), the ordering activity shall have the option of reimbursing the Contractor for actual costs, provided that the actual costs are reasonable and allowable.
