CONTRACT NUMBER: TBD

Period covered by contract **GS-35F-425DA**
CONTRACT PERIOD: August 15, 2016 through August 14, 2021

Pricelist current through Award date August 15th 2016

Contract Administrator: Sanjeev Hirani
Email: sanjeev.hirani@akima.com

BUSINESS SIZE: 8(a) Small Disadvantaged, Small Business

INFORMATION FOR ORDERING ACTIVITIES

- 1a. Table of awarded special item number(s) with appropriate cross-reference to item descriptions and awarded price(s). **132-51. See Price List and Labor Category Description on Page 7 through 12**
- 1b. Identification of the lowest priced model number and lowest unit price for that model for each special item number awarded in the contract. This price is the Government price based on a unit of one, exclusive of any quantity/dollar volume, prompt payment, or any other concession affecting price. Those contracts that have unit prices based on the geographic location of the customer, should show the range of the lowest price, and cite the areas to which the prices apply. **See Price List on Page 12**
- 1c. If the Contractor is proposing hourly rates, a description of all corresponding commercial job titles, experience, functional responsibility and education for those types of employees or subcontractors who will perform services shall be provided. If hourly rates are not applicable, indicate "Not applicable" for this item. **See Price List on Page 12**
2. Maximum order. **\$500,000**
3. Minimum order. **\$100 or negotiated at the task order level**
4. Geographic coverage (delivery area). **Domestic Delivery within the 50 states, including Alaska, Hawaii, Puerto Rico, Washington, DC, and U.S. Territories.**
5. Point(s) of production (city, county, and State or foreign country). **US**
6. Discount from list prices or statement of net price. **Net GSA Prices including IFF shown on on page 12**
7. Quantity discounts. **None**
8. Prompt payment terms. **0% Net 30 Days**
- 9a. Notification that Government purchase cards **are** accepted at or below the micro-purchase threshold.
- 9b. Notification whether Government purchase cards **are not** accepted above the micro-purchase threshold.
10. Foreign items (list items by country of origin). **N/a**
- 11a. Time of delivery. (Contractor insert number of days.) **30 Days after receipt of order (ARO) unless otherwise negotiated between Ikun and the Ordering Agency.**
- 11b. Expedited Delivery. The Contractor will insert the sentence "Items available for expedited delivery are noted in this price list." under this heading. The Contractor may use a symbol its choosing to highlight items in its price lists that have expedited delivery. **To be negotiated at the task order level.**
- 11c. Overnight and 2-day delivery. The Contractor will indicate whether overnight and 2-day delivery are available. Also, the Contractor will indicate that the schedule customer may contact the Contractor for rates for overnight and 2-day delivery. **To be negotiated at the task order level.**
- 11d. Urgent Requirements. The Contractor will note in its price list the "Urgent Requirements" clause of its contract and advise agencies that they can also contact the Contractor's representative to effect a faster delivery. **To be negotiated at the task order level.**
12. F.O.B. point(s). **Destination**

- 13a. **Ordering address(es).**
13873 PARK CENTER RD STE 400N
Herndon VA 20171
- 13b. **Ordering procedures: For supplies and services, the ordering procedures, information on Blanket Purchase Agreements (BPA's) are found in Federal Acquisition Regulation (FAR) 8.405-3.**
14. **Payment address(es).**
13873 PARK CENTER RD STE 400N
Herndon VA 20171
15. **Warranty provision: N/a**
16. **Export packing charges, if applicable. N/a**
17. **Terms and conditions of Government purchase card acceptance (any thresholds above the micro-purchase level). See 9A and 9B**
18. **Terms and conditions of rental, maintenance, and repair (if applicable). N/a**
19. **Terms and conditions of installation (if applicable). N/a**
20. **Terms and conditions of repair parts indicating date of parts price lists and any discounts from list prices (if applicable). N/a**
- 20a. **Terms and conditions for any other services (if applicable).**
21. **List of service and distribution points (if applicable). N/a**
22. **List of participating dealers (if applicable). N/a**
23. **Preventive maintenance (if applicable). N/a**
- 24a. **Special attributes such as environmental attributes (e.g., recycled content, energy efficiency, and/or reduced pollutants). N/a**
- 24b. **If applicable, indicate that Section 508 compliance information is available on Electronic and Information Technology (EIT) supplies and services and show where full details can be found (e.g. contractor's website or other location.) The EIT standards can be found at: www.Section508.gov/.**
25. **Data Universal Number System (DUNS) number. 786997739. CAGE Code 4UYY6**
26. **Notification regarding registration in System for award management (SAM). Yes**

**TERMS AND CONDITIONS APPLICABLE TO INFORMATION TECHNOLOGY (IT)
PROFESSIONAL SERVICES**

(SPECIAL ITEM NUMBER 132-51)

1. SCOPE

- a. The prices, terms and conditions stated under Special Item Number 132-51 Information Technology Professional Services apply exclusively to IT Services within the scope of this Information Technology Schedule.
- b. The Contractor shall provide services at the Contractor's facility and/or at the ordering activity location, as agreed to by the Contractor and the ordering activity.

