On-line access to contract ordering information, terms and conditions, up-to-date pricing, and the option to create an electronic delivery order are available through GSA Advantage®, a menu-driven database system. The INTERNET address GSA Advantage® is: GSAAdvantage.gov.

Schedule For: Multiple Award Systems (MAS)
Federal Supply Group: Information Technology - IT Services
Contract Number: GS-35F-0937R

For more information on ordering from Federal Supply Schedules click on the FSS Schedules button at fss.gsa.gov

Contractor: Genco Systems, Inc.
13800 Coppermine Rd. Suite 300
Herndon, VA 20171
Telephone: (703) 234-5261
Web Site: www.gencosystems.com
E-mail: anil.kumar@gencosystems.com
Contract Administration: Anil Kumar
Contract Period: 12/15/2020 to 12/14/2025

Business Size: SBA Certified 8(a) Firm, SBA Certified Small disadvantaged business

The pricelist is current as of Modification #PO-0011 effective December 15, 2020
CUSTOMER INFORMATION:

1a. Table of Awarded Special Item Number(s) with appropriate cross-reference to page numbers:

<table>
<thead>
<tr>
<th>SIN</th>
<th>RECOVERY</th>
<th>DESCRIPTION</th>
</tr>
</thead>
<tbody>
<tr>
<td>54151S</td>
<td>54151S-RC</td>
<td>Information Technology Professional Services</td>
</tr>

</tr>
</tbody>
</table>

1b. Identification of the lowest priced model number and lowest unit price for that model for each special item number awarded in the contract. This price is the Government price based on a unit of one, exclusive of any quantity/dollar volume, prompt payment, or any other concession affecting price. Those contracts that have unit prices based on the geographic location of the customer, should show the range of the lowest price, and cite the areas to which the prices apply. N/A

1c. If the Contractor is proposing hourly rates a description of all corresponding commercial job titles, experience, functional responsibility and education for those types of employees or subcontractors who will perform services shall be provided. N/A

2. Maximum Order: SIN 54151S $500,000.00, SIN ANCILLARY $250,000.00

3. Minimum Order: $100.00

4. Geographic Coverage (delivery Area): Domestic only

5. Point(s) of production (city, county, and state or foreign country): Same as company address

6. Discount from list prices or statement of net price: Government net prices (discounts already deducted).

7. Quantity discounts: None Offered

8. Prompt payment terms: Net 30 days. Information for Ordering Offices: Prompt payment terms cannot be negotiated out of the contractual agreement in exchange for other concessions."

9a. Notification that Government purchase cards are accepted up to the micro-purchase threshold: "Genco will accept government purchase cards above the micro-purchase threshold.

9b. Notification whether Government purchase cards are accepted or not accepted above the micro-purchase threshold: "Genco will accept government purchase cards above the micro-purchase threshold.

10. Foreign items (list item by country of origin): None

11a. Time of Delivery (Contractor insert number of days): Specified on the Task Order

11b. Expedited Delivery. The Contractor will insert the sentence “Items available for expedited delivery are noted in this price list.” under this heading. The Contractor may use a symbol of its choosing to highlight items in its price list that have expedited delivery: Contact Contractor
11c. Overnight and 2-day delivery. The Contractor will indicate whether overnight and 2-day delivery are available. Also, the Contractor will indicate that the schedule customer may contact the Contractor for rates for overnight and 2-day delivery: Contact Contractor

11d. Urgent Requirements. The Contractor will note in its price list the “Urgent Requirements” clause of its contract and advise agencies that they can also contact the Contractor’s representative to effect a faster delivery: Contact Contractor

12. F.O.B Points(s): Destination

13a. Ordering Address: Same as Contractor

13b. Ordering procedures: For supplies and services, the ordering procedures, information on Blanket Purchase Agreements (BPA’s) are found in Federal Acquisition Regulation (FAR) 8.405-3

14. Payment address(es): Same as company address

15. Warranty provision: Standard commercial warranty.

16. Export Packing Charges (if applicable): N/A

17. Terms and conditions of Government purchase card acceptance (any thresholds above the micro-purchase level): Contact Contractor

18. Terms and conditions of rental, maintenance, and repair (if applicable): N/A

19. Terms and conditions of installation (if applicable): N/A

20. Terms and conditions of repair parts indicating date of parts price lists and any discounts from list prices (if applicable): N/A

