About Us:

Since 2005, IT Data Solutions has been providing focused management consulting services specializing in Information Technology (IT) solutions and tools for large private and public sector clients. We specialize in Advisory, Analytics, Audio/Video Design and Implementation, Augmented/Virtual Reality, Cybersecurity, Human Capital Solutions, Managed Services, and Robotic Process Automation (RPA). We turn big data into actionable intelligence to help reach your mission objectives. Our IT data solutions help you to increase efficiencies, reduce costs, and streamline processes.

Our Services:
IT Data Solutions takes a holistic approach to servicing you by providing all the services listed below and many more:

SPECIAL ITEM NUMBER 54151S - INFORMATION TECHNOLOGY (IT) PROFESSIONAL SERVICES

FPDS Code D301   IT Facility Operation and Maintenance
FPDS Code D302   IT Systems Development Services
FPDS Code D306   IT Systems Analysis Services
FPDS Code D307   Automated Information Systems Design and Integration Services
FPDS Code D308   Programming Services
FPDS Code D310   IT Backup and Security Services
FPDS Code D311   IT Data Conversion Services
FPDS Code D313   Computer Aided Design/Computer Aided Manufacturing (CAD/CAM) Services
FPDS Code D316   IT Network Management Services
FPDS Code D317   Creation/Retrieval of IT Related Automated News Services, Data Services, or Other Information Services (All other information services belong under Schedule 76)
FPDS Code D399   Other Information Technology Services, Not Elsewhere Classified

Note 1: All non-professional labor categories must be incidental to and used solely to support hardware, software and/or professional services, and cannot be purchased separately.

Note 2: Offerors and Agencies are advised that the Group 70 – Information Technology Schedule is not to be used as a means to procure services which properly fall under the Brooks Act. These services include, but are not limited to, architectural, engineering, mapping, cartographic production, remote sensing, geographic information systems, and related services. FAR 36.6 distinguishes between mapping services of an A/E nature and mapping services which are not connected nor incidental to the traditionally accepted A/E Services.

Note 3: This solicitation is not intended to solicit for the reselling of IT Professional Services, except for the provision of implementation, maintenance, integration, or training services in direct support of a product. Under such circumstances the services must be performance by the publisher or manufacturer or one of their authorized agents.
Contract Number: GS-35F-350DA

Period Covered by Contract: June 8, 2021 thru June 7, 2026

General Services Administration
Federal Acquisition Service

Pricelist current through Modification #_______, dated_________.

Products and ordering information in this Authorized Information Technology Schedule Pricelist are also available on the GSA Advantage! System (http://www.gsaadvantage.gov).
INFORMATION FOR ORDERING ACTIVITIES
APPLICABLE TO ALL SPECIAL ITEM NUMBERS

SPECIAL NOTICE TO AGENCIES: Small Business Participation

SBA strongly supports the participation of small business concerns in the Federal Acquisition Service. To enhance Small Business Participation SBA policy allows agencies to include in their procurement base and goals, the dollar value of orders expected to be placed against the Federal Supply Schedules, and to report accomplishments against these goals.

For orders exceeding the micropurchase threshold, FAR 8.404 requires agencies to consider the catalogs/pricelists of at least three schedule contractors or consider reasonably available information by using the GSA Advantage™ on-line shopping service (www.gsaadvantage.gov). The catalogs/pricelists, GSA Advantage™ and the Federal Acquisition Service Home Page (www.gsa.gov/fas) contain information on a broad array of products and services offered by small business concerns.

This information should be used as a tool to assist ordering activities in meeting or exceeding established small business goals. It should also be used as a tool to assist in including small, small disadvantaged, and women-owned small businesses among those considered when selecting pricelists for a best value determination.

For orders exceeding the micropurchase threshold, customers are to give preference to small business concerns when two or more items at the same delivered price will satisfy their requirement.

1. GEOGRAPHIC SCOPE OF CONTRACT:

*Domestic delivery* is delivery within the 48 contiguous states, Alaska, Hawaii, Puerto Rico, Washington, DC, and U.S. Territories. Domestic delivery also includes a port or consolidation point, within the aforementioned areas, for orders received from overseas activities.

*Overseas delivery* is delivery to points outside of the 48 contiguous states, Washington, DC, Alaska, Hawaii, Puerto Rico, and U.S. Territories.

Offerors are requested to check one of the following boxes:

- [ ] The Geographic Scope of Contract will be domestic and overseas delivery.
- [ ] The Geographic Scope of Contract will be overseas delivery only.
- [X] The Geographic Scope of Contract will be domestic delivery only.

For Special Item Number 132-53 Wireless Services ONLY, if awarded, list the limited geographic coverage area:

2. CONTRACTOR’S ORDERING ADDRESS AND PAYMENT INFORMATION:

12889 SW 21st Street
Miramar, FL 33027

Contractor must accept the credit card for payments equal to or less than the micro-purchase for oral or written orders under this contract. The Contractor and the ordering agency may agree to use the credit card for dollar amounts over the micro-purchase threshold (See GSAR 552.232-79 Payment by Credit Card). In addition, bank account information for wire transfer payments will be shown on the invoice.
The following telephone number(s) can be used by ordering activities to obtain technical and/or ordering assistance:

(954) 885-2003

When Authorized Dealers are allowed by the Contractor to bill ordering activities and accept payment, the order and/or payment must be in the name of the Contractor, in care of the Authorized Dealer.

3. LIABILITY FOR INJURY OR DAMAGE

The Contractor shall not be liable for any injury to ordering activity personnel or damage to ordering activity property arising from the use of equipment maintained by the Contractor, unless such injury or damage is due to the fault or negligence of the Contractor.

4. STATISTICAL DATA FOR GOVERNMENT ORDERING OFFICE COMPLETION OF STANDARD FORM 279:

Block 9: G. Order/Modification Under Federal Schedule Contract
Block 16: Data Universal Numbering System (DUNS) Number: 616452426
Block 30: Type of Contractor: A

A. Small Disadvantaged Business
B. Other Small Business
C. Large Business
G. Other Nonprofit Organization
L. Foreign Contractor

Block 31: Woman-Owned Small Business: No
Block 37: Contractor’s Taxpayer Identification Number (TIN): 20-3944559
Block 40: Veteran Owned Small Business (VOSB): No

4a. CAGE Code: 7ACC8

4b. Contractor has registered with the Central Contractor Registration Database.

5. FOB DESTINATION

6. DELIVERY SCHEDULE

a. TIME OF DELIVERY: The Contractor shall deliver to destination within the number of calendar days after receipt of order (ARO), as set forth below:

As negotiated with ordering agency.

b. URGENT REQUIREMENTS: When the Federal Supply Schedule contract delivery period does not meet the bona fide urgent delivery requirements of an ordering activity, ordering activities are encouraged, if time permits, to contact the Contractor for the purpose of obtaining accelerated delivery. The Contractor shall reply to the inquiry within 3 workdays after receipt. (Telephonic replies shall be confirmed by the Contractor in writing.) If the Contractor offers an accelerated delivery time acceptable to the ordering activity, any order(s)
placed pursuant to the agreed upon accelerated delivery time frame shall be delivered within this shorter
delivery time and in accordance with all other terms and conditions of the contract.

c. i. SIN 132-54 and SIN 132-55, ACCELERATED SERVICE DELIVERY (7 calendar days or less): the time
required for COMSATCOM services to be available after order award. Under Accelerated Service Task Orders,
service acceptance testing, unless otherwise required by the satellite provider or host nation, shall be deferred
until Ordering Activity operations permit.

   ii. SIN 132-54 and SIN 132-55, TIME-CRITICAL DELIVERY (4 hours or less): the time required for
COMSATCOM services to be available after order award. Under Time-Critical Task Orders, service acceptance
testing unless otherwise required by the satellite provider or host nation shall be deferred until Ordering Activity
operations permit. Time-Critical Delivery shall be predicated on the availability of COMSATCOM transponded
capacity (contracted bandwidth and power, pre-arranged Host Nation Agreements, frequency clearance) or
COMSATCOM subscription services (bandwidth, terminals, network resources, etc.).

   iii. For SIN 132-54 and SIN 132-55, EXTENDED SERVICE DELIVERY TIMES: the time required under
extenuating circumstances for COMSATCOM services to be available after order award. Such extenuating
circumstances may include extended time required for host nation agreements or landing rights, or other time
intensive service delivery requirements as defined in the individual requirement. Any such extended delivery
times will be negotiated between the Ordering Activity and Contractor.

