CBTnuggets

About CBT Nuggets

CBT Nuggets, a veteran-owned business, has provided innovative IT training for technology professionals since the 1990s. We produce high-quality, online video training, accessible at any time through a variety of devices.

We serve IT professionals at the city, state, county, and federal government level, as well as military personnel both in the United States and abroad. Over 9,000 government and military users have chosen CBT Nuggets as their training solution, including teams from the DOJ, DOD, NOAA, NASA, DHS, DARPA, and many more.
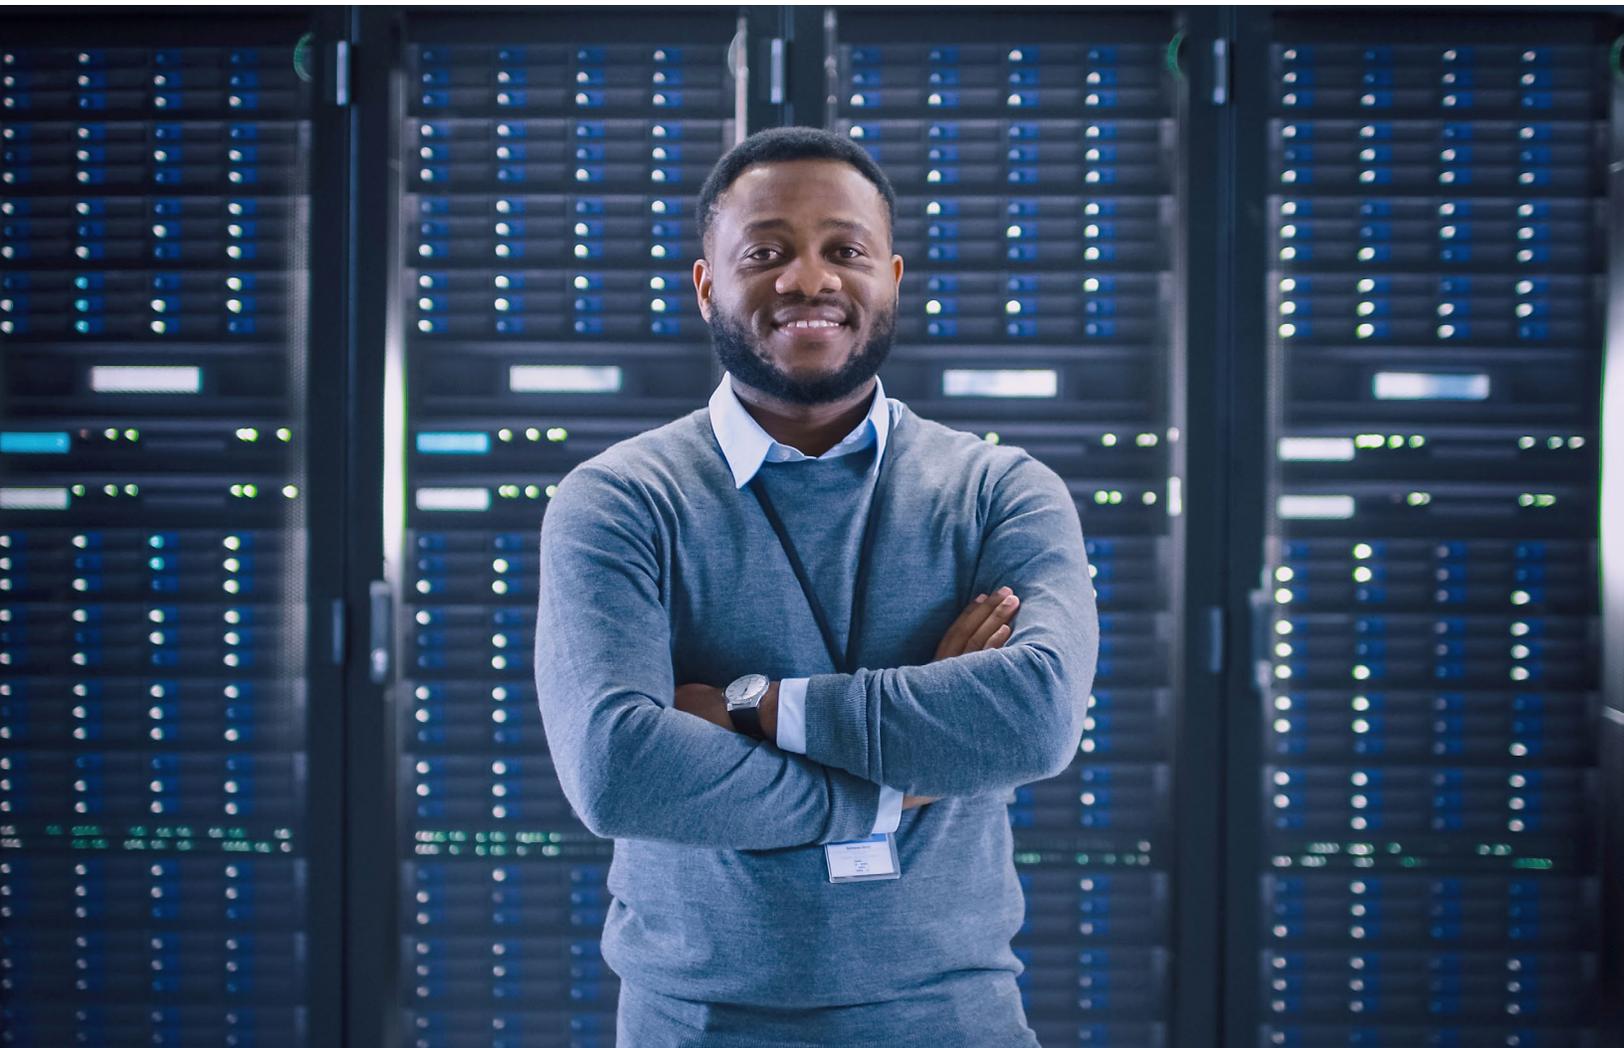

The Value of CBT Nuggets

Ensure your team has access to training on the latest technologies. Instead of costly and time-consuming, in-person training, consider self-paced, online training that is productive, practical, and sustainable.

CBT Nuggets is a GSA-certified vendor that provides innovative IT training solutions:

- **Subscribers can train 24 hours a day, seven days a week, on a variety of devices,** using our high-quality, online streaming video. Our mobile apps also have an offline option, so teams can train in environments without internet access.

- **Courses are built around focused video "Nuggets,"** each about 10-20 minutes in length. Our library contains more than 10,000 training videos, in over 200 topic areas, that can be accessed on demand, anytime, anywhere.

- **World-class trainers who are leaders in their field** deliver instruction using a whiteboard style that is designed to be effective, efficient, and relatable.

Online VS. Classroom Training

Unlike classroom-based courses, our training is not constricted by geographical location, time, or topic. With CBT Nuggets training, no one has to miss work to learn something new. You can train anytime, anywhere, on a variety of devices, whether you have five minutes or an hour to learn.

Advantages of CBT Nuggets online training:

- All training is available 24 hours a day, 7 days a week
- No associated travel, reduce cost and improve sustainability
- Users can review content as needed
- Train on a variety of topics and technologies with one interface
- Detailed accountability and reporting for all training activities

Features

Unlimited Viewing, Unlimited Topics

A subscription to CBT Nuggets unlocks access to our entire training library – that's thousands of instructional hours on a variety of IT topics and technologies. Our extensive library means your team has access to the tools they need to help your organization run more effectively.

Mobile Apps and Offline Training

Training is available anytime, anywhere with mobile apps from CBT Nuggets. Ultimate portability and ease of access means no excuses for not training. Apps are available for free download from the iTunes App Store, Kindle App Store, and on Google Play. Users can download up to 10 hours of content to watch, even without a Wi-Fi connection.

Reporting

Reporting allows team leaders to measure success and return on investment. Track usage, practice exam performance over time, course completion, and more with our reporting feature.

Practice Exams

Practice exams help assess a user's knowledge and growth, whether the goal is certification or new concept mastery. CBT Nuggets is proud to partner with Transcender®, the leading provider of IT practice exams, to offer access to practice exams, ensuring that your team has the tools necessary to master a topic and provide additional study resources.

Accountability Coaching

Accountability Coaches work with teams and learners to achieve training goals by creating formal training plans, offering encouragement and accountability, as well as providing supplemental training resources. Ensure team success by counting on our Accountability Coaches.

Virtual Labs

CBT Nuggets offers virtual labs* to reinforce video training by providing hands-on experience in a virtual environment. Labs launch from the course page, making it easy for users to watch training and practice concepts with labs simultaneously.

*Not all courses have virtual labs.

Course Catalog

The following course catalog is updated quarterly. New courses are added to the website frequently. For the most recent course list, visit the CBT Nuggets website.

Cisco CCNA 640-875 SPNGN1	Jeremy Cioara	20/01/2014

This Cisco video training course with Jeremy Cioara covers networking concepts that are crucial to service provider architecture, including the OSI Model, switch and router functionality, IOS,...

Cisco CCNA 640-878 SPNGN2

Jeremy Cioara   18/04/2014

This Cisco video training course with Jeremy Cioara covers the "next level" of Service Provider topics as you make your way through the CCNA Service Provider certification.   This Service Provider...

Cisco CCNA Cloud 210-451 CLDFND

Anthony Sequeira   11/11/2015

This Cisco video training with Anthony Sequeira covers fundamental cloud characteristics and deployment models. Learn about Cisco InterCloud, Unified Compute, Unified Fabric, and Unified Storage, as...

Cisco CCNA Collaboration 210-060 CICD

Jeremy Cioara   11/02/2016

This Cisco training course with Jeremy Cioara will teach you about Unified Communications solutions. Learn about Cisco CUCM, CME, and Unity-based systems, as you prepare for the 210-060 CICD exam,...

Cisco CCNA Collaboration 210-065 CIVND1

Jeremy Cioara   15/06/2015

CCNA Collaboration is the best of two worlds: Voice over IP (VoIP) and Video! This course is the first of two necessary to achieve the CIVND certification.   The CIVND1 course is the first course...

Cisco CCNA Collaboration 210-065 CIVND2

Jeremy Cioara   27/04/2016

Jeremy Cioara covers the implementation, operation, and troubleshooting of Cisco Collaboration, Telepresence, and Digital Media Player (DMP) endpoints and their back-end supporting systems. The...

Cisco CCNA Cyber Ops 210-250 SECFND

Keith Barker   06/09/2018

This Cisco training course with Keith Barker covers foundational principles of cybersecurity. Learn host-based analysis, attack methods, security monitoring, and more, as you prepare for the 210-250...

Cisco CCNA Cyber Ops 210-255 SECOPS

Keith Barker   01/10/2018

This Cisco video training with Keith Barker covers the tasks, duties, and responsibilities a security analyst should be aware of when working in a security operations center. Learn about incident...

Cisco CCNA Data Center 200-150 DCICN

Jeremy Cioara   06/11/2018

This Cisco video training with Jeremy Cioara covers data center physical infrastructure, data center networking concepts, and data center storage. This course will also prepare you for the 200-150...

Cisco CCNA Data Center 200-155 DCICT

Anthony Sequeira   26/08/2018

This Cisco video training with Anthony Sequeira covers fundamental data center technologies, such as Unified Computing, network virtualization, Application Centric Infrastructure (ACI), and more....

Cisco CCNA Hands-on Labs Using Wireshark & GNS3

Keith Barker   08/12/2014

This GNS3 labs course is lab-focused and covers the implementation, capturing, and analysis of the technologies from Cisco CCNA Routing and Switching (ICND1 and ICND2). Each Nugget is designed to...

Cisco CCNA Routing and Switching 200-105 ICND2

Jeremy Cioara   03/02/2017

This Cisco video training course with Jeremy Cioara picks up right where Cisco CCENT/CCNA ICND1 100-105 left off. Learn about EtherChannel, STP, EIGRP, OSPF, HSRP, and more as you prepare for the...

Cisco CCNA Security 210-260 IINS

Keith Barker   04/12/2015

Join Keith Barker as you develop the skills required to support a security infrastructure, recognize threats and vulnerabilities to networks and systems, and mitigate security threats. The Cisco CCNA...