20a. Terms and conditions for any other services (if applicable): N/A

21. List of service and distribution points (if applicable): N/A

22. List of participating dealers (if applicable): N/A

23. Preventive maintenance (if applicable): N/A

24a. Environmental attributes, e.g., recycled content, energy efficiency, and/or reduced pollutants: N/A

24b. If applicable, indicate that Section 508 compliance information is available on Electronic and Information Technology (EIT) supplies and services and show where full details can be found (e.g., contractor’s website or other location.) The EIT standards can be found at: www.Section508.gov/

25. Data Universal Numbering System (DUNS) number: 013681903

26. Notification regarding registration in System for Award Management (SAM) database. Registered

27. Final Pricing
*The rates shown below include the Industrial Funding Fee (IFF) of 0.75%.*

</tbody>
</table>
1. **Project Manager:**

   Functional Responsibility: Acts as the overall technical lead and administrator for the contract effort/program. Also serves as the primary interface and point of contact with government program authorities and representatives on technical and program/project issues. Supervises program/project operations by developing procedures, planning and directing execution of the technical, programming, maintenance and administrative support effort and monitoring and reporting progress.

   Minimum General Experience: 10 years.

   Minimum Education: Bachelor’s Degree in an engineering or technical field.

2. **Senior Software Engineer:**

   Functional Responsibility: Applies Software engineering principles to investigate, analyze, plan, design, develop, implement, test, or evaluate computer systems. Applies software development principles for design development, analysis, coding, testing, and implementation of complex business applications; Performs functions such as computer system architecture design, computer system integration, computer and telecommunications configuration management, software development and quality assurance testing. Analyzes, designs, develops, implements, and test automated data processing software related to functional requirements of computer and telecommunications systems and associated support systems. Generally possesses experience with System Specific Programming Languages and Operating Systems.

   Minimum General Experience: 10 Years of technical experience of which eight (8) years should be in the fields of software design and development.

   Minimum Education: Bachelor’s Degree in an engineering or technical field.

3. **Software Engineer:**

   Functional Responsibility: Applies software development principles for design development, analysis, coding, testing, and implementation of complex business applications. Performs functions such as computer system architecture design, computer system integration, computer and telecommunications configuration management, software development and quality assurance testing. Analyzes, designs, develops, implements, and test automated data processing software related to functional requirements of computer and telecommunications systems and associated support systems. Generally possesses experience with System Specific Programming Languages and Operating Systems.

   Minimum General Experience: 8 years of technical experience of which 5 years should be in the fields of software design and development.

   Minimum Education: Bachelor’s Degree in an engineering or technical field.

4. **Senior Systems Engineer:**

   Functional Responsibility: Acts as the Technical lead/project/program manager in systems engineering/technical tasks. Applies systems engineering principles to investigate, analyze, plan, design, develop, implement, test, or evaluate complex systems; review and prepare system engineering and technical analyses, reports, change proposals, and other technical documentation. Applies system engineering experience to perform functions such as system integration, configuration management, quality assurance, testing, or acquisition and resource management; Generally possesses system specific knowledge of programming languages and operating systems.

   Minimum General Experience: 10 years of technical experience of which 6 years should be in an IT field.

   Minimum Education: Bachelor’s Degree in an engineering or technical field.

5. **Systems Engineer:**

   Functional Responsibility: Applies systems engineering principles to investigate, analyze, plan, design, develop, implement, test, or evaluate complex systems; review and prepare system engineering and technical analyses, reports, change proposals, and other technical documentation. Applies system engineering experience to perform functions such as system integration, configuration management, quality assurance, testing, or acquisition and resource
management; Analyzes, designs, develops, implements, tests, or evaluates automated data processing software related to engineering or information systems. Should have knowledge of applicable programming languages.

Minimum General Experience: Six (6) years of relevant experience.

Minimum Education: Bachelor’s Degree in an engineering or technical field.

6. Senior IV&V Engineer:

Functional Responsibility: Conducts complete life cycle Independent Verification and Validation (IV&V) of complex systems. Creates test plans, test specifications and test procedures, as well as test reports and formal test result presentations; Ensures that all software development projects meet the milestones and can fulfill the allocated system requirements; Conducts thorough software testing at various levels to ensure that the system fulfills its requirements and is in accordance with its design intent and applicable standards and conventions. Conduct system verification and validation by examining the correctness, completeness, reliability, and maintainability at each step in the development process. To identify flaws or errors as early as possible in the typical five phase software development life cycle (SDLC). Capability to conduct IV&V activities on modifications, enhancements, or proposed/approved changes to the software and hardware design; Should have knowledge of software testing tools, applicable programming languages and operating systems.

