LABOR DESCRIPTIONS

Project Manager

*Minimum Year Experience:* 6 years

*Minimum Education:* B.S. Degree in Computer Science or related field. Project Management Professional (PMP) certification or equivalent experience.

*Responsibilities:* The Project Manager serves as the leader of a task order and assists a Program Manager in working with the Government’s Contracting Officer’s Representative (COR), other government management personnel, and customer agency representatives. Under the guidance of the Program Manager, the Project Manager is responsible for the overall management of the specific task order(s) and ensuring that the solutions and schedules in the task order are implemented in a timely manner. Onsite Project Manager has administrative oversight, financial tracking, cost projection, personnel evaluation and support responsibilities.

This position leverages team management skills to ensure effective coordination / prioritization of team tasks and deliverables, seeking to leverage resources for project delivery. Responsible for tracking assigned tasks against project plan(s) and work breakdown structure (WBS) to support customer requirements, implementation and close out.

Network Engineer

*Minimum Year Experience:* 4 Years

*Minimum Education:* B.S. Degree in Computer Science or related field, preferred.

*Responsibilities:* The Network Engineer will receive guidance from the Network Project Manager/Team lead to support the client’s network environments. Configuration and installation of network equipment to standardize the client’s enterprise environment. Tracks significant problems, monitors performance, and performs upgrades to network hardware and systems as required with the proper change control approvals. Participates in long- and short-range technology planning. Provides support with client partners extranets. Will participate in new technologies initiatives and engineering to advance and optimize the client network. Will work in a collaborative multi team trouble shooting environment for critical incidents. Maintains documentation regarding network configurations, circuit information, procedures, and service records relating to network hardware and changes.

Auto CAD Operator

*Minimum year experience:* No set industry related experience.

*Minimum education:* 2 Year Computer Aided Drafting (CAD) degree with emphasis on Mechanical and Electrical systems.

*Responsibilities:* The CAD Operator will follow as assigned by operations and/or estimating, produce computer assisted drawings and specifications for the projects worked on.
Software Engineer

Minimum year experience: 3 years

Minimum education: Must possess a Bachelor of Arts (BA) degree or a Bachelor of Science (BS) degree from an accredited college or university in Computer Science, Computer Engineering or Information Systems.

Responsibilities: The Software Engineer will analyze user requirements, procedures, and problems to automate processing or to improve existing computer system. Confer with personnel of organizational units involved to analyze current operational procedures, identify problems, and learn specific input and output requirements, such as forms of data input, how data is to be summarized, and formats for reports. Write detailed description of user needs, program functions, and steps required to develop or modify computer program. Engineer will review computer system capabilities, workflow, and scheduling limitations to determine if requested program or program change is possible within existing system. Studies existing information processing systems to evaluate effectiveness and develops new systems to improve production or workflow as required. Prepares workflow charts and diagrams to specify in detail operations to be performed by equipment and computer programs and operations to be performed by personnel in system. Responsibilities also include conducting studies pertaining to the development of new information systems to meet current and projected needs. Plans and prepares technical reports, memoranda, and instructional manuals as documentation of program development. Upgrades system and corrects errors to maintain system after implementation. SCI’s Software Engineer develops and maintains software applications in both web and client-server environments. Develops program code to meet the specifications of the application, utilizing a variety of programming languages, including but not limited to C#, HTML, Java etc.

Administrativo

Minimum year experience: 2 years of experience on major Information Technology support projects.

Minimum education: undergraduate degree or equivalent experience.

Responsibilities: Administration personnel may have certain assignments that may require experience or substantial undergraduate coursework in, for example, finance/accounting, health care, or substantial experience in information technology. They will demonstrate the ability to work independently in a team environment. Must have excellent writing skills and oral communication capabilities. Administrators are knowledgeable user of the Government's office and network environment, including but not limited to, word processing, spreadsheet, imaging, and hardware systems. Scheduling events and daily operation activities.

The Service Contract Labor Standards, formerly the Service Contract Act (SCA), apply to this contract and it includes SCLS applicable labor categories. Labor categories and fixed price services marked with a (**) in this pricelist are based on the U.S. Department of Labor Wage Determination Number(s) identified in the SCLS/SCA matrix. The prices awarded are in line with the geographic scope of the contract (i.e., nationwide).