7. **DISCOUNTS:** Prices shown are NET Prices; Basic Discounts have been deducted.
   a. Prompt Payment: 1% - 10 days from receipt of invoice or date of acceptance, whichever is later.
   b. Quantity: **None**
   c. Dollar Volume: **None**
   d. Government Educational Institutions: **Offered the same discount as all other Government customers**
   e. Other: **None**

8. **TRADE AGREEMENTS ACT OF 1979, as amended:**
   All items are U.S. made end products, designated country end products, Caribbean Basin country end products,
   Canadian end products, or Mexican end products as defined in the Trade Agreements Act of 1979, as amended.

9. **STATEMENT CONCERNING AVAILABILITY OF EXPORT PACKING:**

10. **Small Requirements:** The minimum dollar value of orders to be issued is $100.

11. **MAXIMUM ORDER (All dollar amounts are exclusive of any discount for prompt payment.)**
   a. The Maximum Order value for the following Special Item Numbers (SINs) is $500,000:

      Special Item Number 54151S - Information Technology Professional Services
12. ORDERING PROCEDURES FOR FEDERAL SUPPLY SCHEDULE CONTRACTS
Ordering activities shall use the ordering procedures of Federal Acquisition Regulation (FAR) 8.405 when placing an order or establishing a BPA for supplies or services. These procedures apply to all schedules.

a. FAR 8.405-1 Ordering procedures for supplies, and services not requiring a statement of work.

b. FAR 8.405-2 Ordering procedures for services requiring a statement of work.

13. FEDERAL INFORMATION TECHNOLOGY/TELECOMMUNICATION STANDARDS REQUIREMENTS:
Ordering activities acquiring products from this Schedule must comply with the provisions of the Federal Standards Program, as appropriate (reference: NIST Federal Standards Index). Inquiries to determine whether or not specific products listed herein comply with Federal Information Processing Standards (FIPS) or Federal Telecommunication Standards (FED-STDs), which are cited by ordering activities, shall be responded to promptly by the Contractor.

13.1 FEDERAL INFORMATION PROCESSING STANDARDS PUBLICATIONS (FIPS PUBS):
Information Technology products under this Schedule that do not conform to Federal Information Processing Standards (FIPS) should not be acquired unless a waiver has been granted in accordance with the applicable "FIPS Publication." Federal Information Processing Standards Publications (FIPS PUBS) are issued by the U.S. Department of Commerce, National Institute of Standards and Technology (NIST), pursuant to National Security Act. Information concerning their availability and applicability should be obtained from the National Technical Information Service (NTIS), 5285 Port Royal Road, Springfield, Virginia 22161. FIPS PUBS include voluntary standards when these are adopted for Federal use. Individual orders for FIPS PUBS should be referred to the NTIS Sales Office, and orders for subscription service should be referred to the NTIS Subscription Officer, both at the above address, or telephone number (703) 487-4650.

13.2 FEDERAL TELECOMMUNICATION STANDARDS (FED-STDs):
Telecommunication products under this Schedule that do not conform to Federal Telecommunication Standards (FED-STDs) should not be acquired unless a waiver has been granted in accordance with the applicable "FED-STD." Federal Telecommunication Standards are issued by the U.S. Department of Commerce, National Institute of Standards and Technology (NIST), pursuant to National Security Act. Ordering information and information concerning the availability of FED-STDs should be obtained from the GSA, Federal Acquisition Service, Specification Section, 470 East L’Enfant Plaza, Suite 8100, SW, Washington, DC 20407, telephone number (202)619-8925. Please include a self-addressed mailing label when requesting information by mail. Information concerning their applicability can be obtained by writing or calling the U.S. Department of Commerce, National Institute of Standards and Technology, Gaithersburg, MD 20899, telephone number (301)975-2833.

14. CONTRACTOR TASKS / SPECIAL REQUIREMENTS (C-FSS-370) (NOV 2003)

(a) Security Clearances: The Contractor may be required to obtain/possess varying levels of security clearances in the performance of orders issued under this contract. All costs associated with obtaining/possessing such security clearances should be factored into the price offered under the Multiple Award Schedule.

(b) Travel: The Contractor may be required to travel in performance of orders issued under this contract. Allowable travel and per diem charges are governed by Pub. L. 99-234 and FAR Part 31, and are reimbursable by the ordering agency or can be priced as a fixed price item on orders placed under the Multiple Award Schedule. Travel in performance of a task order will only be reimbursable to the extent
authorized by the ordering agency. The Industrial Funding Fee does NOT apply to travel and per diem charges.

(c) Certifications, Licenses and Accreditations: As a commercial practice, the Contractor may be required to obtain/possess any variety of certifications, licenses and accreditations for specific FSC/service code classifications offered. All costs associated with obtaining/possessing such certifications, licenses and accreditations should be factored into the price offered under the Multiple Award Schedule program.

(d) Insurance: As a commercial practice, the Contractor may be required to obtain/possess insurance coverage for specific FSC/service code classifications offered. All costs associated with obtaining/possessing such insurance should be factored into the price offered under the Multiple Award Schedule program.

(e) Personnel: The Contractor may be required to provide key personnel, resumes or skill category descriptions in the performance of orders issued under this contract. Ordering activities may require agency approval of additions or replacements to key personnel.

(f) Organizational Conflicts of Interest: Where there may be an organizational conflict of interest as determined by the ordering agency, the Contractor’s participation in such order may be restricted in accordance with FAR Part 9.5.

(g) Documentation/Standards: The Contractor may be requested to provide products or services in accordance with rules, regulations, OMB orders, standards and documentation as specified by the agency’s order.

(h) Data/Deliverable Requirements: Any required data/deliverables at the ordering level will be as specified or negotiated in the agency’s order.

(i) Government-Furnished Property: As specified by the agency’s order, the Government may provide property, equipment, materials or resources as necessary.

(j) Availability of Funds: Many Government agencies’ operating funds are appropriated for a specific fiscal year. Funds may not be presently available for any orders placed under the contract or any option year. The Government’s obligation on orders placed under this contract is contingent upon the availability of appropriated funds from which payment for ordering purposes can be made. No legal liability on the part of the Government for any payment may arise until funds are available to the ordering Contracting Officer.

(k) Overtime: For professional services, the labor rates in the Schedule should not vary by virtue of the Contractor having worked overtime. For services applicable to the Service Contract Act (as identified in the Schedule), the labor rates in the Schedule will vary as governed by labor laws (usually assessed a time and a half of the labor rate).

