	USA Commitment to Promote Small Business Participation Procurement Programs	22

Information for Ordering Offices Applicable to All Special Item Numbers

SPECIAL NOTICE TO AGENCIES:

Small Business Participation

SBA strongly supports the participation of small business concerns in the Federal Supply Schedules Program. To enhance Small Business Participation SBA policy allows agencies to include in their procurement base and goals, the dollar value of orders expected to be placed against the Federal Supply Schedules, and to report accomplishments against these goals.

For orders exceeding the micro purchase threshold, FAR 8.404 requires agencies to consider the catalogs/pricelists of at least three schedule contractors or consider reasonably available information by using the GSA Advantage! On-line shopping service (www.fss.gsa.gov). The catalogs/pricelists, GSA Advantage! and the Federal Supply Service Home Page (www.fss.gsa.gov) contains information on a broad array of products and services offered by small business concerns.

This information should be used as a tool to assist ordering activities in meeting or exceeding established small business goals. It should also be used as a tool to assist in including small, small disadvantaged, and women-owned small businesses among those considered when selecting pricelists for a best value determination.

For orders exceeding the micro purchase threshold, customers are to give preference to small business concerns when two or more items at the same delivered price will satisfy their requirement.

1.0 Geographic Scope of Contract

Domestic delivery is delivery within the 48 contiguous states, Alaska, Hawaii, Puerto Rico, Washington, DC, and U.S. Territories. Domestic delivery also includes a port or consolidation point, within the aforementioned areas, for orders received from overseas activities.

Overseas delivery is delivery to points outside of the 48 contiguous states, Washington, DC, Alaska, Hawaii, Puerto Rico, and U.S. Territories.

Offerors are requested to check one of the following boxes:

- The Geographic Scope of Contract will be domestic and overseas delivery.**
- The Geographic Scope of Contract will be overseas delivery only.
- The Geographic Scope of Contract will be domestic delivery only.

2.0 Contractor's Ordering Address and Payment Information

40 Christopher Way, Eatontown, NJ 0772.

Contractor must accept the credit card for payments equal to or less than the micro-purchase for oral or written orders under this contract. The Contractor and the ordering agency may agree to use the credit card for dollar amounts over the micro-purchase threshold (See GSAR 552.232-79 Payment by Credit Card). In addition, bank account information for wire transfer payments will be shown on the invoice.

The following telephone number(s) can be used by ordering activities to obtain technical and/or ordering assistance:

732/542-3113 voice

732/542-3535 fax

When Authorized Dealers are allowed by the Contractor to bill ordering activities and accept payment, the order and/or payment must be in the name of the Contractor, in care of the Authorized Dealer.

3.0 Liability for Injury or Damage

The Contractor shall not be liable for any injury to ordering activity personnel or damage to ordering activity property arising from the use of equipment maintained by the Contractor, unless such injury or damage is due to the fault or negligence of the Contractor.

4.0 Statistical Data for Government Ordering Office Completion of Standard Form 279

Block 9: G. Order/Modification Under Federal Schedule

Block 16: Data Universal Numbering System (DUNS) Number: 792244097

Block 30: Type of Contractor – C. Large Business

Block 31: Woman-Owned Small Business - No

Block 37: Contractor's Taxpayer Identification Number (TIN): 22-3192709

5.0 FOB Destination

6.0 Delivery Schedule

a. TIME OF DELIVERY: The Contractor shall deliver to destination within the number of calendar days after receipt of order (ARO), as set forth below:

SPECIAL ITEM NUMBER	DELIVERY TIME (Days ARO)
<u>132-51</u>	<u>As agreed to in each order issued.</u>

b. URGENT REQUIREMENTS: When the Federal Supply Schedule contract delivery period does not meet the bona fide urgent delivery requirements of an ordering agency, agencies are encouraged, if time permits, to contact the Contractor for the purpose of obtaining accelerated delivery. The Contractor shall reply to the inquiry within 3 workdays after receipt. (Telephonic replies shall be confirmed by the Contractor in writing.) If the Contractor offers an accelerated delivery time acceptable to the ordering agency, any order(s) placed pursuant to the agreed upon accelerated delivery time frame shall be delivered within this shorter delivery time and in accordance with all other terms and conditions of the contract.

7.0 Discounts

Prices shown are NET Prices; Basic Discounts have been deducted.

- a. Prompt Payment: 1.0 % - 10 days from receipt of invoice or date of acceptance, whichever is later.
- b. Quantity none
- c. Dollar Volume: \$300K - \$450K 1% Discount
 \$455K - \$500K 1.5% Discount
 Above \$500K to be negotiated on agency by agency basis
- d. Government Educational Institutions none
- e. Other none

Trade Agreements Act of 1979, as amended:

All items are U.S. made end products, designated country end products, Caribbean Basin country end products, Canadian end products, or Mexican end products as defined in the Trade Agreements Act of 1979, as amended.

Statement Concerning Availability of Export Packing:

Export Packaging is not applicable to this SIN.

Small Requirements:

The minimum dollar value of orders to be issued is \$ 100.

Maximum Order

(All dollar amounts are exclusive of any discount for prompt payment.)

The Maximum Order value for Special Item Number (SIN) 132-51 - IT Professional Services is \$500,000.

12.0 Ordering Procedures for Federal Supply Schedule Contracts

Ordering activities shall use the ordering procedures of Federal Acquisition Regulation (FAR) 8.405 when placing an order or establishing a BPA for supplies or services. These procedures apply to all schedules.

- a. FAR 8.405-1 Ordering procedures for supplies, and services not requiring a statement of work.
- b. FAR 8.405-2 Ordering procedures for services requiring a statement of work.

Federal IT/Telecommunication Standards

REQUIREMENTS: Ordering activities acquiring products from this Schedule must comply with the provisions of the Federal Standards Program, as appropriate (reference: NIST Federal Standards Index). Inquiries to determine whether or not specific products listed herein comply with Federal Information Processing Standards (FIPS) or Federal Telecommunication Standards (FED-STDS), which are cited by ordering activities, shall be responded to promptly by the Contractor.

Federal Information Processing Standards Publications (FIPS PUBS):

IT products under this Schedule that do not conform to Federal Information Processing Standards (FIPS) should not be acquired unless a waiver has been granted in accordance with the applicable "FIPS Publication." Federal Information Processing Standards Publications (FIPS PUBS) are issued by the U.S. Department of Commerce, National Institute of Standards and Technology (NIST), pursuant to National Security Act. Information concerning their availability and applicability should be obtained from the National Technical Information Service (NTIS), 5285 Port Royal Road, Springfield, Virginia 22161. FIPS PUBS include voluntary standards when these are adopted for Federal use. Individual orders for FIPS PUBS should be referred to the NTIS Sales Office, and orders for subscription service should be referred to the NTIS Subscription Officer, both at the above address, or telephone number (703) 487-4650.

