CUSTOMER INFORMATION

1a. Table of Awarded Special Item Numbers:

Special Item Number 511210	Software Licenses
Special Item Number OLM	Order-Level Materials (OLM)
Special Item Number 334519	Bomb and Hazardous Material Disposal; Metal and Bomb Detection
Special Item Number 561612	Protective Service Occupations
Special Item Number 333415HVAC	Heating, Ventilation, and Air Conditioning (HVAC)
Special Item Number 334290	Security and Detection Systems
Special Item Number 3361E	Electric and Autonomous Vehicles and Accessories

1b. Identification of lowest priced model number and corresponding price for each awarded Special Item Number:

Special Item Number	Part Number	GSA Price with IFF
511210	N/A	N/A
334519	Detect 1000 Training Emulator	\$11,727.96
561612	Security Consultant	\$195.47 per hour
333415HVAC	N/A	N/A
334290	TC000TCLV1001	\$1.80
3361E	PED-NOV-SIN	\$1,583.27

1c. Hourly Rates: Protective Service Occupations

Executive Security Consultant

Minimum/General Experience: 12 years of relevant experience

Functional Responsibility: Progressive experience in leading and providing technical direction of Strategic business projects related to various security measures. Demonstrated ability to provide guidance and direction for multiple projects or sub-tasks and in designing, implementing and managing security systems and programs. Capability to manage multitask projects of high complexity, and must have demonstrated experience in managing all key project areas. Provides primary interface with client personnel regarding strategic issues and on project specific issues. Directs the completion of projects within estimated time frames and budget constraints. Coordinates all parties to tasks, review work products for completeness and adherence to client requirements. Experience includes demonstrated exceptional written and oral communication skills, including white papers and formal presentations. Delivers presentations and leads client meetings. Demonstrated ability to work independently. Holds requisite certifications relevant to the project at hand.

Minimum Education: Master's Degree

Approved Substitution	
Education	Experience
Bachelor's degree	14 years

Senior Security Consultant

Minimum/General Experience: 8 years of relevant experience

Functional Responsibility: Coordinates business analyses and studies, needs assessments, requirements analysis/ definition, and cost/benefit analyses in an effort to align business systems, solutions, and initiatives against relevant security goals. 2. Maximum Order:

Special Item Number 511210:	\$500,000
Special Item Number OLM:	\$250,000
Special Item Number 334519	\$250,000
Special Item Number 561612	\$250,000
Special Item Number 333415HVAC	\$250,000
Special Item Number 334290	\$250,000
Special Item Number 3361E	\$2,000,000

3. Minimum Order: \$100

4. Geographic Coverage: Worldwide

5. Points of Production:

Manufacturer Name	Production Point
Integrated Defense & Security Solutions, Inc	85 Swanson Road Suite 110 Boxborough MA 01719 USA
Tek84 Inc.	13495 Gregg St Poway, CA, 92064-7135
Metrasens Ltd.	Unit 8 Beauchamp Business Centre Sparrowhawk Close, Malvern WR4 1GL United Kingdom
Databuoy Corporation	7950 Jones Branch Dr Suite 800 McLean, VA 22102
1st Detect Corporation	2105 Donley Drive, Suite 100 Austin, Texas 78758

6. Discount from List Price or Statement of Net Price:

The GSA Net Prices published on the GSA Advantage website reflect the fully burdened price. The negotiated discount has been applied and the Industrial Funding Fee has been added.

7. Quantity Discount:

For TRACER 1000: 10% - for purchase of 2 Units
 15% - for purchase of 3-4 - Units
 20% - for purchase of 5-10 Units
 25% - for purchase of 11-24 Units
 30% - for purchase of 25-49 Units
 35% - for purchase of 50+ Units

8. Prompt Payment Terms: Net 30 Days

Information for Ordering Offices: Prompt Payment terms cannot be negotiated out of the contractual agreement in exchange for other concessions.

9. Foreign Item: N/A

10a. Time of Delivery:

Thirty days After Receipt of Order or Negotiated at the Task Order Level with the Ordering Activity.

10b. Expedited Delivery: Please contact the Contractor for availability and rates.