15. CONTRACT ADMINISTRATION FOR ORDERING ACTIVITIES: Any ordering activity, with respect to any one or more delivery orders placed by it under this contract, may exercise the same rights of termination as might the GSA Contracting Officer under provisions of FAR 52.212-4, paragraphs (l) Termination for the ordering activity’s convenience, and (m) Termination for Cause (See 52.212-4)

16. GSA ADVANTAGE!

GSA Advantage! is an on-line, interactive electronic information and ordering system that provides on-line access to vendors’ schedule prices with ordering information. GSA Advantage! will allow the user to perform various searches across all contracts including, but not limited to:
(1) Manufacturer;
(2) Manufacturer’s Part Number; and
(3) Product categories.

Agencies can browse GSA Advantage! by accessing the Internet World Wide Web utilizing a browser (ex.: NetScape). The Internet address is http://www.gsaadvantage.gov

17. PURCHASE OF OPEN MARKET ITEMS

NOTE: Open Market Items are also known as incidental items, noncontract items, non-Schedule items, and items not on a Federal Supply Schedule contract. ODCs (Other Direct Costs) are not part of this contract and should be treated as open market purchases. Ordering Activities procuring open market items must follow FAR 8.402(f).

For administrative convenience, an ordering activity contracting officer may add items not on the Federal Supply Multiple Award Schedule (MAS) -- referred to as open market items -- to a Federal Supply Schedule blanket purchase agreement (BPA) or an individual task or delivery order, only if-

(1) All applicable acquisition regulations pertaining to the purchase of the items not on the Federal Supply Schedule have been followed (e.g., publicizing (Part 5), competition requirements (Part 6), acquisition of commercial items (Part 12), contracting methods (Parts 13, 14, and 15), and small business programs (Part 19));
(2) The ordering activity contracting officer has determined the price for the items not on the Federal Supply Schedule is fair and reasonable;
(3) The items are clearly labeled on the order as items not on the Federal Supply Schedule; and
(4) All clauses applicable to items not on the Federal Supply Schedule are included in the order.

18. CONTRACTOR COMMITMENTS, WARRANTIES AND REPRESENTATIONS

a. For the purpose of this contract, commitments, warranties and representations include, in addition to those agreed to for the entire schedule contract:

(1) Time of delivery/installation quotations for individual orders;
(2) Technical representations and/or warranties of products concerning performance, total system performance and/or configuration, physical, design and/or functional characteristics and capabilities of a product/equipment/service/software package submitted in response to requirements which result in orders under this schedule contract.
(3) Any representations and/or warranties concerning the products made in any literature, description, drawings and/or specifications furnished by the Contractor.

b. The above is not intended to encompass items not currently covered by the GSA Schedule contract.

19. OVERSEAS ACTIVITIES

The terms and conditions of this contract shall apply to all orders for installation, maintenance and repair of equipment in areas listed in the pricelist outside the 48 contiguous states and the District of Columbia, except as indicated below:
Upon request of the Contractor, the ordering activity may provide the Contractor with logistics support, as available, in accordance with all applicable ordering activity regulations. Such ordering activity support will be provided on a reimbursable basis, and will only be provided to the Contractor's technical personnel whose services are exclusively required for the fulfillment of the terms and conditions of this contract.

20. BLANKET PURCHASE AGREEMENTS (BPAs)

The use of BPAs under any schedule contract to fill repetitive needs for supplies or services is allowable. BPAs may be established with one or more schedule contractors. The number of BPAs to be established is within the discretion of the ordering activity establishing the BPA and should be based on a strategy that is expected to maximize the effectiveness of the BPA(s). Ordering activities shall follow FAR 8.405-3 when creating and implementing BPA(s).

21. CONTRACTOR TEAM ARRANGEMENTS

Contractors participating in contractor team arrangements must abide by all terms and conditions of their respective contracts. This includes compliance with Clauses 552.238-74, Industrial Funding Fee and Sales Reporting, i.e., each contractor (team member) must report sales and remit the IFF for all products and services provided under its individual contract.

22. INSTALLATION, DEINSTALLATION, REINSTALLATION

The Davis-Bacon Act (40 U.S.C. 276a-276a-7) provides that contracts in excess of $2,000 to which the United States or the District of Columbia is a party for construction, alteration, or repair (including painting and decorating) of public buildings or public works with the United States, shall contain a clause that no laborer or mechanic employed directly upon the site of the work shall received less than the prevailing wage rates as determined by the Secretary of Labor. The requirements of the Davis-Bacon Act do not apply if the construction work is incidental to the furnishing of supplies, equipment, or services. For example, the requirements do not apply to simple installation or alteration of a public building or public work that is incidental to furnishing supplies or equipment under a supply contract. However, if the construction, alteration or repair is segregable and exceeds $2,000, then the requirements of the Davis-Bacon Act applies.

The ordering activity issuing the task order against this contract will be responsible for proper administration and enforcement of the Federal labor standards covered by the Davis-Bacon Act. The proper Davis-Bacon wage determination will be issued by the ordering activity at the time a request for quotations is made for applicable construction classified installation, deinstallation, and reinstallation services under SIN 132-8 or 132-9.

23. SECTION 508 COMPLIANCE

If applicable, Section 508 compliance information on the supplies and services in this contract are available in Electronic and Information Technology (EIT) at the following:

http://www.itdatasolutions.com

The EIT standard can be found at: www.Section508.gov/.
24. **PRIME CONTRACTOR ORDERING FROM FEDERAL SUPPLY SCHEDULES**

Prime Contractors (on cost reimbursement contracts) placing orders under Federal Supply Schedules, on behalf of an ordering activity, shall follow the terms of the applicable schedule and authorization and include with each order –

(a) A copy of the authorization from the ordering activity with whom the contractor has the prime contract (unless a copy was previously furnished to the Federal Supply Schedule contractor); and

(b) The following statement:

This order is placed under written authorization from ______ dated ________. In the event of any inconsistency between the terms and conditions of this order and those of your Federal Supply Schedule contract, the latter will govern.

25. **INSURANCE—WORK ON A GOVERNMENT INSTALLATION (JAN 1997)(FAR 52.228-5)**

(a) The Contractor shall, at its own expense, provide and maintain during the entire performance of this contract, at least the kinds and minimum amounts of insurance required in the Schedule or elsewhere in the contract.

(b) Before commencing work under this contract, the Contractor shall notify the Contracting Officer in writing that the required insurance has been obtained. The policies evidencing required insurance shall contain an endorsement to the effect that any cancellation or any material change adversely affecting the Government's interest shall not be effective—

   (1) For such period as the laws of the State in which this contract is to be performed prescribe; or

   (2) Until 30 days after the insurer or the Contractor gives written notice to the Contracting Officer, whichever period is longer.

(c) The Contractor shall insert the substance of this clause, including this paragraph (c), in subcontracts under this contract that require work on a Government installation and shall require subcontractors to provide and maintain the insurance required in the Schedule or elsewhere in the contract. The Contractor shall maintain a copy of all subcontractors’ proofs of required insurance, and shall make copies available to the Contracting Officer upon request.

26. **SOFTWARE INTEROPERABILITY**

Offerors are encouraged to identify within their software items any component interfaces that support open standard interoperability. An item’s interface may be identified as interoperable on the basis of participation in a Government agency-sponsored program or in an independent organization program. Interfaces may be identified by reference to an interface registered in the component registry located at http://www.core.gov.