Cisco CCNA Wireless 200-355 WIFUND

Keith Barker   05/04/2016

This Cisco training course with Keith Barker covers fundamental topics of Wireless LANs (WLANs). Learn about access points (APs), WLAN controllers (WLCs), WLAN security, and more as you prepare for...

Cisco CCNP Collaboration CIPTV1 300-070

Chuck Keith   24/04/2018

In this CCNP Collaboration course, trainer Chuck Keith will teach you how to implement a Cisco Unified Collaboration solution. Learn about dial plans, Cisco Unified Communications Manager (CUCM),...

Cisco CCNP ROUTE 300-101 Hands-on Labs Exam Prep

Keith Barker   29/12/2014

This course is lab-based and is focused on the technologies from Cisco CCNP Route/Switch (300-101). Each Nugget is designed assist you in creating and verifying Cisco networks using GNS3 1.x. All of...

Cisco CCNP Routing and Switching 300-101 ROUTE

Jeremy Cioara   31/12/2014

This Cisco training course with Jeremy Cioara will teach you how to implement IP routing. Learn to use advanced IP addressing and routing when working with Cisco routers as you prepare for the...

Cisco CCNP Routing and Switching 300-115 SWITCH

Jeremy Cioara   03/03/2015

This Cisco training course with Jeremy Cioara will teach you how to implement IP switched networks. Learn to plan, configure, and verify the implementation of Cisco enterprise switched solutions as...

Cisco CCNP Routing and Switching 300-135 TSHOOT

Jeremy Cioara   12/05/2015

This Cisco course with Jeremy Cioara will teach you how to troubleshoot and maintain Cisco IP networks. Learn to plan and perform maintenance on enterprise routed and switched networks as you prepare...

Cisco CCNP Security 300-206 SENSS

Keith Barker   13/06/2014

This Cisco training course with Keith Barker will teach you how to implement Cisco Edge network security solutions. Learn to configure and implement security on Cisco network perimeter edge devices...

Cisco CCNP Security 300-207 SITCS

Keith Barker   29/02/2016

Note: The exam associated with this course was retired March 31, 2017. However, this course still retains value as a training resource. This Implementing Cisco Threat Control Solutions (SITCS)...

Cisco CCNP Security 300-208 SISAS

Keith Barker   06/11/2014

This Implementing Cisco Secure Access Solutions (SISAS) (300-208) video training course addresses the concepts and implementation of secure access using 802.1X and Cisco Identity Services Engine...

Cisco CCNP Security 300-209 SIMOS

Keith Barker   10/07/2014

This Implementing Cisco Secure Mobility Solutions (SIMOS) (300-209) course provides training on how to configure and implement a variety of Virtual Private Network (VPN) solutions on the Cisco ASA...

Cisco CCNP SWITCH 300-115 Hands-on Labs Exam Prep

Keith Barker   23/02/2015

This course is lab-based and is focused on the technologies from Cisco CCNP Switch (300-115). It also aims to prepare learners for the CCNP Switch exam. For more theory and additional training...

Cisco CCNP TSHOOT 300-135 Hands-on Labs Exam Prep

Keith Barker   23/03/2015

This Cisco CCNP-level course will help you practice and improve your techniques to monitor and troubleshoot IPv4 and IPv6 networks. The course focuses on extensive hands-on labs that use...

Cisco Data Center Networking Fundamentals

Anthony Sequeira   26/08/2013

Note: The Cisco CCNA Data Center 640-911 DCICN exam associated with this course retired on April 4, 2017. However, this course still retains value as a training resource. This Cisco training course...

Cisco Data Center Networking Technologies

Anthony Sequeira   17/10/2013

Note: The Cisco CCNA Data Center 640-916 DCICT exam associated with this course retired on April 4, 2017. However, this course still retains value as a training resource. This Cisco training course...

Cisco R&S Troubleshooting Mastery

Keith Barker,Anthony Sequeira   18/09/2013

This Cisco video training course with Anthony Sequeira and Keith Barker covers how to troubleshoot routing and switching technologies, such as VLAN troubleshooting, solving EIGRP adjacency failures,...

Cisco Virtual Internet Routing Lab (VIRL) 1.x

Anthony Sequeira   09/03/2016

Cisco VIRL (Virtual Internet Routing Lab) is the personal edition of Cisco Modeling Labs. VIRL is designed to provide students and network engineers with a platform to emulate various Cisco operating...

Exam Walkthrough: Cisco ICND2/CCNA 200-101

Keith Barker,Anthony Sequeira   27/11/2013

Please note that Cisco retired its ICND2 200-101 v2.0 exam. The last day to test was September 24, 2016. Check out our Cisco CCNA ICND2 200-105 course to get the most current training. Practice...

Examine ACI Networking

Jeff Kish   11/09/2019

Join Jeff Kish as he teaches you how to trace a packet flow through the ACI fabric. Gain an understanding of the Spine-and-Leaf architecture, ACI fabric, Anycast gateways, bounce entries, VXLANs,...

Firepower Access Control Policies

Keith Barker   09/05/2019

Join Keith Barker as he covers the role access control policies play in Firepower. In this skill, you'll learn how to implement access control rules, how to use URL filtering and categories to...

Firepower Discovery

Keith Barker   09/05/2019

Join Keith Barker as he covers the purpose and benefits of Firepower Discovery. In this skill, you'll learn how to implement discovery policies in Firepower, how to view data in the dynamically...

Firepower High Availability

Keith Barker   21/05/2019

Join Keith Barker as he teaches you how to implement high availability on a Firepower Threat Defense (FTD) appliance. In this skill, you'll learn about the requirements of Active/Passive failover...

Firepower Initial Configuration

Keith Barker   07/05/2019

Join Keith Barker as he covers the initial setup of a Firepower Management Center (FMC) appliance and a Firepower Threat Defense (FTD) appliance. In this skill, you'll learn how to register an FTD...

Firepower Routing and NAT

Keith Barker   07/05/2019

Join Keith Barker as he teaches you how to configure and verify routing and network address translation (NAT) on a Firepower appliance. In this skill, you'll learn about layer 3 packet forwarding,...

Firepower Security Intelligence

Keith Barker   09/05/2019

Join Keith Barker as he covers the Security Intelligence (SI) feature in Firepower. In this skill, you'll learn how to use lists and feeds, how to blacklist IP addresses and URLs, and how to...

Firepower Threat Defense (FTD) Overview

Keith Barker   07/05/2019

Join Keith Barker as he teaches you about Firepower Threat Defense (FTD). In this skill, you'll learn about the history of firewall technologies and the benefits of today's next-generation firewalls...

Identify ACI Hardware Components

Jeff Kish   12/08/2019

Join Jeff Kish as he covers the hardware components found in ACI environments. Gain an understanding of the Cisco 9500 Nexus chassis, fabric modules, ASIC architecture, line cards (cloud-scale and...

Introducing the Cisco UCS

Anthony Sequeira   22/11/2013

Note: The Cisco CCNP Data Center 642-999 DCUCI exam associated with this course was retired July 3, 2017. However, this course still retains value as a training resource. This Cisco training course...

Introducing the Cisco Unified Fabric

Anthony Sequeira   07/04/2014

Note: The Cisco CCNP Data Center 642-997 DCUFI exam associated with this course was retired July 3, 2017. However, this course still retains value as a training resource. This Cisco training course...

IT Expert: Building and Configuring a Business Wireless Network

Jeremy Cioara   27/11/2017

In this course, trainer Jeremy Cioara teaches you the wireless fundamentals you need to prepare, build, and configure a wireless network within a business setting. In this follow-up to his IT Expert:...

IT Expert: Getting Started in IT

Jeremy Cioara   19/07/2018

CBT Nuggets trainer Jeremy Cioara walks you step by step through deciding if an IT career is right for you and, if so, how to get started. Jeremy covers the career options and paths within IT, the...

IT Expert: Real World, Multi-Carrier BGP

Jeremy Cioara   04/12/2018

In this real-world course, Jeremy Cioara teaches you how to implement BGP to make a data center or enterprise redundant across multiple carriers. Learn about multi-carrier BGP configuration, the...

Map Out the ACI Logical Model

Jeff Kish   12/08/2019

Join Jeff Kish as he teaches you how to identify and assign logical constructs within the ACI architecture. Gain an understanding of Application Network Profiles, Anycast Gateways, bridge domains,...

Map Out the ACI Physical Model

Jeff Kish   14/08/2019

Join Jeff Kish as he teaches you how to map out the ACI physical model and perform preliminary ACI configuration. Learn how to statically and dynamically add VLANs to a domain by using VLAN pools,...

Trace ACI Traffic Flows

Jeff Kish   12/09/2019

Join Jeff Kish as he teaches you how to trace the traffic flow inside an ACI fabric. Learn how ACI can identify the endpoints in a data center, how broadcast traffic is forwarded within an ACI...

UCS Administration

Jeff Kish   21/06/2019

Join Jeff Kish as he teaches you the concepts UCS administrators should be aware of. Gain an understanding of the Admin tab; the components of UCS multitenancy, including organizations and locales;...

UCS Administration Configuration

Jeff Kish   21/06/2019

Join Jeff Kish as he teaches you about common configurations UCS administrators should be aware of. Learn how to configure backups in a UCS environment, how to control access to UCS Manager, and how...

UCS Advanced Networking

Jeff Kish   25/04/2019

Join Jeff Kish as he teaches you about advanced networking concepts you should be aware of when managing Cisco UCS environments. Learn how traffic flows in UCS environments, how priority flow...

UCS Advanced Storage Networking

Jeff Kish   09/05/2019

Join Jeff Kish as he teaches you about Fibre Channel over Ethernet (FCOE), Virtual Fibre Channel (VFC), iSCSI, and more.   Learn how to use Priority Flow Control (PFC) to secure FC traffic without...

UCS Basic Networking

Jeff Kish   19/04/2019

Join Jeff Kish as he teaches you why Cisco is integrating a networking suite of technologies into their server product.   In this skill, you'll cover fundamental networking elements and learn how UCS...

UCS Concepts

Jeff Kish   19/04/2019

Whether you need to configure your first UCS or you're preparing for the CCNA or CCNP Data Center certification, it's important to understand the foundational elements of UCS.   In this skill with...

UCS FC Storage Configuration

Jeff Kish   21/05/2019

Join Jeff Kish as he teaches you how to configure Fibre Channel (FC) storage in UCS Manager. Learn how to change the unified ports of UCS from Ethernet to FC, how to configure VSANs to use FC, how...

UCS iSCSI Storage Configuration

Jeff Kish   07/05/2019

Join Jeff Kish as he teaches you how to configure iSCSI storage in a UCS environment.   Learn how to configure iSCSI VLANs, iSCSI QoS, iSCSI Boot, and UCS appliance ports. Gain an understanding of...

UCS Network Configuration

Jeff Kish   19/04/2019

Join Jeff Kish as he teaches you how to use UCS proficiently. Learn how to configure networking elements in the UCS Manager by gaining hands-on experience with the UCS Platform Emulator. This skill...

UCS Service Profile Configuration

Jeff Kish   21/06/2019

Join Jeff Kish as he teaches you how to configure UCS Service profiles. Learn how to configure networking for Service profiles and templates, how to boot Service profiles to UCS servers, how to add...

UCS Service Profiles

Jeff Kish   28/05/2019

Join Jeff Kish as he covers the features of service profiles in UCS. Learn about service profile templates and how server pools and qualifications can be used to streamline service profile...

Use Cisco VIRL 1.6 for Hands-On Practice

Anthony Sequeira   18/09/2019

Join Anthony Sequeira as he teaches you how to install, set up, and use Cisco VIRL to emulate different Cisco technologies.   Gain an understanding of VM Maestro and the setup options for VIRL. Learn...

Citrix

2 courses

Course Title	Trainer	Released

Citrix CCA-V XenApp and XenDesktop 7.1x Administration (1Y0-203)

Jacob Moran   08/11/2018

This Citrix training with Jacob Moran will teach you how to administer XenApp and XenDesktop 7.1x. Learn to install, configure, and manage highly available XenApp and XenDesktop 7.1x environments...

Citrix NetScaler 10.5 1Y0-253

Keith Barker   10/03/2015

The Citrix NetScaler 10.5 for App and Desktop Solutions course provides the concepts and training to install and configure a Citrix NetScaler load balancer and gateway in a virtualization environment...