2. PERFORMANCE INCENTIVES

- a. Performance incentives may be agreed upon between the Contractor and the ordering activity on individual fixed price orders or Blanket Purchase Agreements under this contract in accordance with this clause.
- b. The ordering activity must establish a maximum performance incentive price for these services and/or total solutions on individual orders or Blanket Purchase Agreements.
- c. Incentives should be designed to relate results achieved by the contractor to specified targets. To the maximum extent practicable, ordering activities shall consider establishing incentives where performance is critical to the ordering activity's mission and incentives are likely to motivate the contractor. Incentives shall be based on objectively measurable tasks.

3. ORDER

- a. Agencies may use written orders, EDI orders, blanket purchase agreements, individual purchase orders, or task orders for ordering services under this contract. Blanket Purchase Agreements shall not extend beyond the end of the contract period; all services and delivery shall be made and the contract terms and conditions shall continue in effect until the completion of the order. Orders for tasks which extend beyond the fiscal year for which funds are available shall include FAR 52.232-19 (Deviation – May 2003) Availability of Funds for the Next Fiscal Year. The purchase order shall specify the availability of funds and the period for which funds are available.
- b. All task orders are subject to the terms and conditions of the contract. In the event of conflict between a task order and the contract, the contract will take precedence.

4. PERFORMANCE OF SERVICES

- a. The Contractor shall commence performance of services on the date agreed to by the Contractor and the ordering activity.
- b. The Contractor agrees to render services only during normal working hours, unless otherwise agreed to by the Contractor and the ordering activity.
- c. The ordering activity should include the criteria for satisfactory completion for each task in the Statement of Work or Delivery Order. Services shall be completed in a good and workmanlike manner.
- d. Any Contractor travel required in the performance of IT Services must comply with the Federal Travel Regulation or Joint Travel Regulations, as applicable, in effect on the date(s) the travel is performed. Established Federal Government per diem rates will apply to all Contractor travel. Contractors cannot use GSA city pair contracts.

5. STOP-WORK ORDER (FAR 52.242-15) (AUG 1989)

(a) The Contracting Officer may, at any time, by written order to the Contractor, require the Contractor to stop all, or any part, of the work called for by this contract for a period of 90 days after the order is delivered to the Contractor, and for any further period to which the parties may agree. The order shall be specifically identified as a stop-work order issued under this clause. Upon receipt of the order, the Contractor shall immediately comply with its terms and take all reasonable steps to minimize the incurrence of costs allocable to the work covered by the order during the period of work stoppage. Within a period of 90 days after a stop-work is delivered to the Contractor, or within any extension of that period to which the parties shall have agreed, the Contracting Officer shall either-

- (1) Cancel the stop-work order; or
- (2) Terminate the work covered by the order as provided in the Default, or the Termination for Convenience of the Government, clause of this contract.

(b) If a stop-work order issued under this clause is canceled or the period of the order or any extension thereof expires, the Contractor shall resume work. The Contracting Officer shall make an equitable adjustment in the delivery schedule or contract price, or both, and the contract shall be modified, in writing, accordingly, if-

- (1) The stop-work order results in an increase in the time required for, or in the Contractor's cost properly allocable to, the performance of any part of this contract; and
- (2) The Contractor asserts its right to the adjustment within 30 days after the end of the period of work stoppage; provided, that, if the Contracting Officer decides the facts justify the action, the Contracting Officer may receive and act upon the claim submitted at any time before final payment under this contract.

(c) If a stop-work order is not canceled and the work covered by the order is terminated for the convenience of the Government, the Contracting Officer shall allow reasonable costs resulting from the stop-work order in arriving at the termination settlement.

(d) If a stop-work order is not canceled and the work covered by the order is terminated for default, the Contracting Officer shall allow, by equitable adjustment or otherwise, reasonable costs resulting from the stop-work order.