Federal Telecommunication Standards (FED-STDS)

Telecommunication products under this Schedule that do not conform to Federal Telecommunication Standards (FED-STDS) should not be acquired unless a waiver has been granted in accordance with the applicable "FED-STD." Federal Telecommunication Standards are issued by the U.S. Department of Commerce, National Institute of Standards and Technology (NIST), pursuant to National Security Act. Ordering information and information concerning the availability of FED-STDS should be obtained from the GSA, Federal Acquisition Service, Specification Section, 470 East L'Enfant Plaza, Suite 8100, SW, Washington, DC 20407, telephone number (202)619-8925. Please include a self-addressed mailing label when requesting information by mail. Information concerning their applicability can be obtained by writing or calling the U.S. Department of Commerce, National Institute of Standards and Technology, Gaithersburg, MD 20899, telephone number (301)975-2833.

Contractor Tasks / Special Requirements (C-Fss-370) (Nov 2003)

- a) Security Clearances: The Contractor may be required to obtain/possess varying levels of security clearances in the performance of orders issued under this contract. All costs associated with obtaining/possessing such security clearances should be factored into the price offered under the Multiple Award Schedule.
- (b) Travel: The Contractor may be required to travel in performance of orders issued under this contract. Allowable travel and per diem charges are governed by Pub .L. 99-234 and FAR Part 31, and are reimbursable by the ordering agency or can be priced as a fixed price item on orders placed under the Multiple Award

Schedule. Travel in performance of a task order will only be reimbursable to the extent authorized by the ordering agency. The Industrial Funding Fee does NOT apply to travel and per diem charges.

- (c) Certifications, Licenses and Accreditations: As a commercial practice, the Contractor may be required to obtain/possess any variety of certifications, licenses and accreditations for specific FSC/service code classifications offered. All costs associated with obtaining/ possessing such certifications, licenses and accreditations should be factored into the price offered under the Multiple Award Schedule program.
- (d) Insurance: As a commercial practice, the Contractor may be required to obtain/possess insurance coverage for specific FSC/service code classifications offered. All costs associated with obtaining/possessing such insurance should be factored into the price offered under the Multiple Award Schedule program.
- (e) Personnel: The Contractor may be required to provide key personnel, resumes or skill category descriptions in the performance of orders issued under this contract. Ordering activities may require agency approval of additions or replacements to key personnel.
- (f) Organizational Conflicts of Interest: Where there may be an organizational conflict of interest as determined by the ordering agency, the Contractor's participation in such order may be restricted in accordance with FAR Part 9.5.
- (g) Documentation/Standards: The Contractor may be requested to provide products or services in accordance with rules, regulations, OMB orders, standards and documentation as specified by the agency's order.
- (h) Data/Deliverable Requirements: Any required data/deliverables at the ordering level will be as specified or negotiated in the agency's order.
- (i) Government-Furnished Property: As specified by the agency's order, the Government may provide property, equipment, materials or resources as necessary.
- (j) Availability of Funds: Many Government agencies' operating funds are appropriated for a specific fiscal year. Funds may not be presently available for any orders placed under the contract or any option year. The Government's obligation on orders placed under this contract is contingent upon the availability of appropriated funds from which payment for ordering purposes can be made. No legal liability on the part of the Government for any payment may arise until funds are available to the ordering Contracting Officer.
- (k) Overtime: For professional services, the labor rates in the Schedule should not vary by virtue of the Contractor having worked overtime. For services applicable to the Service Contract Act (as identified in the Schedule), the labor rates in the Schedule will vary as governed by labor laws (usually assessed a time and a half of the labor rate).

Contract Administration for Ordering Activities:

Any ordering activity, with respect to any one or more delivery orders placed by it under this contract, may exercise the same rights of termination as might the GSA Contracting Officer under provisions of FAR 52.212-4, paragraphs (l) Termination for the ordering activity's convenience, and (m) Termination for Cause (See 52.212-4)

GSA Advantage!

GSA Advantage! is on-line, interactive electronic information and ordering system that provides on-line access to vendors' schedule prices with ordering information. GSA Advantage! Will allow the user to perform various searches across all contracts including, but not limited to:

- (1) Manufacturer;
- (2) Manufacturer's Part Number; and

(3) Product categories.

Agencies can browse GSA Advantage! By accessing the Internet World Wide Web utilizing a browser (ex.: Netscape). The Internet address is <http://www.fss.gsa.gov/>.

Purchase of Open Market

NOTE: Open Market Items are also known as incidental items, noncontract items, non-Schedule items, and items not on a Federal Supply Schedule contract. Ordering Activities procuring open market items must follow FAR 8.402(f).

For administrative convenience, an ordering activity contracting officer may add items not on the Federal Supply Multiple Award Schedule (MAS) -- referred to as open market items -- to a Federal Supply Schedule blanket purchase agreement (BPA) or an individual task or delivery order, **only if-**

- (1) All applicable acquisition regulations pertaining to the purchase of the items not on the Federal Supply Schedule have been followed (e.g., publicizing (Part 5), competition requirements (Part 6), acquisition of commercial items (Part 12), contracting methods (Parts 13, 14, and 15), and small business programs (Part 19));
- (2) The ordering activity contracting officer has determined the price for the items not on the Federal Supply Schedule is fair and reasonable;
- (3) The items are clearly labeled on the order as items not on the Federal Supply Schedule; and
- (4) All clauses applicable to items not on the Federal Supply Schedule are included in the order.

Contractor Commitments, Warranties and Representations

a. For the purpose of this contract, commitments, warranties and representations include, in addition to those agreed to for the entire schedule contract:

- (1) Time of delivery/installation quotations for individual orders;
- (2) Technical representations and/or warranties of products concerning performance, total system performance and/or configuration, physical, design and/or functional characteristics and capabilities of a product/equipment/ service/software package submitted in response to requirements which result in orders under this schedule contract.
- (3) Any representations and/or warranties concerning the products made in any literature, description, drawings and/or specifications furnished by the Contractor.

b. The above is not intended to encompass items not currently covered by the GSA Schedule contract.

c. The maintenance/repair service provided is the standard commercial terms and conditions for the type of products and/or services awarded.