10c. Overnight and 2-day Delivery: Please contact the Contractor for availability and rates.

10d. Urgent Requirements:

Agencies can contact the Contractor's representative to affect a faster delivery. Customers are encouraged to contact the contractor for the purpose of requesting accelerated delivery.

334290	1st Detect	Installation & Training	User level Training (Domestic & Virtual)	\$1,368.26
334290	1st Detect	TRACER 1000	The Tracer 1000 is an Explosive Trace Detector that is the most sensitive trace detector available with a near zero false alarm rate, lowest total cost of ownership, the only ETD with an unlimited library that can be instantly updated with the latest threats, simple to operate and has 100% uptime. 1 Year Warranty.	\$113,334.36
334290	Databuoy Corporation	Geofob	Mobile Panic Button	\$68.41
334290	Databuoy Corporation	Geofob Wall Receiver	Geofob wall plug receiver with PoE daisy chain power module for enhanced RF localization. Shipping and on-site system checkout included.	\$684.13
334290	Databuoy Corporation	3 Yrs Geofob Support	Geofob Support Agreement. Three (3) years Geofob mobile panic button system and device warranty, software license, support, and Geofob device swap out.	\$205.24
334290	Databuoy Corporation	Shotpoint Indoor Sensor	Shotpoint Indoor 4-channel Shotpoint sensor package with Ethernet / PoE power. Shipping, on-site system checkout, user training included.	\$2,052.39
334290	Databuoy Corporation	Shotpoint Outdoor Sensor	Outdoor 4-channel Shotpoint outdoor sensor package with choice of Ethernet / PoE power module or A/C power and wireless comms. Shipping, on-site system checkout, user training included.	\$2,702.32
334290	Databuoy Corporation	3 Yrs Shotpoint Support	Shotpoint Support Agreement. Three (3) years annual warranty, software license, status monitoring, and customer video system integration support.	\$366.50
3361E	EOS Linx	Charging Pedestal (Dual F/B)	Dual 'Front-to-Back' Charger Mounting - Includes Charging Cable Management System. Federal Access Board Compliant. Supports up to 62 lbs with a wind rating of up to 170mph (Seismic Rated Design Category D). Dimensions 16.5" L	\$1,798.29

			x 12.5" W x 78" H. EV Charger not included.	
3361E	EOS Linx	Charging Pedestal (Dual S/S)	Dual 'Side-by-Side' Charger Mounting - Includes Charging Cable Management System. Federal Access Board Compliant. Supports up to 62 lbs with a wind rating of up to 170mph (Seismic Rated Design Category D). Dimensions 16.5" L x 12.5" W x 78" H. EV Charger not included.	\$1,798.29
3361E	EOS Linx	Charging Pedestal (Single)	Single Charger Mount - Includes Charging Cable Management System. Federal Access Board Compliant. Supports up to 62 lbs with a wind rating of up to 170mph (Seismic Rated Design Category D). Dimensions 16.5" L x 12.5" W x 78" H. EV Charger not included.	\$1,583.27
3361E	EOS Linx	EV Charger - 48A	Level 2 AC Charger, 208/240V - OCPP, 4G/WiFi & Load Management Capable. Available with SAE J1772 or NACS plug. Includes 18' cable (standard) with optional upgrade to 25'. Meets Energy Star and OpenADR 2.0 standards. Pedestal not included. Will require one time commissioning fee and monthly connectivity fee (invoiced separately). Additional services including EV charger installation, permitting, site design, due diligence, and utility coordination are available upon request.	\$1,954.66
3361E	EOS Linx	EV Charger - 80A	Level 2 AC Charger, 208/240V - OCPP, 4G/WiFi & Load Management Capable. Available with SAE J1772 or NACS plug. Includes 18' cable (standard) with optional upgrade to 25'. Meets Energy Star and OpenADR 2.0 standards. Pedestal not included. Will require one time commissioning fee and monthly connectivity fee (invoiced separately). Additional services including EV charger installation, permitting, site design, due diligence, and utility coordination are available upon request.	\$2,443.32
3361E	EOS Linx	AXIS (Base Station)	Base Station is 36" L x 8" W x 89" H, 200lbs, and wind rated for up to 170mph (Seismic Rate Design Category D). Optional branding capabilities available	\$1,798.29