6. INSPECTION OF SERVICES

The Inspection of Services–Fixed Price (AUG 1996) (Deviation – May 2003) clause at FAR 52.246-4 applies to firm-fixed price orders placed under this contract. The Inspection–Time-and-Materials and Labor-Hour (JAN 1986) (Deviation – May 2003) clause at FAR 52.246-6 applies to time-and-materials and labor-hour orders placed under this contract.

7. RESPONSIBILITIES OF THE CONTRACTOR

The Contractor shall comply with all laws, ordinances, and regulations (Federal, State, City, or otherwise) covering work of this character. If the end product of a task order is software, then FAR 52.227-14 (Deviation – May 2003) Rights in Data – General, may apply.

8. RESPONSIBILITIES OF THE ORDERING ACTIVITY

Subject to security regulations, the ordering activity shall permit Contractor access to all facilities necessary to perform the requisite IT Services.

9. INDEPENDENT CONTRACTOR

All IT Services performed by the Contractor under the terms of this contract shall be as an independent Contractor, and not as an agent or employee of the ordering activity.

10. ORGANIZATIONAL CONFLICTS OF INTEREST

a. Definitions.

“Contractor” means the person, firm, unincorporated association, joint venture, partnership, or corporation that is a party to this contract.

“Contractor and its affiliates” and “Contractor or its affiliates” refers to the Contractor, its chief executives, directors, officers, subsidiaries, affiliates, subcontractors at any tier, and consultants and any joint venture involving the Contractor, any entity into or with which the Contractor subsequently merges or affiliates, or any other successor or assignee of the Contractor.

An “Organizational conflict of interest” exists when the nature of the work to be performed under a proposed ordering activity contract, without some restriction on ordering activities by the Contractor and its affiliates, may either (i) result in an unfair competitive advantage to the Contractor or its affiliates or (ii) impair the Contractor’s or its affiliates’ objectivity in performing contract work.

b. To avoid an organizational or financial conflict of interest and to avoid prejudicing the best interests of the ordering activity, ordering activities may place restrictions on the Contractors, its affiliates, chief executives, directors, subsidiaries and subcontractors at any tier when placing orders against schedule contracts. Such restrictions shall be consistent with FAR 9.505 and shall be designed to avoid, neutralize, or mitigate organizational conflicts of interest that might otherwise exist in situations related to individual orders placed against the schedule contract. Examples of situations, which may require restrictions, are provided at FAR 9.508.

11. INVOICES

The Contractor, upon completion of the work ordered, shall submit invoices for IT services. Progress payments may be authorized by the ordering activity on individual orders if appropriate. Progress payments shall be based upon completion of defined milestones or interim products. Invoices shall be submitted monthly for recurring services performed during the preceding month.

12. PAYMENTS

For firm-fixed price orders the ordering activity shall pay the Contractor, upon submission of proper invoices or vouchers, the prices stipulated in this contract for service rendered and accepted. Progress payments shall be made only when authorized by the order. For time-and-materials orders, the Payments under Time-and-Materials and Labor-Hour Contracts at FAR 52.232-7 (DEC 2002), (Alternate II – Feb 2002) (Deviation – May 2003) applies to time-and-materials orders placed under this contract. For labor-hour orders, the Payment under Time-and-Materials and Labor-Hour Contracts at FAR 52.232-7 (DEC 2002), (Alternate II – Feb 2002) (Deviation – May 2003)) applies to labor-hour orders placed under this contract.

13. RESUMES

Resumes shall be provided to the GSA Contracting Officer or the user ordering activity upon request.

14. INCIDENTAL SUPPORT COSTS

Incidental support costs are available outside the scope of this contract. The costs will be negotiated separately with the ordering activity in accordance with the guidelines set forth in the FAR.

15. APPROVAL OF SUBCONTRACTS

The ordering activity may require that the Contractor receive, from the ordering activity's Contracting Officer, written consent before placing any subcontract for furnishing any of the work called for in a task order.

16. DESCRIPTION OF IT PROFESSIONAL SERVICES AND PRICING

Please refer to the labor category description and pricing incorporated into this GSA Pricelist

