GSA Contract # GS35F109BA

GENERAL SERVICES ADMINISTRATION

Federal Acquisition Service

Authorized Federal Supply Schedule Price List

On-line access to contract ordering information, terms and conditions, up-to-date pricing, and the option to create an electronic delivery order are available through GSA Advantage!, a menu-driven database system. The INTERNET address GSA Advantage! is:
<http://www.GSAAdvantage.gov>.

Schedule for: General Purpose Commercial Information Technology Equipment, Software and Services

GSA Schedule: 70 SIN: 132 51

Contract #: GS35F109BA

**For more information on ordering from Federal Supply Schedules
click on the FSS Schedules button at <http://www.fss.gsa.gov>**

Contract Period: Dec 3, 2013 to Dec 2, 2018

Contractor: HX5, LLC
212 Eglin Parkway SE
Fort Walton Beach, FL 32548

Business Size: Small business, Woman Owned business, Service Disabled Veteran Owned Small business, SBA Certified Small Disadvantaged business, SBA Certified 8(a) Firm

Telephone: 850-362-6551
Extension: NA
FAX Number: 850-362-6550
Web Site: www.hxfive.com
E-mail: todd.burkhardt@hxfive.com
Contract Administration: Todd Burkhardt

CUSTOMER INFORMATION

- 1a. **Table of Awarded Special Item Number(s) with appropriate cross-reference to page numbers:** 132 51
- 1b. **Lowest priced model number:** NA
- 1c. **Hourly rates:** See Prices Below
2. **Maximum Order:** \$500,000.00
3. **Minimum Order:** \$100.00
4. **Geographic Coverage (delivery area):** Worldwide
5. **Point(s) of production (city, county, and state or foreign country):** Same as company address
6. **Discount from list prices or statement of net price:** Government net prices (discounts already deducted). See Prices Below
7. **Quantity discounts:** NA
8. **Prompt payment terms:** None, Net 30 days
- 9a. **Notification that Government purchase cards are accepted up to the micro-purchase threshold:** Yes
- 9b. **Notification whether Government purchase cards are accepted or not accepted above the micro-purchase threshold:** No
10. **Foreign items (list items by county of origin):** None

(CUSTOMER INFORMATION: Continued)

- 11a. **Time of Delivery:** As negotiated with ordering agency
- 11b. **Expedited Delivery:** Contact Contractor
- 12. **F.O.B. Point:** Destination
- 13c. **Urgent Requirements:** Contact Contractor
- 14. **Payment address(es):** Same as company address
- 15. **Warranty provision:** NA
- 16. **Export Packing Charges (if applicable):** NA
- 17. **Terms and conditions of Government purchase card acceptance (any thresholds above the micro-purchase level):** None
- 18. **Terms and conditions of rental, maintenance, and repair (if applicable):** N/A
- 19. **Terms and conditions of installation (if applicable):** N/A
- 20a. **Terms and conditions for any other services (if applicable):** N/A
- 21. **List of service and distribution points (if applicable):** N/A
- 22. **List of participating dealers (if applicable):** None
- 23. **Preventive maintenance (if applicable):** N/A
- 24a. **Special attributes such as environmental attributes (e.g., recycled content, energy efficiency, and/or reduced pollutants):** N/A
- 24b. **If applicable, indicate that Section 508 compliance information is available on Electronic and Information Technology (EIT) supplies and services and show where full details can be found (e.g. contractor's website or other location). The EIT standards can be found at www.section508.gov:** N/A
- 25. **Data Universal Number System (DUNS) number:** 781841080
- 26. **Notification regarding registration in Central Contractor Registration (CCR) database:** Registration Current

HX5 IT 70 Labor Category Descriptions and GSA Pricing

Descriptions of IT Professional Services

Labor Code: 1

Labor Title: Support Specialist IV

Experience Required: 5+ years

Education Required: AA or Equivalent

Responsibilities: Provides non-routine administrative assignments of substantial variety and complexity. Serves as organizational authority in areas of administrative responsibility. Develops, recommends, and implements timely completion of functions to satisfy contract requirements which may include scheduling of material, man-hours, or information services.

Labor Code: 2

Labor Title: Systems Developer I

Experience Required: 2+ years

Education Required: Bachelors degree or equivalent

Responsibilities: Implements and maintains computer systems according to design specifications. Performs coding, testing, installation, and maintenance of routine computer systems using established scientific programming. Develops system documentation and operational procedures. Assists in the preparation of resources estimates and project cost analyses. Provides diagnostic support to correct processing anomalies in developed systems. Recommends computer software and procedure enhancements to improve systems.

Labor Code: 3

Labor Title: Systems Developer IV

Experience Required: 10+ years

Education Required: Bachelors degree or equivalent

Responsibilities: Develops, maintains and evaluates complex computer systems. Prepares design specifications for computer systems. Prepares estimates and cost analyses; coordinates organizational support activities for a project. Interprets mathematical specifications and implements computational algorithms. Assists in the training of less experienced personnel and in the development of training material; reviews the work of others for conformance to established techniques and procedures. Is considered an expert in standard concepts, practices, and procedures within their field of expertise. May supervise others.