Overseas Activities

The terms and conditions of this contract shall apply to all orders for installation, maintenance and repair of equipment in areas listed in the pricelist outside the 48 contiguous states and the District of Columbia, except as indicated below:

N/A

Upon request of the Contractor, the ordering activity may provide the Contractor with logistics support, as available, in accordance with all applicable ordering activity regulations. Such ordering activity support will be provided on a reimbursable basis, and will only be provided to the Contractor's technical personnel whose services are exclusively required for the fulfillment of the terms and conditions of this contract.

Blanket Purchase Agreements (BPAs)

The use of BPAs under any schedule contract to fill repetitive needs for supplies or services is allowable. BPAs may be established with one or more schedule contractors. The number of BPAs to be established is within the

discretion of the ordering activity establishing the BPA and should be based on a strategy that is expected to maximize the effectiveness of the BPA(s). Ordering activities shall follow FAR 8.405-3 when creating and implementing BPA(s).

Contractor Team Arrangements

Contractors participating in contractor team arrangements must abide by all terms and conditions of their respective contracts. This includes compliance with Clauses 552.238-74; Industrial Funding Fee and Sales Reporting, i.e., each contractor (team member) must report sales and remit the IFF for all products and services provided under its individual contract.

Installation, Deinstallation, Reinstallation

The Davis-Bacon Act (40 U.S.C. 276a-276a-7) provides that contracts in excess of \$2,000 to which the United States or the District of Columbia is a party for construction, alteration, or repair (including painting and decorating) of public buildings or public works with the United States, shall contain a clause that no laborer or mechanic employed directly upon the site of the work shall receive less than the prevailing wage rates as determined by the Secretary of Labor. The requirements of the Davis-Bacon Act do not apply if the construction work is incidental to the furnishing of supplies, equipment, or services. For example, the requirements do not apply to simple installation or alteration of a public building or public work that is incidental to furnishing supplies or equipment under a supply contract. However, if the construction, alteration or repair is segregable and exceeds \$2,000, then the requirements of the Davis-Bacon Act apply.

The ordering activity issuing the task order against this contract will be responsible for proper administration and enforcement of the Federal labor standards covered by the Davis-Bacon Act. The proper Davis-Bacon wage determination will be issued by the ordering activity at the time a request for quotations is made for applicable construction classified installation, deinstallation, and reinstallation services under SIN 132-8 or 132-9.

Section 508 Compliance

I certify that in accordance with 508 of the Rehabilitation Act of 1973, as amended (29 U.S.C. 794d), FAR 39.2, and the Architectural and Transportation Barriers Compliance Board Electronic and IT (EIT) Accessibility Standards (36 CFR 1194) General Services Administration (GSA), that all IT hardware/software/services are 508 compliant: Yes.

www.dsci.com/Section508/

The EIT standard can be found at: www.Section508.gov/.

26.0 Prime Contractor Ordering From Federal Supply Schedules.

Prime Contractors (on cost reimbursement contracts) placing orders under Federal Supply Schedules, on behalf of an ordering activity, shall follow the terms of the applicable schedule and authorization and include with each order

- (a) A copy of the authorization from the ordering activity with whom the contractor has the prime contract (unless a copy was previously furnished to the Federal Supply Schedule contractor); and
- (b) The following statement:
This order is placed under written authorization from _____ dated _____. In the event of any inconsistency between the terms and conditions of this order and those of your Federal Supply Schedule contract, the latter will govern.

27.0 Insurance—Work On A Government Installation (Jan 1997) (Far 52.228-5)

(a) The Contractor shall, at its own expense, provide and maintain during the entire performance of this contract, at least the kinds and minimum amounts of insurance required in the Schedule or elsewhere in the contract.

(b) Before commencing work under this contract, the Contractor shall notify the Contracting Officer in writing that the required insurance has been obtained. The policies evidencing required insurance shall contain an endorsement to the effect that any cancellation or any material change adversely affecting the Government's interest shall not be effective—

- (1) For such period as the laws of the State in which this contract is to be performed prescribe; or

- (2) Until 30 days after the insurer or the Contractor gives written notice to the Contracting Officer, whichever period is longer.

28.0 Software Interoperability.

Offerors are encouraged to identify within their software items any component interfaces that support open standard interoperability. An item's interface may be identified as interoperable on the basis of participation in a Government agency-sponsored program or in an independent organization program. Interfaces may be identified by reference to an interface registered in the component registry located at <http://www.core.gov>.

29.0 Advance Payments

A payment under this contract to provide a service or deliver an article for the United States Government may not be more than the value of the service already provided or the article already delivered. Advance or pre-payment is not authorized or allowed under this contract. (31 U.S.C. 3324)

Terms and Conditions Applicable to IT Professional Services (Special Item Number 132-51)

*****NOTE: All non-professional labor categories must be incidental to, and used solely to support professional services, and cannot be purchased separately.**

1.0 Scope

- a. The prices, terms and conditions stated under Special Item Number 132-51 IT Professional Services apply exclusively to IT/IAM Professional Services within the scope of this IT Schedule.
- b. The Contractor shall provide services at the Contractor's facility and/or at the ordering activity location, as agreed to by the Contractor and the ordering activity.

2.0 PERFORMANCE INCENTIVES I-FSS-60 Performance Incentives (April 2000)

- a. Performance incentives may be agreed upon between the Contractor and the ordering activity on individual fixed price orders or Blanket Purchase Agreements under this contract.
- b. The ordering activity must establish a maximum performance incentive price for these services and/or total solutions on individual orders or Blanket Purchase Agreements.
- c. Incentives should be designed to relate results achieved by the contractor to specified targets. To the maximum extent practicable, ordering activities shall consider establishing incentives where performance is critical to the ordering activity's mission and incentives are likely to motivate the contractor. Incentives shall be based on objectively measurable tasks.

3.0 Order

- a. Agencies may use written orders, EDI orders, blanket purchase agreements, individual purchase orders, or task orders for ordering services under this contract. Blanket Purchase Agreements shall not extend beyond the end of the contract period; all services and delivery shall be made and the contract terms and conditions shall continue in effect until the completion of the order. Orders for tasks that extend beyond the fiscal year for which funds are available shall include FAR 52.232-19 Availability of Funds for the Next Fiscal Year. The purchase order shall specify the availability of funds and the period for which funds are available.
- b. All task orders are subject to the terms and conditions of the contract. In the event of conflict between a task order and the contract, the contract will take precedence.

