**TERMS AND CONDITIONS APPLICABLE TO INFORMATION TECHNOLOGY (IT)
PROFESSIONAL SERVICES (SPECIAL ITEM NUMBER 132-51)**

1. SCOPE

- a. The prices, terms and conditions stated under Special Item Number 132-51 Information Technology Professional Services apply exclusively to IT Professional Services within the scope of this Information Technology Schedule.
- b. The Contractor shall provide services at the Contractor's facility and/or at the ordering activity location, as agreed to by the Contractor and the ordering activity.

2. PERFORMANCE INCENTIVES I-FSS-60 Performance Incentives (April 2000)

- a. Performance incentives may be agreed upon between the Contractor and the ordering activity on individual fixed price orders or Blanket Purchase Agreements under this contract.
- b. The ordering activity must establish a maximum performance incentive price for these services and/or total solutions on individual orders or Blanket Purchase Agreements.
- c. Incentives should be designed to relate results achieved by the contractor to specified targets. To the maximum extent practicable, ordering activities shall consider establishing incentives where performance is critical to the ordering activity's mission and incentives are likely to motivate the contractor. Incentives shall be based on objectively measurable tasks.

3. ORDER

- a. Agencies may use written orders, EDI orders, blanket purchase agreements, individual purchase orders, or task orders for ordering services under this contract. Blanket Purchase Agreements shall not extend beyond the end of the contract period; all services and delivery shall be made and the contract terms and conditions shall continue in effect until the completion of the order. Orders for tasks which extend beyond the fiscal year for which funds are available shall include FAR 52.232-19 (Deviation – May 2003) Availability of Funds for the Next Fiscal Year. The purchase order shall specify the availability of funds and the period for which funds are available.
- b. All task orders are subject to the terms and conditions of the contract. In the event of conflict between a task order and the contract, the contract will take precedence.

4. PERFORMANCE OF SERVICES

- a. The Contractor shall commence performance of services on the date agreed to by the Contractor and the ordering activity.
- b. The Contractor agrees to render services only during normal working hours, unless otherwise agreed to by the Contractor and the ordering activity.
- c. The ordering activity should include the criteria for satisfactory completion for each task in the Statement of Work or Delivery Order. Services shall be completed in a good and workmanlike manner.
- d. Any Contractor travel required in the performance of IT Services must comply with the Federal Travel Regulation or Joint Travel Regulations, as applicable, in effect on the date(s) the travel is

performed. Established Federal Government per diem rates will apply to all Contractor travel. Contractors cannot use GSA city pair contracts.

5. STOP-WORK ORDER (FAR 52.242-15) (AUG 1989)

- (a) The Contracting Officer may, at any time, by written order to the Contractor, require the Contractor to stop all, or any part, of the work called for by this contract for a period of 90 days after the order is delivered to the Contractor, and for any further period to which the parties may agree. The order shall be specifically identified as a stop-work order issued under this clause. Upon receipt of the order, the Contractor shall immediately comply with its terms and take all reasonable steps to minimize the incurrence of costs allocable to the work covered by the order during the period of work stoppage. Within a period of 90 days after a stop-work is delivered to the Contractor, or within any extension of that period to which the parties shall have agreed, the Contracting Officer shall either-
 - (1) Cancel the stop-work order; or
 - (2) Terminate the work covered by the order as provided in the Default, or the Termination for Convenience of the Government, clause of this contract.
- (b) If a stop-work order issued under this clause is canceled or the period of the order or any extension thereof expires, the Contractor shall resume work. The Contracting Officer shall make an equitable adjustment in the delivery schedule or contract price, or both, and the contract shall be modified, in writing, accordingly, if-
 - (1) The stop-work order results in an increase in the time required for, or in the Contractor's cost properly allocable to, the performance of any part of this contract; and
 - (2) The Contractor asserts its right to the adjustment within 30 days after the end of the period of work stoppage; provided, that, if the Contracting Officer decides the facts justify the action, the Contracting Officer may receive and act upon the claim submitted at any time before final payment under this contract.
- (c) If a stop-work order is not canceled and the work covered by the order is terminated for the convenience of the Government, the Contracting Officer shall allow reasonable costs resulting from the stop-work order in arriving at the termination settlement.
- (d) If a stop-work order is not canceled and the work covered by the order is terminated for default, the Contracting Officer shall allow, by equitable adjustment or otherwise, reasonable costs resulting from the stop-work order.