			(static panel, 31" W x 54" h). Base station can support up to two (2) On-Board Chargers + (3) Pedestal or Wall Mount Chargers via Integrated Load Center EV Chargers or pedestals not included.	
334519	IDSS Holdings, Inc.	Detect 1000 Training Emulator	The DETECT 1000 Emulator is stand-alone computer and monitor that runs the DETECT 1000 user interface software that allows the operators to train on identical software as the scanner. The software allows identical image manipulation tools that allow operators to rotate, zoom, and slice through the scanned objects. DICOS image files from the DETECT 1000 scanner are loaded on the emulator so operators work with real images from the scanner and its algorithms results to enhance operator training.	\$11,727.96
334519	IDSS Holdings, Inc.	Detect 1000 Advanced Security Baggage Scanner, Base Model with Metering and High Speed Conveyors	"DETECT™ 1000's Dual Energy CT design provides submillimeter resolution, superior x-ray information to provide clear fully rotatable 3D images for better and faster identification of threats with the capacity to address tomorrow's threats without the need for costly hardware upgrades. Our current technology allows for expanding detection to weapons, narcotics and other threats today. Included in purchase: -Factory Acceptance Testing -Site Acceptance Testing -5 days of onsite support for installation and training"	\$464,231.74
334519	IDSS Holdings, Inc.	Service Contract - DETECT 1000	Annual Service contract, 8x5 onsite support and replacement parts.	\$43,979.85
334519	Metrasens Ltd.	CELLSENSE® PLUS	Contraband, weapon, and threat detection system	\$13,970.93

334519	Tek84	Tek84 Intercept	Full Body X-Ray Transmission Security Inspection System	\$190,579.35
334519	Tek84	Tek84 Defender	Full Body Dual Technology X-Ray Security Inspection System	\$223,808.56
334290	TRACKtech	TRACKcase - API Integration	Hourly rate for API integration between TRACKtech and	\$293.20

			customer's existing Case Management System	
334290	TRACKtech	TRACKcase - Case Management Software	Case Management Software. Desktop, tablet, or Smartphone portal on the TRACKtech platform which collects, stores and analyzes real-time data to help manage casework flow.	\$1.76
334290	TRACKtech	TRACKphone - Daily Rates	Secured smartphone and wrist-worn tether provided to program members, monitored by the supervising officers through TRACKcase.	\$6.36
334290	TRACKtech	TRACKphone - Replacement	Secured smartphone provided to program members, monitored by the supervising officers through TRACKcase enabling officers to track, observe and interact with their program members on a real-time basis. Features include education, video conferencing, behavioral health assessments, and rehabilitative support.	\$190.01
334290	TRACKtech	TRACKphone - Charging Cord	Replacement	\$24.43
334290	TRACKtech	TRACKphone and TRACKtether	Replacement of lost TRACKphone and TRACKtether.	\$255.00
334290	TRACKtech	TRACKtether - Replacement	Replacement of wrist-worn tether.	\$65.00
334519	Gigaplex	Gigaplex Light	Must be installed on CT OEM hardware, internal to a single airport/secure facility. Maximum base configuration with one CT, one Primary Viewing Station (PVS), an additional PVS and up to two (2) Secondary Viewing Stations (SVS). Additional PVS/SVS integration costs required. Lane may not be connected to LAN or WAN outside of checkpoint or adjacent screening room. Off Premises WAN connection not allowed. OEM is responsible for cyber security.	\$14,659.95
334519	Gigaplex	Gigaplex Light, Primary Viewing Station Add-on	Additional Primary Viewing Station (PVS) integration into Gigaplex Light configuration	\$4,886.65
334519	Gigaplex	Gigaplex Light, Secondary Viewing Station Add-on	Additional Secondary Viewing Station (SVS) integration into Gigaplex Light configuration.	\$2,443.32
334519	Gigaplex	Gigaplex Secure	Must be used with existing OEM CT checkpoint configured with one CT, one Primary Viewing Station (PVS), an additional PVS and up to two (2) Secondary Viewing Stations (SVS).	\$29,319.90