4.0 Performance of Services

- a. The Contractor shall commence performance of services on the date agreed to by the Contractor and the ordering activity.
- b. The Contractor agrees to render services only during normal working hours, unless otherwise agreed to by the Contractor and the ordering activity.

c. The ordering activity should include the criteria for satisfactory completion for each task in the Statement of Work or Delivery Order. Services shall be completed in a good and workmanlike manner.

d. Any Contractor travel required in the performance of IT/IAM Services must comply with the Federal Travel Regulation or Joint Travel Regulations, as applicable, in effect on the date(s) the travel is performed. Established Federal Government per diem rates will apply to all Contractor travel. Contractors cannot use GSA city pair contracts.

5.0 Stop-Work Order (Far 52.242-15) (Aug 1989)

(a) The Contracting Officer may, at any time, by written order to the Contractor, require the Contractor to stop all, or any part, of the work called for by this contract for a period of 90 days after the order is delivered to the Contractor, and for any further period to which the parties may agree. The order shall be specifically identified as a stop-work order issued under this clause. Upon receipt of the order, the Contractor shall immediately comply with its terms and take all reasonable steps to minimize the incurrence of costs allocable to the work covered by the order during the period of work stoppage. Within a period of 90 days after a stop-work is delivered to the Contractor, or within any extension of that period to which the parties shall have agreed, the Contracting Officer shall either-

- (1) Cancel the stop-work order; or
- (2) Terminate the work covered by the order as provided in the Default, or the Termination for Convenience of the Government, clause of this contract.

(b) If a stop-work order issued under this clause is canceled or the period of the order or any extension thereof expires, the Contractor shall resume work. The Contracting Officer shall make an equitable adjustment in the delivery schedule or contract price, or both, and the contract shall be modified, in writing, accordingly, if -

- (1) The stop-work order results in an increase in the time required for, or in the Contractor's cost properly allocable to, the performance of any part of this contract; and
- (2) The Contractor asserts its right to the adjustment within 30 days after the end of the period of work stoppage; provided that, if the Contracting Officer decides the facts justify the action, the Contracting Officer may receive and act upon the claim submitted at any time before final payment under this contract.

(c) If a stop-work order is not canceled and the work covered by the order is terminated for the convenience of the Government, the Contracting Officer shall allow reasonable costs resulting from the stop-work order in arriving at the termination settlement.

(d) If a stop-work order is not canceled and the work covered by the order is terminated for default, the Contracting Officer shall allow, by equitable adjustment or otherwise, reasonable costs resulting from the stop-work order.

6.0 Inspection of Services

In accordance with FAR 52.212-4 CONTRACT TERMS AND CONDITIONS--COMMERCIAL ITEMS (MAR 2009) (DEVIATION I - FEB 2007) for Firm-Fixed Price orders and FAR 52.212-4 CONTRACT TERMS AND CONDITIONS □COMMERCIAL ITEMS (MAR 2009) (ALTERNATE I □□OCT 2008) (DEVIATION I – FEB 2007) applies to Time-and-Materials and Labor-Hour Contracts orders placed under this contract.

7.0 Responsibilities Of The Ordering Activity

The Contractor shall comply with all laws, ordinances, and regulations (Federal, State, City, or otherwise) covering work of this character. If the end product of a task order is software, then FAR 52.227-14 (Dec 2007) Rights in Data – General, may apply.

8.0 Responsibilities of the Government

Subject to security regulations, the ordering activity shall permit Contractor access to all facilities necessary to perform the requisite IT/IAM Professional Services.

9.0 Independent Contractor

All IT/IAM Professional Services performed by the Contractor under the terms of this contract shall be as an independent Contractor, and not as an agent or employee of the ordering activity.

10.0 Organizational Conflicts of Interest

a. Definitions.

“Contractor” means the person, firm, unincorporated association, joint venture, partnership, or corporation that is a party to this contract.

“Contractor and its affiliates” and “Contractor or its affiliates” refers to the Contractor, its chief executives, directors, officers, subsidiaries, affiliates, subcontractors at any tier, and consultants and any joint venture involving the Contractor, any entity into or with which the Contractor subsequently merges or affiliates, or any other successor or assignee of the Contractor.

An “Organizational conflict of interest” exists when the nature of the work to be performed under a proposed ordering activity contract, without some restriction on ordering activities by the Contractor and its affiliates, may either (I) result in an unfair competitive advantage to the Contractor or its affiliates or (ii) impair the Contractor’s or its affiliates’ objectivity in performing contract work.

b. To avoid an organizational or financial conflict of interest and to avoid prejudicing the best interests of the ordering activity, ordering activities may place restrictions on the Contractors, its affiliates, chief executives, directors, subsidiaries and subcontractors at any tier when placing orders against schedule contracts. Such restrictions shall be consistent with FAR 9.505 and shall be designed to avoid, neutralize, or mitigate organizational conflicts of interest that might otherwise exist in situations related to individual orders placed against the schedule contract. Examples of situations, which may require restrictions, are provided at FAR 9.508.

11.0 Invoices

The Contractor, upon completion of the work ordered, shall submit invoices for IT/IAM Professional services. Progress payments may be authorized by the ordering activity on individual orders if appropriate. Progress payments shall be based upon completion of defined milestones or interim products. Invoices shall be submitted monthly for recurring services performed during the preceding month.

12.0 Payments

For firm-fixed price orders the ordering activity shall pay the Contractor, upon submission of proper invoices or vouchers, the prices stipulated in this contract for service rendered and accepted. Progress payments shall be made only when authorized by the order. For time-and-materials orders, the Payments under Time-and-Materials and Labor Hour Contracts at FAR 52.212-4 (MAR 2009) (ALTERNATE I – OCT 2008) (DEVIATION I – FEB 2007) applies to time-and-materials orders placed under this contract. For labor hour orders, the Payment under Time-and-Materials and Labor Hour Contracts at FAR 52.212-4 (MAR 2009) (ALTERNATE I – OCT 2008) (DEVIATION I – FEB 2007) applies to labor hour orders placed under this contract. 52.216-31(Feb 2007) Time-and-Materials/Labor-Hour Proposal Requirements—Commercial Item Acquisition as prescribed in 16.601(e) (3), insert the following provision:

(a) The Government contemplates award of a Time-and-Materials or Labor-Hour type of contract resulting from this solicitation.

(b) DSCI specifies fixed hourly rates in its offer that include wages, overhead, general and administrative expenses, and profit. DSCI specifies the fixed hourly rate for each labor category applies to labor performed by all divisions, subsidiaries, or affiliates of the offeror under the common control of D & S Consultants, Inc. [DSCI].

13.0 Resumes

Resumes shall be provided to the GSA Contracting Officer or the user ordering activity upon request.