Labor Category Description

Labor Category Title	Years Minimum Experience	Functional Responsibilities	Minimum Education
Program Manager	8	<p>This individual will work under very broad supervision in providing direction to IT personnel such as software developers, system administrators, system integrators, IT security specialist, etc. Manager may oversee personnel using or implementing software or hardware systems such as Windows, Linux, Solaris, z/OS, C,C++, Cobol, Shell Script, Perl, HTML, SQL, MS IIS, Apache, Oracle, MS SQL, Switches, Routers, Firewalls, Intrusion Prevention Systems, Intrusion Detection Systems, Load Balancing Systems, Virtual Machines, etc. Will regularly exercise independent judgment, as well as a high-level of analytical skill in solving complex technical, administrative and managerial problems. Will be responsible for all aspects of program performance. The individual will: (1) Be responsible for all aspects of program performance (2) Manage all aspects of program activity; (3) Provide all reports in order to show progress to Corporate management and customers; (4) Maintain customer contacts to ensure conformity to all contractual obligations; (5) Assume the initiative and provide support to Corporate management in identifying future requirements; (6) Develop, maintain, and implement a Program Management Plan that guides the performance of all functional activities performed on the Program.</p>	BS/BA
Sr. Program Manager	15	<p>This individual will work under very broad supervision in providing direction to IT personnel such as software developers, system administrators, system integrators, IT security specialist, etc. Manager may oversee personnel using or implementing software or hardware systems such as Windows, Linux, Solaris, z/OS, C,C++, Cobol, Shell Script, Perl, HTML, SQL, MS IIS, Apache, Oracle, MS SQL, Switches, Routers, Firewalls, Intrusion Prevention Systems, Intrusion Detection Systems, Load Balancing Systems, Virtual Machines, etc. Will regularly exercise independent judgment, as well as a high-level of analytical skill in solving complex technical, administrative and managerial problems. Will be responsible for all aspects of program performance. Labor Category Title	Years Minimum Experience	Functional Responsibilities	Minimum Education
Jr. Project Manager	5	Under general supervision, is responsible for assisting with all aspects of field and/or task-level project performance Supervises personnel involved in all aspects of project activity such as software developers, system administrators, system integrators, IT security specialist, etc. Manager may oversee personnel using or implementing software or hardware systems such as Windows, Linux, Solaris, z/OS, C,C++, Cobol, Shell Script, Perl, HTML, SQL, MS IIS, Apache, Oracle, MS SQL, Switches, Routers, Firewalls, Intrusion Prevention Systems, Intrusion Detection Systems, Load Balancing Systems, Virtual Machines, etc. Organizes and assigns responsibilities to subordinates, oversees the successful completion of all assigned tasks, and maintains customer contacts to ensure conformity to all contractual obligations. May use scrum and other management methods to track and control progress during software or system development. Exercises independent judgment, as well as a high-level of analytical skill, in solving non-routine technical, administrative, and managerial problems.	BS/BA
Project Manager	6	Is responsible for all aspects of field and/or task-level project.. Supervises IT personnel involved in all aspects of project activity such as software developers, system administrators, system integrators, IT security specialist, etc. Manager may oversee personnel using or implementing software or hardware systems such as Windows, Linux, Solaris, z/OS, C,C++, Cobol, Shell Script, Perl, HTML, SQL, MS IIS, Apache, Oracle, MS SQL, Switches, Routers, Firewalls, Intrusion Prevention Systems, Intrusion Detection Systems, Load Balancing Systems, Virtual Machines, etc. Organizes and assigns responsibilities to subordinates, oversees the successful completion of all assigned tasks, and maintains customer contacts to ensure conformity to all contractual obligations. May use scrum and other management methods to track and control progress during software or system development. Exercises independent judgment, as well as a high-level of analytical skill, in solving non-routine technical, administrative, and managerial problems.	BS/BA

Labor Category Title	Years Minimum Experience	Functional Responsibilities	Minimum Education
Sr. Project Manager	10	Is responsible for all aspects of field and/or task-level project performance. Supervises IT personnel involved in all aspects of project activity such as software developers, system administrators, system integrators, IT security specialist, etc. Manager may oversee personnel using or implementing software or hardware systems such as Windows, Linux, Solaris, z/OS, C,C++, Cobol, Shell Script, Perl, HTML, SQL, MS IIS, Apache, Oracle, MS SQL, Switches, Routers, Firewalls, Intrusion Prevention Systems, Intrusion Detection Systems, Load Balancing Systems, Virtual Machines, etc. Organizes and assigns responsibilities to subordinates, oversees the successful completion of all assigned tasks, and maintains customer contacts to ensure conformity to all contractual obligations. May use scrum and other management methods to track and control progress during software or system development. Exercises independent judgment, as well as a high-level of analytical skill, in solving non-routine technical, administrative, and managerial problems.	BS/BA
Technical Writer	5	Researches subject matter, writes a variety of technical articles, reports, brochures, and/or manuals for documentation for a wide range of uses. May be responsible for coordinating the display of graphics and the production of the document. Familiar with standard concepts, practices, and procedures within a particular field such as system administration, software development, systems engineering, etc. A high degree of creativity and latitude is required. Relies on experience and judgment to plan and accomplish goals. Works under general supervision. Performs a variety of tasks. May direct and lead the work of others. Typically reports to a manager or head of a unit/department.	BS/BA
Jr. Software Engineer	5	Assists in design and coding of software product components, units, and modules according to detailed specifications. Software and hardware used may include systems such as Windows, Linux, Solaris, z/OS, C,C++, Cobol, Shell Script, Perl, HTML, SQL, MS IIS, Apache, Oracle, MS SQL, Switches, Routers, Firewalls, Intrusion Prevention Systems, Intrusion Detection Systems, Load Balancing Systems, Virtual Machines, etc. Participates in analysis and development of test plans. Tests assigned components and units. Provides test results and recommends corrections to senior developers. Requires practical knowledge of one or more platforms and operating systems, and of programming languages. Typically requires knowledge of one or more systems architectures. Has knowledge of commonly-used concepts, practices, and procedures within a particular field. Relies on instructions and pre-established guidelines to perform the functions of the job. Works under immediate supervision and guidance.	BS/BA

