About Technology Partners

From the outset, we at Technology Partners have believed a simple truth: together is better. When you team up with us, you’re partnering with a team you can trust. Our focus is on providing you with IT solutions that are flexible, scalable, cost-effective, efficient, and productive. As an award-winning, certified Women-Owned Business Enterprise, we’re committed to fully understanding the needs of our clients, and providing them with service that exceeds industry standards. With a high value on accountability and communication, and thousands of successful engagements in IT Assessment, Database Performance & Optimization, Web & Mobile Solutions, Helpdesk & Systems Support, and Digital Media, we are the clear partner of choice for your IT needs. Join forces with Technology Partners and turn your IT problems into IT solutions.

Our Mission: Exceed the quality, integrity and service expectations of our clients.
**CUSTOMER INFORMATION:**

1a. **TABLE OF AWARDED SPECIAL ITEM NUMBERS (SINs)**

<table>
<thead>
<tr>
<th>SIN</th>
<th>DESCRIPTION</th>
</tr>
</thead>
<tbody>
<tr>
<td>54151S</td>
<td>Information Technology Professional Services</td>
</tr>
</tbody>
</table>

1b. **LOWEST PRICED MODEL NUMBER AND PRICE FOR EACH SIN:** N/A

1c. **HOURLY RATES:** See page

2. **MAXIMUM ORDER**: $500,000

*Ordering activities may request a price reduction at any time before placing an order, establishing a BPA, or in conjunction with the annual BPA review. However, the ordering activity shall seek a price reduction when the order or BPA exceeds the simplified acquisition threshold. Schedule contractors are not required to pass on to all schedule users a price reduction extended only to an individual ordering activity for a specific order or BPA.

3. **MINIMUM ORDER**: $100

4. **GEOGRAPHIC COVERAGE**: 48 contiguous states, Alaska, Hawaii, Washington D.C., Puerto Rico, U.S. Territories, and to a port or consolidation point within the aforementioned locations for orders that are received from overseas activities.

5. **POINT(S) OF PRODUCTION**: 707 Spirit 40 Park Dr. Ste 120, Chesterfield, MO 63005

6. **DISCOUNT FROM LIST PRICES**: Prices shown are GSA Net, discount deducted.

7. **QUANTITY DISCOUNT(S)**: Additional 1% for a single order over 500+ hours; Additional 3% for a single order 1000+ hours

8. **PROMPT PAYMENT TERMS**: 2% 10 Days/Net 30, Information for Ordering Offices: Prompt payment terms cannot be negotiated out of the contractual agreement in exchange for other concessions

25. DUNS NUMBER: 872866850

26. Contractor has an active registration in the SAM database. Exp. 06/24/2021
ITC standard regulations

1) Organizational Conflicts Of Interest

a) Definitions.

"Contractor" means the person, firm, unincorporated association, joint venture, partnership, or corporation that is a party to this contract.

"Contractor and its affiliates" and "Contractor or its affiliates" refers to the Contractor, its chief executives, directors, officers, subsidiaries, affiliates, subcontractors at any tier, and consultants and any joint venture involving the Contractor, any entity into or with which the Contractor subsequently merges or affiliates, or any other successor or assignee of the Contractor.

An "Organizational conflict of interest" exists when the nature of the work to be performed under a proposed ordering activity contract, without some restriction on ordering activities by the Contractor and its affiliates, may either (i) result in an unfair competitive advantage to the Contractor or its affiliates or (ii) impair the Contractor's or its affiliates' objectivity in performing contract work.

b) To avoid an organizational or financial conflict of interest and to avoid prejudicing the best interests of the ordering activity, ordering activities may place restrictions on the Contractors, its affiliates, chief executives, directors, subsidiaries and subcontractors at any tier when placing orders against schedule contracts. Such restrictions shall be consistent with FAR 9.505 and shall be designed to avoid, neutralize, or mitigate organizational conflicts of interest that might otherwise exist in situations related to individual orders placed against the schedule contract. Examples of situations, which may require restrictions, are provided at FAR 9.508

2) Services Performed

a) All services performed by the Contractor under the terms of this contract shall be as an independent Contractor, and not as an agent or employee of the ordering activity.

b) The Contractor shall commence performance of services on the date agreed to by the Contractor and the ordering activity.

c) The Contractor agrees to render services only during normal working hours, unless otherwise agreed to by the Contractor and the ordering activity.