27. **ADVANCE PAYMENTS**

A payment under this contract to provide a service or deliver an article for the United States Government may not be more than the value of the service already provided or the article already delivered. Advance or pre-payment is not authorized or allowed under this contract. (31 U.S.C. 3324)
**NOTE: All non-professional labor categories must be incidental to, and used solely to support professional services, and cannot be purchased separately.**

1. **SCOPE**
   a. The prices, terms and conditions stated under Special Item Number 54151S Information Technology Professional Services apply exclusively to IT/IAM Professional Services within the scope of this Information Technology Schedule.
   b. The Contractor shall provide services at the Contractor’s facility and/or at the ordering activity location, as agreed to by the Contractor and the ordering activity.

   a. Performance incentives may be agreed upon between the Contractor and the ordering activity on individual fixed price orders or Blanket Purchase Agreements under this contract.
   b. The ordering activity must establish a maximum performance incentive price for these services and/or total solutions on individual orders or Blanket Purchase Agreements.
   c. Incentives should be designed to relate results achieved by the contractor to specified targets. To the maximum extent practicable, ordering activities shall consider establishing incentives where performance is critical to the ordering activity’s mission and incentives are likely to motivate the contractor. Incentives shall be based on objectively measurable tasks.

3. **ORDER**
   a. Agencies may use written orders, EDI orders, blanket purchase agreements, individual purchase orders, or task orders for ordering services under this contract. Blanket Purchase Agreements shall not extend beyond the end of the contract period; all services and delivery shall be made and the contract terms and conditions shall continue in effect until the completion of the order. Orders for tasks which extend beyond the fiscal year for which funds are available shall include FAR 52.232-19 (Deviation – May 2003) Availability of Funds for the Next Fiscal Year. The purchase order shall specify the availability of funds and the period for which funds are available.
   b. All task orders are subject to the terms and conditions of the contract. In the event of conflict between a task order and the contract, the contract will take precedence.

4. **PERFORMANCE OF SERVICES**
   a. The Contractor shall commence performance of services on the date agreed to by the Contractor and the ordering activity.
   b. The Contractor agrees to render services only during normal working hours, unless otherwise agreed to by the Contractor and the ordering activity.
c. The ordering activity should include the criteria for satisfactory completion for each task in the Statement of Work or Delivery Order. Services shall be completed in a good and workmanlike manner.

d. Any Contractor travel required in the performance of IT/IAM Services must comply with the Federal Travel Regulation or Joint Travel Regulations, as applicable, in effect on the date(s) the travel is performed. Established Federal Government per diem rates will apply to all Contractor travel. Contractors cannot use GSA city pair contracts.

5. STOP-WORK ORDER (FAR 52.242-15) (AUG 1989)

(a) The Contracting Officer may, at any time, by written order to the Contractor, require the Contractor to stop all, or any part, of the work called for by this contract for a period of 90 days after the order is delivered to the Contractor, and for any further period to which the parties may agree. The order shall be specifically identified as a stop-work order issued under this clause. Upon receipt of the order, the Contractor shall immediately comply with its terms and take all reasonable steps to minimize the incurrence of costs allocable to the work covered by the order during the period of work stoppage. Within a period of 90 days after a stop-work is delivered to the Contractor, or within any extension of that period to which the parties shall have agreed, the Contracting Officer shall either-

(1) Cancel the stop-work order; or

(2) Terminate the work covered by the order as provided in the Default, or the Termination for Convenience of the Government, clause of this contract.

(b) If a stop-work order issued under this clause is canceled or the period of the order or any extension thereof expires, the Contractor shall resume work. The Contracting Officer shall make an equitable adjustment in the delivery schedule or contract price, or both, and the contract shall be modified, in writing, accordingly, if-

(1) The stop-work order results in an increase in the time required for, or in the Contractor's cost properly allocable to, the performance of any part of this contract; and

(2) The Contractor asserts its right to the adjustment within 30 days after the end of the period of work stoppage; provided, that, if the Contracting Officer decides the facts justify the action, the Contracting Officer may receive and act upon the claim submitted at any time before final payment under this contract.

(c) If a stop-work order is not canceled and the work covered by the order is terminated for the convenience of the Government, the Contracting Officer shall allow reasonable costs resulting from the stop-work order in arriving at the termination settlement.

(d) If a stop-work order is not canceled and the work covered by the order is terminated for default, the Contracting Officer shall allow, by equitable adjustment or otherwise, reasonable costs resulting from the stop-work order.

6. INSPECTION OF SERVICES

7. RESPONSIBILITIES OF THE CONTRACTOR

The Contractor shall comply with all laws, ordinances, and regulations (Federal, State, City, or otherwise) covering work of this character. If the end product of a task order is software, then FAR 52.227-14 (Dec 2007) Rights in Data – General, may apply.

8. RESPONSIBILITIES OF THE ORDERING ACTIVITY

Subject to security regulations, the ordering activity shall permit Contractor access to all facilities necessary to perform the requisite IT/IAM Professional Services.

9. INDEPENDENT CONTRACTOR

All IT/IAM Professional Services performed by the Contractor under the terms of this contract shall be as an independent Contractor, and not as an agent or employee of the ordering activity.

10. ORGANIZATIONAL CONFLICTS OF INTEREST

a. Definitions.

“Contractor” means the person, firm, unincorporated association, joint venture, partnership, or corporation that is a party to this contract.

“Contractor and its affiliates” and “Contractor or its affiliates” refers to the Contractor, its chief executives, directors, officers, subsidiaries, affiliates, subcontractors at any tier, and consultants and any joint venture involving the Contractor, any entity into or with which the Contractor subsequently merges or affiliates, or any other successor or assignee of the Contractor.

An “Organizational conflict of interest” exists when the nature of the work to be performed under a proposed ordering activity contract, without some restriction on ordering activities by the Contractor and its affiliates, may either (i) result in an unfair competitive advantage to the Contractor or its affiliates or (ii) impair the Contractor’s or its affiliates’ objectivity in performing contract work.

b. To avoid an organizational or financial conflict of interest and to avoid prejudicing the best interests of the ordering activity, ordering activities may place restrictions on the Contractors, its affiliates, chief executives, directors, subsidiaries and subcontractors at any tier when placing orders against schedule contracts. Such restrictions shall be consistent with FAR 9.505 and shall be designed to avoid, neutralize, or mitigate organizational conflicts of interest that might otherwise exist in situations related to individual orders placed against the schedule contract. Examples of situations, which may require restrictions, are provided at FAR 9.508.

11. INVOICES

The Contractor, upon completion of the work ordered, shall submit invoices for IT/IAM Professional Services. Progress payments may be authorized by the ordering activity on individual orders if appropriate. Progress payments shall be based upon completion of defined milestones or interim products. Invoices shall be submitted monthly for recurring services performed during the preceding month.
12. PAYMENTS

For firm-fixed price orders the ordering activity shall pay the Contractor, upon submission of proper invoices or vouchers, the prices stipulated in this contract for service rendered and accepted. Progress payments shall be made only when authorized by the order. For time-and-materials orders, the Payments under Time-and-Materials and Labor-Hour Contracts at FAR 52.212-4 (MAR 2009) (DEVIATION I – OCT 2008) (DEVIATION I – FEB 2007) applies to time-and-materials orders placed under this contract. For labor-hour orders, the Payment under Time-and-Materials and Labor-Hour Contracts at FAR 52.212-4 (MAR 2009) (ALTERNATE I – OCT 2008) (DEVIATION I – FEB 2007) applies to labor-hour orders placed under this contract. 52.216-31(Feb 2007) Time-and-Materials/Labor-Hour Proposal Requirements—Commercial Item Acquisition As prescribed in 16.601(e)(3), insert the following provision:

(a) The Government contemplates award of a Time-and-Materials or Labor-Hour type of contract resulting from this solicitation.
(b) The offeror must specify fixed hourly rates in its offer that include wages, overhead, general and administrative expenses, and profit. The offeror must specify whether the fixed hourly rate for each labor category applies to labor performed by—
   (1) The offeror;
   (2) Subcontractors; and/or
   (3) Divisions, subsidiaries, or affiliates of the offeror under a common control.