Labor Category Title	Years Minimum Experience	Functional Responsibilities	Minimum Education
Software Engineer	6	<p>Designs and codes software components, units, and modules that meet product specification and development schedules. Software and hardware used may include systems such as Windows, Linux, Solaris, z/OS, C,C++, Cobol, Shell Script, Perl, HTML, SQL, MS IIS, Apache, Oracle, MS SQL, Switches, Routers, Firewalls, Intrusion Prevention Systems, Intrusion Detection Systems, Load Balancing Systems, Virtual Machines, etc. Tests and debugs assigned components and units, Participated in large system and subsystem planning. Adheres to product build and release schedules and strategies. Acts as a technical resource for lower-level developers. Requires comprehensive knowledge of one or more platforms and operating systems, and of programming languages. Typically requires knowledge of one or more systems architectures. Familiar with a variety of the field's concepts, practices, and procedures. Relies on experience and judgment to plan and accomplish goals. Performs a variety of complicated tasks. A wide degree of creativity and latitude is expected. Works under general supervision. Typically reports to a manager or head of a unit/department.</p>	BS/BA
Sr. Software Engineer	9	<p>Oversees technical design, development, and implementation of large projects and/or major software products and systems. Software and hardware used may include systems such as Windows, Linux, Solaris, z/OS, C,C++, Cobol, Shell Script, Perl, HTML, SQL, MS IIS, Apache, Oracle, MS SQL, Switches, Routers, Firewalls, Intrusion Prevention Systems, Intrusion Detection Systems, Load Balancing Systems, Virtual Machines, etc. Assists in defining architecture requirements and establishing standards for design and development. Consults with management and customers regarding product feasibility and viability of product plans and designs. Factors emerging technologies and product supportability into design and implementation. Serves as primary technical resource to development team. May act as team leader in prioritizing group tasks, determining individual assignments, and reviewing work of lower-level developers.. Interacts with customers regarding strategies, requirements, problem solving, and support. This is normally the senior non-management developer level. Typically reports to a manager or head of a unit/department.</p>	BS/BA

Labor Category Title	Years Minimum Experience	Functional Responsibilities	Minimum Education
Sr. Subject Matter Expert	10	<p>SUBJECT MATTER EXPERT (SME): A Subject Matter Expert is an individual whose qualifications and/or particular expertise are exceptional and/or highly unique. Subject Matter Experts do not have specific experience/education qualifications, but are typically identified as recognized Industry leaders for a given area of expertise. Expertise may include software or hardware in following systems: Windows, Linux, Solaris, z/OS, C,C++, Cobol, Shell Script, Perl, HTML, SQL, MS IIS, Apache, Oracle, MS SQL, Switches, Routers, Firewalls, Intrusion Prevention Systems, Intrusion Detection Systems, Load Balancing Systems, Virtual Machines, etc. Subject Matter Experts typically perform the following kinds of functions: Initiates, supervises, and/or develops requirements from a project's inception to conclusion for complex to extremely complex programs; Provides strategic advice, technical guidance and expertise to program and project staff; Provides detailed analysis, evaluation and recommendations for improvements, optimization development, and/or maintenance efforts for client-specific or mission critical challenges/issues; Consults with client to define need or problem supervises studies and leads surveys to collect and analyze data to provide advice and recommend solutions. Expertise may be in-depth in multiple specific systems such as mainframes, Unix, Windows, firewalls, routers, while also broad with other technologies, voice and video, programming language, scripts, web,etc</p>	BS/BA
