## 1. INFORMATION FOR ORDERING ACTIVITIES

### **SPECIAL NOTICE TO AGENCIES: Small Business Participation**

SBA strongly supports the participation of small business concerns in the Federal Acquisition Service. To enhance Small Business Participation SBA policy allows agencies to include in their procurement base and goals, the dollar value of orders expected to be placed against the Federal Supply Schedules, and to report accomplishments against these goals.

For orders exceeding the micro-purchase threshold, FAR 8.404 requires agencies to consider the catalogs/pricelists of at least three schedule contractors or consider reasonably available information by using the GSA Advantage!™ on-line shopping service ([www.fss.gsa.gov](http://www.fss.gsa.gov)). The catalogs/pricelists, GSA Advantage!™ and the Federal Acquisition Service Home Page ([www.fss.gsa.gov](http://www.fss.gsa.gov)) contain information on a broad array of products and services offered by small business concerns.

This information should be used as a tool to assist ordering activities in meeting or exceeding established small business goals. It should also be used as a tool to assist in including small, small disadvantaged, and women-owned small businesses among those considered when selecting pricelists for a best value determination.

For orders exceeding the micro-purchase threshold, customers are to give preference to small business concerns when two or more items at the same delivered price will satisfy their requirement.

A federal supply schedule, also known as a Multiple Award Schedule (MAS) is a listing of Contractors that have been awarded a contract by GSA. Federal agencies can use the MAS, Multiple Award Schedule to order services. The federal supply schedule program mirrors commercial buying practices more than any other procurement process in the federal government. The pricing offered on this schedule is the same as offered to commercial customers. GSA has determined that the pricing offered is fair and reasonable.

#### **1. 1. Special Item Numbers/Rates/Categories:**

- a. Special Item Numbers (SINS): 54151S, OLM
- b. Prices shown in the price list are valid for all CONUS geographic areas.  
[NOTE: Travel costs will be expensed in accordance with Joint Travel Regulations.]
- c. Labor Category Descriptions: Provided in Section 3:Labor Category Descriptions
- d. Labor Rates: Provided in Section 4: Labor Rates

#### **2. Maximum Order:**

There is no limit for the Maximum Order.

**3. Minimum Order**

The Minimum Order is \$27.78.

**4. Geographic Coverage:**

Domestic Only

**5. Point of Production:**

Automation Technologies Inc.  
45240 Business Court  
Suite 300  
Sterling, VA 20166

*No Foreign produced items are offered as part of this schedule.*

**6. Statement of Net Price:**

Prices shown in the price list are net, with all discounts deducted.

**7. Quantity Discounts**

Prices shown are NET Prices; Basic Discounts have been deducted.

- a. Quantity: None
- b. Dollar Volume: None
- c. Government Educational Institutions: Same as Federal Government
- d. Other: None

**8. Prompt Payment Terms**

Prompt Payment: ½% - Fifteen (15) days from receipt of invoice or date of acceptance, whichever is later, NET 30 days

*Information for Ordering Offices: Prompt payment terms cannot be negotiated out of the contractual agreement in exchange for other concessions.*

**9. Government Purchase Cards**

- a. Notification that Government Purchase Cards are Accepted *Below* the Micro Purchase Threshold:  
Credit cards will be acceptable for payment *below* the micro-purchase threshold.
- b. Notification that Government Purchase Cards are Accepted *ABOVE* the Micro Purchase Threshold:  
Credit cards will be acceptable for payment *above* the micro-purchase threshold.

**10. Foreign Items:**

None.

**11. Delivery:**

- a. Time of Delivery:  
Will be negotiated between ATI and Ordering Agency at the time of order.
- b. Expedited Delivery:  
Will be negotiated between ATI and Ordering Agency at the time of order.
- c. Overnight/2-day Delivery:  
Will be negotiated between ATI and Ordering Agency at the time of order.
- d. Urgent Requirements:  
Will be negotiated between ATI and Ordering Agency at the time of order.

