1b. Identification of the lowest priced model number and lowest unit price for that model for each special item number awarded in the contract. This price is the Government price based on a unit of one, exclusive of any quantity/dollar volume, prompt payment, or any other concession affecting price. Those contracts that have unit prices based on the geographic location of the customer, should show the range of the lowest price, and cite the areas to which the prices apply. YEI is proposing hourly labor rates based on either a Contractor Site or a Customer Site.

1c. Description of all corresponding commercial job titles, experience, functional responsibility and education for those types of employees or subcontractors who will perform services shall be provided: See Part 3 below for Labor Category Descriptions, Functional Responsibilities, and Job Qualifications. Proposed hourly labor rates are shown below in Part 4, the Pricing Section.

2. Maximum Order: $500,000.00

3. Minimum Order: $100.00

5. Points of production (city, county, and state or foreign country): Not applicable.

6. Discount from list prices or statement of net price: Government net prices (discounts already deducted).

7. Quantity discounts: None Offered.

8. Prompt payment terms: Net 30 days.
9a. Notification that Government purchase cards are accepted at or below the micro-purchase threshold: Yes.

9b. Notification whether Government purchase cards are accepted or not accepted above the micro-purchase threshold: Will accept over $2,500.

10. Foreign items (list items by country of origin): None.

11a. Time of Delivery (Contractor insert number of days): As negotiated between contractor and ordering agency and specified on the Task Order.

11b. Items available for expedited delivery: Contact Contractor.

11c. Overnight and 2-day delivery: Contact Contractor.

11d. Urgent Requirements: Contact Contractor.

12. F.O.B. Points(s): Destination.

13a. Ordering Address:

Yang Enterprises, Inc.
1420 Alafaya Trail, Suite 200
Oviedo, Florida 32765-8815

13b. Ordering procedures: For supplies and services, the ordering procedures, information of Blanket Purchase Agreements (BPA’s), and a sample BPA can be found in Federal Acquisition Regulation (FAR) 8.405-3 and at http://www.gsa.gov/portal/content/200429.

14. Payment address: Same as ordering address.

15. Warranty provision: Contractor’s standard commercial warranty.

16. Export Packing Charges (if applicable): N/A.

17. Terms and conditions of Government purchase card acceptance (any thresholds above the micro-purchase level): Contact Contractor.

18. Terms and conditions of rental, maintenance, and repair (if applicable): N/A.

19. Terms and conditions of installation (if applicable): N/A.

20. Terms and conditions of repair parts indicating date of parts price lists and any discounts from list prices (if applicable): N/A.

20a. Terms and conditions for any other services (if applicable): N/A.
21. List of service and distribution points (if applicable): N/A.

22. List of participating dealers (if applicable): N/A.

23. Preventive maintenance (if applicable): N/A.

24a. Special attributes such as environmental attributes, (e.g., recycled content, energy efficiency, and/or reduced pollutants): YEI performs services in compliance with environmental regulatory requirements and customer specifications. We embrace “Green Technology.”

24b. If applicable, indicate that Section 508 compliance information is available on Electronic and Information Technology (EIT) supplies and services and show where full details can be found (e.g. contractors’ website or other location. The EIT standards can be found at: www.Section508.gov/. N/A.

25. Data Universal Numbering System (DUNS) number: 809668650

26. Notification regarding registration in Central Contractor Registration (CCR) database: Registered in CCR.
Part 2 – YEI Awarded Special Item Number(s) (SINs):

SIN OLM Order-Level Materials (OLM)
YEI provides OLM supplies and/or services acquired in direct support of an individual task or delivery order placed against a Schedule contract or BPA. Our OLM pricing is not established at the Schedule contract or BPA level, but at the order level. Our OLMs are procured under a special ordering procedure that simplifies the process for acquiring supplies and services necessary to support individual task or delivery orders placed against a Schedule contract or BPA. Using this new procedure, ancillary supplies and services not known at the time of the Schedule award may be included and priced at the order level. Our OLM Pricing for items provided under the Order-Level Materials SIN are inclusive of the Industrial Funding Fee (IFF). The value of our OLMs in a task or delivery order, or the cumulative value of OLMs in orders against an FSS BPA awarded under an FSS contract do not exceed 33.33%.