CompTIA

77 courses

Course Title	Trainer	Released

Application Installation and Configuration

Garth Schulte   26/07/2019

Join Garth Schulte as he teaches you how to install applications onto operating systems and how to configure application security and permissions. Gain an understanding of local and network-based...

Assemble and Install a PC and Peripherals

Jeremy Cioara   09/08/2019

Join Jeremy Cioara as he teaches you how to design and install a custom PC based on end-user specification and need.   Learn how to select and configure the appropriate components for graphic, CAD,...

Best Practices for Securing a Workstation

Keith Barker   04/06/2019

Join Keith Barker as he teaches you how to secure a workstation by implementing best practices for passwords, account management, and more.   Learn how to prepare initial security baselines and how...

Change Management Best Practices

Knox Hutchinson   10/07/2019

Join Knox Hutchinson as he teaches you how to properly make changes to systems and code.   Gain an understanding of change management documentation, risk analysis, and backout plans. Learn how to...

Characterize Various Mobile Devices

Anthony Sequeira   10/07/2019

Join Anthony Sequeira as he teaches you about the characteristics of various types of mobile devices, including laptops, tablets, smartphones, wearables, e-readers, and GPS.   Recommended...

Common Safety Procedures

Knox Hutchinson   26/07/2019

Join Knox Hutchinson as he covers safety procedures for maintaining a safe environment.   Gain an understanding of the procedures and steps to make the work environment a safe place and why safety in...

CompTIA Cloud Essentials (CLO-001)

Anthony Sequeira   09/10/2017

The CompTIA Cloud Essentials is a preferred cloud certification for business and non-IT professionals. This video training course with CBT Nuggets trainer Anthony Sequeira will help learners...

CompTIA Cloud+ (CV0-002)

Anthony Sequeira   11/06/2018

The CompTIA Cloud+ is an internationally recognized certification that will validate your ability to work in a cloud computing environment. This training course will teach you to configure, deploy,...

CompTIA CySA+ (CS0-001)

Keith Barker   24/04/2018

In this course, trainer Keith Barker walks you through the objectives covered in CompTIA's CySA+ certification exam. With a hands-on focus, this vendor-neutral Cybersecurity Analyst course will teach...

CompTIA Network+ (N10-007)

Keith Barker,Jeremy Cioara,Chuck Keith,Anthony Sequeira   07/05/2018

The CompTIA Network+ is an internationally recognized certification, validating an individual's fundamental IT networking knowledge and skills. Kick off your network career or improve on the...

CompTIA Project+ (PK0-004)

Simona Millham   13/06/2018

In this course, trainer Simona Millham walks you through the objectives covered in CompTIA's Project+ certification exam. This vendor-neutral project management course will teach you about the...

CompTIA Security+ (SY0-501)

Keith Barker   25/09/2017

The CompTIA Security+ is a globally recognized certification, validating an individual's fundamental security knowledge and skills. This video training will teach you to support the principles of...

Computer CPU Vendors and Selection

Jeremy Cioara   09/08/2019

Join Jeremy Cioara as he teaches you about the function and features of central processing units (CPUs).   Gain an understanding of hyper-threading, graphics processing units (GPUs), and processor...

Computer Hardware Interfaces

Jeremy Cioara   19/07/2019

Join Jeremy Cioara as he teaches you about the common interface types use to connect video, USB, hard drives, and other peripherals to a desktop or laptop device. You will gain knowledge on video...

Computer Memory Types and Installation

Jeremy Cioara   12/07/2019

Join Jeremy Cioara as he teaches you how to install and upgrade computer memory in end-user devices. Gain an understanding of the two primary types of computer memory, including RAM (random-access...

Configure and Verify IPv4

Keith Barker   30/04/2019

In this series, Keith Barker will teach you how to verify and troubleshoot IPv4 address information. You'll also learn how to configure IPv4 on Windows, Linux, and Cisco devices.   Recommended...

Configure Client-Side Windows Networking

Garth Schulte   06/08/2019

Join Garth Schulte as he teaches you how to configure networking and firewall settings on a Windows operating system. Learn how to configure IP address information on multiple machines and test...

Configure Mobile Device Network and App Support

Anthony Sequeira   19/07/2019

Join Anthony Sequeira as he teaches you how to configure mobile devices with networking options and how to support mobile applications. Learn how to use mobile hotspot services, how to pair...

Configure Wired and Wireless Security

Keith Barker   02/07/2019

Join Keith Barker as he teaches you how to implement a router or access point (AP) in a small office and how to configure the SSID, MAC filtering, port forwarding, and security settings on a SOHO...

Connect and Configure Mobile Device Accessories

Anthony Sequeira   05/08/2019

Join Anthony Sequeira as he teaches you how to connect and configure accessories and ports of mobile devices. Gain an understanding of wired and wireless connection types, such as micro-USB, USB-C,...

Data Destruction and Disposal

Keith Barker   02/07/2019

Join Keith Barker as he teaches you how to repurpose disk drives and how to permanently dispose storage devices and the data they hold. Recommended Experience None   Recommended Equipment None ...

Demonstrate Professionalism

Knox Hutchinson   26/07/2019

Join Knox Hutchinson as he covers effective ways to behave and communicate in a professional manner.   Gain an understanding of the use of techniques in communication, behavior, and professionalism...

Documentation Best Practices

Knox Hutchinson   10/07/2019

Join Knox Hutchinson as he covers the best practices associated with different types of documentation. Gain an understanding of network topology diagrams, incident documentation, inventory...

Environmental Impacts and Controls

Knox Hutchinson   19/07/2019

Join Knox Hutchinson as he covers the best way to control the environment of their technology devices.   Gain an understanding of how to properly dispose of old equipment, how to protect yourself and...

Features and Tools of MacOS and Linux Client/Desktop OS

Knox Hutchinson   10/07/2019

Join Knox Hutchinson as he covers the features, tools, and best practices of MacOS and Linux operating systems. Gain an understanding of system updates, driver updates, firmware updates, patch...

Features of Microsoft Windows Versions

Garth Schulte   21/05/2019

Join Garth Schulte as he teaches you about the versions of Microsoft Windows. Learn about the history of the Microsoft Windows operating system. Cover the features and editions of Windows 7, Windows...

Implement Basic Disaster Prevention and Recovery

Knox Hutchinson   19/07/2019

Join Knox Hutchinson as he teaches you basic steps to preventing and recovering from disasters.   Gain an understanding to identify basic steps to take to prevent data loss and hardware failures,...

Install and Configure Laptop Hardware

Anthony Sequeira   05/08/2019

Join Anthony Sequeira as he teaches you how to install and configure laptop hardware and components. Learn how to replace your keyboard, hard drive (SSD, magnetic, or hybrid drives), memory, optical...

Install Components in a Laptop Display

Anthony Sequeira   05/08/2019

Join Anthony Sequeira as he teaches you about the many components you can install in a laptop display. Gain an understanding of WiFi antenna connectors, webcams, microphones, inverters, digitizers,...

Internet Connectivity Options

Keith Barker   21/05/2019

Join Keith Barker as he teaches you about the physical and wireless options you have when connecting to the Internet.   Learn about dial-up modems, cable modems, satellite services, and hotspot...

Internet of Things (IoT) Fundamentals

Keith Barker   21/05/2019

Join Keith Barker as he introduces you to the Internet of things (IoT). Learn how to add IoT devices to your network and how to use third-party controllers to more easily manage multiple IoT...

IPv4 DHCP Fundamentals

Keith Barker   19/04/2019

Join Keith Barker as he covers the fundamentals of the Dynamic Host Configuration Protocol (DHCP). Learn how to configure a Windows device to be a DHCP client, how to verify the DHCP-assigned address...

IPv4 Routing Fundamentals

Keith Barker   30/04/2019

In this series, Keith Barker will teach you the fundamentals of IPv4 routing. Learn about network routers, default gateways, default routes, and static routes. Gain an understanding of dynamic...

IPv6 Fundamentals

Keith Barker   20/06/2019

Join Keith Barker as he covers the fundamentals of IPv6. Gain an understanding of the similarities and differences between IPv6 and IPv4. And learn how to configure a client to use an IPv6...

Layer 2 Ethernet Addresses

Keith Barker   19/04/2019

Join Keith Barker as he covers the fundamentals of MAC addresses and the Address Resolution Protocol (ARP). Learn how to discover the MAC address on Linux, Windows, and MacOS devices. And gain an...

Layer 2 Switching Fundamentals

Keith Barker   23/04/2019

Join Keith Barker as he covers the fundamentals of a layer 2 switch. Learn how a switch differs from a network hub and bridge, how a switch learns and uses MAC addresses to make forwarding decisions,...

Layer 3 IPv4 Address Fundamentals

Keith Barker   19/04/2019

Join Keith Barker as he covers the fundamentals of IPv4 addresses. Learn how to display IP address and subnet mask information on a Windows device, how to convert a decimal number to a binary octet...

Logical Security Concepts

Keith Barker   06/08/2019

Join Keith Barker as he teaches you about logical security controls. Gain an understanding of Active Directory, software tokens, MDM policies, port security, MAC address filtering, and firewalls....

Maintain and Troubleshoot Laser and Inkjet Printers

Jeremy Cioara   09/08/2019

Join Jeremy Cioara as he teaches you how to support, maintain, and troubleshoot Laser, Inkjet, Thermal, Impact, and 3D printers. Gain an understanding of the technology, components, and common...

Malware Fundamentals

Keith Barker   29/05/2019

Join Keith Barker as he teaches you how to detect, remove, and prevent malware with the appropriate tools. Gain an understanding of the categories, types, symptoms, and indications of malware. Learn...

Malware Removal

Knox Hutchinson   25/06/2019

Join Knox Hutchinson as he covers methodology you can use to remove malware. Learn how to identify the kind of threat you're dealing with, how to quarantine a device affected by malware by removing...

Mobile Device Security

Keith Barker   04/06/2019

Join Keith Barker as he teaches you how to secure mobile devices and the data stored on them. Gain an understanding of mobile device management. Learn how to secure your mobile device data with...

Motherboard Selection, Connectors, BIOS Configuration, and Power Supplies

Jeremy Cioara   05/08/2019

Join Jeremy Cioara as he teaches you how to select the appropriate motherboard for your device, how to connect components to it, and how to configure BIOS and boot information. Gain an understanding...

Network Cable Types and Attributes

Jeremy Cioara   19/07/2019

Join Jeremy Cioara as he teaches you how different cables and connectors are used to build a physical connection within a network. You will gain an understanding of the different network cabling...

Network Firewall Fundamentals

Keith Barker   30/04/2019

In this series, Keith Barker will teach you the fundamentals of network security appliances, such as next-generation firewalls (NGFWs). Learn how to use access control lists (ACLs) to control...

Operating System Basics

Garth Schulte   09/05/2019

Join Garth Schulte as he teaches you the fundamentals of operating systems. Learn about 32-bit and 64-bit operating systems, popular workstation operating systems, and mobile operating systems....

Operating System Installation

Garth Schulte   25/06/2019

Join Garth Schulte as he teaches you how to install operating systems and perform post-installation tasks. Learn about the methods used to boot a computer and the requirements for installing and...

Perform Mobile Device Synchronization

Anthony Sequeira   05/08/2019

Join Anthony Sequeira as he teaches you how to perform mobile device synchronization. Learn how to synchronize your mobile device to the cloud, to your desktop, or to your vehicle. Gain an...

Physical Security Measures

Keith Barker   06/08/2019

Join Keith Barker as he teaches you how to identify, recommend, and describe the usefulness of physical devices as part of security. Gain an understanding of the physical security controls you can...

Plan and Configure a Small Network

Keith Barker   10/05/2019

Join Keith Barker as he teaches you how to plan, configure, and implement a small office home office (SOHO) network. Learn how Ethernet networks are wired, how to configure a SOHO network router,...

Regulatory and Policy-Based Incident Response

Knox Hutchinson   26/07/2019

Join Knox Hutchinson as he walks you through understanding the legal restraints on data, response techniques, and breach of policy. Gain an understanding around the fundamentals of the...

Remote Access Technologies

Knox Hutchinson   06/08/2019

Join Knox Hutchinson as he covers different ways you can connect to a remote computer. Gain an understanding of RDP (Remote Desktop Protocol), Telnet, SSH, third-party remote access tools, and the...

