1a. Table of Awarded Special Item Number(s) with appropriate cross-reference to item descriptions and awarded price(s):

54151S: Professional IT Services
OLM: Order Level Materials

1b. Identification of the lowest priced service: Analyst $76.35
1c.
(1) Commercial Job Title: System Analyst II

**Functional Responsibility:** Analyzes applications and design specifications for information repository and database management systems. Develops logic flowcharts. Translates detailed design into computer software. Tests, debugs, and refines the computer software to produce the final software. Prepares required documentation, including both program-level and user-level documentation. Enhances software to improve efficiency. Effectively interact with personnel involved in policy, technical, operational, and program management work. Designs and delivers IT system change efforts to include process reengineering/improvement, or technology implementation.

**Minimum/General Experience:** Must have 5 years of computer experience in information system design. Excellent written and verbal communication skills, including the ability to compose, write, and edit technical documents.

**Education:** Bachelor's Degree

(2) Commercial Job Title: Solution Architect

**Functional Responsibility:** Leads team of programmers for developing business applications. Prepares required documentation, including both program-level and user-level documentation. Enhances software to improve efficiency. Provides technical direction to programmers, as required, to ensure that program deadlines are met. Serve as lead analyst or subject matter expert. Use EA products and artifacts to conduct sophisticated statistical and qualitative analysis of enterprise needs, performance, and gap analyses for executive decision-making. Develop IT solutions for a variety of end-users.

**Minimum/General Experience:** Must have at least 7 years of computer experience in complex IT solution design and development. 3 years of experience identifying, documenting, and analyzing stakeholder needs via workshops, interviews, and reviews of business and technical documentation.

**Education:** Advanced degree with 10 years’ experience or Bachelor's degree with 12 years’ experience

(3) Commercial Job Title: Program Manager I

**Functional Responsibility:** Manages a team of programmers for developing business applications. Manages software development schedule, resources, and milestones. Manages end-user acceptance of the developed software products and conducts quality assurance of deliverables.

**Minimum/General Experience:** Provide overall leadership for one or more customer engagements. Communicate with corporate and customer executive management to ensure critical issues are addressed in a timely fashion.
Education: Advanced degree with 20 years’ experience or bachelor's degree with 22 years’ experience

(4) Commercial Job Title: Principal Advisor/Leading Industry Expert

Functional Responsibility: Serves as an Industry Expert, Executive Coach, Mentor, and Educator. Responsibilities include long-range planning and program performance. Utilizes industry expertise gained through direct industry experience to assess the operational and functional capabilities of an organization. Works with senior managers and executives to provide industry vision and strategic direction. Guides the determination of information technology inadequacies and/or deficiencies that affect the organization’s ability to support/meet its goals. Generates business strategies for enhanced IT operations in a cross-functional area mode throughout the organization.

Minimum/General Experience: Perform consulting, facilitation, mentoring, training, design, architecture, and development. Design and build methodology for industry and government agencies. Experience in aligning multiple architecture frameworks and methodological approaches, including agile, TOGAF, Zachman, process management, Lean Six Sigma, business modeling, case management, event modeling, and systems transformation. Experience managing project teams, managers who manage project teams, in-house reengineering teams. Possess industry-recognized certifications such as Business Architect certification. Possess strong analytical and interpersonal communication skills. Possess excellent writing ability. Possess extensive experience as an orator, serving as keynote, panelist, speaker, and co-chair at conferences and events.

Education: Master’s Degree or Equivalent in Information Sciences or Information Technology.

(5) Commercial Job Title: Analyst I

Functional Responsibility: Analyzes and develops computer systems possessing a wide range of capabilities, including numerous engineering, business and records management functions. Develops plans for automated information systems from project inception to conclusion. Analyzes user interfaces, maintain hardware and software performance tuning, analyze workload and computer usage, maintain interfaces with outside systems, analyze downtimes, analyze proposed system modifications, upgrades and new COTS. Analyzes the problem and the information to be processed. Defines the problem, and develops system requirements and program specifications, from which programmers prepare detailed flow charts, programs, and tests. Coordinates closely with programmers to ensure proper implementation of program and system specifications. Develops, in conjunction with functional users, system alternative solutions.

Minimum/General Experience: 2+ years

Education: Bachelor’s degree or equivalent.
(6) Commercial Job Title: Subject Matter Expert

Functional Responsibility: An expert in a specific architecture or engineering discipline such as network engineering, security engineering, unified communications, customer relationship management (CRM), or enterprise system architecture.

Minimum/General Experience: Possesses unique skills in a specific discipline and/or technology that differentiate the individual's skills from the general description for Principle Information Engineer, Communications/Network Engineer, and/or System Architect but enhanced by 5+ years of specific concentration in a specialized discipline and/or technology.

Education: Bachelor’s degree or equivalent.

(7) Commercial Job Title: Executive Enterprise Architect

Functional Responsibility: A principal expert in a specific architecture or engineering discipline such as network engineering, security engineering, unified communications, customer relationship management (CRM), or enterprise system architecture. Possesses unique skills in a specific discipline and/or technology that differentiate the individual's skills from the general description for Principal Information Engineer, Communications/Network Engineer, and/or System Architect.

Minimum/General Experience: Typically possesses all of the skills of Principal Information Engineer, Communications/Network Engineer, and/or System Architect but enhanced by 10+ years of specific concentration in a specialized discipline and/or technology.

Education: Bachelor’s degree or equivalent.

(8) Analyst

Minimum/General Experience: 4+ years

Education: Bachelor’s degree or equivalent.

The Service Contract Labor Standards, formerly the Service Contract Act (SCA), is applicable to this contract as it applies to the entire Multiple Award Schedule and all services provided. While no specific labor categories have been identified as being subject to SCLS due to exemptions for professional employees; FAR 22.1101, 22.1102 and 29 CRF 541.300, this contract still maintains the provisions and protections for SCLS eligible labor categories. If and/or when the contractor adds SCLS labor categories/employees to the contract through the modification process, the contractor must inform the Contracting Officer and establish a SCLS matrix identifying the GSA labor category titles, the occupational code, SCLS labor category titles and the applicable WD number. Failure to do so may result in cancellation of the contract.
