Labor Category Descriptions

Innovatus Technology Consulting offers the following Labor Category Descriptions to support the effort contemplated herein.

Program Manager (Mid and Senior)

General Summary
- Directs the performance of a variety of related projects which may be organized by technology, program or client.
- Oversees the technology development and/or application, marketing, and resource allocation within program client base.

Principal Duties and Responsibilities
1. Responsible for the effective management of funds and personnel, and is accountable for the quality and timely delivery of all contractual items.
2. Operates within client guidance, contractual limitations, and Company business and policy directives. Serves as focal point of contact with client regarding program activities.
3. Ensures that all required resources including manpower, production standards, computer time, and facilities are available for program implementation.
4. Manages program consisting of multiple projects including project identification, design, development and delivery.
5. Maintains the development and execution of business opportunities based on broad, general guidance. Responsible for marketing new technology and follow-on business acquisitions.
6. Confers with project manager to provide technical advice and to assist with problem resolution.
7. May perform other duties as assigned.

Job Specifications
- Mid-level Program Manager: Bachelor’s Degree or equivalent and 10 years of general experience.*
- Senior Program Manager: Master’s Degree or equivalent and 15 years of general experience.*
- Must be able to obtain and maintain a Secret Security Clearance

Project Manager

General Summary
- Manages project operations.
- Ensures production schedules are met.
- Ensures system resources are used effectively.

Principal Duties and Responsibilities
1. Coordinates the resolution of production-related problems.
2. Ensures proper relationships are established between customers, teaming partners, and vendors to facilitate the delivery of information technology services.
3. Provides users with computer output. Supervises staff operations.

Job Specifications
- Bachelor’s Degree or equivalent and 8 years of general experience.*
Must be able to obtain and maintain a Secret Security Clearance.

**Cybersecurity Specialist**

**General Summary**
Plan, coordinate, and implement security measures for information systems to regulate access to computer data files and prevent unauthorized modification, destruction, or disclosure of information. Protect organizations from losing data, such as customers’ valuable trade secrets, as well as the time and money lost when information systems are brought to a halt.

**Principal Duties and Responsibilities**
1. Train users and promote security awareness to ensure system security and to improve server and network efficiency.
2. Develop plans to safeguard computer files against accidental or unauthorized modification, destruction, or disclosure and to meet emergency data processing needs.
3. Confer with users to discuss issues such as computer data access needs, security violations, and programming changes.
4. Monitor current reports of computer viruses to determine when to update virus protection systems.
5. Coordinate implementation of computer system plan with establishment personnel and outside vendors.
6. Perform risk assessments and execute tests of data processing system to ensure functioning of data processing activities and security measures.
7. Document computer security and emergency measures policies, procedures, and tests.
8. Review violations of computer security procedures and discuss procedures with violators to ensure violations are not repeated.

**Job Specifications**
Bachelor’s Degree or equivalent and 8 years of general experience.*
Must be able to obtain and maintain a Secret Security Clearance.

**Systems Administrator (Junior, Mid, and Senior)**

**General Summary**
Applies professional experience and training in information technology to administer all aspects of operating systems in a complex computing environment. Responsible for a variety of duties which include development and installation of operating system software, systems programming and modification of operating systems, performance analysis, database maintenance and management, security administration, and management of data storage.

**Principal Duties and Responsibilities**
1. Install, configure, and maintain Windows workstations, servers, networks, and related hardware and software.
2. Develop and implement scripting and Windows Group Policy Objects.
5. Investigate, troubleshoot, and resolve high-level, complex, technical problems.
6. Assist in repair and recovery from hardware or software failures.
7. Apply Operating System (OS) patches and upgrades and will upgrade administrative tools and utilities.
8. Add and configure new services as required.
9. Upgrade and configure system software to support infrastructure applications or asset management applications per project or operational needs.
10. Perform hardware upgrades as required.
11. Configure CPU, memory, and disk partitions, as required.
12. Document and deliver technical reports to senior leadership.

**Job Specifications**

Junior Systems Administrator: Bachelor's Degree or equivalent and 3 years of experience.*
Mid-level Systems Administrator: Bachelor's Degree or equivalent and 5 years of experience.*
Senior Systems Administrator: Master's Degree or equivalent and 8 years of experience.*

Must be able to obtain and maintain a Secret Security Clearance.