13. RESUMES

Resumes shall be provided to the GSA Contracting Officer or the user ordering activity upon request.

14. INCIDENTAL SUPPORT COSTS

Incidental support costs are available outside the scope of this contract. The costs will be negotiated separately with the ordering activity in accordance with the guidelines set forth in the FAR.

15. APPROVAL OF SUBCONTRACTS

The ordering activity may require that the Contractor receive, from the ordering activity's Contracting Officer, written consent before placing any subcontract for furnishing any of the work called for in a task order.

16. DESCRIPTION OF IT/IAM PROFESSIONAL SERVICES AND PRICING

a. The Contractor shall provide a description of each type of IT/IAM Service offered under Special Item Numbers 54151S IT/IAM Professional Services should be presented in the same manner as the Contractor sells to its commercial and other ordering activity customers. If the Contractor is proposing hourly rates, a description of all corresponding commercial job titles (labor categories) for those individuals who will perform the service should be provided.

b. Pricing for all IT/IAM Professional Services shall be in accordance with the Contractor’s customary commercial practices; e.g., hourly rates, monthly rates, term rates, and/or fixed prices, minimum general experience and minimum education.

Please refer to the labor category descriptions and pricing information provided below:
LABOR CATEGORIES AND DESCRIPTIONS

Experience/Education Substitutions: An equivalence chart of experience and education substitutions, applicable to all categories, is provided at the end of this list.

IT Data Solutions

LABOR CATEGORY DESCRIPTIONS

Commercial Job Title: Solution Architect

Minimum/General Experience: Twelve (12) years of technical experience in software development and database applications. Responsible for providing senior level expertise on decisions and priorities regarding the enterprise’s overall systems architecture. Facilitates the establishment and implementation of standards and guidelines that guide the design of technology solutions including architecting and implementing solutions requiring integration of multiple platforms, operating systems and applications across the enterprise. Reviews, advises and designs standard software and hardware builds, system options, risks, costs vs. benefits and impact on the enterprise business process and goals.

Develops and documents the framework for integration and implementation for changes to technical standards. Assists in the development of and manages an architecture governance process. Provides technical guidance to project team areas as appropriate. Tracks industry trends and maintains knowledge of new technologies to better serve the enterprise’s architecture needs. Ability to communicate effectively with both end users and IT staff, as well as, business management. Strong analytical skills and aptitude for learning new data systems.

Functional Responsibility: Develop frameworks, tools, methods, and solutions to advance and support practice area growth. Translate client needs into specific technical requirements that are agreed upon conceptually. Apply functional knowledge to the design, customization, and configuration of application and systems considering system capacity and limitations. Analyze business and user needs. Develop the tools, methods and requirements to accurately assess risk, value, and architectural direction of opportunities within area of expertise. Create technical and services solutions that are market competitive as well as targeting specific client needs. Perform business analysis of systems and follow through the full development life cycle, including writing functional requirements and developing test plans. Modify, maintain, and update complex configuration and program routines. Troubleshoot basic problems and recommend appropriate actions. Educate others in the workflow, business processes, and reporting metrics enabled by modules.

Minimum Education: Bachelor’s Degree in Computer Science, Engineering or related field.

Commercial Job Title: Integration Architect

Minimum/General Experience: Twelve (12) years of data integration and IT project management experience. Solid experience in architecture, design, and in writing specifications. Hands on experience with testing tools. Strong understanding of EAI design patterns and best practices. Knowledge of data management, including data capture, warehousing, segmentation, mining, storing, cleaning and security.
**Functional Responsibility:** Responsible for the data integration and serves as the subject matter expert (SME) for all aspects of cross-application integration activities. Responsible for monitoring the performance and stability of the integration platform and make technical recommendations on improvements. Synchronize prod and non-prod environments to ensure testing is valid. Design, implement, and maintain standardized APIs fronting multiple application technologies. Oversee the promotion of new integration process from staging to production. Design and enforce standards on cross application data flows and processes. Provide technical support to internal customers and peers.

**Minimum Education:** Bachelor’s Degree in Computer Science, Engineering or related field.

**Commercial Job Title:** PeopleSoft Architect

**Minimum/General Experience:** Ten (10) years of experience with PeopleSoft applications, architecture, and development. Experience with PeopleSoft 8.9 or higher applications. Proficient in use of SQL with relational databases. Demonstrated PeopleSoft ERP functional/technical implementation expertise in a large, complex environment. Demonstrated systems integration expertise leveraging and integrating multiple applications.

**Functional Responsibility:** Improve business processes and efficiency by developing ERP strategies; engineering, re-engineering, and implementing business, operations, and PeopleSoft systems; validating system performance. Develop ERP strategy by identifying key business and operations drivers. Deploy ERP architecture by recommending hardware and software solutions. Validate ERP system performance by defining metrics to measure business and operations systems success; developing and conducting tests of system integration, functional layers, and entire system; fixing problems.

**Minimum Education:** Bachelor’s Degree in Computer Science, Engineering or related field.

**Commercial Job Title:** MicroStrategy Architect

**Minimum/General Experience:** Ten (10) years of experience with increasing responsibilities, implementing medium and large-scale projects, product integration and/or development systems, business intelligence solutions and data modeling. Strong MicroStrategy experience in semantic layer architecting, development, documentation and dashboard design and development, visualization development, and system administration. Excellent analytical skills. Proficiency with requirement gathering, dimensional modeling, and ETL design.

**Functional Responsibility:** Responsible for analyzing and articulating complex system requirements and the subsequent development of reporting, analytical, and dashboard solutions for the Business intelligence (BI) platform spanning business domains. Contribute to project management activities, such as scoping, estimating, and planning, to ensure critical milestones are met with high quality deliverables. Design, develop, test, validate, performance tune and provide quality assurance activities for the individual business intelligence projects. Manage interactions with business unit partners across the organization related to the business intelligence initiatives, including business needs assessment, prioritization of activities, and change management.

**Minimum Education:** Bachelor’s Degree in Computer Science, Engineering or related field.
Commercial Job Title: Data Architect

Minimum/General Experience: Twelve (12) years of technical experience in software development and database applications with expertise in data strategy, souring, modeling, integration, and architecture. Advanced knowledge of SQL, database performance, RDBMS, and Query tools. Strong technical and business acumen to work with different levels of customer team.

Functional Responsibility: Design data warehouses, data marts, and data models in both dimensional and relational models (3NF). Create conceptual, logical, and physical data models per client requirements. Perform data analysis, data profiling, data integration, data quality, and data governance. Provide architectural solutions covering data structures, sourcing, integration, security, and retention. Define governance and best practices around meta-data to ensure an integrated definition of data for enterprise information, and to ensure the accuracy, validity, reusability, and consistent definitions for common reference data. Develop standards, process flows, and tools that promote and facilitate the mapping of data sources, documenting interfaces, and data movement across the enterprise. Provide framework, stewardship, governance, and decision making for the management of enterprise data for project development teams, business users, and other stakeholders. Balance short-term versus long-term actions, strategic versus tactical requirements, while continuing to move forward towards the strategic vision; participate in the road map to achieve the vision.