**12. F.O.B. Point:**

Destination, Freight Prepaid

**13. Ordering :**

- a. Please forward all orders via email, or to the designated individuals at the address shown below:

Automation Technologies Inc. (ATI)  
Attn: Roxanne Szendre  
Contracts Administrator  
45240 Business Court  
Suite 300  
Sterling, VA 20166  
Email: [rszendre@ati4it.com](mailto:rszendre@ati4it.com)  
Phone: 703-848-7938 (Note: Phone orders are not accepted.)  
Fax: 703-883-1435

Automation Technologies Inc. (ATI)  
Attn: Gary Webb  
Vice President  
45240 Business Court  
Suite 300  
Sterling, VA 20166  
Email: [gwebb@ati4it.com](mailto:gwebb@ati4it.com)  
Phone: 443-567-0177 (**Note: Phone orders are not accepted.**)  
Fax: 703-883-1435

b. Ordering Procedures:

Please see Section 6 for the Blanket Purchase Agreement. Further information for supplies and services, the ordering procedures, information on Blanket Purchase Agreements (BPA's) are found in Federal Acquisition Regulation (FAR) 8.405-3.

**14. Payment Address:**

Electronic Payment, if possible, to:

PNC Bank  
Tax ID # 54-1744973  
PNC Routing #: 054000030  
PNC Account #: 5306828743

By check to the following address:

Automation Technologies Inc.  
45240 Business Court  
Suite 300  
Sterling, VA 20166

Email: [luang@ati4it.com](mailto:luang@ati4it.com) and [dbaker@ati4it.com](mailto:dbaker@ati4it.com)

**15. Warranty Provisions:**

The Contractor warrants and implies that the items delivered hereunder are merchantable and fit for the particular purpose described in the contract.

**16. Export Packing Charges:**

N/A

**17. Terms and Conditions of Government Purchase Card Acceptance (any thresholds above the micro purchase level):**

Government credit cards will be acceptable for payment above the micro-purchase threshold up to \$500,000.

**18. Terms and conditions of Rental, Maintenance and Repair:**

N/A

**19. Terms and Conditions of Installation:**

N/A

**20. Terms and Conditions of Repair Parts, etc.:**

N/A

**20. a. Terms and Conditions for any Other Services:**

N/A

**21. List of Service and Distribution Points:**

N/A

**22. List of Participating Dealers:**

N/A

**23. Preventative Maintenance:**

N/A

**24. a. Environmental Attributes:**

ATI will comply with applicable environmental guidelines/regulations associated with the production and distribution of products and services provided under this GSA Schedule.

**24. b. Section 508 Compliance Information:**

S&A provides support services related to Information and Computer Technology (ICT) to Government clients and adheres to all Section 508 requirements as detailed in the terms and conditions of the respective Government contracts.

**25. Data Universal Number System (DUNS) Number:**

058428876

**26. Notification Regarding Registration in System for Award Management (SAM):**

Cage Code: 1ME44

ATI is registered and active in the SAM database.

## 2. Scope of Schedule

### 1. Scope

ATI provides professional services domestically under the following SINs:

#### Information Technology Category

##### IT Services Subcategory

SIN 54151S

Information Technology Professional Services

IT Professional Services and/or labor categories for database planning and design; systems analysis, integration, and design; programming, conversion and implementation support; network services, data/records management, and testing.

NOTE: Subject to Cooperative Purchasing

#### Order-Level Materials (OLM)

OLMs are supplies and/or services acquired in direct support of an individual task or delivery order placed against a Schedule contract or BPA. OLM pricing is not established at the Schedule contract or BPA level, but at the order level. Since OLMs are identified and acquired at the order level, the ordering contracting officer (OCO) is responsible for making a fair and reasonable price determination for all OLMs.

### 3. LABOR CATEGORY DESCRIPTIONS

#### **001 - Consulting Systems Advisor**

**Experience:**

Fifteen or more (15+) years of experience within the industry.

**Functional Responsibility:**

The Consulting System Advisor develops and applies advanced methods, theories, and research techniques in the investigation and solution of complex and difficult concept, planning, design, and/or implementation problems requiring the expert application of advanced knowledge. He or she is often the highest level of individual contributor and is normally widely recognized for achievements, technical expertise, and meritorious standing within his or her professional field.

**Education:**

Bachelor's degree in Business, Engineering, Computer Science or equivalent experience.

#### **002 - Sr. Systems Advisor**

**Experience:**

Twelve or more (12+) years of experience within the industry.