Remote Management Access Fundamentals

Keith Barker   07/05/2019

Join Keith Barker as he teaches you the fundamentals of remote access management. Learn about the protocols and well-known ports used to remotely manage network devices. Gain an understanding of...

Scripting Basics

Knox Hutchinson   05/08/2019

Join Knox Hutchinson as he teaches you what scripting is, why it matters, and how to get started. Gain an understanding of script file types, basic data types, environment variables, comment syntax,...

Secure Clients and Servers

Keith Barker   26/07/2019

Join Keith Barker as he walks you through being able to identify the characteristics of what makes a server a server, how to protect mobile devices, as well as secure connectivity between clients and...

Select, Install and Configure Storage Devices

Jeremy Cioara   19/07/2019

Join Jeremy Cioara as he teaches you how to select, install, and configure the appropriate hard drive based on a user's performance and resiliency needs.   Learn about magnetic drives, SSD, SSD form...

Small Office / Home Office Printer Support

Jeremy Cioara   05/08/2019

Join Jeremy Cioara as he teaches you how to install and configure SOHO multi-function printers. Gain an understanding of common printer types, such as Inkjet and Laser; specialty printer types, such...

Social Engineering, Threats, and Vulnerabilities

Keith Barker   31/05/2019

Join Keith Barker as he teaches you how to identify and protect against social engineering, threats, and vulnerabilities. Learn how to reduce the risk of password attacks and various social...

TCP and UDP Fundamentals

Keith Barker   23/04/2019

Join Keith Barker as he covers the fundamentals of the most common transport layer protocols, Transmission Control Protocol (TCP) and User Datagram Protocol (UDP). Gain an understanding of well-known...

TCP/IP Protocol Fundamentals

Keith Barker   23/04/2019

Join Keith Barker as he covers the benefits of computer networking and the fundamentals of TCP/IP. Gain an understanding of network adapters, protocol stacks, network topologies, network services,...

Troubleshoot Hardware Components

Anthony Sequeira   12/08/2019

Join Anthony Sequeira as he teaches you how to troubleshoot components of common hardware devices. Learn how to troubleshoot internal hardware components and storage, including RAM, CPUs, power...

Troubleshoot Mobile Device Security

Knox Hutchinson   02/07/2019

Join Knox Hutchinson as he teaches you how to identify and prevent mobile threats, such as unintended WiFi connection, leaked personal data, and unauthorized camera and microphone...

Troubleshoot Mobile OSs and Apps

Knox Hutchinson   26/06/2019

Join Knox Hutchinson as he teaches you how to troubleshoot mobile operating system and application issues, such as intermittent wireless connectivity, extremely short battery life, slow performance,...

Troubleshoot Operating Systems

Knox Hutchinson   26/06/2019

Join Knox Hutchinson as he teaches you methodology you can use to troubleshoot common operating system issues, such as slow performance, application crashes, limited connectivity, failure to boot,...

Troubleshoot PC Security Issues

Knox Hutchinson   25/06/2019

Join Knox Hutchinson as he teaches you how to identify, prevent, and mitigate PC security issues.   Learn how to identify the signs, symptoms, and impact of malware. And gain the hard skills and soft...

Troubleshoot Wired and Wireless Networks

Anthony Sequeira   02/08/2019

Join Anthony Sequeira as he teaches you how to troubleshoot a variety of common wired and wireless network issues. Learn how to troubleshoot issues related to unavailable internet resources,...

Use a Best Practice Troubleshooting Methodology

Anthony Sequeira   05/08/2019

Join Anthony Sequeira as he teaches you a common best practice troubleshooting methodology you can use to to resolve hardware and network problems.   Learn how to identify a problem, establish a...

Use Appropriate Laptop Features

Anthony Sequeira   05/08/2019

Join Anthony Sequeira as he teaches you how to use appropriate laptop features. Gain an understanding of special function keys, docking stations, port replication, laptop locks, rotating screens,...

Use Microsoft Command-Line Tools

Garth Schulte   12/07/2019

Join Garth Schulte as he teaches you how to perform basic tasks with the Microsoft command line. Learn how to use the command line to navigate the file system, manage disks, configure networking,...

Use Microsoft Operating System Features and Tools

Garth Schulte   19/07/2019

Join Garth Schulte as he teaches you with an overview of all the Administrative Tools built in to Windows.   Gain an understanding on how to control and manage the Windows Operating System, along...

Use Microsoft Windows Control Panel Utilities

Garth Schulte   26/07/2019

Join Garth Schulte as he teaches you the tools available within the Control Panel. There are no requirements or pre-requisite for this training. Gain an understanding of the differences between the...

Use Outlook 2019 Contacts

Simona Millham   26/07/2019

Join Simona Millham as she walks you through the steps to create, import, and export contacts, and use Mail Merge to create personalized letters and address labels.   Gain an understanding of...

WiFi Protocols and Security Fundamentals

Keith Barker   19/07/2019

Join Keith Barker as he walks you through WiFi access points and the concepts for selecting the right channels, frequencies, mesh networking, protocols, security options, and centralized management....

Windows IPv4 Troubleshooting Fundamentals

Keith Barker   10/05/2019

Join Keith Barker as he covers the fundamentals of Windows IPv4 troubleshooting. Learn how to use command line interface (CLI) tools and troubleshooting strategies to solve IPv4-related issues on a...

Windows Operating System Security Settings

Garth Schulte   06/08/2019

Join Garth Schulte as he teaches you about Microsoft Windows OS security settings. Learn how to explain the differences between a user and group, how to configure NTFS and share permissions, and how...

Wireless Security Protocols and Authentication Methods

Keith Barker   29/05/2019

Join Keith Barker as he teaches you about wireless security protocols and authentication methods.   You'll learn about WiFi channels, WiFi encryption, and WiFi authentication. And you'll cover WPA2...

Work with Linux Permissions and Ownership

Shawn Powers   02/08/2019

Join Shawn Powers as he teaches you how to read and assign file and folder permissions on the Linux command line.   Learn how to use symbolic notation and octal notation, how to use access control...

Juniper JNCIA-Junos (JN0-102)	Anthony Sequeira	18/08/2015

This Juniper Networks training course with Anthony Sequeira will teach you the fundamentals of networking and the Junos operating system. Learn the basics of Junos configuration, routing, monitoring,...

Juniper JNCIS-ENT (JN0-343) – BGP	Anthony Sequeira	22/08/2016

Note: The exam associated with this course was retired. However, this course still retains value as a training resource. This course is the fifth of seven courses designed to fully prepare you for...

Juniper JNCIS-ENT (JN0-343) – High Availability	Anthony Sequeira	01/09/2016

Note: The exam associated with this course was retired. However, this course still retains value as a training resource. This course is the final course in our seven-course series designed to fully...

Juniper JNCIS-ENT (JN0-343) – IS-IS	Anthony Sequeira	27/07/2016

Note: The exam associated with this course was retired. However, this course still retains value as a training resource. This course is the fourth of seven courses designed to fully prepare you for...

Juniper JNCIS-ENT (JN0-343) - Layer 2	Anthony Sequeira	27/04/2016

Note: The exam associated with this course was retired. However, this course still retains value as a training resource. This course is the first of seven courses designed to fully prepare you for...

Juniper JNCIS-ENT (JN0-343) - Layer 2 Security	Anthony Sequeira	19/05/2016

Note: The exam associated with this course was retired. However, this course still retains value as a training resource. This CBT Nuggets course is the second of seven courses designed to fully...

Juniper JNCIS-ENT (JN0-343) - OSPF	Anthony Sequeira	30/06/2016

Note: The exam associated with this course was retired. However, this course still retains value as a training resource. This course is the third of seven courses designed to fully prepare you for...

Juniper JNCIS-ENT (JN0-343) – Protocol Independent Routing Tunnels	Anthony Sequeira	13/09/2016

Note: The exam associated with this course was retired. However, this course still retains value as a training resource. This course is the sixth of seven courses designed to fully prepare you for...

Open Source

17 courses

Course Title	Trainer	Released
Ansible Essentials	Shawn Powers	06/09/2017

This video training course with CBT Nuggets trainer Shawn Powers walks you through the essentials of Ansible, the open source automation platform used to automate application deployment, cloud...

CentOS System Administrator Prep	Shawn Powers	20/01/2014

This CentOS course with trainer Shawn Powers is designed to prepare a new Linux system administrator for certification and general skills. CentOS is the freely downloadable version of Linux created...

Chef: Methodology	Shawn Powers	11/06/2018

In this course, trainer Shawn Powers teaches you about Chef, the configuration management software used for infrastructure automation. Follow along in the lab environment as you learn how to write...

Chef: Setting Up the Chef Environment	Shawn Powers	06/03/2018

In this course, trainer Shawn Powers teaches you about Chef, the configuration management software used for infrastructure automation. Follow along in the lab environment as you learn to design,...

Chef: Using Chef
Shawn Powers   28/03/2018

In this course, trainer Shawn Powers teaches you about Chef, the configuration management software used for infrastructure automation. Follow along in the lab environment as you learn to create...

Everything Linux
Shawn Powers   29/11/2017

We'll be adding more Nuggets to this course. Please check back soon! In this course, trainer Shawn Powers walks you through everything you need to know to master Linux! Shawn takes a practical...

Linux Essentials
Shawn Powers   24/06/2014

LPI has released version 1.6 of the Linux Essentials exam. This course is associated with version 1.5, which will be available for testing until July 1, 2019. This Linux training course with Shawn...

Linux Foundation Certified Sysadmin
Shawn Powers   06/12/2018

This Linux course with Shawn Powers covers common job tasks and scenarios faced by real world system administrators. Learn essential commands, user and group management, networking, storage...

Linux Hardware and System Configuration
Shawn Powers   01/03/2019

This course with Shawn Powers will teach you about the hardware and system configuration of servers running the Linux operating system. Learn about the boot process, kernel modules, network...

Linux Professional Institute LPIC-2 (201-400)
Shawn Powers   12/01/2016

Note: The exam associated with this course was retired July 31, 2017. However, this course still retains value as a training resource. This LPIC-2 course by Shawn Powers covers the requisite skills...

Linux Professional Institute LPIC-2 (202-400)
Shawn Powers   22/12/2016

Note: The exam associated with this course was retired July 31, 2017. However, this course still retains value as a training resource. This LPIC-2 course by Shawn Powers covers the requisite skills...

Linux Systems Operation and Maintenance
Shawn Powers   02/07/2019

Join Shawn Powers as he teaches you how to perform systems operations and maintenance on servers running the Linux operating system. Learn how to work with users, groups, files, services, and jobs in...

LPI Linux LPIC-1 and CompTIA Linux+ Prep 4.0
Shawn Powers   23/03/2015

This LPIC-1 and CompTIA Linux+ course with Shawn Powers covers the essentials for entry-level system administrators supporting Linux systems. Learn about the command line interface, system...

Penetration Testing with Linux Tools
Keith Barker   15/04/2013

This course with Keith Barker will teach you how to use Kali Linux tools for authorized penetration testing and vulnerability analysis of both wired and wireless networks. These tools should not be...

Puppet Fundamentals
Shawn Powers   26/02/2016

Puppet is a configuration management system commonly used in a DevOps environment. This course explains the initial setup and configuration of a Puppet implementation, along with multiple use case...

Ubuntu
Shawn Powers   06/08/2013

Ubuntu is historically known for making Linux on the desktop more feasible for end users. This course covers the use of Ubuntu in the server room. With its Debian roots and commercial backing, Ubuntu...

White Hat Hacking v10
Keith Barker   02/07/2018

This white hat hacking course teaches you the ethical hacking tools and techniques needed to improve your network's security posture. With a hands-on focus, Keith Barker will teach you how to...

Microsoft

140 courses

Course Title	Trainer	Released

Administer Office 365 With PowerShell

Ben Finkel   03/09/2019

Join Ben Finkel as he teaches you how to administer your Office 365 tenancy with PowerShell.   Gain the skills you need to manage user accounts, licenses, groups, and group memberships by using...

Administering Microsoft SCCM and Cloud Services (70-703)

Garth Schulte   24/12/2018

In this course, trainer Garth Schulte teaches you how to administer devices and applications across medium, large, and enterprise organizations using the Microsoft System Center Configuration...