Minimum Education: Bachelor’s Degree in Computer Science, Engineering or related field.

Commercial Job Title: Data Modeler

Minimum/General Experience: Eight (8) years of experience in Data Modeling (Dimensional and other techniques using modeling tools) role, including transactional systems, data warehouses and data marts. Ability to develop and maintain data mapping ETL needs and data lineage. Ability to communicate effectively with peers, management, business groups, contractors, consultants and vendors.

Functional Responsibility: Work with the business stakeholders to understand the requirements and conceptual design, logical, and physical data models. Conduct data risk assessments, data mappings, and build a data governance model. Develop relational databases and strategies for data warehouse implementations using industry best practices. Provide direction and definition of data modeling strategy and delivery. Develop technical standards and specifications for database models, data security, and data warehouse performance.

Minimum Education: Bachelor’s Degree in Computer Science, Engineering or related field.

Commercial Job Title: Sr. ETL Developer

Functional Responsibility: Design ETL application architecture based on documented requirements. Develop and deploy ETL job workflow with reliable error/exception handling. Code to Best Practices and Development Standards. Unit test to ensure logic is programmed as requested. Troubleshoot and debug issues, and tune poor performing queries and code. Perform data analysis, data profiling, data integration, and data quality. Coordinate and collaborate with IT team, application, and support teams.

Minimum Education: Bachelor’s Degree in Computer Science, Engineering or related field.
Commercial Job Title: Project Manager

**Minimum/General Experience:** Combination of ten (10) years information technology experience, including three (3) years of experience in a management or supervisory capacity, plus three (3) years of experience in the functional area of the project to be managed.

**Functional Responsibility:** Managing and completing complex projects. Project Managers are responsible for managing all project staff and budget. They insure that the staff completes all their assigned tasks on time and correctly. The Project Manager is also responsible for maintaining appropriate communications with customer personnel and insuring that customer is completely satisfied with all aspects of the project. The Project Manager also manages the test and acceptance process through final customer acceptance. The entry level Project Manager is responsible for managing smaller projects with fewer personnel and less risk.

**Minimum Education:** Bachelor’s Degree in Computer Science, Engineering or related field.

Commercial Job Title: Quality Assurance Analyst

**Minimum/General Experience:** Eight (8) years of software QA experience including automated testing, preparation of testing plans, and writing scripts. Basic understanding of programming and experience writing test scripts. Strong working knowledge of relational databases and SQL. Expertise with relational databases with the ability to write SQL queries. Strong analytical skills and attention to detail.

**Functional Responsibility:** Responsible for developing and executing formal test plans to ensure the delivery of quality software applications. Involved in test planning, writing test cases/scripts, test case automation and test execution. Defines and tracks quality assurance metrics such as defects, defect counts, test results and test status. Collects and analyzes data for software process evaluation and improvements, and integrates them into business processes to address the business needs. Documents all problems and assists in their resolution. Delivers quality process training to technical staff and acts as an internal quality consultant to advise or influence business or technical partners. Performs quality audits across the various IT functions to ensure quality standards, procedures and methodologies are being followed.

**Minimum Education:** Bachelor’s Degree in Computer Science, Engineering or related field.

Commercial Job Title: Database Administrator (DBA)

**Minimum/General Experience:** Ten (10) years of hands on experience coding SQL. Strong database design, development experience, and data modeling experience. Ability to design, code, debug, and maintain database schemas conducive to toolset. Strong understanding of data quality, data lifecycle, metadata management, and security. Able to team up with software engineers and produce maintainable data interface layers within applications.

**Functional Responsibility:** Break down complex projects and problems into actionable tasks that can be delivered quickly and provide value to the business stakeholders. Actively interface with other teams to gather requirements, design, code, debug, document, implement and maintain various applications. Define system level architecture and conduct dimension modeling and data mart design. Define data security, integrity, and access control protocols. Troubleshoot and optimize SQL stored procedures for RDS based solutions. Support data transfers using AWS toolsets (ETL). Build operational reporting using Tableau. Own KPIs to measure performance of data ecosystem and provide visibility to senior management.

**Minimum Education:** Bachelor’s Degree in Computer Science, Engineering or related field.
**Commercial Job Title: Network Engineer**

**Minimum/General Experience:** Eight (8) years of hands on experience with complex network and platforms. Installs and maintains moderately complex networks that typically link numerous computing platforms, operating systems, and network topologies across widely dispersed geographic areas.

**Functional Responsibility:** Deploys the release of new technologies as well as designs, installs, configures, maintains and performs system integration testing of PC/server operating systems, related utilities, and hardware. Responsible for trouble shooting server problems as reported by users. Researches, evaluates and recommends software and hardware products. Supports Web access and electronic messaging services and maintains a secure systems environment. Provides new hardware specifications to users based on application needs and anticipated growth, installs new servers, and maintains the server infrastructure.

**Minimum Education:** Bachelor’s Degree in Computer Science, Engineering or related field.

**Commercial Job Title: Sr. Augmented Reality (A/R) Content Developer**

**Minimum/General Experience:** Sixteen (16) years of technical experience working with multiple computer platforms, networking equipment, automated robotic systems, animatronics and access control systems. Evolved in the establishment and implementation of standards and guidelines that guide the design of technology solutions including architecting and implementing solutions requiring integration of multiple platforms, operating systems and applications across the enterprise. Eleven (11) years of working with Adobe After Effects, Premiere Pro, Cineam4D, and/or Unity. Working with companies and end users to develop highly accurate work instructions and videos for use in training and in the field repairs and maintenance.

**Functional Responsibility:** Working in a small to large project-oriented team to create custom AR experiences for product training. Implementing user interfaces based on CAD drawings, mockups, and storyboards. Crafting intuitive user interactions for both novice and experienced users. Work with others in support of new modes of creative expression and representation, by exploring emerging tools, and technologies. Diagnosing, documenting, and fixing bugs reported by testers and users. Develop and manage workflows and technologies in support of immersive and mixed reality curricular and co-curricular activities in a team-based environment. Responsibilities include solving problems, creating test cases for problems, editing and improving existing content. Reviewing team member’s contributions, thinking through and creating visualizations. Develop, test, and integrate Augmented Reality solutions.

**Minimum Education:** Bachelor’s Degree in Computer Science, Engineering or related field.

**Commercial Job Title: Hadoop Architect**

**Minimum/General Experience:** Twelve (12) years of hands on experience in information technology. Five (5) years of experience with Hadoop ecosystem. Expertise with HBase, Cloudera, NOSQL, HDFS, Java, MapReduce, Spark, HIVE, Kafka, indexing, data transformation, back-end programming, java, JS, Node.js and OOAD. Hands-on experience in architecting solutions at scale in Big Data.

**Functional Responsibility:** Responsible for Cloudera Hadoop development, high-speed querying, managing and deploying Flume, Kafka, HIVE and Spark, and oversee handover to operational teams and propose best practices/industry standards. Expertise with designing, building, installing, configuring, and developing Hadoop echo system. Work with development teams within the data and analytics team to design, develop, and execute solutions to derive business insights and solve clients’ operational
and strategic problems. Support the development of data and analytics solutions and product that improve existing processes and decision making.

**Minimum Education:** Bachelor’s Degree in Computer Science, Engineering or related field.

**Commercial Job Title:** RPA Automation Architect

**Minimum/General Experience:** Twelve (12) years of hands on experience in information technology. Three (3) years of Robotic Process Automation (RPA) consulting experience. Thought leadership and technical architecture expertise specific to best practices for RPA design standards. Experience in end-to-end development of business processes using UiPath/Blue Prism/Automation Anywhere with ability to develop on Windows, mainframe, web-based browsers, etc. Experience implementing automation process solutions in accordance with standard automation tool design principles. Previous work designing process workflows; building, testing, and implementing RPA solutions, ensuring quality.