**Functional Responsibility:**

The Sr. Systems Advisor defines, plans, and leads complex, enterprise-wide engagements. He or she oversees projects, including defining executive project objectives, planning, project execution, recommendation development, and solution delivery planning. He or she leads/facilitates teams on projects and applies business reengineering approaches and techniques including strategic planning, business information planning, enterprise information requirements, activity-based costing, economic analysis, information technology architecture design, and change management to effect organizational change and improve organizational performance. The expert provides solution options and creates and manages plans for reengineering implementation as required.

**Education:**

Bachelor's degree in Business, Engineering, Computer Science or equivalent experience.

#### **003 - Sr. Program Manager**

**Experience:**

Must have a minimum of twelve (12) years experience in the management or performance of projects with complex scope and requirements.

**Functional Responsibility:**

Performs day-to-day management of overall contract support operations, possibly involving multiple projects and groups of personnel at multiple locations. Organizes, directs, and coordinates the planning and production of all contract support activities. Demonstrates writing and oral communications skills. Establishes and alters (as necessary) corporate management structure to direct effective contract support activities. Must be capable of negotiating and making binding decisions for the company.

**Education:**

Bachelor's degree in Business, Engineering, Computer Science or equivalent experience.

**004 - Sr. Functional Analyst****Experience:**

Ten or more (10+) years of experience within the industry.

**Functional Responsibility:**

The Senior Functional Analyst works independently or within a team to determine user needs and functional requirements as they pertain to Information Technology systems and their solutions within an organization. He or she works with information technology and systems technology to incorporate functional requirements into current or emergent systems and may remain involved through the design and implementation phase of any project.

**Education:**

Bachelor's degree in Business, Engineering, Computer Science or professional certification.

**005 - Senior Application Specialist****Experience:**

Eight or more (8+) years of progressive experience in programming and software systems environments.

**Functional Responsibility:**

The Senior Application Specialist analyzes systems and or software requirements, develops code, modifies Commercial off the Shelf (COTS) products, and performs upgrades for complex systems. He or she will perform database support, R & D, technical publication/specs, planning, configuration management, Internet programming, and total systems support and management.

**Education:**

Bachelor's degree in Business, Engineering, Computer Science or professional certification.

**006 - Technology Analyst****Experience:**

Three or more (3+) years of technology experience in an Information Technology environment.

**Functional Responsibility:**

Individual will provide analysis and basic expertise involving enterprise wide information technology requirements. Individual will assist in development of requirements from a project's inception to conclusion in the subject matter area, for moderately complex systems, assist computer systems analysts with analysis, evaluation and the preparation of recommendations for systems improvements, optimization, development, and or maintenance efforts for specific elements such as Internets/Intranets, Networks, Decision Support Systems and Web Based technologies.

**Education:**

Bachelor's degree in Computer Science, professional certification or equivalent experience.

**007 - Internet Specialist****Experience:**

Six or more (6+) years of experience utilizing internet system environments.

**Functional Responsibility:**

The Internet Specialist performs a variety of tasks utilizing video imaging systems, computer-generated imaging, as well as multi-media computing systems. He or she produces, edits, and creates multi-media presentations develops web pages, programs in CGI, Java and other internet applications as well as provides expertise in the mixing of technologies. This position works alone or in a team environment to meet the specific needs of the customer.

**Education:**

Bachelor's degree in Computer Science, professional certification or equivalent experience.

**008 - Systems Advisor****Experience:**

Four or more (4+) years of progressive systems experience working independently on complex application problems involving multiple phases of systems analysis.

**Functional Responsibility:**

Utilizes current analysis methodologies and demonstrated ability to formulate specifications, and experience performing analysis on moderate to complex systems. Analyzes and defines problems develops system requirements and program specifications. Closely coordinates proper implementation of program and system specifications. Performs data collection and analysis for business and technical requirements of clients. Provides technical and administrative direction for personnel performing software development tasks, including the review of work products for correctness, adherence to the design concept and to user

standards and for progress in accordance with schedules. Prepares milestone status reports and deliveries/ presentations on the system concept to colleagues, subordinates, and end user representatives.

**Education:**

Bachelor's degree in Business, Engineering, Computer Science or equivalent experience.