14.0 Incidental Support Costs

Incidental support costs are available outside the scope of this contract. The costs will be negotiated separately with the ordering agency in accordance with the guidelines set forth in the FAR.

15.0 Approval of Subcontracts

The ordering activity may require that the Contractor receive, from the ordering activity's Contracting Officer, written consent before placing any subcontract for furnishing any of the work called for in a task order.

16.0 Description of IT Services and Pricing

a. The Contractor shall provide a description of each type of IT/IAM Service offered under Special Item Numbers 132-51 IT/IAM Professional Services should be presented in the same manner as the Contractor sells to its commercial and other ordering activity customers. If the Contractor is proposing hourly rates, a description of all corresponding commercial job titles (labor categories) for those individuals who will perform the service should be provided.

b. Pricing for all IT/IAM Professional Services shall be in accordance with the Contractor's customary commercial practices; e.g., hourly rates, monthly rates, term rates, and/or fixed prices, minimum general experience and minimum education.

DSCI Services Offered / Commercial Job Title

1.0 Computer Graphics Specialist

Experience: 3 year's experience in graphics and design.

Functional Responsibilities: Preparation of graphics materials, including the coordination of photographers, illustrators, videographers and printers. Works with analysts, programmers, and clients to ensure optimal utilization of Binary Large Objects (BLOBs) in data environments. In-depth knowledge of computer graphics formats to include JPEG, GIF, TIFF, ART, BIN, WMF, PCX, QRT, AVI, CGM, and RTF. Assists in the design and utilization of computer based forms.

Education: Bachelor's Degree in Fine Arts or related field.

2.0 IT Technician

Experience: 3 years experience in related Information Technology field

Functional Responsibilities: Experience in execution of a specified demonstration or task, with emphasis on IT related tasks. Assists in the design, deployment, and maintenance of computer networks, servers, workstations, data base servers, and other related network switching and routing equipment.

Education: Associate or Technical Degree in related field.

3.0 Junior Software IT Specialist II

Experience: 2 year's experience in related field (i.e. Computer Science, IT), Associates or Technical Degree desired.

Functional Responsibilities: Assist in software support of all aspects of demonstrations and tasks. Demonstrates ability to expand practical experience with problems that are moderately complex to analyze, plan, program and operate. Knowledge of computer operating systems, software design, programming languages, software testing and documentation.

Education: Bachelor's Degree in related field.

4.0 Principal IT Software Specialist I

Functional Responsibilities: Ability to lead larger teams, providing technical direction and monitoring. Provide leadership in software support, systems design and/or integration on all aspects of demonstrations or tasks. Responsible for preparation of documentation required as part of the overall systems software aspect of the task or demonstration. Works on complex problems. Knowledge of space systems and military applications of space systems and has a working knowledge of ground operations. Knowledge of computer operating systems, software design, programming languages, software testing and documentation.

Education/Experience: Bachelor Degree with 15 year's experience in related field (Computer Science or IT area) or Masters Degree with 10 years experience in related field.

5.0 IT Quality/Assurance/Control

Functional Responsibilities: Establishes and maintains a process for evaluating software and associated documentation. Determines the resources required for quality control. Maintains the level of quality throughout the software life cycle. Conducts formal and informal reviews at predetermined points throughout the development life cycle. Provides daily supervision and direction to support staff.

Education/Experience: Bachelors Degree with 5 Years experience in related field.

6.0 IT Simulation Specialist I

Functional Responsibilities: Experience includes man-in-the-loop hardware and software simulations, distributed simulations, and constructive simulations. Key contributor on simulation projects in the areas of system design, component integration, and testing support. Responsibilities include simulation component design and

development, support of integration and testing, and documentation. Is familiar with military systems and operations.

Education/Experience: Bachelors Degree with 4 years experience in related field, or Associate/Technical with 6 years experience in related field, or 8 years experience in related field.

7.0 IT Simulation Specialist II

Experience: 3 years experience in related field

Functional Responsibilities: Experience includes man-in-the-loop hardware and software simulations, distributed simulations, and constructive simulations. Major contributor on simulation projects in the areas of system design, component integration, and testing support. Responsibilities include simulation component design and development, support of integration and testing, and documentation. Is familiar with military systems and operations.

Education: Bachelor's Degree in related field.

8.0 IT Simulation Specialist III

Functional Responsibilities: Experience includes man-in-the-loop hardware and software simulations, distributed simulations, and constructive simulations. Contributor on simulation projects in the areas of system design, component integration, and testing support. Responsibilities include simulation component design and development, support of integration and testing, and documentation. Is familiar with military systems and operations.

Education/Experience: Bachelors Degree and 2 years experience in related field, or Associate/Technical and 4 years experience in related field, or 6 years experience in related field.

9.0 Software Support Analyst I

Functional Responsibilities: Applies knowledge and skills in software support on all aspects of demonstrations and tasks. Provides of demonstrations and tasks. Provides specialized support to problems that are moderately complex to analyze, plan, program and operate. Knowledge of computer operating systems, software design, programming languages, software testing and documentation.

Education/Experience: Minimum 6 years experience in related field. Bachelor or Technical Degree required.

10.0 Software Support Analyst II

Functional Responsibilities: Applies expertise to software support on all aspects of demonstrations and tasks. Provides broad range of experience to problems that are moderately complex to analyze, plan, program and operate. Knowledge of computer operating systems, software design, programming languages, software testing and documentation.

Education/Experience: Minimum High School Diploma with 4 years software, or Associate/Technical Degree with 2 years experience in related field or Bachelors degree in Computer Science or IT area.

11.0 Software/System Architect III

Functional Responsibilities: Capable of providing technical direction to design and development teams, and monitoring progress and productivity through the use of metrics. Capable of providing technical support for software development programs. Must have knowledge of modern software development process, to include object-oriented development and use of tools, and how to apply them to software application program development. Capable of translating operational requirement into detailed software/system requirements. Knowledge of distributed systems, and issues regarding database replication and distribution of distributed systems.

Education/Experience: Bachelors Degree with 6 years experience in IT related field, or Masters Degree with 2 years experience in IT related field.

12.0 Network Specialist

Functional Responsibilities: Responsible for designing, testing, and integrating electrical/electronic circuitry, peripherals, and components. Expertise in software, software development and software integration as these pertain

to the modeling and simulation environments. Expertise in networking, including but not limited to LAN s, WAN s, and ATM. Experience and success in project/program management, scheduling, budgeting and marketing. Develops detailed test plans and procedures, conducts simulation exercise data reduction and analysis, and develops formal reports.

Education/Experience: Bachelors Degree with 4 years experience in related field, or Associate/Technical Degree with 6 years experience in related field, or 10 years experience in related field.