Advanced Virtual Networking with Azure

Knox Hutchinson   28/03/2019

This Microsoft training course with Knox Hutchinson teaches you how to implement, monitor, and troubleshoot advanced virtual networking features in Azure, such as Azure load balancer, Azure VPN...

Analyze Resource Utilization and Consumption with Azure

Chuck Keith   21/06/2019

Join Chuck Keith as he teaches you how to analyze resource utilization and consumption in Azure. Learn how to configure resource diagnostics with the Azure Portal, Azure CLI, and PowerShell; how to...

Application Deployment

Ben Finkel   03/09/2019

Join Ben Finkel as he teaches you how to register and manage application access for users in Microsoft Office 365. Learn how to configure application registration in Azure AD, how to configure Azure...

Azure App Services

Knox Hutchinson   21/03/2019

This Microsoft training course with Knox Hutchinson teaches you how to implement and manage application services in Azure. Learn about serverless computing, Service Bus, App Service Plans, SSL...

Azure Batch Services

Knox Hutchinson   23/04/2019

Join Knox Hutchinson as he teaches you how to implement batch jobs with Azure Batch Services. Learn how to run and manage batch jobs with the Batch Service API, Azure CLI, Azure portal, and other...

Azure Caching and Content Delivery

Knox Hutchinson   24/05/2019

Join Knox Hutchinson as he teaches you about caching and content delivery within Azure solutions.   Gain an understanding of the Content Delivery Network (CDN) and the Azure Redis Cache service....

Azure Cloud Concepts

Chuck Keith   12/02/2019

In this Microsoft Azure course, trainer Chuck Keith will teach you the fundamental concepts of cloud computing. Gain an understanding of cloud services, such as high availability, scalability, and...

Azure Container Services

Knox Hutchinson   23/04/2019

Join Knox Hutchinson as he teaches you how to create containerized solutions in Azure. Learn how to create an Azure Managed Kubernetes Service (AKS) cluster, how to create container images, how to...

Azure Pricing and Support

Chuck Keith   23/04/2019

In this Microsoft course, trainer Chuck Keith will teach you about the service lifecycle, subscriptions, costs, and support options in Azure. Gain an understanding of service level agreements...

Azure Security, Privacy, Compliance, and Trust

Chuck Keith   12/04/2019

In this Microsoft course, trainer Chuck Keith will teach you about the network security services, Identity services, governance methodologies, and monitoring options in Azure. Gain an understanding...

Azure SQL Essentials

Knox Hutchinson   27/02/2019

This Microsoft training course with Knox Hutchinson teaches you the essentials of the Azure SQL data platform. Throughout this course, you'll learn about the Azure Data Studio, Azure SQL Data...

Azure Table Storage Solutions

Knox Hutchinson   14/05/2019

Join Knox Hutchinson as he teaches you how to develop solutions that use storage tables. Learn how to design and implement policies for tables, how to query table storage by using code, and how to...

Beyond Email, Calendar, and Contacts in Outlook 2019

Simona Millham   02/08/2019

Join Simona Millham as she teaches you about tasks, notes, and journal functionality in Microsoft Outlook. Learn how to create Outlook tasks and mark them as complete, how to manage somebody else's...

Beyond Email, Calendar, and Contacts in Outlook for Office 365

Simona Millham 02/08/2019

Join Simona Millham as she teaches you about tasks, notes, and journal functionality in Microsoft Outlook. Learn how to create Outlook tasks and mark them as complete, how to manage somebody else's...

Configure Azure Files

Chuck Keith 09/08/2019

Join Chuck Keith as he teaches you how to manage data in your Azure storage account. Learn how to create an Azure file share and sync group, how to set up Azure File Sync, how to check the health of...

Consolidate Multiple Accounts with Outlook 2019

Simona Millham 11/07/2019

Join Simona Millham as she teaches you how to consolidate multiple email accounts with Outlook. Learn how to connect Office 365, Outlook.com, Exchange, Google, and other less common accounts to your...

Consolidate Multiple Accounts with Outlook for Office 365

Simona Millham 11/07/2019

Join Simona Millham as she teaches you how to consolidate multiple email accounts with Outlook for Office 365. Learn how to connect Office 365, Outlook.com, Exchange, Google, and other less common...

Core Azure Services

Chuck Keith 12/03/2019

In this Microsoft course, trainer Chuck Keith will teach you the fundamentals of the core services offered in Azure. Gain an understanding of the core architectural components, such as regions and...

Create and Configure a VM for Windows and Linux

Chuck Keith 09/08/2019

Join Chuck Keith as he teaches you how to create highly-available Linux and Windows virtual machines (VMs) in Azure. Learn how to configure high availability with availability sets, availability...

Create and Configure Storage Accounts in Azure

Chuck Keith 10/07/2019

Join Chuck Keith as he teaches you how to create and configure storage accounts in Microsoft Azure. Learn how to configure network access to a storage account, how to generate a shared access...

Create Azure App Service Web Apps

Knox Hutchinson 25/04/2019

Join Knox Hutchinson as he teaches you how to create web apps with Azure App Service. Learn how to use WebJobs to create background tasks and how to enable diagnostics logging. This skill is part of...

Deploy Azure Virtual Machines with Code

Knox Hutchinson 23/04/2019

Join Knox Hutchinson as he teaches you how to implement solutions that use virtual machines (VMs). Learn how to provision VMs, how to create ARM templates, and how to configure Azure Disk Encryption...

Develop Access Controls with Azure

Knox Hutchinson 12/06/2019

Join Knox Hutchinson as he teaches you how to deploy access control policies on Azure services. Gain an understanding of shared access signatures. And learn how to use claims and roles to control...

Develop Apps that use Azure Cosmos DB

Knox Hutchinson 30/04/2019

Join Knox Hutchinson as he teaches you how to develop Azure solutions that use relational databases. Learn how to deploy a Cosmos DB globally and locally, how to deploy databases, collections, and...

Develop Apps that use Azure SQL Databases

Knox Hutchinson 30/04/2019

Join Knox Hutchinson as he teaches you how to develop Azure solutions that use relational databases. Learn how to configure relational databases and SQL Database elastic pools, and gain the skills...

Develop Azure App Service APIs

Knox Hutchinson 12/06/2019

Join Knox Hutchinson as he teaches you how to deploy a secure RESTful API to be hosted in Azure. Gain an understanding of the Azure Web App Service. Learn how to deploy an API app within an App...

Develop Azure Blob Storage Solutions

Knox Hutchinson 14/05/2019

Join Knox Hutchinson as he teaches you how to develop Azure solutions that use Blob storage. Learn how to develop apps that use Blob storage, how to develop apps that allow end users to upload...

Develop Azure Event-Based Solutions

Knox Hutchinson 16/05/2019

Join Knox Hutchinson as he teaches you how to develop event-based solutions in Azure. Learn how to implement solutions that use Azure Event Grid, Azure Notification Hubs, and Azure Event Hub. This...

Develop Azure Function Apps

Knox Hutchinson   12/06/2019

Join Knox Hutchinson as he teaches you how to develop and deploy Azure Functions.   Learn how to implement input and output bindings for a function, how to create Azure Function apps by using Visual...

Develop Azure Logic Apps

Knox Hutchinson   16/05/2019

Join Knox Hutchinson as he teaches you how to develop an App Service Logic App in Azure. Learn how to create a Logic App, a custom connector for Logic Apps, and a custom template for Logic...

Develop Azure Message-Based Solutions

Knox Hutchinson   07/05/2019

Join Knox Hutchinson as he teaches you how to develop message-based solutions in Azure. Learn how to implement solutions that use Azure Service Bus and Azure Queue Storage queues. This skill is part...

Develop Azure Mobile Apps

Knox Hutchinson   12/06/2019

Join Knox Hutchinson as he teaches you how to deploy a mobile application backend to Azure.   Gain an understanding of Easy Tables, offline sync, and front-end client code. Learn how to configure...

Develop for Azure Scalability

Knox Hutchinson   16/05/2019

Join Knox Hutchinson as he teaches you how to develop code in Azure that supports the scalability of apps and services. Gain an understanding of elasticity, autoscaling rules, autoscaling patterns,...

Establish Azure API Gateways

Knox Hutchinson   16/05/2019

Join Knox Hutchinson as he teaches you how to establish API gateways in Azure.   Learn how to create and deploy an APIM instance with products and APIs, how to configure authentication for APIs, how...

Evaluate and Perform Server Migration with Azure

Knox Hutchinson   12/04/2019

This Microsoft training course with Knox Hutchinson teaches you how to migrate servers to Azure with Azure Migrate, Azure Site Recovery (ASR), and P2V. Learn how to identify ports to open, set up...

Implement Azure Authentication

Knox Hutchinson   24/05/2019

Join Knox Hutchinson as he teaches you how to develop applications that support Azure authentication and authorization.   Gain an understanding of Active Directory (AD), Azure AD, and the Microsoft...

Implement Azure Backup

Chuck Keith   09/08/2019

Join Chuck Keith as he teaches you how to implement Azure Backup, Azure's solution to BCDR (business continuity and disaster recovery). Learn how to create a Recovery Services vault in Azure and...

Implement Domain Name System (DNS)

Garth Schulte   10/07/2019

Join Garth Schulte as he teaches you how to implement DNS (Domain Name System) services, IPAM, and DHCP in Windows Server 2016. Learn how to configure DNS policies, forwarders, delegation, and...

Implement High Availability

Garth Schulte   19/04/2019

In this course, Garth Schulte teaches you how to implement high availability, disaster recovery, failover clustering, and Storage Spaces Direct in Windows Server 2016.   Learn how to perform a live...

Implement High Performance Network Solutions

Garth Schulte   23/08/2019

Join Garth Schulte as he teaches you how to configure Windows Server 2016 and network adapter features in order to enhance network performance. Gain an understanding of SMB Multichannel, SMB Direct,...

Implement Hyper-V

Garth Schulte   21/03/2019

In this course, Garth Schulte teaches you how to implement Hyper-V in a Windows Server 2016 environment. Learn how to configure Hyper-V, Hyper-V storage, Hyper-V networking, and virtual machine...

Implement Network Connectivity and Remote Access Solutions

Garth Schulte   14/08/2019

Join Garth Schulte as he teaches you how to configure site-to-site virtual private network (VPN) and DirectAccess solutions in Windows Server 2016. Gain an understanding of VPN protocol options,...

Implement Storage Solutions

Garth Schulte   01/02/2019

In this course, Garth Schulte teaches you how to implement Windows server storage and data deduplication. Throughout this course, you'll learn about storage pools, storage replica, iSCSI storage, and...

Implement Windows Containers

Garth Schulte   12/03/2019

In this course, Garth Schulte teaches you how to deploy and manage containers in a Windows Server 2016 environment.   Gain an understanding of Docker start-up options, container networking, and the...

Import and Export Data to Azure

Chuck Keith   09/08/2019

Join Chuck Keith as he teaches you how to import and export data with your Azure Storage account.   Learn how to create an import and export from an Azure job, how to use Azure Data Box, how to...

Install and Configure Domain Controllers

Garth Schulte   17/09/2019

Join Garth Schulte as he teaches you how to install and configure Active Directory Domain Services (AD DS).   Learn how to install a new Active Directory forest, how to add and remove a domain...

Install Windows Server in Host and Compute Environments

Garth Schulte   01/02/2019

In this course, Garth Schulte teaches you how to install Windows servers in host and compute environments.   Learn to install and manage servers, features, and roles; create, manage, and maintain...

Integrate Azure Search

Knox Hutchinson   07/05/2019

Join Knox Hutchinson as he teaches you how to integrate Azure Search within solutions.   Learn how to deploy Azure Search, how to create an index and import searchable data using .Net Core, how to...

IT Expert: Office 365 Domain Structure, ADMT, and Federations

Jeremy Cioara   09/02/2018

In this real-world training module, Jeremy Cioara provides you with the practical guidance needed when migrating your company to the cloud. Learn how authentication, the Active Directory Migration...

IT Expert: Office 365 Exchange Migration

Jeremy Cioara   13/05/2018

In this real-world training module, Jeremy Cioara provides the practical guidance you need when migrating your company to the cloud. Follow along as Jeremy teaches you how to prepare and deploy a...