6. INSPECTION OF SERVICES

In accordance with FAR 52.212-4 CONTRACT TERMS AND CONDITIONS-- COMMERCIAL ITEMS (MAR 2009) (DEVIATION I - FEB 2007) for Firm-Fixed Price orders and FAR 52.212-4 CONTRACT TERMS AND CONDITIONS –COMMERCIAL ITEMS (MAR 2009) (ALTERNATE I – OCT 2008) (DEVIATION I – FEB 2007) applies to Time-and-Materials and Labor-Hour Contracts orders placed under this contract.

7. RESPONSIBILITIES OF THE CONTRACTOR

The Contractor shall comply with all laws, ordinances, and regulations (Federal, State, City, or otherwise) covering work of this character. If the end product of a task order is software, then FAR 52.227-14 (Dec 2007) Rights in Data – General, may apply.

8. RESPONSIBILITIES OF THE ORDERING ACTIVITY

Subject to security regulations, the ordering activity shall permit Contractor access to all facilities necessary to perform the requisite IT Professional Services.

9. INDEPENDENT CONTRACTOR

All IT Professional Services performed by the Contractor under the terms of this contract shall be as an independent Contractor, and not as an agent or employee of the ordering activity.

10. ORGANIZATIONAL CONFLICTS OF INTEREST

a. Definitions.

“Contractor” means the person, firm, unincorporated association, joint venture, partnership, or corporation that is a party to this contract.

“Contractor and its affiliates” and “Contractor or its affiliates” refers to the Contractor, its chief executives, directors, officers, subsidiaries, affiliates, subcontractors at any tier, and consultants and any joint venture involving the Contractor, any entity into or with which the Contractor subsequently merges or affiliates, or any other successor or assignee of the Contractor.

An “Organizational conflict of interest” exists when the nature of the work to be performed under a proposed ordering activity contract, without some restriction on ordering activities by the Contractor and its affiliates, may either (i) result in an unfair competitive advantage to the Contractor or its affiliates or (ii) impair the Contractor’s or its affiliates’ objectivity in performing contract work.

b. To avoid an organizational or financial conflict of interest and to avoid prejudicing the best interests of the ordering activity, ordering activities may place restrictions on the Contractors, its affiliates, chief executives, directors, subsidiaries and subcontractors at any tier when placing orders against schedule contracts. Such restrictions shall be consistent with FAR 9.505 and shall be designed to avoid, neutralize, or mitigate organizational conflicts of interest that might otherwise exist in situations related to individual orders placed against the schedule contract. Examples of situations, which may require restrictions, are provided at FAR 9.508.

11. INVOICES

The Contractor, upon completion of the work ordered, shall submit invoices for IT Professional services. Progress payments may be authorized by the ordering activity on individual orders if appropriate. Progress payments shall be based upon completion of defined milestones or interim products. Invoices shall be submitted monthly for recurring services performed during the preceding month.

12. PAYMENTS

For firm-fixed price orders the ordering activity shall pay the Contractor, upon submission of proper invoices or vouchers, the prices stipulated in this contract for service rendered and accepted. Progress payments shall be made only when authorized by the order. For time-and-materials orders, the Payments under Time-and-Materials and Labor-Hour Contracts at FAR 52.212-4 (MAR 2009) (ALTERNATE I – OCT 2008) (DEVIATION I – FEB 2007) applies to time-and-materials orders placed under this contract. For labor-hour orders, the Payment under Time-and-Materials and Labor-Hour Contracts at FAR 52.212-4 (MAR 2009) (ALTERNATE I – OCT 2008) (DEVIATION I – FEB 2007) applies to labor-hour orders placed under this contract.

52.216-31(Feb 2007) Time-and-Materials/Labor-Hour Proposal Requirements—Commercial Item Acquisition As prescribed in 16.601(e)(3), insert the following provision:

(a) The Government contemplates award of a Time-and-Materials or Labor-Hour type of contract resulting from this solicitation.

(b) The offeror must specify fixed hourly rates in its offer that include wages, overhead, general and administrative expenses, and profit. The offeror must specify whether the fixed hourly rate for each labor category applies to labor performed by—

(1) The offeror;

(2) Subcontractors; and/or

(3) Divisions, subsidiaries, or affiliates of the offeror under a common control.

13. RESUMES

Resumes shall be provided to the GSA Contracting Officer or the user ordering activity upon request.

14. INCIDENTAL SUPPORT COSTS

Incidental support costs are available outside the scope of this contract. The costs will be negotiated separately with the ordering activity in accordance with the guidelines set forth in the FAR.

15. APPROVAL OF SUBCONTRACTS

The ordering activity may require that the Contractor receive, from the ordering activity's Contracting Officer, written consent before placing any subcontract for furnishing any of the work called for in a task order.