Labor Code: 4

Labor Title: Information Systems Specialist I

Experience Required: 2-5 years

Education Required: Bachelors degree or equivalent

Responsibilities: Develops and executes unit test scripts and supports other quality control activities. Implements consulting and technology tools to satisfy project requirements by performing benchmark analyses, financial, and statistical modeling, and interviewing clients. Applies change management initiatives, reengineering business processes to support technology, and identifying strategic synergies within project scope.

Labor Code: 5

Labor Title: Information Systems Specialist II

Experience Required: 5-8 years

Education Required: Bachelors degree or equivalent

Responsibilities: Analyzes and documents data, conducts extensive research, and integrates technical solutions. Facilitates participation of the client's functional specialists. Acts as functional lead for requirements definition to an IT systems development project. Maintains accountability for process deliverables and business presentations to client. Experience gathering functional requirements and translating business needs into technical requirements.

Labor Code: 6

Labor Title: Information Systems Specialist III

Experience Required: 8-10 years

Education Required: Bachelors degree or equivalent

Responsibilities: Reviews, analyzes, and modifies programming systems including encoding, testing, debugging and installing to support an organization's application systems. Consults with users to identify current operating procedures and to clarify program objectives. May write manuals for users to describe installation and operating procedures. Possesses a working knowledge of relational databases and client-server concepts. Relies on experience and judgment to plan and accomplish goals. May lead and direct the work of others. Typically reports to a project leader or manager. A wide degree of creativity and latitude is expected.

Labor Code: 7

Labor Title: Programmer Analyst III

Experience Required: 8-10 years

Education Required: Bachelors degree or equivalent

Responsibilities: Formulates and defines system scope and objectives. Devises or modifies procedures to solve complex problems considering computer equipment capacity and limitations, operating time, and form of desired results. Prepares detailed specifications from which programs will be written. Designs, codes, tests, debug, and document those programs. Competent to work at the highest technical level of all phases of applications systems analysis and programming activities. May be responsible for completion of a phase of a project. Regularly provides guidance and training to less-experienced analyst/programmers.

Labor Code: 8

Labor Title: Programmer Analyst IV

Experience Required: 15 years plus

Education Required: Bachelors degree or equivalent

Responsibilities: Devises or modifies procedures to solve complex problems considering computer equipment capacity and limitations, operating time, and form of desired results. Prepares detailed specifications from which programs will be written. Designs, codes, tests, debug, and document those programs. Competent to work at the highest technical level of all phases of applications systems analysis and programming activities. May be responsible for completion of a phase of a project. May supervise others.

Labor Code: 9

Labor Title: Functional Area Specialist II

Experience Required: 5-8 years

Education Required: Bachelors degree or equivalent

Responsibilities: Completes support services focused in specialized business departments. Applies procedures and techniques to resolving issues and completing tasks. May lead special project teams. Works under supervision.

Labor Code: 10

Labor Title: Functional Area Specialist III

Experience Required: 8-10 years

Education Required: Bachelors degree or equivalent

Responsibilities: Responsible for high-level repair, installation and maintenance of personal computer hardware and peripherals at customer locations. Demands a strong emphasis on customer satisfaction. Works on assignments that are complex in nature. Works in an unsupervised environment within policies and procedures. May supervise others.

Labor Code: 11

Labor Title: Engineering Specialist

Experience Required: 2+ years

Education Required: Bachelors degree or equivalent

Responsibilities: Performs technical research and develops solutions and techniques. Creates or analyzes complex mechanisms, systems, and equipment which require broad knowledge of several fields and an extensive knowledge of own specialty. Responsible for design, development, implementation, and analysis for a wide range technical products and systems. Familiar with standard concepts, practices, and procedures within a particular field. Works under supervision.

Labor Code: 12

Labor Title: Engineering Specialist III

Experience Required: 8+ years

Education Required: Bachelors degree or equivalent

Responsibilities: Researches, analyzes, and presents factors bearing upon the design or development of a highly complex computer system or network, and the ability to detect and analyze problems encountered in the operation of such a system or network, and develop viable solutions for improved operation. Must also be able to troubleshoot inoperative equipment or systems hardware and software, and the technical documentation, to locate, isolate, and correct discrepancies causing the malfunction. Experience must involve design, development, production or installation of systems, and the evaluation of a systems ability to meet or exceed stated objectives.

Labor Code: 13

Labor Title: Engineering Specialist IV

Experience Required: 10-15 years

Education Required: Masters degree or equivalent

Responsibilities: Experience working with one or more of appropriate disciplines related to individual tasking, and be able to demonstrate knowledge by referencing inventions, novel concepts, groundbreaking technology, publications, presentations to professional groups, and successful program leadership. Must also possess proven capability to direct and manage a specified program and its staff, achieving success from both technological and budgetary standpoints.