13.0 Senior IT Technician

Functional Responsibilities: Expertise in execution of a specified demonstration or task, with emphasis on all technology-oriented engineering and non-engineering tasks. Designs, deploys, and maintains computer networks, servers, workstations, data base servers, and other related network switching and routing equipment.

Education/Experience: Bachelors Degree and 3 years experience in related field, or Associate or Technical Degree with 6 years experience in related field.

14.0 Senior IT Hardware Configuration Specialist

Functional Responsibilities: Manages design of mechanical and/or electrical components, subsystems, and systems. Expertise in mechanical and/or electrical practices and principles. Proficiency with computer aided design tools such as AutoCAD, Mechanical Desktop, or CAD. Oversees development of formal documentation/drawings and specifications of system, sub-system, and simulator or component designs.

Education/Experience: Bachelors Degree with 4 years experience in related field, or Associate/Technical Degree with 10 years experience in related field.

15.0 Senior IT Maintenance Technician

Functional Responsibilities: Expertise in Army signals IT systems and maintenance. Proficient with level-of-repair analysis, failure prediction calculations, and support of Army signals intelligence systems. Proficient with IT support analysis, including maintenance allocation charts, long lead-time items lists, tools and test equipment lists, maintenance plans, test support plans, and material fielding plans.

Education/Experience: High School Diploma with 15 years experience in related field.

16.0 Senior IT Simulation Specialist I

Functional Responsibilities: Experience with man-in-the-loop hardware and software simulations, distributed simulations, and constructive simulations. Demonstrated technical leadership on simulation projects in the areas of system design, component integration, and testing support. Manages simulation project manpower, budget and technical documentation. Working knowledge of military systems and operations.

Education/Experience: Masters Degree and 4 years experience in related field, or Bachelors Degree and 6 years experience in related field, Associate/Technical Degree and 10 years experience in related field, or 15 years experience in related field.

17.0 Senior IT Simulation Specialist II

Functional Responsibilities: Experience includes man-in-the-loop hardware and software simulations, distributed simulations, and constructive simulations. Major contributor on large simulation projects in the areas of system design, component integration, and testing support. Responsibilities include simulation system design, development, integration, testing, and documentation. Has a working knowledge of military systems and operations.

Education/Experience: Bachelors Degree and 6 years experience in related field, or Associate/Technical and 8 years experience in related field, or 10 years experience in related field.

18.0 Senior IT Simulation Specialist III

Functional Responsibilities: Experience includes man-in-the-loop hardware and software simulations, distributed simulations, and constructive simulations. Contributor on large simulation projects in the areas of system design,

component integration, and testing support. Responsibilities include simulation system design, development, integration, testing, and documentation. Has a working knowledge of military systems and operations.

Education/Experience: Bachelors Degree and 4 years experience in related field, or Associate/Technical and 6 years experience in related field, or 10 years experience in related field.

19.0 Senior Software Specialist II

Functional Responsibilities: Provides leadership for sub-projects in software support, systems design and/or integration on specific aspects of demonstrations or tasks. Knowledge of computer operating systems, software design, programming languages, software testing and documentation. Knowledge of computer operating systems, software design, programming languages, software testing and documentation.

Education/Experience: Minimum Bachelors Degree with 8 years experience in related field (Computer Science or IT area) or Master Degree with 2 years experience in related field.

20.0 Senior System Specialist I

Functional Responsibilities: Proficiency in design or maintenance of complex electronic systems. Proficiency with RF (HF thru UHF) systems including antennas, pre-amplifiers, cables, receivers, demodulator, converters, servo systems, computers, analog and digital displays, I/O devices, printers, recorders, tape punches and test equipment.

Education/Experience: Masters Degree with 2 years experience in related field, or Bachelors Degree with 6 years related field, or 15 years experience in related field.

21.0 Senior Information Technical Advisor

Functional Responsibilities: Extensive knowledge and proven technical leadership in all areas of simulation. Demonstrated leadership in development and implementation of simulation environments. Designs and implements simulations and interfaces to link real-world systems with a training environment. Thorough understanding of military training processes. Experience in program analyses, research IT engineering, systems engineering and development engineering and/or acquisition management, distributed interactive simulations, constructive and virtual simulations.

Education/Experience: Masters Degree with 6 years experience in related field, or Bachelors Degree with 8 years experience in related field, or 10 years experience in the applicable field or discipline.

22.0 Senior Web Developer:

Experience: The Senior WWW Developer must have a minimum of five (5) years general ADP experience, which includes a minimum of two (2) years experience performing Internet development on Microsoft's Windows NT platform. This experience shall include experience developing web based applications using tools such as HTML, Java Script, Visual Basic, Active Server pages and C, and specialized experience in developing applications using relational database management systems.

Functional responsibility: Responsible for providing web site development, web based application development, and assistance on electronic information dissemination publishing projects. Shall also provide guidance to contractor personnel with less experience, and perform quality assurance on their work.

Education: A Bachelors degree is desired.

23.0 Web Developer:

Experience: The WWW Developer must have a minimum of three (3) years general ADP experience, which includes a minimum of one (1) year experience performing Internet development on Microsoft's Windows NT platform. This experience shall include experience developing web based applications using tools such as HTML, Java Script, Visual Basic, Active Server pages and C, and specialized experience in developing applications using relational database management systems.

Functional responsibility: Provides web site development, web based application development, and assistance on electronic information dissemination publishing projects.

Education: A Bachelors degree is desired.

24.0 IT Report Generation Specialist:

Experience: The Report Generation Specialist must have a minimum of three (3) years general ADP experience which includes a minimum of three (3) years experience designing, coding and debugging C, C++ or PowerBuilder applications in a client-server environment or programming experience in the Microsoft Windows environment. As part of the three (3) years of general experience, the Report Generation Specialist must have experience designing, coding and debugging business applications on such systems as DEC Alpha computers and IBM compatible PCs, and experience designing and implementing database applications with Sybase DBMS or a similar SQL-based DBMS in the client server environment. The Report Generation Specialist shall have experience with development of PowerBuilder and InfoMaker reports, and experience in development, testing and debugging reports using the Structured Query Report Writer (SQR) language.

Functional responsibility: Provides maintenance, debugging, and development support for existing and new applications using third and fourth generation languages reporting tools.

Education: A Bachelors degree is desired.