			Additional PVS/SVS integration costs required. Must be used internal to a single airport/secure facility. Facility must not be connected to an off-site WAN. Gigaplex is responsible for cyber security of image transfer and will provide all hardware, software and upgrades as a service. Includes Facility level Gigaportal.	
334519	Gigaplex	Gigaplex Secure, Primary Viewing Station Add-on	Additional Primary Viewing Station (PVS) integration into Gigaplex Secure configuration	\$9,773.30
334519	Gigaplex	Gigaplex Secure, Secondary Viewing Station Add-on	Additional Secondary Viewing Station (SVS) integration into Gigaplex Secure configuration.	\$4,886.65
334519	Gigaplex	Gigaplex Secure, Third Party Interface Integration	Integration of Gigaplex Secure into a checkpoint lane with a non collocated PVS utilizing an approved Open Interface, i.e. OPSL or EOS.	\$29,319.90
334519	Gigaplex	Gigaplex Remote	Gigaplex Remote includes all the functionality of Gigaplex Secure AND supports airport to airport screening through customer provided WAN. Gigaplex is responsible for cyber security of image transfer and will provide all hardware, software and upgrades as a service. Includes Facility level Gigaportal. Customer responsible for underlying WAN performance.	\$43,979.85
334519	Gigaplex	Gigaplex Remote, Primary Viewing Station Add-on	Additional Primary Viewing Station (PVS) integration into Gigaplex Remote configuration	\$14,659.95
334519	Gigaplex	Gigaplex Remote, Secondary Viewing Station Add-on	Additional Secondary Viewing Station (SVS) integration into Gigaplex Remote configuration.	\$7,329.97
334519	Gigaplex	Gigaplex Remote, Third Party Interface Integration	Integration of Gigaplex Remote into a checkpoint lane with a non collocated PVS utilizing an approved Open Interface, i.e. OPSL or EOS.	\$43,979.85
334519	Gigaplex	Gigaportal Extended	Enterprise Access provides national, regional or corporate access to Gigaportal dashboard, beyond facility level. Available in	\$4,886.65

Senior Security Consultant	\$205.24
Security Consultant	\$215.01

**INFORMATION TECHNOLOGY CATEGORY
IT SOFTWARE SUBCATEGORY
SPECIAL ITEM NUMBER 511210
SOFTWARE LICENSES**

- 1) Technical Support: Without additional charge to the ordering activity, shall provide a hot line technical support number for the purpose of providing user assistance and guidance in the implementation of the software. The technical support number shall be available during specified hours.
 - a) At the task or delivery order level, the technical support hotline number is 800-279-1455 and the hours of operation are 9:00 am through 5:00 pm Eastern, Monday through Friday.
- 2) Right-to-Copy Pricing: **Outside the scope of this contract.**
- 3) Utilization Limitations
 - a) Software acquisition is limited to commercial computer software defined in FAR Part 2.101.
 - b) When acquired by the ordering activity, commercial computer software and related documentation shall be subject to the following:
 - i.) Title to and ownership of the software and documentation shall remain with the Contractor, unless otherwise specified.
 - ii.) Software licenses are by site and by ordering activity. An ordering activity is defined as a cabinet level or independent ordering activity. The software may be used by any subdivision of the ordering activity (service, bureau, division, command, etc.) that has access to the site the software is placed at, even if the subdivision did not participate in the acquisition of the software. Further, the software may be used on a sharing basis where multiple agencies have joint projects that can be satisfied by the use of the software placed at one ordering activity's site. This would allow other agencies access to one ordering activity's database. For ordering activity public domain databases, user agencies and third parties may use the computer program to enter, retrieve, analyze and present data. The user ordering activity will take appropriate action by instruction, agreement, or otherwise, to protect the Contractor's proprietary property with any third parties that are permitted access to the computer programs and documentation in connection with the user ordering activity's permitted use of the computer programs and documentation. For purposes of this section, all such permitted third parties shall be deemed agents of the user ordering activity.
 - iii.) Except as provided above, the ordering activity shall not provide or otherwise make available the software or documentation, or any portion thereof, in any form, to any third party without the prior written approval of the Contractor. Third parties do not include prime Contractors, subcontractors and agents of the ordering activity who have the ordering activity's permission to use the licensed software and documentation at the facility, and who have agreed to use the licensed software and documentation only in accordance with these restrictions. This provision does not limit the right of the ordering activity to use software, documentation, or information therein, which the ordering activity may already have or obtains without restrictions.
 - iv.) The ordering activity shall have the right to use the software and documentation with the run-time computing environment (e.g. operating system, virtual machine, mobile operating system, processor etc.) to be specifically identified for which it is acquired at any other facility/user device to which that time computing