SIN 54151S INFORMATION TECHNOLOGY PROFESSIONAL SERVICES
YEI provides IT Professional Services and/or labor categories for database planning and design; systems analysis, integration, and design; programming, conversion and implementation support; network services, data/records management, and testing. As a Information Technology Value Added Reseller (ITVAR), YEI provides a total solution to information technology acquisitions by providing multi-vendor hardware and software along with significant value added services. Our value added services consist of, but are not limited to, configuration consulting and design, systems integration, installation of multi-vendor computer equipment, customization of hardware or software, training, product technical support, maintenance, and end user support.
Part 3 – YEI Labor Category Descriptions

1 Labor Categories Descriptions and Qualifications

The position descriptions with duties and qualifications, and knowledge/education skill requirements for the labor categories are given on the following pages:
Commercial Job Title: Engagement/Project Manager

Minimum/General Experience:

A minimum of 5 years’ experience in management of government programs with direct experience in automated logistics and maintenance systems and readiness programs. A minimum of five years’ experience at a supervisory level, including work in Government logistics, operations, maintenance, and readiness programs.

Functional Responsibility:

Directs, plans, organizes, controls, and manages multiple small to medium projects to ensure that all contractual obligations are fulfilled in an efficient and timely manner. Interfaces with Contracting Officer's Technical Representatives and users to minimize costs and maximize efficiency in achieving the stated requirements. Ensures that all activities conform to the terms and conditions of the contract. Serves as the Contractor's Point of Contact with Contracting Officers and Contracting Officer's Technical Representatives to ensure the prompt and timely reporting and resolution of contractual or technical problems. Monitors contract and task order schedules to ensure products and services are delivered within schedule and meet contract and/or task order requirements. Liaison between the commercial contractor and U.S. Government officials with respect to technical matters and management decisions, problems, and administration. May also perform as Principal/Senior Software Engineers on Site Assessments, Requirements/Gap Analysis and/or Custom Training Analysis tasks.

Minimum Education: Bachelor’s Degree in business administration, Computer Science, or related field.

Commercial Job Title: Senior Software Engineer

Minimum/General Experience:

A minimum of six years’ experience in the design and development of government logistics and maintenance management information systems. A minimum of four years’ experience in the practical application of information engineering tools, processes and methodologies in a government systems environment. Knowledge of a maintenance operations including material management and work flow are essential. An understanding of equipment assembly structure design, numbering schemes, failure hierarchy and analysis is required.

Functional Responsibility:

Application of multiple information engineering tools, processes and methodologies, including the application of automation resources as applied to government logistics and maintenance information systems. Estimates, plans, designs, and oversees all aspects of assigned project. Provides technical support to lower level software engineers on projects. Responsible for on-site implementation of a computerized maintenance system and related user training.

Minimum Education: Bachelor’s degree in a Computer Science, Engineering, or Mathematics.
Commercial Job Title: Software Engineer

Minimum/General Experience:

A minimum of five years’ experience in the design and development of government logistics and maintenance information systems. A minimum of three years’ experience in the practical application development of information engineering tools, processes and methodologies in a government systems environment. An understanding of Computerized Maintenance Management Systems (CMMS) and their uses. Experience in client-server application development environment, C, C++, SQL Windows, PL/SQL and other RDB languages, SQL databases and Windows is required.

Functional Responsibility:

Application of multiple information engineering tools, processes, and methodologies, including the application of automation resources as applied to government logistics and maintenance information systems. Responsible for client-server application development using C, C++, SQL Windows, PL/SQL and other RDB languages, SQL databases and Windows. Individual must be a self-starter and capable of working with minimal supervision.

Minimum Education: Bachelor’s degree in a Computer Science, Engineering, or Mathematics.

Commercial Job Title: Network Engineer

Minimum/General Experience:

A minimum of six years practical experience, including: Ability to plan, design, implement, manage, and supervise communications networks and related infrastructures; ability to prepare comprehensive, formal communication studies, reports, and analyses; and ability to plan, supervise, and implement user documentation, system administration procedures, and training materials.