**009 - Technology Consultant****Experience:**

Four or more (4+) years of experience in information systems technology design and management.

**Functional Responsibility:**

Analyzes and develops computer software systems possessing a wide range of capabilities, including numerous engineering, business, and records management duties. Develops plans for systems from project inception to conclusion. Analyzes the problem and the information to be processed. Defines the problem and develops system requirements and program specifications from which programmers prepare detailed flowcharts, programs, and tests. Closely coordinates with programmers to ensure proper implementation of program and system specifications. Develops, in conjunction with functional users, system alternative solutions.

**Education:**

Bachelor's degree in Computer Science or equivalent technology experience.

**010 - Functional Analyst****Experience:**

Four or more (4+) years of experience within the industry.

**Functional Responsibility:**

The Functional Analyst is a subject matter specialist who participates in the analysis of user needs to determine functional requirements as they apply to information technology systems or solutions. He or she may work independently or as a member of a team and demonstrates superior oral and written communication skills.

**Education:**

Bachelor's degree in Business, Engineer, Computer Science, professional certification or equivalent experience.

**011 - Application Specialist****Experience:**

Four or more (4+) years of experience in a systems environment.

**Functional Responsibility:**

The Application Specialist performs database support, R & D, technical publication and systems specification research, Internet planning/development, and Internet systems management. He or she will program software/software solutions based on needs, resolves trouble reports, and update changes per request.

**Education:**

Bachelor's degree in Business, Engineering, Computer Science or equivalent years of experience.

**012 - Systems Technician****Experience:**

Four or more (4+) years of experience in technology environment.

**Functional Responsibility:**

Performs analyses and develops recommendations on various subjects: virus protection procedures, network maintenance and administration and technology transfer. Designs, configures and directs installation of LANs. Performs routine and complex tasks in network engineering and management operations. Provides systems configuration, management and administration for local and distributed networks. Performs hardware/software configuration, management and troubleshooting for operating systems and Commercial Off The Shelf packages. Performs routine hardware repair and data recovery.

**Education:**

Professional certification or equivalent skills training.

**013 - Data Management Specialist****Experience:**

Four or more (4+) years of experience in technology environment.

**Functional Responsibility:**

Data Management Specialist prepares documents, forms, and tables utilizing various software packages. He or she maintains databases, models basic spreadsheets and coordinates the acquisition, translation and interpretation of various data sources. The individual updates Internet web sites as necessary, and performs graphic illustrations using latest software.

**Education:**

Associates degree in Business or equivalent skills training.

**014 - Administrative Specialist****Experience:**

Two or more (2+) years of office systems and clerical experience.

**Functional Responsibility:**

The Administrative Specialist produces documents using a variety of programs including Microsoft Word, PowerPoint, and Excel. Coordinates copying and the preparation of papers and reports as well as answers telephone. The individual has basic computer capabilities and can produce view graph presentations, provide word processing support and perform data entry projects.

**Education:**

High School diploma and two years' experience.

**015 - Subject Matter Expert - Level V****Experience:**

Seventeen or more (17+) years of general experience with a Bachelor's Degree. With a Master's Degree, 15 years of general experience is required. With a PhD, 13 years of general experience is required.

**Functional Responsibility:**

Subject Matter Expert Level V is an expert in single or multiple technical disciplines. Provides Expert guidance and insight into specific technologies and their application and independently performs a variety of system design and integration tasks where a specific subject matter expertise is necessary. Plans and performs research, design assessment, development, integration and other assignments in a specific technical area. Responsible for highly complex technical/engineering areas. May perform other duties, as assigned.

**Education:**

Bachelor's degree, Master's Degree, or PhD in Business, Engineering, Computer Science or equivalent experience.

**016 - Subject Matter Expert - Level IV****Experience:**

Fifteen or more (15+) years of general experience with a Bachelor's Degree. With a Master's Degree, 13 years of general experience is required. With a PhD, 11 years of general experience is required.

**Functional Responsibility:**

Subject Matter Expert Level IV is an expert in single or multiple technical disciplines. Provides Expert guidance and insight into specific technologies and their application and independently performs a variety of system design and integration tasks where a specific subject matter expertise is necessary. Plans and performs research, design assessment,

development, integration and other assignments in a specific technical area. Responsible for highly complex technical/engineering areas. May perform other duties, as assigned.