Minimum General Experience: Ten (10) years of experience out of which 5 years should be in the fields of IV&V or testing.

Minimum Education: Bachelor’s Degree in an engineering or technical field.

7. IV&V Engineer:

Functional Responsibility: Conducts complete life cycle Independent Verification and Validation (IV&V) of complex systems. Creates test plans, test specifications and test procedures, as well as test reports and formal test result presentations; Ensures that all software development projects meet the milestones and can fulfill the allocated system requirements. Conducts thorough software testing at various levels to ensure that the system fulfills its requirements and is in accordance with its design intent and applicable standards and conventions; Conduct system verification and validation by examining the correctness, completeness, reliability, and maintainability at each step in the development process. To identify flaws or errors as early as possible in the typical five phase software development life cycle (SDLC). Capability to conduct IV&V activities on modifications, enhancements, or proposed/approved changes to the software and hardware design; Should have knowledge of software testing tools, applicable programming languages and operating systems.

Minimum General Experience: Six (6) years of related experience.

Minimum Education: Bachelor’s Degree in an engineering or technical field.

8. Software Modeler:

Functional Responsibilities: Perform software systems modeling, simulation, or mathematical evaluation and analyses as necessary to validate and verify key algorithms supporting critical surveillance or safety functions. Review Government or Prime Contractor change requests, problem reports, or technical white papers, and other areas of system or software risk or concern.

Minimum General Experience: Six (6) years of related experience.

Minimum Education: Bachelor’s Degree in engineering or math.

9. IV&V Technician:

Functional Responsibility: Provides technical, help desk support to systems engineers, software engineers in testing, configuration and maintenance of systems.

Minimum General Experience: Five (5) years.

Minimum Education: Associates Degree or High School Diploma.

10. Data Manager:
11. Training Specialist:
Functional Responsibility: Provides the Customer with appropriate training to achieve its mission goal and maintain currency in applicable state-of-the-art technologies and business paradigms. Conducts the research necessary to develop and revise training courses. Develops and revises these courses and prepares appropriate training catalogs. Prepares instructor materials (course outline, background material, and training aids); Prepares student materials (course manuals, workbooks, handouts, completion certificates, and course critique forms). Trains personnel by conducting formal classroom courses, workshops and seminars.
Minimum General Experience: Four (4) years of related experience.
Minimum Education: Bachelor’s Degree or equivalent.

12. Web Specialist:
Functional Responsibility: To provide technical, Graphical and administrative support to web design/ development projects. Assists in designing, developing Web based solutions, requirements analysis, design, development and testing.
Minimum General Experience: Five (5) years of related experience.
Minimum Education: Associates Degree or High School Diploma.

13. Subject Matter Expert:
Functional Responsibility: This is a highly specialized category to fulfill needs of the Government to acquire the services of a recognized expert in a particular discipline. Provides subject matter expertise and project direction in any of the field such as project management, program management, programmer, engineer, analyst, software specialist, software developer, human factors specialist, systems administrator, or database specialist.
Minimum General Experience: 8 years of experience handling complex projects.
Minimum Education: Bachelor’s Degree or equivalent in a related field.

14. Training Coordinator:
Functional Responsibility: Organizes, prepares and develops materials for IT training sessions. Requires extensive knowledge of the major office suite applications (i.e. word processing, spreadsheet, and presentation and database applications) used in Government IT environments. Should have a strong knowledge of the major desktop and network operating systems currently deployed in both the Government and Commercial sectors.
Minimum General Experience: 4 years of experience
Minimum Education: Bachelor’s Degree or equivalent in a related field.

15. Business Analyst:
Functional Responsibility: The work area for this labor category involves business administration, project analysis, cost analysis, space management and Project scheduling. Uses industry recognized methods to deliver work products in analysis, design, system testing, implementation and maintenance in a system life cycle. Candidate may prepare papers that require planning, organizing, developing and analyzing data. The job involves working with automated software tools and candidate should have comprehensive knowledge of information systems and operations including understanding of database administration.
Minimum General Experience: 3 years of relevant experience.
Minimum Education: Bachelor’s Degree in a related field.

16. Network Engineer/IT Security Specialist:

Functional Responsibility: Job involves Network architecture/design, network management, communication, troubleshooting and diagnostics, Network performance tuning, NW administration including installation, configuration and security; development of monitoring processes and capacity planning. CCNP/CCIE or equivalent certification is required. With demonstrated knowledge and skills to install and manage the routers and switches that form the network core, as well as edge applications that integrate voice, wireless, and security into the network.