Labor Code: 14

Labor Title: Support Engineer III

Experience Required: 8-10 years

Education Required: Bachelors degree or equivalent

Responsibilities: Performs field installation, configuration, and troubleshooting of computer hardware and software components in large and complex automation environments. The types of hardware and software range from minicomputers and microcomputers to networking and communications equipment, and computer peripherals. Supports new installations and adds, moves, and changes to existing environments. Also dispatched by help desk personnel to troubleshoot and repair faulty computer and communications equipment.

Labor Code: 15

Labor Title: System Engineer

Experience Required: 2+ years of experience

Education Required: Associates Degree or Equivalent

Responsibilities: Develops code, tests, and debugs new software or enhancements to existing software. Works with technical staff to understand problems with software and resolve them. Resolves customer complaints with software and responds to suggestions for improvements and enhancements. May assist in development of software user manuals. Experience in information system development, functional and data requirements analysis, systems analysis and design, programming, program design, computer software, system security, or LANs/WANs. Equivalent experience may be substituted for a degree. Works under close supervision.

Labor Code: 16

Labor Title: System Engineer I

Experience Required: 5+ year experience

Education Required: Bachelors degree or equivalent

Responsibilities: Participates as technical support in design development, coding, testing, and debugging new software or significant enhancements to existing software. Works with technical staff to understand problems with software and develops specifications to resolve them. Resolves customer complaints and responds to suggestions for improvements and enhancements. Participates in the development of software user manuals. Assists in training less experienced software development staff. Works under supervision.

Labor Code: 17

Labor Title: System Engineer II

Experience Required: 5+ years of experience

Education Required: Bachelors degree or equivalent

Responsibilities: Participates as high-level technical support in design development, coding, testing, and debugging new software or significant enhancements to existing software. Works with technical staff to understand problems with software and develops specifications to resolve them. Resolves customer complaints and responds to suggestions for improvements and enhancements. Participates in the development of software user manuals. May act as team leader on less complex projects. Assists in training less experienced software development staff.

Labor Code: 18

Labor Title: System Engineer III

Experience Required: 8+ years of experience

Education Required: Bachelors degree or equivalent

Responsibilities: May lead development teams and provides highly skilled expertise in designing, developing, coding, testing, and debugging new software or significant enhancements to existing software. Works with technical staff to understand problems with software and develops specifications to resolve them. Resolves customer complaints and responds to suggestions for improvements and enhancements. Participates in the development of software user manuals. Provides subject matter expertise and mentors less experienced software development staff.

Labor Code: 19

Labor Title: System Engineer V

Experience Required: 10+ years

Education Required: PhD or equivalent

Responsibilities: Formulates and defines specifications for complex operating software programming applications or modifies/maintains complex existing applications using engineering releases and utilities from the manufacturer. Designs, codes, tests, debugs, and documents programs. Responsible for applications dealing with the overall operating system, such as sophisticated file maintenance routines, large telecommunications networks, computer accounting, and advanced mathematical/scientific software packages. Competent to work at this highest technical level on all phases of software systems programming applications. May have responsibility for the evaluation of new and existing software products. May assist other systems programmers to effectively utilize the system's technical software. May supervise others.

Labor Code: 20

Labor Title: Subject Matter Expert IV

Experience Required: 10+ years

Education Required: PhD or equivalent

Responsibilities: Applies sound expertise and practices to solve a wide variety of customer

problems. Completes re-engineering efforts of complex technical processes and systems; applies advanced scientific technologies in systems, experiments, and demonstrations; and introduces into systems the application of leading edge technological developments. Publishes articles or books in field of expertise. Specialized experience is directly applicable to the task requirements. May supervise others.

Labor Code: 21

Labor Title: Subject Matter Specialist II

Experience Required: 5-8 years

Education Required: Bachelors degree or equivalent

Responsibilities: Provides technical knowledge and analysis of highly specialized applications and operational environments. Provides high-level functional systems analysis, design, integration, documentation and implementation advice on exceptionally complex problems that need extensive knowledge of the subject matter for effective implementation. Participates as needed in all phases of software development with emphasis on the planning, analysis, testing, integration, documentation, and presentation phases. Provides expert guidance and insight into specific technologies and their application and independently performs a variety of system design and integration tasks where a specific subject matter experience is required. May supervise others.

Labor Code: 22

Labor Title: Subject Matter Specialist V

Experience Required: >15 years

Education Required: Bachelors degree or equivalent

Responsibilities: Maintains a complete understanding and application of principles, concepts, practices, and standards. Full knowledge of industry practices. Develops solutions to a variety of complex problems. May refer to established precedents and policies. Work is performed without appreciable direction. Exercises considerable latitude in determining technical objectives of assignment. Completed work is reviewed from a relatively long-term perspective. May supervise others.

*** For entries under the "Knowledge and Skill Requirements" column identifying college or experience requirements, one year of relevant experience can be substituted for one year of college. Alternatively, one year of college where relevant courses are taken can be substituted for one year of experience. For example; if the education requirement is Bachelor's with 4 years' experience, 8 years of relevant experience with no college would be equivalent and if the experience requirement is 4 years with no college, a Bachelor's degree in a relevant area would be equivalent. All advanced degrees require minimum of Bachelor's degree plus years of experience**