environment may be transferred, or in cases of Disaster Recovery, the ordering activity has the right to transfer the software to another site/user device if the ordering activity site for which it is acquired is deemed to be unsafe for ordering activity personnel; to use the software and documentation with a backup time computing environment when the primary is inoperative; to copy computer programs for safekeeping (archives) or backup purposes; to transfer a copy of the software to another site/user for purposes of benchmarking new hardware and/or software; and to modify the software and documentation or combine it with other software, provided that the unmodified portions shall remain subject to these restrictions.

- v.) "Commercial Computer Software" may be marked with the Contractor's standard commercial restricted rights legend, but the schedule contract and schedule pricelist, including this clause, "Utilization Limitations" are the only governing terms and conditions, and shall take precedence and supersede any different or additional terms and conditions included in the standard commercial legend.
- vi.) Licensee Data belongs exclusively to Licensee, regardless of where the Data may reside at any moment in time including, but not limited to Licensor hardware, networks or other infrastructure and facilities where Data may reside, transit through or be stored from time to time. Licensor makes no claim to a right of ownership in Licensee Data. Licensor agrees to keep the Licensee Data Confidential as that term is defined in the relevant FAR and DFARS provisions pertaining to Confidential Information and Confidentiality. Licensor is not permitted to use Licensee's data for a purpose that is not explicitly granted in writing by Licensee. Upon Licensee request, for any reason whatsoever, Licensor must promptly return all Licensee Data in Licensor's possession in a format as may be designated at the time of request by Licensee.
- vii.) Licensee may create or hire others (including Licensor) to create modifications, customizations or other enhancements to the Software which might be classified as "Derivative Works" of the software. Unless otherwise negotiated and mutually agreed upon at the order level, the intellectual property (IP) rights to the Derivative Works shall be owned by the owner of the underlying intellectual property. The Derivative Work[s] shall be made available to the Licensee through a royalty free, perpetual worldwide, no charge license to the Licensee.

4) Conversion from Term License to Perpetual License

- a) When standard commercial practice offers conversions of term licenses to perpetual licenses, and an ordering activity requests such a conversion, the contractor shall provide the total amount of conversion credits available for the subject software within ten (10) calendar days after placing the order.
- b) When conversion credits are provided, they shall continue to accrue from one contract period to the next, provided the software has been continually licensed without interruption.
- c) The term license for each software product shall be discontinued on the day immediately preceding the effective date of conversion from a term license to a perpetual license.
- d) When conversion from term licenses to perpetual licenses is offered, the price the ordering activity shall pay will be the perpetual license price that prevailed at the time such software was initially ordered under a term license, or the perpetual license price prevailing at the time of conversion from a term license to a perpetual license, whichever is the less, minus an amount equal to a percentage of all term license payments during the period that the software was under a term license within the ordering activity.

Conversion is outside the scope of this contract.

- 5) Term License Cessation
- a) Term licenses are not eligible for conversion to a perpetual license at any time.
 - b) Each separately priced software product shall be individually enumerated, if different accrual periods apply for the purpose of perpetual license attainment.
 - c) The Contractor agrees to provide updates and software maintenance services for the software after a perpetual license has accrued, at the prices and terms of SIN 54151 - Software Maintenance Services, if the licensee elects to order such services. Title to the software shall remain with the Contractor.

Cessation is outside the scope of this contract.