25.0 IT User Support Specialist:

Experience: The IT User Support Specialist must have a minimum of three (3) years general ADP experience, which includes a minimum of three (3) years experience identifying and solving software related user problems, experience in training users on customized software packages, or experience in writing user's guides and technical documentation, using excellent written and oral communication skills. As part of the three (3) years of general ADP experience, the User Support Specialist must have a working knowledge of the hardware, software and operating systems used by the customer including Windows 95, Banyan Vines, OpenVMS, WordPerfect, and Lotus 1-2-3.

Functional responsibility: Provide training, support, and assistance to users of applications developed on site.

Education: A Bachelors degree is desired.

26.0 Senior IT Operations Specialist:

Experience: This position requires a minimum of six (6) years of relevant experience. An Advanced degree will be considered equivalent to four (4) years of experience.

Functional responsibility: Serves as a technical expert in areas relevant to the project. Produces / reviews technical documentation reflecting detailed knowledge of technical areas included in the SOW. Recommends measures to improve methods, performance, and quality of product or service, and suggests changes to increase efficiency. Interfaces with ordering activity management personnel.

Education: A Bachelors degree. Five (5) years of additional IT general experience may be substituted for the Bachelors degree. Industry certification desired.

27.0 IT Operations Specialist:

Experience: This position requires a minimum of four (4) years of relevant experience.

Functional responsibility: Serves as an expert in the areas relevant to the project assigned. Must be capable of demonstrating experience in conducting analysis and developing solutions pertaining to the task assigned. Produces and reviews documentation reflecting detailed knowledge of the applicable area of expertise. Recommends measures to improve methods, performance, and quality of service, and suggest changes to increase efficiency.

Education: A Bachelors degree. Four (4) additional years of experience may be substituted for the degree requirement.

28.0 Junior IT Operations Specialist:

Experience: This position requires a minimum of two (2) years relevant experience.

Functional responsibility: Serves as an expert in the areas relevant to the project assigned. Must be capable of demonstrating experience in conducting analysis and developing solutions pertaining to the task assigned. Produces and reviews documentation reflecting detailed knowledge of the applicable area of expertise. Recommends measures to improve methods, performance, and quality of service, and suggests changes to increase efficiency.

Education: A Bachelors degree. Four (4) additional years of experience may be substituted for the degree requirement.

29.0 Visual Basic Programmer:

Experience: The Visual Basic programmer must have a minimum of three (3) years of general ADP experience, which includes a minimum of three (3) years experience designing, coding and debugging Visual Basic applications, or similar tools, in a client-server environment, and programming experience in the Microsoft Windows environment.

Functional responsibility: The Visual Programmer shall be responsible for providing maintenance, debugging, and development support for existing and new applications.

Education: A Bachelors degree is desired.

30.0 IT Application Specialist:

Experience: Requires a minimum of three (3) years experience in performing application development for IT systems.

Functional responsibility: Specify, analyze, design, code, enhance, test, document and maintain applications in accordance with software development methodologies. Utilize expertise in one or more languages to achieve desired outcome.

Education: A Bachelors degree. Three (3) years of additional software experience may be substituted for a Bachelors degree.

31.0 IT Systems Specialist:

Experience: Requires a minimum of six (6) years of relevant experience or an Advanced degree with four (4) years of relevant experience.

Functional responsibility: Provides software, hardware and standards expertise in the analysis, development and integration of interoperable, and scale able Information Systems. Ensures that all IT systems are compliant with open systems architectures.

Education: A Bachelors degree. Five (5) years of additional experience or three (3) years of additional experience and an AA/AS may be substituted for the BA/BS degree.

32.0 Senior IT Analyst:

Experience: Requires a minimum of four (4) years of relevant experience or an Advanced degree with two (2) years of relevant experience.

Functional responsibility: Provides functional and empirical analysis related to the design, development and implementation of information systems. Participates in the development of test strategies, devices and information systems. Ensures problem resolution and customer satisfaction; provides supervisory, technical, and administrative direction for personnel.

Education: A Bachelors degree. Five (5) years of additional experience or three (3) years of additional experience and an AA/AS may be substituted for the BA/BS degree

33.0 Journeyman IT Analyst:

Experience: Requires a minimum of two (2) years of relevant experience or an Advanced degree.

Functional responsibility: Provides functional and empirical analysis related to the design, development and implementation of information systems. Participates in the development of test strategies, devices and information

systems. Provides technical and administrative direction for tasks, including review of work products for correctness, compliance with industry accepted standards, and user standards.

Education: A Bachelors degree. Five (5) years of additional experience or three (3) years of additional experience and an AA/AS may be substituted for the BA/BS degree

34.0 Senior IT Analyst:

Experience: Requires a minimum of six (6) years direct experience in providing technical support and guidance.

Functional responsibility: Reports to the Program Manager, and provides technical direction to technical team members. Shall have proven experience in software applications design and development, for both stand-alone computers and client-server (i.e., LAN) systems; strong background in networking products and methodologies; working knowledge of various types of operating systems and software applications packages; and the ability to communicate and maintain working relationships with other team members.

Education: A bachelor's degree in computer science is required; however, five (5) years of direct experience with the computer industry can be substituted for the bachelor's degree.

35.0 Senior IT Analyst:

Experience: Requires a minimum of four (4) years of relevant experience or an Advanced degree with two (2) years of relevant experience.

Functional responsibility: Analyzes and evaluates existing or proposed systems and devises systems and related procedures. Prepares charts and diagrams to assist in problem analysis and submits recommendations for solution. Prepares detailed program specifications and flow charts, and coordinates the system's installation with the user department, ensuring satisfactory results. Provides technical and administrative direction for tasks, including review of work products for correctness, compliance with industry accepted standards, and user standards specified in SOW.

Education: A Bachelors degree. Five (5) years of additional experience or three (3) years of additional experience and an AA/AS may be substituted for the BA/BS degree.

36.0 Computer Systems Analyst:

Experience: Requires a minimum of four (4) years of relevant experience or an Advanced degree.

Functional responsibility: Analyzes complex business or scientific problems for resolution through electronic data processing. Gathers information from users, defines work problems, and if feasible, designs a system of computer programs and procedures to resolve the problem. Develops complete specifications or enable computer programmers to prepare required programs; analyzes subject-matter operations to be automated; specifies number and types of records, files and documents to be used and outputs to be produced; prepares work diagrams and data flow charts; coordinates tests of the system and participates in trial runs of new and revised systems; and recommends computer equipment changes to obtain more effective operations. Requires competence in most phases of system analysis and knowledge of pertinent system software and computer equipment and of the work processes, applicable regulations, workload and practices of the assigned subject-matter area. Recognizes probable interactions of related computer systems and predicts impact of a change in assigned systems.

Education: A Bachelors degree.