Functional Responsibility:

Conducting and supervising system analysis and feasibility studies on current and future systems; the design, development and implementation of the communications infrastructure, including, but not limited to, user support and systems administration, and IT network configuration. The Network Engineer will conduct briefings regarding current or planned telecommunication efforts and techniques.

Minimum Education: Bachelor’s degree in a Computer Science, Engineering, or Mathematics
Commercial Job Title: Senior Systems Analyst

Minimum/General Experience:

A minimum of five years’ experience in the development and analysis of government programs and system functional requirements. A minimum of two years’ experience in the application of Functional Process Improvement (FPI) processes and methodologies sufficient to perform functional economic analyses, business area analysis, business system integration and workload forecasting functions.

Functional Responsibility: Lead and apply FPI techniques, tools, and methodologies to programs and systems undergoing FPI analysis and recommend/implement reengineering processes, when approved by the government.

Minimum Education: Bachelor’s degree in a Computer Science, Engineering, or Mathematics.

Commercial Job Title: Senior Systems Engineer

Minimum/General Experience:

A minimum of five years specialized experience in the design and development of software systems to meet system operational and user requirements, developing detailed design specifications and test plans, providing software quality assurance, ensuring software components and systems are in compliance with current state-of-the-art products and standards, and supporting system verification, regression testing, and validation.

Functional Responsibility: Provides guidance in areas of formulating requirements and developing system software designs.

Minimum Education: Bachelor’s degree in a Computer Science, Engineering, or Mathematics.

Commercial Job Title: Technical Support Specialist

Minimum/General Experience:

A minimum of four years’ experience with technical data pertaining to problem analysis and project documentation. Must possess knowledge in all areas of IT support. Ability to research, analyze, and compile written materials or graphics in the generation of technical documentation is also required.

Functional Responsibility: Utilize, maintain, and manage technical information databases, technical libraries, and data updates/extraction.

Minimum Education: High school diploma or equivalent.
Commercial Job Title: Documentation Specialist

Note: All non-professional labor categories must be incidental to and used solely to support hardware, software, and/or professional services, and cannot be purchased separately.

Minimum/General Experience:
A minimum of two years practical experience in technical typing. A minimum of one year experience in the use of various word processing equipment for the preparation of technical reports, studies, manuals, and other program/project documentation in final format from rough drafts or notes. Ability to edit, proofread, correct grammar, and utilize appropriate vernacular.

Functional Responsibility:
Ability to prepare a variety of technical and administrative documents. Must be familiar with providing IT support, have the ability to manipulate electronic text, and be proficient in the use of a variety of software applications.

Minimum Education: Bachelor’s degree in Technical Writing or English.

Commercial Job Title: Database Designer/Programmer

Minimum/General Experience:
A minimum of four (2) years of demonstrated performance in related technology, especially designing and managing large and complex databases on a variety of platforms. Functional Responsibility: Designs, implements, and maintains complex databases with respect to access methods, access time, device allocation, validation checks, organization, protection and security.

Minimum Education: Bachelor’s degree in a Computer Science, Engineering, or Mathematics.

Commercial Job Title: Senior Integrator

Minimum/General Experience:
A minimum of six (6) years of in-depth knowledge and experience with the software applications. Interface with Information Technology (IT) and other organizations to design, develop, and maintain computing systems.

Functional Responsibility: Manages large amounts of data, coordinates information flow and prepares reports that conform to prescribed styles and formats.

Minimum Education: Bachelor’s degree in a Computer Science, Engineering, or Mathematics.
Commercial Job Title: Computer Help Desk Specialist

Minimum/General Experience:

A minimum of two (2) years of demonstrated performance in related technology for a variety of platforms.

Functional Responsibility: Is familiar with help desk operations and requirements.

Minimum Education: High school diploma or equivalent
Part 4 – YEI Pricing Section

* Note: All non-professional labor categories must be incidental to and used solely to support hardware, software, and/or professional services, and cannot be purchased separately.

The Service Contract Act (SCA) is applicable to this contract and it includes SCA applicable labor categories. The prices for the indicated SCA labor categories are based on the U.S. Department of Labor Wage Determination. The prices offered are based on the preponderance of where work is performed; should the contractor perform in an area with lower SCA rates, resulting in lower wages being paid, the task order prices will be discounted accordingly.