**Functional Responsibility:** Responsible for supporting the strategy, design, development, and deployment of robotic and cognitive automation solutions such as RPA and chatbots. Develop RPA technology-enabled solutions that address the needs of large global organizations, including how to implement technology solutions to help streamline organizational needs. Utilize client-facing skills and develop solid partnerships with the team and client alike, as well as collaborate with others to exceed client expectations. Build smart process automation through robotics, application architecture, rationalization and enablement, solution design at platform and architectural levels, software development, testing, deployment, and post-production support.

**Minimum Education:** Bachelor’s Degree in Computer Science, Engineering or related field.

**Commercial Job Title:** Systems Security Architect

**Minimum/General Experience:** Ten (10) years of hands on experience of cybersecurity or cyber risk management experience complex network and platforms. Architecting and designing security for infrastructure, network, and application architectures. Strong knowledge of information security best practices, standards, and frameworks, such as ISO/IEC 27000, NIST 800-53, and PCI DSS.

**Functional Responsibility:** Responsible for Cybersecurity oversight. Primary duties will include complete ownership of cybersecurity, cybersecurity risk assessments, cybersecurity complaint handling, and monitor and manage cybersecurity risk profile of network systems. Identify and implement process improvements in the architecture and/or infrastructure of existing systems in the area of cybersecurity. Work directly with teams to ensure all relevant security risks are identified, evaluated, and appropriate and well-balanced solutions are implemented. Review, analyze, and report on emerging technologies and their effect on the cybersecurity posture. Coordinate with the division teams to assess security & services by conducting technical testing to identify and address security vulnerabilities. Experience in Penetration Testing, Intrusion Detection Systems (IDS), Security Audits and Assessments, Threat Remediation and Prevention, and Network Analysis. Stay abreast of changes in the business and product environment as well as the evolving regulatory and threat landscape.

**Minimum Education:** Bachelor’s Degree in Computer Science, Engineering or related field.

**Commercial Job Title:** Agile Coach/Scrum Master

**Minimum/General Experience:** Ten (10) years of hands on experience as an Agile Coach and/or Scrum Master. Experience leading training sessions and/or workshops. Experience working with senior executives and proven ability to effectively communicate and influence senior executives in decisions
critical to adoption and implementation of Agile practice. PMI-ACP (Agile Certified Professional) or Certified Scrum Master (CSM) or similar certification. Scaled Agile Framework (SAFe) certification.

**Functional Responsibility:** Supports development and monitoring of Agile adoption/maturity metrics to aid in accelerating overall Agile transformation efforts. Collaborates on the creation and evolution of the Agile transformation roadmap and owns driving activities across the organization. Helps define and ensure consistent agile standards and best practices. Develops training materials and deliver across the organization. Gauge the maturity progress of new and existing teams. Provides individual coaching to delivery team members, managers, executives, and other employees throughout the company. Organizes, facilitates communities of practice to help foster lean and agile thinking. Mentors Agile delivery teams, their coaches, stakeholders, and leaders to help them adopt the mindset and practices needed to transform the organization. Develops and monitors metrics to track progress of Agile adoption and maturity to aid in accelerating overall Agile transformation efforts.

**Minimum Education:** Bachelor’s Degree in Computer Science, Engineering or related field.

---

**Commercial Job Title: Business Analyst**

**Minimum/General Experience:** Seven (7) years of hands on experience as a Business Analyst. Experience executing the requirements management process according to software development lifecycles (SDLCs) including DevOps, Agile, Lean, Iterative, or Waterfall. Experience contributing to business process review efforts, including evaluating business processes, anticipating requirements, and uncovering areas for improvement.

**Functional Responsibility:** The Business Analyst actively supports all aspects of the projects from start to finish with a particular emphasis on requirements development and participation project quality activities. The Business Analyst may occasionally serve as the project lead on smaller, well defined projects or provide support to Systems Managers in project initiation activities. Actively support a manageable portfolio of projects from start to finish including. Strong analytical and conceptual thinking skills. Understanding of requirements traceability. Capability to gather critical information from meetings with various stakeholders and produce useful reports. Document the results of business process reviews, develop, and communicate optimization strategies to team members and management. Work closely with business clients, Senior BAs, technical staff, and management. Ensure solutions meet business needs and requirements.

**Minimum Education:** Bachelor’s Degree in Computer Science, Engineering or related field.

---

**Commercial Job Title: Cloud Architect**

**Minimum/General Experience:** Ten (10) years of hands on experience as a Cloud Architect. Experience developing software according to software development lifecycles (SDLCs), including DevOps, Agile, Lean, Iterative, or Waterfall. Experience in designing, deploying, and migrating secure and maintainable systems for Infrastructure as a Service (IaaS), Platform as a Service (PaaS), and Software as a Service (SaaS) environments. Experience in DevOps, CI/CD pipelines, containers, and related best practices for cloud deployment. Experience with service offerings in Amazon Web Services (AWS) and Microsoft Azure. Highly proficient in at least one high-level programming languages such as Python, Ruby, or Go. Experience with government cloud deployments (FedRAMP, FISMA, high security environments).

**Functional Responsibility:** Excellent understanding of and ability to evaluate new technologies for fit in current infrastructure architecture. Excellent understanding of cloud-based architectures, web servers, caching, application servers, load balancers, and storage. In-depth understanding of loose coupling, stateless systems, and best practices for designing cloud-ready applications. Excellent understanding of
cloud federation technologies such as SAML, OAuth, and OpenID Connect and how to apply these technologies to enterprise and public-facing applications. Excellent understanding of cloud information security risks and best practices, especially in highly secure operating environment. Excellent understanding of cloud vendor cost structures and the ability to optimize solutions for cost effectiveness. Experience transitioning legacy systems to cloud-ready architecture. Experience with route tables, access control lists, firewalls, NAT, HTTP, DNS, IP, and OSI Network. Understanding of RESTful Web Services, XML, or JSON.

**Minimum Education:** Bachelor’s Degree in Computer Science, Engineering or related field.

**Commercial Job Title:** Enterprise Architecture Consultant

**Minimum/General Experience:** Ten (10) years’ experience in design and computer network architecture and data communication networks, such as local area networks (LAN), wide area networks (WAN), intranets, extranets, and other data communications networks experience. Technical expertise in current and emerging cloud technologies and has migrated environments to the cloud. Experience leading technical discussions with internal and external customers. Experience with collaborating with stakeholders, business representatives, and subject matter experts to design IT systems in synchronization with the needs of the organization. Experience in creating roadmaps and regulations guiding IT designs and implementation.

**Functional Responsibility:** Perform technical oversight and analysis of approaches, designs, best practices and documentation. Review and comment on appropriate Enterprise Architecture diagrams. Perform network modeling, analysis, and planning. Design and implement computer network architectures and build data communication networks. Providing planning, implementation, monitoring, and continuously improving processes to support the operation of a services management organization using commercial best practices. Overseeing the creation, execution, improvement and sustainment of platform operations, application migration and application modernization. Providing innovative approaches to strategic technical planning and solutions to overcome operational challenges and obstacles. Identify business and system requirements while defining architectural constraints. Assist government leadership by providing technical and architecture subject matter expertise include communicating recommendations based on architectural analysis. Coordinates and monitors the activities of all stakeholders to ensure compliance with the overarching plan of assigned initiatives. Designs efficient and sustainable programs that are able to meet the present and future needs of the business. Collaborates with solution architects to provide enterprise solutions that align with the needs of all affected stakeholders. Contributes to the management and security of IT assets of the organization.