Manage and Monitor Servers using Windows Admin Center

Garth Schulte   10/07/2019

Join Garth Schulte as he covers the changes made to Microsoft's 70-740 certification exam. Learn how to install Windows Admin Center in desktop mode and gateway mode, how to configure and customize...

Manage Authentication and MFA

Ben Finkel   13/08/2019

Join Ben Finkel as he teaches you how to configure various basic and advanced authentication methods for Office 365 users including multi-factor authentication (MFA). Learn how to configure...

Manage Azure AD Identities and Roles

Ben Finkel   02/08/2019

Join Ben Finkel as he teaches you how manage and maintain user accounts, roles, and permissions in an Office 365 tenant. Learn how to bulk import and update users with PowerShell cmdlets or...

Manage Azure Subscriptions

Chuck Keith   16/05/2019

Join Chuck Keith as he teaches you how to manage Azure subscriptions.   Learn how to grant access with RBAC, how to assign administrator permissions, how to configure cost center quotas and tagging,...

Manage Email Efficiently with Outlook 2019

Simona Millham   28/05/2019

Join Simona Millham as she teaches you how to manage your email in Outlook 2019. Learn how to create an email signature, how to automate the management of your inbox with rules, and how to create...

Manage Email Efficiently with Outlook for Office 365

Simona Millham   28/05/2019

Join Simona Millham as she teaches you how to manage your email in Outlook for Office 365. Learn how to create an email signature, how to automate the management of your inbox with rules, and how to...

Manage Microsoft 365 Subscription and Tenant Health

Ben Finkel   09/08/2019

Join Ben Finkel as he teaches you how to implement and maintain an Office 365 deployment. Learn how to monitor the health and performance of an Office 365 tenant using a variety of tools supplied by...

Manage Resource Groups with Azure

Chuck Keith   24/05/2019

Join Chuck Keith as he teaches you how to manage resource groups with the Azure Portal, Azure CLI, and PowerShell. Learn how to create, delete, and lock resource groups; how to move a resource to a...

Microsoft Azure: Architecting Solutions (70-535)

Ben Finkel   22/06/2018

Note: The exam associated with this course was retired December 31, 2018. However, this course still retains value as a training resource. In this Microsoft training course, trainer Ben Finkel will...

Microsoft Azure: Developing Solutions (70-532)

Ben Finkel   12/10/2015

Note: The exam associated with this course was retired December 31, 2018. However, this course still retains value as a training resource. This Microsoft training course with Ben Finkel will teach...

Microsoft Azure: Implementing Infrastructure Solutions (70-533)

Ben Finkel   25/01/2018

Note: The exam associated with this course was retired December 31, 2018. However, this course still retains value as a training resource. In this Microsoft Azure course, trainer Ben Finkel will...

Microsoft Excel 2016

Simona Millham   17/08/2016

This Microsoft Excel 2016 training course with Simona Millham will teach you fundamental and advanced spreadsheet skills. With real-world examples taken from a business environment, you'll learn...

Microsoft Excel 2019

Simona Millham   19/04/2019

In this course, Simona Millham will teach you how to use Microsoft Excel 2019. You'll learn the fundamentals of functions, chart types, conditional formatting, pivot tables, and what-if analysis....

Microsoft Excel for Office 365

Simona Millham   19/04/2019

In this course, Simona Millham will teach you how to use Microsoft Excel with an Office 365 subscription. You'll learn the fundamentals of functions, chart types, conditional formatting, pivot...

Microsoft Exchange Server 2016: Mailbox Databases

Anthony Sequeira   08/11/2018

In this Microsoft course, trainer Anthony Sequeira will teach you how to deploy, manage, and troubleshoot mailbox databases on Exchange Server 2016. Learn about high availability, site-resilient...

Microsoft MCSA Analyzing and Visualizing Data with Power BI (70-778)

Knox Hutchinson   21/11/2018

In this Microsoft course, Knox Hutchinson will prepare you to analyze and visualize data using Microsoft Power BI. Throughout this course, you will learn to consume and transform data with Power BI...

Microsoft MCSA SQL Server 2016 (70-761)

Garth Schulte   20/11/2017

In this course, trainer Garth Schulte covers Microsoft SQL Server 2016 and shows you how to manage data, query data, and program databases with Transact-SQL.   Take your SQL Server knowledge to the...

Microsoft MCSA SQL Server 2016 (70-762)

Garth Schulte   15/02/2018

In this course, trainer Garth Schulte covers Microsoft SQL Server 2016 and shows you how to design, implement, and optimize database objects; implement programmability objects; manage database...

Microsoft MCSA SQL Server 2016 (70-764)

Garth Schulte   24/04/2018

In this course, trainer Garth Schulte teaches you how to administer a SQL Server 2016 Database. Prepare for Microsoft's 70-764 certification exam as you learn to configure data access and auditing;...

Microsoft MCSA SQL Server 2016 (70-765)

Garth Schulte   20/08/2018

In this course, trainer Garth Schulte teaches you how to provision a SQL Server 2016 Database. Learn to manage databases, instances, and storage; implement SQL in Azure; and more.   Take your SQL...

Microsoft Office 365: Managing Identities and Requirements (70-346)

Ben Finkel   23/11/2016

Note: The exam associated with this course was retired April 30, 2019. However, this course still retains value as a training resource. In this Microsoft course, trainer Ben Finkel will teach you...

Microsoft OneNote

Simona Millham   11/01/2018

This Microsoft training course with Simona Millham covers how to use Microsoft OneNote, the free-form information gathering product used to collect notes, drawings, web clippings, and audio...

Microsoft Outlook 2016

Simona Millham   11/11/2016

Simona Millham shows us how to use Microsoft Outlook 2016 to manage your Email, Calendar, Contacts, and Tasks. This video training covers all aspects of Microsoft Outlook 2016 for the end user, with...

Microsoft PowerPoint 2016
Simona Millham   08/05/2017

This Microsoft video training with Microsoft Office trainer Simona Millham covers how to use the latest version of Microsoft's presentation software, PowerPoint. Simona walks you through practical...

Microsoft PowerShell 4 Foundations
Garth Schulte   21/12/2015

In this PowerShell course, trainer Garth Schulte will teach you about commands, pipelines, objects, automation, scripting, and more. Garth starts with a single machine to cover PowerShell basics and...

Microsoft PowerShell 6 Foundations
Jacob Moran   12/02/2019

In this course, Jacob Moran will teach you the essentials of PowerShell Core, the cross-platform evolution of Windows PowerShell. Learn to simplify the common job tasks you'll face as a system...

Microsoft PowerShell Reference Training
Don Jones   06/03/2014

With this course, you can learn PowerShell from the ground up. Cover the basics of scripting and toolmaking, and learn to make command-line and graphical tools from scratch. Then, move into advanced...

Microsoft Programming .NET 4 Software Development Fundamentals 98-361
Garth Schulte   23/03/2012

Whether you're looking to begin a career in software development, freshen up on your fundamentals, study for the 98-361 MTA exam, or just learn how to develop software for fun...the road starts here...

Microsoft Project Essentials
Simona Millham   17/10/2018

This training course with Simona Millham will teach you how to use Microsoft Project to create and manage project schedules, budgets, and resources; track progress and identify over-allocations; work...

Microsoft SCCM 2012 70-243 R2
James Conrad   29/05/2015

Note: The exam associated with this course was retired by Microsoft. However, this course still retains value as a training resource. This Microsoft training with James Conrad will teach you how to...

Microsoft SharePoint 2016 Fundamentals
Keith Barker   06/02/2017

This Microsoft course with Keith Barker covers the fundamental end-user and administration skills you should have when using SharePoint Server 2016. Learn to navigate through sites and site...

Microsoft SQL Server 2012: Administering Databases (70-462)
Garth Schulte   12/11/2012

This SQL Server video training with Garth Schulte covers Microsoft's in-demand server including how to install SQL Server 2012, implement a backup strategy, and more. It also prepares learners for...

Microsoft SQL Server 2012: Designing Database Solutions (70-465)
Garth Schulte   09/05/2014

This Microsoft SQL Server video training with Garth Schulte covers Microsoft's in-demand database server, including how to plan, design and implement instances, databases, security, administration,...

Microsoft SQL Server 2012: Developing Databases (70-464)
Garth Schulte   04/12/2013

This Microsoft SQL Server video training course with Garth Schulte covers Microsoft's in-demand server, including how to build, implement, optimize and troubleshoot SQL Server database, and...

Microsoft SQL Server 2012: Implementing a Data Warehouse (70-463)
Garth Schulte   22/04/2013

This SQL Server video training course with Garth Schulte covers Microsoft's database management system including designing and implementing dimensions, troubleshooting data integration issues, and...

Microsoft SQL Server 2012: Querying (70-461)
Garth Schulte   12/06/2012

This Microsoft training course with Garth Schulte will teach you how to write queries using SQL Server 2012. Learn to create and alter tables with T-SQL, implement subqueries, manage transactions,...

Microsoft SQL Server 2014: Designing Database Solutions (70-465)
Garth Schulte   21/08/2015

This Microsoft SQL Server 2014 video training course with Garth Schulte covers Microsoft Azure integration with Microsoft's SQL Server database server, including full and hybrid cloud...

Microsoft SQL Server 2014: Developing Databases (70-464)
Garth Schulte   06/05/2015

This Microsoft SQL Server training course with Garth Schulte covers Microsoft's SQL Server database server, including how to design, implement, optimize, and troubleshoot SQL Server 2014 database and...

Microsoft SQL Server: Database Fundamentals (98-364)

Garth Schulte   03/06/2016

In this Microsoft SQL Server course, trainer Garth Schulte teaches you the fundamentals of creating, querying, and administering databases. This training will prepare you for Microsoft's 98-364...

Microsoft SQL: Data Modeling

Knox Hutchinson   01/02/2019

This Microsoft training course with Knox Hutchinson teaches you how to design multidimensional and tabular business intelligence (BI) semantic models. This is the first of a three-part series that...

Microsoft SQL: Data Quality

Knox Hutchinson   25/01/2019

This Microsoft training course with Knox Hutchinson teaches you how implement and manage data quality solutions using Data Quality Services (DQS) and Master Data Services (MDS). This is the last of...

Microsoft SQL: Designing a Data Warehouse

Knox Hutchinson   22/01/2019

This Microsoft training course with Knox Hutchinson teaches you how to design, implement, and maintain a data warehouse using SQL.   This is the first of a three-part series that will prepare you for...

Microsoft SQL: MDX and DAX

Knox Hutchinson   12/02/2019

This Microsoft training course with Knox Hutchinson teaches you how to create and implement queries using multidimensional expressions (MDX) and data analysis expressions (DAX). This is the second...

Microsoft SQL: SSAS Tuning

Knox Hutchinson   14/02/2019

This Microsoft training course with Knox Hutchinson teaches you how to configure and manage SQL Server Analysis Services (SSAS). This is the last of a three-part series that will prepare you for...

Microsoft SQL: SSIS

Knox Hutchinson   25/01/2019

This Microsoft training course with Knox Hutchinson teaches you how to implement an extract, transform, and load (ETL) solution using a SQL Server Integration Services (SSIS) package. This is the...

Terms and Conditions for SIN 132-32

TERMS AND CONDITIONS APPLICABLE TO TERM SOFTWARE LICENSES (SPECIAL ITEM NUMBER 132-32), PERPETUAL SOFTWARE LICENSES (SPECIAL ITEM NUMBER 132-33) AND MAINTENANCE AS A SERVICE (SPECIAL ITEM NUMBER 132-34) OF GENERAL PURPOSE COMMERCIAL INFORMATION TECHNOLOGY SOFTWARE

1. INSPECTION/ACCEPTANCE

The Contractor shall only tender for acceptance those items that conform to the requirements of this contract. The ordering activity reserves the right to inspect or test any software that has been tendered for acceptance. The ordering activity may require repair or replacement of nonconforming software at no increase in contract price. The ordering activity must exercise its postacceptance rights (1) within a reasonable time after the defect was discovered or should have been discovered; and (2) before any substantial change occurs in the condition of the software, unless the change is due to the defect in the software.