16. DESCRIPTION OF IT PROFESSIONAL SERVICES AND PRICING

a. The Contractor shall provide a description of each type of IT Service offered under Special Item Numbers 132-51 IT Professional Services should be presented in the same manner as the Contractor sells to its commercial and other ordering activity customers. If the Contractor is proposing hourly rates, a description of all corresponding commercial job titles (labor categories) for those individuals who will perform the service should be provided.

b. Pricing for all IT Professional Services shall be in accordance with the Contractor's customary commercial practices; e.g., hourly rates, monthly rates, term rates, and/or fixed prices, minimum general experience and minimum education.

The following is an example of the manner in which the description of a commercial job title should be presented:

EXAMPLE: Commercial Job Title: System Engineer

Minimum/General Experience: Three (3) years of technical experience which applies to systems analysis and design techniques for complex computer systems. Requires competence in all phases of systems analysis techniques, concepts and methods; also requires knowledge of available hardware, system software, input/output devices, structure and management practices.

Functional Responsibility: Guides users in formulating requirements, advises alternative approaches, conducts feasibility studies.

Minimum Education: Bachelor's Degree in Computer Science

Arora Engineers, Inc.
Labor Category Descriptions
GS-35F-211CA

SIN#	POSITION	FUNCTIONAL RESPONSIBILITY	MINIMUM EDUCATION	MINIMUM EXPERIENCE
132-51	Principal	Sets strategic direction, vision, and managerial oversight for information technology & GIS database implementations. Provides technical and managerial supervision for senior staff. Has demonstrated experience and ability to provide enterprise-wide technical management and direction for problem definition, analysis and requirements development and implementation for complex systems. Confers with client executive management using industry expertise to define the client's strategic enterprise information technology goals, and advises in the reengineering of high level organizational processes to meet these goals. Also provides workable recommendations and advice to client executive management on emerging technology, system improvements, optimization and maintenance. Oversees budgeting, scheduling, staff allocation, and identification of subcontractors.	A Bachelor's degree in Computer Science, Information Systems, Engineering, Business, Social Science, or other related analytical, scientific, or technical disciplines.	Requires fifteen (15) years of progressive experience in participating in related projects.
132-51	IT Chief Engineer	Provides technical leadership for the development of program requirements, planning, and execution. Responsible for coordinating with program and project management as well as the client on a routine basis to ensure that the technical vision and execution are aligned with the client's expectations. Resource is a mentor for junior technical staff in all areas of information technology related to Geographical Information Systems (GIS) including requirements analysis, database/ system design and development, integration, user training, acceptance testing, and rollout support. This individual ensures the quality of the work produced maintains the highest standards and monitors project product and schedules to ensure projects are completed on schedule and on budget. Individual will be held accountable by Senior Management for the technical delivery on the strategic requirements of our clients	A Bachelor's degree in Computer Science, Information Systems, Engineering, Business, Social Science, or other related analytical, scientific, or technical disciplines.	Requires twelve (12) years of progressive experience in participating in related projects.

132-51	Project Manager	Performs day-to-day management of assigned projects involving technical and support teams of data processing and other information systems tasks. Has performance responsibility for managing scope, cost, schedule, and contractual deliverables in analyzing, designing, integrating, testing, documenting, and implementing automated information technology solutions. Acts as project facilitator, identifying issues and risks and recommending possible issue and risk mitigation strategies associated with the project. Directs completion of technical tasks within estimated timeframes and budget constraints. Schedules and assigns duties to subordinates and subcontractors and ensures assignments are completed as directed. Enforces work standards and reviews/resolves work discrepancies to ensure compliance with contract requirements.	A Bachelor's degree in Computer Science, Information Systems, Engineering, Business, Social Science, or other related analytical, scientific, or technical disciplines.	Requires six (6) years of progressive experience in participating in related projects.
132-51	Senior GIS Specialist	Provides GIS designs and oversees integration of GIS with data and applications. Supports application and database management. Performs integration tasks to take full advantage of GIS platform functions and applications. Also develops and manages GIS data conversion procedures. Performs GIS software and spatial database quality control and testing as required for GIS projects. Resource is proficient in the enhancement and extension of GIS software and processing of digital spatial databases. Individual is also adept in ESRI solution languages, as well as third-generation programming languages, Internet mark-up languages, and other technologies essential to the successful operation of Geographic Information Systems.	A Bachelor's degree in Computer Science, Information Systems, Engineering, Business, Social Science, or other related analytical, scientific, or technical disciplines.	Requires five (5) years of progressive experience in participating in related projects.
132-51	GIS Applications Specialist	Provides application development in GIS to include integration of demographic and spatial data with applications. Installs and configures GIS systems. Supports end-users' GIS requests. Individual is responsible for implementing efficient product tools and work flows in accordance with approved project plans and design parameters. Areas of expertise include performing GIS data conversion, migration and translation activities utilizing advanced processing techniques in GIS.	A Bachelor's degree in Computer Science, Information Systems, Engineering, Business, Social Science, or other related analytical, scientific, or technical disciplines.	Requires three (3) years of progressive experience in participating in related projects.
132-51	GIS Technician	Responsible for providing GIS database development services and support in creating cartographic and digital spatial data products. Additionally, these staff implement efficient production tools and coordinate work flow with project personnel. Tasks include documentation preparation, data coding/attribution, conversion & migration support, editing, QA/QC activities, and database creation activities.	A Bachelor's degree in Computer Science, Information Systems, Engineering, Business, Social Science, or other related analytical, scientific, or technical disciplines.	Requires two (2) years of progressive experience in participating in related projects.