**Minimum Education:** Bachelor’s Degree in Computer Science, Engineering or related field.

**Commercial Job Title:** Information System Specialist

**Minimum/General Experience:** Seven (7) years of experience in providing helpdesk/desktop support in Microsoft windows environment. Experience in troubleshooting (i.e., resolving problems with software, hardware, configurations, etc.). Must be customer service oriented and self-motivated. Demonstrated analytical and problem-solving skills. Strong interpersonal and communication skills who can work with people at various levels of the organization. Experiences in using remote support tools to troubleshoot and assist users.

**Functional Responsibility:** The Information Systems Specialist shall support a variety of technologies and software, and provide desktop support to supplement the current team of technicians supporting a large user base. The candidate should demonstrate strong technical knowledge and experience with
Office 365, Active Directory, Desktops/Laptops/Tablets, and iPhones. The candidate will be expected to interface with internal customers and various technical support teams. The demonstrated ability to provide excellent customer service, and follow standard operating procedures and processes is essential.

**Minimum Education:** Bachelor’s Degree in Computer Science, Engineering or related field.

**Commercial Job Title:** PeopleSoft Administrator

**Minimum/General Experience:** Ten (10) years of hands on experience as a PeopleSoft Administrator. Experience with PeopleTools Software Version 8.57 or higher. LABOR CATEGORY SUBSTITUTIONS INFORMATION

IT Data Solutions labor categories provide for substituting experience for minimum education requirements and substituting educational degrees for years of experience.

GENERAL SUBSTITUTIONS

The table below presents the general substitutions based on the education and experience of the labor categories in the Pricelist. Experience should be professional and job related, however it does not have to be specific to the project to be accomplished. However, if a degree is used in place of experience, the degree should be related to the project or task. These substitutions are applicable for all IT Data Solutions labor categories.

In lieu of the required degree or experience, candidates with special qualifications may be considered on a case by case basis by the ordering agency.
PREAMBLE

inSTAFF Solutions, LLC provides commercial services to ordering activities. We are committed to promoting participation of small, small disadvantaged and women-owned small businesses in our contracts. We pledge to provide opportunities to the small business community through reselling opportunities, mentor-protégé programs, joint ventures, teaming arrangements, and subcontracting.

COMMITMENT

To actively seek and partner with small businesses.

To identify, qualify, mentor and develop small, small disadvantaged and women-owned small businesses by purchasing from these businesses whenever practical.

To develop and promote company policy initiatives that demonstrate our support for awarding contracts and subcontracts to small business concerns.

To undertake significant efforts to determine the potential of small, small disadvantaged and women-owned small business to supply products and services to our company.

To insure procurement opportunities are designed to permit the maximum possible participation of small, small disadvantaged, and women-owned small businesses.

To attend business opportunity workshops, minority business enterprise seminars, trade fairs, procurement conferences, etc., to identify and increase small businesses with whom to partner.

To publicize in our marketing publications our interest in meeting small businesses that may be interested in subcontracting opportunities.

We signify our commitment to work in partnership with small, small disadvantaged and women-owned small businesses to promote and increase their participation in ordering activity contracts. To accelerate potential opportunities please contact:

BEST VALUE
BLANKET PURCHASE AGREEMENT
FEDERAL SUPPLY SCHEDULE

(Insert Customer Name)

In the spirit of the Federal Acquisition Streamlining Act (ordering activity) and (Contractor) enter into a cooperative agreement to further reduce the administrative costs of acquiring commercial items from the General Services Administration (GSA) Federal Supply Schedule Contract(s) _________________.

Federal Supply Schedule contract BPAs eliminate contracting and open market costs such as: search for sources; the development of technical documents, solicitations and the evaluation of offers. Teaming Arrangements are permitted with Federal Supply Schedule Contractors in accordance with Federal Acquisition Regulation (FAR) 9.6.

This BPA will further decrease costs, reduce paperwork, and save time by eliminating the need for repetitive, individual purchases from the schedule contract. The end result is to create a purchasing mechanism for the ordering activity that works better and costs less.

Ordering Activity                     Date                                Contractor                      Date
(CUSTOMER NAME)

BLANKET PURCHASE AGREEMENT

Pursuant to GSA Federal Supply Schedule Contract Number(s) ______________, Blanket Purchase Agreements, the Contractor agrees to the following terms of a Blanket Purchase Agreement (BPA) EXCLUSIVELY WITH (ordering activity):

(1) The following contract items can be ordered under this BPA. All orders placed against this BPA are subject to the terms and conditions of the contract, except as noted below:

<table>
<thead>
<tr>
<th>MODEL NUMBER/PART NUMBER</th>
<th>*SPECIAL BPA DISCOUNT/PRICE</th>
</tr>
</thead>
<tbody>
<tr>

(2) Delivery:

<table>
<thead>
<tr>
<th>DESTINATION</th>
<th>DELIVERY SCHEDULES / DATES</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td></td>
</tr>
</tbody>
</table>

(3) The ordering activity estimates, but does not guarantee, that the volume of purchases through this agreement will be ________________________.

(4) This BPA does not obligate any funds.

(5) This BPA expires on ______________ or at the end of the contract period, whichever is earlier.

(6) The following office(s) is hereby authorized to place orders under this BPA:

<table>
<thead>
<tr>
<th>OFFICE</th>
<th>POINT OF CONTACT</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td></td>
</tr>
</tbody>
</table>

(7) Orders will be placed against this BPA via Electronic Data Interchange (EDI), FAX, or paper.

(8) Unless otherwise agreed to, all deliveries under this BPA must be accompanied by delivery tickets or sales slips that must contain the following information as a minimum:

(a) Name of Contractor;
(b) Contract Number;
(c) BPA Number;
(d) Model Number or National Stock Number (NSN);
(e) Purchase Order Number;
(f) Date of Purchase;
(g) Quantity, Unit Price, and Extension of Each Item (unit prices and extensions need not be shown when incompatible with the use of automated systems; provided, that the invoice is itemized to show the information); and
(h) Date of Shipment.

(9) The requirements of a proper invoice are specified in the Federal Supply Schedule contract. Invoices will be submitted to the address specified within the purchase order transmission issued against this BPA.

(10) The terms and conditions included in this BPA apply to all purchases made pursuant to it. In the event of an inconsistency between the provisions of this BPA and the Contractor’s invoice, the provisions of this BPA will take precedence.

*******************************************************************************************
BASIC GUIDELINES FOR USING
“CONTRACTOR TEAM ARRANGEMENTS”

Federal Supply Schedule Contractors may use “Contractor Team Arrangements” (see FAR 9.6) to provide solutions when responding to an ordering activity requirements.

These Team Arrangements can be included under a Blanket Purchase Agreement (BPA). BPAs are permitted under all Federal Supply Schedule contracts.

Orders under a Team Arrangement are subject to terms and conditions or the Federal Supply Schedule Contract.

Participation in a Team Arrangement is limited to Federal Supply Schedule Contractors.

Customers should refer to FAR 9.6 for specific details on Team Arrangements.

Here is a general outline on how it works:

- The customer identifies their requirements.
- Federal Supply Schedule Contractors may individually meet the customers needs, or -
- Federal Supply Schedule Contractors may individually submit a Schedules “Team Solution” to meet the customer’s requirement.
- Customers make a best value selection.