2. ENTERPRISE USER LICENSE AGREEMENTS REQUIREMENTS (EULA)

See Appendix A

3. GUARANTEE/WARRANTY

a. Unless specified otherwise in this contract, the Contractor's standard commercial guarantee/warranty as stated in the contract's commercial pricelist will apply to this contract. Any additional warranty, as applicable, is covered in Appendix A.

b. The Contractor warrants and implies that the items delivered hereunder are merchantable and fit for use for theparticular purpose described in this contract. If no implied warranties are given, an express warranty of at least 60 days must be given in accordance with FAR 12.404(b)(2)

c. Limitation of Liability. Except as otherwise provided by an express or implied warranty, the Contractor will not be liable to the ordering activity for consequential damages resulting from any defect or deficiencies in accepted items.

4. TECHNICAL SERVICES

The Contractor, without additional charge to the ordering activity, shall provide a hot line technical support number for the purpose of providing user assistance and guidance in the implementation of the software:

- Toll Free in the United States: 888-507-6283
- International: 541-284-5522
- The technical support number is available from 6:00 AM to 5:00 PM PST (Monday - Friday).
- CBT Nuggets' Learner Support team is also available through Live Chat accessible at cbtnuggets.com/contactus from 5:00AM to 5:00PM PST (Monday - Friday).

5. SOFTWARE MAINTENANCE

a. Software maintenance as it is defined as follows based upon the product or service's associated SIN:

  X   1. Software Maintenance as a Product (SIN 132-32 or SIN 132-33)

Software maintenance as a product includes the publishing of bug/defect fixes via patches and updates/upgrades in function and technology to maintain the operability and usability of the software product. It may also include other no charge support that are included in the purchase price of the product in the commercial marketplace. No charge support includes items such as user blogs, discussion forums, on-line help libraries and FAQs (Frequently Asked Questions), hosted chat rooms, and limited telephone, email and/or web-based general technical support for user's self diagnostics.

Software maintenance as a product does NOT include the creation, design, implementation, integration, etc. of a software package. These examples are considered software maintenance as a service.
Software Maintenance as a product is billed at the time of purchase.

  _   2. Software Maintenance as a Service (SIN 132-34)

Software maintenance as a service creates, designs, implements, and/or integrates customized changes to software that solve one or more problems and is not included with the price of the software. Software maintenance as a service includes person-to-person

communications regardless of the medium used to communicate: telephone support, on-line technical support, customized support, and/or technical expertise which are charged commercially. Software maintenance as a service is billed arrears in accordance with 31 U.S.C. 3324.

Software maintenance as a service is billed in arrears in accordance with 31 U.S.C. 3324.

b. Invoices for maintenance service shall be submitted by the Contractor on a quarterly or monthly basis, after the completion of such period. Maintenance charges must be paid in arrears (31 U.S.C. 3324). PROMPT PAYMENT DISCOUNT, IF APPLICABLE, SHALL BE SHOWN ON THE INVOICE.

6. PERIODS OF TERM LICENSES (SIN 132-32) AND MAINTENANCE (SIN 132-34)
a. The Contractor shall honor orders for periods for the duration of the contract period or a lessor period of time.
b. Term licenses and/or maintenance may be discontinued by the ordering activity on thirty (30) calendar days written notice to the Contractor.
c. Annual Funding. When annually appropriated funds are cited on an order for term licenses and/or maintenance, the period of the term licenses and/or maintenance shall automatically expire on September 30 of the contract period, or at the end of the contract period, whichever occurs first. Renewal of the term licenses and/or maintenance orders citing the new appropriation shall be required, if the term licenses and/or maintenance is to be continued during any remainder of the contract period.
d. Cross-Year Funding Within Contract Period. Where an ordering activity's specific appropriation authority provides for funds in excess of a 12 month (fiscal year) period, the ordering activity may place an order under this schedule contract for a period up to the expiration of the contract period, notwithstanding the intervening fiscal years.
e. Ordering activities should notify the Contractor in writing thirty (30) calendar days prior to the expiration of an order, if the term licenses and/or maintenance is to be terminated at that time. Orders for the continuation of term licenses and/or maintenance will be required if the term licenses and/or maintenance is to be continued during the subsequent period.

7. CONVERSION FROM TERM LICENSE TO PERPETUAL LICENSE (SIN 133-33)
a. The ordering activity may convert term licenses to perpetual licenses for any or all software at any time following acceptance of software. At the request of the ordering activity the Contractor shall furnish, within ten (l0) calendar days, for each software product that is contemplated for conversion, the total amount of conversion credits which have accrued while the software was on a term license and the date of the last update or enhancement.
b. Conversion credits which are provided shall, within the limits specified, continue to accrue from one contract period to the next, provided the software remains on a term license within the ordering activity.
c. The term license for each software product shall be discontinued on the day immediately preceding the effective date of conversion from a term license to a perpetual license.
d. The price the ordering activity shall pay will be the perpetual license price that prevailed at the time such software was initially ordered under a term license, or the perpetual license price prevailing at the time of conversion from a term license to a perpetual license, whichever is the less, minus an amount equal to _____% of all term license payments during the period that the software was under a term license within the ordering activity.

8. TERM LICENSE CESSATION (SIN 133-33)
a. After a software product has been on a continuous term license for a period of _____ * months, a fully paid-up, non-exclusive, perpetual license for the software product shall automatically accrue to the ordering activity. The period of continuous term license for automatic accrual of a fully paid-up perpetual license does not have to be achieved during a particular fiscal year; it is a written Contractor commitment which continues to be available for software that is initially ordered under this contract, until a fully paid-up perpetual license accrues to the ordering activity. However, should the term license of the software be discontinued before the specified period of the continuous term license has been satisfied, the perpetual license accrual shall be forfeited.
b. The Contractor agrees to provide updates and maintenance service for the software after a perpetual license has accrued, at the prices and terms of Special Item Number l32-34, if the licensee elects to order such services. Title to the software shall remain with the Contractor.

9.UTILIZATION LIMITATIONS - (SIN 132-32, SIN 132-33, AND SIN 132-34)
a. Software acquisition is limited to commercial computer software defined in FAR Part 2.101.
b. When acquired by the ordering activity, commercial computer software and related documentation so legend shall be subject to the following:
   (1) Title to and ownership of the software and documentation shall remain with the Contractor, unless otherwise specified.

(2) Software licenses are by site and by ordering activity. An ordering activity is defined as a cabinet level or independent ordering activity. The software may be used by any subdivision of the ordering activity (service, bureau, division, command, etc.) that has access to the site the software is placed at, even if the subdivision did not participate in the acquisition of the software. Further, the software may be used on a sharing basis where multiple agencies have joint projects that can be satisfied by the use of the software placed at one ordering activity's site. This would allow other agencies access to one ordering activity's database. For ordering activity public domain databases, user agencies and third parties may use the computer program to enter, retrieve, analyze and present data. The user ordering activity will take appropriate action by instruction, agreement, or otherwise, to protect the Contractor's proprietary property with any third parties that are permitted access to the computer programs and documentation in connection with the user ordering activity's permitted use of the computer programs and documentation. For purposes of this section, all such permitted third parties shall be deemed agents of the user ordering activity.

(3) Except as is provided in paragraph 8.b(2) above, the ordering activity shall not provide or otherwise make available the software or documentation, or any portion thereof, in any form, to any third party without the prior written approval of the Contractor. Third parties do not include prime Contractors, subcontractors and agents of the ordering activity who have the ordering activity's permission to use the licensed software and documentation at the facility, and who have agreed to use the licensed software and documentation only in accordance with these restrictions. This provision does not limit the right of the ordering activity to use software, documentation, or information therein, which the ordering activity may already have or obtains without restrictions.

(4) The ordering activity shall have the right to use the computer software and documentation with the computer for which it is acquired at any other facility to which that computer may be transferred, or in cases of Disaster Recovery, the ordering activity has the right to transfer the software to another site if the ordering activity site for which it is acquired is deemed to be unsafe for ordering activity personnel; to use the computer software and documentation with a backup computer when the primary computer is inoperative; to copy computer programs for safekeeping (archives) or backup purposes; to transfer a copy of the software to another site for purposes of benchmarking new hardware and/or software; and to modify the software and documentation or combine it with other software, provided that the unmodified portions shall remain subject to these restrictions.

(5) "Commercial Computer Software" may be marked with the Contractor's standard commercial restricted rights legend, but the schedule contract and schedule pricelist, including this clause, "Utilization Limitations" are the only governing terms and conditions, and shall take precedence and supersede any different or additional terms and conditions included in the standard commercial legend.

10. SOFTWARE CONVERSIONS - (SIN 132-32 AND SIN 132-33)

Full monetary credit will be allowed to the ordering activity when conversion from one version of the software to another is made as the result of a change in operating system , or from one computer system to another. Under a perpetual license (132-33), the purchase price of the new software shall be reduced by the amount that was paid to purchase the earlier version. Under a term license (132-32), conversion credits which accrued while the earlier version was under a term license shall carry forward and remain available as conversion credits which may be applied towards the perpetual license price of the new version.

11. DESCRIPTIONS AND EQUIPMENT COMPATIBILITY

The Contractor shall include, in the schedule pricelist, a complete description of each software product and a list of equipment on which the software can be used. Also, included shall be a brief, introductory explanation of the modules and documentation which are offered.

12. RIGHT-TO-COPY PRICING

The Contractor shall insert the discounted pricing for right-to-copy licenses: **Not Applicable**

APPENDIX A

End User License Agreement

This End User License Agreement (this "Agreement"), dated as of this __ day of _____, _____ (the "Effective Date") is between **CBT Nuggets, LLC**, a Delaware limited liability company, ("CBT Nuggets"), with its principal office located at 1550 Valley River Drive, Eugene, OR 97401, and *[Contracting Party's Name]*, located at _____ (the "Customer") (individually the "Party" and collectively the "Parties").

RECITALS:

      A.   CBT Nuggets is engaged in the business of creating and selling information technology video training materials, including, but not limited to, streaming video materials (the "CBT Video Courses").
      B.   Specific to this Agreement, CBT Nuggets offers a streaming subscription to access the CBT Video Courses offered by CBT Nuggets through its website located at http://www.cbtnuggets.com (the "Website").
      C.   Customer desires to access the CBT Video Courses and, as applicable, to make the CBT Video Courses available to Customer's employees and contractors (individually "End User" and collectively the "End Users"), and CBT Nuggets desires to provide the same pursuant to the terms and subject to the conditions of this Agreement.

AGREEMENT:

The Parties agree as follows:

      1.   **Grant of License.**
      1.1   While Customer has an active subscription to access the CBT Video Courses through the Website, CBT Nuggets grants Customer revocable, non-transferrable, non-royalty bearing, non-assignable, non-exclusive, non-sublicensable license(s) to access, view and to use the CBT Video Courses. The license(s) is/are solely for use by Customer and its End Users.
      1.2   Customer and its End Users may not copy, reproduce, reverse engineer, translate, port, modify or make derivative works of the CBT Video Courses in whole or in part. Customer and its End Users may not rent, sell, assign, lease, sublicense, market, publish, display, distribute or transfer the CBT Video Courses in any manner not expressly authorized by this Agreement without the consent of CBT Nuggets. Customer shall communicate to all End Users the restrictions and limitations of the license as set forth in this Paragraph 1.
      1.3   Each license is a single user license and the single user license must be connected to a named user. The email address attached to license must be specifically associated solely with that individual End User. Each End User is expressly governed by the applicable terms of this Agreement.
      1.4   Upon Customer's discovery and/or the request of CBT Nuggets, Customer agrees to promptly remedy any violation of this Paragraph 1 and to provide CBT Nuggets with sufficient evidence that Customer and its End Users are in compliance with this Paragraph 1.
      1.5   CBT Nuggets reserves the right to suspend or revoke any End User's license to access the CBT Video Courses if it reasonably believes that the End User is in violation of Paragraphs 1 or 5 of this Agreement. CBT Nuggets shall notify Customer of any End User license suspension or revocation upon taking such action. When the End User is an instrumentality of the U.S., recourse against the United States for any alleged breach of this Agreement must be made as a dispute under the contract Disputes Clause (Contract Disputes Act). During any dispute under the Disputes Clause, CBT Nuggets shall proceed diligently with performance of this Agreement, pending final resolution of any request for relief, claim, appeal, or action arising under the Agreement, and comply with any decision of the Contracting Officer.