**Education:**

Bachelor's degree, Master's Degree, or PhD in Business, Engineering, Computer Science or equivalent experience.

**017 - Subject Matter Expert - Level III****Experience:**

Thirteen or more (13+) years of general experience with a Bachelor's Degree. With a Master's Degree, 11 years of general experience is required. With a PhD, 9 years of general experience is required.

**Functional Responsibility:**

Subject Matter Expert Level III is an expert in single or multiple technical disciplines. Provides Expert guidance and insight into specific technologies and their application and independently performs a variety of system design and integration tasks where a specific subject matter expertise is necessary. Plans and performs research, design assessment, development, integration and other assignments in a specific technical area. Responsible for highly complex technical/engineering areas. May perform other duties, as assigned.

**Education:**

Bachelor's degree, Master's Degree, or PhD in Business, Engineering, Computer Science or equivalent experience.

**018 - Subject Matter Expert - Level II****Experience:**

Eleven or more (11+) years of general experience with a Bachelor's Degree. With a Master's Degree, 9 years of general experience is required. With a PhD, 7 years of general experience is required.

**Functional Responsibility:**

Subject Matter Expert Level II is an expert in single or multiple technical disciplines. Provides Expert guidance and insight into specific technologies and their application and independently performs a variety of system design and integration tasks where a specific subject matter expertise is necessary. Plans and performs research, design assessment, development, integration and other assignments in a specific technical area. Responsible for highly complex technical/engineering areas. May perform other duties, as assigned.

**Education:**

Bachelor's degree, Master's Degree, or PhD in Business, Engineering, Computer Science or equivalent experience.

**019 - Subject Matter Expert - Level I****Experience:**

Nine or more (9+) years of general experience with a Bachelor's Degree. With a Master's Degree, 7 years of general experience is required. With a PhD, 5 years of general experience is required.

**Functional Responsibility:**

Subject Matter Expert Level I is an expert in single or multiple technical disciplines. Provides Expert guidance and insight into specific technologies and their application and independently performs a variety of system design and integration tasks where a specific subject matter expertise is necessary. Plans and performs research, design assessment, development, integration and other assignments in a specific technical area. Responsible for highly complex technical/engineering areas. May perform other duties, as assigned.

**Education:**

Bachelor's degree, Master's Degree, or PhD in Business, Engineering, Computer Science or equivalent experience.

**020 - Senior Systems Architect****Experience:**

Twelve or more (12+) years of experience within the industry.

**Functional Responsibility:**

The Systems Architect independently performs a variety of system design and engineering tasks which are broad in nature and are concerned with design and implementation of major enterprise systems development and integration, including supporting personnel, hardware, software, and support facilities and/or equipment. Supervises team of Sr. Systems Administrators, System Analysts, Sr. Network Engineers, and Network Engineers through project completion. Serves as the expert responsible for providing technical leadership and direction in supporting the application of sound system engineering concepts and practices to the acquisition of government embedded, real-time systems, and information processing systems. The Senior Systems Architect advises, participates, and supports projects and teams in the technical analysis of large complex mission critical systems.

**Education:**

Bachelor's degree in Business, Engineering, Computer Science or equivalent experience.

**021 - Sr. Systems Engineer****Experience:**

Twelve or (12+) years of experience with implementing engineering principles, techniques and processes.

**Functional Responsibility:**

The Sr. Systems Engineer conducts IT engineering work requiring judgment in the evaluation, selection, adaptation and/or modification of standard techniques, procedures and criteria. Develops new approaches to problem solving and independently performs assignments with instructions as to the general results expected. Receives technical guidance on unusual or complex problems and supervisor approval for all projects. May supervise other engineers or technicians on assigned work. Implements engineering principles, techniques and processes and formulates and documents alternative methodologies for achieving customer objectives.

**Education:**

Bachelor's degree in Computer Science, professional certification or equivalent experience.

**022 - Senior Knowledge Architect****Experience:**

Twelve or (12+) years of experience with strategy formulation and knowledge engineering/management.