3) Travel. Any Contractor travel required in the performance of services must comply with the Pub. L. 99-234 and FAR Part 31.205-46, as applicable, in effect on the date(s) the travel is performed. Established Federal Government per diem rates will apply to all Contractor travel.

4) Warranty

a) Unless otherwise specified in this contract, the Contractor's standard commercial warranty as stated in the contract's commercial pricelist will apply to this contract.

b) The Contractor's commercial guarantee/warranty shall be included in the Commercial Supplier Agreement to include Enterprise User License Agreements or Terms of Service (TOS) agreements, if applicable.
c) Except as otherwise provided by an express or implied warranty, the Contractor will not be liable to the ordering activity for consequential damages resulting from any defect or deficiencies in accepted items.

</table>
| Project Manager | Responsible for leading development projects in a variety of technologies with projects ranging from small, involving just a few people, to large, with a team of 30 or more.  
- Work closely with developers to get estimates for work to be performed and to stay within client-provided estimates.  
- Manage the relationship with external customers to provide status updates and issue resolution. | 4                | Bachelor's Degree | Training in Project Management tools like JIRA and MS Project.  
Training in Agile, Waterfall and PMI methodologies |
| DBA       | Administer, maintain, develop and implement policies and procedures for ensuring the availability, performance, and integrity of the company and client databases.  
- Assist with data modeling to design and implement data structures which meet the business requirement for timely, accurate data  
- Promote data quality and enforce data integrity  
- Resolve database performance issues, capacity issues, replication, and other distributed data issues  
- Determine user requirements, set up and test computer databases, and coordinate changes  
- Interact with development and end-user personnel to determine application data access requirements, transaction rates, volume analysis, and other pertinent data required to develop and maintain integrated databases  
- Implement the database design in a specific DBMS that is used by the application  
- Work with Database Tuning Expert to ensure maximum database performance  
- Work with varied database configurations across multiple client environments | 4                | Bachelor's Degree | Training in relational databases (Oracle, SQL Server) and database tools like SQL*Plus |
| Designer  | Responsible for designing custom UI/UX for client products, websites, or portals in front-end web development or mobile technologies.  
- Work closely with developers to integrate design and development functionality.  
- Create mockups and wireframes of requirements for client review.  
- Work with project manager to integrate feedback from client stakeholders into designs.  
- Assist client in branding and theming of products and web presence when needed.  
- Provide user interface testing to reconcile design and implementation. | 2                | Bachelor's Degree | Training in front-end development including HTML, CSS, and JavaScript.  
Training in Agile methodologies. Training in wireframing tools like Balsamiq. |
| Practice Director | Responsible for providing oversight on the technical architecture in an area of specialty: web and mobile architecture, enterprise architecture, security architecture, or other solution architecture framework.  
- Participates in the development, implementation and communication of architecture roadmap strategies to ensure that technical systems are scalable, reliable, secure, supportable, and achieve business and IT performance and budgetary objectives for clients.  
- Provide guidance to IT Infrastructure and Application teams on architecture's framework, patterns, best practices, approved technologies, and tools/solutions.  
- Works with key internal and external clients to ensure that business needs are fully understood and IT solutions are fully aligned to meet the stated business needs.  
- Participates in the architecture assessment and communications for the solution platform with new customers or changes in platform for existing customers.  
- Provides oversight and leadership on all projects within specialized area (Web and Mobile, Enterprise, Helpdesk, etc.). | 8 | Bachelor's Degree | Training in Service Oriented and Enterprise Architecture, Agile and Waterfall methodologies |
|---|---|---|---|---|
| Database Tuning | Responsible for database and application performance optimization through query tuning techniques:  
- Indexing  
- SQL changes  
- SQL hints  
- Histograms  
- Stored outlines  
- Materialized views  
Also responsible for making recommendations to improve database sustainability and recovery plans. | 8 | Bachelor's Degree | Training in all relational databases (Oracle, SQL Server, DB2, Teradata, Sybase), database tools (SQL*Plus, XPEDITOR, etc.), ERP systems (SAP, PeopleSoft) |