Differentiator

With experience in spatial technologies and asset management, Arora's team of GIS professionals provide clients with scalable GIS and IT solutions in an Agile development environment. Arora's solutions expand client's geospatial capabilities in a direction that leverages existing data while also modernizing their system to take advantage of new technologies.

Corporate Overview

Founded in 1986, Arora Engineers, Inc. (Arora) maintains a comprehensive engineering practice with the goal of providing clients with innovative solutions, quality designs, and hyper-responsive service. A certified MBE/DBE, the firm's core practice areas include mechanical, electrical, and plumbing engineering, fire suppression and life safety systems, IT/security/communications, Geographic Information Systems (GIS), Building Information Modeling (BIM), construction and program management, and facilities maintenance management.

Arora's multidisciplinary approach provides clients with a broad range of cost-effective services to successfully plan, design, and implement specialized building and airfield systems of various sizes and complexities. From the initial design process, bid services, and cost estimation to construction and ongoing facility maintenance and management, Arora's team of professionals is equipped to address any problem, to find the right solution, and most importantly, to deliver results.

PAST PERFORMANCE

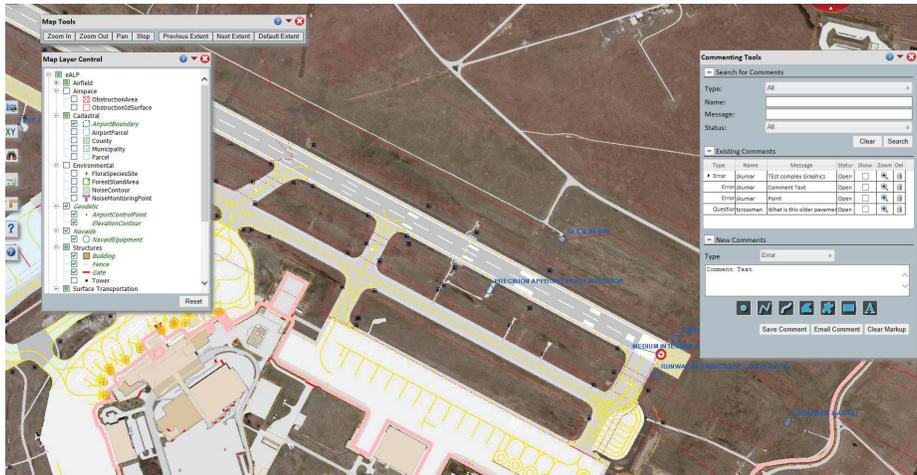

City of Charlotte, Aviation Department, CityWorks Implementation, Charlotte Douglas International Airport (CLT), Charlotte, NC: Provide system design support, installation, and rollout support for the Cityworks software solution, which will establish an ongoing automated process that will identify and account for the "operational use" of CLT's assets in order to support the renewal & replacement, capital improvement, maintenance and master planning programs necessary at the airport. Jerry Swinghammer, Chief Technology Officer at CLT, 704 359-4007.

City of Philadelphia, Division of Aviation, Capacity Enhancement Program (CEP), GIS Standards, Philadelphia International Airport, Philadelphia, PA: Development of GIS data submittal standards for PHL, which specify the geometry, attributes, and metadata requirements that apply to all GIS data submitted to PHL. A corresponding data model ensured that project datasets are delivered to the airport in a consistent manner and structured to be compatible with one another. Jannett Walker, VP, PHL CEP Deputy Program, 215-640-9063.

South Jersey Transportation Authority, GIS Integration Services, Atlantic City International Airport, Egg Harbor Township, NJ: GIS services to create and implement a web-based GIS viewer, develop a mobile mapping application for Aircraft Rescue and Firefighting (ARFF) response, design a customized GIS database, and evaluate solutions for FAR Part 139 inspections. Joel Falk, IT Director at SJTA, 609-561-6849.