      2.   **Fees and Payment, Taxes.** Customer shall pay the subscription fees stated in the attached and incorporated purchase document detailing Customer's specific subscription information ("Order Form") in accordance with the number of End User licenses purchased. All fees are non-refundable other than as expressly provided in Paragraph 9.3 ("Term and Termination"). Fees shall be paid in United States dollars in accordance with the terms of the

underlying GSA Schedule Contract. CBT Nuggets shall state separately on invoices taxes excluded from the fees, and the Customer agrees either to pay the amount of the taxes (based on the current value of the equipment) to CBT Nuggets or provide evidence necessary to sustain an exemption, in accordance with FAR 52.229-1 and FAR 52.229-3.

3. **Limited Warranty.** Each Party warrants to the other Party that it has all necessary authority to enter into and perform its obligations under this Agreement. CBT Nuggets further warrants that: (i) any services provided under this Agreement and the Order Form (the "Services") will be performed in a professional manner in accordance with the prevailing industry standards; (ii) the Services will be performed substantially in accordance with any applicable CBT Nuggets documentation under normal use and circumstances; and (iii) the functionality and accessibility of the CBT Video Courses will not be materially decreased during the term of this Agreement. Customer's exclusive remedy for any breach of these warranties shall be to terminate this Agreement pursuant to Paragraph 9 herein.

4. **Disclaimer of Warranties.** Except as expressly provided in Paragraph 3 of this Agreement, the CBT Video Courses are provided to Customer on an "AS IS" and "WITH ALL FAULTS" basis. The CBT Video Courses are complex and may contain nonconformities, defects or errors. **CBT Nuggets does not warrant that the CBT Video Courses will be error free. CBT Nuggets does not make any warranty, express or implied, and hereby disclaims any and all warranties, including but not limited to, warranties of merchantability and fitness for a particular purpose.**

5. **Intellectual Property.** All right, title and interest in and to the CBT Video Courses and the related Services, and the content, materials, and data contained therein, including any applicable statutory or common law trademarks and/or copyrights, and any derivative works thereof is expressly reserved by CBT Nuggets. No portion of the CBT Video Courses may be copied, reproduced, distributed, displayed, transferred or assigned without the express written consent of CBT Nuggets.

6. **Indemnification.**

   6.1 **Defense or Settlement of Claims.** Subject to Paragraphs 6.2 and 6.3 below, CBT Nuggets shall hold harmless, indemnify and defend Customer to the extent permitted by 28 U.S.C. § 516, and its subsidiaries and affiliates, and their respective officers, directors, employees, contractors and agents, from and against any third party claim, suit or proceeding brought against Customer based on an allegation that the CBT Video Courses, or any part thereof, as properly accessed by Customer or its End Users pursuant to the terms of this Agreement, infringes upon any patent, copyright, or trademark rights of any third party ("Indemnifiable Claim"), provided that Customer promptly notifies CBT Nuggets, in writing, of its receipt of notification of an Indemnifiable Claim such that CBT Nuggets is not prejudiced by any delay of such notification and provides CBT Nuggets the opportunity to intervene in any Indemnifiable Claim through counsel of its choosing, at its own expense. CBT Nuggets shall pay reasonable attorney's fees, court costs, and damages finally awarded with respect to such Indemnifiable Claim and the reasonable costs associated with any settlement of any Indemnifiable Claim. CBT Nuggets will have control over the defense and any settlement of any Indemnifiable Claim to the extent permitted by 28 U.S.C. §516 and Customer will provide reasonable assistance in the defense of the same. CBT Nuggets will reimburse Customer for reasonable expenses incurred in providing such assistance. CBT Nuggets shall not enter into any settlement agreement which imposes any obligation on Customer without Customer's prior written consent, with said consent to not be unreasonably withheld. Customer may participate in the defense or settlement of an Indemnifiable Claim with counsel of its own choice and at its own expense, however, Customer shall not enter into any settlement agreement or otherwise settle any such Indemnifiable Claim without the express prior written consent or request of CBT Nuggets to the extent permitted by 28 U.S.C. §516.

   6.2 **Cures.** Following notice of an Indemnifiable Claim, and in the event an injunction is sought or obtained against use of the CBT Video Courses subscribed to hereunder or in CBT Nuggets' opinion is likely to be sought or obtained, CBT Nuggets shall, at its option and expense, either (i) procure for Customer the right to continue to use the CBT Video Courses as contemplated herein; or (ii) replace or modify the CBT Video Courses to make the use non-infringing while being capable of performing the same function without material degradation of performance. In the event the options set forth in subsections (i) and (ii) herein above are not reasonably available, CBT Nuggets may in its sole discretion, upon written notice to Customer, terminate this Agreement, cancel access to the CBT Video Courses and refund to Customer any prepaid, but unused Subscription Fee(s), if any.

6.3   Limitation. CBT Nuggets assumes no liability, and shall have no liability, for any Indemnifiable Claim based on (i) Customer or its End Users' access to and/or use of the CBT Video Courses after notice that Customer should cease use of the CBT Video Courses due to an Indemnifiable Claim; (ii) any unauthorized modification of the CBT Video Courses by Customer or its End Users or at Customer's direction; (iii) Customer or its End Users' unauthorized combination of the CBT Video Courses with third party programs, data, hardware, or other materials; or (iv) any trademark or copyright infringement involving any marking or branding not applied by CBT Nuggets or involving marking or branding applied at Customer's request.

7.   Limitation on Damages. UNDER NO CIRCUMSTANCES WILL EITHER PARTY BE LIABLE FOR ANY INDIRECT, INCIDENTAL, COMPENSATORY, CONSEQUENTIAL, SPECIAL OR EXEMPLARY DAMAGES (EVEN IF EITHER PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES), ARISING FROM ANY PROVISION OF THIS AGREEMENT, SUCH AS, BUT NOT LIMITED TO, LOSS OF REVENUE OR ANTICIPATED PROFITS OR LOST BUSINESS. THIS LIMITATION APPLIES TO ALL CAUSES OF ACTION IN THE AGGREGATE INCLUDING, WITHOUT LIMITATION, BREACH OF CONTRACT, BREACH OF WARRANTY, NEGLIGENCE, STRICT LIABILITY, MISREPRESENTATION, AND/OR OTHER TORTS. THE FOREGOING EXCLUSION/LIMITATION OF LIABILITY SHALL NOT APPLY TO (1) PERSONAL INJURY OR DEATH RESULTING FROM EITHER PARTY'S NEGLIGENCE, (2) FOR FRAUD, (3) FOR ANY MATTER WHICH LIABILITY CANNOT BE EXCLUDED BY LAW, OR (4) EXPRESS REMEDIES PROVIDED UNDER ANY FAR, GSAR OR SCHEDULE 70 SOLICITATION CLAUSES INCORPORATED INTO THE GSA SCHEDULE 70 CONTRACT.

8.   Limitation of Liability and Remedies. EXCEPT FOR (i) A PARTY'S INDEMNIFICATION OBLIGATION UNDER SECTION 6, OR (ii) BREACH BY CUSTOMER OF PARAGRAPHS 1.2 OR 5, NOTWITHSTANDING ANY DAMAGES THAT EITHER PARTY MIGHT INCUR FOR ANY REASON WHATSOEVER, THE ENTIRE AGGREGATE LIABILITY OF EITHER PARTY UNDER ANY PROVISION OF THIS AGREEMENT SHALL BE LIMITED TO THE ACTUAL AMOUNT PAID BY THE CUSTOMER DURING THE TWELVE (12) MONTHS IMMEDIATELY PRECEDING THE INCIDENT GIVING RISE TO THE LIABILITY. THE FOREGOING LIMITATIONS, EXCLUSIONS AND DISCLAIMERS SHALL APPLY TO THE MAXIMUM EXTENT PERMITTED BY APPLICABLE LAW, AND SHALL NOT LIMIT CUSTOMER'S OBLIGATIONS TO PAY ANY FEES UNDER THIS AGREEMENT. THE FOREGOING EXCLUSION/LIMITATION OF LIABILITY SHALL NOT APPLY TO (1) PERSONAL INJURY OR DEATH RESULTING FROM EITHER PARTY'S NEGLIGENCE; (2) FOR FRAUD; OR (3) FOR ANY OTHER MATTER FOR WHICH LIABILITY CANNOT BE EXCLUDED BY LAW.

9.   Term and Termination.

9.1   Term. The term of Customer's subscription period for accessing the CBT Video Courses and the related services shall commence on the Effective Date and shall continue for the duration stated on the Order Form. Unless the Parties otherwise agree in writing, through the execution of a renewal or extension of this Agreement ("Renewal Order Form"), once any applicable subscription period has concluded, the license(s) granted by this Agreement shall immediately terminate and Customer shall have no further right to access, review or use in any manner any CBT Nuggets content, including the CBT Video Courses.

9.2   Termination for Cause. When the End User is an instrumentality of the United States, recourse against the United States for any alleged breach of this Agreement must be made as a dispute under the Contract Disputes Act. During any dispute under the Disputes Clause, CBT Nuggets shall proceed diligently with performance of this Agreement, pending final resolution for relief, claim, appeal, or action arising under this Agreement, and comply with any decision of the Contracting Officer.

9.3   Effect of Termination of Services. Upon expiration of Customer's subscription authorized under the Order Form or, as applicable, the Renewal Order Form, Customer shall immediately discontinue all access and use of the CBT Video Courses. Neither party shall be liable for any damages resulting from a termination of this

Agreement in accordance with this Paragraph 9. In the event Customer terminates the Agreement for CBT Nuggets' material and uncured breach, provided that Customer allows CBT Nuggets no less than 30 days to cure any such breach, CBT Nuggets shall refund to Customer any prepaid, but unused Subscription Fees, if any, calculated on a straight-line prorated basis for the remainder of the then current subscription term. Those sections of this Agreement, which by their nature should survive, shall survive. Customer's obligation to pay outstanding undisputed subscription fees shall survive any termination of this Agreement.

        10.   **Governing Law and Venue.** In the event of any dispute or claim arising out of this Agreement, the governing law is United States Federal law, and venue is mandated by applicable United States Federal law.

        11.   **Miscellaneous Provisions.**

        11.1   **Notices.** Notices may be provided by either electronic or physical mail as provided in the Order From. If no email address is stated, then physical mail shall be the only method of providing notice. The person(s)/department(s) identified in the Order Form will receive notices on behalf of their respective Party. Each Party may change the person(s)/department(s) to which notices shall be sent by providing written notice to the other Party.

        11.2   **Assignment.** Neither Party may assign any part of this Agreement without the other Party's prior written consent, with said consent to not be unreasonably withheld.

        11.3   **Waiver.** Any provision or condition of this Agreement may be waived at any time, in writing, by the Party entitled to the benefit of such provision or condition. Waiver of any breach of any provision will not be a waiver of any succeeding breach of the provision or a waiver of the provision itself or any other provision.

        11.4   **Force Majeure.** Excusable delays are governed by FAR 52.212-4(f).

        11.5   **Severability.** If any provision of this Agreement is deemed to be invalid or unenforceable in any respect for any reason, the validity and enforceability of such provision in any other respect and of the remaining provisions of this Agreement will not be impaired in any way.

        11.6   **Entire Agreement.** This Agreement, including the Cover Page, Order Form(s), Renewal Order Form(s) and any applicable exhibits attached together with the underlying GSA Schedule Contract, the Schedule Price List and any applicable GSA Customer Purchase Orders hereto, sets forth the entire understanding of the Parties with respect to the subject matter hereof, and supersedes any and all prior negotiations, discussions, agreements, and understandings between the Parties. No other rights are granted hereunder except as expressly set forth in this Agreement.

        11.7   **Order of Precedence, Conflicting Terms.** In the event of any conflict between the terms contained in the Agreement and the Order Form, the terms of the Order Form shall take precedence.

        11.8   **Compliance with Laws.** Both Parties agree to comply with all applicable local, state, national and foreign laws, rules and regulations including, but not limited to, all applicable export and import laws and regulations, in connection with their performance, access and/or use of the CBT Video Courses under this Agreement to the extent permitted by Federal law and does not limit the sovereignty of the United States.

        11.9   **Counterparts.** This Agreement may be executed in two or more counterparts including by facsimile or email copy, each of which shall be deemed an original, but all of which shall constitute one and the same instrument. A Party's electronic signature shall be construed to be an original signature, and the document transmitted shall be considered to have the same binding legal effect as an original signature on an original document.