Minimum General Experience: 6 years of technical experience.

Minimum Education: Bachelor’s Degree in Engineering or other technical field.

17. Systems Analyst:

Functional Responsibility: The candidate should have knowledge and experience with healthcare IT applications. The job involves data mapping, verification, testing, and error analysis. The Candidate shall assist with development of software requirements, database design and development of new user applications, creation of user test plans and application testing.

Minimum General Experience: 5 years of technical experience.

Minimum Education: Bachelor’s Degree in a technical field.

18. Sr. Quality Assurance (QA) Tester:

Functional Responsibility: Conducts thorough software testing at various levels to ensure that the system fulfills its requirements and is in accordance with its design intent and applicable standards and conventions. Creates test plans, test specifications and test procedures, as well as test reports and formal test result presentations; ensures that all software development projects meet the milestones and can fulfill the allocated system requirements. To identify flaws or errors as early as possible in the typical five phase software development life cycle (SDLC). Should have knowledge of software testing tools, applicable programming languages and operating systems

Minimum General Experience: 5 years of experience in a quality assurance testing environment.

Minimum Education: Bachelor’s Degree in Engineering or other technical field.

19. Program Specialist:

Functional Responsibility: Conducts feasibility studies and determines requirements by analyzing the user's needs. Develops system requirements and program specifications; Identifies resources required for each task. Prepares required system documentation. Interfaces with client personnel at all organizational levels; Performs web designing / data management and related activities

Minimum General Experience: 3 years of related experience.

Minimum Education: Bachelors Degree.

20. Program Assistant:

Functional Responsibility: Performs any combination of the following and similar duties requiring limited knowledge of computer systems or procedures. Writes, types, or enters information into computer using keyboard to prepare technical documentation.

Minimum General Experience: Minimum of 3 years of related experience.

Minimum Education: High school.

21. Technical Assistant:

Functional Responsibility: Handles all work related with data entry, work with Excel and Access database, and provides web support and work with other office applications.

Minimum General Experience: Minimum 2 years of experience.
Minimum Education: High school.

22. CAD (Computer Aided Design) Technician:
Functional Responsibility: Performing space management functions, analytical skills for reviewing customer requirements, ability to read and review Computer Aided Design (CAD) drawings and perform related tasks of technician. Ability to work with Microsoft Office products (Word, Excel, Access) and mathematical (algebra, geometry) skills
Minimum General Experience: 5 years of related experience.
Minimum Education: High school.

23. Technology Specialist:
Functional Responsibility: Provides technical support for the development, execution, and evaluation of programs, projects and systems. Implements plans and requirements, and develops reports and systems. Typical activities include, but are not limited to, developing and reviewing technical documents and plans; performing technology evaluations; testing and evaluation support; system modeling; developing strategic and program management plans and guidance documents; supporting policy development; conducting technical analyses and feasibility assessments and providing enterprise integration support.
Minimum General Experience: 5 years of related experience*
Minimum Education: Bachelor’s Degree*

24. Help Desk/Production Support Specialist
Functional Responsibility: Provide 24/7 on-call support for production systems and assists vendors as required during troubleshooting. Update technical leads and management of incident or incident status. Work with service desk personnel and manage and update assigned tickets. Coordinate with other support entities as required. Perform root cause analysis for problem management. Provide direct support to customers through rapid response to problem reports/trouble tickets.
Minimum General Experience: 3 years of related experience*
Minimum Education: High School*
Substitutions of Education or Work Experience

Degree: Additional Years of Experience may be substituted for college degrees.

- High School Diploma plus four years additional experience equals a Bachelor Degree.
- Associates Degree plus two years additional experience equals a Bachelor Degree.
- Bachelor Degree plus four Year experience equals a Master’s Degree.

Experience:

- Bachelor’s Degree equals four Years of additional experience for High School Requirement.
- Bachelor’s Degree equals two Years of additional experience for Associate Degree requirement.
- Master’s Degree equals four years of additional experience for Bachelors requirement.

"The Service Contract Labor Standards, formerly the Service Contract Act (SCA), apply to this contract and it includes SCLS applicable labor categories. Labor categories and fixed price services marked with a (**) in this pricelist are based on the U.S. Department of Labor Wage Determination Number(s) identified in the SCLS/SCA matrix. The prices awarded are in line with the geographic scope of the contract (i.e., nationwide)."