**Functional Responsibility:**

The Knowledge Architect is responsible for developing innovative information systems solutions and alternatives to address specific business needs. He or she defines knowledge processes and identifies the technology requirements for creating, capturing, organizing, accessing and using knowledge assets. They are responsible for the development of an overall knowledge management strategy for diverse and distinct databases and leads and/or assist with different phases of the strategy execution for program and project initiatives. He or she directly leads and/or facilitates meetings to collect, devise and design knowledge management requirements and devise business solutions of business problems related to knowledge management. Formulates policies, guidelines, principles and procedures for incorporation in solutions and acts as an expert level consultant for implementation and/or maintenance.

**Education:**

Bachelor's degree in Business, Engineering, Computer Science or equivalent experience.

**023 - Knowledge Architect****Experience:**

Eight or (8+) years of experience with strategy formulation and knowledge engineering/management.

**Functional Responsibility:**

The Knowledge Architect is responsible for developing innovative information systems solutions and alternatives to address specific business needs. He or she defines knowledge processes and identifies the technology requirements for creating, capturing, organizing, accessing and using knowledge assets. They are responsible for the development of an overall knowledge management strategy for diverse and distinct databases and leads and/or assist with different phases of the strategy execution for program and project initiatives. He or she directly leads and/or facilitates meetings to collect, devise and design knowledge management requirements and devise business solutions of business problems related to knowledge management. Formulates policies, guidelines, principles and procedures for incorporation in solutions and acts as an expert level consultant for implementation and/or maintenance.

**Education:**

Bachelor's degree in Business, Engineering, Computer Science or equivalent experience.

**024 - Systems Architect****Experience:**

Eight or more (8+) years of experience within the industry.

**Functional Responsibility:**

The Systems Architect independently performs a variety of system design and engineering tasks which are broad in nature and are concerned with design and implementation of major enterprise systems development and integration, including supporting personnel, hardware, software, and support facilities and/or equipment. Supervises team of Sr. Systems Administrators, System Analysts, Sr. Network Engineers, and Network Engineers through project completion. Serves as the expert responsible for providing technical leadership and direction in supporting the application of sound system engineering concepts and practices to the acquisition of government embedded, real-time systems, and information processing systems. The Senior Systems Architect advises, participates, and supports projects and teams in the technical analysis of large complex mission critical systems.

**Education:**

Bachelor's degree in Business, Engineering, Computer Science or equivalent experience.

**025 - Sr. Systems Administrator****Experience:**

Six or more (6+) years of experience related to the configuration and operation of computer systems and facilities.

**Functional Responsibility:**

Supervises and manages the daily activities of configuration and operation of business systems which may be mainframe, mini, or client/server based. Optimizes system operation and resource utilization and performs system capacity analysis and planning. Provides assistance to users in accessing and using business systems. Recommends appropriate corrective action for complex problems and ensures documentation is prepared for all hardware and/or software adjustments and/or modifications. Prepares reports and analysis of operations, as required. Ensures security procedures are implemented and enforced.

**Education:**

Bachelor's degree in Computer Science, professional certification or equivalent experience.

**026 - Sr. Network Engineer****Experience:**

Six or more (6+) years of experience related to the development and maintenance of computer systems, including four years maintaining networks.

**Functional Responsibility:**

Performs a variety of network engineering tasks, either independently or under supervision, which are broad in nature and are concerned with the design and implementation of integrated networks, including personnel, hardware, software, and support facilities and/or equipment. Supervises team of Network Engineers through project completion. Plans and performs network engineering research, design development, and other assignments in conformance with network design, engineering and customer specifications. Responsible for major technical/engineering projects of higher complexity and importance than those normally assigned to lower level engineers. Coordinates the activities of Network Engineers and Network Technicians assigned to specific network engineering projects.

**Education:**

Bachelor's degree in Computer Science, professional certification or equivalent experience.

**027 - Network Engineer****Experience:**

Two or more (2+) years of experience related to the development and maintenance of computer systems, including 1 year maintaining networks.

**Functional Responsibility:**

Under supervision performs a variety of network engineering tasks which are broad in nature and are concerned with the design and implementation of integrated networks, including personnel, hardware, software and support facilities and/or equipment. Performs with some latitude for un-reviewed actions and decisions. Plans and performs network engineering research, design development, and other assignments in conformance with network design, engineering and customer specifications. Responsible for the technical/engineering part of a major project or a project of lesser complexity and importance than those normally assigned to a higher-level engineer.