- 6) Utilization Limitations for Perpetual Licenses
- a) Software Asset Identification Tags (SWID) (Option 1 Perpetual License)
 - i.) Option 1 is applicable when the Offeror agrees to include the International Organization for Standardization/International Electrotechnical Commission 19770-2 (ISO/IEC 19770- 2:2015) standard identification tag (SWID Tag) as an embedded element in the software. An ISO/IEC 19970-2 tag is a discoverable identification element in software that provides licensees enhanced asset visibility. Enhance visibility supports both the goals of better software asset management and license compliance. Offerors may use the National Institute of Standards and Technology (NIST) document "NISTIR 8060: Guidelines for Creation of Interoperable Software Identification (SWID) Tags," December 2015 to determine if they are in compliance with the ISO/IEC 19770-2 standard
 - ii.) Section 837 of The Federal Information Technology Acquisition Reform Act (FITARA) of 2014 requires GSA to seek agreements with software vendors that enhance government-wide acquisition, shared use, and dissemination of software, as well as compliance with end user license agreements. The Megabyte Act of 2016 requires agencies to inventory software assets and to make informed decisions prior to new software acquisitions. In June of 2016, the Office of Management and Budget issued guidance on software asset management requiring each CFO Act (Public Law 101-576 – 11/15/1990) agency to begin software inventory management (M-16-12). To support these requirements, Offerors may elect to include the terms of Option 1 and/or Option 2, which support software asset management and government-wide reallocation or transferability of perpetually licensed software.
 - b) Reallocation of Perpetual Software (Option 2 Perpetual License)
 - i.) The purpose of SIN 511210 OPTION 2 is to allow ordering activities to transfer software assets for a pre-negotiated charge to other ordering activities.
 - ii.) When an ordering activity becomes aware that a reusable software asset may be available for transfer, it shall contact the Contractor, identify the software license or licenses in question, and request that these licenses be reallocated or otherwise made available to the new ordering activity.
 - iii.) Contractors shall release the original ordering activity from all future obligations under the original license agreement and shall present the new ordering activity with an equivalent license agreement. When the new ordering activity agrees to

the license terms, henceforth any subsequent infringement or breach of licensing obligations by the new ordering activity shall be a matter exclusively between the new ordering activity and the Contractor.

- iv.) The original ordering activity shall de-install, and/or make unusable all of the software assets that are to be transferred. It shall have no continuing right to use the software and any usage shall be considered a breach of the Contractor's intellectual property and a matter of dispute between the original ordering activity/original license grantee and the licensor.
- v.) As a matter of convenience, once the original licenses are deactivated, di-installed, or made otherwise unusable by the original ordering activity or license grantee, the Contractor may elect to issue new licenses to the new ordering activity to replace the old licenses. When new licenses are not issued, the Contractor shall provide technical advice on how best to achieve the functional transfer of the software assets.
- vi.) Software assets that are eligible for transfer that have lapsed Software Maintenance Services (SIN 54151) may require a maintenance reinstatement fee, chargeable to the new ordering activity or license grantee. When such a fee is paid, the new ordering activity shall receive all the rights and benefits of Software Maintenance Services.
- vii.) When software assets are eligible for transfer, and are fully covered under pre-paid Software Maintenance Services (SIN 54151), the new ordering activity shall not be required to pay maintenance for those license assets prior to the natural termination of the paid for maintenance period. The rights associated with paid for current Software Maintenance Services shall automatically transfer with the software licenses without fee. When the maintenance period expires, the new ordering activity or license grantee shall have the option to renew maintenance.
- viii.) The administrative fee to support the transfer of licenses, exclusive of any new incremental licensing or maintenance costs shall be _____percentage (%) of the original license fee. The fee shall be paid only at the time of transfer. In applying the transfer fee, the Software Contractor shall provide transactional data that supports the original costs of the licenses.

The software assets are not eligible for transfer.

7) Software Conversions: Full monetary credit will be allowed to the ordering activity when conversion from one version of the software to another is made as a result of a change in operating system, or from one computer system to another. Under a perpetual license, the purchase price of the new software shall be reduced by the amount that was paid to purchase the earlier version. Under a term license, if conversion credits had accrued while the earlier version was under a term license, those credits shall carry forward and remain available as conversion credits which may be applied towards the perpetual license price of the new version.