37.0 IT Security Specialist:

Experience: Requires a minimum of five (5) years experience in technology-oriented security engineering support related to hardware, software, OS and/or processes.

Functional responsibility: Duties include, but are not limited to, network security design engineering, intrusion detection/prevention engineering execution, environment risk assessments, network security architectural engineering, operating system security and operational security process engineering; provides direction to junior staff on the tasks needed to implement security objectives.

Education: A Bachelors degree in Computer Science. Three years of additional experience may be substituted for a Bachelors degree.

38.0 Junior Security Specialist:

Experience: Requires a minimum of one (1) year experience in technology-oriented security engineering support related to hardware, software, O/S and/or processes. This experience must include concentrated experience in Public Key Infrastructure and its associated technologies.

Functional responsibility: Duties include, but are not limited to, developing, installing, troubleshooting and maintaining public key infrastructure systems; training users in PKI concepts, usage and policy; performing Registration Authority and Local Registration Authority duties.

Education: A Bachelors degree in Computer Science. Three (3) years of additional experience may be substituted for a Bachelors degree.

39.0 IT Program Manager:

Experience: Requires a minimum of eight (8) years of relevant experience in project management or an Advanced degree with six (6) years of relevant experience.

Functional responsibility: The Program Manager (PM) oversees total contract performance, negotiation of delivery/task orders, and submission of proposals in response to the ordering activity's task requirements. The PM must be capable of project planning and oversight of multiple, concurrent tasks.

Education: A Bachelors degree. Five (5) years of additional experience or three (3) years of additional experience and an AA/AS may be substituted for the BA/BS degree.

40.0 IT Manager:

Experience: Requires a minimum of eight (8) years experience in managing technology-oriented projects related to hardware, software, O/S and/or processes.

Functional responsibility: Duties include but are not limited to planning, directing, and organizing the personnel assigned to support the work effort. Must be capable of managing and controlling schedules and costs. Must have the ability to understand technical requirements and be able to develop and maintain realistic work plans and schedules.

Education: A Bachelors degree. Three (3) years of additional technical experience may be substituted for a Bachelors degree.

41.0 Senior Administrative Analyst Specialist:

Experience: Requires a minimum of four (4) years of experience or two (2) years of experience and an AA/AS or a BA/BS degree.

Functional responsibility: Serves as administrative support for technical requirements of the effort. Enters difficult and non-routine information into word processing and database systems. Edits material and determines format. Analyzes and reconciles various operational reports requiring interpretation of data and use of independent judgment. Schedules equipment utilization. Confirms material supply and demand and prepares work orders or purchase requests for the purchase of supplies and equipment.

Education: A High School Diploma.

42.0 Administrative Analyst Specialist:

Experience: Requires a minimum of two (2) years of experience or an AA/AS degree or technical institute/trade school degree.

Functional responsibility: Serves as administrative support for technical requirements of the effort. Enters text, graphic material, and statistical information into word processing and database systems from written or edited copy. Schedules equipment usage.

Education: A High School Diploma.

43.0 IT Documentation Specialist:

Experience: Requires a minimum of five (5) years relevant experience.

Functional responsibility: Writes all technical direction, whether on-screen or in hard copy, for the specific software applications required. Experienced in developing, editing, and producing technical and graphic documentation for software applications, plus a minimum of two years experience in producing documents for the specific software required hereunder. Must understand organization of documentation, and must have good use of grammar and writing skills.

Education: A Bachelors degree in Business, Journalism or English is desirable.

USA Commitment to Promote Small Business Participation Procurement Programs

Preamble

DSCI provides commercial products and services to the Federal Government. We are committed to promoting participation of small, small disadvantaged and women-owned small businesses in our contracts. We pledge to provide opportunities to the small business community through reselling opportunities, mentor-programs, joint ventures, teaming arrangements, and subcontracting.

Commitment

To actively seek and partner with small businesses.

To identify, qualify, mentor and develop small, small disadvantaged and women-owned small businesses by purchasing from these businesses whenever practical.

To develop and promote company policy initiatives that demonstrates our support for awarding contracts and subcontracts to small business concerns.

To undertake significant efforts to determine the potential of small, small disadvantaged and women-owned small business to supply products and services to our company.

To insure procurement opportunities are designed to permit the maximum possible participation of small, small disadvantaged and women-owned small businesses.

To attend business opportunity workshops, minority business enterprise seminars, trade fairs, procurement conferences, etc., to identify and increase small businesses with whom to partner.

To publicize in our marketing publications our interest in meeting small businesses that may be interested in subcontracting opportunities.

We signify our commitment to work in partnership with small, small disadvantaged and women-owned small businesses to promote and increase their participation in Federal Government contracts. To accelerate potential opportunities please contact:

Mr. Peter Major

Best Value Blanket Purchase Agreement Federal Supply Schedule

(Insert Customer Name)

In the spirit of the Federal Acquisition Streamlining Act (ordering activity) and (Contractor) enter into a cooperative agreement to further reduce the administrative costs of acquiring commercial items from the General Services Administration (GSA) Federal Supply Schedule Contract(s) _____.

Federal Supply Schedule contract BPAs eliminate contracting and open market costs such as: search for sources; the development of technical documents, solicitations and the evaluation of offers. Teaming Arrangements are permitted with Federal Supply Schedule Contractors in accordance with Federal Acquisition Regulation (FAR) 9.6.

This BPA will further decrease costs, reduce paperwork, and save time by eliminating the need for repetitive, individual purchases from the schedule contract. The end result is to create a purchasing mechanism for the ordering activity that works better and costs less.

Signatures

_____	_____	_____	_____
Ordering Activity	Date	Contractor	Date

**BASIC GUIDELINES FOR USING
“CONTRACTOR TEAM ARRANGEMENTS”**

Federal Supply Schedule Contractors may use “Contractor Team Arrangements” (see FAR 9.6) to provide solutions when responding to an ordering activity requirements.

These Team Arrangements can be included under a Blanket Purchase Agreement (BPA). BPAs are permitted under all Federal Supply Schedule contracts.

Orders under a Team Arrangement are subject to terms and conditions or the Federal Supply Schedule Contract.

Participation in a Team Arrangement is limited to Federal Supply Schedule Contractors.

Customers should refer to FAR 9.6 for specific details on Team Arrangements.

Here is a general outline on how it works:

- The customer identifies their requirements.
- Federal Supply Schedule Contractors may individually meet the customer’s needs, or -
- Federal Supply Schedule Contractors may individually submit a Schedules “Team Solution” to meet the customer’s requirement.
- Customers make a best value selection.