**Education:**

Bachelor's degree in Computer Science, professional certification or equivalent experience.

**028 - Systems Analyst****Experience:**

Two or more (2+) years of experience in the development and analysis of system inputs and outputs for improving their accuracy, suitability, and quality.

**Functional Responsibility:**

Performs technical and systems utilization analysis associated with general computer operations. Analyzes automated information system inputs, outputs, and processes to improve their accuracy, suitability, and quality, and to resolve operational or technical problems. Assists in the performance of requirements analysis and design and development of information systems, as well as system utilization techniques, procedures, and standards.

**Education:**

Bachelor's degree in Business, Engineering, Computer Science, professional certification or equivalent experience.

**4. LABOR RATES**

	<b>Period:</b>	<b>02/25/2016 - 02/24/2017</b>	<b>02/25/2017 - 02/24/2018</b>	<b>02/25/2018 - 02/24/2019</b>	<b>02/25/2019 - 02/24/2020</b>	<b>02/25/2020 - 02/26/2021</b>
<b>#</b>	<b>Labor Category</b>	<b>Government Net Rate</b>				
1	Consulting System Advisor	\$229.10	\$235.97	\$243.05	\$250.34	\$257.85
2	Sr. Systems Advisor	\$177.77	\$183.10	\$188.59	\$194.26	\$200.08
3	Sr. Program Manager	\$146.81	\$151.22	\$155.75	\$160.42	\$165.24

**5. BLANKET PURCHASE AGREEMENT  
FEDERAL SUPPLY SCHEDULE**

BPA NUMBER \_\_\_\_\_

(CUSTOMER NAME)  
BLANKET PURCHASE AGREEMENT

Pursuant to GSA Federal Supply Schedule Contract Number(s) \_\_\_\_\_, and Federal Acquisition Regulation (FAR) 8.405-3, Blanket Purchase Agreements, the Contractor agrees to the following terms of a Blanket Purchase Agreement (BPA) EXCLUSIVELY WITH (Ordering Agency):

- (1) The following contract items can be ordered under this BPA. All orders placed against this BPA are subject to the terms and conditions of the contract, except as noted below:

ITEM (Model/Part Number or Type of Service)	SPECIAL BPA DISCOUNT/PRICE
---	----------------------------

_____	_____
_____	_____
_____	_____

- (2) Delivery:
- | DESTINATION | DELIVERY SCHEDULES / DATES |
|-------------|----------------------------|
|-------------|----------------------------|

_____	_____
_____	_____
_____	_____

- (3) The Government estimates, but does not guarantee, that the volume of purchases through this agreement will be \_\_\_\_\_.

- (4) This BPA does not obligate any funds.

- (5) This BPA expires on \_\_\_\_\_ or at the end of the contract period, whichever is earlier.

- (6) The following office(s) is hereby authorized to place orders under this BPA:

OFFICE	POINT OF CONTACT
--------	------------------

_____	_____
_____	_____
_____	_____

- (7) Orders will be placed against this BPA via Electronic Data Interchange (EDI), FAX, or paper.

(8) Unless otherwise agreed to, all deliveries under this BPA must be accompanied by delivery tickets or sales slips that must contain the following information as a minimum:

- (a) Name of Contractor;
- (b) Contract Number;
- (c) BPA Number;
- (d) Model Number or National Stock Number (NSN);
- (e) Task/Delivery Order Number;
- (f) Date of Purchase;
- (g) Quantity, Unit Price, and Extension of Each Item (unit prices and extensions need not be shown when incompatible with the use of automated systems; provided, that the invoice is itemized to show the information); and
- (h) Date of Shipment.

(9) The requirements of a proper invoice are specified in the Federal Supply Schedule contract. Invoices will be submitted to the address specified within the task/delivery order transmission issued against this BPA.

(10) The terms and conditions included in this BPA apply to all purchases made pursuant to it. In the event of an inconsistency between the provisions of this BPA and the Contractor's invoice, the provisions of this BPA will take precedence.
